Abstract

This paper focuses on exploring the effects of storytelling on EFL young learners' vocabulary knowledge and their learning motivation. The study participants comprised 40 fifth-grade students at a primary school under Bangkok Metropolitan Administration (BMA), in Bangkok, Thailand, who were recruited to participate in the study by means of a purposive sampling method. Three research instruments consisted of storybooks, a vocabulary knowledge test, and the Attitude/Motivation Test Battery. Ten storybooks were used as a treatment via the storytelling technique given to the participants. A vocabulary knowledge test was utilized to measure the participants' vocabulary knowledge, and the Attitude/Motivation Test Battery was employed to reveal the participants' attitude/motivation after learning through the technique. A t-test was used to analyze the data gained before and after the participants received the treatment. The findings significantly show the impacts of the storytelling method on both students' English vocabulary knowledge and learning motivation. The results obtained will be a guideline for language teachers at a primary level on how storytelling can be integrated into an English language class of EFL young learners to boost the students' language progress.

Keywords: Storytelling, Vocabulary Knowledge, Motivation, EFL Young Learners, Bangkok Metropolitan Administration (BMA)

Introduction

Storytelling refers to a process which helps the narrator convey his or her content to the audience by using both linguistic and imagery means (McDrury & Alterio, 2003). Storytelling has been known as one of the most traditional forms of communication, and it has been used in several domains such as in the field of entertainment, culture, and education (Lucarevschi, 2016). In the realm of language teaching, at various educational levels, including a primary level, storytelling can be considered as an academic tool to bring about learners' language improvement (Isbell et

al., 2004) in many aspects such as reading abilities and vocabulary knowledge. Besides its pedagogical implications, storytelling can be counted as a motivation instrument to encourage learners' academic motivation in the participation in their language learning process.

Several scholars state that storytelling is a technique which helps expand language learners' vocabulary knowledge. That is, the method gives learners an opportunity to acquire and practice innovative words while they are listening to the stories (Stachurska, 2013). According to Mart (2012), learners' listening combined with the narrator and the learners' physical activities occurring in the storytelling activity can cause learners' inspiration in learning new vocabulary. Apart from that, learners' feelings and emotion stimulated when they are listening to the story have a strong impact on the process of their vocabulary learning (Eck, 2006). That is why language learners can broaden their lexicon through the storytelling method.

Such an influence of storytelling on young learners' vocabulary knowledge can be seen in related previous literature. For instance, Trostle and Hicks (1998) found that the 7–11-year-old students in the experimental group learning through the storytelling method had significantly higher scores on measures of story comprehension and vocabulary than those in the control group. In the same way, the findings are in line with those gained from a study undertaken by Özdemir (2015) in primary school in Türkiye. To be specific, the 8th-grade students in the experimental group learning through the storytelling technique achieved significantly higher scores in the immediate recall, the recognition tests, and the delayed-recall than those in the control group learning those same words through the current implemented English curriculum. Similarly, findings from a research study conducted by Huang (2006) show that the storytelling method could enhance Taiwanese sixth grade students' word recall and reading comprehension.

In addition to its impact on vocabulary knowledge, researchers discovered an effect of storytelling on primary school students' motivation. To illustrate, listening directs learners' attention via fun activities and formal learning (Shin & Crandall, 2014). This leads to learners' understanding and engagement in the message delivered. Also, as Wajnryb (2003) elaborated, the message and its meaning conveyed through the storytelling technique are a powerful tool to help involve language learners in the language learning process, and this eventually helps enhance the abilities of learners in that foreign language.

Literature in the past reveals the importance of storytelling in increasing language learners' motivation, one of the key psychological constructs in English instruction, referring to a factor that makes learners willingly allocate their time to a certain academic task (Filgona et al., 2020) which involves both subjective expectations as well

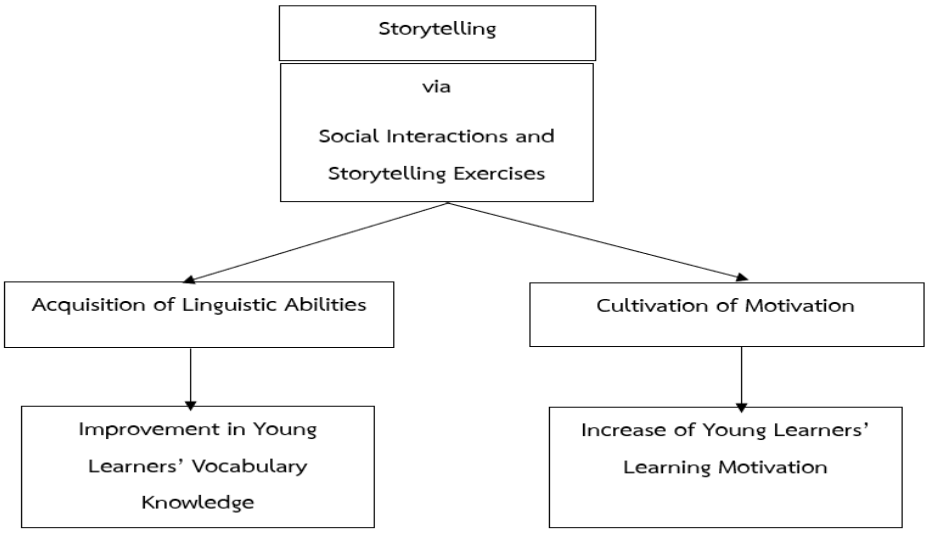
as incentive values (anticipated consequences such as reactions of significant others, and interest in activity) (Schrader & Helmke, 2015). Liu et al. (2018) found that the digital storytelling method could boost Taiwanese sixth-grade students' motivation, particularly their extrinsic goal orientation and elaboration. Based on what Alemi et al. (2022) discovered, an impact of digital storytelling on young EFL learners' motivation can be clearly seen. To sum up, the literature review mentioned above helps demonstrate how the storytelling method plays an important part in increasing young learners' learning motivation in a foreign language setting.

Owing to the benefits of storytelling, the technique has been applied in English language classes for various groups of students, including young learners who have coped with challenges in learning English vocabulary as can be seen in several research studies. For instance, Rosyada and Apoko (2023) found that Indonesean young learners encountered difficulties within learning English vocabulary in terms of the pronunciation of new vocabulary, accurate spelling, usage of word meanings, and retention or memorization of innovative words. Similarly, Surmanov and Azimova (2020) revealed that young learners in Uzbekistan faced problems in learning vocabulary. The challenges were pronouncing words, different grammatical forms of innovative words, selecting proper meaning of words, using words in different contexts, and understanding words which are idiomatic.

Despite the empirical evidence on the role of storytelling in young learners' vocabulary knowledge as well as on their learning motivation, findings from research studies on the effects of the approach on both two mentioned factors can be rarely seen. To help shed some light on it, the present study was undertaken to find out whether the storytelling technique could develop vocabulary knowledge and learning motivation of young learners at a primary level in Thailand.

Objectives

1. To examine the effect of storytelling on vocabulary knowledge of EFL young learners at a primary school under Bangkok Metropolitan Administration (BMA).
2. To explore the effect of storytelling on learning motivation of EFL young learners at a primary school under Bangkok Metropolitan Administration (BMA).



Hypotheses

H1: The post-test meant score of vocabulary knowledge of EFL young learners at a primary school under Bangkok Metropolitan Administration (BMA) was higher than the pre-test mean score of vocabulary knowledge of EFL young learners at a primary school under Bangkok Metropolitan Administration (BMA).

H2: The post-test mean score of learning motivation of EFL young learners at a

primary school under Bangkok Metropolitan Administration (BMA) was higher than the pre-test mean score of learning motivation of EFL young learners at a primary school under Bangkok Metropolitan Administration (BMA).

Concept theory framework

The figure shows the concept theory framework of the study. That is, the storytelling method, which was implemented via social interactions between the narrator of the story (the teacher) and the actor in the roleplay (the students) as well as the audience (the students), was the highlight of the present study. Based on the theories/principles on acquisition of linguistic abilities and cultivation of motivation, the students' vocabulary knowledge and learning motivation were anticipated to significantly increase after the students had learned through the ten lessons.

Methodology

This study was an experimental study which was implemented in a Thai context. It aims to investigate the effects of storytelling on EFL young learners' vocabulary knowledge and learning motivation.

Participants

This research was conducted among 40 fifth-grade students at a primary school in Bangkok, Thailand. The group of participants was an intact group of the study, and it was obtained to participate in this research by using a purposive sampling method. The participants contained both male and female students, and they were at the age ranging from 10 to 11 years old. Their proficiency of English language could be considered as that of a beginners' level.

Instrumentation

Three instruments were used to gain data, namely, stories, a vocabulary knowledge test, and the Attitude/Motivation Test Battery (AMTB).

The first research instrument was ten storybooks which were selected based on the level of the students' English language proficiency, and the themes of the stories chosen were like those of the units included in their course book. Specifically, the themes of the stories concerned general themes such as colors, fruits, food, animals, and hobbies.

The second tool was a vocabulary knowledge test containing 30 items. It was developed by researchers and used as both a pre- and a post-test to assess the participants' vocabulary knowledge which they learned from the ten storybooks.

The third instrument was a questionnaire called the Attitude/Motivation Test Battery (AMTB) that was employed to measure the primary motivational level of the learners. The original version of AMTB was created by Gardner (1958) and revised by Gardner and Lambert (1972) later. The questionnaire was adapted to suit the age of the participants and the context of study. The modified version comprised 39 items which consist of five content areas: 'Interest in Foreign Languages' (9 items), 'Attitudes toward learning English' (10), 'English Class Anxiety' (5 items), 'Motivational Intensity' (9 items), and 'Desire to Learn English' (6 items).

Data Collection and Data Analysis

The data were collected in the second semester of Academic Year 2022. As for the storytelling lesson, each of the ten stories, which was used in the ten-week treatment, was read by the teacher, who was one of the researchers, and then the meanings of the new vocabulary chosen were taught. After that, some grammatical points are explained in the context of the story. The students received subsequent practice to ensure the students' thorough understanding toward the key vocabulary. Next, the story was narrated by the teacher while the students were acting out the story. During this step, comprehension questions were asked to confirm the students' understanding of the story. In the last step, the students were asked to collaborate with their partner to retell the story to the whole class. Besides, a vocabulary knowledge test and the AMTB in a hardcopy version were distributed to the students before and after learning through the lessons to measure their vocabulary knowledge and learning motivation. Descriptive statistics, namely, mean score and standard deviation, were used to show available information in the dataset (Bobbit, 2023) and to portray how far from the mean score the average participant is (Andrade, 2020), respectively. Also, inferential statistics, a t-test, was employed to reveal whether there was an effect of the storytelling technique on the participants' vocabulary knowledge and learning motivation.

Results

Table 1: Pre- and post-test of a vocabulary knowledge test

	Mean (n = 40)	*SD*	*Mean Differences*	*t*	*df*	*Sig (2-tailed)*
Pre-test	16	4.3677	8	0.0592	39	.005**
Post-test	24	2.7872				

***p < 0.05*

Table 1 shows the students' pre-, and post-test mean score for the vocabulary test before and after the treatment. The post-test mean score (X = 24) was higher than the pre-test means score (X = 18) with the statistical significance (t (39) = 0.0592 p < 0.05). Besides, the standard deviation of the pre-test mean score was 4.3677, and that of the post-test mean score was 2.7872. This suggests that there was a smaller dispersion of the scores around the mean in a distribution after learning through the treatment. Consequently, it can be said that the storytelling method influenced the students' vocabulary knowledge.

Table 2: Pre- and post-test of an AMTB

	Mean (n = 40)	*SD*	*Mean Differences*	*t*	*df*	*Sig (2-tailed)*
Pre-test	25	0.6824	11	0.1052	39	.005**
Post-test	36	0.4938				

***p < 0.05*

According to Table 2, the students' mean score for the AMTB before and after learning through the lesson. The mean score of the students' learning motivation after the treatment (X = 36) was significantly higher than the mean score of the students' learning motivation before the treatment (X = 25) with the statistical significance (t (39) = 0.1052 p < 0.05). Apart from that, the standard deviation of the pre-test mean score of the participants' learning motivation was 0.6824, and that of the post-test mean score of the participants' learning motivation was 0.4938. This shows a smaller dispersion of the scores around the mean in a distribution of the students' learning motivation after learning through the treatment. Hence, the storytelling method had an impact on the students' learning motivation.

Conclusions and Discussion

Conclusions

The current research places an emphasis on examining the impacts of storytelling on EFL young learners' vocabulary knowledge and learning motivation. With evident statistical proof, it was confirmed that storytelling had an influence on the participants' vocabulary knowledge and learning motivation. This helps demonstrate the role of the storytelling method on young learners' cognitive and affective advancement in the field English language teaching. The findings can shed some light on the application of the technique in an English language classroom, which is beneficial for English language teachers and course developers in other educational contexts.

Discussion and Implications of the Study

Discussion of the Study

First, based on the findings from the present research, storytelling influenced EFL young learners' vocabulary knowledge. This indicates an influence of the storytelling method on young learners' English vocabulary knowledge, and it in accordance with what a number of scholars have stated. To be precise, Mart (2021) explains that storytelling activities can cause learners' inspiration in learning new vocabulary while they are listening to the story and experiencing their own physical activities such as acting out. Moreover, the method can strengthen learners' process of their vocabulary learning (Eck, 2006). The finding gained corresponds with that found from other research studies. Trostle and Hicks (1998) revealed that the 7–11-year-old students in the experimental group learning through storytelling achieved significantly better scores in story comprehension and vocabulary when compared with students in the control group. Similarly, Özdemir (2015) asserted that the 8th-grade students in the experimental group learning through the storytelling method attained significantly higher scores in the three vocabulary tests, namely, the immediate recall, the recognition tests, and the delayed-recall, than the students in the control group learning the similar words through the normal English curriculum. The findings of the studies mentioned above are consistent with that disclosed from another research. Huang (2006) discovered that storytelling could enhance Taiwanese sixth grade students' word recall as well as their reading comprehension.

Besides, another finding from the current study shows that storytelling influenced EFL young learners' learning motivation. This could be explained by the importance of storytelling on English learning motivation. Simply put, listening to a story can attract direct learners' attention by means of fun activities (Shin & Crandall, 2014). Such an experience can bring about learners' understanding and involvement in the message conveyed. Thus, the message students gained from listening to the story can be an

influential tool which assists them to be equipped with foreign language success. The findings from this research are in line with that could be seen from other related studies. For example, according to Liu et al. (2018), the digital storytelling method could increase Taiwanese sixth-grade students' motivation, especially, their extrinsic goal orientation and elaboration. Alemi et al. (2022) also reported on the influence of digital storytelling on young learners' motivation in an EFL setting.

With respect to the two main findings of this study, the storytelling method is advantageous in enhancing vocabulary knowledge and their learning motivation of young English language learners. In so doing, the storytelling technique can be used as a basis to develop a story-based lesson or course. Yet, to be successful in implementing it, teachers and course developers are supposed to take an account on selecting stories that are of student's interest and suit their age as well as their English language proficiency. If not, storytelling cannot make any change in terms of learners' vocabulary knowledge and their learning motivation (Safdarian & Ghyasi, 2013). Furthermore, teachers should be trained in how to use a story in a classroom. Since making storytelling interesting in class involves several factors such as how to organize ideas and how to use their pitch and tone, it is vital for teachers to bear such elements in mind while designing a storytelling lesson and applying it in class.

Implications of the Study

Because this research is limited to exploring the effect of storytelling on young learners' vocabulary knowledge. Further research is recommended to be conducted among participants at other educational levels, such as those at secondary school or college. Also, it is suggested to investigate such an effect on other dependent cognitive variables such as grammatical knowledge or oral communication skills of young learners. In addition, due to the limitation of the study, which was a one-group pretest-posttest design, further research may adopt a two-group experimental design which comprises one experimental group and one control group.

A Correlational-Comparative Study of Teachers' Perceptions of Administrative Support and Job Satisfaction According to Their Tenure: A Case Study of Two Private High Schools in Maharaungmyae Township of Mandalay, Myanmar

Aung Kyaw Zawl[1*]

[1]Graduate student, Department of Education, Faculty of Human Science, Assumption University of Thailand.

[*]**Corresponding author, E-mail:** firminaungkyawzawl@gmail.com

Abstract

This study examines the relationship between teachers' perceptions of administrative support and job satisfaction, focusing on tenure in two private high schools in Maharaungmyae Township, Mandalay, Myanmar. Grounded in Methner's (2013) framework on administrative support and Herzberg's (1959) Two-Factor Theory, the study employs Methner's Administrative Support Survey (MASS) and items developed by Anderson (2017) based on Herzberg's theory. A total of 138 teachers participated, divided into two tenure groups: fewer than five years and more than five years of experience. Findings show that while both groups perceived elevated levels of administrative support, early-career teachers (1–5 years) reported slightly higher support ($M = 3.97$, $SD = 0.55$) than their experienced counterparts (6+ years: $M = 3.91$, $SD = 0.54$). However, teachers with over five years of experience exhibited significantly greater job satisfaction. A strong positive correlation emerged between administrative support and job satisfaction (1–5 years: $r = 0.671$, $p < 0.001$; 6+ years: $r = 0.733$, $p < 0.001$), reinforcing administrative support as a key driver of teacher satisfaction, regardless of tenure. These findings underscore the need for differentiated support strategies: mentorship and professional development for early-career teachers, and recognition, autonomy, and leadership opportunities for experienced educators.

Keywords: Teachers, Administrative Support, Job Satisfaction, Tenure

Introduction

Teachers have a key role in education by sharing knowledge, encouraging critical thinking, and helping students reach their potential. It is essential to understand the several factors that affect teachers in their work. Teacher tenure, job satisfaction, and administrative support are key factors that influence the quality of education (Smith, 2024).

Teacher job satisfaction refers to teachers' attitudes, feelings, and perceptions about their work. It is a key part of the education system because it affects motivation, commitment, and well-being, which impacts the quality of education (Huang et al., 2020). Teacher job satisfaction is influenced by factors such as tenure and administrative support, which affect the overall learning environment (Huang et al., 2018). Teachers who are satisfied and feel supported are more likely to stay motivated and deliver effective education.

Research shows that job satisfaction among teachers differs across countries and regions. In developed countries, teachers often report high job satisfaction due to positive relationships with students, a sense of purpose, and classroom autonomy (Skaalvik & Skaalvik, 2017). In developing countries, factors such as low pay, large class sizes, and insufficient resources often lower teachers' job satisfaction (Crossman & Harris, 2006).

Administrative support refers to the help teachers receive from school administrators, such as principals and vice principals. This support may include professional development, mentoring, communication, and assistance with resources and workload (Grissom, 2011). Other forms of support include teamwork, emotional encouragement, and collaboration. A study by Toropova et al. (2021) found that school conditions, including student discipline, teacher cooperation, and manageable workloads, are linked to higher teacher job satisfaction. Teachers with administrative support are often more effective and satisfied in their roles (Eisenman, 2019).

Teacher tenure usually refers to job security and protection from arbitrary dismissal for experienced teachers (Hassel et al., 2011). Tenure provides stability and allows teachers to focus on their teaching without fear of losing their job (Hanushek et al., 2004). For this study, tenure refers to the number of years teachers have worked in selected schools, without including job security or dismissal protection.

The study suggested that teachers with more tenure may feel more satisfied due to increased confidence, mastery of skills, and a sense of achievement (Klassen & Chiu, 2010). However, the study showed that teachers with many years of experience might face burnout or reduced satisfaction if they lack professional development or face challenges like policy changes or shifting student enrollment (Skaalvik & Skaalvik, 2011).

Teacher job satisfaction in Myanmar is influenced by many factors. Research shows that teachers in developing countries, including Myanmar, often experience similar factors of satisfaction and dissatisfaction. According to Sahito and Vaisanen (2019), satisfaction is linked to aspects like socio-economic conditions, fair salaries, promotion opportunities, positive work environments, and support from the community and colleagues. Dissatisfaction, however, is often caused by poor management, lack of trust, non-transparent systems, work-life imbalance, insufficient resources, and political interference.

In recent years, job satisfaction among teachers in Myanmar has been a concern. Studies suggest that teachers in Myanmar report low levels of satisfaction due to external factors. Teachers have been influenced and impacted by the political climate, affecting the education system and teacher satisfaction (San, 2021). Aung (2021) and Lay (2020) noted a negative correlation between job performance and job satisfaction among Myanmar teachers. Experienced teachers often leave the profession due to low satisfaction, limited career advancement, and poor working conditions. Soe et al. (2023) found that longer-serving teachers in Myanmar are more likely to experience dissatisfaction and leave their roles. This creates challenges for the education sector, especially as Myanmar struggles with limited funding, outdated curricula, and insufficient teacher professional development (Thein & Beach, 2018). By exploring the factors influencing teacher job satisfaction, the research seeks to provide insights that can inform strategies and policies to improve education in Myanmar.

Objectives

The following research objectives form the basis of this study:

1. To find the level of teachers' perceptions of administrative support according to their tenure at the two private high schools in Maharaungmyae township of Mandalay, Myanmar.
2. To find the level of teachers' perceptions of job satisfaction according to their tenure at the two private high schools in Maharaungmyae township of Mandalay, Myanmar.
3. To determine whether there is a significant relationship between teachers' perceptions of administrative support and job satisfaction, according to their tenure at the two private high schools in Maharaungmyae township of Mandalay, Myanmar.
4. To determine whether there is a significant difference between teachers' perceptions of administrative support according to their tenure at the two private high schools in Maharaungmyae township of Mandalay, Myanmar.
5. To determine whether there is a significant difference between teachers' perceptions of job satisfaction, according to their tenure at the two private high schools in Maharaungmyae township of Mandalay, Myanmar.

Research Hypotheses

The hypotheses for this study are:

1. There is a meaningful relationship between teachers' perceptions of administrative support and their job satisfaction according to their tenure at

the two private high schools in Maharaungmyae township of Mandalay, Myanmar, at a significant level of .05.

2. There is a significant difference between teachers' perceptions of administrative support according to their tenure at the two private high schools in Maharaungmyae township of Mandalay, Myanmar, at a significance level of .05.
3. There is a significant difference between teachers' perceptions of job satisfaction, according to their tenure at the two private high schools in Maharaungmyae township of Mandalay, Myanmar, at a significance level of .05.

Theoretical Framework

This study uses Methner's (2013) framework to define and measure Administrative Support. To collect data, it utilized Methner's Administrative Support Survey (MASS). For the variable of Job Satisfaction, the study adopted Herzberg's (1959) Two-Factor Theory as a guiding framework. The following sections explain these theories in detail.

Administrative Support (Methner, 2013)

Methner (2013) emphasized the importance of the relationship between teachers and principals, which he identified as a key factor in effective leadership. This relationship, called administrative support, is linked to positive outcomes for both the school and its students. Methner described administrative support as the assistance principals provide to teachers, both formally and informally, to help them improve their teaching and learning practices. Methner outlined five dimensions of administrative support: Instructional Improvement, Feedback, Discourse, Reflection and Growth, and Anxiety.

1. Instructional Improvement

This refers to how school administrators help teachers improve classroom instruction. Administrators play a crucial role in evaluating the resources and strategies provided to enhance teaching and learning (Cherasaro et al., 2015). Administrators aim to identify areas for improvement and adjust tools, materials, and approaches to create a better learning environment (Cherasaro et al., 2015).

2. Feedback

Feedback refers to communication between administrators and teachers after observing classroom activities or reviewing student performance data. According to Brookhart (2017), this process includes constructive advice to improve instructional methods and classroom management. Feedback plays a critical role in

promoting teacher growth by fostering meaningful discussions about teaching practices and encouraging reflective learning. By offering specific, actionable recommendations, administrators can help teachers refine their techniques and enhance the overall quality of education (Brookhart, 2017).

3. Discourse

Discourse focuses on the quality of discussions between administrators and teachers about teaching and learning. Methner (2013) highlights that these conversations often focus on educational concepts and strategies, encouraging collaboration and the exchange of ideas. These discussions help teachers and administrators develop a shared understanding of educational goals (Methner, 2013).

4. Reflection and Growth

This dimension looks at how administrators encourage teachers to reflect on their practices and pursue professional development. According to Rushing (2022) Support from administrators may include providing resources, training, and mentorship to promote self-assessment and continuous improvement. By promoting reflective practices, administrators help teachers identify strengths and areas for growth, creating a culture of lifelong learning and professional enhancement (Rushing, 2022).

5. Anxiety

This dimension addresses the stress or uneasiness teachers may feel in their relationship with administrators. Shai Fuxman (2024) emphasizes that addressing these anxieties involves creating an environment that encourages open dialogue and collaboration. Identifying and alleviating concerns helps to foster trust and improve communication between teachers and administrators. A supportive environment can help improve teacher-administrator relationships and enhance communication (Shai Fuxman, 2024).

The Two-factor Theory (Hertzberg, 1959)

The Two-Factor Theory, also called the Motivation-Hygiene Theory, was first introduced by Hertzberg, Mausner, and Snyderman in 1959 in their book The Motivation to Work. Hertzberg later expanded the work in 1966 in Work and the Nature of Man. This theory is considered important for understanding job satisfaction. The information in this section is based on Alshmemri et al. (2017) since the original text by Hertzberg is no longer available.

The main idea of the Two-Factor Theory is that job satisfaction and dissatisfaction come from two different types of factors: motivation factors and hygiene factors. Motivation factors are intrinsic (related to the job itself), while hygiene factors are extrinsic (related to the work environment). Motivation

factors increase job satisfaction. If they are absent, it does not cause dissatisfaction, but the job lacks satisfaction. Hygiene factors reduce dissatisfaction. However, improving them does not necessarily create job satisfaction.

1. Motivation Factors

Motivation factors are intrinsic factors related to the job itself. These factors lead to job satisfaction and motivation when present but do not cause dissatisfaction if absent (Herzberg, 1959). They are directly tied to an employee's sense of achievement and fulfillment in their work. According to Herzberg's (1959) theory, Motivation Factors include the following aspects:

1.1 Achievement

This refers to completing a perplexing task or solving a problem. When employees see the positive results of their work, they feel a sense of achievement (Hackman & Oldham, 1976). Negative achievement occurs when they do not make progress, which can reduce motivation and satisfaction (Herzberg et al., 1959).

1.2 Recognition

This refers to the recognition employees receive when they are praised or rewarded for accomplishing work or goals (Herzberg, 1966; Saari & Judge, 2004). Recognition enhances motivation by reinforcing employees' value within the organization (Wang et al., 2020).

1.3 Tasks

This refers to the nature of job tasks and how they impact employee satisfaction. Boring or excessively difficult tasks can reduce motivation; while engaging and meaningful work enhances job satisfaction (Crossman & Harris, 2006). Jobs that allow creativity and autonomy tend to be more fulfilling (Hackman & Oldham, 1976).

1.4 Responsibility

Responsibility refers to both job responsibility and authority. Employees who are given more control over their work and decision-making experience higher satisfaction (Herzberg et al., 1959; Vroom, 1964). This responsibility fosters a sense of ownership and accountability, leading to increased motivation (Lunenburg & Ornstein, 2000).

1.5 Advancement

Advancement refers to career progression and opportunities for promotion (Maslow, 1943; Weiss et al., 1967). Employees with clear paths for growth and professional development are more likely to feel motivated and satisfied in their roles (Gagné & Deci, 2005).

2. Hygiene Factors

Hygiene factors are extrinsic factors related to the job environment and

conditions. These factors do not lead to job satisfaction when present, but their absence causes dissatisfaction (Herzberg, 1959). Hygiene factors are necessary to prevent dissatisfaction, but they do not actively improve motivation or satisfaction.

2.1 Policies and Administration

Organizational policies, communication structures, and administrative practices affect how employees perceive their work environment (Herzberg, 1959; Maslow, 1943). Clear, fair, and transparent policies enhance satisfaction, while bureaucratic or inconsistent policies lead to frustration (Skaalvik & Skaalvik, 2011).

2.2 Manager Relations

The competence and fairness of supervisors, including their ability to delegate, teach, and guide employees, play a crucial role in job satisfaction (Herzberg et al., 1959). Positive supervision enhances motivation, while poor leadership contributes to dissatisfaction (Vroom, 1964).

2.3 Working Conditions

The physical work environment, including factors like space, safety, tools, ventilation, and temperature, significantly affects job satisfaction (Hackman & Oldham, 1976). Poor working conditions can lead to stress and dissatisfaction, even if other job aspects are positive (Skaalvik & Skaalvik, 2017).

2.4 Salary

Salary refers to compensation, including wages, bonuses, and benefits, which is a fundamental hygiene factor (Herzberg et al., 1959). Fair and competitive pay prevents dissatisfaction but does not necessarily increase job satisfaction beyond a certain point (Saari & Judge, 2004).

2.5 Interpersonal Relations

Relationships with supervisors, colleagues, and subordinates play a key role in workplace satisfaction (Herzberg, 1966; Wang et al., 2020). Positive social interactions at work contribute to a supportive environment and overall job satisfaction.

2.6 Job Security

Job security refers to the assurance that an employee will not face unexpected job loss. Stability in employment fosters trust and reduces anxiety, which is essential for maintaining satisfaction (Herzberg et al., 1959). Conversely, uncertainty about job stability can lead to significant dissatisfaction (Skaalvik & Skaalvik, 2011).

Concept theory framework

This study examines the relationship between teachers' perceptions of administrative support, job satisfaction, and their tenure. Tenure is treated as an independent variable, while administrative support and job satisfaction are the dependent variables. Figure 1 shows the conceptual framework of the study.

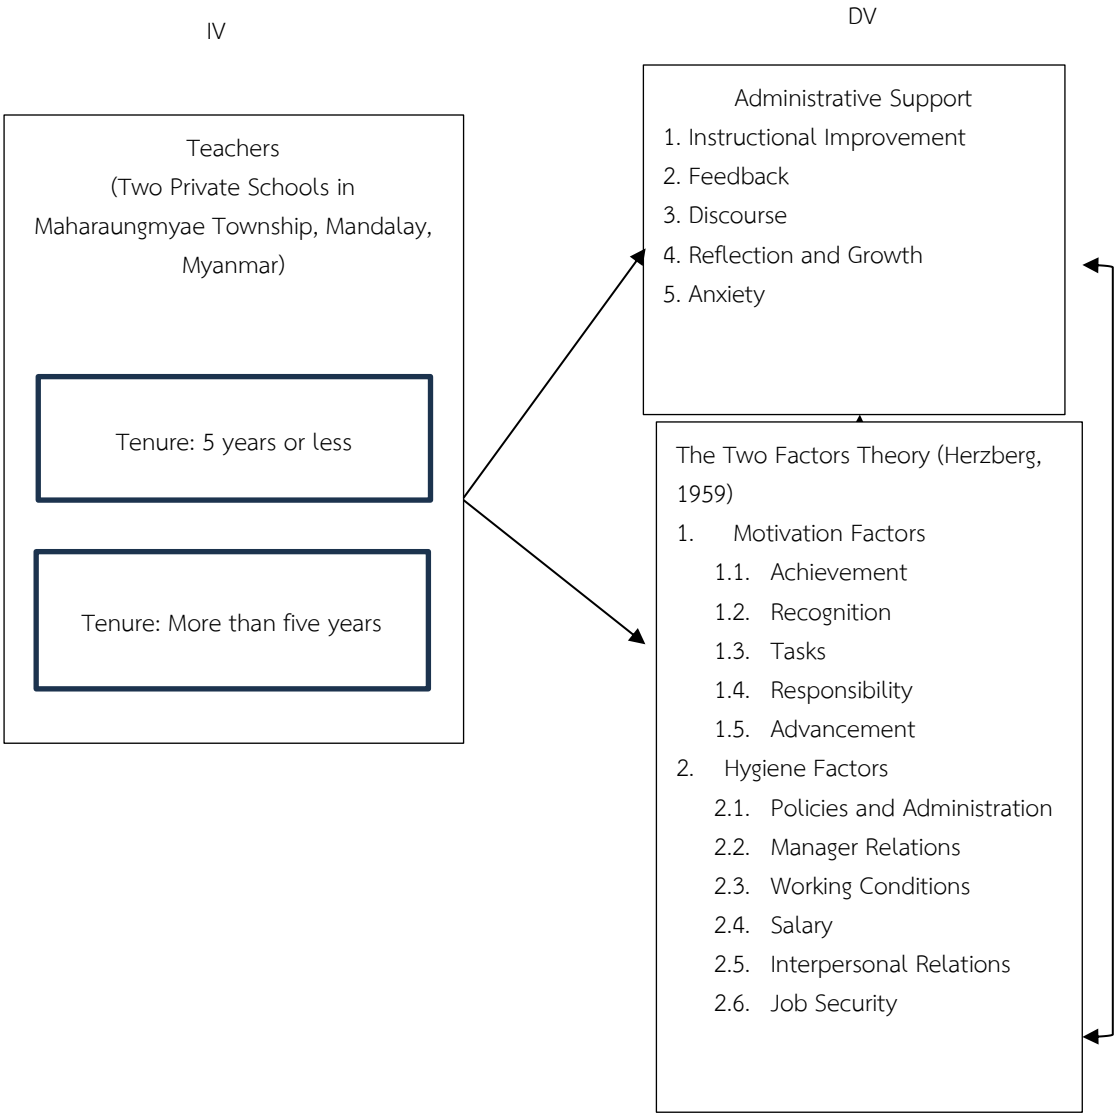

Figure 1: Conceptual Framework of the Study

Materials and Methods

This research aimed to investigate the relationship between teachers' perceptions of administrative support and their levels of job satisfaction, with the influence of their tenure in two private high schools in Maharaungmyae Township, Mandalay, Myanmar. The study was a quantitative correlational comparative research study. Specifically, it used data analysis of using the mean score and the standard deviation, the Pearson correlation

coefficient (r) as the statistical method. The Pearson correlation coefficient measured the strength and direction of the linear relationship between two variables, in this case, teachers' perceptions of administrative support and job satisfaction, with the influence of their tenure. A survey instrument was utilized to collect data.

Population and Sample

This study utilized total population sampling, a purposive sampling technique that uses the entire population meeting certain criteria. The total population was 138 teachers who worked at the two target schools. They included kindergarten to grade 12 teachers working in the 2023-2024 academic year.

Research Instrument

The survey was comprised of items from Methner's Administrative Support Survey (MASS) and items related to Hertzberg's Two-factor Theory. The questions for job satisfaction were adapted from Anderson's (2017) interview questions on assessing job satisfaction based on Herzberg's Two-factor Theory. Response criteria for the items in the questionnaire were selected on a 5-level Likert-type scale. The survey was translated from English into the Myanmar language. A back-translation from the Myanmar version into English was done to confirm the translation's accuracy.

Validity and Reliability for Administrative Support

Methner (2013) Administrative Support Survey (MASS) has been used in other studies with similar contexts, such as the research by Phyu and Banks (2018), which reported that the survey has content validity. Since their study was conducted in Myanmar and in a similar context, it supports the idea that the content of the MASS is relevant and applicable. Other studies, like those by Chen (2019) and Lay and Ye (2022), have also used the MASS successfully.

For this study, Cronbach's Alpha was used to determine the internal consistency of the items in the questionnaire. According to Taber (2017), alpha scores of .70 or higher are generally considered good. The MASS was reported to have a Cronbach's Alpha score of .89. Therefore, the reliability of the original instrument items is confirmed. Table 1 shows the reliability scores from previous studies.

Table 1: Alpha Coefficients of Five Domains (Administrative Support)

Description	Researcher	Cronbach's Alpha
Administrative Support	Methner (2013)	.89
	Phyu (2016)	.86
	Chen (2019)	.86
	Current Study	.93

Validity and Reliability for Job Satisfaction

For the questions related to job satisfaction, the researcher adapted original interview questions from Anderson (2017), which were based on Herzberg's Two-factor Theory. This adaptation was necessary to convert the open-ended interview format into Likert-type items, allowing for a more structured and quantifiable assessment of teachers' job satisfaction. The validity of the instrument was assessed using the Item Objective Congruence (IOC) index, which measures how well each question aligns with the study's objectives. Three experts reviewed the items, and those with an IOC score of 0.67 or higher were accepted, ensuring strong content validity (Tavakol & Dennick, 2011). Most items received a perfect score of 1.00, indicating an important level of expert agreement that the questions effectively measure job satisfaction, motivator factors, and hygiene factors. One item, which scored 0.33, was rejected, demonstrating a rigorous validation process that ensures the accuracy and relevance of the questionnaire. Therefore, it was decided to remove this item from the final. There are 13 items as an adapted version of Anderson's (2017) questionnaire, which is based on Herzberg's Two-Factor Theory to find out the level of Job Satisfaction.

Results

The findings indicated that teachers across both tenure groups perceive administrative support positively. Teachers with 1–5 years of experience rated their overall administrative support with a high mean score of 3.97 (SD = 0.55), particularly appreciating Instructional Improvement (M = 4.13) and Feedback (M = 4.05). Teachers with more than five years of experience also reported strong perceptions of administrative support, with a slightly lower overall mean score of 3.91 (SD = 0.54). This group similarly valued Instructional Improvement (M = 4.12) and Feedback (M = 4.05). While the overall ratings were slightly higher among teachers with less experience, the results demonstrate that both groups generally find the support provided by their school leaders to be strong and effective. Tables 2 and 3 summarize these findings.

Table 2: Teachers' Perceptions of Administrative Support for Teachers with less than five years of Tenure (N=64)

Sub-category	M	SD	Interpretation
Instructional Improvement	4.13	.54	High
Feedback	4.05	.59	High
Discourse	3.98	.74	High
Reflection and Growth	4.05	.60	High
Anxiety	3.65	.63	High
Overall Administrative Support	**3.97**	**.55**	**High**

Table 3: Teachers' Perceptions of Administrative Support for Teachers with 6 Year and Above of Tenure (N=74)

Sub-category	M	SD	Interpretation
Instructional Improvement	4.12	.62	High
Feedback	4.05	.61	High
Discourse	3.91	.72	High
Reflection and Growth	3.90	.55	High
Anxiety	3.56	.58	High
Overall Administrative Support	**3.91**	**.54**	**High**

Job satisfaction was rated highly by both groups of teachers but showed a notable increase with tenure. Teachers with 1–5 years of experience gave their overall job satisfaction a mean score of 4.02 (SD = 0.63), with General Satisfaction (M = 4.13) and Hygiene Factors (M = 3.99) receiving particularly high ratings. Teachers with more than five years of experience reported a higher mean score for overall job satisfaction at 4.29 (SD = 0.46). This group gave the highest rating to General Satisfaction (M = 4.49), followed by Hygiene Factors (M = 4.20). These findings suggest that job satisfaction tends to grow as teachers gain more experience in their roles. Tables 4 and 5 show these results.

Table 4: Teachers' Perceptions of Job Satisfaction for Teachers with less than five years of Tenure (N=64)

Sub-category	M	SD	Interpretation
General Satisfaction	4.13	.76	High
Motivator Factors	3.93	.62	High
Hygiene Factors	3.99	.71	High
Overall, Job Satisfaction	**4.02**	**.63**	**High**

Table 5: Teachers' Perceptions of Job Satisfaction for Teachers with 6 Years and Above of Tenure (N=74)

Sub-category	M	SD	Interpretation
General Satisfaction	4.49	.58	High
Motivator Factors	4.18	.50	High
Hygiene Factors	4.20	.51	High
Overall, Job Satisfaction	**4.29**	**.46**	**High**

Correlation analysis revealed a significant positive relationship between perceptions of administrative support and job satisfaction for both tenure groups. For teachers with 1–5 years of experience, the correlation was strong ($r(62) = .671$, $p < .001$), indicating that newer teachers rely heavily on administrative support to feel satisfied and secure in their jobs. For teachers with more than five years of experience, the correlation was slightly stronger ($r(72) = .733$, $p < .001$), highlighting the ongoing importance of administrative support in maintaining job satisfaction among experienced teachers. These results emphasize the critical role of administrative support in fostering job satisfaction across all levels of experience. Table 6 shows these results.

Table 6: Multiple Correlation Between Teachers' Perceptions of Administrative Support and Job Satisfaction by Their Tenure

Tenure			TAS	TJS
1-5 year	TAS	Pearson Correlation	_	_
		Sig. (2-tailed)	_	_
		N	64	_
	TJS	Pearson Correlation	.671**	_
		Sig. (2-tailed)	.000	_
		N	64	64
6 and above year	TAS	Pearson Correlation	_	_
		Sig. (2-tailed)	_	_
		N	74	_
	TJS	Pearson Correlation	.733**	_
		Sig. (2-tailed)	.000	_
		N	74	74

**. Correlation is significant at the 0.01 level (2-tailed).
TAS refers to Teachers' Perception of Job Satisfaction According to Their Tenure.
TJS refers to Teachers' Perception of Job Satisfaction According to Their Tenure.

An independent samples t-test was used to compare perceptions of administrative support and job satisfaction between the two groups. While the analysis showed no significant difference in perceptions of administrative support between the two groups ($M = 3.97$, $SD = 0.55$ for 1–5 years; $M = 3.91$, $SD = 0.54$ for more than five years; $t(136) = 0.64$, $p = .526$, Cohen's $d = 0.11$), job satisfaction did show a significant difference. Teachers with more than five years of experience had a higher mean score for job satisfaction ($M = 4.30$, $SD = 0.46$) compared to those with 1–5 years of experience ($M = 4.02$, $SD = 0.63$), with the

difference being statistically significant (t (136) = -2.95, p = .004, Cohen's d = 0.50). This medium-sized size indicates a noticeable increase in job satisfaction for more experienced teachers. See Table 7.

Table 7: Comparison of Teachers' Perception of Administrative Support by Tenure (=138)

Tenure	N	M	SD	SE	t	df	p	Mean Difference	95% CI for Mean Difference	Cohen's d
1-5 years	64	3.97	0.55	0.069	0.64	136	.526	0.059	(-0.13, 0.24)	0.11
6 and above years	74	3.91	0.54	0.063						

Note: N = number of participants; M= Mean; SD = Standard Deviation; SE = standard error of the mean; CI – confidence interval

An independent samples T-test was also conducted to examine whether teachers' perceptions of job satisfaction varied significantly according to their tenure. This statistical test was used to compare the means of two separate groups to determine if there is a significant difference between them. The analysis included two tenure groups: those with less than five years and those with more than five years of experience. The descriptive statistics revealed that teachers with less than five years of experience had a mean score of M = 4.02, SD = 0.63, whereas teachers with 6 and above years of experience had a higher mean score of M = 4.30, SD = 0.46. The independent samples t-test indicated that this difference was statistically significant, t (136) = -2.95, p = .004, Cohen's d = 0.50. Cohen's d is a statistical measure used to describe the strength or magnitude of the difference between the two groups' means. According to interpretation thresholds, the effect size (Cohen's d = 0.50) obtained indicated a medium effect. This means that the difference in the two groups is noticeable, but not large and could possibly be observable between the two groups, who are somewhat different but still share the same perceptions. Table 8 shows these results.

Table 8: Comparison of Teachers' Perception of Job Satisfaction by Tenure (N=138)

Tenure	N	M	SD	SE	t	df	p	Mean Difference	95% CI for Mean Difference	Cohen's d
1-5 years	64	4.02	0.63	0.078	-2.95	136	.004	0.059	(-0.46, -0.09)	0.50
6 and above years	74	4.30	0.46	0.054						

Note: N = number of participants; M= Mean; SD = Standard Deviation; SE = standard error of the mean; CI – confidence interval

In summary, teachers across both tenure groups perceive administrative support positively, with no significant differences based on experience. However, job satisfaction is significantly higher among teachers with longer tenure, suggesting that experience contributes to greater fulfillment and stability in their roles. The strong positive relationship between administrative support and job satisfaction further highlights the importance of effective and supportive administration in fostering a positive working environment for teachers.

Conclusions and Discussion

Positive Perceptions of Administrative Support

The findings revealed that teachers with less than five years of tenure and those with more than five years of tenure had similar positive perceptions of administrative support. Both groups reported feeling well-supported by the administration, suggesting that the schools have effective administrative practices that provide for the needs of all teachers, regardless of their level of experience. Both groups benefit from equitable administrative practices, such as professional development opportunities, mentoring, and consistent communication, which ensure that teachers, whether new or experienced, feel valued and supported. This indicates that the administration at these schools provides a uniform level of support, fostering a sense of inclusivity and equal treatment for all teachers. These results align with Methner's (2013) framework, which emphasizes the importance of administrative practices such as feedback, reflection, and growth in fostering a supportive teaching environment.

The findings suggest several important points for school leaders. Less-tenured teachers rely heavily on support but also teachers with more tenure like instructional

improvement and feedback, so providing clear guidance, regular feedback, and mentorship programs is essential to help them feel confident and capable in their roles (Callahan, 2016). For teachers with more tenure, maintaining dedicated support in these areas is equally important to keep them motivated and satisfied. Giving them opportunities to mentor less-tenured teachers or take on leadership roles could also help them feel valued and foster their professional growth (Beutel & Spooner-Lane, (2009). The results also align with Distributed Leadership Theory, which suggests that shared leadership responsibilities between administrators and teachers create a more inclusive and engaging work environment (Donley, Detrich, States, & Keyworth, 2020).

The consistent positive ratings across both groups highlight the importance of reliable and effective leadership practices. School administrators should ensure that support systems are well-organized and meet the needs of teachers at all experience levels. This can also improve teacher retention by creating a supportive work environment where all teachers feel appreciated and encouraged. This is especially true in the context of Myanmar where teachers often feel that they are not supported, especially in areas of professional development by their institutions (Borg et al., 2018; Nyunt & Ye, 2019).
Since both teachers with less and more tenure value similar types of support, schools can promote collaboration by encouraging teachers to share their experiences and strategies. This could strengthen the teaching community and create a more positive work atmosphere for everyone. Overall, these findings show that strong administrative support plays a key role in improving teacher satisfaction and performance.

Positive Perceptions of Job Satisfaction

Job satisfaction was also rated highly by both groups, with teachers with more tenure reporting greater overall satisfaction. Teachers with less tenure felt satisfied with general aspects of their jobs, including basic working conditions and professional growth opportunities. However, teachers with longer tenure showed even higher levels of satisfaction, particularly in areas such as general job fulfillment and job stability. These results suggest that job satisfaction tends to increase with experience. This result supports Herzberg's (1959) Two-Factor Theory, which suggests that teachers with more tenure may derive greater satisfaction from intrinsic motivators such as achievement, recognition, and responsibility. In contrast, less-tenured teachers might still be navigating extrinsic challenges such as workload adjustment and role clarity, which could contribute to slightly lower satisfaction levels.

The findings suggest that schools should focus on supporting both teachers with less and more tenure to improve job satisfaction. Less-tenured teachers are happy with basic working conditions and opportunities for growth, so schools should continue to provide clear career pathways, training, and a supportive environment to help them

succeed early in their careers (Edinger & Edinger, 2018). For teachers with more tenure, higher satisfaction levels, especially with job stability and fulfillment, show that tenure brings a sense of security and contentment. Additionally, Maslow's Hierarchy of Needs Theory (1943) helps explain this trend, as teachers with more tenure are more likely to have fulfilled their basic and security needs, allowing them to focus on higher-level psychological and self-actualization needs, thereby enhancing their job satisfaction. However, the results also highlight the need for tailored interventions for early-career teachers to enhance their job satisfaction. Mentorship, targeted feedback, and opportunities for professional growth are critical strategies to address this gap. The schools can build on this by offering leadership roles, advanced training, and recognition to keep teachers with more tenure motivated (Hulpia et al., 2009).

Overall, the increase in satisfaction with experience highlights the importance of creating a positive work environment that evolves with teachers' needs over time. Schools can use these insights to develop policies and practices that support teachers at all stages of their careers, ensuring they stay engaged and committed to their roles. This approach can lead to a more satisfying and stable teaching workforce.

Positive Relationships Between Administrative Support and Job Satisfaction

The correlation analysis showed a strong positive relationship between perceptions of Administrative Support and Job Satisfaction for both groups. The findings show that administrative support is very important for teachers' job satisfaction, no matter how much experience they have. This result underscores the pivotal role of administrative support in shaping teachers' job satisfaction, as highlighted in the studies by Skaalvik and Skaalvik (2017) and Daly and Dee (2006). Teachers who perceive their administrators as supportive are more likely to feel valued, motivated, and engaged in their roles, leading to higher satisfaction levels.

Teachers shared personal insights into their experiences with administrative support. Many long-tenured teachers noted that consistent, constructive feedback from school leaders encouraged their professional growth and commitment to the institution. On the other hand, some early-career teachers felt that feedback was too general and lacked actionable steps, making it difficult for them to improve their performance. These real-world experiences highlight the importance of individualized support and tailored administrative strategies. This means schools should focus on giving them regular feedback, clear guidance, and helpful resources to make their early years easier and more positive.

For teachers with more tenure, administrative support is still important. Even though they are more confident in their roles, they value leadership that listens to them, supports their needs, and gives them chances to grow. Keeping strong support systems in place helps teachers with more tenure stay satisfied and committed to their work. Other

studies have also highlighted the importance of administrative support and teacher job satisfaction. (Kilag, et al, 2023; Tickle et al., 2011.

Perceptions of Job Satisfaction Between Tenure Groups

When comparing perceptions of administrative support between the two groups, no significant differences were found, indicating that both less tenured and teachers with more tenure feel similarly supported. However, Job Satisfaction differed between the groups, with teachers with more tenure reporting noticeably higher levels of satisfaction. This suggests that tenure plays a role in shaping overall job fulfillment and stability.
The findings suggest several important implications for schools. Since both groups feel similarly supported by administrative practices, it highlights the importance of maintaining consistent and effective leadership for all teachers, regardless of their experience. This consistency ensures that teachers feel equally valued and supported throughout their careers.

However, the noticeable difference in job satisfaction between the two groups suggests that tenure has a positive relationship with teachers' feelings of fulfillment and stability. Schools should recognize that as teachers gain more experience, their needs and expectations may shift. Providing opportunities for leadership, advanced training, and professional growth can help sustain and enhance satisfaction for teachers with more tenure (Torres, 2019).

For less-tenured teachers, efforts should focus on ensuring that administrative support continues to meet their needs while providing resources to help them grow into their roles. Addressing the evolving needs of both groups can create a more supportive and fulfilling environments for all teachers, improving retention and overall workplace morale (Dias-Lacy & Guirguis, 2017).

Study Limitations

While this study provides useful insights into how teachers feel about administrative support and job satisfaction, there are some limitations to consider.
First, the research was done in only two private high schools in Maharaungmyae Township, Mandalay, Myanmar. Because it focuses on a specific area and only private schools, the findings might not represent the experiences of teachers in other regions or in public schools. This means the results might not apply to all teachers across Myanmar.

Second, the number of teachers who took part was relatively small-138 in total. If the study included more schools and a wider range of teachers, the data might be stronger and could lead to different conclusions. The small sample size makes it harder to say that the findings are true for all teachers.

Third, the study used questionnaires where teachers reported their own feelings and opinions. This self-reported information can be influenced by personal biases or the desire to give answers that seem acceptable to others. Teachers might have given more positive responses because they were worried about privacy or negative consequences, which can affect how accurate the results are.

Fourth, the research was done at one point in time-it was a cross-sectional study. This means it doesn't show how teachers' perceptions might change over time or whether one thing causes another. Teachers' views on administrative support and job satisfaction might vary due to factors not captured in the study. A study that follows teachers over a longer period could give better insights into how these perceptions evolve.

Lastly, the study mainly looked at the relationship between administrative support, job satisfaction, and how long teachers have been teaching (tenure). It didn't consider other things that can affect job satisfaction, like salary, workload, class size, student behavior, or personal life situations. By not including these factors, the study might miss other important influences on how teachers feel about their jobs and the support they receive.

Recommendations

Based on the findings, several recommendations can improve teacher job satisfaction and administrative support in these schools. These include both policy and practical steps for teachers and administrators.

For school policies, the positive perceptions of administrative support suggest that current practices should continue. Schools should adopt policies ensuring consistent, fair support for all teachers and equal access to professional development, helping teachers stay updated on modern teaching methods. Formal mentorship programs can pair experienced teachers with newcomers, encouraging knowledge sharing (Callahan, 2016). Providing leadership opportunities, such as committee roles, keeps seasoned teachers motivated (Beutel & Spooner-Lane, 2009). Clear policies for regular communication ensure all teachers feel heard and valued.

Practically, administrators should offer regular feedback and constructive guidance, helping teachers identify strengths and areas for improvement (Ahea et al., 2016). Encouraging collaboration among teachers, through meetings or joint projects, builds a supportive community. Recognizing teachers' efforts and achievements can boost morale, while understanding that teachers' needs evolve with experience ensures ongoing support at every career stage.

Teachers can also play a role. They should engage in professional development and communicate their training needs to administrators. Schools should support teachers

who pursue further education. Mentorship programs foster professional growth and stronger staff relationships. Newer teachers should seek guidance from administrators and experienced colleagues, while veteran teachers can share expertise to benefit everyone. Staying involved in school activities can enhance a sense of belonging and fulfillment.

In conclusion, these recommendations build on existing strengths. By implementing supportive policies and practical measures, schools can enhance job satisfaction and cultivate a positive environment, ultimately improving student outcomes. Consistent support, professional growth opportunities, and recognition of teachers' changing needs lead to a more satisfied, stable teaching workforcec.

This study has some limitations. It focused on two private high schools in Maharaungmyae Township, Mandalay, Myanmar, so the findings may not represent other regions or public schools. The sample size was relatively small (138 teachers), limiting the generalizability of results. Data relied on self-reported questionnaires, which may be influenced by personal biases or privacy concerns. Because it was a cross-sectional study, it cannot show how perceptions change over time or indicate causality. Cultural factors unique to Myanmar may also have shaped responses, and the results may not transfer easily to other contexts. Additionally, the study did not consider factors like salary, workload, or student behavior, which can influence job satisfaction. More extensive research with larger samples, multiple school types, and additional variables is needed to gain a deeper understanding of teacher job satisfaction and administrative support.

A Correlational Study of Teacher Burnout, Job Satisfaction, and Organizational Commitment: A Case Study of Four Jesuit Institutes in Myanmar

Sut Ja Noi[1*]

[1]Graduate student, Department of Human Sciences, Faculty of Educational Administration and Leadership, Assumption University.

[*]**Corresponding author, E-mail:** margaretsutjanoi93@gmail.com

Abstract

This study examines the interrelationships among teacher burnout, job satisfaction, and organizational commitment, factors that significantly influence teaching quality and student learning outcomes. A better understanding of these dynamics can help reduce burnout and foster a more supportive work environment for educators. A correlational analysis was conducted with 102 teachers from four Jesuit institutes in Myanmar, utilizing the Maslach Burnout Inventory-Educator Survey (MBI-ES), the Job Satisfaction Survey (JSS), and the Organizational Commitment Questionnaire (OCQ). The MBI-ES measured teachers' stress levels, while the JSS identified factors affecting job satisfaction, distinguishing motivator factors (e.g., recognition, achievement) from hygiene factors (e.g., working conditions, salary). OCQ assessed organizational commitment, shedding light on why teachers remain in their institutions. Findings revealed slightly low burnout levels ($M = 3.28$, $SD = 0.74$), high job satisfaction ($M = 3.95$, $SD = 0.61$), and strong organizational commitment ($M = 3.58$, $SD = 0.60$). Correlation analysis indicated that burnout did not significantly relate to organizational commitment, suggesting that while burnout affects teacher well-being, it does not directly impact institutional loyalty. However, job satisfaction showed a strong positive correlation with organizational commitment ($r = .679$, $p < .001$), emphasizing its critical role in retaining educators. These results highlight the importance of addressing job satisfaction through effective policies, improving teacher retention and institutional stability.

Keywords: Teacher Burnout, Job Satisfaction, Organizational Commitment

Introduction

Teacher burnout, job satisfaction, and organizational commitment are important factors influencing the overall functioning of schools. Teaching is often a demanding and stressful profession, which can result in burnout and decreased teaching quality, harming students' learning outcomes (Madigan & Kim, 2021). Studies consistently find that

teaching is highly stressful (Greenier et al., 2021; Herman et al., 2020; Johnson et al., 2005). According to Skaalvik and Skaalvik (2017), teachers experiencing burnout frequently feel less competent, leading to reduced job satisfaction. Understanding the relationship between burnout and job satisfaction is essential for addressing factors that influence teachers' professional well-being (Rai, 2022).

Job satisfaction is vital for enhancing both teacher performance and school effectiveness (Suchyadi, 2018). Satisfied teachers often devote additional effort to improving their instruction, producing better student outcomes, and showing greater loyalty to their schools. Organizational commitment represents the strength of an employee's connection to their institution (Winarsih & Fariz, 2021; Gopinath, 2020). Research indicates a strong link between job satisfaction and organizational commitment (Gopinath, 2020; Günlü et al., 2010; Saridakis et al., 2020).

At four Jesuit Institutes in Myanmar, interviews with teachers have revealed serious concerns about conflicts between colleagues, lack of support from peers, poor communication among staff, and not enough teachers (personal communication, February 2024). These issues have led to many teachers leaving their jobs in recent years due to stress, heavy workloads, and dissatisfaction with their work environment. Given these challenges, it is essential to investigate the relationships between teacher burnout, job satisfaction, and organizational commitment to address retention concerns and improve the working environment in these organizations.

This study explores how teacher burnout and job satisfaction relate to organizational commitment, guided by the Multidimensional Theory of Burnout (Maslach & Jackson, 1998), Herzberg's Two-Factor Theory (1959), and the Three-Component Model of Commitment (Meyer & Allen, 1991). Maslach and Susan Jackson developed the Multidimensional Theory of Burnout in 1981, Maslach later expanded in 1998, which identifies three key dimensions of burnout: emotional exhaustion, depersonalization, and personal accomplishment (Maslach et al., 2001). Emotional exhaustion means feeling very tired and drained because of work demands, making it hard to handle stress and workload. Depersonalization means becoming detached from students and colleagues, losing the unique qualities that make interactions engaging (Maslach et al., 2001). Personal accomplishment, on the other hand, occurs when teachers feel effective and competent in their roles.

Herzberg's Two-Factor Theory was developed in 1959 and builds on concepts from Maslow's hierarchy of needs. It emphasizes understanding the factors that contribute to workplace satisfaction and dissatisfaction, offering a framework to improve employee motivation and overall job satisfaction (Nickerson, 2023). Herzberg categorized the factors influencing job satisfaction into two groups: Hygiene Factors (extrinsic) and

Motivator Factors (intrinsic). Hygiene Factors include external conditions such as salary, work environment, job security, and relationships with colleagues.

Meyer and Allen (1984) introduced two key dimensions of organizational commitment: affection and continuance. In 1990, Allen and Meyer expanded their model by adding a third dimension: normative commitment. Affective commitment refers to an employee's positive emotional attachment to their organization. Continuance commitment focuses on the practical considerations that compel employees to stay, such as the financial, social, or career costs they would face if they left. Normative commitment refers to an employee's sense of moral obligation to remain with the organization. Together, these three dimensions form what is known as the Three-Component Model of Organizational Commitment, which provides a comprehensive framework for understanding why employees remain with their organizations.

Focusing on Jesuit schools in Myanmar, this study examines the connections among these factors to better understand how teacher burnout, job satisfaction influence organizational commitment in this context.

Literature Review

Burnout

Burnout, first identified by Freudenberger in 1974 and later expanded by Maslach in 1976, is common in people-focused professions, including teaching (Maslach et al., 2001). Teachers frequently interact with students, parents, and colleagues, making them especially susceptible to stress and burnout (Hakanen et al., 2006). Burnout consists of emotional exhaustion, depersonalization, and reduced personal accomplishment. Teachers experiencing prolonged stress often lose enthusiasm for their work, diminishing both teaching quality and student engagement (Hoglund et al., 2015; Madigan & Kim, 2021; Thakur, 2013). Addressing the causes of burnout requires supportive policies and professional development opportunities that help foster a positive work environment.

Job Satisfaction

Teacher job satisfaction reflects the degree to which teachers feel personally and professionally fulfilled. It influences their teaching quality, longevity in the profession, and willingness to invest in their students (Bogler & Nir, 2012; Toropova et al., 2021). Schools that support teachers—through recognition, involvement in decision-making, and strong leadership—can enhance satisfaction (Taylor & Tashakkori, 1994; Yılmaz & Ceylan, 2011). Unsatisfied teachers may negatively affect student learning and classroom climate, while teacher turnover harms student-teacher relationships and educational continuity (Ronfeldt et al., 2013). Herzberg's Two-Factor Theory (1959) helps explain the

factors contributing to teacher job satisfaction, distinguishing between motivators (e.g., recognition, achievement) and hygiene factors (e.g., working conditions, pay).

Organizational Commitment

Organizational commitment describes an employee's emotional attachment to and identification with their institution (Mathieu & Zajac, 1990). Highly committed teachers are more likely to stay, contribute positively to school culture, and enhance overall performance (Akiri & Ugborugbo, 2009). The Three-Component Model of Commitment (Allen & Meyer, 1991) includes effective, continuance, and normative dimensions, providing a comprehensive understanding of why employees remain. Research in Myanmar shows that teachers struggle with low job satisfaction, high burnout, and limited professional opportunities (Aung, 2021; Htway & Myo Thein, 2020; Lin & Tint, 2021). Few studies have examined these issues in Jesuit schools, and this investigation aims to clarify the factors influencing teacher well-being and organizational commitment in this context.

Objectives

The following are the research objectives addressed by this study:

1. To determine the levels of teacher burnout at four Jesuit institutes in Myanmar.
2. To determine the levels of teachers' job satisfaction at four Jesuit institutes in Myanmar.
3. To determine the levels of teachers' organizational commitment at four Jesuit institutes in Myanmar.
4. To determine whether there is a sincere relationship between teacher burnout and job satisfaction and organizational commitment at four Jesuit institutes in Myanmar.

Hypothesis

There is a sincere relationship between teacher burnout and job satisfaction and organizational commitment at the four Jesuit institutes in Myanmar, at a significance level of .05.

Concept theory framework

This study examined the relationship between teacher burnout and job satisfaction, and organizational commitment at Jesuit Institutes in Myanmar. The theoretical framework for this study included three theories: the Multidimensional Theory of Burnout (Maslach & Jackson, 1998), Herzberg's Two-Factor Theory (1959), and the Three-Component Model of Commitment (Allen & Meyer, 1991).

The Multidimensional Theory of Burnout defines burnout as emotional exhaustion, depersonalization, and a sense of personal accomplishment, all of which can have a negative impact on teachers' motivation and engagement. Herzberg's Two-Factor Theory differentiates between motivators (like recognition and opportunities for professional growth) and hygiene factors (such as salary and working environments), both of which influence job satisfaction. Additionally, the Three-Component Model of Commitment defines effective, continuance, and normative commitment, explaining how teachers remain committed to their institutions.

The study investigated how burnout may result in decreased job satisfaction, which can weaken organizational commitment, while increased job satisfaction may enhance commitment, even in the face of burnout challenges. Figure 1 shows the conceptual framework of the study.

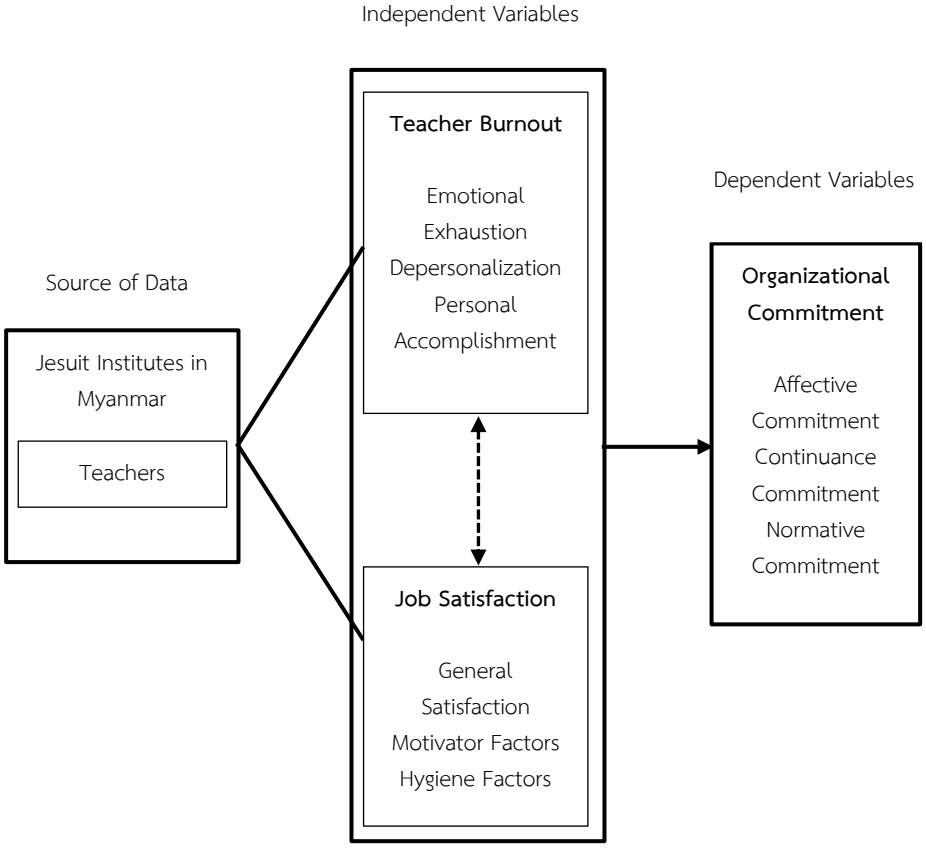

Figure 1: Conceptual Framework of the Study

Materials and Methods

This quantitative correlational study aimed to examine the relationships among teachers' burnout, job satisfaction, and organizational commitment at four Jesuit institutes in Myanmar. Data were collected using a survey that combined three

established instruments: the Maslach Burnout Inventory–Educator Survey (MBI-ES), the Job Satisfaction Survey (JSS), and the Organizational Commitment Questionnaire (OCQ).

The MBI-ES was employed to measure the level of teachers' job burnout, consisted of 22 items, and participants rated their level of agreement using a seven-point Likert scale ranging from 1 (I never thought of this) to 7 (I thought this every day). In this study, Cronbach's Alpha reliability coefficient of the MBI-ES was .77. For its constructs, the coefficients were .82 for emotional exhaustion, .71 for depersonalization, and .77 for personal accomplishment.

The JSS were adapted from a study by Andersson (2017), which employed open-ended qualitative questions to assess job satisfaction based on Herzberg's two-factor Theory. To convert the open-ended questions into Likert-type questions answerable on a scale, the researcher reworded the questions and validated them using the Item-Objective Congruence (IOC). Three experts were asked to validate that the revised questions were properly converted and retained the same meaning. After validation by the experts, two items (question 2 and question 3) among the 14 questions were removed due to a lack of unanimous agreement. Twelve items were rated from 1 (strongly disagree) to 5 (strongly agree). The Cronbach's Alpha reliability coefficient of the JSS for this study was .89. For its constructs, general satisfaction, motivator factors, and hygiene factors, the coefficients were .87, .82, and .84, respectively.

The OCQ was used to assess the level of teacher commitment, consisting of 18 items, and participants rated their level of agreement on a five-point scale ranging from 1 (strongly disagree) to 5 (strongly agree). The Cronbach's Alpha reliability coefficient of the OCQ for this study was .89. For its constructions, the coefficients were .91 for affective commitment, .70 for continuance commitment, and .82 for normative commitment.

Descriptive statistics (mean and standard deviation) measured the levels of burnout, job satisfaction, and organizational commitment. A multiple correlation coefficient analysis was then conducted to determine the relationships among these three variables. The study included the entire population of teachers from the four Jesuit institutes, using a total population sampling method. A total of 102 teachers (80 females and 22 males) participated as respondents.

Results

Research Objective One focused on measuring the level of teacher burnout. Emotional exhaustion had an overall mean score of 2.47 (SD = 1.03), interpreted as moderately low. Depersonalization had an overall mean score of 2.25 (SD = 1.14), also interpreted as moderately low. In contrast, personal accomplishment scored 4.84 (SD =

1.27), which was interpreted as slightly high. The overall burnout score was 3.28 (SD = 0.74), interpreted as slightly low. These findings suggest that while teachers experienced some emotional fatigue, they still maintained a positive sense of accomplishment in their work. Table 1 summarizes the overall means, standard deviations, and interpretations of burnout and its subscales according to teachers' responses from four Jesuit institutes in Myanmar.

Table 1: The Overall Means, Standard Deviations, and Interpretations for Level of Teachers' Burnout and Subscales at Four Jesuit Institutes in Myanmar (N = 102)

Burnout	M	SD	Interpretation
Emotional Exhaustion	2.47	1.03	Moderately low
Depersonalization	2.25	1.14	Moderately low
Personal Accomplishment	4.84	1.27	Slightly high
Overall (Burnout)	3.28	0.74	Slightly low

Research Objective Two explored teacher job satisfaction. General satisfaction had an overall mean score of 4.15 (SD = 0.84), interpreted as high. Motivator factors, such as recognition and meaningful work, had a mean score of 4.00 (SD = 0.66), also interpreted as high. Hygiene factors, including salary, working conditions, and job security, scored 3.89 (SD = 0.71), which was interpreted as high. The overall job satisfaction score was 3.95 (SD = 0.61), indicating that teachers felt satisfied with their jobs and their work environment. Table 2 summarizes the overall means, standard deviations, and interpretations of job satisfaction and its subscales according to teachers' responses of all institutes.

Table 2: The Overall Means, Standard Deviations, and Interpretations for Level of Teachers' Job Satisfaction and Subscales at Four Jesuit Institutes in Myanmar (N=102)

Job Satisfaction	M	SD	Interpretation
General Satisfaction	4.15	0.84	High
Motivator Factors	4.00	0.66	High
Hygiene Factors	3.89	0.71	High
Overall (Job satisfaction)	3.95	0.61	High

Research Objective Three assessed teacher organizational commitment. Affective commitment scored 3.91 (SD = 0.86), interpreted as high, while normative commitment scored 3.55 (SD = 0.73), also interpreted as high. Continuance commitment had a lower mean score of 3.28 (SD = 0.61), interpreted as moderate. The overall organizational commitment score was 3.58 (SD = 0.60), which was interpreted as high. These results reflect a strong emotional connection and sense of duty among teachers toward their

institutions, with practical considerations playing a moderate role. Table 3 summarizes the overall means, standard deviations, and interpretations of organizational commitment and its subscales according to teachers' responses from four Jesuit institutes in Myanmar.

Table 3: The Overall Means, Standard Deviations, and Interpretations for Level of Teachers' Organizational Commitment and Subscales (N=102)

Organizational Commitment	M	SD	Interpretation
Affective Commitment	3.91	0.86	High
Continuance Commitment	3.28	0.61	Moderate
Normative Commitment	3.55	0.73	High
Overall (Organizational commitment)	3.58	0.60	High

Research Objective Four examined the relationships between teacher burnout, job satisfaction, and organizational commitment. The analysis showed no significant correlation between teacher burnout and organizational commitment ($r = .069$, $p = .493$). However, a strong positive correlation was found between teacher job satisfaction and organizational commitment ($r = .679$, $p < .001$), highlighting job satisfaction as a key factor in fostering organizational commitment. Burnout was not significantly related to organizational commitment, making it unsuitable for further multiple correlation analysis. As shown in Table 4, an examination of the bivariate correlations among the variables in this study revealed that teacher burnout was not significantly correlated with organizational commitment ($r = .069$, $p = .493$). However, an examination of the research findings revealed that teacher job satisfaction correlated positively, significantly, and strongly with organizational commitment ($r = .679$, $p = <.001$), at a significant level of .05. According to Table 4, only one of the two independent variables (i.e., teacher job satisfaction) is significantly correlated with the dependent variable (i.e., organizational commitment). As a result, only one independent variable (i.e., teacher job satisfaction) cannot be considered for the calculation of further correlational analysis. Therefore, the hypothesis for this study is not supported.

Table 4: Bivariate Correlations Between Teacher Burnout, Job Satisfaction, and Organizational Commitment at the Target Four Jesuit Institutes in Myanmar

Variables	1	2	3
1. Teacher Burnout	_		
2. Teacher Job Satisfaction	-.004 (.965)	_	
3. Teacher Organizational Commitment	.069 (.493)	.679* (<.001)	_

Note. *Denotes a statistically significant relationship (statistical significance level set at p = .05, two-tailed). p-values appear within parentheses below the correlation coefficients.

The findings indicate that teacher burnout levels were low, while job satisfaction and organizational commitment were high at the target institutes. Teachers reported high satisfaction with their roles and a strong connection to their organizations, particularly through emotional and normative commitment. The significant correlation between job satisfaction and organizational commitment emphasizes the importance of maintaining supportive and fulfilling work environments. However, there was a lack of correlation between burnout and job satisfaction.

Conclusions and Discussion

Teachers' Perceptions of Burnout

Moderate-to-low emotional exhaustion and depersonalization, combined with slightly high personal accomplishment, suggest that teachers face manageable stress. This indicates a supportive environment where teachers are not severely strained, reflecting effective institutional strategies to mitigate burnout. Safari (2020) found that higher job satisfaction—stemming from fair pay, good conditions, promotions, professional growth, and supervision—reduces burnout. Similarly, Oginyi et al. (2018) reported that low job stress, normal work engagement, and supportive conditions positively influence satisfaction.

Slightly high personal accomplishment enhances motivation, job satisfaction, and engagement, benefiting classroom performance and student outcomes. Madigan and Kim (2021) noted that lower burnout correlates with better academic achievement and motivation. Teachers with reduced emotional exhaustion and depersonalization can better connect with students, manage challenges, and foster a positive learning environment. This, in turn, improves student performance and teacher retention.

Despite these favorable findings, the presence of moderate stress in some teachers calls for ongoing support. Providing mental health resources, peer support, and

reasonable workloads can help maintain low burnout. Fabelico and Afalla (2020) stressed that fostering personal accomplishment can further reduce burnout.

Overall, Jesuit institutions create a supportive environment that keeps burnout low and well-being high. Continuous efforts to address teachers' emotional and professional needs will help maintain these positive results.

Teachers' Perceptions of Job Satisfaction

High overall job satisfaction, including both motivators (recognition, meaningful work) and hygiene factors (salary, conditions, security), suggests that teachers find their roles fulfilling and well-supported. This encourages greater commitment, engagement, and performance. Bha and Ye (2020) observed equivalent results in Myanmar's monastic schools. Baroudi et al. (2022) also found that extrinsic factors strongly influence satisfaction in less developed contexts.

Such positive conditions help retain teachers and ensure stable, effective instruction that benefits students. Institutions should continue offering professional development, recognizing achievements, and maintaining favorable conditions. Regular satisfaction assessments can identify emerging issues and enable timely responses.

In short, high job satisfaction reflects a supportive work environment that promotes teacher well-being, motivation, and performance, strengthening the educational community.

Teachers' Perceptions of Organizational Commitment

High effective and normative commitment, along with moderate continuance commitment, suggests that teachers remain for emotional and ethical reasons rather than necessity. This commitment fosters positive classroom climates, student outcomes, and collaborative school cultures. Tschannen-Moran and Barr (2004) confirmed that emotionally engaged teachers create supportive learning environments. Similarly, Cho and Kwan (2012) found that shared faith and values enhance teachers' intrinsic motivation, loyalty, and identification with their school.

The strong link between job satisfaction and organizational commitment shows the need to maintain supportive and fulfilling work environments to retain and motivate teachers. This finding highlights the importance of job satisfaction in fostering strong organizational commitment among teachers. Bashir and Gani (2020) found that university teachers in Northern India showed stronger commitment to their institutions when they were more satisfied with their jobs, indicating a significant positive relationship. However, the absence of a strong relationship between burnout and organizational commitment implies that even stressed teachers remain loyal due to emotional bonds or ethical considerations. Alignment with Jesuit values may contribute to this sustained dedication.

Overall, these results highlight a positive organizational culture in which teachers' engagement and commitment support institutional effectiveness and student success.

Recommendations

The following recommendations are made for teachers and school administrators. Recommendations are also made at the policy level for school systems and governments to encourage a focus on teacher well-being.

The study found that teachers did not have important levels of burnout and felt happy and connected to their schools. Nonetheless, practical actions and clear policies are important to keep these positive feelings. For example, teachers can learn to manage stress, practice mindfulness, and join professional development programs to feel more confident and relaxed at work (Leiter & Maslach, 2016). They can also form support groups to share problems and celebrate successes, which helps them feel happier and more supported.

School administrators have a strong influence on teacher motivation. They can create programs that reward teachers' hard work, making teachers feel valued. Improving work conditions, like reducing heavy tasks and providing enough time and resources, can also help teachers feel more satisfied (Hakanen et al., 2006). Mentoring for both new and experienced teachers help them feel connected, and flexible work schedules can let teachers balance work and personal life better. By focusing on keeping teachers happy and less stressed, these Jesuit schools can ensure that their teachers stay motivated and committed. Simple actions, like recognizing arduous work and offering growth opportunities, along with supportive policies, can improve teachers' well-being and help the entire school community.

On a larger scale, schools and government policy makers should prioritize teacher well-being. They can offer wellness programs, mental health support, and regularly check teachers' stress and satisfaction levels. Implementing those practices can address teachers' needs and enhance their job satisfaction, commitment, and well-being. Establishing career paths can help teachers grow and become leaders or specialists is also beneficial (Day & Gu, 2010). Training school leaders to show care and understanding can improve teachers' happiness and commitment (Leithwood et al., 2020). Conducting Surveys can help schools and policymakers identify problems and make better policies.

Future research can look at how burnout, satisfaction, and commitment change over time, or how they differ in various places. Studies on ways to reduce stress and improve satisfaction can help schools and policymakers choose the best strategies.

A limitation of this study is that it collected data from only four Jesuit institutions. This makes it harder to say that the results would hold true for many different people or situations. The study also used correlational statistics, which means although relationships were found between two of the variables, conclusive causality cannot be determined. There may also be other factors, which were not measured, that influenced the results. Another limitation is the use of survey methods. Surveys depend on people's self-reports, and sometimes people may not remember correctly or may try to answer in a way that makes them look better. Without other types of data collection is difficult to check if the survey answers are accurate. In the future, using more types of data, studying different contexts, and trying different research designs could help create stronger and more reliable conclusions.

Abstract

The purposes of this research are to 1) Assess Grade 2 students' spoken English proficiency against an 80% performance benchmark following the implementation of the TPRS (Teaching Proficiency through Reading and Storytelling) teaching technique. 2) Examine the satisfaction level of Grade 2 students with the use of TPRS. The sample group, obtained from purposive sampling consisted of eight students in Grade 2, studying in the second term of academic year 2024 at Wonder Valley International School, southern Thailand. The research tools employed were: 1) An eight-hour lesson plan incorporating TPRS activities that lasted for 8 teaching periods. 2) An English-speaking skills rubric scoring assessment. 3) Student Satisfaction Survey on learning English through the TPRS technique. The statistics used for data analysis in this study included Chi-square, mean and standard deviation. Research findings have revealed that students' spoken English proficiency significantly exceeded the 80% criterion ($p < .05$) following the implementation of TPRS in class. Students rated the TPRS method with a mean score of 4.22 out of 5, reflecting high satisfaction with the learning approach, where 5 represents the highest level of satisfaction.

Keywords: TPRS, English-Speaking Skills, Storytelling

Introduction

Driven by an increasingly globalized economy, English language proficiency has for several years been considered a top educational priority for Thai parents from all economic backgrounds. Parents consider English to be important for the future career and business opportunities for their children, broadening their perspective and global outlook. According to the Basic Education Core Curriculum B.E. 2551 (A.D. 2008) the Thai government too acknowledges this, making English a compulsory subject throughout the entire basic national curriculum (Ministry of Education, 2008). This widespread enthusiasm to learn English led to a proliferation of various English as a second language tutoring

centers as well as international schools across the country. Despite the prevalence of these educational institutes, the development of spoken English language skills amongst Thai students continue to face challenges, particularly in the context of international schools in Thailand.

In such schools, there are notable differences in terms of academic performance between students whose parents speak English to them and those whose parents do not. The latter often fall behind in their English scores, particularly in spoken English, which then impacts other areas of academic development, as most academic subjects build on language foundations (Charoenlap (2017). Drawing from experience as a former teacher at an international school, the researcher observed that although these children possess strong cognitive abilities and articulate well in their native language, they face more challenges with vocabulary acquisition, spoken fluency and articulation of academic concepts and abstract ideas, particularly when compared to peers who have greater exposure to English at home. These children also tend to underperform in other subjects as well which prevents them from being able to reach their potential in other areas.

Such discrepancies in spoken English performance between students with English-speaking parents and those without highlights the need for a more effect pedagogical intervention. To address such challenges, this study aims to explore the implementation of Teaching Proficiency through Reading and Storytelling (TPRS) as an instructional intervention for the above-mentioned group of students.

TPRS has been highly researched and practiced across the second language teaching world. Several research have shown, how it outperformed other methods in teaching second language (Muzammil, 2015). TPRS is said to offer a natural and effective approach to second language acquisition, particularly well-suited for young learners due to its engaging methodology (Argenio, 2022). Therefore, TPRS exhibits potential in compensating for limited exposure to English at home by providing a more immersive and interactive learning experience for international school students within the classroom setting.

Objectives

1. To assess the spoken English language skills of second-grade students after the implementation of the TPRS teaching technique with an 80% performance criterion.
2. To study the satisfaction level of second-grade students with learning English using the TPRS technique.

Hypotheses

1. Second-grade students will achieve at least 80% proficiency in spoken English language skills after being taught using the TPRS teaching technique.
2. Second-grade students will report an important level of satisfaction with learning English through the TPRS teaching technique.

Concept Theory Framework

What is TPRS?

TPRS is a second language acquisition method developed by Blain Ray, a teacher in the lates 1980s. Ray developed TPRS after using Jame Asher's TPR method. He found that while it worked very well with concrete words, it fell short when dealing with abstract terms and concepts. According to TPRS researcher Lichtman (2015), researchers generally "identify the method based on core concepts such as the co-construction of a story with students, using high frequency vocabulary, and providing lots of input in the target language with small amounts of translation for clarity". This method, she contrasts with the use of "traditional" teaching that focus on a grammar-based syllabus, textbooks and exercises demanding student output, grammatical accuracy, and teaching a larger set of (often thematically organized) vocabulary."

In TPRS classes, students rely on exposure to the target language, contextualization (language is given in a context that facilitates understanding of unknown words and grammar), and repetition, in an organic process that seeks to mimic the way children learn their first language. The TPRS class feels less like a lesson and more like a conversation. It encourages active participation during the lesson and enhanced listening skills (Octaviani & Hesmatantya 2018).

Lichtman (2018) explained that TPRS normally involves three stages of learning. The first stage (Show) involves establishing meaning in which the teacher introduces new vocabulary through action, visuals, or translation in student's first language. The second stage (Tell) involves asking children to create personalized stories along with the teacher using the words learnt and then acting them out in class. This gives students multiple opportunities for repetition in a positive learning environment (Kara & Eveyik, 2019). The last stage (Read) involves reading where students are encouraged to process aural input to written input. TPRS encourages active participation during the lesson and enhances listening skills (Octaviani & Hesmatantya, 2018).

Previous Studies on TPRS

TPRS researcher Karen Lichtman argues in her book that "TPRS shows the clearest advantage for the acquisition of vocabulary and grammar, as well as the development of

reading and speaking skills. Additionally, TPRS outperforms other methods on rate of learning; students in TPRS classes get more language and more skills than in traditional classes" (Argenio, 2022).

Meeboon (2024) published research indicating that Grade 1 students in Thailand who learned English through the TPRS method achieved significantly higher performance scores in spoken English skills compared to when they did not use this method.

Bulan (2021) conducted a study in Türkiye investigating the effect of the TPRS method on vocabulary acquisition among third-grade students. The findings concluded that TPRS was effective in enhancing the students' vocabulary acquisition.

Kara and Eveyik (2019) studied the effects of TPRS on four-year-old kindergarten students and found that it had a positive impact on both recall and retention of receptive and productive vocabulary. They noted that the method collaborates well with young learners because it uses storytelling and repetition—techniques that support how children naturally acquire language. Their study also offered helpful suggestions for adapting TPRS to better fit the needs of young learners.

Davidheiser who worked on the integration of grammar instruction with TPRS at college level reported in 2001 that TPRS improves pronunciation and vocabulary memory, reduces anxiety, and promotes active learning and is beneficial for distinct types of learners (Muzammil, 2015).

Theoretical Framework

To really understand TPRS one needs to consider the theories that support it. TPRS is rooted in Krashen's Input Hypothesis and Comprehensible Input approach to teaching language.

Krashen's Comprehensible Input Hypothesis argues that 1) speaking is a result of acquisition and not its cause. Speech cannot be taught directly but emerges on its own because of building competence via comprehensible input. 2) If input is understood by the student, and there is enough of it, the necessary grammar is automatically provided. "This means that the language teacher need not attempt to deliberately teach the next structure along the natural order- it will be provided in just the right quantities and automatically reviewed if the student receives enough comprehensible input" (Mitchell, Myles & Marsden 2013).

In practice Krashen argues that learners best acquire a new language when they are exposed to language that is just above their current proficiency but still understandable, which helps promote natural language learning.

In classroom practice, language is always context specific, presented mostly through stories in a way that students enjoy, and understand, using gestures, visuals and

sometimes translation into the student's native language. The focus is on students acquiring or absorbing the language naturally. Students then show comprehension through physical responses and simple answers. When words are introduced, teachers ensure students understand the meaning of words and phrases before expecting them to use those words. This allows time for children to build confidence and does not put pressure on them to provide a spoken "output" when they still don't understand. Vocabulary is taught systematically through repeated exposure in the form of stories, co-created by students and the teacher.

Conceptual Framework

This research follows the conceptual framework as shown in this image:

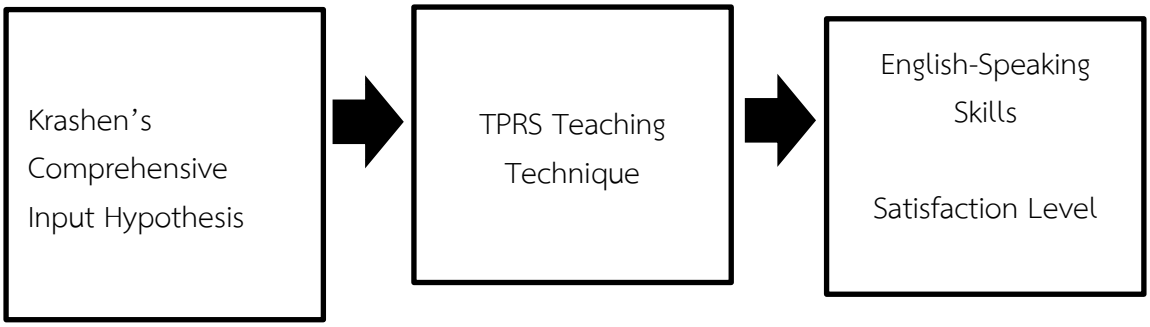

Figure 1: Conceptual Framework

Materials and Methods

Research Design

This study employs a quantitative and experimental research approach with a single sample group. The Chi-square statistical test is used to determine the significance level with data collected one time after the implementation of TPRS method in class (thus employing a One-Group Post-Test Only Design).

Table 1: One Group Post-Test Only Design

Sampling	Group	Pre-test	Tested Item	Post-Test
-	E	-	X	o

E denotes Experimental Group
X denotes Teaching approach using TPRS
O denotes English Speaking Skill Assessment

Population and Sample Group

The population for this study consists of fourteen Grade 2 students at Wonder Valley International School, Phatong Subdistrict, Hat Yai District, Songkhla Province, studying in the second semester of the 2025 academic year.

The sample group comprised eight Grade 2 students from Wonder Valley International School, selected through purposive sampling during the second semester of the 2024 academic year. The researcher intentionally selected these students due to their limited exposure to English at home, which negatively impacted their spoken English performance in class, resulting in scores significantly below the pass criterion.

Research Tools

1. A Lesson plan incorporating TPRS activities that consists of eight- 60 minutes teaching periods.
2. English Speaking Skills Assessment Form used to assess each student individually at the end of the final session. The total score given was 30 points. The expected performance criterion was 80% of the total points, which equals 24 points.
   The evaluation criteria covered six aspects of speaking ability. These criteria include 1. Pronunciation, 2. Fluency, 3. Vocabulary Usage, 4. Grammar & sentence structure, 5. Comprehensibility, 6. Overall Confidence. Each criterion was then rated on a 5-point scale (1 = Needs Improvement, 5 = Excellent) to provide a structured evaluation of individual student's speaking performance.
3. Student Satisfaction Survey on Learning English through the TPRS Technique

The survey uses a 5-point Likert scale to measure students' satisfaction with learning English through the TPRS technique. After refining the wording for a more formal tone, the satisfaction levels are as follows:

1. Least satisfied (in student friendly language the term "Not happy at all" was used)
2. Less satisfied (in student friendly language the term "Not so good" was used)
3. Moderately satisfied (in student friendly language the term "Okay" was used)
4. Highly satisfied (in student friendly language the term "Happy" was used)
5. Most satisfied (in student friendly language the term Super Happy was used)

Research tools number 1 and 3 were reviewed by experts to ensure. Three experts provided feedback and evaluated the alignment between the assessment rubrics, the learning objectives, as well as the alignment between the satisfaction criteria and learning objectives. The Index of Item-Objective Congruence (IOC) was calculated to confirm the consistency and appropriateness of the tools.

Data Collection

Data for this study was collected from a purposive sampling group with the following details:

1. The researcher conducted teaching activities using the TPRS lesson plan for eight teaching periods, each lasting 60 minutes, totaling 8 hours over a 2-month period.
2. After completing all eight teaching periods, the researcher assessed each child's English-speaking skills using a rubric scoring method mentioned above.
3. Finally, the researcher asked the children complete a satisfaction survey to evaluate their perception of the TPRS learning process and their feelings about using spoken English after learning through storytelling.

Data Analysis

After collecting data using the above-mentioned tools, the researcher analyzed the data as follows:

1. Analyzed the learning achievement of Grade 2 students after learning through the TPRS method, comparing it to the 80% criterion using Chi-square statistics in SPSS.
2. Analyzed the satisfaction questionnaire regarding the TPRS teaching method, utilizing percentage, mean ($\bar{X}$), and standard deviation (S.D.). The researcher evaluated the mean scores based on the following criteria:
   Mean scores 4.51 - 5.00: Indicated the highest level of satisfaction.
   Mean scores 3.51 - 4.50: Indicated an important level of satisfaction.
   Mean scores 2.51 - 3.50: Indicated a moderate level of satisfaction.
   Mean scores 1.51 - 2.50: Indicated a low level of satisfaction.
   Mean scores 1.00 - 1.50: Indicated the lowest level of satisfaction.

Results

Table 2: Chi-Square Test Findings

Test Results	n	χ^2	Asymp. Sig.
Pass	7	4.500	0.017
Fail	1		

** $p < 0.05$

From Table 2, it was observed that seven students scored above the criteria, while one student scored below the expected level. The p-value from the Chi-Square test was 0.017, which is below the acceptable significance level of 0.05. This indicated that the results were statistically significant at the 5% significance level.

Table 3: Satisfaction Survey Findings

Evaluation Items	$\bar{X}$	S.D.	Interpretation
1. Satisfaction towards acting out the story together in class	4.13	0.83	High level
2. Satisfaction towards helping to create a story in class with peers	4.38	0.52	High level
3. Satisfaction towards understanding the context of the story in English	4.00	0.76	High level
4. Satisfaction towards creating your own gestures and movements during the story to represent the words learnt	4.38	0.74	High level
5. Satisfaction towards learning English through drawings and stories	4.38	0.52	High level
6. Satisfaction towards your own ability to remember/recall new English Words after learning them through stories	4.25	0.46	High level
7. Satisfaction towards being able to pronounce more accurately after the TPRS lessons compared to before	3.86	0.35	High level
8. Satisfaction with your teacher's involvement in class	4.86	0.46	Highest level
9. Satisfaction towards being able to speak fluently using longer sentences than	3.75	0.46	High level
10. Satisfaction about being able to recite stories in English now compared to before?	4.25	0.46	High level
Total	**4.22**	**0.40**	High level

From Table 3, it was found that Grade 2 students' satisfaction with teaching using the TPRS method had a mean score of 4.22, indicating a "high level of satisfaction".

Conclusions and Discussion

In conclusion, this study revealed that the implementation of the TPRS teaching method significantly improved Grade 2 students' spoken English proficiency and resulted in high satisfaction with the learning approach. Statistical analysis showed that the selected group of grade two students' spoken English proficiency scores significantly surpassed the predetermined 80% criterion following TPRS intervention ($p < .05$). And students rated the method with high satisfaction.

The findings also confirm the importance of language learning theories that highlight contextualized language inputs, incorporating visuals, movement, and active co-creation of content by both students and teachers, as more effective methods for enhancing second language skills compared to memorization and rote learning.

English teachers at international schools can use this second language learning method to improve the spoken skills of students with limited exposure to English at home, helping them catch up with their peers. Similarly, teachers at Thai schools can also apply this method to help their students speak more fluently and confidently in general.

Limitations and suggestions for further research

This study has some limitations that need to be acknowledged for further research to develop on. The main limitation of this study was the small sample size selected due to a required reason. Further research with a larger sample size or a different research design may be needed to more accurately assess the impact of the TPRS technique on improving spoken English skills in students speaking English as second language. Secondly, the duration of the study (8 hours in total) may not be enough to fully guarantee the effectiveness of the method. Hence further research with an extended duration is recommended, as developing language skills requires more time than acquiring knowledge.

Development of a Multiple-Choice Test on the Concept of Friction Force Direction

Korawich Kullapat[1*], Narumon Emarat[2] and Kwan Arayathanitkul[3]

[1]Graduate student, Department of Physics, Faculty of Science, Mahidol University.
[2,3]Assistant Professor Dr., Department of Physics, Faculty of Science, Mahidol University.

Abstract

The conception of the direction of friction force would fit into the idea that "the direction of friction force acting on an object is opposite to the relative motion of the object with the surface". For high-school students, this definition is sometimes simplified to several versions, such as opposite to the object's motion, opposite to an exerted force, or opposite to the object's acceleration, which leads to many misconceptions. To detect the misconception that could occur in high-school students, a conceptual multiple-choice test on the direction of friction force was created. The test consists of 16 items covering seven misconceptions: Friction is (1) always opposite to the direction of the motion, (2) in the same direction as motion, (3) always opposite to the direction of the external force, (4) in the same direction as the applied force, (5) always opposite to the direction of acceleration, (6) always horizontal, and (7) always opposite to the direction of rotational motion. After the designed questions were assessed with a sample group of 637 grade 11–12 science and math students from three schools, it was found that most of the items fell within the acceptable range of classical test analysis but received a low Cronbach's alpha value of 0.46. However, the test provides more insightful information when analyzed based on the choices students make.

Keywords: Conceptual Test, Direction of Friction, Friction Force, Multiple-Choice Test, Physics Concept

Introduction

A general definition suggests that the friction force is a force associated with the relative motion between surfaces (Serway & Jewett, 2004; Knight, 2017). Although the concept appears simple, understanding it is not easy. Several misconceptions related to the friction force have been reported. In the work of Kızılcık et al. (2021), up to 42 different misconceptions were found, including seven related to the direction of friction force. In Thailand, Prasitpong and Chitaree (2010) also reported misconceptions about friction force among high-school students, some of which match the misconceptions identified by

Kızılcık et al. (2021).

One powerful tool to assess misconceptions for improving instruction is the conceptual multiple-choice test. Several existing tests on frictional force have been developed, such as the one by Besson, Borghi, De Ambrosis, and Mascheretti (2010). Another was developed by Cari, Wulandari, Aminah, Handhika, and Nugraha (2019). Chia (1996) also created one, and in Thailand, there is the work of Prasitpong (2012). However, most existing conceptual multiple-choice tests cover various aspects of friction, such as type, magnitude, and direction, all in one test. The problem lies in the fact that each aspect can contain various models of misconceptions. Kızılcık et al. (2021) also mentioned this in the suggestions of their work: whoever wants to create a conceptual multiple-choice test for the friction force next should focus on one aspect rather than covering everything in a single test.

In Thailand, there have been a few reports about developing the friction force conceptual multiple-choice test. The recent one was from the work of Prasitpong (2012), which still covers various aspects. Hence, the determination to create a conceptual test focusing on only one aspect of friction force was motivated. This study focuses on the aspect of the direction of friction.

Objective

To develop a conceptual multiple-choice test that can probe misconceptions about the direction of friction among high-school students.

Concept theory framework

1. The concept of friction force

In the work of Develi and Namdar (2019), the authors conducted a review of physics books to determine the appropriate concept for frictional force. Their study concludes that the concept of friction force can simply be stated as “a force that prevents sliding” (Develi & Namdar, 2019, p. 97). However, it is emphasized in the paper that this is a briefly simplified concept. The true cause of friction force lies on a microscopic scale, involving the bonding of molecules between the object and the surface. In the general case, to find the direction of friction, a common statement, “the friction force on an object is opposite to its motion or impending motion relative to the surface” (Serway & Jewett, 2004, p. 133), is usually used. This similar common statement is also mentioned in Knight (2017).

2. Alternative concepts of the direction of the friction force

Kızılcık et al. (2021) studied the alternative concepts of friction force by gathering 42 associated papers. For the aspect of the direction of the friction force, they reported a list of misconception models as shown in Table 1, which in this paper will be referred to by the abbreviated names.

Table 1: Misconception models about the direction of the friction force

The misconception models	**Description** (Kızılcık et al., 2021)
Opposite to Motion	Friction is always opposite to the direction of the motion.
Same with Motion	Friction is in the same direction as the object's motion.
Opposite to External Force	Friction is always opposite to the direction of the external force.
Same with External Force	Friction is in the same direction as the applied force.
Opposite to Acceleration	Friction is always opposite to the direction of the object's acceleration.
Always Horizontal	There is no friction force in the vertical direction. Friction is always horizontal.
Opposite to Rotational Motion	Friction is always opposite to the direction of rotational motion.

3. Conceptual multiple-choice tests

"Effective instruction requires more than dedication and subject knowledge; it requires technical knowledge about how students think and learn" (Hestenes, Wells, & Swackhamer, 1992, p. 2). Several approaches can be applied to assess students' knowledge or concepts. One of the most effective methods is interviewing students; however, this process is time-consuming and requires considerable effort (Thongchai, 2009; Hestenes et al., 1992; Engelhardt, 2009).

An alternative approach has been created: the conceptual multiple-choice test. The conceptual multiple-choice test can be designed to prove students' underlying concepts. They can emphasize conceptual reasoning and reveal common misconceptions held by students. In the field of physics education, several well-known conceptual multiple-choice tests have been developed. The Force Concept Inventory (FCI) (Hestenes et al., 1992) is one of the most frequently mentioned. Other notable conceptual multiple-choice tests include the Force and Motion Conceptual Evaluation (FMCE) (Thornton & Sokoloff, 1998), the Energy and Momentum Conceptual Survey (EMCS) (Singh & Rosengrant, 2003), etc. These conceptual multiple-choice tests are typically designed for specific physics topics, and most are limited to probing only the concepts they were originally designed to assess.

Engelhardt (2009) has examined the typical methods used to create conceptual multiple-choice tests. The steps can be summarized as follows:

1. Recognize the need for the test: Determine the problem or the need for developing a new conceptual multiple-choice test.
2. Formulate the objectives: Clearly define the instructional objectives related to the domain of knowledge.
3. Construct test items: Develop test items carefully and thoughtfully.
4. Content validation (should be checked with Steps 2 and 3): Ensure the test content is valid, meaning it accurately measures the intended concepts.
5. Reliability check (should be checked with Step 3): Various analyses are conducted to evaluate its reliability. These include basic statistical analysis, item analysis, and reliability testing, such as internal consistency measures like Cronbach's alpha.
6. Distribution: The complete and finalized test is reported for use.

Thongchai (2009) also follows a similar process in developing his conceptual survey on mechanical waves. His development test process is based on the framework proposed by Crocker and Algina (1986). The test in this study was developed using a process like Engelhardt (2009).

Materials and Methods

1. Forming a test

In designing the test, 16 items were assigned to cover seven misconception models from Kızılcık et al. (2021). Some items were sourced from existing friction force concept tests, and some were newly created, ensuring they trigger the targeted misconceptions. Since the test focuses on direction, all items share the same choices: directional arrows (→, ←, ↑, ↓, ↖, ↘), "There is no friction force," and "Other".

2. Test validation

The content validation was conducted by physics experts at Mahidol University, while the clarity validation was conducted by a sample group in the pilot study to ensure that test-takers correctly understand the questions.

3. Sample group

The test was administered to 637 Grade 11–12 science and math students from three schools. All of them had already studied friction forces in Grade 10. The research was conducted during physics classes. The researcher guided the students on the rules for taking the test and provided a 2B pencil or eraser if needed. The test took 25–30 minutes to complete and required no calculations. Students were not provided with the answers by the researcher until every student in the sample group had completed the test.

4. Data analysis

The test's quality was assessed using the Difficulty Index, Discrimination Index, and Cronbach's Alpha. The Difficulty Index measures how easy an item is; 0.3–0.8 is the acceptable range (Hernandez, 2009). Discrimination Index evaluates how well an item differentiates high-ability and low-ability students; values above 0.24 are acceptable (D'Sa & Visbal-Dionaldo, 2017). Cronbach's Alpha measures test reliability and internal consistency. It should be more than 0.7 (Tongchai, 2009).

Results

1. The test

The last version of the test consists of a total of 16 items. The references come from the following sources: The direction of friction force worksheet used in first-year Physics at Mahidol University (Emarat & Arayathanitkul, 2022), Besson et al. (2010), Prasitpong and Chitaree (2010), and Cari et al. (2019). Each item is assigned to a misconception listed in Table 2.

Table 2: The misconception models and their items

The misconception models	items
Opposite to Motion	5, 13
Same with Motion	2, 3, 10
Opposite to External Force	6, 14
Same with External Force	1, 7*
Opposite to Acceleration	4
Always Horizontal	7*, 8
Opposite to Rotational Motion	9, 11, 12, 15, 16

*Item 7 was originally intended for the "Always Horizontal" model, but it was later determined that it could also be used to assess the "Same with External Force" model.

All items follow the same design pattern: determining the misconception model to probe, using a trigger related to that misconception, and providing the choice that students with that misconception are likely to select.

To illustrate this, item 7 from the "Always Horizontal" misconception model will be explained as an example. The situation for item 7 is shown in Figure 1a. It presents a simple scenario where a box is being held against a wall. The trigger in this case is that the object can only move vertically rather than horizontally, which is an unusual setup in frequent problem exercises. If a student holds the "Always Horizontal" misconception model, they will select the choice "There is no friction force".

Another example is item 1 from the "Same with External Force" model. Figure 1b shows the scenario for this item, where a box is being pushed by an applied force, but the box has not yet started moving. The trigger here is the applied force. If a student holds the "Same with External Force" misconception model, they will choose the option that represents the direction in which the force is exerted.

The full test in the Thai language can be accessed from reference #19.

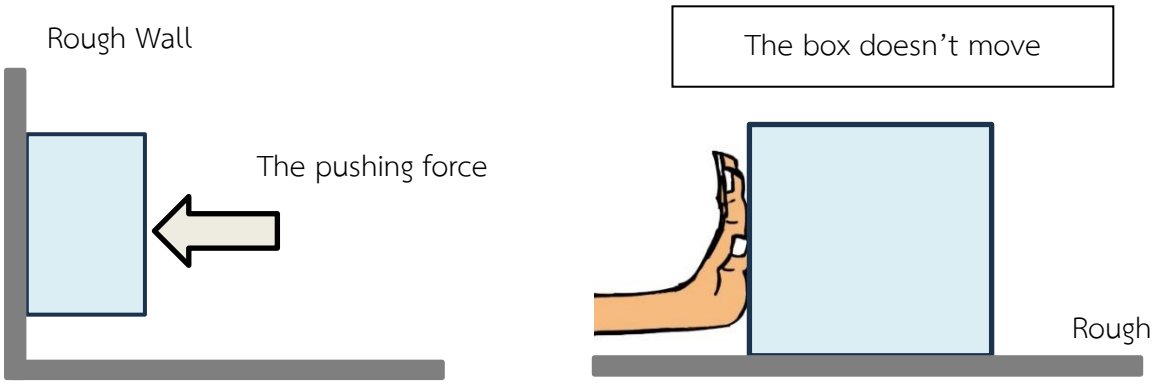

Figure 1a: Item 7

Figure 1b: Item 1

Figure 1: Examples of the situation in the test.

2. Classical test theory analysis

The bar graph of the Difficulty Index and Discrimination Index is shown in Figures 2 and 3, respectively. The two indices were attained from analyzing the data of the sample group.

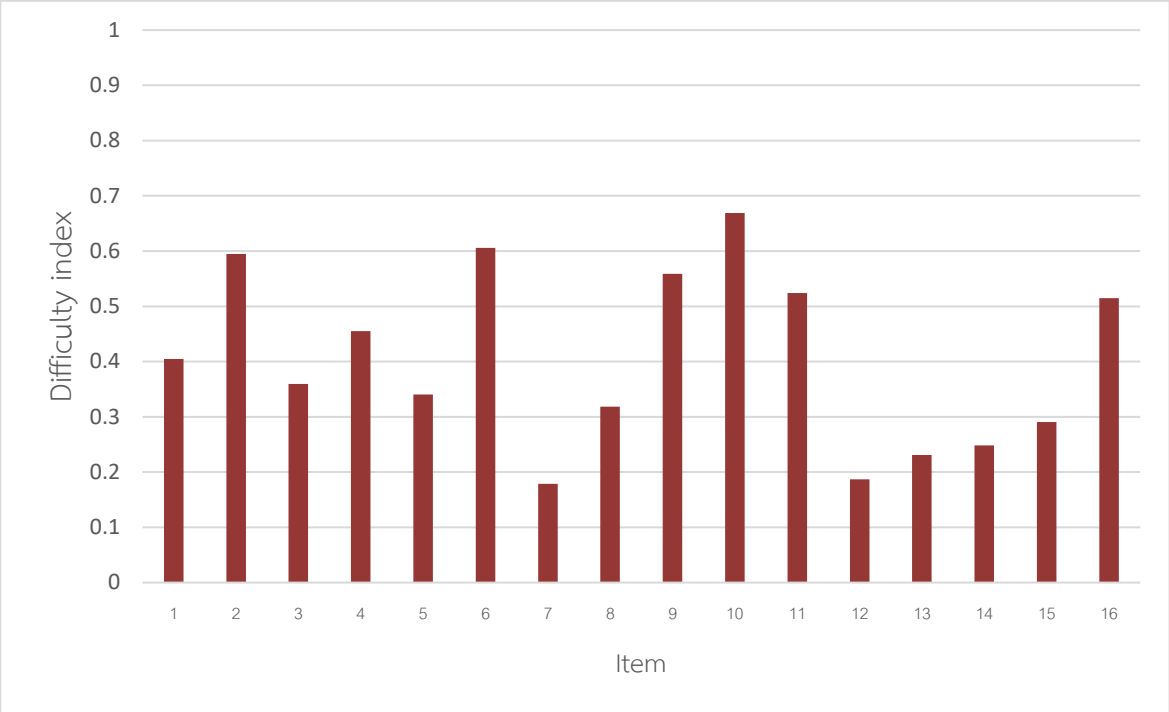

Figure 2: The bar plot of the Difficulty Index value of each item.

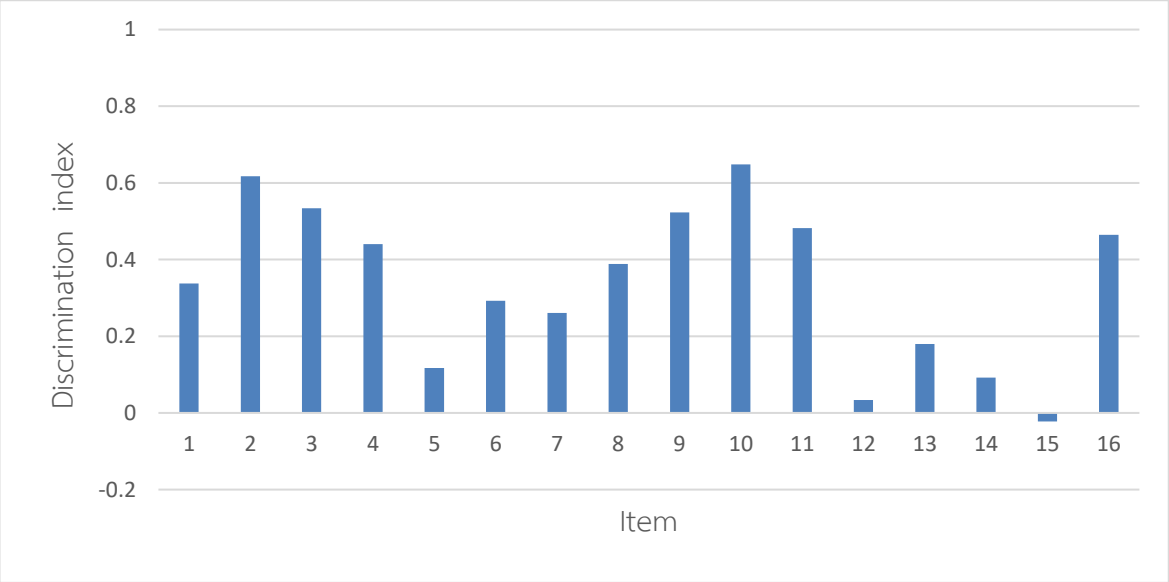

Figure 3: The bar plot of the Discrimination Index value of each item.

It can be seen from Figure 2 that most items had appropriate values, except for items 7, 12, 13, 14, and 15, which had low difficulty values. This can be explained by the nature of item 7, which involves the "Same with External Force" and "Always Horizontal" misconceptions. It triggers multiple concept models, resulting in distinct types of responses, leading to low correctness. Similarly, for items 12–15, many students were affected by the "Opposite to Motion" misconception, causing them to select incorrect answers and contributing to low correctness. Additionally, Items 5, 12, 13, 14, and 15 had poor discrimination index values (see Figure 3). This can be attributed to the fact that low-ability students often answered items 5, 14, and 15 correctly due to the "Same with Motion" misconception, which unintentionally led them to the correct choice. In the case of item 12, both high-ability and low-ability students applied the same misconception, "Opposite to Motion", leading to consistently low correctness and poor discrimination.

For the test reliability, Cronbach's Alpha had a value of 0.46, indicating poor internal consistency, which was expected due to the test measuring seven different misconceptions.

3. Using the test to assess students' understanding

This analysis aims to provide an overview of the statistical results for the groups of items assigned to each misconception. The mean percentage is the average of the scores in each misconception model divided by the full scores of that group and multiplied by 100. The SD percentage is the standard deviation of the average scores converted into a percentage. The SE percentage, which is the standard error of the average scores, is also converted into a percentage. The result is shown in Table 3.

Table 3: The basic statistics of each misconception model

Misconception model	Mean %	SD %	SE %
Opposite to Motion	28.6	33.5	1.3
Same with Motion	54.1	36.2	1.4
Opposite to External Force	42.7	30.5	1.2
Same with External Force	29.2	33.0	1.3
Opposite to Acceleration	45.5	49.8	2.0
Always Horizontal	24.9	33.4	1.3
Opposite to Rotational Motion	41.5	20.1	0.8

Most students struggle with the "Opposite to Motion," "Same with External Force," and "Always Horizontal" misconceptions, as shown by their low mean percentages.

In a deeper examination by checking the choices that students tend to choose, the "Opposite to Motion" misconception model is expected, as students frequently

choose the direction opposite to the object's motion.

For the “Always Horizontal” model, most students were incorrect because they selected "There is no friction force," which is associated with the “Always Horizontal” misconception.

For the “Same with External Force” model, an interesting concern emerged, particularly in item 1 (see Figure 1b). This item was designed to capture the “Same with External Force” misconception. Surprisingly, instead of selecting the direction that is the same as the external force, students tended to choose "There is no friction force". This trend contributed to a lower correctness percentage.

To explain this, one assumption arises: "Because there is no visible motion, students might assume that there is no friction force". If this explanation is true, a concerning issue will emerge in item 7 in Figure 1a, which also falls under the “Same with External Force” misconception model. However, the concern here is not about the “Same with External Force” misconception because, in item 7, the option indicating the same direction as the external force still existed and was selected by a considerable number of students. The real concern lies in the perspective of the “Always Horizontal” model. The question arises whether students chose "There is no friction force" in this item due to the “Always Horizontal” misconception or if they were influenced by a newly observed misconception, which could be called “No Motion, No Fiction.”

Conclusions and Discussion

In this conceptual multiple-choice test development, the approach of probing the seven misconceptions based on Kızılcık et al. (2021) which are Friction to be (1) always opposite to the direction of motion, (2) in the same direction as the motion, (3) always opposite to the direction of the external force, (4) in the same direction as the applied force, (5) always opposite to the direction of acceleration, (6) always horizontal, and (7) always opposite to the direction of rotational motion, resulted in 16 items. These 16 items passed the content validation from physics experts at Mahidol University and were confirmed for clear readability through testing with a pilot sample group. After being administered to the target group, the results showed that most items fell within the acceptable range for the Difficulty Index and Discrimination Index. The items that fall outside the acceptable range are still not a problem since these indices only consider the correct answer, while this test is designed to analyze the choices students select instead. Therefore, the Difficulty Index and Discrimination Index are not entirely suitable for judging the problem. Additionally, since classical test theory has limitations due to its indices being dependent on the sample, applying this test to a different group might yield different results. Therefore, considering the use of the Rasch model may be more suitable for

further analysis.

Another discussion point is in using the test to assess students' understanding. The high-school students from the sample group tend to have the "Opposite to Motion," "Same with External Force," and "Always Horizontal" misconceptions, shown by the mean percentage scores that are lower than others. However, caution is needed when interpreting the results for the "Same with External Force" and "Always Horizontal" models. The low percentage of correctness in these two groups might be due to a hidden misconception, which can be called "No Motion, No Friction." This misconception relates to the phrase "there is no friction force if the object does not move." In the further development of the test, considering modifications of the "Always Horizontal" items, including the movement to the objects could be a more effective way to reduce this 'No Motion, No Friction' misconception effect.

Therefore, the test needs further development. While using the current version of the test with the sample group, the author found that several items were still not appropriate. For example, items in the "Opposite to Rotational Motion" model may be removed from the test since high-school students in Thailand do not encounter this situation frequently in their curriculum. Additionally, the "Opposite to Acceleration" model may need more items added to ensure greater confidence in assessing this misconception. These issues will be revised to create a new and improved version.

Abstract

This study explores the effectiveness of Data-Driven Learning (DDL) in enhancing preposition collocational knowledge of EFL learners implementing a corpus-based DDL approach, utilizing the Corpus of Contemporary American English (COCA) as a resource for instructional materials. A group of 37 Grade 11 Thai EFL students participated in the study, engaging in a structured DDL instruction over multiple sessions. A pre-test and post-test were administered to assess students' accuracy in collocation use, while a questionnaire was used to examine their attitudes toward learning through DDL. The results indicated a statistically significant improvement in students' collocational accuracy, suggesting that DDL facilitated an understanding and more precise usage of prepositional collocations. Furthermore, most participants expressed positive attitudes toward DDL, finding it engaging and beneficial for learning collocations in context. A few students nonetheless found independent pattern identification through DDL challenging. This study suggests that while DDL is effective for collocation learning, prompting students' prior knowledge of collocation and incorporating guided instruction alongside DDL may optimize learning outcomes and support diverse learning preferences.

Keywords: Data-Driven Learning, Preposition Collocations, Thai EFL Students

Introduction

Effective communication is crucial for English language learners (ELLs) as it enables them to express their messages and share their ideas. Moreover, it helps them avoid misunderstandings while enhancing their ability to articulate their thoughts clearly in both spoken and written forms. To develop effective communication skills, learners must first grasp the core principles of sentence construction. That is, it is essential for them to acquire a functional knowledge of grammar tailored to their individual needs for their accurate and effective communication (Mehmonova, 2022).

Even though teaching grammar components does not necessarily aim to make learners grammarians, it helps them communicate effectively (Weaver, 2018 cited in

Chiekezie, 2021). Understanding grammar indeed means understanding the language (Chiekezie, 2021; Mehmonova, 2022). Even so, in the language classroom, it was still discovered that learners encountered difficulties related to the structures of the language. One of the most recurring issues is the proper use of collocational patterns, specifically those involving preposition combinations. Recently, several studies (e.g., Chuenchaichon, 2022; Qamariah & Wahyuni, 2020; Suraprajit, 2021; Yusuf et al., 2021) have shown that frequent errors include the addition of unnecessary preposition and the omission of the necessary preposition. However, the causes of these errors are multifaceted. A major contributing factor is the influence of learners' first language (L1), where structural disparities between languages can result in incorrect assumptions about English collocations (Hashemi et al., 2012). Another significant source is the insufficient knowledge of collocations (Boonraksa & Naisena, 2022; Thongvitit & Thumawongsa, 2017), often resulting from limited exposure to authentic language use or a lack of explicit teaching (Dokchandra, 2019).

As extensively documented, collocational knowledge is essential for English as a foreign language (EFL) students, as it enhances their communicative competence. Effective use of collocations contributes to more natural and accurate language production, allowing learners to express their ideas with precision and fluency. Since collocations are a core aspect of native-like speech patterns, their appropriate use helps learners sound more natural and intelligible in both spoken and written communication (Tian & Della Amirulloh, 2024). Without sufficient collocational knowledge, EFL learners may struggle with unnatural or incorrect word combinations. Moreover, a strong grasp of collocations allows students to understand phraseological units when their meanings are not from individual components. These fixed expressions often pose a challenge for learners due to their non-literal meanings. In fact, a word in isolation may lack clarity, as words do not occur independently in natural language (Stubbs, 2001). Also, collocations account for a significant portion of daily communication, appearing in both spoken and written discourse, with a large percentage of what people say and hear daily (Hill, 2000). Therefore, students should receive appropriate instruction to support their learning and acquisition of collocational knowledge.

As stated earlier, students continue to face difficulties in learning preposition collocation patterns. To address this challenge, effective teaching methods such as explicit teaching and Data-Driven Learning (DDL) utilizing language corpora have been suggested (He & Xie, 2024; Liu & Gablasova, 2023). Evidently, DDL allows students to analyze actual language data, helping them understand language patterns through exposure to real-life language usage (Muftah, 2023). Unlike traditional methods (e.g., rote memorization, grammar translation, dictionary-based learning) as they do not promote natural language

acquisition or meaningful use, DDL is believed to provide students with the opportunity to actively engage with language input, fostering a deeper and more meaningful learning experience (Chambers, 2010). By analyzing multiple instances of collocations in their authentic usage, learners can develop an automatic use of the collocations they are learning (Yuvayapan & Yükselir, 2021). Research further suggests that presenting collocations in diverse and meaningful contexts helps students identify recurring patterns and apply them accurately in their speech and writing (Lindquist, 2018; Muftah, 2023).

Given the limitations of traditional methods and the growing recognition of DDL's benefits, this study adopts a DDL approach to assist Thai EFL students improve their preposition collocation knowledge. While DDL has been widely implemented in university-level English instruction due to its effectiveness for learners with advanced L2 proficiency, there remains a noticeable gap in research on its application in high school language learning. This gap suggests the need for further exploration of how DDL can be tailored to younger learners or those at lower proficiency levels. Additionally, existing research on data-driven vocabulary learning has primarily focused on word meanings rather than contextual usage, including collocations. While collocations are sometimes mentioned in vocabulary instruction, they are often not the primary focus, highlighting the necessity for further studies in this area (Li et al., 2024). Building on the identified challenges and pedagogical recommendations, this study addresses the following research questions:

1. For Thai high school students, is there a statistically significant difference in pre- and post-test accuracy scores after using DDL to learn preposition collocations?
2. What are the Thai high school students' attitudes and feedback on the use of DDL in preposition collocation learning?

Hypotheses

1. H1: Students who undergo DDL instruction will show a statistically significant improvement in preposition collocation accuracy.
2. H2: Thai high school students will demonstrate a generally cheerful outlook toward the use of Data-Driven Learning (DDL) in learning preposition collocations.

Purposes of the Study

This study aims to investigate the effectiveness of Data-Driven Learning (DDL) in enhancing Thai high school students' knowledge and usage of English preposition collocations, with a focus on verb–preposition and adjective–preposition combinations. Specifically, the purposes of this study are as follows:

1. To examine the effectiveness of DDL in improving students' accuracy in using prepositional collocations in English. This will be assessed by comparing pre-test and post-test scores following a DDL instruction.
2. To explore students' attitudes toward learning preposition collocations through the DDL approach, including their engagement with paper-based concordance lines and their perceived benefits or challenges.

Literature Review

1. Preposition Collocation and its Learning.

Collocations consist of words that tend to appear together in language with regularity and predictability (Lewis et al., 2000). However, Sinclair (1991) presents a different view, suggesting that collocations can also follow unpredictable patterns, making them more context-dependent but less formulaic. While Lewis et al. (2000) emphasizes the structured and systematic nature of collocations, Sinclair (1991) highlights their dynamic and sometimes unexpected combinations. This divergence in perspectives underscores the complexity of collocations, as they can exhibit both fixed and semi fixed patterns. Despite this, grammatical collocations encompass several types. As a subcategory of collocations, prepositional collocations involve the combination of a content word with a function word—most commonly a preposition—or other grammar structures, namely clauses or infinitives (See Benson et al., 1997).

In contemporary English language teaching, there is an increasing emphasis on the importance of using collocations accurately and appropriately (Demir, 2017), as enhances both comprehension and production skills, enabling more precise and natural expression (Tian & Della Amirulloh, 2024). Despite their massive significance, collocations still pose challenges for EFL learners. Research has highlighted persistent issues such as incorrect word pairings: omission of necessary prepositions and addition of unnecessary prepositions (Chuenchaichon, 2022; Qamariah & Wahyuni, 2020; Suraprajit, 2021). Considering this, one of the most prominent sources of these errors is first language interference, where structural differences between L1 and English create incorrect assumptions about collocation patterns (Hashemi et al., 2012). For instance, learners whose native languages do not require prepositions in certain verb collocations may mistakenly omit them in English (e.g., I am waiting my mother instead of I am waiting for my mother). Conversely, learners may also add prepositions unnecessarily due to direct translation from their L1, leading to incorrect assumptions. For example, while English uses good at something, some learners might incorrectly use good in something if their native language follows a different structure. Moreover, limited exposure to authentic language input further exacerbates these issues, as many learners rely on textbooks rather than encountering collocations in

natural spoken or written discourse. It has been found that some teachers predominantly use English textbooks as their primary resource (Boontam & Phoocharoensil, 2016), even though these materials occasionally contain language that is not actually used in real communication (Mindt, 1996, cited in McEnery & Xiao, 2011). Taking these issues into account, these teaching and learning methods are not entirely applicable or appropriate for the students. Contextualized learning and repeated exposure to authentic collocations through DDL therefore are seen as efficient strategies for enhancing learners' ability to use collocations accurately (Lindquist, 2018; Muftah, 2023).

2. Data-Driven Learning (DDL) on Collocation Learning

Collocation learning is a critical aspect of language acquisition, and Data-Driven Learning (DDL) has emerged as a classroom approach for helping learners identify and internalize collocational patterns. The application of DDL, commonly referred to as applying corpora in language learning, is prevalently associated with Tim Johns' pioneering work. Johns (1991) proposed that learners should actively engage as researchers of the target language, while teachers serve as facilitators and coordinators of their linguistic inquiry. DDL emphasizes human interaction with authentic machine-generated data, enabling students to recognize language patterns in real-world language use (O'Keeffe & McCarthy, 2022). To facilitate collocation learning, DDL can be implemented through either computer-based or paper-based approaches, depending on classroom context and learner proficiency and/or experience with their independent searches (Chujo et al., 2012; Huang, 2014). Computer-based DDL provides learners with direct access to large corpora and interactive tools that facilitate real-time language analysis. This approach is particularly beneficial for learners who are comfortable navigating digital resources. On the other hand, paper-based DDL, which involves the use of printed concordance lines and structured worksheets, can be more suitable for learners in environments with limited access to digital tools or for those at lower proficiency levels who may find corpus software overwhelming, but it may may be limited in interactivity and data range.

In this study, paper-based DDL was implemented to enhance students' collocation learning, allowing them to engage with the chosen corpus data under the teacher's guidance based on the student's learning objectives. To ensure that the material is suitable for students' proficiency levels, teachers can modify concordance lines and adjust collocational input to prevent cognitive overload (Römer, 2011). Both computer-based and paper-based DDL provide valuable opportunities for learners to observe and acquire collocations in authentic language use (Saeedakhtar et al., 2020). By being exposed to corpus data, students develop greater awareness of natural word combinations, which contributes to improved accuracy, fluency, and overall communicative competence in English (Chambers, 2010; Lindquist, 2018; Satake, 2022). This exposure to real-life language

use allows learners to observe recurrent collocational patterns and gain a deeper understanding of language in context (He & Xie, 2024).

3. Recent Research on DDL for Collocation Learning

DDL has been recognized as an effective method for teaching collocations, particularly in addressing challenges associated with preposition usage. Studies have shown that learners who engage with corpus-based materials demonstrate improved accuracy in collocation use, as they develop an automatic recognition of word pairings through repeated exposure (Yuvayapan & Yükselir, 2021). Furthermore, DDL promotes learner autonomy by allowing students to actively explore and verify language usage rather than passively receiving information. By encouraging learners to discover language patterns inductively, this approach has been acknowledged for its role in boosting linguistic awareness and fostering independence, as noted by Johns (1991) (Kwarikunda et al., 2022). Indeed, several studies have examined the impact of DDL on collocation learning in EFL settings, consistently highlighting its effectiveness in improving learners' collocational competence. For instance, Saeedakhtar et al. (2020) found that both computer-based and paper-based DDL were equally effective regarding the use of verb-preposition collocation. Similarly, Satake (2022) demonstrated that students learning collocations through DDL produced a greater number of the collocations than those relying on dictionaries, reflecting DDL's role in fostering collocational awareness. Additionally, Çekiç (2022) compared DDL to deductive learning and found that while both methods improved collocation knowledge, DDL users retained more collocations and engaged in deeper processing. However, He and Xie (2024) noted that despite DDL's positive impact on noun collocation retention, some learners expressed uncertain or negative perceptions, suggesting a need for deeper investigation into participants' perspectives.

Considering the above studies, though many existing studies focus on word meanings, fewer have examined collocations as a primary learning target. Among those that do, most emphasize noun-verb and adjective-noun lexical combinations, with prepositional collocations receiving comparatively less attention, despite their vital role in accurate language use. Besides, data-driven vocabulary learning has primarily been implemented at the university level, as DDL is believed to be more efficient for learners with higher L2 proficiency. Nevertheless, research on its practical application in high school settings remains limited, particularly regarding collocation learning (Li et al., 2024). Building on the findings from recent existing research, this present study seeks to contribute to the literature by examining the effectiveness of DDL for teaching prepositional collocations to Thai EFL learners by addressing the research gaps related to high school students and preposition-focused collocation learning focusing on verb and adjective preposition collocations, and students' attitudes toward learning through DDL.

Methodology

1. Participants of the Study

The participants of this study were Grade 11 students from Hatyai Wittayalai 2 School, Hatyai District, Songkhla Province. A purposive sampling method was employed to select students with low proficiency in English, as determined by the school's standardized English assessment. A total of 37 students participated in the study. The selection process ensured that the participants were suitable for addressing the study's objectives by focusing on learners who were expected to benefit most from explicit instruction in preposition collocations.

2. Instruments

2.1 The selected corpus

The Corpus of Contemporary American English (COCA) was utilized as the primary resource for creating exercises aimed at teaching preposition collocations. It provides real-world language usage across diverse contexts, including fiction, academic texts, spoken language, newspapers, and magazines, making it an ideal tool for exposing learners to authentic collocational patterns. The corpus allowed students to observe verb-preposition and adjective-preposition combinations in naturally occurring language.

2.2 Teaching materials

Materials on prepositional collocations were developed to align with the students' learning objectives. While the targeted collocations were drawn from the students' coursebook, additional authentic examples from COCA were incorporated to enhance the accuracy and contextual relevance of the exercises. The materials included four exercises, each consisting of ten items. The first part required students to fill in each gap with the correct preposition, while the second part asked them to write their own sentences using the collocations from the first part. These activities aimed to reinforce both recognition and productive use of collocations.

2.3 pre-and post-tests

A pre-test and post-test were administered to measure students' knowledge of verb- and adjective-preposition collocations before and after DDL. The tests were 50 minutes long and comprised three sections with a total of 15 items. The first part required students to fill in each gap with the correct preposition. The second part involved selecting and inserting the correct verb or adjective + preposition collocation. The third part required students to correct errors in prepositional collocations. The tests were validated by three experts, and their Index of Item-Objective Congruence (IOC) score was 1.00, confirming the high validity of the tests.

2.4 Attitude Questionnaire

A 10-item questionnaire was adapted from previous research (Pan, 2024; Tosun & Sofu, 2023) to assess participants' attitudes and feedback on the learning experience. The questionnaire was administered immediately after the post-test to capture students' reflections on their experience using DDL. The questionnaire consisted of three sections. The first section collected general information about the participants. The second section contained five-point Likert scale items (Strongly Agree = 5 to Strongly Disagree = 1) to examine students' attitudes regarding the usefulness of DDL and the challenges faced while learning collocations through DDL. The last section included an open-ended question to allow students to provide additional comments and suggestions about their learning experience.

3. Data Collection Procedure

The data was collected during the second semester of the academic year 2024, between December and February, in a fundamental English class. Each week, a 50-minute session was allocated for DDL instruction. The research procedure was divided into three main stages: planning and preparation, teaching and experimentation, and post-experimentation.

3.1 Planning and Preparation

COCA was selected as the reference corpus for the study. Learning activities were designed to focus on verb- and adjective-preposition collocations. The materials were carefully developed to incorporate both corpus-based examples and structured practice exercises to facilitate students' gradual understanding of collocational patterns. Prior to implementation, the materials underwent a review by language experts to confirm their suitability for the learners' proficiency level and ensure alignment with the research objectives.

3.2 Teaching and Experimentation

A pre-test was administered to measure students' initial understanding of verb- and adjective-preposition collocations. This was followed by an introduction to the topic, where one of the researchers, as the teacher, explained the key principles of collocations and provided examples to illustrate their use in different contexts. The instruction emphasized how prepositions function in collocational patterns and how meaning can change depending on the prepositional choice.

The DDL approach was implemented by guiding students through the analysis of language data from the designed materials. Students were encouraged to identify common prepositions that frequently appear in verb- and adjective-preposition collocations, recognizing patterns through repeated exposure. To reinforce understanding, students engaged in structured exercises that required them to match verbs and adjectives with

their appropriate prepositions and construct sentences using the collocations they identified.

Throughout the activities, the teacher observed the students' interactions with the exercises and their ability to recognize and apply collocations correctly. Interventions were provided as needed, particularly when students raised their hands to seek clarification or assistance. The teacher facilitated discussions to help students reflect on their learning, encouraging them to articulate their reasoning behind specific prepositional choices.

3.3 post-experimentation

Following the completion of the DDL instruction, the post-test was administered to measure students' learning gains in the collocations after learning. The results of the post-test were analyzed to determine the effectiveness of the DDL approach in improving students' collocational competence. Afterwords, the students were asked to provide their attitudes and feedback on their experiences through questionnaire implementation.

4. Data Analysis

The pre-test and post-test results were analyzed using statistical software to determine the improvement in students' ability to use preposition collocations correctly. The data was analyzed using a paired sample t-test and was conducted to identify whether the differences between the pre-test and post-test scores were statistically significant. Following that, the effect size was calculated to determine the magnitude of the DDL approach's effect on student learning.

Responses from the Likert-scale questionnaire were analyzed using descriptive statistics, including percentages, to determine students' attitudes of the usefulness and challenges of learning prepositional collocations through DDL. Open-ended responses were qualitatively analyzed to identify recurring themes and suggestions for improvement.

Results

This section presents the findings based on data collected from pre- and post-writing tests, as well as the attitude questionnaire.

1. Pre-test and post-test results

Table 1 demonstrates a substantial improvement in students' collocational knowledge after engaging in DDL.

Table 1: Pre-test and post-test results

Test	N	$\bar{x}$	S. D.	Paired difference means	Minimum	Maximum	Sig. (2-tailed)	Cohen's d
Pre-test	37	4.84	2.75	9.48	0	10	.00	0.87
Post-test	37	14.32	0.74		13	15		

* Significant at 0.05

As illustrated in Table 1, a statistically significant difference was found when comparing the pre-test ($\bar{x}$ = 4.84, SD = 2.75) and the post-test ($\bar{x}$ = 14.32, SD = 0.74), with 9.48 of score difference ($p < 0.05$). The large effect size (d = 0.87) was also found, indicating a substantial impact of the DDL treatment on students' learning outcomes (Cohen, 1988).

The results from the paired-sample t-test, as shown in this table, indicated a practically and statistically significant difference between the pre-test and post-test scores, suggesting a notable improvement in students' performance after learning the collocations through DDL.

2. Questionnaire results

The data collected from the questionnaire revealed the students' attitudes toward the usefulness and the challenges of DDL, as can be seen in figure 1 and 2.

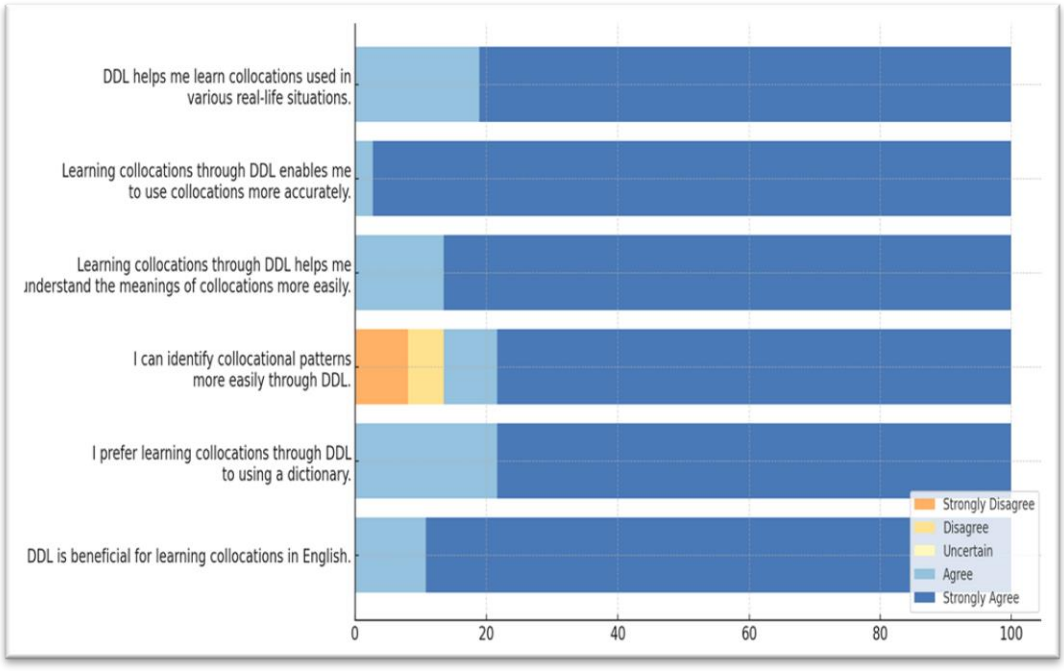

Figure 1: Students' Attitudes Toward the Usefulness of DDL

In response to the usefulness of DDL, the findings indicate that most students held positive attitudes toward its effectiveness. That is, 97.30% of students strongly agreed that learning collocations through DDL helped them to use collocations more accurately. In consistent with this, 89.19% of the students believed that DDL was beneficial for learning collocations in English. Additionally, a substantial percentage of students acknowledged that DDL helped them understand the meanings of collocations more easily (86.49%) and learn collocations used in various real-life situations (81.08%). Furthermore, 78.38% of students stated that they preferred learning collocations through DDL to using a dictionary. Although most students responded positively to the usefulness of DDL, a small number (8.10%) Strongly expressed disagreement with the statement that they could identify collocational patterns more easily through DDL.

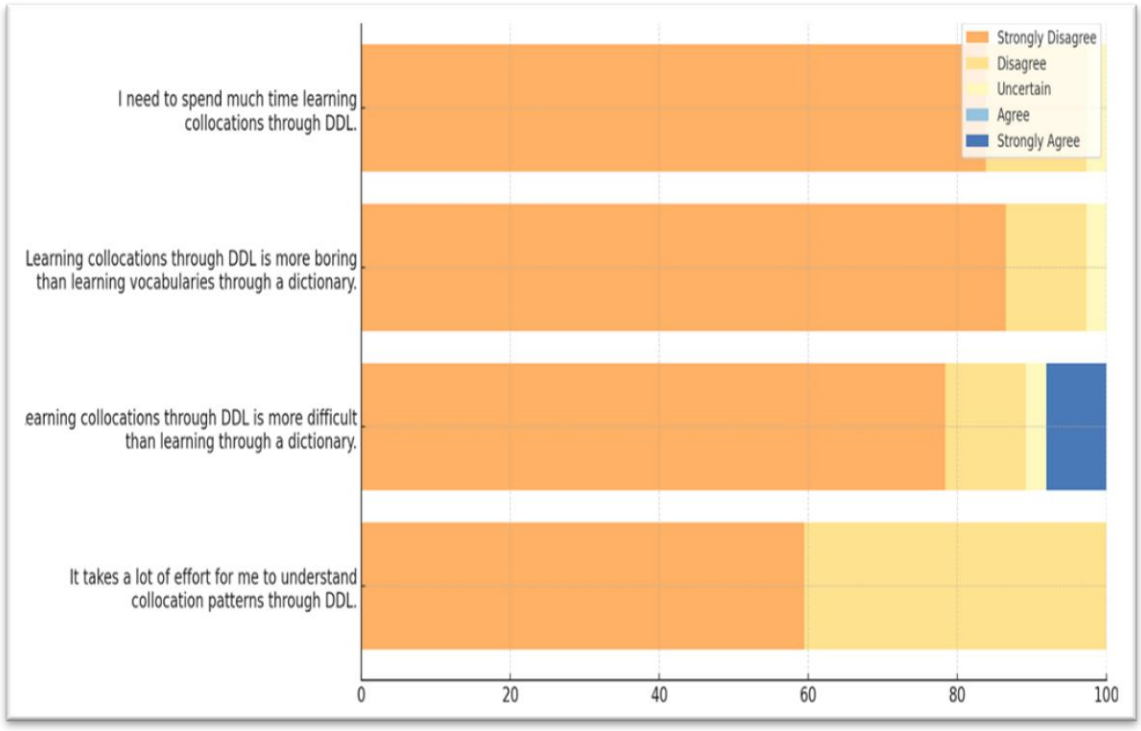

Figure 2: Students' Attitudes Toward the Challenges of DDL

Regarding the attitudes toward the challenges of DDL, the results indicate that a substantial majority of students (86.49%) strongly disagreed that learning collocations through DDL was more boring than learning through a dictionary. Likewise, 83.78% of students strongly disagreed that learning collocations through DDL required excessive time. In terms of difficulty, 78.38% of students strongly disagreed that learning collocations through DDL was more difficult than learning through a dictionary; however, 8.11% strongly agreed with this statement. When asked about the effort required to understand

collocational patterns, 59.46% of students strongly disagreed, further suggesting that most students did not find DDL particularly demanding.

Conclusions and Discussion

The results obtained from both the pre- and post-tests, as well as the questionnaire responses, highlighted the effectiveness of DDL in improving students' collocation knowledge in prepositional collocations. The statistically significant improvement in students' performance suggests that the implementation of paper-based DDL contributed to a notable improvement in their ability to use the collocations. These findings confirm that learners who engaged in DDL developed a practical grasp of the collocations, allowing them to apply these patterns more accurately in their language production. This aligns with Schmidt's (1990) Noticing Hypothesis, which emphasizes that language learners must consciously attend to linguistic patterns for acquisition to occur. Through DDL, students were repeatedly exposed to prepositional collocations in meaningful contexts, which may have facilitated their recognition of these structures. This finding also resonates with Chambers and O'Sullivan's (2004) perspective on autonomous learning, which highlights the importance of fostering self-directed learning in language acquisition. Through DDL, students could engage in autonomous examining of data, leading to self-discovery of collocational patterns. It was stated that learners are more likely to retain linguistic information when they discover it independently rather than through passive learning (Ellis, 2003). Unlike traditional deductive teaching methods, which present rules and rely on memorization, DDL allows learners to engage in inductive learning by discovering linguistic patterns on their own.

The students' positive attitudes toward DDL further validate its effectiveness as an instructional approach. A substantial majority of students found DDL useful, believing that it helped them to use collocations more accurately and was beneficial for learning collocations. These findings align with previous research (Yuvayapan & Yükselir, 2021; Saeedakhtar et al., 2020), which has demonstrated that DDL approach improves accuracy in collocation use. The ability to repeatedly observe collocations in different contexts can allow learners to internalize the patterns and use them more effectively in their own language output. These findings are also consistent with Satake (2022), who found that DDL leads to greater collocational awareness. The finding that a significant number of students preferred DDL to traditional dictionary-based learning methods suggests that DDL instruction is not only effective but also motivating for learners (He & Xie, 2024).

Although the majority favored DDL, a small number of students expressed a preference for dictionary to learn collocations. This might be attributed to differences in individual learning styles, where some learners feel more comfortable with structured and

defined explanations rather than the inductive approach of DDL. Additionally, some students may have faced difficulties due to insufficient knowledge of collocations (Boonraksa & Naisena, 2022). For these learners, dictionaries have possibly offered a sense of clarity and immediacy in understanding collocations, as opposed to the exploratory and discovery nature of DDL (Johns, 1991). However, it should be noted that traditional dictionaries often do not provide adequate support for collocation learning, as they typically focus on individual word definitions rather than word combinations. Many dictionaries allow users to search for isolated words rather than entire collocational parings, limiting their usefulness for learners who need to understand how words function together in natural discourse. This limitation suggests that while dictionaries can be helpful for vocabulary learning, they may not be the most effective tool for acquiring collocational knowledge. Besides, the results also indicate that the challenges typically associated with DDL, such as excessive time consumption and difficulty in understanding collocational patterns, were not significant concerns for most students. In this study, the students nonetheless worked with selected concordance lines from a massive corpus, simplifying the learning process and reducing the risk of overwhelming them. In any case, the teacher-guided implementation of DDL provided necessary scaffolding, ensuring students could navigate and interpret corpus data independently. By consulting the target corpus, teachers can also make pedagogical decisions to determine what to teach while utilizing the target corpus to develop authentic teaching materials (Römer, 2011).

Overall, with respect to the key findings, it was suggested that implementing DDL into classroom instruction can enhance EFL learners' collocational competence while fostering greater autonomy in language learning. However, given the challenges some students faced, further research is needed to explore ways to optimize DDL, particularly in terms of scaffolding, teacher facilitation, and blended approach. By refining the implementation of DDL, educators may maximize its potential in supporting students' ability to use collocations more naturally and accurately in real-world communication.

Recommendations

Based on the findings of this study, several practical recommendations can be made for effectively implementing DDL in English language classrooms to improve students' collocational competence:

1. For high school EFL learners with limited access to technology or less familiarity with corpus tools, paper-based DDL is a practical and effective option. Teachers can pre-select concordance lines from accessible corpora like COCA and present them in worksheet form, allowing students to focus on noticing patterns without the cognitive load of navigating digital interfaces.

2. To prevent confusion or cognitive overload, it is recommended that teachers carefully select examples of collocations, adjusting certain lines with overly complex grammar or vocabulary.
3. Before presenting corpus data, activate students' background knowledge related to the target collocations. This helps learners make meaningful connections and better anticipate patterns, increasing the effectiveness of DDL tasks.

This study highlights the potential of DDL as an effective approach for teaching preposition collocations in EFL contexts. The findings demonstrate that engaging students in DDL could benefit from emphasizing natural and context-rich usage, leading to improved accuracy and more natural language use. The study also highlights the positive effect of DDL, as most students found it to be useful for collocation learning, with many preferring it over traditional dictionary. Nevertheless, despite its benefits, this study acknowledges several limitations. Firstly, the sample size was small and limited to a specific group of EFL students, which may restrict the generalizability of the findings. Future research could examine how DDL affects learners across a wider range of language proficiencies and educational backgrounds. Secondly, some students experienced difficulties in independently identifying collocational patterns, suggesting that DDL may not be equally effective for all learners. Lower-proficiency students may require additional scaffolding and teacher guidance to fully benefit from DDL. Another limitation of this study is the possibility of researcher-teacher bias, as the researcher also served as the instructor during the implementation of the DDL. This dual role may have influenced students' responses, attitudes, or performance, either consciously or unconsciously. To minimize this bias, the researcher adhered strictly to a standardized lesson plan, used pre-developed instructional materials, and ensured that the same level of support was given to all participants. In addition, students were encouraged to provide honest and anonymous feedback through self-administered questionnaires without the presence of the researcher. Lastly, while this study focused on paper-based DDL, the integration of digital tools and interactive corpus software could further enhance students' ability to explore collocations effectively. Given these limitations, further studies should investigate ways to optimize DDL implementation, ensuring that it is adaptable to diverse classroom contexts and learner needs. By addressing these challenges, educators can maximize the potential of DDL in enhancing collocational competence and overall language proficiency among EFL learners.

Abstract

Vocabulary learning strategies (VLSs), which are techniques or methods learners use to acquire innovative words (Riyantika, Hanafi, & Aini, 2024), have been found to influence language learning outcomes. This paper reviews several academic journals focused on the use of VLSs within the context of English as a foreign language (EFL), particularly in Asia. The review follows a three-phase process—identifying, screening, and reading—to provide a thorough overview of both theoretical discussions and empirical research on VLSs. It starts with defining VLSs, followed by an exploration of their classifications. It then reviews recent empirical studies (2020-2024) that classify the types of VLSs used, assess the frequency of these strategies, and examine the relationship between VLSs and vocabulary mastery. It also highlights factors affecting VLS use, such as motivation, gender differences, proficiency level, critical thinking skills, and the explicit instruction of VLSs, and discusses how these factors impact vocabulary acquisition. The results indicate inconsistencies in the use of VLSs among EFL learners. For instance, a study of 219 Saudi learners found that memory strategies were most preferred (Al-Khresheh & Al-Ruwaili, 2020), while a separate study of 42 Omani college students highlighted the frequent use of cognitive strategies (Behforouz & Ghaithi, 2022). In contrast, a study involving 180 Indonesian students revealed that metacognitive and encoding strategies were most used, with cognitive strategies being the least utilized (Mistar, 2023). The goal of this review is to offer insights that could help refine VLSs for more effective vocabulary learning.

Keywords: Vocabulary Learning Strategies, Classification, Learner-Based Factors, Explicit Vocabulary Instruction

Introduction

In the era of globalization, the international spread of language is inevitable, with English undoubtedly taking the lead. This involves three key components: pronunciation, vocabulary, and grammar. Among these, vocabulary stands out as the most essential and dynamic element (Bai, 2018). It plays a crucial role in language acquisition, significantly

impacting both the receptive and productive skills necessary for effective communication (Choo & Ng, 2024; Son & Ly, 2024; Al-Khresheh & Al-Ruwaili, 2020).

Vocabulary acquisition is a core element of language learning, essential for understanding all forms of communication and comprehension. For learners of English as a foreign language (EFL), mastering vocabulary is particularly crucial, as it directly affects their ability to read, write, speak, and understand the language effectively. Without a strong vocabulary foundation, even advanced grammatical knowledge may not suffice for successful real-world communication (Riyantika, Hanafi, & Aini, 2024). Conversely, limited vocabulary knowledge often leads to challenges in learning a second language (Chiew & Ismail, 2021). Effective vocabulary learning requires a comprehensive approach, encompassing not only the meaning of words but also their spelling, pronunciation, grammatical properties, connotations, morphological variations, and semantic relationships (Ghalebi, Sadighi, & Bagheri, 2020).

To support and enhance vocabulary acquisition, learners must employ effective vocabulary learning strategies (VLSs), which are integral to the broader category of language learning strategies (LLSs). Research on LLSs suggests that language aptitude alone is not sufficient for language success. Rather, it is the learners' effort and the specific strategies they use in acquiring and retaining vocabulary that play a significant role in their ability to master the language (Alahmad, 2020). Therefore, understanding and utilizing these strategies is essential for improving vocabulary skills and overall language proficiency.

The studies on strategies for vocabulary learning have evolved, as demonstrated by the large volume of recent research (e.g., Alahmad, 2020; Aljasir, 2025; Al-Khresheh & Al-Ruwaili, 2020; Behforouz & Ghaithi, 2022; Chiew & Ismail, 2021; Ghalebi et al., 2020; Riyantika et al., 2024; Son & Ly, 2024; Zuhairi & Mistar, 2023). However, these studies reveal inconsistencies regarding the intensity and effectiveness of vocabulary learning strategies (VLSs). Despite the wealth of research on this topic, there is a need for a comprehensive review to resolve these inconsistencies, synthesize the findings, and identify areas that require further investigation.

This review explores the classification of VLSs as proposed by influential scholars widely cited in the field. The aim is to examine the intensity of VLSs use among EFL and L2 learners in academic settings, particularly in Asian countries where English is taught as an L2. To provide deeper insights, the review includes empirical studies from 2020 to 2024 on VLSs usage, learner-based factors influencing VLSs use, and the impact of explicit vocabulary instruction on VLSs implementation. It is hypothesized that learners use a variety of VLSs with varying degrees of intensity, influenced by several key individual factors. Specifically, the review posits that motivation, age, language proficiency level, and the presence of explicit vocabulary instruction significantly impact the choice and

frequency of VLS use. Initiative-taking learners and those with higher language proficiency are expected to employ metacognitive and cognitive strategies more frequently and effectively. Similarly, older learners or those with more academic experience may rely more on strategic vocabulary learning approaches. Furthermore, the integration of explicit vocabulary teaching is hypothesized to enhance the use and effectiveness of specific strategies, particularly those that involve deeper processing. These hypotheses are formulated to guide the review of how individual and instructional variables shape strategy use and vocabulary acquisition outcomes.

The methodology for this review is structured in three phases: first, identifying relevant research articles; second, screening the abstracts of articles aligned with the review's scope; and third, conducting an intensive reading of the full articles. For identifying articles, a scope for the initial review and search strategy was determined, where the search term included 'VLSs' and 'EFL' using ERIC and Google Scholar databases.

Literature Review

Definition of VLSs

Vocabulary learning strategies play a crucial role in helping learners acquire and retain innovative words effectively. According to Qiufang (2003 as cited in Bai, 2018), learning strategies are defined as behaviors or actions that learners use to enhance the effectiveness of their learning. This definition emphasizes that the purpose of using strategies is to improve learning; strategies are actions or behaviors, not just thoughts. Therefore, vocabulary learning strategies can be defined as the behaviors or actions learners use to make vocabulary acquisition more effective. Other researchers have shown that vocabulary learning strategies are specific actions or techniques employed by learners to acquire new vocabulary. These strategies can range from simple methods, like rote memorization and repetitive practice, to more advanced techniques, such as using mnemonics, contextual learning, or multimedia resources. The effectiveness of these strategies varies significantly among learners, depending on factors such as individual learning styles, motivation, and prior knowledge (Riyantika, Hanafi, & Aini, 2024).

Classifications of VLSs

The classification of vocabulary learning strategies (VLSs) has been a major area of research in second language acquisition. Various scholars have proposed different frameworks for categorizing these strategies based on their approaches to vocabulary retention, recall, and use. This section reviews the key contributions of several researchers and their classifications of VLSs.

Influential scholars in the 1990s have proposed VLSs in numerous ways (Oxford, 1990; Schmit, 1997 & Nation, 1997 as cited in Son & Ly, 2024). In 1990, Rebecca Oxford

introduced Oxford's Taxonomy of Language learning strategies, a system that categorizes language learning strategies into cognitive strategies, which include methods like memory techniques; metacognitive strategies, which relate to planning and self-assessment; and social/ affective strategies, which involve activities such as seeking for help and coping with emotional elements such as anxiety during the learning process. Schmit, in 1997, categorized strategies into two broad types, discovery and consolidation strategies, and designated VLSs into five groups: determination, social, memory, cognitive, and metacognitive strategies. Learners employ Determination strategies without the assistance of others to figure out the meaning of a word by using strategies such as word class strategies, analyzing word components, guessing word meaning from context, and using a dictionary. For social strategies, learners can learn innovative words through interaction with others. Memory strategies involve imagination, group words, and collocation. Metacognitive describes how learners monitor, decide, and self-assess their learning process. Paul Nation introduced the taxonomy of vocabulary acquisition in 1997. It comprises of discovering meaning, consolidating form, and meaning, and using a word in context.

Gu and Johnson (1996) divide VLSs into four categories: metacognitive, cognitive, memory, and activation. According to them, metacognitive strategies are to recognize fundamental words for comprehension. Learners then look for strategies, methods, and techniques to learn these words appropriately. Learners apply several strategies to find out the meaning of the words. Cognitive strategies involve guessing, using a dictionary, and note-taking. Memory strategies relate to transferring a newly learned word from short to long-term memory and determining pronunciation and meaning. To make word lists, pay attention to pronunciation, code using visual and verbal clues, and revise are required. Activation strategies allow learners to apply innovative words in various situations.

According to Akbari and Tahririan (2009), VLSs are classified into two main groups: first, strategies for discovering the meaning of an innovative word (comprehension strategies), and second, strategies for consolidating a word once it has been encountered (learning/acquisition strategies). Comprehension strategies include determination strategies and transactional strategies. Determination strategies are further divided into three main sub-strategies: guessing a word's meaning from context, word analysis, and finding meaning from a dictionary. About transactional strategies, since asking for the meaning from teachers or classmates was not the method through which words were learned in social interactions, this strategy is referred to as a transactional strategy.

More recently, Hashemi and Hadavi (2015) attempted to investigate the VLSs among 185 Iranian medical science learners of English as a foreign language. They identified eight VLSs use categories: dictionary use, guessing, memory, study preference, autonomy, note taking, selective attention, and social strategies.

Overall, the classifications emphasize dissimilar stages of vocabulary learning, from discovering meanings and consolidating knowledge to using words effectively in context. Strategies vary from cognitive and metacognitive to social and memory-focused techniques, with some emphasizing independent learning and others promoting interaction with peers or instructors.

Empirical Research on VLSs

Researchers from different countries have studied the VLSs used by L2 or EFL learners while learning new vocabulary and the factors affecting or influencing their language acquisition from the past two decades until now. Therefore, it is impossible to address all existing studies in just one paper. This section selectively reviews recent studies, specifically from Asian countries such as China, Japan, Korea, Saudi Arabia, Iran, Oman, Thailand, Indonesia, Vietnam, and Malaysia, where English is learned as a foreign or second language published from 2020 onward. The selection of studies employed these criteria: 1) the studies were conducted in educational contexts regarding VLSs, 2) the studies involved vocabulary in English learning, and 3) the studies primarily related to English language learning as an L2 or a foreign language in Asian countries.

Research on VLSs Use

A huge body of studies have been done to explore what VLSs were employed while learners learning new vocabulary in academic contexts and mostly used a questionnaire regarding VLSs and an interview as an approach to find out the investigation. According to Zuhairi and Mistar (2023), the studies may be classified into two main categories: attempting to classify the type of VLSs and measure the extent of use of these strategies and assessing the relationship between VLSs and vocabulary mastery. This section reviews research among the first categories.

Several studies over recent years have explored vocabulary learning strategies (VLSs) across diverse learner populations, revealing variations in strategy use and effectiveness. In 2020, Al-Khresheh and Al-Ruwaili (2020) conducted a study on a group of 219 male and female Saudi learners of English to determine their uttermost favorite VLSs using a vocabulary learning strategies questionnaire consisting of 42 items. All participants were from the English department. The results of descriptive statistics revealed that memory strategies were the most preferable, while determination, social and metacognitive strategies were used moderately and ranked in the middle. Cognitive strategies were reported as the least used strategies among the participants. The

researchers explained that mnemonic tools for vocabulary learning are effective. They consist of methods such as creating acronyms, associating innovative words with images, synonyms, and other keywords. These methods assist language learners in linking innovative words together in their minds.

