Title : MYSTERLOUS POWER FROM NATURE NO.06

Artwork Size : 150x250 cm

Technique : Painting Digital Art

Brief description of your work : I have created works Mysterious power from Nature aimed at revealing the mysterious power from nature from the experience with the beauty of nature coordinated in the balance way. This is the origin of the inspiration in creating artwork, expressing contents showing the beauty of nature with the multitude of mysterious power from nature, focusing on the expression from the emotion with slow motion to the intense emotion to search for balance between the abstract emotion and feeling and the tangible fact. These are linked completely it themselves; they are the feelings inside. Here I would like to express art rather the revelation of outer rules and reason. Besides, it led to the creation of classic painting in the future
