The screenshot shows a web browser window displaying the ResearchGate profile of Porpattama-Hammachukiattikul. The browser's address bar shows the URL: <https://www.researchgate.net/profile/Porpattama-Hammachukiattikul/stats/citations/all>. The page content includes:

- A citation entry for the article "with time delay" (Article, Nov 2022, FUZZY SET SYST) by Shuqing Gong, Zhenyuan Guo, and Shiping Wen, with a "View" link.
- A notification: "Your publication has 1 new citation".
- The title of the new citation: "Finite-time event-triggered approach for recurrent neural networks with leakage term and its application".
- A call to action: "Request the full-text from the authors who cited you to see how your work is being cited." with a "Request full-text" button.
- A citation entry for the article "Event-triggered stabilisation for stochastic delayed differential systems with exogenous disturbances" (Article, Nov 2022, J.FRANKLIN I) by Zhongyu Zhang, Linna Liu, Jianyin Fang, and Boyang Qu, with a "View" link.

At the bottom of the page, there is a footer with the text: "R<sup>6</sup> © 2008-2023 ResearchGate GmbH. All rights reserved." and navigation links for "About us", "News", "Careers", "Help Center", "Advertising", "Recruiting", "Terms", "Privacy", "Copyright", and "Imprint". There are also buttons for "Download on the App Store" and "GET IT ON Google Play".

The Windows taskbar at the bottom shows the system tray with a temperature of 29°C, a search bar, and various application icons. The system clock indicates the time is 11:03 PM on 4/19/2023.

## Abstract

In this paper, the practically input-to-state stabilization issue is considered for the stochastic delayed differential systems (SDDSs) with exogenous disturbances. To reduce