In the same year, Ghalebi et al. (2020) examined a sample of 218 EFL students on BA, MA, and Ph.D. s of English language studies at an Iranian university to find out if learners with diverse levels of academic degrees differ in using VLSs. Open-ended and closed-ended questionnaires on VLSs were applied as the research instrument. Results based on quantitative and qualitative analysis revealed that undergraduate and postgraduate students significantly differed in their usage of VLSs, but there was no significant difference between MA and Ph.D. students in VLSs use. Regarding the most frequently used VLSs, it found that postgraduate students used metacognitive strategies the most, while determination and memory strategies were found to be the most frequently used strategies by undergraduate students.

Also in 2020, Alahmad (2020) investigated VLSs and their relation to vocabulary size in 41 Saudi female undergraduate EFL learners using a questionnaire to measure the frequency of VLSs use and a vocabulary test size. Results showed that although the learners used 17 strategies with a high frequency, 14 of 16 items of VLSs correlated negatively with vocabulary size, implying that the more the learners used these strategies, the less their vocabulary mastery would be.

Moving to 2021, Thiendathong and Sukying (2021) investigated VLSs used by 491 Thai high school students in science, language, and English programs, compared the use of VLSs between these programs of study, and examined the relationship between different strategies. Two instruments, a 47-item questionnaire of VLSs and a semi-structured interview, were used. All participants were assigned to complete the questionnaire, but only 21 were selected for the interview session to collect qualitative data. The results indicated that determination strategies such as using a dictionary were used the most frequently. By contrast, memory strategies were employed the least. Regarding the use of VLSs between different study programs, it showed that the English program participants outperformed the science and language program participants in all VLSs. In terms of the relationship between VLSs, the results revealed a significant positive relationship among all VLSs, indicating that the participants are likely to use more than one strategy when learning vocabulary and may use all types of VLSs to acquire and learn vocabulary. Building on this, Wahyudin et al. (2021) supported similar findings through research involving 120 non-English major participants, who used cognitive strategies the most frequently. In other words, the participants use innovative words in a sentence to remember them from time to time.

In 2022, Behforouz and Ghaithi (2022) explored the VLSs use of 42 Omani college students learning English as a foreign language. To collect the required data, a VLSs questionnaire was employed. The analysis of the data revealed that cognitive strategies were highly employed by the Omani EFL students, followed by determination strategies, memory strategies, metacognitive strategies, and social strategies, respectively.

In 2023, Altalhab (2023) investigated the VLSs used by Saudi university students during their pair work. The participants were 40 Saudi male undergraduate students studying English as their major. Reading comprehension with multiple-choice questions and reading comprehension with filling in the gap were used as research instruments, and all the pairs' conversations were audio recorded. The results from examining the data and the transcripts of the pairs' conversations showed that the students used three main strategies to find the meaning of the new word during their pair work, i.e., using a dictionary, guessing the definition of a word from context, and asking for help from another student. In terms of preferences, it was found that using a dictionary was the most frequent strategy used, followed by guessing the meaning of a word, and the least used was asking the other student for their help with the meaning of unknown words. The researcher pointed out that the students preferred to use a resource that would lead them to the direct meaning of unknown words rather than guessing or asking another student. So, many students used their mobile phones to find word meanings.

Also in 2023, Ueno and Takeuchi (2023), by contrast, examined which VLSs are perceived as important and useful and how they are used by Japanese university students learning English as a foreign language. The researchers also investigated if higher and lower proficiency groups of students' perceptions and use of strategies vary. The participants were 40 first– to fourth-year Japanese students at three private universities in Japan studying English as their major. The participants were divided into two groups of higher (16) and lower (24) proficiency based on their English qualification. To measure the students' use of VLSs, an open-ended questionnaire was employed. The findings indicated that cognitive strategies related to word form, sound, association learning, and metacognitive strategies were perceived as important and useful and were employed frequently. Results from the two proficiency groups showed that the higher-proficiency group perceived metacognitive strategies as important, but these were not found in the lower-proficiency group.

In the same year, Zuhairi and Mistar (2023) examined the types of VLSs, the intensity of use, and their relationship with the vocabulary mastery of Indonesian EFL learners. The participants were 180 English education department students from three universities in Indonesia. A 50-item VLSs inventory and a 50-item vocabulary mastery were used as instruments and given to all participants. To categorize the VLSs use, Principal

Component Analysis (PCA), together with descriptive and correlational analyses, were employed. Six categories of VLSs, including cognitive, metacognitive, determination, memory, encoding, and activation strategies, were revealed in the study. It found that the students applied VLSs at a moderate level, with metacognitive and encoding strategies being employed the most and cognitive strategies being used the least. The six categories of strategies were significant predictors of vocabulary mastery, with metacognitive strategies being the best predictor.

All the above studies demonstrate that VLSs were applied by learners of English as a foreign language of different academic levels, ranging from high school to Ph.D., but with different frequencies of usage. Methodologically, these studies employed a range of approaches, questionnaires (Alahmad, 2020; Al-Khresheh & Al-Ruwaili, 2020; Behforouz & Ghaithi, 2022; Ghalebi, Sadighi, & Bagheri, 2020; Ueno & Takeuchi, 2023), questionnaire and interview (Thiendathong & Sukying, 2021), reading comprehension with multiple-choice questions and reading comprehension with filling in the gap (Altalhab, 2023) and VLSs inventory and vocabulary mastery (Zuhairi & Mistar, 2023). Despite the methodological diversity, these studies revealed the EFL learners' employing of VLSs in learning English vocabulary.

Research on Learner-Based Factors Influencing VLSs Use

Several learner-based factors have been found to have an impact on VLSs use in second or foreign language learning contexts, such as motivation (Lee, Ahn, & Lee, 2022), gender differences (Riyantika, Hanafi, & Aini, 2024), critical thinking skills (Soleimani, Aghazadeh, & Bolou, 2024), and proficiency level (Aljasir, 2025). This section reviews the effects of the aforementioned factors on VLSs use in that order.

Lee et al. (2022) investigated the relationship between language learning motivation, VLSs, and two components of second language vocabulary knowledge, i.e., vocabulary size and depth. 185 secondary-level Korean learners of English as a foreign language were given a questionnaire regarding their motivation (intrinsic motivation and extrinsic motivation) and VLSs use examining through 23-item VLSs questionnaire. Vocabulary size was assessed using Nation and Beglar's bilingual version of the Vocabulary Size Test, and vocabulary depth was assessed using the Word Association Test adapted from that of Read's. The results revealed that motivation directly predicted VLSs and vocabulary knowledge and indirectly predicted vocabulary knowledge via VLSs. Additionally, it was found that intrinsic motivation had a stronger influence on the use of VLSs and vocabulary knowledge than extrinsic motivation.

Riyantika et al. (2024) explored VLSs in learning innovative words for EFL learners regarding gender differences. The participants were 30 male and female students investigated through a questionnaire distributed via Google Forms and a semi-structured

interview. The results revealed differences in preferences in students' approaches to learning innovative words, representing wider cognitive and social learning patterns. Male students prefer visual and logical techniques, such as utilizing dictionaries, visual aids, and spaced repetition. These methods align with their visual-spatial learning style and their organized approach to memory retention. On the other hand, female students are more inclined towards social and contextual strategies, like collaborative learning, mnemonics, and digital tools, which complement their tendency for interactive and associative learning.

According to Soleimani et al. (2024), critical thinking is widely regarded as an essential concept in teaching and learning. Based on this, they conducted research to investigate the association between EFL learners' critical thinking capabilities and their VLSs across gender. The participants were a total of 140 Iranian male and female intermediate students from the Iran Language Institute in Urmia, Iran. The study used a survey approach, collecting data through the Preliminary English Test (PET) to homogenize students, Schmitt's VLSs questionnaire to identify the strategies they used, and Ennis' Cornell Critical Thinking Test to assess their critical thinking abilities. The study found a positive correlation between critical thinking and VLSs among Iranian EFL students, with male learners outperforming females in both areas. These findings support previous research showing that advanced critical thinking skills enhance vocabulary learning and that students with strong critical thinking abilities use a variety of learning strategies. The gender differences observed may be influenced by teaching methods and classroom culture, highlighting the importance of individual learning styles and preferences.

Aljasir (2025) examined 60 Saudi EFL learners' VLSs use based on their proficiency level using a demographic and background questionnaire, the think-aloud protocol, and a semi-structured interview. The learners were divided into two groups of beginner and advanced proficiency levels. The findings showed that beginner learners relied on basic memory and cognitive strategies, such as repetition, rote memorization, and bilingual dictionaries, which helped them achieve quick results and build foundational vocabulary. In contrast, advanced learners utilized more sophisticated strategies, like monolingual dictionaries, contextual guessing, and morphological analysis, which fostered a deeper understanding and long-term retention of new vocabulary.

In summary, motivation, gender, critical thinking capability, and language proficiency significantly affect how learners use vocabulary learning strategies. To highlight the findings of the above reviews, intrinsic motivation strongly influenced vocabulary learning strategies use and vocabulary knowledge, while extrinsic motivation had a weaker effect. Motivation directly predicted VLSs use and vocabulary knowledge. Male and female learners showed different preferences in VLSs use. Males favored visual and logical strategies (e.g., dictionaries, visual aids), while females preferred social and contextual

strategies (e.g., collaborative learning, mnemonics). Beginner learners relied on basic memory strategies like repetition and rote memorization, whereas advanced learners used more complex strategies, such as contextual guessing and morphological analysis, leading to deeper understanding and long-term retention. A positive correlation was found between critical thinking and VLSs use. Male learners outperformed females in both areas, suggesting that critical thinking skills enhance vocabulary learning and the use of diverse strategies.

Research on Explicit Instruction of VLSs

Recent research has highlighted the effectiveness of explicit instruction in vocabulary learning strategies for enhancing vocabulary acquisition and usage in English as a foreign language context. Studies by Nshiwi (2020) found that explicit instruction outperforms implicit methods in enhancing learners' vocabulary knowledge. These studies emphasize the value of explicit teaching approaches in improving vocabulary competence and reading skills among EFL learners. Similarly, Al-Ghazo and Ta'amneh (2022) as well as Choo and Ng (2024) demonstrate that targeted instruction through various platforms, such as MOOCs and video conferencing, leads to significant improvements in vocabulary usage and reading comprehension. The following section gives more details of these studies.

Nshiwi (2020) explored the impact of memory and cognitive strategies on vocabulary acquisition within the context of teaching English as a foreign language. It specifically examines the short-term effects of these strategies and investigates how EFL teachers incorporate them into their teaching, whether through implicit, explicit, or a combination of both methods. Using a mixed-methods approach, two primary tools were employed: a questionnaire to assess the memory and cognitive strategies used by both EFL teachers and intermediate learners and a vocabulary test to evaluate the effect of these strategies on vocabulary learning. The study involved a sample of 36 intermediate learners, divided into experimental (15 students) and control (21 students) groups, along with 30 EFL teachers. The data were analyzed descriptively and analytically. Results indicate that explicit instruction of memory and cognitive strategies significantly enhance vocabulary learning compared to implicit instruction.

Al-Ghazo and Ta'amneh (2022) came up with a similar finding in research examining the effect of implementing the contextual guessing strategies on improving the vocabulary competence and reading comprehension of sixty EFL learners enrolled in two classes of English courses, advanced reading, and summarizing. They were divided into two groups, 30 in the control group and 30 in the experimental group. The instruments were a 50-item vocabulary level test, which was used as a pre- and post-test for both groups, and a reading comprehension test. The experiment group was instructed with the procedures and ways of contextual guessing strategies: definition, similarity, restatement, surrounding

words, and punctuation marks. The study results showed a significant difference in learners' vocabulary competence and reading comprehension achievements between the control and experimental groups due to the treatment.

Choo and Ng (2024) examined the effects of online diversities on VLSs and vocabulary usage in writing via an open online course (MOOC) and video conferencing platforms. 94 undergraduate ESL learners majoring in sciences and arts and humanities were divided into two groups: MOOC group (50) and video conference group (44). 50 learners completed a five-week VLSs course on a MOOC, while 44 students learned from the instructor using Microsoft Teams. Data were analyzed through questionnaires and learners' compositions. The results from Lextutor's version of lexical frequency profiling and descriptive and inferential statistics showed a significant increase in usage in all categories of the VLSs (context clues, word formation, dictionary skills, mnemonics, and meta cognitive strategies) after the course for both groups. Furthermore, the effects of VLSs instruction on vocabulary usage could be reflected in both groups' writing.

Conclusions and Discussion

Vocabulary Learning Strategies (VLSs) have been a key area of research in second language acquisition, with various scholars proposing different classifications. These classifications include strategies such as metacognitive strategies (planning and self-assessment), cognitive strategies (memory techniques and note-taking), social strategies (interaction with others), discovery strategies (guessing meanings and using a dictionary), consolidation strategies (consolidating form and meaning), determination strategies (figuring out word meaning independently), activation strategies (applying new words in context), comprehension strategies (understanding new words), and learning/acquisition strategies (consolidating and retaining words). Each classification offers insights into the different approaches learners use to acquire and retain vocabulary effectively.

A review of empirical studies shows that recent research on VLSs has mainly focused on three key areas: the frequency or preference of use, the connection between VLSs and vocabulary proficiency, and the factors influencing VLS use, for example motivation, gender differences, proficiency level, critical thinking skills, and explicit vocabulary instruction. These topics are essential to current research and are likely to remain important in future studies. Considering these findings, future studies should examine underexplored learner-based variables, such as learning styles, self-regulation, language awareness, or digital literacy, and how these factors influence VLS usage and effectiveness. Further research should also investigate how learners respond to explicit instruction in VLSs, including whether this enhances long-term vocabulary retention and reading comprehension.

In the context of Thailand, English is considered a foreign language and holds a fundamental role as a core subject at all educational levels. According to Cheiw and Ismail (2021), achieving academic success requires learners to know and use appropriate vocabulary. In contrast, a lack of vocabulary recognition or expansion can slow down the learning process in a second language (L2), making it harder to understand the language flow. Building on this, explicit instruction in VLSs has been shown to be more effective than implicit approaches in enhancing both vocabulary competence and reading proficiency among EFL learners. In the context of VLSs, cognitive strategies focused on word form and associative learning, as well as metacognitive strategies, were identified by Japanese university students as particularly valuable. Furthermore, among the six categories of VLSs employed by Indonesian learners, metacognitive strategies emerged as the strongest predictor of vocabulary mastery (Al-Ghazo & Ta'amneh, 2022; Choo & Ng, 2024; Nshiwi, 2020; Ueno & Takeuchi, 2023; Zuhairi & Mistar, 2023). Therefore, to enhance the effectiveness of the learning process for EFL learners, it is recommended that Thai teachers explicitly introduce various effective VLSs, such as cognitive and metacognitive strategies, in classrooms to help students become familiar with and confidently use these strategies.

Investigating the Attitudes to English Foreign Language Learning among First-Year Students at Hatyai University

Nathaphon Rujiruangrot[1*] and Chretien Le Keur[2]

[1,2]Lecturer, Language Institute, Hatyai University.

[*]**Corresponding author, E-mail:** nathaphon@hu.ac.th

Abstract

This study examines the attitudes, behaviors, and preferences of first-year students at Hatyai University in Thailand in learning English as a foreign language. Survey findings reveal that students have a cheerful outlook toward English, recognizing its value for academic and real-world communication. Most actively engage in discussions and practice daily, favoring interactive methods such as group activities, role-playing, and integrated skill exercises. Technology, including videos, apps, and online tools, is highly valued for its engaging and supportive role, while traditional methods like grammar explanations and vocabulary drills remain important for structured learning. However, challenges persist, including fear of making mistakes, particularly in speaking and writing, which affects confidence, as well as frustration with difficult concepts. Despite these obstacles, many students adopt a growth mindset, using mistakes as learning opportunities. The study suggests that integrating real-world scenarios, leveraging technology, and offering low-pressure practice opportunities can enhance engagement and confidence. By balancing traditional and modern teaching approaches, educators can better support students in overcoming challenges and achieving their language learning goals in a positive and encouraging environment.

Keywords: English as a Foreign Language, Language Learning Approaches, Student Attitudes toward English

Introduction

The transition to university represents a pivotal stage for students, particularly those learning English as a Foreign Language (EFL). For first-year university students, proficiency in English is not only an academic necessity but also a critical skill for personal development, career advancement, and active participation in a globalized world. In Thailand, where English serves as a vital medium for international communication and economic progress, the significance of effective EFL education is undeniable. Research has consistently emphasized the role of English in enhancing socio-economic opportunities and fostering intercultural competence (Norton, 2000; Canagarajah, 1999).

Existing studies highlight the complex nature of language learning, which involves current academic challenges. Limited attention has been given to understanding how first-year university students perceive their journey of learning English—specifically their attitudes, motivations, and preferred approaches. This gap is particularly relevant in multilingual contexts like Thailand, where traditional rote-learning methods are gradually being replaced by communicative and interactive pedagogies (Hu, 2002; Butler, 2014).

Current research on this topic is being done in many countries to ascertain what contributes to students' attitude in learning EFL. One study by Arts Department of the University of Kufa in Iraq done in 2023, aimed to establish links between attitudes of students towards EFL learning according to age, gender, program of study and year of study. Their findings pointed out that students recognize the importance of English for academic, professional, and global communication. They are motivated by instrumental reasons such as future job opportunities and integrative reasons such as cultural interest. Students may also struggle with anxiety, lack of confidence and difficulties in mastering the language skills as well as their attitude may be shaped by societal views on English and English teaching methods.

The findings from the research stated above will aid in this research as it provides comparative insights with regards to EFL motivations and barriers as well as the pedagogical implications from the findings to make recommendations for the learning institution.

This study focuses on first-year students at Hatyai University, to explore their current attitudes and approaches to EFL learning. Using questionnaire surveys as the primary research method, it examines students' current attitudes toward language learning in an academic setting. The findings reveal that students have positive attitudes toward learning English but face challenges such as fear of making mistakes and adapting to university-level demands—issues frequently cited in existing literature (Kim, 2011; Hyland, 2006). These insights will inform recommendations for curriculum design and teaching strategies that address students' needs holistically.

This research contributes to the broader discourse on EFL education in higher education settings. It emphasizes the importance of fostering supportive and dynamic learning environments that empower students to overcome challenges and achieve their language learning objectives.

Objectives

1. To assess the attitudes of the first-year university students at Hatyai University toward learning English as a Foreign Language (EFL).
2. To identify the preferred learning methods and strategies used by first-year

university students in their EFL studies.

Research Questions

1. What are the attitudes of first-year university students at Hatyai University toward learning English as a Foreign Language (EFL)?
2. What are the preferred learning methods and strategies used by these students in their EFL studies?

Concept theory framework

This research investigates the attitudes, behaviors, and preferences of first-year university students at Hatyai University toward learning English as a Foreign Language (EFL). The framework posits that students' approaches to EFL learning are primarily influenced by their current perceptions and challenges. This study uses a questionnaire survey to examine the influence of these elements.

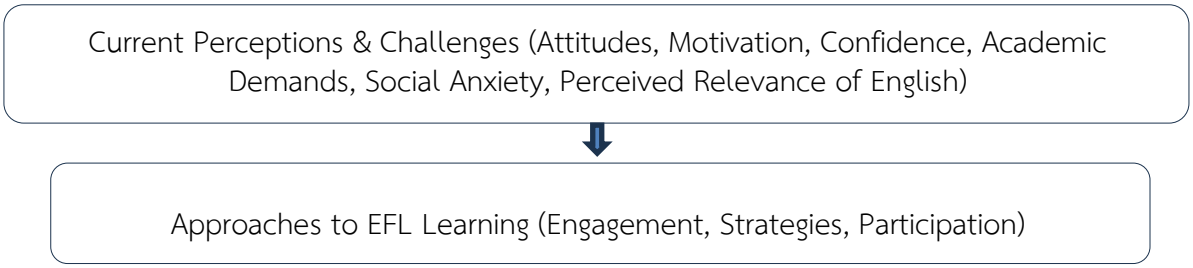

Figure 1: Research Framework

Materials and Methods

This study aims to investigate the current attitudes, behaviors, and preferences of first-year university students at Hatyai University toward learning English as a Foreign Language (EFL). To achieve this objective, a quantitative research approach using a survey questionnaire was employed. A descriptive survey design was utilized to gather data on students' perceptions and approaches to EFL learning. This design is appropriate for providing a snapshot of the current state of attitudes and practices within the specific population (Creswell, 2014). The study used a cross-sectional survey, administering the questionnaire at one point in time to collect data from the participants (Creswell, 2014).

The participants consisted of 146 first-year university students enrolled in various academic programs at Hatyai University. Participants were recruited from all classes that offered English as a Foreign Language and were instructed to complete the questionnaires honestly. The sampling strategy was convenience sampling, which involves selecting participants based on their availability and accessibility (Bryman, 2012).

A structured questionnaire was used as the primary data collection instrument.

The questionnaire consisted of closed-ended questions using Likert-scale items. The questionnaire addresses the students' attitudes toward the English classes, activities, motivation, and confidence levels in learning English. The questionnaire was piloted with a small group of students (n=10) to ensure clarity, relevance, and ease of completion. Based on feedback from the pilot study, minor adjustments were made to the wording and format of some questions.

The questionnaire used in this study was adapted from concepts and frameworks presented in Lightbown and Spada (2013)'s How Languages Are Learned. While Lightbown and Spada (2013) do not provide a single, ready-made questionnaire, their work informed the development of sections assessing students' attitudes, behaviors, preferences, and perceived challenges in EFL learning. Some modifications were made to include items relevant to the Hatyai University context and to address the research questions.

Ethical approval was obtained from the university's research ethics committee prior to data collection. The questionnaires were administered to participants during class time. Participation was voluntary, and students were informed about the purpose of the study and assured of the confidentiality of their responses. It took approximately 30 minutes to complete the questionnaire.

Quantitative data from the questionnaires were analyzed using descriptive statistics (e.g., frequencies, percentages, means, standard deviations) to summarize the characteristics of the sample and identify common patterns in students' attitudes and approaches to EFL learning.

The study's reliance on convenience sampling may limit the generalizability of its findings to other populations or contexts. Additionally, self-reported data from questionnaires may be subject to biases, such as social desirability bias. Future research should consider using larger, more diverse samples and incorporating qualitative methods to provide a richer understanding of students' experiences. Furthermore, student-teacher familiarity and the class environment may have influenced student responses, which should be considered when interpreting the results.

Results and Discussion

Table 1: A. The Demographic Data of 146 Research Participants

	Item	# of Students (146)	% Total Respondents
Gender	Male	32	21.9
	Female	114	78.1
Age	under 20	85	58.2

	Item	# of Students (146)	% Total Respondents
	21	37	25.3
	22	13	8.9
	23	6	4.1
	24	2	1.4
	25	2	1.4
	Over 25	1	0.7
Faculty of Study	Business Administration	17	11.6
	Law	4	2.7
	Education and Liberal Arts	99	67.8
	Science and Tech	6	4.1
	Political Science	0	0
	Communication Arts	19	19
	Didyasarin International College	1	1

The study involved 146 first-year students from various faculties at Hatyai University. Most participants were female (78.1%), with most students being under 20 years old (58.2%). The largest representation came from the Faculty of Education and Liberal Arts (67.8%), followed by Business Administration (11.6%) and Communication Arts (13%). The demographic data reflects a young, female student population, which is typical for first-year university students. The overrepresentation of students from the Education and Liberal Arts faculty may indicate a greater interest in language learning among these students or the larger size of this faculty within the university. However, the findings should be interpreted with caution, as the sample may not fully represent the broader student population, particularly older students, or those from other faculties.

Table 2: EFL Students' Attitude Towards English Language Learning (Behavioral Aspect)

	Mean	Standard Deviation	Level of Agreement
1. Consistency in Practice	4.01	0.87	Agree
"I practice my English skills (speaking, listening, reading, writing) every day, even if only for a short time."			
2. Participation in class	4.08	0.87	Agree

	Mean	Standard Deviation	Level of Agreement
"I actively participate in class discussions and activities to improve my English."			
3. Use of English Outside the Classroom	3.76	0.93	Neutral
"I try to use English in real-life situations, such as ordering food, asking for directions, or talking with friends."			
4. Seeking Help or Feedback	4.22	0.78	Agree
"When I don't understand something, I ask my teacher or peers for help or clarification."			
5. Self-Study Habits	3.96	0.89	Agree
"I set aside time to review class materials, complete homework, or study English on my own."			
Average	4.01	0.87	Agree

Students exhibited positive behavioral attitudes toward learning English. They reported consistent daily practice (mean = 4.01), active participation in class discussions (mean = 4.08), and a willingness to seek help or feedback when needed (mean = 4.22). These findings suggest that students are initiative-taking in their approach to language learning, recognizing the importance of regular practice and collaboration. However, the use of English outside the classroom received a slightly lower mean score (3.76), indicating that students may face challenges in applying their skills in real-life situations. This could be due to limited opportunities or confidence issues, which will be further discussed in the emotional attitudes section.

Table 3: EFL Students' Attitude Towards English Language Learning (Cognitive Aspect)

	Mean	Standard Deviation	Level of Agreement
1. Approach to Learning Vocabulary or Grammar	3.84	0.89	Agree
"I prefer to learn new vocabulary or grammar structures by memorizing rules and definitions."			
2. Problem-Solving with Challenging Texts	4.02	0.83	Agree
"When I encounter a challenging text or concept in English, I use resources like dictionaries or online tools to help me understand."			

	Mean	Standard Deviation	Level of Agreement
3. Practice Outside the Classroom	4.07	0.77	Agree
"I regularly practice my English skills outside the classroom by engaging in activities like watching movies, reading books, or speaking with others."			
4. Learning from Mistakes	4.05	0.86	Agree
"When I make a mistake in English, I reflect on it and try to learn from it to improve my skills."			
5. Staying Motivated	3.92	0.83	Agree
"I find it easy to stay motivated to learn English even when it feels difficult."			
Average	3.98	0.84	Agree

Students demonstrated a positive cognitive attitude toward EFL learning. They valued traditional methods such as memorizing vocabulary and grammar rules (mean = 3.84) but also embraced modern tools like dictionaries and online resources to solve problems (mean = 4.02). Additionally, students showed a strong preference for practicing English outside the classroom through activities like watching movies and reading books (mean = 4.07). This indicates a balanced approach to learning, combining foundational knowledge with practical application. Students also exhibited a growth mindset, as reflected in their willingness to learn from mistakes (mean = 4.05). However, maintaining motivation was slightly more challenging (mean = 3.92), suggesting that some students may need additional support to stay engaged, especially when faced with difficult concepts.

Table 4: EFL Students' Attitude Towards English Language Learning (Emotional Aspect)

	Mean	Standard Deviation	Level of Agreement
1. Confidence in Using English	3.53	1.03	Neutral
"I feel confident when speaking English in front of others."			
2. Anxiety or Nervousness	3.92	0.83	Agree
"I feel nervous or anxious when I have to speak English in class or with native speakers."			
3. Frustration with Challenges	3.71	0.97	Agree
"I feel frustrated when I don't understand something in English."			

	Mean	Standard Deviation	Level of Agreement
4. Enjoyment of Learning English	4	0.82	Agree
"I enjoy learning English and find it interesting."			
5. Fear of Making Mistakes	3.84	0.88	Agree
"I am afraid of making mistakes when speaking or writing in English."			
Average	3.80	0.91	Agree

The emotional aspect of EFL learning revealed a mix of positive and challenging experiences. While students reported important levels of enjoyment in learning English (mean = 4.00), they also expressed anxiety (mean = 3.92) and frustration (mean = 3.71) when faced with challenges. Fear of making mistakes was a significant barrier (mean = 3.84), particularly in speaking and writing. Confidence levels were neutral (mean = 3.53), with some students feeling more self-assured than others. These findings highlight the emotional complexities of language learning, where enjoyment and motivation coexist with anxiety and self-doubt. To address these challenges, educators should create a supportive environment that normalizes mistakes and provides low-pressure opportunities for practice.

Table 5: EFL Students' Attitude Towards English Language Learning (Teaching Methodology)

	Mean	Standard Deviation	Level of Agreement
1. Interactive Activities	3.92	0.88	Agree
"I learn better when the teacher includes interactive activities like group discussions, role-plays, or pair work."			
2. Use of Technology	4.12	0.81	Agree
"I find it helpful when the teacher uses technology (e.g., videos, online tools, or apps) to teach English."			
3. Grammar-Focused Instruction	3.99	0.81	Agree
"I prefer when the teacher explains grammar rules in detail and provides clear examples."			
4. Real-Life Contexts	3.94	0.80	Agree

	Mean	Standard Deviation	Level of Agreement
"I find it more useful when the teacher uses real-life situations (e.g., ordering food, job interviews) to teach English."			
5. Feedback and Correction	4.23	0.79	Agree
"I appreciate it when the teacher gives me immediate feedback and corrects my mistakes during class."			
Average	4.04	0.82	Agree

Students expressed strong preferences for interactive and technology-enhanced teaching methods. They valued interactive activities like group discussions and role-plays (mean = 3.92) and appreciated the use of technology, such as videos and online tools (mean = 4.12). Detailed grammar instruction (mean = 3.99) and real-life contexts (mean = 3.94) were also highly favored, as they provided clarity and practical relevance. Immediate feedback and correction from teachers received the highest agreement (mean = 4.23), indicating that students value guidance and opportunities for improvement. These findings suggest that a blended approach, combining traditional and modern methods, is most effective in engaging students and supporting their learning.

Table 6: EFL Students' Attitude Towards English Language Learning (Preferences of English Skills)

	Mean	Standard Deviation	Level of Agreement
1. Speaking	4.04	0.8	Agree
"I enjoy practicing speaking English because it helps me communicate better in real-life situations."			
2. Listening	3.96	0.85	Agree
"I find listening to English (e.g., podcasts, movies, or conversations) enjoyable and helpful for improving my language skills."			
3. Reading	3.97	0.84	Agree
"I enjoy reading English texts (e.g., books, articles, or news) because it helps me learn new vocabulary and ideas."			
4. Writing	3.92	0.77	Agree

	Mean	Standard Deviation	Level of Agreement
"I find writing in English (e.g., essays, emails, or journals) useful for organizing my thoughts and improving my grammar."			
5. Integrated Skills			
"I prefer activities that combine multiple skills, such as listening and speaking or reading and writing, because they feel more practical."	4.10	0.76	Agree
Average	4.00	0.80	Agree

Students showed a strong preference for integrated skills activities (mean = 4.10), which combine listening and speaking or reading and writing. They also enjoyed practicing speaking (mean = 4.04), listening (mean = 3.96), reading (mean = 3.97), and writing (mean = 3.92). These findings reflect a holistic approach to language learning, where students recognize the interconnectedness of different skills and their practical applications. The high agreement across all skill areas suggests that students are motivated to improve their overall proficiency, but they particularly value activities that simulate real-world communication.

Conclusions and Discussion

The findings of this study reveal that first-year students at Hatyai University are motivated and initiative-taking in their approach to EFL learning. They value both traditional and modern teaching methods, recognizing the importance of foundational knowledge as well as practical application. However, emotional barriers such as anxiety, frustration, and fear of making mistakes can hinder their progress, particularly in speaking and writing. These challenges are consistent with existing literature, which highlights the role of affective factors in language learning (Kim, 2011; Hyland, 2006).

To address these challenges, educators should focus on creating a supportive and engaging learning environment. Incorporating more interactive activities, leveraging technology, and using real-life scenarios can make learning more relevant and enjoyable. For instance, using online platforms for collaborative writing, creating, and sharing videos for speaking practice, or utilizing language learning apps for vocabulary acquisition. Additionally, providing immediate feedback and low-pressure practice opportunities can help students build confidence and reduce anxiety. For example, creating opportunities for students to practice speaking and writing in a non-graded setting, such as informal presentations or journal writing. By addressing both cognitive and emotional aspects of

learning, educators can better support students in achieving their language learning goals.

The study also highlights the importance of balancing traditional and modern teaching approaches. While students appreciate the structure and clarity provided by grammar-focused instruction, they also value the dynamic and engaging nature of technology-enhanced learning. A blended approach that combines these methods can cater to diverse learning preferences and help students develop both accuracy and fluency in English.

While the study provides valuable insights into EFL learning approaches at Hatyai University, it is important to acknowledge its limitations. The study's reliance on convenience sampling may limit the generalizability of its findings to other populations or contexts. Furthermore, student-teacher familiarity and the class environment may have influenced student responses, which should be considered when interpreting the results.

In conclusion, the findings of this study provide valuable insights into the attitudes, behaviors, and preferences of first-year EFL students at Hatyai University. By addressing the challenges identified and building on the positive attitudes and behaviors observed, educators can create a more effective and supportive learning environment that empowers students to achieve their language learning objectives.

This study examined the attitudes, behaviors, and preferences of first-year students at Hatyai University toward learning English as a Foreign Language (EFL). The findings reveal that students have a positive and initiative-taking approach to EFL learning, valuing English for both academic and real-world communication. They actively engage in daily practice, class participation, and self-study, and prefer interactive, technology-enhanced teaching methods. Traditional approaches, such as grammar instruction and vocabulary memorization, are also appreciated for building a durable foundation.

However, students face emotional challenges, including anxiety, frustration, and fear of making mistakes, particularly in speaking and writing. These barriers can hinder their confidence and willingness to practice, despite their overall enjoyment of learning English. To address these challenges, educators should create a supportive and low-pressure learning environment that normalizes mistakes and encourages growth.

A balanced approach combining traditional and modern teaching methods is recommended. Interactive activities, technology integration, and real-life scenarios can make learning more engaging and relevant. Immediate feedback and low-pressure practice opportunities can help build confidence and reduce anxiety. By addressing these emotional and cognitive challenges, educators can better support students in

achieving their language learning goals.

In conclusion, the findings of this study provide valuable insights into the attitudes and preferences of first-year EFL students at Hatyai University. By addressing the emotional and cognitive challenges identified and building on the positive behaviors and attitudes observed, educators can create a more effective and supportive learning environment. This, in turn, will empower students to achieve their language learning goals and prepare them for academic and real-world communication in an increasingly globalized world.

The Impact of English Language Proficiency on Students' Interview Simulation Training Performance: A Qualitative Study

Fazilatul Haida binti Hidzir[1*] and Ng Siow Woon[2]

[1]Academic, Department of Commerce, Seberang Perai Polytechnic, Penang
[2]Academic, Department of General Studies, Seberang Perai Polytechnic, Penang
[*]**Corresponding author, E-mail:** fazilatul@psp.edu.my

Abstract

This qualitative study examines the impact of English language proficiency on the interview performance of 30 second-semester students (12 males, 18 females) enrolled in the Diploma in Logistics and Supply Chain Management program (Class DLS2B) at Seberang Perai Polytechnic, Penang. These students participated in a structured simulated interview training session as part of their coursework in the Introduction to Human Resource Management subject. In an increasingly competitive job market, proficiency in English plays a critical role in shaping students' confidence, communication effectiveness, and overall interview success. Data was collected through semi-structured and In-depth interviews, direct observations, and analysis of interview transcripts during the simulation training. The findings reveal that students with higher English proficiency demonstrated greater self-confidence, provided well-structured and detailed responses, and engaged more effectively with interviewers. In contrast, students with lower proficiency exhibited visible anxiety, hesitancy in articulation, and difficulty structuring their answers, leading to weaker interview performance. These findings underscore the importance of integrating targeted English language training within interview preparation programs, especially for students with limited proficiency. Recommendations include enhanced English communication workshops, additional interactive language-based simulations, and personalized language support to better equip students for real-world job interviews.

Keywords: English Language Proficiency, Simulated Interview, Training Student Confidence, Communication Effectiveness, Job Interview Performance

Introduction

In this era of globalization, English plays a crucial role in education and employment. As an international language or Lingua Franca, proficiency in English not only increases students' chances of success in an academic environment but also provides an advantage in the increasingly competitive world of work. Interviews are a crucial element frequently used as an assessment in the job search process. Therefore, effective

communication in English significantly influences students' performance in simulated interviews, which serves as valuable preparation for real-life interviews. This study aims to investigate the extent to which English language proficiency affects students' performance in simulated interviews in the context of higher education, as well as the challenges faced by students with low English language proficiency.

However, there are significant differences in English proficiency among students, which are often influenced by educational background, social environment, and early exposure to the language. Students who are more fluent in English are usually more confident and fluent during interviews, while those who are less proficient may face difficulties in conveying ideas and answering questions well. Therefore, effective interview training should pay attention to improving English proficiency as one of the key aspects in ensuring satisfactory performance by the student.

This study is important as it can provide insight into how English proficiency affects the effectiveness of interview training simulations, as well as help researchers and educators understand the factors that can improve students' preparation for real interviews soon. Therefore, the results of this study are expected to guide educational institutions in planning more comprehensive and effective training programs.

Objectives

1. To assess the impact of English proficiency on student performance in simulated interview training: This study aims to identify how the level of English proficiency affects students' self-confidence, communication fluency, and ability to provide accurate and detailed answers during simulated interview sessions.
2. To investigate the challenges faced by students with low English proficiency in interview training: This study will examine the challenges faced by students with limited English proficiency and how these challenges affect their performance during interview training.
3. To identify the relationship between language skills and the effectiveness of interview training: This study will investigate how interview training can enhance student performance, particularly for those with low English proficiency, and examine the impact of language proficiency on the effectiveness of the training.
4. To provide recommendations to strengthen interview training with an emphasis on English proficiency: This study aims to provide practical recommendations to institutions of higher learning on ways to improve student's English skills in their preparation for real-world interviews.

Concept theory framework

English proficiency plays a significant role in students' performance during mock interview training. Recent studies conducted between 2020 and 2024 have highlighted the connection between language skills and success during the interview process.

English Proficiency and Interview Performance

A study by Hossain (2021) highlighted that high English proficiency increases students' self-confidence during interviews, enabling them to deliver answers in more clarity and detail. On the other hand, students with low English proficiency often face difficulties in communicating their ideas effectively.

Challenges of Students with Low English Proficiency

According to a study by Tan (2022), students with lower English proficiency tend to experience greater stress during interviews because they struggle to answer questions accurately or provide convincing responses. This difficulty not only affects students' self-confidence but also their overall performance during the interview session.

The Relationship between Language Skills and the Effectiveness of Interview Training

A study by Abdullah (2023) showed that effective interview training requires students to have a good command of English, as it increases the effectiveness of the training. In this study, students who received interview training involving the use of English showed a significant improvement in their performance.

English Proficiency in the Context of Education and Career

A study by Al-Khaja (2016) showed that English proficiency is important for students' success in the working environment. This study emphasized that the ability to communicate well in English not only affects academic performance but also provides an advantage in job interviews. The English used in interviews impacts students' ability to explain their skills and experiences more clearly and convincingly.

A study by Hossain (2019), which discussed the effect of English proficiency on communication skills in interviews, found that students who are fluent in English performed better in interviews, as they were more confident and easily conveyed ideas in detail. On the other hand, students who were weak in language proficiency often hesitated and faced difficulties in presenting their answers.

Challenges Faced by Students with Low English Proficiency

Several studies have also examined the challenges faced by students with low English proficiency in interviews. A study by Tan (2017) stated that students with lower English proficiency tend to experience greater stress during interviews because they struggle to answer questions accurately or provide convincing responses. This difficulty not only affects students' self-confidence but also their overall performance during the

interview session.

In addition, a study conducted by Azizah et al. (2020) showed that these language challenges can cause students to feel uncomfortable and marginalized during the interview process. This may make it difficult for them to demonstrate their true abilities and demonstrate their potential. Students who face language difficulties are also more likely to give short or detailed answers, which reduces their chances of being selected.

Relationship Between Language Skills and Effectiveness of Interview Training

Research by Abdullah (2018) showed that effective interview training requires students to have a good command of English, as it increases the effectiveness of the training. In this study, students who received interview training that involved the use of English showed a significant improvement in their performance. Training that emphasized language skills helped students to be better prepared for real interview situations.

Another study by Kumar et al. (2017) found that interview simulation training that integrated English proficiency provided significant benefits to students. This training not only improved their communication skills but also helped them to be better prepared to face the pressures of real interviews. Therefore, English proficiency was seen as a key factor in improving interview training performance.

Overall, recent studies have shown that English proficiency has a significant impact on students' performance in interview training. Students who are more proficient in English tend to be more confident, able to answer questions more clearly and perform better in simulated interviews. On the other hand, students who are less proficient in English often face great challenges in conveying ideas and communicating effectively. Therefore, interview training that focuses more on English proficiency can improve students' performance, better preparing them for the world of work that is increasingly dependent on language skills.

Materials and Methods

This study uses a qualitative approach to investigate the impact of English proficiency on students' performance in simulated interview training. This approach was chosen because it allowed the researcher to dive into the experiences, perceptions, and challenges faced by students during simulated interview training, as well as gain a deeper understanding of how English proficiency affects their performance. The following are the main components of the study methodology:

1. Study Design

This study uses a case study design where the focus is on students undergoing simulated interview training. This approach allows for in-depth research into individual experiences in a limited and specific context. Case studies are also suitable for studying

factors that influence student performance in simulated interview situations that vary based on language proficiency.

2. Population and Sample

The population of this study consists of 30 second-semester students (12 males, 18 females) who are pursuing a Diploma in Logistics and Supply Chain Management, Class DLS2B, at Seberang Perai Polytechnic. These students were selected because they are currently undergoing training in interview simulation as part of their Introduction to Human Resource Management course. The relevance of this selection lies in the study's focus on the impact of English proficiency on interview performance, as these students are preparing for professional careers where English communication skills play a crucial role. A total of 30 students participated in the study, providing qualitative data through direct observation and structured interviews during their simulation training sessions. Their performance and challenges were analyzed to assess the correlation between English language skills and interview confidence, fluency, and overall success in simulated job interviews.

3. Data Collection Methods

Three main methods were used to collect data in this study:

• Semi-structured and In-depth Interview: Semi-structured interviews were conducted with each participant to obtain their views, experiences, and challenges faced during the simulated interview training. These interviews provided space for students to share their experiences regarding English proficiency and how it affected their performance in the simulated interview. Questions focused on students' experiences during interview training, perceptions of their English proficiency, and perceived strengths or weaknesses.

Sample question: *"Can you describe a time during the mock interview when you struggled or felt confident due to your English ability?"*

• Classroom Observation: Direct observation was conducted during the actual simulation sessions. Key indicators included fluency, coherence, body language, and responsiveness. This observation also helped the researcher observe the students' behaviour and interactions during the interview session. Observational data captured moments of hesitation, code-switching, or lack of comprehension.

• Documentation and Transcript Review: Audio and video recordings or transcripts of the simulated interviews were analyzed for patterns in language use, structure of responses, and interview feedback to see how students with distinct levels of English proficiency answered questions and conveyed ideas during the simulated interviews.

4. Research Instruments

The research instruments consisted of two parts:

• Interview Question List: A list of open-ended questions was used during the in-depth interviews to obtain information about the student's experiences and perceptions of English proficiency and their performance in the simulated interviews.

• Observation Protocol: A specially designed observation protocol was used to record important aspects during the interview session, such as communication fluency, self-confidence, and difficulties faced by students in using English.

5. Data Analysis

The data obtained from the interviews, observations, and documentation were analyzed using a thematic analysis approach. This process involved categorizing the data into key themes related to the impact of English proficiency on students' interview performance. Each theme was analyzed in depth to identify emerging patterns or trends in the relationship between English proficiency and students' performance in interview training.

6. Study Limitations

• Sample limitations: This study only involved a Diploma in Logistics and Supply Chain Management, Class DLS2B, at Seberang Perai Polytechnic. which may not reflect the views and experiences of students across the country.

• Context limitations: Only simulated interview training at one institution were analyzed, so the study results may not be generalizable to all types of interview training at various institutions.

7. Significance of the Study

The methodology of this study has provided an opportunity to understand in more depth how English proficiency affects students' performance in interview training, as well as the challenges faced by students with low English proficiency. The findings of this study can provide recommendations to educators on how to improve students' English skills in interview training to prepare them for the world of work.

Results

Key Findings with Direct Participant Quotations

1. English Proficiency and Self-Confidence

"I felt more relaxed because I could understand the question and answer fluently... I wasn't worried about grammar." (Participant A, Male)

Students with higher proficiency appeared comfortable maintaining eye contact and using more complex vocabulary, while others showed signs of discomfort.

2. Communication Challenges

"I know the answer in Malay, but in English, I don't know how to explain properly." (Participant G, Female)

Common issues included incorrect tense usage, limited vocabulary, and long pauses.

3. Effects of Simulation Training

"After three practice interviews, I felt more ready. I started to use more English words and practiced answering questions at home." (Participant K, Female)

Even low-proficiency students gained confidence through repetition, though improvement was slower compared to more proficient peers.

4. Observation Insights

Students with high proficiency used structured responses (e.g., STAR technique), while others gave short, vague answers or switched to Malay midway.

The findings of this study were obtained based on in-depth interviews, direct observations during simulated interview training, and analysis of interview transcript documentation conducted with students. Overall, this study found that English proficiency significantly impacts students' performance in simulated interview training. The following are the main findings obtained from this study:

4.1 The Influence of English Proficiency on Students' Self-Confidence Level

Students with high English proficiency showed higher levels of self-confidence during simulated interview training. They were more prepared and able to communicate fluently, which in turn helped them provide more accurate and detailed answers. On the other hand, students with low English proficiency tended to feel less confident and hesitant in presenting their answers. Many participants with lower English proficiency expressed feelings of fear or anxiety about answering interview questions, which affected their performance in the simulation.

4.2 Difficulty in Communication and Language Fluency

Students with low English proficiency had difficulty communicating their ideas clearly and systematically. Many of them took longer to find the right words and organize their ideas well during the interview. Difficulties in sentence structure and grammar also often hindered understanding between students and the simulated interviewer. This situation caused most students who were not proficient in English to feel stressed during the interview session and experienced a decrease in the quality of their answers.

4.3 Challenges Faced by Students with Low English Proficiency

Students with low English proficiency reported several challenges in the simulated interview, including:

• Limitations in Word Selection: They had difficulty choosing the right words and organizing sentences correctly. This made their communication less effective.

• Uncertainty in Answering Questions: Students who are less proficient in English often appear hesitant or unsure in answering, especially when the questions asked are technical.

• Decreased Confidence: Limited English can often lead to a lack of confidence in students, which negatively impacts their performance in mock interviews.

4.4 Positive Effects of Simulation Training on Students with Low English Proficiency

Although students with low English proficiency face challenges, these mock interview training provide them with opportunities to practice and improve their communication skills. Several students have reported a boost in their self-confidence and fluency after participating in several mock training sessions. This shows that even if their English proficiency is not yet fully developed, consistent practice can help students improve their performance in real interview sessions.

4.5 Relationship Between English Proficiency and the Effectiveness of Simulation Training

This study found that students with better English proficiency tend to be more likely to accept feedback from interviewers and make improvements in mock interviews. On the other hand, students who are weak in English show less progress due to their difficulty in understanding and applying the feedback received. However, for students with lower English proficiency levels, additional support such as specialized guidance or English training can increase the effectiveness of their simulation training.

4.6 Suggestions for Improving Interview Training Based on English Proficiency

Based on the study findings, there are several suggestions for improving simulated interview training in higher education institutions:

• Emphasis on English Proficiency: Higher education institutions can offer additional courses or workshops to strengthen students' English proficiency, especially for those with low English proficiency.

• More Interactive Interview Training: Provide more simulated interview training sessions with

Conclusions and Discussion

This study examined the impact of English proficiency on students’ performance in simulated interview training. Based on the findings, English proficiency plays a significant role in increasing students’ self-confidence, fluency in communication, and ability to provide accurate and detailed answers during simulated interview sessions. Students with better English proficiency performed better in interview training, while those with less

proficiency faced challenges such as lack of confidence, lack of fluency in communication, and difficulty in organizing ideas precisely.

Despite these challenges, this study also found that simulated interview training provided students with opportunities to improve their communication skills, especially for those with low English proficiency. Additional support through English tutoring, more interactive training, and more detailed feedback can help improve students' performance in interview training.

Overall, this study shows that English proficiency significantly impacts the effectiveness of interview training. Therefore, higher education institutions need to pay more attention to improving students' English language skills, such as providing the necessary support to help students who are less proficient in English to overcome the challenges they face during simulated interview training. With these steps, students will be better prepared to face real-world interviews and succeed in their future careers.

The study on the impact of English proficiency on students' performance during simulated interview training has led to several recommendations for enhancing both the experience and outcomes of this training, particularly concerning language proficiency. These recommendations aim to help students improve their communication skills, increase self-confidence, and overcome the challenges faced by those with low English proficiency.

1. Increase Emphasis on English Language Skills in the Curriculum

Higher education institutions can introduce more specific courses or modules on English language skills for interview purposes. This course can focus on aspects such as grammar, vocabulary, and speaking skills that are more practical for interview situations. In addition, teaching interview question-answering techniques in English can help students practice and improve the way they convey their ideas clearly and accurately.

2. Workshops and Periodic Training in Interview Skills

Institutions can provide periodic workshops and interview training sessions to help students practice interviewing in English. These training sessions should include simulations of different interview scenarios, such as group interviews and technical interviews, allowing students to practice in a more dynamic environment. In addition, emphasizing communication exercises that involve non-verbal language such as facial expressions and body language can also improve their overall communication skills.

3. English Language Support for Students with Low Proficiency

Institutions can offer specialized support or tutoring classes for students with lower English proficiency. These classes can help students improve their basic English proficiency, especially in aspects relevant to interviews, such as asking and answering questions in a professional context. Additionally, providing online modules that allow students to study independently outside of class can also be beneficial.

4. Use of Technology in Interview Training

Integrating technology into simulated interview training can have a positive impact. For example, online interview platforms allow students to practice interviews in a more flexible environment. Additionally, technology can be used to provide video analysis of interviews, enabling students to review their performance and receive structured feedback from instructors or peers.

5. Improved Feedback Training

Interviewers or interview training facilitators should provide more detailed and specific feedback on aspects of students' English proficiency during simulated interview sessions. This feedback should include practical suggestions for improving grammar, fluency, and word choice. For example, emphasizing more accurate vocabulary usage and techniques for overcoming nervousness can help students develop their skills more effectively.

6. Creating a Supportive Learning Environment

Creating a friendly and supportive environment in simulated interview sessions is important for increasing students' confidence. Interviewers should provide encouragement and moral support to students during the interview session so that they feel more comfortable speaking in English. A less stressful environment can reduce anxiety and help students communicate more clearly and confidently.

7. Training to Improve Social and Interaction Skills

Training social skills is also important to help students interact better in interviews. situations. Courses that focus on developing people skills and oral communication in English can help students improve their fluency in conversation and make them more confident when interacting in real interviews.

8. Providing More Accessible English Learning Resources

Alongside formal courses, institutions can provide more accessible English learning resources, such as mobile apps or online learning portals. These resources enable students to study and practice at their convenience, allowing them to continuously improve their language proficiency outside of classroom hours.

9. Encouraging Peer Collaboration

Interview training programs can encourage peer collaboration, where students can conduct simulated interviews in pairs. In this situation, students can give each other feedback on aspects of English and their performance. This can create a more collaborative learning environment and help students to improve their communication skills.

10. Evaluation and Continuous Improvement of Interview Training Programs

Finally, it is important to conduct periodic evaluations of the effectiveness of the simulated interview training conducted. By considering feedback from students and

interviewers, the program can be improved to better meet the needs of students and provide them with better preparation for real-world interviews. By implementing these recommendations, higher education institutions can improve students' simulated interview training experiences, as well as help them improve their English proficiency in a professional context. In this way, students can be better prepared for real interviews and develop the communication skills needed to succeed in the world of work.

Gender Wage Discrimination and Occupational Crowding in Thailand's Labor Market

Suphawisit Boonla[1*]

[1]Graduate student, Faculty of Economics, Thammasat University.
[*]**Corresponding author, E-mail:** suphawisit.boo@st.econ.tu.ac.th

Abstract

This study examines gender wage discrimination and occupational crowding in Thailand's labor market, focusing on male-dominated and female-dominated industries such as construction and healthcare. Despite Thailand's advancements in addressing gender inequality, significant wage disparities persist due to occupational crowding, where one gender is concentrated in certain professions. Using data from the Thai Labor Force Surveys of 2018, 2020, and 2022, and employing the Bergmann Occupational Crowding Index and Oaxaca-Blinder Decomposition, this study shows that occupational crowding significantly impacts wage disparities. In construction, a 1-unit increase in male overcrowding reduces wages by 4.9%, while in healthcare, a 1-unit increase in female overcrowding decreases wages by 63.55%, highlighting the extreme undervaluation of female-dominated roles. The Oaxaca-Blinder Decomposition indicates that 80.41% of the wage gap in construction and 66.22% in healthcare is due to gender discrimination. The findings underscore the persistent societal biases and structural barriers that limit gender wage parity, necessitating targeted policies to address occupational segregation and wage inequality.

Keywords: Gender Wage Discrimination, Occupational Crowding, Wage Disparity, Labor Market, Oaxaca-Blinder Decomposition

Introduction

Thailand has made significant strides in promoting gender equality through government initiatives and international commitments, particularly under Sustainable Development Goal 5 (SDG 5). These efforts have led to notable progress in narrowing the gender gap across multiple sectors. However, persistent gender disparities continue to exist, particularly in industries that exhibit occupational crowding—a phenomenon where a particular gender is overrepresented in specific professions, leading to wage disparities and unequal career opportunities. This gender-based labor market segregation remains a critical barrier to achieving wage equality, particularly in male-dominated industries like construction and female-dominated sectors such as healthcare.

Thailand's Global Gender Gap Index (GGI) has gradually improved over recent years, rising from 0.694 in 2017 to 0.720 in 2024. However, despite this overall progress, wage disparities within male- and female-dominated industries have remained stagnant, suggesting that structural labor market barriers and societal biases continue to hinder gender pay equity. Political representation of women has contributed to Thailand's recent GGI ranking improvements—jumping from 73rd-79th place between 2017 and 2023 to 65th place in 2024—but economic participation and wage equality indicators have not shown consistent progress.

A key factor contributing to these wage disparities is occupational crowding, which refers to the concentration of men or women in specific professions, often leading to unequal pay scales and restricted career progression opportunities. In male-dominated sectors like construction, men overwhelmingly occupy higher-paying roles, often justified by physical job demands, skill-based hierarchies, and entrenched gender norms favoring male workers. Conversely, in female-dominated professions such as healthcare, women constitute many workers, yet they face lower wages and fewer leadership opportunities, reflecting the systemic undervaluation of traditionally female professions. These gendered labor patterns not only perpetuate wage disparities but also reinforce economic mobility restrictions, making it difficult for women to transition into high-paying, male-dominated fields and for men to enter traditionally female professions without stigma.

Empirical studies have long demonstrated a clear link between occupational segregation and gender wage disparities. Research shows that industries with a high concentration of female workers tend to offer lower wages than male-dominated fields (England, 1992; Cohen & Huffman, 2003). This wage gap is driven by multiple structural factors, including employer biases, the societal devaluation of feminized occupations, and systemic barriers limiting women's access to high-paying roles. In Thailand, while some industries have shown improvements in wage equality, construction and healthcare remain sectors where gender-based wage differentials persist, primarily due to occupational crowding (Kaewsria & Tongthong, 2013). Furthermore, labor force surveys reveal that while women in government jobs often earn equal or higher wages than men, women in the private sector continue to earn significantly less—highlighting persistent gender wage inequality in Thailand's labor market.

This study investigates gender wage discrimination through the lens of occupational crowding, using the construction and healthcare industries as case studies. Specifically, it examines how gender segregation within male- and female-dominated fields influences wage disparities and assesses the extent to which occupational crowding contributes to persistent gender inequality. By analyzing wage structures,

employment trends, and career progression barriers in these sectors, this study aims to provide evidence-based insights into the structural challenges that sustain gendered wage gaps. The findings will contribute to policy discussions on occupational segregation, wage equity, and strategies for fostering a more inclusive labor market in Thailand.

Objectives

To study the effect of occupational crowding on wage disparity in male-dominated and female-dominated industries

Concept theory framework

To analyze occupational crowding and wage discrimination, we use the wage equation incorporating psychic wage discrimination.

$$W^* = W(1 - D_j)$$

Where W^*= Psychic wage (the perceived wage value considering discrimination)

W = Monetary wage (actual wage paid by the employer)

Dj = Discrimination coefficient for employee j

The discrimination coefficient Dj represents the level of wage discrimination experienced by an employee due to gender-based biases in the labor market. If $Dj > 0$, then the actual perceived wage W^* for the discriminated group is lower than the monetary wage.

Occupational crowding is a form of labor market segregation, where men and women are funneled into different industries or job roles, leading to wage suppression in female-dominated jobs. The occupational crowding hypothesis suggests that when a particular group (e.g., women) is concentrated in specific jobs, the excess supply of workers in that job depresses wages relative to male-dominated fields.

The wage impact of occupational crowding can be modeled as:

$$Wf = Wm(1 - Dj)$$

Where Wf = Wage for a worker in a female-dominated occupation

Wm = Wage for a worker in a male-dominated occupation

Dj = Discrimination coefficient (higher in female-dominated sectors). In male-dominated fields (low Dj), the wage gap is smaller or non-existent. In female-dominated fields (high Dj), wages are lower due to crowding and undervaluation of female labor. The equation captures the psychic wage gap caused by discrimination in the labor market. Occupational crowding reinforces wage suppression in female-dominated jobs, leading to systematic wage inequalities. Both employee-based and customer-based discrimination contribute to gender-based occupational segregation, which in turn creates lower wages in female-majority fields.

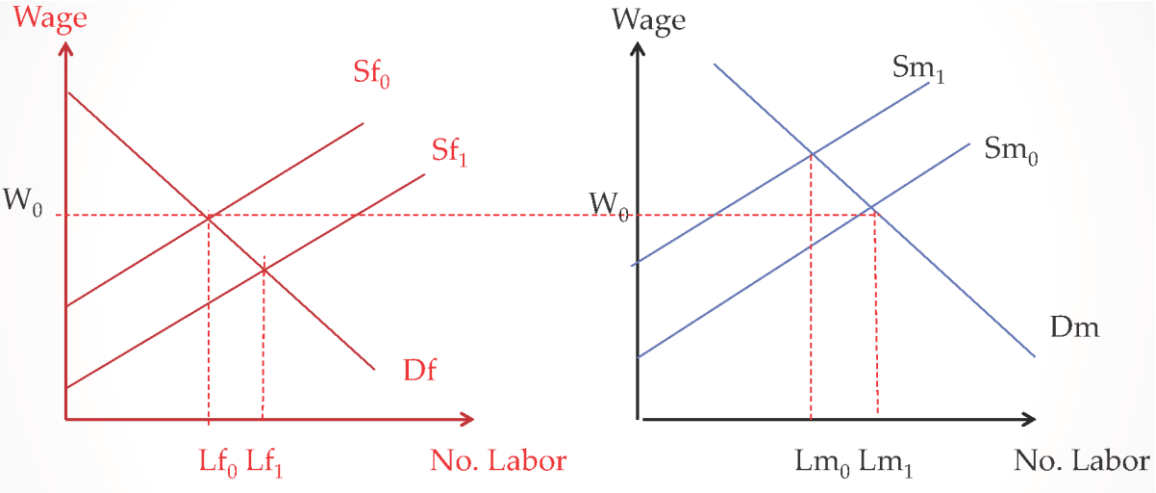

Figure 1: Taste of Discrimination and Occupational Crowing

This figure illustrates the concept of Taste of Discrimination in the labor market, showing how occupational segregation and wage disparities emerge between male- and female-dominated jobs. As more men enter female-dominated fields, increased labor supply suppresses wages, reinforcing gender-based pay disparities. Conversely, when men exit male-dominated jobs, reduced labor supply drives wages higher, widening the gender wage gap. Employers in male-dominated industries may raise wages to retain male workers, while female-dominated jobs remain lower-paying due to oversupply. These patterns reflect occupational crowding, where gender-based job segregation influences wage structures.

Research on gender segregation and occupational crowding highlights how socio-cultural norms, education, workplace discrimination, and labor market structures shape occupational opportunities for men and women. While these factors manifest differently in developed and developing countries, they create similar barriers to gender equality in the workplace. In developing countries like Thailand, women are overrepresented in low-paying roles such as clerical work and caregiving, while men dominate technical fields like construction and engineering. These patterns arise from cultural norms and industrial strategies that reinforce gender-specific roles, such as the perceived suitability of women for export-oriented manufacturing jobs (Son, 2007; Tangchonlatip et al., 2008). Conversely, in developed countries, occupational segregation is particularly evident in STEM fields, where entrenched gender norms and workplace cultures continue to marginalize women, limiting career advancement and widening pay gaps (Kaewsria & Tongthong, 2013; Limani & Sodergren, 2023).

Across both contexts, occupational segregation results in unequal economic benefits and disadvantages. Male-dominated sectors tend to offer higher wages and leadership opportunities but may also have physically demanding conditions and workplace cultures that discourage female participation (Limani & Sodergren, 2023). In contrast, female-dominated industries like healthcare and education provide more stable employment but are often undervalued, characterized by lower wages, and limited career growth opportunities (Jitkaew, 2019). Gender norms further reinforce these disparities by devaluing women's work, perpetuating wage gaps and occupational segregation (Son, 2007). While developed countries have introduced policies such as anti-discrimination laws and STEM initiatives to address workplace gender inequality, structural barriers like the glass ceiling persist, limiting women's access to leadership positions (Hegewisch & Barsi, 2020; Fromea et al., 2006). In developing countries, efforts focus on reducing disparities in labor-intensive industries through improved access to education and work-life balance policies, yet deep-rooted cultural norms remain a significant barrier (Tangchonlatip et al., 2008; Kosaikanont, 2019).

Despite women's increasing educational attainment worldwide, occupational segregation and wage gaps persist, highlighting the need for structural reforms beyond education alone. Policies aimed at reducing workplace discrimination, promoting gender diversity in non-traditional careers, and addressing occupational crowding are crucial to bridging gender gaps in both developed and developing economies (Booth et al., 2002; Paweenawat & Liao, 2019).

Materials and Methods

The Bergmann Occupational Crowding Index is a widely used tool to measure occupational segregation by assessing the overrepresentation or underrepresentation of specific demographic groups in certain occupations. Occupational crowding occurs when workers from certain groups (e.g., gender, race) are disproportionately concentrated in specific jobs, which limits employment opportunities in other fields and often leads to wage suppression due to an oversupply of labor (Bergmann, 1974).

Originally developed to study racial discrimination in the U.S. labor market, the Bergmann Index has since been adapted for analyzing gender disparities in labor markets worldwide. The methodology compares the share of male or female workers in each occupation to their representation in the overall workforce, adjusting for educational attainment and skill requirements (Blau & Kahn, 2017).

The Bergmann Index is typically applied under two conditions: (1) Less segregated occupations – where the workforce is balanced in gender composition. (2) Highly segregated occupations – where one gender dominates the field, contributing to wage

disparities and career stagnation. By measuring occupational crowding, the index provides a quantitative assessment of how labor market segregation influences gender wage gaps, particularly in male-dominated (e.g., construction) and female-dominated (e.g., healthcare) sectors (England, 1992; Cohen & Huffman, 2003).

The Oaxaca-Blinder decomposition is a widely used econometric method for analyzing wage differentials between groups. It decomposes the gender wage gap into two components: (1) Endowment Effect (Explained Part) – Differences due to observable factors, such as education, experience, or industry choice. (2) Treatment Effect (Unexplained Part) – Differences that remain after controlling for observable factors, often attributed to wage discrimination (Oaxaca, 1973; Blinder, 1973).

To begin, the Mincer Earnings Function is estimated, which models wages based on education, experience, and other characteristics:

$$ln(wage_i) = \beta_0 + \beta_1 Education_i + \beta_2 Experience_i + \beta_3 Experience_i^2 + X_i\alpha + \epsilon_i$$

Where $ln(wage_i)$ = Natural logarithm of wages for individual ii.

$Education_i$ = Dummy variables for different education levels (reference: Less than Elementary).

$Experience_i$ = Potential work experience (age - years of schooling - 6).

X_i = Additional control variables, including regional dummies (e.g., Bangkok, Northern, Northeastern regions), Marital status (reference: Widowed, Divorced, or Separated), Establishment size, Log of Gross Provincial Product (GPP) per capita, and Survey year dummies (reference: 2018).

The Oaxaca-Blinder decomposition then estimates the gender wage gap:

$$\Delta = \overline{ln(wage_m)} - \overline{ln(wage_f)}$$

This difference (Δ) is split into:

1. Endowment Effect (Explained Part): Accounts for differences in education, experience, and other observed characteristics.

$$\Delta^E = (\bar{X}_m - \tilde{X}_f)'\beta_m$$

2.Treatment Effect (Unexplained Part): Represents differences in returns to characteristics, often linked to discrimination.

$$\Delta^T = \bar{X}_f'(\beta_m - \beta_f)$$ ○

By applying the Oaxaca-Blinder decomposition to construction and healthcare sectors, this study identifies gender-based wage discrimination and occupational crowding effects.

Using econometric methods, we analyze data from the Thai Labour Force Survey for the years 2016, 2018, 2020, and 2022. The Thai Labor Force Survey (LFS) consists of quarterly surveys capturing employment trends, wages, and workforce dynamics (National Statistical Office of Thailand, 2022). Quarter 3 (July - September) is widely used

in labor market studies due to seasonal workforce patterns, particularly in the agricultural sector. Key reasons for selecting Quarter 3 data include: (1) Reducing Bias from Seasonal Migration: Agricultural workers migrate seasonally between rural and urban areas. During the rainy season (Q3), rural workers return home, making it easier to classify labor into urban vs. rural categories. Using data from other quarters may misclassify temporary urban workers, distorting labor market analysis (Sussangkarn & Chalamwong, 1996). (2)Capturing Stable Workforce Trends: Q3 provides a more stable picture of permanent employment, minimizing distortions from short-term agricultural work. Many labor market studies in Thailand rely on Q3 data for analyzing long-term employment trends (Warunsiri & McNown, 2010). By using Q3 data, this study ensures greater accuracy in identifying structural labor market disparities, particularly gender wage gaps in construction and healthcare.

Results

This study analyzes Thailand's Labor Force Survey (LFS) data to examine gender wage disparities in the construction and healthcare sectors, two industries that exhibit contrasting gender compositions. By applying the Bergmann Occupational Crowding Index and Oaxaca-Blinder decomposition, this research quantifies the extent of occupational segregation and wage discrimination within these industries.

In the construction sector, which is traditionally male dominated, 80.41% of the wage gap can be attributed to gender discrimination, while educational differences account for the remaining disparity. Women's lower educational attainment contributes to this gap, particularly among those with general or academic upper secondary education, vocational or higher technical education, and lower secondary education, explaining 3.25%, 3.71%, and 4.36% of the wage differential, respectively. However, certain factors help mitigate this gap. Holding a bachelor's degree reduces the wage disparity by 13.18%, while living in regions with higher Gross Provincial Product (GPP) per capita narrows it by 6.41%. Despite these mitigating factors, the unexplained portion of the wage gap remains primarily linked to gender discrimination. These findings align with international studies on male-dominated industries, which highlight the significant wage suppression and career stagnation that women face in such fields (De Ruijter et al., 2003; Gibson et al., 2018).

Conversely, the healthcare sector, which is female dominated, still exhibits a wage gap, with 66.22% of it attributed to gender discrimination. Other influential factors include work experience, which contributes 3.39% to the wage gap, and higher educational attainment, particularly at the bachelor's degree level or above, which paradoxically increases the wage gap by 16.88%. This suggests that despite higher

qualifications, women in healthcare do not experience proportional wage increases, due to the undervaluation of female-dominated professions. On the other hand, vocational or higher technical education and general or academic upper secondary education help reduce the wage gap by 4.98% and 2.51%, respectively. Additionally, factors such as the squared value of work experience, which accounts for diminishing wage returns over time, and temporal changes, particularly in 2022, also contribute to narrowing the wage gap. These findings reflect global trends in female-dominated sectors, where despite elevated levels of female representation, wage disparities persist due to structural biases and barriers to career advancement. The glass ceiling effect remains prevalent, preventing women from reaching higher-paying leadership positions (Boonsom, 2013; Sheridan, 1997).

Regional differences further highlight the complexity of gender wage disparities. Studies in Poland's construction sector, for example, suggest that sector-specific policies and labor protections can influence wage discrimination, as Strawinski et al. (2018) found lower levels of wage inequality in this field. Similarly, while some studies indicate that men in female-dominated professions face wage penalties (Liao & Paweenawat, 2020), others argue that they can negotiate higher salaries due to their perceived leadership potential in feminized workplaces (Crothers et al., 2010).

Discrimination remains a pervasive issue in Thailand's labor market, particularly in industries characterized by gender segregation. However, the findings of this study suggest that education and economic growth can help reduce wage gaps, though these factors alone are insufficient without targeted policy interventions. Increasing women's participation in higher-paying technical roles, addressing gender biases in salary negotiations and promotions, and strengthening legal frameworks to ensure wage equity across industries are necessary steps toward achieving gender wage parity. By integrating occupational crowding analysis with economic decomposition models, this study provides an empirical foundation for future labor market reforms aimed at reducing gender wage disparities in Thailand.

Conclusions and Discussion

The study highlights gender wage disparities in Thailand's construction and healthcare sectors, revealing how occupational segregation and discrimination contribute to economic inequality. In construction, where men overwhelmingly dominate, the wage gap remains stark, with 80.41% of the disparity attributed to discrimination. Women's lower educational attainment further exacerbates this gap, though factors such as a bachelor's degree or higher and residence in economically developed regions help mitigate wage differences. However, despite these compensatory factors, gender bias remains deeply entrenched, limiting women's access to higher-paying technical roles and leadership opportunities. In contrast, the healthcare sector, which is female-dominated, exhibits a wage gap where 66.22% is due to gender-based discrimination. Unlike construction, where education helps narrow wage differences, healthcare presents a paradox: higher educational attainment among women does not translate into proportional wage benefits. In fact, the wage gap increases by 16.88% for those with a bachelor's degree or higher, reflecting structural biases that continue to undervalue female-dominated professions. Conversely, vocational, and technical education has a mitigating effect, reducing the wage gap by 4.98%.

These findings align with global research on occupational crowding, where industries that are highly feminized tend to experience wage suppression due to the perceived lower value of women's work. Studies from developed and developing countries alike suggest that gender norms, societal expectations, and institutional biases perpetuate these inequalities. In Poland, for example, Strawinski et al. (2018) found lower levels of discrimination in the construction sector, indicating that industry-specific policies and legal frameworks can influence wage structures. Similarly, research on feminized professions suggests that while some men in female-dominated fields face wage penalties (Liao & Paweenawat, 2020), others may be able to negotiate higher salaries due to their perceived leadership potential (Crothers et al., 2010). Addressing

these wage disparities requires strategic policy interventions at multiple levels. At the individual level, increasing women's access to education in science, technology, engineering, and mathematics (STEM) fields is critical to breaking gender-based occupational segregation. Expanding vocational training programs for women in male-dominated industries, such as construction, could provide a pathway for greater participation in higher-paying roles. In corporate and institutional settings, policies promoting mentorship, leadership development, and gender-equitable salary structures are necessary to eliminate barriers to career progression in the healthcare sector.

On a broader policy scale, the government must implement sector-specific wage equity measures and reinforce anti-discrimination labor laws. Sweden, for example, has successfully reduced gender-based pay gaps by implementing transparent wage-setting policies and strong parental leave protections, which encourage gender equality in the workforce. Moldova's policies promoting women in leadership roles have also contributed to reducing occupational segregation. Thailand could adapt similar approaches by integrating gender-sensitive employment policies into labor market reforms, ensuring that wage disparities are not only acknowledged but systematically addressed.

Additionally, regional economic strategies play a crucial role in reducing gender-based wage gaps. Women in underdeveloped regions often face limited access to high-paying employment opportunities, exacerbating disparities. Encouraging regional investment in female-dominated industries, providing incentives for businesses to recruit women into higher-wage roles, and integrating gender-responsive budgeting into national development plans are all potential solutions.

In conclusion, while education and economic policies can alleviate some aspects of wage disparity, they are not sufficient to eradicate systemic discrimination. A multifaceted approach—encompassing legislative action, corporate accountability, and societal change—is necessary to foster an equitable labor market. By addressing discrimination at its root, dismantling occupational segregation, and promoting wage transparency, Thailand can take significant strides toward closing the gender wage gap and ensuring equal economic opportunities for all.

Abstract

The aim of this research is to examine the relationship between several elements of green packaging, consumers' attitudes, and personal elementary traits with customer purchasing behavior for food or beverages. Based on a quantitative and exploratory approach, the authors have collected data from 1,003 respondents through an online survey based on social media platform and 35 interviews for result confirmation in Bangkok. Confirmative factor analysis and structural equation model are used to trace this relationship among these factors. It is argued that the relationship between the elements of green packaging and consumers' attitudes has influenced the customers' decision to buy a particular food or beverage product, while it has not directly influenced elementary traits with buying. However elementary traits and attitudes have positively influenced buying. Especially innovation and sustainability domains, both of which have strongly influenced consumer buying behavior in the food or beverage market. In addition, the composition of green packaging has influenced consumers' attitude in unusual ways. With practical implications, consumers have unusual backgrounds, lifestyles and food cultures, and contextual society is determinate factor in each nation. Therefore, marketing practices are sensitive to implementation.

Keywords: Attitude, Consumer Behavior, Elementary Trait, Green Packaging, Sustainability

Introduction

Nowadays, the polluted environment is a global crisis problem that all people must be concerned with our circumstances such as greenhouse effect, global warming, raining out of season, dangerous flooding, dust PM 2. 5, forest firing, including toxic chemicals in the surrounding impacts the living things in this world. The terrestrial, marine and air ecosystems are out of balance from human behaviors. It leads to an unbalanced

good life of human beings with other infected diseases such as COVID 19, respiratory disease, and others.

This toxic environment is the main factor that awaked every sector, both government and enterprising collaborated in action taking and accelerating for solutions with better living. It is considerable concerning issues today. Not only are entrepreneurs concerned, but also all people should cooperate in organic products with green packaging consuming. It is the obligations in social responsibility altogether. According to the 17 UN sustainable development goals (SGD) is the blueprint of civilized peace, people, and plant (3Ps), herewith, goal number 12 regards in responsible consumption and production and goal number 3 regards in good health and well – being (United Nations, 2024) namely, healthy environment for all.

Moreover, entrepreneurs can decrease the cost of production, strategic marketing, and operation process through bio economy, circular economy and green economy with modern technology and creative innovation. Many companies support campaigns to care for the environment, therefore awaken consciousness in consumers' attitudes, purchasing behavior (Peattie, 1995). Bazoche et al. (2008) have recommended that data, knowledge, and attitude are cored factors to adjust peoples' behavior in consuming and life living in society.

Objectives

The aim of this study is to focus on the several components of package, attitude, and the big 5 personal traits and their roles in shaping attitude toward sustainable consumption that leads to buying consumers in food or drink bundle with green packaging.

Concept theory framework

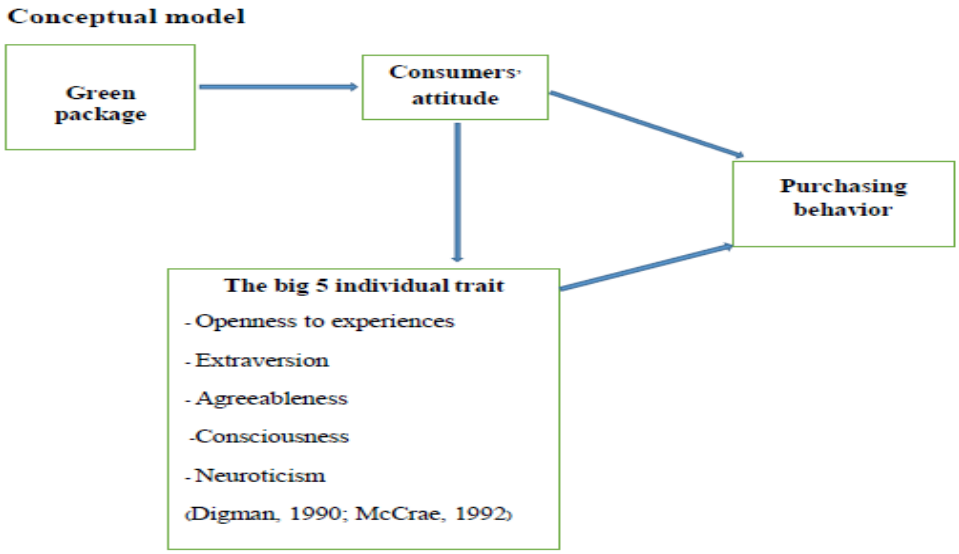

Figure 1: Concept theory framework

Materials and Methods

Respondents and Data collection

This research was surveyed in Bangkok province with non – probability convenience sampling techniques by used conveniences sampling. This studied started from June - Sept 2023 by distributed in 1,200 questionnaires and screened out in uncompleted questionnaires, it's collected 1,003 questionnaires for data analysis which respondents' age between 18 – 59 years old.

These respondents' data are female (57.7%), male (42.3%), age are 18-19 years old (46.9), 20-38 (40%), and 39-59 years old (13.2%). Table 1 shows details of the demographic data as the following:

Table 1: Demographic data

Details		Number of respondents	Number of respondents (%)
Gender	Female	579	57.7%
	Male	424	42.3 %
Ages (years old)	Gen Z 18-19	470	46.9%
Details		Number of respondents	Number of respondents (%)
	Gen Y 20-38	401	40%
	Gen X 39-59	132	3.2%
Educational level	Below bachelor	147	14.7%
	Bachelor	731	72.9%
	Master	99	9.9%
	Ph.D.	26	2.6%

This surveyed questionnaire was depicted into 8 elements about package are brand image, product protection, quality, sustainability, innovation, product storage, product information, and economic aspect. It was designed into 6 parts are.

1). Demographic details

2-3). Consumers' attitudes to green packaging

4). Personal traits with green packaging

5). Purchasing experiences with green packaging

6). Alternatives with green packaging in the future

The structural measured questionnaire by using Likert scale was classified through 5 points; 1 stands for strongly disagreement, 5 stands for strongly agree.

Methodology

A conducting of mixed methods by using quantitative and qualitative (Schoonenboom & Johnson, 2017) Surveyed with 1,200 population, respondents are 1,003 sampling through online survey based on social media platform and 35 interviewing for result confirmation. Descriptive analysis and confirm factor analysis (CFA) were taken with this model by using a two-stage structural equation and examined construct validity and discriminant validity of each aspect with structural equation model (SEM) in secondly (Chaudhuri & Holbrook, 2001).

Data analysis

This research analyses data into 4 parts as the following are.

1). Consumes' attitude in 8 elements of package such as storage, innovation, sustainability, product information, protection, beauty, economy, and branding.

2). Consumers' attitude with green packaging

3). Elementary traits with green packaging

4). Buying behavior with green packaging

Finally, it provides information about green consumer, herewith alternatives recommendations about green packaging design and green marketing.

Results

The aim of this study is to focus on the several components of package, attitude, and the big 5 personal traits. This conceptual model is examined in the reliability and validity in studied constructs are indicated in table2, figure 2 and 3. Herewith the key reliability and validity index in term of Cronbach's alpha, composite reliability (CR), average variance explained (AVE) values and factor loading are studied. (Hair et al., 2010)

Confirm factor analysis (CFA)

4.1 Consumers' perception in 8 elements of green package

Table 2: Elements of green package

Elements of green package		X	SD	Skewness.	Knr.
Protection	Product protection	4.40	0.69	-0.84	0.13

	Shelf-life expansion	4.26	0.83	-1.03	1.02
	Space arrangement decreasing	4.02	0.90	-0.70	0.16
	X	4.19	0.83	-0.63	0.29
Information	Logo, trademark, brand name	4.08	0.88	-0.64	-0.34
	Nutrition description	4.30	0.79	-0.81	-0.05
	Expiry/ manufacture date	4.56	0.67	-1.26	0.39
	Price / barcode	4.28	0.74	-0.64	-0.41
	X	4.31	0.77	-0.54	-0.49
Sustainability	Nontoxic environment	4.29	0.79	-0.76	-0.27

Elements of green package		X	SD	Skewness.	Knr.
	Recycle package	4.10	0.88	-0.56	-0.65
	Redeem package	4.02	0.91	-0.54	-0.41
	X	4.14	0.86	-0.37	-0.78
Economy	Cost of production saving	4.15	0.91	-0.95	0.60
	Cost of marketing saving	4.02	0.90	-0.68	0.10
	Valued added	4.18	0.79	-0.72	0.18
	X	4.12	0.86	-0.76	0.66
Branding	Brand image adding	4.16	0.80	-0.66	0.07
	Brand loyalty	4.14	0.85	-0.73	0.17
	Beauty	4.16	0.80	-0.54	-0.37
	X	4.15	0.82	-0.41	-0.58
Innovation	Different from others	4.18	0.81	-0.60	-0.46
	Modern design	4.17	0.85	-0.71	-0.24
	Creative idea	4.23	0.83	-0.79	-0.19
	X	4.19	0.83	-0.58	-0.41

From table 2 it is revealed that packaging is the powerful thing that has the substantial impact toward purchasing, not only beauty, but cover in many different valuable constructs as well. Expired and manufactured data have the highest significance with x= 4.56, product protection has the high significance x= 4.35, product information has the second highest significance x= 4.31, product storage and product innovation are x= 4.19, whiles convenience is x= 4.18, sustainability construct is x= 4.14, and economy aspect is x= 4.12 respectively.

Figures 4 and 5 and Table 3 show that AVE is more than 0.5, CR is more than 0.7. Fornell and Larcker (1981) and Diamantopoulos and Siguaw (2000) indicated that latent variable can explain valid and reliable observable variable of green package in terms of the convenience, sustainability, economy, branding, including innovation.

Consumers' attitude with green package

From table 4 (AT1 - AT6) consumers' attitudes are shown about consumers' attitudes have influenced toward green package that include healthy, environment caring, innovative, conservative, frugal, and brand loyalty, respectively.

Table 4: Results of factor loading and composition reliability of Attitude.

	Initial	Revised	SMC	AVE	CR	Cronbach's Alpha
AT1	0.593	0.564	0.561	**0.552**	**0.880**	0.880
AT2	0.777	0.776	0.802	-	-	0.855
AT3	0.736	0.718	0.649	-	-	0.860
AT4	0.779	0.787	0.941	-	-	0.857
AT5	0.756	0.758	0.603	-	-	0.859
AT6	0.821	0.827	0.829	-	-	0.850
PS1	0.795	0.799	0.559	**0.571**	**0.869**	0.832

	Initial	Revised	SMC	AVE	CR	Cronbach's Alpha
PS2	0.759	0.757	0.602	-	-	0.839
PS3	0.787	0.792	0.646	-	-	0.831
PS4	0.752	0.749	0.723	-	-	0.840
PS5	0.677	0.676	0.568	-	-	0.855

It shows that AVE is more than 0.5, CR is more than 0.7. Fornell and Larcker (1981) and Diamantopoulos and Siguaw (2000) indicated that latent variable can explain valid and reliable observable variable of consumers' attitude and elementary traits have toward the green package.

Personal traits with green package

From table 4 (PS 1 – PS 5) as personal traits are shown about five personal traits has influenced toward green package that included neuroticism, openness to experience, extroversion, consciousness, and agreeableness, respectively.

In addition, this research studied validity and reliability index of each construct as factors loading, Cronbach's alpha, CFI, and average variance extracted (AVE) in figure 4 and 5.

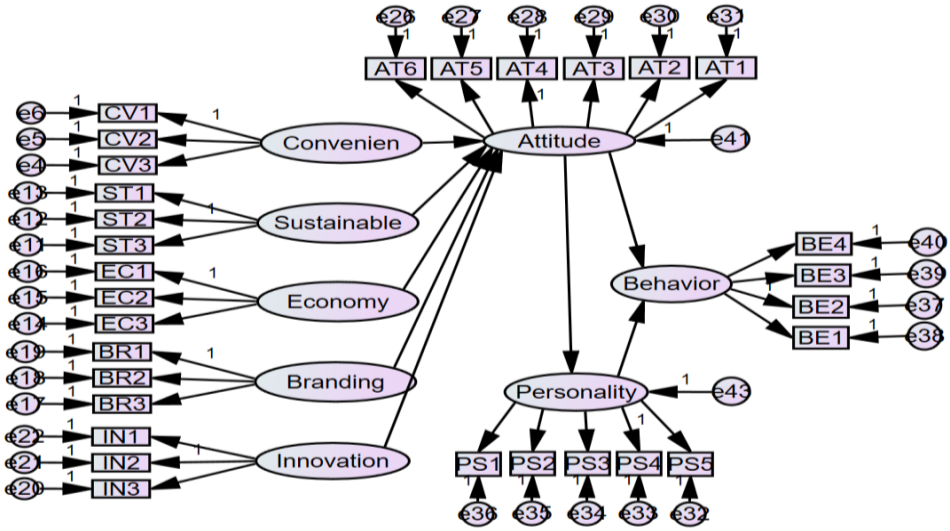

Figure 4. CFA of elements of package, consumer's attitude, and traits

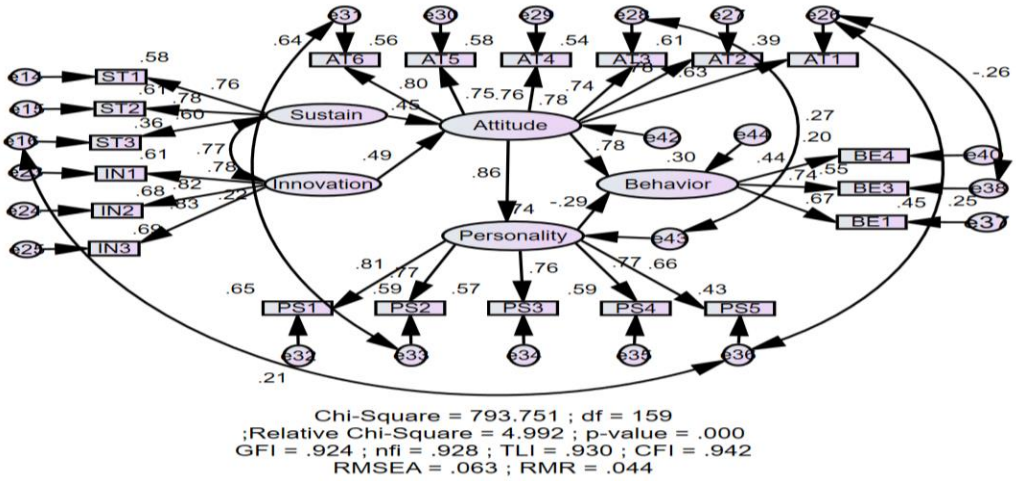

Figure 5. SEM of consumer's attitude, and purchasing in green package

The innovation and sustainability aspect are higher than the critical level of 7 that indicates that innovation and suitability aspect of green packaging have strongly influenced with attitude and purchasing. However, personal traits are not directly influenced by food or drink in green packaging.

Table 5: Regression weights

	P	Result
Sustainability → consumers' attitude	***	Accepted
Innovation of consumers' attitude	***	Accepted
Attitude → personality	***	Accepted
Attitude → purchasing	***	Accepted
Personal trait → purchasing	.149	Rejected

From table 5 it shows that p - value are sustainability and innovation aspect, these two aspects less than .01 are significant that have strongly and directly influenced with consumers purchased decision making, whiles big five personal traits do not have impact with purchasing directly.

Conclusions and Discussion

Marketing and managerial implications

As previously mentioned, the 17 UN sustainable development goals (SGD) convey the importance of environment caring, well – being of human and civilization. This research studied segments of green package in several aspects that influenced with purchasing of food or beverage, and these results are focused on package designing in terms of innovation and sustainability. Both are the core elements that marketers ought to consider about these concepts in package investment. Now with marketing planning at 7 Ps, package is one of the essential factors of marketing mix. Not only beauty appealing but also value adding in environmental context can increase consumer awareness and brand equity.

Furthermore, companies should focus on sustainability – driven innovations. In packaging to enhance consumer trust and brand loyalty. Green packaging strategies should align with consumer attitudes toward sustainability to improve market competitiveness.

Referring to research results is indicated that the big five personal traits are openness to experiences, extraversion, agreeableness, consciousness, and, neuroticism do not have directly influenced with purchasing, although it does not have strongly impact with decision making, but personal traits have direct influenced with personal attitudes in environment consciousness and friendly consumption with their healthy (Digman, 1990; McCrae, 1992).

Research Limitations and Future Recommendations

Specifically, this research has surveyed in Thailand, the results about attitude, traits, and trends in society are dynamics and different from other community, thus we can't concluded that the big five personal traits are not directly with their purchasing behavior about food or beverage in green packaging such as extraverted person who want to express with others his own lifestyle in his society, or even agreeable people who want to show off their fashionable trend about friendly eco system with their shopping rather than their real attitude or concerning.

Culture context is the principal factor to change human personality and daily life spending, exactly it covers their money spending and social status expression. Therefore, this paper provides realistic recommendations to entrepreneurs in their brand building.

Consumers' attitude, perception, personality, and behavior are the criteria in business doing. Lastly, innovation and sustainability should be driven in any marketing activities for implementation today. Advanced technology can grow in a good environment that enterprising sector and government sector should integrated in policy controlling in production, distribution and selling healthy products or friendly service providing to all people.

Abstract

Organic raw milk production is a key component of the Bio Circular Green Economy (BCG) Model in Saraburi Province, Thailand. The research objectives focused on factors affecting the technical efficiency and efficiency scales of the organic raw milk production in Saraburi province base area. The quantitative research was applied. The study population was 1,260 dairy farmers in Saraburi province. The purposive sampling technique was applied. With the inclusion criteria of farmers who operated their dairy product with BCG model, it turned out to be 390 samples. The primary data was collected from dairy farmers applying the questionnaire as a data collection tool. The Stochastic Production Frontier Analysis (SPFA) was exploited to determine the estimated parameters, factors affecting Technical Efficiency (TE) of organic raw milk production. The findings showed that variable costs and fixed costs of organic raw milk production in the base area of Saraburi Province had a positive impact on organic raw milk output with statistical significance at the 99 percent and 95 percent levels, respectively. This indicated that an increase in variable costs leads to an increase in organic raw milk production. The average technical efficiency (TE) score for organic raw milk production was 0.845, indicating a prominent level of efficiency. According to the results of the Stochastic Production Frontier model, efficiency scores ranged from high to extremely high. Specifically, 210 producers (53.846 percent) demonstrated high technical efficiency, while 146 producers (37.436 percent) achieved exceedingly high technical efficiency. The successfulness of organic raw milk production is driven by the adoption of technology and innovation and creating environmentally friendly farm practices for long-term sustainability.

Keywords: Organic Raw Milk, Bio Circular Green Economy Model, Technical Efficiency

Introduction

The inclusion of organic raw milk production within Thailand's Bio-Circular Green Economy (BCG) Model marks a strategic shift towards sustainable development, balancing economic growth, environmental protection, and social welfare. This initiative has evolved

from concept to practice. The BCG Model in Thailand emphasizes efficient use of biological resources, promotes the circular economy, and addresses environmental issues. It aligns with the country's commitment to sustainable development and the United Nations' Sustainable Development Goals (SDGs). Organic raw milk production fits seamlessly into this framework, as it prioritizes natural farming methods, minimizes chemical use, and supports sustainable agricultural practices (National Economic and Social Development Council, 2024).

Nowadays, Thailand's Bio-Circular Green Economy (BCG) Model aims for sustainability by incorporating biological, circular, and green principles into economic development. It focuses on efficient resource use, low-carbon initiatives, and minimizing waste, all in line with the country's commitment to the United Nations' Sustainable Development Goals (SDGs) (National Economic and Social Development Council, 2024).

Organic raw milk production is a key component of the BCG Model, supporting eco-friendly farming practices, lowering greenhouse gas emissions, and promoting social well-being. This article explores the development of organic milk production in Thailand, tracing its origins and its integration into the BCG framework (National Economic and Social Development Council, 2024).

The beginning of organic raw milk production has been emerged with the health and sustainability trends of Thai people. In the past decade, Thai consumers have become more health-conscious, leading to a growing demand for organic and chemical-free food products, including milk (Kaewwongsa et al., 2022). This shift in consumer preferences has accelerated the adoption of organic farming practices.

The Thai government, in partnership with NGOs and agricultural cooperatives, has supported organic farming initiatives. Policies from the Ministry of Agriculture and Cooperatives have focused on promoting sustainable livestock farming and providing certification programs (Ministry of Agriculture and Cooperatives, 2019).

With the economic Potential, the export market for organic dairy products has created opportunities for farmers to transition to organic practices, driven by the potential for premium pricing and access to niche markets (Food and Agriculture Organization, 2024)

The implementation in practice of Thai organic raw milk production has effectively been incorporated into the BCG Model through the following practices: 1) the organic farming practices which expressed as farmers adopted organic practices by removing the use of chemical fertilizers, antibiotics, and synthetic pesticides. The cows are provided with organic-certified feed and allowed to graze on free-range grass, promoting animal welfare (Kaewwongsa et al., 2020), 2) the circular economy integration explicated with the implementation of manure recycling. Cow manure is converted into organic fertilizers, minimizing waste and improving soil health (Ministry of Agriculture and Cooperatives, 2019).

Biogas Production: Livestock waste is transformed into biogas, a renewable energy source, which is either used for farming activities or sold locally (United Nations Development , 2021), 3) community-based models was functioned as Cooperatives like the Thai Dairy Cooperative Federation (TDCF) assist farmers in accessing resources, exchanging knowledge, and consolidating organic products to improve market access (Food and Agriculture Organization, 2020), 4) organic raw milk production assessed to the certification and market development. Certified organic raw milk is sold under organic labels both locally and internationally, with certifications from organizations such as the Organic Agriculture Certification Thailand (ACT). Niche markets, including health-conscious consumers and high-end exports, contribute to driving sales (National Economic and Social Development Council, 2024)

Despite its success, the production of organic raw milk faces several challenges with the excessive cost of production. Farmers faced significant expenses when shifting from conventional to organic farming including the costs of organic feed and certification (Kaewwongsa et al., 2020). Another issue was expressed as knowledge and skill gaps. Smallholder farmers often lacked the technical knowledge needed to adopt sustainable practices, making the transition difficult (Ministry of Agriculture and Cooperatives, 2024). Also, the organic sector struggles to compete with lower-priced conventional milk, hindering its growth.

To strengthen the synergy between organic raw milk production and the BCG Model with technology adoption. Farmers were introduced smart farming technologies to boost efficiency and lower production costs along with enhanced subsidies, training programs, and financial support to assist farmers in transitioning to organic practices (United Nations Development, 2021). Also, the consumer awareness was launched public campaigns that emphasize the health and environmental advantages of organic milk.

At the present time, Thailand's organic raw milk production is in line with the principles of the Bio-Circular Green Economy (BCG) Model by promoting sustainable agricultural practices, aiding rural communities, and supporting environmental conservation. With targeted policy support and market expansion, organic milk production could be a key driver in Thailand's path toward sustainable development.

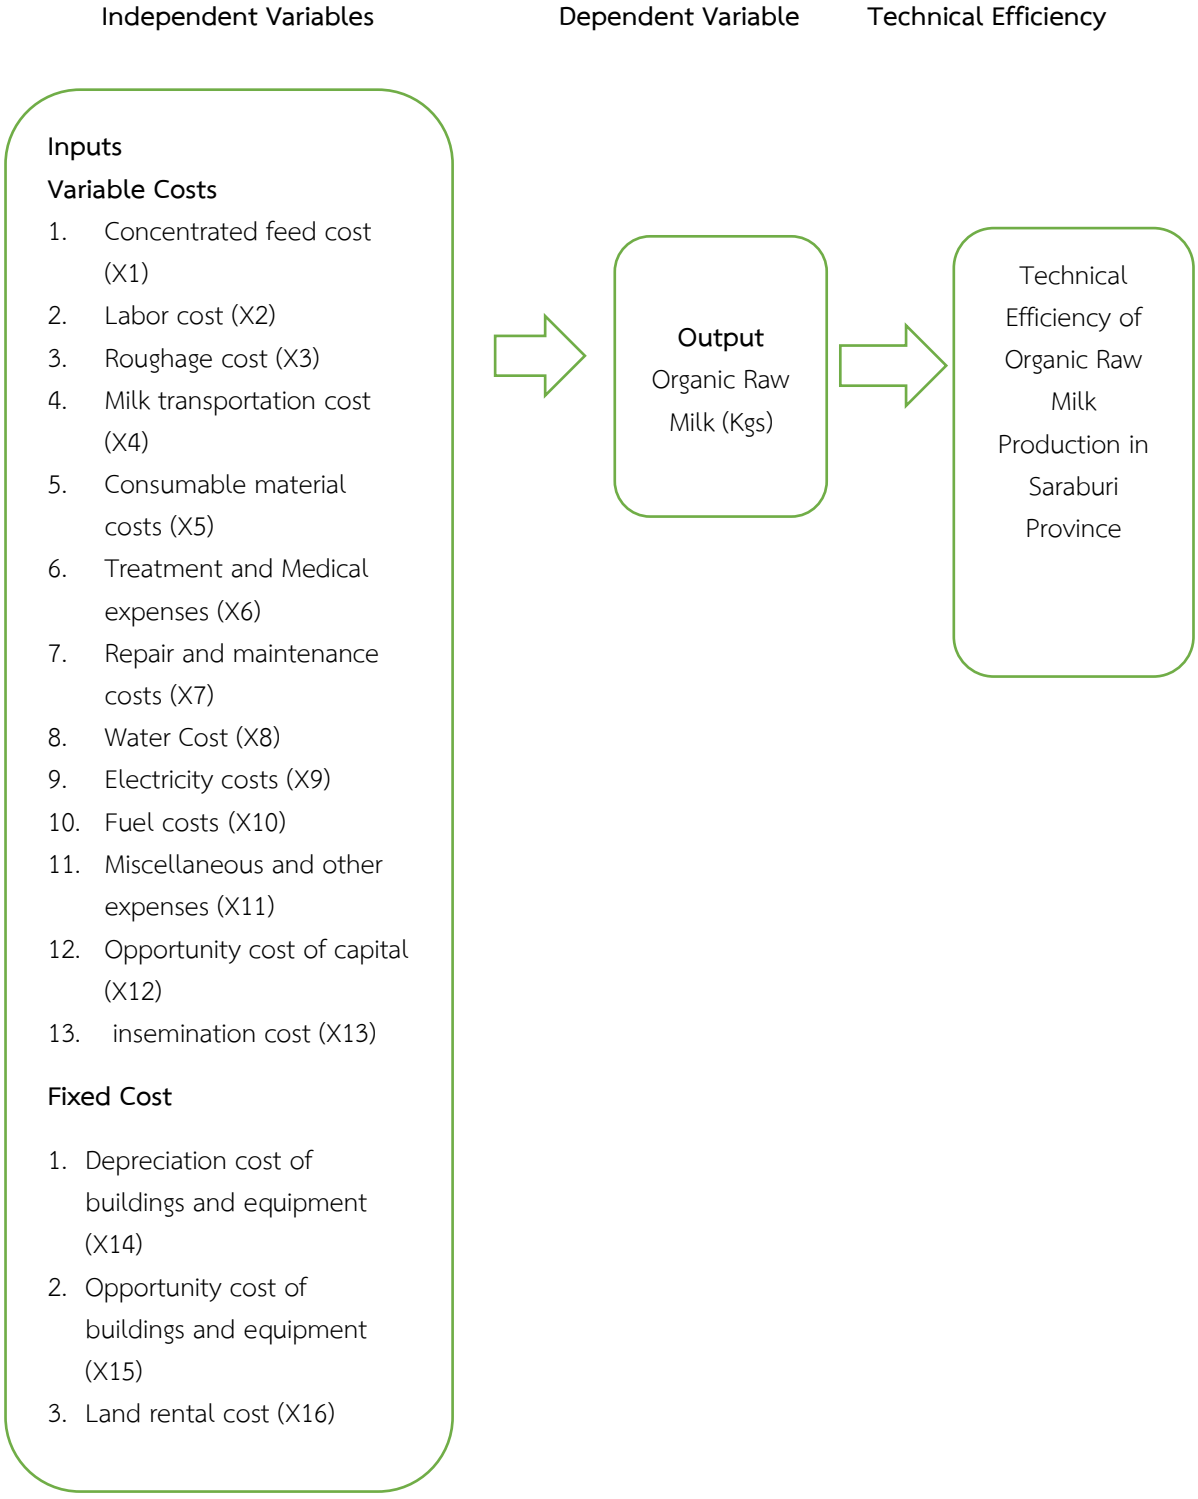
Since, organic raw milk production was implanted and supported by the Royal Thai government in many places around Thailand. Saraburi province located in the central part of Thailand was one of several provinces of implemented area base. Bank for Agriculture and Agricultural Cooperatives (2025) reported that the growth of organic raw milk production in Saraburi Province, following the Bio-Circular-Green Economy model, has promoted sustainability within the raw milk sector. Farmers in the area have received assistance in adopting chemical-free and contaminant-free dairy farming practices, resulting

in a monthly output of 129,600 kilograms of organic raw milk. This increase in production has also led to higher earnings for farmers, as they can sell their organic milk at a premium price compared to conventional milk. Saraburi Province is the leading dairy-producing region in Thailand, where some farmers have transitioned to organic practices.

Successfulness in this sector is driven by the adoption of technology and innovation in cattle breeding and rearing, prioritizing animal welfare, and creating environmentally friendly farm practices for long-term sustainability. Farmers are encouraged to enhance self-reliance, minimize dependence on imported materials, and focus on producing high-quality animal feed. Meanwhile, the government is urged to provide support and raise awareness about the benefits of consuming organic milk (Bank for Agriculture and Agricultural Cooperatives, 2025).

Addressing the research, the aim of this research paper attempted to measure the technical efficiency (TE) of organic raw milk production in Saraburi province base area to make sure that the organic raw milk production project supported by the Royal Thai Government obtained the technical efficiency (TE) for the project implementation which also made the confirmation that this project met the requirement of TE for the on-going project supporting by the Royal Thai Government. Theatrically, the stochastic production frontier was adopted as the tool for TE measurement. Technical efficiency (TE) refers to the ability of a production unit, such as a farm, to produce the maximum output (raw milk) from a given set of inputs such as feed, labor, and capital. In the context of raw milk production, measuring technical efficiency helps identify whether dairy farmers are utilizing resources optimally and where improvements can be made to enhance productivity. (Kaewwongsa, P., et al, 2020).

The research results could be applied to support organic raw milk production which offered several benefits of higher nutritional value, free from synthetic hormones, antibiotics, and pesticides leading to sustainable farming practices. The integration of the Bio-Circular-Green (BCG) Economy Model into organic raw milk production obtained several advantages such as the enchantment of animal health, the research results would support and drive into probiotic-rich dairy products, bio-fermentation, and value-added organic dairy products. Cows in good health require fewer antibiotics, resulting in cleaner and safer milk. Transforms cow manure into organic fertilizer or biogas, creating a sustainable waste cycle.



Objectives

The research objective was focused on factors affecting the measurement of technical and scale Efficiency of the organic raw milk production in Saraburi province base area.

Hypothesis

Dairy farmers who performed organic raw milk production responding to BCG model achieved technical efficiency.

Concept theory framework

Materials and Methods

The methodology was survey research applying the econometric methodology to estimate the organic raw milk production efficiency in Saraburi Province, Thailand exploiting the Stochastic Production Frontier Model to determine factors and the level of technical efficiency affecting the organic raw milk production efficiency.

Data Collection

The study population was composed of 1,260 dairy farmers in Saraburi province. The research in this study collects primary data obtained from the online questionnaire survey of organic raw milk producers in Saraburi province area base. The purposive sampling technique was applied as the inclusion criterion of dairy farmers who performed their organic raw milk production for over 2 years continuously. It turned out of 390 farmers which covered 13 districts in Saraburi province.

Table 1: Number of Samples of organic raw milk producers in Saraburi province area base

Districts in Saraburi Province	Number of Samples (Dairy Farmers' Households)
1. Mueang Saraburi	30
2. Kaeng Khoi	30
3. Nong Khae	30
4. Wihan Daeng	30
5. Nong Saeng	30
6. Ban Mo	30
7. Don Phut	30
8. Nong Don	30
9. Phra Phutthabat	30
10. Sao Hai	30
11. Muak Lek	30
12. Wang Muang	30
13. Chaloem Phra Kiat	30
Total	**390**

Source: The Researcher 's Calculation

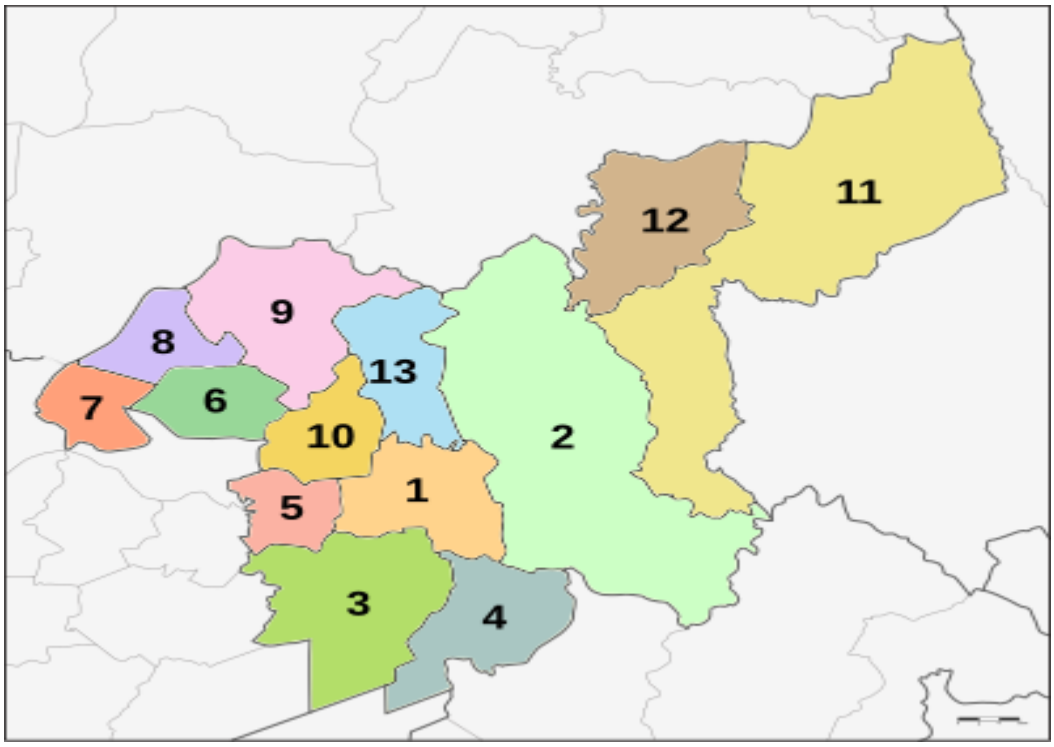


Figure 1: Map of Saraburi with 13 districts

Source: https://en.wikipedia.org/wiki/Saraburi_province

According to Figure 1, the geographic of Saraburi province is composed of 13 districts where the primary data were collected from. Theses 13 districts are: 1) Mueang Saraburi, 2) Kaeng Khoi, 3) Nong Khae, 4) Wihan Daeng, 5) Nong Saeng, 6) Ban Mo, 7) Don Phut, 8) Nong Don, 9) Phra Phutthabat, 10) Sao Hai, 11) Muak Lek, 12) Wang Muang, and 13) Chaloem Phra Kiat. The primary data were collected from 13 districts with equal numbers of 30 respondents. It turned out of the total numbers of 390 samples as sample size (Table1.)

Data Analysis

The research used cross-sectional primary data, analyzed to meet its objectives as follows:

Quantitative analysis

The study applied the Stochastic Production Frontier (SPF) method to evaluate the technical production efficiency of organic raw milk production in Saraburi Province. The analysis involved parameter estimation using the Maximum Likelihood method to determine their efficiency levels within the stochastic production model framework.

$$y_i = f(x_i;\ \beta).exp\,(v_i - u_i) \qquad (1)$$

Where:

y_i is the output for the ith firm in terms of the natural logarithm.

x_i is a vector of inputs in terms of the natural logarithm?

β is a vector of parameters to be estimated.

v_i is the stochastic error term (assumed to be normally distributed).

u_i is the inefficiency term (usually assumed to be non-negative).

In this research work the Stochastic Production Frontier could be expressed as follows:

The output is expressed as:

y_i is the maize output for the ith household in terms of the natural logarithm?

The inputs are expressed as:

x_1 is a vector input of concentrated feed cost in terms of the natural logarithm?

x_2 is a vector input of labor cost in terms of the natural logarithm?

x_3 is a vector input of roughage cost in terms of the natural logarithm?

x_4 is a vector input of milk transportation cost in terms of the natural logarithm?

x_5 is a vector input of consumable material costs in terms of the natural logarithm?

x_6 Is a vector input of treatment and medical expenses in terms of the natural logarithm?

x_7 is a vector input of repair and maintenance costs in terms of the natural logarithm?

x_8 is a vector input of water cost in terms of the natural logarithm?

x_9 is a vector input of electricity costs in terms of the natural logarithm?

x_{10} Is there a vector input of fuel costs in terms of the natural logarithm?

x_{11} is a vector of miscellaneous and other expenses in terms of the natural logarithm?

x_{12} Is a vector input of opportunity cost of capitals in terms of the natural logarithm?

x_{13} is a vector of insemination cost in terms of the natural logarithm?

x_{14} is a vector of depreciation cost of buildings and equipment?
in terms of the natural logarithm

x_{15} is it a vector of opportunity cost of buildings and equipment?
in terms of the natural logarithm

x_{16} is a vector of land rental cost in terms of the natural logarithm?

β is a vector of parameters to be estimated.

v_i is the stochastic error term (assumed to be normally distributed).

u_i is the inefficiency term (usually assumed to be non-negative).

Results

Part1 The estimation of factors affecting technical production efficiency of organic raw milk production in Saraburi Province, Thailand

The estimation of parameters based on the Stochastic Production Frontier equation using the Maximum-Likelihood method is Table 2 as follows:

Table 2: Factors Affecting Technical Production Efficiency of Organic Raw Milk Producers in Phetchabun Province, Thailand

Dependent Variable (y) : Organic Raw Milk Production

(n. = 390)

Independent Variables	Estimated Parameters	Coefficients	t-value
Stochastic Frontier			
Constant term	β_0	-236.860	(39.252)
Concentrated feed cost (x_1)	β_1	34.270	(34.627)**
Labor cost (x_2)	β_2	54.670	(23.425)**
Roughage cost (x_3)	β_3	29.290	(18.602)**
Milk transportation cost (x_4)	β_4	19.481	(23.146)**
Consumable material costs (x_5)	β_5	11.546	(22.462)*
Treatment and Medical expenses (x_6)	β_6	23.264	(32.164)*
Repair and maintenance costs (x_7)	β_7	16.412	(24.126)*
Water Cost (x_8)	β_8	18.641	(32.621)*
Electricity costs (x_9)	β_9	16.142	(41.213)**
Fuel costs (x_{10})	β_{10}	21.245	(19.143)**

Independent Variables	Estimated Parameters	Coefficients	t-value
Miscellaneous and other expenses (x_{11})	β_{11}	24.168	(22.463)*
Opportunity cost of capital (x_{12})	β_{12}	18.246	(23.164)**
Insemination cost (x_{13})	β_{13}	20.412	(18.154)*
Depreciation cost of buildings and equipment (x_{14})	β_{14}	26.156	(18.942)*
Opportunity cost of buildings and equipment (x_{15})	β_{15}	18.641	(19.126)**
Land rental cost (x_{16})	β_{16}	12.461	(23.246)*

**Statistical Significance at 99 percent

*Statistical Significance at 95 percent

Noted: Variables were expressed in a Natural logarithm form

According to table 2, the statistical results expressed that both variable costs and fixed cost of organic raw milk production in Saraburi province base area had positive impact on the organic raw milk production at the 99 and 95 percent Statistical Significance, respectively. This indicated that the increase of all variable cost of organic raw milk would increase the organic raw milk production as well. In this research outcomes, the variable costs were comprised of 13 factors which were: concentrated feed, labor cost, roughage, milk transportation cost, consumable material costs, treatment and Medical expenses, repair and maintenance costs, water cost, electricity cost, fuel costs, miscellaneous and other expenses, opportunity cost of capital and insemination cost. The fixed costs were composed of 3 factors which were the depreciation cost of buildings and equipment, opportunity cost of buildings and equipment and land rental cost.

Table 3: The level of technical efficiency of the organic raw milk in Saraburi Province, Thailand

(n=390)

Level of Technical Efficiency	Technical Efficiency Value	Number of Farmers	Percentage
Extremely low	(0.0000 - 0.5000)	2	0.513
Low	(0.5001 - 0.6000)	10	2.564
Moderate	(0.6001 - 0.8000)	22	5.641
High	(0.8001 - 0.9000)	210	53.846
Very High	(0.9001 - 0.9999)	146	37.436
Total		390	100.000
Maximum	0.921		
Minimum	0.438		
Average	0.845		

Source: The Researcher's Calculation

According to table 3, the technical efficiency scores of organic raw milk production in Saraburi province of Thailand were ranged from 0.438 to 0.921. The average efficiency score expressed as 0.845 which was in the high technical efficiency score. The research findings from the Stochastic Production Frontier model revealed that the efficiency scores for organic raw milk production ranged from high to exceedingly high. There were 210 producers of organic raw milk production in the prominent level of Technical Efficiency which accounted for 53.846 percent. Also, there were 146 producers of organic raw milk production at an exceedingly high level of technical efficiency, which accounted for 37.436 percent. In addition, there were 2, 10 and 22 producers of organic raw milk production in extremely low, low, and moderate levels of technical efficiency which accounted for 0.513, 2.564 and 5.641 percent, respectively.

Conclusions and Discussion

Organic raw milk production plays a vital role in the BCG Model, fostering sustainable farming methods, reducing greenhouse gas emissions, and enhancing social welfare. This article delves into the evolution of organic milk production in Thailand, highlighting its origins and incorporation into the BCG framework.

This research aimed to evaluate the technical efficiency (TE) of organic raw milk production in the base area of Saraburi Province. The goal was to ensure that the organic raw milk production project, supported by the Royal Thai Government, achieved the required TE for effective project implementation. Additionally, the evaluation confirmed

that the project met the necessary TE standards for its continued government support. To achieve this, the stochastic production frontier method was employed as the primary tool for measuring technical efficiency. The statistical analysis revealed that both variable costs and fixed costs of organic raw milk production in the base area of Saraburi Province had a positive impact on organic raw milk output, with statistical significance at the 99 percent and 95 percent levels, respectively. This indicates that an increase in variable costs leads to an increase in organic raw milk production.

The research findings identified 13 factors contributing to variable costs: concentrated feed, labor costs, roughage, milk transportation costs, consumable materials, treatment and medical expenses, repair and maintenance costs, water costs, electricity costs, fuel costs, miscellaneous expenses, opportunity cost of capital, and insemination costs. Fixed costs were categorized into three components: depreciation of buildings and equipment, opportunity costs of buildings and equipment, and land rental costs. The research found that the average technical efficiency (TE) score for organic raw milk production was 0.845, indicating a prominent level of efficiency. According to the results of the Stochastic Production Frontier model, efficiency scores for organic raw milk production ranged from high to exceedingly high. Specifically, 210 producers (53.846 percent) demonstrated high technical efficiency, while 146 producers (37.436 percent) achieved exceedingly high technical efficiency.

The research findings were consistent with the study of Madau, F.A., Furesi, R. and Pulina, P. (2024) who studied technical efficiency and total factor productivity changes in European dairy farm sectors focusing the organic dairy farms. In according with Linehan, K., Patangia, D.V. Ross, R.P., and Stanton, C. (2024) found that milk is one of the most valuable products in the food industry with most milk production throughout the world being carried out using conventional management, which includes intensive and traditional systems. The intensive use of fertilizers, antibiotics, pesticides and concerns regarding animal health and the environment have given increasing importance to organic dairy and dairy products in the last two decades. The research findings were consistent with the study of Grodkowski, G. et al. (2024) who studied organic milk production and dairy farming constraints and prospects under the laws of the European Union who addressed that consumers are increasingly opting for organic farming products, driven by the belief that organic farming avoids the use of pesticides and antibiotics while ensuring optimal living conditions for animals. The differences between organic and conventional dairy cattle housing systems focused on welfare assessment, breed selection, and product quality. Their findings indicated that cows raised in organic systems experience better welfare compared to those in conventional systems. In addition, the research findings were consistent with Yu, Z. et al. (2023) who conducted their research on production efficiency

of raw milk and its determinants: Application of Combining Data Envelopment Analysis and Stochastic Frontier Analysis. They found that raw milk production efficiency is significantly influenced by several factors, including the proportion of concentration to roughage consumption, medical and epidemic prevention investment, the price of raw milk, the wage level, and fixed assets.

The Measurement of Technical and Scale Efficiency of Maize Production of Agricultural Cooperatives in Loei Province, Thailand

Anucha Wittayakorn-Puripunpinyoo[1*]

[1] Associate Professor Dr., School of Agriculture and Cooperatives, Sukhothai Thammathirat Open University.

[*]**Corresponding author, E-mail:** puanucha@windowslive.com

Abstract

Loei Province contributes significantly to Thailand's total maize output with production primarily focused on feed maize. The research objectives focused on measuring the technical and scale efficiency of maize production of agricultural cooperatives in Loei Province. The study population was 35 agricultural cooperatives. The purposive sampling technique was applied. It turned out of 10 agricultural cooperatives as the sample size. Data were collected from the Cooperative Auditing Department from 2020 to 2024. Technical and scale efficiency were examined by the Data Envelopment Analysis (DEA) model. The findings expressed that 6 out of 10 agricultural cooperatives achieved the technical efficiency of maize production with an efficiency score of 1.00 which expressed these agricultural cooperatives operated their maize production with technical efficiency. On the other hand, there were 4 out of the agricultural cooperatives who achieved the technical efficiency of maize production with an efficiency score of less than 1.00. This meant that these agricultural cooperatives operated maize production under the technical efficiency. There were 3 agricultural cooperatives, Tha Li Agricultural Cooperative Limited, Dan Sai Agricultural Cooperative Limited, and Na Duang Agricultural Cooperative Limited would decrease their inputs of maize production to get the maximum total revenue. On the other hand, there was only one agricultural cooperative, Tha Li Agricultural Cooperative Limited would increase their inputs of maize production to get the maximum total revenue. The findings would lead agricultural cooperatives to be the import area of maize production in Thailand.

Keywords: Technical Efficiency, Scale Efficiency, Maize Production, Agricultural Cooperatives

Introduction

Maize (Zea mays L.), also known as corn, is one of the most widely grown crops globally, with a crucial role in food security, livestock feed, and industrial applications. Research on maize production focuses on enhancing yield, combating pests and

diseases, and mitigating the effects of climate change (Pingali, 2001). In addition, maize is a staple food for more than 1 billion people worldwide. Its adaptability to diverse agro-climatic conditions and high yield potential make it a key crop for ensuring food security. In addition, maize contributes significantly to the livestock feed industry and biofuel production (Pingali, 2001; Farooq & Kadambot, 2009).

In Thailand, Maize is one of the major crops cultivated in Thailand, primarily used as animal feed, especially in the poultry and livestock industries. It ranks among the top export commodities for the country and plays a significant role in the agricultural economy. However, maize production in Thailand faces challenges related to land use, environmental sustainability, and global market competition (Food and Agriculture Organization, 2022). Maize contributes significantly to Thailand's agricultural sector, particularly as a feed crop for the growing poultry and livestock industries. In 2022, Thailand produced approximately 5 million tons of maize, with most of it consumed domestically to support the country's animal feed industry (Food and Agriculture Organization, 2022). Over 90% of maize produced in Thailand is used in animal feed industries. A smaller portion is exported to neighboring countries such as Vietnam and the Philippines. Maize starch is used in the production of food and beverages. (Rerkasem, 2016; Food and Agriculture Organization, 2022).

The major maize-growing regions in Thailand are Chiang Mai, Chiang Rai, and Nan the Northern region of Thailand leads in maize cultivation due to favorable soil and climatic conditions. In the Northeastern region of Thailand, Loei and Nakhon Ratchasima are also significant contributors. Also, in the Western region of Thailand, Kanchanaburi, and Tak are emerging regions for maize production (Rerkasem, 2016; Food and Agriculture Organization, 2022).

Loei, a province in northeastern Thailand, plays a significant role in the country's maize production. Known for its mountainous terrain, diverse climate, and fertile soils, Loei has emerged as one of the key regions for growing maize, primarily for animal feed. The province's maize farming contributes to Thailand's broader agricultural economy, especially in meeting the increasing demand for livestock feed (Office of Agricultural Economics, 2022).

Figure 1: Map of Loei Province, Thailand
Source: https://en.wikipedia.org/wiki/Loei_province

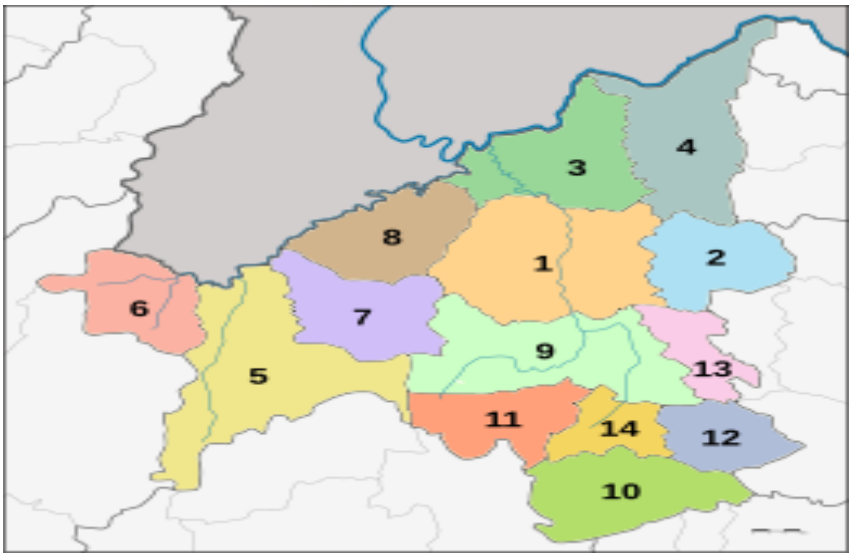

Figure 2: Map of 14 Districts in Loei Province, Thailand
Source: https://en.wikipedia.org/wiki/Loei_province

According to figure 2, Loei Province is comprised of 14 districts which are: 1) Mueang Loei, 2) Na Duang, 3) Chiang Khan, 4) Pak Chom, 5) Dan Sai, 6) Na Haeo, 7) Phu Ruea, 8) Tha Li, 9) Wang Saphung, 10) Phu Kradueng, 11) Phu Luang, 12) Pha Khao, 13) Erawan, and 14) Nong Hin.

Loei's geography and climate make it well-suited for maize farming. The province experiences a tropical savanna climate, characterized by a pronounced rainy season and a cooler dry season. Most maize in Loei is grown during the rainy season from May to October which provides the necessary water supply for crop growth. Due to its hilly topography, maize fields in Loei often utilize terrace farming to minimize soil erosion and improve water retention. Farmers cultivate hybrid maize seeds for higher yields, improved pest resistance, and suitability to Loei's environment. The province's soil, sandy loam, is ideal for maize cultivation, though consistent use of fertilizers and soil conditioners is needed to maintain fertility (Office of Agricultural Economics, 2022).

Loei contributes significantly to Thailand's total maize output, with production primarily focused on feed maize. The yield in Loei averages around 3.5 to 4 tons per hectare, depending on weather conditions and farming practices (Office of Agricultural Economics, 2022; Suwankiri & Pannangpetch, 2021).

This research evaluated the technical efficiency of maize production in Loei Province, Thailand, using Data Envelopment Analysis (DEA). DEA, a non-parametric linear programming method, is employed to estimate the efficiency levels of maize farms based on their input-output data. The study identifies the scale efficiency, pure technical efficiency, and overall technical efficiency of maize production through the agricultural cooperatives in Loei Province of Thailand.

In this research paper with the information mentioned, the researcher conducted the research paper of the measurement of technical and scale efficiency of maize production of agricultural cooperatives in Loei province, Thailand. This would give a better understanding of the technical efficiency of maize production in Loei province which is crucial for addressing production gaps and improving overall output. Technical efficiency refers to the ability of farmers to maximize output given a specific set of inputs and technologies (Farrell, 1957). The research results would be applied for the maize production guideline for agricultural cooperatives to improve their maize production with technical applied for the utilizing resources optimally to maximize output while minimizing waste of agricultural cooperatives performances. The maize production cost reduction which streamlined their processes of waste reduction and lowering production and operational expenses on maize production to achieve the maximum output level along with existing resources enhances maize production efficiency.

Objectives

The research objectives were to measure the technical and scale efficiency of maize production of agricultural cooperatives in Loei Province, Thailand.

Hypothesis

Agricultural cooperatives in Loei Province operated their maize production with technical efficiency expressing their scale efficiency of 1.00.

Concept theory framework

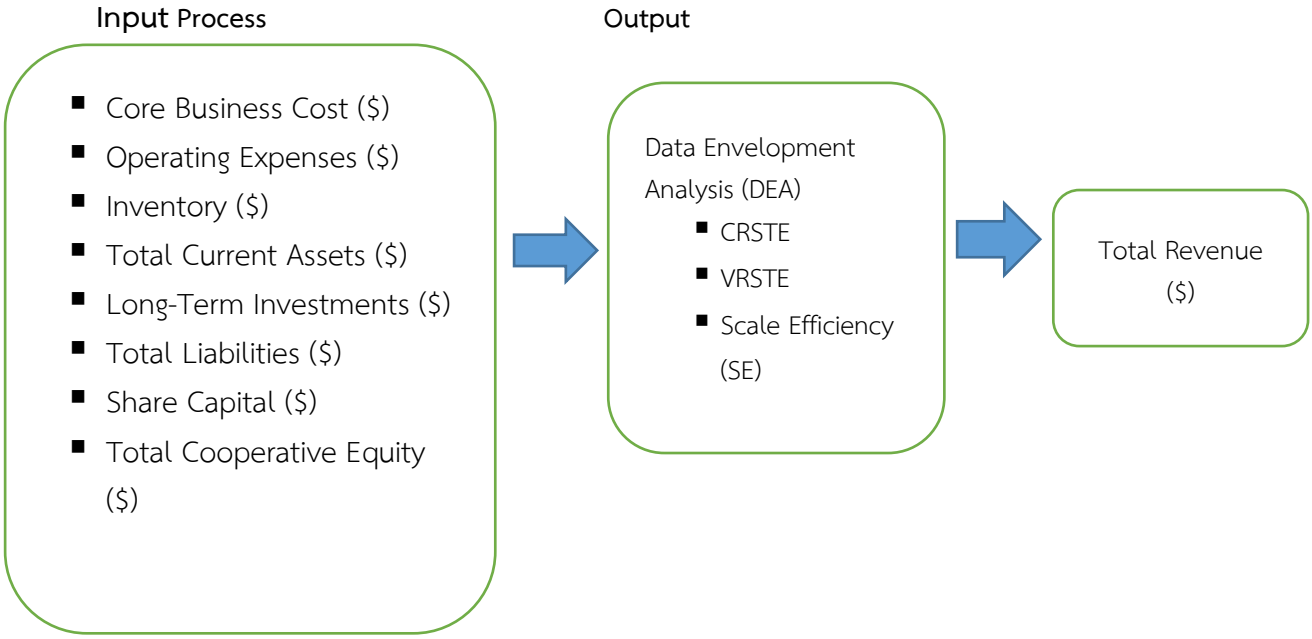

Figure 3: Conceptual framework

Research Methodology

The methodology was quantitative research applying the Data Envelopment Analysis (DEA) Model to measure the technical and scale efficiency of maize production of Agricultural Cooperatives in Loei Province, Thailand.

Data Collection

The study focused on a population of 35 agricultural cooperatives in Loei Province, Thailand. A purposive sampling method was used to select cooperatives that had been continuously producing maize for five years. Based on these criteria, 10 agricultural cooperatives were selected: Muang Loei Agricultural Cooperative Limited, Wang Saphung Agricultural Cooperative Limited, Phu Ruea Agricultural Cooperative Limited, Phu Kradueng Agricultural Cooperative Limited, Tha Li Agricultural Cooperative Limited, Dan Sai Agricultural Cooperative Limited, Na Duang Agricultural Cooperative Limited, Phu Luang Agricultural Cooperative Limited, Pha Khao Agricultural Cooperative Limited, and Erawan Agricultural Cooperative Limited.

Secondary data were obtained from the Cooperative Auditing Department's database for the period 2020–2024. The dataset included the following financial indicators: (1) total revenue, (2) core business costs, (3) operating expenses, (4) inventory,

(5) total current assets, (6) long-term investments, (7) total liabilities, (8) share capital, and (9) total cooperative equity. With five consecutive years of time-series data from 10 agricultural cooperatives, the study comprised a total of 50 observations.

Data Analysis

To evaluate the technical and scale efficiency of maize production among agricultural cooperatives in Loei Province, Thailand, the Data Envelopment Analysis (DEA) model was utilized as the analytical tool. The assessment included: (1) technical efficiency based on the Constant Returns to Scale (CRS) DEA (CRSTE), (2) technical efficiency based on the Variable Returns to Scale (VRS) DEA (VRSTE), and (3) Scale Efficiency (SE).

Results

In line with the research objectives, the technical and scale efficiency of maize production among agricultural cooperatives in Loei Province, Thailand, were measured as follows:

Table 1: The technical and scale efficiency of maize production among agricultural cooperatives in Loei Province, Thailand

Order	Cooperatives Name	CRSTE	VRSTE	Scale	Explanation
1	Muang Loei Agricultural Cooperative Limited	1.000	1.000	1.000	-
2	Wang Saphung Agricultural Cooperative Limited	1.000	1.000	1.000	-
3	Phu Ruea Agricultural Cooperative Limited	1.000	1.000	1.000	-
4	Phu Kradueng Agricultural Cooperative Limited	0.959	0.960	0.999	DRS
5	Tha Li Agricultural Cooperative Limited	0.917	0.928	0.988	IRS
6	Dan Sai Agricultural Cooperative Limited	0.894	1.000	0.894	IRS
7	Na Duang Agricultural Cooperative Limited	0.981	1.000	0.981	IRS
8	Phu Luang Agricultural Cooperative Limited	1.000	1.000	1.000	-
9	Pha Khao Agricultural Cooperative Limited	1.000	1.000	1.000	-
10	Erawan Agricultural Cooperative Limited	1.000	1.000	1.000	
	Average	0.975	0.989	0.986	

Source: Calculation

Note: CRSTE = technical efficiency from CRS DEA

VRSTE = technical efficiency from VRS DEA

Scale = scale efficiency = CRSTE/ VRSTE

According to Table 1, there were six out of 10 agricultural cooperatives in Loei province who achieved technical efficiency from Constant Return to Scale (CRS), technical efficiency from Variable Return to Scale (VRS), and Scale Efficiency (SE) of 1.00. The six agricultural cooperatives were comprised of 1) Muang Loei Agricultural Cooperative Limited, 2) Wang Saphung Agricultural Cooperative Limited, 3) Phu Ruea Agricultural Cooperative Limited, 4) Phu Luang Agricultural Cooperative Limited, 5) Pha Khao Agricultural Cooperative Limited, and 6) Erawan Agricultural Cooperative Limited.

There were four out of 10 agricultural cooperatives achieved technical efficiency from Constant Return to Scale (CRS), technical efficiency from Variable Return to Scale (VRS), and Scale Efficiency (SE) less than 1.00 which comprised 1) Phu Kradueng Agricultural Cooperative Limited, 2) Tha Li Agricultural Cooperative Limited, 3) Dan Sai Agricultural Cooperative Limited and 4) Na Duang Agricultural Cooperative Limited.

Phu Kradueng Agricultural Cooperative Limited achieved technical efficiency from Constant Return to Scale (CRS), technical efficiency from Variable Return to Scale (VRS), and Scale Efficiency (SE) of 0.959, 0.960, and 0.999, respectively. The result expressed that Phu Kradueng Agricultural Cooperative Limited would increase the use of maize production inputs which were 1) increasing in share capital, 2) total cooperatives equity, and 3) long-term investments. The share capital was expressed as the total amount of money that the agricultural cooperatives raised by issuing shares to its members or investors. It represents the financial contribution made by shareholders in exchange for ownership stakes in the organization. The total cooperatives equity functioned as the overall financial ownership value of agricultural cooperatives which included members' share capital, retained earnings, and other reserves. It represented the cooperative's net worth after deducting total liabilities from total assets. In addition, long-term investments indicated to assets or financial investments that a cooperative or business holds for an extended period, typically longer than one year. These may include stocks, bonds, real estate, or other investments intended to generate returns over time rather than for immediate use or resale.

The Li Agricultural Cooperative Limited achieved technical efficiency from Constant Return to Scale (CRS), technical efficiency from Variable Return to Scale (VRS), and Scale Efficiency (SE) of 0.917, 0.928, and 0.988, respectively.

Dan Sai Agricultural Cooperative Limited achieved technical efficiency from Constant Return to Scale (CRS), technical efficiency from Variable Return to Scale (VRS),

and Scale Efficiency (SE) of 0.894, 1.000, and 0.894, respectively.

Na Duang Agricultural Cooperative Limited achieved technical efficiency from Constant Return to Scale (CRS), technical efficiency from Variable Return to Scale (VRS), and Scale Efficiency (SE) of 0.981, 1.000, and 0.981, respectively.

The three above agricultural cooperatives in Loei Province would decrease the inputs of maize production which were 1) core business cost, 2) operating expenses, 3) inventory, 4) total current assets, and 5) total liabilities.

The decrease in the core business cost indicated the total expenses related to the agricultural cooperative's main operations. This included costs such as raw materials, production expenses, labor, and other essential expenditures necessary to sustain the primary business activities.

The decrease in operating expenses was expressed to the costs incurred in the day-to-day operations of agricultural cooperatives. These expenses included salaries, rent, utilities, administrative costs, and other overhead expenses necessary to maintain business activities but were not directly tied to production.

The decrease in inventory indicated the goods, raw materials, and products that agricultural cooperatives hold for production, resale, or daily operations. It included finished products ready for sale, work-in-progress items, and raw materials used in production.

The decrease in total current assets included the sum of all short-term assets that a cooperative can convert into cash or use within one year. These typically included cash and bank deposits, accounts receivable (money owed by customers), inventory (raw materials, work-in-progress, and finished goods), Short-term investments, prepaid expenses (payments made in advance for future expenses), total current assets were crucial for assessing a cooperatives' liquidity and ability to meet short-term financial obligations.

Conclusions and Discussion

Maize (Zea mays L.), commonly known as corn, is one of the world's most extensively cultivated crops, playing a vital role in food security, animal feed, and various industrial uses. Studies on maize production primarily aim to improve yield, manage pests and diseases, and address the challenges posed by climate change.

In Thailand, maize is a key agricultural crop primarily grown for use as animal feed, particularly in the poultry and livestock industries. It is also one of the country's major export commodities, contributing significantly to the agricultural sector and overall economy.

Loei, a province in northeastern Thailand, is an important hub for maize production. With its mountainous landscape, diverse climate, and fertile soil, the region has become a key area for cultivating maize, for use as animal feed.

There were six out of 10 agricultural cooperatives in Loei Province who achieved a technical efficiency score of 1.00 across all three efficiency measures: Constant Returns to Scale (CRS) technical efficiency, Variable Returns to Scale (VRS) technical efficiency, and Scale Efficiency (SE). The six agricultural cooperatives were comprised of 1) Muang Loei Agricultural Cooperative Limited, 2) Wang Saphung Agricultural Cooperative Limited, 3) Phu Ruea Agricultural Cooperative Limited, 4) Phu Luang Agricultural Cooperative Limited, 5) Pha Khao Agricultural Cooperative Limited, and 6) Erawan Agricultural Cooperative Limited.

There were four out of 10 agricultural cooperatives that demonstrated technical efficiency below 1.00 in Constant Return to Scale (CRS), technical efficiency in Variable Return to Scale (VRS), and Scale Efficiency (SE). These cooperatives include: 1) Phu Kradueng Agricultural Cooperative Limited, 2) Tha Li Agricultural Cooperative Limited, 3) Dan Sai Agricultural Cooperative Limited, and 4) Na Duang Agricultural Cooperative Limited.

The result indicated that Phu Kradueng Agricultural Cooperative Limited should enhance its use of maize production inputs. Li Agricultural Cooperative Limited, Dan Sai Agricultural Cooperative Limited, and Na Duang Agricultural Cooperative Limited would decrease core business costs, operating expenses, inventory, and total current assets to get the maximum total revenue for agricultural cooperatives.

The research results were consistent with Phuphisith, Gheewala, and Sampattagul (2022) who conducted their study on the promotion of sustainable maize production in Northern Thailand, the country's largest maize-producing region, is crucial to securing the supply of the nation's feed manufacturing, as well as protecting environmental resources, enhancing social welfare, and improving the livelihoods of farmers and communities. According to Chaovanapoonphola and Somyana (2020) who studied the production efficiency of maize farmers under contract farming in Laos PDR found that the efficiency of contract maize farmers in Lao PDR was on average 0.85 and that the main factors affecting maize production efficiency were the age and education level of the farmer and area of planted land. The research outcomes also were consistent with Khongdee, Hilger, Pansak, and Cadisch (2022) who conducted their works on optimizing maize sowing under irregular rainfall distribution in northern Thailand: A model approach for improved decision-making. Also, the research findings were consistent with Charoenratan, Anukul, and Rosset (2021) found that Northern Thailand was the center of several controversies surrounding changing cropping patterns, related to deforestation

driven by the expansion of maize mono-cropping by peasant farmers.

Acknowledgement

I would like to thank my family, Wittayakorn-Puripunpinyoo who have supported me all my life. My dad and mom for their endless love and life-long support.

Do Different Levels of Environmental Dynamism Shape the Effectiveness of Strategic Renewal in Driving Project Performance?

Chanakan Aruncharean[1*]

[1]Academic, Department of Management, School of Business Administration, Bangkok University.
[*]**Corresponding author, E-mail:** chanakan.a@bu.ac.th

Abstract

Strategic renewal is essential for organizational success, particularly in improving project performance, but its effectiveness depends on environmental factors. While research has explored strategic renewal, the role of environmental dynamism in moderating this relationship remains underexamined. This study addresses that gap by analyzing how environmental dynamism influences the impact of strategic renewal on project performance. A quantitative approach was used, gathering data from 200 operational managers and senior personnel overseeing project teams in various Thai industries. The data were analyzed using SPSS Process Macro, employing regression techniques, and bootstrapping to assess hypotheses. Instrument validity and reliability were confirmed through Confirmatory Factor Analysis (CFA), Cronbach's Alpha, and Composite Reliability. Findings indicate that strategic renewal positively affects project performance, but its effectiveness varies with environmental dynamism. Organizations in stable environments benefit more from strategic renewal, while highly dynamic settings show diminishing returns. This suggests that organizations should tailor renewal strategies to improve environmental conditions to optimize project outcomes. The study contributes to strategic management literature by providing empirical evidence on the context-dependent nature of strategic renewal. Future research should focus on sustainable renewal strategies, such as innovation and corporate venturing, in dynamic environments.

Keywords: Strategic Renewal, Project Performance, Environmental Dynamism, Organizational Adaptability, Competitive Advantage

Introduction

Strategic renewal is essential for organizations aiming to revitalize their capabilities, business models, and strategic direction to sustain long-term competitiveness (Schmitt et al., 2018). For instance, IBM's strategic renewal is demonstrated through its transition from a hardware manufacturer to a provider of cloud computing services, aligning with evolving technological trends (O'Reilly III & Tushman, 2013). Similarly, Apple underwent a strategic renewal by shifting from a niche computer producer to a dominant player in consumer electronics (Christensen et al., 2016). However, its effectiveness is often shaped by external

factors, particularly environmental dynamism. Environmental dynamism, defined by rapid and unpredictable changes in the external environment, plays a significant role in how organizations adapt their strategies (Lumpkin & Dess, 2001). Organizations must develop strong dynamic capabilities in highly volatile environments to manage uncertainties and maintain a competitive advantage. These capabilities are crucial in involving strategic renewal in organizational performance (Richard et al., 2019; Taghizadeh et al., 2024). Given the growing complexity of market dynamics, technological disruptions, and regulatory shifts, organizations must continuously reassess and adapt strategies to align with external conditions (Teece, 2007). This study draws on Dynamic Capabilities Theory and Organizational Learning Theory to explore the role of strategic renewal in improving organizational performance in the context of a project-based approach. While strategic renewal is widely recognized as a driver of organizational performance, its success is influenced by environmental conditions (Kearney & Morris, 2015). Organizations in volatile contexts must adapt more regularly, whereas those in stable conditions may have fewer renewal initiatives, yet must ensure alignment with slow market changes (Perini et al., 2024). However, strategic renewal alone may not be sufficient for sustained success. Therefore, to sustain a competitive edge, exploration is essential. This study contributes to existing literature by analyzing the effect of strategic renewal on project performance, investigating the moderating influence of environmental dynamism, and offering empirical insights to refine renewal strategies for improved competitiveness and project outcomes.

Objectives

1. To examine the relationship between strategic renewal and project performance, assessing its impact on project performance.
2. To examine the relationship between environmental dynamism and project performance.
3. To investigate the moderating role of environmental dynamism on the relationship between strategic renewal and project performance.
4. To examine the differential impact of strategic renewal on project performance under varying levels of environmental dynamism.

Theoretical Frameworks and Literature Review

Dynamic Capabilities Theory

The Dynamic Capabilities Theory serves as a fundamental framework for analyzing strategic renewal in competitive environments (Teece et al., 1997). This theory asserts that organizations achieve sustained competitive advantage by continuously identifying opportunities, strategically capitalizing on them, and dynamically reconfiguring resources in response to external environmental changes. Organizations that effectively revitalize

their strategies integrate, develop, and adjust both internal and external competencies to align with evolving market conditions (Teece, 2007). In contrast, dynamic capabilities are specifically designed to facilitate strategic change and align the organization with its external context (Zahra et al., 2006). Within strategic renewal, dynamic capabilities facilitate organizations' capacity to reconfigure their resource base and proactively adapt to technological disruptions and market uncertainties (Perini et al., 2024). The theory further supports the argument that organizations with strong dynamic capabilities are better equipped to manage environmental volatility, allowing them to adjust their strategic direction in uncertain conditions (Bhadra et al., 2024). Ultimately, organizations possessing robust dynamic capabilities, defined as the capacity to effectively reconfigure and redeploy resources, are demonstrably more proficient in sustaining long-term renewal efforts and driving continued organizational effectiveness (Schmitt et al., 2018).

Organizational Learning Theory

The Organizational Learning Theory provides a fundamental theoretical framework for comprehending strategic renewal, which the model explains how organizations acquire knowledge through four processes, including intuition, interpretation, integration, and institutionalization, which are essential for continuous adaptation and strategic renewal (Crossan et al., 1999). Additionally, underscores the important role of institutionalized learning, which allows organizations to balance the use of existing knowledge with the integration of new insights to drive renewal efforts (Lengnick-Hall & Inocencio-Gray, 2013). In rapidly changing environments, effective organizational learning ensures that strategic renewal is guided by synthesized knowledge and past experiences (Crossan & Berdrow, 2003). Furthermore, a fundamental aspect of organizational learning is the differentiation between single-loop and double-loop learning. Consequently, organizations must navigate single-loop and double-loop learning to facilitate renewal (Bloodgood et al., 2015; Ractham & Kantamara, 2011). Strategic renewal relies on the effective transfer of knowledge across different managerial levels as middle management plays a central role in translating strategic insights into actionable initiatives, although misalignment between leadership directives and operational realities often hinders renewal efforts (Floyd & Lane, 2000). Besides, strategic renewal, reconfiguration, or transformation of an organization’s core competencies and business strategies is facilitated through dynamic organizational learning mechanisms (Crossan & Berdrow, 2003). This process enhances an organization’s adaptability and fosters a culture of continuous improvement, ensuring that organizations remain competitive in an ever-evolving marketplace.

Project Performance

Project performance has long been a critical area of study, as it reflects how effectively projects achieve their objectives within key constraints such as time, budget, and quality (Bannerman, 2008). Within project teams, performance is crucial for achieving strategic goals and contributing to organizational benefits (Sawaia, 2022). Given the dynamic nature of project environments, a strategic approach to performance management is essential. This study focuses on defining strategic renewal as a shift in direction, content, capabilities, and processes, implemented through organizational projects (Pedersen et al., 2024). In this context, strategic renewal within project teams plays a pivotal role in leveraging resources and gaining competitive advantages (Weiss & Kanbach, 2023). Eventually, organizational success highlights the importance of strategic renewal in project teams, as it drives long-term growth and ensures sustainable performance (Pedersen et al., 2024).

The Impact of Strategic Renewal in the Project Team on Project Performance

Strategic renewal is the process by which organizations transform their strategic intent, capabilities, and business scope to sustain competitiveness and secure long-term survival (Albert et al., 2015; Hassan, 2025). Although related to concepts such as strategic change and corporate entrepreneurship, strategic renewal is conceptually distinct. While corporate entrepreneurship emphasizes business revitalization through innovation, strategic renewal focuses on reconfiguring an organization's existing core competencies to respond effectively to environmental shifts (D'Angelo et al., 2024). Strategic renewal contributes to improved project performance by fostering organizational adaptability and operational efficiency across both private and public sectors, indicating that this positive influence arises through mechanisms such as entrepreneurial orientation and organizational learning, both of which serve as essential drivers of successful renewal initiatives (Klammer et al., 2017). It also mediates the relationship between environmental conditions and organizational performance, enabling organizations to capitalize on favorable circumstances while mitigating adverse effects in turbulent settings (Kearney & Morris, 2015). Likewise, the connection between strategic orientation and strategic renewal further reinforces this performance-enhancing effect and suggests that this relationship is stronger when organizations demonstrate ambidexterity, meaning the ability to balance exploration and exploitation (Shah et al., 2020). Similarly, from a project-based perspective, strategic renewal often materializes through specific projects that act as catalysts for organizational change and innovation (Pedersen et al., 2024). Thus, the studies indicate that organizations capable of pursuing both stability and innovation simultaneously are better positioned to translate strategic renewal into performance gains.

Subsequently, hypotheses are proposed:

H1: Strategic renewal positively influences project performance.

Mechanisms Relating to Environmental Dynamism, Strategic Renewal in the Project Team, and Project Performance

Environmental dynamism, defined as the rate and unpredictability of changes in the external environment, is a critical factor influencing the relationship between strategic renewal and organizational performance, and it also plays a central role in shaping the relationship across various contexts (Mohammad, 2019; Richard et al., 2019). Existing studies indicate that in rapidly changing environments, dynamic capabilities are particularly important for small and medium enterprises (SMEs) to enhance organizational performance, as these capabilities enable organizations to adapt quickly to evolving market demands (Taghizadeh et al., 2024). Moreover, environmental dynamism further amplifies the effectiveness of green entrepreneurial orientation and boundary-spanning search, both of which are associated with sustainable performance in uncertain settings (Ye et al., 2022). Since organizational performance is driven by project outcomes, the following hypotheses are proposed:

H2: There is a relationship between environmental dynamism and project. performance.

However, the effectiveness of strategic approaches depends on environmental dynamism. A previous study found that strategic renewal mediates the relationship between environmental factors and performance, with its impact contingent on external conditions (Kearney & Morris, 2015). Likewise, business model renewal is more effective in moderately dynamic environments, while stable conditions may lack the impetus for renewal to drive performance gains (Heij et al., 2024). Similarly, strategic changes tend to yield greater performance improvements when environmental uncertainty is high, underscoring the need for organizations to align their strategic renewal efforts with external pressures (Chandra et al., 2023). In stable environments, environmental dynamism exerts a diminished influence on organizational innovation and performance, implying that strategic renewal is of lesser importance in such contexts due to the reduced need for adaptation (Paudel, 2019). These findings underscore the critical role of environmental dynamism in shaping the effectiveness of strategic renewal and its influence on project performance. Subsequently, hypotheses are proposed.

H3: There is a moderating effect of environmental dynamism on the relationship between strategic renewal and project performance.

H4: Strategic renewal has a stronger impact on project performance under high environmental dynamism than in low environmental dynamism.

Materials and Methods

The study adopted a quantitative research design to ensure methodology in the evaluation of measurement and structural models. Data were analyzed using AMOS to assess construct validity, reliability, and overall model fit through Confirmatory Factor Analysis (CFA) (Hair et al., 2010). Hypothesis testing was conducted using the SPSS Process Macro, employing regression-based techniques to examine moderation effects, and the Bootstrapping method, a resampling procedure that generates multiple samples with replacement, was utilized to estimate standard errors and construct confidence intervals, offering robustness with fewer parametric assumptions and mitigating the risk of type 1 error (Hayes, 2013; Rockwood & Hayes, 2020). Furthermore, a Simple Slope Analysis was conducted to prove the moderation effect across various levels of the moderator.

Research Framework

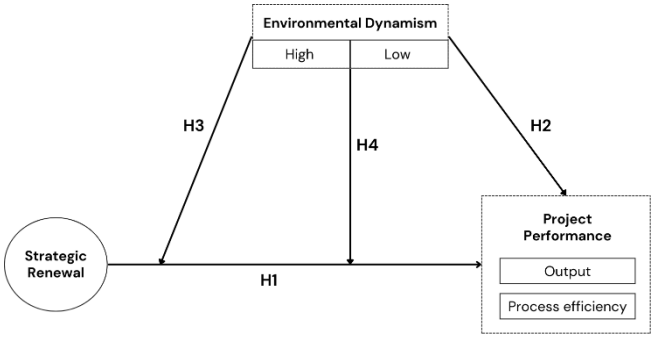

Figure 1: Conceptual Framework

Sample and Data Collection

The questionnaire was initially developed in English and subsequently translated into Thai by a professional translator proficient in both languages to ensure linguistic accuracy and cultural relevance. The study surveyed 250 operational managers and senior personnel overseeing functional and cross-functional project teams across diverse industries in Thailand over the past three years. Following data cleaning, the final sample size was reduced to 200 managers. It examined the effectiveness of strategic renewal on project performance across diverse levels of environmental dynamism. Data were collected via company emails, gathering operational strategies and project outcomes from multiple departments. The questionnaire also gathered demographic details, including gender, age, position, experience, team size, and business type.

Variable Measurement

All variables were measured on a seven-point Likert scale (1 = “strongly disagree” to 7 = “strongly agree”). Strategic renewal was assessed using a modified scale by focusing on actions such as divesting underperforming units, revising strategies, restructuring, and

introducing new practices (Chen et al., 2014). Project performance included process efficiency and output-related performance (Brettel et al., 2012), which comprised learning and capability development and output value and future potential. Environmental dynamism, reflecting external volatility (Jansen et al., 2006).

Control Variables

Age (over 40) was controlled, as older individuals may resist change, influencing renewal efforts and performance. Experience (over 5 years) was included, as experienced professionals often enhance efficiency. Business type (e.g., Public Sector, R&D, IT) was considered due to sectoral differences affecting renewal and performance. Team size (more than 5 members) was controlled, as larger teams may face coordination challenges but offer diverse expertise. These controls help ensure the validity of the results by reducing potential confounding effects.

Results

Descriptive Analysis and Sample Characteristics

Descriptive analysis using SPSS ensured data validity by identifying and removing outliers. The final sample of 200 managers show that the majority of respondents were aged 40–49 years old (31%), followed by 30–39 years old (26%), 50–59 years old (21.5%), 20–29 years old (19%), and 60 years old and above (2.5%). Females comprised (56.5%), males (43%), and (0.5%) preferred not to disclose their gender. Regarding job positions, 69.5% were in operational management, 16% in middle management, 8.5% in executive leadership, 5% in senior management, and 1% in other roles. Experience levels varied, with 58% having more than 10 years, 13.5% with 8–10 years, 13.5% with 5–7 years, 11.5% with 2–4 years, and 3.5% with 1 year or less. Team size distribution showed 34% in teams of 5 or fewer, 30.5% in teams of 6–10 members, 14.5% in teams of 11–15 members, 5% in teams of 16–20 members, and 16% in teams with more than 20 members. The data set categorizes businesses across various sectors, with Manufacturing and Production (37%) and IT & Telecommunication (18%), followed by Retail (13%), Construction (6.5%), and Finance (5.5%). Smaller sectors included the Public Sector (4.5%), Healthcare (3%), Import & Export (2.5%), and various others, each below 1.5%. The other category accounted for 3.5%, reflecting additional business types.

Confirmatory Factor Analysis (CFA)

The results of this measurement model indicate that the data was a good fit for the model, χ^2 = 160.238 (DF = 104), GFI = 0.916, NFI = 0.954, IFI = 0.983, CFI = 0.983, RMSEA = 0.052, RMR = 0.057 and p-value <0.001. A reasonable goodness-of-fit of the data was demonstrated by our model, as the fitness indices for the measurement model satisfied acceptable standards (Hair et al., 2010).

Validity and Reliability

The results show that all factor loadings exceeded 0.7, Composite reliability (CR) values were above 0.7, average variance extracted (AVE) values exceeded 0.5 for all constructs, and Cronbach's Alpha values exceeded the 0.6 threshold. Indicating strong convergent validity (Fornell & Larcker, 1981).

Table 1: Results of Validity and Reliability

Variables	CR	AVE	MSV	Cronbach's Alpha
Strategic renewal	0.91	0.73	0.54	0.90
Environmental dynamism	0.84	0.57	0.72	0.85
Project performance	0.90	0.82	0.72	0.96

Correlation Matrix

The results indicated that environmental dynamism strongly correlated with strategic renewal (γ = 0.57, p <.001) and project performance (γ = 0.72, p <.001), suggesting that dynamic environments drive strategic renewal efforts and improve project outcomes. Furthermore, strategic renewal was significantly associated with project performance (γ = 0.72, p <.001), indicating that renewal initiatives positively impact project success. Additionally, business types showed a moderate correlation with environmental dynamism (γ = 0.17, p <.05), highlighting sectoral differences in environmental variability. These findings emphasize the importance of strategic renewal and environmental dynamism in enhancing project performance.

Hypothesis Testing Results

The results of the path analysis and bootstrapping method indicated that strategic renewal had a positive and statistically significant effect on project performance (β = 0.99, p <0.001, 95% CI [0.45, 1.54]), thereby supporting H1. This finding suggested that organizations engaging in strategic renewal initiatives were more likely to achieve improved project performance outcomes. Likewise, the result revealed that environmental dynamism had a significant and positive effect on project performance (β = 1.00, p < 0.001, 95% CI [0.46, 1.53]), thus supporting H2. This finding demonstrates a significant positive correlation between environmental dynamism and project performance. As environmental dynamism increases, there is a corresponding improvement in project outcomes. Furthermore, the moderating role of environmental dynamism in the relationship between strategic renewal and project performance was statistically significant (β = -0.10, p <0.05, 95% CI [-0.20, 0.00]), supporting H3. This result indicated that the effect of strategic renewal on project performance varied depending on the degree of

environmental dynamism.

Concerning H4, contrary to the expectation that strategic renewal would have a stronger impact on project performance under high environmental dynamism however, the analysis reveals that the relationship between strategic renewal and project performance was weaker in high dynamism environments (β = -0.10, p <0.05, 95% CI [-0.20, 0.00]), thus not supporting H4. This diminishing effect reflects the heightened uncertainty and complexity in dynamic environments, which may disrupt the effective implementation of strategic renewal initiatives and limit their performance benefits. A conditional indirect effects analysis was conducted to further examine the influence of environmental dynamism across levels (low, moderate, and high). The effect size was smallest in low-dynamism environments (4.50, p <0.001), increased under moderate dynamism (5.50, p <0.001), and was highest under high dynamism (6.25, p <0.001). The result revealed that although strategic renewal remained advantageous, increasing levels of dynamism reduced the positive effect of strategic renewal on performance. Its marginal effectiveness declined potentially due to elevated uncertainty or adaptation pressures. Furthermore, the R-squared value of 0.70 indicated that the model accounted for 70% of the variance in project performance, with an F-statistic of 23.09, demonstrating a strong overall model fit.

