B. Analysis of the level of public satisfaction towards the services of the Phuket Provincial Employment Office.

The analysis of the level of public satisfaction towards the services of the Phuket Provincial Employment Office in 7 areas. Details are shown as follows.

a. Process

People who used the service had an overall satisfaction in the process of the Phuket Employment Office at a high level (average = 4.18 and S.D. = 0.76). The service is on a first-come, first-served basis, the service duration is reasonable, the service is error-free and accurate, the service process is simple, the service process is reasonable and fast, and the amount. Staff who provide adequate services to service recipients. *b. Service outside office hours*.

People who used the service had an overall satisfaction in the service outside the office hours of

the Phuket Provincial Employment Office at a high level (average = 3.82 and SD = 0.92). Satisfaction was as follows. For service, recipients to be able to access and there is the staff working or serving during lunch break.

c. Personality aspects of personnel

People who used the service had an overall satisfaction with the personality of the personnel of the Phuket Provincial Employment Office. At the highest level (average = 4.27 and S.D. = 0.75), satisfaction was sorted as follows. Staff to provide services with equality Equal and fair, staff advising and caring users, enthusiastic and attentive service staff, efficient workforce, modest dress code, able to service and resolve any problems Knowledge can answer questions clearly, the staff speaks politely. And the staff gave a very friendly welcome.

d. Location and facilities

People who used the service had an overall satisfaction with the location and facilities of the Phuket Provincial Employment Office at a high level (average = 4.12 and S.D. = 0.76). The location of the office is suitable. It is convenient and quick to travel, providing all services nearby. For convenience and service is completed at one point, bathrooms are clean enough, the office is beautiful, clean, tidy, has a clear document transfer service point, a convenient and spacious building, has a location sign, and a service point. There are adequate seating areas for people waiting to receive services, amenities for guests such as drinking water, newspaper seats, television, and enough parking spaces for visitors to use.

e. Technology

People who used the service had an overall satisfaction with the technology of the Phuket Employment Office at a high level (average = 4.15 and S.D. = 0.78). There is an official website providing information, a web page on Facebook that provides news information that has an application with easy access to official information and There is modern service equipment.

f. Economic

People who used the service had an overall economic satisfaction of the Phuket Provincial Employment Office at a high level (average = 4.02 and S.D. = 0.78). Get a new job that pays off on demand, and Receiving unemployment compensation while looking for a new job.

g. The result of receiving services

People who used the service had an overall satisfaction in terms of the results of receiving the services of the Phuket Employment Office at a high level (average = 4.20 and S.D. = 0.71). Service overview, quick response/response to requests, transparent and fair service, receiving value-added service and beneficial, service expectation, continuous service until mission completion, convenient and fast in receiving service, and service that meets the needs and correctness.

In conclusion, it was found that the level of public satisfaction towards the services of the Phuket Provincial Employment Office. Overall, the overall level of satisfaction was at a high level (average = 4.11 and S.D. = 0.78). At the highest level. The other side at the high level.

VI. SUMMARIZE THE RESEARCH RESULTS, DISCUSS THE RESULTS

A. Process aspect People who used the service had a level of satisfaction with the service of the Phuket Provincial Office. Very level the average of the aforementioned aspect was 4.18, when sorted in order of satisfaction, it was found that the people had the highest level of satisfaction in the first 3 levels, which was the service that was in the first - after order. Length of service and the service was error-free and correct, respectively, and the level of satisfaction with the lowest average of 3 was the number of staff who provided adequate services to clients the service process is reasonable and fast and the process of receiving the service is easy and simple. It may be because the Phuket Provincial Employment Office has many people who use the service. Which makes the service staff not thorough and not enough for the people who use the service and this resulted in a delay in the service process as well.

B. In the field of service outside office hours, People who used the service had a level of satisfaction with the service of the Phuket Provincial Office. Very level The average in the aforementioned aspects was 3.82, which, in order of satisfaction, showed that having Job Fair activities accessible to service clients. It is something that people give a higher level of satisfaction than service during lunch break. It could be that the Phuket Employment Office has organized Job Fair events in places that the public can access, such as the Job Fair events held at universities. Most of the people using the service have an education level. Or currently studying at the bachelor's degree level.

C. Personality aspects of personnel People who used the service had a level of satisfaction with the service of the Phuket Provincial Office. At the highest level, the average of the above level was 4.27, which, in order of satisfaction, found that the population had the highest level of satisfaction in the top 3, namely, service staff with equality. Equal and fair, not discriminating the staff provide advice and care for the service users. And with enthusiasm, attentive, and willing service This may be because the employment office is a government organization. Therefore, there is strictness in serving the people Which is in line with the value of the recruitment office that STRONG

S = Service Mind: Service mind, focus on serving people of all ages who come to receive services.

