

บทความ Strict dissipativity synchronization for delayed static neural networks: An event-triggered scheme ถูกอ้างอิงใน วารสารที่อยู่ในฐานข้อมูลที่ กพอ ยอมรับ 1 ครั้ง (30 April 2022)

The screenshot shows a web browser window with the ResearchGate profile of Porpattama Hammachukiattikul. The browser's address bar displays the URL: <https://www.researchgate.net/profile/Porpattama-Hammachukiattikul/stats/citations/all>. The browser's tab bar includes several open tabs: Facebook, Porpattama Hammachukiattikul, ผลการค้นห - porpattama@pkru..., and Scopus preview - Scopus - Sourc. The browser's bookmark bar lists various academic and research-related sites, including Institute of Atmos..., Shallow Water Equa..., Guide for authors ..., Grid Extract, NCAR's RDA, Data Science and In..., ICET-2020, CFPs in Mathematic..., Bernoulli Center, and Are Bred Vectors Th....

The main content area of the browser displays the ResearchGate profile of Porpattama Hammachukiattikul. At the top, a green banner indicates "Your publication has 3 new citations". Below this, the title of the publication is displayed: "Strict dissipativity synchronization for delayed static neural networks: An event-triggered scheme". A quote from the publication is shown in a light blue box: "... where E is the identity matrix. Solving the above two matrix equations, we can obtain 20, 10, ...". Below the quote, the title of the publication is repeated: "Dynamic System Analysis of Investment in Both Production and R&D with Time Delay". The publication is labeled as an "Article" and "Full-text available", dated "Apr 2022". The author's name, "Debao Gao", is listed, along with a "View" link.

Below the first publication, another quote is shown in a light blue box: "... In this paper, asymptotic synchronization of MCGNNs is realized via ETC for the first time. Therefore, the obtained result can extend upon the existing results [24][25][26][27][28][43][44][45][46][47][48]. In future research, other types of MNN synchronization [49,50] via the ETC scheme will be considered to investigate. ...". Below the quote, the title of the publication is repeated: "Asymptotic Synchronization of Memristive Cohen-Grossberg Neural Networks with Time-Varying Delays via Event-Triggered Control Scheme". The publication is labeled as an "Article" and "Full-text available", dated "Apr 2022". The authors' names, "Wei Yao · Fei Yu · Jin Zhang · Ling Zhou", are listed, along with a "View" link.

The bottom of the browser window shows the Windows taskbar with various application icons, including the Start button, Search, File Explorer, Microsoft Edge, Word, and others. The system tray on the right shows the date and time: "7:20 PM 10/6/2022".

### Journal Impact Factor Calculation

$$\text{2019 Journal Impact Factor} = \frac{2,089}{863} = 2.421$$

How is Journal Impact Factor Calculated?

$$\text{JIF} = \frac{\text{Citations in 2019 to items published in 2017 (886) + 2018 (1,203)}}{\text{Number of citable items in 2017 (389) + 2018 (474)}} = \frac{2,089}{863}$$