Table 2: Results of Overall Hypotheses with Bootstrapping Analysis

Path Analysis	Coefficient (β)	Standard Error	t-value	p-value	95% CI	
					Lower	Upper
Strategic Renewal ⟶ Project Performance	0.99	0.28	3.58	<0.001	0.45	1.54
Environmental dynamism ⟶ Project Performance	1.00	0.27	3.66	<0.001	0.46	1.53
Moderator Effect ⟶ Project Performance	-0.10	0.05	-1.98	<0.05	-0.20	0.00
R-sq	0.70					
F	23.09					

Note: Moderator Effect = Strategic Renewal x Environmental Dynamism

Table 3: Result of Moderation Effect across Levels

Moderator Level		Effect Size	Standard Error (SE)	t-value	p-value	95% CI	
						LLCI	ULCI
Low	4.50	0.54	0.07	7.97	<0.001	0.41	0.68
Middle	5.50	0.44	0.05	8.84	<0.001	0.34	0.54
High	6.25	0.37	0.07	5.66	<0.001	0.24	0.50

The graph derived from the Simple Slope Analysis visually illustrates this moderating effect, showing that the slope representing the relationship between strategic renewal and project performance is steepest under conditions of high environmental dynamism, followed by moderate and low dynamism levels. Nonetheless, the negative interaction coefficient suggests that the slope's steepness could decrease as dynamism intensifies further, indicating that although strategic renewal continues to enhance project performance in turbulent environments, the incremental benefit of additional renewal efforts may decline as environmental uncertainty becomes excessively high.

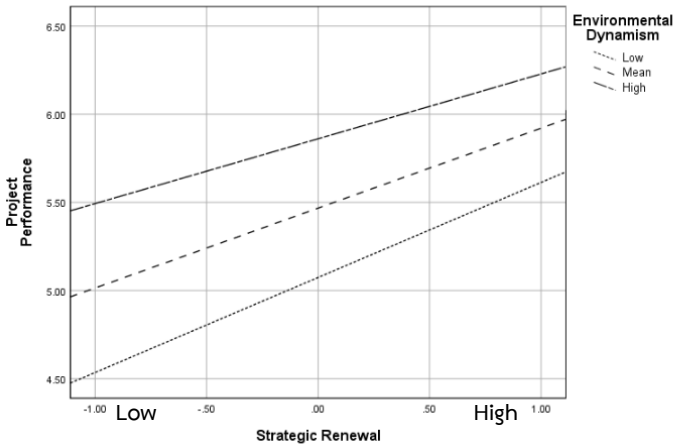

Figure 2: The Moderating Effect of Environmental Dynamism across Levels

Conclusions and Discussions

The findings of this study contribute to the growing body of literature on strategic renewal and project performance, particularly in dynamic environments, consistent with prior studies (Kearney & Morris, 2015; Pedersen et al., 2024; Shah et al., 2020). The results confirm that strategic renewal positively influences project performance (H1); organizations investing in renewal processes, such as updating strategies, adapting resources, and reconfiguring operations, are better positioned to achieve superior project outcomes. These efforts allow organizations to maintain alignment with shifting market demands and evolving technological landscapes, which enhances performance. Additionally, this study demonstrates a substantial positive relationship between environmental dynamism and

project performance (H2). Organizations operating in dynamic environments are more likely to achieve enhanced project outcomes, highlighting the critical role of adaptability. Subsequently, the moderating role of environmental dynamism on the strategic renewal-performance relationship is confirmed (H3). This highlights that the effectiveness of strategic renewal is context-dependent, varying according to the degree of external environmental turbulence (Mohammad, 2019; Richard et al., 2019; Taghizadeh et al., 2024; Ye et al., 2022). In dynamic environments, strategic renewal equips organizations with the agility to respond to unpredictable changes, whereas in stable settings, renewal fosters process improvements and incremental innovations (Kearney & Morris, 2015).

Nevertheless, the nature of this moderation effect deviates from initial expectations, which suggested that strategic renewal would have a stronger impact on project performance in high environmental dynamism (H4). Instead, the analysis showed a weaker effect in dynamic environments. This indicates that as environmental dynamism rises, the positive effect of strategic renewal on performance decreases. While strategic renewal remains advantageous, its marginal benefits lessen in the face of high environmental uncertainty, which aligns with prior studies suggesting that in highly volatile contexts, the costs and complexities associated with continuous adaptation may offset the benefits of renewal efforts (Heij et al., 2024). Correspondingly, excessive environmental turbulence can overwhelm an organization's capacity to implement strategic changes effectively, resulting in reduced performance gains despite ongoing renewal efforts (Ashmos et al., 2000). In contrast, in stable environments, organizations can implement renewal strategies in a more structured manner, facing fewer disruptions and less uncertainty, which facilitates more effective performance improvements (Kearney & Morris, 2015). In addition, the Simple Slope Analysis and graphical representations effectively demonstrate the moderating effects on project performance, which is significantly influenced by environmental conditions, as evidenced by the findings of this study. The study reveals that while strategic renewal strengthens project performance, its impact is contingent on the level of environmental dynamism. The steepest slope appears in highly dynamic environments, indicating a strong positive relationship; however, the negative interaction coefficient suggests diminishing marginal returns as dynamism intensifies further. This finding underscores that although strategic renewal becomes increasingly valuable in turbulent contexts, there exists a threshold beyond which its effectiveness plateaus or even declines. The study confirms that strategic renewal is a key driver of project performance, though its benefits vary across different environmental conditions. It is most effective in moderately dynamic environments, where it fosters optimal performance gains. In contrast, in contexts of extreme dynamism, the marginal benefits of renewal efforts decline, suggesting that excessive turbulence may undermine their

effectiveness since the costs and disruptions associated with continuous adaptation, including resource reallocation, workforce retraining, and organizational restructuring, may outweigh the potential benefits (Salloum et al., 2022). In such contexts, frequent adjustments introduce inefficiencies, reduce strategic coherence, and increase operational complexity, limiting the positive impact of renewal efforts. Consequently, organizations operating in highly dynamic environments must carefully balance the benefits of strategic renewal with the risks and costs of excessive adaptation. In stable environments, strategic renewal remains beneficial, though its impact is more incremental. These insights challenge the assumption of a universally linear relationship between strategic renewal and performance, emphasizing instead a context-dependent dynamic.

By advancing the literature on strategic management and project performance, these findings provide practical implications for organizations. To maximize performance outcomes, organizations must calibrate their renewal efforts based on environmental conditions, ensuring that strategies enhance adaptability and innovation without overextending resources in volatile settings.

Limitations and Future Research Suggestions

While this study offers meaningful insights into the relationship between strategic renewal and project performance, several limitations must be acknowledged. First, strategic renewal alone may not be sufficient for long-term organizational success, existing studies suggest that sustainable competitive advantage requires a broader intrapreneurial approach that includes innovation and corporate venturing (Kuratko & Morris, 2018). Future studies should explore how integrating these components enhances project performance and whether their combined effects create a more resilient organizational framework. Second, this study may underestimate the broader impact of strategic renewal, as organizations often implement renewal efforts across multiple sections simultaneously. Future studies should investigate whether executing strategic renewal initiatives across several projects concurrently enhances overall performance and adaptability. Understanding the synergies between multiple renewal projects could provide deeper insights into how organizations sustain competitive advantage through simultaneous strategic adjustments. Additionally, this study examines strategic renewal within a specific environmental context, emphasizing the moderating role of environmental dynamism. However, other external factors, such as technological advancements, regulatory shifts, and market disruptions, may also influence the effectiveness of renewal strategies. Future studies should adopt a more comprehensive framework to assess how multiple environmental contingencies interact with strategic renewal to shape performance outcomes. Furthermore, the cross-sectional study design limits the ability to track long-

term effects. Strategic renewal is a continuous process, and its impact on performance may evolve over time. Longitudinal studies could provide valuable insights into how renewal efforts sustain or diminish their effectiveness under changing market conditions. Furthermore, a limitation arises when strategic renewal is implemented only after a project has demonstrated success. In fast-paced business environments, delayed adaptation may cause renewal efforts to lag market trends, rendering them less effective. Future studies should explore the implications of timing in strategic renewal and assess how organizations can proactively align renewal initiatives with evolving environmental conditions to maintain competitiveness. Lastly, while this study highlights the diminishing returns of strategic renewal in highly dynamic environments, further exploration of non-linear and threshold effects is warranted. Investigating whether renewal strategies reach a point where additional efforts yield diminishing or even negative returns could enhance decision-making for managers seeking to optimize resource allocation.

By addressing these limitations, future studies can contribute to a more holistic understanding of strategic renewal, particularly by examining its interplay with innovation and venturing as essential components of intrapreneurship. Such an approach could provide organizations with a more comprehensive framework for sustaining long-term.

Abstract

This study delves into the realm of job satisfaction and teachers' loyalty within the vocational colleges of Guiyang, China. By employing quantitative research methodology, the study surveyed 600 teachers, receiving a high response rate that facilitated robust statistical analysis. The findings reveal a positive correlation between job satisfaction, encompassing job-related and personal factors, and teachers' loyalty, expressed through behavioral and attitudinal dimensions. Furthermore, the study contributes to the understanding of how job satisfaction impacts teachers' loyalty, drawing from Herzberg's two-factor theory and George Homans' social exchange theory. The results hold implications for vocational colleges seeking to enhance teacher loyalty by addressing factors that influence job satisfaction.

Keywords: Vocational College Teachers, Job Satisfaction, Teachers' Loyalty

Introduction

Vocational education has become increasingly important in the education system due to technological advancement and global competition, and it plays a vital role in producing skilled workers for the economic development of the country (Grishaeva et al., 2023). In China, the government has prioritized vocational education to meet the demands of the growing job market, which has led to significant growth in vocational education (Liu, 2023).

Teacher loyalty is a key factor in vocational education as it reflects teachers' commitment to the school and the quality of education provided. High teacher loyalty benefits students, institutional stability, and organizational culture (Zhou et al., 2024). It is well known that job satisfaction affects the loyalty of employees in all walks of life, and it also impacts teachers in vocational colleges by influencing their willingness to stay

in the school, their performance, and their contribution to the mission of the school (Luo, 2024).

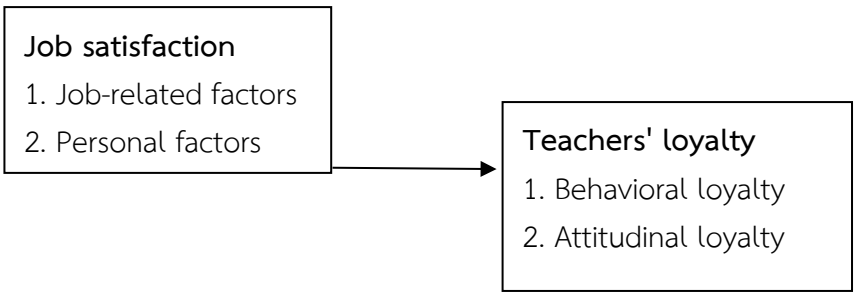
However, there is a lack of research on the relationship between job satisfaction and teachers' loyalty in vocational colleges, especially in China (Qi et al., 2024). This study aims to fill this gap by conducting a case study of Guiyang Vocational and Technical College. The findings will contribute to the existing literature and provide practical insights for vocational college administrators and policy makers.

Objectives

1. To explore the job satisfaction, and teachers' loyalty in Guiyang vocational colleges, China.
2. To examine the impact of job satisfaction on teachers' loyalty to vocational colleges.

Concept theory framework

The term "job satisfaction" began with the book "Job Satisfaction" written by Hoppock, who first put forward the concept of job satisfaction, i.e., the subjective reflection of the psychological and physiological satisfaction of workers with environmental factors, that is, the subjective reflection of workers on the work situation (Cranny et al., 1992). Factors that impact job satisfaction can be divided into two broad categories: job-related factors and personal factors. Job-related factors include aspects related to the workplace environment, such as working conditions, relationships with co-workers, growth opportunities, recognition, and compensation. Personal factors include personal characteristics such as attitudes, motivation, and work-life balance (Aziri, 2011).



Teacher loyalty refers to the extent to which a teacher is loyal to an educational institution. Teacher loyalty can be viewed in terms of both behavioral and attitudinal aspects (Umi, 2024). For example, behavioral loyalty refers to a teacher's continued commitment to the school, such as staying in the school and performing teaching duties. Attitudinal loyalty may involve teachers' emotional and cognitive attachment to the school, such as trusting school leaders and feeling satisfied with the work environment (Ting & Yeh, 2013).

Studies on teaching have proved that job satisfaction has a significant impact on employee loyalty. The study confirms that there is a positive correlation between job satisfaction and employee loyalty, indicating that the higher the level of job satisfaction, the higher the level of employee loyalty to the organization (Azzahra et al., 2024). Therefore, increasing the level of job satisfaction of employees can effectively promote employee loyalty to the organization (Hadj, 2024).

Herzberg's two-factor theory, which suggests that job satisfaction and dissatisfaction are driven by two different sets of factors: hygiene factors (e.g., company policies, working conditions) and motivational factors (e.g., achievement, recognition) (Kim, 2024). Using this theory, we can identify specific job characteristics that may affect teacher satisfaction and loyalty.

Social exchange theory suggests that individuals engage in reciprocal exchange relationships and expect to be rewarded for their contributions (Ekeh, 1974). In the case of vocational education, teachers' loyalty may be influenced by their perceptions of fairness, support, and institutional recognition.

When teachers are satisfied with their jobs, they are more likely to be loyal to their vocational college. To explore the relationship between job satisfaction and teacher loyalty, the following research framework and hypotheses are proposed, supported by two-factor theory and social exchange theory:

H1: Job satisfaction has a positive impact on teachers' loyalty in the vocational college.

H2: Job-related factors have a positive impact on teachers' behavioral loyalty in the vocational college.

H3: Job-related factors have a positive impact on teachers' attitude towards loyalty in the vocational college.

H4: Personal factors have a positive impact on teachers' behavioral loyalty in the vocational college.

H5: Personal factors have a positive impact on teachers' attitudinal loyalty in the vocational college.

Materials and Methods

The quantitative research method was used in this study, and the target respondents were teachers at vocational colleges and universities in Guiyang City, totaling 3,570 people. The sample size was determined to be a robust sample of 360 persons according to the Taro Yamane formula (Yamane, 1973). To achieve a recovery rate of 60%, 600 questionnaires were distributed to the target teachers. This sample size

ensured high statistical power and generalizability of the findings. The randomized stratified sampling method was used in this study to improve the representativeness of the sample and reduce potential sampling bias.

Data collection was done using an online survey tool, and the questionnaire was sent to the target population through a website link. The survey was conducted over a two-week period to allow sufficient time to collect responses. A total of 600 valid responses were received with a response rate of 100%. The data was then analyzed using the SPSS program; descriptive statistics were used to summarize the data, Pearson correlation was used to assess the relationship between the variables, and multiple regression analysis was used to assess the research hypotheses. The reliability of the questionnaire was confirmed by Cronbach's alpha score of 0.931. The validity of the questionnaire was assessed by three reviewers using the Index of Content Validity (IOC) test with a score of 0.942. This indicates that the internal consistency of all the scales was high.

The questionnaire scoring and interpretation criteria were based on a Likert scale, which allowed for the conversion of respondents' answers into numbers for statistical analysis. The questionnaire has replied in five points on Likert, ranging from "1 = strongly disagree" to "5 = strongly agree". The rating scale is categorized as follows: Scores ranging from 4.21 to 5.00 indicate strong agreement, while scores between 3.41 and 4.20 reflect general agreement. Scores from 2.61 to 3.40 suggest a neutral stance, whereas scores ranging from 1.81 to 2.60 indicate disagreement. Finally, scores between 1.00 and 1.80 represent strong disagreement.

Results

1. Descriptive Statistics on Job Satisfaction and Teachers' Loyalty

Table 1: Descriptive statistics for job satisfaction

Question	Mean	Standard deviation	Level of perception
job-related factors	3.529	0.914	agree
1. The college working environment makes me feel satisfied.	3.567	1.162	agree
2. I have a very harmonious relationship with my colleagues.	3.488	1.211	agree
3. The job I am doing has a good future.	3.527	1.138	agree
4. When I do a respectable job, I get praise from my colleagues or superiors.	3.55	1.166	agree
5. I am satisfied with my work at X College.	3.515	1.164	agree

Personal factors	3.543	0.894	agree
6. My motivation and enthusiasm in my work are remarkably high.	3.532	1.139	agree
7. The job I am doing has a good development prospect.	3.543	1.155	agree
8. I think my work-life balance is good right now.	3.513	1.15	agree
9. I feel a sense of personal value and accomplishment in my work.	3.57	1.174	agree
10. I think the college provides enough support for personal development and growth.	3.558	1.166	agree
Job satisfaction	3.536	0.757	agree

Table 1 shows that the mean values for job-related and personal factors are 3.529 and 3.543, respectively, and the mean value for job satisfaction is 3.536, which are slightly above the mid-point of 3.5 on the 5-point scale, indicating that the teachers have an overall positive attitude towards these aspects and tend to 'agree' that they have a positive perception of job-related and personal factors, as well as overall job satisfaction.

able 2: Descriptive statistics of teachers' loyalty

Question	Mean	Standard deviation	Level of perception
Behavioral loyalty	3.462	0.962	agree
1. I often tell my friends and family that my college is an excellent organization.	3.503	1.25	agree
2. I want to move forward with the team I'm on.	3.493	1.211	agree
3. I am willing to make extra efforts to help me succeed in my career.	3.468	1.196	agree
4. I'm always keen to join the college team when they have spare time activities.	3.383	1.17	neutral
5. I have a lot of trust in the members of the college team.	3.463	1.205	agree
Attitudinal loyalty	3.555	0.868	agree
6. I think my current job is in line with my career plan and I have no plans to change jobs.	3.572	1.153	agree
7. I love what I'm doing.	3.525	1.102	agree

Question	Mean	Standard deviation	Level of perception
8. I am glad that I chose this college instead of other ones.	3.568	1.12	agree
9. I can feel the support and care of the college in my work.	3.58	1.16	agree
10. If the college is facing difficulties, I will make more efforts to tide over the difficulties with the college and not leave.	3.532	1.133	agree
Teachers' loyalty	3.509	0.771	agree

Table 2 shows that the mean values for behavioral loyalty and attitudinal loyalty are 3.462 and 3.555, respectively, while the overall mean for faculty loyalty is 3.509. These values are slightly above the mid-point of 3.5 on the 5-point scale, indicating that faculty is at the 'Agree' level of loyalty to the College.

2. Correlation Analysis

This study examined the impact of job satisfaction on teachers' loyalty. The results of the correlation analysis are shown in the table below:

Table 3: Analysis based on basic information about the population, gender, age, educational background, type of work and work experience in the organization.

Question	Mean	Standard deviation					
1.Your gender	1.46	0.50	1				
2. Your age group	2.70	0.88	0.01	1			
3.Your highest level of education	2.89	0.79	-0.08	0.02	1		
4.Your Job Category	1.61	0.79	0.00	0.15**	0.06	1	
5. Number of Service with the organization.	2.79	1.00	-0.04	0.76**	-0.02	0.10*	1

From the above table, it can be seen that the correlation coefficients between gender and age group, highest educational qualification, job category, and years of teaching experience are 0.01, -0.08, 0.00, and -0.04 respectively (all $p>0.05$), indicating that there is no significant correlation between gender and these variables. The

correlation coefficients between age group and job category and years of teaching were 0.15**, 0.76** (all p<0.01), indicating that there is a significant positive correlation between age group and these variables. The correlation coefficients between highest educational qualification and gender, age group, job category, and years of teaching experience were -0.08, 0.02, 0.06, and -0.02 (all p>0.05), respectively, indicating that there is no significant correlation between highest educational qualification and these variables. The correlation coefficient between job category and years of teaching experience was 0.10* (p<0.05), indicating a significant positive correlation between job category and years of teaching experience.

Table 4: Correlation between job satisfaction and teachers' loyalty

Variables	Mean	Standard deviation	Job satisfaction	Teachers' loyalty
Job satisfaction	3.536	0.757	1	
Teachers' loyalty	3.509	0.771	0.638**	1

As can be seen from the above table, the mean value of job satisfaction is 3.536 with a standard deviation of 0.757, the mean value of teachers' loyalty is 3.509 with a standard deviation of 0.771, and the correlation coefficient between job satisfaction and teachers' loyalty is 0.638, which is also highly significant (** denotes p<0.01), indicating that there is also a strong positive correlation between job satisfaction and teachers' loyalty. That is, the higher the job satisfaction, the higher the teachers' loyalty.

Table 5: Relationship between job satisfaction and teachers' loyalty

	Variables	X2.1	X2.1	Y1.1	Y1.2
X1.1	job-related factors	1			
X1.2	Personal factors	0.404**	1		
Y1.1	Behavioral loyalty	0.445**	0.425**	1	
Y1.2	Attitudinal loyalty	0.466**	0.471**	0.419**	1

From the above table, the correlation coefficients between work-related factors and personal factors, behavioral loyalty, and attitudinal loyalty are 0.404, 0.445, and 0.466 (all p<0.01), respectively, indicating a significant positive correlation between work-related factors and these variables. The correlation coefficients between personal factors and behavioral and attitudinal loyalty were 0.425, 0.471 (both p<0.01), indicating a significant positive correlation between personal factors and these variables. The correlation coefficient between behavioral loyalty and attitudinal loyalty is 0.419

($p<0.01$), indicating that there is a significant positive correlation between the two, i.e., the higher the employee's behavioral loyalty, the higher his attitudinal loyalty.

3. Regression Analysis

Table 6: Regression analysis of job satisfaction on behavioural loyalty

Variable	Unstandardized Coefficients		Standardized Coefficients	t	Sig.	VIF
	B	Std.Error	Beta			
Constant	1.134	0.161	-	7.053	0.000**	-
X1 Job-related factors	0.344	0.040	0.326	8.538	0.000**	1.195
X2 Personal factors	0.315	0.041	0.293	7.655	0.000**	1.195
R2= 0.269, Adjusted R2= 0.267, F =110.073 Sig. =0.000***						

The F-statistic is 110.073, corresponding to a p-value of 0.000, which is much less than 0.01, which indicates that the model as a whole is significant, the coefficient of the job-related factors is 0.344, the standard error is 0.040, the standardized coefficient (Beta) is 0.326, the t-value is 8.538, and the p-value is 0.000**, which suggests that there is a significant and positive impact of the job-related factors on the behavioral loyalty . Personal factor coefficient is 0.315, standard error is 0.041, standardized coefficient (Beta) is 0.293, t-value is 7.655 and p-value is 0.000**, which indicates that personal factors also have a significant positive impact on behavioral loyalty.

Table 7: Regression analysis of job satisfaction on attitudinal loyalty

Variable	Unstandardized Coefficients		Standardized Coefficients	t	Sig.	VIF
	B	Std. Error	Beta			
Constant	1.289	0.141	-	9.159	0.000**	-
X1 Job-related factors	0.313	0.035	0.329	8.881	0.000**	1.195
X2 Personal factors	0.328	0.036	0.338	9.109	0.000**	1.195
R2= 0.313, Adjusted R2= 0.310, F =135.699 Sig. =0.000***						

From the table above, the F-statistics are 135.699, corresponding to a p-value of 0.000, which is much less than 0.01, which indicates that the model is significant. The job-related factor coefficient is 0.313, the standard error is 0.035, the standardized coefficient (Beta) is 0.329, the t-value is 8.881, and the p-value is 0.000**, which suggests that the job-related factors have a significant positive impact on attitudinal loyalty. Personal factor coefficient is 0.328, standard error is 0.036, standardized coefficient (Beta) is 0.338, t-value is 9.109 and p-value is 0.000**, which indicates that personal factors also have a significant positive impact on attitudinal loyalty.

Conclusions and Discussion

All five hypotheses were supported in this study. H1 confirmed the positive impact of job satisfaction on teacher loyalty, which is consistent with previous research emphasizing work environment, collegiality, and career prospects (Tallam et al., 2019). H2 and H3 confirmed the impact of job-related factors on behavioral and attitudinal fidelity, emphasizing the importance of positive work environments (clear rules, colleague mutual understanding) in enhancing teachers' satisfaction and loyalty.

H4 and H5 introduce new insights through the impact of personal factors (e.g., work-life balance and personal values) on teacher loyalty. This line of research is in line with the emerging trend in the field of human resource management, which focuses on the role of individual differences and personal well-being in shaping employee attitudes and behaviors. It has been shown that a good work-life balance is essential for employee satisfaction and loyalty and that personal values and achievements significantly impact job satisfaction and organizational commitment (Yasin et al., 2024).

In conclusion, this study deepens our understanding of the relationship between job satisfaction and teacher loyalty in vocational colleges. Future studies can expand the sample size to include more vocational colleges in different regions and explore other potential factors that may impact this relationship, such as organizational culture and leadership style, to provide more comprehensive and in-depth insights into the development of vocational education.

Abstract

This study explores these branding components in the context of Srichand, a Thai cosmetic brand known for its rich heritage and cultural significance. Through a comprehensive literature review, this study develops a conceptual framework that examines the interrelationships between brand story, perceived brand authenticity, brand package design, brand experience, and brand preference. The study provides practical implications for the cosmetics industry, particularly for heritage brands seeking to modernize while maintaining authenticity. By leveraging storytelling, authentic brand communication, and innovative packaging, brands like Srichand can create immersive experiences that enhance consumer trust and preference. While this study offers a theoretical foundation, future empirical research is recommended to validate the proposed framework and explore the impact of digital branding and sustainability on consumer preferences. The insights contribute to branding literature and provide strategic guidance for marketers looking to build stronger consumer connections and long-term brand success.

Keywords: Brand Story, Perceived Brand Authenticity, Brand Package Design, Brand Experience, Brand Preference

Introduction

The global cosmetics industry has expanded significantly over the past decade, driven by evolving consumer preferences, technological advancements, and a growing emphasis on self-care and personal grooming (Euromonitor International, 2022). In Thailand, this growth is fueled by rising disposable incomes, increased exposure to global beauty trends, and a cultural focus on skincare and beauty (Kasikorn Research Center, 2021). Thai consumers are highly discerning, seeking products that align with their expectations of quality, authenticity, and heritage. Among local brands, Srichand has established itself as a leading name by blending traditional Thai ingredients with modern

formulations to appeal to contemporary consumers. However, the brand faces intense competition from both international giants and emerging local players. Empirical studies indicate that while the Thai cosmetics industry benefits from strong government support and high domestic demand, there are notable gaps in firm strategy, structure, and rivalry, suggesting that the competitive landscape is still evolving and may lack the intensity seen in more mature markets (Jinachai & Anantachoti, 2017). To maintain its competitive edge, Srichand has strategically focused on brand storytelling, perceived authenticity, and packaging design. Effective brand storytelling reinforces the brand's heritage and deepens its emotional connection with consumers (Tiiri, 2024). Perceived authenticity, which fosters trust and loyalty, is a crucial factor in consumer decision-making (Morhart et al., 2015). Additionally, culturally resonant, and distinctive packaging design enhances brand recognition and influences purchase intention (Liu & Zhao, 2024). By integrating these elements, Srichand strengthens its brand identity and market position in the dynamic Thai cosmetics industry.

This study adopts a case study approach, focusing on Srichand, a Thai cosmetic brand with distinct heritage and cultural identity. While the conceptual framework offers valuable insights, its generalizability should be approached with caution, as Srichand's unique characteristics may not reflect those of other brands. Further research is needed to validate the framework in broader contexts.

Gap in Literature and Research Questions

Despite the rising importance of branding in the cosmetic industry, limited research has examined how brand story, perceived brand authenticity, and package design jointly influence brand experience and brand preference, especially in the context of Thai cosmetic brands like Srichand. While prior studies have explored these elements individually, their combined effects and interrelationships remain underexplored particularly in local heritage-driven brands that use cultural storytelling to build trust. This study addresses these gaps by investigating how these branding components shape consumer perceptions and preferences in Thailand's cosmetic market.

RQ1: How does brand story affect perceived authenticity, brand experience, and brand preference for Srichand cosmetics?

RQ2: What is the impact of perceived brand authenticity on brand experience and preference?

RQ3: How does package design influence perceived authenticity, brand experience, and brand preference?

RQ4: Does brand experience mediate the relationships between brand story, authenticity, package design, and brand preference?

Objectives

1. Synthesize existing research on the individual and combined effects of brand storytelling, perceived authenticity, and package design on consumer perceptions.
2. Propose a conceptual framework linking these branding elements to brand experience and preference.
3. Formulate hypotheses based on insights from previous studies to guide future empirical research.

Concept Theory

1. Brand Story

Brand storytelling strengthens consumer connections by combining rational and emotional appeals to convey a brand's origins, mission, and values. It fosters relatability through archetypes, creating deep emotional bonds (Moin, 2024). Engaging narratives capture attention, enhance memory retention, and build loyalty by aligning with individual experiences (Ahmed et al., 2024). A well-structured story with clear settings, characters, and conflicts simplifies brand messaging and reinforces long-term commitment (Huang & Guo, 2021).

Brand storytelling influences consumer preferences by evoking emotional responses through underdog and top dog narratives. It strengthens self-brand connections via transmedia storytelling (Granitz & Forman, 2015) and enhances recall and decision-making through narrative frameworks (Ben et al., 2019). Story-driven word-of-mouth is more impactful than factual lists, shaping lasting impressions and purchase decisions (Mucundorfeanu, 2018).

Brand storytelling shapes consumer perceptions by fulfilling psychological needs like self-identity and belonging (Tiiri, 2024). It offers symbolic benefits such as security and nostalgia, strengthening brand connections. Experiential benefits outweigh functional ones in building consumer-brand relationships (Ben et al., 2019). Narratives enhance memory retention and emotional engagement (Richardson et al., 2018), with emotional assessments driving brand experiences.

Brand storytelling shapes consumer perceptions of authenticity by offering meaningful narratives that emphasize self-transcendence, nostalgia, heritage, and cultural relevance, enhancing emotional connections and brand credibility (Fitri et al., 2023). Elements like humor, personal narratives from celebrities, and alignment with brand identity further strengthen authenticity, while inauthentic stories can erode trust (Eng, 2020). Based on the studies mentioned, the hypothesis of the research is as follows:

H1: Brand stories positively influence brand preference.

H2: Brand stories positively influence brand experience.

H3: Brand story positively influences perceived brand authenticity.

2. Perceived Brand Authenticity

Perceived Brand Authenticity (PBA) is crucial in shaping consumer-brand relationships, as it reflects a brand's perceived genuineness and truthfulness. It is not solely about factual accuracy but rather alignment with consumer expectations of authenticity (Nunes et al., 2021). PBA strengthens trust and emotional connections by resonating with consumers' self-concept (Morhart et al., 2015). It is viewed through constructivism (trust and expectations), objectivism (tangible qualities), and existentialism (deep personal connection) (Morhart et al., 2015). Key drivers include heritage, culture, sincerity, ethical actions, and moral values (Hamby et al., 2019).

Perceived brand authenticity builds trust and emotional connections, shaping consumer engagement (Rosado-Pinto et al., 2021). It depends on a brand's believability and alignment with consumer values. Genuine brand experiences enhance credibility, while misaligned narratives weaken trust (Huang & Guo, 2021). Historical continuity, cultural heritage, and craftsmanship reinforce authenticity, especially in luxury branding (Morhart & Malär, 2020). Thus, the research proposes:

H4: Perceived brand authenticity positively influences brand experience.

3. Brand Package Design

Brand package design shapes consumer perception through color, typography, and graphics, positioning and differentiating brands (Hussain, 2015). It enhances user experience, influences purchase decisions, and fosters brand recognition (Wang et al., 2024). Serving both functional and symbolic roles, packaging strengthens brand identity, engagement, and loyalty (Krishna et al., 2017).

Brand package design enhances consumer experiences through sensory, cognitive, and emotional engagement (Waheed et al., 2018). Visual elements influence trust and purchase intentions, while packaging strengthens brand identity and loyalty in the cosmetics industry. It also improves recognition and recall, reinforcing emotional connections and trust (Ghorbani & Westermann, 2025).

Brand package design influences consumer perception by attracting attention and conveying trust and identity. Size and shape impact appeal, with larger packaging seen as better value, while misleading designs deter purchases (Zhang, 2014). Visual imagery, processed faster than text, shapes brand beliefs and low-involvement decisions. Realistic images reinforce preference, strengthening brand identity and consumer trust (Zhang, 2014).

Packaging shapes consumer perceptions, reinforces authenticity, and builds trust, especially in low-involvement goods (Wang et al., 2024). Neo-retro designs evoke nostalgia, while biomorphic designs enhance sustainability perceptions (Vinitha et al., 2021). In the food industry, Front of Package (FOP) labeling boosts trust and quality perception (Moazzam et al., 2024). Digital branding, such as NFTs, faces authenticity challenges, with consumers valuing physical products more, especially in luxury brands (Kim et al., 2024). Taken together, these findings support the hypotheses that:

H6: Brand package design positively influences brand preference.

H5: Brand package design positively influences brand experience.

H7: Brand package design positively influences perceived brand authenticity.

4. Brand Experience

Brand experience shapes consumer perceptions through direct interactions, reinforcing promises and emotional connections (Kumar & Kaushik 2020). Engagement influences trust, satisfaction, and loyalty (Granitz, & Forman, 2015). Schmitt's (1999) five experiential dimensions sensory, emotional, intellectual, behavioral, and relational guide consumer reactions (Brakus et al., 2015). Beyond functional benefits, memorable experiences strengthen trust, preference, and loyalty (Zha et al., 2020).

Brand experience influences consumer perceptions by reinforcing promises and building emotional ties through direct product interactions (Kumar & Kaushik 2020). This engagement enhances trust, satisfaction, and loyalty (Granitz & Forman, 2015). Schmitt's (1999) dimensions sensory, emotional, intellectual, behavioral, and relational show how these experiences create lasting memories that transcend functional benefits (Zha et al., 2020).

Brand stories drive consumer preference by creating emotional connections and engagement (Dessart & Pitardi, 2019). Narratives evoke sensory, emotional, and cognitive responses that shape perceptions and loyalty (Brakus et al., 2015). Nostalgic stories boost authenticity and word-of-mouth. Psychological factors influence how stories resonate, with promotion-focused consumers favoring atypical stories and affective consumers preferring underdog narratives (Kao & Wu, 2019).

Perceived brand authenticity enhances trust, emotional bonds, and loyalty, shaping preference and purchase intent. Glocalization helps global brands stay relevant, while localness strengthens trust and sales (Hoskins & Griffin, 2021). In luxury markets, authenticity drives young adults' loyalty (Ligaraba et al., 2024). Genuine brand experiences mediate the link between authenticity and preference.

Brand package design shapes consumer perceptions and preferences (Liu & Zhao, 2024). Aesthetic elements like shape and graphics influence appeal and willingness to pay, sometimes surpassing brand name impact. Rounded edges enhance emotional

engagement, with men favoring X-axis curves (Michalski, 2024). Curved shapes evoke warmth (Zhang, 2014), while eye-tracking studies highlight contour and contrast in capturing attention. Therefore, based on the above literature review, the following hypotheses are proposed:

H8: Brand experience positively influences brand preference.

H9: Brand experience mediates the relationship between brand story and brand preference.

H10: Brand experience mediates the relationship between perceived brand authenticity and brand preference.

H11: Brand experience mediates the relationship between brand package design and brand preference.

5. Brand Preference

Brand preference reflects how consumers prioritize brands based on perception, self-expression, and personal values (Byun et al., 2018). A strong brand builds equity and boosts repeat purchases (Chauhan, 2023), with consumer experiences, information search, and brand awareness enhancing recall and differentiation. Shaped by cognitive, affective, and behavioral factors (Ebrahi et al., 2016), brand preference drives purchase behavior and guides strategic marketing for stronger loyalty, engagement, and market positioning (Islami et al., 2024).

6. Symbolic Interactionism

This study is also grounded in Symbolic Interactionism, a social psychological theory that explains how people derive meaning from symbols through social interactions. Applied to branding, this theory suggests that consumers do not simply evaluate products based on their functional attributes but assign deeper symbolic meanings to them through cultural and interpersonal contexts (Solomon, 1983). In the case of Srichand, a heritage cosmetic brand, elements such as brand storytelling and package design function as symbolic cues that consumers interpret based on personal and social experiences. For instance, traditional motifs in packaging or culturally resonant narratives may trigger associations of trust, nostalgia, or self-expression. These symbolic meanings, formed and reinforced through social discourse and cultural identity, contribute to consumers' overall perception of authenticity and preference for the brand. Symbolic Interactionism thus provides a valuable lens for understanding how brand elements acquire emotional and cultural significance that shapes consumer-brand relationships.

Materials and Methods

This study uses a literature review methodology to examine the relationships between brand story, perceived brand authenticity, brand package design, brand experience, and brand preference. By synthesizing theoretical and empirical research in

branding and consumer behavior, it proposes a conceptual framework and related hypotheses.

To inform H1–H3, studies on brand storytelling were reviewed, showing its impact on emotional engagement, brand connection, and authenticity (Moin, 2024; Ahmed et al., 2024; Fitri et al., 2023). H4 draws on literature emphasizing the role of authenticity in building trust and emotional bonds (Morhart et al., 2015; Huang & Guo, 2021).

H5–H7 are supported by research on how design elements like color and shape influence perception, authenticity, and experience (Waheed et al., 2018; Zhang, 2014; Vinitha et al., 2021). H8–H11 are guided by studies on brand experience and its mediating role in shaping preference (Ghorbani & Westermann, (2025); Granitz & Forman, 2015).

Finally, H12 is based on literature examining how brand preference forms through emotional value, loyalty, and identity (Byun et al., 2018; Islami et al., 2024), reinforcing its role as the model's outcome variable.

Given the conceptual nature of this study, the primary source of evidence is drawn from a systematic literature review (Carrera-Rivera et al., 2022). This method ensures a structured and comprehensive approach to identifying, analyzing, and synthesizing existing research related to brand story, perceived brand authenticity, brand package design, brand experience, and brand preference. By using clearly defined inclusion criteria and focusing on peer-reviewed academic articles, books, and conference proceedings, the study minimizes bias and enhances the reliability of its theoretical framework. The systematic review approach not only provides a durable foundation for hypothesis development but also identifies gaps in the existing literature, guiding future empirical research.

Results

This study synthesizes existing literature to develop a conceptual framework examining the relationships between brand story, perceived brand authenticity, brand package design, brand experience, and brand preference. The hypotheses were selected based on well-established branding research showing how emotional storytelling,

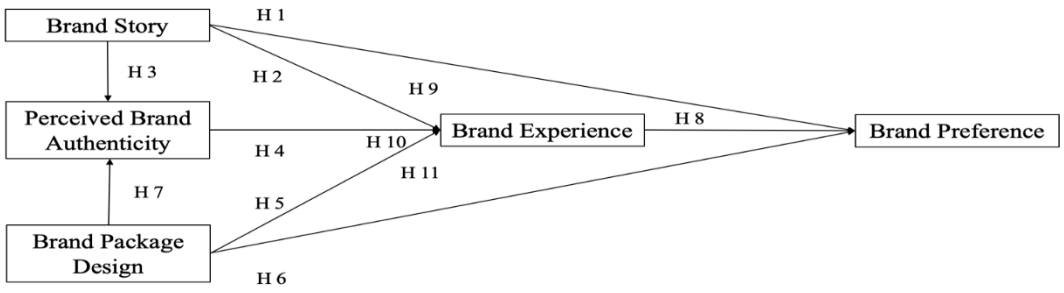

Figure 1: Research Framework

authentic brand signals, and impactful design shape consumer perceptions and behavior. These elements collectively reflect how consumers engage with brands on both emotional and experiential levels. The findings offer theoretical insights into the interplay of these factors, highlighting that brand preference emerges from a combination of narrative, authenticity, and sensory experiences. This integrated framework provides a clearer understanding of consumer-brand relationships and offers strategic direction for building stronger, more meaningful brand connections.

Through an analysis of prior studies, the research supports the following hypotheses:

H1: Brand stories positively influence brand preference.

H2: Brand stories positively influence brand experience.

H3: Brand story positively influences perceived brand authenticity.

H4: Perceived brand authenticity positively influences brand experience.

H5: Brand package design positively influences brand experience.

H6: Brand package design positively influences brand preference.

H7: Brand package design positively influences perceived brand authenticity.

H8: Brand experience positively influences brand preference.

H9: Brand experience mediates the relationship between brand story and brand preference.

H10: Brand experience mediates the relationship between perceived brand authenticity and brand preference.

H11: Brand experience mediates the relationship between brand package design and brand preference.

Conclusions and Discussion

This study proposes a conceptual framework to understand how brand preference the dependent variable is shaped by key branding elements. It identifies brand story, perceived authenticity, and package design as independent variables that influence consumer preference. These elements contribute to emotional engagement, trust, and visual appeal. Brand experience serves as a mediating variable, explaining how consumers internalize these brand cues through emotional, sensory, and behavioral responses. By synthesizing existing literature, the study highlights the role of experiential branding and emotional connections in shaping brand preference. Although conceptual, the study encourages future empirical research to assess the framework across unfamiliar cultures and product categories. It also recommends exploring digital branding and influencing marketing to better understand evolving consumer behavior in the cosmetics industry.

Recommendations

This study recommends future empirical research to validate the proposed conceptual framework and further examine the relationships between brand story, perceived brand authenticity, brand package design, brand experience, and brand preference. It would be valuable to explore how these relationships hold across different product categories and cultural contexts, especially in markets where heritage and digital transformation intersect. Moreover, future studies should investigate the impact of digital branding and sustainability on consumer preferences, as these factors are increasingly shaping modern brand perceptions and purchase decisions. Understanding how digital touch points and eco-conscious practices influence authenticity and preference will help refine branding strategies in both traditional and emerging sectors. The insights from this study contribute meaningfully to the branding literature and provide strategic guidance for marketers aiming to build stronger consumer connections and foster long-term brand success. By aligning brand storytelling, authenticity signals, and innovative packaging with evolving consumer values, brands can create more immersive and trustworthy experiences that drive loyalty and preference.

Abstract

Thailand's skincare market is rapidly growing, driven by cultural emphasis on clear, youthful skin and influenced by Korean beauty trends. The market offers diverse products, from herbal remedies to global brands, boosted by e-commerce expansion. This paper explores how mass communication and materialistic values shape brand perception, brand value, and purchase intention. While previous research has explored these factors separately, there remains a need for a comprehensive framework that examines their interrelationships within the skincare market. This study addresses this gap by developing a conceptual framework that highlights the mediating role of brand value in the relationships between mass communication, materialistic values, and purchase intention in the skincare industry. This study contributes to marketing literature by integrating multiple theoretical perspectives and presenting a structured set of hypotheses for future empirical validation.

Keywords: Conceptual Framework, Skincare, Purchase Intention Model, Thailand

Introduction

Skincare is essential for personal care, focusing on skin health and appearance. Global advancements in dermatology, rising consumer awareness, and beauty trends have driven market growth, with personalized regimens becoming more common (Kim et al., 2020). In Thailand, the booming skincare industry reflects a cultural focus on clear, youthful skin. The market features both traditional herbal remedies and high-end international brands, with Korean beauty trends and e-commerce further boosting product accessibility and variety.

In addition to these market dynamics, brand value plays a leading role in influencing consumer decisions. Emotional connections, perceived quality, and symbolic meaning associated with skincare brands significantly shape consumer engagement and purchase intention. Including brand value in the study provides a more comprehensive

understanding of how marketing strategies impact consumer behavior in the Thai skincare industry.

In Thailand, skincare represents a rapidly growing industry, reflecting cultural emphasis on beauty and grooming. Thai consumers, particularly women, prioritize clear, radiant, and youthful skin, aligning with societal perceptions of beauty and well-being. The Thai skincare market is diverse, encompassing traditional herbal remedies and high-end international brands. The rising popularity of Korean beauty trends and the expansion of e-commerce platforms have further enhanced product accessibility and variety, contributing to the market's sustained growth.

Despite extensive research on purchase intention, gaps remain in skincare-specific insights particularly around emotional brand value and cultural influences on brand perception. Filling these gaps can help brands better align with evolving consumer expectations and media dynamics.

To address these gaps, the study proposes the following research questions:

RQ1. How does mass communication influence brand value brand perception, materialistic values, and purchase intention in the skincare industry?

RQ2. What role does brand value play in mediating the relationship between mass communication, brand perception, materialistic values, and purchase intention?

RQ3. How do materialistic values and brand perception shape consumer behavior in the context of skincare products?

Objectives

1. Develop a conceptual framework that examines the relationships among mass communication, brand perception, materialistic values, brand value, and purchase intention.
2. Formulate hypotheses based on a comprehensive literature review to explain how these factors influence purchase intention.
3. Contribute to the academic discourse on purchase intention by synthesizing key concepts and proposing a structured framework.

Concept theory framework

1. The Stimulus-Organism-Response (S-O-R) Theory

The Stimulus-Organism-Response (S-O-R) theory (Mehrabian & Russell, 1974) explains how external stimuli influences internal states and leads to behavioral outcomes. In skincare, mass communication, brand perception, and materialistic values function as stimuli shaping brand value an internal evaluation based on perceived quality, emotional connection, and symbolic meaning. Advertising and influencer

content enhances brand perception, while materialism increases the appeal of premium products. A strong brand value builds trust and loyalty, driving purchase intention. The S-O-R model offers a valuable framework for understanding how strategic communication shapes consumer behavior in the skincare market.

2. Mass Communication

Mass communication advertising builds brands using the "Big Idea" to engage audiences, with television offering broad reach and audiovisual impact. Public relations enhance credibility through stakeholder engagement (Schultz & Barnes, 1999). Digital platforms enable targeted messaging, while social media boosts engagement but faces negative feedback challenges (Kohli et al., 2015). Combining traditional and digital media optimizes brand perception.

Mass communication, particularly through television and social media, plays a significant role in fostering materialistic values. Television advertising often idealizes consumer lifestyles, encouraging individuals especially adolescents and children to associate happiness and success with the ownership of branded goods (Richins, 1993; Popovic Sevic et al., 2022). Social media further amplifies this effect by promoting constant social comparison and delivering targeted advertising that reinforces consumerist ideals. These platforms normalize material aspirations across diverse cultural contexts, contributing to the widespread internalization of materialistic values (Kim, 2022).

Mass communication shapes brand perception by fostering strong associations and awareness (He, 2022). It differentiates branded products, enhancing brand equity (Aaker, 1991). Social media expands brand reach and engagement, with platforms like Facebook enabling direct consumer interaction (Almestarihi et al., 2021). Celebrity endorsements and aspirational messaging reinforce brand associations, while repeated exposure builds trust and lasting impressions (Almestarihi et al., 2021).

Mass communication significantly influences consumer purchase intention by shaping brand perception and emotional connection (Martin & Bush, 2000). Persuasive messaging through media enhances brand familiarity and relevance, especially among youth. Kwon (2012) found that online mass communication creates favorable brand attitudes and boosts product value. It motivates purchase decisions when aligned with consumers' needs. Chen et al. (2021) further highlights that social media and influencer content directly impact purchase intention. Overall, mass communication serves as a powerful driver in encouraging consumer action.

Mass communication shapes brand value by influencing consumer perceptions and engagement. Television fosters affluent perceptions and reinforces brand value through normative behaviors (Kim, 2022). Social media amplifies this, enhancing loyalty

and willingness to pay a premium. Cultural branding, combining traditional and digital strategies, strengthens relevance in changing markets (Luo & Chen, 2024). Localized television news impacts brand equity, highlighting audience preferences in brand trust (Bakshi & Mishra, 2017). Thus, the following hypotheses are proposed:

H1: Mass communication positively influences materialistic values.

H2: Mass communication positively influences brand perception.

H3: Mass communication positively influences purchase intention.

H4: Mass communication positively influences brand value.

3. Brand Perception

Brand perception is shaped by individual experiences, emotions, and trust, influencing consumer behavior and preferences (Bao et al., 2011). Emotional connections and customer satisfaction drive engagement and loyalty (Lin & Lee, 2012). Marketing, digital engagement, and social media interactions also impact perception, enhancing trust but potentially harming it through negative experiences (Li & Nan, 2023). Brand perception is crucial for long-term success.

Brand perception shapes brand value through factors like quality, price, and emotional appeal (Steffl et al., 2024). In B2B, value co-creation strengthens brand performance, while country of origin and cultural nuances affect consumer perceptions (Hien et al., 2019). In luxury brands, evaluations of financial, functional, and social factors drive brand value (Hennigs et al., 2013). Social media deepens emotional connections, reinforcing brand value through engagement and storytelling. Positive brand perception enhances equity, loyalty, and market position. Thus, the following hypothesis is proposed:

H5: Brand perception positively influences brand value.

4. Materialistic Values

Materialism emphasizes possessions as central to well-being and success, influenced by internal desires and external factors like culture, peers, and media (Pupelis & Šeinauskiene, 2022). It involves acquisition centrality, happiness tied to possessions, and success linked to materialism (Richins, 1993). Materialism aligns with extrinsic goals (e.g., wealth, image) and self-enhancement motivations, while differing from intrinsic values (Schwartz, 1992). Socialization agents, like family and advertising, reinforce materialistic tendencies, which can have negative social effects (Tantawi, 2024).

Materialism drives individuals to use possessions for identity and social status, influencing their brand perceptions (Tantawi, 2024). Youth link branded goods to happiness and status but associate materialism with negative traits like arrogance. Cultural context, such as Turkish perceptions of Chinese brands, also affects this relationship. Materialism shapes consumer identity, particularly in fashion marketing

(Tuominen, 2023), and is reinforced early through peer influence and advertising, guiding brand perception.

Materialistic consumers seek brand prestige and social recognition, especially in luxury markets (Cleveland et al., 2015). In Thailand, materialism drives brand engagement, while value-conscious consumers prioritize quality. Materialism influences ethical consumption, with counterfeit purchases harming brand value. Cultural differences shape these behaviors, as Eastern consumers prioritize social recognition, while Western ones emphasize individuality (Ho et al., 2012; Srisomthavil & Assarut, 2018).

Materialistic values influence consumer behavior through media exposure and celebrity endorsements (Pupelis & Šeinauskiene, 2022), with admiration for celebrities shaping purchase intentions (Green et al., 2014). In markets like China, social pressure drives brand choices (Shi et al., 2016). Materialism impacts sustainability, as success-driven individuals buy green apparel, while face consciousness fuels counterfeit luxury purchases (Jiang et al., 2023). Traits like possessiveness and envy further shape purchasing attitudes (Richins, 1993). The following hypotheses are proposed:

H6: Materialistic values positively influence brand perception.

H7: Materialistic values positively influence brand value.

H8: Materialistic values positively influence purchase intention.

5. Brand Value

Brand value is the perceived worth of a brand that drives loyalty and profitability (Romdonny & Rosmadi, 2019). It arises from functional benefits like quality and differentiation as well as both practical and emotional (utilitarian and hedonic) advantages (Shi et al., 2021). Brand elements such as logos, colors, and slogans further enhance identity and engagement, supporting premium pricing and competitive differentiation (Aaker, 1991; He, 2022).

Brand value influences purchase intention by shaping consumer perceptions and engagement. Higher perceived value boosts intent in online and offline settings, especially in luxury markets, where quality, authenticity, and prestige drive purchases (Ko et al., 2019). Functional, experiential, and symbolic benefits enhance loyalty and willingness to pay premium prices, with quality, advertising, and endorsements playing key roles (Younus et al., 2015).

Brand value connects mass communication, brand perception, and materialism to purchase intention. Angelic brand names and religious priming strengthen psychological ties that drive purchases (Ilicic & Brennan, 2023). Social media marketing enhances brand awareness, image, and quality, influencing intent. In film, brand value

mediates eWOM and marketing strategies, converting efforts into consumer action (Jaya et al., 2024).

Brand value mediates the relationship between brand perception and purchase intention, converting positive perceptions into consumer actions. Brand love and emotional polarity in online reviews enhance brand value, which drives purchase decisions (Li & Nan, 2023). In luxury markets, functional, experiential, and symbolic brand perception strengthens brand value, leading to higher willingness to pay, brand loyalty, and recommendations (Ko et al., 2019). Social media engagement and perceived prestige further elevate brand perception, reinforcing brand value and influencing purchasing behavior (Nuzula & Wahyudi, 2022).

Materialistic values drive purchase intention, with brand value as a key mediator. Acquisition centrality and social recognition boost engagement with luxury brands, enhancing purchase intent (Srisomthavil & Assarut, 2018). Consumers value luxury brands for utilitarian, hedonic, and symbolic benefits, increasing willingness to buy (Ho et al., 2012). Brand prestige and perceived value link materialism to purchasing behavior (Nuzula & Wahyudi, 2022), while ethical consumption is influenced by brand quality. The following hypotheses are proposed:

H 9: Brand value positively influences purchase intention.

H 10: Brand value mediates the relationship between mass communication and purchase intention.

H 11: Brand value mediates the relationship between brand perception and purchase intention.

H 12: Brand value mediates the relationship between materialistic values and purchase intention.

6. Purchase Intention

Purchase intention reflects the likelihood of a consumer buying a product and is influenced by attitudes, subjective norms, and perceived control. Brand image, loyalty, and equity strongly affect purchase intention (He, 2022), as do online reviews, website quality, and emotional connections like brand love (Chen et al., 2021). Situational factors, such as product availability and financial constraints, also play a role. Understanding these factors helps marketers drive consumer commitment and engagement.

Materials and Methods

This study employs a conceptual approach using an extensive literature review to develop a theoretical framework and hypotheses. It synthesizes secondary data to examine the links among mass communication, brand perception, materialistic values,

brand value, and purchase intention. The resulting conceptual framework lays the groundwork for future empirical validation in branding and consumer behavior. The resulting conceptual framework not only identifies key variables and their proposed interactions but also serves as a foundation for future empirical research aimed at testing and validating these relationships in real-world contexts.

Results

The study presents a conceptual framework and hypotheses outlining the relationships among mass communication, brand perception, materialistic values, brand value, and purchase intention. Through a literature review, it identifies key theoretical linkages and proposes a framework illustrating their impact on consumer decision-making.

However, the framework could be further strengthened by explicitly linking each relationship and hypothesis to specific supporting theories, such as the Stimulus-Organism-Response (S-O-R) model for media influence, or brand equity theory for understanding the role of brand value. Doing so would provide a more solid theoretical foundation and enhance the academic rigor of the framework.

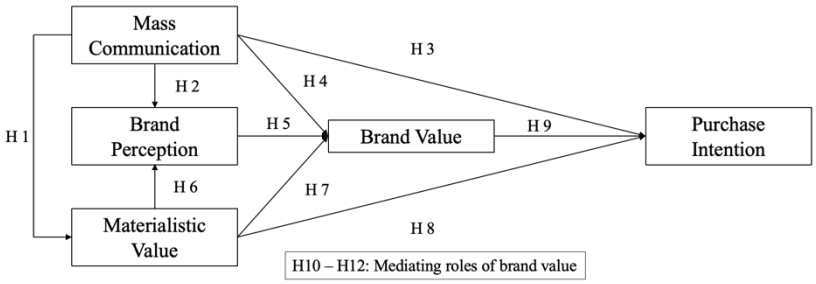

Figure 1: Research Framework

H1: Mass communication positively influences materialistic values.
H2: Mass communication positively influences brand perception.
H3: Mass communication positively influences purchase intention.
H4: Mass communication positively influences brand value.
H5: Brand perception positively influences brand value.
H6: Materialistic values positively influence brand perception.
H7: Materialistic values positively influence brand value.
H8: Materialistic values positively influence purchase intention.
H9: Brand value positively influences purchase intention.

H10: Brand value mediates the relationship between mass communication and purchase intention.

H11: Brand value mediates the relationship between brand perception and purchase intention.

H12: Brand value mediates the relationship between materialistic values and purchase intention.

Conclusions and Discussion

This study develops a conceptual framework that explores the relationships among mass communication, materialistic values, brand perception, brand value, and purchase intention in skincare market. By synthesizing existing literature, it highlights the mediating role of brand value in shaping consumer decision-making and brand engagement. The proposed hypotheses provide a structured understanding of how mass communication influences brand perception, how materialistic values drive consumer-brand interactions, and how brand value translates these influences into purchase intentions.

The study contributes to both academic research and marketing practice by bridging consumer psychology, brand equity, and mass communication theories into a holistic framework. Previous research that examines these variables in isolation, this framework offers an integrated perspective, emphasizing how brands can leverage mass communication, social influence, and materialistic tendencies to enhance brand positioning and consumer loyalty.

Importantly, the study suggests that materialistic values can be strategically incorporated into marketing by positioning skincare products as symbols of personal success, self-care, and social status. Brands may tailor messaging to resonate with consumers' aspirations for prestige and lifestyle enhancement, using premium branding, influencer endorsements, and exclusive packaging to appeal to material-driven segments.

Recommendations

Future research should empirically assess the proposed conceptual framework to validate the hypothesized relationships in real market contexts. Longitudinal or cross-cultural studies could help explore how materialistic values and media influence vary across consumer groups and regions. Practitioners are encouraged to use insights from this framework to design targeted marketing campaigns that align with consumers' emotional and symbolic brand preferences. Additionally, marketers should continuously

adapt their communication strategies to digital trends, ensuring their messaging remains relevant and resonates with evolving consumer values and behaviors.

Abstract

Despite Thailand's increasing appeal as a study-abroad destination for Chinese students, research on the influence of user-generated content (UGC) and key opinion leaders (KOLs) on the RED platform remains limited. This study investigates how the perceived credibility and usefulness of educational content, combined with the persuasive impact of KOLs, affect Chinese students' motivation and decision to study in Thailand. The sample comprised 171 Chinese international students aged 18 to 37, selected through purposive and convenience sampling. Data were analyzed using means, standard deviations, and Stepwise Regression Analysis at a 0.05 significance level. Findings reveal that (1) perceived credibility and usefulness of RED content significantly influenced KOL persuasion, impacting study-abroad decisions at a medium level (34.5%); (2) KOL persuasion had a positive effect on students' motivation, accounting for 47.5% at a medium level; (3) motivation significantly affected students' final decision to study in Thailand (45.2% at a medium level). Personal growth and career development were key predictors. This study highlights the role of UGC quality and KOL influence in study-abroad decisions, offering insights for educational institutions on leveraging social media to attract international students.

Keywords: Users-Generated Content (UGC), Persuasion of Key Opinion Leader (KOL), Motivation for Study Abroad, Decision to Study Abroad in Thailand, RED Platform

Introduction

As China's cooperation with countries along the Silk Road grows closer and closer, and the trend of economic globalization becomes increasingly apparent, internationalization of education has become a trend. Since 2013, President Xi Jinping has proposed the "Belt and Road" initiative, which aims to form a community of interests,

destiny and responsibility with mutual political trust, economic integration, and cultural inclusiveness. Under the promotion of the "Belt and Road" initiative, various humanities exchange programs between China and Thailand, particularly in areas such as university exchanges, international student education, think tank cooperation, youth exchange, cultural dialogue, and language and cultural exchange and learning have become increasingly frequent. Compared with Europe, America, and Australia, Thailand has a lower cost of living, low application requirements, high graduation rates, strong cultural adaptability, high tolerance, and more geopolitical advantages. Currently, the number of Chinese students studying in Thailand is increasing, and according to data released by the Chinese Ministry of Education, there are currently 40,000 Chinese students studying in the country (He, 2020).

As the national Internet+ strategy deepens, more people are searching for information online and sharing their experiences. Most users favor user-generated content (UGC) platforms. Self-media bloggers' information content has subjective, authentic, and focused characteristics, and the interaction and communication with users are stronger, which enhances user stickiness, trust, and perceived value. More Chinese students tend to learn information about studying abroad through user-generated content on self-media platforms.

However, limited research about how social media platforms like RED—where students actively seek and share study abroad information—shape their motivation and decision-making. This research fills this gap by examining how users perceive the credibility and usefulness of online content, as well as the influence of key opinion leaders (KOLs) on RED, in their journey to decide on studying in Thailand."

Objectives

1. To examine the influence of perceived credibility, perceived usefulness, and key opinion leaders promoted in RED platform on the Chinese students' motivation to study abroad in Thailand.
2. To examine the influence of perceived credibility, perceived usefulness, and key opinion leaders promoted in RED platform on the Chinese students' decision to study abroad in Thailand.
3. To examine the influence of motivation to study abroad on the Chinese students' decision to study abroad in Thailand.

Literature Reviews

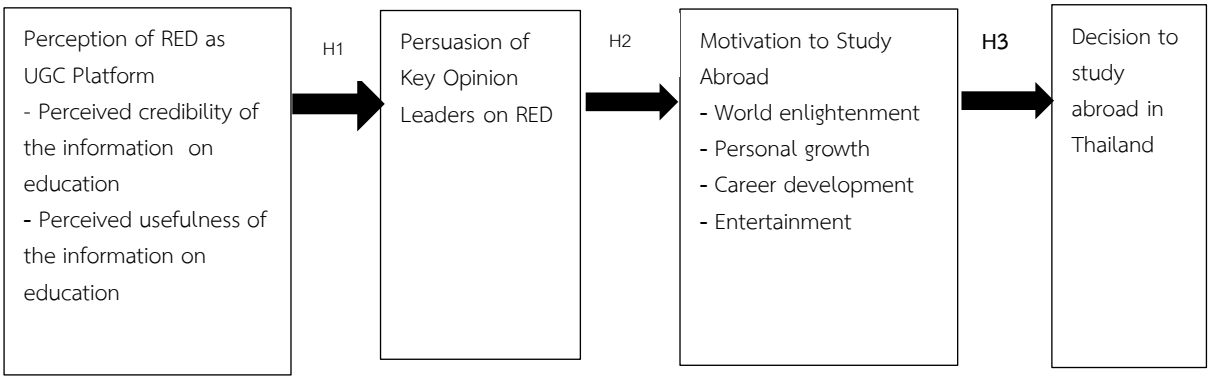
UGC definition

Since the emergence of blogs, YouTube, and Wikipedia in 2005, User-Generated Content (UGC) has become a focus of attention and has received a lot of attention. So far, there is no scientific definition to define it. User-generated content refers to information resources created and published on the Internet by ordinary Internet users (Akar & Topcu, 2011). This term first appeared in the 2005 China Internet Annual Report. Research on user-generated content is still in its infancy, especially in China. Regarding the concept of user-generated content, Goodrich (2011) believes that content published by users that can be considered UGC must have the following characteristics: on the one hand, the audience of the information can access it through online media (such as Facebook, Twitter, blogs and YouTube); on the other hand, it can be animated, graphic, image, photo, text, and other self-created content; finally, the information is created by individuals rather than professional organizations.

Motivation for creating UGC

Discussing the motivation for creating user-generated content can further help us understand the essence of UGC and distinguish the differences between diverse types of UGC to some extent. There are many studies on UGC motivation, and most scholars focus on blog creation motivation. For example, Brabham (2010) believes that users' motivation for creating blogs is influenced by factors such as material rewards, opportunities, and personal reputation, while Nardi (2004) believes that users create information to express their views and opinions, record daily life, and express emotions.

Study abroad information provided by the UGC platform.



As a popular emerging social media platform in recent years, RED platform has attracted more attention due to its advantages in attracting and retaining users. Based on the analysis of the "Uses and Gratifications theory", Wan (2022) found that people tend to approach media for some psychological need, and the main reason for using RED is to obtain and understand information and meet personal needs for specific community content, including learning and consultation. At the same time, under single factor variance analysis, the overall significance test value of education level is greater than 0.05, indicating that the different levels of educational backgrounds of RED users also have a small effect on their motivation to use, However, the significance measure between educational level and "understanding information" is less than 0.05, implying that the information needs of RED audience are influenced by the difference in educational level, and the higher the educational level is, the stronger the psychological motivation to use RED App to obtain information. Liu (2022) found in her survey study that UGC provides different perspectives on studying abroad. In addition to students sharing their own experiences and advice on

studying abroad, UGC also provides multiple channels, such as educational media, study abroad consulting agencies, and expert advisors, which provide systematic and in-depth analysis of study abroad from multiple perspectives and help international students get comprehensive information on studying abroad.

Key Opinion Leaders (KOL)

Influential individuals who produced user-generated content on the Internet are considered by many online users to be Key Opinion Leaders (KOL) (MacKinnon, 2012). Key Opinion Leaders were first defined in The People's Choice. Opinion leaders refer to people who can influence the attitudes or behavior of others (Lazarsfeld & Berelson, 1944). The development of the Internet and the rise of self-media platforms have provided a broader platform for the study of Key Opinion Leaders. Key Opinion Leaders on the Internet are usually those who publish information, disseminate information, and provide reference for others' opinions through the Internet to influence the user public to make decisions.

Research Framework

Research Hypothesis

1. Hypothesis 1: Perceived credibility and usefulness of the UGC in education on RED platform significantly influence the persuasion of key opinion leaders.
2. Hypothesis 2: Persuasion of key opinion leaders on RED platform has a significant effect on Chinese students' motivation to study abroad in Thailand.
3. Hypothesis 3: The motivation for study abroad of Chinese student has a significant effect on the decision to study abroad in Thailand for Chinese students.

Research Methodology

Research design

The researcher used the survey method to examine the factors affecting the Chinese students' decision to study abroad in Thailand. The questionnaire was collected in September-October 2023.

Population and Sample Selection

The subjects targeted in this study were Chinese international students aged under 18 years old to over 37 years old who are currently studying in Thailand. The study primarily focused on Chinese international students currently studying in Thailand who were active users of social media, especially have experiences using RED platform during year 2022- 2023. The sampling method used in this study is purposive sampling and convenience sampling. This approach was chosen due to the specific nature of the research questions and the need for participants with certain capabilities.

Variables and Research Instrument

The independent variable was perception of credibility and usefulness of UGC on education, and the mediating variables was persuasion of key opinion leaders and motivation to study abroad in Thailand, and dependent variable was Chinese students' decision to study abroad in Thailand.

The questionnaire consisted of 5 sections and 38 questions, and 171 questionnaires were finally collected for this study. The first section has 5 nominal-and-ordinal questions asking about the demographic factors of respondents, including gender, age, level of education, and duration and frequency of RED platform use. The second section has 6-likert questions asking about the perception of the credibility of the usefulness of UGC in RED platform, adopted from Yuksel (2016). The third section has 4-likert questions inquiring the perceptions on the persuasion of key opinion on RED platform. The fourth section consists of 20- likert questions inquiring the motivations for studying abroad in Thailand. Adopted from American Institute of Foreign Study (cited in Anderson & Lawton, 2015), the motivation for study abroad (MSA) has four dimensions, including world enlightenment, personal growth, career development, and entertainment. The fifth section has 3- likert questions inquiring the decision to study in Thailand. Finally, Section 2-Section 4 used the same 5-likert scale, arranging from 1- Completely disagree, 2-somewhat disagree, 3-neither agree nor disagree, 4-somewhat agree," or 5 "Completely agree."

Instrument Pretest

The English questionnaire was translated into Chinese language and did back translation to ensure content validity. To ensure the reliability of the questionnaire, the questionnaires were pretested with 30 respondents and found that all parties had Cronbach coefficient higher 0. 70, which was considered acceptable reliability. The Cronbach coefficient of the overall perceived credibility and perceived usefulness of UGC in education was 0.938, composing of 0.898 Cronbach alpha for perceived credibility and 0. 884 Cronbach alpha for perceived usefulness. The Cronbach coefficient of

persuasion of key opinion leader in RED platform was 0.886. The Cronbach coefficient of motivation for study abroad was 0.962, composing of World Enlighten with Cronbach alpha of 0.934, personal growth with Cronbach alpha of 0.925, and career development with Cronbach alpha of 0.950, and entertainment with Cronbach alpha of 0.892, respectively.

The questionnaire underwent three steps to ensure content validity for the scales for UGC credibility and KOL persuasion were adapted from past studies, a team of experts reviewed the instrument for clarity and relevance, and back-translation (from English into Chinese language) resolved language discrepancies. A pretest confirmed reliability.

Results

Summary of descriptive findings

Among 171 respondents, majority of the respondents aged 23-27 years old (33.3%, n = 57), followed by 28-32 years old (24.6%,n = 42), 18-22 years old (19.9%, n = 34), completed bachelor's degree (55%, n = 94), and college degree (28.7%, n = 49). They have been using the RED platform for over 1 year (s) (58.5%, n = 100), followed by between 6 months to 1 year (26.9%, n = 46) and less than 6 months (14.6%, n =25), respectively. They used RED platform between 30 minutes to 1 hour (36.3%, n = 62) a day, followed by those using RED platform less than 30 minutes (28.7%, n = 49), between 1 hour to 2 hours (22.2%, n =38) and over 2 hours (12.9%, n =22), respectively.

Respondents' perceived credibility ($\overline{X}$ = 3.886, S.D. = 0.937) and perceived usefulness ($\overline{X}$ = 3.736, S.D. = 1.042) of the UGC in education were ranked at the high level. They also had a positive perception ($\overline{X}$ = 3.606, S.D. =1.026) on the persuasion of key opinion leader of the RED platform. When examining motivation for study abroad, the results found that the respondents had high motivation for study abroad ($\overline{X}$ = 3.722, S.D. = 0.754), ranking personal growth ($\overline{X}$ = 3.780, S.D. = 0.977), career development ($\overline{X}$ = 3.763, S.D. = 0.956, world enlightenment ($\overline{X}$ = 3.680, S.D. = 1.008), and entertainment ($\overline{X}$ = 3.666, S.D. = 1.045), respectively. Finally, their decision to study abroad in Thailand was ranked high ($\overline{X}$ = 3.699, S.D. =1.029).

Summary of inferential findings

Hypothesis 1: Perceived credibility and usefulness of the UGC in education on RED platform significantly influence the persuasion of key opinion leaders.

Stepwise Regression analysis revealed that the respondents' perceived credibility and perceived usefulness of the UGC in education on RED platform are significant positive predictors of the persuasion of key opinion leaders (R^2 = 0.345 *, $p < 0.05$). When examining their impact on the persuasion of key opinion leaders, the findings revealed that

respondents' perceived credibility (β = 0.416*, p<0.05) and perceived usefulness (β = 0.246*, p<0.05) are the significant positive predictors of the persuasion of key opinion leaders. These findings suggested that credibility and usefulness of UGC in education significantly influenced the persuasion of key opinion leaders, showing that credibility factor of educational information has a positive effect than the usefulness of educational information.

Table 1: Summary of Regression Analysis for Hypothesis 1

Predictors: Perception of RED as UGC Platform	B	S. E	Beta	Sig.t
Credibility of educational Information	0.455	0.082	0.416	0.000
Usefulness of educational Information	0.242	0.073	0.246	0.001

Remark:

Predictor: Perceived credibility and usefulness

Dependent variable: Key opinion leaders, R2 = .345 *, p < 0.00

Hypothesis 2: Persuasion of key opinion leaders on RED platform has a significant effect on Chinese students' motivation to study abroad in Thailand.

The Regression analysis revealed that the persuasion of key opinion leaders on RED was a significant positive predictor of Chinese students' motivation for study abroad (R2 = 0.475*, p< 0.05). In general, persuasion of key opinion leaders on RED was accountable for Chinese students' motivation for study abroad at the rate of 47.5%, which is considered in the medium level. This regression result found that hypothesis is significantly supported (β = 0.691*, p < 0.05).

Table 2: Summary of Stepwise Regression of Hypothesis 2

Predictors: Persuasion of Key opinion leaders on RED	B	S.E	Beta	Sig.t
Persuasion of Key opinion leader	0.508	0.041	0.691	0.000

Remark:

Predictor: Key opinion leaders on RED

Dependent variable: Motivation to study abroad, R2 = 0.475*, p < 0.05

Hypothesis 3: Chinese students' motivation to study abroad has a positive effect on their decision to study abroad in Thailand.

The Stepwise Regression analysis revealed that the motivation for study abroad (including world enlightenment and personal growth, career development, entertainment) are significant positive predictors of the decision to study abroad in Thailand for Chinese students (R^2= 452*, $p < 0.05$). Overall, the motivation for study abroad is accountable for the decision to study abroad in Thailand for Chinese students at the rate of 45.2%, which is considered in the medium level. This test result found that hypothesis is significantly supported.

When examining the impact of each dimension of the motivation for study abroad on the decision to study abroad in Thailand for Chinese students, the findings revealed that the personal growth (β = 0.427*, $p < 0.05$) and career development (β = 0.248*,$p < 0.05$) are significant predictors of the decision to study abroad in Thailand for Chinese students. However, world enlighten (β = 0.051, $p > 0.05$) and entertainment (β = 0.116, $p > 0.05$) are not significant predictors of the decision to study abroad in Thailand among Chinese students.

Table 3: Summary of Stepwise Regression of Hypothesis 3

Predictors: Motivation to Study Abroad	B	S.E	Beta	Sig.t
World enlighten	0.052	0.071	0.051	0.460
Personal growth	0.450	0.073	0.427*,	0.000
Career development	0.267	0.080	0.248*	0.001
Entertainment	0.114	0.064	0.116	0.075

Remarks:

Predictor: Motivation study abroad

Dependent variable: Decision study, R^2 = 0.452*, $p < 0.05$

Discussions and Conclusion

Firstly, the usefulness and credibility of the information on the RED platform significantly affects the persuasion of KOLs. Zhou's (2023) study pointed out that information is a key factor for users to evaluate KOLs. And KOLs often convey information through real and effective reviews that fit the life scenarios to attract users. Thus, the usefulness and credibility of information were revealed as the communication strategy for KOLs to attract users' attention. The theory of persuasive communication also pointed out that users make judgments based on the credibility of the information and their trust in

the KOL. And the truthfulness and credibility of the information was obviously the basis of users' trust in KOL.

Secondly, the study found that the persuasion of KOLs had a significant positive impact on users' motivation to study abroad. Through KOL's persuasion, users analyze their own situation, which makes their motivation stronger. Yu (2021) pointed out that users' psychological motivation is often divided into rational motivation, emotional motivation, and trust motivation. Users tend to have trust motives for the KOLs they follow, and after being convinced by KOLs, they will think and judge according to their own characteristics and then decide.

And finally, it is the motivation to study abroad that influences Chinese students to make the final decision to study abroad in Thailand. Weng (2019) argued that users tend to have their own psychological motivations before deciding, and they tend to make choices that best fit their psychological motivations. And, these results coincided with the assumption of the Theory of Rational Behavior, which assumed that consumers evaluate the perceived benefits and sacrifices of rational behavior and then make choices (Li, 2012).

Moreover, these results were also consistent with the Expectancy theory. The Expectancy theory assumed that individuals act in a certain way because they believe that their behavior will lead to desired outcomes, and they place a high value on those outcomes (Vroom, 1964). As for the four dimensions of study abroad, this paper finds that world enlightenment and entertainment are not significant factors for study abroad motivation, and only personal growth and career development are significant factors. The non-significance of world enlightenment may stem from Thailand’s cultural proximity to China, reducing perceived novelty compared to Western destinations. Additionally, 55% of respondents held bachelor’s degrees, suggesting a focus on career advancement over cultural exploration and entertainment.

In addition, it may also be related to the small sample, the sample of this study is 171, although it has reached the qualification standard, but it is still relatively small, which may produce errors.

In conclusion, the purpose of this study was to examine the impact of the persuasive content posted by KOLs on the UCG platform on the motivation to study abroad, and their decision-making to study abroad among Chinese international students. The results confirmed that the persuasion of KOLs was significantly predicted by the usefulness and credibility of the information on the RED platform, and the persuasion of KOLs ultimately has a significant positive impact on the motivation and decision to study abroad The process of this research is also in line with the assumption of Action Theory that consumers will make the final decision by evaluating various information (Zhang, 2011).

This study helps relevant study abroad organizations to make more reasonable publicity of information about studying in Thailand on the UCG platform, attracting more Chinese students who intend to study in Thailand, understand the information about studying abroad, and make the decision to study abroad, which to a certain extent can promote the development of the study abroad industry in Thailand. Also, this study is not only limited to the concept of study abroad but also has a certain reference value for the consumer's purchasing behavior.

Recommendations for Future Application

1. KOLs must ensure the accuracy of their information in a number of ways. Currently, most of the KOLs that provide information about studying in Thailand were students who are currently studying in Thailand. They delivered their information through their own practical experience. In the process of delivering information, KOLs should avoid false propaganda, which may affect themselves and users who have not yet made the decision to study in Thailand.
2. KOLs should also pay attention to the needs of users. According to the survey, users who study in Thailand pay more attention to personal growth. The content produced by KOLs should also be based on this perspective, showing the study facilities and atmosphere in Thailand, and telling users about the impact of studying in Thailand on their personal growth, to attract a wider audience.
3. Before making the decision to study in Thailand, Chinese students themselves should also make their own deliberations and actively search for information while seeking help from traditional study abroad agents.
4. The findings show that motivation to study abroad has a significant positive effect on the final decision to study abroad. Chinese international students, it is important for them to be clear about their motivation to study in Thailand so that they can choose to study in a school that suits them.

Recommendations for Future Research

1. This research studied only Chinese international students studying in Thailand, the scope of the study is narrow, and in the process of future research, international students of different nationalities studying in different countries can be studied. In addition, the UGC platforms can be expanded by choosing platforms such as Douyin, Weibo, etc. to broaden the scope of the study.
2. The researcher chose only the quantitative research method. Whereas quantitative research is often conducted through one side, qualitative research

is equally important to obtain more students' insight and expectation based on the learner's perspective. Therefore, it is necessary to consider the qualitative aspect in the next study, and study from the international students themselves, and analyze the influence of KOLs on UGC platforms on international students' decision to study abroad through in-depth interviews, case studies and other methods

Limitations of the Study

This study analyzes the influence of KOLs on UGC platforms on Chinese international students' final decision to study in Thailand, which provides a new way of thinking to study the persuasion of KOLs on UGC platforms, but there are still the following limitations:

First, this research only examined Chinese students studying in Thailand. Compared to Europe and the United States, Thailand is clearly not the most important destination for Chinese students (Xu, 2015). The study should continue to expand the scope of research on Chinese students going to other countries such as Europe and the United States, to make the research conclusions more adequate.

Second, this research only studied RED, a UGC platform, and it is necessary to study more platforms, such as Weibo, Douyin, etc., which are preferred by Chinese students to collect information, to increase the reliability of the research conclusions.

Third, there are few KOLs who provide information about studying in Thailand on RED, which makes Chinese students tend to collect consistent information, and to some extent affects the validity of the study.

Abstract

This study examined the impact of media exposure and news credibility on trust in pro-Beijing media outlets during the 2019 Hong Kong protests. It analyzed media exposure and evaluated news credibility and trust in media based on past studies. Using regression analysis, this study identified the following key findings: 1) Media exposure to Wen Wei Po was a significant negative predictor of Hong Kong respondents' trust, mediated by perceived news credibility; however, news credibility itself was not a significant predictor. 2) Media exposure to Orange News was a significant negative predictor of Hong Kong respondents' trust, while news credibility had no significant effect. 3) Media exposure to HKG Pao was a significant negative predictor of Hong Kong respondents' trust, but news credibility did not have a statistically significant impact. These findings suggested that media exposure to pro-Beijing outlets may reduce trust regardless of perceived credibility, indicating that external factors might have played a more dominant role.

Keywords: Hong Kong Protest, Pro-Beijing Media, Media Exposure, News Credibility, Trust in Media

Introduction

This study examined the impact of media exposure and news credibility on trust in pro-Beijing media during the 2019 Hong Kong protests. Utilizing purposive and convenience sampling, a survey of 200 Hong Kong residents assessed the relationship between exposure to pro-Beijing media, perceptions of news credibility, and trust in media.

According to BBC News (2019) and Human Rights Watch (2019), Hong Kong had operated under the “One Country, Two Systems” framework since its handover to Chinese sovereignty in 1997, maintaining its distinct legal and social systems. However, the 2019 extradition bill amendment sparked widespread protests, exposing deep societal divisions in Hong Kong and attracting substantial international attention.

According to Dore (2023), the widespread availability of alternative narratives through social media and independent news outlets provided a counterbalance, allowing a more diverse range of perspectives to reach the public. The 2019 Hong Kong protests underscored the crucial role of media in democratic societies. In addition to informing the public, media also played a significant role in shaping the political agenda and influencing the trajectory of social movements (Khoo & Datta, 2023).

Existing studies have explored how media influenced trust, which shaped political and social behavior. Slater (2007) highlighted the reinforcing spirals perspective, focusing on the mutual influence of media selectivity and individual behavior. However, few studies had examined the role of pro-Beijing media in shaping public trust during the 2019 Hong Kong protests. Given Hong Kong's polarized media landscape, it remained unclear how exposure to pro-Beijing outlets affected trust, particularly in the context of contested narratives and credibility concerns.

This study examined how media exposure and credibility perceptions influence public trust in pro-Beijing media, offering insights into the interplay between media exposure, credibility, and trust in politically sensitive contexts.

Objectives

1. To examine the influence of exposure to pro-Beijing media outlets (Wen Wei Po, Orange News, and HKG Pao) on Hong Kong residents' trust in these media.
2. To investigate the impact of news credibility of pro-Beijing media outlets (Wen Wei Po, Orange News, and HKG Pao) on Hong Kong residents' trust in these media.

Concept theory framework

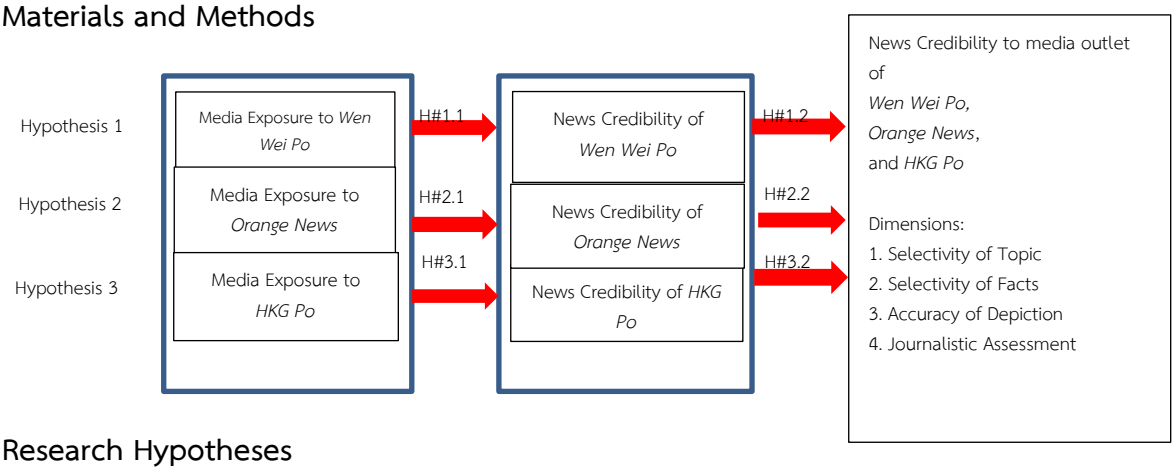
Literature Review

Media Exposure

According to Garramone and Atkin (1986), repeated exposure to media content can shape audience perceptions and behaviors. Donsbach (1991) discussed the impact of cognitive dissonance on readers' selectivity when exposed to political content in newspapers, contributing to the paradigm of weak media effects. Therefore, in Hong Kong repeated exposure to pro-Beijing media may reinforce selective perceptions, influencing how audiences process political events such as the 2019 protests. Furthermore, exposure to misinformation and fake news has been found to correlate with lower trust in media and public opinion, as reported by Ognyanova, Lazer, Robertson, and Wilson (2020).

Trust in Media

According to Mitchell, Gottfried, Kiley, and Matsa (2014), political ideologies play a significant role in shaping trust in the media, as demonstrated by their study on political polarization and media habits. Austin and Dong (1994) conducted an experiment to assess the effects of message type and source reputation on judgments of news believability. Their findings indicated that judgments of source truthfulness, expertise, bias, and personal perspective all contribute to perceptions of credibility. This is particularly relevant in Hong Kong's polarized media landscape, where trust in the media is influenced by perceived political alignment. Pro-Beijing media may face skepticism from audiences opposed to Chinese government influence, reinforcing trust disparities across media sources. Lee (2010) also emphasized the importance of credibility in explaining trust in media, highlighting the ongoing scholarly interest in this area.



Theory of News Credibility

According to Gaziano and McGrath (1986), news credibility is viewed as a multidimensional concept, encompassing factors such as accuracy, fairness, objectivity, and trustworthiness. They developed the News Credibility Scale, a 12-item survey that evaluates two key dimensions: credibility (measuring fairness, bias, and accuracy) and social concerns (assessing whether the media promotes public interest). This scale is particularly relevant for studying politically polarized environments like Hong Kong, as it captures key dimensions of credibility—fairness, bias, and accuracy—that influence public trust in media, where perceptions of bias and agenda-setting shape trust in media, making a multidimensional approach essential for understanding audience attitudes.

Pro-Beijing Media in 2019 Hong Kong Protest

According to Cook et al. (2022), Chinese-language media outlets based abroad, including those in Hong Kong, have faced increasing challenges due to escalating political repression in the region since 2019. Pro-Beijing media outlets have been criticized for their coverage of the protests and Hong Kong's political situation (U.S. Department of State, 2024). State control mechanisms and editorial policies in pro-Beijing media, particularly through selective framing of protest events and censorship of dissenting voices, may shape audience perceptions of credibility, reinforcing trust among pro-government individuals while diminishing it among opposition groups due to perceived bias. Additionally, Chinese state media and pro-Beijing private outlets play a crucial role in shaping political coverage in China, particularly on platforms like WeChat (Cook et al., 2022).

Materials and Methods

Research Hypotheses

Previous research suggested that both media exposure and news credibility contributed to trust in media, but their relative impact remained uncertain, particularly in polarized media environments. While exposure could increase familiarity and perceived reliability, credibility played a crucial role in shaping trust. This study does not formally assess mediation effects but acknowledges the potential role of these factors in shaping trust.

HP#1: Media exposure (IV) and news credibility (MV) of Wen Wei Po significantly influence trust in the news media (DV) of Wen Wei Po

HP#1.1: Media exposure (IV) of Wen Wei Po significantly influences trust in the news media (DV) of Wen Wei Po.

HP#1.2: News credibility (MV) of Wen Wei Po significantly influences trust in the news media (DV) of Wen Wei Po.

HP#2: Media exposure (IV) and news credibility (MV) of Orange News significantly influence trust in the news media (DV) of Orange News.

HP#2.1: Media exposure (IV) of Orange News significantly influences trust in the news media (DV) of Orange News.

HP#2.2: News credibility (MV) of Orange News significantly influences trust in the news media (DV) of Orange News.

HP#3: Media exposure (IV) and news credibility (MV) of HKG Pao significantly influence trust in the news media (DV) of HKG Pao.

HP#3.1: Media exposure (IV) of HKG Pao significantly influences trust in the news media (DV) of HKG Pao.

HP#3.2: News credibility (MV) of HKG Pao significantly influences trust in the news media (DV) of HKG Pao.

Research Methodology

Research Design

Given the purpose of this study, the questionnaire includes the News Credibility Scale developed by Gaziano and McGrath (1986) to measure key factors such as fairness, accuracy, bias, and trustworthiness in news media. Additionally, the Trust in News Media scale developed by Kohring and Matthes (2007) was included to measure trust levels in news media, evaluating dimensions such as Selectivity of Topics, Selectivity of Facts, Accuracy of Depictions, and Journalistic Assessment. For this study, the questionnaire was translated into Traditional Chinese to ensure accessibility for Hong Kong residents.

Population and Sampling Method

Given the scope of this study, the respondents were Hong Kong residents who experienced the 2019 protest and had regular exposure to pro-Beijing media. Both purposive sampling and convenience sampling are employed to select participants meeting the study's criteria while ensuring efficient recruitment. Purposive sampling targets individuals with relevant exposure, while convenience sampling leverages online platforms for broader reach. However, these methods may introduce self-selection bias, as individuals with strong opinions on pro-Beijing media may be more inclined to participate.

Research Instrument

Given the purpose of this study, the questionnaire consists of four sections: demographic information, frequency of media exposure to pro-Beijing outlets (15 interval scale questions), news credibility of pro-Beijing media (36 interval scale questions), and trust in pro-Beijing media (48 interval scale questions). News credibility was measured using Gaziano and McGrath's (1986) 12 dimensions, including fairness, accuracy, bias, and trustworthiness, on a 5-point Likert scale. Trust in news media was assessed based on Kohring and Matthes (2007), examining 4 dimensions: topic selectivity, fact selectivity, accuracy of depictions, and journalistic assessment, also using a 5-point Likert scale.

The instrument's reliability was confirmed with a Cronbach's alpha above 0.70. Media exposure had an alpha of 0.886, news credibility 0.813, and trust in media 0.807. Individual media outlets showed high internal consistency, with alpha values between

Data Collection

This study collected a total of 221 responses via online platforms, but only 200 were valid after applying the filter questions. A total of 21 responses were excluded as the respondents either did not live in Hong Kong during the 2019 protest or did not regularly consume news from pro-Beijing media outlets. The questionnaire was translated into Cantonese and then back translated into English.

Data analysis

The independent variable is media exposure to Wen Wei Po, Orange News, and HKG Pao, while the mediating variable is the perceived news credibility of these media outlets, and the dependent variable is trust in each respective media outlet. All variables were measured using a 5-point Likert scale. Regression analysis was applied to assess the influence of media exposure and news credibility on trust in Wen Wei Po, Orange News, and HKG Pao. Additionally, potential confounding factors, such as political attitudes and media literacy, are considered when interpreting the findings.

Results

Descriptive findings

The descriptive analysis showed that most respondents were male (29.00%, n = 58), followed by female (25.00%, n = 50), LGBTQ (23.50%, n = 47), and those keeping their gender confidential (22.50%, n = 45). The age distribution was 18 years old (28.00%, n = 56), 28–37 (25.00%, n = 50), 38–47 (25.00%, n = 50), and 18–27 (22.00%, n = 44), with no respondents aged 48 or above. Most had completed high school or vocational school (40.50%, n = 81), followed by graduate degree or above (19.50%, n = 39), college/university degree (14.50%, n = 29), middle school (14.00%, n = 28), and primary school or below (11.50%, n = 23).

Survey results highlighted respondents' access channels to Pro-Beijing media. For Wen Wei Po, most accessed via newspapers/magazines (51.00%, n = 102), followed by the internet (44.50%, n = 89) and television (4.50%, n = 9). Orange News was accessed online (48.50%, n = 97), then through newspapers/magazines (43.50%, n = 87) and television (8.00%, n = 16). Similarly, HKG Pao was primarily accessed via newspapers/magazines (47.50%, n = 95), closely followed by the internet (46.00%, n = 92) and television (6.50%, n = 13). Regarding credibility, most respondents were sometimes exposed to Wen Wei Po ($\bar{x}$ = 3.43, SD = 1.05).

In terms of specific platforms, most respondents were sometimes exposed to Wen Wei Po (Mean = 3.43, SD = 1.05), with the highest exposure on Weibo ($\bar{x}$ = 3.48, S.D. = 1.34), followed by Facebook ($\bar{x}$ = 3.43, S.D. = 1.25), the official website ($\bar{x}$ = 3.42, S.D. = 1.37), Instagram ($\bar{x}$ = 3.42, S.D. = 1.27), and YouTube ($\bar{x}$ = 3.38, S.D. = 1.28). For Orange News, most respondents were sometimes exposed (Mean = 3.41, SD = 1.05), with exposure highest on Facebook ($\bar{x}$ = 3.43, S.D. = 1.32), followed by YouTube ($\bar{x}$ = 3.42, S.D. = 1.27), Weibo ($\bar{x}$ = 3.41, S.D. = 1.35), the official website ($\bar{x}$ = 3.40, S.D. = 1.35), and Instagram ($\bar{x}$ = 3.39, S.D. = 1.32). For HKG Pao, most respondents were sometimes exposed (Mean = 3.35, SD = 1.05). In terms of specific platforms, exposure was highest on Weibo ($\bar{x}$ = 3.41, S.D. = 1.35) and YouTube ($\bar{x}$ = 3.41, S.D. = 1.36), followed by the official website ($\bar{x}$ = 3.35, S.D. = 1.26), Facebook ($\bar{x}$ = 3.29, S.D. = 1.31), and Instagram ($\bar{x}$

= 3.29, S.D. = 1.26).

The findings show that respondents perceived high credibility for Wen Wei Po in the following order: respecting/invading privacy ($\bar{x}$ = 3.48, S.D. = 1.34), watching/ignoring readers' interests ($\bar{x}$ = 3.57, S.D. = 1.16), unbiased/bias ($\bar{x}$ = 3.56, S.D. = 1.23), and accurate/inaccurate reporting ($\bar{x}$ = 3.56, S.D. = 1.18). For Orange News, the highest credibility was perceived for concern about public interest over profit ($\bar{x}$ = 3.67, S.D. = 1.23), followed by being factual over opinionated ($\bar{x}$ = 3.66, S.D. = 1.23), and trusted over untrusted ($\bar{x}$ = 3.63, S.D. = 1.22). For HKG Pao, the highest credibility was perceived for watching readers' interests ($\bar{x}$ = 3.68, S.D. = 1.23), followed by accurate reporting ($\bar{x}$ = 3.63, S.D. = 1.29), and concern for community well-being ($\bar{x}$ = 3.62, S.D. = 1.19).

Respondents had the highest trust in Wen Wei Po for selectivity of fact ($\bar{x}$ = 3.64, S.D. = 1.02), followed by selectivity of topic ($\bar{x}$ = 3.60, S.D. = 1.00), accuracy of depiction ($\bar{x}$ = 3.58, S.D. = 0.97), and journalistic assessment ($\bar{x}$ = 3.57, S.D. = 1.02). For Orange News, trust was highest in selectivity of fact ($\bar{x}$ = 3.65, S.D. = 1.04), followed by journalistic assessment ($\bar{x}$ = 3.63, S.D. = 0.98), accuracy of depiction ($\bar{x}$ = 3.62, S.D. = 0.99), and selectivity of topic ($\bar{x}$ = 3.61, S.D. = 0.99). For HKG Pao, trust was highest in journalistic assessment ($\bar{x}$ = 3.58, S.D. = 0.99), followed by accuracy of depiction ($\bar{x}$ = 3.56, S.D. = 0.99), selectivity of fact ($\bar{x}$ = 3.48, S.D. = 1.00), and selectivity of topic ($\bar{x}$ = 3.46, S.D. = 1.08).

Hypotheses Finding and Testing

Hypothesis 1: Media exposure and news credibility of Wen Wei Po significantly influence trust in the news media of Wen Wei Po

Hypothesis 1.1: Media exposure of Wen Wei Po significantly influences trust in the news media of Wen Wei Po

Hypothesis 1.2: News credibility of Wen Wei Po significantly influences trust in the news media of Wen Wei Po

As shown in Table 1, Model 1 Regression analysis revealed that media exposure did not significantly predict trust in Wen Wei Po (B = 0.052, Beta = 0.067, $p > 0.05$) when media exposure to Wen Wei Po was examined alone. The R^2 for Model 1 was 0.004, indicating that media exposure explains only 0.4% of the variance in trust in Wen Wei Po, suggesting that media exposure alone has no significant effect on trust in Wen Wei Po.

However, when both media exposure and news credibility were considered, the analysis revealed that media exposure was a significant negative predictor of trust in Wen Wei Po (B = -0.113, Beta = -0.178*, $p < 0.01$). On the other hand, news credibility had a positive influence on trust in Wen Wei Po, but it was not statistically significant at the conventional level (B = 0.107, Beta = 0.137, $p > 0.05$). The R^2 for Model 2 was 0.031, indicating that the inclusion of news credibility slightly improved the model's

explanatory power, explaining 3.1% of the variance in trust in Wen Wei Po.

The findings suggested that media exposure to Wen Wei Po was a significant negative predictor of trust, mediated by news credibility as perceived by Hong Kong respondents. However, news credibility itself did not significantly affect trust in Wen Wei Po, which suggests that trust might be shaped more by emotional responses or political alignment rather than traditional credibility metrics. Overall, Hypothesis 1 was partially supported: Hypothesis 1.1 was supported, but Hypothesis 1.2 was not.

Table 1: Summary of Regression Analysis on the Impact of Media Exposure and News Credibility on Respondents' Trust of News Media of Wen Wei Po

Model	Predictors	B	S.E.	Beta	Sig.t
1	Media exposure to Wen Wei Po	0.052	0.055	0.067	0.348
	Trust of Wen Wei Po (Dependent Variable), R^2 = 0.004, df= 1 ($p<0.01$), df1=1				
2	Media exposure to Wen Wei Po	-0.113	0.049	-0.178	0.021
	News Credibility of Wen Wei Po	0.107	0.059	0.137	0.074
	Trust of Wen Wei Po (Dependent Variable), R^2 = 0.031, df= 2 ($p<0.01$), df1=1				

Hypothesis 2: Media exposure and news credibility of Orange News significantly influence trust in the news media of Orange News.

Hypothesis 2.1: Media exposure of Orange News significantly influences trust in the news media of Orange News.

Hypothesis 2.2: News credibility of Orange News significantly influences trust in the news media of Orange News.

As shown in Table 2, Model 1 Regression analysis revealed that media exposure to Orange News significantly predicted trust in Orange News (B = -0.142, Beta = -0.223*, $p < 0.05$). The R^2 for Model 1 is 0.045, meaning that media exposure explains 4.5% of the variance in trust in Orange News. This indicated that media exposure had a significant negative effect on trust in Orange News.

However, in Model 2, when examined media exposure and news credibility, the analysis revealed that media exposure continues to be a significant negative predictor of trust in Orange News (B = -0.142, Beta = -0.224*, $p < 0.01$). However, news credibility has no significant impact on trust in Orange News (B = -0.008, Beta = -0.01, $p > 0.05$). The R^2 for Model 2 is 0.040, indicating that the inclusion of news credibility marginally reduces the explanatory power of the model, explaining 4.0% of the variance in trust in Orange News.

The findings suggested that media exposure to Orange News was a significant negative predictor of trust, while news credibility did not have a significant effect on respondents' trust in Orange News. Therefore, Hypothesis 2.1 was supported, but Hypothesis 2.2 was not supported.

Table 2: Summary of Regression Analysis on the Impact of Media Exposure and News Credibility on Respondents' Trust of News Media of Orange News

Model	Predictors	B	S.E.	Beta	Sig.t
1	Media exposure to Orange News	-0.142	0.044	-0.223	0.001***
	Trust of Orange News (Dependent Variable), R^2 = 0.045, df= 1 (p<0.01), df1=1				
2	Media exposure to Orange News	-0.142	0.044	-0.224	0.002**
	News Credibility of Orange News	-0.008	0.052	-0.01	0.884
	Trust of Orange News (Dependent Variable), R^2 = 0.040, df= 2 (p<0.06), df1=1				

Hypothesis 3: Media exposure and news credibility of HKG Pao significantly influence trust in the news media of HKG Pao.

Hypothesis 3.1: Media exposure of HKG Pao significantly influences rust in the news media of HKG Pao.

Hypothesis 3.2: News credibility of HKG Pao significantly influences trust in the news media of HKG Pao.

As shown in Table 3, Model 1 Regression analysis revealed that media exposure to HKG Pao significantly predicts trust in HKG Pao (B = -0.134, Beta = -0.225, $p < 0.05$). The R^2 for Model 1 is 0.050, meaning that media exposure explains 5.0% of the variance in trust in HKG Pao. This indicates that media exposure has a significant negative effect on trust in HKG Pao.

However, in Model 2, when examined media exposure and news credibility, the analysis revealed that media exposure remains a significant negative predictor of trust in HKG Pao (B = -0.147, Beta = -0.247*, $p < 0.01$). However, news credibility has a negative effect on trust in HKG Pao but is not statistically significant at the conventional level (B = -0.085, Beta = -0.121, $p > 0.05$). The R^2 for Model 2 is 0.065, indicating that the inclusion of news credibility slightly improves the explanatory power of the model, explaining 6.5% of the variance in trust in HKG Pao.

The findings suggested that media exposure to HKG Pao was a significant negative predictor of trust, but news credibility does not have a statistically significant impact on respondents' trust in HKG Pao. Therefore, Hypothesis 3.1 was supported, but Hypothesis 3.2 was not supported.

Table 3: Summary of Regression Analysis on the Impact of Media Exposure and News Credibility on Respondents' Trust of News Media of HKG Pao

Model	Predictors	B	S.E.	Beta	Sig.t
1	Media exposure to HKG Pao	-0.134	0.041	-0.225	0.001***
	Trust of HKG Pao (Dependent Variable), R^2 = 0.050, df= 1 (p<0.01), df1=1				
2	Media exposure to HKG Pao	-0.147	0.042	-0.247	0.001***
	News Credibility of HKG Pao	-0.085	0.049	-0.121	0.085
	Trust of HKG Pao (Dependent Variable), R^2 = 0.065, df= 2 (p<0.01), df1=1				

Conclusions and Discussion

This study aimed to explore the impact of media exposure and news credibility on the trust in pro-Beijing media outlets among Hong Kong residents, specifically focusing on the 2019 Hong Kong protests.

The findings indicated that exposure to Wen Wei Po, Orange News, and HKG Pao significantly and negatively influence trust in these outlets. Respondents with more frequent exposure consistently reported lower trust levels. However, news credibility did not significantly affect trust.

This unexpected result may be due to emotional and psychological factors, such as hope, anger, or fear (Gause, Moore & Ostfeld, 2023). In politically polarized contexts, such emotions may lead to resistance against trusting media that contradict personal beliefs, with heightened emotional engagement amplifying skepticism and diminishing the influence of news credibility on trust (Arguedas, Robertson, Fletcher & Nielsen, 2022).

Furthermore, political polarization exacerbates the issue by lowering the perceived credibility of all three pro-Beijing media outlets. This polarization may lead to reduced trust even among those frequently exposed to their content, highlighting the complex interplay between media exposure, credibility, and trust.

The Theory of Media Exposure emphasizes how repeated exposure to media content can shape audience perceptions and behaviors (Garramone & Atkin, 1986). In this case, the major influence of media exposure suggests that frequent encounters with pro-Beijing media reinforced existing perceptions, whether positive or negative. However, audience responses were shaped by preexisting attitudes, resulting in selective acceptance or rejection of media messages. Cognitive dissonance may lead individuals to distrust media that contradicts their beliefs (Donsbach, 1991), contributing to reducing trust. This aligns with reinforcing spirals theory, wherein individuals seek information that confirms their prior attitudes, exacerbating polarization.

The News Credibility Theory highlights the importance of accuracy, fairness, and objectivity in building audience trust (Gaziano & McGrath, 1986). However, the findings show that credibility alone did not significantly influence trust in pro-Beijing outlets during the 2019 Hong Kong protests. This suggested that, in politically charged environments, traditional measures of credibility may be overshadowed by audience's perceptions of political alignment. The results echoed findings from other studies in polarized contexts, where perceived ideological congruence often took precedence over objective credibility indicators (Arguedas, Robertson, Fletcher & Nielsen, 2022).

The Trust on the media underscores that audience's trust is influenced by broader contextual factors such as political alignment and ideological congruence (Tsfati & Ariely, 2013). During politically sensitive events, like the Hong Kong protests, audiences may prioritize perceived alignment over traditional notions of credibility. This finding raised questions about whether trust in media is becoming increasingly identity-driven rather than fact-based. Future studies should explore whether exposure to diverse perspectives could mitigate these effects.

In conclusion, the value of this research lies in showing that media exposure can significantly shape public trust, especially in politically sensitive contexts. The necessity for media outlets to consider audience perceptions beyond traditional credibility measures and for policymakers to advance media literacy initiatives fostering critical engagement with news sources was emphasized. These findings highlight the challenges of sustaining trust in the media amid growing polarization.

Recommendations for Future Application

Given the findings of this study, there are several practical recommendations for media practitioners and policymakers, and pro-government media. Media exposure and perceived credibility are key factors in shaping public trust, but they are not the sole determinants. For pro-government outlets, improving credibility or increasing exposure alone may not foster long-term trust. A broader approach is needed, focusing on democratic principles, respecting public opinion, and ensuring accountability. Addressing concerns about transparency and responsiveness will more effectively enhance trust. For instance, media outlets can adopt independent oversight bodies, collaborate with neutral third-party fact-checkers, and establish public feedback mechanisms to enhance transparency. Policymakers should recognize that trust is linked to the political environment, promote media literacy, and maintain a framework that upholds democratic values, ensuring open communication and responsiveness to citizens' needs. One practical step is integrating media literacy programs into Hong Kong's education system, equipping younger generations with critical thinking skills to assess media credibility.

Recommendations for Future Research

Future research should explore emotional responses and political polarization, which influence trust in media outlets and shape perceptions of credibility. Expanding the study to include media from both political sides would offer a broader understanding of how media exposure and emotional reactions impact trust in Hong Kong's polarized media during protests.

Longitudinal studies could track shifts in public perceptions over time. Additionally, qualitative methods, like interviews or content analysis, could uncover factors shaping trust, focusing on media content, framing, and emotional undertones. To enhance practical applicability, future studies could also examine how specific journalistic practices, such as fact-checking initiatives, audience engagement strategies, and interactive reporting, influence trust in the media. Research should also examine the influence of social media and user-generated content on trust in traditional media. A comparative study between traditional media and emerging digital platforms would provide insights into how different formats and communication styles affect public trust dynamics.

Limitations of the Study

This study offers several limitations. The sample size of 200 Hong Kong residents may not reflect the broader population's diversity due to time and resource constraints. The online survey may exclude those without internet access, affecting representativeness. Selection bias could arise, as respondents with strong opinions about pro-Beijing media might be more likely to participate. Political sensitivity may lead to biasing social desirability, with respondents withholding honest opinions. Additionally, media exposure and news credibility alone may not fully explain trust in the media. Future research should explore factors like political polarization, emotional responses, and social identity. Lastly, the focus on three pro-Beijing outlets limits the scope, as other media sources could also influence public trust and perceptions of credibility.

Thai Omnivores' Motivation and Barrier of Plant-based Food Consumption

Papaporn Phongpiyawit[1*]

[1]Lecturer, Department of Digital Marketing, Faculty of Business Administration, Bangkok University.
[*]**Corresponding author, E-mail:** Papaporn.p@bu.ac.th

Abstract

This study investigates Thai omnivores' motivations and barriers to consuming plant-based food. Based on in-depth interviews with 10 Thai omnivores aged 20 to 55 who consume plant-based food occasionally or frequently—ranging from 9 to 150 days per year—this qualitative study finds that the primary motives for plant-based food consumption among Thai omnivores are subjective norms and Buddhist religious beliefs. Health consciousness ranks as the third most common motive, whereas concerns for animal welfare and environmental impact are less influential. These findings highlight the significant role of cultural perspectives in shaping plant-based food consumption in Thailand. Therefore, marketers of plant-based food may need to design promotional strategies that align with these key motivations to encourage greater adoption of plant-based diets. Conversely, subjective norms serve not only as a motivation but also as a barrier to more frequent plant-based food consumption among Thai omnivores. Another major barrier is perceived behavioral control, specifically the limited availability of plant-based food options in the Thai market. To address these challenges and promote plant-based food consumption, restaurants could introduce more vegan and vegetarian-friendly menu options, making it easier for consumers to choose plant-based meals even when dining with others who consume animal products.

Keywords: Plant-Based Food, Thai Omnivores, Subjective Norms, Religion Belief, Perceived Behavioral Control

Introduction

The former studies related to plant-based food's motivations and barriers were mostly arranged in Western countries where plant-based food's trend has increased significantly in the recent years due to the fact that it is believed to improve animal welfare, environment and human health (Aschemann-Witzel & Schulze, 2023; Bryant & Sanctorum, 2021; Denver, Nordstrom & Christensen, 2023.) However, these is fewer studies about plant-based food's motivation and barrier arranged in Southeast Asian countries where plant-based food's trend has not been as much as popular compared to the Western Countries (i.e., European, or North American countries) (World Population Review,

2024.) Phongpiyawit (2022) found that there might be more barriers in plant-based food consumption in Southeast Asian countries compared to European countries such as perceived behavioral control (i.e., convenience and market availability.) However, Thailand, one of Asian countries, seems to have a number of omnivores who are interested in consuming plant-based food these days, especially during Vegetarian Festival in October for cultural and religious things (Thailand Now, 2024.) Therefore, to investigate the motivations and barriers of Thai omnivores that are unique and different to Western countries, this research will do qualitative research by utilizing 10 in-depth interviews to predict the future of plant-based food market and find the ways to increase plant-based food consumption in this country.

Objectives

There are five objectives that this research intends to study and find the answers as listed below:

1. To investigate the top motives of Thai omnivores when they choose to consume plant-based food.
2. To investigate the main barriers of Thai omnivores for the reasons why they cannot consume plant-based food more often.
3. To investigate Thai omnivores' attitude towards meat-like food.
4. To find the relationship between organic food & plant-based food choices chosen by Thai omnivores.

Concept theory framework

Omnivores' motivation for plant-based food consumption

There are top three motives among consumers who choose plant-based food over animal products which include animal welfare, environment, and health consciousness (Aschemann-Witzel & Schulze, 2023; Bryant & Sanctorum, 2021; Denver et al., 2023; Phongpiyawit, 2022.) Firstly, regarding animal welfare, 90% of meat is produced from factory farms that treat animals poorly and cruelly in small cages (Bryant & Sanctorum, 2021.) So, shifting from consuming animal products to plant-based food products will help to decrease cruelty on animals. Secondly, regarding the environmental aspect, the farming industry significantly increases deforestation for more farming spaces and animal food (Bryant & Sanctorum, 2021.) Moreover, meat production process is one of the reasons that cause greenhouse gas emission that causes global warming (Aschemann-Witzel & Schulze, 2023; Denver et al., 2023.) Therefore, consuming less animal products and more plant-based food will slow down the greenhouse effect and global warming. Thirdly, regarding the human health aspect, as confirmed by EAT Lancet Commission, plant-based food is

believed to be healthier than animal products (Afshin et al., 2019, as cited in Perez-Cueto et al., 2022; Willett et al., 2019, as cited in Denver et al., 2023.) Moreover, among omnivore consumers, Phongpiyawit (2022) & Sheen, Lim & Forde (2023) found that health consciousness plays the most vital role in omnivores' motivation to consume plant-based food.

Omnivores' barrier for plant-based food consumption

Although some vegans and vegetarians who used to be omnivores faced some obstacles to consuming more plant-based food at the beginning, they have conquered those barriers and turned themselves into frequent plant-based food consumers. Conversely, omnivores who have not planned to be vegans or vegetarians seem to have several concerns to consume more plant-based food including attachment to meat's deliciousness and sensations (Giacalone, Clausen & Jaegeret, 2022; Perez-Cueto et al., 2022), fear of insufficient nutrients, perceived behavioral control in terms of convenience (i.e., limited market availability of plant-based food choices) (Perez-Cueto et al., 2022.), subjective norms (i.e., family members and friends who are omnivores might not include them is social activities) (Daly, 2020 & Mylan, 2018, as cited in White, Ballantine & Ozanne, 2022) & financial concern (i.e., more expensive cost of plant-based food compared to general omnivore's food) (Denver et al., 2023; Feher, Gazdecki, Veha, Szakaly & Szakaly, 2020; Ho, 2021, as cited in The Vegan Society, 2024.)

Alternative meat-like food

As some omnivores are addicted to real meat's deliciousness and sensations which makes it hard for them to consume plant-based food more often, meat-like food that is produced from plant might help to increase their plant-based food consumption if it is tasty, convenient and affordable in terms of price (Bryant & Sanctorum, 2021; Denver et al., 2023; Giacalone et al., 2022.)

Linkage between organic food and plant-based food consumption

Interestingly, Denver et al. (2023) found that omnivores who consume organic food tend to consume less meat and more plant-based food than omnivores who are not associated with organic food. This represents that omnivores who are conscious about their healthy lifestyles, environment or animal welfare tend to carefully choose organic and plant-based food more than omnivores who are not conscious about them. Also, the more they consume organic food, the more cheerful outlook towards plant-based food (Denver et al., 2023.)

Thai people who consume plant-based food

According to World Population Review (2024), only 3.6% of Thai people are vegans or vegetarians. Although the country seems to have small group of frequent plant-based food consumers, there is an annual festival called "Vegetarian Festival" that significantly

raises the number of Thai plant-based food consumers during every October (Thailand Now, 2024.) Therefore, Thai omnivores who sometimes or often consume plant-based food have the potential to uplift the quantity of plant-based food consumption in this country.

Materials and Methods

Design and Setting

Consumer attitude or behavior towards plant-based food is a reality that can always be changed and affected by external factors. As this is a socially constructed thing, this study follows constructionism (Bell et al., 2019.) In congruent with constructionism (Bell et al., 2019), this study intends to investigate and understand more about consumer insights including motivation and barrier towards plant-based food consumption. So, this study utilizes qualitative research methods. Additionally, in-depth interviews are utilized because this study has the main purpose to understand consumers' motivation and barrier deeply by allowing them to explain about their experiences and feelings without being motivated or disturbed by others (McDaniel & Gates, 2018.) The discussion guide for semi-structured interviews is prepared by the researcher, who is also the interviewer, for interviewing each participant in congruent with the main research questions of this study. Non-probability sampling is the method for participant recruitment including 3 sampling techniques. Firstly, Purposive Sampling, participants are specifically chosen based on their dietary habits, which are omnivores who consume plant-based food often or sometimes. Secondly, Convenience Sampling, the researcher of this study, asks her colleagues and students for their dietary habits and willingness to participate in this study. Thirdly, Snowball Sampling, some participants are asked to recommend other suitable participants to join this study. However, before selecting each participant, s/he is asked by screening questions as listed below:

A. Do you consume plant-based food at least 9 days per year? How often?
B. What are the occasions that you consume plant-based food?
C. How old are you?
D. May I ask about your educational background?
E. (If s/he is a target participant) Are you willing to be my research participant for plant-based food motivation and barrier study?

Participant Information Sheet and Consent Form are shared for participant's perusal to sign before joining an in-depth interview of this study.

Data Collection

The target participants are Thai omnivores who consume plant-based food at least 9 days per year but not more than 150 days per year. They are selected as research

participants because they can indicate major barriers of plant-based food's frequent consumption in Thailand, although they have some motives to consume it sometimes or often. Their age ranges are from 20 to 55 years old (Generation Z, Y and X). Their educational backgrounds are from a current bachelor's degree student to a person with doctoral graduation. The reason why these age ranges and educational background are chosen is because they are expected to be able to explain their thoughts well with some reasons supported. There are 10 participants included in this study for in-depth interviews, including 5 consumers who consume plant-based food during the Vegetarian Festival or meditation retreat camp and another 5 consumers who consume plant-based food on the day that they choose to consume by themselves e.g., on every Monday and Tuesday or on every Buddhist Holy day. Each participant is being interviewed about 30 minutes by the researcher. In addition, as this study collects data directly from participants, the researcher follows the guidelines of Bangkok University's Ethics Committee to protect participants from any negative effect caused by this study, which is reviewed and approved.

Table1: Participant Synopsis

Participant	Plant-based food consumption's occasion	Approx. days per year of plant-based food consumption	Birth Gender	Age	Educational Background
1	Fixed 3 days per week and during Vegetarian Festival	150 days	Female	48	Master's degree
2	4 days per month (on every Buddhist Holy day) and during Vegetarian Festival	55 days	Female	46	Doctoral Degree
3	A fixed day per week and during Vegetarian Festival	55 days	Female	35	Master's degree
4	5 days per month chosen by herself	60 days	Female	20	Current bachelor's degree Student
5	1 day per month chosen by himself	12 days	Male	43	Master's degree

Participant	Plant-based food consumption's occasion	Approx. days per year of plant-based food consumption	Birth Gender	Age	Educational Background
6	During Meditation Retreat Camp	30 days	Female	55	Doctoral Degree
7	During Vegetarian Festival	9 days	Female	52	Bachelor's degree
8	During Vegetarian Festival	9 days	Female	21	Current bachelor's degree Student
9	During Vegetarian Festival	9 days	Male	37	Master's degree
10	During Vegetarian Festival	14 days	Male	20	Current bachelor's degree Student

Data Analysis

10 in-depth interviews are recorded and then transcribed. Subsequently, the researcher utilizes "Thematic Analysis" to indicate, analyze and categorize the most mentioned points from interviews into the different themes (Braun & Clarke, 2006, as cited in Castleberry & Nolen, 2018.) However, the themes are not only generated by selecting the most popular points mentioned in the interviews but also produced by choosing the data's considerable meaning (Lochmiller, 2021) contributed to the research objectives.

Results

By applying Thematic Analysis, there are 4 themes found from 10 in-depth interviews of Thai omnivores who often or sometimes consume plant-based food as listed below:

Findings of Theme 1: The top motives of Thai omnivores who often or sometimes consume plant-based food seem to be significantly related to religion's belief and subjective norms. While health consciousness is the third popular motive for plant-based food consumption among Thai omnivores.

Most Thai omnivores who consume plant-based food during Vegetarian Festival start from following their family's belief and practice. This represents the strong effect of subjective norms on plant-based food consumption. This might be because Thai culture

is collectivism (The Culture Factor Group, 2025) that people tend to follow what their tribes, families or social circles do.

“I consume plant-based food during Vegetarian Festival since I was a child. This is because my family does it every year. So, I feel like it is a cultural heritage to execute.”

While the others who consume plant-based food in other occasions like Meditation Retreat Camp, every Buddhist Holy day or a fixed day per week have mentioned about “making merit,” which is linked to Buddhist’s religion belief. This might be because Thai people have grown up with Buddhist teaching since their childhood that has taught them to do good things and refrain from doing dreadful things (BBC, 2025.) Moreover, there is also a belief about karma that can affect each person’s fate (The Buddhist Centre, 2025.) So, to consume plant-based food instead of animal products sometimes make them feel like they have done good things (i.e., by not eating/ supporting food producers to kill animals for food) that will consequently make their own lives better because of good karma.

> “I choose to consume plant-based food a day per week because I want to uplift my fate. It began since the year that the fortune teller told me that this year would not be so good. So, I find the way to do good thing to uplift my fate.”

Only a few of respondents have mentioned animal welfare or the environment. While health consciousness is the third popular motive among Thai omnivores who consume plant-based food as they mention about “body detox” when stop consuming animal products temporarily.

“It is a good chance to do body detox when I sometimes consume plant-based food.”

Findings of Theme 2: While subjective norms play a vital role as one of the top motives for plant-based food consumption among Thai omnivores, it also plays a role as a barrier to consume it more often. Perceived behavioral control (i.e., market availability and convenience) also plays significant role as the major barrier for more frequent plant-based food consumption among Thai omnivores.

It is obvious that subjective norms affect consumer behavior on food selection significantly, especially among people in collectivist country like Thailand. Thai omnivores consume plant-based food during Vegetarian Festival because their families have done so. Additionally, some respondents who consume plant-based food every week start to do so because they are influenced by their friends who do it and convince them to do so.

“I consume plant-based food on every Thursday, which is my birthday. The beginning is that I have heard from my friend that she does it. So, I want to try too.”

On the other hand, in other occasions, it is hard for Thai omnivores to consume plant-based food because they are fear of social rejection. It is hard for them to have a meal with families and friends if they are the only person in the group who consumes plant-based food, while the others consume animal products.

"I try not to go out with my social circle on the day that I intend to consume plant-based food because it is hard to have a meal with them when the others consume animal products."

> "I try not to consume plant-based food on weekend because it is a family day that I need to have meals with them, and it is hard for me to consume plant-based food when all my family members consume animal products."

In addition, perceived behavioral control is also one of major barriers among Thai omnivores to consume more plant-based food because there are limited choices of plant-based food available in general restaurants and fresh markets, which make their lives harder if they consume plant-based food more often.

"In my workplace's food center, there is no plant-based food available. Also, there is no plant-based food available in the fresh market too. The only place that is convenient for me to buy plant-based food's meal is a convenience store, but those few choices are all frozen foods that are not appetizing."

Findings of Theme 3: Meat-like food is rejected by Thai omnivores. Although they often or sometimes consume plant-based food, they choose real plant ingredients over meat-like food because they do not like its taste and appearance.

When asking about meat-like food, most participants show an obvious negative attitude towards it because they do not like its taste and appearance. They think that consuming meat-like foods feels like eating flour" and they do not see any benefit for consuming this artificial meat instead of real meat.

Findings of Theme 4: Organic food seems not to be much related to plant-based food choices among Thai omnivores. This might be because environmental and animal welfare are not the prime motives here. In addition, organic food seems not to be much popular among Thai omnivores because of higher price compared to general food. Conversely, organic food sounds like a more premium food among upper-middle class and upper-class people.

There is no relationship between plant-based and organic food selection found in this study. Respondents perceive organic food as a premium food based on its higher price. Although organic food seems not to be related to plant-based food's selection, it is related to socioeconomic status because respondents who do not choose organic food

have mentioned about their concern of its higher price. Therefore, organic food is better captured the target consumers in upper-middle class and upper-class; SES B+ and A.
"I choose normal food products over organic food products because organic food is more expensive. I might buy organic food if it is on sale."

Conclusions and Discussion

This study explores Thai omnivores who frequently or occasionally consumes plant-based food through 10 in-depth interviews. The data are analyzed using Thematic Analysis, resulting in four key themes: motivations and barriers to plant-based food consumption, attitudes toward meat-like alternatives, and the relationship between plant-based and organic food choices.

One significant finding highlights the role of cultural and religious influences, particularly Buddhism, in shaping motivations for plant-based food consumption. Given this strong cultural connection, marketing strategies could leverage Buddhist values to encourage greater consumption of plant-based food beyond the annual Vegetarian Festival. For instance, plant-based food producers and restaurants could promote consumption on Buddhist holy days—approximately four times per month—by emphasizing the spiritual benefits of temporarily abstaining from consuming animal products.

Additionally, subjective norms play a crucial role in influencing consumer behavior, particularly in Thailand's collectivist society. To harness this, marketing campaigns could incorporate both online and offline word-of-mouth strategies. An example includes social media contests where consumers share their motivations and favorite plant-based dishes, with rewards provided by plant-based food businesses. This approach could enhance awareness, foster engagement, and increase the adoption of plant-based diets among Thai omnivores.

In terms of barriers towards plant-based food consumption among Thai omnivores, subjective norms and perceived behavioral control play the most important roles. As there are not many choices for plant-based food dishes in normal restaurants in Thailand. It is a market opportunity for the restaurants that have offered both animal products and plant-based food within the same places. This can be a marketing promotion/communication that this restaurant offers not only animal products, but also vegan and vegetarian dishes. This helps to conquer the top 2 barriers of Thai omnivores who prefer to consume plant-based food. Firstly, they can find the food to consume easier (i.e., to conquer perceived behavioral control as a barrier to consuming plant-based food.) Secondly, groups of friends and families who have various preferences in food (i.e., animal

products and plant-based food products) can have a fun time together within the same restaurants (i.e., conquer subjective norms as a barrier to consuming plant-based food.)

For market opportunity of meat-like food among Thai omnivores, it seems like Thai omnivores are not the target consumers of meat-like food. This is because they can choose between meat-like food and real meat that is tastier and cheaper. The future study might ask the same questions to Thai vegans or Thai vegetarians, who are not able to consume real meat according to their dietary groups, about their opinions and attitude towards meat-like food, which might be different to Thai omnivores.

Lastly, this study finds that there is no relationship between plant-based food and organic food's selection among Thai omnivores. This might be because the similar unique selling points of the 2 types of food are animal welfare, environmental concern, and health consciousness, but they are not perceived as important motives among Thai omnivores. Therefore, it is better to study about organic food's motives among Thai consumers separately to have a clearer picture of organic food in Thai consumer's eyes.

Recommendation for future research

To do quantitative research among Thai omnivores with the comparable questions to this study.

This study has done only qualitative research to deeply understand Thai omnivores' motivation and barrier towards plant-based and meat-like food. However, the number of participants who have been interviewed is only 10. Therefore, it will be beneficial if the future study will do qualitative with the comparable topics to this study to confirm the opinions of Thai omnivores who often or sometimes consume plant-based food towards the vegan food.

To study Thai vegans and Thai vegetarians' motivation and attitude towards plant-based food and meat-like food.

This study about plant-based food in Thailand has focused on Thai omnivores who often or sometimes consume plant-based food because the researcher believes that the barriers of plant-based food consumption would be clearly identified among this group who do not consume plant-based food every day. On the other hand, to study Thai vegans or Thai vegetarians might not much help to stress on major barriers of plant-based food consumption because they can conquer them to frequently consume plant-based food. However, it will be beneficial for plant-based food knowledge in Thai market if the future research will study Thai vegans and Thai vegetarians' motivation and attitude towards plant-based food and meat-like food. Although the number of Thai vegans and Thai vegetarians are smaller than Thai omnivores who sometimes or often consume plant-based food, their frequent plant-based food consumption might help to contribute to Thai

plant-based food market. In addition, while Thai omnivores have found to mostly reject meat-like food and absolutely prefer real meat to meat-like food, it might be a different attitude of Thai vegans and Thai vegetarians who cannot choose to consume real meat according to their dietary groups.

The Influence of Exposure to Social Media on Mental Health and Well-being among Nepalese Young Adults

Swopnil Shrestha[1*] and Pacharaporn Kesaprakorn[2]

[1]Graduate Student, School of Communication Arts, Bangkok University.
[2]Associate Prof. Dr., School of Communication Arts, Bangkok University.

Abstract

This study examined the influence of exposure to social media on the mental well-being among Nepalese young adults, as mediated by attitudes toward its positive and negative impacts. A total of 200 respondents aged 18–25 years were selected through purposive and convenience sampling. Regression analysis revealed two key findings. First, social media exposure alone did not significantly predict mental well-being. However, when attitudes toward the negative impacts of social media were considered, YouTube exposure was a significant negative predictor, while Twitter exposure positively influenced mental well-being. Second, when mediated by attitudes toward the positive impact of social media, YouTube exposure again showed a negative association with mental well-being, whereas the positive perception of information-sharing needs significantly improved mental health outcomes, although the predictive power was low (R^2 = 0.172). These findings highlighted the platform-specific risks and benefits of social media use among Nepalese youth. Limitations include cross-sectional design, cultural specificity, and reliance on self-reported data. Future interventions should focus on digital literacy and promoting positive engagement with social media to support youth mental health.

Keywords: Media Exposure to Social Media, Nepalese Youth, Positive Impact and Negative Impacts of Social Media, Mental Wellbeing

Introduction

Social media exposure creates both optimistic connections between young adults alongside adverse psychological effects that affect global adolescent mental health. Existing research on anxiety and depression concerns alongside social comparison problems came from Western societies (Stroud et al., 2015), limited research was examined about their effects in Nepal. Nepalese young adults' culture depends heavily on social media tools such as Facebook, TikTok, and Instagram since these platforms have reached 77% of the population while preserving their traditional heritage and modern digital behavior. Analysis requires attention because cyberbullying issues, along with

unrealistic beauty norms and mental health discrimination, need focus. Social media uses together with appraisal of beneficial and detrimental aspects affecting Nepalese adolescent mental health according to Social Comparison Theory (Festinger, 1954), Social Identity Theory (Tajfel & Turner, 1979), and Media Effects Theory (Valkenburg & Oliver, 2019). Social Comparison Theory, Social Identity Theory, and Media Effects Theory collectively explain how exposure to social media influences mental well-being by shaping how adolescents perceive themselves in relation to others, form their identity, and react to media content. These perceptions, whether positive or negative, impact their attitudes toward social media, which in turn mediate the effects of social media on their mental health. Social media platforms facilitate better community bonds while they amplify feelings of being insufficient and disconnected from others. There is a lack of research that applies universal conclusions to Nepal's distinct socio-cultural characteristics. Research addresses an important omission by studying how Nepalese young adults connect with social media and their resulting mental health conditions. The research seeks to develop culturally compatible interventions and digital literacy programs as well as advance knowledge about adolescent digital well-being in modern times.

Objectives

The research aimed to investigate how exposure to social media influences Nepalese young adults' mental health while determining their overall well-being.

1. To examine the influence of media exposure to social media on the mental well-being of Nepalese young adults as mediated by their attitudes toward the positive impacts of social media.
2. To examine the influence of media exposure to social media on the mental well-being of Nepalese young adults as mediated by their attitudes toward the negative impacts of social media.

Literature Review

Research has intensively examined how social media changes adolescent mental health conditions because of the fast-expanding social media adoption among teenagers. The analysis of Nepalese adolescent attitudes toward social media impacts depends on Social Comparison Theory with Social Identity Theory and Media Effects Theory as a foundational theoretical backup to explain behavioral and mental health effects. The evaluation process, according to Social Comparison Theory (Festinger, 1954), involves people assessing themselves through evaluations of others' lives. Social media sites such as Facebook and Instagram present carefully selected and perfect representations of lives, which result in adolescent users making comparisons that lead them upwards in ranking.

Social media comparisons create feelings of inadequacy and anxiety and deterioration of self-esteem, according to Chadee (2022). Young Nepalese adults who are rampantly engaging with global platforms become more psychologically vulnerable because they encounter unattainable lifestyle standards along with unrealistically achieved goals that especially affect young people from lower economic backgrounds.

The self-concept develops through group membership according to Social Identity Theory, which Tajfel and Turner introduced in 1979. The online world allows young adults to join multiple communities where they share mutual interests, values, and goals. Students construct digital identities through online platforms, which produce either increased confidence or worsen their feelings of social inferiority depending on their experiences with acceptance or online mistreatment. The involvement in supportive social media communities minimizes stress while strengthening personal resilience (Stevens et al., 2021), although this advantage becomes established through mindful social media use. The research model presented by Media Effects Theory (Valkenburg & Oliver, 2019) shows how media exposure modifies human behavioral responses. The mental health results of young adults emerge from their media exposure (either positive or negative content) together with their specific usage behaviors. Positive interactions on the internet, which include engaging in mental health advocacy and educational knowledge retrieval, lead to emotional support, but negative content such as cyberbullying and unattainable standards increases mental health risks (Barroso-Corroto et al., 2023).

Several past studies confirmed the negative impact on social media usage on young adults' anxiety and depression. Research conducted in Nepal by Adhikari and Pandey (2020) demonstrated that regular social media usage caused university students to develop anxiety and depression symptoms because they encountered negative content and excessive screening practices between themselves and others. International academic research also demonstrates these results. Huang's (2017) also found that passive social media browsing leads to increased depressive symptoms among American young adults.

On the other hand, the act of involving oneself in supportive online communities has shown a positive link to better emotional resilience (Best et al., 2014). Social media produces positive effects when teenagers use it as an information source along with building social relationships while receiving confirmation for their actions. Nepalese young adults use Facebook groups to access academic resources, maintain community bonds, and conduct social activism, which helps them feel more purposeful and part of a social group. Users experience negative attitudes that form during cyberbullying situations and social exclusion events as well as through unachievable beauty standards and financial success images. Mental health outcomes heavily depend on the way positive and negative digital communication experiences with social media interact with each other. This study

extends current theoretical and empirical work by studying how Nepalese young adults interact with social media content, which forms their assessments of its effects, while their attitude acts as a connection between social media contact and mental wellness. The research integrates findings from both local and global research studies to examine the dual effects of social media on Nepalese adolescent mental health in a culturally relevant setting, thus filling a knowledge gap in this field.

Hypotheses

H1: Media exposure to social media is a significant predictor of Nepalese respondents' mental well-being as mediated by their attitude toward the negative impact of social media.

H2: Media exposure to social media is a significant predictor of Nepalese respondents' mental well-being as mediated by the attitude toward the positive impact of social media.

Concept Theory Framework

This conceptual framework highlights the impact of exposure to social media on the young Nepalese adults' mental well-being as mediated by their attitude toward the negative impact and the positive impact of social media. The study underscores the psychological gratifications that young social media users seek and obtain, and how these gratifications, in turn, affect their mental health.

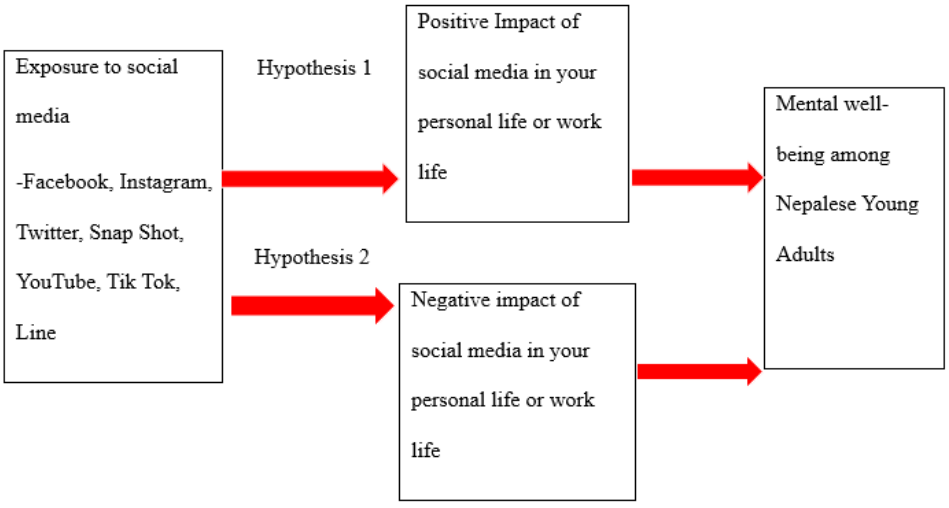

Figure 1: Conceptual framework

Research Methodology

Research Design

The study adopted a quantitative survey approach to analyze the effects of young adults' social media interaction and their perceptions about social media benefits and risks on their psychological status. Professional questionnaires served as the data collection method for youths within the age range of 18–25 years old in Nepal. The design structure enabled researchers to conduct statistical tests that produced recommendations to enhance young adults' mental health.

Population and Sampling Methods

The Nepalese young adults aged 18–25 years who maintained social media usage for one year or more constituted the study population. The increasing digital connectivity in Nepal has established Facebook (60.93%), TikTok and Instagram (14.14%), and YouTube (0.87%) as essential components of young adults' culture (Stroud et al., 2015). The researcher used purposive along with convenience sampling methods. By using purposive sampling, the researcher selected participants with certain requirements (age and social media experience), and by employing convenience sampling, they successfully recruited participants through online methods. Given its convenient nature, the sampling process might produce biased results that reduce the transferability of study findings. The surveyed group consisted of two hundred subjects who resided in urban and rural communities to obtain diverse insights from Nepalese youth.

Research Instrument

This research employed a survey composing four sections. Section I (seven questions) asked about demographic factors of young Nepalese adults, including gender, age, educational background, personal income per month, location of residence, hours spent on social media per day, types of content usually engage in social media, using nominal-and-ordinal questions. In addition, Section I also asked about the media exposure to various social media in the past one- year period, including Facebook, Instagram, Tweeter, Line, Snapchat, YouTube, and others, using 5-point Likert scale, arranging from 1-Never, 2-Rarely 1-2 times per week, 3-Sometimes (4-5 times per week).

Section II inquired about attitude toward the negative impact of social media measuring general anxiety disorder among young Nepalese adults. This section used the General Anxiety Disorder scale adopted from Chadee (2022), having seven questions, with 4-point Likert scale, arranging from 0-Not at all, 1-Several days, 2-More than half the day, or 3 Everyday.

Section III probed the attitude toward the positive impact of social media, adopted from Barroso-Corroto et al., (2023), having 20 questions using 5-point Likert scale, arranging from 1-Strongly agree, 2-Agree, 3-Neutral, 4- Agree, 5-Strongly agree. The scale for

measuring the positive impact of social media has three constructs, including information need importance, entertainment need importance, personal need importance, and social need importance. Higher scores on "positive attitudes" reflected favorable perceptions, while higher scores on "negative attitudes" reflected stronger perceptions of harm.

Finally, Section IV gauged the mental well-being of respondents, adopted from the Mental Well-Being scale in Liu & Zhang (2019), Liu et al. (2016), and Przbylski et al. (2013). The scale comprises anxiety, depression, self-confidence, and social comparison. The questionnaire was dependable because each section was higher than 0.70. The scale for measuring exposure to social media had Cronbach alpha of 0.90, attitude toward the negative impact of social media had Cronbach alpha of 0.81, attitude toward the positive impact of social media had Cronbach alpha of 0.75, and mental well-being got 0.71, respectively. The independent variable was exposure to social media, and the dependent variable was the mental well-being. Finally, the mediating variable was attitude toward the negative impact of social media and attitude toward the positive impact of social media.

Data Analysis and Rationale for Regression Models

The research applied Multiple Regression analysis for assessing the different predictive associations between variables. Multiple regression analysis provided an appropriate approach to evaluate the combined media exposure effects with attitudes on mental health alongside exploring the intervening impact of both positive and negative attitudes. Regression modeling seemed appropriate to analyze complex sequential relations because it follows Baron and Kenny's (1986) criteria for mediation analysis. The research presented beta weights along with R-squared values and statistical significance to determine both model accuracy and variable predictive power.

Results

Descriptive Findings

The study examined the impact of social media on the mental well-being of Nepalese youth, with a sample of 200 participants. The majority of participants were male (64.5%, n = 129), followed by females (30%, n = 60), and LGBTQ+ individuals (5.5%, n =11) Most participants (84.5%, n = 169) lived in rural areas, highlighting different social media usage patterns influenced by access to technology. Occupationally, 56.5% (n = 113) were students or unemployed, with other groups including business professionals (16%, n = 32) and farmers (9.5%, n = 19). Income was in lower to middle ranges, with 48% (n = 96) earnings between NPR 20,201 and NPR 40,400. Social media use was significant, with 47.5% (n = 95) spending 3-4 hours daily and 37% (n = 74) spending more than 4 hours.

Most respondents reported that they sometimes exposed to social media per week ($\bar{x}$ = 3.35, SD = 0.62). YouTube and Facebook were the most frequently accessed platforms, followed by Instagram, while Snapchat, TikTok, and Line were less frequently used. Regarding the positive impact of social media, respondents ranked it at a medium level ($\bar{x}$ = 3.32, SD = 0.59). When examining each dimension, the results revealed that majority of the respondents ranked social need importance ($\bar{x}$ = 3.69, SD = 81) in the medium level having the highest mean, followed by entertainment need importance ($\bar{x}$ = 3.88, SD = 0.64) , information need importance ($\bar{x}$ = 2.94, SD = 0.92), and personal need importance ($\bar{x}$ = 2.72, SD = 0.98), respectively.

The negative impact of social media on anxiety was perceived as minimal, with low scores for symptoms like nervousness and trouble relaxing ($\bar{x}$ = 1.17–1.20). Most respondents reported medium mental well-being ($\bar{x}$ = 2.88, SD = 0.35), with higher rankings for statements about life satisfaction and finding beauty in things, suggesting a moderate sense of well-being.

Inferential Findings

In line with Social Comparison Theory and Media Effects Theory, the study hypothesized that exposure to social media would influence mental well-being, mediated by attitudes toward its positive and negative impacts. Regression analysis was conducted to assess these theoretical relationships. Two models examined how social media exposure, content type, and engagement patterns influenced anxiety symptoms and psychological health. The three predictors of mental well-being were analyzed using R-squared values, significance levels, and regression coefficients to determine their impact.

H1: Media exposure to social media is a significant predictor of Nepalese respondents' mental well-being as mediated by their attitude toward the negative impact of social media.

Regression results (Table 1) indicated that exposure to social media alone was not a significant direct predictor of mental well-being (β = -0.656, $p > 0.005$). However, when negative perceptions were considered as mediators, YouTube exposure was found to negatively predict mental well-being (β = -0.153*, $p < 0.005$), while Twitter exposure positively predicted well-being (β = 0.042*, $p < 0.005$). Other platforms, such as Facebook and TikTok, were excluded due to their lack of significant contribution. Thus, Hypothesis 1 was partially supported, suggesting that the effects of social media on mental health depend heavily on the type of platform used and the users' perceived negative impacts.

Table 1: Summary of Regression Analysis of Hypothesis 1

Predictors	B	S.E.	Beta	t	Sig.
Media exposure to all social media	-0.656	-0.057	-0.136	-0.656	0.513
Media exposure to YouTube	-0.153	-0.316	-0.136	-4.557*	0.000
Media exposure to Twitter	0.042	0.019	0.155	2.221*	0.028
Negative impact of social media	-0.080	0.027	-0.206	-2.978*	0.003

Remarks:
Predictor: Media exposure to social media, Mediating variable: Positive impact of social media, Dependent variable: Mental well-being, $F = 0.003$, $R^2 = 0.142$, $p^* < 0.05$

H2: Media exposure to social media is a significant predictor of Nepalese respondents' mental well-being as mediated by the attitude toward the positive impact of social media.

Regression analysis (Table 2) showed that exposure to social media significantly predicted mental well-being when mediated by positive attitudes ($F = 15.629^*$, $p < 0.005$). However, the model explained only 17.2% of the variance in mental well-being ($R^2 = 0.172^*$, $p < 0.05$), indicating a modest predictive strength.

Specifically, exposure to YouTube again showed a significant negative association with well-being ($\beta = -0.150^*$, $p < 0.005$). In contrast, positive attitudes toward the information need fulfilled by social media significantly predicted better mental well-being ($\beta = 0.108^*$, $p < 0.005$). Thus, Hypothesis 2 was partially supported, highlighting the importance of platform-specific experiences and the role of positive perceptions in mitigating the negative psychological impact of social media exposure.

Table 2: Summary of Regression Analysis of Hypothesis 2

Predictors	B	S.E.	Beta	t	Sig.
1. Media exposure to YouTube	-0.150	0.033	-0.310	-4.55*	0.000
2. Media exposure to Twitter	0.017	0.020	0.063	0.860	0.391
3. Attitude toward the positive impact of social media	-0.006	0.027	0.107	1.147	0.253
4. Attitude toward the positive impact of social media	0.107	-	-	1.147	0.253
5. Positive impact on information needs importance	0.108	0.027	0.289	3.953*	0.000
6. Attitude toward the positive impact on entertainment need importance	0.074	-	-	0.105	0.916
7. Attitude toward the positive impact on personal need importance	0.074	-	-	1.069	0.287
8. Attitude toward the positive impact on social need importance	0.105	-	-	1.458	0.109

Remarks:

Predictor: Media exposure to social media, Mediating variable: Positive impact of social media, Dependent variable: Mental well-being t, $R^2 = 0.172$, $F = 15.629$, $p^* < 0.05$.

Conclusions and Discussion

Findings for Hypothesis 1 revealed that exposure to social media alone does not directly predict mental well-being. However, when mediated by attitudes toward negative impacts, platforms such as YouTube were associated with increased anxiety and low self-esteem. Young adults who frequently engaged with unrealistic portrayals, cyberbullying, or negative content experienced heightened distress, which aligned with Social

Comparison Theory (Festinger, 1954) that emphasized the detrimental effects of upward social comparisons. Similarly, Media Effects Theory (Valkenburg & Oliver, 2019) supported the idea that prolonged exposure to curated digital content reinforces self-doubt and emotional distress.

Conversely, findings from Hypothesis 2 suggested that social media can enhance well-being when young adults engage positively. Those who participated in online support communities, accessed educational content, and followed mental health initiatives reported greater emotional support and a stronger sense of connection. This finding aligned with Social Identity Theory (Tajfel & Turner, 1979), which suggested that belonging to positive online groups fosters self-esteem and reduces feelings of loneliness. Additionally, the Positive Psychology Framework (Barroso-Corroto et al., 2023) reinforces that social media, when used positively, can serve as a tool for empowerment and emotional resilience.

In conclusion, this study highlighted that the influence of social media on mental health is complex, presenting both risks and opportunities. Policymakers, educators, and mental health professionals should promote digital literacy programs and responsible social media use to help Nepalese young adults critically assess content, engage positively, and avoid harmful online behaviors. These findings contribute to advancing knowledge by validating theoretical models in a Nepalese context and illustrating how platform-specific and attitude-based factors mediate the effects of social media on adolescent mental health. Future research should explicitly challenge and refine existing theories by incorporating longitudinal designs to better understand causality and developmental changes over time.

Limitations of the study

1. The cross-sectional design limits the ability to draw causal conclusions. Future research should employ longitudinal studies, such as cohort designs or panel data analysis, to track changes in social media behaviors and mental health outcomes over time.
2. The focus on Nepalese young adults restricts the generalizability of the findings. Cultural factors, such as collectivism, family influence, and societal expectations in Nepal, likely shape how young adults perceive and are affected by social media, which may differ from young adults in more individualistic cultures.
3. The exclusion of emerging platforms like TikTok from primary analysis leaves gaps in understanding newer forms of social media interactions and their psychological effects.
4. The use of self-reported data may introduce biases such as recall errors or social

desirability bias, which could affect the accuracy of reported media exposure and mental health states.

5. The emphasis on young adults overlooks the potential mental health effects of social media on other age groups, such as pre-adolescents or young adults aged over 25. Future studies should expand age ranges for broader insights.

Recommendations for Further Application

Based on the findings of this study, two key recommendations are proposed:

1. Develop digital literacy programs that educate young Nepalese adults on critical thinking about social media content, recognizing risks, and fostering healthy online habits. Such programs should also emphasize resilience-building against social comparison and online negativity.
2. Create platform-specific mental health interventions to mitigate psychological risks, such as reducing social comparison on Instagram and TikTok and promoting emotional well-being through constructive content on platforms like YouTube.

Abstract

This study investigated the impact of job demands and job resources on teachers' turnover intention based on the Job Demands-Resources Model (JD-R Model) in private universities in Guizhou Province. A total of 361 valid questionnaires were collected from six private universities in Guizhou Province through stratified random sampling method, and the data analysis methods used were percentage, mean, standard deviation and multiple regression analysis. The results showed that the respondents in this study were slightly more male, primarily young teachers under 30 years of age with 1-5 years of teaching experience. The largest number of participants had intermediate titles, and fewer had senior titles. Their monthly salary ranged from 4,001 to 7,000 CNY. The hypothesis testing results revealed that job demands significantly and positively predicted turnover intention and job resources significantly and negatively predicted turnover intention. Therefore, private universities should make efforts to improve teachers' working environment, alleviate job demands, and provide sufficient job resources to continuously improve teachers' subjective well-being, promote teacher stability, and reduce turnover intentions.

Keywords: Job demands, Job resources, Turnover Intention, Private University

Introduction

As an important region for the development of higher education in Southwest China, Guizhou Province has seen rapid growth in the number of colleges and universities and the size of students in recent years, but the problem of teacher mobility has become increasingly prominent. The average annual departure rate of teachers in Guizhou province's colleges and universities reached 8.3 per cent in 2023, which is higher than the national average (6.5 per cent) (Guizhou Provincial Department of Education, 2023). The high mobility of teachers not only affects the quality of teaching but also exacerbates the imbalance in the distribution of regional educational resources (Feng & Sass, 2016).

Teachers' turnover is the result of multiple factors (Räsänen et al., 2020). The formation of private teachers' turnover intention in Chinese universities is influenced by their current work environment (Luo & Shen, 2017). The job demands - resources model is a widely adopted theoretical framework in the field of work environmental research. Therefore, this study aims to explore the impact of the job demands and job resources on turnover intention in private universities in Guizhou, China. The findings from this study can provide a theoretical basis for private universities to improve the stability of their teaching force.

Objectives

1. To examine the status of the job demands and job resources of private universities teachers.
2. To examine the status of teachers' turnover intention in private universities.
3. To explore the impact of teachers' job demands and job resources on turnover intention in private universities in Guizhou, China.

Literature Review

With the deepening of education reform, the work environment of teachers has gradually received extensive attention from all walks of life, and the high or low rate of teacher turnover is not only related to the quality of teaching and learning in schools, but also to the stability and development of the entire education system (Carver-Thomas & Darling-Hammond, 2017).

There are significant differences in the management of private and public universities. Private universities are most notably characterized by the need to be self-sufficient. Although private universities are more flexible in raising and spending funds, they also face greater pressures and challenges (Wang et al., 2020).

Job demands are defined in the job demands-resources (JD-R) model as aspects of a job that require sustained physical or mental effort and are therefore associated with certain physical and psychological costs (Schaufeli, 2017). As society's demands on teachers in private colleges and universities become higher and higher, the psychological pressure on teachers is also increasing. This not only affects work efficiency but may also have a negative impact on their physical and mental health.

However, research has shown that Job resources help to achieve work goals, reduce work demands and costs, and stimulate personal growth and development, co-worker and social support, and opportunities for advancement (Tummers & Bakker, 2021). Professional development activities in the form of induction training, seminars, and lectures organized by schools play a vital role in reducing teachers' turnover intention (Smith & Ingersoll,

2004). In addition, teachers' relationships with their leaders and colleagues are also important predictors of teachers' turnover intention (Simon & Johnson, 2015).

Related Research Theories

The theoretical foundations for understanding the impact of job demands and resources on turnover intention in private universities are the job demands-resources (JD-R) model and social exchange theory (SET). The JD-R is a widely adopted theoretical framework in the field of work environment research. Bakker and Demerouti (2017) stated that the work environment consists of job demands and job resources. It helps researchers gain a clearer understanding of the problems and challenges faced by teachers in their work environment, enabling the implementation of appropriate management strategies to reduce turnover intentions.

Social exchange theory (SET) originated in the 1920s (Tumin et al., 1956). Homans (1958) first introduced the concept of social behavior as exchange in literature. According to the SET, teachers' turnover intention is the result of teachers' assessment of the costs and benefits of the work relationship. When teachers perceive that the job resources provided their professional identity needs, it reinforces their intention to stay in the organization.

Conceptual Framework and Research Hypothesis

Based on various phenomena and research results. Therefore, the research framework and research hypothesis are as follows:

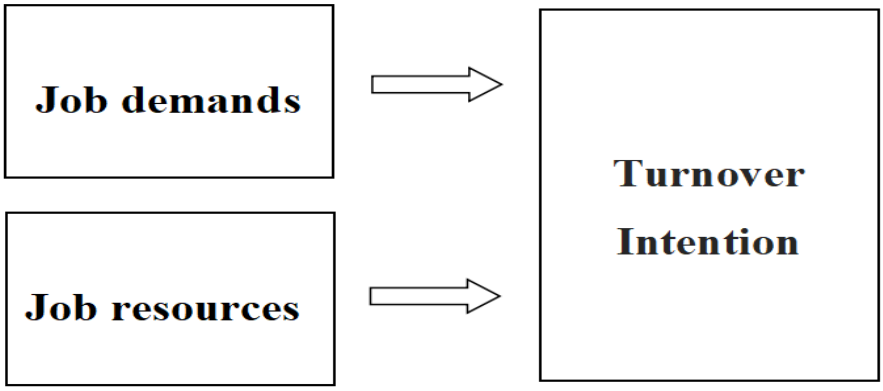

Figure 1: Conceptual Framework

Research hypotheses:

H1: Job demands have a positively significant impact on turnover intention.

H2: Job resources have a negatively significant impact on turnover intention.

Research Methodology

This study adopted quantitative research design with 3,659 teachers from private universities in Guizhou as the target population and collected questionnaire data through a stratified sampling method using the Questionnaire Star online survey. The questionnaire consists of four parts. The first part is about the demographic characteristics of the participants, including five questions. The second part is the nine questions about job demands, and the third part is the nine questions about job resources. The fourth part consists of eight questions about turnover intention.

Based on the evaluation conducted by three independent reviewers utilizing the Index of Content Validity (IOC) test, the questionnaire demonstrated an important level of validity with an IOC score of 0.951. The alpha coefficient method was used to assess the reliability of Cronbach's alpha, resulting in an overall score of 0.948.

The Yamane formula was used to calculate a sample size of 361. The data was statistically analyzed using percentage, mean, standard deviation, and multiple regression analysis.

Results

By analyzing the questionnaire survey of teachers from private universities in Guizhou, the following basic information about the respondents was obtained:

Table 1: Descriptive statistics on demographic information

Question	Frequency	Percentage (%)	Cumulative percentage (%)
Gender			
Male	187	51.80	51.80
Females	174	48.20	100.00
Age			
Under 30 years old	102	28.26	28.26
31-40 years old	97	26.87	55.12
41-50 years old	87	24.11	79.22
Above 50 years old	75	20.79	100.00
Teaching experience			
1-5 years	131	36.28	36.28
6-10 years	93	25.77	62.05
11-15 years	99	27.43	89.47
16-20 years	20	5.54	95.01
More than 21 years	18	4.97	100.00
Position			
Junior Title	118	32.69	32.69
Intermediate Title	154	42.66	75.35

Question	Frequency	Percentage (%)	Cumulative percentage (%)
Associate Title	71	19.67	19.67
Senior Title	18	4.99	100.00
Monthly salary			
Less than 4,000 CNY	42	11.63	11.63
4,001-7,000 CNY	166	45.98	57.63
7,001-10,000 CNY	120	33.24	90.86
More than 10,001 CNY	33	9.14	100.00

Table 1 shows that the respondents in this study were slightly more male, mostly young teachers under 30 years of age with 1-5 years of teaching experience. The largest number of participants had intermediate titles, fewer had senior titles, and received monthly salary between 4,001-7,000 CNY.

Table 2: Descriptive statistic on Job demands, Job resources and turnover intention.

	Mean	Standard deviation	Level of perception
X1 Job demands	3.45	0.93	agree
X2 Job resources	2.56	0.91	disagree
Y Turnover Intention	3.42	0.9	agree

Table 2 shows that the mean value of job demands is 3.45, indicating that respondents perceive job demands to be slightly higher, with a standard deviation of 0.93 reflecting greater inter-individual variability. The mean value of job resources is 2.56, indicating that respondents perceive job resources to be insufficient. The mean value of turnover intention is 3.42, indicating that respondents have a certain tendency to leave their jobs, with a standard deviation of 0.90 indicating that individual differences are obvious and that some respondents may have a higher turnover intention.

Table 3: Relationship between Job demands, Job resources and turnover intention.

	Job demands	Job resources	Turnover Intention
Job demands	1	-.470**	.391**
Job resources	-.470**	1	-.423**
Turnover Intention	.391**	-.423**	1

**. The correlation is significant at the 0.01 level (two-tailed).

According to the analysis of the correlation coefficients of the variables in Table 3, the significant correlation between the core variables provides initial support for the hypothesis testing of the theoretical model in the next step.

Table 4: Regression analysis of Job demands Job resources and turnover intention.

	Unstandardized Coefficients		Standardized Coefficients	t	p	VIF	Tolerance
	B	Standard Error	Beta				
Constant	3.37	0.272	-	12.404	0.000**	-	-
X1 Job demands	0.241	0.051	0.247	4.696	0.000**	1.284	0.779
X2 Job resources	-0.305	0.052	-0.307	-5.82	0.000**	1.284	0.779

R^2= 0.226, Adjusted R^2= 0.222, F = 52.402, p=0.000

* p<0.05 ** p<0.01

According to the results of Table 4, the R^2 of the model is 0.226 and the adjusted R^2 is 0.222, which indicates that job demands, and job resources can explain 22.6% of the variance in turnover intention. F=52.402, p=0.000, which indicates that the independent variables have a significant effect on turnover intention. The VIFs are less than 10, and the tolerances are greater than 0.1, which indicates that there is no serious covariance problem between the independent variables (Ciobotaru & Mazza, 2022). The unstandardized coefficient of job demand, B=0.241, and standardized coefficient, Beta=0.247, t=4.696, p=0.000, indicate that job demand has a positively significant impact on turnover intention. The unstandardized coefficient of job resources is B = -0.305, Beta = -0.307, t = -5.82, and p = 0.000, indicating that job resources have a negatively significant impact on turnover intention. And the strength of the effect of job resources is slightly higher than job demands. Therefore, these results support hypotheses H1 and H2.

Conclusions and Discussion

Based on the data of 361 teachers from six private universities in Guizhou, this study explains the impact of teachers' job demands and job resources on turnover intention based on the JD-R Model and SET. It was found that job demands had a positively significant impact on turnover intention, job resources had a negatively significant impact on turnover intention. These findings are consistent with the conclusions drawn by Puma

et al. (2025) and Nogues and Tremblay (2025), who demonstrated that job demands, and job resources significantly impact turnover intention. Although the research subjects in these studies differ, the results align closely.