T = Team Work: Working together as a team to achieve the goals of the organization.

R = Response: Respond to every mission quickly received.

O = Owner: Have a strong sense of ownership of the organization. And proud to be part of the organization N = Network: Build a network for internal and external integration.

G = Goal: To aim for the people. [9]

D. Location and facilities People who used the service had a level of satisfaction with the service of the Phuket Provincial Office. Very level the average in the aforementioned aspects was 4.12, which, in order of satisfaction, found that the population had the highest level of satisfaction in the top 3, which was the location of the office with a suitable location. It is convenient and quick to travel, toilets are clean enough and all services are nearby. For convenience and service is completed at one point, probably because the office location is far from downtown. And not many traffic jams There is also a housekeeping staff on duty all the time for convenience. And providing services that are convenient Able to use the service at only one service point. This makes the service simple and difficult so that the people are satisfied.

E. Technology People who used the service had a level of satisfaction with the service of the Phuket Provincial Office. Very level The average of the above level was 4.15, which, in order of satisfaction, found that the public had the highest satisfaction level in 2 items, namely the website of the recruitment office for information and the web page on Facebook that provided information. Which at present technology has advanced Moreover, most people can easily access information via the Internet. And more convenient Thus making the public the highest level of satisfaction in doing such work. Also, the Facebook page of the Phuket Employment Office is always moving.

F. In terms of economy, the people who used the service had a level of satisfaction with the service of the Phuket Provincial Office. Very level the average value of the aforementioned aspect was 4.02, which, in order of satisfaction, found that getting a new job with remuneration meets the needs It is something that people give a higher level of satisfaction than receiving unemployment compensation while looking for a new job. This may be because the Phuket Provincial Employment Office has access to all types of organizations. All forms of work Make people get new jobs as they expected.

G. The result of receiving services People who used the service had a level of satisfaction with the service of the Phuket Provincial Office. Very level the average value of the aforementioned aspects was 4.20, which, in order of satisfaction, found that the population had the highest level of satisfaction. Notifying/responding to service requests and the service is transparent and fair This work involves the staff in the Phuket Provincial Employment Office. This is linked to the personality of the personnel in which the employment office has focused on the work of the personnel to have the values of service mind.

CORPORATE VALUES	GUIDELINES FOR LEADING TO CORPORATE VALUES
S = SERVICE MIND Have service mind, focus on serving people of all ages who come to receive the service.	Staff serve people equally and fairly and work with enthusiasm, caring, and willingness.
T = TEAM WORK Working together as a team to achieve the goals of the organization.	Staff work systematically It is a step by step process. To suit and success in work.
R = RESPONSE Responds to every mission that is given quickly.	Work with enthusiasm and thoroughness.
O = OWNER Have a consciousness of ownership of the organization. And proud to be part of the organization.	Working with organization in mind Do not spoil the reputation of the organization by working properly and properly.

CORPORATE VALUES	GUIDELINES FOR LEADING TO CORPORATE VALUES
N = NETWORK Build networks for internal and external integration.	Perform tasks or missions with accuracy and suitability according to the procedures to build on a broader network.
G = GOAL For the purpose of the people.	Work by step and processes to achieve the needs of the people who receive services.

VII. SUGGESTION

A. Process There should be a division of staff to be evenly distributed with service visitors. To make the operation convenient and without delays or should recruit officers from the opening of recruiting officers or transfer staff from affiliated agencies, for example, from the nearby Provincial Employment Office to work in the Phuket Employment Office For efficient service and more thorough.

B. In terms of service outside office hours, it was found that the lowest average was the staff working or serving during the lunch break. It may be because the measure for the lunch break service of the Phuket Provincial Employment Office has recently been enforced. Causing the process to be inconsistent as it should be Therefore, appropriate service planning should be planned and will not cause any delay to the recipient.

C. Personality aspects of the personnel were found that the lowest average was that the staff were very welcoming it may be because the number of staff members is not enough Therefore causing the reception to not do well and not thoroughly Therefore, it is wise to recruit employees. Or relocate employees according to recommendation *A*.

D. In terms of location and facilities, it was found that the lowest average was that there was enough parking

space for visitors to use. Should allocate more parking space for serving guests.

E. In terms of technology, it was found that the lowest average was having modern service equipment. Should develop a service system to be more modern, such as the service through the website. To create convenience for the user.