It is clear from the above results that job demands, and job resources are closely related to turnover intention. However, the impact of job demands and job resources on turnover intention does not exist in isolation but interact with each other. When job demands are too high and job resources are insufficient, teachers will feel stressed and lack support, and turnover intention will increase significantly. On the contrary, even if job demands are high, teachers may be more willing to stay in their positions if job resources are abundant and they can get enough support and help.

Therefore, to stabilize the teaching force, organizations should optimize job demands and increase job resources to encourage teachers to cope with their jobs positively and reduce turnover intention.

Recommendations

In view of the conclusions, the following recommendations are made:

1. Organizations should reduce the work pressure of teachers by optimizing work processes and improving work efficiency, adjusting job demands, scientifically distributing work tasks and avoiding excessive workload.
2. Organizations should increase investment in job resources and provide teachers with more social support, training opportunities and development space. Create a good team atmosphere, strengthen communication and collaboration among employees, establish a sound training system, and improve professional ability and comprehensive quality of employees.
3. Teachers themselves should continue to improve their own stress resistance and coping ability to better cope with the pressure brought about by the work requirements. At the same time, actively access to work resources, and colleagues and leaders to establish a good relationship, and strive for more support and help.

Research Limitations

This study focuses on the opinions of 361 teachers from private universities in Guizhou and analyzes their responses to items such as job demands and job resources on turnover intention. However, teachers' turnover intention may be influenced by multiple factors. In terms of data collection, questionnaires were used, a method that may be disturbed by teachers' subjective cognitive biases. In addition, teachers' job demands, and job resources are in a dynamic state of change, and this study failed to conduct in-depth

interviews and long-term follow-up observations of teachers, making it difficult to fully capture the dynamic evolution of teachers' turnover intention at dissimilar stages.

Research Suggestions for Future Research

Future research should consider more variables that impact teachers' turnover intention, such as work-family balance and digital transformation stress. In addition to questionnaires, in-depth interviews and other methods can be used to explore teachers' thoughts and emotions about their job demands, job resources, and turnover intention. Meanwhile, regular, and dynamic tracking of changes in job demands and job resources, as well as changes in their turnover intention, will help them to understand the complex impact between them more fully.

Abstract

The objective of the study is to analyze the impact of the digital economy on the development of the tourism industry in Shaanxi Province. The quantitative method approach was used and the sample for the study involved 385 owners or managers of the tourism industry. The instrument used for data collection is a questionnaire. The data collected is analyzed by statistics including demographic information, descriptive analysis, and multiple regression analysis. The finding shows that digital economy adaptation significantly impacts the development of tourism industry with Relative Advantage (0.083), Complexity (0.060), Trialability (0.044) and Observability (0.073). Similarly, user acceptance of digital tools significantly impacts the development of tourism industry with Perceived Usefulness (0.077), Perceived Easy to Use (0.056), Behavioural Intention to Use (0.094), Attitude towards Using (0.072) and Actual system use (0.128). Furthermore, network effect significantly impacts the development of tourism industry with Indirect Network Effect (0.061), User-Generate Content (0.056), and Cross-Platform Integration (0.080). The advantages created by digital economy adaptation led to better tourism development and increased acceptance of digital tools which generate network effects. Complexity acts as the major downside which makes it difficult to achieve seamless digital adoption within the tourism sector.

Keywords: Digital Economy, Tourism Industry, Tourism, Shaanxi Province

Introduction

As the world is becoming more connected, the digital economy is in the middle of many industries that have various levels of growth, including tourism (Khan et al., 2020). When the increase in adopting recent technologies affects the markets around the world, the tourism industry has proven to be one of the happiest affected industries with the digital standards (Abbas et al., 2023). Worldwide the progression of social media, mobile

applications, online booking sites, social network platforms, and especially e-payments skyrocketed the process of creating travel experiences by offering planning, booking, and experiencing traveling (Mustafa, 2022). The intermediaries for trips such as travel agencies, hotel hosting services, and companies involved in airline service delivery have transitioned from using conventional approaches and systems to using new systems and technology thus making the tourism market competitive and integrated. The penetration rate of online travel booking by June 2024 is expected to be 45.2 percent; therefore, 497 million internet users have used the services. Trip.com is among the leading online holiday booking service providers in the China (Statista, 2024). This global shift of tourism has made competition and innovation in the industry high leading to development within many areas (Streimikiene et al., 2021).

China has currently become one of the world's most favored tourist destinations in the world; it has incorporated the cultural site with modem technology (Keane et al., 2020). According to Statista, (2024), Chinese tourists spent approximately 4.9 trillion in yuan in 2023 showing that it bounced back after the Covid 19 outbreak. In the context of this study, modern technology captures extensive and innovative gadgets and tools that assist the tourists in their search of information services ranging from applications for enhanced mobility to ticketing, booking, and other services to even improve their vacation (Leung, 2022). Tourism plays a vital role in economic development and people exchange whereby countries offer new platforms to market their cultures and interact with other parts of the globe (Xia et al., 2023). Thus, with the further development of tourism potential and the active use of IT technologies, it has managed not only to attract millions of domestic and foreign tourists. One of the areas with fast tourist development is Shaanxi Province which is historically important for Northwest China due to the fact it possesses great amount of cultural and historical potential (Feng et al., 2023). But the modern dynamics of the digital economy have radically changed the ways of the management, promotion, and perception of tourism in Shaanxi.

Digital economy is defined as the economy that employs technologies and the World Wide Web to fuel commerce (Shkarlet et al., 2020). They include electronic business, digital money transfer, information analysis, and web services that help firms to remain relevant and trade with the global market. Thus, the digital economy is now identified as an important player concerning tourism (Carlisle et al., 2023). They facilitate efficient planning and organization of travel by using technology tools like websites and apps, travel blogs and other social media platforms (Buhalis, 2021). But now the information regarding the destination, the fares and tariffs for the flights and accommodation are within the reach of the customer. Further, digital tools are personal as it means that you get recommended something or get to experience something that

you would not have otherwise gotten from other people (Pirhonen et al., 2020). The digital revolution in the tourism industry increases the convenience factor, customers, and competitiveness for better and more travel experiences that can captivate the international traveler from the general people (Balasubramanian et al., 2022).

In the sphere of tourism, it is possible to define the digital economy as any activity related to booking and promotion of services in the internet space, including the use of online tools and gadgets together with virtual tours (Naumik-Gladka et al., 2023). The social media-based applications including TripAdvisor, Ctrip, and WeChat Pay have transformed the way tourists organize their holidays, book accommodations, and even share their experiences. Nowadays, most travelers make their travel services bookings through digital devices thanks to mobile internet and enhanced access to digital devices (Sia et al., 2023).

This upsurge in tourism consumption is evident in areas such as Shaanxi where tourism is led by its rich historical and cultural heritage-links to modern digital service platforms to advance tourism service, thereby playing a significant role in recent years' economic uptick (Tang et al., 2022). The number of domestic tourists to Shaanxi in 2021 reached 391 million, an increase of 9.4%, and the revenue reached RMB 343.4 billion, an increase of 24.3% (HKTDC, 2024). The promotion of tourism in the Shaanxi Province is a major source of employment opportunity. Thus, the sector provides direct and indirect employment in the country for people in hospitality, tourism, hotels and restaurants, guides, employees of cultural and tourism sites etc.

With the development of the digital economy, the cross-platform integration, accessibility, and user engagement of Shaanxi Province's tourism industry have accelerated. It has also come with new pain points. Small tourism operators have limited technical expertise, and it burdens them in terms of adopting digital technologies. Local businesses feel pressure of drawn-out competition which results from online visibility pressures. There is unease about the dependence on digital platforms leading to insecure data and the unreliableness of the system. In addition, the development gap between the two regions is wider due to unequal access to digital infrastructure of rural and urban areas. On the one hand, digitalization gives rise to massive growth opportunities on the other, and there is a constant need for adaptation and the industry is exposed to a new set of vulnerabilities.

In overall, for this study the real issue that is of interest is the nature and degree to which the 'digital economy' impacts the 'tourism industry' in the Shaanxi Province. Considering that the tourism sector develops with high indicators, and digital technologies are progressing intensively, it becomes essential to evaluate the role of the factors causing the development of the internet and other forms of digital activity, including online

platforms, mobile applications, and digital marketing in the growth and competition of this sector in this area.

Objectives

1. To study the level of impact of factors affecting the development of the tourism industry in Shaanxi Province.
2. To analyze the key factors which impact the development of the tourism industry in Shaanxi Province.

Concept theory framework

The paper examines the impact of the digital economy on the development of the tourism industry. The studies related to the topic are as follows:

Digital Economy Adoption: The Digital Economy Adoption Theory in practice looks at how the businesses, the consumers and the governments incorporate digital technologies into economic activities to restructure what was once national and market into a data intensive ecosystem. By primarily relying on technology adoption models like Technology Acceptance Model Davis (1989) and Diffusion of Innovations Theory Miller (2018), that explain the determinants for digital adoption among the public, this theory is rooted. Tang et al. (2022) had studied does the digital economy effectively enhance “innovation and entrepreneurship” in rural tourism sector of China. The finding of the study is that digital economy positively influences tourism entrepreneurial activity in the rural areas. Zhao et al. (2022) conducted the study impact of the digital economy in the high-quality development of tourism an empirical study of Xinjiang in China. The finding shows that the digital economy has become one of the key stimuli for the high-quality development of tourism in Xinjiang and digital economy advances high quality development as it fosters upgrading in technology and skills of the tourism structure. The role of digital economy plays a part in the high-quality development of tourism in different regions.

User Acceptance of Digital Tools: It is based on the User Acceptance of Digital Tools Theory that people and organizations adopt and use digital tools in their daily activities, and which goes on to explain the factors that influence how willing they are to incorporate such tools into their operations. The basis of this theory is based on the Technology Acceptance Model (TAM), Davis (1989) and the Unified Theory of Acceptance and Use of Technology (UTAUT), Venkatesh et al. (2003) which are key determinants include perceived usefulness, ease of use, social influence and facilitating conditions. Zhao et al. (2022) had studied online reservation intention of tourist Attractions in the COVID-19 Context: An Extended Technology Acceptance Model. This paper examines the effects of subjective

norms, government policy, perceived usefulness and perceived ease of use, perceived risks, and reservation intentions of tourist attractions. The study concluded that subjective norms have no influence on reservation behavior under voluntary conditions; perceived usefulness has positive effects on tourists' reservation decisions and perceived risk has negative effects on reservation intentions, and government policy is the major determinant of tourists' reservation intentions. Engelbrecht et al. (2019) study objective to analyze the factors influencing the adoption and use of experience of technology introduced by tourism providers in relation to business events and exhibitions. The results of the study show that when the relationship between business travelers' perceptions of the utility and convenience of use of online technology is taken into consideration, the desire of business travelers to utilize online technology is explained.

Network Effect: In simple terms, the theory of network effect explained that the value of a product or service increases with a greater number of people using that product or service, and that product or service becomes more interesting to other unaccustomed users. This was nicely discussed by economists such as Metcalfe (1995) and Katz & Shapiro (1985); it is especially appropriate in digital platforms, social networks, and e-commerce ecosystems where user participation improves overall utility. Narangajavana et al. (2019) study aims at determining the impact of UGC (User-Generated Content) sources on tourist satisfaction to achieve this objective the study will need to focus on the periods before and after travel. The study concluded that UGC in social media is a critical necessity to enhance tourist satisfaction. It is essential in the retravelling period and contributes to the post-traveling period as well. The strong-tie sources of UGC on social media are the generators those who have the close relationship with the users or with the possible tourists they are friends or relatives. Han et al. (2018) study on evaluating user-generated content in social media: an effective approach to encourage greater pro-environmental behavior in tourism. The tourists with higher level of environmental concern are the ones who accept the responsibility and feel that they have greater moral duties to the environment to act in a manner which can be accepted as pro-environmental tourism behavior. This study also provides evidence for the conceptualization that environmental concern and perceived environmental responsibility are prior in place to pro-environmental social norms.

Tourism Industry Development: Zhang et al. (2024) study is to advance knowledge about how proper governance affects the future development of China's tourism industry. The primary analysis of the basic regression results indicates that the government's economic governance capacity positively affects the quality of tourism development. As the results of the sub-indices suggest, we found that the enhancement on innovation and green development and the non-state-owned economy development would be better if

the government has stronger economic governance capacity or higher factor market development degree and the quality of tourism can be stimulated significantly by the better development of market intermediary organizations and legal system. Khan et al. (2020) study examines how tourism shapes the core development pillars in underdeveloped nations using Pakistan as a case study. This study backs tourism-led growth (TLG) and advises policymakers to concentrate on building up tourism related infrastructure and amenities. Sustainable Development Goal (SDG) 8 (decent job and economic growth) in Pakistan is supported by our research on the economic impact of tourism.

Not only will it promote tourism revenue growth, arrivals, and employment, but it will also promote destination marketing, improve customer experience through personalization, and even have process and real time feedback mechanisms. User acceptance of digital tools helps with dynamic pricing strategies, enhance tourist satisfaction and enhance customer loyalty. While network effects are not only magnified when it comes to visibility of a brand but also empower the development of collaborative tourism ecosystems between different businesses. But there are problems such as digital divide obstacles, alarming data breach threats, office dependence on tech platforms, and growing rivalry. As a result, the digital economy enhances tourism development progress, while creating structural vulnerabilities subject to strategic digital resilience planning.

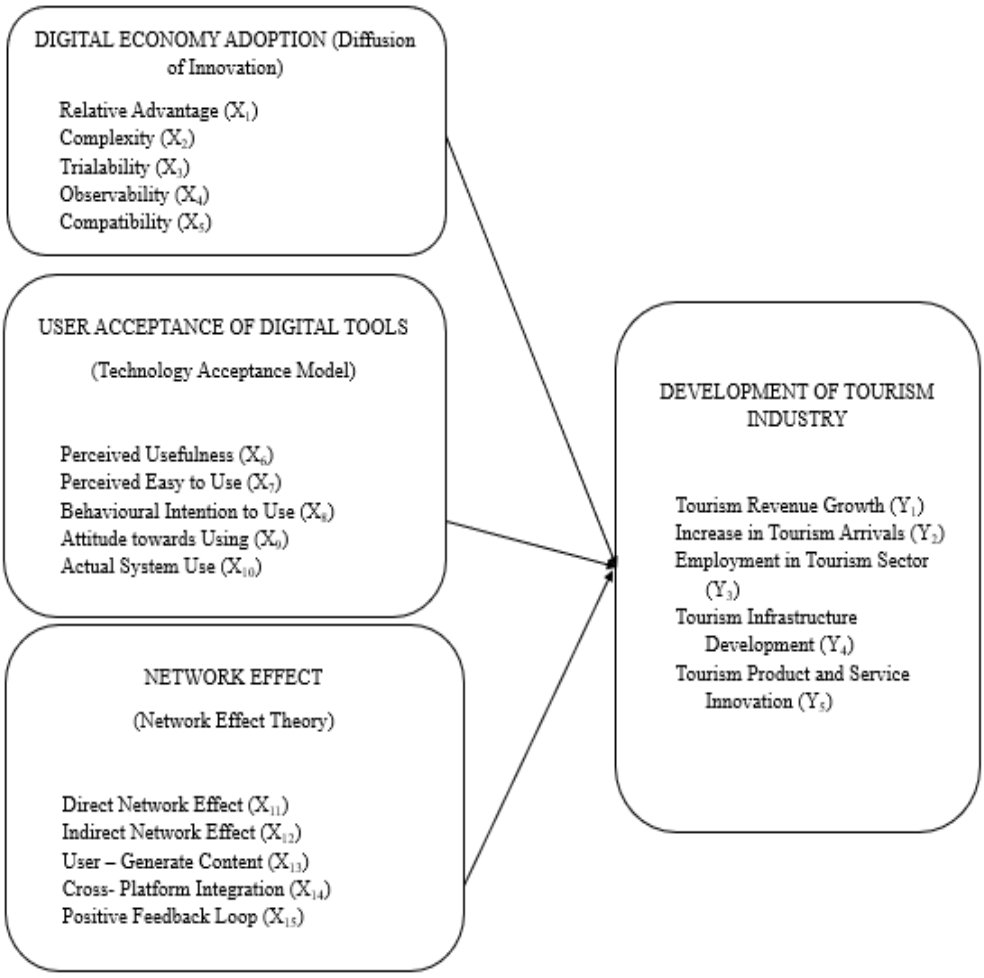

Figure 1: Framework

Materials and Methods

In this paper quantitative research study is used to analyse the impact of the digital economy on the development of the tourism industry in Shaanxi Province. The population of the study is the owner or manager of tourism industry in Shaanxi Province. The sample size for the study is 385 which is calculated by using formula of Cochran (1953) where population is unknown:

$$n = \frac{P(1-P)Z^2}{(d)^2}$$

$$n = \frac{0.5(1-0.5)\ (1.96)^2}{(0.05)^2}$$

n = 384.16 or 385

Since the calculation yielded 384.16, the researcher adjusted the value to 385 to be in line with the statistics and for convenience in data collection. In this study a questionnaire was used as research to collect data. The questionnaire is divided into five

parts includes demographic information (gender, age, education level, years of business operation, number of employees working), Digital Economy Adoption (Relative Advantage, Complexity, Trialability, Observability, Compatibility), User Acceptance of Digital Tools (Perceived Usefulness, Perceived Easy to Use, Behavioral Intention to Use, Attitude towards Using, Actual System Use), Network Effect (Direct Network Effect, Indirect Network Effect, User-Generate Content, Cross-Platform Integration, Positive Feedback Loop), Development of Tourism Industry (Tourism Revenue Growth, Increase in Tourism Arrivals, Employment in Tourism Sector, Tourism Infrastructure Development, Tourism Product and Service Innovation). A sample size of 40 was used to conduct a pilot study with Cronbach's Alpha value = 0.995, which is higher than 0.7, indicating that the questionnaire is highly dependable and suitable for conducting the main study.

Moreover, a comparison of how all questions corresponded to the research goals (IOC) was made. They conducted the assessment of three experts and found the mean IOC value to be 1 which is much higher than 0.5, verifying strong validity of the questionnaire (Muneerat & Chinokul, 2014).

The measurement of the questionnaire was done by using 5-point Likert scale where 1 as "Strongly Disagree" and 5 as "Strongly Agree". Also, to ensure the reliability of the questionnaire, Cronbach alpha should possess the acceptable criteria of higher than 0.7 (Taber, 2018). The Cronbach alpha for this study is 0.935 which is more than 0.7 so the data is dependable for the study. The data are analyzed by using demographic information and multiple regression analysis to analyze the impact of the digital economy on the development of the tourism industry.

Results

In this section, it includes demographic information and multiple regression analysis.

Demographic Information

Most gender respondents were male 206 (53.5%) followed by female 179 (46.5%) respectively. Most age respondents were 36 to 45 years (33.5%) followed by 46 to 55 years (33.0%), Below 35 years (21.8%) and 56 and above years (11.7%) respectively. Most education level respondents were undergraduate (29.6%) followed by graduate (24.7%), up to high school (21.6%), less than high school (15.3%) and doctoral (8.8%) respectively. Most years of business operation respondents were 6–10 years (40.0%) followed by 1–5 years (32.5%), less than one year (15.6%) and 11 years and above (11.9%) respectively. Most of the work experience in the tourism industry respondents was 5-10 years (33.0%) followed by 11-15 years (24.6%), less than five years (22.1%) and 16 years and above (20.3%) respectively. Most annual income respondents were 100,001-200,000 yuan

(30.1%), followed by 200,000- 400,000 yuan (26.6%), 50,000-100,000 yuan (24.9%) and 400,000 yuan and above (18.4%) respectively. Most employees working (including owners) respondents were 11-15 Employees (32.5%) followed by 6-10 Employees (27.0%), 16 and above Employees (20.8%) and 1-5 Employees (19.7%) respectively.

Multiple Regression Analysis

Multiple Regression Analysis is a type of regression analysis where a dependent variable is related to the two or more independent variables. In this study before the analysis of multiple regression, it includes no multicollinearity by variance inflation factor (VIF) which is shown in Table 1 and independence of observation using Durbin-Watson test and coefficient of determination which is shown in Table 2.

Table 1: Variance Inflation Factor (VIF)

Predictor	Tolerance	VIF
Relative Advantage	0.588	1.702
Complexity	0.584	1.713
Trialability	0.574	1.741
Observability	0.534	1.872
Compatibility	0.548	1.826
Perceived Usefulness	0.573	1.746
Perceived Easy to Use	0.528	1.892
Behavioural Intention to Use	0.610	1.640
Attitude towards Using	0.544	1.840
Actual System Use	0.544	1.838
Direct Network Effect	0.562	1.779
Indirect Network Effect	0.474	2.111
User – Generate Content	0.588	1.700
Cross- Platform Integration	0.513	1.950
Positive Feedback Loop	0.572	1.747

In Table 1, it shows the variance inflation factor which is less than 5 which indicates that there is no significant multicollinearity, and it suggests that the predictors have highly correlated and it states the reliability and stability of the regression model.

Table 2: Coefficient of Determination and Durbin-Watson test

Model	R	R Square	Adjusted R Square	Std. Error of the Estimate	Durbin-Watson
1	.883a	0.780	0.771	0.31220	1.875

In Table 2, it shows the value of r-square is 0.780, which means that independent variable (Relative Advantage, Complexity, Trialability, Observability, Compatibility, Perceived Usefulness, Perceived Easy to Use, Behavioural Intention to Use, Attitude towards Using, Actual System Use, Direct Network Effect, Indirect Network Effect, User Generate Content, Cross- Platform Integration and Positive Feedback Loop) has 78.0% impact on the dependent variable (Development of Tourism Industry).

Table 3: ANNOVA Result

Model		Sum of Squares	df	Mean Square	F	Sig.
1	Regression	127.833	15	8.522	87.433	.000b
	Residual	35.967	369	0.097		
	Total	163.800	384			
a) Dependent Variable: Development of Tourism Industry						
b) Predictors: (Constant) Relative Advantage, Complexity, Trialability, Observability, Compatibility, Perceived Usefulness, Perceived Easy to Use, Behavioural Intention to Use, Attitude towards Using, Actual System Use, Direct Network Effect, Indirect Network Effect, User Generate Content, Cross- Platform Integration and Positive Feedback Loop						

Table 3 shows the ANNOVA result where p-value is 0.000 which is less than 0.05, hence it is said that there is a significant relationship between independent variable (Relative Advantage, Complexity, Trialability, Observability, Compatibility, Perceived Usefulness, Perceived Easy to Use, Behavioural Intention to Use, Attitude towards Using, Actual System Use, Direct Network Effect, Indirect Network Effect, User Generate Content, Cross- Platform Integration and Positive Feedback Loop) and dependent variable is Development of Tourism Industry.

Table 4: Result of Multiple Regression Analysis

Model	Unstandardized Coefficients		Standardized Coefficients	T-value	Sig.
	Beta	Std. Error	Beta		
(Constant)	0.128	0.120		1.064	0.288
Relative Advantage	0.083	0.026	0.103	3.235	0.001***
Complexity	0.060	0.025	0.078	2.444	0.015**
Trialability	0.044	0.024	0.058	1.789	0.074*
Observability	0.073	0.025	0.097	2.919	0.004***
Compatibility	0.015	0.026	0.019	0.577	0.564
Perceived Usefulness	0.077	0.025	0.098	3.041	0.003***
Perceived Easy to Use	0.056	0.027	0.070	2.079	0.038**
Behavioural Intention to Use	0.094	0.024	0.121	3.862	0.000***
Attitude towards Using	0.072	0.028	0.086	2.610	0.009***
Actual System Use	0.128	0.025	0.167	5.061	0.000***
Direct Network Effect	0.040	0.025	0.051	1.578	0.115
Indirect Network Effect	0.061	0.027	0.080	2.258	0.025**
User – Generate Content	0.056	0.026	0.068	2.125	0.034**
Cross- Platform Integration	0.080	0.026	0.105	3.090	0.002***
Positive Feedback Loop	0.034	0.025	0.044	1.362	0.174

a. Dependent Variable: Development of Tourism Industry
Note: *** is statistically significant at 0.01 level, p<0.01
** is statistically significant at 0.050 level, p<0.05
* Is statistically significant at 0.10 level, p<0.10

According to Table 4, it shows that the analysis found that there are 7 variables statistically significant at 0.01 consist of Relative Advantage, Observability, Perceived Usefulness, Behavioural Intention to Use, Attitude towards Using, Actual System Use and Cross- Platform Integration and 4 variables statistically significant at 0.05 consist of Complexity, Perceived Easy to Use, Indirect Network Effect and User – Generate Content. The analysis found that there is 1 variable statistically significant at 0.10 consist of Trialability.

Relative Advantage (X1) has regression correlation coefficient of 0.083 meaning that if 1-unit of its change will result 0.083-unit change in Development of Tourism Industry in the same direction.

Complexity (X2) has regression correlation coefficient of 0.060 meaning that if 1-unit of its change will result 0.060-unit change in Development of Tourism Industry in the same direction.

Trialability (X3) has regression correlation coefficient of 0.044 meaning that if 1-unit of its change will result 0.044-unit change in Development of Tourism Industry in the same direction.

Observability (X4) has regression correlation coefficient of 0.073 meaning that if 1-unit of its change will result 0.073-unit change in Development of Tourism Industry in the same direction.

Perceived Usefulness (X6) has a regression correlation coefficient of 0.077 meaning that if 1-unit of its change will result 0.077-unit change in Development of Tourism Industry in the same direction.

Perceived Easy to Use (X7) has a regression correlation coefficient of 0.056 meaning that if 1-unit of its change will result 0.056-unit change in Development of Tourism Industry in the same direction.

Behavioural Intention to Use (X8) has regression correlation coefficient of 0.094 meaning that if 1-unit of its change will result 0.094-unit change in Development of Tourism Industry in the same direction.

Attitude towards Using (X9) has regression correlation coefficient of 0.072 meaning that if 1-unit of its change will result 0.072-unit change in Development of Tourism Industry in the same direction.

Actual system use (X10) has regression correlation coefficient of 0.128 meaning that if 1-unit of its change will result 0.128-unit change in Development of Tourism Industry in the same direction.

Indirect Network Effect (X12) has regression correlation coefficient of 0.061 meaning that if 1-unit of its change will result 0.061-unit change in Development of Tourism Industry in the same direction.

User-Generate Content (X13) has regression correlation coefficient of 0.056 meaning that if 1-unit of its change will result 0.056-unit change in Development of Tourism Industry in the same direction.

Cross-Platform Integration (X14) has regression correlation coefficient of 0.080 meaning that if 1-unit of its change will result 0.080-unit change in Development of Tourism Industry in the same direction.

The multiple regression equation of the study is:

$$Y= 0.128 + 0.083\ (X1) + 0.060\ (X2) + 0.044\ (X3) + 0.073\ (X4) + 0.077\ (X6) + 0.056\ (X7) + 0.094\ (X8) + 0.072\ (X9) + 0.128\ (X10) + 0.061\ (X12) + 0.056\ (X13) + 0.080\ (X14)$$

Conclusions and Discussion

The study shows that the value of r-square is 0.782, which means that independent variable (Relative Advantage, Complexity, Trialability, Observability, Compatibility, Perceived Usefulness, Perceived Easy to Use, Behavioural Intention to Use, Attitude towards Using, Actual System Use, Direct Network Effect, Indirect Network Effect, User-Generate Content, Cross-Platform Integration and Positive Feedback Loop) has 78.2% impact on the dependent variable (Development of Tourism Industry). The result of ANNOVA shows that the p-value is 0.000 which is less than 0.05, hence it is said that there is a significant relationship between independent variable (Relative Advantage, Complexity, Trialability, Observability, Compatibility, Perceived Usefulness, Perceived Easy to Use, Behavioural Intention to Use, Attitude towards Using, Actual System Use, Direct Network Effect, Indirect Network Effect, User Generate Content, Cross-Platform Integration and Positive Feedback Loop) and dependent variable is Development of Tourism Industry.

The digital economy adoption (Relative Advantage, Complexity and Observability,) has an impact on development of tourism industry. But in this study digital economy adoption (Trialability and Compatibility) has no impact on development of tourism industry. The user acceptance of digital tools (Perceived Usefulness, Perceived Easy to Use, Behavioural Intention to Use, Attitude towards Using, Actual System Use) has impact on development of tourism industry. The network effect (Indirect Network Effect, User-Generate Content, and Cross-Platform Integration) has impact on development of tourism industry, but the network effect (Direct Network Effect and Positive Feedback Loop) has no impact on development of tourism industry.

The digital economy adoption (Relative Advantage, Complexity and Observability,) has an impact on development of tourism industry. The result is in line with Alam et al. (2024) states that the Relative Advantage, Complexity, Trialability, Compatibility and Observability are positively connected with the AR adoption intention among travel and tour operators in Malaysia. And, the result is consistent with Shahadat et al., (2023) states that there is a relationship between each technological factors are relative advantage, compatibility and complexity and extend of electronic commerce adaptation in business. But in this study digital economy adoption (Trialability and Compatibility) has no impact on development of tourism industry. The user acceptance of digital tools (Perceived Usefulness, Perceived Easy to Use, Behavioural Intention to Use, Attitude towards Using, Actual System Use) has impact on development of tourism industry. The result is in line with Hasni et al. (2021) which show that PU and PEOU have direct positive influence on tourists' behavioral intention to engage in social media for tourism marketing, thereby boosting effectiveness of tourism marketing and tourist visits. The result is consistent with Alismaiel et al. (2022) shows that the Behavioral Intention to Use, Attitude towards Using

has effect on performance that led to the revenue growth and new product and service innovation. The network effect (Indirect Network Effect, User-Generate Content, and Cross-Platform Integration) has impact on development of tourism industry, but the network effect (Direct Network Effect and Positive Feedback Loop) has no impact on development of tourism industry. The result is in line with Zhu & Liu (2022) supported the proposition that the structure of the tourism network can impact tourism performance. Global tourism development can be defined as the impact of the global tourist network structure on the performance of the tourism industry, as the results show that the network structure can alter global international tourism arrivals.

The result indicates that the digital economy has a positive impact on development of the tourism industry in Shaanxi Province. The efforts and implementation of digital tourism also increased tourism growth, customer experience and business innovation. Unfortunately, many of these challenges remain, such as implementing recent technologies, and lack of digital access, for smaller businesses. In the vastness of the digital economy, great opportunities abound, but they must be equally supported to achieve all players equal benefits.

The following are actionable suggestions to enhance the benefits of the digital economy to the tourism industry in the Shaanxi Province. First, the stakeholders in tourism should promote the enhancement of better technological solutions, including artificial intelligence in recommending travel products and block chain in secure payments. They can become valuable tools that can improve operation effectiveness and make the tourists' experience smooth. Second, there should be a joint effort by the state and affiliated tourism businesses to embark on using digital systems in a way that will not favor some local businesses or certain communities. Capacity building with the smaller players in the tourism industry can fill this gap and bring the ability and skill levels of all stakeholders in tourism up to speed technological adoption. Finally, this paper emphasizes the need to include sustainable solutions in digital tourism management. Measures to control adverse external effects and facilitate the use of environmentally friendly means of transportation will allow reconciling tourism development with sustainable development objectives at the international level.

Abstract

As the wave of globalization grows, globalization is gradually taking its place in globalization. This study focuses on the development of 'Realm of Valor (ROV)' in Thailand as a case study to analyze how to localize in target countries in the context of globalization from a cross-cultural perspective. Ten participants were invited to conduct focus group interviews with players and six participants with game producers in this study. The result demonstrated that the game ROV blends a concept of globalization and localization to offer exclusive experiences to players through many items in the game such as skins, term translations, and other graphic things. Focusing on players' perspectives, key concerns include (1) the game's friendliness to local Thai players, and (2) opportunities to participate in international tournaments. In contrast, game producers emphasize (1) the integration of local cultural elements, and (2) responsiveness to player feedback. These insights can guide future game developers in adapting their games for international markets.

Keywords: Uses and Gratification Theory, Cross-Cultural Communication, Glocalization, Mobile Games, Realm of Valor

Introduction

This study examines the Thai version of HOK, which named Realm of Valor (ROV), a MOBA game developed by Tencent's TIMI Studio and co-published with Garena. Since its December 2016 launch in Thailand, ROV has been the top downloaded MOBA game in the country. In the first quarter of 2023, Thailand contributed 23% to Southeast Asia's mobile gaming revenue, with ROV leading the download charts on Apple and Google Play stores (Rui Ma, Mobile Insights Analyst, 2023). Overseas people often learn about Chinese culture through one-way contact, such as reading books or other art forms, which lacks

two-way interaction. Therefore, China's rich cultural deposits tend to become difficult for people in other countries to understand. The emergence of games has improved this situation, especially mobile games, which have become a new way for the world to understand Chinese culture and play a key role in promoting cultural exchange (Lin S.Y., 2019). When developing different markets, companies should adjust to marketing communication strategies in the face of cultural differences, thus making local consumers more receptive to goods and brands (Cai Y.M., 2022). Based on this, this study focuses on communication strategies for game exports. For example, what localized changes have been made by ROV for the Thai market, and what factors have contributed to the success of ROV in the Thai market? From the perspective of game makers and players, how to make cross-cultural communication games more popular in overseas markets? To summarize, the communication strategy of game export has reference value for both cultural communication and company's profitability. This case study of ROV's effective cross-cultural communication and localization development in the Thai market will provide experience for other game companies and governments seeking to expand into international markets.

Research Objectives

1. To explore the success factors of the mobile game titled Realm of Valor (ROV).
2. To study a strategy to improve ROV’s elements in terms of globalization and cross-cultural communication through the perspectives of games’ producers and players.

Research Questions

1. What factors contribute to the success of the mobile game titled Realm of Valor (ROV)?
2. What strategy can be used to improve ROV’s elements in terms of globalization and cross-cultural communication through the perspectives of games producers and players?

Concept Theory Framework

This study will use the Uses and Gratification Theory, Glocalization Theory and Cross-cultural Communication Theory as the theoretical basis of the study. The Uses and Gratification Theory emphasizes the player's position and the player's role and status. Studying players' needs and satisfaction points can help us understand why ROV has been successful as a MOBA game. The Glocalization Theory emphasizes the development of globalization and localization changes, and the theory helps us explore the localization

changes made by ROV in the Thai market and the corresponding marketing strategies, to understand the reasons for ROV's success in the Thai market. Cross-cultural communication theory emphasizes communication in diverse cultures and plays a crucial role in understanding how ROV communicates with its audience. This theory will guide game companies to have a deeper understanding of how exported games can benefit from a more nuanced understanding of local cultural dynamics.

Based on these theoretical frameworks, our goal is to explore the factors that have contributed to the success of ROVs and some of the problems that still exist, and to provide guidance to future game companies in exporting their games. Therefore, we conducted focus group interviews with players who were deeply involved in ROV's game and in-depth interviews with the game makers. The interview data were also analyzed so that the research objectives and questions could be analyzed and interpreted.

Materials and Methods

1. Research Design

Based on the theories of cross-cultural communication, global localization, and game communication, this study was conducted to investigate and organize the actual situation of ROV in Thailand. The study adopts qualitative research (QL) methodology to screen and invite players and producers to conduct focus group interviews and in-depth interviews respectively from the research objectives. Objective evaluations of ROV were obtained from the players' point of view, and the success factors of ROV were preliminarily judged. From the perspective of game producers, we summarize the strategic characteristics of ROV and discuss in depth the successful experience of ROV and the future development direction that can be improved.

2. Population and Sampling methods

2.1 Selection of game players

Ten gamers were selected through online and offline solicitation to conduct focus group interviews. They aged between 18-35 years old, which is the main user of this type of handheld game (Ke Xiao game, 2023) and have at least one year of experience in playing the game ROV or others.

2.2 Selection of game producers

The sample consisted of practitioners in different links of the Chinese game production industry chain. Six game producers were selected to participate in the in-depth interviews. Their ages were not limited, but they had to have a deep understanding of ROV, and had directly or indirectly participated in game production, and their positions included, but were not limited to, original artists, software engineers, game test engineers, UI designers, and game release publicity.

3. Data analysis

In this study, a coding strategy was used to analyze and summarize the interview data. American psychologist Michelle pointed out that this strategy includes the characterization of situations, events, and behaviors of oneself or others, which is a crucial factor in determining individual behaviors (Lin et al., 2003).

After collecting the interview data from players and producers, the data were first organized and cleaned to eliminate invalid and repetitive content, then organized and verified the interviewees' speeches, confirmed the content through secondary conversations, and added explanations. Subsequently, the final content was integrated, and the results were interpreted by applying the generalized organizational method of the coding strategy.

Results

RQ1: What factors contribute to the success of the mobile game titled Realm of Valor (ROV)?

This article is divided into two main sub-themes to explain the ROV's success, one from the perspective of glocalization and the other from the perspective of cross-cultural communication and provides a comprehensive account of the reasons for the popularity of ROVs in the Thai market.

1. Factors for ROV success from the Glocalization perspective

Factor 1: The game is friendly to local Thai players.

1.1 Changed the UI and art aesthetic.

ROV adjusted its UI and art aesthetic to suit Thai players' preferences. The game features heroes with Thai local culture, diverging from Honor of King's beautiful art style. Its interface has a minimalist design, simple and clear, facilitating player entry. In game design, UI and art design are crucial as they serve the players' gaming experience.

1.2 Optimized the game settings.

To adapt to Thailand's local network and game environment, ROV adjusted its game mechanism. It cut the number of soldiers, shrank the map, compressed game memory, and lowered quality. This aimed to minimize lag caused by unstable mobile networks across Thailand. Shorter game times, along with diverse game modes, maintained and enhanced the gaming experience, making ROV a top choice for potential players of similar mobile games.

1.3 High-quality limited skins related to local culture.

The hero's character image design as well as skin design not only looks good but also combines the local culture as well as the local players' preferences, launching IP co-branded skins, virtual anime limited skins, Thai element limited skins, and all kinds of

themed limited skins. Participant 3 has pointed out that, “co-branding with an IP that has a large audience in itself, can share the influence and enhance the spending power of potential consumers”. Whether it's IP co-branding or themed skins, high-quality skins are one of the most important reasons for successfully attracting local players.

Factor 2: Participating in international tournaments.

2.1 Organize and participate in large-scale competitions.

Organizing tournaments and participating in international tournaments is one of the remarkably effective means of expanding one's influence. Participant 6 mentions that “people who want to play the same type of handheld game for the first time will surely give preference to the handheld game with more influence and popularity”. Organizing or participating in tournaments not only proves the value of the game itself to players but also strengthens the players' sense of participation and pride and attracts more potential players who have not yet joined the ROV through such behavior.

2.2 Cooperate with local KOL for publicity.

Utilizing local celebrities to create buzz is an effective way to promote ROV in the Thai market, as Participant 7 notes, “ROV has actually collaborated with local celebrities who are well known to the public in Thailand, such as Baifern Pimchanok's ‘Arum’ and Mario Maurer's ‘Hayate’, to name a few. 'Arum', and Mario Maurer's 'Hayate', to name a few. Utilizing the influence of celebrities and KOLs to drive more players to join this game or participate in cosplay activities, which can increase the talk of ROV. Celebrity endorsement or organizing some celebrity participation activities can increase the influence of the product.

2. Factors for ROV success from Cross-cultural communication

Factor 1: The facilitation of virtual communication among players.

Incorporating communication features in a virtual community centered around a video game enhances the players' link to the game. This explains how and why an online community enables players to interact within the game. Mora- Cantallops and Sicilia (2018) in their related literature on MOBAs had presented an insight on eSports. They say that strangers are assigned in a makeshift squad to accomplish a complex common goal in an abbreviated period of time, less than an hour most of the time, is interesting (Mora-Cantallops, M., Sicilia, 2018). Because the gameplay of MOBA itself determines that this type of game has a certain social function. Therefore, valuing the virtual socialization of players in the game and constantly having to provide them with rich means of communication can keep players linked to the game.

Factor 2: Use Chinese cultural elements to help game producers build their brands.

ROV has retained many Chinese elements related to Chinese culture in the game, which plays a key role in the spread of Chinese culture. The first is the characters and skins related to Chinese traditional culture. Chinese history and culture carry its own charm, and the mysteriousness of Asian culture can easily attract users' attention overseas. However, grafting and transplanting of cultural elements are only shallow surface work, skillfully integrating Chinese cultural elements into the inner part of the product to make it have distinctive Chinese characteristics is the key to the construction of the game's cultural brand.

RQ2: What strategy can be used to improve ROV's elements in terms of globalization and cross-cultural communication through the perspectives of games producers and players?

The content of this section is synthesized from both players' and producers' perspectives in the game ROV. It is also divided into two sub-themes. One is from the perspective of glocalization, and the other is from the perspective of cross-cultural communication.

1. Strategies to ROV games for the game developers from Glocalization in the view of players' perspective

Strategy 1: Local culture in the game.

It is suggested that more localized elements should be incorporated into the communication of ROV by combining local cultures to enhance players' sense of exclusivity. Scholar Liu (2020), in his article 'Analyzing the Cross-Cultural Communication of Video Games', suggests that groups of players consisting of indeterminate individuals will establish novel shared cultural contexts against the backdrop of a common desire to share experiences. In addition, the barriers inherent in cross-cultural communication, especially those related to transmitting original messages across cultural boundaries, will be reduced (Liu J.W., 2020). Similarly, if the game itself can form a new cultural community that allows players to transcend the constraints of cultural boundaries, it can foster a stronger connection between players and the game. In the case of ROV, for example, it has not drastically altered the Thai culture, giving the impression that it is not designed specifically for Thai players, such as few Thai heroes and skins, small changes to hero skills, and only simple adjustments to some settings. Participant 10 stated,

> "Take Ragnarok X: Next Generation (ROX) developed by Jun Dream Games and published by Asahi Koyo. Thailand is the main market for ROX, so the game was launched with a series of activities around the traditional Thai festival, which is followed by a challenge using the TikTok platform that allowed players to trigger

in-game costume stickers through specific actions. The exposure reached 386 million with significant online traffic".

(Interviewed on 15 December 2023)

It is evident that establishing an emotional connection is important to Thai players. Game companies dig deep into local cultural characteristics to trigger emotional resonance, and integrate local culture into their promotional activities, which will help them compete in overseas markets in the long term. Therefore, it is recommended that ROV incorporate special cultural elements or activities with the local Thai culture to enhance the interactivity and sense of exclusivity with players.

Strategy 2: Player's feedback and replies.

1. It is a significant need of concerning about decent quality of network and system optimization, system updates. Thailand is a special situation, some players have network, update and other problems, engineers need to strengthen the system and server. The game ROV has many players, with high demands for game functions, graphics, and interactivity. Designers need to consider the needs for automatic settings and accurate translation.

2. As an improvement of the gameplay matching and reporting mechanism, ROV players pursue valuable experience, unreasonable matching, and reporting difficulties. It will make players dissatisfied or even abandon the game. The matching and reporting system of each version needs to be improved by focusing on players' feedback and replies. It can be improved by increasing the feedback mechanism to maintain the fairness of the game and the environment.

In conclusion, optimizing the network system, paying attention to players' feedback, and solving problems are the keys for the game to gain a foothold in the local market.

Strategy 3: Low production cost but high players' experience in game

The purpose of game distribution is to make a profit, and one of the keys to the future development of ROV is to make quality gaming experience to most players at a low cost. ROV can be downloaded for free, and players can also spend money to enhance their experience. Players reflect that the price of the Thai version of high-quality skins is on the high side, and that they would be more willing to spend money and stay for a long time if there were more promotions or free offers. Therefore, game merchants reasonable pricing or skin promotions are effective measures to retain players. Some players have pointed out that high-priced skins should be more distinctive and cost-effective. Therefore, the game ROV can meet players' demand, maintain profitability, and increase daily activity through promotions, limited skin amenity price reductions, or logging in to punch cards to give away good gifts.

2. Strategies for ROV communication from Cross-Cultural Communication in the view of producers' perspective

Strategy 1: Increase professional translation and communication skills.

Game localization is the process of adapting to the culture and language of the target market; translation is the basis but has a broader meaning. In the game 'going overseas' boom, language localization has attracted a lot of attention, and the translation of the game's functional language affects the intuitive experience, and the translation level of ROV is in urgent need of improvement. Participant 6 pointed out,

> "Elephants have great significance in Thai culture, but Chaugnar's name in ROV is pronounced like 'elephant' in Thai, but there is no such word in Thai, and the word represents ugly dominion in Cthulhu mythology, which hurts cultural believers".
>
> (Interviewed on 15 December 2023)

This warns us that a lack of translation talent, insufficient cultural vision, and barriers to language translation can affect the quality of the game, increase the difficulty of player perception, and create communication barriers, which in turn reduces the participation of overseas players and their reputation for the game.

The character 'Loose Cannon' in an online game titled League of Legends is translated as 'Bao Zou Loli' in Chinese, which means 'Runaway girl.' But in American culture, 'The Loose Cannon' means someone who is out of control, disregards authority, and breaks rules. But in American culture, 'The Loose Cannon' describes a person who is out of control, disregards authority, and breaks the rules, which is different from 'Runaway Girl.' The word 'loli' originates from the novel 'Lolita,' which is the image of cute little girls in the Japanese animation subculture and is like the pronunciation of the popular Chinese word 'loli' on the Internet. Translating the relevant content as 'Bao Zou Loli' reflects combining the source language culture and Chinese Internet culture (Dai J., 2021).

In conclusion, game translation is related to cultural exchange and artistic presentation. Translators should give full play to their creativity to accurately convey the elements, professional translators can guarantee the operation of the game and user experience, and the quality of their translations affects the game's reputation, players' retention and manufacturers' reputation, and absorbing professionals is the key to the game's overseas expansion.

Strategy 2: Reduce dependence on international IP and attach importance to the spread of Chinese culture.

Chinese games need to be characterized by Chinese culture. Simply catering to local players will weaken the uniqueness of the game, which requires companies to reinterpret the new symbol system for spreading Chinese culture. In the early stage of

development, ROV relied on IP co-branding to make profits, neglecting its own Chinese cultural heritage. Borrowing international IP to expand the market is effective, and ROV has achieved results, but sacrificing its own cultural system cannot achieve the purpose of cultural export. If Chinese game makers want to achieve cross-cultural handheld communication, they not only need to have localized marketing thinking, but also need to have Chinese cultural innovation thinking, combining local and Chinese cultural commonalities to create products and brand culture, and realize cultural output. Take the makeup brand 'Florasis' as an example, it was born in Hangzhou on 8 March 2017, positioning 'oriental makeup, flower makeup'. In the autumn-winter 2020 New York Fashion Week, Florasis and Misawa Dream launched co-branded Korean clothes, and cooperated with designer Yang Lu, integrating fashion into Asian brand elements. The fashion week came to an end with three brands of oriental origin completing their innovations, realizing that to be recognized, it is not enough to superficially combine classical and fashion, one has to understand the connotations of Chinese oriental aesthetics and deliver the underpinnings in a new way (Huanqiu.com, 2019). Beauty is different from the gaming field, but the principle of cross-cultural communication is the same. Chinese handball companies should realize that handball has become a cultural soft power, and when expanding their markets and increasing their revenues, they should not neglect their cultural communication responsibilities.

Discussions and Conclusion

The development of two research questions and their subsequent elaboration in response to the identified inquiries constitutes the core of this study. The game ROV has amended adapt localization in both game content and marketing strategies for the Thai market. The following section outlines the specifics of ROV's localization strategy in the Thai market.

In terms of marketing execution, firstly, ROV has made a good integration between the game and the local culture by adding Thai cultural elements, such as festival-themed skins, festival-limited activities, and language localization. Then, ROV enhanced players' gaming experience by adjusting in-game settings such as map size, number of soldiers, UI style, etc., and continuously absorbed players' feedback to optimize the game. Finally, ROV enhances the game's own visibility and expands the local influence of the game by organizing large-scale tournaments and co-branded events and cooperating with local KOLs and IPs.

In terms of cultural dissemination, ROV still retains some of the Chinese cultural elements of the original game HOK in the game while disseminating it locally in Thailand, and this part of the game retains the spirit of the original version very well. This suggests that it should be an important prerequisite for cross-cultural communication for games to

appropriately retain their own cultural characteristics while reflecting universal global values. ROV enhances players' sense of identification with the game, for example, by designing related activities around traditional festivals. This suggests that it is an important foundation for cross-cultural communication of games for game companies to deeply understand and explore the cultural characteristics of their target markets, and to enhance the attractiveness of game products through emotional resonance. ROV utilizes social media and other digital platforms for diversified communication to ensure that the message can effectively reach potential users and stimulate their interest in the game. This suggests that the use of diverse channels to publicize the game is one of the most important strategies for cross-cultural communication.

To summarize, this study examines the localization strategy of ROV in the Thai market and its associated factors of success and failure. By studying ROV's localization, this paper highlights the importance of cultural adaptation and user experience in globalization strategies.

Recommendations for Future Application

1. For content producers - Focus on the development and creation of game content

Product quality determines product value, directly impacting game downloads and usage. "Respecting and integrating into local culture is an important path for Chinese mobile games to realize overseas dissemination" (Chen Y.C., 2021). Cultural confidence is vital for national development, requiring game companies to Maintain cultural identity and Optimize game content. Strategically, domestic firms should support local creative SMEs and collaborate with overseas partners. Leveraging foreign enterprises' cultural expertise enables timely product localization, enhancing market adaptability.

2. For game companies - Focus on the construction of the game platform

Strengthening game platform infrastructure is crucial. Dual strategies are essential. Firstly, enhance overseas payment systems (e.g., Thailand's LinePay, TrueMoney, and Chinese cross-border solutions like WeChat Pay/ AliPay) through industry collaboration. Collaborate with payment providers and financial institutions to optimize transaction processes and strengthen oversight. Secondly, qualified developers should establish Steam-like professional gaming platforms through strategic partnerships.

3. For communication marketers - Explore more localized marketing development strategies

Quality game content development and effective marketing are fundamental for market success. Adopting "global localization" as the guiding principle for conceptual research requires researchers to possess global vision, cross-cultural competencies, and localized academic practices. Overseas promotion requires culturally aligned distribution

strategies extending beyond core gameplay to peripheral products (e.g., character-themed music videos, drama sponsorships, collectible merchandise). This approach enhances profitability and brand impact while generating reciprocal benefits for the game's popularity.

4. For policy makers - Strengthen personnel training and introduce protection policies

Talent development remains an undervalued aspect in gaming product lifecycle management. Despite growing public acceptance and corporate training initiatives, critical gaps persist - particularly in specialized training paths beyond technical/management roles. Enterprises should implement three-dimensional solutions, such as knowledge-sharing initiatives, talent attraction/incentive programs, and educational subsidies. Concurrently, national policy interventions are required to promote quality cultural exports, and combat plagiarism through IP protection. Finally, position gaming expansion is a strategic cultural initiative.

Limitations of the Study

Firstly, this study uses quantitative research methods. The small sample size of in-depth interviews cannot fully represent all ROV players' and game industry practitioners' views or may be influenced by the host or participants' personalities and interaction. But the selected interviewers and willing - to - speak participants helped reduce the bias from participants' silence.

Secondly, much of the participants' speech was translated, which may cause content deviation. So, the study summarizes the interviewed content after participants finish and double - checks with them to minimize translation - caused deviation, without affecting ROV's generalization and summary.

Finally, different - nationality players have different ROV demands. This study did not invite European and American players, potentially lacking such samples, thus representing only some Chinese and Thai players' attitudes. Also, this study only analyzes ROV's cross - cultural communication highlights and shortcomings from the global - localization perspective, not deeply exploring the relationship between games and art, etc., so the game's cultural connotation may not be fully shown, which are the study's limitations.

Abstract

With the rapid development of information technology, the financial technology industry in China and even the whole world has shown a remarkable growth momentum. The purpose of this study is to analyze the influence of digital innovation and organizational culture on the performance of Shanghai Financial Technology Company. Through the questionnaire survey, the decision makers, managers and core employees of 386 financial technology companies in Shanghai, China were investigated. The data comes from the "questionnaire" WeChat survey. Descriptive statistics and multiple regression analysis are used in the analysis. It was found through research that Fintech Y=0.61+0.476*X1+0.361*X2. X1 stands for digital innovation, x2 stands for cultural organization, and Y stands for enterprise performance. The results show that digital innovation and cultural organization can positively affect the performance of financial technology enterprises. Through empirical analysis, this study not only obtains the dynamic innovation of enterprise performance development with multiple dimensions, but also promotes the development of academic theory and creates a management tool that can be landed, which has significant exemplary innovation value in the digital economy era. Here are many application scenarios, such as being the CEO of a financial technology enterprise, carrying out value innovation during cultural transformation and digital portfolio optimization; At the same time, it can also add value to academic influence and form a sustainable knowledge spillover effect.

Keywords: Digital Innovation, Cultural Organization, Enterprise Performance

Introduction

In recent years, countries have adopted policies to promote the development and adoption of innovative digital technologies and develop their entrepreneurial ecosystems (Zahra et al., 2023). The world is embracing the wave of digital economy, and China is no exception. Digital transformation has become a necessary condition for enterprises to

survive in high competition (Luo et al., 2023). Therefore, after understanding the trend of the times and the current situation of the development of financial technology enterprises at home and abroad, we want to explore the influence of digital innovation and cultural organization on the performance of financial technology enterprises. As the financial capital of China, Shanghai is a gathering place of financial technology enterprises, so we focus on the influence of Shanghai's financial technology enterprises. From the two dimensions of digital innovation and cultural organization, this is not only the requirement of digital technology innovation, but also the adaptation to the changes of the times. There are 2,931,099 enterprises in Shanghai, among which the number of fintech companies is 10,931 (Data source: National Customer Resource Information Platform). Most of them want to break the traditional customer acquisition mode and marketing mode and give customers the best service experience, but they need value advocates and professional skills as a bridge and guidance, so it is urgent for everyone to explore digital innovation, and corporate culture organization is also an indispensable and important part.

Objectives

1. To analyze digital innovation of Shanghai Financial Technology Company, affect the enterprise performance.
2. To analyze cultural organization of Shanghai Financial Technology Company, affect the enterprise performance.

Research Hypothesis

Hypothesis 1: Digital innovation of financial technology enterprises in Shanghai has a positive impact on enterprise performance.

Hypothesis 2: The cultural organization of Shanghai financial technology enterprises has a positive impact on enterprise performance.

Concept Theory Framework

1. The theory of Digital Innovations (DI)

Globally, the fintech industry is becoming increasingly important in keeping pace with advances and developments in the financial sector (Al-Matari et al., 2022). These findings especially highlight the links between innovation and sustainability, revealing that digital transformation tools contribute over the long-term to the value creation process (Di Vario et al., 2020). Digital innovation refers to products, services, processes, etc. that trigger or realize value based on digital technologies (Nambisan et al., 2017). With the rapid development of digital economy, the improvement of digital level has become the key focus of the core competitiveness of enterprises and an important engine to achieve high-quality development of enterprises and society.

2. The theory of Cultural organizations (CO)

Organizational culture influences the ability of fintech companies to embrace and effectively implement digital transformation. For companies to remain competitive in the fintech space, they must foster a culture of continuous learning and development. This includes regular training, seminars, and exposure to the latest digital trends and technologies (Chesbrough & Crowther, 2006), implementing a digital-first culture. A strong organizational culture encourages innovation and adaptability, supporting employees to try original approaches, embrace change, and learn from failure.

Cultural organization and organizational culture are two similar concepts with completely different connotations. Organizational culture is the "soft rules" such as shared values and behavior patterns within the organization whose core goal is cultural production/dissemination, and values, behavior norms and work habits that members of the organization follow together. Cultural organizations are entities whose main functions are the creation, preservation, and dissemination of cultural products, focusing on cultural policies, capital operation, audience service and the social influence and public welfare of cultural products. Focus on how culture affects employee behavior, decision-making and performance, and the role of culture in organizational change and team cohesion.

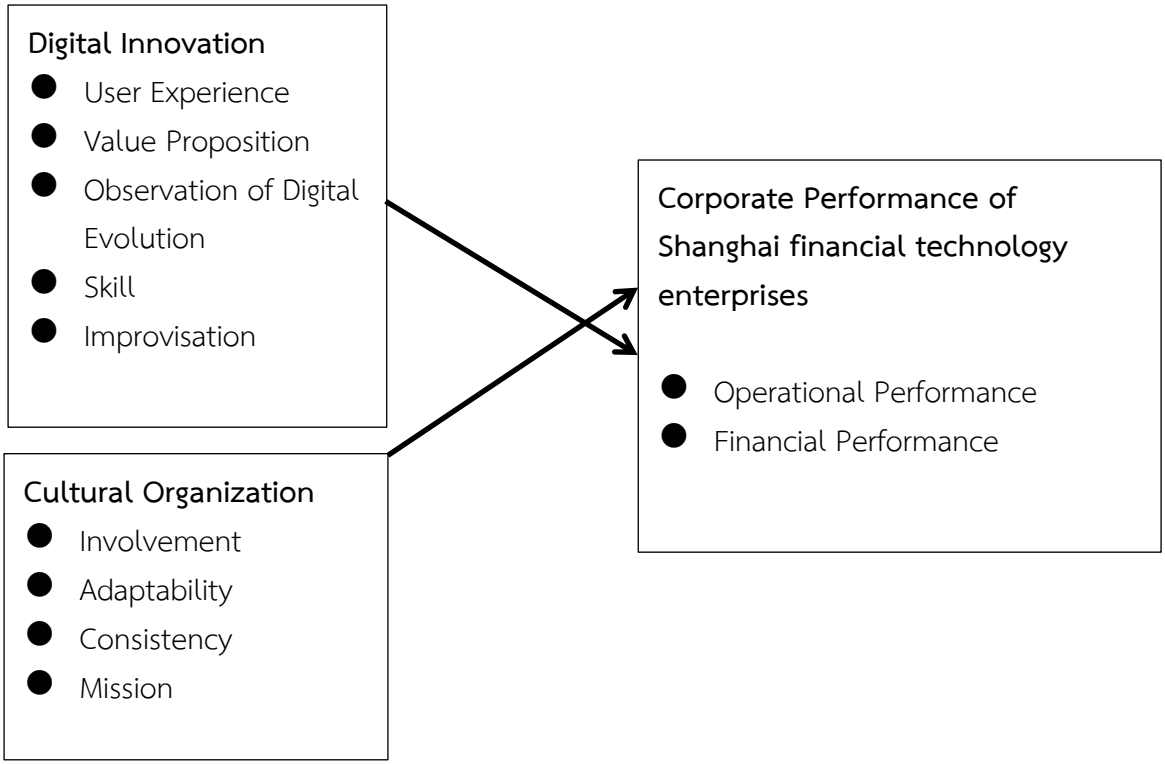

Figure 1

Materials and Methods

William G. put forward Cochran's theorem in 1954, which is an important statistical theorem, and provided a method to assess the difference between two independent samples. Through this formula, we got 386 samples and then used SPSS data analysis software for empirical analysis. Descriptive statistics and multiple linear regression equations are used to examine the relationship between variables and their influence patterns. The function of descriptive statistics is to systematically summarize the characteristics of data through quantitative indicators and visual means and lay the foundation for data understanding and subsequent multiple linear regression. Multiple regression analysis plays the role of prediction and estimation in this study, and multi-dimensional relationship processing can provide a more comprehensive perspective. The confidence level adopted in this study is 95% and the error is 5%.

Results

In this study, the Likert scale is used for numerical processing by dividing the options into 1-5 points and calculating statistics such as mean and standard deviation. At the same time, classification analysis is conducted. The options are combined into three categories (such as "negative/neutral/positive") for data statistics.

The empirical results show that the level of digital innovation, the factor Mean values below are all greater than 3, Cultural organization of financial technology enterprises in Shanghai is in the middle.

Table1: Mean and Standard Deviation of Digital Innovation

Digital Innovation	Mean	Standard Deviation	Definition of Level
User Experience	3.29	1.063	Middle
Value Proposition	3.20	1.043	Middle
Observation of Digital Evolution	3.22	1.060	Middle
Skill	3.28	1.072	Middle
Improvisation	3.26	1.059	Middle

Table 2: Mean and Standard Deviation of Cultural Organization

Quality of Live Marketing	Mean	Standard Deviation	Definition of Level
Involvement	3.34	1.078	Middle
Adaptability	3.34	1.067	Middle
Consistency	3.33	1.055	Middle
Mission	3.34	1.067	Middle

Table 3: Multiple regression analysis was used to assess the hypotheses.

Coefficientsa

Variable	Unstandardized B	Coefficients Std.Erro	Standardized Coeficients Beta	t	Sig
Constant	0.061	0.127		0.477	0.633
Digital Innovation	0.585	0.066	0.476	8.808	0.000
Cultural Organization	0.404	0.060	0.361	6.693	0.000

As can be seen from the above table and Table 3, as shown in the table, with digital innovation and cultural organization as independent variables and the performance of tech companies as the dependent variable, the model F-value is 356.744, P=0.000, indicating that the model holds true. Moreover, digital innovation (β=0.476, P=0.000) positively influences the performance of tech companies; cultural organization (β=0.361, P=0.000) also positively influences the performance of tech companies.

The equation is: Y**=0.61+0.476*X1+0.361, *X2**

Conclusions and Discussion

1. Conclusions

The results show that digital innovation and organizational culture of financial technology enterprises in Shanghai, and there is a significant positive correlation with enterprise performance. Research results show that the adoption of financial technology has a positive impact on financial performance. The results also show that financial technology has a positive significant effect on the performance of small and medium-size enterprise.

2. Discussion

This study evaluates all aspects of digital innovation, such as user experience, value proposition, improvisation, so that customers can directly participate in the development process to ensure meaningful interaction; At the same time, the company constantly updates and improves its products/services according to user interaction and feedback to enhance the overall user experience. It is found that the digital innovation and cultural organization of financial technology enterprises in Shanghai are in the middle, and they have a positive and important impact on the performance of financial technology enterprises in Shanghai. Through reading the literature, it is found that many scholars at home and abroad have studied the influence of digital innovation and cultural organization on enterprise performance. For example, Liu et al. (2021) finally pointed out that financial technology has a significant positive impact on ROE and NIMP and has a significant positive impact on ROE research in linear and nonlinear models. Digitalization has a profound impact on organizational performance, especially in the financial industry, which provides new opportunities for value creation by breaking the existing business model (Shah et al., 2024). The research results of Wang et al. (2023) show that the sustainable commitment of an enterprise is beneficial to its business growth and will not increase its risk finance industry. The financial industry can report the growth of financial technology news that highlights business, while companies with high capital adequacy ratio can better manage the risks related to innovation commitments. He suggested that financial companies conduct sustainable innovation to improve their profitability.

3. Limitation and future study

Only 386 samples were investigated in this study, and the sample data is limited. This study is biased towards the economically developed areas in eastern China, with Shanghai, China as the representative area, so it has regional and quantitative limitations. Sun et al. (2022) research results show the scale and vitality of digital technology innovation show obvious spatial differentiation, and form a pattern of agglomeration distribution in Shanghai, southern Jiangsu, northeastern Zhejiang and central Anhui, and the agglomeration degree is decreasing. It is suggested that we should increase the research samples, invest in empirical research, expand the data caliber, and break the regional restrictions.

The Impact of Work Stress on Turnover Intention among Teachers in Vocational Undergraduate Colleges in Guangdong Province

Weijie Yang[1*] and Shubham Pathak[2]

[1]Candidate, School of Accountancy and Finance, Walailak University.
[2]Asst. Prof., School of Accountancy and Finance, Center of Excellence in Sustainable Disaster Management (CESDM), Walailak University.
[*]**Corresponding author, E-mail:** xyang9547@163.com

Abstract

This study aims to explore the impact of work stress on turnover intention among teachers in vocational undergraduate colleges in Guangdong Province. Based on social exchange theory and JDC model, this study adopts quantitative research methods, distributes and collects survey questionnaires through the "Questionnaire Star" platform, and uses SPSS 29.0 to perform descriptive statistics, correlation analysis and linear regression analysis on the data. The results show that there is a significant positive correlation between work stress and turnover intention. In addition, among the four dimensions of work stress (workload, scientific research, interpersonal relationships, and career development), career development has the greatest impact on teachers' turnover intention. Finally, this study provides countermeasures and suggestions for alleviating teachers' work stress and enhancing the stability of the teaching staff.

Keywords: Vocational Undergraduate Colleges, Work Stress, Turnover Intention, Teachers

Introduction

To build a "strong country in education", 16 new vocational undergraduate colleges will be added in 2024 (Ministry of Education, 2024). With the development of vocational undergraduate colleges in China, work stress of college teachers continues to emerge, in terms of scientific research stress, workload and teaching (Mycos, 2023). These stresses further lead to an increase in teachers' turnover intention, affecting the stability and sustainable development of the college's faculty (Salama et al., 2022).

As a higher level of education, the development of higher vocational colleges requires the support of a stable teaching staff. However, with the increase in teachers' work stress, the phenomenon of teachers leaving their jobs is serious. Therefore, this study takes teachers from higher vocational colleges in Guangdong Province as the research

object to explore the relationship between work stress and turnover intention, which is of great significance to building a stable teaching staff and is also the key to promoting the high-quality development of higher vocational education.

Objectives

This study focuses on teachers in vocational colleges in Guangdong Province and proposes the objective to explore and analyze the relationship between turnover intention and teachers' work stress.

Concept Theory Framework

Teacher's work stress

Teachers' work stress refers to various negative emotions caused by teachers due to work environment factors (Naghieh et al., 2015), which come from workload, interpersonal relationships, time management, and career development (Agyapong et al., 2022). The biggest factor is scientific research, followed by personal development (Li, 2021).

This study identified the dimensions of work stress as workload, scientific research, interpersonal relationships, and career development.

Turnover intention

Turnover intention is the psychological state of an employee planning to leave his current position (Park & Min, 2020). It is also the strongest predictor of actual resignation behavior (Asri, 2022).

Research theory

This research encompasses Job Demand-Control Theory and social exchange theory.

Social Exchange Theory believes that people will balance costs and rewards to pursue maximum benefits (Kieserling, 2018). When work stress increases and rewards are insufficient, they will have turnover intention (Shah et al., 2022).

Job Demand-Control Theory (JDC model) believes that work stress is jointly determined by job demands (such as load) and job control (such as autonomy) (Karasek, 1979). The combination of high job demands, and low job control will lead to high stress, which in turn increases employees' turnover intention (Shin & Hur, 2021).

Conceptual Framework and Hypothesis Development

This study is constructed in combination with the research directions as follows:

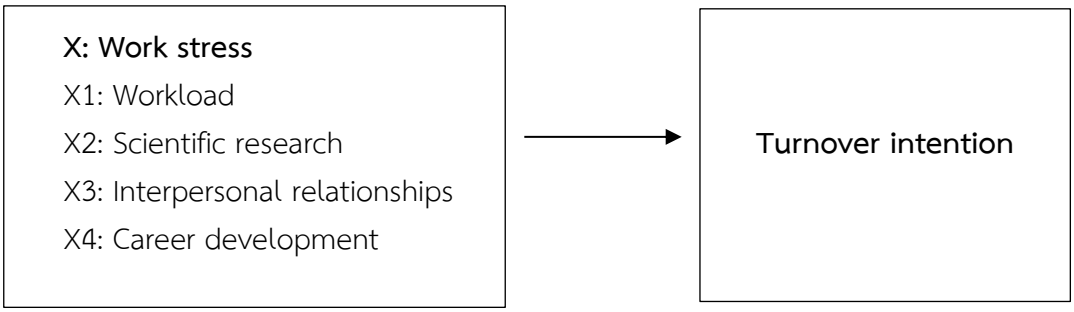

Figure 1: Conceptual Framework

Based on the above framework, the following hypothesis is proposed:

H1: Teachers' work stress has a significant impact on their turnover intention.

H2: Teachers' workload stress has a significant impact on their turnover intention.

H3: Teachers' scientific research stress has a significant impact on their turnover intention.

H4: Teachers' interpersonal relationship stress has a significant impact on their turnover intention.

H5: Teachers' career development stress has a significant impact on their turnover intention.

Materials and Methods

This study adopts a quantitative research method, with 6,239 teachers from four vocational undergraduate colleges in Guangdong Province as the research subjects. According to the sample size calculation method of Harcourt (2022), the sample size is determined to be 376 teachers. Combined with the Bourley proportional allocation formula used by Idoko and Andrew (2022), the sample is allocated to each college. This study uses a questionnaire survey method. The questionnaire is divided into three parts: the first part collects demographic information (such as gender, age, etc.). The second and third parts use the Likert five-level scale to measure work stress (workload, scientific research, interpersonal relationships, and career development) and turnover intention, from "5" for "strongly agree" to "1" for "strongly disagree". The questionnaire has been evaluated and pre-tested by IOC. The results showed that the average IOC score was 0.88, Cronbach's alpha was 0.895, KMO was 0.825, significance was <0.001, and reliability and

validity were good. The data were collected through the "Questionnaire Star" platform, and a total of 470 questionnaires were distributed under the premise of a 20% non-response rate (Althubaiti,2 023). After sorting, 432 valid questionnaires were obtained, and descriptive statistics, correlation analysis, and linear regression analysis were performed using SPSS29.0. The analysis results are described in the next section.

Results

Table 1: Descriptive statistics for demographic information

Item	Options	Quantity	Percentage (%)
Gender	Male	243	56.25
	Female	189	43.75
Age	30 years and below	66	15.28
	31-40 years old	164	37.96
	41-50 years old	135	31.25
	51 years and above	67	15.51
Education level	Undergraduate and below	48	11.11
	Master's degree	271	62.73
	PhD Candidates	113	26.16
Years of working experience	5 years and below	99	22.92
	6-10 years	159	36.81
	11-15 years	124	28.70
	16 years and above	50	11.57
Professional title level	Entry level teacher	120	27.78
	Junior professional title	167	38.66
	Intermediate professional title	95	21.99
	Senior professional title	50	11.57
Monthly compensation	5000 yuan and below	61	14.12
	5001-7000 Yuan	143	33.10
	7001-9000 Yuan	184	42.59
	9001 and above	44	10.19
	Total	432	100.0

Among the respondents, males accounted for 56.25% (243) and females accounted for 43.75% (189). The age distribution was 31-40 years old (37.36%, 164), followed by 41-50 years old (31.25%, 135), 51 years and above (15.51%, 67) and 30 years and below (15.28%, 66). The education level was mostly master's degree (62.73%, 271), followed by Ph.D. (26.16%, 113) and Undergraduate and below (11.11%, 48). Years of working experience were 6-10 years (36.81%, 159), followed by 11-15 years (28.70%, 124), 5 years and below (22.92%, 99) and 16 years and above (11.57%, 50). Professional title level is Junior professional title (38.66%, 167) and Entry level teacher (27.78%, 120), Intermediate professional title accounts for 21.99% (95), Senior professional title accounts for 11.57% (50). Monthly compensation is 7001-9000 Yuan (42.59%, 184), followed by monthly compensation of 5001-7000 Yuan (33.10%, 143), 5000 yuan and below (14.12%, 61) and 9001 and above (10.19%, 44).

Descriptive statistical analysis of variables

Table 2: Descriptive analysis results of relevant variables

Variables	Mean	Standard deviation
X: Work stress	3.475	0.699
X1: Workload	3.511	0.916
X2: Scientific research	3.475	0.944
X3: Interpersonal relationship	3.484	0.936
X4: Career development	3.431	0.94
Y: Turnover intention	3.326	0.579

According to this research, teachers feel stress in various aspects, and most teachers have the idea of leaving their current jobs to find other jobs.

Correlation analysis on work stress and turnover intention

Table 3: Correlation analysis results

	Work stress	Workload	Scientific research	Interpersonal relationships	Career development	Turnover intention
Work stress	1					
Workload	0.751**	1				
Scientific research	0.763**	0.442**	1			
Interpersonal relationships	0.727**	0.408**	0.382**	1		
Career development	0.755**	0.411**	0.456**	0.388**	1	
Turnover intention	0.599**	0.426**	0.460**	0.441**	0.466**	1

** significant at the 0.01 level.

It was found that teachers' work stress and its various dimensions (workload, scientific research, interpersonal relationships, and career development) were significantly positively correlated with turnover intention ($p < 0.01$), with the correlation coefficient of work stress being 0.599, and the correlation coefficients of the various dimensions being 0.426, 0.460, 0.441, and 0.466, respectively. This indicates that the greater the work stress, the stronger the teacher's turnover intention. It also indicates that high work stress, workload, scientific research stress, challenges in interpersonal relationships, and career development difficulties will increase teachers' turnover intention. Therefore, under the combined effects of various stressors, teachers' turnover intention continues to increase.

Regression analysis on work stress and turnover intention

Table 4: Regression analysis results

	Unstandardized coefficients		Standardized coefficient	t	Significance (p)	Collinearity Statistics	
	B	Standard Error	Beta			Tolerance	VIF
Constant	1.607	0.114	-	14.122	< 0.001	-	-
Workload	0.099	0.029	0.156	3.385	< 0.001	0.707	1.414
Scientific research	0.127	0.029	0.207	4.452	< 0.001	0.693	1.444
Interpersonal relationships	0.130	0.028	0.210	4.706	< 0.001	0.752	1.330
Career development	0.139	0.028	0.226	4.918	< 0.001	0.709	1.411

R^2=0.360, **Adjusted R^2**=0.354, **F**=59.973, **p**< 0.001, **D-W**=2.022

Notes: Independent variables: Workload, scientific research, interpersonal relationships, career development. Dependent variable: turnover intention

It was found that workload, scientific research, interpersonal relationships, and career development had a significant positive impact on teachers' turnover intention, among which career development stress had the greatest impact. Among them, the four factors can explain 36% of the variation in turnover intention ($R^2 = 0.360$). Since $F = 59.973$, $p < 0.001$, D-W = 2.022, this research result shows that the results are dependable.

Conclusions and Discussion

This study examines the relationship between work stress and turnover intention among faculty members at vocational undergraduate colleges in Guangdong Province, and found that the four dimensions of workload, scientific research, interpersonal relationships, and career development were all significantly positively correlated with turnover intention, which is consistent with previous studies. For example, Wang and Li (2017) pointed out

that high work stress can lead to physical and mental exhaustion, leading to an increase in turnover intention; Jayasri and Annisa (2023) found that increased workload can lead to anxiety, thereby increasing turnover intention; Yao et al. (2023) showed that the high intensity and high requirements of scientific research tasks can aggravate teachers' fatigue and further increase turnover intention. Akhlaghimofrad and Farmanesh (2021) also showed that tension in interpersonal relationships can reduce work belonging and increase turnover intention. Among them, career development stress has the greatest impact on turnover intention (Zhu et al., 2021), because it is related to teachers' long-term career goals and value realization.

First, excessive workloads can cause teachers to be physically and mentally exhausted, which in turn affects their personal health. Second, scientific research stress challenges teachers to allocate their personal time, while also facing the stress of high-demand output. Third, tension in interpersonal relationships can reduce teachers' job satisfaction and affect their emotions. Finally, limited career development makes teachers lack confidence in the future. Therefore, under the combined effect of these factors, teachers are prone to turnover intention.

The results of this study are consistent with the social exchange theory, that is, when teachers' input and output are out of balance, job satisfaction decreases and turnover intention increases (such as "unclear career planning" with a mean of 3.41 and "unsatisfactory relationship with leaders" with a mean of 3.52). In addition, the results are consistent with the JDC model, and the combination of high job demands, and low job control produces high stress. Teachers face high demands in terms of workload (mean score of "high role demands" is 3.55) and scientific research (mean score of "lack of time" is 3.51), but lack a sense of control in terms of career development (mean score of "limited training opportunities" is 3.46) and interpersonal relationships (mean score of "challenging in teamwork" is 3.45). This imbalance exacerbates turnover intention (such as "browsing recruitment information" means 3.60, "considering leaving" means 3.52).

Therefore, this study verifies the impact of work stress on teachers' turnover intention and puts forward the following suggestions: First, colleges should conduct regular stress surveys, improve the assessment and training system, and optimize the working environment and communication mechanism; second, teachers need to continuously improve their professional abilities, learn to relax their emotions, and maintain a balance between work and life.

The main results of this study are: first, a "relationship scale between work stress and turnover intention of teachers in vocational undergraduate colleges" was developed

and passed the IOC test and pre-test; second, the relationship between work stress and turnover intention of teachers in vocational undergraduate colleges was clarified, and it was found that career development is the most important factor affecting turnover intention; third, based on the research conclusions, targeted suggestions for teacher management were put forward.

However, the study also has some limitations: first, the scope of questionnaire distribution is limited and only conducted through the online platform, which makes it difficult to screen qualified participants, which may affect the accuracy of the data; second, with the development of society, college teachers face new challenges, and the scale needs to be further optimized to meet the needs of teachers in different colleges and majors.

Abstract

This study examines the impact of training and development on teachers' personal performance at Guangzhou Huashang University (Guangzhou Campus) using quantitative methods. Data from 313 valid questionnaires were analyzed with SPSS. Results show significant positive correlations between training and development factors (training content, career planning, leadership development, etc.) and teachers' performance (task and contextual performance). Key findings indicate that training content most strongly impacts task performance, while career planning significantly influences contextual performance. The study recommends optimizing training content, enhancing career development support, and improving leadership training to boost teacher performance and establishing a comprehensive evaluation system to ensure training effectiveness.

Keywords: Training And Development, Teacher Personal Performance, Private Colleges and Universities, Career Development

Introduction

In recent years, with the rapid development of the economy and increasing professional competition, colleges and universities have paid increasing attention to employee training and development. Effective training and development can improve employee performance and career development while meeting both short-term and long-term goals (Shifrer, 2020). However, in the personnel management of colleges and universities, a unified training plan is often adopted, which cannot meet the differentiated needs of different departments and positions. For example, the nature and requirements of the work of teachers and administrative staff are different, and the professional knowledge and skills required are also different, but the training content and methods are relatively single, which cannot fully cover the actual work needs of employees (Nabila Gibran & Ramadani, 2021) . In addition, the lack of scientific and effective training

evaluation indicators and methods makes it impossible to objectively evaluate the training results.Therefore, this study takes Guangzhou Huashang University (Guangzhou Campus) as an example to explore the impact of training and development on teachers' personal performance, reveal the mechanism behind the effectiveness of training and development in improving personal performance, and provide theoretical insights and practical suggestions for optimizing the teacher training system and enhancing the quality of teacher training.

Objectives

1. To investigate the status of teacher training and development in Guangzhou Huashang College (Guangzhou Campus)
2. To explore the personal performance level of teachers in Guangzhou Huashang College (Guangzhou Campus)
3. To explore how the impact of teacher training and development on personal performance in Guangzhou Huashang College (Guangzhou Campus)

Concept theory framework

Definition and Dimensional Analysis of Teacher Personal Performance

Teacher personal performance reflects work effectiveness, including task performance and contextual performance. It is influenced by individual and situational factors and is crucial for organizational development. This study identifies two key dimensions for teachers: task performance and contextual performance.

Analysis of the Definition of Training and Development

Training involves acquiring new knowledge and skills to improve work performance. Development focuses on personal growth through learning and adapting to new challenges (Tantawy, 2020).

Research Theory

This study uses the expectancy theory, reinforcement theory, adult learning theory and human capital theory to deeply analyze the impact of teacher training and development on teachers' personal performance in Guangzhou Huashang University (Guangzhou Campus). Eccles and Wigfield (2020) emphasized through the expectancy theory that employee motivation is driven by their perception of the benefits of training and development. O'Doherty et al. (2015) proposed through reinforcement theory that the positive results of training can significantly enhance employees' work motivation. De Matas and Keegan (2020) pointed out based on adult learning theory that training that matches job requirements can significantly improve employee performance. Abiddin and

Talha (2024) used human capital theory to argue that investment in employee training can improve job satisfaction and performance. These theories together constitute the theoretical basis of this study, helping us to deeply understand how training and development affect teachers' personal performance, and provide suggestions for improving private teacher training and development.

Conceptual framework and hypothesis development

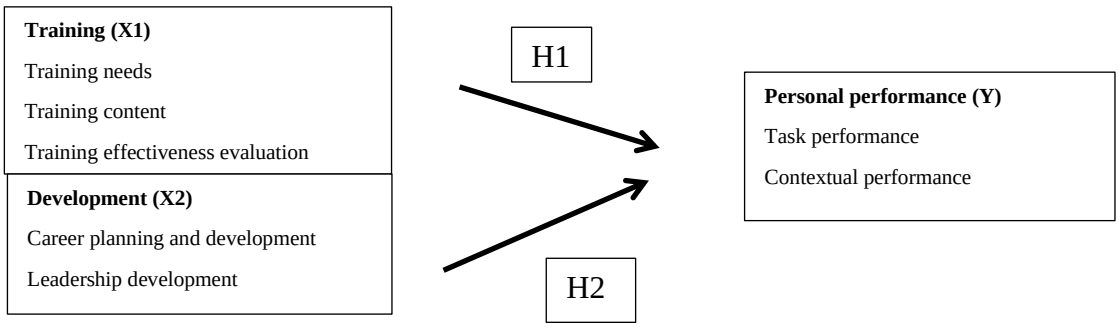

Figure 1: Conceptual Framework

H1: There is statistically correlated between teacher training and personal performance at Guangzhou Huashang College (Guangzhou Campus).

H1.1: There is statistically correlated between teacher training needs and personal performance at Guangzhou Huashang College (Guangzhou Campus).

H1.2: There is statistically correlated between teacher training content and personal performance at Guangzhou Huashang College (Guangzhou Campus).

H1.3: There is statistically correlated between teacher training effect evaluation and personal performance at Guangzhou Huashang College (Guangzhou Campus).

H2: There is statistically correlated between teacher development and personal performance at Guangzhou Huashang University (Guangzhou Campus).

H2.1: There is statistically correlated between teacher career planning and development and personal performance at Guangzhou Huashang University (Guangzhou Campus).

H2.2: There is statistically correlated between teacher leadership development and personal performance at Guangzhou Huashang University (Guangzhou Campus).

Materials and Methods

This study employed a quantitative approach targeting 1,436 teachers at Guangzhou Huashang University (Guangzhou Campus). Data were collected via an online questionnaire using stratified random sampling. The sample size was calculated using the Yamane

formula, resulting in 313 respondents. Descriptive statistics, correlation analysis, and multiple regression were used to analyze the impact of training and development on teacher performance.

Results

Table 1: Sample distribution description

Question	Options	Frequency	Percentage (%)	Cumulative percentage (%)
1.Gender	Male	136	43.45	43.45
	Female	177	56.55	100.00
2. Age	Under 30	126	40.3	40.3
	30-40	103	32.9	32.9
	40-50	42	13.4	13.4
	Over 50	42	13.4	13.4
3.Working experience	Less than 5 years	105	33.5	33.5
	6 - 10 years	124	39.6	39.6
	11 - 15 years	42	13.4	13.4
	More than 16 years	42	13.4	13.4
4.From which college	School of accountancy	67	21.4	21.4
	School of artificial intelligence	35	11.2	11.2
	Digital economics and trade college	13	4.2	4.2
	School of communication and media	17	5.4	5.4
	Faculty of letters	44	14.1	14.1
	School of health sciences	17	5.4	5.4
	School of teacher education	22	7	7
	Digital finance academy	9	2.9	2.9
	School of management	36	11.5	11.5
	School of foreign languages	19	6.1	6.1
	International college	10	3.2	3.2

Question	Options	Frequency	Percentage (%)	Cumulative percentage (%)
	School of creativity and design	24	7.7	7.7
5.Academic position	Teaching assistant	14	4.47	4.47
	Lecturer	127	40.58	45.05
	Associate professor	86	27.48	72.52
	Professor	86	27.48	100.00
6.Educational background	Bachelor's degree	108	34.50	34.50
	Master's degree	138	44.09	78.59
	Doctoral degree	67	21.41	100.00
7. Monthly salary	5000yuan and below	105	33.5	33.5
	5001-7000 Yuan	104	33.2	33.2
	7001-9000 Yuan	52	16.6	16.6
	9001and above	52	16.6	16.6
Total		313	100.00	100.00

Table 1 indicates that the respondents in this study are female teachers aged 30 years and under, with teaching experience of 5 years or less. The majority hold the position of lecturer and receive a monthly salary between 5,001-7,000 CNY.

Table 2: Descriptive Statistics of Training and Development on Personal Performance

	Mean($\bar{x}$)	Standard Deviation (S.D.)	Level of perception
Training needs	3.804	1.086	Somewhat Agree
Task performance	3.781	1.091	Somewhat Agree
Training content	3.789	1.122	Somewhat Agree
Task performance	3.781	1.091	Somewhat Agree
Training effectiveness evaluation	3.766	1.126	Somewhat Agree
Contextual performance	3.738	1.080	Somewhat Agree
Career planning and development	3.653	1.159	Somewhat Agree

The findings from Table 2 indicate that teachers hold a highly positive perception of training needs, suggesting effectiveness in identifying and meeting these needs. Both task performance and training content are also valued highly by the teachers. While perceptions of training effectiveness evaluation and contextual performance are slightly

less positive, they remain favorable. Career planning and development, despite having the lowest positive perception, continue to be viewed positively by the teachers.

Table 3: Correlation Analysis

Variable	Training needs	Training content	Training effect evaluation	Career planning and development	Leadership development	Task performance	Contextual performance
Training needs	1						
Training content	0.460**	1					
Training effect evaluation	0.367**	0.553**	1				
Career planning and development	0.509**	0.502**	0.514**	1			
Leadership development	0.401**	0.570**	0.546**	0.467**	1		
Task performance	0.458**	0.584**	0.523**	0.501**	0.515**	1	
Contextual performance	0.432**	0.469**	0.473**	0.478**	0.458**	0.501**	1

The correlation analysis presented in the table indicates significant relationships between the core variables related to training and development. The positive correlations observed across training needs, content, effectiveness evaluation, career planning and development, leadership development, task performance, and contextual performance provide preliminary support for the hypothesis testing of the theoretical model in subsequent analyses.

Table 4: Multiple Regression Analysis

Variables	Standardized Coefficients (Beta)	VIF	Tolerance
constant	-	-	-
training content	0.273	1.854	0.539
training effect evaluation	0.170	1.748	0.572
leadership development	0.146	1.733	0.577
training needs	0.143	1.477	0.677
career planning and development	0.136	1.712	0.584
R^2 = 0.457, Adjusted R^2 = 0.448, F (5,307) =51.605, p=0.000, D-W = 1.722 * p<0.05 ** p<0.01 Note: Dependent variable = Task performance			

According to the analysis of Table 4, training content, training effect evaluation, training needs, career planning and development, and leadership development significantly impact teacher task performance, explaining 45.7% of the variance (R^2 = 0.457). The model is robust, with no multicollinearity (VIF < 10) or autocorrelation (Durbin-Watson = 1.722). Training content has the strongest effect (β= 0.273, p < 0.001), followed by training effect evaluation, leadership development, training needs, and career planning and development. Thus, hypotheses H1, H1.1, H1.2, H1.3, H2, H2.1, and H2.2 are all supported.

Table 5: Multiple Regression Analysis

Variables	Standardized Coefficients (Beta)	VIF	Tolerance
constant	-	-	-
career planning and development	0.175	1.712	0.584
training effect evaluation	0.174	1.748	0.572
training needs	0.163	1.477	0.677
leadership development	0.144	1.733	0.577
training content	0.128	1.854	0.539
R^2 = 0.362, Adjusted R^2 = 0.352, F (5,307) =34.844, p=0.000, D-W = 1.870 * p<0.05 ** p<0.01 Note: Dependent variable = Contextual performance			

As shown in Table 5, the five variables explained 36.2% of teachers' contextual performance variance (R^2 = 0.362) with a robust model (F = 34.844, p < 0.01; VIF < 10; Durbin-Watson = 1.870). Career planning had the strongest impact (β= 0.175, p < 0.01), followed by training evaluation (β= 0.174, p < 0.01), training needs (β= 0.163, p < 0.01),

leadership development (β= 0.144, p < 0.05), and training content (β= 0.128, p < 0.05). All positively impacted contextual performance, supporting hypotheses H1, H1.1, H1.2, H1.3, H2, H2.1, and H2.2.

Conclusions and Discussion

This study explored the impact of training and development on teachers' personal performance at Guangzhou Huashang University (Guangzhou Campus) and found that training needs analysis, training content, training effectiveness evaluation, career planning and development, and leadership development all significantly enhance teachers' personal performance. These findings align with Expectancy Theory, which emphasizes that individuals' expectations of training outcomes directly affect their enthusiasm for participation. The high alignment of training content with job requirements supports Adult Learning Theory, highlighting the importance of practical knowledge acquisition through experience (Nurul Faudiah et al., 2023). Additionally, the positive impacts of training effectiveness evaluation, career planning, and leadership training further validate Reinforcement Theory and Human Capital Theory (S. Gningue et al., 2022). Based on these conclusions, targeted recommendations were proposed to optimize teacher training and development mechanisms, including enhancing career planning, enriching training content, strengthening the long-term impact of leadership training, and refining the effectiveness evaluation system to improve teacher performance.

However, the study has limitations. The sample scope was narrow, relying solely on online questionnaires, which may affect data accuracy. The study focused primarily on the direct impact of training and development on performance, without fully considering other potential factors such as organizational culture and work environment. Future research should expand the sample to include a broader range of institutions and regions to enhance the generalizability of the findings. Combining multiple research methods, such as questionnaires, in-depth interviews, and case studies, and conducting longitudinal research would provide a more comprehensive understanding of the long-term impact of training and development on teachers' performance and its underlying mechanisms. Additionally, exploring the interactions between training and other factors like organizational culture and work environment could offer a more holistic view of teacher performance and inform more scientific teacher management strategies in higher education institutions.

Overall, this study systematically validated the significant role of teacher training and development in enhancing personal performance and provided theoretical support and practical guidance for optimizing teacher training systems in higher education institutions. Despite its limitations, the study offers important insights for improving teacher management practices and suggests directions for future research.

Abstract

This study takes teachers of Guangzhou Huashang College as the research object, aiming to explore the relationship between performance management process and teachers' motivation. The research sample is 385 in-service teachers of Guangzhou Huashang College. This study adopts a multi-stage sampling method, conducts a questionnaire survey on 385 sampled employees, and uses descriptive statistics and regression analysis to analyze the data. The results show that performance planning, performance execution, performance evaluation and performance feedback in the performance management process all have a significant positive impact on teachers' work motivation. Among them, performance planning has the most significant positive impact on internal motivation in work motivation, and performance execution has the most significant positive impact on external motivation in work motivation.

Keywords: Performance Management Process, Work Motivation, Teachers

Introduction

Teachers are the core force of education, and their work motivation affects teaching quality, scientific research results and other aspects (Fahriana & Sopiah, 2022). However, the pressure of scientific research and professional titles leads to weak work motivation of teachers, which affects work engagement (Rehman & Tariq, 2021).

The performance of teachers is difficult to measure with a simple performance management process. The current performance management process faces challenges such as a single evaluation method and insufficient performance feedback, which leads to weak work motivation of teachers (Huang, 2021). Therefore, optimizing the performance management process to stimulate teachers' work motivation has become a problem that college managers need to solve.

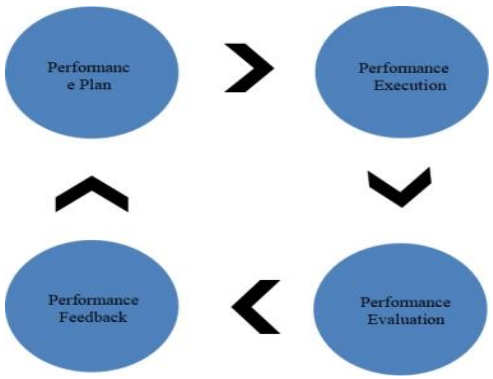
The Chinese government attaches importance to the reform of the performance management process of teachers. In 2016, the Ministry of Education of China issued relevant documents, clarifying that the performance management system of teachers is the core task (Ministry of Education of China, 2016). In 2019, "China's Education Modernization 2035" proposed to improve the teacher performance evaluation system and optimize the performance management process to enhance teachers' work motivation (Ministry of Education of China, 2019).

Guangzhou Huashang College is a non-governmental business school in the Guangdong-Hong Kong-Macao Greater Bay Area. The school's performance management process covers many aspects of teacher performance, has a significant impact on teachers' motivation for work, and has high research value (Guangzhou Huashang College, 2024).

This study aims to explore the relationship between the performance management process and work motivation of teachers in Guangzhou Huashang College, and to provide a reference for university administrators to optimize the performance management process and enhance teachers' motivation.

Research Significance

At present, due to the lack of theoretical research results on the relationship between the performance management process and work motivation of teachers in private universities, and the steady advancement of China's higher education reform, the academic community lacks relevant research on the relationship between performance management process and work motivation in private universities, which also limits the scientific development of the performance management process of teachers in private universities. This study, combined with the current analysis of the performance management process and work motivation of teachers in Guangzhou Huashang College, helps to enhance the pertinence and applicability of theoretical research and provide strong theoretical support for the development of private higher education represented by Guangzhou Huashang College. Studying the relationship between the teacher performance management process and work motivation can deeply understand the role of teacher performance management process in work motivation and put forward feasible suggestions for optimizing the performance management process of teachers in Guangzhou Huashang College and enhancing teacher work motivation, which has certain practical significance.



Objectives

This study explores the relationship between performance management process and work motivation, and proposes the following research objectives:

1. To explore the current situation of teachers' performance management process in Guangzhou Huashang College.
2. To explore the work motivation of teachers in Guangzhou Huashang College.
3. To study the relationship between performance management process and work motivation of Guangzhou Huashang College?

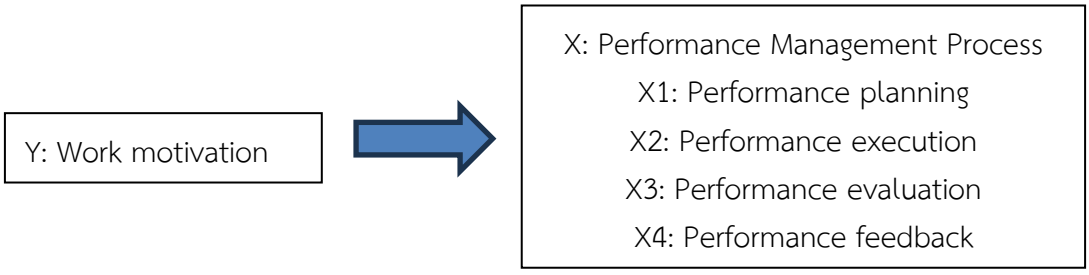
Concept Theory Framework

This study focuses on the relationship of the performance management process on teachers' work motivation, with PDCA theory and self-determination theory as theoretical support. Bingqing and Lei (2019) proposed that the PDCA theory emphasizes that performance management is a cyclical process. Through the four stages of planning, execution, inspection and improvement, the performance management process is continuously optimized, thereby providing teachers with clear goals and feedback to enhance their work motivation. Rigby and Ryan (2018) proposed that the self-determination theory focuses on the intrinsic motivation needs of teachers, and believes that the participation, autonomy, and identification of teachers with goals in the performance management process are crucial to their work motivation.

Petrovych and Trut (2019) proposed that performance plans should be formulated based on employee job requirements and personal goals. Managers should break down organizational performance goals and communicate them to employees to ensure that organizational goals match employee work directions. Nielsen and Grøn (2021) proposed that compared with the traditional top-down approach, performance planning with full communication and respect for employee autonomy can enhance employee work motivation and enable them to complete their work more efficiently.

Budhiraja (2022) emphasized that organizations should open communication channels to enhance employee motivation, because effective communication will run through the entire performance management process. Mesino and Harahap (2024) pointed

out that process coaching is important in performance execution, ensuring that employees have sufficient resources and support to complete performance work, and improving employee motivation through continuous guidance and support.



Dangol (2021) pointed out that the results of performance evaluation affect teachers' titles and promotions. If they do not truly reflect work effectiveness, they will reduce work motivation. Erialdy (2024) pointed out that performance evaluation should be fair. A fair evaluation process can enhance employees' commitment to the organization. Scientific tools can be used to conduct performance evaluation in combination with organizational reality to ensure that the process is fair and transparent and avoid simple evaluation based on good or bad.

Josika and Rathnakumar (2024) believe that timely performance feedback can improve employee motivation. After receiving feedback, employees can understand their past performance, gain organizational recognition and attention, and improve their future work motivation. Thomas and Kavitha (2024) proposed that performance feedback can apply the results of performance evaluation to employee promotion, training and development opportunities, performance bonus distribution, etc., which helps to enhance employee work motivation.

Baljoon, Banjar, and Banakhar (2018) proposed that work motivation is a combination of intrinsic and extrinsic factors that drive individuals toward specific work goals. It inspires, guides, and motivates individuals to achieve these goals. Bolbochan (2023) proposed that work motivation can be divided into two forms: intrinsic motivation and extrinsic motivation. Intrinsic motivation has high autonomy and persistence, while extrinsic motivation has strong social orientation and result orientation, but the two can be transformed into each other in different situations.

Research Hypothesis and Research Framework

This study uses the performance management process as an independent variable, which is divided into four dimensions: performance planning, performance execution, performance evaluation, performance feedback, and work motivation as the dependent variable. Based on previous research results and research theories, the framework of this study is constructed as follows:

H1: Performance planning has a statistically significant impact on work motivation.
H2: Performance execution has a statistically significant impact on work motivation.
H3: Performance evaluation has a statistically significant impact on work motivation.
H4: Performance feedback has a statistically significant impact on work motivation.

Materials and Methods

The questionnaire of this study is divided into three parts. The first part is demographic questions, which consists of five questions; the second part is performance management process, which consists of 18 questions; and the third part is work motivation, which consists of 12 questions.

This study uses questionnaire survey method to collect data. The questionnaire method helps save time, quickly collect enormous amounts of data, and ensure privacy and anonymity (Breakwell et al., 2020). This study adopts a multi-stage sampling method. First, stratified sampling is performed for each college to improve sample representativeness and information accuracy; then convenient sampling is performed for teachers in each stratum to facilitate rapid data collection and improve questionnaire response rate. This method combines the accuracy of stratified sampling with the flexibility of convenient sampling, which can efficiently collect data and maintain a certain representativeness of the sample (Gupta & Gupta, 2021). After calculation, a total of 440 questionnaires were distributed in this study, and 385 valid questionnaires were collected, with a recovery rate of 87.5%, which is consistent with previous studies (Christensen et al., 2020).

This study conducted a Cronbach's Alpha reliability test on the collected data. Cronbach's Alpha is a reliability indicator for measuring internal consistency, with a total score of 0.929. A reliability coefficient between 0.9-1 is very dependable (Surucu & Maslakci, 2020).

After arranging the collected data, data analysis methods are used to study the relationship between variables. The steps include: first, descriptive analysis is conducted to present sample characteristics; second, multiple regression analysis is conducted to study the impact of performance management on teacher work motivation, and the degree of influence of each variable on the dependent variable is explained through regression coefficients.

Results

Variables	Mean($\bar{x}$)	Standard deviation (S.D.)
Performance planning	4.337	1.354
Performance execution	4.326	1.383
Performance evaluation	4.256	1.429
Performance feedback	4.264	1.423
Internal motivation	4.310	1.420
External motivation	4.305	1.423

Through descriptive statistics, it can be seen from the above table that the mean value of performance planning is 4.337 (S.D.=1.354); the mean value of performance execution is 4.326 (S.D.=1.383); the mean value of performance evaluation is 4.256 (S.D.=1.429); the mean value of performance feedback is 4.264 (S.D.=1.423); the mean value of internal motivation is 4.310 (S.D.=1.420); and the mean value of external motivation is 4.305 (S.D.=1.423).

Variables	Unstandardized Coefficients (B)	Standardized Coefficients (Beta)	t	VIF	Tolerance
Constant	0.645	–	2.848	–	–
Performance Plan	0.269	0.254	5.165	1.583	0.632
Performance Evaluation	0.198	0.202	4.285	1.459	0.685
Performance Execution	0.197	0.192	4.023	1.494	0.669
Performance Feedback	0.189	0.192	4.036	1.482	0.675
R^2 = 0.420, Adjusted R^2 = 0.414, F (4, 380) = 68.754, p = 0.000, D-W = 1.988. p<0.05					

As can be seen from the table above, the model equation is internal motivation = 0.645 + 0.269 × performance plan + 0.197 × performance execution + 0.198 × performance evaluation + 0.189 × performance feedback. The model R^2 is 0.420, indicating that the four links of performance management can explain 42.0% of the variation in internal motivation, which has significant explanatory power. The adjusted R^2 is 0.414, and the model is robust. The F test results (F=68.754, Sig=0.000<0.05) show that the model is

significant and the overall prediction effect is obvious. The VIF values are all less than 5, and there is no covariance problem; the D-W value is 1.988, close to 2, and the residual has no autocorrelation, which meets the linear regression hypothesis.

Variables	Unstandardized Coefficients (B)	Standardized Coefficients (Beta)	t	VIF	Tolerance
Constant	0.707	–	2.981	–	–
Performance Execution	0.262	0.250	5.109	1.494	0.669
Performance Plan	0.257	0.237	4.703	1.583	0.632
Performance Evaluation	0.191	0.191	3.952	1.459	0.685
Performance Feedback	0.126	0.126	2.574	1.482	0.675
R^2 = 0.389, Adjusted R^2 = 0.383, F (4, 380) = 60.573, p = 0.000, D-W = 1.917. p<0.05					

From the above table, we can see that the model equation is: External motivation = 0.707 + 0.257 × performance plan + 0.262 × performance execution + 0.191 × performance evaluation + 0.126 × performance feedback. The model R^2 is 0.389, indicating that the four links of performance management can explain 38.9% of the variation in external motivation, which has significant explanatory power. The adjusted R^2 is 0.383, and the model is robust. The F test results (F=60.573, Sig=0.000<0.05) show that the model is significant and the overall prediction effect is obvious. The VIF values are all less than 5, and there is no covariance problem; the D-W value is 1.917, close to 2, and the residual has no autocorrelation, which meets the basic prerequisites of linear regression analysis.

This study verified the relationship between the performance management process and work motivation through regression analysis and verified the research hypothesis and research framework through regression analysis, thus achieving the research purpose. In summary, the impact of performance planning on work motivation is statistically significant, indicating that performance planning has a strong effect on improving work motivation; the impact of performance execution on work motivation is statistically significant, indicating that performance execution has a strong promoting effect on work motivation; the impact of performance evaluation on work motivation is statistically significant, indicating that performance evaluation has a strong effect on improving work

motivation; the impact of performance feedback on work motivation is statistically significant, indicating that performance feedback has a strong effect on improving work motivation. This shows that by optimizing each link of the performance management process, teachers' work motivation can be effectively improved.

Conclusions and Discussion

This study aims to explore the relationship of the performance management process on teachers' work motivation and reveal the mechanism of action of each link. The following is a discussion of the findings of this study after combining the literature review.

This study explored in detail the status of the performance management process of teachers in Guangzhou Huashang College through questionnaire surveys and data analysis.

Teachers believe that the school will fully communicate when formulating performance plans, and they engage in the formulation of personal performance evaluation indicators. This is consistent with the research of Nielsen and Grøn (2021), which emphasizes the importance of communication and participation in the formulation of performance plans. Petrovych and Trut (2019) proposed that performance plans should be formulated based on employees' job requirements and personal goals to ensure that organizational goals are consistent with employees' work directions. The results of this study further verified this view, indicating that through full communication and participation, teachers' identification with goals and commitment to the organization are significantly enhanced. Teachers received support and guidance from their superiors during the performance execution process, which is consistent with the research of Musheke and Phiri (2021), indicating that effective performance execution can significantly enhance teachers' work motivation. Budhiraja (2022) pointed out that regular performance interviews and communication during performance execution can help superiors understand teachers' work progress in a timely manner and provide necessary resource support and work guidance. Teachers gave high evaluations on the fairness and accuracy of performance evaluation, which is consistent with the research of Dangol (2021), emphasizing the importance of multi-dimensional and multi-subject performance evaluation in improving teachers' motivation. Josika and Rathnakumar (2024) pointed out that performance feedback is a two-way process. By establishing a smooth performance feedback mechanism, it can connect organizational managers and employees and optimize the internal performance management process of the organization. The results of this study further verify this point.

This study explored the status of teachers' work motivation in Guangzhou Huashang College through questionnaire surveys and data analysis.

The results of this study are consistent with the PDCA cycle theory, emphasizing the continuous improvement and cyclical nature of the performance management process. Through the PDCA cycle, schools can better monitor the performance execution process, identify potential problems, and provide solutions in a timely manner (Bingqing & Lei, 2019). The four stages of the PDCA cycle are interrelated to form a closed loop to ensure the continuous optimization of the performance management process. The results of this study show that by participating in the formulation of performance goals, teachers' autonomy and identification with the goals are significantly enhanced, thereby improving their work motivation. Teachers are satisfied with the combination of performance evaluation results with promotion opportunities, performance bonuses, which is consistent with Rigby and Ryan (2018) self-determination theory, indicating that external incentives play a vital role in improving teachers' work motivation.

Research Limitation and Suggestion for Further Study

This study provides a new perspective for the study of the relationship between performance management process and teacher work motivation in the context of private colleges and universities. However, there are still some research areas that can be further explored.

This study has limitations in sample selection. Only teachers from Guangzhou Huashang College were surveyed by questionnaire. The sample range is narrow, and the generalizability of the research results is limited to a certain extent. It may not represent the situation of teachers in other regions and other types of colleges and universities. At the same time, this limitation may also affect the study of the relationship between performance management processes and teacher work motivation. Therefore, based on the results and limitations of this study, future research should focus on expanding the sample and incorporating more types of colleges and universities, such as public colleges and universities, vocational colleges, etc., to supplement the understanding of research variables and provide a more comprehensive perspective. In addition, this study also has limitations in data collection methods. If the data collection method is based on questionnaire surveys, it may not be possible to deeply understand the dynamic changes of performance management process on teacher work motivation and its causal relationship. In subsequent studies, a variety of data collection methods can be used, combined with questionnaire surveys, face-to-face interviews and other methods, to explore the impact of performance management process on teacher work motivation from different perspectives, so that the research results are more comprehensive, in-depth and accurate.

Abstract

This study investigates the relationship between compensation systems and employee performance in China's dynamically evolving information technology (IT) sector, with a specific focus on Wuhan as a regional innovation hub. Employing quantitative research, data were collected from 538 IT professionals through stratified sampling and validated questionnaires. The results indicate significant positive correlations between both monetary and non-monetary compensation and employee performance. Notably, non-monetary incentives, including career development opportunities and flexible work arrangements, exhibit a slightly stronger impact on contextual performance and goal achievement compared to monetary rewards. These findings contribute to theoretical frameworks by integrating Herzberg's Two-Factor Theory and Social Exchange Theory, offering actionable insights for optimizing talent retention and innovation in knowledge-intensive industries.

Keywords: Compensation, Employee Performance, Information Technology Industry

Introduction

China's information technology industry has developed rapidly, from software development to cloud computing, artificial intelligence, and other fields, and occupies a prominent position in the world with innovation and vitality (Li et al., 2019). In knowledge-intensive industries, the strong correlation between compensation and performance is particularly significant. The core competitiveness of enterprises depends on the efficiency of human capital, and the speed of employee knowledge iteration directly affects the product innovation cycle. The establishment of a performance-based compensation system becomes the key to the sustainable development of the industry (Li & Wang, 2024).

In the highly competitive environment of China's information technology industry, enterprises need to attract and retain high-quality talents. An effective incentive system is an important guarantee to achieve this goal. The compensation system should

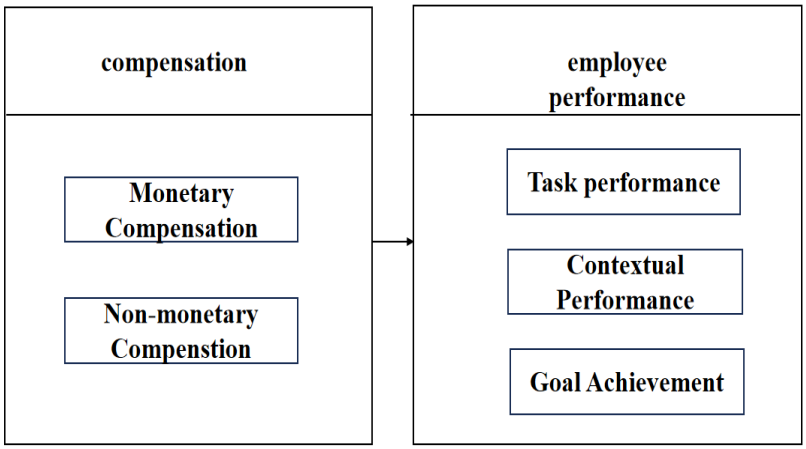
compensate employees for the time cost of learning modern technologies and encourage the transformation of knowledge achievements through performance (Bashir et al., 2020). Research shows that when more than a percent of compensation is tied to patent output and project milestones, R&D efficiency can be increased by a factor of 2.3 (Moustaghfir & Fatihi, 2020).

Taking China's information technology industry as the background, this study deeply discusses the impact of compensation on employee performance, aiming to provide enterprises with more effective human resource management strategies and incentive systems and provide policy recommendations for the government to promote sustainable and healthy development of the industry.

Objectives

1. To examine the effect of overall compensation on employee performance in the information technology industry.
2. To investigate the impact of monetary compensation on employee performance in the information technology industry.
3. To explore the impact of non-monetary compensation on employee performance in the information technology industry.

Literature Review, Theories, and Concept Framework



The compensation system refers to the sum of monetary and non-monetary compensation provided by a company to its employees, including basic salary, performance bonuses, and career development opportunities (Timilsina & Basnet, 2024). In China's IT industry, the compensation system needs to consider the speed of technology iteration and the premium price of talent in the market, and its structural design has a direct impact on the technological reserve capacity of the enterprise (Li & Wang, 2024).

Employee performance consists of three dimensions, task performance (core responsibility fulfillment), contextual performance (teamwork and innovation initiative), and goal achievement strategic target achievement rate), which are the key indicators to measure the contribution of knowledge workers (Kumar, 2024). The agile development model in the IT industry requires that performance evaluations dynamically reflect the contribution of the project (Chen, 2024).

The research shows that the compensation system has a significant impact on the performance of employees in China's IT industry. The dual incentive mechanism, which combines monetary and non-monetary compensation, effectively stimulates employees' performance. The results show that a transparent compensation policy is crucial to the sustainable development of a company (Liang et al., 2024).

Social exchange theory reveals the exchange relationship between employees and enterprises based on the principle of reciprocity, that is, the perception of fairness in the compensation system will directly affect employees' organizational loyalty and job performance (Cropanzano et al., 2021). Moreover, Herzberg's Two-Factor Theory divides the compensation system into health factors and incentive factors and promotes innovation performance through non-monetary incentives. Motivated employees promote productive engagement and improve performance and loyalty (Herzberg, 1959).

When employees in the information technology industry are satisfied with their compensation system, they are more likely to show higher performance and loyalty to the organization. To explore the relationship between the compensation system and employee performance, based on social exchange theory (SET) and Herzberg's two-factor theory, this study proposes the following research frameworks and hypotheses:

H1: Compensation of employees in the information technology industry has a positive effect on employee performance.

H2: Monetary compensation for employees in the information technology industry has a positive effect on employee performance.

H3: Non-monetary compensation of employees in the information technology industry has a positive effect on employee performance.

Materials and Methods

This study utilized a quantitative research methodology and surveyed a total of 42,059 employees in the information technology industry in Wuhan, China. A robust sample size of four hundred was determined based on Yamane's formula (Yamane, 1973). To achieve a 70% return rate, 571 questionnaires were distributed to the target employees. Such a sample size ensured high statistical power and generalizability of the findings. Random stratified sampling method was used in this study to increase the

representativeness of the sample and reduce potential sampling bias.

An online survey tool was used to collect data, and the questionnaire was emailed to the target population. The survey was conducted over two weeks to allow sufficient time to collect responses. A total of 538 valid responses were received, representing a 94.2% response rate. The data were then analyzed using the SPSS program; descriptive statistics were used to summarize the data, Pearson's correlation was used to assess the relationship between variables, and multiple regression analysis was used to evaluate the research hypotheses. The reliability of the questionnaire was scored as 0.925 by Cronbach's alpha. The validity of the questionnaire was assessed using the Index of Content Validity (IOC), which was assessed by five reviewers and scored 0.90. This indicates the high internal consistency of the scales.

The questionnaire scoring and interpretation criteria were based on a Likert scale, which permits the conversion of respondents' answers into numbers for statistical analysis. The questionnaire was rated on a 5-point Likert scale ranging from “1 = Strongly Disagree” to “5 = Strongly Agree”. The scale was categorized as 4.21 - 5.00 for strongly agree and 3.41 - 4.20 for agree. Scores ranging from 2.61 to 3.40 indicate neutrality, while scores ranging from 1.81 to 2.60 indicate disagreement.

Results

1.Descriptive Statistics on Compensation And employee performance

Table 1: Monetary Compensation Variable Distribution

Statement	Mean	Stardad deviation	Level of perception
Monetary Compensation	3.517	0.922	agree
1. I am satisfied with the monetary compensation I receive for my work.	3.511	1.155	agree
2. The salary and benefits package offered by my employer meets my financial needs.	3.528	1.169	agree
3. My pay reflects the level of effort and skill required for my position.	3.472	1.137	agree
4. My employer provides competitive financial incentives that motivate me to perform well.	3.53	1.15	agree
5. My employer provides competitive financial incentives that motivate me to perform well.	3.546	1.161	agree
Non- Monetary Compensation	3.459	0.910	agree
6. I am satisfied with the non-monetary compensation I receive for my work.	3.515	1.155	agree
7. I feel valued by the additional benefits and benefits, such as flexible working hours and	3.396	1.169	agree

Statement	Mean	Stardad deviation	Level of perception
remote work options.			
8. My workplace environment and culture contribute positively to my overall job satisfaction.	3.463	1.137	agree
9. I appreciate the support and resources available for maintaining a healthy work-life balance.	3.435	1.15	agree
10. Consistently meet or exceed the performance targets set for my role.	3.489	1.161	agree
Compensation	3.487	0.916	agree

Table 1 shows that the average values of monetary and non-monetary compensation are 3.517 and 3.459, respectively, and the average value of overall compensation is 3.487. On a 5-point scale, these values are between 3.41 - 4.20, indicating that employees in the IT industry agree with their compensation.

Table 2: Descriptive statistics for employee performance

Statement	Mean	Standard deviation	Level of perception
Task Performance	3.517	0.880	agree
11. I effectively manage my workload and complete tasks on time.	3.507	1.129	agree
12. I feel confident in my ability to execute my job responsibilities proficiently. needs.	3.526	1.1	agree
13. My performance has positively contributed to the overall success of my team.	3.483	1.106	agree
14. I regularly seek feedback to improve and enhance my task performance	3.513	1.122	agree
15. I actively support and assist my colleagues when they need help.	3.554	1.155	agree
Contextual performance	3.493	0.891	agree
16. I actively support and assist my colleagues when they need help.	3.509	1.155	agree
17. I contribute positively to the overall team spirit and workplace morale.	3.483	1.126	agree
18. I consistently go beyond my job duties to benefit the organization.	3.474	1.12	agree
19. I adapt well to changes and am flexible in handling new challenges.	3.504	1.092	agree
20. I am taking the initiative to improve processes and suggest innovative solutions.	3.493	1.152	agree
Goal achievement	3.517	0.893	agree
21. I consistently set clear and specific goals	3.491	1.158	agree

Statement	Mean	Standard deviation	Level of perception
for myself and create detailed plans to achieve them.			
22. I consistently set clear and specific goals for myself and create detailed plans to achieve them.	3.511	1.166	agree
23. I regularly track my progress towards my goals and adjust my strategies as needed to stay on course.	3.476	1.105	agree
24. I regularly track my progress towards my goals and adjust my strategies as needed to stay on course.	3.545	1.125	agree
25. I prioritize my goals effectively and manage my time well to ensure that I can accomplish what I set out to do.	3.536	1.112	agree
Employee performance	3.509	0.888	agree

Table 2 shows that the average values for task performance, contextual performance, and goal achievement are 3.517, 3.493, and 3.517, respectively, while the overall average for employee performance is 3.509. On a 5-point scale, these values are between 3.41 - 4.20, indicating that employees' self-evaluation of their work performance is agreeable.

2. Correlation Analysis

This study explores the relationship between compensation and employee performance. The results of the correlation analysis are shown in the table below:

Table 3: Correlation between compensation employee and performance.

Variables	Mean	Stardard deviation	Compensation	Employee Performance
Compensation	3.488	0.781	1	
Employee Performance	3.509	0.695	0.735**	1

Table 3 shows that the mean value of compensation is 3.488 and the standard deviation is 0.781. The mean of performance value is 3.509, the standard deviation is 0.695, and the correlation coefficient between compensation and employee performance is 0.735, which is also highly significant (** denotes $p<0.01$), indicating that there is also a strong positive correlation between compensation and employee performance. The higher the compensation, the higher the employee performance.

Table 4: Relationship between compensation and employee performance

	X1.1	X1.2	Y
X.1.1 Monetary Compensation	1		
X.1.2 Non-Monetary Compensation	0.452**	1	
Y employee performance	0.622**	0.631**	1

As can be seen from the table, the correlation coefficients of non-monetary compensation and employee performance are 0.452 and 0.622, respectively ($p<0.05$), indicating that non-monetary compensation and Y are positively correlated, and the correlation coefficient of non-monetary compensation and employee performance is 0.631 ($p<0.05$). On the surface, there is a significant positive correlation between the two; that is, the higher the compensation, the higher the performance of employees.

3. Regression Analysis

Table 5: Regression analysis of Compensation on employee performance

Variables	Unstandardized Coefficients		Standardized Coefficients	t	Sig.	VIF
	B	Std. Error	Beta		0.000**	
Constant	1.225	0.093	-	13.141	0.000**	-
Monetary Compensation	0.319	0.025	0.424	12.897	0.000**	1.257
Non-Monetary Compensation	0.335	0.025	0.439	13.379	0.000**	1.257
R2=0.541, Adjusted R2=0.539, F=315.091 sig.=0.000**						

The F statistics are 315.091, and the corresponding p-value is 0.000, which is far less than 0.05, indicating that the model is significant. The coefficient of monetary compensation correlation factor is 0.319, the standard error is 0.025, the standardization coefficient (Beta) is 0.424, the t value is 12.897, and $p<0.001$. The results show that monetary compensation-related factors have significant positive effects on employee performance. The non-monetary compensation factor coefficient is 0.335, the standard error is 0.025, the standardization coefficient (Beta) is 0.439, the t value is 13.379, and $p<0.001$, indicating that non-monetary compensation also has a significant positive influence on employee performance.

Conclusions and Discussion

In this study on the impact of compensation on employee performance in China's information technology industry, three hypotheses are assessed. These findings not only enrich the theoretical framework but also provide important guidance for practice.

H1 results show that compensation level significantly improves employees' job satisfaction, which is consistent with previous studies emphasizing the role of salary in

knowledge-intensive industries (Li et al., 2019). H2 and H3 results show that monetary compensation (such as performance bonuses, and project awards) and non-monetary compensation (such as career development opportunities, and flexible working systems) have a significant impact on employees' performance. This is consistent with the view of social exchange theory (Cropanzano et al., 2017) that reasonable x incentives can enhance organizational loyalty and job performance of employees. Specifically, monetary compensation can effectively promote task performance, while non-monetary compensation is more conducive to promoting contextual performance and goal achievement.

The study confirmed that compensation significantly impacts IT employee performance. Monetary compensation enhances task performance, while non-monetary compensation improves contextual and purposeful performance. This highlights the need for a balanced compensation strategy. The findings align with and extend prior research, offering practical implications for optimizing compensation structures.

Practical implications for enterprises include developing comprehensive compensation packages, ensuring compensation fairness, personalizing compensation strategies, and linking compensation to performance. Alongside organizational measures, institutions and the government may significantly enhance the connection between compensation and employee performance in China's information technology sector. Policymakers must contemplate the formulation of industry-specific compensation standards that foster equitable and competitive practices among firms, guaranteeing that employees get sufficient remuneration commensurate with their talents and contributions. Moreover, providing tax incentives to firms that develop complete and creative pay packages, particularly those that include monetary and non-monetary elements, might promote wider implementation of best practices.

Governmental endorsement of professional development initiatives, including subsidies for technical training or leadership enhancement, would augment non-monetary compensation measures and further elevate employee competencies and motivation. Furthermore, implementing policies that enhance transparency and equality in pay frameworks may mitigate salary discrepancies and cultivate a more content and engaged workforce. These policy-level actions would enhance organizational performance and foster the sustainable expansion of the information technology sector overall.

Future research could extend the investigation of compensation impacts across various stages of enterprise development, diverse industries, and broader regional contexts. It would also be valuable to incorporate additional factors such as organizational culture and leadership style, and to address methodological limitations, particularly the use of self-reported data and the restricted generalizability of findings from a single-city sample.

Abstract

With increasing higher education, this study considers how teachers' pay satisfaction (level, raises, benefits, structure) influences work engagement in Guangzhou Huashang University, a private university with prevalent issues of dissatisfied pay and ambiguous structures. A quantitative questionnaire survey of 311 teachers employed descriptive and analysis correlation analysis. All pay satisfaction dimensions and results were moderately to strongly positively correlated with work engagement, with the strongest results for the pay level dimension. The solutions suggested are to pay structure with higher clarity, performance pay and other. These outcomes create actionability for Guangzhou Huashang University and other private universities to refine their compensation policies and HR management.

Keywords: Pay Satisfaction, Work Engagement, Maslow's Hierarchy of Needs Theory, Equity Theory, Expectancy Theory

Introduction

Work engagement with commitment, dedication, and enthusiasm is central to organizational success as it reduces turnover and enhances performance. Pay satisfaction, based on Maslow's theory of fundamental needs, has a direct impact on engagement through fulfillment of material and psychological needs (Taormina & Gao, 2013). The COVID-19 pandemic deepened wage precariousness, which makes decent pay policies essential (ILO, 2020). In China, 60% of university teachers are dissatisfied with their salaries due to workload-cost-of-living disequilibria and opaque pay structures (Chinese Ministry of Education, 2022). Satisfied employees exhibit higher work attachment and loyalty and lower turnover intentions (Jung & Yoon, 2015).

Guangzhou Huashang University, which comes 14th in China's 2024 private college research competitiveness ranking, is a microcosm of the difficulties that China's 'Double First Class' policy faces in higher education. The case of Guangzhou Huashang University with its heterogeneous teachers (both the local and international teachers) and focus on practical education is a convincing case to analyze pay satisfaction in private universities.

Based on China's higher education sector, this research fills the knowledge gaps regarding the impact of pay systems on engagement. This research will serve to provide compensation reforms and HR practices at Guangzhou Huashang University and other institutions like theirs, as well as national efforts to improve teachers' well-being, and increase institutional competitiveness.

Objectives

As compensation becomes increasingly important for both teachers and higher education institutions, understanding its influence on various aspects of employment is crucial. The study objectives are as follows:

1. Explaining the levels of pay level, pay rise, benefits, and pay structure satisfaction at Guangzhou Huashang University.
2. To explore the level of employee work engagement at Guangzhou Huashang University.
3. To examine the relationship between Pay satisfaction and employee work engagement at Guangzhou Huashang University.

Concept theory framework

Concept and Measurement of Pay Satisfaction

Pay satisfaction is a key motivator and retention driver of employees. Lawler (1971) formulated construction as employees' satisfaction with their pay in fairness and adequacy. Heneman and Schwab (1985) extended it by formulating a multidimensional measure, e.g., pay level, pay rises, benefits, and pay structure. Subsequent studies (e.g., Singh & Loncar, 2010; Jung & Yoon, 2015; Alam, 2022) emphasized its impact on work engagement and turnover intention.

Pay Satisfaction Questionnaire (PSQ) is the most common measuring tool, assessing satisfaction in all four facets (Heneman & Schwab, 1985). The PSQ has also been established to be valid across various industries like healthcare and education (Khalid, 2020; Alam, 2022). In the current study, PSQ will be utilized to measure pay satisfaction and its impact on employee outcomes.

Concept and Measurement of Work Engagement

According to Kahn (1990), work engagement is the employees' integration of

identity with their work role, their investment of emotions, cognitions, and physicality in their work role. In this case, Schaufeli et al. (2002) described this as a positive state having vigor, dedication, and absorption. High energy and resilience equate to vigor, committed and enthusiast translates as dedication, absorption is deep focus. Work engagement improves job satisfaction, productivity, and engagement in workplace culture (Han & Wang, 2021; Corbeanu & Iliescu, 2023).

Schaufeli et al. (2006) developed the Utrecht Work Engagement Scale (UWES), which they later refined to a 9-item version for measurement of work engagement. Further, based on confirmatory factor analysis, validity and reliability were performed for the tool across different countries. In Viljevac et al. (2012), they also compared numerous scales, but it was UWES more effective. This study uses the UWES-9 given that it has strong psychometric properties.

Maslow's Hierarchy of Needs Theory

According to Maslow's theory, the needs of human behavior are on the level of Maslow's hierarchy with physiological, safety, social, belonging, esteem, and self-actualization (Maslow, 1943). When lower-level needs are met, the people try to meet up the higher-level needs (Trivedi et al., 2019). In the workplace, inadequate pay might lessen employees' motivation (Li, 2022) as they cannot meet their basic needs. The hierarchy is supported by empirical studies which reveals that motivation (Taormina & Gao, 2013) correlated positively with need satisfaction.

Equity Theory

In Adams' (1965) equity theory, Adams argues that the perceived fairness in compensation is something that employees would compare their amount of input to reward to how much others receive on average to measure equity. If there appears to be an imbalance, dissatfullment and effort can be reduced (Adams & Jacobson, 1964). Low pay satisfaction regarding Chinese teachers is related to poor correlation between effort and compensation (Meng, 2022). Fair pay distribution hence also means a key element of employee motivation and retention.

Expectancy Theory

According to Vroom's expectancy theory, motivation is related to expectancy, instrumentality, and valence (Vroom, 1964). Quite simply, employees exercise effort when they think that effort leads to performance and its rewards. Xu and an (2016) suggested strengthening these relationships through a fair reward system and well optimized work environment. In a study by Saeed et al. (2023), it is inferred that higher pay is associated with reduced turnover intention. This theory stresses how drawing employee expectations in straight line and infusion of employee incentives contribute to motivation and employment satisfaction.

Relationship between Pay Satisfaction and Work Engagement

Pay satisfaction has a strong impact on employees' work engagement, motivation, and organizational commitment. Maslow's hierarchy indicates that pay satisfaction guarantees employees' lower-level physiological and safety needs, which will allow them to strive for upper-level objectives like self-actualization. Additionally, Adams's equity theory describes that perceptions of fair pay have a significant impact on employees' behaviors and attitudes, and therefore their work engagement (Sypniewska et al., 2023).

In the academic field, pay satisfaction is not only a function of pay levels but also of openness and fairness in pay structures. Memon et al. (2021) confirmed that work satisfaction with training and performance appraisal results in work engagement, reducing intention to leave. Satisfaction with pay level has a positive correlation with work engagement because employees satisfied with their pay level are more enthusiastic about work (Jung & Yoon, 2015). Also, periodic salary raises, and performance-based allowances enhance economic security, increasing engagement (Memon et al., 2017). Allowances also make a significant contribution to pay satisfaction and work engagement (Ekinci, 2022). Finally, open, and fair compensation systems promote trust, and this also increases engagement (Alam, 2022).

Consistent with these findings and drawing on Maslow's hierarchy of needs, equity theory, and expectancy theory, this study examines how pay satisfaction influences work engagement. Maslow's theory links basic needs to engagement, equity theory focuses on fairness perceptions, and expectancy theory highlights reward expectations. These theoretical frameworks provide a foundation for exploring how pay level, pay increases, benefits, and pay structure impact the work engagement of faculty and staff at Guangzhou Huashang University. The research formulates the following hypotheses:

H1: There is a statistically significant relationship between pay level and work engagement among faculty and staff of Guangzhou Huashang University.

H2: There is a statistically significant relationship between the pay increase of faculty and staff of Guangzhou Huashang College and work engagement.

H3: There is a statistically significant relationship between the benefits of faculty and staff of Guangzhou Huashang College and work engagement.

H4: There is a statistically significant relationship between the pay structure of faculty and staff of Guangzhou Huashang University and work engagement.

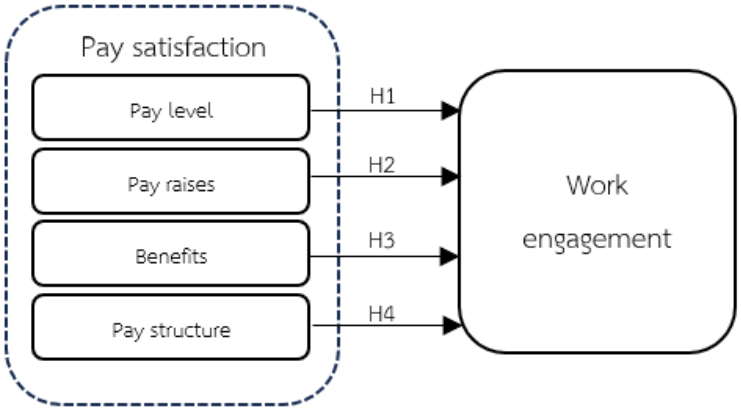

Figure 1: Conceptual Framework

Materials and Methods

Quantitative research design was employed in this study to examine the relationship between pay satisfaction and work engagement among Guangzhou Huashang University's faculty and staff. 311 participants, who were recruited by stratified sampling from 12 secondary colleges, were surveyed using a questionnaire survey. The sample size was taken from a total population of 1,400 faculty and staff, and a margin of error of 5% was applied based on the Yamane formula. Both online (on QQ and WeChat) and offline (on site) data were collected with a 99.7% response rate (311 valid responses among a total of 320). Two parts of the survey were included: (1) Demographics (gender, age, work experience, education, and income) and (2) Pay satisfaction and work engagement scales.

Pay satisfaction was evaluated on a new Pay Satisfaction Questionnaire (PSQ) containing 16 items across four dimensions (pay amount, pay rise, benefits, and pay structure). Work engagement was evaluated with the Utrecht Work Engagement Scale (UWES-9), assessing vigor, dedication, and absorption with a 5-point Likert scale (1 = Strongly Disagree to 5 = Strongly Agree). Validity was achieved through expert review and pre-testing, and Cronbach's Alpha confirmed high reliability (0.845–0.936 for single scales, 0.975 overall). Data analysis, including descriptive analysis, correlation analysis, to examine the correlations between pay satisfaction dimensions and work engagement was conducted using SPSS.

Results

This study distributed 320 questionnaires, collecting 311 valid responses. The respondents were mostly young males, aged 25 to 35, with moderate work experience and an important level of education. Their salaries were primarily in the medium-to-low range. Overall, respondents expressed high satisfaction with their current pay level, with

an average score of 3.51 (SD= 1.31). Satisfaction with pay raises was high, with an average score of 3.50 (SD = 1.22), indicating a strong belief that pay is proportional to effort. Satisfaction with benefits was slightly lower at 3.53 (SD = 1.25), while satisfaction with the pay structure was 3.52 (SD = 1.27). Regarding work engagement, the average score was 3.54 (SD = 1.26), reflecting a cheerful outlook toward work, with respondents feeling energetic, enthusiastic, inspired, and able to maintain high focus even under pressure.

Before performing correlation analysis, the Kolmogorov-Smirnov test results indicate that all variables (pay level, pay raises, benefits, pay structure, and work engagement) significantly deviate from a normal distribution ($p < 0.05$). This suggests potential non-normality in the data. Given this, the study employed Spearman's rank correlation to ensure reliable analysis of the relationships between pay satisfaction dimensions and work engagement.

Table 1: Correlation analysis test

	X1	X2	X3	X4	Y
X1: Pay level	1.000				
X2: Pay raises	0.512**	1.000			
X3: Benefits	0.620**	0.636**	1.000		
X4: Pay structure	0.634**	0.532**	0.577**	1.000	
Y: Work Engagement	0.940**	0.604**	0.607**	0.599**	1.000

**Correlation is significant at the 0.01 level (2-tailed).

Correlation analysis indicated that pay satisfaction dimensions were all positively correlated with work engagement. Correlation between pay level and work engagement was 0.940 ($p < 0.01$), indicating a near perfect positive correlation. Pay raises were also highly correlated with work engagement (0.604, $p < 0.01$), which indicates its direct effect. In addition, benefits (0.607, $p < 0.01$) and pay structure (0.599, $p < 0.01$) were positively correlated with work engagement, suggesting that increased levels of these factors enhance employee commitment. These findings demonstrate how a good compensation system is a key factor in the function of motivating employees to be more engaged and committed. The hypothesis test determined that all pay satisfaction dimensions—pay level, pay raises, benefits, and pay structure were statistically correlated with work engagement.

Thus, H1-H4 are confirmed, indicating a statistically significant relationship between pay satisfaction (including pay level, pay rises, benefits, pay structure) and work engagement among Guangzhou Huashang University teachers.

Conclusions and Discussion

The respondents expressed general satisfaction with the company's compensation policies, including pay level, pay raises, benefits, and pay structure. They are satisfied with the pay level, believing that pay rises align with performance and market levels, and that the benefits offered are diverse and valuable. However, concerns about pay discrepancies for the same position and dissatisfaction with recent pay raises highlight areas for improvement. While the benefits are appreciated, some respondents feel they do not fully meet personal needs, and there is slight dissatisfaction with the pay structure. Despite these concerns, respondents demonstrate high work engagement, feeling energetic, enthusiastic, and proud of their work, maintaining a cheerful outlook under pressure, which contributes to improved work performance and company growth.

The results from this study suggest that there is a significantly strong relationship between pay satisfaction and work engagement among teachers, with pay level being the most important determinant. These results highlight the significance of a well-structured and transparent pay system in encouraging faculty engagement in higher education institutions. It is confirmed by the study that teachers who are satisfied with their pay are more enthusiastic and dedicated to their work. This echoes past work such as Jung and Yoon (2015) who found that work engagement is positively linked to pay satisfaction. Additionally, the findings reveal that satisfaction with pay raises and benefits is another principal factor, making clear that universities should rely on a balance of current salaries and end payback period to long-term growth opportunities in the design of their compensation policies. From a practical point of view, pay transparency, performance-based compensation and different incentive structures for faculty demographics and disciplines should be adopted by the higher education Institutions. Another way is to improve communication on pay policies and benefits to increase faculty engagement and retention.

In total, this study is particularly useful in elaborating on the link between pay satisfaction and work engagement that can inform universities to shape strategic HRM policies to strengthen a motivated faculty workforce.

Abstract

This article examines the determinants of Guangzhou X Vocational College teachers' job satisfaction. Understanding the determinants of teacher satisfaction is essential for improving their work experience and institutional support. Using a quantitative approach, data were collected through a questionnaire incorporating Hagedorn's Job Satisfaction Theory and Social Exchange Theory (SET) with 304 teachers. The analysis conducted using descriptive statistics, correlation analysis, and ANOVA, revealed that salary, career growth, and management support positively impact job satisfaction, whereas work stress negatively impacts job satisfaction. Additionally, demographic factors such as experience, education, and academic rank strongly influence satisfaction levels. The research suggests the need to enhance management support, refine salary structures, and alleviate work stress to improve teacher retention and institutional quality. These findings provide valuable insights for policymakers and administrators in supporting teacher satisfaction and institutional development.

Keywords: Teachers' Job Satisfaction, Hagedorn's Theory, Social Exchange Theory

Introduction

Teacher job satisfaction is a vital aspect of career development, students' academic success, and overall educational quality (Toropova, Myrberg, & Johansson, 2020). Teachers who are more satisfied in their job have been shown to have heightened motivation, enhanced teaching quality, and result in improved student performance (Wartenberg et al., 2023). Because it is so essential, its determinants must be understood to achieve greater teacher retention and institutional performance.

Conceptual frameworks such as Hagedorn's Theory of Job Satisfaction and Social Exchange Theory (SET) explain these. Hagedorn's theory focuses on remuneration, career development, and organizational support as the key drivers of job satisfaction (Kuo et al.,

2022). SET, in contrast, explains the influence of perceived justice and reciprocity in work relationships on levels of satisfaction (Huo et al., 2022). Current studies emphasize the impact of post-pandemic concerns on teacher job satisfaction, retention, and institutional stability (Zhang, 2020).

Guangzhou X Vocational College serves as the research site for this analysis because it operates as a private institution with 1,267 instructors and 30,000 students (Guangzhou X Vocational College, 2024). The study area of teacher satisfaction specifically focused on vocational colleges within Guangzhou remains poorly documented in academic literature. While job satisfaction has been widely studied, research focused on vocational colleges remains limited, particularly in Guangzhou, and existing studies often overlook the unique work environment and challenges of vocational institutions. The research combines Hagedorn's theory together with SET to produce results that will guide educational administrators and policy development in enhancing teacher contentment and institutional durability.

Objectives

As the rapid growth of education, the job satisfaction of teachers has been increasingly emphasized. This research attempts to explore and study the situation of jobs satisfaction and influencing factors of the teachers in Guangzhou X Vocational College. Specific objectives are:

1. To explore the job satisfaction among teachers in Guangzhou X Vocational College.
2. To examine the relationship between factors and job satisfaction among teachers in Guangzhou X Vocational College.
3.

Concept Theory Framework

Hagedorns' theory of teachers' job satisfaction

Hagedorn's theory focuses on the impact of job satisfaction on the work behavior of teachers, noting such variables as salary, career development, working environment, stress, management support, social recognition, and psychological rewards (Kuo et al., 2022). As satisfaction rises, so does involvement and effectiveness, and as satisfaction declines, disengagement and lower performance occur (Li, 2019). This theory has been applied in research to make sense of various environments, and the results have pointed out significant factors that affect teacher satisfaction such as interpersonal relationships, recognition, and self-actualization (Hou & Gumban, 2023). These factors enable institutions to develop interventions that increase job satisfaction to the advantage of both teachers and learning quality.

Social Exchange Theory

Social Exchange Theory (SET) explains teachers' job satisfaction as a balance between rewards and inputs (Homans, 1958). These are salary, career development, working environment, and pressure (Emerson, 1976). Satisfaction is greater when rewards match expectations but less when they fall short of expectations (Zhu et al., 2020). New SET developments highlight cultural and contextual considerations, which are significant to understanding private university teachers in Guangzhou (Chen et al., 2020). By analyzing reward-effort balance and social rewards, SET provides a comprehensive framework for improving teachers' job satisfaction and developing targeted improvement strategies (Li & Bagger, 2023).

Period Research

Teachers' satisfaction as a research topic within educational psychology reflects teachers' emotional response to the work environment and to the role of teachers. Teachers' job satisfaction includes several different variables including satisfaction with colleagues, students, and the entire school climate. Effective teacher retention and school effectiveness will not be possible without understanding and measuring TJS. Diverse ways have been proposed for early studies to define teachers' satisfaction. Salary, career development, work environment, stress, management support and rewards are determinants of teacher job satisfaction (Toropova et al. 2020). The combination of fair compensation, career development and a supportive work environment makes employees satisfied (Wang et al., 2019). Management support and work stress negatively correlate with well-being (Liu & Zhang, 2022; Lee et al, 2021) and positively correlate with motivation. Social and psychological rewards do play a key role (Zhang, & Chen, 2021). This research studies these factors in private universities.

Concept and Measurement of Teachers' Satisfaction

Teachers' Job Satisfaction is a teacher's response to work, and it relates to the teachers' retention and performance. Teachers' job satisfaction is a positive emotional state as defined by Locke (1969) and Vroom (1982), it is influenced by salary, career growth and management support (Klassen et al., 2020; Liu et al., 2021). In a complete sense, it is multidimensional i.e., work conditions, relationships, and fulfillment. The study found that interpersonal relationships and school management have a remarkably high impact on satisfaction (Lopes and Oliveira, 2020; Zhu, 2023). A questionnaire is used to assess Teachers' Job Satisfaction in private universities.

Relationship between Factors and Teachers' Job Satisfaction

Research consistently finds a high correlation between salary packages and teacher job satisfaction. Higher salaries not only increase job satisfaction but also reduce teacher turnover (Smith, 2023). Zhang (2023) found a high positive correlation between salary and

teachers' overall satisfaction, adding that fair and transparent remuneration systems are key drivers of satisfaction. Performance bonuses and welfare benefits also enhance job satisfaction (Lee, 2021; Li, 2022).

H1: Salary and benefits positively influence teachers' job satisfaction.

Professional growth activities have high correlations with rising job satisfaction (Smith, 2023). Teachers who engage in continuous training have better job commitment and are more a part of their institutions (Lee & Kim, 2021). Moreover, having tools for professional development and promotion opportunities lifts teachers' overall satisfaction (Johnson, 2022).

H2: Career development opportunities positively influence teachers' job satisfaction.

An environment of support in the workplace is important for job satisfaction among teachers. Support from colleagues, administration, and having sufficient teaching resources to work with play a key role in increasing satisfaction levels (Johnson, 2022; Smith, 2023). Teachers who feel supported by the school administration are also more job-satisfied (Williams, 2021).

H3: Work environment positively influences teachers' job satisfaction.

Severe work stress negatively affects job satisfaction. Studies discovered that workload overexertion, clerical pressures, and burnout lead to decreased satisfaction and turnover intentions (Kyriacou & Sutcliffe, 1979; Wang et al., 2020). Work stress management has the potential to alleviate its ill effects on teachers' jobs and boost rates of teacher retention (Johnson & Lee, 2022; Wang & Chen, 2021).

H4: Work stress negatively influences teachers' job satisfaction.

Evaluative administrative support, including administrative assistance and organizational justice, also plays a key role in improving job satisfaction for teachers (Wang & Zhou, 2022; Çelik & Kalkan, 2022). Teachers perceiving strong organizational support indicate more satisfaction, besides reduced work-stress (Toropova et al., 2020).

H5: Management support positively influences teachers' job satisfaction.

Social rewards, including peer recognition and community support, are positively correlated with teachers' job satisfaction (Yang et al., 2022). Individualized reward programs enhance work satisfaction and overall work performance (Rokeman, Kob, & Sobry, 2023). Additionally, a proper reward system and positive school culture are also accountable for increased satisfaction (Syahmalini, Alawi, & Ariyadi, 2022).

H6: Social rewards positively influence teachers' job satisfaction.

Psychological rewards, such as intrinsic motivation, emotional fulfillment, and positive student-teacher relationships, play a significant role in teachers' job satisfaction (Wartenberg et al., 2023). Satisfied and valued teachers are more content and more

dedicated to their work. Moreover, good student relationships lead to heightened job satisfaction and professional identity.

H7: Psychological rewards positively influence teachers' job satisfaction.

Research Framework

Hagedorn's job satisfaction theory for teachers and Social Exchange Theory (SET) are used in this study to determine significant determinants. Hagedorn (2000) has developed her model including extrinsic and intrinsic factors such as salary and benefits, career development, and organizational support. Blau (1964); Emerson (1976) explains how mutual exchanges, such as managment support recognition, can increase satisfaction. Numerous studies (Cropanzano & Mitchell, 2005; Gouldner, 1960) have confirmed the fact that supportive climates and recognition increase satisfaction and commitment. Based on this the study proposes relationships and work-related variables and the job satisfaction of teachers (Wang, 2021; Zhou and Li, 2020).

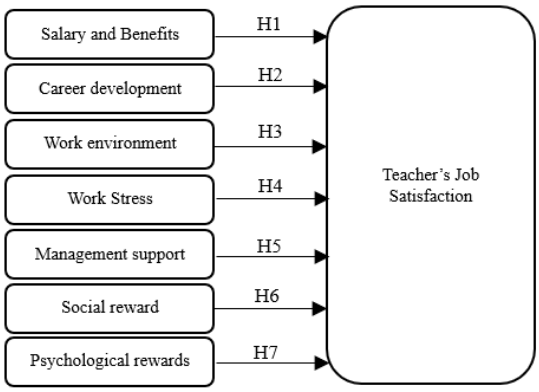

Figure 1: Conceptual framework

Materials and Methods

The study designed a questionnaire based on Hagedorn's teacher job satisfaction theory and social exchange theory to explore the influencing factors of teacher satisfaction in Guangzhou X Vocational College. The evaluation system comprises three major indicators: personal information, job satisfaction factors, and overall job satisfaction. Salary, career development, work environment, work pressure, management support, and social and psychological rewards are the independent variables. The study focuses on teachers from Guangzhou X Vocational College, including 1,267 full-time teachers from 10 secondary colleges and two teaching departments. A sample size of 304 was determined using Yamane's formula with a 5% sampling error. Data is collected through an online survey from 304 teachers using stratified sampling and SPSS 26.00 for analysis.

A 5-point Likert scale is used to measure responses, whereas statistical means include correlation analysis. Validity testing with Cronbach's Alpha guarantees high internal consistency (overall α = 0.959). Expert assessment and content validity testing establish reliability. The findings confirm the strength of the questionnaire for further analysis and hypothesis testing.

Results

This study analyzed 304 respondents, with a balanced gender distribution: 48.7% male and 51.3% female. The majority are married, suggesting family roles may influence job satisfaction. Most respondents are aged 40-50 with substantial teaching experience, particularly those with 11-15 years. Educationally, 46.7% hold a bachelor's degree, and 45.4% hold a master's degree. The largest group is lecturers, followed by associate professors. Overall, the sample is diverse, experienced, and highly educated, providing valuable insights into the research themes.

The study assessed normality using the Shapiro-Wilk or Kolmogorov-Smirnov test, revealing that all variables (X1 to X7 and Y) failed ($p < 0.000$), indicating non-normal distribution. Consequently, Spearman's rank correlation, a non-parametric method, was used to assess the strength and direction of relationships without assuming normality.

Table 1: Correlation analysis test

	X1	X2	X3	X4	X5	X6	X7	Y
X1: Salary and benefit	1.000							
X2: Career development	0.568**	1.000						
X3: Work environment	0.572**	0.568**	1.000					
X4: Work stress	0.578**	0.526**	0.556**	1.000				
X5: Management support	0.546**	0.499**	0.513**	-0.557**	1.000			
X6: Social reward	0.504**	0.576**	0.567**	-0.519**	0.495**	1.000		
X7: Psychological rewards	0.491**	0.581**	0.502**	-0.551**	0.451**	0.574**	1.000	
Y: Teachers' job satisfaction	0.544**	0.541**	0.453**	-0.551**	0.579**	0.538**	0.535**	1.000

**Correlation is significant at the 0.01 level (2-tailed).

This study explores the relationship between independent variables (X1 to X7) and job satisfaction of teachers (Y). The results confirm that all hypotheses are true. Support from management (0.579, $p< 0.01$) is the highest positive indicator, followed by salary and benefits (0.544 $p< 0.01$), career development (0.541 $p< 0.01$), social rewards (0.538 $p< 0.01$), and psychological rewards (0.535 $p< 0.01$). The work environment (0.453 $p< 0.01$) also exerts a moderate positive influence, while work stress (0.551 $p< 0.01$) is negatively correlated with job satisfaction.

Based on these findings, all the hypotheses are supported, which assert that management support, salary and benefits, career development, social and psychological rewards, and work environment positively affect job satisfaction among teachers. On the

other hand, work stress has a negative effect on satisfaction, citing the need for more institutional support and stress management strategies.

Conclusions and Discussion

This study identified key factors influencing teacher job satisfaction, including salary and benefits, career development opportunities, work environment, work pressure, management support, and social and psychological rewards. Management support, salary and benefits, career development, and work pressure were the most critical variables. Consistent with Hagedorn's Theory and Social Exchange Theory (SET), external conditions and perceived fairness strongly impact satisfaction. Teachers who received fair salaries, clear career paths, and strong management support reported higher satisfaction levels, aligning with findings by Zhang (2023). Conversely, work stress negatively correlated with satisfaction, supporting Johnson and Lee's (2022) observation that excessive stress leads to burnout and reduced commitment. Additionally, social, and psychological rewards, such as recognition and respect, enhance intrinsic motivation and professional fulfillment. The results highlight the need for vocational colleges to prioritize improving organizational support, offering competitive salaries and benefits, providing robust career development opportunities, and fostering a positive work environment to boost teacher satisfaction and institutional quality. These findings deepen the understanding of teachers' professional experiences and offer practical strategies for enhancing educational stability and excellence.

The Influence of Perceived Fairness of Performance Appraisal on the Organizational Commitment of Employees in Company X

Yin Li[1*]

[1]Graduate student, Department of Management, Faculty of School of Accountancy and Finance, Walailak University.

[*]**Corresponding author, E-mail:** 380986010@qq.com

Abstract

In today's competitive business world, organizations are concerned with evaluating the performance of employees. A fair appraisal process has significant influences on organizational commitment. The relationship between perceived fairness of performance appraisals and employee commitment in Company X is explored in terms of three dimensions: distributive fairness, procedural justice, and interactional justice based on equity theory. Descriptive, correlation analysis and regression analysis were used based on 340 valid responses collected in a quantitative survey. These three factors have been found to influence organizational commitment, where procedural justice has the highest influence. Recommendations were proposed to enhance appraisal clarity, equate job workload, and establish transparency using manuals and seminars.

Keywords: Perceived Fairness of Performance Appraisal, Organizational Commitment, Equity Theory

Introduction

Perceived fairness of performance appraisals is crucial for organizational performance. If the process is perceived as fair by employees, they will be more likely to trust the organization, feel valued, and remain committed. This leads to higher motivation and effort. However, if employees perceive the appraisal process as unfair, it can lead to dissatisfaction, lower enthusiasm, and risk of turnover (Taneja et al., 2024). An equitable and truthful performance appraisal system solidifies workers' sense of belonging and company allegiance, making them more satisfied and trusting. In contrast, feelings of injustice have the effect of destroying relations and lowering confidence in the firm (Krishnan, Ahmad, & Haron, 2018). To Company X, China's premium liquor sector market leader, fairness in the process of performance appraisal is indispensable to maintaining the confidence and allegiance of employees. This assists in motivation, teamwork, and overall performance, which is essential in today's competitive business environment (Liao & Han, 2022). While general studies have explored performance appraisals and organizational

commitment, there is a research gap in understanding how perceived fairness specifically influences organizational commitment in Company X's context, particularly within the competitive and rapidly changing high-end liquor sector. As the world of work continues to become more dynamic and competitive, fairness in performance appraisals cannot be overemphasized in ensuring long-term success of the organization.

Objectives

Since the 21st century, companies have increasingly recognized the significance of performance appraisals and the crucial role that fairness plays in employee organizational commitment. Therefore, the research objectives of this article are as follows:

1. To explore the level of perceived fairness of performance appraisal including distributive justice, procedural justice, and interactional justice of employees in Company X.
2. To explore the level of organizational commitment of employees in Company X.
3. To investigate the relationship between the perceived fairness of performance appraisal and the organizational commitment of employees in Company X.

Accordingly, this article will try to offer meaningful perspectives into fairness within performance appraisals on shaping employee commitment that will contribute towards an effective base of knowledge about appraisal systems in organizational settings.

Concept Theory Framework

Concept of Perceived Fairness of Performance Appraisal

Perceived fairness of performance appraisal is the individual judgment of employees on fairness and objectivity of assessment procedures and outcomes, which has a significant contribution to job satisfaction, motivation, and commitment (Ushakov, 2021). Perceived fairness can result in enhanced trust in the firm, more value, and sustained participation among employees, whereas perceived unfairness can result in dissatisfaction and turnover (Kim & Rubianty, 2011; Jha & Ray, 2022). There are three dimensions of perceived fairness: distributive, procedural, and interactional justice (Greenberg, 1986; Petasis, 2020). Distributive justice concerns whether appraisal outcomes really capture employees' effort and contribution, and this supports commitment (McCain et al., 2010). Procedural justice concerns open and consistent evaluation processes, and this establishes trust even if the outcome is negative (Wang, 2020; Rowland & Hall, 2012). Interactional justice is about respectful communication and care in the case of assessments, promoting positive responses and long-term engagement (Van Berkel, 2021; Tarigan et al., 2023). Research indicates that when employees perceive fairness in all aspects, they report higher

motivation, performance, and organizational commitment (Iqbal et al., 2015; Wang & Li, 2022). Hence, organizations can improve workplace outcomes through a fair performance review, increased employee satisfaction, and more organizational trust.

Concept of Organizational Commitment

Organizational commitment serves as an important indicator of employees' dedication to stay with their company while showing future work commitment for long-term success in various fields. According to Allen and Meyer (1991) there are three developmental components of commitment. The emotional bond developed by employees to their organization under affective commitment results in higher job satisfaction and increased retention rates (Alrowwad et al., 2020; Shafazawana et al., 2016). Commitment to continuing results due to financial necessity or threat of benefits loss and as such holds onto the employees whether they have a significant positive attachment (Allen & Meyer, 1991). Commitment norm is based on ethical commitment where employees believe they have an obligation towards the organization for it to excel as it has invested in their careers (Soeling et al., 2021). High commitment is most important for roles like correctional officers because it enhances professionalism and reduces burnout (Lambert et al., 2020). High commitment also reduces turnover, which reduces recruitment costs and increases business viability (Chayomchai et al., 2023). It increases organizational culture, which improves cooperation and competitiveness. Thus, fostering commitment through decent work environment, fair benefits, and ethical values enhances employee retention and organizational success.

Equity Theory

Equity theory, developed by Adams (1965), explains how employees decide what is fair in performance appraisals by comparing their input-output ratios with others. Employees compare whether their effort, ability, and commitment (inputs) are proportionally rewarded with pay, praise, and promotion (outputs). Perceived fairness enhances motivation, commitment, and job satisfaction, but perceived inequity can lead to dissatisfaction, reduced effort, or turnover (Jang et al., 2021). Fair appraisals encourage participation and retention, but unfair appraisals can create withdrawal. Organisations can enhance fairness by being transparent, consistent, and involving workers in ratings (UshaKov, 2021). Equity perceptions influence distributive justice (fair outcomes) and procedural justice (fair procedures) and impact on workers' attitudes and actions. Social comparison is essential—dissatisfied workers who feel they are not treated fairly may attempt to compensate by performing at a lower level or leaving the organization (Krishnan et al., 2018). Successful appraisal activities must be with clear criteria, regular feedback, and open communication to address perceived inequalities (Mhlolo, 2014). When employees feel they receive equal treatment, they are more committed and

contribute to organizational success (Na-Nan et al., 2020). Therefore, it is critical to implement equity theory for performance appraisals to support fairness, motivation, and employees' long-term retention.

Related Studies and Hypothesis Development

Previous studies highlight the strong impact of perceived fairness in performance appraisals on organizational commitment. Colquitt et al. (2001) have identified distributive and procedural justice as significant components of organizational justice. Fair appraisals enhance the satisfaction and commitment of employees (Rowland & Hall, 2012; Salleh et al., 2013). Rubel and Kee (2015) determined that appraisal fairness reduces turnover intention through commitment. Muhammad (2022) stated that unfavorable appraisals weaken commitment and retention. Rana and Singh (2022) also confirmed a positive association between fairness perceptions and commitment in Indian banking. The present study examines procedural, distributive, and interactional justice in performance appraisals using equity and social exchange theories.

Distributive justice, the most critical component of fairness in performance appraisal, significantly impacts organizational commitment. Chang (2002) stated that distributive justice had an influence on Korean employees' commitment during layoffs. Jiang et al. (2015) again supported the same conclusion in China and South Korea. Equitable distribution of resources like promotion and pay enhances commitment (Krishnan et al., 2018). Aguiar-Quintana et al. (2020) and Ilyana et al. (2023) also echoed its positive impact. Therefore, enhanced distributive justice enhances commitment for enhanced long-term organizational sustainability.

H1: There is a relationship between distributive justice and organizational commitment.

Procedural justice is crucial to organizational commitment. Cohen-Charash and Spector (2001) emphasized its relationship with trust and commitment. López-Cabarcos et al. (2015) found that procedural justice significantly influenced commitment. Krishnan et al. (2018) noted that fair evaluation procedures enhance employee motivation and commitment. Jang et al. (2021) emphasized its significance in strengthening public service value. Ha and Lee (2022) demonstrated its positive impact on trust, participation, and performance. Organizations that place high emphasis on fair evaluation processes develop higher morale, loyalty, and productivity.

H2: There is a meaningful relationship between procedural justice and organizational commitment.

Interactional justice fosters high employee commitment through fair interpersonal treatment. Ilyana et al. (2023) found that it positively impacted commitment in Serambi Indonesia. Krishnan et al. (2018) emphasized the importance of meaningful interaction in

enhancing fairness perceptions. Handayani et al. (2022) confirmed its impact on PT. Bakrie Sumatera Plantations Tbk. Workers who are treated with respect and dignity demonstrate greater commitment and effort, leading to organizational stability and performance.

H3: There is a relationship between interactional justice and organizational commitment.

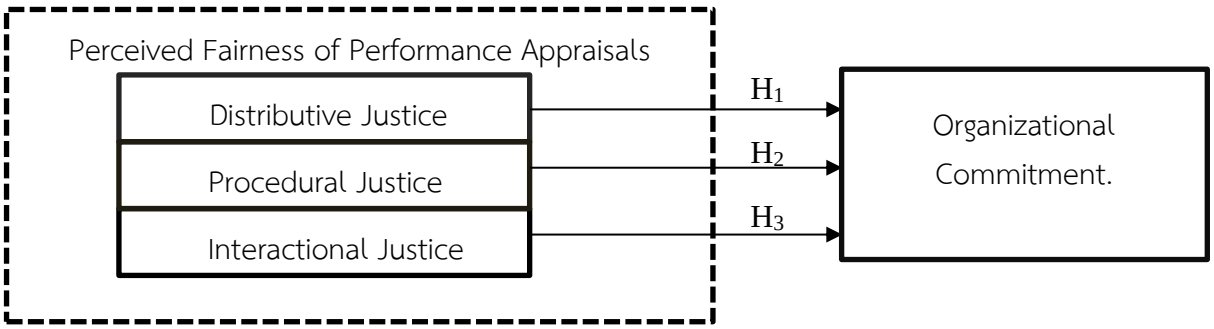

Figure 1: Conceptual framework

Under this theoretical background, the connection between perceived fairness of performance appraisals and organizational commitment is explained with the help of Equity Theory. Equity Theory states that employees' perceptions of fairness arise out of comparing their inputs and outcomes relative to others. Thus, in the current research, the association between perceived fairness of performance appraisals and organizational commitment of employees of Company X was examined. Various facets of perceived fairness like distributive justice, procedural justice, and interactional justice all influence organizational commitment.

Materials and Methods

This research utilizes quantitative approaches to promote objectivity and reduce bias. The structured survey design and convenience sampling allow for effective data collection while ensuring respondent anonymity. While some bias cannot be eliminated, this method promotes reliability and allows for pattern identification. The structured design enables easy comparisons, enhancing result interpretation. Quantitative approaches and well-designed questionnaires collectively enhance the study's accuracy and reliability (Corbeanu & Iliescu, 2023).

Population, Sample size, Sampling

Company X had around 2,000 employees in 2024 (China Economic Net, 2024). The sample size was calculated using Yamane's (1973) formula as 334 and 350 were interviewed to account for non-response. Convenience sampling (Etikan et al., 2016) was employed due to its practicality and efficiency in organizational research. Given the time

and resource constraints typical in such studies, this method enabled quick data collection from employees at Company X. The goal was to obtain diverse data reflecting the opinions of employees, which helps create a clear understanding of their perspectives on work performance and fairness in the appraisal process. The results aim to improve the evaluation system and increase employee commitment to working at Company X in the future. The study will assess the perception of employees towards work performance and fairness in assessment to guide improvement in the assessment system and enhancing employee commitment in Company X.

Research Instrument and Questionnaire Development

The research used a pre-existing questionnaire that it adapted to form its own instrument, based on the work of Prather (2010), Njuguna & Jang et al. (2021), Kisilu (2023), Krishnan et al. (2018), and Jang et al. (2021). The survey is categorized into three parts: the first part has five respondent demographic questions; the second part assesses perceived fairness of performance appraisal with 15 questions assessing distributive justice, procedural justice, and interactional justice; the third part assesses organizational commitment with seven questions.

Data Analysis

The questionnaire tool of the current study employed a Likert scale to assess the opinions, beliefs, or attitudes of the respondents. Every item will offer six choices: "Strongly disagree," "Disagree," "Slightly disagree," "Slightly agree," "Agree," and "Strongly agree," with their respective scores ranging from 1 to 6 (SurveyMonkey, 2024). The class interval is calculated as 0.83 using the formula (6 – 1)/6=0.83.

Quantitative data were processed through SPSS 26.0 and employing Pearson's r and Spearman's ρ to assess relationships between variables, ranging from -1 to +1. A value close to +1 indicates a strong positive correlation (Pandey, 2020). Multiple regression analysis assessed the impact of independent variables on the dependent variable, determining significant predictors and their effect (Shrestha, 2020). The process of analysis provided insights into variable interactions and research pathway management.

Validity and Reliability

The present study employed a quantitative approach through a structured questionnaire. Literature review and expert scores assured internal validity, and content validity was assured. Confirmatory factor analysis upheld construct validity by factor loadings above 0.5 and AVE ranged between 0.984 to 0.996 (Prather, 2010; Krishnan et al., 2018; Jang et al., 2021; Njuguna & Kisilu, 2023). External validity considered generalizability. Reliability analysis showed a Cronbach's alpha of more than 0.75 with a total of 0.942, proving to have outstanding internal consistency (Sürücü & Maslakci, 2020). The findings prove the validity and reliability of the questionnaire.

Results

A total of 350 questionnaires were distributed, and 340 valid responses were collected, yielding a response rate of 97.14%. Most respondents were aged 30–40 years, held bachelor's degrees, had over two years of tenure, and worked in the Sales department. This study aimed to examine the levels of perceived fairness in performance appraisal—covering distributive, procedural, and interactional justice—and organizational commitment among employees in Company X. The results showed that the average scores for distributive justice (M= 4.29), procedural justice (M= 4.21), and interactional justice (M= 4.23) indicated a slightly agreed attitude, while the organizational commitment score (M= 4.28) also reflected a slightly agreed perception.

Furthermore, to analyze the relationships between variables, correlation analysis and multiple regression analysis will be conducted to assess the hypotheses and determine the impact of perceived fairness in performance appraisals on organizational commitment.

Table 1: Correlation analysis test

Attributes	X1	X2	X3	Y
X1: Distributive Justice	1			
X2: Procedural Justice	0.781**	1		
X3: Interactional Justice	0.687**	0.776**	1	
Y: Organizational Commitment	0.828**	0.911**	0.812**	1
**. Correlation is significant at the 0.01 level (2-tailed).				

The correlation analysis in Table 1 showed a significant positive relationship between all variables at the 0.01 level. Distributive justice (X1) and organizational commitment (Y) had a strong correlation of 0.828, procedural justice (X2) and organizational commitment (Y) had an extremely high correlation of 0.911, and interactional justice (X3) and organizational commitment (Y) had a correlation of 0.812. Additionally, X1, X2, and X3 showed strong positive relationships with each other. However, the high correlations between these variables may indicate potential multicollinearity, which will be addressed in the next analysis to ensure the accuracy of results.

Table 2: Multiple regression analysis

Model	Unstandardized Coefficients	Standardized Coefficients	T	Sig.	Tolerance	VIF
	B	Beta				
(Constant)	-1.187		-9.262	0.000		
X2: Procedural Justice	0.632	0.549	8.265	0.000	0.282	3.549
X1: Distributive Justice	0.365	0.254	15.529	0.000	0.373	2.680
X3: Interactional Justice	0.294	0.212	6.966	0.000	0.382	2.621
R^2=0.939, Adjust R^2=0.882, F= 835.371, Sig.=0.000***						

The multiple regression analysis in Table 1 shows that the model explains 93.9% of the variance in the dependent variable (R^2 = 0.939, Adjusted R^2 = 0.882). The model remains significant after removing unimportant variables (F = 835.371, p < 0.001). Tolerance values (X1 = 0.373, X2 = 0.282, X3 = 0.382) and VIF values (X1 = 2.680, X2 = 3.549, X3 = 2.621) indicate no multicollinearity issues. Standardized coefficients show that Procedural Justice (X2) has the strongest effect on Organizational Commitment (Y) (β = 0.549, p < 0.001), followed by Distributive Justice (X1) (β = 0.254) and Interactional Justice (X3) (β = 0.212).

Based on the results, all hypotheses assessed, it can be concluded that all three aspects of justice, namely distributive justice, procedural justice, and interactional justice, all had a statistically significant relationship with organizational commitment. This shows that organizations should focus on maintaining fairness in all aspects to increase employee engagement and commitment levels.

Conclusions and Discussion

The findings indicate that all employees perceive fairness in performance appraisal on each of the three aspects: distributive, procedural, and interactional justice. In distributive justice, the compensation, workload, and reward are rated positively, but fairness in job responsibility distribution still must be enhanced, as inequalities in this dimension can erode motivation and job satisfaction (McCain et al., 2010). Procedural justice-wise, employees appreciate openness and consistency in appraisal processes; however, appraisals should be made clear in guidelines so that confidence and trust in the system are not lost (Rowland & Hall, 2012). Similarly, interactional justice is similarly appreciated but also needs to be further improved with better communication being

respectful to improve worker relationships and a more supportive workplace (Tarigan et al., 2023).

Moreover, employees demonstrate a high degree of organizational commitment, which is driven primarily by emotional commitment and job security. This finding is in line with Alrowwad et al. (2020), who also note the relationship between job satisfaction and employee commitment. However, despite this favorable commitment, limited career development chances can discourage long-term motivation and participation (Zafar et al., 2021). To correct this, organizations can use career development programs to enhance job satisfaction and employee retention (Chayomchai et al., 2023).

In total, the studies confirm a positive correlation between perceived fairness of performance appraisals and organizational commitment, where procedural justice has the largest impact, followed by distributive and interactional justice (Hughes et al., 2019). Fair evaluations not only boost motivation and confidence (Ha & Lee, 2022) but also make workers feel valued, which leads to higher levels of commitment (Krishnan et al., 2018). Moreover, treating others with respect enhances engagement and supports a better workplace culture (Ilyana et al., 2023). Therefore, prioritizing fairness in performance appraisals, improving communication, and providing opportunities for career growth are essential steps in improving employee morale, retention, and long-term organizational success in Company X.

Gastronomic Knowledge, Culinary Heritage, and Involvement: A Conceptual Framework for Enhancing Destination Brand Equity in Thailand

Butsakorn Julbanyong[1*] and Theerakorn Udomratanamanee[2]

[1]Graduate student, Business school, University of The Thai Chamber of Commerce.
[2] Business school, University of The Thai Chamber of Commerce.
[*]**Corresponding author, E-mail:** butsakornpoppy@gmail.com

Abstract

This study explores the relationships between gastronomic knowledge, culinary heritage, gastronomic involvement, and destination brand equity in the context of Thailand through a comprehensive literature review. It emphasizes the role of gastronomy in destination branding, highlighting how tourists' culinary engagement can influence a destination's brand perception, particularly in Thailand, known for its rich food culture. The study proposes a conceptual framework that outlines these relationships, offering a theoretical structure for understanding how gastronomic elements contribute to Thailand's brand equity. By synthesizing existing research, the study provides an understanding of how Thailand can leverage its local food culture to build a distinct identity, enhance tourist involvement, and attract culinary-focused travelers. The proposed framework serves as a foundation for future research on the role of gastronomy in tourism and destination branding, specifically within the Thai context.

Keywords: Gastronomic, Culinary, Heritage, Destination Brand Equity in Thailand

Introduction

The tourism landscape has evolved significantly, with gastronomy emerging as a critical component that enriches travel experiences and drives economic benefits (Pencarelli, 2020). Gastronomic tourism, defined as the exploration of food and culinary practices as a central element of travel, has gained global popularity (Sio et al., 2024). This phenomenon extends beyond mere indulgence in local cuisines, encompassing cultural, social, and sensory engagements that profoundly impact tourists' perceptions and satisfaction (Seyitoğlu & Ivanov, 2020). The growing interest in food tourism underscores the need to explore the dimensions influencing tourists' gastronomic experiences and motivations.

Gastronomic tourism plays a pivotal role in shaping destination experiences by promoting cultural exchange, stimulating local economic development, and contributing to the preservation of culinary heritage (Vuksanović et al., 2024). Through food-related activities, tourists immerse themselves in the unique cultural narratives of a place, allowing

them to engage with regional identity and traditions on a deeper level (Pavlidis & Markantonatou, 2020). This interaction not only enriches the travel experience but also supports the continuity of local foodways and artisanal practices. Despite the growing recognition of its significance, scholarly research in this area remains fragmented, with a notable absence of comprehensive theoretical models that holistically integrate gastronomic motivations, knowledge acquisition, and heritage appreciation. This study aims to fill that gap by examining how gastronomic knowledge and culinary heritage influence tourists' gastronomic involvement. In turn, it investigates how this involvement contributes to perceptions of destination brand equity, thereby offering a more integrated understanding of the role of gastronomy in destination branding.

In Thailand, gastronomic tourism has emerged as an innovative strategy to revitalize the struggling tourism industry, particularly during the COVID-19 pandemic (Kattiyapornpong et al., 2021). While prior studies have identified motivations for gastronomic tourism, few have explored the interplay between gastronomic knowledge, culinary heritage, and gastronomic involvement in shaping destination brand equity (Sio et al., 2024). Additionally, the role of personal and product involvement in shaping gastronomic experiences remains underexplored (Richards, 2021). This study bridges these gaps by proposing a framework that integrates these constructions, offering insights into how destinations can leverage gastronomy to enhance their brand equity.

Objectives

This study aims to examine the dimensions of gastronomic tourism and its impact on tourist experiences and destination branding. Specifically, it seeks to:

1. To review the literature on gastronomic knowledge, culinary heritage, and gastronomy involvement as drivers of destination brand equity in Thailand's gastronomic tourism.

2. To propose a conceptual framework illustrating the relationships between these variables and their impact on destination brand equity.

Literature Review

This section reviews literature on gastronomic experiences and destination brand equity, introducing key constructs, developing hypotheses, and proposing a framework for the study.

Designation brand equity

Destination brand equity is a key concept in tourism marketing, reflecting a destination's perceived value among tourists and stakeholders. It extends traditional brand equity principles to tourism by emphasizing unique attributes and experiences that

differentiate destinations in a competitive market (San Martín et al., 2019; Shi et al., 2022). Strong destination brand equity enhances tourist attraction, loyalty, and economic benefits through strategic marketing, consistent branding, and high-quality experiences (Abbasi et al., 2024).

Effective management requires continuous monitoring of tourist perceptions and market trends, alongside collaboration among stakeholders, including government agencies, businesses, and local communities (Ritchie & Crouch, 2003). Digital platforms, particularly online reviews, and social media, play a crucial role in shaping destination brand equity (Abbasi et al., 2024).

Gastronomic experiences significantly influence destination brand equity, as seen in countries like Italy, France, and Japan, which leverage their culinary heritage to attract tourists (Cardoso et al., 2020). Gastronomic tourism supports local economies and preserves culinary traditions, while strategic branding of food culture, festivals, and culinary tours fosters authenticity, emotional engagement, and competitive differentiation (Dedeoğlu et al., 2019; Vuksanović et al., 2024).

Gastronomic involvement and destination brand equity

Gastronomic involvement is defined as an individual's interest in and engagement with food-related activities, shaping their appreciation and understanding of gastronomy (Leong et al., 2017; Kiatkawsin & Han, 2019). It encompasses activities such as cooking, dining, exploring diverse cuisines, and studying culinary traditions. Individuals with high gastronomic involvement perceive food as central to their lifestyle, engaging in gourmet dining, recipe experimentation, and food-related hobbies (Kiatkawsin & Han, 2019).

Cultural background, personal preferences, and social influences collectively shape gastronomic involvement (Gálvez et al., 2017). National culinary traditions and familial practices provide a foundational influence, while individual tastes and peer dynamics further inform gastronomic engagement (Lin et al., 2022).

A thorough understanding of gastronomic involvement enables culinary professionals, marketers, and tourism operators to design tailored experiences (Kiatkawsin & Han, 2019). Empirical studies demonstrate that gastronomic involvement enhances destination brand equity by increasing the perceived value of a destination's food culture (Horng et al., 2012; Kivela & Crotts, 2006). Highly involved tourists actively seek destinations offering immersive culinary experiences, thereby reinforcing brand image (Kivela & Crotts, 2006). Horng et al. (2012) emphasize that participation in activities such as fine dining, food festivals, and cooking classes strengthens a destination's reputation. Furthermore, Yang et al. (2020) suggest that catering to gastronomic involvement fosters tourist loyalty, repeat visitation, and positive word-of-mouth, enhancing destination brand equity (Tsai & Wang, 2017).

Gastronomic knowledge

Gastronomic knowledge refers to the understanding of food, culinary practices, and their cultural and historical contexts (Kovalenko et al., 2023). It encompasses knowledge of ingredients, cooking techniques, regional cuisines, and dining traditions (Richards, 2021). Beyond knowing how to cook or what to eat, it involves recognizing the connections between food, culture, health, and the environment (Gillespie & Cousins, 2012).

Gastronomic knowledge enhances culinary experiences by providing deeper insights into food's cultural and historical significance (Richards, 2021). Those with greater knowledge appreciate the authenticity of local cuisine, leading to more meaningful culinary engagement (Hjalager & Richards, 2002).

The relationship between gastronomic knowledge and gastronomic involvement is well-documented, showing that understanding culinary practices fosters deeper engagement with food (Kiatkawsin & Han, 2019). Knowledgeable individuals demonstrate higher personal and product involvement, appreciating the finer details of culinary arts, from ingredient selection to cooking techniques (Richards, 2021). Cordova-Buiza et al. (2021) suggest that they invest more time in sourcing quality ingredients and refining cooking methods, reflecting greater product involvement. Personal involvement is also heightened, as they engage in culinary hobbies, attend food-related events, and continuously expand their repertoire (Kovalenko et al., 2023).

Gastronomic knowledge also strengthens destination brand equity by deepening tourists' appreciation of a location's culinary identity (Kovalenko et al., 2023). Visitors with knowledge of local food, ingredients, and culinary traditions develop a stronger emotional connection to a destination, positively influencing brand perception. Seyitoğlu and Ivanov (2020) found that knowledgeable tourists feel more culturally enriched, leading to higher satisfaction and loyalty. They associate destinations with authenticity and quality, reinforcing brand equity through positive word-of-mouth and repeat visits.

By educating tourists on the cultural significance of food, destinations can position themselves as unique culinary hubs, enhancing brand equity and gaining a competitive edge in the tourism market.

Culinary heritage

Culinary heritage encompasses traditional food practices, recipes, ingredients, and techniques passed down through generations, reflecting a region's cultural identity and way of life (Gyimóthy & Mykletun, 2009; Bessière, 1998). It extends beyond food, incorporating the stories, customs, and rituals associated with its preparation and consumption, offering a rich cultural experience (Counihan & Van Esterik, 2013).

Preserving culinary heritage is vital for maintaining cultural diversity and fostering community identity (Montanari, 2006). It serves as a living archive of traditions, providing

insight into historical interactions with the environment. Ensuring its continuity safeguards cultural legacies for future generations (Alonso et al., 2018).

The link between culinary heritage and gastronomic involvement underscores how traditional food practices deepen engagement with food. Individuals with a strong interest in culinary heritage exhibit higher levels of gastronomic involvement, enjoying traditional dishes and participating in related activities (Richards, 2002). Cooking classes, food festivals, and culinary tours enhance this involvement, fostering appreciation for traditional cuisine.

The immersive nature of culinary heritage experiences strengthens individuals' connection to food and its cultural context, increasing personal and product involvement (Hjalager & Richards, 2002). This engagement encourages individuals to invest time in learning and preserving traditional culinary practices, enhancing their gastronomic knowledge and skills (Agyeiwaah et al., 2019).

Culinary heritage also enhances destination brand equity by reinforcing cultural authenticity. Tourists are drawn to destinations that celebrate traditional cuisine, associating them with authenticity and uniqueness (Valverde-Roda et al., 2023). Engaging with culinary heritage deepens tourists' connection to a destination's history and culture, fostering attachment and loyalty (Mora et al., 2022). Promoting culinary heritage in tourism strengthens brand equity by differentiating destinations and cultivating positive brand associations.

Research Methodology

This study employs a literature review to explore the relationships between gastronomic knowledge, culinary heritage, gastronomic involvement, and destination brand equity, with a focus on Thailand's tourism context. Scholarly databases such as Scopus, Web of Science, and Google Scholar were searched for relevant articles. From an initial pool of 250 articles, 45 were selected based on inclusion criteria: peer-reviewed, English-language, and directly relevant to the research objectives. The review highlights how gastronomic knowledge and culinary heritage influence gastronomic involvement, which in turn enhances destination brand equity. The findings inform a conceptual framework that integrates these constructs, offering a theoretical structure for understanding how gastronomy can strengthen Thailand's tourism branding and appeal to culinary-focused travelers.

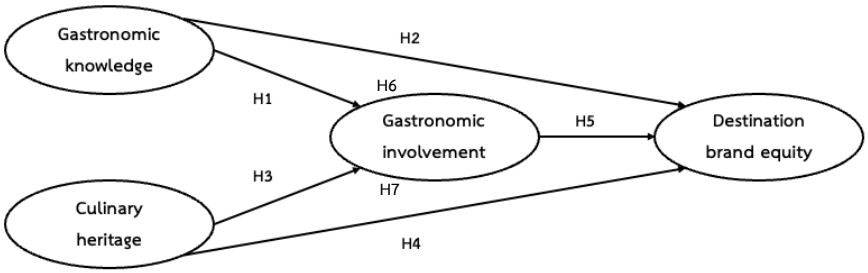

Figure 1: The proposed framework.

Results

Figure 1 illustrates the relationship between gastronomic knowledge, culinary heritage, gastronomic involvement, and destination brand equity. The study supports the following hypotheses:

H1: Gastronomic knowledge positively influences gastronomic involvement. Tourists with more knowledge about local cuisine are more likely to engage in food-related activities.

H2: Gastronomic knowledge positively influences destination brand equity. Culinary knowledge enhances perceptions of the destination as authentic and culturally rich.

H3: Culinary heritage positively influences gastronomic involvement. Exposure to traditional food practices encourages tourists to participate more in gastronomic experiences.

H4: Culinary heritage positively influences destination brand equity. Recognizing culinary heritage strengthens the destination's unique identity and appeal.

H5: Gastronomic involvement positively influences destination brand equity. Active engagement in local food culture leads to stronger emotional connections with the destination.

H6: Gastronomic involvement mediates the relationship between gastronomic knowledge and destination brand equity.
Tourists' culinary knowledge enhances destination brand equity more strongly when it leads to active participation in food experiences, deepening their connection to the destination.

H7: Gastronomic involvement mediates the relationship between culinary heritage and destination brand equity.
Appreciation of culinary heritage fosters stronger destination brand equity when tourists engage directly with local food traditions through immersive experiences.

These findings highlight the strategic value of promoting gastronomic knowledge and heritage to increase tourist involvement and enhance the overall brand equity of destinations.

Conclusions and Discussion

The findings provide the proposed framework, demonstrating the interconnected relationships between gastronomic knowledge, culinary heritage, gastronomic involvement, and destination brand equity.

Gastronomic knowledge significantly influences gastronomic involvement (H1), reinforcing that individuals with deeper culinary knowledge engage more actively in food-related experiences (Kiatkawsin & Han, 2019; Richards, 2021). It also positively affects destination brand equity (H2), as knowledgeable tourists develop stronger emotional connections with destinations through their culinary identity, enhancing authenticity and perceived quality (Kovalenko et al., 2023; Seyitoğlu & Ivanov, 2020).

Similarly, culinary heritage enhances gastronomic involvement (H3) by fostering appreciation for traditional food practices and encouraging participation in cultural culinary experiences (Richards, 2002; Hjalager & Richards, 2002). It also strengthens destination brand equity (H4) by positioning destinations as authentic cultural hubs, appealing to tourists seeking immersive gastronomic experiences (Valverde-Roda et al., 2023; Mora et al., 2022).

Furthermore, gastronomic involvement positively impacts destination brand equity (H5), suggesting that active participation in food-related activities fosters emotional connections, leading to greater tourist satisfaction, loyalty, and word-of-mouth promotion (Tsai & Wang, 2017; Yang et al., 2020).

These findings emphasize the strategic role of gastronomy in destination branding. Tourism stakeholders should promote culinary education, preserve traditional food practices, and create immersive experiences to enhance destination appeal. Future research could explore digital engagement and sustainability as additional factors shaping gastronomic tourism and brand equity.

Abstract

This study presents a conceptual framework illustrating the dynamic interplay between stakeholder pressure, organizational learning, and organizational motives in driving green innovation adoption within small and medium-sized enterprises (SMEs) in Thailand. Recognizing the multifaceted and intensifying influence of regulatory, competitive, and customer pressures, this framework explores how these external forces interact with internal organizational factors, shaping organizational motives and learning, which, in turn, drive sustainable innovation adoption. By positioning organizational learning and motives as key mediators, the framework identifies key mechanisms through which Thai SMEs can strengthen their sustainability strategies, enhance innovation capabilities, and respond effectively to environmental challenges. It offers valuable insights for business leaders, policymakers, and sustainability advocates seeking to drive green innovation through leveraging stakeholder influence and cultivating a learning culture. This research contributes to the literature on green innovation by emphasizing the interconnected role of external pressures and internal enablers in advancing environmental sustainability, business resilience, and long-term competitiveness of SMEs.

Keywords: Green Innovation Adoption, Stakeholder Pressure, Organizational Learning, Organizational Motives, Small and Medium Enterprises (SMEs)

Introduction

The growing urgency of environmental sustainability has positioned green innovation as a crucial strategy for small and medium-sized enterprises (SMEs) (Dangelico & Pujari, 2010). In Thailand, where SMEs account for 99% of businesses and employ the majority of the workforce, understanding the drivers and barriers to green innovation is essential for fostering sustainable business transformation—an imperative for future growth and alignment with global sustainability trends (Paweenawat & Korwatanasakul, 2020). Despite regulatory pressures and rising market demand, many SMEs face challenges

in adopting green practices due to resource limitations, strategic misalignment, and restricted organizational learning capabilities (Takalo, Tooranloo, & Parizi, 2021).

Stakeholder pressure—from regulators, competitors, and customers—plays a pivotal role in shaping organizational motives and learning, thereby influencing green innovation adoption (Soewarno, Tjahjadi, & Fithrianti, 2019). While prior studies have explored stakeholder pressure and green innovation (Shahzad, Qu, Ur Rehman, Ding, & Razzaq, 2023; Wang et al., 2021), limited research has examined how these external forces interact with internal mechanisms such as organizational motives and learning, particularly within Thai SMEs. Addressing this gap, the present study proposes a conceptual framework that integrates both external pressures and internal enablers, offering practical insights to strengthen SME competitiveness, enhance resilience, and advance environmental sustainability in Thailand's evolving business landscape.

Objectives

The objective of this study is to examine the influence of stakeholder pressure, organizational motives, and organizational learning on the adoption of green innovation among SMEs in Thailand. The two objectives are as follows:

1. To review the literature on stakeholder pressure (regulatory, competitive, and customer), organizational motives, and organizational learning as key drivers of green innovation adoption in SMEs in Thailand.
2. To propose a conceptual framework illustrating the relationships between stakeholder pressure, organizational motives, and organizational learning in the context of green innovation adoption.

Literature Review

This section reviews the literature on stakeholder pressure, organizational motives, and organizational learning in relation to green innovation adoption among SMEs in Thailand. It examines existing studies that explore the influence of external and internal factors on green innovation adoption in businesses, highlighting key theoretical constructions and empirical findings. Additionally, this section identifies the core variables, develops research hypotheses, and proposes a conceptual framework for the present study.

Green innovation adoption

Green innovation adoption is increasingly vital for SMEs striving to balance economic growth with environmental responsibility. Chen, Lai, & Wen (2006) define green innovation as the development and application of eco-friendly products, processes, and technologies that minimize environmental impact while sustaining business competitiveness. However, despite its benefits, many SMEs face adoption challenges due

to resource constraints, strategic misalignment, and knowledge gaps, limiting their ability to implement sustainable practices effectively (Takalo et al., 2021). Effective stakeholder engagement and strong organizational learning play a crucial role in bridging these gaps, equipping SMEs with the knowledge, resources, and strategic direction needed to integrate green innovation into their business models. By fostering collaborative networks, enhancing regulatory compliance, and driving continuous improvement, SMEs can overcome sustainability barriers, strengthen their market position, and build long-term resilience in an increasingly eco-conscious economy.

Stakeholder Pressure

Stakeholder pressure is a key driver of green innovation adoption among SMEs, particularly as they respond to growing environmental challenges and sustainability demands. Wang et al. (2021) identify three primary forms of stakeholder pressure: regulatory pressure, which mandates compliance with environmental policies and sustainability standards; competitive pressure, where firms integrate green practices to maintain market relevance and gain a strategic edge; and customer pressure, driven by increasing demand for eco-friendly products, corporate transparency, and responsible business operations. These external pressures push organizations to adopt a more sustainable and environmentally friendly approach as well as influence organizational motives and learning, determining how SMEs internalize sustainability goals and develop green innovation strategies. By proactively addressing stakeholder expectations, SMEs can enhance sustainability performance, foster trust among stakeholders, and strengthen long-term competitive positioning in an increasingly eco-conscious market.

Organizational Motive

Organizational motive plays a critical role in driving green innovation adoption among SMEs, shaping their commitment to sustainability and approach to innovation. Motivations for adopting green practices vary, with Shahzad et al. (2023) categorizing them into instrumental, relational, and moral motives. Instrumental motives focus on profitability, competitive advantage, and regulatory compliance, pushing firms to adopt sustainability as a strategic opportunity. Relational motives stem from the need to build strong stakeholder relationships, enhance corporate reputation, and align with industry expectations, making green innovation a tool for business credibility and trust. Moral motives arise from a genuine commitment to environmental responsibility, where businesses prioritize sustainability as an ethical obligation rather than a market-driven necessity. Beyond influencing green innovation adoption, organizational motive acts as a mediator between stakeholder pressure and green innovation, determining how SMEs internalize and respond to external demands. However, the extent to which SMEs adopt green innovation depends on how these pressures are internalized through organizational

motives. By fostering strong sustainability-driven motives, SMEs can translate regulatory, competitive, and customer pressures into initiative-taking green innovation strategies, ensuring both compliance and long-term resilience in an increasingly eco-conscious business environment.

Organizational Learning

Organizational learning is a key driver of green innovation adoption among SMEs, shaping their ability to adapt, innovate, and respond to sustainability challenges. It involves knowledge acquisition, experience-based learning, and continuous improvement, enabling businesses to integrate eco-friendly practices and comply with evolving regulations (Argote, Lee, & Park, 2021). SMEs that actively engage in learning processes, such as collaborating with industry experts, adopting best practices, and leveraging sustainability knowledge, are better equipped to implement green innovation strategies. Furthermore, organizational learning acts as a mediator between stakeholder pressure and green innovation adoption, influencing how SMEs interpret and internalize external demands. While regulatory, competitive, and customer pressures create incentives for sustainability, firms with strong learning capabilities transform these pressures into actionable strategies, ensuring both compliance and long-term environmental responsibility. By fostering a culture of continuous learning, SMEs can enhance their innovation capacity, improve operational efficiency, and strengthen their competitive position in an increasingly eco-conscious market.

Research Methodology

This study adopts a qualitative research approach, employing a literature review to examine the influence of stakeholder pressure, organizational motives, and organizational learning on the adoption of green innovation among SMEs in Thailand. Peer-reviewed articles were identified through searches in scholarly databases such as Scopus, Web of Science, and Google Scholar using targeted keywords aligned with the research objectives. From an initial pool of 219 articles in top-tier international journals between 2006 to 2024, 35 studies were selected based on predefined inclusion criteria: English language articles directly relevant to the research objectives. To strengthen the rigor of the review process, thematic synthesis was employed to analyze the selected studies. Key themes and recurring patterns were identified and organized under the core constructs of stakeholder pressure, organizational motives, and organizational learning. In addition, a comparative and critical synthesis was conducted to deepen academic insight and provide a more nuanced understanding of the interrelationships among these variables within the proposed framework. The findings from the synthesis informed the development of the conceptual framework and guided the formulation of research hypotheses for this study.

Results

Based on the literature review on the interrelationships between key variables, Figure 1 presents the conceptual framework developed for this study. The proposed model examines the influence of stakeholder pressure on organizational motives and organizational learning, which in turn drive the adoption of green innovation among SMEs in Thailand. By offering a comprehensive perspective on the factors shaping green innovation adoption, this framework offers strategic insights into how SMEs can respond to sustainability demands, thereby enhancing their competitiveness and resilience in an increasingly dynamic market environment.

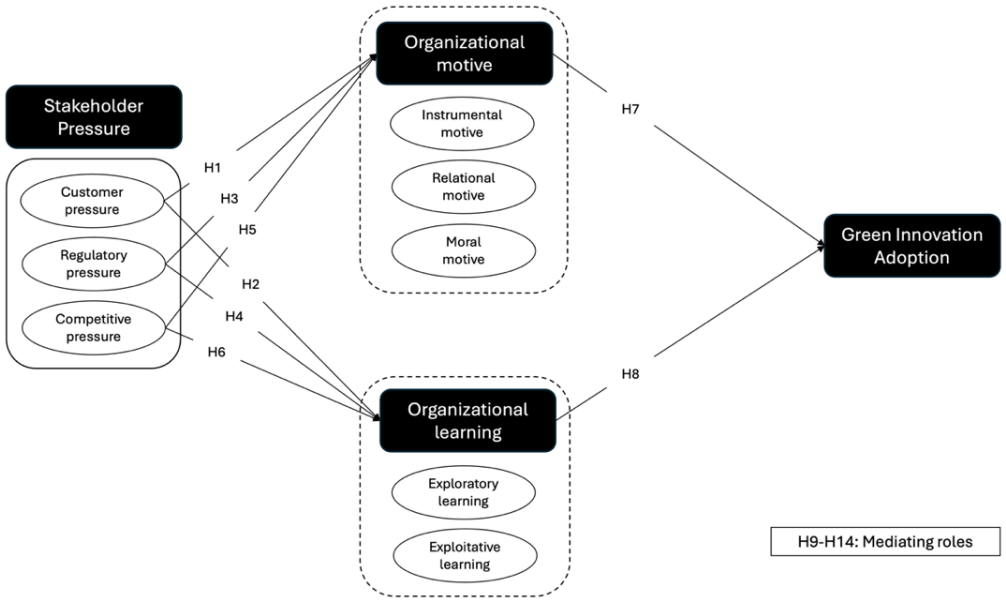

Figure 1: The Proposed framework

At the core of this framework lies the relationship between stakeholder pressure, organizational motives, organizational learning, and green innovation adoption in SMEs. Stakeholder pressure, comprising customer, regulatory, and competitive pressures, plays a crucial role in shaping how firms perceive and respond to sustainability demands. Customer pressure reflects the increasing preference for eco-conscious businesses, regulatory pressure stems from compliance requirements and industry standards, while competitive pressure compels firms to adopt green practices to maintain market relevance and differentiation. These external influences shape organizational motives (H1–H6) and organizational learning (H7–H8), which serve as key internal mechanisms for green innovation adoption. Organizational motives mediate the relationship between stakeholder pressure and green innovation adoption, determining how SMEs interpret and act upon external sustainability demands. These motives fall into three categories:

instrumental motives, which focus on financial incentives, regulatory compliance, and competitive positioning; relational motives, which emphasize stakeholder engagement, corporate reputation, and social expectations; and moral motives, which stem from a genuine commitment to environmental responsibility. SMEs with strong organizational motives are more likely to integrate sustainability into their core strategies (H7). Similarly, organizational learning serves as a critical mediator, equipping SMEs with the knowledge and capabilities needed for green innovation adoption. It consists of exploratory learning, which fosters experimentation with new sustainable technologies and business models, and exploitative learning, which focuses on refining and optimizing existing green initiatives. Firms that develop both learning mechanisms are better positioned to adapt to sustainability challenges and enhance innovation effectiveness (H8). This framework highlights that both organizational motives and learning mediate the impact of stakeholder pressure on green innovation adoption (H9–H14), ensuring that SMEs effectively transform external pressures into initiative-taking sustainability strategies. By examining these relationships, this study provides valuable insights into how SMEs can leverage stakeholder influence, foster internal drivers, and enhance organizational learning to support sustainable innovation. The proposed model serves as a strategic guide for improving sustainability performance, meeting regulatory expectations, and maintaining competitiveness in an eco-conscious market. Based on this framework, the following hypotheses are proposed:

H1: Customer pressure has a positive impact on organizational motivation.

H2: Customer pressure has a positive impact on organizational learning.

H3: Regulatory pressure has a positive impact on organizational motive.

H4: Regulatory pressure has a positive impact on organizational learning.

H5: Competitive pressure has a positive impact on organizational motive.

H6: Competitive pressure has a positive impact on organizational learning.

H7: Organizational motive has a positive impact on green innovation adoption.

H8: Organizational learning has a positive impact on green innovation adoption.

H9: Organizational motive mediates the relationship between customer pressure and green innovation adoption.

H10: Organizational learning mediates the relationship between customer pressure and green innovation adoption.

H11: Organizational motive mediates the relationship between regulatory pressure and green innovation adoption.

H12: Organizational learning mediates the relationship between regulatory pressure and green innovation adoption.

H13: Organizational motive mediates the relationship between competitive pressure

and green innovation adoption.

H14: Organizational learning mediates the relationship between competitive pressure and green innovation adoption.

Conclusions and Discussion

The conceptual framework developed in this study highlights the role of stakeholder pressure, organizational motives, and organizational learning in driving green innovation adoption among SMEs in Thailand. Regulatory, competitive, and customer pressures function as external forces that influence how firms internalize and respond to sustainability demands. These are mediated by organizational motives—instrumental, relational, and moral—and supported by learning processes such as exploratory and exploitative learning, which together enable SMEs to convert external pressures into effective green innovation strategies.

Beyond its theoretical contributions, the framework offers practical guidance for SME leaders, policymakers, and sustainability advocates. In the face of rising regulatory demands, market competition, and shifting consumer expectations, understanding the link between stakeholder pressure and internal enablers is key to sustaining relevance and competitiveness. SMEs can adopt customer-driven green practices, ensure regulatory compliance, and differentiate through sustainable strategies.

To effectively internalize stakeholder expectations, SMEs must cultivate strong organizational motives that drive sustainable commitment—whether through economic incentives (instrumental), stakeholder engagement (relational), or ethical values (moral). Actions may include obtaining green certifications, implementing transparent reporting, and cultivating a culture of environmental responsibility.

Finally, strengthening organizational learning equips SMEs with an ability to navigate sustainability challenges. Exploratory learning drives innovation through experimentation, while exploitative learning refines existing green practices. These capabilities can be enhanced through cross-sector collaboration, sustainability training, and internal knowledge sharing platforms.

By aligning stakeholder expectations with internal motivations and learning strategies, SMEs can successfully adopt green innovations that not only improve environmental performance but also strengthen business competitiveness. Firms that embrace sustainability-driven innovation benefit from regulatory compliance, operational efficiency, enhanced stakeholder trust, and access to emerging green market opportunities. Importantly, this framework contributes to the green innovation literature by presenting an integrated model that illustrates how various forms of stakeholder pressure are internalized through distinct organizational motives and supported by internal learning

processes. While previous studies have often explored these factors separately, this study bridges the gap by unifying them within a single framework. It introduces theoretical novelty by emphasizing the mediating role of internal drivers in transforming external sustainability pressures into concrete innovation outcomes. As such, the framework not only advances theoretical understanding but also offers a foundation for future empirical validation and cross-context comparisons in sustainability research.

This study presents a comprehensive framework that examines the interplay between stakeholder pressure, organizational motives, organizational learning, and green innovation adoption among SMEs. As sustainability becomes a core business priority, SMEs must effectively navigate regulatory demands, market competition, and evolving consumer expectations to implement green innovation effectively. This framework emphasizes how organizational motives help firms internalize external pressures and translate them into strategic sustainability initiatives. Organizational learning further supports this process by equipping SMEs with the knowledge and adaptability to implement and refine eco-friendly practices.

By positioning motives and learning as internal enablers, the model illustrates how SMEs can transform sustainability pressures into initiative-taking innovation strategies, enhancing compliance and market competitiveness. Green innovation not only improves efficiency and resource use but also builds brand reputation, stakeholder trust, and long-term resilience. For business leaders and policymakers, the framework offers insights into fostering a sustainability-oriented mindset, highlighting the importance of internal motivation and continuous learning. Embracing this approach enables SMEs to turn environmental challenges into strategic advantages in an increasingly eco-conscious market.

Abstract

Small and medium-sized enterprises have an extremely important role in the national economy, so this study aims to investigate the impact of financial knowledge on SME manager's performance in Guilin, China. The study conducted a questionnaire survey of 408 SME managers in Guilin City using random simple sampling and further tested the research hypotheses. The data was analyzed by using descriptive statistics, correlation analyses and multiple regression. The results of the study show that the respondents are gender balanced, and many managers are 31-50 years old, 88 percent are well educated, the businesses are small, but 43.38 percent of them have good annual revenues. In addition, the hypothesis testing results reveal that financial literacy (financial knowledge, financial awareness, financial attitude, and financial capability) all have a positive impact on enterprise manager performance. This study extends the research framework of financial literacy in business management and filling an important gap in the study of financial literacy in Chinese SMEs. Policy recommendations are provided for governments, financial institutions, enterprises, and educators.

Keywords: Financial Literacy, SMEs, Manager Performance, Guilin City

Introduction

Currently, the number of small and medium-sized enterprises (SMEs) in China accounts for more than 98.64% of the total number of enterprises, and SMEs play an extremely important role in the national economy (Laina & Wahyudin, 2023). However, the mortality rate of SMEs in China has increased from 33.42 percent in 2013 to 40.56 percent in 2017, especially in 2021, when about 4.37 million small businesses in China went bankrupt (Li, 2024). Over the past two decades, scholars and policy makers in both developed and developing countries have recognised that financial knowledge of business managers is crucial for the survival and development of SMEs (Sembiring, 2022). However,

there is currently no research paper on the impact of financial literacy on SME managers' performance in China. Therefore, this study fills the research gap in this area in China by analysing the impact of financial literacy on managerial performance in Guilin SMEs. The findings will provide valuable insights for policy makers to support the sustainable development of SMEs in China.

Objectives

To investigate the impact of financial literacy on the performance of managers of SMEs enterprise in Guilin, Guangxi, China.

Literature Review

The Financial Consumer Protection Bureau of the People's Bank of China conducted a national financial literacy survey in 2019, dividing financial literacy into four dimensions which are financial attitude, financial behaviour, financial knowledge and financial skills (PBOC, 2019).

Financial knowledge is essential for the performance development of SME managers (Hasibuan et al., 2022). When SME managers have more knowledge, they will have stronger financial capabilities and be able to more accurately assess the financial status of the enterprise, thereby improving the performance of business managers (Xochitl et al., 2022). Financial awareness helps investors process information in financial activities, helps make judgments, reduces transaction costs, increases investment shares, and thus increases the possibility of investment (Makdissi et al., 2020). Financial awareness has a positive impact on the performance of SME managers (Xochitl et al., 2022). It is essential for SME managers to cultivate a positive financial attitude. The better the financial knowledge and financial attitude that SME managers have, the more confident they will be when making financial decisions, thereby improving the performance of business managers and achieving sustainable growth (Dwyanti, 2024). Financial capabilities play an important role in the business success of SMEs, especially the conceptual, technical, strategic, leadership and relationship capabilities of business managers, which contribute significantly to business success (Sualeh et al., 2021). Consistent with this assertion, Lizzy and Makhamara (2024) indicate that financial capabilities have a significant positive impact on the performance of SME managers. Overall, the improvement of financial literacy can effectively promote the performance of managers, thereby promoting the stable growth and market competitiveness of enterprises (Mihardjo & Ningtyas, 2023).

Related Research Theories

This study uses the financial literacy theory, the top echelon theory, as the basis and support of the study.

Financial literacy theory is a widely used theoretical framework in the field of financial literacy research. Financial literacy theory is an evolving theory that incorporates theories from economics, sociology, psychology, and management to explain how individuals and business managers make financial decisions (Ingale & Paluri, 2020). This study will build a conceptual framework based on financial literacy theory to assess the level of financial literacy of SME managers in Guilin, Guangxi, and its impact on enterprise manager's performance through quantitative analysis.

Upper echelons theory was first proposed by Hambrick and Mason (1984), who argued that the personal characteristics of top managers in terms of experience, values and cognitive abilities affect the strategic choices and organisational performance of a firm. The upper echelons theory suggests that the situations faced by decision makers in firms are complex and decision makers make decisions based on their own cognitive bases and values, which emphasises the importance of personal financial literacy in decision making (Saiyed et al., 2023). The main target of this study is SME managers, who are the core senior decision makers in their organisations. The upper echelons theory provides a theoretical framework and empirical support for SME managers to improve financial literacy, optimise financial decision-making and enhance enterprise manager's performance.

Concept theory framework

Based on various phenomena and research findings, SME managers' performance is influenced by financial literacy. Therefore, the research framework is as follows.

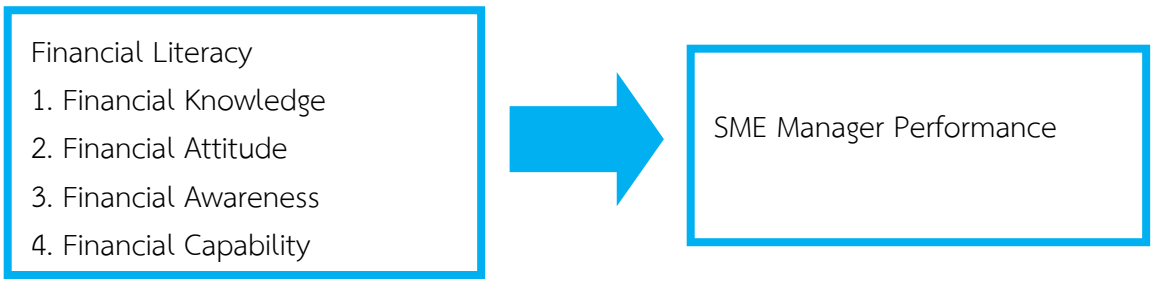

Figure 1: Conceptual Framework

This study proposes the following hypothesis.

H1: Financial knowledge influences SME manager performance.

H2: Financial awareness influences SME manager performance.

H3: Financial attitude influences SME manager performance.

H4: Financial capability influences SME manager's performance.

H5: Financial literacy influences SME manager performance.

Materials and Methods

This study was conducted using quantitative methods. The study population is 404,200 SME managers in Guilin City, Guangxi, China. Yamane's formula was used to calculate the sample size of 408 SME managers in Guilin. The study will adopt a random simple sampling method for questionnaire data collection. The validity index (IOC) score of the questionnaire was 0.725. The reliability of Cronbach's alpha was tested using the alpha coefficient method, which resulted in an overall score of 0.936, indicating a high quality of data reliability. The data collected will be statistically analysed using percentages, correlation analysis and multiple regression.

Results

By analysing the questionnaire survey of SME managers in Guilin, the following basic information of the respondents was obtained.

Table 1: Descriptive statistics for demographic information

Question	Options	Frequency	Percentage (%)	Cumulative percentage (%)
Gender	Male	232	56.86	56.86
	Females	176	43.14	100
Age	25-30 years	112	27.45	27.45
	31-40 years	111	27.21	54.66
	41-50 years old	121	29.66	84.31
	Above 50 years old	64	15.69	100
Educational attainment	Bachelor's Degree	232	56.86	56.86
	Master's Degree	129	31.62	88.48
	Doctoral Degree	41	10.05	98.53
	Others	6	1.47	100
Term of office	1-3 years	109	26.72	26.72
	4-6 years	118	28.92	55.64
	7-10 years	127	31.13	86.76
	More than 10 years	54	13.24	100
Training status	Never	5	1.23	1.23
	Rarely (1 to 2 times per year)	186	45.59	46.81
	Sometimes (3-4 times per year)	140	34.31	81.13
	Often (5 to 6 times per year)	49	12.01	93.14
	Always (more than 6 times per year)	28	6.86	100

Question	Options	Frequency	Percentage (%)	Cumulative percentage (%)
Business type	Manufacturing	167	40.93	40.93
	Non-Manufacturing	241	59.07	100
Form of business organization	Sole proprietorship	71	17.4	17.4
	Cooperative society	11	2.7	20.1
	Partnership	124	30.39	50.49
	Joint venture	91	22.3	72.79
	Private limited company	100	24.51	97.3
	Others	11	2.7	100
Age of business	Less than 5 years	163	39.95	39.95
	5 - 10 years	136	33.33	73.28
	More than 10 years	109	26.72	100
Number of employees	Medium manufacturing: 150≤ X < 500	81	19.85	19.85
	Small manufacturing: X <150	86	21.08	40.93
	Medium non-manufacturing: 100≤X<300	133	32.6	73.53
	Small non-manufacturing: X<100	108	26.47	100
Annual income	Less than CNY 20 million	43	10.54	10.54
	CNY 20 million- CNY 300 million	188	46.08	56.62
	More than CNY 300 million	177	43.38	100
Add up the total		408	100	100

Table 1 reflects the demographic and business characteristics of SME managers. The gender distribution of the respondents is balanced, 56.87 per cent of the managers are between 31 and 50 years of age, appropriately 88 percent of the respondents are well educated and have work experience. The size of the business is small, but the annual revenue of the business is good, reflecting strong profitability and competitiveness.

Table 2: Correlation between financial knowledge, financial attitude, financial awareness, financial capability, and managerial performance

	Average value	Standard deviation	Financial Knowledge	Financial Awareness	Financial Attitude	Financial capability	Enterprise manager performance
Financial Knowledge	3.530	0.914	1				
Financial Awareness	3.477	0.950	0.445**	1			

	Average value	Standard deviation	Financial Knowledge	Financial Awareness	Financial Attitude	Financial capability	Enterprise manager performance
Financial Attitude	3.484	0.934	0.415**	0.390**	1		
Financial capability	3.436	0.934	0.406**	0.453**	0.390**	1	
Enterprise manager performance	3.487	0.896	0.409**	0.462**	0.441**	0.423**	1

* p<0.05 ** p<0.01

Based on the data in Table 2, it can be concluded that financial knowledge, financial awareness, financial attitude, and financial capability are not only interrelated but also have a significant positive effect on enterprise manager performance. This suggests that enhancing financial literacy (including knowledge, awareness, attitude, and capability) of enterprise managers is important in improving their performance.

Table 3: Regression Analysis of Financial Literacy and Corporate Manager Performance

	Unstandardised coefficients		Standardised coefficient	t	p	Covariance Diagnostics	
	B	Standard error	Beta			VIF	Tolerance
Constant	0.913	0.185	-	4.946	0.000**	-	-
Financial Knowledge	0.140	0.047	0.143	2.962	0.003**	1.418	0.705
Financial Awareness	0.220	0.046	0.234	4.790	0.000**	1.449	0.690
Financial Attitude	0.214	0.045	0.223	4.749	0.000**	1.343	0.744
Financial capability	0.165	0.046	0.172	3.587	0.000**	1.402	0.713
Financial literacy	0.741	0.052	0.579	14.305	0.000**	1.000	1.000

R^2 =0.338, Adjusted R^2= 0.331, F (4,403) =51.381, p=0.000

*p<0.05, **p<0.01

Table 3 shows that the R^2 value of the regression model is 0.338 indicating that financial knowledge, financial awareness, financial attitude, financial capability, and financial literacy together explain 33.8% of the variance in enterprise manager's performance. The adjusted R^2 value of 0.331 further confirms the fit of the model. The results of the F-test indicate that the model is overall significant, (F (4,403) = 51.381, p= 0.000), suggesting that this set of independent variables has significant predictive power for enterprise manager's performance. In addition, the results of the regression analysis showed that financial literacy (financial knowledge, financial awareness, financial attitude,

and financial capability) all had a significant positive effect on enterprise manager's performance ($p< 0.01$). Among them, the effect of financial awareness is the most significant.

Therefore, these results support hypotheses H1, H2, H3, H4 and H5.

Conclusions and Discussion

Based on the survey data of 408 SME managers in Guilin City, this study utilizes the financial literacy theory, the upper echelons theory, to explain the impact of financial literacy on the performance of business managers. It is found that the four dimensions of financial literacy (financial knowledge, financial awareness, financial attitude, and financial capability) have a significant positive impact on business manager performance. The result supports the argument made by Margijoyo et al. (2024) that improved financial literacy leads to better financial decision-making and improved overall business performance, competitive advantage and sustainability.

To improve SME managers' performance and promote sustainable enterprise development, this study will provide policy recommendations for governments, financial institutions, enterprises, and educators. Policymakers can incorporate financial education into SME development strategies, provide targeted training, and promote financial literacy programmes through financial incentives such as tax breaks and subsidies. Financial institutions provide smart financial management tools for business managers to improve the efficiency of their financial decision-making by developing tailor-made financial education programmes. Enterprises establish systematic financial training mechanisms, such as training courses on financial knowledge and financial skills, to improve the financial literacy of managers, optimise financial management and enhance market competitiveness. Educators should incorporate financial literacy into corporate curricula, emphasising financial market trends and long-term financial planning, to ensure that SME managers are able to continuously upgrade their financial skills.

This study focuses on small and medium-sized enterprises (SMEs) in Guilin City, and the scope of the sample is limited to Guilin City, which has limitations. In addition, this study is carried out in the form of a questionnaire, which has relatively many questions, which tends to make the respondents fill in the questionnaire without patience to fill in the questionnaire, thus affecting the validity of the data.

Recommendations for Future Research

Future research can expand the study to other cities and regions beyond Guilin to broaden the scope of the study. A combination of quantitative and qualitative research methods, such as in-depth interviews and case studies, can be used to explore the

behavioral characteristics of financial literacy and its impact on managerial decision-making in greater depth and to enhance the rigor of this paper's argumentation. The dependent variables are not sufficient, and future research can include psychological factors, entrepreneurial ability, and so on. Finally, the time span of this study is short, and future research could conduct a long-term follow-up study to observe the changes in financial literacy and its long-term impact on SME managers' performance.

By exploring the above research directions, future studies can further enrich the academic discussion of financial literacy and SME performance, provide valuable references for policy makers, financial institutions, and business educators, and contribute to the sustainable development of SMEs.

Abstract

This study focuses on teachers in private undergraduate colleges in Guangzhou, Guangdong Province, and studies the impact of compensation on teachers' job satisfaction. Under the guidance of equity theory, quantitative research methods were selected, and SPSS20.0 was used to perform descriptive statistics and correlation analysis on the questionnaires collected and distributed through Questionnaire Star. Through a survey of 393 faculty members, the results show that compensation has an extremely significant impact on teachers' job satisfaction, and the impact is correlated. The study also found that the current teachers' satisfaction with benefits is high, but there are significant differences among individuals. Finally, this study provides suggestions on optimizing the compensation structure, focusing on shaping a sense of fairness and personalized management, and providing countermeasures and recommendations for improving the job satisfaction and stability of the teaching staff.

Keywords: Teacher Job Satisfaction, Compensation, Private Higher Education Institutions

Introduction

To further consolidate the legal status of private education and provide strong and effective legal protection, China promulgated the "Law of the People's Republic of China on Promoting Private Education" (People's Congress of the People's Republic of China, 2002). Since then, the number of private higher education institutions has increased from 300 to 789, accounting for 25.97% of the total number of higher education institutions in the country (Ji, 2008; Ministry of Education, 2024). With the vigorous development of private higher education, the number of faculty and staff engaged in it has also continued to grow. Teachers in private education also bear important social responsibilities (Bouguila,

2013), and the job satisfaction of these teachers should also be taken seriously.

Private undergraduate higher education is an important part of China's higher education (Zhou & Zhu, 2024), and it is inseparable from a high-quality teaching staff (Liu, 2024). Therefore, this study takes teachers from private undergraduate higher education institutions in Guangzhou, Guangdong Province as the research object to explore the impact of compensation on teacher job satisfaction. It is hoped that a reasonable compensation policy can be used to improve teachers' job satisfaction and further improve the stability of the teaching staff and education quality of private education.

Objective

The objective of this research paper is to verify whether cash compensation and benefits have an impact on teacher job satisfaction.

Literature Review

Guangzhou and private higher education in Guangzhou

Guangzhou, referred to as Sui, is the capital city of Guangdong Province and an important economic, cultural, transportation and technological center in southern China (Zhou et al., 2022). Located on the northern edge of the Pearl River Delta, it has an important strategic position as the core city of the Guangdong-Hong Kong-Macao Greater Bay Area (The State Council of the People's Republic of China, 2016).

According to the Ministry of Education's National List of General Institutions of Higher Education, Guangdong Province ranks among the top three in the country in terms of the number of private universities, with Guangzhou leading the province with 15 private general undergraduate colleges (Ministry of Education, 2024). In addition, the quality of education in private universities has been significantly improved through measures such as strengthening the construction of teaching staff, improving teaching facilities, and optimizing curriculum settings. Based on the advantages in quantity and quality, this study will focus on this area to provide useful references and suggestions for the development of private higher education.

Compensation

According to George T. Milkovich, who believed that compensation is the sum of various monetary incomes and various specific services and benefits obtained by employees as one party in the employment relationship (Milkovich et al., 2014). Therefore, in this research, compensation is divided into two parts: cash compensation and benefit. Cash compensation includes base pay, merit pay, cost-of-living adjustment and incentives/variable pay. Benefits include income protection, work/life balance and allowances.

Teacher job satisfaction

According to Chinese scholars Chen and Sun, Teacher job satisfaction is a teacher's overall emotional feeling and opinion about the profession, working conditions and status (Liu & Niu, 2023).

The effect of compensation on teacher job satisfaction

Previous literature depicts that compensation as one of the key factors affecting teachers' job satisfaction (Ellickson & Logsdon, 2002; Hardi Jatmiko et al., 2024). However, if it is subdivided according to the definition of compensation, the impact of its various components on job satisfaction shows different research results. Some scholars tend to believe that cash compensation has a more significant impact on teachers' job satisfaction, while some scholars believe that benefit is more significant in affecting teachers' job satisfaction (Kumar, 2016; Sinniah, 2019). Another key reason for the two different conclusions is that they did not fully consider the different natures of the schools.

Theoretical Framework

This study aims to explore the impact of compensation on teacher job satisfaction and takes equity theory as the theoretical basis. Equity theory was proposed by American behavioral scientist J. Stacy Adams. The theory focuses on how individuals perceive and evaluate the fairness between their own work and rewards and those of others. The work input and rewards mentioned here should be understood in two aspects. First, individuals will compare work input and rewards; second, individuals will compare their own work input and rewards with the work input and rewards of others (Kurt, 2023).

The equity theory model in this study evaluates teachers' compensation satisfaction by comparing their input-output ratio with that of others. This comparison includes not only horizontal comparison with colleagues, but also vertical comparison with their own past. When teachers believe that their compensation matches their input and is equal to the comparison results of others or the past, they will feel fair, thereby improving their job satisfaction. Conversely, when teachers believe that their compensation does not match their input, or the comparison results with others or the past are not equal, they will feel unfair, which will affect their job satisfaction. (Meng et al., 2022).

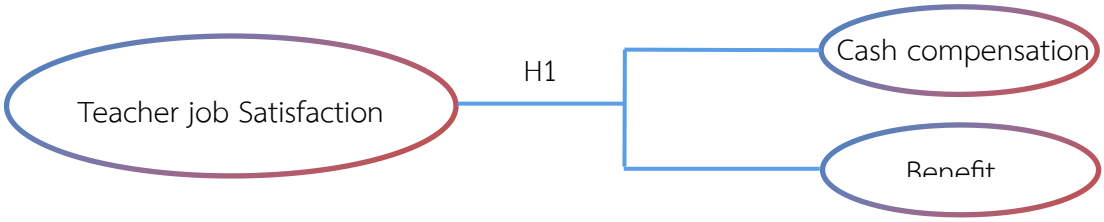

Figure 1: conceptual Framework

Based on the above framework (Refer Figure 1), this study makes the following hypotheses:

H1: Cash compensation and benefits both affect teacher job satisfaction.

Materials and Methods

This study uses a quantitative research method to quantitatively investigate the impact of compensation on teacher job satisfaction by distributing questionnaires (Dewaele, 2018). The focus is on 15 private undergraduate colleges and universities in Guangzhou, Guangdong Province, and a survey is conducted on 20,355 teachers. According to the Taro Yamani formula: $n=N/1+N(e^2)$. It was determined that a total of 393 questionnaires needed to be collected in the study (Bello et al., 2022), and the questionnaires were distributed through convenient sampling (Noor et al., 2022). This ensures that each sample in the population has the same chance of being selected, which ensures that the sample is representative. At the same time, it can reduce the sampling bias and make the research results fairer and more reliable.

The questionnaire used in this study consists of three parts: the first part collects basic information about teachers, including gender, age, marital status and other nine aspects (Hou, 2021; Huang & Song, 2024). The second part is compensation, covering two dimensions: cash compensation and benefits (Milkovich et al., 2014). The third part has 11 questions about job satisfaction (Hou, 2021). There are 34 questions in total in the three parts, of which the second and third parts are scored using the Likert five-point scoring method, with "very dissatisfied/no impact at all" scored as 1 point and "very satisfied/very big impact" scored as 5 points. (James, 2014). The questionnaire passed the pre-test, and the results showed that the Cronbach α coefficient was 0.971, greater than 0.9, the KMO was 0.720, greater than 0.7, and the significance value $p=0.000<0.05$. This indicates that the questionnaire has appropriate reliability and validity (Ji et al., 2022; Cerri et al., 2023). The questionnaire was distributed through the WeChat work group and collected on the Questionnaire Star platform. After screening, 393 valid questionnaires were obtained, and SPSS20.0 was used to perform descriptive statistics and correlation analysis on the data (Singh et al., 2021).

Results

Sample characteristics description

The valid data show that there are 350 females, accounting for 89.06%, and 43 males, accounting for 10.94%; 213 unmarried teachers, accounting for 54.2%, and 180 married teachers, accounting for 45.8%; 171 teachers are 30 years old or below, accounting

for 43.51%, 118 teachers are 31-40 years old, accounting for 30.03%, 15 teachers are 41-50 years old, accounting for 3.82%, and 89 teachers are over 50 years old, accounting for 22.65%; 278 teachers have a doctoral degree, accounting for 70.74%, 115 teachers have a master's degree, accounting for 29.26%, and teachers with a bachelor's degree or below did not appear in the sample; 129 teachers have a teaching experience of 3 years or less, accounting for 32.82%, and 9-12 teachers have a teaching experience of 2 years or less. There are 125 people with teaching experience, accounting for 31.81%; 115 people with teaching experience of more than 12 years, accounting for 29.26%; 24 people with teaching experience of 4-8 years, accounting for 6.11%; 113 people with the title of lecturer, accounting for 28.75%; 114 people with the title of associate professor, accounting for 29.01%; 140 people with the title of teaching assistant, accounting for 35.62%; 16 people with the title of professor, accounting for 4.07%; 10 people with no title, accounting for 2.54%; 140 people with a monthly salary of 5001-6500 yuan, accounting for 35.62%; 122 people with a monthly salary of more than 6501 yuan, accounting for 31.04%; 76 people with a monthly salary of 3501-5000 yuan, accounting for 19.34%; 55 people with a monthly salary of less than 3500 yuan, accounting for 13.99%.

Variable Description

Table 1: Related variable descriptive analysis

Variable	Mean	Standard Deviation	Variance
X1: Cash compensation	3.63	1.27	1.60
X2: Benefit	3.81	1.19	1.42
Y: Teacher job satisfaction	3.80	1.20	1.44

According to Table 1, cash compensation and benefits are one of the important factors affecting teachers' job satisfaction. Teachers' satisfaction with current cash compensation is above average, and their satisfaction with benefits is even higher. Teachers' overall job satisfaction is at a high level. However, the variance and standard deviation of each variable are high, which indicates that there are large individual differences in teachers' satisfaction with these factors.

Correlation analysis between compensation and teacher job satisfaction

Table 2: Correlation analysis results

	Mean	Standard deviation	Cash compensation	Benefits	Teacher job satisfaction
Cash compensation	3.638	1.014	1		
Benefits	3.814	0.959	0.394**	1	
Teacher job satisfaction	3.797	0.940	0.497**	0.453**	1

p** < 0.01 indicates an extremely significant correlation

According to Table 2, cash compensation and benefits have an impact on teachers' job satisfaction. The correlation coefficients of cash compensation, benefits and teachers' job satisfaction are 0.497 and 0.453 respectively, reaching an extremely significant level. This shows that the higher the cash compensation and benefits of teachers, the higher the job satisfaction of teachers. Cash compensation and benefits are an effective means to improve teachers' job satisfaction (Sriadmitum et al., 2023). Therefore, formulating a reasonable compensation policy is conducive to improving the job satisfaction of teachers in private undergraduate colleges.

Conclusions and Discussion

The results show that there is a high significant level of positive correlation between cash compensation and benefits and teacher job satisfaction. Likewise, the analysis results of the data show that teachers are more satisfied with their current benefits than with cash compensation. This may be related to the diversity and non-monetary characteristics of benefits, which can also have a positive impact on teacher job satisfaction (Kassim & Onyango, 2022).

The school management should establish a fair and transparent compensation distribution mechanism. This would enable the compensation of teachers to match their work input and create a fair working atmosphere among the teacher group. Similarly, it was found that private undergraduate colleges and universities should pay attention to the optimization of the compensation system. A reasonable compensation system should not only be reflected in the reasonable compensation level and structure in terms of cash compensation but also pay attention to the diversification and personalized design of benefits (Kang & Lee, 2021).

Furthermore, the analysis results of the data show that the variance and standard deviation of each variable are high, which shows that there are large differences in teachers' perceptions of cash compensation, benefits, and job satisfaction. This may be related to factors such as teachers' age, marital status, and professional titles. Different teachers may have different satisfactions with the same cash compensation and benefits (Lu & Luo, 2021).

This study focuses on teachers in private undergraduate colleges and universities in Guangzhou, Guangdong Province, and uses quantitative research methods to explore the impact of compensation on teacher job satisfaction. The following main conclusions are drawn:

1. Cash compensation and benefits have a significant impact on teacher satisfaction. This conclusion verifies the hypothesis of this study (H1): Cash compensation and benefits both affect teacher job satisfaction. It also shows that the improvement of cash compensation and benefits can help improve teacher job satisfaction.
2. Teachers are satisfied with the benefits.
3. Individual differences are significant.

At the same time, through this study, the following insights are obtained:

1. Private colleges and universities must optimize the compensation structure.
2. The administrative level of management at private colleges and universities must pay attention to the shaping of a sense of fairness.
3. Finally, there must be a mechanism for the teachers to enhance their personalized management, satisfaction, and growth.

Holistically, the significant individual differences in teachers' compensation and job satisfaction, schools should adopt personalized management strategies. For example, for teachers with different teaching years, academic qualifications, and professional titles, differentiated compensation incentive plans and career development paths should be designed to meet their diverse needs and improve the satisfaction and stability of the overall teaching staff.

Thus, this research paves the way for future case studies and in-depth analysis into the teacher job satisfaction and ensuring higher job satisfaction among teachers. This would further reflect the transformation of a sustainable society and economy.

Abstract

Thailand's tourism sector is a vital driver of economic growth, yet sustaining destination competitiveness post-pandemic remains a challenge. This study examines the impact of government support, travel agency engagement, and e-marketing strategies on Thailand's tourism performance, guided by the Destination Competitiveness and Sustainability Model (DCSM). Utilizing a quantitative cross-sectional survey, data were collected from 400 travel agency professionals, and Structural Equation Modeling (SEM) was applied to analyze key relationships. Findings indicate that government initiatives—such as visa exemptions and infrastructure investments—enhance destination competitiveness, while travel agencies contribute through customized experiences and sustainable tourism promotion. Digital marketing, particularly social media, and AI-driven tools, strongly influences competitiveness and attractiveness. Furthermore, destination competitiveness and attractiveness mediate the effects of strategic interventions on overall tourism performance. This study advances tourism research by integrating multiple factors into a cohesive development framework, emphasizing collaboration, digital innovation, and sustainable growth. Policy recommendations are proposed to strengthen Thailand's tourism strategy in the post-pandemic era.

Keywords: Thailand Tourism, Destination Competitiveness, Government Support, Travel Agencies, E-Marketing, Tourism Performance

Introduction

Tourism has long served as a cornerstone of Thailand's economic development, accounting for approximately 18% of national GDP in 2019 and supporting millions of jobs across related sectors (Thailand Ministry of Tourism and Sports, 2023). In 2019, Thailand was among the world's most visited countries, welcoming 39.8 million international tourists. However, the COVID-19 pandemic triggered an unprecedented decline in global travel, leading to an 83% drop in international arrivals to Thailand in 2020 (Dwyer & Forsyth, 2021). The crisis exposed structural vulnerabilities in Thailand's tourism system, including

overdependence on a few markets, underutilized digital strategies, and limited destination resilience (Bramwell & Lane, 2022; Hall, Scott, & Gössling, 2020).

In response, policymakers have prioritized recovery strategies that emphasize destination competitiveness—defined as a destination's ability to attract and retain visitors while delivering sustainable economic and socio-cultural benefits (Ritchie & Crouch, 2003; Dwyer & Kim, 2003). Thailand performs well in terms of natural and cultural resource endowments (WEF, 2021), yet lags in areas such as tourism governance, digital infrastructure, and stakeholder coordination (Sharpley & McGrath, 2021).

While previous studies have examined government policy (Hanafiah, Jamaluddin, & Zulkifly, 2020), tour operator practices (Fong, Lo, Ramayah, & Songan, 2022), and digital marketing (Hsieh & Chang, 2021) as separate influences of tourism performance, there is limited empirical research that integrates these three factors into a unified competitiveness framework. This gap is particularly salient in the post-pandemic context, where dynamic shifts in consumer behavior, technology, and travel motivations demand a more holistic policy and marketing approach (Sigala, 2020; Gursoy, Chi, & Chiappa, 2021).

This study addresses this gap by building a conceptual model based on the Destination Competitiveness and Sustainability Model (DCSM), integrating government support, travel agency engagement, and digital marketing strategies to explain their direct and indirect impacts on destination competitiveness, attractiveness, and overall tourism performance. In doing so, it contributes to advancing theoretical discourse on tourism recovery and offers actionable insights for tourism stakeholders in Thailand and other emerging destinations.

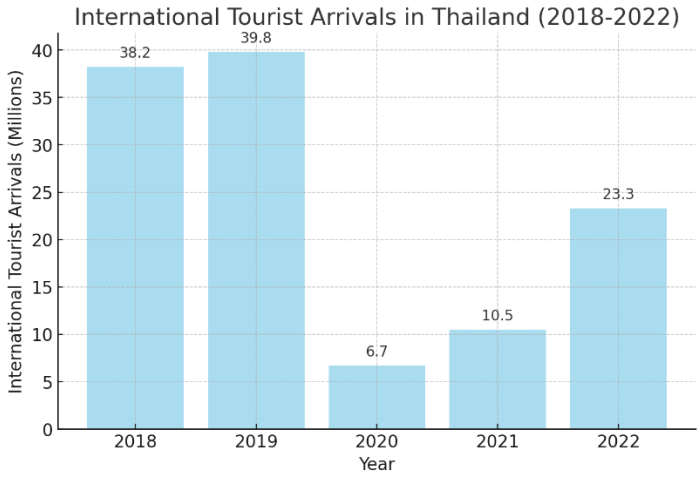

Figure 1: International Tourist Arrivals in Thailand (2018-2022) (Source: Thailand Ministry of Tourism and Sports, 2023)

In response to the crisis, Thailand has restructured its tourism strategy to enhance destination competitiveness, sustainability, and resilience. Destination competitiveness refers to a country's ability to attract and retain tourists while ensuring long-term sustainability. The World Economic Forum's Travel & Tourism Competitiveness Index (TTCI) ranks Thailand among the leading global destinations in terms of natural and cultural resources, yet the country faces challenges in tourism management, infrastructure modernization, and digital marketing effectiveness.

The Thai government has implemented a range of initiatives to enhance tourism competitiveness, including visa waivers for targeted markets, increased funding for tourism-related infrastructure, and national branding efforts led by the Tourism Authority of Thailand (TAT). These measures aim to re-establish Thailand's reputation as a premier global destination and ensure its ability to withstand future crises.

Research Objectives

This study aims to investigate the combined effects of government support, travel agency engagement, and digital marketing strategies on Thailand's destination competitiveness, attractiveness, and tourism performance. Specifically, it seeks to:

1. Examine the impact of government support on Thailand's destination competitiveness and performance (Sharpley & McGrath, 2021; Hanafiah et al., 2020).
2. Assess the role of travel agencies in enhancing destination competitiveness and attractiveness (Fong et al., 2022).
3. Analyze how e-marketing strategies influence destination competitiveness and attractiveness (Chekalina, Fuchs, & Lexhagen, 2021; Hsieh & Chang, 2021).
4. Evaluate the direct effects of destination competitiveness and attractiveness on overall tourism performance (Dwyer & Kim, 2003; Pike & Page, 2020).
5. Investigate the mediating roles of destination competitiveness and attractiveness in the relationships between government support, travel agency engagement, digital marketing, and tourism performance (Knežević Cvelbar, Weaver, & Dolnicar, 2021; Tsai & Chen, 2021).

Theoretical Framework

Destination competitiveness has been widely explored in tourism literature, with several models attempting to explain the complex factors influencing a destination's ability to attract, satisfy, and retain visitors (Ritchie & Crouch, 2003; Dwyer & Kim, 2003). Among these, the Destination Competitiveness and Sustainability Model (DCSM) proposed by Ritchie and Crouch (2003) serves as the primary theoretical foundation for this study.

The DCSM emphasizes that destination competitiveness results from the interaction of core resources and attractors (such as natural and cultural heritage), supporting factors and resources (including infrastructure and accessibility), destination management (such as government policy and marketing strategies), and qualifying determinants (such as safety, health, and security).

Recent empirical research has reaffirmed the necessity of integrating multiple strategic factors to enhance destination competitiveness, particularly in the post-pandemic recovery context (Buhalis & Sinarta, 2021; Knežević Cvelbar, Weaver, & Dolnicar, 2021; Bramwell & Lane, 2022). Building upon these foundations, this study proposes a conceptual model that simultaneously incorporates government support, travel agency engagement, and digital marketing strategies as key strategic drivers influencing competitiveness and performance. Government support plays a critical role by enabling infrastructure development, policy incentives, and tourism promotion, which collectively strengthen a destination's competitiveness and sustainability (Hanafiah, Jamaluddin, & Zulkifly, 2020; Sharpley & McGrath, 2021). Meanwhile, travel agencies act as important intermediaries, curating customized travel experiences, enhancing destination branding, and supporting sustainable tourism practices, thereby influencing both destination competitiveness and attractiveness (Fong, Lo, Ramayah, & Songan, 2022). Additionally, the adoption of digital marketing strategies, including social media engagement, influencer partnerships, and AI-driven customer experiences, has become indispensable for improving destination visibility, shaping tourist perceptions, and driving overall destination attractiveness (Chekalina, Fuchs, & Lexhagen, 2021; Hsieh & Chang, 2021).

Drawing from the DCSM, this study conceptualizes destination competitiveness and destination attractiveness as mediators that link government support, travel agency engagement, and e-marketing strategies to overall tourism performance. Destination competitiveness is operationalized through indicators such as infrastructure quality, service excellence, accessibility, and brand positioning, while destination attractiveness encompasses natural beauty, cultural richness, safety, hospitality, and visitor satisfaction (Li, Zhang, & Cai, 2022; Cracolici & Nijkamp, 2020). Furthermore, incorporating technological innovation into the DCSM framework is particularly relevant in the post-COVID-19 era, where travelers increasingly depend on digital content, virtual experiences, and personalized AI-driven travel planning (Sigala, 2020; Martins, Ruhanen, & Fyall, 2021). Government initiatives that encourage technology adoption and sustainable tourism development are essential for reinforcing destination resilience and long-term competitiveness (Dwyer & Forsyth, 2021; Tran, Filimonau, & Ritchie, 2022).

Thus, based on the DCSM and contemporary empirical evidence, this study proposes that government support, travel agency engagement, and digital marketing strategies have direct positive effects on both destination competitiveness and attractiveness. Moreover, destination competitiveness and attractiveness are posited to have direct positive impacts on overall tourism performance. Importantly, destination competitiveness and attractiveness are theorized to mediate the relationships between the three strategic drivers and tourism performance. By integrating external policy interventions, private sector engagement, and technological innovations within a single framework, this model provides a comprehensive understanding of how Thailand can strengthen its destination competitiveness and achieve sustainable tourism growth in the post-pandemic era.

A study by Hanafiah, Jamaluddin, and Zulkifly (2020) analyzed the relationship between government policies and tourism competitiveness in Southeast Asia. The findings revealed that countries with initiative-taking tourism policies, including tax incentives, funding for tourism development, and streamlined visa regulations, experienced a 25% faster recovery in tourist arrivals post-pandemic. Furthermore, the World Economic Forum's (WEF) Travel & Tourism Competitiveness Index (TTCI, 2021) ranks destinations based on government effectiveness in policy implementation, environmental regulations, and destination branding. Countries with strong governmental backing for tourism, such as France, Spain, and Singapore, consistently rank among the top in tourism competitiveness. An analysis of Singapore's $320 million tourism stimulus package demonstrated its effectiveness in boosting international arrivals by 45% in 2021, despite global travel restrictions (Singapore Tourism Board, 2022). Similarly, Dubai's strategic investments in tourism infrastructure and digital transformation have propelled its status as a leading global travel hub.

Given the evidence above, this study proposes the following hypothesis:

H1: Government support has a significant positive effect on destination competitiveness.

Tour Operator Engagement and Destination Attractiveness

Tour operators function as intermediaries between tourists and tourism service providers, significantly influencing destination attractiveness and visitor experiences. Their ability to offer customized travel packages, sustainable tourism options, and authentic cultural experiences makes them an essential component of tourism competitiveness. A study by Fong, lo, Ramayah, and Songan (2022) found that tour operators who actively engage in destination marketing and sustainable tourism initiatives contribute to a 30% increase in tourist satisfaction and return visits. Similarly, research by Sharpley and McGrath (2021) highlighted those destinations with high levels of tour operator engagement

experience stronger brand recognition and competitive positioning in the global market. A key case study is Costa Rica's eco-tourism model, where tour operators emphasize nature-based tourism, wildlife conservation, and local community involvement. This approach has led to 80% of tourists selecting Costa Rica for its sustainable tourism practices, contributing $4 billion annually to the economy (World Bank, 2022).

Based on these findings, the following hypotheses are formulated:

H2: Tour operator engagement has a significant positive effect on destination competitiveness.

H3: Tour operator engagement has a significant positive effect on destination attractiveness.

Digital Marketing Strategies and Destination Performance

The rise of digital technology and online platforms has transformed the tourism industry, influencing how destinations market themselves, attract visitors, and enhance competitiveness. Research indicates that 75% of travelers rely on online reviews and digital marketing channels when choosing their travel destinations (Statista, 2021). A study by Chekalina, Fuchs, and Lexhagen (2021) found that destinations with high digital engagement experience a 40% higher conversion rate in visitor bookings compared to those with minimal online presence. Another study by Hsieh and Chang (2021) demonstrated that SEO optimization and influencer marketing significantly enhance a destination's visibility, leading to increased international tourist arrivals. As seen in the case of Dubai's AI-powered tourism campaigns, leveraging virtual reality experiences, chatbot interactions, and influencer partnerships resulted in a 27% increase in international arrivals in 2022 (Dubai Tourism Board, 2022). The following chart illustrates the effectiveness of various digital marketing strategies on tourism engagement.

Based on these insights, the following hypotheses are proposed:

H4: Destination e-marketing has a significant positive effect on destination competitiveness.

H5: Destination e-marketing has a significant positive effect on destination attractiveness.

Destination Competitiveness and Performance

H6: Destination competitiveness has a significant positive effect on destination performance.

Destination competitiveness plays a crucial role in shaping a destination's overall tourism performance. Competitiveness encompasses multiple factors, including infrastructure, accessibility, policy frameworks, and stakeholder engagement, which directly impact visitor numbers, tourism revenues, and economic sustainability. Research by Dwyer and Kim (2021) found that highly competitive destinations, ranked by the Travel

& Tourism Competitiveness Index (TTCI), experience a 25% higher GDP contribution from tourism than less competitive destinations. Similarly, Pike and Page (2020) concluded that competitive destinations have stronger brand equity, higher visitor retention rates, and improved long-term sustainability.

A case study of Spain's tourism sector revealed that continuous investment in competitiveness factors, such as infrastructure, government incentives, and marketing campaigns, resulted in a 15% increase in international arrivals over five years (WEF, 2022). These findings suggest that competitiveness serves as a critical determinant of destination performance, justifying the formulation of H6.

Destination Attractiveness and Performance

H7: Destination attractiveness has a significant positive effect on destination performance.

The attractiveness of a destination significantly influences its ability to attract tourists, enhance visitor satisfaction, and ensure repeat visitation. Destination attractiveness includes factors such as natural beauty, cultural heritage, safety, entertainment options, and hospitality services. Empirical studies suggest that 80% of tourists consider destination attractiveness as the primary factor influencing their travel decisions (Chekalina et al., 2021). Research by Hu and Ritchie (2020) further highlights those destinations ranked highly in attractiveness experience 20-30% greater visitor loyalty and positive word-of-mouth marketing. A notable example is Bali, Indonesia, where strong branding around its cultural and natural attractions has led to consistent annual growth in tourist arrivals, contributing over $10 billion to the local economy (Indonesia Ministry of Tourism, 2021). This underscores the significant role of attractiveness in determining overall tourism performance, supporting the formulation of H7.

Mediating Role of Destination Competitiveness

H8: Destination competitiveness mediates the relationship between government support and destination performance.

Government support, in the form of policy incentives, infrastructure investment, and tourism promotion, directly affects a destination's competitiveness, which in turn influences its tourism performance. A study by Sharpley and McGrath (2021) analyzed government-supported tourism initiatives in Europe and found that countries with strong tourism policies experienced 30% higher destination competitiveness rankings, leading to improved visitor numbers, economic growth, and tourism employment rates. Singapore provides a compelling example, as its $320 million investment in tourism recovery helped bolster its competitiveness, leading to a 45% increase in international arrivals in 2021 (Singapore Tourism Board, 2022). The positive impact of government support on competitiveness and subsequent performance justifies the formulation of H8.

H9: Destination competitiveness mediates the relationship between tour operator engagement and destination performance.

Tour operator engagement enhances tourism experiences by providing personalized travel packages, cultural experiences, and sustainable tourism offerings. These elements contribute to a destination's competitiveness, which, in turn, affects its overall performance. According to Fong et al. (2022), destinations that actively collaborate with tour operators to design unique tourism experiences report 18% higher visitor retention rates and greater overall economic benefits. Similarly, Costa Rica's eco-tourism model, which integrates tour operators into conservation and community-driven tourism initiatives, has resulted in $4 billion annual revenue from sustainable tourism (World Bank, 2022). The evidence suggests that tour operators play a pivotal role in strengthening destination competitiveness, supporting the hypothesis that competitiveness mediates the relationship between tour operator engagement and destination performance (H9).

H10: Destination competitiveness mediates the relationship between destination e-marketing and destination performance.

Digital marketing strategies, including social media campaigns, influence partnerships, and search engine optimization (SEO), significantly enhance a destination's competitiveness. In turn, this improved competitiveness contributes to higher visitor numbers, stronger brand recognition, and increased economic gains. A study by Hsieh and Chang (2021) found that destinations with high digital engagement witness a 40% higher visitor conversion rate compared to those with minimal online presence. Furthermore, Dubai's AI-powered tourism campaign, which leveraged virtual reality experiences and AI-driven customer support, resulted in a 27% increase in international arrivals in 2022 (Dubai Tourism Board, 2022). Given the proven impact of digital marketing on competitiveness and performance, H10 is supported, proposing that competitiveness mediates the relationship between digital marketing and tourism performance.

Mediating Role of Destination Attractiveness

H11: Destination attractiveness mediates the relationship between government support and destination performance.

Government policies and initiatives significantly enhance destination attractiveness by improving public infrastructure, cultural preservation, and natural site conservation. This improved attractiveness leads to higher interest, longer stays, and greater economic benefits. A case study of Japan's tourism policies found that government-sponsored cultural heritage preservation programs contributed to a 22% increase in tourism revenue (Japan Tourism Agency, 2021). Additionally, Sharpley and McGrath (2021) found that government-backed safety initiatives increased the attractiveness of destinations affected

by previous crises, such as terrorist attacks or natural disasters, leading to long-term recovery and performance improvements.

Based on these findings, H11 posits that destination attractiveness serves as a mediator between government support and tourism performance.

H12: Destination attractiveness mediates the relationship between tour operator engagement and destination performance.

Tour operators enhance destination attractiveness by curating immersive, rich, and sustainable tourism experiences. In turn, these experiences contribute to higher visitor satisfaction, repeat visitation, and economic growth. Research by Vengesayi (2021) found that destinations with strong tour operator engagement report 30% higher tourist satisfaction scores compared to those with passive industry involvement. Similarly, eco-tourism packages in Kenya, managed by local tour operators, have increased the country's nature-based tourism revenues by 28% (Kenya Tourism Board, 2022). Given this evidence,

H13 proposes that attractiveness mediates the relationship between tour operator engagement and destination performance.

H14: Destination attractiveness mediates the relationship between destination e-marketing and destination performance.

Digital marketing efforts enhance a destination's visibility and perceived attractiveness, leading to higher visitor intent and economic benefits. Various online marketing techniques, such as virtual tours, AI-based travel recommendations, and influencer campaigns, significantly impact tourist perceptions. A study by Chekalina et al. (2021) revealed that travel destinations with engaging digital marketing content report a 52% higher interest in bookings and visitor inquiries. Similarly, Spain's AI-based tourism marketing strategy increased tourist bookings by 35% within a year of its launch (Spain Tourism Board, 2022). The evidence supports H13, suggesting that digital marketing enhances destination attractiveness, which in turn influences overall performance.

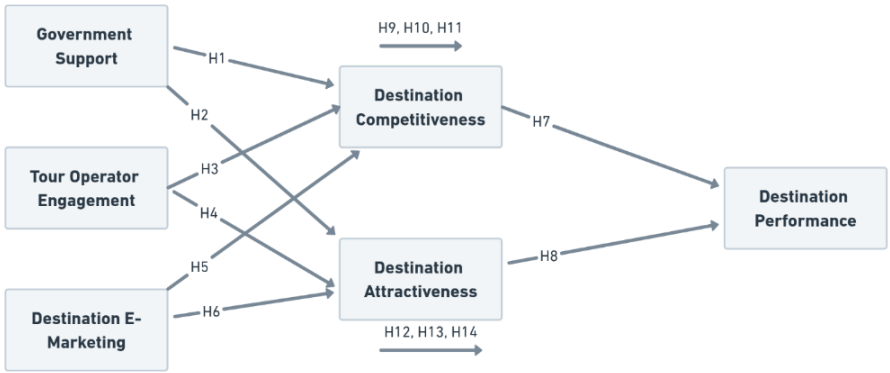

Figure 2: Conceptual Model

Expected Outcome

This study is expected to confirm that government support, tour operator engagement, and digital marketing strategies significantly enhance destination competitiveness and attractiveness, which in turn drive overall tourism performance. The findings will demonstrate that proactive government policies, stakeholder collaboration, and innovative digital marketing efforts contribute to higher visitor retention, increased economic impact, and long-term sustainability. Empirical results are anticipated to show that destinations with strong governmental backing and tour operator partnerships experience faster tourism recovery, while destinations leveraging digital marketing strategies witness higher global visibility and engagement. Additionally, the study will highlight the mediating roles of destination competitiveness and attractiveness, reinforcing the importance of multi-stakeholder collaboration and technological advancements in tourism management. These insights will provide practical recommendations for policymakers, tourism boards, and marketers to optimize strategies for sustainable tourism growth in an increasingly digital and competitive landscape.

Research Methodology

This study adopts a quantitative research design to investigate the effects of government support, travel agency engagement, and digital marketing strategies on Thailand's destination competitiveness, attractiveness, and tourism performance. A cross-sectional survey method was employed, allowing for the collection of primary data from a broad sample of travel agency professionals at a single point in time, suitable for testing complex causal relationships through Structural Equation Modeling (SEM) (Chekalina, Fuchs, & Lexhagen, 2021).

Population and Sampling

The target population for this study consisted of travel agency professionals operating across Thailand, including agency managers, marketing executives, and tour operators specializing in various tourism sectors such as luxury tourism, eco-tourism, cultural tourism, and adventure tourism. A stratified random sampling technique was utilized to ensure representation from agencies of different sizes (large, medium, and small enterprises) and tourism specializations. Stratification was necessary to reflect the diversity within the travel agency sector and to increase the generalizability of the findings.

The minimum recommended sample size for SEM was calculated following the "10-times rule" suggested by Hair et al. (2019), requiring at least 10 respondents per observed variable. Given the study's conceptual model containing approximately 35 observed indicators, a minimum of 350 responses was necessary. To enhance statistical robustness and accommodate potential non-responses or incomplete data, a final sample size of 400 respondents was targeted and achieved.

Instrument Design

Data were collected through a structured questionnaire developed based on existing validated scales adapted from prior tourism and marketing research (e.g., Dwyer & Kim, 2003; Buhalis & Sinarta, 2021). The questionnaire was divided into seven sections:

1. Demographic information,
2. Government support measures,
3. Travel agency engagement practices,
4. Digital marketing strategies,
5. Destination competitiveness,
6. Destination attractiveness,
7. Overall tourism performance.

Responses were measured using a five-point Likert scale ranging from 1 ("strongly disagree") to 5 ("strongly agree"), suitable for capturing the attitudinal intensity of travel agency professionals toward each construct.

Data Collection Procedure

Data collection was conducted from January to March 2024 using two modes: (1) online surveys distributed via email and professional travel association networks, and (2) face-to-face interviews with agency representatives located in key tourism hubs such as Bangkok, Chiang Mai, Phuket, and Pattaya. Participation was voluntary, and respondents were assured of confidentiality and anonymity to encourage honest and accurate responses.

Prior to the main data collection, a pilot study was conducted with 30 travel agency professionals to pretest the survey instrument. Feedback from the pilot testing led to minor revisions in wording to enhance clarity and eliminate ambiguity. The reliability of the instrument was confirmed during the pilot phase, achieving Cronbach's alpha values exceeding 0.80 for all key constructs.

Data Analysis Techniques

Data analysis was conducted using SPSS version 28 for initial descriptive statistics and reliability testing and AMOS version 24 for hypothesis testing via Structural Equation Modeling (SEM). An Exploratory Factor Analysis (EFA) was first conducted to identify the underlying factor structure. Subsequently, Confirmatory Factor Analysis (CFA) was performed to validate the measurement model, assessing indicators such as composite reliability (CR), average variance extracted (AVE), and discriminant validity.

The structural model was then tested using SEM to examine the hypothesized direct and mediating relationships among the constructs. Model fit was evaluated based on standard fit indices, including the Comparative Fit Index (CFI), Tucker–Lewis Index (TLI),

Root Mean Square Error of Approximation (RMSEA), and Standardized Root Mean Square Residual (SRMR), following the cut-off criteria recommended by Hair et al. (2019).

Ethical Considerations

The research adhered to strict ethical standards. Informed consent was obtained from all participants prior to survey participation. Respondents were assured of the confidentiality of their responses and their right to withdraw from the study at any stage without any repercussions. Data was anonymized and securely stored to maintain privacy and compliance with research ethics guidelines.

Results

The study's findings indicate that travel agency engagement plays a significant role in Thailand's tourism competitiveness. Statistical analysis reveals that travel agencies contribute to higher international tourist arrivals, visitor retention, and destination branding through customized itinerary planning, guided tours, and specialized travel packages.

Travel agencies that implement personalized travel experiences, digital marketing strategies, and customer engagement initiatives report significantly higher customer satisfaction and repeat visitation rates. Findings suggest that agencies specializing in eco-tourism and cultural tourism contribute to positioning Thailand as a sustainable and culturally rich travel destination.

This section presents the findings of the study based on descriptive statistics, measurement model evaluation, and structural model testing using Structural Equation Modeling (SEM). All analyses were conducted following best practices for SEM reporting (Hair et al., 2019).

1. Descriptive Statistics

A total of 400 valid responses were collected from travel agency professionals across Thailand. Respondents were distributed evenly across various agencies, including luxury tourism (28%), eco-tourism (25%), adventure tourism (23%), and cultural tourism (24%). Demographically, 55% of respondents were female and 45% male, with the majority (68%) aged between 30 and 49 years old.

2. Measurement Model Evaluation

An initial Confirmatory Factor Analysis (CFA) was conducted to assess the validity and reliability of the constructions. The model demonstrated a good fit to the data: $\chi^2/df = 2.11$, CFI = 0.94, TLI = 0.92, RMSEA = 0.052, and SRMR = 0.043.

All factor loadings were above 0.70, composite reliability (CR) values exceeded 0.80, and average variance extracted (AVE) values were above the threshold of 0.50, confirming convergent validity. Discriminant validity was verified using the Fornell–Larcker

criterion, as the square root of AVE for each construct exceeded its correlations with other constructs.

3. Structural Model Evaluation

The structural model also demonstrated acceptable fit indices: $\chi^2/df = 2.26$, CFI = 0.93, TLI = 0.91, RMSEA = 0.056, and SRMR = 0.048.

Table 1: Hypothesis testing results.

Hypothesis	Path	Standardized Estimate (β)	t-value	p-value	Result
H1	Government Support ⟶ Destination Competitiveness	0.43	7.25	< 0.001	Supported
H2	Tour Operator Engagement ⟶ Destination Competitiveness	0.36	6.12	< 0.001	Supported
H3	Tour Operator Engagement ⟶ Destination Attractiveness	0.29	5.48	< 0.001	Supported
H4	E-Marketing Strategies ⟶ Destination Competitiveness	0.41	6.89	< 0.001	Supported
H5	E-Marketing Strategies ⟶ Destination Attractiveness	0.44	7.05	< 0.001	Supported

Hypothesis	Path	Standardized Estimate (β)	t-value	p-value	Result
H6	Destination Competitiveness ⟶ Tourism Performance	0.47	7.56	< 0.001	Supported
H7	Destination Attractiveness ⟶ Tourism Performance	0.39	6.94	< 0.001	Supported

All direct effects hypothesized in H1 to H7 were statistically significant at the 0.001 level.

4. Mediation Analysis

Table 2: the results

Hypothesis	Indirect Effect	Bootstrapped 95% CI	Result
H8	Government Support ⟶ Destination Competitiveness ⟶ Tourism Performance	0.20	[0.14, 0.28]
H9	Tour Operator Engagement ⟶ Destination Competitiveness ⟶ Tourism Performance	0.17	[0.11, 0.24]
H10	E-Marketing Strategies ⟶ Destination Competitiveness ⟶ Tourism Performance	0.19	[0.13, 0.27]
H11	Government Support ⟶ Destination Attractiveness ⟶ Tourism Performance	0.16	[0.10, 0.22]
H12	Tour Operator Engagement ⟶ Destination Attractiveness ⟶ Tourism Performance	0.15	[0.09, 0.20]
H13	E-Marketing Strategies ⟶ Destination Attractiveness ⟶ Tourism Performance	0.18	[0.12, 0.25]

All indirect effects were significant as the 95% confidence intervals did not contain zero, confirming the mediating roles of destination competitiveness and destination attractiveness.

Additionally, the study confirms the impact of digital marketing strategies employed by travel agencies. Agencies that leverage social media promotions, influence collaborations, and AI-driven travel recommendations experience increased international bookings and enhanced brand visibility. Well-executed digital campaigns drive higher conversion rates, positioning Thailand as a competitive global tourism destination.

Conclusions and Discussion

This study examined the effects of government support, travel agency engagement, and e-marketing strategies on Thailand's destination competitiveness, attractiveness, and overall tourism performance. The findings offer important theoretical and practical insights into tourism recovery and strategic destination management in the post-pandemic era.

The results confirm that government support significantly enhances destination competitiveness, aligning with prior studies emphasizing the vital role of public policy in shaping a competitive tourism environment (Sharpley & McGrath, 2021; Hanafiah, Jamaluddin, & Zulkifly, 2020). Infrastructure investments, visa facilitation, and national tourism branding campaigns have proven effective in strengthening Thailand's global positioning. Furthermore, the significant mediating role of destination competitiveness suggests that government initiatives indirectly influence tourism performance by first improving structural and managerial aspects of destination appeal. This supports arguments by Dwyer and Forsyth (2021) regarding the critical importance of sustained governmental backing during crisis recovery periods.

The findings also underscore the importance of travel agency engagement. Agencies that actively curate personalized, culturally rich, and sustainable tourism experiences significantly contribute to both destination competitiveness and attractiveness. This result is consistent with Fong, lo, Ramayah, and Songan (2022), who found that tour operator involvement enhances visitor satisfaction and destination branding. Importantly, both competitiveness and attractiveness mediate the relationship between travel agency engagement and tourism performance, highlighting the strategic intermediary role that agencies play in shaping tourist perceptions and experiences. Nevertheless, it should be noted that while travel agency engagement had strong effects, the magnitude of influence was lower than that of government support and e-marketing strategies, suggesting that agencies alone cannot drive competitiveness without broader policy and digital marketing ecosystems.

Digital marketing strategies emerged as a particularly powerful driver, influencing both destination competitiveness and attractiveness. This reinforces the work of Chekalina, Fuchs, and Lexhagen (2021) and Hsieh and Chang (2021), who demonstrated that destinations with robust digital engagement strategies achieve higher visitor interest and conversion rates. Thailand's increasing use of AI-driven travel recommendations, influencer partnerships, and immersive virtual experiences appears to have positioned the country more favorably in competitive global tourism markets. However, while digital strategies enhance marketing reach and branding, they also introduce challenges such as increased competition from digitally savvy destinations and the risk of overtourism if visitor management practices are not simultaneously strengthened (Sigala, 2020).

Theoretical implications of the study include validating the Destination Competitiveness and Sustainability Model (DCSM) (Ritchie & Crouch, 2003) in an integrated, technology-driven, post-pandemic tourism context. The study demonstrates that core resources and attractors alone are insufficient; active destination management through policy intervention, agency collaboration, and technological adoption are crucial for achieving competitiveness and performance. Furthermore, the findings extend previous research (Dwyer & Kim, 2003; Knežević Cvelbar, Weaver, & Dolnicar, 2021) by empirically validating that destination competitiveness and attractiveness function as critical mediators linking strategic drivers to tourism outcomes.

Practically, the study highlights the necessity for Thailand's tourism authorities and private stakeholders to invest simultaneously in policy reforms, capacity-building for travel agencies, and advanced digital marketing technologies. Future competitiveness will increasingly depend on the ability to adapt to changing tourist expectations, technological innovations, and sustainability imperatives.

Nevertheless, this study is not without limitations. The cross-sectional design captures relationships at a single point in time and cannot account for dynamic changes in tourism recovery processes. Furthermore, reliance on travel agency professionals as the sole respondent group may overlook the perspectives of tourists themselves. Future studies could employ longitudinal designs and multi-stakeholder surveys, including tourists and policymakers, to provide a more comprehensive evaluation of competitiveness factors over time.

Recommendations

Based on the study's findings, several key recommendations are proposed to strengthen Thailand's destination competitiveness, attractiveness, and tourism performance in the post-pandemic era. These recommendations target policymakers,

tourism agencies, and private-sector stakeholders, ensuring a multi-stakeholder approach to sustainable tourism development.

1. Policy Recommendations

The Thai government should continue to prioritize targeted investments in tourism infrastructure, safety measures, and sustainability initiatives. Policies should focus on maintaining visa facilitation programs for high-potential markets, developing eco-friendly transportation networks, and enhancing tourism governance structures. Additionally, new funding schemes could be established to support small- and medium-sized travel agencies in adopting digital technologies and sustainable tourism certifications. National branding campaigns should also emphasize Thailand's commitment to safe, authentic, and innovative travel experiences, thereby strengthening destination competitiveness (Sharpley & McGrath, 2021; Hanafiah, Jamaluddin, & Zulkifly, 2020).

2. Travel Agency Strategies

Travel agencies must deepen their role in co-creating value with tourists by designing more personalized, culturally immersive, and sustainable travel experiences. Agencies should invest in staff training programs that enhance skills in digital communication, cross-cultural competence, and sustainable tourism management. Partnerships with local communities to promote authentic cultural tourism products can further enhance destination attractiveness. Moreover, agencies should leverage customer data analytics to customize itineraries and recommend niche tourism experiences, thereby increasing tourist satisfaction and loyalty (Fong, Lo, Ramayah, & Songan, 2022).

3. Digital Marketing and Technology Adoption

Stakeholders across the tourism sector should invest heavily in advanced digital marketing strategies. Destination marketing organizations (DMOs) and travel agencies should collaborate with digital platforms to develop AI-driven personalized marketing campaigns, virtual and augmented reality experiences, and influence partnerships targeting emerging market segments. Building strong online reputations through proactive management of online reviews and social media engagement is critical for enhancing destination visibility and attractiveness. Furthermore, the integration of blockchain-based smart contracts for booking and payment systems could enhance trust and transparency in travel transactions (Chekalina, Fuchs, & Lexhagen, 2021; Hsieh & Chang, 2021).

4. Strengthening Multi-Stakeholder Collaboration

Sustainable tourism development requires active collaboration between the public sector, private sector, local communities, and tourists. The Thai government should establish formal mechanisms such as tourism advisory boards, public-private partnerships, and digital innovation hubs to foster collaboration. Joint initiatives could focus on destination management planning, sustainable tourism education, and crisis preparedness

programs to improve destination resilience and competitiveness (Dwyer & Forsyth, 2021; Buhalis & Sinarta, 2021).

5. Future Research and Innovation

Continuous research and innovation are necessary to adapt to evolving tourist behaviors and global trends. Future studies should explore longitudinal changes in tourist perceptions post-COVID-19, the impact of emerging technologies such as AI and the metaverse on travel experiences, and the integration of sustainability metrics into destination competitiveness assessments. Encouraging academic–industry partnerships can further ensure that Thailand's tourism strategies are grounded in evidence-based insights and global best practices (Sigala, 2020; Martins, Ruhanen, & Fyall, 2021).

Abstract

In an era where digital technology permeates all facets of everyday life, customer behavior and requirements have evolved swiftly, compelling businesses to modify their strategies for continuous and seamless communication and service delivery. This research concentrates on synthesizing concepts and theories pertaining to social, behavioral, and emotional experiences, and introduces a novel conceptual framework to create a brand experience that combines the physical and digital realms (Phygital/Omnichannel Marketing Experience) for home improvement stores in Thailand. This study synthesizes and examines concepts from social theory, behavioral theory, and emotional theory to explain how customer-brand interactions across online and offline channels influence brand satisfaction and loyalty. The study identifies limitations in previous research and suggests enhancements to marketing techniques to better fit with customer behavior in the digital era. The research findings will offer directions to create flexible marketing strategies that competently address market shifts, while also serving as a resource for home improvement stores to cultivate engaging customer experiences and distinguish themselves in a highly competitive landscape. This conceptual study proposes a synthesizing theoretical framework indicating that social, behavioral, and emotional experiences collectively influence the formation of a significant phygital brand experience. This synthesis seeks to establish a basis for subsequent empirical evaluation.

Keywords: Phygital, Brand Experience, Omnichannel, Customer Behavior, Home Improvement Stores

Introduction

In recent years, the integration of digital technology into physical retail settings has profoundly transformed the sector. Customers currently anticipate seamless transitions between online and offline touchpoints during their purchase journeys (Verhoef, Kannan, & Inman, 2015). Consequently, businesses must provide consistent omnichannel experiences to maintain competition. Lemon and Verhoef (2016) highlighted that the

contemporary customer journey comprises interconnected experiences that significantly influence brand impression and loyalty.

The advent of "phygital experiences," which integrate physical and digital interactions, has become a strategic need. Piotrowicz and Cuthbertson (2014) highlighted that efficient omnichannel strategies improve customer convenience and satisfaction by providing integrated cross-platform experiences. Therefore, home improvement stores, traditionally dependent on in-person interactions, must implement phygital strategies to satisfy changing customer demands in the digital era.

Comprehending the impact of social, behavioral, and emotional components on phygital experiences is essential, as these elements directly influence brand engagements and loyalty. Previous studies indicate that the combination of digital technology with in-store experiences has transformed customer expectations across several sectors (Verhoef et al., 2015; Lemon & Verhoef, 2016), highlighting the necessity for additional exploration of hybrid environments.

Traditionally, marketing techniques focused on physical stores and traditional media, constraining outreach to customers. The growth of digital technologies has changed customer behavior as current customers explore knowledge and experiences through both online and physical channels. In the current competitive market, businesses must create seamless services to distinguish their brands and improve satisfaction.

The home remodeling market in Thailand has considerable problems due to fast industry changes and shifting customer behaviors. Customers are progressively conducting online research prior to executing in-store transactions. Consequently, providing favorable experiences at each phase—from information acquisition to post-sales support—has become crucial. To maintain competitiveness, home improvement stores must emphasize the development of phygital experiences that correspond with modern customer needs.

Research Objectives

The objectives correspond with the suggested conceptual framework, illustrating the impact of various variables specifically social, behavioral, and emotional experiences on the evolution of phygital and brand experiences in omnichannel environments.

1. The aim of this study is to examine the factors affecting the establishment of physical contexts in home improvement stores in Thailand.
2. The aim of this study is to investigate the developmental methodologies and marketing tactics that facilitate the promotion of physical experiences in home improvement stores.

3. The aim of this study is to provide practical guidance for home improvement stores to modify their marketing tactics in alignment with consumer behavior in the digital age.

Literature Review

Social experiences influence the creation of phygital

Mele, Russo-Spena, Tregua, and Amitrano (2021, Abstract) The millennial customer journey: a phygital analysis of emotional, behavioral, and social events. The expanded potential for connectivity provides customers with enhanced chances to engage with value propositions. This study seeks to delineate the phygital customer journey with an emphasis on millennials. The research employed a qualitative methodology to examine 50 millennials from Italy. The millennials' customer journey is a cyclical process comprising four phases: connect, explore, buy, and utilize. Every instant shape the consumer experience as a blend of emotional, behavioral, and social reactions. The lines between the physical and digital worlds are blurred when people interact with each other online and offline (i.e., phygital). Millennials change how they act based on their emotions and interactions.

Liu and Lee (2024, Abstract) Phygital is a methodology that combines digital technology with physical retail environments to deliver creative and dynamic customer experiences. This study seeks to address this gap by examining the aspects that affect cognitive, emotional, technological, sensory, and social experiences in phygital stores. The research examined 380 customers in China who had engaged with phygital stores. This study investigates the influence of sub-dimensions of customer experience on recommendation intentions within a phygital store context. These insights offer significant strategic direction for service-oriented stores.

Johnson and Barlow (2024, Abstract) Phygital marketing examined via the perspectives of neuroscience and phenomenology: an interpretivist analysis. The point of this study is to investigate how neurophenomenology can help us understand, design, and rate phygital consumer experiences. To achieve this, we will talk about interpretivist approaches in customer neuroscience. This field uses cutting-edge neuroimaging methods and theories of individual phenomenology to look for and study first-person accounts of phygital experiences. The argument is theoretical, and it takes a standby combining ideas from phenomenology, digital marketing, theoretical neuroscience, and other relevant fields. The study suggests that interpretivist neuroscience, especially

neurophenomenology, gives us a big new way to look at digital marketing experiences. We contend that the examination of first-person experiences in the phygital realm can be enhanced by embracing this perspective.

In conclusion, social experiences are important in the physical world because they build relationships between people in both real and virtual worlds, increase engagement that leads to brand loyalty, allow people to share their experiences, which promotes word-of-mouth marketing, provide opportunities for learning and growth, and allow businesses to easily adapt their strategies to meet the needs of customers in the digital age.

Hypothesis 1: Social experiences influence the creation of phygital.

Behavioral experiences influence the creation of phygital

Batat (2024) Editorial by a guest contributor: The phygital research paradigm: conceptual underpinnings for analyzing customer experiences and behaviors in hybrid physical-digital environments. In hybrid physical-digital contexts, the phygital research paradigm provides fresh perspectives on customer behaviors and experiences. This framework presents numerous potential directions for forthcoming research. This approach could entail utilizing liquid philosophy across many contexts to comprehend how the shifting nature of social systems affects customer behavior in phygital environments. Using methods like phygital ethnography or experiential research could help us learn more about how people act and what they experience in these mixed environments. It is important to deal with the problems that arise because of the subjective nature and conceptual flexibility of the digital research paradigm. Determining solutions to address these challenges will be crucial for enhancing methodological rigor.

Lee, Yu, & Sirgy (2024, Abstract) This paper aims to examine the concept of phygital experiences and propose ideas to stimulate future research on phygital customer experiences concerning customer satisfaction through qualitative research methods. As customer contacts both online and offline escalate, marketers must enhance integrated customer experiences. The writers composed this essay utilizing a literature analysis on phygital experiences and customer satisfaction. This article suggests that the idea of phygital experiences should be expanded by looking at how customer phygital experiences affect customer needs, customer satisfaction, and benefits to the company. The commentary additionally presents many methodological recommendations that may inform future qualitative research.

Deng, Xu, and Lei (2025, Abstract) The increasing prevalence of phygital travel, which integrates virtual and real destinations into a singular experience, has initiated dialogues around the phygital tourist experience. This study seeks to examine the impact

of the phygital tourist experience on tourist inspiration and, therefore, behavioral intention. Data were gathered from 947 tourists in the Dunhuang Mogao Grottoes, a cultural heritage site in the study focused on Western China and analyzed the data using structural equation modeling. The results indicated that the phygital tourist experience, which was improved by flow and memorability, had a positive effect on tourist inspiration, which in turn influenced the likelihood of doing virtual travel.

In conclusion, behavioral experiences influence phygital dimensions, especially with marketing and customer service. The relationship between the physical and digital realms enables customers to attribute their experiences with products or services to digital platforms.

Hypothesis 2: Behavioral experiences influence the creation of phygital.

Emotional experiences influence the creation of phygital

Mele, Di Bernardo, Ranieri, & Spena (2024, Abstract) The study looks at the phygital customer journey (PCJ), which combines digital and physical interactions in customer experience. Input from 60 individuals formed the basis for a qualitative analysis. This approach facilitated an in-depth examination of the PCJ, concentrating on customers lived experiences and perspectives. The study talks about the PCJ's four main parts: hybrid objects (which are tools or interfaces that combine digital and physical elements), blended contexts (which are digital and physical environments that work together seamlessly), circular actions (which are customers' complex emotional responses to physical experiences), and intertwined emotions.

Kumar, Rana, Rani & Rani (2024, Abstract) Intelligent store technologies profoundly influence customers' emotions in a physical setting, such as a smart store. This study evaluated the extent to which these technologies serve as emotional triggers or sources that influence the emotional customer experience (ECX). The study concluded that smart retail technology can enhance customer experience by providing an innovative, seamless approach that saves time and minimizes friction throughout the consumer journey. These elicit feelings such as surprise, delight, or excitement, which induce a general sense of contentment in customers.

Sánchez, Romero & Benhissi (2025, Abstract) This research examines the influence of subjective ambivalence and perceived vulnerability on in-store behaviors, namely choice postponement, store switching, and purchase abandonment. We performed a cross-sectional study including a sample of 290 Tunisian customers and 318 Colombian customers. In the Tunisian sample, subjective ambivalence mediated the effect of human and spatial crowding on in-store behaviors. Subjective ambivalence moderated the impact of spatial crowding on these behaviors in the Colombian sample. In the Tunisian sample,

perceived vulnerability positively mitigated the indirect effects of human and spatial crowding on store switching and purchase abandonment. To enhance shopping safety post-COVID-19, managers may shift to phygital stores to mitigate crowded perceptions and communicate explicit information regarding the safety measures enacted.

Hypothesis 3: Emotional experiences influence the creation of phygital.

Phygital influences omnichannel

Phygital represents an omnichannel component, as the integration of phygital channels enables customers to effortlessly transition between physical and digital experiences. This process includes utilizing an app to order products from an online store and complete payment in-store or employing QR code technology in stores that grants customers immediate access to additional product information. Consequently, customers can select their preferred purchasing method, whether purchasing online or visiting the store to engage with the products directly. Diverse experiences enhance the customer convenience and enjoyment. Furthermore, the utilization of digital technology in physical stores enables businesses to more effectively gather customer behavior data. This data can be examined to enhance the marketing strategy and provide promotions that satisfy customer requirements. Moreover, possessing a distinctive and memorable experience in both digital and physical realms contributes to the enhancement of brand image, fostering customer engagement and increasing the likelihood of repeat purchases. Ultimately, creating a phygital experience can enhance sales potential. This is especially true when promotions connect online and offline channels, such as providing discounts to customers who make purchases through an app and pick them up in-store.

Pangarkar, A., Arora, V., & Shukla, Y. (2022) examine phygital luxury marketplaces to enhance customer engagement. The significance of connections and social interaction in omnichannel shopping has transformed the techniques businesses employ to influence customer purchasing decisions. Phygital is a contemporary omnichannel retail concept that prioritizes the combination of physical and digital components, particularly highlighting the human element to address customers' social and symbolic requirements. The current study has not comprehensively addressed the role of phygital in luxury fashion retailing. 18 in-depth qualitative interviews with senior executives and managers of high-end stores were conducted so that retail managers and practitioners could get advice on how to make growth-oriented plans that take advantage of the opportunities of phygital.

Hypothesis 4: Phygital influences omnichannel.

Omnichannel influences brand experiences

Mishra, S., Malhotra, G., Chatterjee, R., & Shukla, Y. (2023) conducted a study on customer retention via physical experiences in omnichannel stores, focusing on the roles of empowerment and customer pleasure. The study findings demonstrate that cross-

channel integration facilitates maintaining customers. The relationship between consumers and stores is reinforced when customers experience empowerment and satisfaction with the products provided and services.

Phongsayam (2023, Abstract) examined the omnichannel factors influencing the word-of-mouth promotion of the 4U2 cosmetic brand among customers in Si Racha District, Chonburi Province. The study revealed that omnichannel elements influenced the word-of-mouth of the 4U2 cosmetic brand, with a forecasting efficiency of 0.654 (R^2 = 65.4%). The omnichannel factors influenced the word-of-mouth for the 4U2 cosmetic brand among customers at a significant level of 0.05. These factors include the connectivity of channels to customers, the comprehension of customer behavior and expectations, the continuous provision of experiences that fulfill customer needs, and the establishment of engagement with customers.

Suwannahong (2024, Abstract) examined the omnichannel factors influencing the purchasing decisions of Makro customers in Phitsanulok Province. The research results indicated that 1) the examination of omnichannel factors and purchasing preference levels revealed that overall marketing factors were exceptionally smooth, and the overall purchasing decision was very high. Research identified multichannel factors influencing purchasing decisions. Omnichannel factors, such as engaging with customers, comprehending customer behavior, and fostering customer relationships, significantly influenced purchasing decisions at Makro department store with a statistical significance of 0.01. Collectively, these factors could predict purchasing decisions independent of purchases from the Makro department store by 100%, equating to 70.0%. Conversely, the factor of delivering a consistently positive experience did not impact purchasing decisions independent of purchases from Makro department store by 100%.

In conclusion, omnichannel is an essential factor influencing brand experiences. Omnichannel is a strategy that integrates all communication and sales channels in a business to deliver an identical and seamless experience for customers in every engagement or transaction. It enables customers to effortlessly obtain information from many channels, fosters trust through consistent messaging, facilitates prompt and efficient responses to requests, tailors the purchasing experience to align with customer requirements, and cultivates a robust relationship between the brand and its customers. Ensure customers that the brand genuinely comprehends and is attentive to their wants.

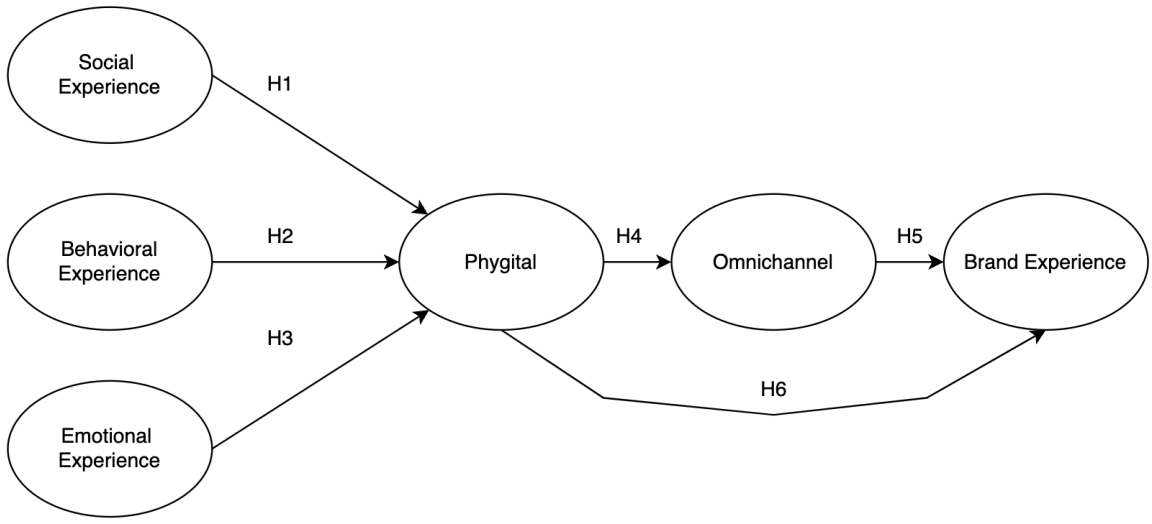
Hypothesis 5: Omnichannel influences brand experiences.

Phygital influences brand experiences

The abstract from Satchapapichit's study in 2023 looked at how smell perception, experiential marketing, and customer reaction behavior affect people's likelihood to return

to a spa in Bangkok. With a p-value of 0.01, the study showed that how people perceive smell has a direct effect on their intention to use the service again and an indirect effect through experiential marketing and how customers respond. Experiential marketing directly affects the inclination to repeat services and indirectly influences it through customer response behavior. Customer response behavior directly impacts the intention of consumers to repeat services. Consequently, spa operators employ smell, other stimuli, and experiential marketing to elicit customer responses and encourage repeat patronage of their services.

Karagioumlezis, A., & Spais, G. (2024, Abstract) examined the validation of the proposed model regarding the factors that contribute to a distinctive and memorable purchasing experience for customers in phygital stores. Linear regression and confirmatory factor analysis show that there is a positive relationship between what customers want, what they expect, and their experiences in online shopping. The happiness component enhances relationships with customers, particularly in distinctive stores. Furthermore, researchers identified a positive albeit non-linear correlation between cross-channel integration and uniform customer experiences across various ages and genders.



Krtolica-Lukic, A., Polo-López, M., & Ramírez-Pagès, A. (2023, Abstract) examine the combination of physical and digital media to augment customer involvement. The case study shows how interested customers are in interacting with businesses through physical formats and points out important factors that cause these formats to work well together. The conversion data shows that 27.5% of customers are engaged, with a 43.9% completion rate. This result indicates that there is a lot of interest and engagement with the brand through the physical format, even though there are some technological requirements. Different parts of physical experience have been found to increase engagement, such as making it more like a game, letting people interact with it a lot, and adding brand content. However, it is known that the need for certain technologies, the need to register personal data, and the complexity of the game are major issues that make it challenging for brands to use physical formats in their experiences.

In conclusion, the creation of phygital significantly influences brand experiences by enabling customers to engage with the brand through various online and offline channels, hence enhancing the convenience and fluidity of the customer experience. Utilizing technology to develop suitable experiences that fulfill customer expectations enables brands to cultivate better ties and enhance brand loyalty. Moreover, data derived from monitoring customers across many channels enables businesses to adeptly tailor experiences to fulfill customer requirements. Presenting experiences that integrate both physical and digital elements enhances brand recall among customers. Ultimately,

cultivating a positive experience through phygital integration enhances brand value, leading customers to perceive added benefits from selecting the business's products and services.

Hypothesis 6: Phygital influences brand experiences.

Within this conceptual framework, the phygital experience serves as a mediating variable linking customer experiences—social, behavioral, and emotional—to the outcomes of omnichannel engagement and brand experience. The phygital experience specifically translates customer perceptions and emotions into concrete actions and interactions across physical and digital platforms. It connects early customer experiences with the conclusion brand outcomes, hence augmenting the strategic efficacy of integrated marketing strategies. The phygital experience facilitates these relationships, improving comprehension of how organizations can develop simple and memorable customer journeys that reinforce omnichannel strategy and create sustainable brand loyalty.

Research Methodology

The proposed conceptual framework indicates that social experience, behavioral experience, and emotional experience each show a direct and significant effect on the development of phygital experiences. Phygital experiences serve as a mediating component that impacts both omnichannel strategy and brand experience. This concept proposes that the omnichannel strategy is both a direct result of the phygital experience and an intermediary conduit that enhances the overall brand experience.

To evaluate the alignment between the theoretical model and empirical data regarding the causal relationship between phygital and brand experience for home improvement stores in Thailand, the researcher employed a quantitative research

methodology to gather comprehensive data that aligns with the research objectives, following these steps:

Step 1: Get ready for the research project by looking at the physical brand experience of home improvement stores in Thailand. This can be done by analyzing and combining ideas and theories, as well as reading relevant literature from textbooks, academic articles, and research done in Thailand and other countries, to create a research conceptual framework.

Step 2: This phase involves the researcher examining concepts and theories and reviewing scholarly literature pertinent to creative innovation management. Thereafter, five experts look over the questionnaire to make sure it is valid in terms of its content, and they also look at the data to find the Item of Objective Congruence index (IOC). The questionnaire is evaluated using a non-sample population of 30 individuals. The data is subsequently evaluated for reliability with Cronbach's alpha coefficient. The questionnaire must get a minimum score of 0.70 to be deemed reliable and acceptable (Cronbach, 1984).

Step 3: Get quantitative research data by sending a questionnaire to 400 people as a sample to learn more about how home improvement stores in Thailand are adding physical elements to the brand experience. The sampling method employed was Convenience Sampling, ensuring a representative distribution of respondents across diverse age demographics and store locations.

Step 4: Verify the gathered data for precision and compliance with the initial agreement. Thereafter, the data is analyzed, and causal research statistics are used to look at the relationships between the cause and outcome variables.

Step 5: Summarize the quantitative research findings, analyze the results, outline the advantages of the research, propose recommendations for future studies, and compose a research report on creating phygital brand experiences of home improvement stores in Thailand.

Step 6: Structural Equation Modeling (SEM) will be employed for hypothesis testing to evaluate the correlations among the proposed variables, utilizing the gathered quantitative data. This ensures statistical confirmation of the conceptual framework.

Results

This study is anticipated to produce the following principal contributions:

1. Advancement in Theory

The study presents an innovative conceptual framework that defines the interconnections between social, behavioral, and emotional experiences and their impact on phygital experiences. Consequently, these experiences are asserted to influence omnichannel strategy and brand experience. This approach addresses gaps in existing literature by integrating psychological and experiential aspects into phygital marketing research.

2. Practical Implications for Marketing Strategy

The proposed framework offers practical insights into practitioners of marketing, especially within the home improvement store business. It proposes strategic methods for merging physical and digital touchpoints to establish seamless customer journeys that correspond with modern customer behaviors in the digital age.

3. Foundation for Subsequent Empirical Research

The conceptual model established in this study provides a foundation for subsequent empirical studies. It provides a systematic framework for creating measurement tools and employing statistical techniques, such as Structural Equation Modeling (SEM), to substantiate the hypothesized correlations among variables.

Conclusions and Discussion

This study presents a conceptual framework that connects customers' social, behavioral, and emotional experiences to the creation of phygital experiences, which then affect omnichannel strategy and brand experience. The framework emphasizes the need to create seamless customer experiences by prioritizing customer-centric aspects. The discussion highlights that businesses proficient in seamlessly merging online and offline experiences can markedly improve customer satisfaction and brand loyalty, particularly in stores, which must perpetually adjust to changing customer behavior.

The proposed framework can effectively inform marketing strategies in the digital age, allowing firms to provide trustworthy multichannel experiences. Formulating plans grounded in multidimensional customer data will enable businesses to address customer demands with more precision. The present study is constrained in scope as it primarily examines the home improvement store business. Consequently, subsequent study ought to encompass more industries and evaluate the model in diverse circumstances to ascertain its precision and relevance on a wider scale.

Recommendations for Subsequent Investigations

To ensure the proposed conceptual framework is comprehensive and efficiently implemented, future studies should concentrate on evaluating and evaluating this framework across other business sectors, beyond just the home improvement store industry. Experiments in many domains will evaluate the reliability and efficacy of the synthesized ideas across diverse situations and can be tailored to address the requirements of each sector. Moreover, subsequent study ought to concentrate on methodically examining the correlation between several marketing channels and client pleasure and loyalty. The application of contemporary data analysis tools and sophisticated analytical methods, including descriptive data analysis and predictive models, will yield insights into customer behavior and enhance marketing tactics to be more precise and adaptive to the digital marketplace.

Abstract

This paper serves as a guide for novice investors entering the competitive world of investing, emphasizing the shared goal of financial gain and the importance of finding reliable information. The study focuses on two key objectives: how investors seek trustworthy investment information in new media and how financial advisors consume online investment data. Using qualitative analysis, the research involved 20 participants, 10 experienced investors and 10 certified financial advisors, who provided insights through semi-structured interviews. Findings indicate that both groups increasingly rely on technology for immediate access to financial information. Investors prefer extensively used, easily accessible platforms, while advisors favor highly credible sources obtained through paid subscriptions, ensuring accuracy via fact-checking processes. The results underscore the necessity of sourcing accurate investment information, as misinformation can lead to costly mistakes. By addressing how investors and advisors identify trustworthy data, this study bridges a knowledge gap, helping future investors make informed decisions and enhance profitability in financial markets.

Keywords: Investment Knowledge, Financial Advisors, Investors, Stock Market, Trade

Introduction

The stock market has been a place where investors can make massive amounts of money and can be a place where investors lose their whole life savings. It is known as a competition between two parties which are buyers and sellers. Many investors exit the market due to fear of losing more capital. They will choose to invest in mutual funds or exchange traded funds. One thing that separates novice investors to veteran investors is the amount of time spent on planning a trade. For having success in stock investment, the traders will need knowledge which require several skills and techniques. Most traders quit trading in the first 6-12 months because the amount of capital that they lost

exceeds there threshold and they might not be able to take any further risks (Rose, 2016). For traders to beat the market, there are guidelines which need to be followed. There are many cases where stock market is potentially manipulated by a person or a hedge fund which could also mean novice traders that lack information might not be able to catch the news. This study will provide guidelines and criteria for beginner and advanced traders to seek further knowledge on verifying the source of information through new media. Finding the right information to support the decision to enter a trade is what makes the difference between good and bad traders. In the new media era, finding information could not be easier because of how far technology has come. News of each stock is updated daily by places like Trading View or Yahoo Finance. Although there have been many developments in new media e.g., online newspapers, webpages, social media networks, audiovisual streaming platforms and so forth, we live in a world where people are free to write ideas or misleading information on platforms that do not verify the integrity of the information. It can be seen that the problem listed above brings grave importance and awareness to the online community. Ziyue (2023) states that "the role of media in the stock market is increasing because of the rapid development of the internet. Finding news for each stock is not that hard, but finding the right news for each stock can be challenging because sources found on the internet are not always vetted. Some information or articles are written by investors themselves who have little or no experience whatsoever. Novice investors tend to have self-bias by finding news that supports their positions instead of finding the correct news first before entering a position. This comes to the purposes of this study as follows:

Objectives

1. To explore a way to seek investing information from trusted sources published in new media via the viewpoint of investors.
2. To examine how to consume investing information on the Internet via the viewpoint of financial advisors.

Concept theory framework

Literature review

Coherence Theory

Coherence theory is when a significant amount of people agrees with the statement that proves to be true. It is simply consistency between all parties that they agree on the same aspect (Young, 2024). Coherence theory is based on radical skepticism and avoids problems of the correspondence theory. Considerations about meaning have pointed research in the same direction that if all holds true about what

the people believe then the statement is correct (Walker, 2018). It has different meanings despite having the same beliefs due to the complexity of the situation. Furthermore, it has never been precisely defined. Coherence theory can integrate to the study due to in the social media era consuming information from various sources is the new norm. Finding the source that is verified and certified can be difficult because people with new technology are not only consuming content but are creating content for others to consume as well.

Source Credibility Theory

Source credibility theory is when people or receivers are more likely to be persuaded when the source presents itself as credible. Furthermore, source credibility can be defined in many ways. Source credibility can be defined as a person with good looks to promote a skin care product representing a good look, a well-dressed person giving a lecture can lead to more credible outlook due to the way that person handled themselves (Umeogu, 2012). Friedman and Friedman (1979) state that trustworthiness is the major factor in source credibility. Source credibility was propounded by Hovland, Janis and Kelly in 1963. They stated that people or receivers are more likely to persuade when the source presents itself as credible. Credibility refers to honesty and trustworthiness. It shows the confidence and integrity of a person's knowledge and presentation. In short, source credibility means trusting the source that is presented or being able to believe in that statement (Umeogu, 2012).

Behavior Finance Theory

According to Hayes (2023), Behavioral Finance proposes that psychological influences and biases affect the financial behaviors of investors and financial practitioners. Moreover, influences and biases can be the source for the explanation of all types of market anomalies and specifically market anomalies in the stock market, such as severe rises or falls in stock price. This theory can also explain many irrational decisions from investors in volatile circumstances. Behavior finance theory normally happens during times when stocks are at their peak or when stocks are falling dramatically like during wars and economic data displays. Behavioral finance can be integrated into this study because of how much emotions affect market and investment decisions. Behavior finance doesn't only occur mentally but occur physically as well. Emotions could also affect performance when traders decide to over analyze or over search which could mean traders could miss a key entering opportunity. Market volatility can be created by uncertainty of ones confident in different circumstances. Many investors can grasp the concept of behavioral finance but one never thinks about how emotions affect their trading. Many studies have stated that most people who quit

trading are ones that trade with their heart not their mind. This means trading without having a fundamental or researching enough about the stock to trade it.

User Gratification Theory

Users and Gratification theory (UGT) refers that people choose to consume certain kinds of media because they expect to gain satisfaction and gratification from those selections. UGT focuses on media consumers instead of the media itself because it focuses on the content consumers instead of content providers (Vinney, 2024) Then, it can be used in many situations especially in digital finance. Emotions are the key element in investing because controlling your emotions is key to being successful. Understanding what content to search for and what is required to find resourceful content is crucial in consuming the right information for the right circumstance. This theory could be integrated into this study because of how much new media has changed this theory. Being able to use the theory created in the 1940s to describe it with technology that has developed media to its fullest potential. This study will not only cover what investors choose to consume but will also give readers current information on how biased investors are when they research on the stock they invest in.

Materials and Methods

This study adopted qualitative research due to a reception of detailed data in explanation (Verhoef & Casebeer, 1997), to be able to interpret complex subject or topic more simple while keeping all the details intact (Rahman, 2017) and to gain different viewpoints from the interview and being able to understand different persons behavior throughout the interview was also be beneficial (Richardson, 2012). It used in-depth interviews with both 10 investors and 10 financial advisors. Advisors and investors gave permission to be interviewed, and both gave permission to be included in the paper with no limits from confidentiality. Convenience *sampling* was selected because of a good sample for general representatives currently. The advantages of *convenience sampling* are 1) less effort to select the participants compared to other non-random sampling techniques, 2) little time investment since the sample is readily accessible, 3) no need for a list of population elements, 4) a wealth of qualification data While another 10 interviewees were recruited, s*nowball sampling* was chosen because of a way to get more experts faster and reliability. Snowball sampling is used mainly when a test requires a group of participants that could not be organized to a group meeting, so this method was required. There were three criteria to meet: 1) experience working in the financial field, 2) having a license for Investment Consultant (IC), 3) graduating in the school of finance.

Semi-structured interviews were employed in this study because of 1) an exploration of new ideas that might come up during the course of an interview

(Olatunde et al., 2021) and a revival of hidden information that may turn out to be helpful in the final data analysis of different themes (Kakilla, 2021). As questions for the investors, the study focused on how investors used new media to make profit or find new information on a stock. As for a list of questions for investors' and financial advisors' participants, there were six parts which included 1) background of investment, 2) knowledge about investment, 3) knowledge about risk management, 4) source of information, 5) information from brokers, and 6) making a decision. Although the structure of the question lists was similar, there were slight differences in some parts and questions to meet the proposed in this study.

After the data collection was completed, a process of data analysis had started. Firstly, a conversation from interviewees was transcribed and reported as categorized notes with coding sheets. Data was adjusted by modes of inquires which separated into two sides; in particular, investors and financial advisors' participants, Then, they were sorted by points to be ready for analysis. After finishing the analysis, the findings were reported in this article.

Results

This section will start to report a finding based on the objective in which the first research objective is addressed. From the research gathered during the in-depth interview, it showed that almost 50 percent of investors' participants stated that they use new media (Facebook Group) as a tool or search engine for finding information on the stock they invested or went to invest in. Facebook had been a popular social media network for investors because 1) most people already used Facebook during their daily lives, 2) there was no waiting time to get the news. They believed that the information they saw in the posts was true because many of them in the group agreed. Facebook posts could be beneficial because of verity opinions in a community which can spark an idea or having an issue to consider an investment. When an investor posts a question in a group about a certain stock or posts their portfolio, other members could advise that the portfolio could include a certain sector, and this sector might be overly bought. This gives an investor a different mindset and different opinions on how they could invest or allocate their portfolio. This statement from investors also correlated with the statement, as Cline (2018) noted that the statement could be deemed true if majority of people agree on the same thing. The participants believed that information given by different members of the group was trustworthy information despite any biases contained in the statements. They gained confidence with their stock when they saw a group of people commenting or agreeing with the statement among investors. This indicates that the participants use the social media network (i.e., Facebook posts) to receive and evaluate investment before taking an action.

As for the rest of the investors' participants, they argued that using other forms of new media for news and information gave them more confidence because the information stated came from a trusted source or a trusted website. This gives the investors more confidence because the information received does not contain any bias's opinion. Also, it was reported and shown via reported news which was a high level of source creditability based on the notion of Umeogu (2012). Investors' participants also stated that no matter what the members in the group said, they needed to make their own decision and analyze the stock themselves. In addition to consensus among the advisors' participants, they agreed that investors usually traded blindly without any information, but it stuck with advisor recommendations performed better due to advisors giving specific trade recommendations with different products. This might be another option to consume financial information before taking an investment.

Moreover, investors' participants used new media to search for specific information on a stock that they hold or planned to trade to find information like P/E (price to earnings ratio) and the market capitalization. These are basic information that an investor should know before entering a trade because these two factors include essential information to know how big the company is in the stock market and how overvalued or undervalued the stock is. It means that investors' participants could use new media to diversify investments by researching different types of Exchange Traded funds to see the holdings from each of those big funds. They could use that information to form their own holdings. This could save investors time to research individual stock names because those holdings from ETFs were already researched by qualified hedge funds before rolling out the ETFs to the public.

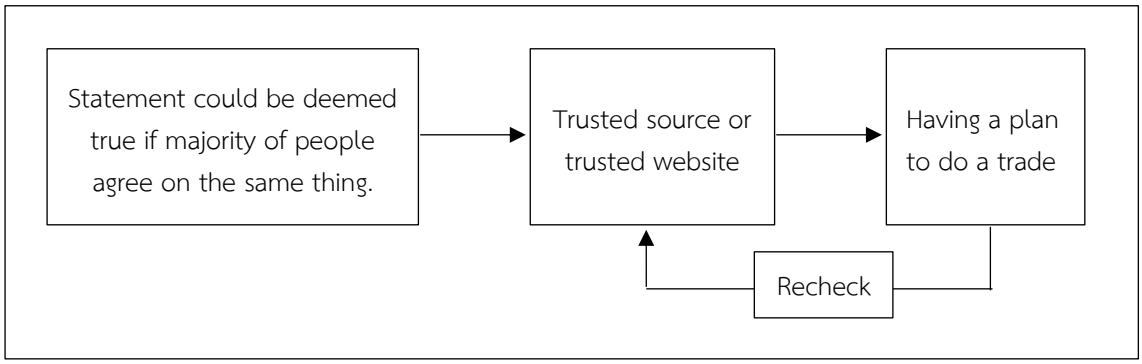

Figure 1: A pattern to confirm finance information through new media channels which are perceived by investors.

As shown in Figure 1, it is a diagram to depict their way of making decisions to buy or sell their own assets in a technical method. Focusing on the first step, they might receive some information from the Internet (such as Facebook, X, and other social

networks). Trusted sources or websites were considered to check a concept of reliability and validity. There were many sources mentioned in the interviews but the majority of the participants did three acts which included 1) checking URL which did not swap a letter for a similar-looking character like replacing the "o" in *amazon.com* with a zero to create *amaz0n.com*, 2) checking a green icon of locked key in the address bar, and 3) avoiding a short URL and see the beginning at the URL which should start with "*https*". After the process of site checking passed, the participants might ask themselves about the fact that this action was suitable to their goals. To decide in accordance with logical reasons without bias, it moved to a step of rechecking before confirming a transaction. A minority of the participants suggested that they used their own bookmarks or to type a URL or password to confirm their transactions by themselves every time.

Furthermore, most investors' participants suggested that AI tools were very famous to get more ideas to make an investment. They also say that the new digital media search engine from OpenAI called ChatGPT. One of the participants stated that "*ChatGPT has been the influence of giving very good information, but investors also caution future investors that the information related to these stocks are generated by AI which can also represent inaccurate information*." However, "*all the suggestions by AI do not always represent accurate information in which it needs a double-check*," as one of them said. It can be argued that trusting artificial intelligence might be the future of stock trading, but it can also be used to trick investors into a trap which is another reason why new media could be dangerous.

To respond to the second objective which focused on advisors' participants, the results found that the product they use to find information was not very different, but the different types of sources provided different information. That is, they still used 1) search engines, 2) social media networks, 3) mass media and new media. However, the participants are working for banks or financial institutions. In short, their workplaces provide many sources of support to run a business for the companies. Fortunately, there have been numerous reports which come from accurate and reliable sources. Thus, it can be mentioned that the method that advisors used relates to source credibility theory because the paid subscriptions also come from different well-known applications or companies. This might be different when compared to the investors' side.

One of the significant tools used by advisors' participants, paid subscriptions or corporate services were deemed as a tool to confirm the source reliability. That is, there were several services they used, but the participants gave some examples shown in Table 1.

Table 1: paid subscription employed by financial institutions.

Software name / service	Price (per year)	Advantage
Benzinga Pro	166.42 USD	Fast and accurate data
Trading View	155-159 USD	Ability to insert and customize indicators
Investing	234-824 USD	Fast and accurate data

Table 1 indicates that paid subscriptions and services employed by financial institutions are utilized as an important tool in validating cross-checking data. One of the advisors' participants provide an idea in the sense that "*the principal key is to make the highest profit to the company … that why they are willing to pay for the paid services to many providers and repeating the services every year-round.*" One of the reasons why financial institutions have more information from several providers is a result of a protection of crisis and risk management. This indicates that the institutions are trying to decide whether to invest or cut their loss based on precise information in which this can occur in the case of organizational level only, not personal level exactly.

Moreover, most advisors' participants stressed that a stage of diversification was a serious issue to be considered. "*Diversifying could also hurt investors if they diversify the wrong sector at the wrong time*," as one of them said. To clarify, this means diversifying in sectors that are not necessary for the time being, for example, investing in oil stocks when there is not any major war happening or investing in consumer staples when there is not any major recession or economic breakdown. Diversifying helps in times where economic uncertainty happens, and investors must rely on different stocks that give dividend payments and stocks that are value stocks. Dividend payments are also important in times where growth stocks are not doing well so institutions will rely on companies that are recession proof stocks.

For example, investing in the S&P500 index is a good way to hedge against market volatility because the index has far outperformed other indexes due to growth and control the country has over others. This can be a very good place to start for novice investors who are afraid of losing money in individual stocks or need a place to park cash instead of putting it in a savings account. It has an ETF (exchange traded fund) that links to the performance of the S&P500. Ticker symbol SPY is still the largest ETF in the world right now and has been for many years.

Figure 2: A comparison of seeking information between investors and advisors.

As shown in Figure 2, it demonstrated that investors and advisors have different ways to receive and verify sources of investing information. Investors tend to use personal public tools that are available for free due to the restricted capital. They verified their sources through their own personal knowledge. It means that they could also take advice from Facebook groups, whereas advisors have different tools for checking. It is because of institution grade software that is used around the world. On the other hand, personal investors verified sources of information through their knowledge and skills. In this case, it can be clear that the stage of verified investing information between the organizational and personal levels is different.

Finally, the main point of having the verified information is about making an investment to create a profit. Either organizational or personal level, they have shared a common thing together. That is, it is a sense of decision making in which they are trying to avoid emotional and to use logical thinking to select the right investment. As Hayes (2023) notes, behavioral finance theory is when investors use behavior and emotions to overtake reasoning instead of using facts. This is when most investors lose their capital because of the irrational behavior created by the market paradox. Market paradox occurs during a volatile time in the stock market. One of the advisors' participants suggested that "*they might need to hold or accept huge amounts of losses because not all stocks are required to hold for the short term, some stocks require long term hold that might affect a personal decision after knowing that the cash they use are not suitable for long term holds*". This can confirm that both financial investors and advisors need the correct data as much as possible but the method of gaining the data is limited because of their capital numbers of asserts held in their hands.

Conclusions and Discussion

This study has shown that investors rely mostly on their own judgement instead of finding information that relates to their trading strategies. Yuniningsih et al. (2017) stated that investors' decision making could change if there are signs that show the information from a source is not accurate. This means that investors could have a change in mindset if shown any doubt in the source they found. Some investors rely on random information from posts like reddit or Trading View which are information from investors who hold the stock itself, and that means being biased to their own investors. Financial advisors stated that investors should at least have one financial advisor because advisors can give different product related investment that is suitable for that kind of market structure or economic timing. Advisors have a major impact in an investor's portfolio because the accurate and expert in financial decisions helps investors find products that help them in certain situations (Chalmers & Reuter, 2012). This article would be and benchmark and a benefit for investors who are looking to enter the stock market with novice experience because they will know what to look for and what to start with. Investors who start trading will start with trading options or CFD (contract for difference) which is the hardest type of investment because it is the easiest way to lose money without knowing what happened. This research clearly stated that investing blindly will always result in a loss in capital and the important aspect of this article is to introduce different products that can make money instead. In terms of understanding new media, it is important to understand technology does not only help investors, but it can also hurt investors if it is used the wrong way. Technology has developed so far that it can be used to lure investors to a trap if they decide to listen to podcasts like YouTube or different media sources. Investors benefit by having the freedom to find and locate sources from all over the internet, but it also comes with disadvantages. These sources might not be accurate because they could contain self-biased information that could lead to inaccurate decisions. Advisors also contain advantages in research due to how accurate and well-sourced information could be received because the software used is different compared to investors. Disadvantages from advisors contain that advisors do not have the freedom to use other sources except the sources that are given. Both sides need to be cautious about the source they use because no matter how accurate the sources are it could still be different from the actual news. Advisors and investors still need to check their sources with other locations or institutions because they need to make sure the information they give to others is in the best interest of the investors, not just the institution.

In conclusion, this research has been designed to help investors if they should start investing after reading what the risks are. If the investor decides to continue knowing the risks, then investors should seek a financial advisor to suggest and move money to the right place. Having wide knowledge will help investors in deciding when to enter the market and understanding the risk parameters which will give a good indication of whether this product is right for the investors themselves. There will always be new products and new technology to help investors make better decisions, but the question is “will these products make investors feel more confident?” or “will it remove investors from the stock market because they realize how scary it is.”

บทคัดย่อ

การวิจัยครั้งนี้มีวัตถุประสงค์เพื่อศึกษา 1) ความรู้เรื่องนวดไทยในพิพิธภัณฑ์นวดไทย และ 2) วิธีการเรียนรู้ด้วยตนเองในพิพิธภัณฑ์นวดไทยของนักศึกษาชาวจีน กำหนดพื้นที่ที่ใช้ในการวิจัยเป็นพิพิธภัณฑ์นวดไทย วัดโพธิ์ ณ กรุงเทพมหานคร ซึ่งเก็บรวบรวมข้อมูล โดยการสัมภาษณ์นักศึกษาชาวจีน ที่เรียนสาขาวิชาภาษาไทย จำนวน 10 คน และผู้ดูแลพิพิธภัณฑ์นวดไทย จำนวน 1 คน และวิเคราะห์ข้อมูลโดยการวิเคราะห์เชิงเนื้อหา (Content Analysis) ผลการวิจัยพบว่า ความรู้ในพิพิธภัณฑ์นวดไทยมีทั้งหมด 10 เรื่อง ได้แก่ ความเป็นมาของนวดไทย ประเภทของการนวด การนวดเป็นธุรกิจบริการด้านสุขภาพ นวดไทย 4 ภาค โรงเรียนแพทย์แผนโบราณวัดพระเชตุพน (วัดโพธิ์) นวดไทยขึ้นทะเบียนเป็นมรดกโลก สมุนไพรไทยที่ใช้ในการนวด ห้องแพทย์จำลอง ลักษณะของนวดไทยตำรับวัดโพธิ์ และมาตรฐานประกอบวิชาชีพหมอนวด นักศึกษาชาวจีนสามารถเรียนรู้เรื่องนวดไทยด้วยตนเองในพิพิธภัณฑ์นวดไทยโดย 3 วิธีตามลำดับ ได้แก่ การอ่าน การฟัง และการดู เนื่องจากพิพิธภัณฑ์นวดไทยออกแบบนิทรรศการด้วยวิธีการจัดหลายวิธี ได้แก่ จัดป้ายบรรยายให้อ่าน จัดคลิปวิดีโอให้ฟังเสียงภาษาไทย และจัดห้องแพทย์จำลองให้ดู

คำสำคัญ: การเรียนรู้ด้วยตนเอง, พิพิธภัณฑ์นวดไทย, นักศึกษาชาวจีน

Abstract

This research aims to explore the knowledge of: 1) the knowledge of Nuad Thai (Traditional Thai Massage) at the Nuad Thai Museum, and 2) the self-directed learning methods for Chinese Students within the museum. Research setting: Nuad Thai Museum at Wat Pho, Bangkok. Which collected data by interviewing 10 Chinese students majoring in Thai language and 1 caretaker of the Nuad Thai museum, and analyzed the data through content analysis. The research results found that the Nuad Thai Museum provides knowledge in 10 topics: The history of Nuad Thai, Types of Nuad Thai, Nuad Thai in health service businesses, Nuad Thai in 4 regionals, Wat Pho Traditional Thai Massage School, Nuad Thai as a UNESCO-listed cultural heritage, Thai herbs used in Nuad Thai, Simulated medical room, Characteristics of Nuad Thai Wat Pho style, and Professional standards of

massage therapists. Chinese students can self-directed learning knowledge about Nuad Thai at the Nuad Thai Museum in 3 way in order: reading, listening, and Watching. Since the Nuad Thai Museum designs its exhibitions in several ways, including using descriptive signs to read, providing video clips with Thai language audio, and providing a simulated medical room for watch.

Keywords: self-directed learning, Nuad Thai Museum, Chinese students

บทนำ

นวดไทยเป็นภูมิปัญญาของคนไทยที่สืบทอดกันมาแบบรุ่นสู่รุ่น มีประโยชน์ในด้านสุขภาพ ประเทศไทยจึงได้ขึ้นทะเบียนนวดไทยเป็นมรดกภูมิปัญญาทางวัฒนธรรมระดับชาติ เพื่ออนุรักษ์ความรู้นวดไทยเมื่อ พ.ศ. 2554 หลังจากนั้น นวดไทยได้รับการขึ้นทะเบียนเป็นมรดกทางวัฒนธรรมที่จับต้องไม่ได้ของมนุษยชาติจากองค์การการศึกษา วิทยาศาสตร์ และวัฒนธรรมแห่งสหประชาชาติ เมื่อวันที่ 12 ธันวาคม พ.ศ. 2562 ซึ่งทำให้ประเทศไทยให้ความสำคัญกับนวดไทยมากยิ่งขึ้น (พระเทพวัชราจารย์ และนิเวศน์ บวรกุลวัฒน์, 2565) ซึ่งวัดพระเชตุพนวิมลมังคลารามราชวรมหาวิหาร หรือ วัดโพธิ์ เป็นสถานที่ที่เก็บรวบรวมและบันทึกความรู้เรื่องนวดไทยครบถ้วนตั้งแต่รัชกาลที่ 3 นวดไทยของวัดโพธิ์จึงมีประวัติอันยาวนาน มีชื่อเสียง และได้รับความนิยมทั้งคนไทยและชาวต่างชาติ ในงานวิจัยของ Mingshan Xie (2565) ได้กล่าวว่า วัดโพธิ์เป็นจุดกำเนิดของการนวด ภายในวัดโพธิ์สามารถเรียนรู้ความรู้ที่เกี่ยวกับเรื่องนวดไทยหลายเรื่อง ได้แก่ นวดไทยเป็นมรดกภูมิปัญญาทางวัฒนธรรมด้านสุขภาพ การนวดของวัดโพธิ์เป็นต้นตำรับของนวดไทย ฤาษีดัดตน ท่าทางในนวดไทย และนวดไทยได้รับการรับรองและได้ขึ้นทะเบียนเป็นมรดกทางวัฒนธรรมที่จับต้องไม่ได้

จะเห็นได้ว่าการนวดไทยถือเป็นวัฒนธรรมสำคัญอย่างหนึ่งของประเทศไทย โดยในตำราเรียนภาษาไทยของประเทศจีนได้มีเนื้อหาเกี่ยวกับวัดโพธิ์และนวดไทย เนื่องจากเป็นส่วนหนึ่งที่สำคัญของวัฒนธรรมไทย 泰国民俗与文化 (ประเพณีและวัฒนธรรมไทย) ของ Qi Shengzhong (2013) กล่าวถึงวัดโพธิ์ว่า เป็นแหล่งรวบรวมความรู้ที่เกี่ยวข้องกับนวดไทย ภายในวัดโพธิ์มีจารึกติดไว้ตามเสาของศาลารายจารึกรวมความรู้หลายด้านหลายวิชาโดยเฉพาะนวดไทย มีคัมภีร์เกี่ยวกับนวดไทย และมีฤาษีดัดตน ซึ่งมีความสัมพันธ์เกี่ยวกับนวดไทยเพื่อให้สุขภาพแข็งแรง และในตำราเรียนภาษาไทย 泰语阅读教程 (2) (วิชาการอ่านภาษาไทย) ได้กล่าวถึงประวัติของนวดไทย วิธีการนวดเส้นประธานสิบประเภทของนวดไทย ปัจจุบันนวดไทยได้รับความนิยมทั้งชาวไทยและชาวต่างชาติ และวัดโพธิ์เป็นแหล่งเรียนรู้สามารถเรียนความรู้จากตำรายา ฤาษีดัดตน และตำรานวด โดยมีเนื้อหากล่าวว่า

> “นวดแผนไทย ศาสตร์ประจำชาติอายุเก่าแก่หลายร้อยปีกำลังกลับมาได้รับความนิยมอย่างยิ่งในยุคนี้ ทั้งในหมู่คนไทยและชาวต่างชาติ เห็นได้จากร้านนวดแผนไทยและสปาที่มีบริการนวดแผนไทยเกิดขึ้นจำนวนมากทั้งในกรุงเทพฯ และต่างจังหวัด ไม่เฉพาะแหล่งท่องเที่ยวหรือย่านธุรกิจ รวมทั้งตามโรงแรมหรูหรือศูนย์การค้า แม้แต่ตามตรอกซอกซอยจะสามารถสังเกตเห็นป้าย “บริการนวดแผนไทย” ได้ไม่ยาก”
>
> (Yang Shaoquan & Ren Zhiyuan, 2020)

นอกจากนี้ 高等学校外国语言文学类专业本科教学质量国家标准 (มาตรฐานแห่งชาติด้านคุณภาพการเรียนการสอนระดับปริญญาตรีด้านภาษาและวรรณคดีต่างประเทศในวิทยาลัยและมหาวิทยาลัย) (Sun Youzhong, 2019) เสนอว่า ความสามารถทางด้านการเรียนรู้ด้วยตนเองเป็นความสามารถสำคัญอย่างหนึ่งของนักศึกษาที่เรียนสาขาวิชาภาษาต่างประเทศ สอดคล้องกับ Xu Jinfen (2020) กล่าวว่า ความสามารถการเรียนรู้ด้วยตนเองของการเรียนรู้ภาษาต่างประเทศไม่ใช่พัฒนาแบบเดี่ยว แต่เป็นการผสมผสานของความสามารถด้านการประยุกต์ใช้ภาษาต่างประเทศ ความสามารถในการคิดอย่างสร้างสรรค์ ความสามารถที่มีความคิดเชิงสร้างสรรค์ และความสามารถในการปฏิบัติ ซึ่งช่วยพัฒนาความสามารถของนักศึกษาอย่างครอบคลุม ดังนั้น การเรียนรู้ภาษาไทยที่เป็นภาษาต่างประเทศจึงต้องมีความสามารถทางด้านการเรียนรู้ด้วยตนเอง เพื่อพัฒนาภาษาไทยและความสามารถการเรียนรู้ของนักศึกษา จะเห็นได้ว่า การศึกษาภาษาไทยพร้อมกับเรียนวัฒนธรรมไทยผ่านการเรียนรู้ด้วยตนเองถือเป็นวิธีการเรียนภาษาที่สำคัญสำหรับนักศึกษาชาวจีนที่เรียนวิชาเอกภาษาไทย ดังนั้น ผู้วิจัยจึงสนใจศึกษาการเรียนรู้ด้วยตนเองในพิพิธภัณฑ์นวดไทย ในวัดโพธิ์ ณ กรุงเทพมหานคร สำหรับนักศึกษาชาวจีน เนื่องจากพิพิธภัณฑ์นวดไทยในวัดโพธิ์ ณ กรุงเทพมหานคร มีการจัดรูปแบบนิทรรศการที่หลากหลาย และผสมผสานกับเทคโนโลยี เพื่อเป็นแหล่งเผยแพร่ภูมิปัญญานวดไทยให้กับทั้งคนไทยและชาวต่างชาติ และเป็นสถานที่สามารถศึกษาความรู้เรื่องนวดไทยอย่างสมบูรณ์ (เที่ยวรอบทิศ, 2565)

วัตถุประสงค์ของการวิจัย

1. เพื่อศึกษาความรู้เรื่องนวดไทยในพิพิธภัณฑ์นวดไทย
2. เพื่อศึกษาวิธีการเรียนรู้ด้วยตนเองในพิพิธภัณฑ์นวดไทยของนักศึกษาชาวจีน

วิธีดำเนินการวิจัย

1. การกำหนดพื้นที่ที่ใช้ในการวิจัย ได้แก่ พิพิธภัณฑ์นวดไทย วัดพระเชตุพนวิมลมังคลาราม ราชวรมหาวิหาร หรือ วัดโพธิ์ ณ กรุงเทพมหานคร

2. การสัมภาษณ์ผู้ให้ข้อมูลสำคัญ ได้แก่ นักศึกษาชาวจีน จำนวน 10 คน โดยผู้วิจัยระบุนักศึกษาชาวจีนเป็นผู้ที่เรียนวิชาภาษาไทยที่ประเทศไทย และผู้ดูแลพิพิธภัณฑ์นวดไทย จำนวน 1 คน

3. การออกแบบเครื่องมือที่ใช้ในการวิจัย ได้แก่ แบบบันทึกการสังเกตแบบไม่มีส่วนร่วม โดยผู้วิจัยสังเกตพฤติกรรมของนักศึกษาชาวจีนเมื่อเข้าชมในพิพิธภัณฑ์นวดไทย และแบบสัมภาษณ์แบบเจาะลึก โดยเน้นนักศึกษาชาวจีนใช้วิธีการเรียนรู้ด้วยตนเองวิธีใดในพิพิธภัณฑ์นวดไทย และได้รับความรู้เรื่องนวดไทยใด

4. การเก็บรวบรวมข้อมูล ผู้วิจัยเก็บรวบรวมข้อมูล ดังนี้

4.1 ผู้วิจัยลงพื้นที่เพื่อเก็บข้อมูลที่จัดแสดงในพิพิธภัณฑ์นวดไทย จำนวน 3 ครั้ง ได้แก่ ครั้งที่ 1 วันที่ 11 สิงหาคม พ.ศ. 2566 ครั้งที่ 2 วันที่ 3 ตุลาคม พ.ศ. 2566 และครั้งที่ 3 วันที่ 15 เมษายน พ.ศ. 2567 ผู้วิจัยเก็บข้อมูลจากนิทรรศการ ป้ายบรรยาย คลิปวิดีโอ รูปภาพ และสิ่งของที่จัดแสดงในพิพิธภัณฑ์นวดไทย

4.2 เมื่อวันที่ 15 กรกฎาคม พ.ศ. 2567 ผู้วิจัยสัมภาษณ์วิธีการเรียนรู้ด้วยตนเองภายในพิพิธภัณฑ์นวดไทย วัดโพธิ์ ณ กรุงเทพมหานคร จากนักศึกษาชาวจีน 10 คน พบว่า นักศึกษาชาวจีนสนใจเรียนความรู้เรื่องนวดไทย และมีความสามารถในการเรียนรู้ความรู้เรื่องนวดไทยในพิพิธภัณฑ์นวดไทย โดยอ่านป้ายบรรยาย ฟังเสียงภาษาไทยจากคลิปวิดีโอ และดูห้องแพทย์จำลอง เนื่องจากพิพิธภัณฑ์นวดไทย

จัดนิทรรศการหลากหลาย นักศึกษาชาวจีนจึงรู้สึกน่าสนใจ มีความเพลิดเพลิน และไม่รู้สึกเบื่อ หลังเข้าเรียนนักศึกษาชาวจีนได้ความรู้เรื่องนวดไทยมากมาย เช่น ที่มาของนวดไทย และเข้าใจว่านวดไทยมีชื่อเสียงทั่วโลกเพราะเป็นภูมิปัญญาของคนไทยที่ใช้การดูแลสุขภาพ จึงเป็นความรู้ด้านสุขภาพที่มีคุณค่าต่อสังคม เป็นต้น

ภาพที่ 1 นักศึกษาชาวจีนเรียนรู้ด้วยตนเองในพิพิธภัณฑ์นวดไทย

4.3 เมื่อวันที่ 11 สิงหาคม พ.ศ. 2567 ผู้วิจัยสัมภาษณ์วิธีการจัดรูปแบบนิทรรศการของพิพิธภัณฑ์นวดไทย จากผู้ดูแลพิพิธภัณฑ์นวดไทย จำนวน 1 คน พบว่า แผนที่โลกที่จัดแสดงในพิพิธภัณฑ์นวดไทยเป็นแผนที่ที่ทำให้ผู้เข้าชมเข้าใจว่านวดไทยมีชื่อเสียงทั่วโลกและทั่วโลกชื่นชอบ หลายประเทศนิยมให้หมอนวดไทยไปประกอบอาชีพหมอนวด จากแผนที่โลกสามารถเข้าใจว่าประเทศไทยได้ส่งหมอนวดไปทำงานหลายประเทศ และพิพิธภัณฑ์นวดไทยจัดสมุนไพรจริงให้ดูโดยเก็บตามรสสมุนไพรไว้ในแต่ละลิ้นชัก เพื่อให้ผู้เข้าชมสามารถดูรูปร่างของสมุนไพร และแยกสมุนไพรตามรสได้ ในตู้กระจกจัดแสดงผลิตภัณฑ์หลากหลายที่ทำจากสมุนไพร เพื่อให้ผู้เข้าชมรู้จัก เช่น ยาหม่อง น้ำมันไพล และ MASK เป็นต้น

ภาพที่ 2 ยาหม่อง น้ำมันไพล และ MASK

5. การวิเคราะห์ข้อมูล ได้แก่ ผู้วิจัยนำข้อมูลที่ได้มาวิเคราะห์เชิงเนื้อหา (Content Analysis) เพื่อศึกษาความรู้เรื่องนวดไทยในพิพิธภัณฑ์นวดไทย และวิธีการเรียนรู้ด้วยตนเองในพิพิธภัณฑ์นวดไทยของนักศึกษาชาวจีน

ผลการวิจัย

วัดพระเชตุพนวิมลมังคลารามราชวรมหาวิหาร หรือ วัดโพธิ์ เป็นมหาวิทยาลัยแห่งแรกของประเทศไทย ประชาชนสามารถเข้าเรียนความรู้ที่หลากหลายด้วยตนเอง อย่างเช่น แพทยศาสตร์ พุทธศาสตร์ อักษรศาสตร์ สถาปัตยกรรมศาสตร์ วิจิตรศิลป์ และความรู้รอบตัว ประชาชนสามารถเข้าวัดโพธิ์เลือกเรียนความรู้ที่สนใจและที่ต้องการโดยไม่มีครูสอน (กรณิศ รัตนามหัทธนะ, 2561) วัดโพธิ์จึงเป็นแหล่งเรียนรู้ด้วยตนเองของคนไทยโดยเฉพาะความรู้เรื่องนวดไทย

พิพิธภัณฑ์นวดไทยตั้งอยู่ภายหลังพระเจดีย์ 4 รัชกาลของวัดโพธิ์ ณ กรุงเทพมหานคร เพื่อเป็นแหล่งเรียนรู้เรื่องนวดไทยด้วยตนเอง พจนานุกรมฉบับราชบัณฑิตยสถาน พ.ศ. 2554 (ราชบัณฑิตยสถาน, 2556) อธิบายว่า พิพิธภัณฑ์ “เป็นสถานที่เก็บรวบรวมและแสดงสิ่งต่าง ๆ ที่มีความสำคัญด้านวัฒนธรรม หรือด้านวิทยาศาสตร์ โดยมีความมุ่งหมายเพื่อให้เป็นประโยชน์ต่อการศึกษา และก่อให้เกิดความเพลิดเพลินใจ” ดังนั้น พิพิธภัณฑ์นวดไทยจึงเป็นสถานที่ที่รวบรวมความรู้ที่เกี่ยวกับเรื่องนวดไทยต่าง ๆ

ผลการวิจัยมี 2 ประเด็น ได้แก่ ความรู้เรื่องนวดไทยในพิพิธภัณฑ์นวดไทย และวิธีการเรียนรู้ด้วยตนเองในพิพิธภัณฑ์นวดไทยของนักศึกษาชาวจีน โดยมีรายละเอียดดังนี้

1. ความรู้เรื่องนวดไทยในพิพิธภัณฑ์นวดไทย

ผู้วิจัยพบว่า ความรู้ในพิพิธภัณฑ์นวดไทยมีทั้งหมด 10 เรื่อง ดังนี้

1.1 ความเป็นมาของนวดไทย ปรากฏในคลิปวิดีโอ ชื่อเรื่อง “การนวดไทยจากอดีตถึงปัจจุบัน” กล่าวถึงนวดไทยเกิดขึ้นตั้งแต่ก่อนประวัติศาสตร์ไทย ประเทศไทยให้ความสำคัญกับหมอนวดตั้งแต่ยุคกรุงศรีอยุธยาเพราะตั้งกรมหมอนวด และรวบรวมตำรายาที่มีเนื้อหาเกี่ยวกับการนวดไว้ใน “ตำราพระโอสถพระนารายณ์” ต่อมา ในยุคสมัยรัตนโกสินทร์ รัชกาลที่ 1 โปรดให้รวบรวมความรู้ต่าง ๆ โดยเฉพาะเรื่องนวดไทยใน “ตำราโรคนิทาน คำฉันท์ 11” รัชกาลที่ 3 โปรดให้รวบรวมตำรับตำราต่าง ๆ และให้จารึกบนแผ่นศิลาติดในบริเวณวัดพระเชตุพนวิมลมังคลาราม โดยเฉพาะความรู้ที่เกี่ยวกับการแพทย์ โปรดให้รวบรวมความรู้เรื่องนวดไทยใน “ตำรายา ศิลาจารึกในวัดพระเชตุพนวิมลมังคลาราม (วัดโพธิ์) พระนครฉบับสมบูรณ์” และโปรดให้สร้างฤาษีดัดตนไว้ในบริเวณเขามอเพื่อให้ประชาชนเรียนรู้เพื่อส่งเสริมสุขภาพ รัชกาลที่ 5 โปรดให้ก่อตั้งโรงเรียนราชแพทยาลัยเพื่อสอนการนวด รัชกาลที่ 7 กำหนดให้การนวดกลายเป็นสาขาหนึ่งของผู้ประกอบโรคศิลปะแผนโบราณ รัชกาลที่ 9 ให้ความสำคัญกับการฟื้นฟูการแพทย์แผนไทยโดยเฉพาะนวดไทย รัชกาลที่ 10 โปรดให้ต่อยอดองค์ความรู้นวดไทยและนวดไทยได้ขึ้นทะเบียนเป็นมรดกภูมิปัญญาทางวัฒนธรรมที่จับต้องไม่ได้ระดับชาติและระดับโลก เพื่ออนุรักษ์องค์ความรู้ของนวดไทยให้ยังคงมีอยู่และสืบต่อให้คนรุ่นหลัง

1.2 นวดไทย 4 ภาค ในป้ายบรรยายกล่าวถึง นวดไทยเป็นศิลป์ด้วยวิธีการกด การนวด การดัด การดึง การใช้ความเย็นความร้อน และการใช้ยาสมุนไพรเพื่อประสิทธิผลที่ดีต่อร่างกาย หมอนวดต้องฝึกนิ้วมือในด้านการใช้พลังงานที่กด น้ำหนักที่กด และระยะเวลาที่กดจึงจะรักษาอาการและโรคของผู้ป่วยให้หายดี นวดไทยเป็นวัฒนธรรมทางด้านการดูแลสุขภาพที่ปรากฏทั่วประเทศไทย และสืบทอดภายในชุมชน จึงเรียกว่าการนวดพื้นบ้าน ซึ่งมีความแตกต่างในแต่ละภูมิภาค จึงสามารถแบ่งตามภูมิประเทศเป็น 4 ประเภท ได้แก่ นวดไทยตำรับวัดโพธิ์ของภาคกลาง การนวดตอกเส้นของภาคเหนือ การนวดขิดเส้นของภาคตะวันออกเฉียงเหนือ และการนวดน้ำมันลังกาสุกะของภาคใต้ จึงสรุปได้ว่า แต่ละภูมิภาคมีวิธีการนวดที่แตกต่างกัน แต่วัตถุประสงค์ของการนวดเหมือนกัน คือ การดูแลสุขภาพและรักษาโรค

1.3 ประวัติความเป็นมาของโรงเรียนแพทย์แผนโบราณวัดพระเชตุพน (วัดโพธิ์) ในพิพิธภัณฑ์นวดไทยกล่าวถึง วัดโพธิ์เป็นแหล่งเรียนรู้ที่ดีสำหรับคนไทย เนื่องจากรัชกาลที่ 3 โปรดให้รวบรวมความรู้ต่าง ๆ จารึกไว้ตามเสาที่วัดโพธิ์ และเปิดให้ประชาชนเข้าเรียนด้วยตนเองโดยไม่เลือกชนชั้น ดังนั้น วัดโพธิ์จึงได้ชื่อว่า “มหาวิทยาลัยแห่งแรกของประเทศไทย” เมื่อวันที่ 30 พฤษภาคม พ.ศ. 2505 คณะแพทย์แผนโบราณขออนุมัติตั้งโรงเรียนแพทย์แผนโบราณวัดพระเชตุพนวิมลมังคลาราม (วัดโพธิ์) เพื่อเปิดสอนการแพทย์แผนโบราณและการนวดแผนโบราณ ปัจจุบันโรงเรียนแพทย์แผนโบราณวัดพระเชตุพนวิมลมังคลาราม (วัดโพธิ์) เป็นโรงเรียนที่ได้รับความเชื่อถือและการยอมรับทั่วโลก จึงเป็นโรงเรียนที่เผยแพร่

ความรู้เรื่องนวดไทยให้กับทั้งคนไทยและชาวต่างชาติ

1.4 การนวดเป็นธุรกิจบริการด้านสุขภาพ คนไทยและชาวต่างชาติจำนวนมากเข้ารับบริการนวดที่ร้านนวดไทย สามารถเห็นร้านนวดไทยมีทุกซอยทุกถนน จึงสรุปได้ว่า นวดไทยได้รับความนิยมเป็นอย่างมาก บริการนวดไทยเป็นธุรกิจบริการสุขภาพที่สำคัญสำหรับประเทศไทย รัฐบาลไทยจึงมีนโยบายให้นวดไทยกลายเป็นแหล่งนำรายได้เข้าประเทศไทย โดยอบรมและส่งหมอนวดไปทำงานที่ต่างประเทศเพื่อประกอบอาชีพหมอนวด เช่น ประเทศจีน ประเทศเกาหลี ประเทศเวียดนาม ประเทศอังกฤษ และประเทศเยอรมัน เป็นต้น

ภาพที่ 3 แผนที่โลกแสดงหมอนวดไทยประกอบอาชีพที่ต่างประเทศ

1.5 นวดไทยได้ขึ้นทะเบียนเป็นมรดกโลก นวดไทยเป็นแนวคิดด้านการดูแลและการรักษาโรคที่สืบทอดจากบรรพบุรุษแบบรุ่นสู่รุ่น ประเทศไทยเห็นคุณค่าของนวดไทยที่เป็นวัฒนธรรมทางด้านสุขภาพจึงเสนอ “นวดไทย” ให้กับองค์การการศึกษาวิทยาศาสตร์ และวัฒนธรรมแห่งสหประชาชาติ และเป็นรายการตัวแทนได้รับการรับรอง และได้ขึ้นทะเบียนเป็นมรดกภูมิปัญญาทางวัฒนธรรมที่จับต้องไม่ได้ของมนุษยชาติเมื่อวันที่ 12 ธันวาคม พ.ศ. 2562 เนื่องจากตรงกับหลักเกณฑ์พิจารณาดังนี้ ประการที่ 1 นวดไทยเป็นภูมิปัญญาที่เกิดขึ้นและเติบโตในครอบครัวและชุมชนระหว่างการปฏิบัติ จนกลายเป็นศาสตร์ที่ใช้ส่วนร่างกายเพื่อดูแลสุขภาพและทำให้ธาตุทั้ง 4 ของร่างกายไม่ผิดปกติโดยไม่ต้องใช้ยา ประการที่ 2 ประเทศไทยขึ้นทะเบียนนวดไทยเป็นมรดกภูมิปัญญาทางวัฒนธรรมระดับชาติ กระตุ้นให้คนไทยตระหนักถึงความสำคัญและคุณค่าของนวดไทยที่เป็นความรู้ทางด้านการดูแลและการรักษาสุขภาพ ประการที่ 3 ภาครัฐมีมาตรการต่าง ๆ เพื่อส่งเสริมและรักษานวดไทย ประการที่ 4 ชุมชน กลุ่มคน และบุคคลที่เกี่ยวข้องมีส่วนร่วมได้รับทราบและให้ความยินยอมในเรื่องการนำเสนอนวดไทยให้เป็นมรดกโลก และประการที่ 5 กระทรวงวัฒนธรรมขึ้นบัญชีนวดไทยเป็นมรดกภูมิปัญญาของประเทศไทย เมื่อวันที่ 2 กันยายน พ.ศ. 2554

ภาพที่ 4 “นวดไทย” เป็นรายการตัวแทนได้ขึ้นทะเบียนเป็นมรดกโลก

1.6 ประเภทของการนวด การนวดแบ่งตามผู้ที่รับบริการนวดและวิธีการนวดเป็นการนวดแบบราชสำนักและการนวดแบบเชลยศักดิ์ ได้แก่ การนวดแบบราชสำนักเป็นการนวดที่ใช้สำหรับเชื้อพระองค์ ซึ่งเป็นผู้ที่มีฐานะสูงและถือว่าร่างกายเป็นสิ่งที่บริสุทธิ์ คนอื่นไม่สามารถสัมผัสร่างกายของผู้ที่เป็นเชื้อพระองค์ได้ง่าย เมื่อมีความต้องการนวดก็ไม่ให้หมอนวดสัมผัสร่างกายมาก ดังนั้น หมอนวดจึงใช้นิ้วและมือในการนวดเท่านั้น ส่วนการนวดแบบเชลยศักดิ์ใช้สำหรับบุคคลทั่วไป ซึ่งมีวัตถุประสงค์เพื่อผ่อนคลายร่างกายและรักษาโรค จึงไม่กำหนดส่วนร่างกายและอุปกรณ์ที่ใช้ในการนวด เครื่องมือที่ใช้ในการนวดมีหลากหลาย เช่น มือ ศอก แขน เข่า เท้า และอุปกรณ์ที่ประกอบในการนวด เป็นต้น

1.7 ห้องแพทย์จำลอง ในเขตนี้มีโต๊ะของหมอสำหรับวินิจฉัยโรค ตู้กระจกจัดแสดงผลิตภัณฑ์ที่ทำจากสมุนไพร เช่น ยาดม ยาหม่อง เป็นต้น มีตู้ลิ้นชักจัดแสดงสมุนไพรตามรสสมุนไพร จำนวน 12 ลิ้นชัก ได้แก่ ยาดมสมุนไพร (ธาตุดิน / ธาตุน้ำ) ยาดมสมุนไพร (ธาตุลม / ธาตุไฟ) ยาพอกข้อ เครื่องยารสฝาด เครื่องยารสหวาน เครื่องยารสเมาเบื่อ เครื่องยารสขม เครื่องยารสเผ็ดร้อน เครื่องยารสมัน เครื่องยารสหอมเย็น เครื่องยารสเค็ม และเครื่องยารสเปรี้ยว มีเตียงนวดสำหรับคนเดียว ซึ่งทำให้เข้าใจว่านวดไทยจะนวดบนเตียงแบบไทยประดับดอกไม้สดเพื่อให้มีกลิ่นหอม มีใบรับรองประกอบอาชีพแพทย์แสดงว่าหากต้องการประกอบอาชีพแพทย์ต้องผ่านการอบรมและมีความรู้มากเพียงพอ นอกจากนี้ ภายในห้องแพทย์จำลองยังมีห้องอบสมุนไพรเพื่อให้เรียนรู้ว่าคนไทยอบสมุนไพรด้วยไอน้ำสมุนไพร ไอน้ำนั้นสามารถซึมเข้าผิวหนังเพื่อช่วยดูแลสุขภาพและรักษาโรคได้

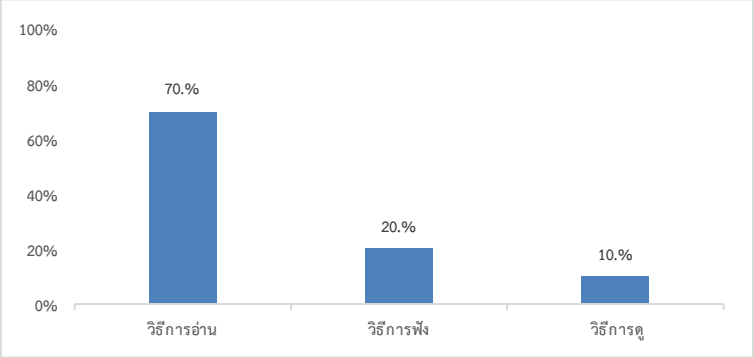
ภาพที่ 5 ห้องแพทย์จำลอง

1.8 ลักษณะของนวดไทยตำรับวัดโพธิ์ ความรู้เรื่อง “การนวดแผนไทยตำรับวัดโพธิ์” ปรากฏในคลิปวิดีโอ อธิบายว่า การนวดแผนไทยตำรับวัดโพธิ์มีเอกลักษณ์ คือ การบำบัดรักษาโดยใช้ส่วนต่าง ๆ ในร่างกายกด บีบ ยืด ดัดตามจุดและเส้นต่าง ๆ ของร่างกาย ช่วยผ่อนคลายและบรรเทาอาการปวดเมื่อยของกล้ามเนื้อ ศาสตร์ในการนวดประกอบด้วย 2 ศาสตร์ ได้แก่ ศาสตร์ที่ 1 การนวดแผนไทยตำรับวัดโพธิ์ เริ่มต้นนวดจากปลายเท้าไปถึงศีรษะ เพราะเชื่อว่าฝ่าเท้าเป็นศูนย์กลางของประสาทต่าง ๆ การกดฝ่าเท้าจะช่วยกระตุ้นและปรับระบบการทำงานของอวัยวะของร่างกายให้สมดุล และศาสตร์ที่ 2 ฤๅษีดัดตน ซึ่งเป็นตำราการกายภาพบำบัดของการแพทย์แผนโบราณ และเป็นศิลป์บริหารร่างกายให้สุขภาพกายกับจิตสมดุล แม้ว่านวดไทยมีผลดีต่อสุขภาพ แต่ก็มีข้อควรระวังและข้อห้ามในการนวด เช่น ผู้ที่เคยผ่าตัดหรือใส่ข้อศอกเทียมภายในหนึ่งปีควรแจ้งให้หมอนวดทราบก่อนนวด ผู้ที่เพิ่งรับประทานอาหารอิ่มไม่ควรนวด ผู้หญิงที่มีครรภ์ไม่ควรนวด และผู้ที่มีความดันโลหิตสูงไม่ควรนวด เป็นต้น ทั้งนี้ทำให้นวดไทยตำรับวัดโพธิ์ได้รับความนิยมจากทั่วโลกและเป็นความภาคภูมิใจสำหรับคนไทย

1.9 สมุนไพรไทยที่ใช้ในการนวด พิพิธภัณฑ์นวดไทยให้ความรู้ว่า การใช้สมุนไพรในการนวดเป็นสิ่งที่ได้รับคนไทยยอมรับ โดยใช้การนวดเป็นหลักและใช้สมุนไพรร่วมเพื่อแก้อาการต่าง ๆ ของร่างกาย โดยเฉพาะกล้ามเนื้อ สมุนไพรที่ใช้นวดส่วนใหญ่มีสรรพคุณแก้อาการอักเสบ ลดไข้ และลดปวด โดยแสดงชื่อและสรรพคุณของสมุนไพรที่ใช้ในการนวด ลูกประคบเป็นยาสมุนไพรที่ได้รับความนิยมมากที่สุด โดยนำสมุนไพรมาห่อในผ้าขาวเป็นลูกกลม นึ่งให้ร้อนมาประคบร่างกายตามจุดเพื่อลดอาการปวดเมื่อยและอาการบวม เป็นต้น สมุนไพรที่ใช้ในลูกประคบมี 9 ชนิด ได้แก่ ไพลและขมิ้นชันช่วยลดอาการอักเสบ ผิวมะกรูดและตะไคร้ช่วยแก้อาการวิงเวียนของศีรษะ ใบมะขามช่วยลดอาการบวม ใบส้มป่อยช่วยลดอาการคัน เกลือช่วยยาซึมเข้าผิวหนังสู่ร่างกาย การบูรและพิมเสนช่วยบำรุงหัวใจ

ภาพที่ 6 ลูกประคบ

1.10 มาตรฐานวิชาชีพหมอนวด ผู้ประกอบวิชาชีพหมอนวดมีมาตรฐานที่ต้องปฏิบัติ สถานที่ตั้งต้องปลอดภัย การตกแต่งต้องแทรกวัฒนธรรมไทย และต้องรักษาความสะอาดของร้านนวด เนื่องจากเป็นสถานที่ที่ให้บริการทางด้านสุขภาพ บุคลากรผู้ให้บริการหรือหมอนวดต้องอบรมอย่างน้อย 150 ชั่วโมงตามที่กำหนดไว้ ต้องมีความรู้ความสามารถและความเชี่ยวชาญที่มากเพียงพอ และผ่านการประเมินจนได้รับใบประกอบวิชาชีพหมอนวด ผู้รับบริการนอกจากคนไทยแล้วยังมีชาวต่างชาติ ดังนั้นหมอนวดต้องมีความสามารถในการสื่อสารกับชาวต่างชาติที่เกี่ยวข้องกับบริการสุขภาพ และระหว่างการให้บริการ หมอนวดต้องสื่อสารกับผู้รับบริการเกี่ยวกับบริการที่ให้และสภาพร่างกาย และทางด้านความปลอดภัย หมายถึง ภายในสถานที่ต้องจัดป้ายเตือนระวังอันตราย มีอุปกรณ์ฉุกเฉินเผื่อเกิดเรื่องอุบัติเหตุ นอกจากนี้ ผู้ให้บริการยังต้องมีความเชี่ยวชาญและระมัดระวังในการใช้อุปกรณ์นวด



ผู้ประกอบวิชาชีพหมอนวดมีมาตรฐานที่กำหนดไว้ หากวางแผนจะประกอบวิชาชีพหมอนวดต้องมีใบประกาศนียบัตร ซึ่งเป็นหลักฐานที่ยืนยันว่าเป็นผู้ที่มีความรู้ความสามารถและความเชี่ยวชาญที่เกี่ยวกับนวดไทย ส่วนสถานที่ต้องมีลักษณะแบบไทย ให้บริการที่ดีสำหรับผู้รับบริการ และต้องคำนึงถึงความปลอดภัยทั้งภายในและภายนอกของสถานที่

ผู้วิจัยสรุปได้ว่า พิพิธภัณฑ์นวดไทยเป็นแหล่งรวมความรู้เรื่องนวดไทยตั้งแต่สมัยอดีตจนถึงปัจจุบัน เป็นแหล่งเรียนรู้ความรู้เรื่องนวดไทยที่ดี โดยมีรูปแบบการจัดแสดงที่หลากหลาย ความรู้ในพิพิธภัณฑ์นวดไทยมีทั้งหมด 10 เรื่อง ได้แก่ ความเป็นมาของนวดไทย นวดไทย 4 ภาค ประวัติความเป็นมาของโรงเรียนแพทย์แผนโบราณวัดพระเชตุพนวิมลมังคลาราม (วัดโพธิ์) การนวดเป็นธุรกิจบริการด้านสุขภาพ นวดไทยได้ขึ้นทะเบียนเป็นมรดกโลก ประเภทของการนวด ห้องแพทย์จำลอง ลักษณะของนวดไทย ตำรับวัดโพธิ์ สมุนไพรไทยที่ใช้ในการนวดและมาตรฐานวิชาชีพหมอนวด

2. วิธีการเรียนรู้ด้วยตนเองในพิพิธภัณฑ์นวดไทยของนักศึกษาชาวจีน

การได้ความรู้จากการอ่านหนังสือไม่เพียงพอสำหรับนักศึกษา ต้องหาวิธีอื่นเพื่อได้ความรู้เพิ่มเติม การเรียนรู้ด้วยตนเองจึงเป็นวิธีหนึ่งสำหรับการพัฒนาตนเอง (กองฝึกอบรม กรมที่ดิน กระทรวงมหาดไทย, 2559) 现代汉语词典 หรือ พจนานุกรมภาษาจีนสมัยใหม่ (Zhongguo Shehui Kexueyuan Yuyan Yanjiusuo Cidian Bianjishi, 2016) ให้ความหมาย “自学” หรือการเรียนรู้ด้วยตนเองว่า “不是在校从师受业，主要靠自己独立学习。(ไม่ใช่เรียนความรู้จากครูผู้สอนที่โรงเรียน แต่เป็นการเรียนรู้ความรู้ด้วยตนเองเป็นหลัก)” ชุมศักดิ์ อินทร์รักษ์ (2559) อธิบายว่า การเรียนรู้ด้วยตนเองเป็นพฤติกรรมของผู้เรียนเพื่อทำความเข้าใจความรู้ใหม่และได้รับประสบการณ์ใหม่เพื่อพัฒนาทักษะการเรียนรู้ ดังนั้น การเรียนรู้ด้วยตนเองไม่ใช่นั่งฟังจากผู้สอน แต่ใช้วิธีอื่นเพื่อรับรู้ ท่องจำ เชื่อมโยง รวบรวม ทำความเข้าใจข้อมูลต่าง ๆ ด้วยตนเอง

ผู้วิจัยศึกษาข้อมูลจากการสัมภาษณ์นักศึกษาชาวจีน พบว่า พิพิธภัณฑ์นวดไทยมีทั้งหมด 10 เรื่อง โดยมี 7 เรื่องจัดเป็นป้ายบรรยาย ได้แก่ นวดไทย 4 ภาค ประวัติความเป็นมาของโรงเรียนแพทย์แผนโบราณวัดพระเชตุพนวิมลมังคลาราม (วัดโพธิ์) การนวดเป็นธุรกิจบริการด้านสุขภาพ นวดไทยได้ขึ้นทะเบียนเป็นมรดกโลก ประเภทของการนวด สมุนไพรไทยที่ใช้ในการนวด และมาตรฐานวิชาชีพหมอนวด 2 เรื่องจัดเป็นคลิปวิดีโอ ได้แก่ ความเป็นมาของนวดไทยและลักษณะของนวดไทยตำรับวัดโพธิ์และ 1 เรื่องที่ไม่มีป้ายบรรยายและคลิปวิดีโออธิบายความรู้ ได้แก่ ห้องแพทย์จำลอง

ภาพที่ 7 แผนภูมิที่แสดงวิธีการเรียนรู้ด้วยตนเองของนักศึกษาชาวจีน

ผู้วิจัยสรุปได้ว่า นักศึกษาชาวจีนใช้วิธีการอ่านในการเรียนรู้ด้วยตนเองมากที่สุด คิดเป็น 70% รองลงมา คือ วิธีการฟัง คิดเป็น 20% และใช้วิธีการดูในการเรียนรู้ด้วยตนเองน้อยที่สุด คิดเป็น 10% จึงสรุปได้ว่า นักศึกษาชาวจีนในพิพิธภัณฑ์นวดไทยใช้วิธีการอ่านเป็นหลัก รองลงมา คือ วิธีการดู วิธีการเรียนรู้ด้วยตนเองที่นักศึกษาชาวจีนใช้ในพิพิธภัณฑ์นวดไทยที่ใช้น้อยที่สุด คือ วิธีการฟัง รายละเอียดดังนี้

2.1 การอ่าน

Wu Xiaoli & Liu Jiajia (2018) กล่าวว่า วิชาการอ่านภาษาไทยเป็นวิชาพื้นฐานหนึ่งในการเรียนการสอนภาษาไทยที่มีความสำคัญ การเรียนการสอนการอ่านภาษาไทยเป็นเรื่องสำคัญสำหรับการเพิ่มพูนคลังคำศัพท์ เปิดหูเปิดตา รู้จักและเข้าใจวัฒนธรรม ซึ่งมีวัตถุประสงค์เพื่อพัฒนาความสามารถของภาษาไทยและได้ความรู้เรื่องการเมือง เศรษฐกิจ เทคโนโลยี ศาสนา ขนบธรรมเนียมประเพณี และแนวคิดโดยผ่านการอ่านข้อมูล ดังนั้น การอ่านภาษาไทยช่วยเพิ่มวัฒนธรรมข้ามประเทศและช่วยเพิ่มความรู้ได้ การอ่าน จึงเป็นเครื่องมือสำคัญสำหรับการเรียนภาษาไทยและวัฒนธรรมไทย

จากการสัมภาษณ์นักศึกษาชาวจีน (Chen xin, Li Xiaoyu & Liu Qing, สัมภาษณ์, 15 กรกฎาคม 2567) ผู้วิจัยพบว่า การอ่านเป็นวิธีการเรียนรู้ที่สำคัญ ความรู้ในพิพิธภัณฑ์นวดไทยส่วนใหญ่ปรากฏเป็นตัวอักษรบนป้ายบรรยาย การจัดแสดงป้ายบรรยายจึงเป็นวิธีการเผยแพร่ความรู้หลักในพิพิธภัณฑ์นวดไทย นักศึกษาชาวจีนสามารถใช้วิธีการอ่านเป็นหลักในการเรียนรู้ด้วยตนเองที่พิพิธภัณฑ์นวดไทย เพื่อได้ความรู้ด้วยตนเองจากการอ่านคำบรรยาย โดยยกตัวอย่างป้ายบรรยายของพิพิธภัณฑ์นวดไทย ดังนี้

ภาพที่ 8 ตัวอย่างป้ายบรรยายของพิพิธภัณฑ์นวดไทย

จากตัวอย่างป้ายบรรยายของพิพิธภัณฑ์นวดไทย ผู้วิจัยพบว่า ป้ายบรรยายของพิพิธภัณฑ์นวดไทยมีทั้งหมด 2 ประเภท ประเภทที่ 1 เป็นป้ายบรรยายที่มีแต่ข้อความเท่านั้น เช่น ป้ายบรรยายฝั่งซ้าย กล่าวถึงความรู้เกี่ยวกับการนวดเป็นธุรกิจบริการด้านสุขภาพ โดยกล่าวถึงวิธีการการส่งเสริมนวดไทยให้เป็นธุรกิจที่หมอนวดสามารถทำได้ทั่วโลก ส่วนประเภทที่ 2 เป็นป้ายบรรยายที่มีทั้งข้อความและรูปภาพ แต่เน้นข้อความเป็นหลักและใช้รูปภาพเป็นตัวช่วยในการเข้าใจเนื้อหา เช่นป้ายบรรยายฝั่งขวากล่าวถึงเรื่องการใช้สมุนไพรในการนวด ซึ่งใช้ข้อความอธิบาย แต่ใช้รูปภาพสมุนไพรมาช่วยทำความเข้าใจ และวางภาพของลูกประคบ ยาหม่องให้ดู สามารถช่วยเข้าใจเนื้อข้อความได้ง่าย ดังนั้น นักศึกษาชาวจีนจึงสามารถใช้วิธีการอ่านในการเรียนรู้ความรู้เรื่องนวดไทยจากป้ายบรรยายของพิพิธภัณฑ์นวดไทยได้ และยังสามารถดูรูปภาพที่อยู่บนป้ายบรรยายเพื่อช่วยให้เข้าใจเนื้อหาข้อความ

2.2 การฟัง

การฟังสื่อเสียงภาษาแม่ช่วยนักศึกษาเกิดความสนใจในการเรียนการสอนภาษาต่างประเทศ ช่วยสร้างสิ่งแวดล้อมเสมือนจริงของภาษาต่างประเทศ ช่วยเรียนการพูดภาษาต่างประเทศที่แท้จริง และช่วยเข้าใจวัฒนธรรมที่แทรกอยู่ในสื่อ การใช้ภาษาไม่สามารถแยกออกจากสถานการณ์ของสังคมได้ การเรียนรู้ภาษาควรสร้างบรรยากาศจริงให้นักศึกษามีความกระตือรือร้น สื่อเสียงภาษาแม่จึงสามารถสร้างบรรยากาศทางภาษาที่แท้จริง กระตุ้นความสนใจของนักศึกษา และพัฒนาการใช้ภาษาในการสื่อสาร (Mo Yi, 2020) ดังนั้น นักศึกษาชาวจีนฟังสื่อเสียงภาษาไทยสามารถช่วยเกิดความสนใจในการเรียนรู้ภาษาและช่วยพัฒนาการใช้ภาษาไทยในชีวิตประจำวันได้

ผู้วิจัยสัมภาษณ์นักศึกษาชาวจีน (Deng xiao & Huang xi, สัมภาษณ์, 15 กรกฎาคม 2567) พบว่า โอกาสที่นักศึกษาชาวจีนที่สามารถได้ยินเสียงภาษาไทยที่แท้จริงไม่ค่อยมาก แต่คลิปวิดีโอในพิพิธภัณฑ์นวดไทยเป็นคลิปที่มีเสียงพูดภาษาไทย พูดไม่เร็ว และออกเสียงชัดเจน นักศึกษาชาวจีนจึงสามารถใช้วิธีการฟังเสียงภาษาไทยจากคลิปวิดีโอเพื่อได้ความรู้เรื่องนวดไทยได้

ภาพที่ 9 ตัวอย่างคลิปวิดีโอของพิพิธภัณฑ์นวดไทย

คลิปวิดีโอของพิพิธภัณฑ์นวดไทยมี 2 คลิป โดยใช้วิธีการพูดให้ฟังเสียงภาษาไทย โดยไม่มีคำบรรยาย เช่น ภาพฝั่งซ้ายนำมาจากคลิปวิดีโอ เรื่อง “การนวดจากอดีตถึงปัจจุบัน” กล่าวถึงนวดไทยในสมัยสมเด็จพระนารายณ์มหาราช หน้าจอขึ้นภาพของสมเด็จพระนารายณ์มหาราชให้รู้จัก ภาพฝั่งขวาเป็นภาพจากเรื่อง “การนวดแผนไทยตำรับวัดโพธิ์” เมื่อกล่าวถึงวิธีการดัดตัวและยืดกล้ามเนื้อของนวดไทยตำรับวัดโพธิ์ หน้าจอจะขึ้นภาพที่หมอนวดยกขาของผู้รับบริการนวด ดังนั้น คลิปวิดีโอในพิพิธภัณฑ์นวดไทยใช้วิธีการเผยแพร่ความรู้เรื่องนวดไทยเหมือนกัน ได้แก่ ใช้เสียงภาษาไทยให้ฟังเป็นหลัก และใช้ภาพในการอธิบายเนื้อหา เพื่อให้เห็นภาพจริงและเข้าใจเนื้อหาได้ง่ายในพิพิธภัณฑ์นวดไทย นักศึกษาชาวจีนจึงต้องใช้วิธีการฟังเพื่อได้ความรู้จากคลิปวิดีโอ

2.3 การดู

การดูเป็นเครื่องมือสำคัญสำหรับนักศึกษาและช่วยทำความเข้าใจความรู้ เมื่อเข้าชมพิพิธภัณฑ์มีปฏิสัมพันธ์ทางภาษาภาพระหว่างผู้เข้าชมกับนิทรรศการ ซึ่งทำให้เกิดการถ่ายทอด การยอมรับ และการรับรู้ความรู้ ภาษาภาพรวมภาพ รูปทรง และสีต่าง ๆ ซึ่งเป็นภาษาที่ใช้อย่างกว้างขวางในโลก เมื่อมนุษย์ใช้ตัวอักษรเกิดปัญหาในการสื่อสารและการแลกเปลี่ยนความคิด สามารถใช้ภาษาภาพแสดงความคิดและความรู้ (Yan Chongjun & Wu Shuyan, 2023)

ผู้วิจัยสัมภาษณ์นักศึกษาชาวจีน (Zhang Kangle & Ma Boquan, สัมภาษณ์, 15 กรกฎาคม 2567) พบว่า วิธีการดูแม้เป็นวิธีการเรียนรู้ที่นักศึกษาชาวจีนใช้ในพิพิธภัณฑ์นวดไทยน้อยที่สุด แต่ก็เป็นวิธีการเรียนรู้ที่สำคัญ เพราะเป็นวิธีที่ได้ความรู้จากตาโดยตรงและเป็นวิธีการให้มีความทรงจำอย่างลึกซึ้งในพิพิธภัณฑ์นวดไทย นักศึกษาชาวจีนนอกจากสามารถใช้ตาดูรูปภาพและดูคลิปวิดีโอเพื่อเชื่อมโยงกับความรู้ที่อ่านหรือการได้ยินแล้ว ยังมีเขตที่สามารถใช้แต่วิธีการดูเท่านั้น ได้แก่ ห้องแพทย์จำลอง

ภาพที่ 10 ตัวอย่าง โต๊ะวินิจฉัยโรคของหมอ ตู้กระจกและตู้ลิ้นชัก และเตียงนวดคนเดียว

ห้องแพทย์จำลองได้จัดโต๊ะ ตู้กระจก ตู้ลิ้นชัก และเตียงนวดคนเดียว เป็นต้น ทำให้นักศึกษาชาวจีนย้อนเวลากลับสมัยที่นิยมรักษาโรคด้วยการแพทย์แผนโบราณได้ เช่น ปัจจุบันไม่ค่อยใช้โต๊ะวินิจฉัยแบบโบราณ นักศึกษาชาวจีนสามารถเห็นหมอในสมัยก่อนทำงานที่โต๊ะแบบโบราณ บนโต๊ะมีเครื่องมือที่ใช้ในการวินิจฉัยโรค เข้าใจได้ว่าหมอในสมัยก่อนใช้เครื่องมือแบบโบราณและไม่มีเทคโนโลยีเข้ามาช่วย เช่น

หมอใช้สมุดกระดาษบันทึกอาการของผู้ป่วย ไม่มีคอมพิวเตอร์เหมือนสมัยปัจจุบัน ภาพที่ 2 ได้แสดงผลิตภัณฑ์ที่ทำจากสมุนไพรต่าง ๆ และมียาที่ทำจากสมุนไพรเพื่อดูแลสุขภาพ ยาแบบนี้เรียกว่า ยาแพทย์แผนโบราณ ซึ่งปัจจุบันไม่ค่อยเห็นบ่อย เพราะคนสมัยปัจจุบันนิยมใช้ยาแผนปัจจุบันมากกว่า และภาพที่ 3 แสดงเตียงนวดคนเดียว ทำจากไม้และไม่สูงมาก เพื่อให้เข้าใจว่า เมื่อรับบริการนวด จะรับบริการบนเตียงคนเดียว ดังนั้น นักศึกษาชาวจีนสามารถได้ความรู้จากการใช้ตาดูและสามารถเข้าใจความรู้เรื่องการแพทย์แผนโบราณและนวดไทยโดยตรง ในเขตนี้ นักศึกษาชาวจีนจึงไม่สามารถได้ความรู้โดยอ่านจากป้ายบรรยายและฟังเสียงภาษาไทยจากคลิปวิดีโอได้ ควรใช้ตาดูบรรยากาศของห้องแพทย์จำลองและเข้าใจความรู้โดยตรงได้

เนื่องจากพิพิธภัณฑ์นวดไทยมีวิธีการจัดแสดงความรู้เรื่องนวดไทยที่หลากหลาย นักศึกษาชาวจีนจึงสามารถใช้หลายวิธีในการเรียนรู้เรื่องนวดไทยด้วยตนเอง ภายในพิพิธภัณฑ์นวดไทยอย่างเพลิดเพลิน

สรุปและอภิปรายผล

การเรียนรู้ความรู้มีหลายวิธี การเรียนรู้ด้วยตนเองเป็นวิธีที่ไม่ต้องพึ่งพาผู้สอนและหาวิธีทำความเข้าใจความรู้ด้วยตนเองเพื่อพัฒนาตนเอง การเรียนรู้ด้วยตนเองเป็นกระบวนการของนักศึกษาเริ่มหาและใช้วิธีเพื่อศึกษาตามเป้าหมาย รู้จักค้นหาความรู้ที่ต้องการและประเมินความก้าวหน้าด้านความรู้ที่ได้รับด้วยตนเอง (อริสรา อัครพิสิฐ, 2557) การเรียนการสอนภาษามีความจำเป็นต้องสอนวัฒนธรรมไปด้วย นวดไทยในฐานะที่เป็นส่วนหนึ่งของวัฒนธรรมไทยและนักศึกษาชาวจีนเคยเรียนจากตำราเรียนภาษาไทย 泰语阅读教程 (2) (วิชาการอ่านภาษาไทย) จึงเป็นวัฒนธรรมที่นักศึกษาชาวจีนสนใจและอยากเรียนรู้ต่อ

การลงพื้นที่พิพิธภัณฑ์นวดไทยเพื่อเก็บข้อมูล จำนวน 3 ครั้งนั้น ผู้วิจัยได้ความรู้ใหม่และเข้าใจเรื่องนวดไทยมากยิ่งขึ้น และได้สังเกตรูปแบบนิทรรศการในพิพิธภัณฑ์นวดไทย นอกจากนี้ ผู้วิจัยได้สัมภาษณ์นักศึกษาชาวจีน เพื่อได้ข้อมูลเกี่ยวกับวิธีการเรียนรู้ด้วยตนเอง จากผลการสัมภาษณ์พบว่าพิพิธภัณฑ์นวดไทยเป็นแหล่งเรียนรู้ด้วยตนเองที่ดีสำหรับนักศึกษาชาวจีนและนักศึกษาชาวจีนสามารถใช้วิธีการอ่าน การฟัง และการดู ได้ความรู้เรื่องนวดไทยภายในพิพิธภัณฑ์นวดไทยด้วยตนเองได้

พิพิธภัณฑ์นวดไทยของวัดโพธิ์ กรุงเทพมหานคร จัดนิทรรศการด้วยรูปแบบหลากหลาย ได้แก่ ป้ายบรรยาย คลิปวิดีโอ และห้องแพทย์จำลอง วิธีการจัดนิทรรศการของพิพิธภัณฑ์นวดไทยจึงน่าสนใจ ซึ่งทำให้เกิดความเพลิดเพลินและไม่รู้สึกเบื่อระหว่างการเรียนรู้ ผู้วิจัยยังพบว่า ในพิพิธภัณฑ์นวดไทย นักศึกษาชาวจีนเรียนรู้ความรู้เรื่องนวดไทยโดยใช้วิธีการอ่านเป็นหลัก รองลงมา คือ วิธีการฟังและวิธีการดู ตามลำดับ

นักศึกษาชาวจีนใช้วิธีการอ่านในการเรียนรู้ด้วยตนเองมากที่สุด คิดเป็น 70% เพราะนิทรรศการภายในพิพิธภัณฑ์นวดไทย วัดโพธิ์ กรุงเทพมหานคร แม้ว่ามีรูปแบบการจัดนิทรรศการหลายรูปแบบ แต่ความรู้ส่วนใหญ่จัดเป็นป้ายบรรยาย นักศึกษาชาวจีนจึงต้องใช้วิธีการอ่านเป็นหลักในการศึกษาความรู้เรื่องนวดไทยของพิพิธภัณฑ์นวดไทย ซึ่งสอดคล้องกับหนังสือของงานวิจัยของ Beiderwell et al. (2012 อ้างถึงใน ศึกษา เรืองดำ, 2564) ว่า ในการเรียนรู้ด้วยตนเอง ทักษะการอ่านมีความสำคัญอย่างยิ่ง การอ่านเพื่อการเรียนรู้เป็นการบูรณาการระหว่างทักษะการรับสารกับทักษะการนำไปประยุกต์ใช้ ซึ่งกระบวนการดังกล่าวจะทำให้เกิดการสร้างองค์ความรู้ใหม่ แล้วนำไปใช้ในกระบวนการเรียนรู้อื่น ๆ เช่น การสรุปใจความสำคัญ การคิดเชิงวิเคราะห์ และการคิดสร้างสรรค์ เป็นต้น

นักศึกษาชาวจีนใช้วิธีการดูในการเรียนรู้ด้วยตนเองน้อยที่สุด คิดเป็น 10% เพราะนิทรรศการของพิพิธภัณฑ์นวดไทย วัดโพธิ์ ณ กรุงเทพมหานคร ที่ได้จัดโดยให้ได้ความรู้เรื่องนวดไทยจากใช้ตาดูโดยตรง มีหนึ่งที่ ได้แก่ ห้องแพทย์จำลอง ในเขตนี้ ไม่มีป้ายบรรยายให้อ่าน แต่สร้างบรรยากาศให้เสมือนอยู่ในห้องแพทย์อดีต นักศึกษาชาวจีนจึงต้องให้ตาดูเพื่อได้ความรู้ในเขตนี้ ซึ่งสองคล้องกับแนวคิด Cognitive Load Theory ของ John Sweller, Paul Ayres & Slava Kalyuga (2011) ว่า ในการเรียนรู้ด้วยตนเอง การดูใช้น้อยที่สุด เพราะข้อมูลที่มีประสิทธิภาพที่ได้จากการดูต้องตรงกับ 2 เงื่อนไข ได้แก่ สิ่งที่ดูต้องตรงกับวัตถุประสงค์การเรียนรู้โดยตรง และต้องประกอบคำบรรยาย ดังนั้น การดูในพิพิธภัณฑ์นวดไทย วัดโพธิ์ ณ กรุงเทพมหานคร จึงใช้น้อยที่สุด

วัฒนธรรมไทยมีความหลากหลาย ประเทศจีนมีตำราเรียนภาษาไทยและมีบทอ่านสำหรับการเรียนการสอนเรื่องนวดไทย จึงทำให้นักศึกษาชาวจีนเกิดความสนใจกับการเรียนเรื่องนวดไทยเพื่อได้ความรู้เพิ่มเติม พิพิธภัณฑ์นวดไทยได้รวบรวมความรู้นวดไทยอย่างครบถ้วน โดยวิธีการจัดแสดงนิทรรศการที่หลากหลาย เพื่อให้เกิดความเพลิดเพลิน นักศึกษาชาวจีนสามารถเรียนรู้ความรู้เรื่องนวดไทยด้วยตนเองได้ พิพิธภัณฑ์นวดไทย จึงถือเป็นสถานที่ที่มีความสำคัญในการเรียนรู้ด้วยตนเองเรื่องนวดไทยสำหรับนักศึกษาชาวจีน วิธีการเรียนรู้ด้วยตนเองที่ใช้ในพิพิธภัณฑ์นวดไทยก็มีความหลากหลายใช้ได้ทั้งวิธีการอ่าน การดู และการฟัง

ข้อเสนอแนะ

1. สามารถนำผลการวิจัยนี้สร้างเป็นสื่อการเรียนการสอนเรื่องนวดไทยสำหรับนักศึกษาชาวจีนเพื่อช่วยเพิ่มพูนความรู้ทางด้านวัฒนธรรมไทยมากยิ่งขึ้น
2. ควรศึกษานวดไทยในมุมมองใหม่หรือศึกษาการเรียนการสอนเรื่องนวดไทยให้กับคนประเทศอื่นๆ

บทคัดย่อ

การวิจัยเรื่อง การออกแบบเครื่องตกแต่งแฟชั่นจากวัสดุธรรมชาติในท้องถิ่น มีวัตถุประสงค์ดังนี้ ข้อที่ 1 เพื่อวิเคราะห์องค์ความรู้และทักษะงานหัตถกรรมที่มีในท้องถิ่นผ่านการถ่ายทอดของปราชญ์ชุมชนท้องถิ่นพื้นที่จังหวัดสงขลา 3 ชุมชน ดังนี้ 1) บ้านหน้าถ้ำ 2) บ้านหัวควาย 3) บ้านตะโล๊ะ ข้อที่ 2 เพื่อออกแบบเครื่องตกแต่งแฟชั่นจากวัสดุธรรมชาติในท้องถิ่น จำนวน 3 รูปแบบ โดยมีวิธีดำเนินการวิจัยแบบคุณภาพ การทดลอง การออกแบบผลิตภัณฑ์ เก็บข้อมูลโดยการสัมภาษณ์ปราชญ์ชุมชน 3 ด้าน ดังนี้ 1) ปราชญ์ด้านการทำผ้าบาติกยางกล้วย 2) ปราชญ์ด้านการทำเชือกกล้วย 3) ปราชญ์ด้านการจักสาน ใช้วิธีการเลือกผู้ให้ข้อมูลหลักแบบเฉพาะเจาะจง (Purposive Sampling) เครื่องมือที่ใช้ในการวิจัยแบบสัมภาษณ์เชิงลึก นำมาวิเคราะห์ข้อมูลและเขียนบรรยายเชิงพรรณนา ผลการวิจัยวิเคราะห์ความรู้ของปราชญ์ชุมชนที่เกิดจากการสะสมประสบการณ์ เป็นความรู้ภูมิปัญญาที่มีคุณค่าและใช้วัสดุในท้องถิ่นใช้ความรู้ในการเลือกและคัดสรรจากวัสดุสีย้อมธรรมชาติจากยางกล้วย เชือกกล้วย และดอกหญ้ามาสร้างผลิตภัณฑ์ มีวัสดุที่สร้างสรรค์ผลงานได้ดี ลดต้นทุนวัสดุสามารถต่อยอดทำผลิตภัณฑ์ได้หลากหลาย จากการทดลองของผู้วิจัยเลือกวัสดุดังกล่าวที่มีในชุมชน นำมาสร้างสรรค์ผลิตภัณฑ์ที่เหมาะสมแก่การใช้งานตามแนวโน้มแฟชั่นได้ 3 รูปแบบ ดังนี้ 1) กระเป๋าเชือกกล้วย 2) กระเป๋าผ้าบาติกยางกล้วย (3) ตะกร้าก้านดอกหญ้า

คำสำคัญ: ออกแบบ, เครื่องตกแต่งแฟชั่น, วัสดุธรรมชาติ, ท้องถิ่น

Abstract

The research titled The Design of Fashion Accessories from Local Natural Materials aimed 1) to analyze the body of knowledge and craftsmanship skills found in local communities through the transmission of knowledge by local experts in three communities in Songkhla Province: 1) Ban Na Tham, 2) Ban Hua Khwai, and 3) Ban Talo, 2) to design three types of fashion accessories using local natural materials. This study was conducted using qualitative research methods, experimentation, and product design. Data were collected through interviews with three types of local experts: 1) an expert in making batik fabric using banana latex,2) an expert in making banana fiber ropes, and 3) an expert in basket weaving. Purposive sampling was used to select key informants, and in-depth

interview forms were used as the research instrument. Data were analyzed and presented in descriptive form. The findings revealed that the knowledge of local experts, accumulated through years of experience, constituted valuable local wisdom and knowledge. This knowledge utilized local materials and included the ability to select and process natural dye sources from banana latex, banana fiber ropes, and wildflowers to create products. These raw materials were effective in producing creative works, reducing material costs, and enabling diverse product development. Based on experimental design, the researcher selected locally available materials to create fashion products suited to contemporary fashion trends in three forms: 1) a banana rope bag, 2) a batik bag made from banana latex fabric, and 3) a basket made from wildflower stems.

Keywords: Design, Fashion Accessory, Natural Material, Local

บทนำ

การศึกษาวิจัยครั้งนี้เป็นการศึกษาวัสดุจากธรรมชาติในท้องถิ่นพื้นที่จังหวัดสงขลา 3 ชุมชน ดังนี้ 1) บ้านหน้าถ้ำ 2) บ้านหัวควาย 3) บ้านตะโล๊ะ ซึ่งในแต่ละพื้นที่มีต้นทุนวัสดุที่แตกต่างกัน ชนัญชิดา ยุกติรัตน์ (2559) กล่าวว่า วัสดุท้องถิ่นในประเทศไทยมีมากมายและมีความอุดมสมบูรณ์ไม่ว่าจะเป็น ดิน แร่ธาตุ พืชพันธุ์ ต้นไม้ น้ำ หรืออากาศถือว่าประเทศไทยเป็นประเทศที่มีทรัพยากรอันล้ำค่าที่ล้วนเป็นวัตถุดิบสำหรับการสร้างสรรค์งานหัตถกรรมได้เป็นอย่างดี วัสดุในแต่ละพื้นที่มีคุณสมบัติไม่เหมือนกัน สามารถสร้างผลิตภัณฑ์ได้หลากหลายตามคุณสมบัติของวัสดุในท้องถิ่นนั้น ๆ และผสมผสานกับการใช้ภูมิปัญญาของปราชญ์ชุมชนผู้มีทักษะ ความรู้ ความสามารถเป็นอย่างดีในเรื่องวิถีชีวิต ชุมชน วัฒนธรรม ความเป็นอยู่ สิ่งแวดล้อมรอบตัว และมีประสบการณ์ รัชฎาพร แนวแห่งธรรม (2560) กล่าวว่า ภูมิปัญญาท้องถิ่นเป็นความรู้ ความสามารถ และทักษะดั้งเดิม ซึ่งสืบทอดกันมาจากบรรพบุรุษส่งต่อจากรุ่นสู่รุ่น จนกลายเป็นความเชี่ยวชาญของพื้นที่ ในการผลิตสิ่งของเครื่องใช้หรือผลิตภัณฑ์จากชุมชนในรูปแบบต่าง ๆ ผู้ผลิตในชุมชนขาดความรู้และทักษะในการออกแบบผลิตภัณฑ์ ที่มีความทันสมัย เหมาะสมกับสถานการณ์ที่มีความหลากหลายในปัจจุบัน ผู้วิจัยเล็งเห็นถึงความสำคัญของภูมิปัญญาท้องถิ่น ทักษะฝีมือ ความรู้ประสบการณ์การผลิตที่ควรค่าแก่การสืบทอด จึงเป็นสิ่งสำคัญควรได้รับการอนุรักษ์และถ่ายทอดต่อชุมชนรุ่นหลัง

การผลิตผลิตภัณฑ์จากท้องถิ่นให้มีความสอดคล้องกับสถานการณ์ในปัจจุบัน โดยการออกแบบต้องทันสมัยตามกระแสแฟชั่น ยังคงไว้ซึ่งความรู้ภูมิปัญญาท้องถิ่น และคำนึงถึงคุณสมบัติของวัสดุที่มีในท้องถิ่นเพื่อให้ได้ผลิตภัณฑ์ที่มีคุณภาพ ณัฐพงษ์ คงประเสริฐ (2558) กล่าวว่า การผลิตงานฝีมือเป็นการผลิตสินค้าที่ต้องใช้ความชำนาญและทักษะของช่างสูง ซึ่งปราชญ์ชุมชนมีทักษะเหล่านี้เป็นอย่างดี และในการผลิตเครื่องตกแต่งแฟชั่น ต้องคำนึงถึงประโยชน์การใช้สอยและมีคุณสมบัติที่มีความแข็งแรง เหมาะสมตามโอกาสการใช้สอย การออกแบบยังต้องคำนึงถึงแนวโน้มการออกแบบแฟชั่นให้เหมาะสมกับกระแสนิยมในช่วงระยะเวลาหนึ่ง ซึ่งมีผลต่อการตลาดสินค้า ปานฉัตท์ อินทร์คง (2559) กล่าวว่า การนำแนวคิดทางการตลาดมาใช้ร่วมกันในการออกแบบผลิตภัณฑ์ที่เป็นผลิตภัณฑ์เชิงวัฒนธรรมต้องนำมาใช้ร่วมด้วย เพื่อให้สามารถเข้าถึงผู้บริโภคได้ง่ายขึ้น อรรถพนธ์ พงษ์เลาหพันธุ์ (2563) กล่าวว่า แฟชั่นสามารถเป็นได้ทั้งรูปแบบการแต่งกายหรือที่เรียกว่าสไตล์ (Style) และสินค้า (Product) ก็ได้ และแฟชั่นเป็นเครื่อง

สะท้อนตัวตนของบุคคลได้อีกด้วย แนวโน้มการอนุรักษ์วัฒนธรรมและการรักษาธรรมชาติเป็นแนวโน้มแฟชั่นที่ได้รับการยอมรับในปัจจุบัน

ผู้วิจัยลงพื้นที่เพื่อทำการออกแบบผลิตภัณฑ์ และพัฒนาทักษะการทำงานของสมาชิกในกลุ่มให้สอดคล้องกับแนวโน้มแฟชั่น ผู้วิจัยจึงเห็นว่าการออกแบบตามแนวโน้มแฟชั่นซึ่งมีผลต่อการตลาด เป็นแนวทางในการสร้างผลิตภัณฑ์ให้กับกลุ่มชุมชน เป็นประโยชน์ต่อการสร้างสรรค์ผลิตภัณฑ์ในรูปแบบใหม่ ผลิตภัณฑ์จากความรู้ภูมิปัญญา ยังคงคุณค่าของวัสดุท้องถิ่นที่มีเอกลักษณ์เฉพาะตัว ด้านความงาม ประโยชน์การใช้สอยของวัสดุในท้องถิ่น คงไว้ซึ่งคุณค่าของมรดกทางวัฒนธรรมด้านภูมิปัญญา และสิ่งแวดล้อมต่อไป

วัตถุประสงค์ของการวิจัย

1. เพื่อวิเคราะห์องค์ความรู้ทักษะงานหัตถกรรมในท้องถิ่นผ่านการถ่ายทอดของปราชญ์ชุมชนท้องถิ่น 3 ชุมชน บ้านหน้าถ้ำ บ้านหัวควาย บ้านตะโล๊ะ
2. เพื่อออกแบบเครื่องตกแต่งแฟชั่นจากวัสดุธรรมชาติในท้องถิ่น จำนวน 3 รูปแบบ

แนวคิด ทฤษฎี กรอบแนวคิด

ภาพที่ 1 กรอบแนวความคิดการวิจัย

วิธีดำเนินการวิจัย

การวิจัยเรื่อง การออกแบบเครื่องตกแต่งแฟชั่นจากวัสดุธรรมชาติในท้องถิ่น ขอบเขตด้านพื้นที่ ผู้วิจัยทำการเลือกพื้นที่แบบเฉพาะเจาะจง (Purposive Area) พื้นที่จังหวัดสงขลา เลือกศึกษาจากกลุ่มผ้าบาติกสีธรรมชาติจากยางกล้วย บ้านหน้าถ้ำ ม.6 ต.ปาดังเบซาร์ อ.สะเดา กลุ่มผลิตภัณฑ์วัสดุธรรมชาติบ้านตะโล๊ะ ม.8 ต.ปาดังเบซาร์ อ.สะเดา กลุ่มพัฒนาสตรีจักสานเชือกกล้วย บ้านหัวควาย ม.9 ต.คูเต่า อ.หาดใหญ่ ขอบเขตด้านเนื้อหา ความรู้ในชุมชนด้านหัตถกรรมท้องถิ่น การออกแบบเครื่องตกแต่งแฟชั่นวัสดุธรรมชาติในท้องถิ่น แนวโน้มการออกแบบแฟชั่น ศึกษาการใช้วัสดุธรรมชาติ ได้แก่ สีย้อมจากยางกล้วย ดอกหญ้า และเชือกกล้วย ประชากรและกลุ่มตัวอย่าง 3 กลุ่ม โดยการเลือกกลุ่มตัวอย่างแบบเฉพาะเจาะจง คือ 1) ปราชญ์ชุมชนด้านผ้าบาติกสีย้อมธรรมชาติจากยางกล้วย 2) ปราชญ์ชุมชนด้านงาน

จักสานการทำไม้กวาดดอกหญ้า 3) ปราชญ์ชุมชนด้านการจักสานเชือกกล้วย ผู้วิจัยเก็บข้อมูลจากกลุ่มตัวอย่าง โดยการใช้เครื่องมือแบบสัมภาษณ์องค์ความรู้ ลงพื้นที่สำรวจ สังเกตการณ์ และการถ่ายภาพเพื่อการศึกษา ผู้วิจัยสร้างแบบสัมภาษณ์ผ่านการตรวจสอบจากผู้ทรงคุณวุฒิ และใช้การสัมภาษณ์กึ่งโครงสร้างในการสัมภาษณ์ปราชญ์ชุมชนด้านหัตถกรรม ใช้การสัมภาษณ์แบบไม่เป็นทางการ ใช้การสัมภาษณ์เชิงลึกผู้ให้ข้อมูลหลัก การวิเคราะห์ข้อมูล จากการสัมภาษณ์เชิงลึกจากปราชญ์ชุมชนในแต่ละด้านและการออกแบบเครื่องตกแต่งแฟชั่นจากภูมิปัญญาท้องถิ่น การวิเคราะห์เชิงพรรณนา อธิบายข้อมูลที่ได้จากการลงพื้นที่เก็บข้อมูล และการสัมภาษณ์ นำมาตรวจสอบความถูกต้อง วิเคราะห์ข้อมูลที่ได้อย่างละเอียดตามหลักการวิจัยเพื่อให้ตรงวัตถุประสงค์การวิจัย นำเสนอผลงานวิจัยโดยการพรรณนาความ (Descriptive) ให้ถูกต้องและตรงประเด็นเพื่อนำเสนอผลงานต่อไป

ผลการวิจัย

จากการศึกษาและการวิจัยการออกแบบเครื่องตกแต่งแฟชั่นจากวัสดุธรรมชาติในท้องถิ่น ผู้วิจัยได้ลงพื้นที่เพื่อศึกษา เก็บรวบรวมข้อมูลสัมภาษณ์ปราชญ์ชุมชนเกี่ยวกับองค์ความรู้ทักษะงานหัตถกรรมที่มีในท้องถิ่น กลุ่มผลิตภัณฑ์ลายผ้าจากพืชธรรมชาติ กลุ่มจักสานและไม้กวาดดอกหญ้า กลุ่มจักสานเชือกกล้วย ผู้วิจัยได้นำมาแสดงผลการวิเคราะห์ข้อมูล ดังนี้

ปราชญ์ชุมชนด้านการย้อมสีธรรมชาติจากยางกล้วย (บุญธรรม มะโนเพ็ชร, สัมภาษณ์, 20 มกราคม 2564) กล่าวว่า การทำผ้าบาติกสีธรรมชาติจากยางกล้วย เกิดจากการเรียนรู้จากประสบการณ์มายาวนานได้สร้างสรรค์ผลงานอย่างยอดเยี่ยมมีคุณค่า โดยองค์ความรู้ที่มีนั้นถูกสะสมมาพร้อมทักษะฝีมือที่พัฒนาอย่างต่อเนื่อง การทำผ้าบาติกจากยางกล้วยเป็นการสร้างสรรค์คุณค่าจากของดี ที่มีในชุมชนมีความหมายที่ซ่อนเร้น การสร้างสรรค์ผืนผ้าจากธรรมชาติไม่ได้ทำเพื่อรายได้เพียงอย่างเดียวแต่ยังมีคุณค่าต่อผู้อื่นด้วย องค์ความรู้การทำผ้าบาติกจากยางกล้วยที่ผ่านการทดลองและสั่งสมมาเป็นระยะเวลานาน ได้ตกตะกอนเป็นความรู้ที่มีคุณค่าสร้างสรรค์งานศิลปะหัตถกรรมของในชุมชนที่น่าชื่นชมมาหลายชิ้นจนนับไม่ถ้วน จากการเรียนรู้ของปราชญ์ผู้นี้ได้มีการรวมกลุ่มทำผ้าบาติกจากยางกล้วย ถ่ายทอดความรู้ทุกรูปแบบผ่านองค์ความรู้ต่างๆ ถ่ายทอดความรู้สู่ชุมชนอื่นๆ ตลอดจนผู้สนใจโดยส่วนใหญ่มีความชอบชื่นชมและเกิดเป็นแบบอย่างที่ดี มีความภาคภูมิใจ และต่อยอดสร้างสรรค์เป็นผลิตภัณฑ์อื่นได้หลากหลายผลิตภัณฑ์ต่อไป

ปราชญ์ชุมชนด้านการจักสานดอกหญ้าไม้กวาด (หย๋ารอด๊ะ หวังเบ็ญหมูด, สัมภาษณ์, 20 กุมภาพันธ์ 2564) กล่าวว่า การถ่ายทอดองค์ความรู้ดำเนินต่อไปแม้ยุคสมัยผ่านไป ทั้งเป็นการถ่ายทอดสู่องค์กรที่ได้รับการติดต่อมาทั้งแบบมาดูงานที่ชุมชน และชุมชนไปถ่ายทอดสู่ภายนอก “ในหมู่บ้านก็มีผู้รู้หลายคน ทำเป็นอยู่บ้างสอนกันไปตามเครือข่ายที่ติดต่อมา ในพื้นที่ก็มีงานจักสานอย่างอื่นอยู่บ้าง เช่น พวกเตยแต่ก็ไม่มีใครสานต่อ ผลิตภัณฑ์ของเรามีความทนทานมากใช้ได้นาน ต้นดอกหญ้า หาเองตามธรรมชาติไม่มีต้นทุน เวลาเก็บต้องระวัง ต้องใส่ถุงมือ ใส่เสื้อแขนยาว มันจะบาดเป็นแผล ต้นดอกหญ้าสูงยาว ใบยาว เวลาเก็บนำมาฉีก เอามาตาก บางกอใหญ่มีหลายต้น บางกอก็มีไม่มากกระจาย ๆ กัน” ภูมิปัญญานี้จึงสามารถอยู่คู่กับชุมชนได้ต่อไป อีกทั้งยังมองหาแนวทางใหม่ ๆ ในการทำผลิตภัณฑ์เพื่อพัฒนาส่งขายอย่างต่อเนื่อง การทำงานจากสิ่งที่มีอยู่จึงมีคุณค่ามากและน่ารักษาให้มีต่อไป สามารถ ต่อยอดเป็นผลิตภัณฑ์อื่น ๆ ได้อีก ดอกหญ้าสามารถนำมาผลิตเป็นผลิตภัณฑ์อื่นได้อีกมากมายดังเห็นในวิจัยนี้ในกระบวนการผลิตต้นแบบอื่น ๆ ได้อย่างมีราคาและมีคุณค่าได้

ปราชญ์ชุมชนด้านการจักสานเชือกกล้วย (รัตนา ยางทอง, สัมภาษณ์, 20 มีนาคม 2564) กล่าวว่า วัสดุจากเชือกกล้วยมีจำนวนมากในพื้นที่ แต่มีคนน้อยนักที่มักเห็นคุณค่าของวัสดุในการนำมาใช้ประโยชน์ด้านต่าง ๆ รวมทั้งในการสร้างผลิตภัณฑ์จากการสานเชือกกล้วย เชือกกล้วยธรรมดา เมื่อคนในชุมชนได้นำมาทำเป็นผลิตภัณฑ์ในท้องถิ่นให้มีคุณค่ามีราคาเกิดขึ้นมามันไม่ใช่เรื่องง่าย ต้องใช้ระยะเวลาในการทำ ใช้ความอดทน ใช้ความมานะพยายาม ใช้ทักษะฝีมือ ความตั้งใจ และต้องมีความรู้เรื่องรูปแบบของวัสดุนั้น ๆ ได้พอประมาณ การขึ้นโครงว่าจะใช้วิธีการอย่างไร ใช้วัสดุอะไรบ้าง ใช้ลายขัดในรูปแบบไหน ถึงจะมีความสวยงามในรูปแบบของมัน ความรู้เกิดขึ้นจากการสั่งสมประสบการณ์มานานหลายปี และพัฒนาต่อยอดไปอย่างต่อเนื่องไม่สิ้นสุด

ตารางที่ 1 ลงพื้นที่สัมภาษณ์ปราชญ์ชุมชน

นางบุญธรรม มะโนเพ็ชร **การย้อมสีผ้าธรรมชาติจากยางกล้วย**	**นางหย่ารอด๊ะ หวังเบ็ญหมูด** **การจักสานดอกหญ้าไม้กวาด**	**นางรัตนา ยางทอง** **การจักสานเชือกกล้วย**
		

1. องค์ความรู้ทักษะงานหัตถกรรมในท้องถิ่นผ่านการถ่ายทอดของปราชญ์ชุมชน

1.1 ผลการวิเคราะห์ข้อมูลวัสดุจากเชือกกล้วย จากการลงพื้นที่กลุ่มพัฒนาสตรีจักสานเชือกกล้วย สามารถผลิตผลิตภัณฑ์เชือกกล้วยได้หลายรูปแบบตามขนาดของหุ่นซึ่งเป็นความต้องการของกลุ่มลูกค้า ส่วนใหญ่จะเป็นผลิตภัณฑ์หมวก กระเป๋า ตะกร้า ตลอดจนของใช้ตกแต่งภายในบ้าน โดยส่วนใหญ่จะเป็นการจักสานในรูปแบบที่เรียบง่ายไม่ซับซ้อนทำได้เร็ว สามารถขายได้ง่าย เชือกกล้วยมีน้ำหนักเบา มีความคงทนและแข็งแรง ขึ้นรูปเป็นผลิตภัณฑ์สามารถใช้ได้นาน ในส่วนของการผสมผสานเทคนิค วิธีการถักเชือกในรูปแบบต่าง ๆ จะเป็นการนำมาทำเป็นสายคล้องสำหรับสะพายหรือจับถือ เทคนิควิธีการถักเชือกกล้วยในรูปแบบต่าง ๆ เช่น การเปียเชือก การฟั่นเชือก เป็นต้น ดังภาพต่อไปนี้

ภาพที่ 2 การทดลองวัสดุเชือกกล้วย

1.2 ผลการวิเคราะห์ข้อมูลจากวัสดุเชือกกล้วยและวัสดุดอกหญ้าไม้กวาด การทดลองวัสดุสำหรับวิธีการสร้างลวดลายผ้าบาติกยางกล้วย 2 วัสดุ ดังนี้ 1) วัสดุเชือกกล้วยสามารถเก็บน้ำเทียนได้และในขณะพิมพ์สามารถให้ลวดลายพิมพ์ที่มีความสวยงามตามลักษณะลวดลายของเชือก และใช้ซ้ำได้ 2) วัสดุดอกหญ้าไม้กวาดยึดติดน้ำเทียนแต่ไม่สามารถซึมซับน้ำเทียนได้ ใช้ได้ครั้งเดียว ไม้กวาดก็เกาะตัวรวมกัน

ไม่เป็นเส้น ทำให้ครั้งต่อไปจะไม่เห็นเป็นลวดลาย ผลการวิเคราะห์ คือ ดอกหญ้าไม้กวาดจะใช้ได้เพียงครั้งเดียว ผลการทดลองการพิมพ์และการย้อมดังภาพและตารางต่อไปนี้

ภาพที่ 3 การทดลองสร้างลวดลายบาติกจากเชือกกล้วยและดอกหญ้า

ตารางที่ 2 การทดลองย้อมผ้าบาติกจากยางกล้วย

ภาพประกอบ	ขั้นตอน
	1. การเตรียม ตัดโคนกล้วย(อัตราส่วนตามภาชนะที่ใช้) พอมีพื้นที่ให้น้ำเดือด นำมาล้างให้สะอาด แล้วสับเป็นชิ้นพอประมาณ
	2. การต้ม ต้มน้ำในภาชนะใช้ไฟกลาง รอจนน้ำเดือด ใส่โคนกล้วยที่สับเป็นชิ้นลงไป รอจนน้ำเดือดอีกครั้ง ใส่เนื้อสียางกล้วยจากการต้มเคี่ยวจนเป็นเนื้อสี (จากการลงพื้นที่กลุ่มบาติกย้อมสียางกล้วย) เคี่ยวจนเนื้อสีละลาย ใส่เกลือและ ส้มแขก (ทุกกระบวนการใช้เวลา 20-30 นาที)
	3. การย้อม กรองน้ำสีด้วยภาชนะแบบหยาบ จากนั้นกรองน้ำสีด้วยผ้าขาวบางเนื้อละเอียดทิ้งไว้รอจนน้ำสีเย็นนำผ้าที่พิมพ์เทียนบาติก ลงย้อม (ใช้เวลา 20-30 นาที)
	4 การตาก นำผ้าขึ้นตากจนแห้งสนิทแล้วนำกลับไปย้อมแล้วตาก (ให้ทำซ้ำโดยประมาณ 3-4 ครั้ง จนได้สีที่เข้มตามความต้องการ จากนั้นแช่น้ำปูนแดงเพื่อเป็นการทำให้สีติดทน

1.3 ผลการวิเคราะห์ข้อมูลจากการจักสานวัสดุจากก้านมะพร้าว วัสดุก้านมะพร้าวมีความยาวตามธรรมชาติตามความยาวของใบมะพร้าว จึงทำให้การขึ้นรูปเป็นผลิตภัณฑ์ได้รูปแบบด้านความกว้างและความสูงตามความยาวของใบมะพร้าว หากนำไปออกแบบเครื่องตกแต่งแฟชั่น จึงเหมาะสำหรับการนำไปผสมผสานหรือใช้เป็นอุปกรณ์เสริมในการออกแบบเครื่องตกแต่งแฟชั่นในรูปแบบอื่น ๆ โดยการผสมผสานร่วมกับวัสดุอื่นเป็นการเพิ่มมูลค่าให้กับเครื่องจักสานจากวัสดุก้านมะพร้าว ดังภาพต่อไปนี้

ภาพที่ 4 การทดลองจักสานวัสดุก้านมะพร้าว

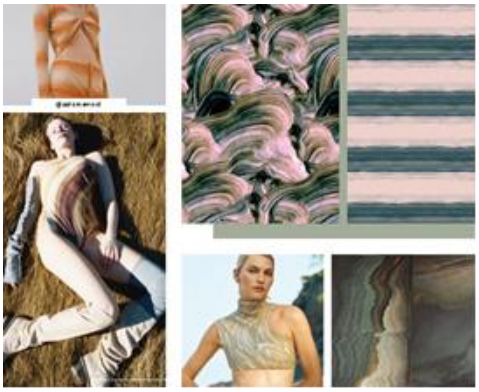
2. ออกแบบเครื่องตกแต่งแฟชั่นจากวัสดุธรรมชาติในท้องถิ่น จำนวน 3 รูปแบบ

Harriet Posner (2011) กล่าวว่า นักออกแบบหรือแบรนด์แฟชั่น มีเอกลักษณ์เฉพาะตัวที่ชัดเจนและโดดเด่นจนสามารถระบุตัวตนของนักออกแบบหรือแบรนด์แฟชั่นนั้น ๆ ได้อย่างง่ายดาย อัตลักษณ์ของเครื่องตกแต่งแฟชั่นในชุมชนที่เห็นได้ชัดเจน คือ วัสดุจากธรรมชาติที่นำมาผ่านกระบวนการผลิตด้วยวิถีของปราชญ์ชุมชนจนเป็นอัตลักษณ์ที่ได้รับการยอมรับ Fashionary (2020) กล่าวว่า ประเภทของเครื่องตกแต่งแฟชั่นที่เป็นองค์ประกอบสำคัญของการใช้งานนั้น คือ กระเป๋าเพื่อวัตถุประสงค์ของการใส่สิ่งของเครื่องใช้ที่จำเป็นสำหรับการใช้ชีวิตประจำวันที่มีหลากหลายรูปแบบที่แตกต่างกันในด้านวัสดุ เช่น ผ้า หนัง หรือวัสดุจากธรรมชาติ เป็นต้น ซึ่งมีความคงทนและดูแลรักษาง่ายไม่จำเป็นต้องซักบ่อยหรือเช็ดทำความสะอาดเป็นประจำ

2.1 การออกแบบกระเป๋าจากเชือกกล้วย ต้องคำนึงถึงความสามารถของผู้ผลิตและความต้องการของผู้บริโภคในตลาดที่เห็นความสำคัญของวัสดุธรรมชาติได้นำแนวโน้มแฟชั่นจากบริษัทพยากรณ์แนวโน้มผู้จัดหาการคาดการณ์การออกแบบผู้บริโภคและผลิตภัณฑ์ให้แบรนด์ต่าง ๆ WGSN บทความหัตถกรรมยกระดับ (Elevated Craft) กล่าวว่า สุนทรียศาสตร์อันประณีตบรรจงที่ยังให้ความสำคัญกับผลิตภัณฑ์งานฝีมือในยุคดิจิทัล สุนทรียศาสตร์ที่มีความต้องการสินค้าหัตถกรรม (Handcrafted) เพิ่มขึ้น การนำมาออกแบบที่ผสมผสานรูปแบบกระเป๋าผ้าและกระเป๋าสายสะพายไหล่ (Tote Bag, Shopper Bag) ที่มีความนิยมตลอดกาล ปากกระเป๋าเปิดกว้างมีหู 2 ข้างบรรจุของได้จำนวนมากตามภาพแบบร่างที่สอดคล้องกับ John Hopkins (2010) กล่าวว่า แนวทางการออกแบบและการร่างแบบรายละเอียดที่เกี่ยวข้องแสดงความเข้าใจอย่างถ่องแท้สามารถนำไปใช้ในกระบวนการผลิตต่อไป ดังตารางต่อไปนี้

ตารางที่ 3 แนวทางและแบบร่างการออกแบบกระเป๋าจากเชือกกล้วย

แนวทางการออกแบบ	การร่างแบบและกำหนดขนาดหุ่นกระเป๋า
	

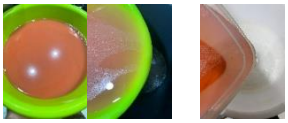


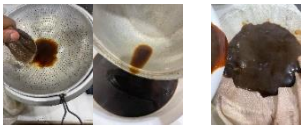
กระบวนการผลิตโดยต้องกำหนดหุ่นด้วยการตัดโฟมตามขนาดที่กำหนดไว้ในแบบร่าง แล้วปิดทับด้วยเทปโดยรอบ เพื่อกระบวนการทำต้นแบบกระเป๋าที่ป้องกันการหลุดกระจายตัวของเม็ดโฟมสามารถจะใช้ได้นาน กำหนดตำแหน่งของปากกระเป๋าและช่องสำหรับใส่สายกระเป๋า นำเชือกเปียและเชือกฟั่นที่ได้ถักไว้เสร็จแล้วมาสานเป็นเส้นยืนโดยยึดด้วยเข็มหมุดโดยรอบหุ่น จากนั้นขึ้นฐานด้วยเชือกกล้วยวิธีการสานลายขัด เพื่อยึดฐานให้แน่นและแข็งแรง นำเชือกเปียและเชือกฟั่นที่เตรียมไว้ ขัดสลับจนครบถึงตำแหน่งที่กำหนดไว้ ปากกระเป๋าด้านบนใช้เชือกกล้วยสานลายขัดอีกครั้งเพื่อเพิ่มความหนาและคงทนแข็งแรง ดังภาพต่อไปนี้

ภาพที่ 5 การผลิตต้นแบบกระเป๋าจากเชือกกล้วย

2.2 การออกแบบลวดลายและกระเป๋าจากผ้าบาติกยางกล้วย การขึ้นต้นแบบแม่พิมพ์บาติกจากเชือกกล้วย ด้วยแนวความคิดจากภูมิปัญญาและการวิเคราะห์ด้วยแนวโน้มแฟชั่น WGSN บทความ การใช้วิธีการแทนที่ด้วยสิ่งใหม่ (Substitute) กล่าวว่า การคิดสร้างสรรค์หรือสร้างนวัตกรรมให้กับผลิตภัณฑ์เป็นสิ่งสำคัญที่นักออกแบบควรคำนึงถึง อรัญ วานิชกร (2559) กล่าวว่า การแทนที่องค์ประกอบหรือรูปแบบเดิมได้ เช่น แทนที่ด้วยวัสดุ ขั้นตอน แหล่งผลิต วิธีการ เวลา อารมณ์ ความรู้สึก เป็นต้น จากทฤษฎีสู่การออกแบบนำผลมาวิเคราะห์ข้อมูลมาพัฒนา ออกแบบ ร่างแบบ ขึ้นต้นแบบลวดลายแม่พิมพ์บาติกจากเชือกกล้วย การให้อิสระกับวัสดุเชือกกล้วยและจัดวางให้สามารถนำไปต่อยอดลวดลายได้เป็นผืนผ้า อีกทั้งยังนำข้อมูลการสนับสนุนการออกแบบจากแนวโน้มแฟชั่น WGSN บทความพื้นผิวของธรรมชาติ Nature’s Texture กล่าวว่า ใช้สีสันโทนธรรมชาติทั้งหมดด้วยสีที่ลดและไล่ระดับเลือกใช้เป็นแนวทางในการออกแบบลวดลายบาติก ผลการวิเคราะห์ข้อมูลกระบวนการขึ้นแบบแม่พิมพ์บาติกสู่ลวดลายผ้าบาติก ดังตารางต่อไปนี้

ตารางที่ 4 แนวทางและแบบร่างการออกแบบลวดลายแม่พิมพ์บาติกจากเชือกกล้วย

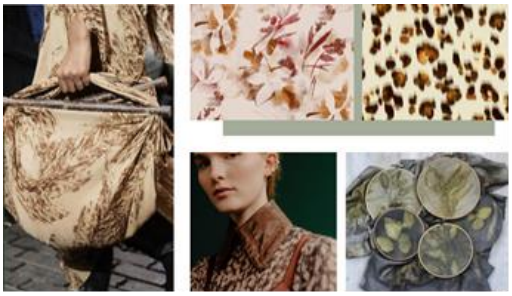




แนวทางการออกแบบลวดลายบาติก	แบบร่างแม่พิมพ์บาติกจากเชือกกล้วย
	

จากกระบวนการวิเคราะห์แนวทางการออกแบบตามแนวโน้มแฟชั่นให้เหมาะสมและสอดคล้องกับความต้องการของกลุ่มและผู้บริโภค เข้าสู่กระบวนการพัฒนาและสร้างสรรค์ การจัดวาง องค์ประกอบของลวดลายบนผืนผ้าบาติก เพื่อพัฒนาต่อยอดสู่แม่พิมพ์บาติก สร้างลวดลายแม่แบบพัฒนาสู่การสร้างลายที่ต่อยอดไม่รู้จบ แล้วเข้าสู่กระบวนการทดลองการพิมพ์เทียนด้วยแม่พิมพ์เชือกกล้วยบนผืนผ้าชนิดต่าง ๆ ที่ทางกลุ่มวิสาหกิจชุมชนได้ใช้ในการผลิตผ้าบาติกเพื่อการจัดจำหน่าย โดยมีชนิดผ้าต่าง ๆ ดังนี้ ผ้าฝ้าย ผ้าป่าน ผ้าไหม และผ้าใยกล้วย เป็นต้น

ตารางที่ 5 แม่พิมพ์บาติกจากเชือกกล้วย



แม่พิมพ์บาติกเชือกกล้วย	การถ่ายทอดและทดลองการใช้แม่พิมพ์บาติกจากเชือกกล้วย
	
การขึ้นลายแม่พิมพ์ใช้วัสดุเชือกกล้วยและไม้โดยจะมีการเพิ่มฐานไม้ขึ้นมา	การซึมซับ : ซับน้ำเทียนได้ดีในผ้าเนื้อบาง ลวดลาย : มีการต่อเติมฐานไม้ขึ้นมาทำให้เกิดความคล่องตัวและความรวดเร็วขึ้นในขณะพิมพ์ผ้า คุณภาพการพิมพ์ที่มีลวดลายคมชัดและเวลาในการพิมพ์

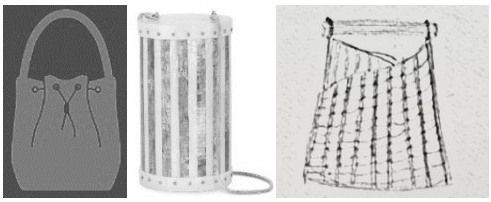
ตารางที่ 6 การย้อมผ้าบาติกจากยางกล้วย

ภาพประกอบ	ขั้นตอน
	- ทำความสะอาดผ้าโดยการต้มน้ำในภาชนะใช้ไฟระดับกลาง ใส่ผงซักฟอกแล้วใส่ผ้าลงไป ชโลมผ้าขึ้นลง ใช้เวลาประมาณ 20 นาที จากนั้นซัก ล้างให้สะอาด ตากให้แห้งหรือพอหมาด
	- ละลายปูนแดงในน้ำสะอาดทิ้งไว้ให้ตกตะกอนใช้เวลาโดยประมาณ 1 คืนแล้วนำเฉพาะในส่วนที่เป็นน้ำปูนใสมาใช้
	- ต้มน้ำในภาชนะใช้ไฟระดับกลาง รอจนน้ำเดือด ใส่โคนกล้วยสับเป็นชิ้นลงไป รอจนน้ำเดือดอีกครั้ง (ใส่เนื้อสียางกล้วยจากการต้มเคี่ยวจนเป็นเนื้อสีจากกลุ่มวิสาหกิจชุมชน) เคี่ยวจนน้ำเปลี่ยนสี ใส่เกลือและส้มแขก (ทุกกระบวนการใช้เวลา 20-30 นาที)
	- กรองน้ำสีด้วยภาชนะแบบหยาบ จากนั้นกรองน้ำสีด้วยผ้าขาวบางเนื้อละเอียด ทิ้งไว้รอจนน้ำสีเย็น
	- นำผ้าที่พิมพ์เทียนบาติกลงย้อม ชโลมขึ้นลงเพื่อลดความด่างของการติดสีบนเนื้อผ้า (ใช้เวลา 20-30 นาที)
	- จากนั้นแช่น้ำปูนใสเพื่อเป็นการทำให้สีติดทน (จะแช่น้ำปูนใสระหว่างการย้อมหรือจะแช่ตอนย้อมเสร็จในครั้งสุดท้าย) ชโลมขึ้นลงเพื่อลดความด่างของการติดสีบนเนื้อผ้า
	- นำผ้าขึ้นตากจนแห้งสนิทแล้วนำกลับไปย้อมและตากอีกหลายครั้งหรือให้ทำซ้ำโดยประมาณ 3-4 รอบ จนได้สีที่เข้มตามความต้องการ
	- ผ้าที่ย้อมเสร็จจะมีความสวยงามเป็นธรรมชาติผ้าเนื้อบางจะให้สีบางเบา ผ้าเนื้อหนาจะให้สีเข้มขึ้นมาตามลำดับ พื้นผิวมันวาวบนผืนผ้าก็มีผลต่อแสงสะท้อนบนพื้นผิวที่เกิดขึ้น

การออกแบบสร้างสรรค์ผลิตภัณฑ์เครื่องตกแต่งแฟชั่นในรูปแบบกระเป๋าทรงถัง (Bucket Bag) ลักษณะมีหมุดเปิดปิดอยู่ด้านในตรงปากกระเป๋า ส่วนมากทำจากแม่เหล็ก ก้นกระเป๋าออกแบบเป็นโครงแข็ง ผู้วิจัยได้นำวัสดุจากก้านมะพร้าวมาแทนที่ฐานกระเป๋าเพื่อเพิ่มความแข็งแรง และสามารถวางรองรับสิ่งของด้านในได้ดี อาจมีหูหิ้ว ที่จับหรือที่ถือ 1 เส้น ตามกระบวนการออกแบบ ดังภาพต่อไปนี้

ตารางที่ 7 แนวทางและแบบร่างการออกแบบกระเป๋าจากผ้าบาติกสียางกล้วย

แนวทางการออกแบบกระเป๋า	แบบร่างกระเป๋าผ้าบาติกยางกล้วย
	



การผลิตต้นแบบกระเป๋าจากผ้าบาติกยางกล้วยและก้านมะพร้าว ขนาดกระเป๋าด้านบนตามฐานกระเป๋าจากก้านมะพร้าว ซึ่งมีหลายขนาดตามกลุ่มผู้ผลิตงานจักสานจากก้านมะพร้าว จากภาพตัวอย่างใช้เส้นผ่าศูนย์กลาง ประมาณ 8 นิ้ว (ทั้งนี้จะมีขนาดเส้นผ่าศูนย์กลางประมาณ 6-10 นิ้ว แล้วแต่ความยาวของก้านมะพร้าวซึ่งจะมีผลต่อขนาดของกระเป๋า) วาดแบบตัดลงบนกระดาษแล้วตัดผ้าตามขนาดที่กำหนด จากนั้นผ้าอีกส่วนหนึ่งนำมากำหนดฐานกระเป๋าให้ได้ขนาดความโค้งตามขนาดของก้นกระเป๋า ใช้ 6 ชิ้น ผ้ามาอัดให้เป็นทรงแข็ง จากนั้นต่อเป็นฐานกระเป๋า แล้วนำมาต่อเป็นทรงขึ้นรูปกระเป๋า เจาะตาไก่เพื่อคล้องสายหนังสำหรับการใช้งาน

ภาพที่ 6 การผลิตต้นแบบกระเป๋าจากผ้าบาติกยางกล้วย

2.3 การออกแบบกระเป๋าจากก้านดอกหญ้า การวิเคราะห์วัสดุก้านดอกหญ้าไม้กวาดเนื่องจากเป็นเส้นตรงแข็ง และมีน้ำหนักเบา ค้นพบว่า สามารถนำมาใช้เป็นเส้นแนวตั้งแล้วใช้วัสดุอื่นมาขัดสาน เพื่อเป็นวิธีการทางเลือกใหม่ให้กับกลุ่มผู้ผลิตและเกิดเป็นผลิตภัณฑ์ใหม่ให้กับผู้บริโภคเนื่องจากก้านไม้กวาดมีน้ำหนักเบา สามารถใช้งานได้สะดวก นำมาออกแบบรวมกับแนวโน้มแฟชั่น เนื่องจากในปัจจุบันผู้บริโภคมีความตระหนักในเรื่องความยั่งยืนของสิ่งแวดล้อม จึงนำไปสู่การใช้วัสดุจากธรรมชาติ เช่น ไม้ประดับ เส้นใยธรรมชาติ จนสามารถนำมาสร้างเป็นผลิตภัณฑ์สำหรับใช้งานได้เป็นอย่างดี ซึ่งมีความสำคัญมากเช่นกัน ดังจะเห็นได้จากการเคลื่อนไหวของกระแสผลงานศิลปะและหัตถกรรมที่เป็นแรงบันดาลใจให้กับนักออกแบบมากมายนำมาสร้างสรรค์ผลงานเพื่อรองรับความต้องการของกลุ่มผู้บริโภค นำมาออกแบบกระเป๋าทรงกระบอกสูบ (Cylinder Bag) มักมีขนาดเหมาะสมพอดีกับขนาดของมือ สำหรับโอกาสชั่วคราวสอดคล้องกับวัสดุก้านดอกหญ้าไม้กวาดที่เป็นวัสดุที่มีน้ำหนักเบา เปราะบาง ผสมผสานกับรูปแบบของกระเป๋ารูปทรงถังหรือตระกร้า (Bucket Bag) ฐานกระเป๋าออกแบบเป็นโครงแข็งเพื่อให้ตั้งตรง มีหูหิ้วหรือที่จับหรือที่ถือ 1 เส้น จากการทดลองวัสดุกับรูปทรงตะกร้าหรือกระเป๋าร่วมกับการวิเคราะห์แนวโน้มแฟชั่น ได้ผลการออกแบบตามตารางต่อไปนี้

ตารางที่ 8 แนวทางและแบบร่างการออกแบบกระเป๋าจากก้านดอกหญ้า

แนวทางการออกแบบ	แบบร่างกระเป๋าจากก้านดอกหญ้า
	

การผลิตต้นแบบตะกร้าจากก้านดอกหญ้า ต้องคำนึงถึงวัสดุก้านไม้กวาดเป็นหลักเพื่อผลิตภัณฑ์ในรูปแบบใหม่ กำหนดฐานด้วยวัสดุจากหวายเส้นผ่าศูนย์กลาง 8 นิ้ว กำหนดก้านไม้กวาดเป็นเส้นตรง วัดก้านดอกหญ้าไม้กวาดตามขนาดความสูงที่กำหนดและวัดจำนวนเส้นที่จะใช้ โดยรอบฐานจากหวาย เว้นระยะห่างระหว่างเส้นก้านไม้กวาด ประมาณ ½ นิ้ว ยึดฐานของตะกร้าด้วยการนำก้านดอกหญ้าตำแหน่งของฐานตะกร้าไปแช่น้ำพอนิ่มแล้วทุบให้แบน แล้วจึงสอดเข้าไปในช่องของหวายที่ทำตำแหน่งไว้ ยึดด้วยการผูกด้วยเชือกบาง จากนั้นกำหนดตัวยึดระหว่างสานด้วยกระดาษหลังภาพเส้นผ่าศูนย์กลาง 8 นิ้ว เว้นระยะห่างประมาณ ½ นิ้ว (เป็นตำแหน่งเดียวกันกับก้านไม้กวาดแนวตั้ง) เจาะขอบที่ทำตำแหน่งไว้ จากนั้นนำมายึดกับก้านไม้กวาดรอบด้าน นำเชือกกล้วยธรรมดามาขัดรอบวง ทั้งด้านนอกและด้านในเพื่อยึดเส้นก้านไม้กวาด แล้วขยับกระดาษหลังภาพขึ้นสานเช่นเดียวกันโดยรอบจนถึงขอบตะกร้า ตามภาพดังต่อไปนี้

ภาพที่ 7 การผลิตต้นแบบตะกร้าจากก้านดอกหญ้าและวัสดุเชือกกล้วย

สรุปและอภิปรายผล

เครื่องตกแต่งแฟชั่นจากวัสดุธรรมชาติในท้องถิ่น จำนวน 3 รูปแบบ

ผลการวิจัยผลิตภัณฑ์กระเป๋าจากวัสดุเชือกกล้วย การผสมผสานรูปทรงและรูปแบบกระเป๋าผ้า (Shopper Bag) และ (Tote Bag) ลักษณะการใช้งานกระเป๋าเปิดด้านบนและสายสะพายไหล่ มีขนาดใหญ่ สามารถบรรจุของได้จำนวนมาก หุ่นกระเป๋ารูปทรงสูงครึ่งวงกลม สามารถใส่ของได้จำนวนมาก วัสดุเชือกกล้วยสีธรรมชาติ ใช้เชือกกล้วย 4 แบบ ได้แก่ 1) เชือกกล้วยธรรมดา 2) เชือกกล้วยฟั่นเกลียว 3) เชือกกล้วยเปียสาม และ 4) เชือกกล้วยเปียแปด สานลายขัดธรรมดา เหมาะสำหรับใส่สิ่งของ จับถือหรือแขวนไว้ตกแต่งที่อยู่อาศัย วัสดุเชือกกล้วยมีน้ำหนักเบา แข็งแรง และมีความทนทาน

ภาพที่ 8 ผลิตภัณฑ์กระเป๋าจากเชือกกล้วย

ผลการวิจัยผลิตภัณฑ์กระเป๋าวัสดุผ้าบาติกยางกล้วย รูปทรงกระเป๋าทรงถังหรือตระกร้า (Bucket Bag) ใช้ผ้าบาติก ฐานกระเป๋าใช้วัสดุจากก้านมะพร้าว เป็นโครงแข็งเพื่อให้กระเป๋าตั้งตรง เพื่อการใช้งาน วิธีการ พิมพ์ลายบาติกจากแม่พิมพ์บาติกเชือกกล้วยและย้อมด้วยสียางกล้วย เหมาะสำหรับการใช้งานในทุกโอกาสไม่ว่าจะเป็นการทำงาน การร่วมงานเลี้ยงสังสรรค์ที่ไม่เป็นทางการ โอกาสในวันหยุดสำหรับโอกาสสบาย ๆ วันพักผ่อน หรือการใช้สำหรับใส่สิ่งของจำเป็น เนื่องจากวัสดุผ้าบาติกยางกล้วยมีสวยงามอีกทั้งดูผ่อนคลายและมีคุณค่าในแบบธรรมชาติ และมีโครงฐานจากก้านมะพร้าวที่มีความแข็งแรงทนทาน

ภาพที่ 9 ผลิตภัณฑ์กระเป๋าจากผ้าบาติกยางกล้วย

ผลการวิจัยได้ผลิตภัณฑ์ตะกร้าจากก้านดอกหญ้ารูปทรงกระบอกสูบ (Cylinder Bag) โดยทั่วไปมักเป็นขนาดเหมาะสมพอดีกับขนาดของมือ ซึ่งเหมาะสมกับวัสดุก้านดอกหญ้าไม้กวาดที่มีน้ำหนักเบาและเปราะบางซึ่งสามารถใช้ได้ชั่วคราวเฉพาะโอกาสสำคัญ ผสมผสานกับรูปแบบของกระเป๋าทรงถังหรือตระกร้า (Bucket Bag) ฐานกระเป๋าออกแบบเป็นโครงแข็ง วัสดุใช้ก้านดอกหญ้าเป็นหลัก เชือกกล้วยเป็นตัวช่วยในการสาน และหวายเป็นฐานรองเพื่อความเข็งแรง วิธีการใช้ก้านดอกหญ้าเป็นตัวยืน และการจักสานลายขัดธรรมดาด้วยเชือกกล้วย เหมาะสำหรับการใช้งาน สำหรับโอกาสสบาย ๆ การใช้งานชั่วคราว เช่น ใช้ในการใส่สิ่งของในช่วงเวลาพักผ่อน สบาย ๆ หรือการใช้สำหรับใส่สิ่งของต่าง ๆ ที่มีน้ำหนักเบา การตกแต่งที่อยู่อาศัย เนื่องจากวัสดุก้านดอกหญ้ามีความแข็งแรงน้อย เปราะบาง แต่ให้คุณค่าความสวยงามและมีเรื่องราว อีกทั้งดูสบาย ๆ ในแบบธรรมชาติ มีคุณสมบัติเบาใช้งานได้ง่าย

ภาพที่ 10 ผลิตภัณฑ์ตะกร้าจากก้านดอกหญ้า

ข้อเสนอแนะ

การผลิตเครื่องตกแต่งแฟชั่นจากวัสดุธรรมชาติในท้องถิ่น นอกจากการคำนึงถึงความสำคัญของการเห็นคุณค่าสิ่งแวดล้อม การรักษาไว้ซึ่งภูมิปัญญาท้องถิ่นแล้วนั้น การออกแบบผลิตภัณฑ์นอกจากการคำนึงถึงความสวยงาม ประโยชน์ใช้สอย ความนิยม แนวโน้มแฟชั่นแล้วนั้น ยังต้องคำนึงถึงข้อจำกัดในเรื่องความคงทนและระยะเวลาการใช้งาน จึงจำเป็นต้องมีการออกแบบที่สามารถทำให้วัสดุจากธรรมชาติใช้ได้ดีมีคุณภาพและยาวนานมากยิ่งขึ้นเพิ่มเติมจากการออกแบบและการเลือกใช้วัสดุหรือวิธีการจักสาน

บทคัดย่อ

ระนาบที่ประกอบกันจากเส้นและที่ว่างต่างเชื่อมโยงสัมพันธ์ แสดงดุลยภาพของเรื่องราวความประทับใจในรูปร่างรูปทรงของธรรมชาติแวดล้อม วัตถุข้าวของ เครื่องมือเครื่องไม้จากการดำรงชีพ สะท้อนความสุข ความสงบ และความเรียบง่าย ผ่านลายเส้น ระนาบ และที่ว่างเปรียบเปรยกับท่วงทำนองหรือช่วงจังหวะหนักเบาของดนตรี ซึ่งเป็นอวัจนภาษา คือ ภาษาที่ไม่ต้องใช้ถ้อยคำในการติดต่อสื่อสารใด ๆ

คำสำคัญ: นัย, ที่ว่าง, ธรรมชาติแวดล้อม

Abstract

The plane is composed of lines and spaces. The balance of the impression of the shape of nature,object,woodworking tools from livelihood. Happy reflection peace and simplicity compare with melody or the heavy rhythm of the music. It's non-verbal. The language does not require words in any communication.

Keywords: Implication, space, nature

บทนำ

ชลูด นิ่มเสมอ (2553, น. 4) ได้กล่าวถึงวาดเส้นเป็นวิธีสื่อความหมายทางการเห็นขั้นแรกเริ่มวิธีหนึ่งของมนุษย์ ด้วยปัจจัยขั้นพื้นฐานที่สุด คือ เส้นและร่องรอยต่าง ๆ และด้วยเครื่องมือที่ง่ายที่สุดที่จะหยิบฉวยมาได้จากใกล้ตัว อาจเป็นถ่านก้อนหนึ่ง เศษไม้ชิ้นหนึ่ง หรือแม้แต่นิ้วมือของตัวเอง เด็ก ๆ จะเริ่มขีด วาด หรือละเลงด้วยอะไรก็ตามที่จะทำให้เกิดร่องรอยขึ้นตั้งแต่ยังไม่รู้ความชนดั้งเดิมขีดเขียนเส้นและร่องรอยลงบนเปลือกไม้ แผ่นหินหรือผนังถ้ำ ด้วยเหตุที่เราอาจเดาไปได้หลายประการ และที่น่าเป็นไปได้ประการหนึ่ง คือ มนุษย์ต้องการแสดงอะไรบางอย่างที่เป็นส่วนตนออกมาให้ปรากฏในโลก ไม่ว่าจะเป็นความเชื่อ ความนึกคิด อารมณ์ ความรู้สึก หรือแม้แต่เพียงร่องรอยง่าย ๆ ที่ทำขึ้นมาด้วยมือเอง

การสร้างสรรค์ผลงานศิลปะเพื่อให้ผลงานนั้น ๆ มีคุณค่าทางด้านความคิดสร้างสรรค์ ความงามหรืออารมณ์ความรู้สึกที่ถ่ายทอดออกมาให้เป็นที่ประจักษ์นั้น ซึ่งต้องประกอบด้วยองค์ประกอบหลายอย่าง เช่น รสนิยมส่วนตนหรือความชื่นชอบเป็นพิเศษ ในเรื่องที่จะนำมาเป็นแรงบันดาลใจในการสร้างสรรค์ผลงาน และประสบการณ์การซึมซับรับรู้ต่าง ๆ การศึกษาค้นคว้าข้อมูลจากสถานที่จริง ซึ่งได้นำมาวิเคราะห์ด้านความเหมาะสมที่จะใช้ในการสร้างสรรค์ผลงานชุด “นัยของธรรมชาติแวดล้อมในพื้นที่ว่าง”

ธรรมชาติสร้างสรรพสิ่งในโลกทั้งสิ่งมีชีวิตและไม่มีชีวิต ต่างดำรงอยู่ภายใต้กฎเกณฑ์ของความหลากหลายทางธรรมชาติที่มีการเปลี่ยนแปลงและมีความเคลื่อนไหวอยู่ตลอดเวลา มนุษย์ดำรงชีพด้วยวิธีการต่าง ๆ ที่ต้องพึ่งพิงสภาวะ ดิน ฟ้า อากาศ ลม ฝน แหล่งน้ำ ต้นไม้ใบหญ้าและความหลากหลายของพันธุกรรมพืช พันธุกรรมสัตว์ ที่หล่อเลี้ยงชีวิตให้ดำเนินไปอย่างปกติสุข ตราบที่ยังคงมีทรัพยากรเพียงพอต่อความต้องการของมนุษย์

จากข้อมูลเบื้องต้นส่งผลให้เกิดการสร้างสรรค์เป็นผลงานศิลปะในลักษณะงานจิตรกรรม 2 มิติ รูปแบบผลงานวาดเส้น โดยการขีดเขียนเป็นเส้น เป็นรูปร่างทรงแสดงสุนทรียภาพเฉพาะ และภาษาเฉพาะของตนเอง การใช้เส้นและน้ำหนักเป็นทัศนธาตุหลักในการสร้างสรรค์ เพื่อถ่ายทอดอารมณ์ความรู้สึกและจินตนาการ แสดงให้เห็นถึงมุมมองส่วนตัวเกี่ยวกับธรรมชาติและสิ่งแวดล้อม อาทิเช่น วัสดุอุปกรณ์ที่ใช้ประกอบอาชีพ โดยเน้นความเป็นวิถีชีวิตของชาวใต้รวมทั้งต้นไม้ใบหญ้าต่าง ๆ สะท้อนการอยู่ร่วมกันเป็นสังคมที่มีความสงบสุข ซึ่งอยู่บนพื้นฐานของการปฏิสัมพันธ์ซึ่งกันและกันระหว่างธรรมชาติและมนุษย์ และต้องการเผยแพร่องค์ความรู้ของงานสร้างสรรค์ และเป็นแนวทางในการศึกษาค้นคว้าต่อไปในอนาคต

วัตถุประสงค์ของการสร้างสรรค์

1. เพื่อสร้างสรรค์ผลงานทัศนศิลป์รูปแบบจิตรกรรม เทคนิควาดเส้นบนระนาบของที่ว่าง
2. เพื่อถ่ายทอดความประทับใจจากการศึกษาเรียนรู้เกี่ยวกับสิ่งแวดล้อมรอบ ๆ ตัว ที่มีลักษณะความเป็นพื้นถิ่นภาคใต้ ประกอบด้วยพืชพันธุ์ เช่น บานชื่น ดาวเรือง บานไม่รู้โรย ผักสวนครัว มะเขือ ถั่วฝักยาว พริก ข่า ฯลฯ และ วัสดุ อุปกรณ์ เครื่องไม้เครื่องมือในการดำรงชีพ เช่น ไม้ ไม้ไผ่ แห อวน ตาข่ายกรองแสง
3. เพื่อสื่อความหมายของผลงานสร้างสรรค์ให้เห็นรูปแบบสัญลักษณ์ที่มีการผสานสัมพันธ์ ความกลมกลืนสมดุลและขัดแย้ง แสดงจังหวะความหนาแน่นของเส้นและพื้นที่ว่าง โดยใช้เทคนิคการวาดเส้นในการสื่อความคิดและอารมณ์ความรู้สึกที่เลื่อนไหลอย่างต่อเนื่อง
4. เพื่อแสดงออกเกี่ยวกับผสมผสานกับการลากพู่กันด้วยความเร็วของเส้นที่ต่างกัน ในบางช่วงของภาพและด้วยทิศทาง ขนาดของเส้นที่หนักเบาเสาะผสานกัน สอดคล้องกับรูปทรงอย่างกลมกลืน

แนวความคิดในการสร้างสรรค์ผลงาน

ระนาบที่ประกอบกันจากเส้นที่แสดงความรู้สึกประกอบด้วยการเขียนเส้นเล็กที่สุด เขียนด้วยการลงน้ำหนักเบา ๆ ไปจนถึงการกดพู่กันให้เป็นเส้นหนักขนาดใหญ่ คมชัดแข็งแกร่ง พร่ากระจายอ่อนนุ่มและบางตอนแห้งกร้าน ผสมกับการหักเหโค้งงอในทิศทางและความเร็วที่ต่างกันไป สร้างความเลื่อนไหลไปในที่ว่าง เกิดจังหวะลีลาตามอารมณ์ความรู้สึกของการแสดงออก เสมือนทางเดินหรือผืนน้ำที่แผ่กว้างออกไปอย่างไม่มีจุดจบ เปรียบเปรยกับท่วงทำนองหรือช่วงจังหวะหนักเบาของดนตรี สื่อความคิดและอารมณ์ความรู้สึก เพื่อแสดงออกและสะท้อนให้เห็นบุคลิกและอุปนิสัยที่ประกอบด้วยอารมณ์ สงบ มั่นคง ขรึม และจริงจัง ความมีชีวิตชีวา และสนุกสนาน ผสมผสานกับความคิดและจินตนาการแสดงดุลยภาพของเรื่องราวความประทับใจในรูปร่างรูปทรงของธรรมชาติแวดล้อม ประกอบด้วยพืชพันธุ์ เช่น ดอกไม้ใบหญ้า เถาวัลย์ วัชพืช ผักสวนครัว วัตถุข้าวของ เครื่องมือเครื่องไม้จากการดำรงชีพ ไม้ ไม้ไผ่ แห อวน ตาข่ายกรองแสง

วิธีดำเนินการสร้างสรรค์

การสร้างสรรค์ผลงานจิตรกรรม ชุด“นัยของธรรมชาติแวดล้อมในพื้นที่ว่าง” ผู้สร้างสรรค์ได้ดำเนินการศึกษาค้นคว้าเป็นขั้นตอนดังต่อไปนี้ ศึกษาข้อมูลเอกสารต่างๆที่เกี่ยวข้อง

1. การศึกษาข้อมูลจากสถานที่จริง สภาพแวดล้อมโดยรอบบริเวณที่สนใจ และศึกษาลักษณะทางธรรมชาติ ความมีชีวิตชีวา การเกาะเกี่ยวกันของพันธุ์ไม้หลากชนิดที่อยู่ในบริบทของการพึ่งพาอาศัยซึ่งกันและกัน

2. ศึกษาข้อมูลเอกสารต่าง ๆ ที่เกี่ยวข้องกับการสร้างสรรค์ผลงาน

3. ประมวลลำดับข้อมูล วิเคราะห์และสรุปผลที่ได้รับจากการศึกษาเพื่อสร้างสรรค์เป็นงานจิตรกรรมวาดเส้น

4. สร้างสรรค์ผลงานเป็นภาพร่างลายเส้นปากกาเพื่อวางโครงสร้าง โดยรวมของภาพและความสมบูรณ์ของเรื่องราว

5. ปฏิบัติการสร้างสรรค์ผลงานและนำเสนอผลงานเพื่อวิเคราะห์ วิจารณ์ และสัมมนาปรับเปลี่ยนแก้ไขปัญหาพร้อมทั้งพัฒนาการแสดงออก มุมมอง เนื้อหาสาระในการสร้างสรรค์

6. บันทึกข้อมูลปัญหาของการสร้างสรรค์และพัฒนาผลงาน เพื่อให้เกิดความสมบูรณ์ของผลงานสร้างสรรค์

7. เผยแพร่ผลงานสร้างสรรค์โดยจัดนิทรรศการหรือเข้าร่วมแสดงผลงานนิทรรศการกับหน่วยงานภายนอก และใช้ในการเรียนการสอนในหลักสูตรสาขาวิชาทัศนศิลป์

(ขนาด 80 x 100 เซนติเมตร, เทคนิค สีอะคลิลิค, ปี 2019)

การอภิปรายผลการสร้างสรรค์

มนุษย์ดำรงชีพด้วยวิธีการต่าง ๆ ที่ต้องพึ่งพิงสภาวะ ดิน ฟ้า อากาศ ลม ฝน แหล่งน้ำ ต้นไม้ ใบหญ้าและความหลากหลายของพันธุกรรมพืช พันธุกรรมสัตว์ ที่หล่อเลี้ยงชีวิตให้ดำเนินไปอย่างปกติสุข ตราบที่ยังคงมีทรัพยากรเพียงพอต่อความต้องการของมนุษย์เราถูกรายล้อมด้วยธรรมชาติ ซึ่งสิ่งที่อยู่รายรอบกาย ทั้งต้นไม้ ใบหญ้า วัชพืช พืชผัก ผลไม้ เถาวัลย์ วัชพืชต่าง ๆ และวัสดุอุปกรณ์ที่สร้างมาเพื่อเลี้ยงชีพ ทำมาหากิน สิ่งปลูกสร้างต่าง ๆ มีความสัมพันธ์ระหว่างมนุษย์กับธรรมชาติแวดล้อม

ในการสร้างสรรค์ผลงานชุดนี้มีการใช้ทัศนธาตุหลัก คือ จุด เส้น และที่ว่าง ซึ่งมีความสัมพันธ์กัน การประกอบกันของจุดขนาดเล็กและใหญ่ ทำให้เกิดค่าน้ำหนักช่วยเน้นรูปทรงให้เด่นชัดขึ้น สร้างจังหวะให้เกิดพลังความเคลื่อนไหวและเกิดความกลมกลืนมีความเชื่อมโยงระหว่างรูปทรงต่าง ๆ และยังมีการใช้จุดในการเสริมรายละเอียดของภาพให้สมบูรณ์ขึ้น นอกจากนี้มีการใช้เส้นเป็นทัศนธาตุหลักเป็นโครงสร้างสำคัญและเป็นหัวใจของผลงาน สร้างความเคลื่อนไหว แสดงรูปทรงของสิ่งต่าง ๆ เช่น แห อวน ตาข่าย กรองแสง สิ่งของ เครื่องใช้ ซากไม้ ต้นไม้ ดอกไม้ ใบหญ้า พืชผักสวนครัว มีการใช้เส้นแสดงความรู้สึกอยู่ในตัวเส้นเอง โดยใช้เส้นที่มีธรรมชาติเป็นสองมิติให้มีความรู้สึกว่าเป็นสามมิติ โดยใช้พู่กันจีนตั้งแต่การเขียนเส้นเล็กที่สุดเขียนด้วยการลงน้ำหนักเบา ๆ ไปจนถึงการกดพู่กันให้เป็นเส้นหนักขนาดใหญ่ เกิดการประสานกันของเส้นจนเป็นรูปทรงและน้ำหนัก ใช้วิธีการลากเส้นลงไปทีเดียวในที่ว่าง บางตอนคมชัด บางตอนพร่ากระจายอ่อนนุ่มและบางตอนแห้งกร้าน ผสมกับการหักเหโค้งงอในทิศทางและความเร็วที่ต่างกันไป ดังนั้นการวาดเส้นจึงสัมพันธ์กับที่ว่าง เพราะเส้นยังมีหน้าที่กำหนดขอบเขตและลักษณะรูปร่างของบริเวณที่ว่าง สร้างสรรค์เป็นที่ว่างลวงตา มีลักษณะ 2 มิติ มีการเว้นพื้นระนาบของผ้าใบไว้ ซึ่งเป็นที่ว่างเสมือนทางเดินหรือผืนน้ำที่แผ่กว้างออกไปอย่างไม่มีจุดจบและขอบเขตที่แน่นอน เป็นที่ว่างแบบเปิดที่ว่างทำหน้าที่เชื่อมโยงรูปร่างและรูปทรงให้เป็นเอกภาพ มีความสอดคล้องกลมกลืนกันที่เกิดจากการเชื่อมโยงสัมพันธ์กันของส่วนต่าง ๆ โดยมีความขัดแย้งและกฎเกณฑ์ของการประสานหรือความกลมกลืนกัน ความตรงกันข้ามกันนี้ ทำให้เกิดพลังความเคลื่อนไหวและเกิดดุลยภาพขึ้นประกอบด้วย เอกภาพของรูปความคิด มีแนวเรื่องเกี่ยวกับระนาบที่ประกอบกันจากเส้นและที่ว่างมีความเชื่อมโยงสัมพันธ์ แสดงดุลยภาพของเรื่องราวความประทับใจในรูปร่างรูปทรงของธรรมชาติแวดล้อม โดยมี วัตถุ สิ่งของ เครื่องมือเครื่องไม้ในการประกอบอาชีพ แห อวน ตาข่ายกรองแสง ไม้ไผ่ ซากไม้ ต้นไม้ ดอกไม้ ใบหญ้า พืชผักสวนครัว สะท้อนความสุข ความสงบ และความเรียบง่าย เปรียบเปรยกับท่วงทำนองหรือช่วงจังหวะหนักเบาของดนตรี แสดงออกเป็นรูปแบบงานจิตรกรรม สื่อถึงอารมณ์ความรู้สึกที่สะท้อนความกลมกลืนและขัดแย้งของเส้นที่ลากผ่านที่ว่าง โดยมีรูปทรงจากความประทับใจเป็นการลดตัดทอนความเหมือนจริงในธรรมชาติสร้างเป็นสัญลักษณ์แสดงความหมายที่ผู้สร้างสรรค์ต้องการ โดยใช้เทคนิควาดเส้นหมึกจีนและสีฝุ่นบนผ้าใบ สร้างความเลื่อนไหลไปในที่ว่าง เกิดจังหวะลีลาตามอารมณ์ความรู้สึกของการแสดงออกการลากเส้นลงไปทีเดียวในที่ว่างบางตอนคมชัดแข็งแกร่ง บางตอนพร่ากระจายอ่อนนุ่ม และบางตอนแห้งกร้าน ผสมกับการหักเหโค้งงอในทิศทางและความเร็วที่ต่างกันไป สื่อความคิดและอารมณ์ความรู้สึกโดยมีลักษณะมุมมองอย่างงานจิตรกรรมไทย ซึ่งเป็นแบบบรรยายหรือพรรณนา

ผลงานสร้างสรรค์ชุด “นัยของธรรมชาติแวดล้อมในพื้นที่ว่าง” มีแนวเรื่องและสัญลักษณ์ของการแสดงออก ประกอบด้วยเส้นนอนของรูปทรง ซากไม้ กิ่งไม้ต่าง ๆ ให้อารมณ์ความสงบ ราบเรียบเส้นในแนวดิ่งของรูปทรง เสาไม้ เศษไม้ ให้อารมณ์ความมั่นคง ขรึม และจริงจัง เส้นเฉียงของรูปทรง ต้นไม้เอนใบหญ้าที่ลู่ลม เถาวัลย์ วัชพืช ให้อารมณ์ความเคลื่อนไหว ความมีชีวิต และเส้นโค้งที่ต่อเนื่องกับรูปทรง

ของกลุ่มต้นไม้ ใบหญ้า ที่สอดประสานกันไปทั่วที่ว่างและปฏิสัมพันธ์กับรูปทรงอื่น ๆ ให้อารมณ์ความสนุกสนาน กลมกลืน ต้องการแสดงนัยสำคัญเพื่อแสดงออกและสะท้อนให้เห็นบุคลิกและอุปนิสัย ของผู้สร้างสรรค์ที่ประกอบด้วยอารมณ์ สงบ มั่นคง ขรึม และจริงจัง ความมีชีวิตชีวาและสนุกสนาน อันเป็นภาษาที่ใช้สื่อสารผสมผสานกับความคิด และจินตนาการในการถ่ายทอดและสร้างสรรค์ผลงานในรูปแบบแนวทางเฉพาะตน

บทคัดย่อ

สัญลักษณ์จินตภาพแห่งความผูกพันเพื่อผ่อนคลายจิตใจ เป็นการถ่ายทอดประสบการณ์ ความสุข ความทรงจำ ความผูกพัน ในวิถีชีวิตชนบทที่เต็มไปด้วยความสวยงามและเรียบง่าย สนุกสนาน อบอุ่นผ่านสีสัน ในช่วงเวลาและเรื่องราวในการดำรงชีวิต เรื่องราวประสบการณ์จากในอดีต คลุกคลี สัมผัส บ่มเพาะกลมเกลียวกลมกลืนจากรากเหง้าในสังคมของผู้สร้างสรรค์ โดยผ่านการนำเสนอด้วยผลงานทางทัศนศิลป์เป็นผลงานจิตรกรรม 2 มิติ เทคนิคสีน้ำมันบนผ้าใบรูปแบบกึ่งเหมือนจริงผสมผสานกับรูปทรงจากสิ่งแวดล้อมและธรรมชาติ ผ่านสัญลักษณ์ จังหวะ สีสัน ที่แสดงทางแนวทางเหนือจริง สัมพันธ์กับเนื้อหาแนวความคิด ที่พูดถึงจินตนาการทางความสุขและความทรงจำ การสะท้อน การหวงแหนรักษาเอกลักษณ์รากเหง้าพื้นฐาน ที่เป็นต้นทุนทางวัฒนธรรม ในการดำรงชีวิต คอยสร้างความสุข ความผ่อนคลาย มุ่งเน้นการมองโลกในแง่ดีสร้างความสุขและกำลังใจในการดำรงชีวิตแก่ผู้รับชมผลงานในการสร้างสรรค์และกล่อมเกลาแบ่งเบาปัญหาต่าง ๆ ที่ประสบพบเจอในชีวิตประจำวันที่เต็มไปด้วยความเครียด สับสนวุ่นวายไม่แน่นอนในการดำรงชีวิต

คำสำคัญ: จินตภาพแห่งความผูกพัน, ความสุขความทรงจำ,ธรรมชาติ

Abstract

The Imagination symbol of attachment to relax mind.the experience,Happiness, memories, engagement in rural life, beautiful and simple, full of fun, warm, colorful. At times and stories touched by life through a past experience, touch, harmonious, cultivate on the basis of one's social life of creators. presentation of visual arts as 2d art, oil painting on canvas, semi-realistic style combined with the shape of the environment and nature, showing the way to the north. Relate to the conceptual content. That's a fantasy of happiness and memories. Reflects to cherish the traditions, cultures, livelihoods through the works. To create happiness, relaxation, focus on optimism, happiness and morale in life, more than the problems encountered in everyday life is full of confusion.Uncertainty in living.

Keywords: Imagination of engagement, Happy memories,Natural

บทนำ

ตามบริบทของสังคมที่ดำเนินไปในปัจจุบัน ปัจจัยในการดำรงชีวิตยิ่งมากตามไปด้วยตามเหตุการณ์ของการดำรงชีวิต ที่มีปัจจัยภายนอกเข้ามามีอิทธิพลมากขึ้นต่อการดำรงชีวิต ตามวัฒนธรรมใหม่ ๆ ตามยุคสมัยที่คนในสังคมดำเนินไปอย่างไม่รู้ตัวและรู้ตัวตามวัฏจักรของการเกิดแก่เจ็บตาย ที่เป็นสิ่งที่มนุษย์ ไม่อาจเปลี่ยนแปลงได้ ต่างมีเป้าหมายขวนขวายไขว้คว้าหาสิ่งที่ตนต้องการ อยากมีอยากได้ ดิ้นรน ต่อสู้แข่งขันจนเกินความพอดีและจำเป็น ความวิตกกังวล ปัญหาความเครียดสะสม โดยลืมความต้องการที่แท้จริงภายในจิตใจ นั่นคือการสร้างความสุขให้กับตัวเองครอบครัวและคนรอบข้าง

เหตุการณ์ในการดำรงชีวิต ประสบการณ์และความสุขความทุกข์คนทุกคนอาจจะพบเจอแตกต่างกันแล้วแต่สังคมที่เจอที่อยู่และวัฒนธรรมนั้น ๆ สถานที่กิจกรรมที่แตกต่างกัน สภาพสังคมล้วนมีผลกระทบต่อความรู้สึกและจิตใจในการดำรงชีวิต การเปลี่ยนแปลงตามระยะเวลา ความเจริญทางสังคมและเทคโนโลยีที่ก้าวไปข้างหน้าอย่างไม่หยุดนิ่ง โดยทำให้คนในสังคมบางกลุ่มขาดจิตสำนึกในการรักษาหวงแหนธรรมชาติวัฒนธรรมที่ดีงามที่คอยหล่อเลี้ยงชีวิตมนุษย์ให้มีรากฐานที่มั่นคงได้ ลืมความสุขความผูกพันสิ่งที่ดีงามความอบอุ่น ความสวยงามในวิถีชีวิตชนบท ทั้งที่เป็นส่วนสำคัญในการดำรงชีวิตของคนในสังคมในการอยู่ร่วมกัน โดยอยู่ที่ว่าเราสามารถเก็บเอาความสุขความผูกพัน ความทรงจำที่ดีงามมาปรับใช้ในสังคมปัจจุบันอย่างไรให้มีความสุข และดำเนินชีวิตไปพร้อมกับความเจริญทางเทคโนโลยีและวัฒนธรรม ในปัจจุบันมีการเปลี่ยนแปลงตลอดเวลา ทั้งกฎระเบียบ กติกา กฎหมายทางสังคมในทุก ๆ ด้าน โดยที่ความทรงจำและจิตสำนึกนั้น อยู่ที่ว่าใครจะสามารถรับรู้ถึงความสุขที่แท้จริงปรับตัวท่ามกลางการเปลี่ยนแปลงและนำมาปรับใช้ในการดำรงชีวิตได้แท้จริง ตามสภาวะสังคมในปัจจุบัน ในภาวะที่เปราะบางและไม่มั่นคงของเรื่องราวจากปัจจัยภายนอก

ช่วงเวลาในความทรงจำและอดีตจึงมีความสำคัญ ช่วงเวลาแห่งชีวิตอาจจะเป็นเรื่องราวพื้นที่ที่อบอุ่น ประสบการณ์จากกิจกรรมภายในบ้านนอกพื้นที่บ้าน มุมมองสิ่งแวดล้อม สีสัน สัญลักษณ์บรรยากาศโดยรอบ เช่น บรรยากาศจากแมวที่วิ่งเล่น นอนหลับ หรือสนุกสนานอยู่กับพื้นที่ที่สงบ เรียบง่าย แสงแดด ไออุ่น ไม่ต่อสู้ดิ้นรนจนเกินความพอดี ไม่แข่งขันเร่งรีบ หรือสร้างความเดือดร้อนในการใช้ชีวิต สร้างพื้นที่ส่วนตัวที่สงบเรียบง่าย ที่คนในยุคสมัยใหม่จะสามารถกลับไปดำรงชีวิตได้อย่างปลอดภัยธรรมชาติจึงกลายเป็นพื้นที่ปลอดภัย เป็นการเริ่มต้นของการฝึกฝนประสาทรับรู้ที่ดี ธรรมชาติเป็นบรมครูที่ยิ่งใหญ่ของมนุษย์และยังมีสิ่งที่มนุษย์จะต้องเรียนรู้จากธรรมชาติอย่างไม่จบสิ้น ศิลปะทุกชนิดทุกประเภทสร้างขึ้นโดยมนุษย์ ศิลปะไม่ว่าจะอยู่ในยุคเก่าหรือยุคใหม่ล้ำสมัยอย่างไร ย่อมเกิดจากการเรียนรู้จากธรรมชาติของผู้สร้างสรรค์ทั้งสิ้นในการนำมาปรับใช้ (พิษณุ ศุภนิมิตร, 2549)

การสร้างสรรค์ผลงานจิตรกรรม ชุดสัญลักษณ์จินตภาพแห่งความผูกพันเพื่อผ่อนคลายจิตใจจึงเป็นสิ่งที่ต้องการถ่ายทอดถึงแง่มุมจากความสุขความผูกพันในวิถีชีวิตเหตุการณ์ต่าง ๆ เรื่องราวสัญลักษณ์จากชีวิต คอยสร้างคุณค่าความสุขความทรงจำที่ดีให้กับผู้รับชมผลงาน สร้างสรรค์ สัมผัส รับรู้ถึงความรู้สึกสุนทรียะภาพในผลงาน การบูรณาการสุนทรียภาพสู่การเยียวยาจิตใจผ่านผลงานจิตรกรรมสร้างองค์ความรู้ใหม่ในด้านการใช้ทัศนธาตุและสัญลักษณ์จากวิถีชีวิตชนบท ถ่ายทอดคุณค่าแห่งความอบอุ่น สงบ และเรียบง่าย เป็นแนวทางการบำบัดจิตใจในบริบทของสังคมเมืองที่เคร่งเครียด มองความสุขเล็ก ๆ และสิ่งต่าง ๆ รอบตัวเป็นแรงขับเคลื่อนสำคัญที่ทำให้สามารถดำรงชีวิตไปข้างหน้าอย่างมีความสุขซึมซับสัญลักษณ์เอกลักษณ์จากผลงานสู่การอนุรักษ์รากเหง้าทางสังคม วิถีชีวิต มุมมองเรื่องราวแห่งความสุข ผ่านสีสัน ผ่านของเล่นข้าวของเครื่องใช้ สัตว์ พืชพันธุ์ สืบสานบ่มเพาะและถ่ายทอดสู่สังคม ผ่าน

จินตนาการในการสร้างสรรค์ โดยทรรศนะใหม่ของสภาพการรู้คิดทางศิลปะได้เข้ามามีบทบาทเด่นในเรื่องมโนทัศน์ของจินตนาการ ซึ่งเป็นความเชื่อเกี่ยวกับสภาพภายในที่เปิดเผยไปสู่ความจริง แยกออกจากหรืออยู่เหนือเหตุผลและความเข้าใจ จินตนาการเป็นทั้งผู้สร้างสรรค์และผู้เปิดเผยธรรมชาติโดยการค้นคว้าศึกษาของผู้สร้างสรรค์ (วิรุณ ตั้งเจริญ, 2535)

วัตถุประสงค์ของการวิจัย

1. เพื่อต้องการถ่ายทอดผลงานสร้างสรรค์จิตรกรรมสีน้ำมัน แสดงความคิดความรู้สึก ความผูกพัน ความสุข สวยงาม เรียบง่าย บรรยากาศสีสัน ผ่านเรื่องราวที่ประทับใจรากเหง้าทางสังคมในวิถีชีวิตชนบทจากการดำรงชีวิตของผู้สร้างสรรค์

2. เพื่อสร้างจิตสำนึกจากการรับชม ให้เกิดการหวงแหนรักษาเอกลักษณ์ทางวัฒนธรรม วิถีชีวิต บรรยากาศเรื่องราว ผ่านสิ่งของ สัญลักษณ์ภายในภาพ จากมุมมองในวิถีการดำรงชีวิต สู่การรับรู้ รับชม สุนทรียะจากผลงาน บ่มเพาะ และกล่อมเกลาปัญหาภายในจิตใจของผู้ชม

3. เพื่อต้องการเผยแพร่ผลงานสร้างสรรค์จิตรกรรมสีน้ำมัน กระบวนการสร้างสรรค์ การศึกษาค้นคว้า วิธีการ รูปแบบ ที่มีอัตลักษณ์เฉพาะตัวของผู้สร้างสรรค์ และเพื่อเป็นประโยชน์แก่การศึกษาค้นคว้าทางด้านผลงานสร้างสรรค์แก่บุคคลทั่วไป

แนวคิด ทฤษฎี กรอบแนวคิด

ประสบการณ์เรื่องราวจากในอดีต ความทรงจำและผูกพัน จากการดำรงชีวิต ที่อบอุ่นเรียบง่าย มีความสวยงามในบรรยากาศ สีสัน ก่อเกิดคุณค่าในการดำรงชีวิต เป็นรากฐานสำคัญที่สามารถสร้างทัศนคติให้สอดคล้องกับการดำรงชีวิตในปัจจุบัน กล่อมเกลาปัญหาที่เกิดทางด้านจิตใจและอารมณ์ความรู้สึกรวมทั้งสืบสาน อนุรักษ์ ดำรงไว้ซึ่งวิถีชีวิต รากเหง้าทางด้านวัฒนธรรมในท้องถิ่น เอกลักษณ์ภายในวิถีชีวิต ภายในพื้นที่จินตนาภาพ ความทรงจำ อบอุ่น เรียบง่าย สวยงาม เรื่องที่ดีงามในอดีต สร้างสรรค์เป็นผลงานจิตรกรรม

วิธีดำเนินการวิจัย

การสร้างสรรค์ผลงานของข้าพเจ้าเกี่ยวกับอารมณ์ความรู้สึกของมนุษย์ ความสุขที่อยู่ในความทรงจำและผูกผัน แสดงออกถึงความสวยงาม อบอุ่น เรียบง่าย สร้างความสัมพันธ์ภายในภาพให้กลมกลืนกับสิ่งแวดล้อมสถานที่สิ่งของที่ประทับใจ การนำลักษณะมาปรับใช้ผลงานจะมีลักษณะเป็นรูปแบบแสดงอารมณ์ความรู้สึกผ่านสีสันที่หลากหลายใช้สัญลักษณ์ (Symbolic) ต่าง ๆ ในผลงานสื่อถึงแนวความคิดที่ต้องการถ่ายทอด ผสมผสานความรู้สึกส่วนตัวความทรงจำและผูกพันผ่านรูปทรงและสีต่าง ๆ ที่เป็นจริงและปรับสร้างขึ้นมาใหม่นอกเหนือจากความเป็นจริง สร้างบรรยากาศตามจินตนาการแห่งความสุขสามารถแสดงออกถึงแนวความคิดถ่ายทอดถึงคนดูอย่างตรงไปตรงมา ความคิดในการสร้างสรรค์จะเกิดขึ้นได้จากบุคลิกและอุปนิสัยของผู้สร้างสรรค์ อุปนิสัย ช่างสังเกต ช่างคิด ช่างสงสัย ตั้งคำถามและค้นหาคำตอบ การสร้างสรรค์จึงมีความอิสระเปิดกว้าง ไม่มีขอบเขตใด ๆ มาจำกัด ไม่ยึดติดกับรสนิยมเดิมความชอบเดิม ๆ สิ่งที่ต้องคำนึงเพียงประการเดียว คือ จิตใจ ความคิด อารมณ์ของผู้สร้างสรรค์เองว่าจะพิสูจน์ความจริงแท้ของผลงานที่แสดงความเฉพาะตนได้เพียงใด (อิทธิพล ตั้งโฉลก, 2550)

กระบวนการในการสร้างสรรค์ผลงานจิตรกรรมนั้น ผู้สร้างสรรค์แต่ละคนนั้นย่อมมีวิธีการที่แตกต่างกันไป ตามรูปแบบแนวทางเฉพาะตนว่าจะถ่ายทอดอย่างไรให้ตรงกับแนวความคิดและอารมณ์ความรู้สึกที่ต้องการเสนอ ลักษณะผลงานในชุดนี้จะเน้นสร้างบรรยากาศจะเน้นสีสันเฉดสีที่มีความแตกต่างจากผู้สร้างสรรค์จิตรกรรมชุดอื่น ๆ การกำหนดเฉดสีที่กระจายแทรกซึมไปทั่วทั้งผลงานสดใส แต่เด่นชัดตามเฉดสีในสัญลักษณ์พื้นถิ่นและวัฒนธรรมภาคใต้ เช่น จากสีในพืชพันธุ์ เครื่องนุ่งห่ม สภาพภูมิอากาศ การจัดองค์ประกอบภายในภาพที่มีความเหมือนจริงสมจริงผสมกับจินตนาการที่มีความเหนือจริงแทรกซึมอยู่ภายใน ผ่านสัญลักษณ์สิ่งของรูปทรงต่าง ๆ ที่กระจายรอบ ๆ ในชิ้นงานร่องรอยจังหวะพู่กันทิศทางการเคลื่อนไหวที่เด่นชัด โดยในผลงานสร้างสรรค์จิตรกรรมสัญลักษณ์จินตภาพแห่งความผูกพัน เพื่อผ่อนคลายจิตใจของข้าพเจ้านั้น ได้มีการเรียบเรียงวางแผนขั้นตอนไว้หลากหลายวิธี เพื่อให้เหมาะสมกับการปฏิบัติผลงานจริง สามารถปรับปรุงและแก้ปัญหาได้ในทางปฏิบัติ เพื่อให้ผลงานเป็นที่น่าพอใจที่สุดและมีคุณภาพสมบูรณ์ทุก ๆ ด้านในการสร้างสรรค์ โดยมีวิธีดำเนินการสร้างสรรค์ผลงานดังนี้

1. ศึกษาข้อมูลที่เกี่ยวข้องจากการสร้างสรรค์

- ทั้งในเรื่องความประทับใจในวิถีชีวิตชนบท เช่น สีสันหน้าร้อนของพืชพันธุ์ที่มีความสดใสและร้อนแรง พื้นที่ที่สงบ สวยงาม เรียบง่ายจากสัตว์เลี้ยงที่ไม่ต้องต่อสู้แข่งขัน ดิ้นรน
- ปัจจัยทางสังคมที่เกี่ยวข้องปัญหาเหตุการณ์ต่าง ๆ ที่เข้ามากระทบต่อความรู้สึก
- ข้อมูลจากศิลปินที่เราได้รับอิทธิพลและประทับใจในผลงานสร้างสรรค์

2. วิเคราะห์ข้อมูลที่ได้ทั้งในเชิงเรื่องราว สัญลักษณ์ มุมมอง รูปแบบผลงาน สีสันที่ควรนำมาปรับใช้เป็นแนวทาง คัดเลือก คัดสรร กำหนดขอบเขตของข้อมูลที่จะนำมาปรับใช้ นำข้อมูลที่ได้จากการศึกษามารวบรวมเป็นเอกสารภาพถ่ายหรือข้อมูลจริงประเด็นในข้อมูลเรื่องราวเหตุผลที่เกิดขึ้นแยกข้อมูลเป็นหมวดหมู่ตามแนวเรื่อง ตามรายละเอียด สีสันจากลายผ้า ดอกไม้ การขดม้วนจากพืชพันธุ์ สัญลักษณ์ที่สามารถนำมาปรับใช้ในการสร้างสรรค์

3. เริ่มต้นการเปรียบเทียบข้อมูล วิเคราะห์ สังเคราะห์ แยกแยะ ถึงความเหมาะสมของข้อมูลในการที่จะนำมาปฏิบัติผลงานจริงคำนึงถึงอารมณ์ความรู้สึกของข้อมูล เพื่อนำมาสร้างความกลมกลืนกับเนื้อเรื่อง สัญลักษณ์อื่น ๆ รวมทั้งแนวความคิดของผลงาน จุดร่วมของวัฒนธรรมท้องถิ่นภาคใต้ ลายผ้าศิลปะพื้นบ้าน พืชพันธุ์ เครื่องใช้ไม้สอย ที่แฝงแทรกซึมอยู่ในส่วนต่าง ๆ ของภาพ หยิบยกส่วนที่จำเป็นจุดสำคัญของแต่ละสัญลักษณ์มาปรับใช้

4. ทดลองในการหารูปแบบวิธีการในการสร้างสรรค์ผ่านกระบวนการต่าง ๆ เช่น ใช้สีที่มีความหลากหลายวัสดุต่าง ๆ พื้นที่แตกต่างกันไป เพื่อต้องการให้ผลงานสร้างสรรค์ออกมาตรงกับความรู้สึกและแนวความคิดมากที่สุด มีความสมบูรณ์และมีคุณภาพในการสร้างสรรค์

5. การสร้างภาพร่างโดยวิธีการสร้างภาพในหลาย ๆ ชิ้น วิธีการสร้างภาพร่างหลากหลายรูปแบบนำทฤษฎีต่าง ทั้งทฤษฎีสี องค์ประกอบศิลป์มาปรับใช้หาความแตกต่างในแต่ละสภาพร่าง เพื่อต้องการชิ้นที่เหมาะสมและลงตัวที่สุดในการขยายผลงานจริง

6. คัดเลือกภาพร่างจากการสร้างภาพร่างในหลาย ๆ ชิ้น โดยผู้เชี่ยวชาญทางด้านทัศนศิลป์ภายในหลักสูตร ร่วมคัดเลือกชิ้นที่ตอบสนองอารมณ์ความรู้สึกและตรงกับแนวความคิดมากที่สุด มาขยายเป็นผลงานจริง โดยอาจมีการเปลี่ยนแปลงรายละเอียดบางส่วนในขณะสร้างสรรค์ปฏิบัติผลงานจริง เพื่อให้ผลงานมีคุณภาพมากยิ่งขึ้น

7. การสร้างสรรค์ผลงานจริงโดยใช้เทคนิคสีน้ำมันบนผ้าใบ ในรูปแบบจิตรกรรม 2 มิติ ปฏิบัติผลงานจนเสร็จสมบูรณ์ และแก้ไขเป็นที่น่าพอใจมากที่สุดจากภาพร่างที่ได้เลือกไว้

8. วิเคราะห์ผลงานจริงในแต่ละผลงานศึกษาประเด็นต่าง ๆ เหตุผลและสิ่งที่ได้รับข้อดีข้อเสียของผลงานโดยใช้หลักการวิเคราะห์ทางศิลปะ ศิลปวิจารณ์ สุนทรียภาพในภาพองค์ประกอบศิลป์ในการวางจังหวะภายในภาพ รวมถึงทัศนธาตุต่าง ๆ ในงานศิลปะ เช่น วิเคราะห์ จุด เส้น สี น้ำหนัก แสงเงา พื้นผิว พื้นที่ว่าง เอกภาพ พัฒนาผลงาน โดยศึกษาอิทธิพลที่ได้รับจากศิลปินและผู้สร้างสรรค์ผ่านกระบวนการแบบร่างจำนวนมากก่อนคัดเลือกชิ้นที่ดีที่สุดมาขยายต่อผลงานจริง 1 ชิ้น

9. นำเสนอผลงานผ่านกระบวนการบรรยายวิเคราะห์วิจารณ์ อธิบายผลงานและภาพเอกสารและแนวความคิดประกอบภาพผลงานสมบูรณ์ในการสร้างสรรค์

10. เผยแพร่ผลงานสร้างสรรค์ โดยการเข้าจัดนิทรรศการในหอศิลป์ระดับสถาบันและภูมิภาคกับหน่วยงานภายนอกหรือกลุ่มต่าง ๆ พร้อมรูปเล่มสูจิบัตรทางด้านศิลปะและสามารถประยุกต์ใช้ในการเรียนการสอนในหลักสูตรวิชาจิตรกรรมทั้งวิชา จิตรกรรม 2 จิตรกรรม 4 วาดเส้นสร้างสรรค์ได้

ภาพที่ 1 ภาพร่างต้นแบบจากการคัดเลือก ก่อนที่จะนำไปขยาย

ภาพที่ 2 การร่างภาพบนเฟรมผ้าใบเนื้อ Canvas โดยกำหนดรูปทรงและรายละเอียด

ภาพที่ 3 ภาพแสดงขั้นตอนในการลงสีน้ำมันโดยรวมทั้งภาพเพื่อความสะดวกรวดเร็ว

ภาพที่ 4 ภาพแสดงขั้นตอนในการเก็บรายละเอียดของสัญลักษณ์ต่าง ๆ ภายในภาพ

ภาพที่ 5 ภาพผลงานที่เสร็จสมบูรณ์หลังจากที่ได้เก็บรายละเอียดภายในรูปภาพ ทั้งรูปทรงและบรรยากาศของสี

ผลการวิจัย

การสร้างสรรค์ผลงานจิตรกรรมสามารถทำให้คนในสังคมคิด คำนึงถึงคุณค่าอันดีงาม ความสุข ความสนุกสนาน อบอุ่นผูกพัน ในช่วงเวลาในการดำรงชีวิตในอดีตประสบการณ์ เรื่องราวจากอดีต ความทรงจำและผูกพัน ล้วนเป็นการดำรงชีวิต ที่อบอุ่นเรียบง่าย ท่ามกลางธรรมชาติ มีคุณค่าต่อการปรับใช้ในการดำรงชีวิต เป็นรากฐานสู่ทัศนคติในสังคมปัจจุบันให้สอดคล้องกับการดำรงชีวิต สืบสาน อนุรักษ์เรื่องราวรากเหง้าทางวัฒนธรรมในท้องถิ่นภาคใต้ยังคงไว้ ซึ่งความสุข ความสวยงาม ในอดีต บ่มเพาะสร้างพื้นที่แห่งจินตนาการสู่การถ่ายทอดสืบสานสู่สังคม ในปัจจุบันปรับไปใช้ในการพัฒนาคน สังคม และประเทศในทุก ๆ ด้าน ตลอดจนพัฒนากล่อมเกลาจิตใจผ่านประสบการณ์ความทรงจำ และจินตนาการที่สร้างสรรค์เป็นผลงานจิตรกรรม ซึ่งในกระบวนการในการสร้างสรรค์ด้วยเทคนิคสีน้ำมัน จำเป็นต้องมีช่วงจังหวะเวลาในการใช้สีเติมเฉดสีสร้างบรรยากาศ ในขณะที่สีไม่แห้งสนิทจนเกินไป ต้องมีความต่อเนื่องในการวาดขณะการเติมเฉดสีและรายละเอียดและควบคุมสีโดยรวมภายในภาพ การกระจายของสีทั่วทั้งภาพ แทรกสี เพื่อความสมดุลกลมกลืนของผลงานในการสร้างความสัมพันธ์ของสัญลักษณ์ที่มีความแตกต่างกันให้ไปในทิศทางเดียวกันตามแนวความคิดของผู้สร้างสรรค์

1. ถ่ายทอดความคิดความรู้สึก ความผูกพัน ความสุข สวยงาม เรียบง่าย บรรยากาศสีสัน ผ่านเรื่องราวที่ประทับใจในวิถีชีวิตในชนบทจากการดำรงชีวิตของผู้สร้างสรรค์

2. สร้างจิตสำนึกในการหวงแหนรักษาเอกลักษณ์ สืบสานรักษา รากเหง้าทางพื้นที่เรื่องราวทางวัฒนธรรม วิถีชีวิต บรรยากาศ ผ่านสิ่งของ สัญลักษณ์ภายในภาพ จากเรื่องราวมุมมองในวิถีการดำรงชีวิตสู่การกล่อมเกลาอารมณ์ความรู้สึกและปัญหาภายในจิตใจ

3. เผยแพร่ผลงานสร้างสรรค์ การจัดแสดงนิทรรศการ การสร้างสรรค์ศึกษาค้นคว้าทางด้านจิตรกรรม วิธีการ รูปแบบที่มีอัตลักษณ์เฉพาะตัวของผู้สร้างสรรค์และเพื่อเป็นประโยชน์แก่การศึกษาค้นคว้าทางด้านผลงานสร้างสรรค์แก่บุคคลทั่วไป

4. สามารถนำผลงานสร้างสรรค์จิตรกรรมไปปรับใช้ประโยชน์ด้านการเรียนการสอนศิลปะสอดแทรกหัวข้อ เนื้อหาทางด้านการบำบัดจิตใจและจิตวิทยาศิลปะ (Art Therapy) ในรายวิชาจิตรกรรม 2, จิตรกรรม 4

1. องค์ความรู้ใหม่

บูรณาการสุนทรียภาพสู่การเยียวยาจิตใจผ่านจิตรกรรม “สัญลักษณ์จินตภาพแห่งความผูกพันเพื่อผ่อนคลายจิตใจ” สร้างองค์ความรู้ใหม่ผ่านเรื่องราวทัศนธาตุและสัญลักษณ์จากวิถีชีวิตชนบทที่ปลูกฝังบ่มเพาะ คุณค่าแห่งความอบอุ่น สงบ และเรียบง่าย ความสุขพื้นฐานจากรากเหง้าเป็นแนวทางการบำบัดจิตใจในบริบทของสังคมเมืองที่เต็มไปด้วยปัญหาและเคร่งเครียด

เกิดการสร้างสรรค์องค์ประกอบที่มาจากจินตนาการ ใช้ประสบการณ์และความทรงจำส่วนตัวเป็นต้นแบบในการสร้างผลงาน สร้างองค์ความรู้ด้าน “ศิลปะจากภายใน (Inner Expression)” ทำให้เกิดรูปแบบการถ่ายทอดที่โดดเด่น สร้างแนวทางใหม่ในการนำเสนอศิลปะร่วมสมัยผ่านรากวัฒนธรรมท้องถิ่นผ่านกระบวนการสร้างสรรค์จิตรกรรม แบบกึ่งเหมือนจริงร่วมกับจินตภาพจากการใช้เทคนิคสีน้ำมัน ด้วยกระบวนการผสมผสานสัญลักษณ์ที่จับต้องได้ (เช่น ภาชนะ ของใช้ แมว นก ดอกไม้ ลวดลาย พันธุ์ไม้)

- กระบวนการสร้างสรรค์อย่างเป็นระบบ การพัฒนาแนวความคิด การเก็บข้อมูล การออกแบบแบบร่าง การคัดเลือก การวิเคราะห์องค์ประกอบและทฤษฎีศิลป์ เป็นแบบจำลองกระบวนการวิจัยเชิงสร้างสรรค์ที่สามารถต่อยอดในงานวิจัยทางศิลปะ

2. ความก้าวหน้าทางวิชาการ

- สามารถเชื่อมโยงศาสตร์ทางด้านศิลปะกับศาสตร์สุขภาวะจิตของผลงานชุดนี้ที่แสดงให้เห็นว่าศิลปะสามารถทำหน้าที่ได้หลากหลายมากกว่าการแสดงออกทางความงาม แต่ยังส่งเสริมสุขภาวะจิตของผู้ชมได้อย่างลึกซึ้ง แบ่งเบา บำบัด คลี่คลายปัญหา เป็นการขยายขอบเขตของบทบาทของงานจิตรกรรมให้เข้าถึงจิตใจด้านต่าง ๆ ของคนในสังคมยุคปัจจุบันได้

- แนวทางการพัฒนาเทคนิคจิตรกรรมร่วมสมัยบนพื้นฐานวัฒนธรรมท้องถิ่น การใช้สี บรรยากาศและสัญลักษณ์ที่มีรูปแบบสะท้อนวัฒนธรรมพื้นถิ่นภาคใต้ สื่อสารผสมผสานกับเทคนิคสมัยใหม่อย่างมีชั้นเชิง แสดงถึงความก้าวหน้าทางการพัฒนา “ภาษาทางศิลปะ” ที่มีความเฉพาะตัวและสามารถใช้เป็นกรณีศึกษาด้านศิลปะท้องถิ่นร่วมสมัยสู่การพัฒนาขับเคลื่อนทางด้านวัฒนธรรมในอนาคต

- ศิลปะได้มีหน้าที่บทบาทในการเสริมสร้างจิตสำนึกทางสังคมผลงานไม่เพียงสะท้อนวิถีชีวิต แต่ยังเป็นการเสนอแนวทางการใช้ชีวิตอย่างมีคุณภาพในยุคที่สังคมให้คุณค่ากับวัตถุมากเกินไป การสื่อสารนี้เป็นรูปแบบของการขับเคลื่อน “soft power” ทางศิลปะเพื่อเสริมสร้างอัตลักษณ์และคุณค่าทางจิตใจของสังคม

สรุปและอภิปรายผล

ผลงานจิตรกรรมชุดจินตภาพแห่งความผูกพัน ในการสร้างสรรค์ครั้งนี้ของข้าพเจ้าเกิดจากความสุขความผูกพันกับวิถีชีวิตที่สวยงาม ความอบอุ่น สีสันภายใต้การดำรงชีวิตในวิถีชีวิตชนบทโดยผ่านการศึกษาค้นคว้ารวบรวมข้อมูลในด้านต่าง ๆ การสร้างสรรค์ผลงานจากการศึกษาค้นคว้า การวิเคราะห์ การสร้างสรรค์ในด้านต่าง ๆ สรุปขั้นตอนในการสร้างสรรค์ของผลงาน เอกลักษณ์ในการสร้างสรรค์การใช้สีเทคนิค การวางรูปแบบต่าง ๆ กับแนวเรื่องที่มีอิทธิพลเป็นอย่างสูงต่อผู้สร้างสรรค์มีคุณค่า ในการดำรงชีวิตทั้งที่ผ่านมาตั้งแต่อดีตจนถึงปัจจุบัน ความสุข ความผูกพันกับพื้นที่ธรรมชาติที่สวยงาม อบอุ่น เรียบง่าย มีคุณค่าทางด้านสายตาและจิตใจ สะท้อนแง่มุมในการดำรงชีวิตท่ามกลางสภาพสังคมในปัจจุบัน กลับมามองสิ่งรอบตัวที่เรียบง่าย มองความสุขไปปรับใช้ในการดำรงชีวิต ผ่านผลงานจิตรกรรม 2 มิติ ใช้รูปทรงสัญลักษณ์ที่ตรงไปตรงมาต่อผู้รับชมผลงาน สามารถรับรู้สุนทรียะภายในภาพได้อารมณ์ความรู้สึกของสี ความสุข ความสวยงาม บรรยากาศ ผ่านความรู้สึกของผู้สร้างสรรค์ไปยังผู้รับชมสุนทรียะทางด้านศิลปะในรูปแบบนิทรรศการ หอศิลป์ระดับภาค ภูมิภาค ประเมินความพึงพอใจของผู้ชม ผลที่ได้รับ จำนวนผู้ชม จากแบบสอบถามของพื้นที่หอศิลป์ เช่น หอศิลป์จามจุรี หอศิลป์อันดามัน ศูนย์ส่งเสริมศิลปะและวัฒนธรรมมหาวิทยาลัยสงขลานครินทร์

จากผลงานที่สร้างสรรค์ทั้งหมดในชุดนี้ สามารถสรุปผลการศึกษาได้หลาย ๆ ด้าน เช่น ด้านความพึงพอใจในผลงาน วิธีการสร้างสรรค์ที่สามารถถ่ายทอดกระบวนการได้ตามขั้นตอนของผลงานจิตรกรรมตั้งแต่ศึกษาค้นคว้าผ่านกระบวนการวิเคราะห์แยกแยะข้อมูลอย่างเป็นระบบ ศึกษารูปแบบ ทำให้การสร้างภาพต้นแบบมีความเข้มข้นสมบูรณ์และคัดเลือกมาสร้างสรรค์ผลงานจริงได้ง่ายยิ่งขึ้น ตลอดจนนำไปสู่การวิเคราะห์ผลงานพัฒนาจนผลงานมีความสมบูรณ์ จนครบจำนวน 10 ชิ้น เผยแพร่ผ่านรูปแบบสูจิบัตรและนิทรรศการแก่ผู้ที่สนใจในทางด้านศิลปะและทางด้านทัศนศิลป์ ซึ่งผลงาน “สัญลักษณ์จินตภาพแห่งความผูกพันเพื่อผ่อนคลายจิตใจ” แนวคิดในการสร้างสรรค์จะมุ่งเน้นถึงวิถีชีวิตที่เรียบง่ายในการดำเนินชีวิตความนิ่งสงบ อบอุ่น สวยงาม ผูกพัน ผ่อนคลายในการดำรงชีวิตท่ามกลางชนบท ท่ามกลางธรรมชาติ มุ่งนำเสนอต่อคนดู ผู้ชมในการถ่ายทอดสุนทรียะ ความงาม ความสุข สีสันสวยงาม แก่คนในสังคมกล่อมเกลาปัญหาในวิถีชีวิตในจิตใจที่เต็มไปด้วยปัญหารอบด้าน การใช้ชีวิตที่วุ่นวาย ปัญหาด้านความเครียด สุขภาพจิต เวลาที่เร่งรีบแข่งขัน ดิ้นรนเพื่อการอยู่รอด การติฉินนินทา เสียดสีประชดประชันขาดซึ่งจิตใจ ที่สงบสุข ขาดสภาพจิตที่ผ่อนคลาย ล้วนเต็มไปด้วยความทุกข์ ผลงานจึงต้องการถ่ายทอดสีสันความงาม ความสุข บรรยากาศที่มีความอบอุ่น ผ่อนคลาย ความรู้สึกที่สามารถทำให้การดำรงชีวิต บางเบาหายจากการวิตกกังวล ความเครียด โดยผลงานในการสร้างสรรค์ชุดนี้มีขั้นตอนที่สำคัญ คือ กระบวนการค้นคว้าหาข้อมูลจากเรื่องราวมุมมองที่ผู้สร้างสรรค์ประทับใจ โดยมีข้อมูลเป็นภาพถ่ายและมาปรับเป็นแบบร่างผลงานในหลาย ๆ ชิ้น และเลือกชิ้นที่ดีที่สุด นำมาบรรยายเป็นผลงานจริงด้วยเทคนิคสีน้ำมันบนผ้าใบ กระบวนการในการผสมสีที่มีความเฉพาะปริมาณคู่สี สีที่ใช้แตกต่างจากทฤษฎีสี เบรคสีโทนเย็นด้วยสีโทนร้อนมากยิ่งขึ้น ใช้สีโทนร้อนกระจายไปทั่วทั้งภาพโดยการกำหนดสีแสงทั้งภาพให้เหมือนกัน ในโทน

เดียวกัน เช่น เหลือง ส้ม แดง ฟ้าหรือเขียวอ่อน ๆ เมื่อวัตถุกระทบแสงจากดวงอาทิตย์ แสดงบรรยากาศท่ามกลางภูมิอากาศร้อนในพื้นที่ภาคใต้ โทนร้อนชื้นแทรกในภาพด้วยสีฟ้า เขียว ม่วง แทรกซึมภายในภาพและที่สำคัญ จังหวะทีพู่กัน ร่องรอย พื้นผิวในขณะสร้างสรรค์ปริมาณเนื้อสีก้อนสี ที่มีการเคลื่อนไหวเฉพาะตัวของผู้สร้างสรรค์

ในการสร้างสรรค์ขั้นตอนสุดท้าย คือ การวิเคราะห์ผลงานสร้างสรรค์ โดยใช้หลักทฤษฎีต่าง ๆ นำมาวิเคราะห์ผลงานสร้างสรรค์ชุดจินตภาพแห่งความผูกพัน เช่น ทางทัศนธาตุ องค์ประกอบศิลป์ ทฤษฎีสี เพื่อให้กระบวนการสร้างสรรค์ผลงานเป็นไปอย่างครบถ้วนและสมบูรณ์ สร้างองค์ความรู้ในการถ่ายทอดต่อผู้รับชมผลงานต่อไป ซึ่งในรายละเอียดในการสรุปผลนี้จะเป็นประโยชน์และเป็นส่วนสำคัญที่จะทำให้ผู้รับชมรับรู้สุนทรียะ ความงามผ่านผลงานศิลปะได้อย่างเต็มที่ และสามารถนำไปพัฒนาผลงานสร้างสรรค์ของผู้สร้างสรรค์เองในอนาคต จนมีความเป็นปัจเจกตนเฉพาะตนในผลงานที่ปรากฏ แนวทางที่มีความเด่นชัดเท่ากับว่าได้พัฒนาไปส่วนหนึ่งแล้ว และถ้าสามารถสร้างผลงานของผู้สร้างสรรค์ให้เป็นที่ยอมรับและก้าวหน้าพัฒนาไปเรื่อย ๆ อาจจะกล่าวได้ว่าได้รับการยอมรับและประสบความสำเร็จในแนวทางทางศิลปะของตน ซึ่งเป็นประโยชน์ต่อบุคคลที่สนใจและเรียนรู้ต่อไปในอนาคตด้านจิตรกรรมสร้างสรรค์ (วิบูลย์ ลี้สุวรรณ, 2531)

นอกจากความงามทางด้านศิลปะแล้ว ความงามที่เกิดจากการดำรงชีวิตในวิถีชีวิตชนบท ความงามทางด้านรากฐานทางวัฒนธรรมก็เป็นส่วนสำคัญซึมซับคุณค่าจากรากเหง้า ซึ่งเป็นปัจจัยพื้นฐานที่สังคมในปัจจุบันขาดการสืบสานและสนับสนุนแก่คนในสังคม ความดีงามในการดำรงชีวิต ตั้งแต่กลุ่มคนรากหญ้าจนไปถึงระดับประเทศ เพราะมัวแต่มุ่งเน้นความเจริญทางด้านวัตถุมากกว่าความเจริญทางด้านจิตใจ โดยการสร้างสรรค์ผลงานชุดนี้จะมีลักษณะรูปแบบกึ่งเหมือนจริง เกิดจากการถ่ายทอดรูปทรงสัญลักษณ์ต่าง ๆ ที่เหมือนจริง เช่น แมว นก ปลา ดอกไม้ กระถาง ผีเสื้อ ลวดลายจากธรรมชาติ ประสานกับทัศนธาตุต่าง ๆ โดยใช้สีเป็นส่วนสำคัญในการสร้างสรรค์ สร้างบรรยากาศสี อารมณ์ความรู้สึกในตัวผลงานแต่ละชิ้น เพื่อสะท้อนถึงความสุข นิ่งสงบ สวยงาม ผ่านความรู้สึกความทรงจำ จินตนาการของผู้สร้างสรรค์เองที่ผ่านประสบการณ์หรือการดำรงชีวิตในพื้นที่ของความสุข สงบ เรียบง่าย ในวิถีชีวิตชนบทสอดคล้องกับแนวความคิดในการสร้างสรรค์ที่มีลักษณะวิธีการเฉพาะตัวของผู้สร้างสรรค์ โดยมีเอกลักษณ์ทางด้านสีที่ถ่ายทอดตัวตนของผู้สร้างสรรค์ที่อาศัยอยู่ในพื้นถิ่นภาคใต้ ท่ามกลางภูมิประเทศและสภาพอากาศที่ร้อนชื้น บางภาพบางสีสันจะเต็มไปด้วยอากาศที่อบอวล อบอุ่นจากแสงกระทบสี จนเกิดความสวยงามในภาพสีสันที่สดจัดดูแข็งแรงโดดเด่นภายในภาพ ตามวิถีรากเหง้าจากวัฒนธรรมภาคใต้ถ่ายทอดความอบอุ่นผ่านสีสัน ที่ได้รับการขัดเกลาศึกษา ผสมจนมีเอกลักษณ์เฉพาะตัว โดยยังคงไว้ซึ่งความเฉพาะตนในจังหวะของทีแปรงร่องรอยพู่กัน ทิศทางที่สร้างสรรค์เข้มข้นจริงจัง ปลดปล่อย หรือเก็บรายละเอียดกับทั้งจำนวนขนาดของจังหวะพู่กันที่เกิดขึ้นในชิ้นงานอย่างมีเอกลักษณ์ดั่งลายมือและลายเซ็นของผู้สร้างสรรค์

ความพิเศษของเทคนิคจากการสร้างสรรค์ผลงานจิตรกรรมในชุดนี้ เกิดจากการค้นคว้าข้อมูล และการทำภาพร่างอย่างเป็นระบบและจำนวนที่หลากหลาย ในขณะการสร้างสรรค์ผลงานจริงผู้สร้างสรรค์จะเพิ่มเติมละเอียดมากขึ้นจากรสนิยมในการผสมสีหลากหลายเฉดสี เกิดจากจิตใต้สำนึก ความสุข ความประทับใจ ที่ฝังลึกจนบ่มเพาะเกิดเป็นความต้องการในการใช้สีในขณะวาดนั้น เฉดสีที่ผสมออกมามีความเป็นเฉพาะตน ร่องรอยทีแปรงแตกต่างกันกระจายทั่วทั้งผลงาน เกิดจากความรู้สึก หมุนวน เกลี่ยเรียบปล่อยจังหวะ หนาบางเบา หรือเหมือนจริงผสมกัน ในขณะที่สียังมีความฉ่ำและไม่แห้งจนเกิดไป ถ้ากรณีสีแห้งเกินไปจะทำให้ขาดความรู้สึกของผู้วาดที่ถ่ายทอดลงไป การทับซ้อนชั้นสีแทรกสีหลากหลายเฉดใน

ขณะที่สียังไม่แห้ง ทำให้เกิดเป็นเอกลักษณ์ในการสร้างสรรค์ผลงานจิตรกรรมสีน้ำมันที่มีรูปแบบเฉพาะตัวของผู้สร้างสรรค์ ที่เป็นประโยชน์แก่ผู้ที่สนใจทางด้านศิลปะที่สามารถนำไปปรับใช้ได้ต่อไปในอนาคตในการพัฒนาผลงาน ทั้งเรื่องของรูปแบบ วิธีการในผลงาน และแนวความคิดในการเยียวยากล่อมเกลา ฟื้นฟูจิตใจของผู้ที่อยู่ท่ามกลางปัญหา ความเครียด วิตกกังวลทางด้านสังคม

ข้อเสนอแนะ

1. กระบวนการในการสร้างสรรค์ด้วยเทคนิคสีน้ำมัน จำเป็นต้องมีช่วงจังหวะเวลาในการใช้สีแทรกเพื่อสร้างบรรยากาศ ควบคุมสีโดยรวมภายในภาพต้องมีความพอดีในการรอจังหวะสีหนืดหรือแห้งภายในภาพเพื่อสร้างบรรยากาศสีสันที่ตอบสนองกับแนวความคิด

2. ขั้นตอนในการสร้างสรรค์ก็เป็นส่วนสำคัญในการศึกษาค้นคว้า ควรวางแผนในการศึกษาค้นคว้าอย่างมีระบบชัดเจน อย่างเช่น ขั้นตอนในการค้นคว้าลำดับข้อมูลจากเอกสารที่เกี่ยวข้อง ตำรา หนังสือ เพื่อที่จะสามารถอธิบายกระบวนการในการสร้างสรรค์ได้อย่างครบถ้วน

บทคัดย่อ

บทความวิจัยฉบับนี้มีวัตถุประสงค์เพื่อวิเคราะห์ข้อปฏิบัติเพื่อการอยู่อาศัยในประเทศไทยสำหรับผู้เรียนชาวเกาหลีที่เรียนภาษาไทยในฐานะภาษาต่างประเทศ โดยใช้วิธีการวิเคราะห์ตำราภาษาไทยฉบับมาตรฐาน ระดับ A0 A1 A2 B1 และ B2 จำนวน 5 เล่มจากมหาวิทยาลัยฮันกุ๊กภาษาและกิจการต่างประเทศ (HUFS) และตำรามาตรฐานไทย A2 ตำราภาษาไทยฉบับมาตรฐาน B1 และตำรามาตรฐานไทย B2 จำนวน 3 เล่มจากมหาวิทยาลัยพูซานภาษาและกิจการต่างประเทศ (BUFS) ผลการศึกษาพบว่ามีเนื้อหาเกี่ยวกับข้อควรปฏิบัติในตำรา 8 เล่ม จำนวน 8 ประเด็น ได้แก่ การตรวจคนเข้าเมือง ได้แก่ หน้าที่ และข้อจำกัดเกี่ยวกับการพำนัก การควบคุมเครื่องดื่มแอลกอฮอล์ ได้แก่ วันเวลาจำหน่ายสุรา การควบคุมโรค ได้แก่ หลักเกณฑ์สำหรับชาวต่างชาติ ศุลกากร ได้แก่ หลักเกณฑ์สิ่งของและภาษี การจราจร ได้แก่ ข้อควรระวังสำหรับการขับรถ การเช่าที่พัก ได้แก่ ข้อมูลที่เกี่ยวกับการเช่าที่พัก ยาเสพติด ได้แก่ การใช้กัญชากับปัญหายาเสพติด และการหมิ่นประมาทพระมหากษัตริย์ ได้แก่ การกระทำผิดตามมาตรา 112 ซึ่งเป็นพื้นฐานความเข้าใจการอยู่อาศัยในประเทศไทยและสำคัญสำหรับผู้เรียนชาวเกาหลีที่เรียนภาษาไทยในฐานะภาษาต่างประเทศ มาแลกเปลี่ยนเรียนที่ประเทศไทยในระยะยาว

คำสำคัญ: ข้อปฏิบัติเพื่อการอยู่อาศัยในประเทศไทย, ตำราภาษาไทย, ผู้เรียนชาวเกาหลี

Abstract

This article aims to analyze the practices for Thai residences for Korean Students Learning Thai as a Foreign Language. The researcher analyzes five standard Thai textbooks at levels A0, A1, A2, B1, and B2 from Hankuk University of Foreign Studies (HUFS), and three standard Thai textbooks at levels A2, B1, and B2 from Busan University of Foreign

Studies (BUFS). The researcher found that the practices: immigration, including duties and restrictions on residence; alcohol regulation, specifying the permitted days and hours for alcohol sales; disease control, covering regulations for foreigners; customs, detailing rules on goods and taxes; traffic, emphasizing precautions for driving; rental accommodation, providing information on renting; drugs, including cannabis use and drug problems; and lese-majeste law, referring to violations under Section 112. This is a fundamental understanding of living in Thailand and is important for Korean learners who study Thai as a foreign language and come to Thailand for long-term exchange programs.

Keywords: Practices for Thai residences, Thai Language Textbooks, Korean Students

บทนำ

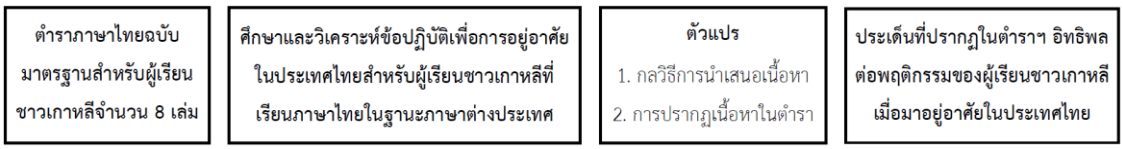
ปัจจุบันประเทศไทยเป็นจุดหมายปลายทางยอดนิยมแห่งหนึ่งที่นักท่องเที่ยวชาวเกาหลีต้องกลับมาเยือนใหม่ ตามสถิตินักท่องเที่ยวชาวต่างชาติที่เดินทางเข้าประเทศไทย จำนวนคนเกาหลีมีมากกว่า 1.66 ล้านคนในปีพ.ศ. 2566 และเป็นหนึ่งในกลุ่มนักท่องเที่ยวหลักของไทย 7 ประเทศ (กระทรวงการท่องเที่ยวและกีฬา, 2566) คนเกาหลีนิยมอาศัยอยู่ต่างประเทศระยะยาวแบบหนึ่งเดือน หรือระยะเวลายาวกว่านั้นโดยใช้วิธีการทำวีซ่ารัน (Visa Run) หรือการใช้วีซ่าการเรียนภาษาต่างประเทศ และประเทศไทยเป็นประเทศที่ชาวเกาหลีนิยมมาพำนักระยะยาวเนื่องจากมีข้อดึงดูดที่น่าสนใจหลายอย่าง เช่น ทรัพยากรทางการท่องเที่ยว อาหารอร่อยระดับโลก ความสงบเรียบร้อยของสังคม

นอกจากนี้กรณีผู้เรียนชาวเกาหลีที่เรียนเอกภาษาไทยระดับอุดมศึกษาในหลักสูตรมหาวิทยาลัยฮันกุ๊ก ภาษาและกิจการต่างประเทศ Hankuk University Of Foreign Studies (HUFS) และมหาวิทยาลัยพูซาน ภาษาและกิจการต่างประเทศ Busan University of Foreign Studies (BUFS) 2 แห่ง กำหนดให้นักศึกษาเข้าร่วมโครงการแลกเปลี่ยนที่ประเทศไทยในชั้นปีที่ 3 ระยะเวลา 6 เดือน หรือ 1 ปี เพื่อสร้างประสบการณ์การเรียนรู้เกี่ยวกับภาษาและสังคมไทย และมีโปรแกรมกิจกรรมต่าง ๆ ในประเทศไทยระยะเวลาสั้นประมาณ 1 - 4 อาทิตย์ (Busan University of Foreign Studies, 2024; Hankuk University of Foreign Studies, 2024) ผู้เรียนชาวเกาหลีจึงต้องมาพำนักในประเทศไทย

อย่างไรก็ตาม มีข่าวหลายประเด็นเกิดขึ้นซึ่งแสดงให้เห็นว่า คนเกาหลีอาจมีความเข้าใจผิดหรืออาจไม่มีความรู้เรื่องข้อปฏิบัติต่าง ๆ สำหรับชาวเกาหลีที่มาพำนักในประเทศไทย (Embassy of the Republic of Korea in Thailand, 2024) เช่น (1) ข่าวประกาศเรื่อง “ใบขับขี่รถจักรยานยนต์ที่สามารถขับรถได้อย่างถูกต้องตามกฎหมายในประเทศไทยสำหรับคนเกาหลี” เนื่องจากเมื่อวันที่ 4 ก.ค. มีคนเกาหลีขี่รถจักรยานยนต์โดยพกใบอนุญาตขับรถระหว่างประเทศ ซึ่งเป็นการขับรถผิดประเภทจึงถูกควบคุมและชำระค่าปรับ (2) ข่าวประกาศเรื่อง “ห้ามบริโภคสินค้าใส่กัญชา” เนื่องจากเมื่อวันที่ 7 มิ.ย. มีข่าวเกี่ยวกับคนเกาหลีรับประทาน หรือนำขนมใส่กัญชา เช่น เยลลี่ คุกกี้ มาประเทศเกาหลี และถูกตั้งข้อหา (3) ข่าวประกาศเรื่อง “อุบัติเหตุระหว่างการข้ามถนน” เนื่องจากเมื่อวันที่ 8 พ.ค. มีข่าวเกี่ยวกับคนเกาหลีถูกรถชนและเสียชีวิตระหว่างการข้ามถนนที่ไม่ใช่ทางม้าลาย ฯลฯ

จากปรากฏการณ์หลากหลายที่เกิดจากคนเกาหลีที่ใช้ชีวิตในสังคมไทย ผู้วิจัยพบว่า อาจมีความเข้าใจผิดหรือขาดความรู้เรื่องข้อปฏิบัติที่ถูกต้อง และมีความแตกต่างด้านข้อปฏิบัติระหว่างไทยกับเกาหลี เนื่องจากคนเกาหลีไม่ว่าจะอยู่ประเทศไทยหรือเกาหลีก็ตามต้องถือกฎระเบียบทั้งสองประเทศ

โดยหลักการถือสัญชาติตามพ่อแม่ของประเทศเกาหลี ซึ่งเป็นความแตกต่างทางขอบเขตการใช้กฎหมายของประเทศชาติที่ต่างจากประเทศไทยที่ใช้หลักการถือสัญชาติตามภูมิลำเนา



ผู้วิจัยศึกษางานวิจัยที่เกี่ยวข้อง 2 เรื่อง ได้แก่ บทความเรื่อง การวิเคราะห์มิติทางวัฒนธรรมไทยและกลวิธีการถ่ายทอดวัฒนธรรมในแบบเรียนภาษาและวัฒนธรรมไทยของผู้เรียนชาวเกาหลี (โยทกา พูลทอง และ นิธิอร พรอำไพสกุล, 2566) และบทความเรื่อง การคุกคามในที่ทำงาน: ศึกษาเปรียบเทียบกฎหมายแรงงานเกาหลีและไทย (โชคชัย เชื้อเทศขจร, 2565) แล้วพบว่า ทั้งสองประเทศมีความแตกต่างกันทางด้านวัฒนธรรมและกฎหมาย ซึ่งเป็นปัจจัยสำคัญที่อาจส่งผลต่อพฤติกรรมของชาวเกาหลีที่มาอยู่อาศัยในประเทศไทยได้ อีกทั้งยังไม่มีเนื้อหากล่าวถึงข้อปฏิบัติเพื่อการอยู่อาศัยในประเทศไทยสำหรับผู้เรียนชาวเกาหลีที่เรียนภาษาไทยในฐานะภาษาต่างประเทศ

ด้วยเหตุนี้ ผู้วิจัยจึงศึกษาและวิเคราะห์ตำราภาษาไทยของผู้เรียนชาวเกาหลี 8 เล่ม ได้แก่ ตำราภาษาไทยฉบับมาตรฐานระดับ A0 A1 A2 B1 และ B2 จำนวน 5 เล่มจากมหาวิทยาลัยฮันกุ๊กภาษาและกิจการต่างประเทศ (HUFS) และตำรามาตรฐานไทย A2 ตำราภาษาไทยฉบับมาตรฐาน B1 และตำรามาตรฐานไทย B2 จำนวน 3 เล่มจากมหาวิทยาลัยพูซานภาษาและกิจการต่างประเทศ (BUFS) ซึ่งเป็นตำราภาษาไทยฉบับล่าสุดที่ใช้ในการสอนภาษาไทยให้แก่นักศึกษาชาวเกาหลีระดับอุดมศึกษาและผู้เรียนชาวเกาหลีทั่วไประดับพื้นฐานในประเทศเกาหลี (Critical Foreign Languages Education Promotion, 2024) เพื่อวิเคราะห์เนื้อหาเกี่ยวข้องกับการปฏิบัติตนและการใช้ชีวิตในประเทศไทยที่ผู้เรียนชาวเกาหลีกำลังศึกษาและเปรียบเทียบเนื้อหาระหว่างไทยกับเกาหลีเพราะอาจมีความแตกต่างรายละเอียดด้านข้อปฏิบัติ ซึ่งอาจเป็นพื้นฐานในการทำความเข้าใจเรื่องข้อปฏิบัติสำหรับการเรียนรู้เรื่องประเทศไทย

วัตถุประสงค์ของการวิจัย

1. เพื่อวิเคราะห์ข้อปฏิบัติเพื่อการอยู่อาศัยในประเทศไทยจากแบบเรียนภาษาไทยสำหรับผู้เรียนชาวเกาหลี จำนวน 8 เล่ม
2. เพื่อเปรียบเทียบข้อมูลระหว่างไทยกับเกาหลีทางด้านข้อปฏิบัติเพื่อการอยู่อาศัยในประเทศไทยสำหรับชาวเกาหลี

แนวคิด ทฤษฎี กรอบแนวคิด

ภาพที่ 1 กรอบแนวคิดการวิจัย

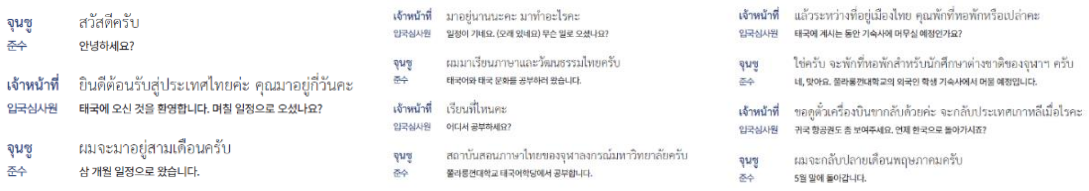
วิธีดำเนินการวิจัย

การวิจัยครั้งนี้เป็นวิจัยเชิงคุณภาพเน้นการวิเคราะห์เนื้อหา (Contents Analysis) จากตำราภาษาไทยสำหรับผู้เรียนชาวเกาหลีเล่มใหม่ ทั้ง 8 เล่ม ซึ่งเป็นตำรามาตรฐานชุดแรกที่ผลิตโดยรัฐบาลเกาหลีสนับสนุนและปัจจุบันใช้ในการเรียนการสอนภาษาไทยให้แก่ทั้งนักศึกษากับผู้เรียนชาวเกาหลีทั่วไป และนำเสนอผลการศึกษาแบบพรรณนาวิเคราะห์ (Analytical Description)

ผลการวิจัย

ผู้วิจัยศึกษาและวิเคราะห์ข้อมูลข้อปฏิบัติเพื่อการอยู่อาศัยในประเทศไทยจากตำราภาษาไทยของผู้เรียนชาวเกาหลี 8 เล่ม โดยใช้เกณฑ์การจำแนกประเภท ได้แก่ ประเด็นข้อควรระวังที่มีความแตกต่างระหว่างราชอาณาจักรไทยกับสาธารณรัฐเกาหลี พบว่า ตำรานำเสนอเนื้อหาที่เกี่ยวข้องกับด้านข้อควรปฏิบัติ 8 ประเด็น ได้แก่ การตรวจคนเข้าเมือง การควบคุมโรค ศุลกากร การจราจร การเช่าที่พัก การควบคุมเครื่องดื่มแอลกอฮอล์ ยาเสพติด และการหมิ่นประมาทพระมหากษัตริย์ มีรายละเอียดดังนี้

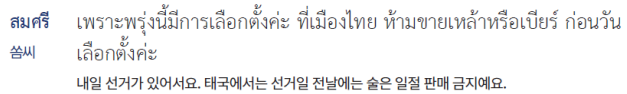
1.การวิเคราะห์ตำราภาษาไทยสำหรับชาวเกาหลี



ผู้วิจัยวิเคราะห์เนื้อหาด้านข้อปฏิบัติในตำราภาษาไทยของผู้เรียนชาวเกาหลี 8 เล่ม ได้แก่ ตำราภาษาไทยฉบับมาตรฐานระดับ A0 A1 A2 B1 และ B2 ทั้ง 5 เล่ม 1 ชุดของมหาวิทยาลัยฮันกุ๊กภาษาและกิจการต่างประเทศ (HUFS) และตำราภาษาไทยฉบับมาตรฐานระดับ A2 ตำรามาตรฐานไทย B1 และตำราภาษาไทยฉบับมาตรฐานระดับ B2 ทั้ง 3 เล่ม 1 ชุดของมหาวิทยาลัยพูซานภาษาและกิจการต่างประเทศ (BUFS) มีรายละเอียดการวิเคราะห์ดังนี้

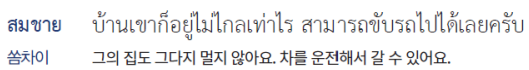
1.1 ตำรามาตรฐานไทย (A0) มหาวิทยาลัยฮันกุ๊กภาษาและกิจการต่างประเทศ (HUFS) ไม่ปรากฏประเด็นเกี่ยวกับข้อปฏิบัติเพื่อการอยู่อาศัยในประเทศไทย (Park, Shin, & Lee, 2019)

1.2 ตำรามาตรฐานไทย (A1) มหาวิทยาลัยฮันกุ๊กภาษาและกิจการต่างประเทศ (HUFS) ไม่ปรากฏประเด็นเกี่ยวกับข้อปฏิบัติเพื่อการอยู่อาศัยในประเทศไทย (Park, & Shin, 2019)



1.3 ตำรามาตรฐานไทย (A2) มหาวิทยาลัยฮันกุ๊กภาษาและกิจการต่างประเทศ (HUFS) มีเนื้อหาเกี่ยวกับข้อปฏิบัติเพื่อการอยู่อาศัยในประเทศไทย 3 บท ได้แก่ บทที่ 6 กรุณามองกล้องด้วย บทที่ 8 ที่นี่ห้ามถ่ายรูป และบทที่ 11 อาจารย์ให้นักศึกษาส่งการบ้าน (Park, & Shin, 2020) มีรายละเอียดดังนี้

(1) บทที่ 6 กรุณามองกล้องด้วย ปรากฏข้อปฏิบัติในหน้า 97-98 ส่วนบทสนทนามีเนื้อหาเกี่ยวกับกระบวนการผ่านการตรวจคนเข้าเมือง ณ ท่าอากาศยานนานาชาติของประเทศไทย ระหว่างเจ้าหน้าที่กับจุนซูถามตอบเรื่อง ระยะเวลาการพำนัก เป้าหมายการเข้าเมือง ข้อมูลรายละเอียดตามเป้าหมายการเข้าเมือง สถานที่ที่พัก และตั๋วเครื่องบินขากลับ



ภาพที่ 2 เนื้อหาเกี่ยวกับการตรวจคนเข้าเมืองในตำรามาตรฐาน A2 ของ HUFS (Park and Shin, 2020)

(2) บทที่ 8 ที่นี่ห้ามถ่ายรูป ปรากฏข้อปฏิบัติในหน้า 129 ส่วนบทสนทนามีเนื้อหาเกี่ยวกับประเทศไทยห้ามจำหน่ายเหล้าก่อนวันเลือกตั้ง สมศรีพูดว่า “พรุ่งนี้มีการเลือกตั้งค่ะ ที่เมืองไทย ห้ามขายเหล้าหรือเบียร์ ก่อนวันเลือกตั้งค่ะ”

ภาพที่ 3 เนื้อหาเกี่ยวกับการควบคุมเครื่องดื่มแอลกอฮอล์ในหน้า 129 ตำรามาตรฐาน A2 ของ HUFS (Park and Shin, 2020)

(3) บทที่ 11 อาจารย์ให้นักศึกษาส่งการบ้าน ปรากฏข้อปฏิบัติในหน้า 181 ส่วนบทสนทนา ตอนสุดท้ายมีประโยคหนึ่งว่า “สามารถขับรถไปได้เลยครับ” คนเกาหลีสามารถขับรถได้ในประเทศไทยหรือไม่

ภาพที่ 4 เนื้อหาเกี่ยวกับการจราจรในตำรามาตรฐาน A2 ของ HUFS (Park and Shin, 2020)

ผู้วิจัยพบว่า มีประเด็นเกี่ยวกับด้านข้อปฏิบัติ 3 ประเด็น ได้แก่ (1) การตรวจคนเข้าเมือง มีเนื้อหา ได้แก่ การตรวจคนเข้าเมือง ณ ท่าอากาศยานนานาชาติ เช่น ระยะเวลาการพำนัก เป้าหมายการเข้าเมือง ข้อมูลรายละเอียดตามเป้าหมายการเข้าเมือง สถานที่ที่พัก และตั๋วเครื่องบินขากลับ (2) การควบคุมเครื่องดื่มแอลกอฮอล์ มีการกำหนดวันห้ามจำหน่ายสุรา คือ วันก่อนเลือกตั้ง และ (3) การจราจร ได้แก่ การขับรถ และระบบจราจร

1.4 ตำรามาตรฐานไทย (B1) มหาวิทยาลัยฮันกุ๊กภาษาและกิจการต่างประเทศ (HUFS) มีเนื้อหาเกี่ยวกับข้อปฏิบัติเพื่อการอยู่อาศัยในประเทศไทย 4 บท ได้แก่ บทที่ 3 ฉันจะเรียนไปด้วยทำงานไปด้วย บทที่ 4 อายุไม่เกิน 7 ขวบ เข้าฟรี บทที่ 6 วันเข้าพรรษาเป็นวันสำคัญทางพุทธศาสนาของไทย และบทที่ 10 ถ้าต้องการเปิดบัญชี จำเป็นต้องใช้วีซ่า (Park, K., Shin, G., Kewalin, S., Narisara, T., Somchai, S., & Wirat, S., 2021). มีรายละเอียดดังนี้

(1) บทที่ 3 ฉันจะเรียนไปด้วยทำงานไปด้วย ปรากฏข้อปฏิบัติในหน้า 40 ชื่อบทเรียน “ฉันจะเรียนไปด้วย ทำงานไปด้วย” และหน้า 45 ส่วนไวยากรณ์ ข้อที่ 3 มีตัวอย่างประโยค “เขาอยากเรียนไปด้วยแล้วก็ทำงานไปด้วย”

ภาพที่ 5 เนื้อหาเกี่ยวกับการตรวจคนเข้าเมืองในตำรามาตรฐาน B1 ของ HUFS (Park et al., 2021)

(2) บทที่ 4 อายุไม่เกิน 7 ขวบ ปรากฏข้อปฏิบัติในหน้า 62 ส่วนไวยากรณ์ ข้อที่ 4 มีตัวอย่างประโยค “อายุต่ำกว่า 19 ปีห้ามซื้อสุรา”

ภาพที่ 6 เนื้อหาเกี่ยวกับการควบคุมเครื่องดื่มแอลกอฮอล์ในตำรามาตรฐาน B1 ของ HUFS (Park et al., 2021)

(3) บทที่ 6 วันเข้าพรรษาเป็นวันสำคัญทางพุทธศาสนาของประเทศไทย ปรากฏข้อปฏิบัติในหน้า 101 ส่วนบทสนทนาตอนสุดท้ายมีเนื้อหา “ในปี 2551 รัฐบาลกำหนดให้วันเข้าพรรษาเป็นวันงดดื่มสุราแห่งชาติด้วยนะ”

ชาลี ปกติเราจะไปทำบุญตักบาตรและปล่อยปลาที่วัด บางคนถวายเทียน บ้างก็ถวายหลอดไฟ ในปี 2551 รัฐบาลกำหนดให้วันเข้าพรรษาเป็นวันงดดื่มสุราแห่งชาติด้วยนะ

ภาพที่ 7 เนื้อหาเกี่ยวกับการควบคุมเครื่องดื่มแอลกอฮอล์ในตำรามาตรฐาน B1 ของ HUFS (Park et al., 2021)

(4) บทที่ 10 ถ้าต้องการเปิดบัญชี จำเป็นต้องใช้วีซ่า ปรากฏข้อปฏิบัติในหน้า 183 ส่วนเรียนวัฒนธรรมไทยมีเนื้อหาเกี่ยวกับเงินตราไทยและย่อหน้าสุดท้าย มีเนื้อหาเกี่ยวกับมาตรา 112 ประมาณ 4-5 ประโยคด้วยภาษาเกาหลี เช่น “ปัจจุบันธนบัตรและเหรียญของประเทศไทยมีรูปภาพพระมหากษัตริย์ไทย...(การละข้อความตอนกลาง)...ผู้ใดทำให้รูปภาพหรือภาพวาดของพระมหากษัตริย์ไทยเสียหาย ต้องระวางโทษจำคุกตั้งแต่ 3 ปีถึง 15 ปี เนื่องจากพฤติกรรมนั้นจะถือเป็นความผิดต่อพระมหากษัตริย์ไทย"

현재 태국의 모든 지폐와 동전의 앞면에는 현 국왕인 와치라롱껀 왕(라마 10세)의 초상화가 그려져 있습니다. 2016년 푸미폰 국왕 서거 이후 와치라롱껀 왕이 왕위를 계승했고, 2018년 라마 10세의 초상이 담긴 새로운 화폐가 발행되었습니다. 라마 9세의 얼굴이 그려져 있는 화폐도 함께 통용되고 있습니다.

태국에서는 국왕의 사진이나 초상을 훼손하게 되면 형법 112조에 따라 최저 3년에서 최고 15년의 징역형에 처해집니다. 따라서 태국에서 지폐에 낙서를 하거나 밟는 등의 훼손 행위를 하게 되면 왕을 모독하는 행위로 간주되어 처벌을 받을 수 있습니다.

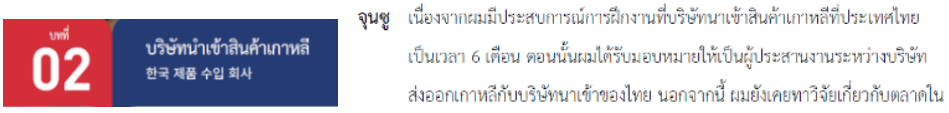
ภาพที่ 8 เนื้อหาเกี่ยวกับการหมิ่นประมาทพระมหากษัตริย์ในตำรามาตรฐาน B1 ของ HUFS (Park et al., 2021)

ผู้วิจัยพบว่า มีประเด็นเกี่ยวกับด้านข้อปฏิบัติ 3 ประเด็น ได้แก่ (1) การตรวจคนเข้าเมือง มีเนื้อหา ได้แก่ “เรียนไปด้วยทำงานไปด้วย” ซึ่งในประเทศไทยอาจมีข้อกำหนดว่าต้องขออนุญาตการทำงานจากหน่วยงานที่เกี่ยวข้องล่วงหน้า ผู้ที่ถือวีซ่านักศึกษาสามารถทำงานได้หรือไม่ (2) การควบคุมเครื่องดื่มแอลกอฮอล์ มีเนื้อหาการจำกัดอายุของผู้บริโภคสุรา และการกำหนดวันที่งดหรือห้ามจำหน่ายสุรา และ (3) การหมิ่นประมาทพระมหากษัตริย์ มีเนื้อหา ได้แก่ การบีบอัดหรือวาดภาพต่าง ๆ ต่อเงินตราไทยที่มีรูปภาพของกษัตริย์ สามารถถูกปรับหรือถูกลงโทษตามมาตรา 112 ได้

1.5 ตำรามาตรฐานไทย (B2) มหาวิทยาลัยฮันกุ๊กภาษาและกิจการต่างประเทศ (HUFS) มีเนื้อหาเกี่ยวกับข้อปฏิบัติเพื่อการอยู่อาศัยในประเทศไทย 5 บท ได้แก่ บทที่ 1 ลักษณะเฉพาะของภาษาไทย บทที่ 2 บริษัทนำเข้าสินค้าเกาหลี บทที่ 3 ความสัมพันธ์ระหว่างประเทศไทยกับสาธารณรัฐเกาหลี บทที่ 4 สถิติคนไทยที่พำนักอยู่ในเกาหลีใต้ และบทที่ 5 เรือนไทย วิถีชีวิตและภูมิปัญญาของคนไทย (Park et al., 2022) มีรายละเอียดดังนี้

(1) บทที่ 1 ลักษณะเฉพาะของภาษาไทย ปรากฏข้อปฏิบัติในหน้า 16 ส่วนไวยากรณ์ ข้อที่ 1 มีตัวอย่างประโยค 2 ประโยค ได้แก่ 1. “เนื่องจากสถานการณ์การแพร่ระบาดของโรคโควิด-19 ธนาคารและร้านอาหารในห้างสรรพสินค้า จึงจำเป็นต้องปิดให้บริการชั่วคราว” 2. “ผู้ที่(มีความ)จำเป็นเร่งด่วนในการกลับประเทศไทยในช่วงการแพร่ระบาดของโรคโควิด-19 ต้องลงทะเบียนเพื่อขอรับหนังสือรับรองการเดินทางเข้าประเทศไทยก่อน”

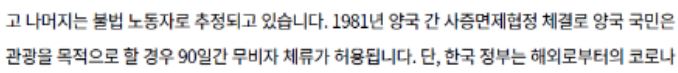
- เนื่องจากสถานการณ์การแพร่ระบาดของโรคติดเชื้อไวรัสโควิด-19 ธนาคารและร้านอาหารในห้างสรรพสินค้าจึง**จำเป็น**ต้องปิดให้บริการชั่วคราว



코로나-19 바이러스의 확산 사태로 인하여 백화점 안의 은행과 식당은 일시적으로 휴업을 해야 했다.

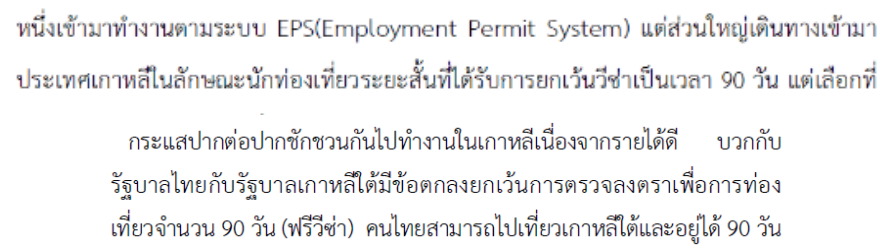
- ผู้ที่**(มีความ)จำเป็น**เร่งด่วนในการกลับประเทศไทยในช่วงการแพร่ระบาดของโรคโควิด-19 ต้องลงทะเบียนเพื่อขอรับหนังสือรับรองการเดินทางเข้าประเทศไทยก่อน

코로나-19 확산 기간 동안 태국으로 급히 귀국해야 할 필요성이 있는 사람들은 태국으로 우선 귀국에 대한 증명서를 발급받기 위해 등록을 해야 했다.



ภาพที่ 9 เนื้อหาเกี่ยวกับการควบคุมโรคในตำรามาตรฐาน B2 ของ HUFS (Park et al., 2022)

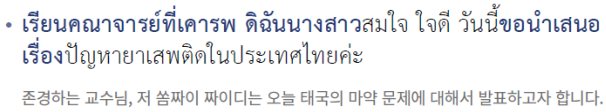
(2) บทที่ 2 บริษัทนำเข้าสินค้าเกาหลี ปรากฏข้อปฏิบัติในหน้า 30 ชื่อบทเรียน “บริษัทนำเข้าสินค้าเกาหลี” และหน้าที่ 31 บทสนทนามีเนื้อหากล่าวถึงสัมภาษณ์งานบริษัทไทยที่นำเข้าสินค้าจากประเทศเกาหลี



ภาพที่ 10 เนื้อหาเกี่ยวกับศุลกากรในตำรามาตรฐาน B2 ของ HUFS (Park et al., 2022)

(3) บทที่ 3 ความสัมพันธ์ระหว่างประเทศไทยกับสาธารณรัฐเกาหลี ปรากฏข้อปฏิบัติในหน้า 64 - 65 เรื่องเกร็ดความรู้ทางสังคมและวัฒนธรรมไทย มีเนื้อหาเกี่ยวกับความสัมพันธ์ระหว่างไทยกับเกาหลีทางการต่างประเทศและสนธิสัญญายกเว้นการตรวจลงตราระหว่างไทยกับเกาหลี เช่น “ในปีค.ศ. 1981 ทั้งสองประเทศมีความตกลงยกเว้นการตรวจลงตราสำหรับประชาชนไทยกับเกาหลีที่เป็นนักท่องเที่ยวโดยสามารถพำนักได้ไม่เกิน 90 วัน”

고 나머지는 불법 노동자로 추정되고 있습니다. 1981년 양국 간 사증면제협정 체결로 양국 국민은
관광을 목적으로 할 경우 90일간 무비자 체류가 허용됩니다. 단, 한국 정부는 해외로부터의 코로나



ภาพที่ 11 เนื้อหาเกี่ยวกับการตรวจคนเข้าเมืองในตำรามาตรฐาน B2 ของ HUFS (Park et al., 2020)

(4) บทที่ 4 สถิติคนไทยที่พำนักอยู่ในเกาหลีใต้ ปรากฏข้อปฏิบัติในหน้า 68 ส่วนบทอ่านตอนย่อหน้าสุดท้ายมีเนื้อหาเกี่ยวกับ “ข้อตกลงยกเว้นการตรวจลงตราเพื่อการท่องเที่ยวจำนวน 90 วัน (ฟรีวีซ่า)” และคนที่อยู่เกินอย่างผิดกฎหมาย และหน้า 80 - 81 ส่วนแบบฝึกหัดเสริมทักษะการอ่านมีเนื้อหาเกี่ยวกับตรวจคนเข้าเมืองเกาหลีและปัญหาแรงงานผิดกฎหมาย

หนึ่งเข้ามาทำงานตามระบบ EPS(Employment Permit System) แต่ส่วนใหญ่เดินทางเข้ามา
ประเทศเกาหลีในลักษณะนักท่องเที่ยวระยะสั้นที่ได้รับการยกเว้นวีซ่าเป็นเวลา 90 วัน แต่เลือกที่
กระแสปากต่อปากชักชวนกันไปทำงานในเกาหลีเนื่องจากรายได้ดี บวกกับ
รัฐบาลไทยกับรัฐบาลเกาหลีใต้มีข้อตกลงยกเว้นการตรวจลงตราเพื่อการท่อง
เที่ยวจำนวน 90 วัน (ฟรีวีซ่า) คนไทยสามารถไปเที่ยวเกาหลีใต้และอยู่ได้ 90 วัน

ภาพที่ 12 เนื้อหาเกี่ยวกับการตรวจคนเข้าเมืองในตำรามาตรฐาน B2 ของ HUFS (Park et al., 2022)

(5) บทที่ 8 เรือนไทย วิถีชีวิตและภูมิปัญญาของคนไทย ปรากฏข้อปฏิบัติในหน้า 149 ไวยากรณ์ข้อที่ 1 มีตัวอย่างประโยค “เรียนคณาจารย์ที่เคารพ ดิฉันนางสาวสมใจ ใจดี วันนี้ขอนำเสนอเรื่องปัญหายาเสพติดในประเทศไทยค่ะ”

• **เรียนคณาจารย์ที่เคารพ ดิฉันนางสาว**สมใจ ใจดี วันนี้**ขอนำเสนอ**
เรื่องปัญหายาเสพติดในประเทศไทยค่ะ
존경하는 교수님, 저 쏨짜이 짜이디는 오늘 태국의 마약 문제에 대해서 발표하고자 합니다.

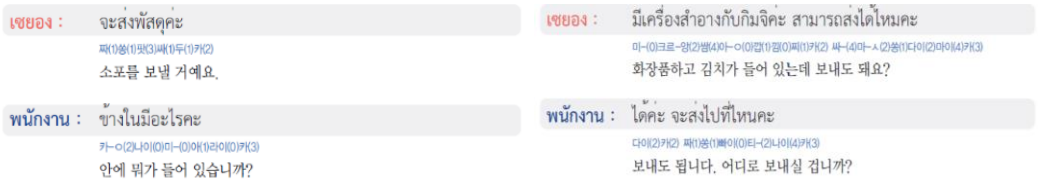
ภาพที่ 13 เนื้อหาเกี่ยวกับยาเสพติดในตำรามาตรฐาน B2 ของ HUFS (Park et al., 2022)

ผู้วิจัยพบว่า มีประเด็นเกี่ยวกับด้านข้อปฏิบัติ 4 ประเด็น ได้แก่ (1) การควบคุมโรค มีเนื้อหา ได้แก่ สถานการณ์โรคโควิด-19 เช่น การแจ้งทะเบียนข้อมูลประวัติฉีดวัคซีน (2) ศุลกากร มีเนื้อหา ได้แก่ การนำเข้าสินค้าในไทยจากเกาหลี (3) การตรวจคนเข้าเมือง มีเนื้อหา ได้แก่ ข้อตกลงยกเว้นการตรวจลงตราเพื่อการท่องเที่ยว จำนวน 90 วัน (ฟรีวีซ่า) ระหว่างประเทศไทยกับเกาหลี ระยะเวลาการพำนักและการทำกิจกรรมสำหรับผู้ที่ถือวีซ่านักศึกษาหรือนักท่องเที่ยว และ (4) ปัญหายาเสพติด

การวิเคราะห์ตำราภาษาไทย HUFS ทั้ง 5 เล่ม ผู้วิจัยพบว่า มีข้อปฏิบัติที่สำคัญ 7 ประเด็น ได้แก่ **การตรวจคนเข้าเมือง** เช่น วีซ่าสำหรับแรงงานต่างชาติ สิทธิการทำงานของผู้เรียนชาวเกาหลี ระยะเวลาการพำนัก จุดประสงค์การเข้าเมืองให้ชัดเจน กิจกรรมถูกกฎหมายที่คนเกาหลีถือวีซ่านักศึกษา หรือผู้ที่เข้ามาโดยฟรีวีซ่า 90 วันในประเทศไทย อายุที่เหลือของหนังสือเดินทาง และเอกสารเพิ่มเติมที่รับรองเป้าหมายการเข้าเมืองตามสภาพตนเอง **การควบคุมโรค** เช่น การปฏิบัติตัวสำหรับสถานการณ์ฉุกเฉินโรคโควิด-19 การแจ้งทะเบียนข้อมูลการเดินทางที่สถานทูตเกาหลีในไทยล่วงหน้า **ศุลกากร** เช่น ภาษีและหลักเกณฑ์สิ่งของต่างๆ ของศุลกากรไทยสำหรับชาวเกาหลี **การจราจร** เช่น ประเภทใบขับขี่สำหรับคนเกาหลีในประเทศไทย และระบบจราจรซ้ายมือและขวามือ **การควบคุมเครื่องดื่มแอลกอฮอล์** เช่น วันที่ห้ามจำหน่ายสุรา และการจำกัดอายุของผู้บริโภคสุรา **ยาเสพติด** เช่น การบริโภคผลิตภัณฑ์ที่ใส่วัตถุดิบกัญชาของคนเกาหลี และ**การหมิ่นประมาทพระมหากษัตริย์** เช่น การกระทำผิดประมวลกฎหมายอาญา มาตรา 112

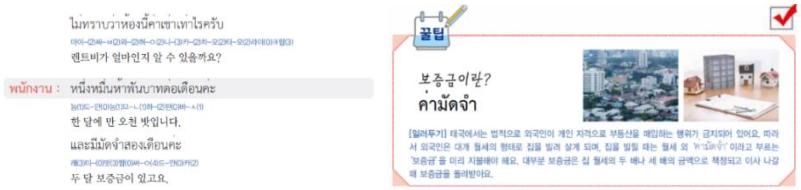
1.6 ตำรามาตรฐานไทย (A2) มหาวิทยาลัยพูซานภาษาและกิจการต่างประเทศ (BUFS) มีเนื้อหาเกี่ยวกับข้อปฏิบัติเพื่อการอยู่อาศัยในประเทศไทย 6 บท ได้แก่ บทที่ 1 ชื่อไทยว่ามนตรีครับ บทที่ 5 เราจะทำอะไรที่พัทยา บทที่ 6 มีอะไรให้ช่วยไหมคะ บทที่ 8 ตั้งแต่สัปดาห์หน้าอากาศจะหนาวขึ้น บทที่ 9 มีห้องว่างไหมครับ และบทที่ 12 ค่อยดีขึ้นครับ (Kim et al., 2019) มีรายละเอียดดังนี้

(1) บทที่ 1 ชื่อไทยว่ามนตรีครับ ปรากฏข้อปฏิบัติในหน้า 17 ไวยากรณ์ ข้อที่ 2 มีตัวอย่างประโยค “ดิฉันอยู่เมืองไทยมา 5 ปีแล้วค่ะ” ซึ่งเป็นเรื่องการพำนักในประเทศไทย



ภาพที่ 14 เนื้อหาเกี่ยวกับการตรวจคนเข้าเมืองในตำรามาตรฐาน A2 ของ BUFS (Kim et al., 2019)

(2) บทที่ 5 เราจะทำอะไรที่พัทยา ปรากฏข้อปฏิบัติในหน้า 86 ไวยากรณ์มีตัวอย่างประโยค “ผมอยู่เมืองไทย 1 ปีเต็ม” เป็นเนื้อหาเกี่ยวกับระยะเวลาการพำนักในประเทศไทย

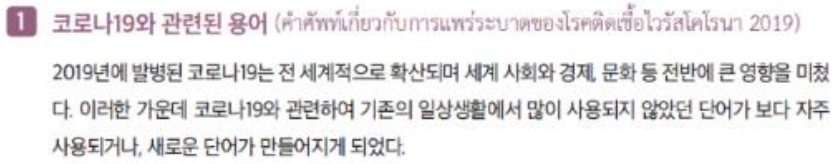


ภาพที่ 15 เนื้อหาเกี่ยวกับการตรวจคนเข้าเมืองในตำรามาตรฐาน A2 ของ BUFS (Kim et al., 2019)

(3) บทที่ 6 มีอะไรให้ช่วยไหมคะ ปรากฏข้อปฏิบัติในหน้า 95 บทสนทนา A มีเนื้อหาเกี่ยวกับการส่งของพัสดุระหว่างประเทศไทยกับสาธารณรัฐเกาหลี

ภาพที่ 16 เนื้อหาเกี่ยวกับศุลกากร และการควบคุมโรคในตำรามาตรฐาน A2 ของ BUFS (Kim et al., 2019)

(4) บทที่ 9 มีห้องว่างไหมครับ ปรากฏข้อปฏิบัติในหน้า 156 ส่วนบทสนทนา A มีเนื้อหาเกี่ยวกับการเช่าห้องที่ประเทศไทยและหน้า 175 ส่วนข้อมูลที่มีประโยชน์มีเนื้อหาเกี่ยวกับค่ามัดจำที่อธิบายด้วยภาษาเกาหลี เนื้อหาที่เกี่ยวข้องกับการเช่าและเรื่องที่พักอาศัยในประเทศไทย



ภาพที่ 17 เนื้อหาเกี่ยวกับการเช่าที่พักในตำรามาตรฐาน A2 ของ BUFS (Kim et al., 2019)

ผู้วิจัยสรุปว่า มีประเด็นเกี่ยวกับด้านข้อปฏิบัติ 3 ประเด็น ได้แก่ (1) การตรวจคนเข้าเมือง มีเนื้อหา ได้แก่ ระยะเวลาการพำนักสำหรับผู้ที่ถือวีซ่านักศึกษาหรือผู้ที่เข้ามาโดยฟรีวีซ่า 90 วัน (2) ศุลกากร มีเนื้อหา ได้แก่ การนำเข้าสินค้าระหว่างประเทศไทยกับเกาหลี (3) การเช่าที่พัก มีเนื้อหา ได้แก่ การเช่าห้องและค่ามัดจำ

1.7 ตำราภาษาไทยฉบับมาตรฐาน (B1) มหาวิทยาลัยพูซานภาษาและกิจการต่างประเทศ (BUFS) ไม่ปรากฏประเด็นเกี่ยวกับข้อปฏิบัติเพื่อการอยู่อาศัยในประเทศไทย (Kim, Han, Tidarat, Lee & Ong, 2020)

1.8 ตำรามาตรฐานไทย (B2) มหาวิทยาลัยพูซานภาษาและกิจการต่างประเทศ (BUFS) มีเนื้อหาเกี่ยวกับข้อปฏิบัติเพื่อการอยู่อาศัยในประเทศไทย 3 บท ได้แก่ บทที่ 5 เศรษฐกิจไทย บทที่ 7 การเมืองไทย และบทที่ 8 กฎหมายน่ารู้สำหรับชาวต่างชาติ (Ong et al., 2021) มีรายละเอียดดังนี้

(1) บทที่ 5 เศรษฐกิจไทย ปรากฏข้อปฏิบัติในหน้า 77 คำศัพท์มีเนื้อหาเกี่ยวกับการแพร่ระบาดของโรคติดเชื้อไวรัสโควิด-19

한국어	태국어	한국어	태국어
코로나 19	โรคโควิด 19	팬더믹W	การระบาดใหญ่ทั่วโลก
감염 상황	สถานการณ์แพร่ระบาด	감염 경로	ช่องทางการติดเชื้อ

ภาพที่ 18 เนื้อหาเกี่ยวกับการควบคุมโรคในตำรามาตรฐาน B2 ของ BUFS (Ong et al., 2021)

(2) บทที่ 7 การเมืองไทย ปรากฏข้อปฏิบัติในหน้า 111 บทสนทนามีเนื้อหาเกี่ยวกับประเทศไทยห้ามขายสุราก่อนวันเลือกตั้ง

มานี ค่ะ ใช่ค่ะ หากยึดตามกฎหมายเลือกตั้งจะห้ามขายแอลกอฮอล์ตั้งแต่ 6 โมงเย็นของวันก่อนเลือกตั้งจนถึงเที่ยงคืนของวันเลือกตั้งเลยค่ะ

ภาพที่ 19 เนื้อหาเกี่ยวกับการควบคุมเครื่องดื่มแอลกอฮอล์ในตำรามาตรฐาน B2 ของ BUFS (Ong et al., 2021)

(3) บทที่ 8 กฎหมายน่ารู้สำหรับชาวต่างชาติ ปรากฏข้อปฏิบัติตามข้อมูลกฎหมายที่เกี่ยวข้องเบื้องต้นทั้งบทเรียนในหน้า 113-125 มีเนื้อหา ได้แก่ 1. การพำนักอาศัยในไทยเกี่ยวกับประเภทวีซ่า การต่อวีซ่า และการแจ้งที่พัก 90 วัน 2. การลงทุนและธุรกิจสำหรับชาวต่างชาติเกี่ยวกับอสังหาริมทรัพย์ และ 3. อาชีพที่ห้ามคนต่างชาติทำ เช่น งานกสิกรรม งานมัคคุเทศก์

1. กฎหมายเกี่ยวกับการพำนักอาศัยในประเทศไทย

ชาวต่างชาติที่ประสงค์เดินทางเข้ามาพำนักอาศัยในประเทศไทยต้องทำการยื่นขอวีซ่า ณ สถานทูตไทยประจำประเทศต้นทางที่ชาวต่างชาติจะเดินทางเข้ามา โดยวีซ่าสำหรับชาวต่างชาติหลัก ๆ มี 6 ประเภท ได้แก่ วีซ่าสำหรับคนเดินทางผ่านราชอาณาจักร (Transit Visa) วีซ่านักท่องเที่ยว (Tourist Visa) วีซ่าคนอยู่ชั่วคราว (Non-Immigrant Visa) วีซ่าทูต (Diplomatic Visa) วีซ่าราชการ (Official Visa) และวีซ่าอัธยาศัยไมตรี (Courtesy Visa) ซึ่งวีซ่าแต่ละประเภทมีวัตถุประสงค์ในการเดินทางเข้าประเทศไทยและหลักเกณฑ์ในการยื่นขอที่แตกต่างกัน โดยเฉพาะอย่างยิ่งเอกสารที่ยื่นขอวีซ่าบางประเภทจำเป็นต้องผ่านการรับรองนิติกรณ์ก่อน

จินโฮ อ่อ อย่างนี้นี่เองและผมได้ยินมาว่า ชาวต่างชาติ ไม่ว่าคนประเทศไหนก็ตามถ้าอาศัยอยู่ในประเทศไทย เป็นเวลานาน จะต้องแจ้งที่พักอาศัย ทุก ๆ 90 วัน ใช่ไหมครับ

มานี ใช่ค่ะ แจ้งก่อน 15 วัน หรือหลัง 7 วันนับจากวันครบกำหนดค่ะ ถ้าไม่แจ้งภายในเวลาที่กำหนด ก็จะถูกปรับ 2,000 บาทค่ะ

จินโฮ 2,000 บาท ถือว่าไม่ใช่น้อยนะครับ ผมคงต้องขยันเรียนภาษาไทยให้มากขึ้นกว่าเดิม จะได้เข้าใจกฎหมายไทยและไม่ให้เกิดเรื่องแบบนั้น

ภาพที่ 20 เนื้อหาเกี่ยวกับการตรวจคนเข้าเมืองในตำรามาตรฐาน B2 ของ BUFS (Ong et al., 2021)

ผู้วิจัยสรุปว่า มีประเด็นเกี่ยวกับด้านข้อปฏิบัติ 3 ประเด็น ได้แก่ (1) การควบคุมโรค มีเนื้อหา ได้แก่ สถานการณ์โรคติดเชื้อไวรัสโคโรน่า-19 (2) การควบคุมเครื่องดื่มแอลกอฮอล์ มีเนื้อหา ได้แก่ การจำกัดเวลาขายสุราและการกำหนดวันที่งดหรือห้ามขายสุรา และ (3) การตรวจคนเข้าเมือง มีเนื้อหา ได้แก่ ประเภทและลักษณะของวีซ่า หน้าที่แจ้งที่พักทุก 90 วัน การลงทุน และอาชีพที่ห้ามคนต่างชาติ

ผู้วิจัยวิเคราะห์ตำราภาษาไทย BUFS ทั้ง 3 เล่มว่า ปรากฏข้อปฏิบัติ 5 ประเด็น ได้แก่ **การตรวจคนเข้าเมือง** เช่น ระยะเวลาการพำนัก การขออนุญาตกลับเข้ามาในราชอาณาจักรอีก (Re-entry Permit) ประเภทวีซ่าเหมาะสมกับเป้าหมายการเข้าเมืองไทย หน้าที่แจ้งทะเบียนข้อมูลใหม่ เช่น ออกหนังสือเดินทางเล่มใหม่ เปลี่ยนที่พัก อาชีพที่ห้ามคนเกาหลีทำ และสิทธิการทำงาน **การควบคุมโรค** เช่น สถานการณ์ฉุกเฉินโควิด-19 **ศุลกากร** เช่น ประเภทของพัสดุ และภาษีตามเกณฑ์ศุลกากรไทย **การเช่าที่พัก** เช่น เงื่อนไขต่างๆ และข้อควรเช็คการเช่าที่พักในประเทศไทย และ**การควบคุมเครื่องดื่มแอลกอฮอล์** เช่น วันที่ห้ามจำหน่ายสุรา เวลาจำหน่ายสุรา และการจำกัดอายุของผู้บริโภคสุรา

จากการวิเคราะห์แล้วผู้วิจัยสามารถสรุปผลการวิเคราะห์ประเด็นเกี่ยวกับข้อปฏิบัติที่ปรากฏในตำราภาษาไทยของผู้เรียนชาวเกาหลีทั้ง 8 เล่ม ในตารางดังนี้

ตารางที่ 1 การสรุปประเด็นของด้านข้อปฏิบัติจากตำราภาษาไทยทั้ง 8 เล่ม

ตำรา / ข้อปฏิบัติ	ตำราฯ (A0) HUFS	ตำราฯ (A1) HUFS	ตำราฯ (A2) HUFS	ตำราฯ (B1) HUFS	ตำราฯ (B2) HUFS	ตำราฯ (A2) BUFS	ตำราฯ (B1) BUFS	ตำราฯ (B2) BUFS
1. การตรวจคนเข้าเมือง	-	-	✓	✓	✓	✓	-	✓
2. การควบคุมเครื่องดื่มแอลกอฮอล์	-	-	✓	✓	-	-	-	✓
3. การควบคุมโรค	-	-	-	-	✓	-	-	✓
4. ศุลกากร	-	-	-	-	✓	✓	-	-
5. การจราจร	-	-	✓	-	-	-	-	-
6. การเช่าที่พัก	-	-	-	-	-	✓	-	-
7. ยาเสพติด	-	-	-	-	✓	-	-	-
8. การหมิ่นประมาทพระมหากษัตริย์	-	-	-	✓	-	-	-	-

จากตารางที่ 1 ผู้วิจัยวิเคราะห์ได้ว่า ข้อปฏิบัติที่ปรากฏในตำราภาษาไทยของผู้เรียนชาวเกาหลีทั้ง 8 เล่ม เรียงลำดับมากไปหาน้อย ได้แก่ การตรวจคนเข้าเมือง การควบคุมเครื่องดื่มแอลกอฮอล์ การควบคุมโรค ศุลกากร การจราจร การเช่าที่พัก ยาเสพติด และการหมิ่นประมาทพระมหากษัตริย์

2.การวิเคราะห์เปรียบเทียบข้อปฏิบัติไทยและเกาหลี

ผู้วิจัยจึงศึกษาข้อมูลกฎหมายของราชอาณาจักรไทยกับสาธารณรัฐเกาหลีที่เกี่ยวข้องกับทั้ง 8 ประเด็น จากนั้นนำข้อมูลมาเปรียบเทียบข้อปฏิบัติไทยและเกาหลีเพื่อการอยู่อาศัยในประเทศไทย โดยเก็บข้อมูลจากแหล่งข้อมูลที่เกี่ยวข้องกับกฎหมายต่าง ๆ ได้แก่ (1) เว็บไซต์กระทรวงร่างกฎหมายของสาธารณรัฐเกาหลี ศูนย์ข้อมูลกฎหมายของเกาหลี (Korean Law information center, 2024) และ (2) ศูนย์ข้อมูลกฎหมายของโลก (World laws information center, 2024) ซึ่งเป็นเว็บไซต์หน่วยงานของ

รัฐบาลเกาหลีที่ให้ข้อมูลกฎหมายเกาหลีและกฎหมายต่างประเทศด้วยภาษาเกาหลีและภาษาของประเทศชาตินั้น และมีรายละเอียดดังนี้

ตารางที่ 2 การเปรียบเทียบข้อปฏิบัติไทยและเกาหลีเพื่อการอยู่อาศัยในประเทศไทย

ข้อปฏิบัติ	เนื้อหาจากตำรา	ข้อมูลกฎหมายไทยและเกาหลี
1. การตรวจคนเข้าเมือง	1. ชาวต่างชาติต้องพกเอกสารแสดงตนที่ถูกต้องและผ่านการตรวจคนเข้าเมือง	ทั้งสองประเทศกำหนดให้คนต่างด้าวต้องมีหนังสือเดินทางหรือเอกสารที่ใช้แทนหนังสือเดินทางที่ถูกต้อง และสมบูรณ์และผ่านการตรวจคนเข้าเมืองกับเจ้าหน้าที่ของหน่วยงาน
	2. ชาวไทยและเกาหลีสามารถเดินทางระหว่างประเทศซึ่งกันและกันโดยฟรีวีซ่า 90 วัน	ทั้งสองประเทศมีข้อตกลงสนธิสัญญาละเว้นการตรวจลงตราซึ่งอนุญาตให้ประชาชนไทยกับเกาหลีเดินทางระหว่างประเทศโดยไม่ต้องขอวีซ่า สำหรับการพำนักที่ไม่เกิน 90 วัน โดยมีวัตถุประสงค์เพื่อการท่องเที่ยว เยี่ยมครอบครัว ประชุมสัมมนาหรือดำเนินธุรกิจที่ไม่มีการแสวงหาผลกำไร
	3. ผู้ที่ถือวีซ่านักท่องเที่ยวสามารถเปิดบัญชีในประเทศไทยและประเทศเกาหลี	ทั้งสองประเทศเปิดบัญชีได้เฉพาะธนาคารบางแห่งเท่านั้น แต่ธนาคารส่วนใหญ่ไม่เปิดบัญชีให้แก่นักท่องเที่ยวต่างชาติ และพระราชบัญญัติคนเข้าเมืองไทยกับกฎหมายคนเข้าเมืองเกาหลีไม่กำหนดเรื่อง
	4. ผู้ที่ถือวีซ่านักศึกษามีสิทธิการทำงาน	ทั้งสองประเทศกำหนดว่า ไม่สามารถทำงานได้ แต่กรณีนักศึกษาต่างชาติต้องการทำงาน จำเป็นต้องขออนุญาตทำงานล่วงหน้าจากสำนักงานตรวจคนเข้าเมือง
	5. ผู้ที่ถือวีซ่าพำนักอาศัยอยู่ในประเทศไทยและเกาหลีเกิน 90 วันได้ และมีหน้าที่การแจ้งที่พักอาศัยทุก 90 วัน	ทั้งสองประเทศต้องแจ้งที่พักอาศัยปัจจุบัน แต่รายละเอียดต่างกัน กรณีไทยให้คนต่างชาติแจ้งที่พักทุก 90 วัน ส่วนเกาหลีให้คนต่างชาติแจ้งตอนทะเบียนข้อมูลครั้งแรก ยกเว้นถ้าคนต่างชาติย้ายที่พักต้องแจ้งที่พักใหม่ภายใน 15 วันนับตั้งแต่วันที่เริ่มสัญญาตามที่ระบุไว้ในหนังสือสัญญาเช่าบ้านต่าง ๆ
	6. ผู้ที่อาศัยอยู่ในประเทศไทยโดยถูกต้องตามกฎหมาย ควรระวังการหางานเพราะมีอาชีพที่ห้ามสำหรับคนต่างชาติ	ทั้งสองประเทศกำหนดอาชีพที่ห้ามคนต่างชาติทำ แต่ประเภทและรายละเอียดไม่เหมือนกัน ไทยมีอาชีพสงวนตามกฎหมายโดยตรง มักเป็นงานฝีมือ ส่วนเกาหลีคนต่างชาติต้องขอวีซ่าตามงานที่ตนจะทำ และต้องทำงานเฉพาะตามที่วีซ่ากำหนดไว้เท่านั้น มักเป็นงานราชการหรือด้านความมั่นคง
2. การควบคุมโรค	การเดินทางระหว่างประเทศไทยกับเกาหลีโดยไม่บังคับให้สวมใส่หน้ากากอนามัยและฉีดวัคซีนโควิด-19	ทั้งสองประเทศปลดล็อคการควบคุมโรคโควิด-19 เช่นกัน จึงไม่บังคับให้ผู้เดินทางเข้าประเทศสวมใส่หน้ากากอนามัย และไม่จำเป็นต้องมีเอกสารรับรองการฉีดวัคซีนป้องกันเชื้อโรคโควิด-19 ตั้งแต่วันที่ 1 ตุลาคม พ.ศ. 2565 ถึงปัจจุบัน
3. ศุลกากร	การกำหนดเกณฑ์ศุลกากรสำหรับนำเข้าสิ่งของในประเทศไทยกับเกาหลี	ทั้งสองประเทศกำหนดหลักเกณฑ์ตามกฎหมายศุลกากร เช่น ของไม่ต้องสำแดง ของต้องสำแดง ของต้องจำกัด และของต้องห้าม แต่รายละเอียดเกณฑ์มีความแตกต่างกัน เช่น ประเภท จำนวน และปริมาณ

ตารางที่ 2 (ต่อ)

ข้อปฏิบัติ	เนื้อหาจากตำรา	ข้อมูลกฎหมายไทยและเกาหลี
4. การจราจร	1. การใช้ใบขับขี่สากลในประเทศไทยกับเกาหลี	ทั้งสองประเทศเข้าร่วมเป็นภาคีอนุสัญญาทั้งข้อตกลงของอนุสัญญาเจนีวาและอนุสัญญาเวียนนาแล้ว จึงสามารถขับรถโดยใช้ใบขับขี่สากลได้
5. การเช่าที่พัก	1. การทำหนังสือสัญญาเช่าที่พัก	ทั้งสองประเทศกำหนดกฎหมายว่า ผู้ให้เช่า และผู้เช่าจำเป็นต้องเขียนหนังสือสัญญาเช่าบ้านฉบับสมบูรณ์เมื่อทำสัญญาเช่าอสังหาริมทรัพย์
	2. การกำหนดระยะเวลาสัญญาและขอบเขตของจำนวนเงินมัดจำ	ทั้งสองประเทศกำหนดระยะเวลาสัญญาขั้นต่ำหนึ่งปีและขอบเขตของจำนวนเงินมัดจำ แต่รายละเอียดมีความแตกต่างกัน กรณีไทยกำหนดค่ามัดจำด้วยคูณสองเท่าของค่าเช่ารายเดือน ส่วนเกาหลีกำหนดค่ามัดจำตามมูลค่าพื้นที่ในปัจจุบัน และค่าเช่ารายเดือน
6. การควบคุมเครื่องดื่มแอลกอฮอล์	1. การกำหนดเวลาจำหน่ายเครื่องดื่มแอลกอฮอล์	ไทยกำหนดเวลาจำหน่ายเครื่องดื่มแอลกอฮอล์ ได้แก่ เวลา 11.00-14.00 น. และ 17.00-24.00 น. เท่านั้น ส่วนเกาหลีไม่กำหนดเวลา
	2. การกำหนดวันที่ห้ามขายเครื่องดื่มแอลกอฮอล์	ไทยกำหนดวันที่ห้ามขายเครื่องดื่มแอลกอฮอล์ ได้แก่ วันสำคัญทางศาสนาพุทธ และวันก่อนเลือกตั้ง ส่วนเกาหลีไม่กำหนดวัน
	3. การจำกัดอายุของผู้บริโภคเครื่องดื่มแอลกอฮอล์	ไทยจำกัดอายุของผู้บริโภคเครื่องดื่มแอลกอฮอล์ไว้ อายุ 20 บริบูรณ์ขึ้นไป ส่วนเกาหลีจำกัดอายุของผู้บริโภคเครื่องดื่มแอลกอฮอล์ไว้ อายุ 19 ปีบริบูรณ์ขึ้นไป
7. ยาเสพติด	การใช้กัญชาของคนไทยและเกาหลี	ไทยปลดล็อกกัญชาออกจากยาเสพติด ปัจจุบันประชาชนทั่วไปที่อายุมากกว่า 20 ปี และไม่ใช่สตรีมีครรภ์ รวมถึงนักท่องเที่ยวต่างชาติ สามารถบริโภคกัญชาได้ ส่วนเกาหลีห้ามใช้กัญชาทุกรูปแบบ
8. การหมิ่นประมาทพระมหากษัตริย์	การกระทำผิดเกี่ยวกับการหมิ่นประมาทพระมหากษัตริย์ฯ (ม.112)	ทั้งสองประเทศมีกฎหมายเกี่ยวกับการหมิ่นประมาท แต่มีความแตกต่างกันอยู่ที่บุคคลที่กำหนดไว้เป็นพิเศษ คือ พระมหากษัตริย์ไทย ซึ่งเป็นจุดเด่นที่ไม่มีในเกาหลี

สรุปและอภิปรายผล

จากการวิเคราะห์ข้อปฏิบัติเพื่อการอยู่อาศัยในประเทศไทยจากแบบเรียนภาษาไทยสำหรับผู้เรียนชาวเกาหลี จำนวน 8 เล่ม ปรากฏเนื้อหาข้อปฏิบัติที่มีความแตกต่างระหว่างไทยกับเกาหลี 8 ประเด็นจาก 8 เล่ม พบ 5 เล่ม ได้แก่ การตรวจคนเข้าเมือง ได้แก่ หน้าที่ และข้อจำกัดเกี่ยวกับการพำนักในฐานะชาวต่างประเทศ การควบคุมเครื่องดื่มแอลกอฮอล์ ได้แก่ วันที่ห้ามจำหน่ายสุรา และเวลาจำหน่ายสุรา การควบคุมโรค ได้แก่ หลักเกณฑ์สำหรับชาวต่างประเทศ ศุลกากร ได้แก่ หลักเกณฑ์ และภาษีสำหรับชาวต่างชาติ การจราจร ได้แก่ ประเภทใบขับขี่ และระบบจราจร การเช่าที่พัก ได้แก่ ค่ามัดจำ และเงื่อนไขการเช่าที่พัก ยาเสพติด ได้แก่ การใช้กัญชา และการหมิ่นประมาทพระมหากษัตริย์ ได้แก่ การกระทำผิดกฎหมายอาญา มาตรา 112

การเปรียบเทียบข้อมูลกฎหมายที่เกี่ยวข้องกับข้อปฏิบัติไทยและเกาหลีเพื่อการอยู่อาศัยในประเทศไทย พบว่า ราชอาณาจักรไทยและสาธารณรัฐเกาหลี มีข้อปฏิบัติที่แตกต่างกันหลายด้าน ได้แก่ กฎหมายคนเข้าเมืองของกฎหมายควบคุมโรค กฎหมายศุลกากร กฎหมายการจราจรทางบก ประมวลกฎหมายแพ่งและพาณิชย์ กฎหมายควบคุมเครื่องดื่มแอลกอฮอล์ กฎหมายยาเสพติด และประมวลกฎหมายอาญา รวมถึงขอบเขตการใช้กฎหมายของประเทศ ซึ่งทำให้มีความแตกต่างของการใช้ชีวิตระหว่างไทยกับเกาหลี และให้คนเกาหลีไม่ว่าจะอยู่ประเทศไทยหรือเกาหลีก็ตามต้องถือกฎระเบียบทั้งสองประเทศชาติ เพราะฉะนั้น การขาดความรู้เรื่องข้อปฏิบัติเหล่านั้น เป็นเหตุผลที่อาจก่อให้เกิดปัญหาทางกฎหมายสำหรับชาวเกาหลี เมื่อมาอยู่อาศัยในประเทศไทย

การที่ชาวเกาหลีมาเรียนต่อในฐานะนักศึกษาแลกเปลี่ยนที่ประเทศไทย เป็นการเรียนรู้ภาษาโดยผ่านการเรียนรู้แบบข้ามวัฒนธรรม (Cross Culture) เป็นการเรียนรู้ภาษาที่สามารถนำมาใช้สื่อสารกับเจ้าของภาษานั้น ๆ ได้อย่างน่าประทับใจรวมทั้งปฏิบัติด้วยท่าทีที่เหมาะสม (อารดี อภิวงค์งาม, 2557) และดังที่โยทกา พูลทอง และนิธิอร พรอำไพสกุล (2566) กล่าวว่า ตำราภาษาไทยของผู้เรียนชาวเกาหลีมีการบูรณาการมิติทางวัฒนธรรมไทย เพื่อเสริมสร้างความเข้าใจและความตระหนักในวัฒนธรรมไทย ซึ่งสอดคล้องกับความสำคัญของผลการศึกษาครั้งนี้ เพราะฉะนั้นผู้วิจัยจึงสรุปได้ว่า การเรียนรู้เรื่องข้อปฏิบัติเพื่อการอยู่อาศัยในประเทศไทยสำหรับชาวเกาหลีนั้น มีประโยชน์ และมีความสำคัญมาก เนื่องจากการขาดความรู้เรื่องข้อปฏิบัติเหล่านั้น เป็นเหตุผลสำคัญที่อาจก่อให้เกิดปัญหาทางกฎหมายสำหรับชาวเกาหลี เมื่อมาแลกเปลี่ยนเรียนอยู่อาศัยในประเทศไทย ผลการวิจัยครั้งนี้จะเป็นสื่อสำคัญสำหรับผู้เรียนชาวเกาหลีที่เรียนภาษาไทยในฐานะภาษาต่างประเทศ อีกทั้งจะเป็นแนวทางปฏิบัติตนที่ถูกต้องเหมาะสมกับสังคมไทยสำหรับผู้เรียนชาวเกาหลีที่จะเตรียมตัวมาอยู่อาศัยในประเทศไทยได้ ตั้งแต่ก่อนเดินทางจนถึงเดินทางกลับ

ข้อเสนอแนะ

1. ควรศึกษาและวิเคราะห์ข้อปฏิบัติเพื่อการอยู่อาศัยในประเทศไทยสำหรับผู้เรียนชาวต่างชาติอื่น
2. ควรนำผลการวิจัยไปสร้างสื่อการเรียนการสอนภาษาไทยในฐานะภาษาต่างประเทศสำหรับผู้เรียนชาวเกาหลีได้

บทคัดย่อ

งานวิจัยนี้มีวัตถุประสงค์เพื่อศึกษาภาพพจน์และแนวคิดที่ปรากฏในบทเพลงของ ภูมิมินท์ บึงชารี โดยใช้ข้อมูลเพลง จำนวน 38 เพลงเป็นตัวอย่างในการวิเคราะห์ข้อมูล ผลการวิจัยพบว่า ภาพพจน์มีทั้งสิ้น 7 ประเภท พบการใช้อุปลักษณ์มากที่สุด จำนวน 22 เพลง รองลงมา คือ คำถามเชิงวาทศิลป์ จำนวน 12 เพลง อุปมา จำนวน 8 เพลง อติพจน์และนามนัย จำนวน 7 เพลง สัญลักษณ์ จำนวน 6 เพลง และบุคลาธิษฐาน จำนวน 4 เพลง ตามลำดับแนวคิดมีทั้งสิ้น 6 ประเภท ได้แก่ แนวคิดเกี่ยวกับความรักมากที่สุด จำนวน 16 เพลง รองลงมา คือ แนวคิดเกี่ยวกับการให้ความสำคัญกับคนรอบตัว จำนวน 9 เพลง แนวคิดเกี่ยวกับการใช้ชีวิตให้ดีก่อนที่จะสายไป จำนวน 6 เพลง แนวคิดเกี่ยวกับความพยายาม จำนวน 4 เพลง แนวคิดเกี่ยวกับการพอใจในสิ่งที่ตนมี จำนวน 2 เพลง และแนวคิดเกี่ยวกับการรักตัวเอง จำนวน 1 เพลง ตามลำดับ ซึ่งผลการวิจัยครั้งนี้สะท้อนเห็นว่าบทเพลงของภูมิมินทร์ บึงชารี มีคุณค่าด้านการใช้ภาษาที่สวยงามและมีแนวคิดที่เป็นประโยชน์ต่อผู้ฟังด้านการดำเนินชีวิตให้มีความสุข

คำสำคัญ: บทเพลง, ภาพพจน์, แนวคิด, ภูมิมินท์ บึงชารี

Abstract

This research aimed to study the figures of speech and concepts that appear in the songs of Pumin Buengchari. There were 38 songs used as a sample. The results of the research showed that: A total of 7 types of figures of speech were found, with the most common use being metaphor (22 songs), followed by rhetorical question (12 songs), simile (8 songs), hyperbole and metonymy (7 songs), symbol (6 songs), and personification (4 songs), respectively. A total of 6 types of the concepts were found, including the concept about love the most (16 songs), followed by the concept about giving importance

to people around you (9 songs), the concept about living life well before it's too late (6 songs), the concept about making effort (4 songs), the concept about being satisfied with what you have (2 songs), and the concept about loving yourself (1 songs), respectively. The results of the research reflected that the songs of Pumin Buengchari had beautiful language value and useful concept for listeners to live a happy life.

Keywords: songs, figures of speech, the concepts, Phumin Buengchari

บทนำ

บทเพลงเป็นรูปแบบหนึ่งของการประพันธ์ที่เป็นศิลปะ โดยอาศัยภาษาประกอบเข้ากับท่วงทำนองดนตรีเพื่อถ่ายทอดแนวความคิดและเรื่องราวความเป็นไปของสังคมในแต่ละยุคสมัย (สินศักดิ์ ไตรสารศรี, 2538 : 1) นอกจากนี้บทเพลงยังเป็นวรรณกรรมที่เข้าถึงผู้รับสารหรือผู้ฟังได้ง่าย ทั้งยังสื่อสาระสุนทรียภาพตลอดจนสร้างความสะเทือนอารมณ์ให้แก่ผู้ฟังได้ ดังที่ บุญยงค์ เกศเทศ (2536 : 116-117) กล่าวถึงวรรณกรรมเพลงไว้ว่า "เป็นบันเทิงคดีที่มีสาระประเภทหนึ่งในวงวรรณกรรมไทย เพราะเพลงจะเข้าถึงผู้คนได้ดีกว่าวรรณกรรมประเภทอื่น โดยไม่ต้องไปพะวงอ่านเพียงผ่านหูก็เกิดสุนทรียภาพ มีรสชาติและเกิดความสะเทือนอารมณ์ได้"

ผู้วิจัยพบว่า ปัจจุบันมีบทเพลงหนึ่งที่โด่งดังมากในสื่อโซเชียล โดยมีเนื้อเพลงดังนี้

“จงมีชีวิตในวันต่อวันอย่างธรรมดา เก็บเกี่ยวไขว้คว้าแค่เพียงที่ไหวแล้วใจไม่เจ็บช้ำ แล้วภูมิใจกับสิ่งที่ทำรวมทั้งจดจำแค่สิ่งที่ดี ไม่มีใครรู้ว่าพรุ่งนี้ เราอาจจะมีโอกาสอีกไหม ขอให้เราเป็นหนึ่งคนเมื่อแก่ชราที่มองขอบฟ้าเมื่อสุริยากำลังจะตกพื้น แล้วไม่มีสิ่งใดติดอยู่ในใจที่เคยหลงลืม ทำได้เพียงแค่ยื่นโบกมือให้แก่ความหลังที่มันงดงาม เพียงแค่นั้น ....”

(สุดทาง: ภูมิมินท์ บึงชารี, 2566)

เนื้อเพลงดังกล่าวข้างต้น เป็นเหมือนการเล่าเรื่องราวที่แฝงไปด้วยข้อคิดในการใช้ชีวิต เป็นพลังบวกและสิ่งที่เตือนสติผู้ฟังได้ดี แสดงให้เห็นว่าเป็นเพลงที่กลั่นกรองออกมาจากใจ มีความงดงามทั้งภาษาและความหมาย ซึ่งบทเพลงหลายเพลงของภูมิมินท์มักจะมีรูปแบบการนำเสนอที่มีเอกลักษณ์โดดเด่น และมีเสน่ห์เฉพาะตัว กล่าวคือ เนื้อหามักมีรูปแบบยาวคล้ายบทกวี มีการปรากฏแนวคิดสอนใจและมักใช้ภาพพจน์ในการนำเสนอเนื้อหา

ภูมิมินท์ บึงชารี หรืออาร์ต นักร้องนำวงภูมิมินท์ ศิลปินอินดี้ขวัญใจคนรุ่นใหม่มีเพลงฮิตของวง คือ “หล่นหายระหว่างทาง” “ผ่านวัยเยาว์” และ “ใครงามเลิศในปฐพี” แม้บทเพลงของภูมิมินท์จะใช้ถ้อยคำง่าย ๆ ในการแต่งและสื่อสารแต่ในแต่ละวรรคตอนนั้น ได้แฝงไปด้วยเรื่องราวให้ขบคิดทุกบทเพลงที่ได้รับฟังได้สื่อถึงความเป็นธรรมชาติและสัจธรรมของมนุษย์ทุก ๆ คน และยังเป็นบทเพลงแห่งกำลังใจ รวมถึงเป็นพลังแห่งความหวังให้กับผู้คนที่ได้รับฟัง ภูมิมินท์เป็นทั้งนักร้องและนักแต่งเพลง ทุกบทเพลงล้วนมีความหมายแฝงไปด้วยข้อคิด สัจธรรมและปรัชญาการใช้ชีวิต ในการแต่งเพลงก็ได้นำเรื่องราวชีวิตตน ที่ได้พบเจอแต่งเป็นเนื้อเพลงและถ่ายทอดออกมาเป็นบทเพลงให้กับผู้ฟัง โดยส่วนใหญ่จะสอนแนวคิดเกี่ยวกับการพบเจอ การจากลา และการสูญเสีย ทำให้บทเพลงของภูมิมินท์มีคุณค่าและโดดเด่นเฉพาะตัวรวมไปถึงมีอิทธิพลต่อผู้ฟังอีกด้วย

วัตถุประสงค์ของการวิจัย

เพื่อศึกษาภาพพจน์และแนวคิดที่ปรากฏในบทเพลงของภูมิมินท์ บึงชารี

แนวคิด ทฤษฎี กรอบแนวคิด

ผู้วิจัยได้ทบทวนเอกสารแนวคิด ทฤษฎี และงานวิจัยที่เกี่ยวข้อง ดังมีรายละเอียดต่อไปนี้

1. ภาพพจน์

สุจิตรา จงสถิตวัฒนา (2548 :52) กล่าวว่า ภาพพจน์มีหลายประเภท สรุปได้ดังนี้

1. อุปมา (Simile) คือ ภาพพจน์เปรียบเทียบสิ่งที่เหมือนกันโดยมีคำเชื่อมโยง เช่นคำว่า เหมือน ดุจ ดั่ง เช่นปาน ราว ประหนึ่ง เพียง เทียม ฯลฯ เช่น บ้านหลังนี้เงียบราวกับป่าช้า

2. อุปลักษณ์ (Metaphor) คือ ภาพพจน์เปรียบเทียบที่นำลักษณะเด่นของสิ่งที่ต้องการมากล่าวทันทีโดยไม่มีคำเชื่อมโยงหรือบางครั้งหากมีคำว่า “เป็น” เช่น ไก่ค่อยผันค่อยผาย ระร่ายลายตีน เดินดำเนินหงส์ยกย่าง ในที่นี้เปรียบการเดินของไก่กับลีลาของหงส์

3. อนุนามนัย (Synecdoche) คือ ภาพพจน์ที่เกิดจากการใช้คุณสมบัติเด่น ๆ ส่วนหนึ่งเพื่อแทนความหมายทั้งหมด เช่น การเวลาคร่าทุกสิ่งไปจากฉันทิ้งไว้แต่ความทรงจำและรอยย่นที่ขอบตา รอยย่นที่ขอบตา เป็นเพียงส่วนเดียวของร่างกายที่แสดงถึงความชราในที่นี้รอยย่นที่ขอบตา หมายถึง ความแก่ชรา หรือความร่วงโรยของสังขาร (ร่างกายทั้งร่าง)

4. อธินามนัย (Metonymy) คือ ภาพพจน์ที่เกิดจากการใช้ชื่อเรียกรวม ๆ แทนสิ่งใดสิ่งหนึ่งหรือบุคคลกลุ่มใดกลุ่มหนึ่งหรือคนหนึ่งเช่น ไทยนี้รักสงบ ปกติเมื่อพูดว่า ไทยอาจรวมทั้งประเทศผู้คน แต่ในที่นี้ชาวไทย คือ คนไทยเท่านั้นไม่ใช่อย่างอื่น

5. บุคลาธิษฐาน (Personification) คือ ภาพพจน์ที่เกิดจากการเปรียบเทียบโดยนำสิ่งไม่มีชีวิตหรือมีชีวิตแต่ไม่ใช่คนมากล่าวถึงราวกับเป็นคน เช่น ทะเลไม่เคยหลับใหล ใครตอบได้ไหมไฉนจึงตื่นนาข้าวและธัญพืชทั้งมวล ล้วนโค้งศีรษะให้อุทก

6. อติพจน์ (Hyperbole) คือ ภาพพจน์เปรียบเทียบเกินความจริง เช่น รักคุณเท่าฟ้า เรียมร่ำน้ำเนตรถ้วมถึงพรหม ภาพพจน์เกินความจริงเช่นนี้เป็นจริงได้ในความรู้สึก

7. สัทพจน์ (Onomatopoeia) คือ ภาพพจน์เปรียบเทียบโดยใช้คำเลียนเสียงหรือการใช้คำที่มีเสียง สี แสง ท่าทาง เช่น เปรตกู่ก้องน้องตะเบิม

8. วิภาษ (Oxymoron) คือ ภาพพจน์ที่เกิดจากการใช้คำที่มีความหมายขัดแย้งกัน นำมาคู่กันได้อย่างกลมกลืน เช่น ลมหนาวพัดอ้าวจนหนาวเหน็บเจ็บกระดูก

9. อรรถวิภาษ (Paradox) คือ ภาพที่เกิดจากการแสดงความหมายที่ดูเหมือนจะขัดแย้งกัน หรือเป็นไปไม่ได้ แต่เมื่อวิเคราะห์ความหมายลึกลงไปอาจตีความได้อย่างกลมกลืน เช่น อกชลคลาแคล้วแผ่นปฐพีอก ให้ความรู้สึกอบอุ่นนุ่มนวล แต่ ชล มีลักษณะไหลให้ความชุ่มชื่น ความเย็น ลักษณะทั้ง 2 อย่างนี้ขัดแย้งกันแต่ปรากฏอยู่ในสิ่งเดียวกัน เป็นความขัดแย้งที่ไปด้วยกันได้ “วิภาษ” เป็น การใช้คำที่ขัดแย้งมาเข้าคู่กันแต่อรรถวิภาษ หมายถึง ความที่ขัดแย้งกันแต่ไปด้วยกันได้

ในขณะที่ ศกุนตลา กะราลัย (2549 :17-20) ได้ศึกษาและสรุปประเภทของภาพพจน์ไว้ 12 ประเภท ดังนี้ อุปมา (simile) อุปลักษณ์ (metaphor) สัญลักษณ์ (symbol) นามนัย (metonymy) อติพจน์ (hyperbole) บุคลาธิษฐาน (personification) ปฏิทรรศน์ (paradox) ปฏิพจน์ (oxymoron) คำถามเชิง

วาทศิลป์ (rhetorical question) การเลียนเสียงธรรมชาติ (onomatopoeia) สัมพจนัย (synecdoche) และการกล่าวอ้างถึง (allusion)

2. แนวคิดหรือข้อคิด

คำว่า “ข้อคิด” มีความหมายคล้ายคลึงกับคำว่า “แนวคิด” ซึ่งอธิบายได้ดังนี้

พจนานุกรมฉบับราชบัณฑิตยสถาน (2554: 178) ได้ให้ความหมายของ “ข้อคิด”ไว้ว่า ประเด็นที่เสนอให้คิด, ประเด็นที่ชวนคิด

กุหลาบ มัลลิกะมาส (2546: 105) กล่าวถึงแนวคิดไว้ว่า แนวคิด หมายถึง ทัศนะ หรือมุมมองที่ส่งจากผู้เขียนมายังผู้อ่าน ผู้ประพันธ์จะมีแนวความคิดของตนที่มีอยู่ต่อโลก ต่อสังคมและต่อชีวิตมนุษย์แตกต่างกัน แนวคิดหรือปรัชญาของนักเขียนจึงมีหลายแนวและต่างพยายาม ถ่ายทอดแนวความคิดหรือปรัชญาต่าง ๆ นั้นในงานเขียนที่ตนแต่งขึ้นเสมอ

บุญยงค์ เกศเทศ (2525: 30) กล่าวถึงแนวคิดไว้ว่า แนวคิด หมายถึง ความคิดสำคัญที่สุดของเรื่องที่นักประพันธ์ต้องการแสดงในหนังสือเล่มนั้น ๆ เป็นเสมือนแนวในการดำเนินเรื่องของนักประพันธ์ นักประพันธ์จะแสดงแนวคิดได้โดยอาศัยตัวละครบทสนทนา และเหตุการณ์ในเรื่องเพื่อย้ำแนวคิดของเรื่อง

ธัญญา สังขพันธานนท์ (2539: 250) กล่าวถึงแนวคิดไว้ว่าคือ "ความคิดอันเป็นศูนย์กลางในงานเขียนที่แสดงให้เห็นความเป็นจริงเกี่ยวกับประสบการณ์ของมนุษย์"

อิราวดี ไตลังคะ (2543: 66) กล่าวว่า "แนวคิด หมายถึง ความคิดที่นำเสนอในเรื่อง ซึ่งสรุปจากสถานการณ์เฉพาะของโลกบันเทิงคดีออกมาเป็นความเข้าใจทั่ว ๆ ไปเกี่ยวกับโลกในชีวิตจริง แนวคิดในงานประพันธ์มี 2 ลักษณะ คือ

1. แนวคิดสำคัญหรือสาระสำคัญของเรื่อง บางทีเรียกว่า "แก่นเรื่อง" หมายถึงความคิดสำคัญที่ผู้แต่งใช้เป็นแนวทางในการผูกโครงเรื่อง เช่น แนวคิดสำคัญของเรื่อง ธรรมาธรรมะสงคราม คือ ธรรมะย่อมชนะอธรรม

2. แนวคิดอื่น ๆ คือ ความคิด หรือ ข้อคิด แง่คิดต่าง ๆ หรือ "สาร" ที่ผู้แต่งแทรกไว้ในเรื่อง เช่น แนวคิดอื่น ๆ ในเรื่องธรรมาธรรมะสงคราม นอกเหนือจากแนวคิดสำคัญมีหลายประการ พอจะยกเป็นตัวอย่างได้ดังนี้ ขันติจะช่วยให้ชนะอธรรมได้ ผู้ประพฤติธรรมย่อมก่อให้เกิดผลดีทั้งแก่ตนเองและแก่สังคมโดยส่วนรวม

เว็บไซต์ Icon Collective (2568) ได้ให้ความหมายไว้ว่าข้อคิดในเพลง หมายถึง แนวคิดหรือแง่คิดที่ผู้แต่งเพลงต้องการสื่อสารให้ผู้ฟังได้รับรู้ ซึ่งมักจะเป็นข้อความที่สะท้อนถึงประสบการณ์ชีวิต ความรู้สึกหรือคำแนะนำที่มีคุณค่า โดยผ่านการเล่าเรื่องหรือเนื้อเพลง เพลงบางเพลงอาจให้ข้อคิดเกี่ยวกับความรักการต่อสู้ในชีวิต หรือการมองโลกในแง่บวกข้อคิดในเพลงจึงเป็นเหมือนการสะท้อนความรู้สึก หรือแง่มุมต่าง ๆ ที่อาจช่วยให้ผู้ฟังได้เรียนรู้หรือปรับตัวในชีวิตจริง

ข้อคิดในเพลงสามารถแบ่งออกได้หลายประเภท ขึ้นอยู่กับเนื้อหาและความหมายของเพลงนั้น ๆ โดยทั่วไป สามารถแบ่งได้เป็นประเภทต่าง ๆ เช่น

1. ข้อคิดด้านความรัก เพลงที่พูดถึงความรู้สึกในความรักทั้งในแง่ดีและแง่ร้าย เช่น ความรักที่ต้องการการดูแลเอาใจใส่ หรือการเจ็บปวดจากความรัก

2. ข้อคิดด้านชีวิตและการใช้ชีวิต เพลงที่สะท้อนถึงการใช้ชีวิตการมองโลกในแง่บวกหรือลบ การต่อสู้กับอุปสรรค หรือการหาความสุขในชีวิต

3. ข้อคิดด้านการต่อสู้และความพยายาม เพลงที่ให้กำลังใจเกี่ยวกับการเอาชนะอุปสรรค ความพยายามในการทำสิ่งต่าง ๆ และการไม่ยอมแพ้

4. ข้อคิดด้านสังคมและโลก เพลงที่สะท้อนถึงปัญหาสังคม เช่น ความยากจน ความไม่เป็นธรรม หรือการเรียกร้องความเท่าเทียมในสังคม

5. ข้อคิดด้านความฝันและการสร้างแรงบันดาลใจ เพลงที่พูดถึงการตามหาฝัน ความเชื่อมั่นในตัวเอง หรือการเดินตามเส้นทางที่ตัวเองต้องการ

6. ข้อคิดด้านการเรียนรู้และการเติบโต เพลงที่สะท้อนการเรียนรู้จากความผิดพลาด การเติบโตจากประสบการณ์และการพัฒนาเป็นคนที่ดีขึ้น

วิธีดำเนินการวิจัย

1. การสำรวจข้อมูล

ผู้วิจัยได้สำรวจข้อมูลบทเพลงของภูมิมินท์ บึงชารี ทางช่องยูทูบ Phumin (Official) โดยการศึกษาบทเพลงตั้งแต่ปี พ.ศ. 2564 จนถึง ปี พ.ศ. 2567 เป็นจำนวน 38 เพลงพร้อมทั้งศึกษาค้นคว้าเกี่ยวกับเอกสารและงานวิจัยที่เกี่ยวข้องกับภาพพจน์และแนวคิดที่ปรากฏในบทเพลง เพื่อนำมาใช้เป็นแนวทางในการศึกษา

2. การคัดเลือกข้อมูล

ผู้วิจัยได้คัดเลือกบทเพลงของภูมิมินท์ บึงชารี ทางช่องยูทูบ Phumin (Official) เฉพาะ ปี พ.ศ. 2564 จนถึง ปี พ.ศ. 2567 รวมทั้งสิ้นจำนวน 38 เพลง ซึ่งถือเป็นตัวแทนในการวิเคราะห์ข้อมูลที่เพียงพอและเป็นผลงานการประพันธ์ของภูมิมินท์ บึงชารี ทั้งหมด ดังต่อไปนี้

ปี พ.ศ. 2564 มีจำนวน 9 เพลง ดังนี้ 1. ปู่ย่าหลาน 2. เสรีอัญชัน 3. จักรวาลสัมพันธ์กันอยู่ 4. ยินดีมากกว่า 5. ไม่ถือโทษโกรธเคือง 6. ใครงามเลิศในปฐพี : ร้องคู่กับศิลปิน วรินทร์ (ศิวรินทร์ พูลวงษ์) 7. อัสดง 8. แสงตะเกียงปลายดอย และ 9. เรือน้อยผู้ยิ่งใหญ่

ปี พ.ศ. 2565 มีจำนวน 13 เพลง ดังนี้ 1. มัธยม 2. บันทึกชีวิตในสมุดสีดำ 3. หากเวียนมาพบกันใหม่ 4. การจากลาคือเรื่องหนึ่ง 5. ฉันยินดีโอบกอดเธอ 6. หากมีรัก 7. นายหญิง 8. หิ่งห้อย พระจันทร์ดวงดาว 9. ภาพทรงจำในกาลเวลา 10. หล่นหายระหว่างทาง 11. จดหมายถึงดาวพลูโต 12. ผ่านวัยเยาว์ และ 13. อยากให้ลองฟัง

ปี พ.ศ. 2566 มีจำนวน 11 เพลง ดังนี้ 1. ตกตะกอน 2. ผู้มีอิทธิพล 3. ดอกไม้ที่ไร้กลิ่น 4. สุดทาง 5. พอแล้วพอ 6.ท้องฟ้าต่างกันฉันใด 7. สุดจะเกินใจ 8. ฉันโคตรฝืน 9. วัฏจักรความรู้สึก 10. ประกายฝน และ 11. ค่ำผ่านทาง

ปี พ.ศ. 2567 มีจำนวน 5 เพลง ดังนี้ 1. เปลี่ยนผันไปตามวิถี 2. รัตติกาล 3. เราไม่ใช่ส่วนเกิน 4. ไม่มีพรุ่งนี้ไว้รอใคร และ 5. เพราะเธอคือดอกไม้ : ร้องคู่กับศิลปิน วรินทร์ (ศิวรินทร์ พูลวงษ์)

3. การเก็บรวบรวมข้อมูล

ผู้วิจัยเก็บรวบรวมข้อมูลทางอินเทอร์เน็ตจากเว็บไซต์ http://www.youtube.com โดยข้อมูลที่ผู้วิจัยนำมาใช้ในการศึกษาครั้งนี้ ผู้วิจัยได้ถ่ายถอดเทปของบทเพลงทั้งหมดมาเป็นตัวอักษรด้วยตนเอง เพื่อคัดเลือกข้อมูลและคัดเฉพาะข้อมูลที่เป็นการใช้ภาพพจน์ และแนวคิดที่ปรากฏในบทเพลง

4. การวิเคราะห์ข้อมูล

ในการจัดกลุ่มข้อมูลจากการวิเคราะห์และได้เรียบเรียงผลการวิจัย โดยวิธีพรรณนาวิเคราะห์ผู้วิจัยได้แบ่งข้อมูลด้านเนื้อหาเป็น 2 ประเด็น ได้แก่

1. ภาพพจน์ที่ปรากฏในบทเพลงของ ภูมิมินท์ บึงชารี
2. แนวคิดที่ปรากฏในบทเพลงของ ภูมิมินท์ บึงชารี

ผลการวิจัย

จากการศึกษาการใช้ภาพพจน์และแนวคิดที่ปรากฏในบทเพลงของภูมิมินท์ บึงชารี ทั้งหมด 38 เพลง พบภาพพจน์และแนวคิด ที่ปรากฏดังรายละเอียดต่อไปนี้

1. ภาพพจน์ที่ปรากฏในบทเพลงของ ภูมิมินท์ บึงชารี

ภาพพจน์เป็นศิลปะในการใช้ภาษาอย่างหนึ่ง โดยมีจุดประสงค์เพื่อจะขยายความและเพื่อถ่ายทอดความรู้สึกนึกคิด เมื่อผู้ประพันธ์นำโวหารมาประกอบในการแต่งบทเพลงก็จะทำให้ผู้ฟังเกิดอารมณ์คล้อยตามและเข้าใจความหมายได้อย่างกว้างขวางและลึกซึ้ง จากการศึกษาบทเพลงของภูมิมินท์ พบภาพพจน์ทั้งสิ้น 7 ประเภท ได้แก่ อุปมา อุปลักษณ์ สัญลักษณ์ นามนัย อติพจน์ บุคลาธิษฐาน และคำถามเชิงวาทศิลป์ ดังต่อไปนี้

1.1 อุปมา (simile) คือ การเปรียบเทียบสิ่งหนึ่งกับอีกสิ่งหนึ่ง ที่โดยธรรมชาติแล้วมีสภาพที่แตกต่างกัน แต่มีลักษณะเด่นร่วมกันและใช้คำที่มีความหมายว่าเหมือนหรือคล้ายเป็นคำแสดงเปรียบเทียบเพื่อเน้นให้เห็นจริงว่าเหมือนอย่างไรและในลักษณะใด เช่น ให้เห็นความงาม ความรัก เป็นต้น และจะใช้คำเชื่อมแสดงการเปรียบเทียบไว้อย่างชัดเจน เช่น คล้าย เหมือน ดั่ง ดังหนึ่ง ราว ราวกับ ดุจ ประดุจ เปรียบปาน เป็นต้น จากการศึกษาพบการใช้อุปมา ดังตัวอย่างต่อไปนี้

> “เธอ**<u>เปรียบดั่ง</u>**ต้นไม้ ที่เด่นสวยหลายราตรี ผลัดใบสีเขียวขจี สง่าสูง
> เทียบแผ่นฟ้า มีต้นไม้มากมาย ที่ผุดขึ้นตามกาลเวลา **<u>เปรียบดั่ง</u>**ผู้คน
> นานา ที่ผ่านมาในชีวิตเธอ”
>
> (ฉันยินดีโอบกอดเธอ: ภูมิมินท์ บึงชารี, 2565)

จากตัวอย่างข้างต้นคำอุปมาที่พบ คือคำว่า “เปรียบดั่ง” จากเนื้อหาของเพลงเป็นการกล่าวถึงการเปรียบเทียบผู้หญิงเหมือนต้นไม้ใหญ่ที่เด่นและสวยงาม มีต้นไม้มากมายที่โตขึ้นรอบ ๆ ต้นไม้ใหญ่เหมือนผู้คนที่ผ่านเข้ามาและอยู่ล้อมรอบตัวเธอ

> “ไม่ต้องห่วงฉัน เพราะฉันสบายดี แต่แค่ในตอนนี้ ฉันนั้นยังไม่ชิน
> **<u>เหมือน</u>**นกที่ไม่กล้าบินออกสู่ฟ้าไกล ขอให้เธอโชคดี ฉันยินดีเสมอ
> ขอให้เธอได้เจอ รักที่มันคู่ควร”
>
> (ฉันโคตรฝืน: ภูมิมินท์ บึงชารี, 2566)

จากตัวอย่างข้างต้นคำอุปมาที่พบ คือ คำว่า “เหมือน” จากเนื้อหาของเพลงเป็นการกล่าวถึงการเปรียบเทียบความไม่กล้าหาญพอ เหมือนกับนกที่ไม่กล้าบินออกไปยังโลกกว้างเพื่อเผชิญความจริง ว่าในชีวิตนั้นไม่ได้มีคนรักคนเดิมอยู่ในชีวิตแล้ว

1.2 อุปลักษณ์ (metaphor) คือ การเปรียบเทียบด้วยการกล่าวว่าสิ่งหนึ่งเป็นอีกสิ่งหนึ่งโดยใช้คำแสดงการเปรียบเทียบว่า "เป็น" หรือ "คือ" ความหมายจึงลึกซึ้งกว่าอุปมาจากการศึกษาพบการใช้อุปลักษณ์ ดังตัวอย่างต่อไปนี้

"ฉัน**เป็น**นกเสรีที่จะบินไปที่ใดก็ได้ สูงจากพื้นดินขึ้นไปสามารถบินไปได้ทั่วแผ่นฟ้า แต่ฉันไม่ไปดีกว่าเพราะว่านภาไม่ใช่ที่ฝัน แต่ลองมองกลับกัน ถ้าเป็นอัญชันอยู่ไหนก็ไปหา"

(เสรีอัญชัน: ภูมิมินท์ บึงชารี, 2564)

จากตัวอย่างข้างต้นคำอุปลักษณ์ที่พบ คือ คำว่า "เป็น จากเนื้อหาของเพลงเป็นการกล่าวถึงการเปรียบตัวเองเป็นนกที่เสรีเพราะนกเสรีนั้น สามารถบินไปที่ไหนก็ได้ตามใจต้องการและมีอิสระ บินไปได้จากพื้นดินไปยังทั่วแผ่นฟ้า

"ถ้าดังตัวฉัน**เป็น**เรือ ฉันจะยังต้องเดินต่อไป เพื่อคนข้างหลังมากมาย เฝ้ารอจุดหมายหมายถึงความมุ่งมั่น ให้เลวร้ายเพียงใดก็จะไปให้ถึง

(เรือน้อยผู้ยิ่งใหญ่: ภูมิมินท์ บึงชารี, 2564)

จากตัวอย่างข้างต้นคำอุปลักษณ์ที่พบ คือ คำว่า "เป็น" จากเนื้อหาของเพลงเป็นการกล่าวถึงการเปรียบตัวเองเป็นเรือ คือ การที่ต้องเป็นผู้นำในการปกป้องและนำพาทุกคนให้ไปถึงจุดหมายเหมือนเรือที่บรรทุกสินค้า แต่เปลี่ยนเป็นการบรรทุกผู้คนและความหวังมากมายเพื่อให้ถึงฝั่งฝัน แม้จะเจอปัญหาหรืออุปสรรคที่เลวร้ายมากเพียงใด ก็ต้องปกป้องคนในเรือให้ปลอดภัย

1.3 สัญลักษณ์ (symbol) คือ การเปรียบเทียบที่เรียกสิ่งหนึ่งสิ่งใด โดยใช้คำอื่นแทนคำที่ใช้เรียก นั้นเกิดจากการเปรียบเทียบและตีความ ซึ่งใช้กันมานานจนเป็นที่เข้าใจโดยทั่วไปจากการศึกษาพบการใช้สัญลักษณ์ ดังตัวอย่างต่อไปนี้

"ในวันที่เลวร้ายยังมี**ดอกไม้ขึ้นบนเปลวไฟ** เสียงปืนดังมาแต่ไกล แต่ว่าเสียงหัวใจมันดังกว่าปืน ผ่านมาไม่กี่ปีสงครามกลางเมืองเคลื่อนมาที่ไทย"

(ปู่ย่าหลาน: ภูมิมินท์ บึงชารี, 2564)

จากตัวอย่างข้างต้นคำสัญลักษณ์ที่พบ คือ "ดอกไม้" และ "เปลวไฟ" กล่าวคือ ดอกไม้ ในนี้ที่ไม่ได้หมายถึงพืชแต่เป็นการใช้เรียกแทนสิ่งดี ๆ ที่เกิดขึ้นท่ามกลางวันเวลาที่กำลังเลวร้าย เปลวไฟ ในที่นี้ไม่ได้หมายถึงไฟแต่เป็นการใช้เรียกแทนเหตุการณ์ที่เลวร้าย จากเนื้อหาของเพลงเป็นการกล่าวถึงว่าแม้ในช่วงเวลาที่เลวร้ายก็มีสิ่งดี ๆ เกิดขึ้นมาท่ามกลางเปลวไฟได้

"การศึกษาเด็กน้อยบนภูเขา คือ ด้านมืดที่เราไม่เคยจะเอามาแก้ไขสักที พี่จ๋าเด็กน้อยอยู่บนนั้น เขาต้องมีความสำคัญ เท่าเทียมเด็กน้อยที่อยู่พื้นล่าง คือคำขอข้อสุดท้ายของ**เรือจ้าง**"

(แสงตะเกียงปลายดอย: ภูมิมินท์ บึงชารี, 2564)

จากตัวอย่างข้างต้นคำสัญลักษณ์ที่พบ คือ "เรือจ้าง" ซึ่งเป็นคำที่ใช้เปรียบเปรยกับอาชีพครูหรืออาจารย์ ที่เป็นเหมือนเรือจ้างคอยส่งลูกศิษย์ให้ถึงฝั่ง จากเนื้อหาของเพลงเป็นการกล่าวถึงการศึกษาไทยในพื้นที่บนดอยที่ห่างไกลความเจริญ

1.4 นามนัย (metonymy) คือ การใช้คำหรือวลี ซึ่งแบ่งลักษณะหรือคุณสมบัติของสิ่งหนึ่งสิ่งใดมาแสดงความความหมายแทนสิ่งนั้นทั้งหมด จากการศึกษาพบการใช้นามนัย ดังตัวอย่างต่อไปนี้

"ครูถวิลลาแล้ว**เมืองตึกสูง** และเส้นทางที่มุ่งจะมุ่งสู่ดอยทุรกันดารที่ตรงนั้นยังมีเพียงน้องฉันเด็กน้อยยังรอวันที่การศึกษาเข้ามาชโลมใจ"

(แสงตะเกียงปลายดอย: ภูมิมินท์ บึงชารี, 2564)

จากตัวอย่างข้างต้นคำนามนัยที่พบ คือ “เมืองตึกสูง” เป็นคำใช้เรียกลักษณะเมืองที่มีความเจริญก้าวหน้าและทันสมัย เนื้อหากล่าวถึงครูที่ออกจากเมืองเดินทางไปยังดอยที่ทุรกันดาร

“มีบางคำที่ยังค้างคาจากชายชราผู้เปลี่ยวเหงา วันเวลากำลังจะพรากเอา ตัวของเขา**<u>คืนสู่ดิน</u>**”

(หล่นหายระหว่างทาง: ภูมิมินท์ บึงชารี, 2565)

จากตัวอย่างข้างต้นคำนามนัยที่พบ คือ “คืนสู่ดิน” เป็นคำที่ใช้เรียกลักษณะ คือ ความตาย เพราะเมื่อเราตายก็จะกลับคืนสู่ธรรมชาติ จากเนื้อหาของเพลงเป็นการกล่าวถึง วันเวลากำลังจะผ่านพ้นไปและจะพาชายชราสู่ความตายที่ไม่อาจหนีได้

1.5 อติพจน์ (hyperbole) คือ การกล่าวเกินจริง ซึ่งเป็นความรู้สึกหรือความคิดของผู้กล่าว ที่ต้องการย้ำความหมายให้ฟังหนักแน่นจริงจัง ทั้งผู้กล่าวและผู้ฟังก็เข้าใจว่ามิใช่เป็นการกล่าวเท็จจากการศึกษาพบการใช้อติพจน์ ดังตัวอย่างต่อไปนี้

“ครั้งเมื่อเรามีกันข้างกาย ความไว้ใจมากมายเพียงนี้ เหมือนเวลาสั้นลงทุกที **<u>อยากให้มีวันหนึ่งสักล้านชั่วโมง</u>** ลมพัดมาเวลาเริ่มเปลี่ยนเรื่องราวก็ผิดเพี้ยนไปจากความเดิม”

(หากมีรัก: ภูมิมินท์ บึงชารี, 2565)

จากตัวอย่างข้างต้นเป็นการกล่าวเกินจริง คือ “อยากให้มีวันหนึ่งสักล้านชั่วโมง” เนื้อหาของเพลงเป็นการกล่าวถึงตอนที่ไม่มีคนที่รักอยู่ข้างกายแล้ว ทำได้เพียงคิดถึงเวลาที่เคยมีร่วมกันในตอนนั้น ทำให้อยากมีเวลาวันหนึ่งมีสักล้านชั่วโมง เพราะในความเป็นจริงแล้วเวลาในหนึ่งวันมีเพียง 24 ชั่วโมงเท่านั้น

“ทำไมในยามที่ฉันเริ่มรู้สึกตัวความตายคืบคลาน **<u>บริวารเป็นหมื่นแสนล้าน</u>**ไม่เจอสักคนหากเมื่อต้องลา”

(ผู้มีอิทธิพล: ภูมิมินท์ บึงชารี, 2566)

จากตัวอย่างข้างต้นเป็นอติพจน์การกล่าวเกินจริง คือ “บริวารเป็นหมื่นแสนล้าน” จากเนื้อหาของเพลงเป็นการกล่าวถึงว่าเมื่อความตายเข้ามาใกล้ตัว จะมีบริวารมากมายขนาดไหนแต่ก็ไม่มีใครสักคนที่อยู่ในช่วงเวลาที่ต้องการ จึงเป็นการกล่าวเกินจริงโดยเปรียบเทียบว่าเหมือนมีบริวารเป็นแสนหมื่นล้านคนก็ไม่มีความหมาย

1.6 บุคลาธิษฐาน (personification) คือ การสมมติให้สิ่งที่ไม่มีชีวิต ไม่มีมีความคิด สิ่งที่เป็นนามธรรม หรือสัตว์ให้มีสติปัญญาอารมณ์หรือกิริยาอาการเหมือนมนุษย์ จากการศึกษาพบการใช้บุคลาธิษฐาน ดังตัวอย่างต่อไปนี้

“แต่ถ้ามันเป็น**<u>ภูเขาที่คอยอุ้มชูพงศ์พันธ์</u>**หน้าหนาวมากมายต่อให้จะเสื่อมสลายก็จะกล้ำกลายมาเป็นปุ๋ยดิน”

(ผู้มีอิทธิพล: ภูมิมินท์ บึงชารี, 2566)

จากตัวอย่างข้างต้นเป็นบุคลาธิษฐาน คือ การกล่าวถึงภูเขา เป็นสิ่งที่ไม่มีชีวิต ให้มีกิริยาอาการเหมือนมนุษย์ โดยการใช้คำกริยาคำว่า อุ้มชู จากเนื้อหาของเพลงเป็นการกล่าวถึงบุคคลที่คอยดูแลคนอื่นแต่สุดท้ายเมื่อตายจากก็ต้องถูกลืม

“ไม่ใช่ฝนไม่ใช่ลำธารที่หล่อเลี้ยงความงามของเจ้า **<u>ดอกหญ้าไม่คิดบ้างเลยหรือเปล่า</u>** ว่าเจ้าสวยงามทุกวันนี้เพราะใคร”

(วัฏจักรความรู้สึก: ภูมิมินท์ บึงชารี, 2566)

จากตัวอย่างข้างต้นเป็นบุคลาธิษฐาน คือ การกล่าวถึงดอกหญ้าที่ไม่มีความคิด เป็นเพียงพืชชนิดหนึ่ง ซึ่งทำให้มีความรู้สึกนึกคิดเหมือนมนุษย์ จากเนื้อหาของเพลงเป็นการกล่าวถึงการถามคำถามต่ออีกฝ่าย ว่ารู้หรือเปล่าที่ได้สวยงามอยู่ทุกวันนี้เพราะใครที่คอยดูแล

1.7 คำถามเชิงวาทศิลป์ (Rhetorical question) คือ การตั้งคำถามแต่มิได้หวังคำตอบหรือถ้ามีคำตอบก็เป็นคำตอบที่ทั้งผู้ถามและผู้ตอบรู้ดีอยู่แล้ว จากการศึกษาพบการใช้คำถามเชิงวาทศิลป์ ดังตัวอย่างต่อไปนี้

> “นานวัน กว่าความรัก จะตกตะกอนเป็นความหวานฉ่ำ **<u>เธอคิดให้ดีหรือยัง</u>** ถ้าในสักวันต้องกลายเป็นคนแปลกหน้า”
>
> (อยากให้ลองฟัง: ภูมิมินท์ บึงชารี, 2565)

จากตัวอย่างข้างต้นเป็นคำถามเชิงวาทศิลป์ คือ การถามที่ไม่ต้องการคำตอบในประโยคที่ว่า “เธอคิดให้ดีหรือยัง” จากเนื้อของเพลงเป็นประโยคที่ทำให้ผู้ฟังลองคิดและไตร่ตรอง เพื่อปลุกความสงสัยและเน้นย้ำประโยคให้มีความน่าสนใจ เนื่องจากไม่มีคำตอบที่ชัดเจนสำหรับคำถามนี้

> “เวลาที่เหลือ คงมืดสนิท **<u>คงไม่อยากคิดจะทำสิ่งใด</u>** ฉันเลยปล่อยวาง
> ใครเข้าใครออก ก็ปล่อยให้เขานั้นได้เลือกเองที่เป็นแบบนี้”
>
> (ดอกไม้ที่ไร้กลิ่น: ภูมิมินท์ บึงชารี, 2566)

จากตัวอย่างข้างต้นเป็นคำถามเชิงวาทศิลป์ คือ การถามที่ไม่ต้องการคำตอบในประโยคที่ว่า “คงไม่อยากคิดจะทำสิ่งใด” จากเนื้อหาของเพลงเป็นการสื่อถึงการไม่อยากจะทำสิ่งใดเลย ซึ่งเป็นการเน้นย้ำประโยค เนื่องจากไม่จำเป็นต้องมีคำตอบสำหรับประโยคดังกล่าว

2. แนวคิดที่ปรากฏในบทเพลงของ ภูมิมินท์ บึงชารี

บทเพลงเป็นวรรณกรรมประเภทหนึ่งที่แฝงแนวคิดหรือข้อคิดคติเตือนใจต่าง ๆ ไปในเนื้อหาของเพลง ทำให้ผู้ฟังหรือผู้อ่านสามารถรับรู้ได้ว่าเนื้อเพลงมีแนวคิดที่เป็นประโยชน์อย่างไร แล้วจึงนำแนวคิดเหล่านั้นมาปรับใช้ในชีวิต และเพื่อรับรู้ว่าผู้แต่งต้องการให้แนวคิดกับผู้ฟังอย่างไร จากการศึกษาพบแนวคิด 6 ประเภท ได้แก่ การใช้ชีวิตให้ดีก่อนที่จะสายไป การให้ความสำคัญกับคนรอบตัว ความรัก ความพยายาม การพอใจในสิ่งที่ตนมี และการรักตัวเอง ดังรายละเอียดต่อไปนี้

2.1 การใช้ชีวิตให้ดีก่อนที่จะสายไป หมายถึง การทำในสิ่งต่าง ๆ ที่อยากทำโดยไม่ต้องรอคอยเวลาให้ผ่านไปอย่างสูญเปล่า จากการศึกษาพบแง่คิดเกี่ยวกับการใช้ชีวิตให้ดีก่อนที่จะสายไป ดังตัวอย่างต่อไปนี้

> “อยากจะย้อนกลับไปแก้ไข อยากกลับไปใช้ช่วงเวลาให้พอใจ
> เพราะถ้าฉันรู้แบบนี้ ก็คงไม่รอให้มันสาย ถ้าเกิดสุดท้ายต้องมา
> เสียดายคืนวัน ความฝันที่หลุดลอย เพราะฉันมัวคอยเวลาอยู่อย่างนั้น
> ในตอนนี้ที่ทำไว้คือหายใจเพื่อผ่านวัน ระลึกความฝันที่หล่นหาย”
>
> (หล่นหายระหว่างทาง: ภูมิมินท์ บึงชารี, 2565)

จากตัวอย่างข้างต้นเป็นการให้แนวคิดเกี่ยวกับการใช้ชีวิตให้ดีก่อนที่จะสายไป คือ อย่ารอให้วันเวลามันสายไป จนปล่อยให้ความฝันที่อยากทำหล่นหาย จากเนื้อหาของเพลงเป็นการกล่าวถึงคนหนึ่งที่เพิ่งจะนึกถึงความฝันในวันวานที่เขาไม่ได้ลงมือทำแต่ตอนนี้ เขาไม่มีแม้แต่แรงที่จะก้าวเดินเพื่อทำสิ่งเหล่านั้น ทำให้เขาคิดอยากจะย้อนเวลากลับไปทำในสิ่งที่ค้างคาใจ แต่ก็ทำได้เพียงระลึกถึงความฝันเท่านั้น

> “เพราะเราต่างล้วนอยากย้อนเวลากลับไปเริ่มใหม่ ไม่มีใครไหนอยากให้หัวใจเจ็บปวดสักคน แต่สุดท้ายก็ต้องจำนน นี่คือเหตุผลขอการเติบโต ถ้าย้อนเวลาไปได้ก็คง ไม่มีพรุ่งนี้ไว้รอใคร ไม่อาจหยุดยั้งให้เข็มเวลาไม่ผ่านพ้นไป ไม่อาจไขว่คว้าจะยื้อให้ใครอยู่เคียงข้างเรา ที่ผ่านมาแล้วขอให้แล้วไป ที่เคยหล่นหายล้วนเพียงส่วนนึง ถ้าเกิดว่าใจนั้นยังคิดถึงก็เก็บให้ลึกลงข้างใน”

(ไม่มีพรุ่งนี้ไว้รอใคร: ภูมิมินท์ บึงชารี, 2567)

จากตัวอย่างข้างต้น เป็นการให้แนวคิดเกี่ยวกับการใช้ชีวิตให้ดีก่อนที่จะสายไป คือ สิ่งที่ผ่านมาแล้วไม่สามารถที่จะย้อนกลับไปแก้ไขได้เพราะเวลามักเดินไปข้างหน้าเสมอ จากเนื้อหาของเพลงเป็นการกล่าวถึงว่า เราทุกคนล้วนอยากย้อนเวลากลับไปแก้ไขเรื่องราวต่าง ๆ แต่สุดท้ายก็ต้องยอมจำนนต่อเวลา ทำได้เพียงทำเรื่องราววันนี้ให้ดีที่สุดเพื่อการเติบโตของตนเองและเก็บเรื่องราวที่เคยผิดพลาดไว้ในใจ

2.2 การให้ความสำคัญกับคนรอบตัว คือ คนที่อยู่ใกล้ตัวเราที่สุดและคอยช่วยเหลือเรามากที่สุดแต่เรามักมองข้ามคนที่อยู่ใกล้ตัวที่สุดมักเป็นสิ่งที่ไม่สำคัญที่สุด สิ่งที่เราเห็นอยู่ทุกวันจนเราละเลยและมองข้ามความสำคัญของคนเหล่านี้ไป จากการศึกษาพบแนวคิดการให้ความสำคัญกับคนรอบตัวดังตัวอย่างต่อไปนี้

> “ไม่อยากจากไปทั้งที่ใจยังโหยหา ตะวันสิ้นแสงฉันคงต้องลา อย่างไม่เสียน้ำตาสักเพียงนิดเดียว การเดินทางทุกช่วงชีวิต จะคิดเพียงแค่ไปให้ถึงแค่นั้น จนบางครั้งเผลอลืมคะนึง คนที่ซึ่งอยู่เคียงข้างกายเพราะว่ามีความรักย่อมดีกว่าชัง มีความหวังย่อมดีกว่าไร้ มีความรู้สึกย่อมดีกว่าไม่ เพราะถ้าจากไปก็ไร้ตัวตนตลอดการ”

(บันทึกชีวิตในสมุดสีดำ: ภูมิมินท์ บึงชารี, 2565)

จากตัวอย่างข้างต้นเป็นการให้แง่คิดเกี่ยวกับการให้ความสำคัญกับคนรอบตัว คือ การใช้ชีวิตจนลืมนึกถึงคนที่อยู่ข้างกาย จากเนื้อหาของเพลงเป็นการกล่าวถึงการนึกถึงคนข้างกาย ให้ความสำคัญกับคนรอบตัวไว้ดีกว่าไม่มีใครให้เรานึกถึงหรือคอยเป็นห่วง เพราะถ้าเราจากไปก็จะไม่มีความหมายต่อคนรอบข้างหรือความทรงจำที่ดีต่อกันเลย

> “และบทเพลงนี้ถึงเธอผู้อยู่แสนไกล ทั้งจากกันไปด้วยตายหรือว่ายังมีชีวิต ขอให้จงโปรดรู้ว่าอยู่ตรงนี้เหงาเกินกว่าคิด ผู้อยู่ทางนั้นมีไหมสักนิดที่คิดถึงกัน ขอโทษบางครั้งถ้าฉันนั้นอาจหลงลืม ขอโทษที่คิดว่าเธอจะยืนที่เดิม ต่อให้เราได้พบคนทั้งหลายก็ไม่ลืม หรือต่อให้มีวันคืนได้เรียนรู้ผู้คนมากมาย แต่ที่ครั้งนึงเสียไปไม่มีสิ่งไหนเข้ามาทดแทนจากด้วยความที่คิดว่าเธอจะยืนอยู่ที่เดิม”

(สุดจะเกินใจ: ภูมิมินท์ บึงชารี, 2566)

จากตัวอย่างข้างต้นเป็นการให้แนวคิดเกี่ยวกับการให้ความสำคัญกับคนรอบตัว คือ อย่าคิดว่าจะมีคนรอบตัวอยู่ข้างกายไปตลอดชีวิต จากเนื้อหาของเพลงเป็นการกล่าวถึงคนที่อยู่แสนไกล ทั้งจากกันทั้งที่ยังมีชีวิตหรือจากกันไปด้วยความตายมาพรากไป อยากให้คนที่อยู่ไกลได้รู้ว่ายังคิดถึงและห่วงใยเพราะในตอนที่ยังอยู่ด้วยกันนั้น อาจหลงลืมหรือละเลยกันไป

2.3 ความรัก หมายถึง ความรู้สึกสภาพทางอารมณ์และเจตคติต่าง ๆ ซึ่งอาจมีตั้งแต่ความพอใจทั่วไปจนถึงความดึงดูดระหว่างบุคคล อีกทั้งความรักยังสามารถหมายถึงความต้องการความสัมพันธ์ทางเพศจากการศึกษาพบแง่เกี่ยวกับความรัก ดังตัวอย่างต่อไปนี้

> “ฉันเขียนบทเพลงนี้ให้ความรักที่มันกำลังจะจบ ให้ลองได้ทบทวนถึงความสัมพันธ์ที่มันกำลังจะขาด นานวัน กว่าความรักจะตกตะกอนเป็นความหวานฉ่ำ เธอคิดให้ดีหรือยังถ้าในสักวันต้องกลายเป็นคนแปลกหน้า ฉันแค่เป็นห่วงเพราะฉันนั้นรัก ฉันเลยอยากมาเตือนก็แค่นั้น คิดดูให้ดีกว่าจะพบกันกว่าจะรักกันมันไม่ใช่เรื่องง่าย”
>
> (อยากให้ลองฟัง: ภูมิมินท์ บึงชารี,2565)

จากตัวอย่างข้างต้นเป็นการให้แนวคิดเกี่ยวกับความรัก คือ การทบทวนเรื่องราวความรักให้ดีก่อนที่จะต้องเลิกกัน จากเนื้อหาของเพลงเป็นการกล่าวถึงความรักนั้นไม่ได้มีแค่เรื่องที่แย่ ก่อนที่จะเลิกรากันไปอยากให้ลองทบทวนถึงเรื่องราวความรักที่เคยมีต่อกันว่ามีความสุขเพียงใด กว่าความรักจะก่อตัวขึ้นมาในใจต้องใช้เวลาเท่าไหร่ กว่าจะได้พบกันหรือรักกันไม่ใช่เรื่องที่ง่าย

> “เหมือนว่ายังวนเวียนเป็นส่วนหนึ่งอยู่ในชีวิต เหมือนไม่มีสิ่งใด จะหลุดลอยจากใจไปได้ และเหมือนบางคนไม่เคย ที่จะเลือนจากใจไปไหน แค่เพียงย้ายจากข้างๆ กาย สู่ความทรงจำ เมื่อที่ครั้งได้พบ ยินดีที่ได้รู้จัก และเมื่อยามหมดรักจากกันก็ยังยินดี เพราะถ้าความรักมันก่อตัว ต่อให้อีกคนหลุดลอยไปไหน แต่ความหมายทุกๆ เรื่องราวไม่ลบเลือนลาง”
>
> (ตกตะกอน: ภูมิมินท์ บึงชารี, 2566)

จากตัวอย่างข้างต้นเป็นการให้แนวคิดเกี่ยวกับความรัก คือ การยินดีที่ได้พบและได้รักใครสักคนถึงแม้จะหมดรักกัน จากเนื้อหาของเพลงเป็นการกล่าวถึงช่วงชีวิตที่ได้พบเจอกับความรักที่ดี การได้พบเจอกับบางคนที่เข้ามาเป็นความทรงจำที่ดีในชีวิต เราควรจะยินดีที่ได้พบเจอถึงแม้ต้องจากกัน เพราะเป็นความรักที่ได้ก่อตัวขึ้นมาภายในใจที่สวยงาม

2.4 ความพยายาม หมายถึง การลงมือทำสิ่งต่าง ๆ อย่างเต็มที่โดยไม่ย่อท้อต่ออุปสรรคหรือปัญหาเพื่อเป้าหมายและความสำเร็จ จากการศึกษาพบแนวคิดเกี่ยวกับการความพยายาม ดังตัวอย่างต่อไปนี้

> “เพื่อคนข้างหลังมากมาย เฝ้ารอจุดหมายถึงความมุ่งมั่น เจตนารมณ์ที่กว้างไกล บวกเข้ากับใจที่มั่นคง จะเอาชนะคลื่นและลม ไม่เคยจะสนแม้ทางจะไกล เปรียบเรือลำน้อยแค่เศษไม้ เทียบกับทะเลกว้างไกลไพศาล แต่สุดท้ายยังไงก็ตาม ฉันจะแบกฝันผู้คนในเรือให้ไปถึง”
>
> (เรือน้อยผู้ยิ่งใหญ่: ภูมิมินท์ บึงชารี, 2564)

จากตัวอย่างข้างต้นเป็นการให้แนวคิดเกี่ยวกับความพยายาม คือ ความพยายามเพื่อทำตามความฝันและเพื่อคนที่อยู่ข้างหลัง จากเนื้อหาของเพลงเป็นการกล่าวถึงการพยายามฟันฝ่าอุปสรรคต่าง ๆ เพื่อความหวังของคนข้างหลังที่เปรียบเหมือนตนนั้น เป็นเรือน้อยมีความมุ่งมั่นที่จะเอาชนะคลื่นลมต่าง ๆ เพื่อส่งคนในเรือให้ถึงฝั่งได้อย่างปลอดภัย

> “บทเพลงนี้ที่ฉันเขียน เขียนแทนการให้กำลังใจ ให้เธอเก็บเอาไว้ เอาไว้ฟังตอนที่เธอเหนื่อยล้า หากท้องฟ้ามันไม่เป็นดั่งใจ มองไปบนนั้นมีเมฆปกคลุม อย่าคิดมากเลยคุณ ท้องฟ้าวันพรุ่งอาจแปรเป็นอื่น ใช่ว่าชีวิตจะต้องเป็นแบบนี้ ทุกๆนาทีย่อมมีการเปลี่ยนแปลง สุดขอบฟ้าดวงดาวไร้แสง พรุ่งนี้มะรืนอาจคืนความงาม”
>
> (ท้องฟ้าต่างกันฉันใด: ภูมิมินท์ บึงชารี, 2566)

จากตัวอย่างข้างต้นเป็นการให้แนวคิดเกี่ยวกับความพยายาม คือ การให้กำลังใจในความพยายามเมื่อหลาย ๆ อย่างไม่เป็นดั่งใจที่หวัง จากเนื้อหาของเพลงเป็นการกล่าวถึงการให้กำลังใจผ่านบทเพลงเมื่อต้องเจอกับวันที่เหนื่อยล้า หรือเจอกับหลายอย่างที่ไม่ได้เป็นไปตามที่หวัง แต่สุดท้ายแล้วทุกอย่างก็จะผ่านไปเพราะชีวิตใช่ว่าจะเจอกับปัญหาอยู่ตลอดเวลา พรุ่งนี้อาจจะดีกว่าเมื่อวาน

2.5 การพอใจในสิ่งที่ตนมี คือ พอใจในสิ่งที่มีแปลว่าได้เท่าไรก็พอใจ แม้คนอื่นจะได้มากกว่าก็ไม่เป็นทุกข์ ไม่โลภมากและไม่เอาตัวเองเข้าไปเปรียบเทียบกับใคร จากการศึกษาพบแนวคิดเกี่ยวกับการพอใจในสิ่งที่ตนมี ดังตัวอย่างต่อไปนี้

> “คุณค่าของแต่ละอย่างอยู่ที่การให้ค่าของคน อย่างดอกไม้ข้างทางถนน หากมองจากคนที่ชอบก็ว่าสวย ชีวิตของคุณก็ด้วยจะดูสดสวยเมื่อคนมองมา บางครั้งก็ดูไร้ค่าถ้าที่แห่งนั้นไม่ควรคู่เรา ก่อนเคยคิดว่าตัวเอง ไม่ได้เลิศหรูสมบูรณ์เหมือนใครใคร แต่มาวันนี้ก็เพิ่งเข้าใจไม่มีใครไหนจะถูกใจคนทั้งโลก อย่างดอกไม้ที่ราคาแพงก็เหี่ยวเฉาถูกแมลงกัดกินได้เหมือนกัน หรือเป็นดอกไม้อยู่บนภูเขาสูงชันพอผ่านนานวันก็ร่วงโรยลงสู่พื้น”
>
> (ใครงามเลิศในปฐพี: ภูมิมินท์ บึงชารี และศิวรินทร์ พูลวงษ์, 2564)

จากตัวอย่างข้างต้นเป็นการให้แนวคิดเกี่ยวกับการพอใจในสิ่งที่ตนมี คือ คำว่าดีที่สุดแต่ละคนไม่เท่ากัน และความสวยแต่ละคนก็ไม่เหมือนกัน แต่ละคนมีความสวยและความสมบูรณ์ในแบบของตัวเอง จากเนื้อหาของเพลงเป็นการกล่าวถึง คุณค่าของแต่ละอย่างอยู่ที่คนๆนั้นจะให้ค่าอย่างไร บางคนแค่ดอกไม้ข้างถนนก็มีค่า ฉะนั้นแล้วความสมบูรณ์แบบและความงามแต่ละคนนั้นย่อมไม่เหมือนกัน เพราะแต่ละคนย่อมมีคุณค่าในแบบของตัวเอง

> “เราต่างเกิดมาเพื่อมีเวลาที่ไม่สมดุล บางคนเกิดมาก็มีต้นทุนที่วางอยู่รายล้อม บางคนเกิดมาบนความไม่พร้อม แต่เราทั้งหลายต่างก็ต้องยอม ต้องยอมรับว่าที่เรามีไม่ได้ต่างอะไรกับใครสักคน คือจิตใจของเราที่ใช้เก็บเกี่ยวความสำคัญ เก็บบันทึกความงดงามในช่วงที่อยู่บนเส้นทาง รักษามันให้ดีอย่าเก็บมาคิดจนใจบอบช้ำ ปรารถนาถึงการที่เราเกิดมาอย่างพึงพอใจ มีแค่ไหนไปแค่นั้นอย่างคอยระวัง”
>
> (สุดทาง: ภูมิมินท์ บึงชารี, 2566)

จากตัวอย่างข้างต้นเป็นการให้แนวคิดเกี่ยวกับการพอใจในสิ่งที่ตนมี คือ การพอใจในสิ่งตนมีและไม่เอาตัวเองไปเปรียบเทียบกับใคร จากเนื้อหาของเพลงเป็นการกล่าวถึงว่าคนเรานั้นต่างเกิดมาไม่สมดุลกัน บางคนเกิดมามีต้นทุนที่ดีบางคนเกิดมาต้องดิ้นรนหลายอย่าง แต่เราทุกคนต้องยอมรับว่าเราก็ไม่ต่างอะไรกับทุกคน คือ มีจิตใจเหมือนกันแค่เราเกิดมาและพึงพอใจในสิ่งที่เรามีก็เพียงพอ

2.6 การรักตัวเอง หมายถึง การเมตตากรุณาต่อตนเอง การยอมรับนับถือตัวเอง เห็นความสำคัญของตัวเองและเอาใจใส่ดูแลความเป็นอยู่ของเราในทุก ๆ การเติบโตในชีวิตจากการศึกษาพบแนวคิดเกี่ยวกับการรักตัวเอง ดังตัวอย่างต่อไปนี้

> “ถ้าตัวเธอนั้นถ้ารักตัวเองมากกว่านี้ วันนึงจะรู้ว่ารักที่ดีเป็นอย่างไร รักที่มันสมบูรณ์คือการที่รักใคร แล้วรับรู้ว่าไม่ได้รักเขาฝ่ายเดียว ถ้าตัวเธอนั้นห่วงใยตัวเองมากกว่านี้ วันนึงจะรู้สถานที่ดีเป็นอย่างไร สถานที่ดีก็คือที่ที่มันสุขใจ ไม่ต้องพยายามเพื่อที่เข้าไปเป็นส่วนเกิน”
>
> (เราไม่ใช่ส่วนเกิน: ภูมิมินท์ บึงชารี, 2567)

จากตัวอย่างข้างต้นเป็นการให้แนวคิดเกี่ยวกับการรักตัวเอง คือ การไม่เอาตัวเองเข้าไปในอยู่ในจุดที่ไม่ใช่ที่ของเรา เพราะถ้าเรารักตัวเองมากพอจะรู้ว่าที่แห่งใดที่จะคู่ควรกับเรา จากเนื้อหาของเพลงเป็นการกล่าวถึง การไม่ยัดเยียดตัวเองเข้าไปเป็นความสุขใครถ้าเขาไม่ได้ต้องการ ไม่ต้องพยายามจะเป็นส่วนหนึ่งของสังคมไหนที่พยายามไล่เราออกมา เมื่อไหร่ที่เรารักตัวเองมากพอเราก็ไม่จำเป็นต้องเรียกร้องอะไรจากคนอื่นและสามารถพาตัวไปในสถานที่ที่มีความสุขได้ โดยไม่ต้องพึ่งพาใคร

สรุปและอภิปรายผล

จากการศึกษาการใช้ภาพพจน์และแนวคิดที่ปรากฏในบทเพลงของ ภูมิมินท์ บึงชารี สามารถสรุปและอภิปรายผล ได้ดังต่อไปนี้

ภาพพจน์ที่ปรากฏในบทเพลงของภูมิมินท์ บึงชารี ปรากฏดังนี้ จากการศึกษาบทเพลง จำนวน 38 เพลง พบการใช้ภาพพจน์ทั้งสิ้น 7 ประเภท พบการใช้อุปลักษณ์มากที่สุด จำนวน 22 เพลง รองลงมา คือ คำถามเชิงวาทศิลป์ จำนวน 12 เพลง อุปมา จำนวน 8 เพลง อติพจน์และนามนัย จำนวน 7 เพลง สัญลักษณ์ จำนวน 6 เพลง และบุคลาธิษฐาน จำนวน 4 เพลง ตามลำดับ

แนวคิดที่ปรากฏในบทเพลงของภูมิมินท์ บึงชารี ปรากฏดังนี้ จากการศึกษาบทเพลง จำนวน 38 เพลง พบแนวคิด 6 ประเภท ได้แก่ แนวคิดเกี่ยวกับความรักมากที่สุด จำนวน 16 เพลง รองลงมา คือ แนวคิดเกี่ยวกับการให้ความสำคัญกับคนรอบตัว จำนวน 9 เพลง แนวคิดเกี่ยวกับการใช้ชีวิตให้ดีก่อนที่จะสายไป จำนวน 6 เพลง แนวคิดเกี่ยวกับความพยายาม จำนวน 4 เพลง แนวคิดเกี่ยวกับการพอใจในสิ่งที่ตนมี จำนวน 2 เพลง และแนวคิดเกี่ยวกับการรักตัวเอง จำนวน 1 เพลง ตามลำดับ

จากการศึกษาครั้งนี้ ผู้วิจัยพบว่าการใช้ภาษาที่ปรากฏในบทเพลงของภูมิมินท์ บึงชารี สามารถสะท้อนให้เห็นถึงการนำเสนอภาษาที่สวยงามของเพลงผ่านเรื่องราวที่ต้องการนำเสนอ โดยการใช้ภาพพจน์ในรูปแบบต่าง ๆ ซึ่งทำให้เพลงเกิดความไพเราะและเกิดความน่าสนใจ อีกทั้งยังแสดงให้เห็นถึงความรู้สึก อารมณ์รวมถึงจินตนาการ สามารถก่อให้เกิดอารมณ์สะเทือนใจกับเพลงนั้น ๆ โดยประเด็นที่พบมากที่สุด คือ อุปลักษณ์ รองลงมา คือ คำถามเชิงวาทศิลป์ ซึ่งการใช้ภาพพจน์สอดคล้องกับงานวิจัยของชูวงศ์ กลิ่นเขา (2548) ที่ศึกษาเรื่อง “การศึกษาวิเคราะห์คุณค่าของวรรณกรรมเพลงรำวง” โดยพบการวิเคราะห์ภาพพจน์ ที่สอดคล้องกันดังนี้ อุปมา อุปลักษณ์ บุคลาธิษฐาน สัญลักษณ์ อติพจน์ และยังสอดคล้องกับงานวิจัยของ ชิดชนก ผลาผล (2561) ที่ศึกษาเรื่อง “คุณค่าที่ปรากฏในบทเพลงของก้อง ห้วยไร่” โดยพบคุณค่าด้านศิลปะการใช้ภาษา ที่สอดคล้องกันดังนี้ นามนัย บุคลาธิษฐาน ปฏิพจน์ อติพจน์ อุปลักษณ์ และอุปมา แสดงให้เห็นว่าบทเพลงนั้นมีกลวิธีการใช้ภาษาในการแต่งเพลงที่สละสลวย มีการเรียบเรียงหรือเรียงร้อยถ้อยคำของผู้แต่งอย่างประณีต แต่ละถ้อยคำย่อมต้องผ่านการคิดและ

ไตร่ตรอง ถึงสิ่งที่ต้องการจะสื่อถึงผู้ฟังอย่างถี่ถ้วน ทำให้เห็นถึงความตั้งใจและเอาใจใส่ของผู้แต่ง ดังนั้น ผู้ฟังจึงเข้าถึงบทเพลงนั้น ๆ ได้อย่างลึกซึ้ง

ต่อมาคือ การศึกษาแนวคิดที่ปรากฏในบทเพลงของ ภูมิมินท์ บึงชารี ผู้วิจัยพบว่า ผู้แต่งเพลงมักจะมีการนำเรื่องราวที่เกิดขึ้นในชีวิตที่ได้พบเจอมาแต่งเป็นเนื้อหา มีเอกลักษณ์ของเนื้อหาที่โดดเด่น และบอกเล่าความเป็นตัวเองสูง ทั้งเรื่องราวของความรัก การพบเจอและการจากลารวมไปถึงความสุขและความทุกข์ในชีวิต อีกทั้งยังมีเนื้อหาการให้กำลังใจและการรักตัวเองอีกด้วย ซึ่งประเด็นที่พบมากที่สุด คือ แนวคิดเกี่ยวกับความรัก ผลการวิจัยดังกล่าวสอดคล้องกับงานวิจัยของ ธงชัย บุญนำสุขสกุล (2564) ที่ศึกษาเรื่อง “บทเพลงวงบอดี้สแลม : คุณค่าและความคิดเห็นของผู้ฟังเกี่ยวกับผลกระทบของบทเพลงต่อพฤติกรรมของตน” โดยพบเนื้อหาที่สอดคล้องกัน คือ คุณค่าด้านการให้แนวคิด แสดงให้เห็นว่าผู้แต่งให้ความสำคัญกับเนื้อหาของบทเพลงเป็นอย่างดี และเพื่อให้ผู้ฟังได้ประโยชน์จากการฟัง เพราะเพลงถือเป็นวรรณกรรมหนึ่งที่เข้าถึงง่าย ไม่จำกัดอายุ เพศ หรือสถานะทางสังคม

บทเพลงที่จะได้รับความนิยมหรือมีคุณค่านั้น จำเป็นต้องใช้ภาพพจน์เพื่อให้มีภาษาที่สละสลวยและมีการสอดแทรกข้อคิดคติเตือนใจต่อผู้ฟังเพื่อให้เกิดประโยชน์ ดังนั้นจึงสรุปได้ว่าบทเพลงของภูมิมินท์ที่ได้รับความนิยมนั้น เกิดจากความตั้งใจและความสามารถในการเลือกใช้ภาษาและเนื้อหาในการแต่ง จึงนับได้ว่าเป็นบทเพลงเป็นรูปแบบวรรณกรรมประเภทหนึ่ง ที่ควรค่าแก่การศึกษาและทำความเข้าใจ พร้อมทั้งมีประเด็นต่างๆ มากมายไว้เป็นประโยชน์ให้ศึกษาต่อไป

ข้อเสนอแนะ

1. ควรจะศึกษาการใช้ภาพพจน์ที่ปรากฏในบทเพลงของศิลปินอินดี้ท่านอื่น ๆ ที่เป็นที่ยอมรับและได้รับความนิยมในปัจจุบัน

2. ควรจะศึกษาการให้แง่คิดในบทเพลงของศิลปินอินดี้ท่านอื่น ๆ เพื่อเปรียบเทียบให้เห็นถึงความหลากหลายด้านกลวิธีการนำเสนอแนวคิด

บทคัดย่อ

บทความนี้มีวัตถุประสงค์เพื่อศึกษากลวิธีทางภาษาในการพาดหัวข่าวที่ปรากฏในเฟซบุ๊กแฟนเพจนำเสนอข่าวออนไลน์ โดยรวบรวมข้อมูลตัวอย่างพาดหัวข่าวที่ปรากฏในเฟซบุ๊กเพจนำเสนอข่าวออนไลน์จำนวน 10 เว็บเพจ ที่มีจำนวนผู้ติดตามและมีจำนวนการกดถูกใจ ตั้งแต่ 1 ล้านคนขึ้นไป ซึ่งแนวคิดที่ใช้ในการวิเคราะห์ข้อมูล ได้แก่ แนวคิดที่เกี่ยวข้องกับการพาดหัวข่าว กลวิธีการสื่อความหมาย และแนวคิดในการนำเสนอข่าว ผลการศึกษาวิเคราะห์พาดหัวข่าว จำนวน 400 การพาดหัว พบกลวิธีทางภาษาในการพาดหัวข่าว 15 กลวิธี ได้แก่ 1. การพาดหัวข่าวโดยใช้คำเร้าอารมณ์ความรู้สึก 2. การพาดหัวข่าวโดยใช้คำเรียกสมญานาม 3. การพาดหัวข่าวโดยใช้คำทับศัพท์และภาษาต่างประเทศ 4. การพาดหัวข่าวโดยใช้คำเรียกอาชีพ 5. การพาดหัวข่าวโดยใช้คำสแลง 6. การพาดหัวข่าวโดยใช้คำแทนสถานภาพ 7. การพาดหัวข่าวโดยใช้คำถาม 8. การพาดหัวข่าวโดยใช้คำเฉพาะกลุ่ม 9. การพาดหัวข่าวโดยใช้อักษรย่อหรือคำย่อ 10. การพาดหัวข่าวโดยใช้คำอ้างอิงตัวเลข 11. การพาดหัวข่าวโดยใช้การระบุคำเรียกเพศ 12. การพาดหัวข่าวโดยใช้คำเรียกชื่อหน่วยงาน 13. การพาดหัวข่าวโดยการละข้อมูลบางส่วน 14. การพาดหัวข่าวโดยอาศัยการตีความ และ 15. การพาดหัวข่าวโดยใช้ถ้อยคำเปรียบเทียบ จะเห็นได้ว่ากลวิธีทางภาษาในการพาดหัวข่าวที่ปรากฏในเฟซบุ๊กแฟนเพจนำเสนอข่าวออนไลน์ที่ผู้วิจัยศึกษามีหลากหลาย เนื่องจากเนื้อหาข่าวที่นำเสนอในช่วงระยะเวลานั้นมีเหตุการณ์ต่าง ๆ เกิดขึ้นมากมาย ทั้งด้านการเมือง เศรษฐกิจ สังคมวัฒนธรรม ความบันเทิง รวมทั้งข่าวภัยพิบัติทางธรรมชาติทั้งในประเทศและต่างประเทศ ซึ่งความหลากหลายของเนื้อหาทำให้ผลการศึกษามีความน่าสนใจและทันสมัยกับสถานการณ์ในปัจจุบัน

คำสำคัญ: กลวิธีทางภาษา, พาดหัวข่าว, เฟซบุ๊กแฟนเพจ, การสื่อความหมาย, รูปแบบการนำเสนอเนื้อหาข่าว

Abstract

The purpose of this paper is to study the language method of headlines appearing on Facebook fan pages. By collecting the sample data of headlines appearing on Facebook fan pages, the news of 10 web pages is presented online. The number of followers is more than 1 million. The ideas adopted in data analysis include concepts related to headlines, media methods, semantics theory, and news presentation ideas. Results: 400 titles were analyzed and the language presentation methods of 15 titles were found. 1. News headlines use emotional words. 2. News headlines use three quotation marks. 3. News headlines use syllables and foreign languages. 4. News headlines use occupation. 5. The use of slang in news headline writing. 6. News headline usage status. 7. Headline construction using questions. 8. Headline construction using group-specific terminology. 9. Headline construction using acronyms or abbreviations. 10. Headline construction using numerical references. 11. Headline construction using gender references. 12. Headline construction using the reference to organizational names. 13. The use of partial information in news headlines. 14. News headlines based on interpretation. 15. The news title adopts comparative wording, shows that the language strategy and content presentation model of news headlines appearing on Facebook fan pages present the diversity of online news studied by researchers. Because the news content presented in this period involves politics, economy, society, culture, entertainment and natural disaster news at home and abroad, the diversity of content makes the research results attractive and modern to the current situation.

Keywords: Linguistic strategies, News Headline, Facebook Fanpage, Semantic Communication, Presentation formats of news content

บทนำ

ปัจจุบันสังคมมีการเปลี่ยนแปลงอยู่ตลอดเวลา เทคโนโลยีการติดต่อสื่อสารและการแลกเปลี่ยนข้อมูลข่าวสารก็มีการเปลี่ยนแปลงพัฒนาและก้าวหน้าเช่นเดียวกัน ทำให้เกิดเป็นพื้นที่สาธารณะออนไลน์ในการแสดงความคิดเห็นผ่านสื่อออนไลน์ มีการนำเสนอข้อมูลข่าวสารต่าง ๆ ผ่านช่องทางการสื่อสาร แต่ละประเภทตามความต้องการของผู้ใช้ ผู้วิจัยสังเกตเห็นว่า มีผู้ใช้ไม่น้อยที่เลือกใช้ช่องทางการสื่อสารผ่านทางเฟซบุ๊ก เนื่องจากเป็นสื่อออนไลน์ที่มีผู้ใช้เป็นจำนวนมาก รายงานจาก We Are Social และ Hootsuite ที่เผยแพร่ในปี 2564 ระบุว่า ไทยมีผู้ใช้งานเฟซบุ๊กประมาณ 51 ล้านคน เพิ่มขึ้นกว่า 8.5% ในปี 2564 จากสถิติปี 2563 ซึ่งมียอดผู้ใช้งานประมาณ 47 ล้านคน (Dataxet InfoQuest, 2565) ซึ่งจะเห็นว่าจำนวนผู้ใช้เฟซบุ๊กเพิ่มขึ้นเรื่อย ๆ ตามลำดับ และในส่วนของสถานีโทรทัศน์มักนิยมใช้เฟซบุ๊กไลฟ์ (Facebook Live) ออกอากาศรายการของสถานีควบคู่ไปกับทางโทรทัศน์ด้วยเช่นกัน เช่น รายการโหนกระแส ซึ่งเชิญแขกมาไลฟ์ประเด็นที่สังคมให้ความสนใจจนทำให้จำนวนการรับชมเพิ่มขึ้น ตามลำดับ หรือจะเป็นช่องอื่น ๆ ที่มีการถ่ายทอดสดบ่อยครั้งกว่า เช่น Amarin TV HD, ช่อง One31 และ Workpoint นอกจากนี้การนำเสนอข่าวผ่านคลิปวิดีโอก็ยังถูกนำมาใช้งานอยู่เช่นกัน โดย Facebook

Journalism Project ได้ลงบทความเกี่ยวกับ Facebook Page ของข่าวสด (Khaosod – ข่าวสด) ซึ่งยกให้เป็นตัวอย่างความสำเร็จของการเผยแพร่วิดีโอที่สามารถสร้างการมีส่วนร่วมของผู้รับชม ผู้ใช้จึงมีตัวเลือกในการติดตามข่าวได้หลากหลาย ซึ่งประกอบไปด้วยกลุ่มคนที่ชื่นชอบด้านต่าง ๆ ไม่ว่าจะเป็นการเมือง การศึกษา กีฬา เศรษฐกิจ สังคมวัฒนธรรม เรื่องบันเทิง หรือชื่นชอบข่าวสารบ้านเมืองที่ทันต่อกระแสสังคมในปัจจุบัน เฟซบุ๊กจึงเป็นเหมือนสำนักข่าวที่รายงานข่าวประเด็นร้อนที่กำลังเป็นที่พูดถึงอยู่และจะถูกอัปเดต (เคลื่อนไหว) อย่างต่อเนื่อง ผู้ใช้เฟซบุ๊กจึงต้องติดตามข่าวสารดังกล่าวผ่านทางเพจต่าง ๆ และที่สำคัญเป็นสื่อหนึ่งที่ผู้คนสามารถแสดงความคิดเห็นได้อย่างเสรี เนื่องจากมีกลุ่มคนหลากหลาย เพศ วัย และหลายความชอบ เฟซบุ๊กจึงเป็นตัวเลือกหนึ่งของผู้เสพข่าวสารผ่านช่องทางออนไลน์

สุพจน์ กล้าหาญ (2553) อธิบายความหมายของพาดหัวข่าวว่า เป็นส่วนที่นำเสนอประเด็นหรือเรื่องราวไว้อย่างกระชับ เป็นข้อความส่วนสรุปใจความสำคัญของเนื้อข่าว อาจมีสาระสำคัญหลายประการโดยนำเสนอเรียงตามลำดับความสำคัญ และเป็นเนื้อหาส่วนแรกของเนื้อข่าวที่สามารถกระตุ้นความรู้สึกอยากรู้อยากเห็น ดึงดูดความสนใจ และสร้างอารมณ์คล้อยตามจนต้องอ่านเนื้อข่าวตั้งแต่ต้นจนจบ ซึ่งการพาดหัวข่าวในเฟซบุ๊กเพจปรากฏอยู่จำนวนมาก เนื่องจากมีบริษัทด้านสื่อ/ข่าวสาร บริษัทผลิตงาน แพร่ภาพและสื่อ บริษัทหนังสือพิมพ์ ช่องโทรทัศน์ รายการโทรทัศน์ เว็บไซต์ข่าวและสื่อ รวมถึงผู้เผยแพร่สื่อที่นำเสนอข้อมูลข่าวสารในปัจจุบันผ่านเฟซบุ๊กเพจ เพื่อให้ผู้ติดตามข่าวสาร เลือกรับข้อมูลได้อย่างหลากหลาย การใช้คำพาดหัวข่าวที่ปรากฏก็นับเป็นกลวิธีที่มีความน่าสนใจที่จะศึกษา ตัวอย่างเช่น “สะเทือนใจทั้งโลก.. สรุปปมโศกนาฏกรรม #อิแทวอน เหยียบกันตาย สังเวยฮาโลวีน 153 ศพ เลวร้ายที่สุดในรอบ 8 ปีของเกาหลีใต้” (ไทยรัฐออนไลน์, 2565)

จากการพาดหัวข่าวข้างต้นมีการใช้คำเร้าอารมณ์ความรู้สึกเพื่อสร้างแรงดึงดูดและกระตุ้นความสนใจให้เกิดการติดตามเนื้อหาข่าวต่อไป โดยเฉพาะการกระตุ้นให้ผู้อ่านเกิดความรู้สึกร่วม ไม่ว่าจะเป็นความประหลาดใจ ตกใจ ตื่นตะลึง เศร้าโศก หรือแม้กระทั่งความสุข ซึ่งถือเป็นกลวิธีสำคัญในการนำเสนอข่าวสารในยุคปัจจุบัน ตัวอย่างเช่น การใช้คำว่า “โศกนาฏกรรม” หรือ “สังเวย” ซึ่งเป็นถ้อยคำที่สื่อถึงเหตุการณ์รุนแรงและสูญเสียอย่างร้ายแรง โดยมีนัยเชิงอารมณ์ที่ทำให้ผู้อ่านเกิดความรู้สึกหดหู่ หรือสะเทือนใจต่อเหตุการณ์นั้น ๆ ทั้งนี้ ยังพบว่าผู้เขียนข่าวมักอ้างอิงข้อมูลเชิงปริมาณ เช่น จำนวนผู้เสียชีวิตหรือผู้บาดเจ็บอย่างชัดเจน ซึ่งยิ่งเสริมให้ข่าวมีน้ำหนักและสร้างความสะเทือนใจแก่ผู้อ่านได้มากยิ่งขึ้น ด้วยเหตุผลดังกล่าวข้างต้น ผู้วิจัยจึงมีความสนใจที่จะศึกษากลวิธีทางภาษาในการพาดหัวข่าวที่ปรากฏในเฟซบุ๊กแฟนเพจที่นำเสนอข่าวออนไลน์

วัตถุประสงค์ของการวิจัย

เพื่อศึกษากลวิธีทางภาษาในการพาดหัวข่าวที่ปรากฏในเฟซบุ๊กแฟนเพจนำเสนอข่าวออนไลน์

แนวคิด ทฤษฎี กรอบแนวคิด

การศึกษาครั้งนี้มุ่งวิเคราะห์ข้อความพาดหัวข่าวโดยใช้แนวคิดและทฤษฎีที่เกี่ยวข้องกับการใช้ภาษาในสื่อมวลชน โดยเฉพาะการพาดหัวข่าวซึ่งมีบทบาทสำคัญในการสื่อสารสาระสำคัญของเนื้อหาอย่างกระชับ ชัดเจน และดึงดูดความสนใจของผู้อ่าน (นนท์ธวัช ไชยวัง, 2560) แนวคิดหลักที่นำมาใช้ในการศึกษาครั้งนี้ประกอบด้วย

1. แนวคิดเกี่ยวกับการพาดหัวข่าว การพาดหัวข่าวถือเป็นส่วนสำคัญของบทความข่าว มีหน้าที่กระตุ้นความสนใจของผู้อ่าน และถ่ายทอดเนื้อหาหลักของข่าวอย่างรวบรัด การเลือกใช้ถ้อยคำ การจัด

โครงสร้างประโยค และการสื่อความหมายอย่างมีประสิทธิภาพจึงเป็นองค์ประกอบสำคัญของพาดหัวข่าว

2. แนวคิดเกี่ยวกับกลวิธีการสื่อความหมาย กลวิธีการสื่อความหมายในพาดหัวข่าวครอบคลุมการใช้ถ้อยคำ สำนวน และโครงสร้างทางภาษาเพื่อถ่ายทอดเจตนาของผู้เขียนข่าว โดยกลวิธีเหล่านี้มีบทบาทในการสร้างอารมณ์ ความรู้สึก และทัศนคติของผู้อ่าน

3. แนวคิดเรื่องกลวิธีทางภาษา โดยจำแนกกลวิธีทางภาษาออกเป็นหลากหลายลักษณะ เช่น การพาดหัวข่าวโดยใช้ถ้อยคำเชิงอารมณ์ การพาดหัวข่าวโดยการตั้งคำถามเพื่อกระตุ้นการคิด และการพาดหัวข่าวโดยการละข้อมูลบางส่วน เป็นต้น แนวคิดนี้จึงถูกนำมาประยุกต์ใช้ในการวิเคราะห์ข้อความพาดหัวข่าวในงานวิจัยนี้ เพื่อศึกษากลวิธีทางภาษาในการพาดหัวข่าวที่ปรากฏในเฟซบุ๊กแฟนเพจนำเสนอข่าวออนไลน์

วิธีดำเนินการวิจัย

1. กำหนดขอบเขตและโครงเรื่องของการวิจัย
2. ศึกษาเอกสารและงานวิจัยที่เกี่ยวข้อง
3. เก็บรวบรวมข้อมูลตัวอย่างการพาดหัวข่าวที่ปรากฏในเฟซบุ๊กเพจนำเสนอข่าวออนไลน์ จำนวน 10 เว็บเพจ ตั้งแต่เดือนตุลาคม 2565 - เดือนธันวาคม 2566 โดยใช้วิธีการสุ่มแบบเจาะจง ประกอบด้วย 1) ไทยรัฐออนไลน์ จำนวน 49 การพาดหัว 2) ข่าวสด จำนวน 38 การพาดหัว 3) PostToday จำนวน 31 การพาดหัว 4) ข่าวช่องวัน จำนวน 34 การพาดหัว 5) เรื่องเล่าเช้านี้ จำนวน 42 การพาดหัว 6) คมชัดลึก จำนวน 39 การพาดหัว 7) THE STANDARD จำนวน 40 การพาดหัว 8) The MATTER จำนวน 32 การพาดหัว 9) Thai PBS จำนวน 56 การพาดหัว 10) เดลินิวส์ออนไลน์ จำนวน 39 การพาดหัว
4. เก็บข้อมูลการพาดหัวข่าว 400 การพาดหัว โดยมีเกณฑ์การคัดเลือกข้อมูล ดังนี้ เว็บเพจที่มีจำนวนผู้ติดตามและมีจำนวนการกดถูกใจตั้งแต่ 1 ล้านคนขึ้นไป
5. วิเคราะห์กลวิธีทางภาษาในการพาดหัวข่าวที่ปรากฏในเฟซบุ๊กแฟนเพจนำเสนอข่าวออนไลน์

ผลการวิจัย

จากการศึกษาวิเคราะห์กลวิธีทางภาษาในการพาดหัวข่าวที่ปรากฏในเฟซบุ๊กเพจนำเสนอข่าวออนไลน์ พบ 15 กลวิธี ดังนี้

1. การพาดหัวข่าวโดยใช้คำเร้าอารมณ์ความรู้สึก เป็นการใช้ถ้อยคำหรือวลีที่กระตุ้นอารมณ์ของผู้อ่าน เช่น ความตื่นเต้น ความโกรธ ความเศร้า ความสงสาร หรือความตกใจ เพื่อดึงดูดความสนใจให้คนอยากอ่านข่าวต่อ ดังตารางที่ 1

ตารางที่ 1 การพาดหัวข่าวโดยใช้คำเร้าอารมณ์ความรู้สึก

ลำดับที่	วัน/เดือน/ปี	ตัวอย่างพาดหัวข่าว	แหล่งข้อมูล
1	25 ตุลาคม 2566	ผงะ! พบศพชายเมียนมาร์ถูกควักดวงตา นอนเสียชีวิตปริศนาบนดาดฟ้า คาดเสียชีวิตมาแล้วไม่ต่ำกว่า 18 ชั่วโมง เจ้าหน้าที่เร่งสอบสาเหตุเสียชีวิต	เรื่องเล่าเช้านี้ (2566)
2	30 ตุลาคม 2565	สะเทือนใจทั้งโลก.. สรุปปมโศกนาฏกรรม #อิแทวอน เหยียบกันตาย สังเวยฮาโลวีน 153 ศพ เลวร้ายที่สุดในรอบ 8 ปีของเกาหลีใต้	ไทยรัฐออนไลน์ (2565)

จากตัวอย่างการพาดหัวข่าวข้างต้นมีการใช้คำเร้าอารมณ์ความรู้สึก “ผงะ!” คำเหล่านี้จัดอยู่ในวัจนกรรมประเภทแสดงความรู้สึกและปลุกเร้าให้เกิดปฏิกิริยา ซึ่งมักมาพร้อมกับเครื่องหมายอัศเจรีย์ (!) เพื่อเพิ่มระดับความรู้สึกตกใจ ตื่นตระหนก หรือเร่งเร้าอารมณ์ให้กับผู้อ่าน เครื่องหมายอัศเจรีย์ในบริบทของข่าวยังทำหน้าที่เป็นตัวช่วยเน้นข้อความให้มีน้ำหนักมากขึ้น โดยแสดงถึงความรู้สึกประหลาดใจ ความรุนแรง หรือความเร่งด่วนของเหตุการณ์ที่เกิดขึ้น เครื่องหมาย อัศเจรีย์ (!) ก็ทำหน้าที่เชิงวัจนกรรมเช่นกัน เป็นตัวช่วยเพิ่มระดับของ *intonation* ทางภาษาเขียน เสมือนการตะโกนหรือเร่งน้ำหนักของวัจนกรรม นอกจากนี้ยังมีการใช้คำที่สะท้อนความโศกเศร้า เช่น “โศกนาฏกรรม” “เหยียบกันตาย” “ศพ” “สังเวย” และ “เสียชีวิต” ซึ่งเป็นคำที่กระตุ้นความหดหู่ใจและชวนให้เกิดความรู้สึกเศร้าเสียใจต่อเหตุการณ์ดังกล่าว อีกทั้งคำว่า “สะเทือนใจ” ยังสื่อถึงผลกระทบทางอารมณ์ที่ลึกซึ้ง ซึ่งมักจะเกิดขึ้นจากเหตุการณ์ที่รุนแรงหรือเศร้าโศก โดยทั่วไปการพาดหัวข่าวที่ใช้คำเร้าอารมณ์ความรู้สึกมักพบในข่าวที่นำเสนอเรื่องราวเกี่ยวกับความรุนแรง อุบัติเหตุ เหตุการณ์ระทึกขวัญ หรือเรื่องโศกเศร้า

2. การพาดหัวข่าวโดยใช้คำเรียกสมญานาม เป็นการใช้ชื่อเล่น ฉายา หรือคำขนานนามที่สื่อถึงลักษณะเด่น พฤติกรรม หรือบทบาทของบุคคลหรือสิ่งนั้น ๆ มาใช้ในพาดหัวข่าวแทนการใช้ชื่อจริงทั้งหมด เพื่อให้พาดหัวดูน่าสนใจ ชวนติดตาม และจดจำง่ายขึ้น ดังตารางที่ 2

ตารางที่ 2 การพาดหัวข่าวโดยใช้คำเรียกสมญานาม

ลำดับที่	วัน/เดือน/ปี	ตัวอย่างพาดหัวข่าว	แหล่งข้อมูล
1	1 ธันวาคม 2566	ตำรวจแกะรอยสัญญาณ เสี่ยแป้ง นาโหนด หลังคลิปที่ 3 โผล่พร้อมบุกค้นบ้านอีกรอบ	คมชัดลึก (2566)
2	25 พฤศจิกายน 2566	ปารีณา ถอนฟ้องเพนกวิ้น ด่าบิ๊กตู่ หลังเจอตร. รัวโทร. เกือบด่ารำคาญแล้ว	ข่าวสด (2566ก)

จากการพิจารณาตัวอย่างการพาดหัวข่าวที่ใช้คำเรียกสมญานาม เช่น “เสี่ยแป้ง นาโหนด” พบว่าคำดังกล่าวมีการอ้างอิงถึงสถานที่อยู่อาศัยหรือถิ่นฐานของบุคคลนั้น ซึ่งในกรณีนี้หมายถึง ตำบลนาโหนด อำเภอเมือง จังหวัดพัทลุง โดยสมญานามลักษณะนี้มีบทบาทในการระบุอัตลักษณ์เฉพาะบุคคล อีกทั้งยังสะท้อนความใกล้ชิดในระดับท้องถิ่นและสถานะทางสังคมของบุคคลนั้นด้วย อีกตัวอย่างหนึ่ง คือ คำว่า “บิ๊กตู่” ซึ่งเป็นสมญานามที่ใช้เรียก พลเอก ประยุทธ์ จันทร์โอชา อดีตนายกรัฐมนตรีของประเทศไทย โดยคำว่า “บิ๊ก” มักใช้เรียกขานนายทหารชั้นผู้ใหญ่ในบริบทสื่อมวลชนไทย จึงเป็นคำที่มีนัยยะถึงตำแหน่งทางอำนาจ และการใช้ชื่อเล่นร่วมกับตำแหน่ง ยิ่งช่วยสร้างภาพลักษณ์เฉพาะบุคคลที่สื่อสารได้อย่างรวบรัดและมีพลังทางความหมาย จากการศึกษาการใช้คำเรียกสมญานามในการพาดหัวข่าวพบว่า มักใช้กับบุคคลที่มีชื่อเสียง ไม่ว่าจะอยู่ในวงการการเมือง บันเทิง กีฬา หรือธุรกิจ โดยมีวัตถุประสงค์ในการระบุตัวบุคคลให้ชัดเจนขึ้น สร้างภาพจำ และลดความสับสนในกรณีที่บุคคลมีชื่อเหมือนกัน

3. การพาดหัวข่าวโดยใช้คำทับศัพท์และภาษาต่างประเทศ เป็นการเลือกใช้คำในภาษาอังกฤษหรือภาษาต่างประเทศ มาอยู่ในพาดหัวข่าว เพื่อให้ข่าวดูทันสมัย ดึงดูดกลุ่มเป้าหมาย โดยเฉพาะกลุ่มวัยรุ่นหรือคนในแวดวงสากล เช่น วงการบันเทิง ธุรกิจ เทคโนโลยี และแฟชั่น ดังตารางที่ 3

ตารางที่ 3 การพาดหัวข่าวโดยใช้คำทับศัพท์และภาษาต่างประเทศ

1	4 ธันวาคม 2566	ปลดล็อกไทย-ฮ่องกง สแกนจ่ายเงิน QR สะดวกข้ามประเทศ	เดลินิวส์ออนไลน์ (2566)
2	25 พฤศจิกายน 2566	หวานได้อีก ดาวโอเกะ แชร์โมเม้นน่ารัก แกงส้มช็อตแรกเข้าใจผิดทั้งประเทศ	ข่าวสด (2566ข)

จากตัวอย่างการพาดหัวข่าวข้างต้นมีการใช้คำทับศัพท์และภาษาต่างประเทศ โดยคำที่ปรากฏในตัวอย่าง คือ “ปลดล็อก” “สแกน” “แชร์” “โมเม้น” “ช็อต” ซึ่งคำเหล่านี้เป็นการใช้คำทับศัพท์ โดยเลือกใช้คำศัพท์ภาษาอังกฤษเขียนเป็นตัวอักษรภาษาไทย และมีการใช้คำภาษาต่างประเทศ คือ “QR” มาจากคำว่า QR Code (คิวอาร์ โค้ด) ย่อมาจาก Quick Response คือ สัญลักษณ์สี่เหลี่ยมที่ใช้เป็นสัญลักษณ์แทนข้อมูลต่าง ๆ ซึ่งผู้เขียนข่าวนิยมใช้คำทับศัพท์หรือใช้คำศัพท์ภาษาอังกฤษเพื่อให้ทันต่อกระแสนิยมในปัจจุบัน บ้างก็ใช้คำศัพท์ภาษาอังกฤษปนกับภาษาไทย ส่วนใหญ่จะเลือกใช้ภาษาที่ผู้คนนิยมใช้กันทั่วไปและสามารถสื่อสารกันเข้าใจ เพื่อความสะดวกและง่ายต่อการส่งสารแก่ผู้อ่าน จากการศึกษาการพาดหัวข่าวจากแหล่งข้อมูลต่าง ๆ กลวิธีการพาดหัวข่าวประเภทนี้ พบมากเป็นอันดับแรก มักเป็นคำศัพท์ที่ผู้คนทั่วไปใช้หรือรู้จักกัน และเนื่องด้วยบางครั้งการใช้คำไทยอาจยืดยาว ผู้เขียนข่าวจึงเลือกใช้คำภาษาอังกฤษหรือทับศัพท์สั้น ๆ และใช้คำที่ผู้อ่านสามารถเข้าใจได้ง่ายเช่นกัน

4. การพาดหัวข่าวโดยใช้คำเรียกอาชีพ เป็นกลวิธีทางภาษาที่สื่อมวลชนมักใช้เพื่อชี้ระบุตัวตนของบุคคลที่เกี่ยวข้องในข่าวผ่านบทบาท หน้าที่ หรือสถานภาพทางสังคมของบุคคลนั้นแทนการเอ่ยนามโดยตรง วิธีนี้ช่วยให้พาดหัวข่าวกระชับ ชัดเจน และให้ความรู้สึกเป็นทางการหรือเป็นกลาง ขึ้นอยู่กับเจตนาและบริบทของผู้เขียนข่าว ดังตารางที่ 4

ตารางที่ 4 การพาดหัวข่าวโดยใช้คำเรียกอาชีพ

1	23 พฤศจิกายน 2566	ชื่นชม ครูฮีโร่ ช่วยนักเรียน-ครู จากเหตุชายคลั่งบุกโรงเรียน กำชับเข้มความปลอดภัย	ข่าวสด (2566ค)
2	4 ตุลาคม 2566	เสื้อเกราะต้องมา “ดีเจเอกกี้” ข้องใจ! เด็ก 14 ซื้อปืนมาจากไหน ทำไมพกเข้าห้างได้ ความปลอดภัยมันอยู่ตรงไหนกัน	ไทยรัฐออนไลน์ (2566ก)

จากตัวอย่างการพาดหัวข่าวข้างต้นมีการใช้คำเรียกอาชีพในพาดหัวข่าว เป็นกลวิธีที่มีความสำคัญในด้านการดึงดูดความสนใจและกระตุ้นความอยากรู้อยากเห็นของผู้อ่าน ซึ่งสามารถสังเกตได้จากตัวอย่างคำเรียกอาชีพที่ปรากฏในข่าว เช่น “ครู” “ดีเจ” “นักเรียน” การเลือกใช้คำเหล่านี้มีการสะท้อนถึงลักษณะของอาชีพที่ทุกคนในสังคมรู้จักเป็นอย่างดี ซึ่งช่วยให้ผู้อ่านสามารถทำความเข้าใจเหตุการณ์ในข่าวได้ทันที การใช้คำเรียกอาชีพในข่าวและการสร้างความดึงดูดใจ การใช้เพื่อการชื่นชมในหน้าที่การงานโดยเฉพาะในกรณีที่มีการกล่าวถึงการกระทำที่มีผลในทางบวก หรือการที่บุคคลในข่าวมีบทบาทสำคัญในเหตุการณ์ที่เกิดขึ้น เช่น “ครู” ที่ช่วยเด็กในสถานการณ์ที่ยากลำบาก หรือ “ดีเจ” ที่มีส่วนช่วยในการสร้างความบันเทิงและผ่อนคลายให้แก่ผู้ฟัง การใช้คำเหล่านี้ช่วยสร้างภาพลักษณ์ในเชิงบวกและส่งเสริมความ

น่าเชื่อถือในตัวบุคคลหรืออาชีพนั้น ๆ การเลือกใช้คำเรียกอาชีพเหล่านี้ในพาดหัวข่าวยังสะท้อนถึงการเชื่อมโยงระหว่างอาชีพต่าง ๆ กับผลกระทบที่เกิดขึ้นในสังคม

5. การพาดหัวข่าวโดยใช้คำสแลง เป็นกลวิธีหนึ่งที่ได้รับความนิยมในการดึงดูดความสนใจของผู้อ่าน คำสแลงที่ใช้ในพาดหัวข่าวมักมีลักษณะเฉพาะที่ไม่เป็นทางการและมีความเป็นเอกลักษณ์ สามารถทำให้ข่าวดูมีชีวิตชีวา ดังตารางที่ 5

ตารางที่ 5 การพาดหัวข่าวโดยใช้คำสแลง

ลำดับที่	วัน/เดือน/ปี	ตัวอย่างพาดหัวข่าว	แหล่งข้อมูล
1	1 ธันวาคม 2566	เกือบขิต 'ชักโครกอัจฉริยะ' ระเบิด ไฟลุกท่วมขณะกำลังถ่าย โดดหนีตายแทบไม่ทัน ใครจะซื้อคิดให้ดี อาจดับคาห้องน้ำ	คมชัดลึก (2566ข)
2	5 พฤษภาคม 2566	มงคลกิตติ์ จะเคลียร์ยังไง เมื่อคนมองว่าหิวแสง	ข่าวช่องวัน (2566ก)

จากตัวอย่างการพาดหัวข่าวข้างต้นมีการใช้คำสแลง คำหรือประโยคที่ปรากฏในตัวอย่าง คือ “เกือบขิต” มาจากคำว่า สู่สุคติ ซึ่งผู้คนมักนำคำว่า “ขิต” มาใช้แทน ในบริบทนี้หมายถึง อาการที่รู้สึกเหมือนคนกำลังจะตาย และ คำว่า “หิวแสง” มักใช้เรียกคนที่ต้องการเป็นจุดสนใจจากสังคมผ่านการสร้างคอนเทนต์ในรูปแบบเกาะกระแสเพื่อให้ได้มาซึ่งจำนวนคนกดไลก์ จำนวนรีทวีต จำนวนแชร์ จำนวนคนติดตามที่มากมาย ซึ่งบางครั้งความอยากเป็นจุดสนใจมากเกินไปก็ทำให้คนคนนั้น ๆ เลือกใช้วิธีการผิด ๆ เช่น โจมตีด่าทอคนอื่น สร้างความเกลียดชังด้วยคำพูดหรือการกระทำ ซึ่งการใช้คำสแลง ผู้เขียนข่าวมักใช้คำตามกระแสนิยม เนื่องจากคำสแลงจะนิยมใช้ในกลุ่มวัยรุ่นส่วนใหญ่ และมีความเปลี่ยนแปลงไม่มีที่สิ้นสุด บางคำก็นิยมใช้แค่ช่วงเวลาหนึ่ง โดยผู้คนมักสร้างคำใหม่ขึ้นมาเรื่อย ๆ การใช้คำสแลงและคำที่สร้างขึ้นใหม่ในพาดหัวข่าวสะท้อนถึงการใช้ภาษาในบริบททางสังคมและความสัมพันธ์ระหว่างผู้ใช้ภาษาที่มีการเปลี่ยนแปลงตามยุคสมัยและกระแสการสื่อสารที่นิยมในปัจจุบัน

6. การพาดหัวข่าวโดยใช้คำแทนสถานภาพ เป็นการใช้คำหรือวลีที่บ่งบอกถึงตำแหน่ง สถานะหรือบทบาทของบุคคลหรือเหตุการณ์ในข่าวนั้น ๆ เพื่อดึงดูดความสนใจของผู้อ่าน โดยที่คำเหล่านั้นจะช่วยบอกถึงบทบาทสำคัญหรือคุณสมบัติของบุคคลหรือเหตุการณ์ในทันที ซึ่งสามารถทำให้เนื้อหาดูโดดเด่นและเข้าใจได้ง่าย ดังตารางที่ 6

ตารางที่ 6 การพาดหัวข่าวโดยใช้คำแทนสถานภาพ

ลำดับที่	วัน/เดือน/ปี	ตัวอย่างพาดหัวข่าว	แหล่งข้อมูล
1	16 พฤศจิกายน 2566	"เบนาซีร์ บุตโต" หญิงแกร่งแห่งตะวันออก นายกรัฐมนตรีหญิงคนแรกแห่งโลกมุสลิม	ไทยพีบีเอส (2566ก)
2	3 ธันวาคม 2566	จวกหัวหน้ากู้ภัย เตะลูกน้องโชว์ ลั่นแค่สั่งสอนใส่เสื้อไม่เรียบร้อย ซัดฝีมือกู้ภัยฝ่ายตรงข้ามปล่อยคลิป	ข่าวสด (2566ง)

จากตัวอย่างการพาดหัวข่าวข้างต้น พบว่า การใช้คำแทนสถานภาพของบุคคลที่ปรากฏในข่าวมีบทบาทสำคัญในการสะท้อนถึงลักษณะเฉพาะตัวของแต่ละบุคคลในสังคม โดยคำที่ใช้แทนสถานภาพเหล่านี้มักสะท้อนถึงคุณลักษณะต่าง ๆ ที่กำหนดบุคคลให้มีความแตกต่างกันในแง่มุมต่างๆ ของชีวิต เช่น ตำแหน่งทางการเมือง ความสัมพันธ์ทางครอบครัว เพศ อายุ หรืออาชีพ ซึ่งสามารถจำแนกได้ดังนี้

คำที่ใช้แทนสถานภาพทางการเมือง เช่น “นายกรัฐมนตรีหญิง” ล้วนเป็นคำที่สะท้อนถึงตำแหน่งหรือสถานภาพทางการเมืองของบุคคล ซึ่งเป็นตำแหน่งที่ได้รับมาอันเนื่องจากความสามารถและการเลือกตั้งในระบบการเมือง คำที่ใช้แทนสถานภาพทางอาชีพ เช่น “หัวหน้ากู้ภัย” และ “ลูกน้อง” เป็นคำที่บ่งบอกตำแหน่งในสาขาอาชีพที่บุคคลนั้น ๆ ประกอบอยู่ ซึ่งสามารถสะท้อนถึงความสำคัญและบทบาทในการทำงาน นอกจากนี้ ยังพบว่าในการศึกษาการพาดหัวข่าวที่ใช้คำแทนสถานภาพ ยังมีการใช้คำแทนสถานภาพในด้านการศึกษา การสมรส และเชื้อชาติ ซึ่งเป็นลักษณะเฉพาะที่เกี่ยวข้องกับบุคคลในแต่ละมิติของชีวิต โดยการใช้คำเหล่านี้มักจะสะท้อนถึงลักษณะของบุคคลตามลำดับความสำคัญหรือความเด่นชัดในสังคม

7. การพาดหัวข่าวโดยใช้คำถาม เป็นกลวิธีหนึ่งในการเขียนพาดหัวข่าวที่มุ่งเน้นการดึงดูดความสนใจของผู้อ่าน โดยอาศัยการตั้งคำถามเพื่อกระตุ้นให้เกิดความสงสัยหรือความอยากรู้ ทำให้ผู้อ่านต้องการอ่านเนื้อหาข่าวเพื่อค้นหาคำตอบ ซึ่งเป็นกลวิธีที่พบได้บ่อยในงานข่าวสมัยใหม่ โดยเฉพาะในสื่อออนไลน์หรือข่าวเชิงวิเคราะห์ ดังตารางที่ 7

ตารางที่ 7 การพาดหัวข่าวโดยใช้คำถาม

ลำดับที่	วัน/เดือน/ปี	ตัวอย่างพาดหัวข่าว	แหล่งข้อมูล
1	2 ธันวาคม 2566	ตากระตุก เป็นลางหรือเป็นโรค?	ข่าวช่องวัน (2566ข)
2	30 พฤศจิกายน 2566	ทำไมเด็กช่างตีกัน? สำรวจเบื้องหลังความรุนแรงของเด็กช่างจากงานวิจัย	The MATTER (2566ก)

จากตัวอย่างการพาดหัวข่าวข้างต้นมีการพาดหัวข่าวโดยใช้คำถาม ซึ่งประโยคคำถามที่ปรากฏในตัวอย่าง คือ “เป็นลางหรือเป็นโรค?” “ทำไมเด็กช่างตีกัน?” จากการสังเกตประโยคเหล่านี้มักมีเครื่องหมาย (?) หรือ ปรัศนี (question mark) ปรากฏอยู่ด้านหลังประโยค จะเห็นได้ว่าทั้งหมดใช้รูปแบบประโยคคำถาม ซึ่งกลวิธีนี้จัดอยู่ในลักษณะของ “คำถามเพื่อกระตุ้นความสนใจ” มากกว่าจะเป็นคำถามที่คาดหวังคำตอบโดยตรงจากผู้อ่าน การตั้งคำถามลักษณะนี้มักไม่ให้คำตอบในตัวเอง แต่เป็นการเปิดประเด็นเพื่อให้ผู้อ่านติดตามเนื้อหาภายใน ซึ่งมักจะเป็นการนำเสนอข้อมูลเชิงลึก การวิเคราะห์ หรือความคิดเห็นจากผู้เชี่ยวชาญในประเด็นนั้น ๆ ซึ่งเป็นการใช้กลวิธีในการตั้งคำถามเพื่อให้ผู้อ่านต้องการติดตามข่าวสารต่อ ซึ่งส่วนใหญ่ที่พบ ผู้เขียนข่าวเลือกวิธีการพาดหัวข่าวโดยใช้คำถามแต่ไม่อธิบายสาเหตุหรือบอกรายละเอียดแก่ผู้อ่าน เป็นการตั้งคำถามโดยไม่ต้องการคำตอบ แต่จะเน้นให้ผู้อ่านกดอ่านข่าวนั้น เพื่อดูรายละเอียดที่อธิบายเพิ่มเติมในเนื้อหาข่าว

8. การพาดหัวข่าวโดยใช้คำเฉพาะกลุ่ม เป็นกลวิธีทางภาษาที่นิยมใช้ในสื่อปัจจุบัน โดยเฉพาะในข่าวสารที่มีเป้าหมายผู้อ่านเฉพาะกลุ่ม หรือเป็นกลุ่มผู้อ่านที่มีความสนใจตรงกับเนื้อหา เช่น ข่าวบันเทิง ข่าวเกม ข่าวเทคโนโลยี ข่าวกีฬา หรือข่าวสังคมออนไลน์ ดังตารางที่ 8

ตารางที่ 8 การพาดหัวข่าวโดยใช้คำเฉพาะกลุ่ม

ลำดับที่	วัน/เดือน/ปี	ตัวอย่างพาดหัวข่าว	แหล่งข้อมูล
1	2 ธันวาคม 2566	แฟนลูกยางห่วงใย คาดสาเหตุทำหนึ่งในนักวอลเลย์บอลหญิงทีมชาติไทย ลบรูปออกจากอินสตาแกรมส่วนตัวทั้งหมด	ไทยรัฐออนไลน์ (2566ข)
2	19 พฤศจิกายน 2566	ก้าวไกลวุ่นอีก ด้อมส้ม ไม่พอใจพฤติกรรม สส. จ่อยื่นลาออกสมาชิกพรรค	ข่าวสด (2566จ)

จากตัวอย่างการพาดหัวข่าวข้างต้นมีการพาดหัวข่าวโดยใช้คำเฉพาะกลุ่ม คำที่ปรากฏในตัวอย่าง คือ “แฟนลูกยาง” ใช้เรียกกลุ่มผู้ที่ชื่นชอบกีฬาวอลเลย์บอล หรือ “แฟนลูกหนัง” หมายถึง หมายถึง ผู้ติดตามกีฬาฟุตบอลซึ่งหากคนที่ไม่ได้อยู่ในวงการกีฬาก็อาจไม่เข้าใจความหมาย ส่วนคำว่า “ด้อมส้ม” เป็นคำเรียกกลุ่มผู้สนับสนุนพรรคการเมืองหนึ่งในประเทศไทย โดยผู้อ่านที่ไม่มีภูมิหลังหรือความรู้เกี่ยวกับกลุ่มเฉพาะนั้น ๆ อาจไม่สามารถตีความหมายของพาดหัวข่าวได้อย่างชัดเจน ข่าวประเภทนี้ที่ผู้อ่านรู้จักกันแค่เฉพาะกลุ่มใดกลุ่มหนึ่งที่มีความชื่นชอบเหมือนกัน เช่น แฟนเพลง แฟนด้อมการเมือง หรือกลุ่มที่ชื่นชอบกีฬา เกม ศิลปินจีน ศิลปินเกาหลี นักร้องสากล เหล่านี้ล้วนมีคำที่ใช้กันเฉพาะกลุ่มและทราบกันแค่กลุ่มนั้น ๆ ผู้อ่านจึงต้องมีความรู้หรือภูมิหลังเกี่ยวกับเนื้อหาข่าวสารนั้น ๆ ด้วย จึงจะสามารถเข้าใจเรื่องที่ผู้เขียนจะสื่อสารออกมา

9. การพาดหัวข่าวโดยใช้อักษรย่อหรือคำย่อ เป็นกลวิธีในการเขียนพาดหัวข่าวที่เลือกใช้ “คำย่อ” หรือ “อักษรย่อ” แทนคำเต็ม เพื่อให้พาดหัวมีความกระชับ รวดเร็ว และทันสมัย เหมาะกับพื้นที่จำกัดของพาดหัวข่าว และสามารถดึงดูดความสนใจของผู้อ่านได้อย่างมีประสิทธิภาพ ดังตารางที่ 9

ตารางที่ 9 การพาดหัวข่าวโดยใช้อักษรย่อหรือคำย่อ

ลำดับที่	วัน/เดือน/ปี	ตัวอย่างพาดหัวข่าว	แหล่งข้อมูล
1	30 กันยายน 2566	“สว.คนนี้ผมไม่เอา” สรุปเหตุการณ์คนไทยในไอซ์แลนด์ ไล่ “หมอพรทิพย์” ออกจากร้านอาหาร	The MATTER (2566ก)
2	2 ธันวาคม 2566	ก.เกษตรฯ เสนอ ครม.ไฟเขียวหน่วยงานราชการใช้ล้อยาง กยท. เพื่อเพิ่มการใช้งานในประเทศ ขับเคลื่อนการทำถนนยางพาราซอยล์ซีเมนต์	ไทยรัฐออนไลน์ (25566ค)

จากตัวอย่างการพาดหัวข่าวข้างต้นมีการพาดหัวข่าวโดยใช้อักษรย่อหรือคำย่อ อักษรย่อ (abbreviations) ที่ปรากฏในพาดหัวข่าวมักเกิดจากการนำพยัญชนะตัวแรกของคำในชื่อองค์กรหรือหน่วยงานต่าง ๆ มารวมกัน พร้อมกับการออกเสียงแบบแยกพยัญชนะ เช่น “ก.เกษตรฯ” หมายถึง “กระทรวงเกษตรและสหกรณ์” หรือ “กยท.” หมายถึง “การยางแห่งประเทศไทย” ซึ่งในเชิงสัญศาสตร์ (semiotics) ถือเป็นการสร้าง “รหัสทางภาษา” ที่สามารถสื่อความหมายได้อย่างเฉพาะเจาะจงและมีประสิทธิภาพต่อกลุ่มผู้อ่านที่มีความรู้พื้นฐานร่วมกัน ซึ่งคำที่ปรากฏในตัวอย่าง คือ “ก.เกษตรฯ” (กระทรวงเกษตรและสหกรณ์ ประเทศไทย) “ครม.” (คณะรัฐมนตรี) “กยท.” (การยางแห่งประเทศไทย) “สว.” (สมาชิกวุฒิสภา) คำที่ผู้เขียนข่าวนำมาพาดหัวข่าวโดยใช้อักษรย่อหรือคำย่อมักเป็นชื่อขององค์กรหรือหน่วยงาน เนื่องจากเป็นชื่อหน่วยงานที่ยืดยาวก็เลยมีการย่อคำให้สั้นลงและง่ายต่อการเขียนข่าว

10. การพาดหัวข่าวโดยใช้คำอ้างอิงตัวเลข เป็นการใช้ตัวเลขหรือข้อมูลเชิงปริมาณเป็นส่วนประกอบสำคัญในพาดหัวข่าว เพื่อเน้นย้ำข้อเท็จจริงที่ชัดเจน สร้างความสนใจ และเพิ่มความน่าเชื่อถือให้กับเนื้อหา โดยตัวเลขที่ใช้มักเป็นจำนวนคน เปอร์เซ็นต์ สถิติ ช่วงเวลา อัตราเปรียบเทียบ หรือแม้แต่ลำดับเหตุการณ์ ดังตารางที่ 10

ตารางที่ 10 การพาดหัวข่าวโดยใช้คำอ้างอิงตัวเลข

ลำดับที่	วัน/เดือน/ปี	ตัวอย่างพาดหัวข่าว	แหล่งข้อมูล
1	26 พฤศจิกายน 2566	งานพลุพัทยา คนนับแสนทะลัก เต็มชายหาด อลังการแสงสีเสียง คาดสะพัด 500 ล้าน	The MATTER (2566ข)
2	5 พฤศจิกายน 2566	เหนือ อีสาน มีหมอกในตอนเช้า ภาคใต้ ฝน 60%	ข่าวสด (2566ช)

จากตัวอย่างการพาดหัวข่าวข้างต้นมีการใช้คำอ้างอิงตัวเลข “คนนับแสน”, “500 ล้าน”, “60%” เหล่านี้ล้วนเป็นการใช้ตัวเลขที่มีความเฉพาะเจาะจง และสามารถสร้างภาพจำให้กับผู้อ่านได้ทันที อีกทั้งยังช่วยให้ผู้อ่านสามารถประเมินสถานการณ์หรือขอบเขตของเหตุการณ์ได้อย่างรวดเร็ว เช่น การระบุจำนวนผู้ได้รับผลกระทบ จำนวนความเสียหาย มูลค่าความเสียหาย หรือความถี่ของเหตุการณ์ ซึ่งล้วนมีผลต่อการรับรู้ข่าวสารและการตัดสินใจของผู้อ่านในสถานการณ์ต่าง ๆ โดยเฉพาะในข่าวเกี่ยวกับภัยพิบัติหรือเหตุการณ์สำคัญ ตัวเลขเหล่านี้ทำหน้าที่เป็นเครื่องมือสื่อสารที่ช่วยให้ประชาชนรับทราบสถานการณ์ได้อย่างมีประสิทธิภาพ เช่น การรายงานระดับน้ำท่วมเป็นเซนติเมตรหรือเมตร การแจ้งเตือนระดับความแรงของแผ่นดินไหวเป็นริกเตอร์ ซึ่งล้วนแล้วแต่ช่วยให้ประชาชนสามารถเตรียมรับมือ ป้องกัน หรือหาวิธีบรรเทาผลกระทบที่อาจเกิดขึ้นได้ ดังนั้น การพาดหัวข่าวโดยใช้คำอ้างอิงตัวเลขจึงไม่เพียงแต่เป็นการดึงดูดความสนใจเท่านั้น แต่ยังเป็นการถ่ายทอดสาระสำคัญของข่าวอย่างมีประสิทธิภาพ

11. การพาดหัวข่าวโดยใช้การระบุคำเรียกเพศ เป็นการใช้คำที่แสดงหรือระบุเพศของบุคคลในพาดหัวข่าว เช่น ใช้คำว่า หนุ่ม สาว ชาย หญิง แม่ พ่อ เด็กหญิง เด็กชาย เป็นต้น เพื่อสื่อถึงตัวตนของบุคคลในข่าวอย่างชัดเจนว่าเป็นเพศใด ซึ่งมีผลต่อการสร้างภาพจำหรือความเข้าใจของผู้อ่านที่มีต่อเหตุการณ์หรือบุคคลนั้น ดังตารางที่ 11

ตารางที่ 11 การพาดหัวข่าวโดยใช้การระบุคำเรียกเพศ

ลำดับที่	วัน/เดือน/ปี	ตัวอย่างพาดหัวข่าว	แหล่งข้อมูล
1	3 ธันวาคม 2566	เด็กชายวัย 10 ขวบที่ถูกน้ำป่าพัดหายไปในพื้นที่ อ.สวี จ.ชุมพร ตั้งแต่เมื่อวานนี้	ไทยพีบีเอส (2566ข)
2	15 พฤศจิกายน 2566	ร่างทรงละเมิดสาว 17 อ้างแก้กาลกิณี แม่ไม่เชื่อลูกท้ากินน้ำสาบาน #เรื่องใหญ่รายวัน	ข่าวช่องวัน (2566ค)

จากตัวอย่างการพาดหัวข่าวข้างต้นมีการพาดหัวข่าวโดยใช้การระบุคำเรียกเพศ ซึ่งเป็นการพาดหัวข่าวโดยบอกให้ทราบถึงลักษณะว่าเหตุการณ์นี้เกิดขึ้นกับเพศไหน โดยการระบุคำเรียกเพศ เป็นสิ่งที่คนส่วนใหญ่ทราบกันดีแล้ว ซึ่งคำที่ปรากฏในตัวอย่าง คือ “เด็กชาย” และ “สาว 17” ล้วนสะท้อนการใช้ภาษาเพื่อเจาะจงอัตลักษณ์ทางเพศและช่วงวัยของบุคคลในข่าวอย่างชัดเจน ซึ่งทำให้ผู้อ่านสามารถรับสารและตีความบริบทของเหตุการณ์ได้อย่างรวดเร็ว โดยไม่ต้องพิจารณารายละเอียดเพิ่มเติมในเนื้อข่าว ทั้งนี้อาจถือเป็นกลวิธีทางภาษาที่สื่อใช้เพื่อดึงดูดความสนใจ และกระตุ้นอารมณ์หรือทัศนคติของผู้อ่านต่อบุคคลในข่าว ซึ่งการพาดหัวข่าวโดยใช้กลวิธีการพาดหัวข่าวประเภทนี้เป็นการนำเสนอข่าวที่มีความชัดเจนเช่นเดียวกับการใช้คำอ้างอิงตัวเลข มีการระบุเพศและบอกช่วงอายุ ทำให้ผู้อ่านสามารถรับรู้ข่าวสารและเหตุการณ์ที่เกิดขึ้นได้ทันที โดยไม่ต้องทำความเข้าใจหรือดูรายละเอียดเพิ่มเติม

12. การพาดหัวข่าวโดยใช้คำเรียกชื่อหน่วยงาน เป็นการเขียนหัวข้อข่าวโดยระบุชื่อของหน่วยงานที่เกี่ยวข้องกับเนื้อหาข่าว อีกทั้งยังแสดงความน่าเชื่อถือของข่าว เพราะมีหน่วยงานอ้างอิงชัดเจนเพื่อสื่อให้ผู้อ่านทราบว่าหน่วยงานนั้นเป็นผู้กระทำ หรือเป็นผู้มีบทบาทสำคัญในเหตุการณ์ที่รายงาน ดังตารางที่ 12

ตารางที่ 12 การพาดหัวข่าวโดยใช้คำเรียกชื่อหน่วยงาน

ลำดับที่	วัน/เดือน/ปี	ตัวอย่างพาดหัวข่าว	แหล่งข้อมูล
1	6 พฤศจิกายน 2566	กองปราบปราม บอกยังไม่ได้รับการประสานดูแลคดีคนร้ายมอมยา 2 ตายายรูดทรัพย์ ขโมยเงินสด 8 พันบาท โทรศัพท์ 2 เครื่อง	ไทยพีบีเอส (2566ค)
2	10 สิงหาคม 2566	วันแม่ 12 ส.ค. 66 นี้ กรมอุทยานฯ เปิดให้เที่ยวฟรีในอุทยานแห่งชาติ	ข่าวช่องวัน (2566ง)

จากตัวอย่างการพาดหัวข่าวข้างต้น มีการพาดหัวข่าวโดยใช้คำเรียกชื่อหน่วยงาน ซึ่งเป็นการพาดหัวข่าวโดยบอกให้ทราบถึงหน่วยงานที่มีส่วนเกี่ยวข้องในข่าว โดยการใช้คำเรียกชื่อหน่วยงานนั้น มักพาดหัวข่าวโดยเขียนชื่อเต็มของหน่วยงาน และมีการใช้เครื่องหมาย ฯ ซึ่งคำที่ปรากฏในตัวอย่าง คือ“กองปราบปราม” และ“กรมอุทยานฯ” (กรมอุทยานแห่งชาติสัตว์ป่าและพันธุ์พืช) ซึ่งการพาดหัวข่าวโดยใช้กลวิธีการพาดหัวข่าวประเภทนี้มักพบเป็นอันดับแรก ๆ จากการศึกษาการพาดหัวข่าวในแหล่งข้อมูลต่าง ๆ และพบกลวิธีนี้ในทุกเพจนำเสนอข่าวออนไลน์ การพาดหัวข่าวช่วยสร้างภาพลักษณ์ของหน่วยงานนั้น ๆ ตัวอย่างเช่น “กองปราบ” หมายถึง แข็งแกร่ง ปราบปรามอาชญากรรม ซึ่งภาษาที่เลือกใช้ช่วยกำหนดบทบาทของหน่วยงานในสังคม

13. การพาดหัวข่าวโดยใช้การละข้อมูลบางส่วน เป็นการใช้กลวิธีทางภาษาที่มุ่งกระตุ้นอารมณ์และความสนใจของผู้อ่านโดยเจตนาให้ผู้อ่านรู้สึกต้องการรู้ข้อมูลที่หายไป และคลิกข่าวต่อ ดังตารางที่ 13

ตารางที่ 13 การพาดหัวข่าวโดยการละข้อมูลบางส่วน

1	17 พฤศจิกายน 2566	ปังกว่านี้มีอีกมั้ย! ‘ญาญ่า’ร่วมงานฮอลลีวูดครั้งแรก ประกบ 2 พระเอกชื่อดัง...	เดลินิวส์ออนไลน์ (2566)
2	1 ธันวาคม 2566	เฉลยแล้ว คู่รักดาราลบรูป-ซ่อนรูป อักษรย่อชัดมาก	ข่าวสด (2566ซ)

จากการศึกษาตัวอย่างการพาดหัวข่าวโดยการละข้อมูลบางส่วน ซึ่งเป็นกลวิธีการเสนอข่าวที่บอกรายละเอียดเพียงคร่าว ๆ พร้อมแทรก “คำใบ้” หรือ “คีย์เวิร์ด” ที่ตั้งใจให้ผู้อ่านเกิดความสงสัย ต้องการติดตามเนื้อหาข่าวเพิ่มเติม โดยเฉพาะในบริบทของข่าวออนไลน์ที่เน้นความเร็ว กระชับ และการกระตุ้นให้เกิดการคลิกเข้าสู่เนื้อหาข่าวเต็ม ตัวอย่างพาดหัวข่าวว่า “เฉลยแล้ว คู่รักดาราลบรูป-ซ่อนรูป อักษรย่อชัดมาก” ที่มีการใช้ภาพเงาของบุคคลโดยไม่เปิดเผยชื่อจริงของคู่รักดารา เป็นการเว้นข้อมูลสำคัญเพื่อเปิดพื้นที่ให้ผู้อ่านคาดเดา หรือมีปฏิสัมพันธ์ผ่านการแสดงความคิดเห็น และการแชร์ต่อ ซึ่งถือเป็นกลยุทธ์การสื่อสารแบบมีส่วนร่วมที่สื่อใช้เพื่อกระตุ้นการมีส่วนร่วมของผู้เสพข่าว นอกจากนี้ยังมีตัวอย่างอื่น ๆ ที่พาดหัวข่าวด้วยการละชื่อบุคคลที่มีชื่อเสียง เช่น “ประกบ 2 พระเอกชื่อดัง...” โดยใช้เพียงตำแหน่งหรือบทบาทของบุคคลเพื่อสร้างความสงสัย กระตุ้นให้ผู้อ่านต้องการทราบว่าใครคือบุคคลในข่าวนั้น

14. การพาดหัวข่าวโดยอาศัยการตีความ เป็นการพาดหัวข่าวที่ไม่ได้ระบุข้อเท็จจริงทั้งหมดอย่างชัดเจนในเชิงข้อมูล แต่เน้นการใช้ภาษาที่เปิดโอกาสให้ผู้อ่านตีความหรือแปลความหมายด้วยตนเองโดยอาศัยบริบท ประสบการณ์ หรือความรู้ที่มีอยู่ เพื่อเข้าใจเจตนาหรือความหมายแฝงของพาดหัวนั้น ดังตารางที่ 14

ตารางที่ 14 การพาดหัวข่าวข้างต้นมีการพาดหัวข่าวโดยอาศัยการตีความ

1	21 พฤศจิกายน 2566	ถอดแนวคิด Soft Power เมื่อแนวทางเพื่อไทยเจอความเห็นต่าง ไม่ใช่สินค้า แต่เป็นแนวคิด?	THE STANDARD (2566ข)
2	30 พฤศจิกายน 2566	‘ความหรูหรา’ ของแต่ละคนไม่เท่ากัน นักวิจัยชี้ Gen Z มักใช้เงินกับเทคโนโลยี ขณะที่ Gen Y ลงไป เน้นสิ่งของ-สุขภาพ	The MATTER (2566ค)

จากตัวอย่างการพาดหัวข่าวข้างต้นมีการพาดหัวข่าวโดยการใช้ถ้อยคำเปรียบเทียบ เป็นการพาดหัวข่าวโดยการเปรียบเทียบสิ่งหนึ่งกับอีกสิ่งหนึ่ง ซึ่งประโยคการพาดหัวข่าวที่ปรากฏในตัวอย่าง คือ “ถอดแนวคิด Soft Power เมื่อแนวทางเพื่อไทยเจอความเห็นต่าง ไม่ใช่สินค้า แต่เป็นแนวคิด?” เป็นการใช้โครงสร้างเปรียบเทียบ “ไม่ใช่...แต่เป็น...” เพื่อเน้นความแตกต่างในมุมมองเกี่ยวกับ soft power ระหว่างมุมมองทางการตลาด (สินค้า) กับมุมมองเชิงวัฒนธรรมและอุดมการณ์ (แนวคิด) และ “ความหรูหรา ของแต่ละคนไม่เท่ากัน นักวิจัยชี้ Gen Z มักใช้เงินกับเทคโนโลยี ขณะที่ Gen Y ลงไป เน้นสิ่งของ-สุขภาพ” เป็นการใช้โครงสร้างเปรียบเทียบ “ขณะที่...” เพื่อชี้ให้เห็นความแตกต่างระหว่างเจเนอเรชั่นในด้านความหมายของความหรูหราอันเป็นนามธรรมที่ต้องตีความ สังเกตได้ว่าผู้อ่านใช้ถ้อยคำเปรียบเทียบระหว่างคน 2 กลุ่ม เช่น “ขณะที่” ความเห็นต่าง 2 แนวทาง “ไม่ใช่..แต่” ซึ่งนอกจากมีการเปรียบเทียบแล้วในบางบริบทยังมีการกล่าวแย้งเพิ่มมาด้วย ซึ่งการพาดหัวข่าวโดยใช้กลวิธีการพาดหัวข่าวประเภทนี้มักพบข่าวที่อธิบายคุณลักษณะของคน 2 คนหรือมีเนื้อหาอธิบายเรื่องราวที่เป็นบทความสั้น ๆ ทำให้ผู้อ่านได้รับสาระความรู้จากข่าวและมองเห็นมุมมองที่หลากหลาย

สรุปและอภิปรายผล

จากผลการศึกษากลวิธีทางภาษาในการพาดหัวข่าวที่ปรากฏในเฟซบุ๊กแฟนเพจนำเสนอข่าวออนไลน์ ผู้วิจัยสามารถสรุปได้ดังต่อไปนี้

ตารางที่ 16 แสดงจำนวนและร้อยละของการศึกษากลวิธีทางภาษาในการพาดหัวข่าวที่ปรากฏในเฟซบุ๊กแฟนเพจนำเสนอข่าวออนไลน์

กลวิธีทางภาษาในการพาดหัวข่าว	จำนวน (การพาดหัวข่าว)	ร้อยละ
1. การพาดหัวข่าวโดยใช้คำเร้าอารมณ์ความรู้สึก	50	12.50
2. การพาดหัวข่าวโดยใช้คำเรียกสมญานาม	11	2.75
3. การพาดหัวข่าวโดยใช้คำทับศัพท์และภาษาต่างประเทศ	48	12.00
4. การพาดหัวข่าวโดยใช้คำเรียกอาชีพ	15	3.75
5. การพาดหัวข่าวโดยใช้คำสแลง	18	4.50
6. การพาดหัวข่าวโดยใช้คำแทนสถานภาพ	18	4.50
7. การพาดหัวข่าวโดยใช้คำถาม	34	8.50
8. การพาดหัวข่าวโดยใช้คำเฉพาะกลุ่ม	12	3.00
9. การพาดหัวข่าวโดยใช้อักษรย่อหรือคำย่อ	31	7.75
10. การพาดหัวข่าวโดยใช้คำอ้างอิงตัวเลข	36	9.00
11. การพาดหัวข่าวโดยใช้การระบุคำเรียกเพศ	12	3.00
12. การพาดหัวข่าวโดยใช้คำเรียกชื่อหน่วยงาน	28	7.00
13. การพาดหัวข่าวโดยการละข้อมูลบางส่วน	37	9.25
14. การพาดหัวข่าวโดยอาศัยการตีความ	45	11.25
15. การพาดหัวข่าวโดยใช้ถ้อยคำเปรียบเทียบ	5	1.25
รวม	**400**	**100.00**

จากการศึกษากลวิธีทางภาษาในการพาดหัวข่าวที่ปรากฏในเฟซบุ๊กแฟนเพจของสื่อออนไลน์ พบว่า กลวิธีที่ถูกนำมาใช้มากที่สุด คือ การใช้คำเร้าอารมณ์ความรู้สึก ซึ่งเป็นเทคนิคที่มีพลังในการดึงดูดความสนใจของผู้อ่านได้อย่างรวดเร็ว โดยเฉพาะในบริบทของข่าวประเภทอาชญากรรม ที่เนื้อหามัก

เกี่ยวข้องกับความรุนแรง การสูญเสีย หรือประเด็นทางสังคมที่มีความอ่อนไหว การใช้คำว่า “โศกนาฏกรรม”, “สะเทือนใจ” หรือ “สังเวย” เป็นต้น ถือเป็นกลวิธีที่สามารถกระตุ้นอารมณ์ของผู้อ่านได้โดยทันที ส่งผลให้ผู้อ่านรู้สึกมีส่วนร่วมทางอารมณ์กับเหตุการณ์นั้น ๆ และพร้อมที่จะกดเข้าไปอ่านรายละเอียดเพิ่มเติม ซึ่งสะท้อนให้เห็นถึงลักษณะของการเสพข่าวในสื่อออนไลน์ที่เน้นความรวดเร็ว กระชับ และกระตุ้นความสนใจ นอกจากนี้ยังพบว่ากลวิธีการพาดหัวข่าวโดยการตีความและการใช้คำทับศัพท์หรือภาษาต่างประเทศ เป็นอีกสองกลวิธีที่พบได้ รองลงมา โดยกลวิธีการตีความมักปรากฏในข่าวที่มีเนื้อหาอ่อนไหว หรือข่าวที่ต้องการหลีกเลี่ยงการใช้ภาษาตรงไปตรงมา เช่น ข่าวที่เกี่ยวข้องกับการวิพากษ์วิจารณ์บุคคลสำคัญ หรือกรณีที่มีข้อกฎหมายเข้ามาเกี่ยวข้อง ขณะที่การใช้คำทับศัพท์หรือภาษาต่างประเทศนั้น มีแนวโน้มเพิ่มขึ้นอย่างต่อเนื่อง โดยเฉพาะในข่าวบันเทิง เทคโนโลยี หรือวัฒนธรรมร่วมสมัย ซึ่งสะท้อนถึงการเปลี่ยนแปลงทางภาษาและอิทธิพลของโลกาภิวัตน์ที่ส่งผลต่อภาษาไทยในยุคปัจจุบัน กลวิธีทางภาษาที่เลือกใช้เหล่านี้ ส่งผลโดยตรงต่อผู้อ่านทั้งในด้านการรับรู้ การตีความ และทัศนคติที่มีต่อเนื้อหาข่าว ในแง่หนึ่ง กลวิธีที่เน้นความเร้าอารมณ์อาจช่วยให้ข่าวสารเป็นที่สนใจและเกิดการพูดถึงในวงกว้าง แต่ในอีกด้านหนึ่งหากใช้มากเกินไปหรือขาดความระมัดระวัง ก็อาจนำไปสู่การบิดเบือนข้อมูล ทำให้สังคมเกิดความเข้าใจผิด หรือกระตุ้นอารมณ์ในทางลบโดยไม่จำเป็น จึงจำเป็นที่ผู้เขียนข่าวควรมีความรับผิดชอบต่อสังคมควบคู่กันไป

อีกประเด็นที่น่าสนใจ คือ ความแตกต่างระหว่างองค์กรข่าวที่เติบโตมาจากสื่อยุคเก่ากับองค์กรข่าวที่เกิดและเติบโตมาพร้อมกับสื่อออนไลน์ โดยกลุ่มแรกมักเน้นรูปแบบการพาดหัวข่าวที่เป็นทางการ ใช้ภาษากระชับ สุภาพ และมีแนวโน้มที่จะใช้ถ้อยคำที่สื่อความหมายตรงไปตรงมา ขณะที่กลุ่มหลังมีความกล้าในการทดลองใช้ภาษา มีความยืดหยุ่นสูง และใช้ภาษาที่ทันสมัย รวมถึงคำแสลงหรือคำยืมจากภาษาอื่น ซึ่งเข้ากับพฤติกรรมของผู้ใช้งานโซเชียลมีเดียที่ชื่นชอบเนื้อหาที่มีความเร็วและร่วมสมัย สิ่งที่ได้เรียนรู้จากการศึกษาครั้งนี้ คือ การพาดหัวข่าวไม่ใช่เพียงแค่การสรุปเนื้อหา แต่เป็นการสื่อสารที่มีพลังในการโน้มน้าว ดึงดูด และสร้างการมีส่วนร่วมกับผู้อ่านได้ในระดับอารมณ์และความคิด ความสามารถในการเลือกใช้กลวิธีทางภาษาให้เหมาะสมจึงมีความสำคัญอย่างยิ่ง ไม่เพียงในด้านการสื่อสาร แต่ยังรวมถึงบทบาทของสื่อในการสะท้อนและมีอิทธิพลต่อทิศทางของสังคมไทยในยุคปัจจุบัน

ข้อเสนอแนะ

1. ผลการวิจัยสามารถนำไปประยุกต์ใช้ในการจัดการเรียนการสอนในรายวิชาที่เกี่ยวข้องกับภาษานิเทศศาสตร์ หรือการสื่อสารมวลชน โดยเฉพาะอย่างยิ่งในประเด็นที่เกี่ยวข้องกับกลวิธีทางภาษา การใช้วัจนกรรม (Speech Acts) การสร้างวาทกรรม (Discourse) และการใช้ภาษาในสื่อดิจิทัล ซึ่งจะช่วยให้มีความเข้าใจที่ลึกซึ้งยิ่งขึ้นเกี่ยวกับบทบาทของภาษาในการสื่อสารผ่านสื่อออนไลน์

2. สามารถนำผลงานวิจัยไปเผยแพร่ในงานวิชาการหรือตีพิมพ์ลงวารสารต่าง ๆ เพื่อเป็นแนวทางในการศึกษาข้อมูลสำหรับผู้ที่สนใจ

3. ควรมีการศึกษาการนำเสนอข่าวผ่านช่องทางอื่น เช่น ทวิตเตอร์ ยูทูบ หรือเว็บไซต์ข่าว เพื่อเปรียบเทียบการปรับเปลี่ยนกลวิธีการใช้ภาษาและรูปแบบการนำเสนอในแต่ละบริบท

4. สำหรับผู้ผลิตสื่อและเพจข่าวออนไลน์ ควรให้ความสำคัญกับความถูกต้องของข้อมูล ความเหมาะสมของระดับภาษา และจรรยาบรรณในการสื่อสารข่าว โดยเฉพาะในประเด็นที่มีความอ่อนไหวหรืออาจส่งผลต่อความรู้สึกของผู้อ่าน ควรอยู่ภายใต้กรอบของความรับผิดชอบต่อสังคม

บทคัดย่อ

กฎหมายว่าด้วยการควบคุมตัวผู้ต้องหาหรือจำเลยชั่วคราวในระหว่างการพิจารณาคดีของศาลตามกฎหมายวิธีพิจารณาความอาญา มาตรา 108/1 เป็นเรื่องที่กระทบต่อสิทธิและเสรีภาพของประชาชนมากที่สุดเรื่องหนึ่ง ซึ่งปัจจุบันกฎหมายไทยเปิดช่องให้เจ้าพนักงานหรือศาลใช้ดุลยพินิจในการไม่ปล่อยตัวชั่วคราวได้แม้ในบางกรณีจะไม่มีพยานหลักฐานเพียงพอว่าผู้ต้องหาหรือจำเลยจะไปกระทำผิดเงื่อนไขในการประกันตัวก็ตาม ทำให้ผู้ต้องหาหรือจำเลยที่อาจจะเป็นผู้บริสุทธิ์ไม่ได้รับสิทธิในการปล่อยตัวชั่วคราวต้องถูกควบคุมตัวหรือจองจำในเรือนจำชั่วคราว จนกว่าจะมีคำพิพากษาถึงที่สุด ซึ่งการถูกควบคุมตัวชั่วคราวนี้กระทบต่อชีวิตและจิตใจของผู้บริสุทธิ์ที่ไม่ได้รับสิทธิ์นั้นๆทั้งสิ้น ซึ่งในเรื่องมีประเด็นที่จะต้องพิจารณาว่าการได้รับสิทธิในการขอปล่อยตัวชั่วคราวหรือประกันตัวนั้นหรือไม่นั้น ควรใช้หลักการใดระหว่างดุลยพินิจหรือหลักว่าหากไม่มีพยานหลักฐานหรือข้อเท็จจริงเพียงพอว่าผู้ต้องหาหรือจำเลยได้กระทำผิดข้อห้ามในการประกันตัว รัฐควรให้สิทธิในการประกันตัว ซึ่งในเรื่องนี้ตรงกับกฎหมายของสหรัฐอเมริกา ที่กำหนดว่าต้องมีหลักฐานที่ชัดเจนและน่าเชื่อถือ (clear and convincing evidence) ก่อนการตัดสินใจไม่ให้ประกันตัว จะตัดสิทธิในการประกันตัวชั่วคราวโดยที่ใช้เพียงดุลยพินิจไม่ได้

คำสำคัญ: ปล่อยตัวชั่วคราวในระหว่างการพิจารณาคดี

Abstract

The Law on the Temporary Detention of the Accused or Defendant During the Trial of the Court under the Criminal Procedure Law, Section 108/1 is one of the most affecting rights and freedoms of the people. Currently, Thai law allows officials or courts to exercise their discretion in not releasing bail even if in some cases there is insufficient evidence that the accused or defendant has violated the conditions of bail. As a result, the accused or defendant who may be innocent does not have the right to temporary release must be detained or imprisoned in a temporary prison until the final verdict is issued. This temporary detention affects the lives and minds of innocent people who are not entitled

to such rights. In the matter, there is an issue to consider whether or not to obtain the right to apply for temporary release or bail. What principle should be applied, between discretion or the principle that if there is no sufficient evidence or factual facts that the accused or defendant has committed a breach of the prohibition on bail? The state should grant bail. This is in line with U.S. law, which requires clear and convincing evidence before deciding not to grant bail.

Keyword: Temporary release during the trial

บทนำ

ปัจจุบันกระบวนการปล่อยตัวชั่วคราวของผู้ต้องหาเป็นหัวข้อที่สำคัญในบริบทกฎหมายระหว่างประเทศ เนื่องจากผลกระทบโดยตรงต่อการคุ้มครองสิทธิเสรีภาพของผู้ต้องหา ในกรณีประเทศไทยแม้ว่าจะมีกฎหมายเกี่ยวกับการปล่อยตัวชั่วคราว แต่จากการศึกษายังพบปัญหาในการบังคับใช้กฎหมายนำไปสู่การตั้งคำถามเกี่ยวกับความยุติธรรมและการคุ้มครองสิทธิของผู้ต้องหาในระบบกฎหมายไทย (ณัฐพงษ์ ชูชมกลิ่น, ม.ป.ป.; วิภารัตน์ สุขสุวรรณ์, 2557)

ในประเด็นนี้ขอหยิบยก Bail Reform Act of 1987 (Federal Judicial Center, 2022) ระบบการปล่อยตัวชั่วคราวผู้ต้องหาของประเทศสหรัฐอเมริกาที่มีความชัดเจนและครอบคลุมอย่างมาก ระบบประกันตัวในสหรัฐฯ ได้รับการพัฒนามายาวนานและมีบทบาทในการคุ้มครองสิทธิเสรีภาพของผู้ต้องหาอย่างโดยมีหลักเกณฑ์การปล่อยตัวชั่วคราวของผู้ต้องหาในคดีอาญาที่เรียกว่า“หลักอันตรายต่อความปลอดภัยของชุมชน” มีหลักเกณฑ์ว่าถ้าไม่มีวิธีการหรือข้อเท็จจริง เข้าข้อยกเว้นอย่างใดอย่างหนึ่งใน 7 ข้อที่กำหนดไว้ดังต่อไปนี้กฎหมายกำหนดว่าให้สามารถประกันตัวได้ ซึ่งหลักเกณฑ์ทั้ง 7 ข้อ ประกอบด้วย

1. คดีมีความเกี่ยวข้องกับอาชญากรรมที่ใช้ความรุนแรง (Crime of viclence) หรืออาชญากรรม การก่อการร้าย (Crime of terrorism) ที่มีโทษจำคุกสูงสุดอย่างน้อย 10 ปี

2. คดีที่มีโทษสูงสุดจำคุกตลอดชีวิตหรือประหารชีวิต

3. คดีเกี่ยวกับการกระทำความผิดเกี่ยวกับสารเคมีควบคุม ที่มีโทษจำคุกสูงสุดอย่างน้อย 10 ปี

4. คดีที่มีความผิดร้ายแรงและผู้ต้องหาเคยโดนศาลตัดสินว่าได้กระทำผิดฐานความผิดที่ (1) (2) หรือ (3) แล้วอย่างน้อย 2 ความผิด

5. ความผิดร้ายแรงที่ไม่ใช่อาชญากรรมที่ใช้ความรุนแรง (Crime of violence) แต่มีเด็กเป็นผู้เสียหายหรือมีการครอบครองอาวุธปืน อุปกรณ์ทำลายล้าง หรืออาวุธอันตรายอื่น

6. มีความเสี่ยงร้ายแรงว่าผู้ต้องหาจะหลบหนี

7. มีความเสี่ยงร้ายแรงว่าผู้ต้องหาจะกระทำการอันเป็นอุปสรรคต่อกระบวนการยุติธรรม ขู่หรือทำร้ายพยานหรือลูกขุน

เมื่อไม่เข้าข้อยกเว้นดังกล่าวทางผู้พิพากษาจะต้องทำการปล่อยตัวชั่วคราวซึ่งเห็นได้ว่าหลักการดังกล่าวทำให้ผู้ต้องหาเป็นหรือจำเลยได้รับความเป็นธรรมไม่ถูกริดรอนเสรีภาพ เพราะเมื่อยังไม่มีคำพิพากษาก็ถือว่าเป็นผู้บริสุทธิ์ ซึ่งจะเห็นได้ว่ามาตรการดังกล่าวมีความแตกต่างกับประเทศไทยอย่างมาก เพราะปัจจุบันระบบการปล่อยตัวชั่วคราวผู้ต้องหาในคดีอาญาของประเทศไทยนั้น วิธีการขอปล่อยตัวชั่วคราวระหว่างการพิจารณาคดี 3 วิธี (พระราชบัญญัติให้ใช้ประมวลกฎหมายวิธีพิจารณาความอาญา

พ.ศ. 2477; วันชัย โตความรู้, ม.ป.ป.; ทิพย์รัตน์ กุหลาบแก้ว, ศิวพร เสาวคนธ และ คมสัน สุขมาก, 2564) กล่าวคือ

1) การขอปล่อยตัวชั่วคราวระหว่างการพิจารณาคดีโดยไม่มีประกัน

2) การขอปล่อยตัวชั่วคราวระหว่างการพิจารณาคดีโดยมีประกัน

3) การขอปล่อยตัวชั่วคราวระหว่างการพิจารณาคดีโดยมีประกันและหลักประกัน

ผู้ที่พิจารณา อนุญาตการปล่อยตัวชั่วคราวผู้ต้องหาหรือจำเลยระหว่างการดำเนินคดีอาญา คือ ตำรวจ (พนักงานสอบสวน) พนักงานอัยการหรือศาลที่ต้องใช้หลักนิติธรรมในการพิจารณาหากองค์กรหรือบุคคลที่มีอำนาจไม่อยู่ภายใต้จริยธรรมคุณธรรมและหลักนิติธรรมแล้ว การปล่อยตัวชั่วคราวระหว่างการพิจารณาก็จะไม่เกิดขึ้นและส่งผลถึงการพิจารณาคดีที่ผู้ต้องหาหรือจำเลยที่มีความจำเป็นต้องแสวงหาพยานหลักฐานมาแสดงเพื่อสนับสนุนว่าผู้ต้องหาหรือจำเลยไม่ได้กระทำความผิดดังที่ได้ถูกกล่าวหาในความผิดนั้นไม่สามารถที่จะกระทำได้เนื่องจากไม่ได้รับประกันตัว นอกจากนี้ปัญหาดังกล่าวยังส่งผลต่อมาทำให้จำเลยที่ไม่ได้รับการประกันตัวต้องอุทธรณ์คำสั่งศาลและต้องขอเพิ่มวงเงินหรือหลักทรัพย์ในการประกันตัว เมื่อขาดหลักทรัพย์ในการประกันตัวก็ต้องใช้บริการนายประกันอาชีพเพื่อขอเช่าหลักทรัพย์ประกันตัวทำให้ผู้ต้องหาหรือจำเลยตกเป็นเครื่องมือในการประกอบธุรกิจของไทยประกันอาชีพอีกด้วย

จากสภาพปัญหาที่เกิดขึ้นในปัจจุบันทำให้ที่มีนักโทษล้นเรือนจำและมีแนวโน้มว่าจะเพิ่มขึ้นทุกปี สภาพความแออัดที่ก่อให้เกิดปัญหานักโทษหลบหนีหรือสร้างความเสียหายเป็นภาระอันหนักยิ่งของกรมราชทัณฑ์และที่สำคัญที่สุด บุคคลผู้ถูกกล่าวหาว่ากระทำความผิดทั้งที่ศาลยังไม่มีคำพิพากษาว่าเป็นผู้กระทำความผิดแต่กลับต้องถูกจองจำตัวชั่วคราว หากต่อมาศาลพิพากษาว่าแท้จริงแล้วบุคคลดังกล่าวเป็นผู้บริสุทธิ์ก็อาจได้รับผลกระทบต่อชีวิต จิตใจ จนไม่สามารถกลับมาเป็นเหมือนเดิมได้อีกแล้ว (ไทยพับลิก้า, 2567)

จากการศึกษาทำให้ทราบปัญหากฎหมายเกี่ยวกับการปล่อยตัวชั่วคราวในคดีอาญาของประเทศไทยที่ยังไม่ชัดเจนไม่ครอบคลุมด้วยกันหลายประการ ซึ่งสรุปได้ดังต่อไปนี้

ปัญหาที่หนึ่ง คือ การกำหนดให้มีประกันหรือหลักประกันในการขอปล่อยตัวชั่วคราวตามประมวลกฎหมายวิธีพิจารณาความอาญามาตรา 108/1 (พระราชบัญญัติให้ใช้ประมวลกฎหมายวิธีพิจารณาความอาญา พ.ศ. 2477) การสั่งไม่ให้ปล่อยชั่วคราวจะกระทำได้ต่อเมื่อมีเหตุอันควรเชื่อเหตุใดเหตุหนึ่งดังต่อไปนี้ ได้แก่ ผู้ต้องหาจะหลบหนี ผู้ต้องหาหรือจำเลยจะไปยุ่งเหยิงกับพยานหลักฐาน ผู้ต้องหาหรือจำเลยจะไปก่อเหตุอันตรายประการอื่น ผู้ร้องขอประกันหรือหลักประกันไม่น่าเชื่อถือ หรือการปล่อยตัวชั่วคราวจะเป็นอุปสรรคหรือก่อให้เกิดความเสียหายต่อการสอบสวนของเจ้าพนักงานหรือการดำเนินคดีในศาล ประการที่สำคัญในการที่เป็นอุปสรรคในชั้นพนักงานสอบสวนหรือชั้นศาลจะใช้วิธีการปล่อยตัวชั่วคราว คือ ผู้ร้องขอประกันไม่สามารถหาหลักประกันได้ ซึ่งเป็นประเด็นปัญหาใหญ่ที่เกิดขึ้นในการขออนุญาตปล่อยตัวชั่วคราว จึงส่งผลให้ผู้ต้องหาที่มีฐานะยากจนและถูกดำเนินคดีด้วยข้อหาที่ไม่ร้ายแรงไม่สามารถหาหลักประกันดังกล่าวมาประกันตนเพื่อคุ้มครองสิทธิเสรีภาพขั้นพื้นฐานของตนเองได้ทำให้ต้องถูกปฏิเสธในการปล่อยตัวชั่วคราว เมื่อผู้ต้องหาถูกปฏิเสธทำให้ต้องถูกคุมขังตั้งแต่ในชั้นของพนักงานสอบสวนเรื่อยมาจนถึงในชั้นศาล ซึ่งอาจกินระยะเวลานานส่งผลต่อการต่อสู้คดีและส่งผลกระทบต่อการใช้ชีวิตครอบครัว เช่น ผู้ต้องหาเป็นหัวหน้าครอบครัวหรือเสาหลักของการหารายได้ของครอบครัวก็จะทำให้เกิดผลกระทบไปยังสมาชิกครอบครัวอื่น ๆ ด้วยทำให้เกิดปัญหาสังคมตามมาอีกมากมาย

ประเทศไทยมีบทบัญญัติรับรองสิทธิในการประกันตัวอยู่ในรัฐธรรมนูญแห่งราชอาณาจักรไทย พ.ศ. 2560 แต่การใช้ประมวลกฎหมายวิธีพิจารณาความอาญาโดยให้ศาลมีคำสั่งไม่อนุญาตปล่อยตัวชั่วคราว โดยไม่มีมาตรฐานการพิสูจน์ที่มีความชัดเจนเพียงพอ อนุญาตให้คุมขังผู้ต้องหาได้เพียงมีเหตุอันควรเชื่อได้ถึงแม้ว่าศาลจะไม่แน่ใจว่าผู้ต้องหาจะไปก่อเหตุนั้นหรือไม่ก็ตาม ความไม่ชัดเจนของคำว่าอันตรายประการอื่นภายใต้มาตรา 108/1 (พระราชบัญญัติให้ใช้ประมวลกฎหมายวิธีพิจารณาความอาญา พ.ศ. 2477) ซึ่งยังไม่มีความชัดเจนนี้จะเป็นการให้ดุลพินิจต่อศาลและพนักงานอัยการมากจนเกินไป ทำให้ผู้ต้องหาหรือจำเลยขาดหลักประกันทางเสรีภาพ

เมื่อเปรียบเทียบกับ Bail Reform Act of 1987 (Federal Judicial Center, 2022) จะเห็นว่ากฎหมายของอเมริกามีความชัดเจนกว่ากฎหมายไทย มีการกำหนดขอบเขตและความหมายของคำว่าอันตรายต่อความปลอดภัยของผู้อื่นและชุมชนไว้ในบทบาทกฎหมายและคำพิพากษา ทำให้บุคคลทั่วไปสามารถเข้าใจได้ว่าการกระทำใดบ้างที่เข้าข่ายอันตราย ซึ่งอาจเป็นเหตุให้ผู้ต้องหาไม่ได้การปล่อยตัวชั่วคราว อีกทั้งกฎหมายยังกำหนดมาตรฐานการพิสูจน์ไว้อย่างชัดเจนว่าโจทก์ต้องนำเสนอหลักฐานที่ชัดเจนและน่าเชื่อถือได้ จึงเห็นว่าควรแก้ไขระบบการปล่อยตัวชั่วคราวของประเทศให้มีมาตรฐานมากขึ้นโดยนำหลักเกณฑ์การปล่อยตัวชั่วคราวของสหรัฐอเมริกามาใช้กับไทย

วัตถุประสงค์ของการวิจัย

1. เพื่อศึกษาปัญหาการใช้ดุจพินิจในการปล่อยตัวชั่วคราวผู้ต้องหาในคดีอาญาในประเทศไทยและผลกระตามมา

2 เพื่อศึกษาหลักการปล่อยตัวชั่วคราวผู้ต้องหาในคดีอาญาของประเทศสหรัฐอเมริการวมถึงทฤษฎีและแนวปฏิบัติเพื่อนำมาปรับใช้ในประเทศไทย

3 เพื่อเสนอให้มีการแก้ไขปรับปรุงระบบการปล่อยตัวชั่วคราวผู้ต้องหาในคดีอาญาในประเทศไทยให้มีบรรทัดฐานประสิทธิภาพ เพื่อเป็นหลักประกันของประชาชนคนไทย

แนวคิด ทฤษฎี กรอบแนวคิด

แนวคิดเกี่ยวกับการปล่อยตัวชั่วคราว

แนวคิดเกี่ยวกับการศึกษาเรื่อง กฎหมายการปล่อยตัวผู้ต้องหาในคดีอาญาของไทยและสหรัฐอเมริกา เน้นวิเคราะห์ถึงความสำคัญของสิทธิเสรีภาพในการดำเนินคดีการคุ้มครองสิทธิมนุษยชนและการรักษาความยุติธรรมในกระบวนการทางกฎหมาย แนวคิดหลักที่สามารถนำมาใช้ในการศึกษานี้ (ศูนย์ทนายความเพื่อสิทธิมนุษยชน, 2566ข) ได้แก่

1. สิทธิเสรีภาพและความยุติธรรม กระบวนการปล่อยตัวชั่วคราวมีความเกี่ยวข้องโดยตรงกับหลักสิทธิเสรีภาพส่วนบุคคล โดยต้องคำนึงถึงการให้สิทธิแก่ผู้ต้องหาที่ไม่ถูกตัดสินว่าเป็นผู้กระทำความผิด ขณะเดียวกันต้องรักษาความสมดุลกับการปกป้องสังคมจากความเสี่ยงที่ผู้ต้องหาอาจก่อขึ้น การเปรียบเทียบระหว่างไทยและสหรัฐฯ จะช่วยให้เห็นถึงวิธีการจัดการสิทธิเหล่านี้อย่างมีประสิทธิภาพในแต่ละประเทศ

2. หลักการประกันตัว ในระบบกฎหมายของสหรัฐอเมริกา การปล่อยตัวชั่วคราวหรือการประกันตัวมีบทบาทสำคัญในการคุ้มครองสิทธิเสรีภาพของผู้ต้องหา ซึ่งจะพิจารณาปัจจัยต่างๆ เช่น ความเสี่ยงในการหลบหนี ความร้ายแรงของอาชญากรรม และความปลอดภัยของสาธารณะ ส่วนใน

ประเทศไทย การปล่อยตัวชั่วคราวถูกกำหนดตามหลักการที่คล้ายคลึงกัน แต่ยังมีข้อจำกัดในทางปฏิบัติและเงื่อนไขที่เข้มงวดมากกว่า

3. ความเสี่ยงและความปลอดภัยของสังคม การศึกษากฎหมายการปล่อยตัวในคดีอาญาต้องคำนึงถึงความเสี่ยงที่ผู้ต้องหาอาจหลบหนี หรือสร้างความเสียหายแก่สังคม การนำแนวคิดเรื่องความปลอดภัยของสาธารณะมาพิจารณาในการประกันตัว จึงเป็นสิ่งที่สำคัญและแตกต่างกันในแต่ละระบบกฎหมาย

4. กระบวนการยุติธรรมเชิงป้องกัน การเปรียบเทียบระบบกฎหมายการปล่อยตัวระหว่างไทยและสหรัฐฯ ช่วยให้เห็นถึงการวางมาตรการป้องกันอาชญากรรมล่วงหน้า ในขณะที่ยังคงรักษาสิทธิเสรีภาพของผู้ต้องหา โดยจะมองเห็นถึงการใช้กลไกทางกฎหมายและเทคโนโลยีในการตรวจสอบผู้ต้องหาในช่วงปล่อยตัวชั่วคราว

5. ความเสมอภาคและความเป็นธรรมในระบบยุติธรรม การวิจัยนี้สามารถนำเสนอถึงความแตกต่างในเรื่องการเข้าถึงสิทธิประกันตัวที่เกิดขึ้นในประเทศไทยและสหรัฐฯ โดยเน้นเรื่องความเสมอภาคทางกฎหมายและการประกันตัวในกรณีต่าง ๆ เพื่อให้แน่ใจว่าผู้ต้องหาทุกคนได้รับการปฏิบัติอย่างเท่าเทียม

แนวคิดและทฤษฎีที่เกี่ยวข้องกับการศึกษาเรื่องการปล่อยตัวผู้ต้องหาในคดีอาญาของไทยและสหรัฐอเมริกา

แนวคิดดังกล่าวมีพื้นฐานมาจากหลักการทางกฎหมายและสิทธิมนุษยชนที่ได้รับการยอมรับในกระบวนการยุติธรรมทั่วโลก การปล่อยตัวผู้ต้องหาในคดีอาญา (หรือการประกันตัว) เป็นกระบวนการที่สำคัญซึ่งมีเป้าหมายหลักเพื่อปกป้องสิทธิเสรีภาพของผู้ต้องหาที่จะไม่ถูกควบคุมตัวเกินความจำเป็น ตราบใดที่ยังไม่ได้มีคำพิพากษาถึงที่สุดว่ามีความผิด การประกันตัวจึงเป็นกระบวนการที่คุ้มครองสิทธิของผู้ต้องหาที่จะสันนิษฐานได้ว่าเป็นผู้บริสุทธิ์จนกว่าศาลจะพิสูจน์ความผิด และยังเป็นเครื่องมือในการปกป้องความปลอดภัยของสังคมในกรณีที่มีความเสี่ยงในการหลบหนีหรือการก่ออาชญากรรมเพิ่มเติม

หลักการสันนิษฐานว่าผู้ต้องหาหรือจำเลยเป็นผู้บริสุทธิ์จนกว่าจะได้รับการพิสูจน์ว่ามีความผิด หรือที่เรียกว่า *Presumption of Innocence* เป็นพื้นฐานสำคัญในกระบวนการพิจารณาคดีในระบบยุติธรรมทั้งในไทยและสหรัฐอเมริกา โดยแนวคิดนี้มุ่งเน้นถึงสิทธิขั้นพื้นฐานของผู้ต้องหาที่ไม่ควรถูกกักขังโดยปราศจากเหตุผลอันสมควร หากไม่มีความจำเป็นจริง ๆ ที่จะต้องควบคุมตัวไว้ การปล่อยตัวผู้ต้องหาในระหว่างการพิจารณาคดีจึงถือว่าเป็นกระบวนการที่เหมาะสมที่สุด เนื่องจากเป็นการรักษาสมดุลระหว่างสิทธิของผู้ต้องหาที่จะมีเสรีภาพส่วนบุคคล กับความจำเป็นของการรักษาความปลอดภัยของสังคม (ศูนย์ทนายความเพื่อสิทธิมนุษยชน 2566ก)

การปล่อยตัวผู้ต้องหาในคดีอาญายังสัมพันธ์กับสิทธิเสรีภาพของบุคคล (Right to Liberty) ซึ่งเป็นสิทธิขั้นพื้นฐานที่ได้รับการคุ้มครองตามกฎหมายระหว่างประเทศ เช่น กติการะหว่างประเทศว่าด้วยสิทธิพลเมืองและสิทธิทางการเมือง (ICCPR) หลักการนี้ระบุว่าบุคคลใด ๆ ที่ถูกจับกุมหรือถูกควบคุมตัวจะต้องมีสิทธิที่จะถูกปล่อยตัวชั่วคราวในระหว่างการพิจารณาคดี ตราบใดที่ไม่มีเหตุจำเป็นที่จะกักขังไว้ต่อไป หลักการนี้เป็นหลักสำคัญในการคุ้มครองเสรีภาพของบุคคลในกระบวนการยุติธรรมอาญา ซึ่งจะช่วยลดโอกาสในการเกิดการละเมิดสิทธิมนุษยชนและการใช้อำนาจโดยมิชอบของเจ้าหน้าที่รัฐ (ศูนย์ทนายความเพื่อสิทธิมนุษยชน, 2566ข)

ในด้านการประกันตัว ระบบกฎหมายของไทยและสหรัฐอเมริกามีการพัฒนาทฤษฎีและหลักการเพื่อสนับสนุนความเสมอภาคและความยุติธรรม (Equality Before the Law) ผู้ต้องหาทุกคนควรได้รับการปฏิบัติอย่างเท่าเทียมในกระบวนการยุติธรรม การประกันตัวไม่ควรเป็นเรื่องที่คนรวยเท่านั้นที่สามารถเข้าถึงได้ โดยเฉพาะในกรณีของการประกันตัวด้วยเงิน (Bail System) ที่มักจะสร้างความเหลื่อมล้ำในสังคม การออกแบบระบบการปล่อยตัวควรคำนึงถึงปัจจัยทางสังคมและฐานะทางการเงินของผู้ต้องหาเพื่อให้มั่นใจว่าผู้ที่มีฐานะยากจนยังคงสามารถได้รับการปล่อยตัวชั่วคราว โดยอาจใช้วิธีการค้ำประกันในรูปแบบอื่น ๆ ที่ไม่ใช่เงินสด เช่น การให้บุคคลมาค้ำประกัน การกำหนดให้รายงานตัวต่อเจ้าหน้าที่หรือการใช้มาตรการควบคุมทางเทคโนโลยี (ศาลฎีกา, 2563)

อีกหลักการที่สำคัญในเรื่องนี้ คือ หลักความจำเป็นและความได้สัดส่วน (Necessity and Proportionality) การพิจารณาว่าควรปล่อยตัวผู้ต้องหาหรือไม่ต้องขึ้นอยู่กับการประเมินความเสี่ยงตามข้อเท็จจริงเฉพาะของคดีการกักขังผู้ต้องหาควรทำเฉพาะในกรณีที่มีเหตุผลที่ชัดเจน เช่น ความเสี่ยงในการหลบหนี หรือความเสี่ยงที่จะก่ออันตรายต่อสังคม การปล่อยตัวผู้ต้องหาไม่ควรทำในกรณีที่ผู้ต้องหามีความเสี่ยงในการกระทำความผิดซ้ำหรือก่อให้เกิดอันตรายต่อสาธารณะ ในขณะเดียวกัน หากผู้ต้องหามีความเสี่ยงต่ำและมีโอกาสที่จะปฏิบัติตามเงื่อนไขการปล่อยตัว ควรพิจารณาใช้วิธีการที่เบากว่า เช่น การติดตามผลด้วยอุปกรณ์อิเล็กทรอนิกส์หรือการรายงานตัวเป็นระยะ (ศูนย์ทนายความเพื่อสิทธิมนุษยชน, 2566ข)

วิธีดำเนินการวิจัย

การวิจัยในครั้งนี้เป็นการศึกษารูปแบบวิจัยเชิงคุณภาพ ศึกษาเกี่ยวกับการปล่อยตัวชั่วคราวในระหว่างการพิจารณาคดี โดยใช้วิธีการศึกษาดังนี้

1. เชิงเอกสาร โดยวิธีพัฒนาเชิงวิเคราะห์ ใช้กระบวนการศึกษาค้นคว้า และรวบรวมข้อมูลจากตำรา หนังสือ บทความ วารสาร เอกสารที่เผยแพร่ทางราชการหรือหน่วยงานต่าง ๆ รวมทั้งข้อมูลข่าวสารจากอินเตอร์เน็ต

2. ศึกษาเชิงคุณภาพ โดยศึกษาหาจากการสัมภาษณ์ ผู้มีส่วนได้เสีย เช่น พนักงานสอบสวน อัยการ ผู้พิพากษา

ผลการวิจัย

จากการศึกษาเรื่อง การปล่อยตัวผู้ต้องหาชั่วคราว ตามประมวลกฎหมายวิธีพิจารณาความอาญา มาตรา 108/1 ฉบับแก้ไขเพิ่มเติม พ.ศ. 2566 สามารถสรุปผลการศึกษาและข้อเสนอแนะดังต่อไปนี้

ในปัจจุบันปัญหาการปล่อยตัวผู้ต้องหาชั่วคราวในคดีอาญาเผชิญกับความซับซ้อนหลายประการ ซึ่งการตีความของศาลต่อข้อกำหนดเกี่ยวกับ “อันตรายประการอื่น” กลายเป็นประเด็นสำคัญที่ทำให้กระบวนการปล่อยตัวมีความยากลำบาก โดยเฉพาะในกรณีที่ผู้ต้องหาไม่มีความเสี่ยงที่จะหลบหนีหรือสร้างอันตรายทางร่างกายแก่บุคคลอื่นในหลายกรณีปัญหานี้ถูกพบในคดีที่เกี่ยวข้องกับนักเคลื่อนไหวทางการเมือง ซึ่งศาลมักมองว่าการปล่อยตัวอาจส่งผลกระทบต่อความสงบเรียบร้อยของสังคม ทั้งที่ไม่มีหลักฐานที่ชัดเจน

มาตรฐานการพิสูจน์ในกฎหมายไทยยังคงมีความคลุมเครือ ซึ่งเมื่อเปรียบเทียบกับประเทศสหรัฐอเมริกา จะเห็นว่ามีการใช้หลักฐานที่ชัดเจนและน่าเชื่อถือ (clear and convincing evidence) ในการพิสูจน์ว่าผู้ต้องหามีความเสี่ยงที่จะก่ออันตรายก่อนที่จะตัดสินใจไม่ปล่อยตัว โดยเฉพาะอย่างยิ่ง

ในกฎหมาย Bail Reform Act of 1984 (Federal Judicial Center, 2022) ที่มีความชัดเจนกว่ากฎหมายไทยที่มีข้อบกพร่องที่ควรปรับปรุง

ขอบเขตของคำว่า “อันตราย” ในกฎหมายสหรัฐฯ ถูกระบุไว้อย่างชัดเจน พร้อมกับความจำเป็นที่ต้องมีหลักฐานที่ชัดเจนและน่าเชื่อถือ หากจะไม่อนุญาตให้มีการปล่อยตัวชั่วคราว ซึ่งความหมายของ “อันตรายต่อความปลอดภัยของผู้อื่นหรือชุมชน” ภายใต้การตีความของศาลในสหรัฐอเมริกามีความชัดเจน ซึ่งมีอยู่ 7 กรณี (Federal Judicial Center, 2022) ได้แก่

1. คดีมีความเกี่ยวข้องกับอาชญากรรมที่ใช้ความรุนแรง (crime of violence) หรืออาชญากรรมการก่อการร้าย (crime of terrorism) ที่มีโทษจำคุกสูงสุดอย่างน้อย 10 ปี
2. คดีที่มีโทษสูงสุดจำคุกตลอดชีวิตหรือประหารชีวิต
3. คดีเกี่ยวกับการกระทำความผิดเกี่ยวกับสารเคมีควบคุม ที่มีโทษจำคุกสูงสุดอย่างน้อย 10 ปี
4. คดีที่มีความผิดร้ายแรง และผู้ต้องหาเคยโดยศาลตัดสินว่าได้กระทำผิดฐานความผิดที่ (1), (2), หรือ (3) แล้วอย่างน้อย 2 ความผิด
5. ความผิดร้ายแรงที่ไม่ใช่อาชญากรรมที่ใช้ความรุนแรง (crime of violence) แต่มีเด็กเป็นผู้เสียหาย หรือมีการครอบครองอาวุธปืน อุปกรณ์ทำลายล้าง หรืออาวุธอันตรายอื่น
6. มีความเสี่ยงร้ายแรงว่าผู้ต้องหาจะหลบหนี
7. มีความเสี่ยงร้ายแรงว่าผู้ต้องหาจะกระทำการอันเป็นอุปสรรคต่อกระบวนการยุติธรรม ขู่หรือทำร้ายพยานหรือลูกขุน

ในขณะที่ในประเทศไทย ขาดมาตรฐานการพิสูจน์เชิงกฎหมายทำให้เกิดความไม่แน่นอนและไม่ชัดเจน ส่งผลให้การไม่อนุญาตให้ประกันตัวในบางคดีอาจเป็นการลิดรอนสิทธิของผู้ต้องหาโดยไม่จำเป็นหรือถูกใช้เป็นเครื่องมือในการควบคุมผู้ที่เกี่ยวข้องกับการเมืองหรือการชุมนุม สถานการณ์ดังกล่าวสะท้อนให้เห็นถึงช่องว่างในระบบกฎหมายไทย โดยเฉพาะในคดีที่เกี่ยวข้องกับนักเคลื่อนไหวทางการเมือง เช่น คดี “เก็ท” และ “ใบปอ” ที่ทั้งสองถูกจับกุมและปฏิเสธการประกันตัวหลายครั้ง ส่งผลให้ผู้ต้องหาหรือจำเลยไม่สามารถทราบได้ว่ากิจกรรมหรือการกระทำใดที่ศาลอาจตีความว่าเป็น “อันตรายประการอื่น” ซึ่งทำให้ไม่สามารถวางแผนชีวิตได้อย่างชัดเจน (ไทยรัฐออนไลน์, 2566)

สรุปและอภิปรายผล

การปรับปรุงระบบการปล่อยตัวผู้ต้องหาชั่วคราวจึงเป็นเรื่องที่สำคัญและจำเป็นอย่างยิ่ง เพื่อให้สอดคล้องกับหลักสิทธิมนุษยชนและสร้างความเป็นธรรมในกระบวนการยุติธรรม นอกจากการชี้แจงและกำหนดมาตรฐานการพิสูจน์ที่ชัดเจนและการประสานงานระหว่างหน่วยงานรัฐและองค์กรภาคประชาชนก็จะช่วยในการเฝ้าระวังและตรวจสอบกระบวนการปล่อยตัวผู้ต้องหา เพื่อให้การปฏิบัติตามกฎหมายเป็นไปอย่างถูกต้องและเป็นธรรม อีกทั้งยังเป็นการสร้างความเชื่อมั่นในกระบวนการยุติธรรมของประชาชน

ความเข้าใจในความแตกต่างระหว่างกฎหมายไทยและสหรัฐอเมริกาเกี่ยวกับการปล่อยตัวผู้ต้องหาชั่วคราวมีความสำคัญต่อการพัฒนากฎหมายไทยให้ทันสมัยและตอบสนองต่อความต้องการของสังคมอย่างมีประสิทธิภาพ การศึกษาแนวทางที่ใช้ในต่างประเทศและการปรับใช้ให้เข้ากับบริบทของไทยจะช่วยลดความท้าทายที่เกิดขึ้นในกระบวนการนี้ โดยเฉพาะการตีความ “อันตรายประการอื่น” ที่มี

ขอบเขตกว้าง ส่งผลให้ผู้ต้องหาหลายคนไม่ได้รับการประกันตัว แม้รัฐธรรมนูญจะรับรองสิทธินี้ เพื่อเสริมสร้างความเป็นธรรมแล้วก็ตาม

ข้อเสนอแนะ

ควรมีแนวทางการตีความคำว่า “อันตรายประการอื่น” ตามประมวลกฎหมายวิธีพิจารณาความอาญามาตรา 108/1 ที่ชัดเจนว่ามีประการบ้าง ให้เหมือนกับของประเทศสหรัฐอเมริกาที่มีการกำหนดอย่างชัดเจนว่า การก่ออันตรายประการอื่นมี 7 กรณี หากข้อเท็จจริงไม่เข้าหลักเกณฑ์ 7 กรณีดังกล่าว ถือว่าไม่มีการก่ออันตรายประการอื่นรัฐต้องปล่อยตัวชั่วคราว นอกจากนี้ควรมีมาตรการที่ช่วยลดความเหลื่อมล้ำในการเข้าถึงสิทธิประกันตัว โดยเฉพาะสำหรับกลุ่มคนที่มีรายได้น้อย ซึ่งอาจนำไปสู่การสร้างโอกาสให้ทุกคนมีสิทธิในการประกันตัวอย่างเท่าเทียม การมีส่วนร่วมของประชาชนและองค์กรต่าง ๆ

การไม่ปล่อยชั่วคราวจะต้องมีเหตุผลตามกฎหมายในการออกคำสั่งเพื่อก่อให้เกิดความยุติธรรมกับผู้รับคำสั่ง และถ้าไม่มีเหตุผลอื่น ๆ ตามมาตรา 108/1 ก็จะต้องระบุถึงเหตุผลความจำเป็นในการเรียกหลักประกัน โดยระบุเหตุผลให้ชัดแจ้งเป็นหนังสือ เพื่อให้โอกาสผู้ต้องหาหรือจำเลยได้ทราบถึงเหตุผลในการไม่อนุญาตให้ปล่อยตัวชั่วคราว

กฎหมายไทยมีการกำหนดขอบเขตและความหมายของคำว่าอันตรายต่อความปลอดภัยของผู้อื่นและชุมชนไว้ในบทบาทกฎหมายและคำพิพากษา ทำให้บุคคลทั่วไปสามารถเข้าใจได้ว่าการกระทำใดบ้างที่เข้าข่ายอันตราย ซึ่งอาจเป็นเหตุให้ผู้ต้องหาไม่ได้การปล่อยตัวชั่วคราว อีกทั้งกฎหมายยังกำหนดมาตรฐานการพิสูจน์ไว้อย่างชัดเจนว่าโจทก์ต้องนำเสนอหลักฐานที่ชัดเจนและน่าเชื่อถือได้ว่ามีเหตุห้ามมิให้ประกันตัว จึงเห็นว่าควรแก้ไขระบบการปล่อยตัวชั่วคราวของประเทศให้มีมาตรฐานมากขึ้นโดยนำหลักเกณฑ์การปล่อยตัวชั่วคราวของสหรัฐอเมริกามาใช้กับไทย

บทคัดย่อ

การวิจัยนี้มีวัตถุประสงค์เพื่อศึกษาแนวทางการแก้ไขข้อบังคับสภาทนายความว่าด้วยมรรยาททนายความ ในประเด็นการโฆษณาของผู้ประกอบวิชาชีพทนายความ โดยใช้วิธีการวิจัยเชิงคุณภาพ ซึ่งประกอบด้วยการวิจัยเอกสารและการสัมภาษณ์เชิงลึก โดยเก็บข้อมูลจากการสัมภาษณ์ ซึ่งใช้วิธีการเลือกบุคคลผู้ให้สัมภาษณ์แบบเจาะจง ประกอบด้วย ทนายความ 20 คน ลูกความ 20 คน และผู้ทรงคุณวุฒิทางด้านกฎหมาย 5 คน เครื่องมือที่ใช้ในการเก็บรวบรวมข้อมูล คือ แบบสัมภาษณ์ชนิดมีโครงสร้าง (Structured Interview) และจากการวิจัยเอกสารแล้วนำมาศึกษาวิเคราะห์ร่วมกับการสัมภาษณ์เชิงลึก ผลการวิจัย พบว่า สภาทนายความ ซึ่งเป็นองค์กรกำกับดูแลผู้ประกอบวิชาชีพทนายความได้ตราข้อบังคับสภาทนายความว่าด้วยมรรยาททนายความ พ.ศ. 2529 ขึ้น เพื่อเป็นแนวทางปฏิบัติสำหรับทนายความ ซึ่งข้อบังคับดังกล่าว ในข้อ 17 ได้ห้ามทนายความโฆษณาข้อมูลส่วนตัวและข้อมูลการประกอบวิชาชีพ ซึ่งก่อให้เกิดปัญหาในทางปฏิบัติหลายประการ ทั้งต่อตัวทนายความ ผู้มีอรรถคดี วงการวิชาชีพและสังคมโดยรวม และเมื่อศึกษาของต่างประเทศ พบว่า ในปัจจุบันหลายประเทศได้อนุญาตให้ทนายความโฆษณาข้อมูลส่วนตัวและข้อมูลการประกอบวิชาชีพได้ภายใต้เงื่อนไขที่กำหนด ดังนั้น ด้วยเหตุดังกล่าวสภาทนายความจึงควรพิจารณาแก้ไขข้อบังคับว่าด้วยมรรยาททนายความ พ.ศ. 2529 ข้อ 17 ในเรื่องการโฆษณา โดยอนุญาตให้ทนายความโฆษณาข้อมูลส่วนตัวและข้อมูลการประกอบวิชาชีพได้ ภายใต้เงื่อนไขที่เหมาะสมเพื่อแก้ไขปัญหาที่เกิดขึ้น

คำสำคัญ: การโฆษณาของวิชาชีพทนายความ, มรรยาททนายความ

Abstract

This research aims to study the guidelines for amending the Lawyers Council's Code of Conduct regarding lawyer advertising. This qualitative research employed documentary research and in-depth interviews. Data were collected through purposive sampling interviews with 20 lawyers, 20 clients, and 5 legal experts. The structured interview form was used as the data collection instrument. The collected data from the documents and in-depth interviews were analyzed.

The research found that the Lawyers Council, the regulatory body for attorneys, issued the Lawyers Council's Code of Conduct B.E. 2529 to guide attorneys' conduct. Article 17 of the Code of Conduct prohibits attorneys from advertising personal information and professional information. This regulation has caused several practical problems for attorneys, clients, the legal profession, and society. The study of foreign practices revealed that many countries currently allow attorneys to advertise personal and professional information under specific conditions.

Therefore, the Lawyers Council should consider amending Article 17 of the Lawyers Council's Code of Conduct B.E. 2529 regarding advertising, allowing attorneys to advertise personal and professional information under appropriate conditions to address the problems.

Keywords: Advertising of the legal profession, Lawyer's ethics

บทนำ

คำว่า "การโฆษณา" ตรงกับคำศัพท์ภาษาอังกฤษว่า "Advertising" มีที่มาจากรากศัพท์ในภาษาลาตินว่า "ad vertere" ซึ่งแปลว่า "การหันเหจิตใจไปสู่" หรือ "To turn the mind toward" ซึ่งหมายความถึง การกระตุ้นเร้าใจให้ผู้บริโภคหรือผู้ซื้อหันเหความสนใจจากสิ่งอื่น ๆ มาสนใจงานโฆษณาจนตัดสินใจซื้อผลิตภัณฑ์ที่เสนอขายนั้น (กัญจณิพัฐ วงศ์สุเมธรต์, 2549)

การโฆษณาถือเป็นส่วนหนึ่งของระบบเศรษฐกิจและมีความสัมพันธ์ โดยตรงกับการผลิต การจัดจำหน่ายสินค้า การตลาด และการขาย ผู้ประกอบธุรกิจจึงจำเป็นต้องใช้การโฆษณา เพื่อให้ผู้ซื้อได้รับรู้ข้อมูลของสินค้าหรือบริการที่ผู้ขายประสงค์ที่จะเสนอขาย บทบาทหน้าที่พื้นฐานของการโฆษณา คือการสื่อสารจากผู้โฆษณาไปยังกลุ่มเป้าหมาย เพื่อสร้างแรงจูงใจให้กับกลุ่มเป้าหมายและตอบสนองต่อวัตถุประสงค์ทางการตลาดของผู้โฆษณา การโฆษณาจึงต้องประกอบด้วยกิจกรรมหลายอย่าง โดยการใช้สื่อหลากหลายประเภทเพื่อที่จะสามารถเข้าถึงผู้รับสารกลุ่มเป้าหมายที่กำหนดไว้ ทั้งนี้ ผู้โฆษณาจะต้องพยายามสร้างสรรค์งานโฆษณาให้น่าสนใจจึงจะสามารถดึงดูดความสนใจของกลุ่มเป้าหมายได้ (ธัชมน ศรีแก่นจันทร์, 2546) อย่างไรก็ตามมีประเด็นที่น่ากังวล เช่น การให้ข้อมูลที่เป็นเท็จ การโฆษณาโอ้อวดเกินจริง หรือการโฆษณาที่ขัดต่อศีลธรรมอันดี ซึ่งเป็นปัญหาที่ประเทศไทยพยายามหามาตรการมาควบคุมดูแล เพื่อคุ้มครองผู้บริโภคและรักษาความเป็นธรรมในการแข่งขัน

ในประเทศไทย มีกฎหมายหลายฉบับที่เกี่ยวข้องกับการควบคุมการโฆษณาหนึ่งในนั้น คือ พระราชบัญญัติคุ้มครองผู้บริโภค พ.ศ. 2522 ซึ่งได้กำหนดให้มีคณะกรรมการว่าด้วยการโฆษณาเพื่อทำหน้าที่กำกับดูแลการโฆษณาของผู้ประกอบธุรกิจ ซึ่งโดยทั่วไปแล้วผู้ประกอบธุรกิจสามารถทำการโฆษณาได้ แต่ต้องอยู่ภายใต้กรอบของกฎหมายที่เกี่ยวข้อง นอกจากนี้ ผู้ประกอบธุรกิจบางสาขาอาชีพที่มีลักษณะเป็น "วิชาชีพ" ก็ยังต้องปฏิบัติตามข้อบังคับขององค์กรวิชาชีพนั้น ๆ ในการโฆษณาอีกด้วย

"วิชาชีพ" หมายถึง อาชีพที่มีลักษณะเป็นผู้มีความรู้ชั้นสูงที่จะต้องผ่านการศึกษาอบรมมาเป็นเวลาหลายปีและเป็นอาชีพที่มีสังคมเป็นหมู่คณะ มีขนบธรรมเนียมและจรรยาบรรณของหมู่คณะโดยเฉพาะและหมู่คณะวิชาชีพนั้น ๆ จะคอยสอดส่องดูแลมวลสมาชิกให้อยู่ในกรอบของขนบธรรมเนียมของวิชาชีพ (จิตติ ติงศภัทิย์, 2542)

ในประเทศไทย วิชาชีพทนายความมีบทบาทสำคัญอย่างยิ่ง ในการธำรงความยุติธรรมและรักษาความศักดิ์สิทธิ์ของกฎหมาย การปฏิบัติหน้าที่ของทนายความจึงต้องตั้งอยู่บนพื้นฐานของจริยธรรมและมรรยาทแห่งวิชาชีพ เพื่อเสริมสร้างความน่าเชื่อถือและความไว้วางใจจากประชาชนผู้รับบริการทางกฎหมาย ด้วยเหตุนี้ วิชาชีพทนายความจึงอยู่ภายใต้การดูแลของสภาทนายความ ซึ่งเป็นองค์กรที่ก่อตั้งขึ้นตามพระราชบัญญัติทนายความ พ.ศ. 2528 โดยมีอำนาจหน้าที่ในการออกข้อบังคับและระเบียบต่าง ๆ เพื่อควบคุมการดำเนินงานของทนายความทั่วประเทศ หนึ่งในข้อบังคับที่สำคัญ คือ “ข้อบังคับสภาทนายความว่าด้วยมรรยาททนายความ พ.ศ. 2529” ซึ่งเป็นกลไกหลักในการกำหนดแนวทางและข้อห้ามในการประกอบวิชาชีพทนายความ โดยมีข้อกำหนดหลายประการที่ทนายความต้องปฏิบัติตามรวมถึงข้อ 17 ที่เกี่ยวข้องกับการจำกัดการโฆษณาของทนายความ ซึ่งในอดีตที่ผ่านมาการที่การโฆษณาของทนายความยังไม่มีหลักเกณฑ์ที่ชัดเจน อาจนำมาซึ่งประเด็นปัญหาที่ควรพิจารณา ดังนี้

1. การแข่งขันที่ไม่สมบูรณ์ กล่าวคือ ทนายความบางรายอาจใช้การสื่อสารประชาสัมพันธ์ในลักษณะที่มุ่งเน้นการสร้างความได้เปรียบทางการแข่งขัน โดยอาจนำเสนอเงื่อนไขหรืออัตราค่าบริการที่ต่ำกว่ามาตรฐาน ซึ่งอาจส่งผลกระทบต่อความเป็นธรรมทั้งต่อผู้บริโภคและเพื่อนร่วมวิชาชีพ

2. การนำเสนอคุณสมบัติที่เกินจริง กล่าวคือ การสื่อสารประชาสัมพันธ์ที่ไม่เหมาะสมอาจก่อให้เกิดความเข้าใจผิดแก่ผู้บริโภคเกี่ยวกับความรู้ ความสามารถที่แท้จริงของทนายความและนำไปสู่การตัดสินใจเลือกทนายความที่ไม่สอดคล้องกับความต้องการของตนเอง

3. การชักจูงผู้มีคดีความด้วยกลยุทธ์เชิงธุรกิจ กล่าวคือ การสื่อสารประชาสัมพันธ์ที่เน้นเพียงผลประโยชน์ทางธุรกิจ อาจทำให้ทนายความให้ความสำคัญกับการแสวงหาผลกำไรมากกว่าการให้บริการทางกฎหมายอย่างเต็มที่ และอาจละเลยผลประโยชน์ของผู้บริโภคในภาพรวม

เพื่อแก้ไขปัญหาที่เกิดจากการโฆษณาของทนายความดังกล่าวข้างต้น ทำให้สภาทนายความออกข้อบังคับสภาทนายความว่าด้วยมรรยาททนายความ พ.ศ. 2529 ในหมวดที่ 4 ว่าด้วยมรรยาทต่อทนายความด้วยกันต่อประชาชนผู้มีอรรถคดีและอื่น ๆ โดยมีข้อบังคับในหมวดนี้ ข้อที่ 17 เป็นหนึ่งในข้อบังคับที่สำคัญ ซึ่งมีเจตนารมณ์เพื่อป้องกันการโฆษณาที่โอ้อวดเกินจริงเป็นเชิงชักชวน หรือก่อให้เกิดความเข้าใจผิดแก่ประชาชน โดยได้บัญญัติห้ามมิให้ทนายความประกาศโฆษณา หรือยอมให้ผู้อื่นประกาศโฆษณาใด ๆ ดังต่อไปนี้

1. อัตราค่าจ้างว่าความ หรือแจ้งว่าไม่เรียกร้องค่าจ้างว่าความ เว้นแต่การประกาศโฆษณาของทนายความเกี่ยวกับการช่วยเหลือประชาชนทางกฎหมาย ซึ่งดำเนินการโดยสภาทนายความเองหรือโดยสถาบัน สมาคม องค์การ หรือส่วนราชการใดที่เกี่ยวข้อง หรือ

2. ชื่อ คุณวุฒิ ตำแหน่ง ถิ่นที่อยู่ หรือสำนักงานอันเป็นไปในทางโอ้อวดเป็นเชิงชักชวนให้ผู้มีอรรถคดีมาหาเพื่อเป็นทนายความว่าต่างหรือแก้ต่างให้เว้นแต่การแสดง ชื่อ คุณวุฒิ หรืออื่น ๆ ดังกล่าวตามสมควรโดยสุภาพ

จากข้อบังคับในข้อ 17 นี้ สามารถสรุปได้ว่า

1. ห้ามมิให้ทนายความโฆษณาหรือยอมให้ผู้อื่นโฆษณาอัตราค่าจ้างว่าความ

ข้อบังคับข้อนี้ ห้ามทั้งตัวทนายความเองและบุคคลอื่นที่ไม่ใช่ทนายความ มิให้ทำการโฆษณาอัตราค่าจ้างว่าความของทนายความ ซึ่งอัตราค่าจ้างว่าความของทนายความ ก็หมายถึง อัตราค่าตอบแทนในการดำเนินคดีในชั้นศาลที่ทนายความจะคิดจากลูกความ ในปัจจุบันการกำหนดอัตราค่าจ้าง

ว่าความของทนายความไม่มีหลักเกณฑ์หรือมาตรฐานที่แน่นอนตายตัวกำหนดไว้ แต่จะขึ้นอยู่กับการกำหนดของทนายความแต่ละคน และความพึงพอใจของลูกความแต่ละราย

แต่แม้ว่าจะไม่มีหลักเกณฑ์ที่แน่นอนในการกำหนดอัตราค่าจ้างว่าความ แต่ทนายความส่วนใหญ่ก็มักจะกำหนดอัตราค่าจ้างว่าความโดยพิจารณาจากปัจจัยต่าง ๆ เช่น ทุนทรัพย์ในคดี ความยากง่ายของคดี ประสบการณ์และความเชี่ยวชาญของทนายความ เช่น ตัวอย่างคดีจัดการมรดก โดยลักษณะคดีจะเป็นคดีที่เกี่ยวข้องกับการรวบรวมทรัพย์สินของผู้ตาย การชำระหนี้สิน และการแบ่งปันทรัพย์สินให้แก่ทายาท ซึ่งอาจมีทั้งกรณีที่ไม่มีข้อพิพาทและกรณีที่มีข้อพิพาทระหว่างทายาท การคิดค่าจ้างโดยประมาณก็จะแบ่งเป็นกรณีไม่มีข้อพิพาท กรณีนี้ทนายความอาจคิดค่าจ้างเป็นรายครั้งหรือรายชั่วโมง สำหรับการดำเนินการ เช่น การยื่นคำร้องต่อศาล การติดต่อหน่วยงานราชการ หรืออาจคิดเป็นค่าบริการเหมาจ่ายสำหรับการดำเนินการทั้งหมดจนแล้วเสร็จ ซึ่งอาจมีราคาตั้งแต่ 15,000 บาท ไปจนถึง 50,000 บาท หรือมากกว่านั้น ขึ้นอยู่กับความซับซ้อนของทรัพย์มรดกและจำนวนทายาท ส่วนกรณีมีข้อพิพาท ค่าจ้างทนายความมักจะสูงกว่ากรณีไม่มีข้อพิพาท เนื่องจากต้องมีการดำเนินกระบวนพิจารณาในศาล มีการสืบพยาน และอาจต้องใช้เวลาและทักษะในการต่อสู้คดีมากขึ้น ค่าจ้างอาจคิดเป็นรายครั้ง/รายชั่วโมง หรือค่าบริการเหมาจ่ายที่สูงขึ้น เช่น เริ่มต้นที่ 50,000 บาท หรืออาจคิดเป็นเปอร์เซ็นต์จากทรัพย์มรดกที่แบ่งได้ นอกจากนี้ตัวอย่างคดีละเมิด เช่น อุบัติเหตุจราจร ลักษณะคดีจะเป็นคดีที่ผู้เสียหายได้รับความเสียหายต่อชีวิต ร่างกาย หรือทรัพย์สิน อันเนื่องมาจากการกระทำโดยประมาทหรือจงใจของผู้อื่น ซึ่งการคิดค่าจ้างในคดีละเมิดมักจะผันแปรตามความเสียหายที่เกิดขึ้น ความซับซ้อนของข้อเท็จจริงและข้อกฎหมายและระยะเวลาในการดำเนินคดี ทนายความอาจคิดค่าจ้างเป็นรายครั้งหรือรายชั่วโมง สำหรับการให้คำปรึกษา การเจรจาไกล่เกลี่ย หรือการดำเนินการในชั้นศาล ในบางกรณีอาจมีการตกลงค่าจ้างเป็นเปอร์เซ็นต์จากค่าสินไหมทดแทนที่เรียกร้องได้ เช่น 10 - 30% ขึ้นอยู่กับการตกลงและความยากง่ายของคดี และหากเป็นการฟ้องร้องต่อศาลค่าบริการเหมาจ่ายอาจเริ่มต้นที่ 20,000 บาท หรือสูงกว่านั้น ขึ้นอยู่กับทุนทรัพย์ที่เรียกร้องและขั้นตอนการดำเนินคดี

ข้อบังคับข้อนี้ เป็นการห้ามเด็ดขาดไม่ว่าจะเป็นการโฆษณาในช่องทาง หรือวิธีการใดทั้งการโฆษณาในนามบัตร หนังสือเชิญชวนทั้งทางไปรษณีย์ โทรสาร หรือระบบการสื่อสารอย่างอื่น การติดโฆษณาบนกระจกหน้าสำนักงาน บนป้ายโฆษณาในที่สาธารณะ การลงโฆษณาในหนังสือพิมพ์ นิตยสาร ใบปลิว แผ่นพับ การออกอากาศทางวิทยุ หรือโทรทัศน์ หรือแม้แต่การทำหนังสือเวียนหาสมาชิกรายปี หรือตลอดชีพ ซึ่งมีสิทธิพิเศษมอบให้ เช่น ได้รับบริการการว่าความโดยไม่เสียค่าจ้าง (คณะทำงานและประสานงานคดีมรรยาททนายความ, 2548; สมชัย โรจน์วณิชย์, 2542)

2. ห้ามมิให้ทนายความโฆษณา หรือยอมให้ผู้อื่นโฆษณาว่าไม่เรียกร้องค่าจ้างว่าความ

ข้อบังคับข้อนี้ ห้ามทั้งตัวทนายความเองและบุคคลอื่นที่ไม่ใช่ทนายความ มิให้ทำการโฆษณาว่าทนายความรับที่จะว่าความให้โดยไม่เรียกร้องค่าจ้างว่าความ ซึ่งในประเด็นนี้เคยมีข้อถกเถียงระหว่างทนายความหลายคนว่า ถ้าทนายความประกาศโฆษณาว่ารับว่าความให้กับประชาชนผู้ยากไร้ โดยมีเจตนาเพื่อช่วยเหลือให้ประชาชนได้รับความยุติธรรมตามกฎหมาย โดยยืนยันว่าจะไม่คิดค่าใช้จ่ายใด ๆ ทั้งสิ้น ทนายความผู้นั้น จะผิดมรรยาททนายความตามข้อบังคับข้อนี้หรือไม่ ปัญหานี้ถ้าพิจารณากันตามตัวข้อบังคับแล้วก็ต้องถือว่าผิด เพราะเท่ากับเป็นการประกาศโฆษณาว่าไม่เรียกร้องค่าจ้างว่าความอยู่ดี แม้ว่าจะมีเจตนาดีเพียงใดก็ตาม (สุรชัย สุวรรณปรีชา, 2531) ดังนั้นข้อบังคับข้อนี้เป็นการห้ามเด็ดขาดไม่ว่าจะเป็นการโฆษณาในช่องทาง หรือวิธีการใดเช่นเดียวกับการห้ามโฆษณาอัตราค่าจ้างว่าความ แต่ข้อบังคับข้อนี้

มีข้อยกเว้นให้สามารถโฆษณาว่าไม่เรียกร้องค่าจ้างว่าความได้ ในกรณีที่เป็นการโฆษณาของทนายความเกี่ยวกับการช่วยเหลือประชาชนทางกฎหมาย ซึ่งดำเนินการโดยสภาทนายความเอง หรือโดยสถาบันสมาคม องค์การ หรือส่วนราชการที่เกี่ยวข้อง เช่น สำนักงานคณะกรรมการช่วยเหลือประชาชนทางกฎหมาย สภาทนายความ เป็นต้น

3. ห้ามมิให้ทนายความโฆษณาหรือยอมให้ผู้อื่นโฆษณา ชื่อ คุณวุฒิ ตำแหน่ง ถิ่นที่อยู่ หรือสำนักงาน อันเป็นไปในทางโอ้อวดเป็นเชิงชักชวนให้ผู้มีอรรถคดีมาหา เพื่อเป็นทนายความว่าต่างหรือแก้ต่างให้

ข้อบังคับข้อนี้ ห้ามทั้งตัวทนายความเองและบุคคลอื่นที่ไม่ใช่ทนายความ มิให้ทำการโฆษณาในทางโอ้อวด โดยมีจุดประสงค์เพื่อชักชวนให้ผู้มีคดีความเข้ามาติดต่อให้เป็นทนายความในคดีให้ เช่น โฆษณาว่าจบการศึกษามาจากที่ใดดำรง หรือเคยดำรงตำแหน่งอะไร โฆษณาว่าเป็นผู้เชี่ยวชาญทางคดีประเภทใด มีความสามารถมากกว่าทนายความคนอื่นอย่างไร หรือโฆษณาว่าเคยไปศึกษาที่ต่างประเทศ ซึ่งมีวิธีการที่จะฟ้องเรียกค่าเสียหายจากการละเมิดได้มากและมีวิธีการสืบสวนที่ทันสมัย ซึ่งจะทำให้สามารถเรียกค่าเสียหายได้สูงกว่าทนายความคนอื่น หรือพิมพ์นามบัตรระบุข้อความว่าเป็นผู้เชี่ยวชาญ ในการเขียนคำร้องขอรอการลงอาญา ซึ่งทำแล้วศาลรอการลงอาญาทุกคดีและสามารถทำให้โทษหนักกลายเป็นโทษเบาได้ หรือพิมพ์นามบัตรระบุชื่อตัว ชื่อสกุล วุฒิการศึกษา โดยเน้นวุฒิการศึกษาว่าจบการศึกษาเนติบัณฑิตไทย จบการศึกษาปริญญาโท หรือปริญญาเอกจากต่างประเทศด้วยตัวอักษรที่ใหญ่กว่า และเน้นเข้มกว่าตัวอักษรชื่อตัว ชื่อสกุล เหล่านี้เป็นต้น (คณะทำงานส่งเสริมและประสานงานคดีมรรยาททนายความ, 2548)

การจำกัดสิทธิในการประกาศโฆษณาตามข้อบังคับสภาทนายความ ว่าด้วยมรรยาททนายความข้อที่ 17 ดังกล่าว เป็นผลมาจากแนวความคิดที่สั่งสมกันมาเป็นเวลานาน ว่าวิชาชีพทนายความเป็นวิชาชีพชั้นสูง เป็นวิชาชีพที่มีเกียรติ ได้รับความเชื่อถือจากคนในสังคมดังนั้น จึงไม่ควรที่ผู้ประกอบวิชาชีพทนายความจะทำการประกาศโฆษณาตนเองในเชิงแข่งขันกัน เพื่อให้มีผู้ว่าจ้างให้ว่าความ (Hazard, Pearce, & Stempel, 1983) ดังนั้นการประกาศโฆษณาตนเองในเชิงแข่งขัน จึงถือเป็นการลดคุณค่าและความน่าเชื่อถือของวิชาชีพ นอกจากนี้ ยังมีเจตนารมณ์เพื่อรักษามาตรฐานและจริยธรรมของวิชาชีพทนายความ เพื่อป้องกันไม่ให้มีการเอารัดเอาเปรียบผู้บริโภคป้องกันการโอ้อวดเกินจริง ป้องกันการชักชวนที่ไม่เหมาะสม และเพื่อให้การแข่งขันในวิชาชีพเป็นไปอย่างเป็นธรรม (ชิตชัย ชินสันติ, 2556)

ในขณะที่สภาทนายความของประเทศไทยไม่อนุญาตให้ทนายความทำการประกาศโฆษณา แต่ก็มีองค์กรควบคุมวิชาชีพทนายความในหลายประเทศ ที่อนุญาตให้ทนายความทำการประกาศโฆษณาได้ภายใต้เงื่อนไขที่กำหนด เช่น ประเทศสหรัฐอเมริกา ประเทศอังกฤษ ประเทศแคนาดา ประเทศเยอรมนี ประเทศญี่ปุ่น ประเทศสิงคโปร์ นอกจากนี้แล้วองค์กรที่ควบคุมวิชาชีพอื่น ๆ หลายวิชาชีพในประเทศไทย เช่น วิชาชีพครู แพทย์ เภสัชกรรม วิศวกรรม สถาปนิก และบัญชี ก็ไม่ได้มีข้อกำหนดห้ามการประกาศโฆษณา แต่กลับอนุญาตให้มีการประกาศโฆษณาได้ภายใต้เงื่อนไขที่กำหนด (ชิดชัย ชินสันติ, 2556)

ดังนั้น แนวคิดในการจำกัดสิทธิในการประกาศโฆษณาของทนายความ จึงอาจนำมาซึ่งข้อจำกัดและผลกระทบที่น่าพิจารณาในหลายประการ ดังนี้

1. ทนายความที่มีความรู้ความเชี่ยวชาญเฉพาะทางอาจไม่สามารถสื่อสารข้อมูล ไปยังประชาชนได้อย่างกว้างขวางทำให้ประชาชนขาดข้อมูลสำคัญ ในการพิจารณาเลือกทนายความที่ตรงกับความต้องการของคดี (ชิดชัย ชินสันติ, 2556) ดังที่เคยปรากฏในบริบทของประเทศอังกฤษ ในอดีตที่มีการจำกัดการโฆษณาของทนายความอย่างเข้มงวด โดยอนุญาตให้แสดงเพียงป้ายชื่อสำนักงานขนาดเล็ก

เท่านั้น ข้อจำกัดดังกล่าวส่งผลให้ทนายความจำนวนไม่น้อยประสบความยากลำบากในการประกอบวิชาชีพ (ธานินทร์ กรัยวิเชียร และมุนินทร์ พงศาปาน, 2550)

2. ผู้ที่ต้องการความช่วยเหลือทางกฎหมายอาจมีข้อมูลที่จำกัด ในการประกอบการตัดสินใจเลือกทนายความทำให้บางครั้ง ต้องพึ่งพาคำแนะนำจากคนใกล้ชิด ซึ่งอาจไม่ได้มีความเข้าใจอย่างลึกซึ้งในประเด็นทางกฎหมายที่เกี่ยวข้อง หรืออาจไม่ทราบถึงทนายความที่มีความเชี่ยวชาญเฉพาะด้าน

3. การเข้าถึงบริการทางกฎหมายของประชาชน ผู้มีรายได้น้อยอาจถูกจำกัดมากยิ่งขึ้น หากทนายความที่ประสงค์จะให้ความช่วยเหลือ โดยไม่คิดค่าใช้จ่ายไม่สามารถประชาสัมพันธ์บริการของตนเองได้อย่างมีประสิทธิภาพ ทำให้ผู้ที่ต้องการความช่วยเหลืออาจไม่ทราบช่องทางในการติดต่อทนายความเหล่านั้น

4. กลไกการแข่งขันในการบริการทางกฎหมายที่อยู่ภายใต้ข้อจำกัดด้านการโฆษณา อาจส่งผลให้ผู้ที่มีคดีความมีทางเลือกที่น้อยลง และอาจต้องเผชิญกับอัตราค่าบริการที่สูงกว่าความเป็นจริง เนื่องจากขาดข้อมูลเปรียบเทียบที่เพียงพอ

5. การจำกัดการสื่อสารข้อมูลความรู้ความสามารถของทนายความสู่สาธารณะ อาจส่งผลกระทบต่อพลวัตและการพัฒนาของวิชาชีพทนายความในระยะยาว และอาจไม่เอื้อต่อการสร้างความเชื่อมั่นและความโปร่งใสในระบบการให้บริการทางกฎหมาย

อย่างไรก็ตาม แม้จะมีข้อบังคับสภาทนายความว่าด้วยมรรยาททนายความ ข้อที่ 17 แล้วก็ตาม ปัญหาการโฆษณาที่ไม่เหมาะสมของทนายความก็ยังคงมีอยู่ ทั้งนี้อันเนื่องมาจากเหตุดังต่อไปนี้

1. ความชัดเจนของข้อบังคับ ซึ่งข้อบังคับในปัจจุบันอาจยังไม่มีความชัดเจนและครอบคลุมเพียงพอ โดยเฉพาะอย่างยิ่งในประเด็นที่เกี่ยวกับการโฆษณาผ่านช่องทางสื่อสังคมออนไลน์ ซึ่งเป็นช่องทางที่ได้รับความนิยมในปัจจุบันทำให้เกิดความสับสนในการตีความ และการบังคับใช้ข้อบังคับ

2. การบังคับใช้ข้อบังคับ ซึ่งการบังคับใช้ข้อบังคับยังไม่เข้มงวดเท่าที่ควร ทำให้ทนายความบางรายยังคงฝ่าฝืนข้อบังคับโดยไม่มีการลงโทษอย่างจริงจัง ซึ่งส่งผลให้ข้อบังคับไม่มีประสิทธิภาพในการควบคุมพฤติกรรมของทนายความ

3. การเปลี่ยนแปลงของเทคโนโลยี ซึ่งปัจจุบันเทคโนโลยีที่เปลี่ยนแปลงไปอย่างรวดเร็วทำให้เกิดรูปแบบการโฆษณาใหม่ ๆ ที่ซับซ้อนมากขึ้น ซึ่งอาจเข้าข่ายเป็นการฝ่าฝืนข้อบังคับแต่ยังไม่มีแนวทางการตีความและการบังคับใช้ที่ชัดเจน

ดังนั้น หากทนายความฝ่าฝืนข้อบังคับสภาทนายความว่าด้วยมรรยาททนายความ ข้อที่ 17 ดังกล่าวจะต้องได้รับโทษทางวินัยตามที่บัญญัติไว้ในมาตรา 52 แห่งพระราชบัญญัติทนายความ พ.ศ. 2528 ซึ่งมีโทษ 3 สถาน ได้แก่ ภาคทัณฑ์ ห้ามทำการเป็นทนายความมีกำหนดไม่เกินสามปี หรือลบชื่อออกจากทะเบียนทนายความ

จากสภาพปัญหาและเหตุผลที่กล่าวมาข้างต้น ผู้วิจัยจึงสนใจที่จะศึกษามาตรการทางกฎหมายเกี่ยวกับปัญหาการโฆษณาของวิชาชีพทนายความ ตามข้อบังคับสภาทนายความว่าด้วยมรรยาททนายความ พ.ศ. 2529 เพื่อศึกษาและวิเคราะห์ข้อบังคับสภาทนายความว่าด้วยมรรยาททนายความ พ.ศ. 2529 ที่เกี่ยวกับการโฆษณาของวิชาชีพทนายความอย่างละเอียด และเพื่อหาแนวทางในการปรับปรุงแก้ไขข้อบังคับและแนวทางการบังคับใช้ข้อบังคับให้มีประสิทธิภาพยิ่งขึ้น อีกทั้งเพื่อให้การควบคุมการโฆษณาของทนายความเป็นไปอย่างเหมาะสม และเป็นธรรมต่อทุกฝ่าย

วัตถุประสงค์ของการวิจัย

1. เพื่อศึกษาข้อดีข้อเสียของข้อบังคับสภาทนายความว่าด้วยมรรยาททนายความ พ.ศ. 2529 ที่เกี่ยวกับการโฆษณาของวิชาชีพทนายความ

2. เพื่อศึกษาเปรียบเทียบข้อบังคับสภาทนายความว่าด้วยมรรยาททนายความ พ.ศ. 2529 ที่เกี่ยวกับการโฆษณาของวิชาชีพทนายความของประเทศไทยกับต่างประเทศ

3. เพื่อศึกษาปัญหาและอุปสรรคในการบังคับใช้ข้อบังคับสภาทนายความว่าด้วยมรรยาททนายความ พ.ศ. 2529 ที่เกี่ยวกับการโฆษณาของวิชาชีพทนายความ

4. เพื่อเสนอแนวทางในการปรับปรุงแก้ไขข้อบังคับสภาทนายความว่าด้วยมรรยาททนายความ พ.ศ. 2529 ที่เกี่ยวกับการโฆษณาของวิชาชีพทนายความ

แนวคิด ทฤษฎี กรอบแนวคิด

1. แนวคิดในการห้ามการโฆษณาของวิชาชีพทนายความ ตามข้อบังคับสภาทนายความว่าด้วยมรรยาททนายความ พ.ศ. 2529

การที่สภาทนายความตราข้อบังคับสภาทนายความว่าด้วยมรรยาททนายความ พ.ศ. 2529 โดยบัญญัติห้ามมิให้ทนายความโฆษณาตนเอง หรือยอมให้ผู้อื่นโฆษณาตัวทนายความนั้น มีที่มาจากเหตุผลและแนวคิดดังต่อไปนี้

1.1 อาชีพทนายความมีลักษณะของความเป็นวิชาชีพ ซึ่งผู้ประกอบวิชาชีพทนายความมีเกียรติมีศักดิ์ศรีเป็นที่นับหน้าถือตาของคนในสังคม อีกทั้งการบริการของทนายความเป็นการบริการทางด้านวิชาชีพ ไม่ใช่การขายสินค้าหรือการให้บริการทั่ว ๆ ไป จึงไม่จำเป็นต้องมีการโฆษณา เพื่อเสนอบริการวิชาชีพให้กับประชาชน เป็นหน้าที่ของประชาชนผู้มีอรรถคดีที่จะต้องเข้ามาขอความช่วยเหลือจากทนายความ โดยหากอนุญาตให้ผู้ประกอบวิชาชีพทนายความทำการโฆษณาได้ จะเป็นการทำลายเกียรติและศักดิ์ศรีของวงการวิชาชีพทนายความ (อุทิศ สวยรูป อ้างถึงใน ชิดชัย ชินสันติ, 2557)

1.2 วิชาชีพทนายความไม่ใช่การประกอบธุรกิจการค้าที่มุ่งหวังแต่จะหาผลประโยชน์ ใส่ตนเอง จึงจำเป็นต้องแยกการประกอบวิชาชีพทนายความออกจากการทำการค้า วิชาชีพทนายความจึงต้องไม่มีพฤติการณ์ที่ส่อไปในทางการประกอบธุรกิจการค้า วัตถุประสงค์ของการกำหนดมรรยาททนายความในข้อนี้เพื่อมิให้การประกอบวิชาชีพทนายความเป็นไปในเชิงการค้า (คณะทำงานส่งเสริมและประสานงานคดีมรรยาททนายความ, 2548)

1.3 หากอนุญาตให้ทนายความทำการโฆษณาได้ ทนายความที่ไม่สุจริตอาจจะใช้การโฆษณาเป็นช่องทางในการให้ข้อมูลที่ไม่ถูกต้องหลอกลวงให้ประชาชนหลงเชื่อ เพื่อจะได้ว่าจ้างตนให้เป็นทนายความว่าความหรือดำเนินกระบวนพิจารณาในคดี อันจะส่งผลเสียต่อประชาชนและสังคมโดยรวม (อุทิศ สวยรูป อ้างถึงใน ชิดชัย ชินสันติ, 2557)

2. ทฤษฎีจริยธรรมวิชาชีพและความสำคัญในวิชาชีพทนายความ

เป็นแนวคิดที่เกี่ยวข้องกับการปฏิบัติงานของบุคคลในวิชาชีพต่าง ๆ โดยมีเป้าหมายเพื่อรักษามาตรฐานทางจริยธรรมและส่งเสริมความไว้วางใจในวิชาชีพนั้น ๆ สำหรับวิชาชีพทนายความ ทฤษฎีนี้มีความสำคัญอย่างยิ่ง เนื่องจากทนายความมีบทบาทสำคัญในกระบวนการยุติธรรมและการปกป้องสิทธิของประชาชน จริยธรรมในวิชาชีพทนายความไม่ได้เป็นเพียงแนวปฏิบัติ แต่เป็นรากฐานสำคัญที่กำหนดว่าทนายความควรทำหน้าที่อย่างไรในสถานการณ์ที่เกี่ยวข้องกับข้อพิพาทและความขัดแย้ง ทฤษฎีนี้มุ่งเน้น

ให้ทนายความปฏิบัติหน้าที่ด้วยความซื่อสัตย์ความเป็นกลาง และการยึดถือผลประโยชน์ของลูกความภายใต้กรอบของกฎหมาย (ชิตชัย ชินสันติ, 2556)

ความสำคัญของจริยธรรมวิชาชีพต่อทนายความ (ชิตชัย ชินสันติ, 2556) จริยธรรมในวิชาชีพเป็นสิ่งที่ช่วยกำหนดแนวทางการปฏิบัติหน้าที่ของทนายความ ในสถานการณ์ที่อาจเกิดความขัดแย้งทางจริยธรรมหรือกฎหมาย การยึดมั่นในจริยธรรมช่วยให้ทนายความสามารถรักษาความไว้วางใจจากลูกความ และสังคมได้ นอกจากนี้ ยังช่วยให้ระบบยุติธรรมดำเนินไปได้อย่างมีประสิทธิภาพและโปร่งใส เมื่อทนายความยึดมั่นในจริยธรรมวิชาชีพ จะช่วยสร้างสมดุลระหว่างผลประโยชน์ของลูกความและความยุติธรรมโดยรวม สิ่งนี้สะท้อนให้เห็นถึงบทบาทของทนายความในฐานะตัวกลางที่ช่วยปกป้องสิทธิของประชาชน ในขณะเดียวกันก็ช่วยรักษาความสงบเรียบร้อยในสังคม

3. งานวิจัยที่เกี่ยวข้อง

ชิตชัย ชินสันติ (2556) ได้ศึกษาเรื่อง ปัญหาการโฆษณาของวิชาชีพทนายความ ตามข้อบังคับสภาทนายความว่าด้วยมรรยาททนายความ พ.ศ. 2529 พบว่า ข้อบังคับมรรยาททนายความซึ่งกำหนดห้ามมิให้มีการโฆษณาข้อมูลส่วนตัวและข้อมูลการประกอบวิชาชีพของทนายความ ทำให้เกิดปัญหาในทางปฏิบัติหลายประการ ได้แก่ 1. ทนายความที่มีความรู้ความสามารถ มีประสบการณ์หรือมีความเชี่ยวชาญเฉพาะด้าน ไม่สามารถโฆษณาเพื่อบอกกล่าวให้ประชาชนทั่วไปได้รับทราบถึงความรู้ความสามารถประสบการณ์ และความเชี่ยวชาญที่ตนเองมีอยู่ประชาชนจึงไม่ทราบข้อมูลเหล่านี้ เพื่อใช้ประกอบในการพิจารณาว่าจ้างทนายความ ทำให้ทนายความไม่มีลูกความว่าจ้างให้ว่าความ 2. ประชาชนผู้มีอรรถคดีไม่มีข้อมูลที่จะใช้ประกอบการพิจารณาตัดสินใจ เลือกทนายความที่จะว่าจ้างให้ว่าความดำเนินคดี ให้แก่ตน ทำให้อาจเลือกว่าจ้างทนายความไม่ตรงกับลักษณะคดี หรือไม่ตรงตามความต้องการที่แท้จริงอันส่งผลเสียหายต่อคดี 3. ประชาชนผู้มีอรรถคดีซึ่งไม่มีกำลังทรัพย์ในการว่าจ้างทนายความ ไม่มีช่องทางในการทราบข้อมูลการให้บริการของทนายความที่ประสงค์จะว่าความ โดยไม่เรียกร้องค่าจ้างว่าความส่งผลทำให้ประชาชนเหล่านี้ ไม่สามารถเข้าถึงกระบวนการยุติธรรม หรือเข้าถึงกระบวนการยุติธรรมอย่างไม่มีประสิทธิภาพ 4. เกิดการผูกขาดในวิชาชีพทนายความ มีผลทำให้ทนายความเรียกค่าจ้างว่าความในอัตราที่สูงเกินควร และ 5. เกิดปัญหาความไม่ยุติธรรมขึ้นในสังคม

จากปัญหาในทางปฏิบัติที่กล่าวมา ชิตชัย ชินสันติ (2556) ได้เสนอแนะว่า สภาทนายความควรพิจารณาทบทวนข้อบังคับว่าด้วยมรรยาททนายความในส่วนที่เกี่ยวข้องกับการโฆษณา โดยควรมีการปรับปรุงแก้ไขให้มีความยืดหยุ่นและสอดคล้องกับสภาพการณ์ในปัจจุบันมากขึ้น เช่น การอนุญาตให้ทนายความสามารถให้ข้อมูลเกี่ยวกับความเชี่ยวชาญ ประสบการณ์ และคุณวุฒิของตนเองได้ ภายใต้หลักเกณฑ์และวิธีการที่สภาทนายความกำหนด เพื่อให้ประชาชนได้รับข้อมูลที่เพียงพอต่อการตัดสินใจเลือกใช้บริการทางกฎหมาย และส่งเสริมการแข่งขันที่เป็นธรรมในวิชาชีพ

อย่างไรก็ตาม งานวิจัยของชิตชัย ชินสันติ มุ่งเน้นไปที่การวิเคราะห์ปัญหาและเสนอแนะแนวทางการปรับปรุงแก้ไขข้อบังคับในภาพรวม สำหรับบทความนี้ ผู้เขียนมีความสนใจที่จะศึกษาในเชิงลึกถึงมาตรการทางกฎหมายที่เฉพาะเจาะจงในการควบคุมการโฆษณาของวิชาชีพทนายความ ตามข้อบังคับสภาทนายความว่าด้วยมรรยาททนายความ พ.ศ. 2529 โดยจะทำการวิเคราะห์ถึงความชัดเจน ความเหมาะสม และประสิทธิภาพของข้อบังคับในแต่ละประเด็น โดยเฉพาะอย่างยิ่งในบริบทของสื่อสังคมออนไลน์และเทคโนโลยีที่เปลี่ยนแปลงไป ซึ่งเป็นประเด็นที่ยังไม่ได้ศึกษาอย่างละเอียดในงานวิจัยของ ชิตชัย ชินสันติ ทั้งนี้ เพื่อนำมาเป็นข้อมูลในการเสนอแนะแนวทางการปรับปรุงกฎหมายและแนวทางการบังคับใช้

ในประเทศไทยให้มีประสิทธิภาพและเป็นธรรมต่อทุกฝ่ายมากยิ่งขึ้น

วิธีดำเนินการวิจัย

ผู้วิจัยได้เลือกใช้วิธีการวิจัยเชิงคุณภาพ วิธีการนี้มุ่งเน้นการทำความเข้าใจปรากฏการณ์ทางสังคมในเชิงลึก โดยอาศัยข้อมูลที่ได้จากการวิจัยเอกสาร และการสัมภาษณ์เชิงลึกเป็นเครื่องมือสำคัญในการเก็บรวบรวมข้อมูล

การวิจัยเอกสาร (Documentary Research) ผู้วิจัยได้ทำการศึกษาเอกสาร และงานวิจัยที่เกี่ยวข้องอย่างครอบคลุม ซึ่งรวมถึงข้อบังคับสภาทนายความว่าด้วยมรรยาททนายความ พ.ศ. 2529 วิทยานิพนธ์ บทความวิจัย หนังสือ ตำราทางกฎหมาย ฐานข้อมูลออนไลน์ และเอกสารอื่น ๆ ที่เกี่ยวข้องกับปัญหาการโฆษณาของวิชาชีพทนายความ ทั้งในบริบทของประเทศไทยและต่างประเทศ ผลจากการวิเคราะห์เอกสารเหล่านี้จะถูกนำมาใช้เป็นพื้นฐานในการทำความเข้าใจประเด็นปัญหา บริบททางกฎหมาย และแนวคิดทางทฤษฎีที่เกี่ยวข้อง

การสัมภาษณ์เชิงลึก ผู้วิจัยยังได้ทำการสัมภาษณ์เชิงลึกกับผู้ให้ข้อมูลสำคัญ (Key Informants) ที่มีความเกี่ยวข้องกับประเด็นการวิจัยโดยตรง ซึ่งประกอบด้วย ทนายความที่มีประสบการณ์ในการประกอบวิชาชีพ ลูกความที่เคยใช้บริการทนายความ และผู้ทรงคุณวุฒิทางด้านกฎหมายที่มีความเชี่ยวชาญในเรื่องจริยธรรมวิชาชีพและการกำกับดูแลทนายความ ในประเด็นเกี่ยวกับความคิดเห็น ประสบการณ์และมุมมองต่อข้อบังคับเกี่ยวกับการโฆษณา ปัญหาและอุปสรรคในการบังคับใช้รวมถึงแนวทางในการปรับปรุงแก้ไข

การศึกษาเชิงเปรียบเทียบกฎหมายต่างประเทศ นอกเหนือจากการศึกษาบริบทของประเทศไทยแล้ว ผู้วิจัยยังได้ทำการศึกษาเชิงเปรียบเทียบข้อกฎหมายและแนวทางการกำกับดูแลการโฆษณาของวิชาชีพทนายความในประเทศสหรัฐอเมริกา ประเทศเยอรมนี และประเทศอังกฤษ

ผลจากการวิเคราะห์ข้อมูลที่ได้จากการวิจัยเอกสารและการสัมภาษณ์เชิงลึก จะถูกนำมาสังเคราะห์ร่วมกับการศึกษาเชิงเปรียบเทียบกฎหมายต่างประเทศ เพื่อให้ได้องค์ความรู้ที่รอบด้านและนำไปสู่การเสนอแนวทางในการปรับปรุงแก้ไขข้อบังคับสภาทนายความ ว่าด้วยมรรยาททนายความ พ.ศ. 2529 ข้อ 17 ให้มีประสิทธิภาพและสอดคล้องกับบริบทของประเทศไทยมากยิ่งขึ้น

ประชากรและกลุ่มตัวอย่าง

ผู้วิจัยใช้วิธีการสุ่มตัวอย่างแบบเจาะจง (Purposive Sampling) ซึ่งเป็นการเลือกที่มีลักษณะเฉพาะโดยผู้วิจัยกำหนดคุณลักษณะ ได้แก่ ทนายความ 20 คน ลูกความ 20 คน และผู้ทรงคุณวุฒิทางด้านกฎหมาย 5 คน

เครื่องมือในการวิจัย

ผู้วิจัยใช้แบบสัมภาษณ์ชนิดมีโครงสร้าง (Structured Interview) หรือการสัมภาษณ์แบบเป็นทางการ (Formal Interview) เป็นเครื่องมือในการวิจัยโดยกำหนดหัวข้อของการสัมภาษณ์ไว้อย่างชัดเจน เพื่อผู้วิจัยจะได้ข้อมูลจากการสัมภาษณ์อย่างครบถ้วนสมบูรณ์ ซึ่งสาระสำคัญของแบบสัมภาษณ์ แบ่งเป็น 3 ส่วน ได้แก่

ส่วนที่ 1 ข้อมูลทั่วไปของผู้ให้สัมภาษณ์

ส่วนที่ 2 ความคิดเห็นของผู้ให้สัมภาษณ์ในประเด็นคำถามที่สัมภาษณ์

ส่วนที่ 3 ความคิดเห็นและข้อเสนอแนะอื่น ๆ

การวิเคราะห์ข้อมูล

ผู้วิจัยใช้วิธีการนำข้อมูลที่ได้จากการสัมภาษณ์เชิงลึกมาเปรียบเทียบความเหมือน และความแตกต่างของแต่ละบุคคลและจัดลำดับความสำคัญ แล้วนำข้อมูลที่จัดลำดับความสำคัญมาเทียบเคียงหรือเปรียบเทียบกับข้อมูลที่ได้มาจากการวิจัยเอกสารต่าง ๆ ที่เกี่ยวข้องไม่ว่าจะเป็นแนวคิด ทฤษฎี และงานวิจัยที่เกี่ยวข้อง เพื่อหาความเหมือนและความแตกต่างกันที่เกิดขึ้น แล้วนำมาวิเคราะห์ร่วมกันอย่างเป็นระบบเพื่อหาบทสรุป

ผลการวิจัย

ผู้วิจัยจัดลำดับประเด็นในการนำเสนอผลการวิจัยตามวัตถุประสงค์การวิจัย ดังนี้

ผลการวิจัยตามวัตถุประสงค์การวิจัย ข้อ 1 เพื่อศึกษาข้อดีข้อเสียของข้อบังคับสภาทนายความว่าด้วยมรรยาททนายความ พ.ศ. 2529 ที่เกี่ยวกับการโฆษณาของวิชาชีพทนายความ

จากการวิจัยเอกสารและสัมภาษณ์เชิงลึก พบว่า ข้อบังคับสภาทนายความว่าด้วยมรรยาททนายความ พ.ศ. 2529 ที่เกี่ยวกับการโฆษณาของวิชาชีพทนายความ อยู่ในข้อบังคับสภาทนายความว่าด้วยมรรยาททนายความ พ.ศ. 2529 ข้อ 17 ซึ่งข้อบังคับข้อนี้มีความสำคัญในการควบคุมการโฆษณาของทนายความและจากการสัมภาษณ์เชิงลึก ทั้งกลุ่มทนายความ ลูกความ และผู้ทรงคุณวุฒิทางด้านกฎหมาย พบว่า มีความเห็นสอดคล้องกันในเรื่องข้อดีข้อเสียของข้อบังคับสภาทนายความว่าด้วยมรรยาททนายความ พ.ศ. 2529 ที่เกี่ยวกับการโฆษณาของวิชาชีพทนายความดังนี้

ประเด็นที่ 1 ข้อบังคับห้ามโฆษณาอัตราค่าจ้างว่าความ

ข้อดี

1) ป้องกันการแข่งขันด้านราคาที่อาจนำไปสู่การลดคุณภาพการให้บริการทางกฎหมาย

2) รักษามาตรฐานวิชาชีพ โดยเน้นที่คุณภาพของบริการมากกว่าราคา

3) ป้องกันการเอารัดเอาเปรียบผู้บริโภค โดยเฉพาะผู้ที่ขาดความรู้ความเข้าใจด้านกฎหมาย

4) สร้างความเท่าเทียมในวิชาชีพ รักษาสถานะและอัตลักษณ์ทนายความ

ข้อเสีย

1) จำกัดสิทธิของผู้บริโภคในการเข้าถึงข้อมูลเปรียบเทียบอัตราค่าจ้างว่าความ

2) อาจทำให้เกิดความไม่โปร่งใสในเรื่องอัตราค่าจ้างว่าความ

3) อาจเป็นอุปสรรคต่อทนายความรุ่นใหม่หรือทนายความที่มีฐานลูกค้าจำกัดในการสร้างฐานลูกค้า

4) ลูกความเข้าถึงข้อมูลค่าใช้จ่ายยาก ขาดข้อมูลตัดสินใจในการเลือกทนายความ เปิดโอกาสเรียกอัตราค่าจ้างว่าความเกินจริง แข่งขันด้านราคาแต่ไม่สอดคล้องคุณภาพ

ประเด็นที่ 2 ข้อบังคับห้ามโฆษณาว่าไม่เรียกร้องค่าจ้างว่าความ

ข้อดี

1) ป้องกันการสร้างภาพลักษณ์ที่ไม่เป็นจริง หรือการโฆษณาที่อาจนำไปสู่การเข้าใจผิด

2) รักษามาตรฐานวิชาชีพ โดยเน้นการให้บริการที่เป็นไปตามหลักวิชาชีพ

3) ป้องกันการแข่งขันที่ไม่เป็นธรรม

4) มีความเหมาะสม ส่งผลต่อภาพลักษณ์และความเป็นกลางของทนายความ

ข้อเสีย

1) อาจจำกัดโอกาสในการให้บริการทางกฎหมายแก่ผู้ที่ขาดแคลนทุนทรัพย์

2) อาจเป็นอุปสรรคต่อการส่งเสริมการให้บริการทางกฎหมายเพื่อสังคม

3) ประชาชนบางส่วนอาจเดือดร้อนหรือเกิดความสับสนในเรื่องค่าจ้างว่าความ

ประเด็นที่ 3 ข้อบังคับห้ามโฆษณาชื่อ คุณวุฒิ ตำแหน่ง ถิ่นที่อยู่ หรือสำนักงาน อันเป็นไปในทางโอ้อวด เป็นเชิงชักชวนให้ผู้มีอรรถคดีมาหาเพื่อเป็นทนายความว่าต่าง หรือแก้ต่างให้

ข้อดี

1) รักษาภาพลักษณ์และความน่าเชื่อถือของวิชาชีพทนายความ

2) ป้องกันการโฆษณาที่เกินจริง หรืออาจก่อให้เกิดความเข้าใจผิด

3) ป้องกันการแข่งขันที่ไม่เป็นธรรมระหว่างทนายความ โดยให้เน้นที่คุณภาพของการบริการมากกว่าการโฆษณา

4) ลดการแบ่งแยกหรือตัดสินคุณภาพทนายความจากการโฆษณาสถาบันที่สำเร็จการศึกษา

5) ป้องกันการโฆษณาที่โอ้อวดเกินจริง และการชักชวนที่อาจก่อให้เกิดความเข้าใจผิดแก่ประชาชน

ข้อเสีย

1) ลูกความเข้าถึงทนายความที่มีความเชี่ยวชาญเฉพาะด้านที่ตนเองต้องการยากขึ้น

2) เป็นการจำกัดสิทธิของทนายความในการนำเสนอข้อมูลที่เป็นประโยชน์ต่อผู้ที่มีคดีความ

3) ข้อจำกัดในการโฆษณาอาจทำให้ประชาชนเข้าถึงข้อมูลเกี่ยวกับทนายความได้ยาก

4) เป็นการจำกัดสิทธิเสรีภาพในการแสดงออกของทนายความ

ผลการวิจัยตามวัตถุประสงค์การวิจัย ข้อ 2) เพื่อศึกษาเปรียบเทียบข้อบังคับสภาทนายความว่าด้วยมรรยาททนายความ พ.ศ. 2529 ที่เกี่ยวกับการโฆษณาของวิชาชีพทนายความของประเทศไทยกับต่างประเทศ

จากการวิจัยเอกสารข้อบังคับมรรยาททนายความ ที่เกี่ยวกับการโฆษณาของวิชาชีพทนายความของประเทศไทยและต่างประเทศ พบว่า ข้อบังคับมรรยาททนายความในเรื่องการโฆษณาของวิชาชีพทนายความในประเทศไทยที่ห้ามทนายความโฆษณาชื่อ คุณวุฒิ ตำแหน่ง หรืออัตราค่าว่าความมีจุดประสงค์หลักในการรักษาจรรยาบรรณ และความเป็นมืออาชีพของอาชีพทนายความ ข้อบังคับนี้ช่วยป้องกันการโฆษณาที่อาจหลอกลวงหรือทำให้ประชาชนเข้าใจผิดเกี่ยวกับบริการทางกฎหมาย นอกจากนี้ยังช่วยควบคุมไม่ให้ทนายความแข่งขันกันในลักษณะที่อาจละเมิดจริยธรรมทางวิชาชีพ เมื่อเปรียบเทียบกับประเทศสหรัฐอเมริกา อังกฤษ และเยอรมนี มีความแตกต่างกันในหลายด้าน โดยสรุปได้ดังนี้

1. ความแตกต่างของข้อบังคับมรรยาททนายความของประเทศไทยกับประเทศสหรัฐอเมริกา

1.1 ข้อจำกัดในการโฆษณา

ประเทศไทย: ทนายความไม่สามารถโฆษณาชื่อ คุณวุฒิ ตำแหน่ง หรืออัตราค่าว่าความในลักษณะเชิงพาณิชย์ได้การโฆษณาใด ๆ ที่เกี่ยวข้องกับอาชีพทนายความมักถูกจำกัดอย่างเข้มงวด เพื่อรักษาความเป็นมืออาชีพและป้องกันการแสวงหาผลประโยชน์โดยไม่เป็นธรรม

ประเทศสหรัฐอเมริกา: ทนายความสามารถโฆษณาบริการได้โดยเสรี แต่ต้องปฏิบัติตามกฎเกณฑ์ เช่น ห้ามใช้การโฆษณาที่ทำให้เข้าใจผิด โฆษณาต้องให้ข้อมูลที่เป็นข้อเท็จจริง และทนายความไม่สามารถ

รับประกันผลลัพธ์ของคดีได้ข้อบังคับเหล่านี้ถูกบังคับใช้ เพื่อปกป้องผู้บริโภคและคงความเป็นธรรมในการแข่งขันทางวิชาชีพ.

1.2 การโฆษณาอัตราค่าว่าความ

ประเทศไทย: ห้ามทนายความโฆษณาอัตราค่าว่าความ หรือใช้วิธีการดึงดูดลูกค้าด้วยการเสนอบริการในราคาถูกหรือสูงเกินไป ซึ่งอาจทำให้เกิดการแข่งกันในลักษณะเชิงพาณิชย์ที่ไม่เหมาะสม

ประเทศสหรัฐอเมริกา: ทนายความสามารถโฆษณาค่าบริการได้ ตราบใดที่ข้อมูลเป็นความจริงและไม่ได้ทำให้ผู้บริโภคเข้าใจผิด หลายรัฐในสหรัฐฯ อนุญาตให้ทนายประกาศอัตราค่าบริการของตนผ่านเว็บไซต์หรือสื่ออื่น ๆ ได้อย่างชัดเจน

สรุป ประเทศไทยมีกฎระเบียบที่เข้มงวดกว่าเกี่ยวกับการโฆษณาบริการของทนายความ เพื่อป้องกันไม่ให้เกิดการแข่งขันในเชิงพาณิชย์ที่อาจทำลายความน่าเชื่อถือและจรรยาบรรณของอาชีพ ในขณะที่สหรัฐอเมริกาให้เสรีภาพมากกว่าในเรื่องการโฆษณา แต่ยังคงมีข้อกำหนดเพื่อป้องกันการละเมิดความเชื่อถือของประชาชนและรักษามาตรฐานทางจริยธรรมของทนาย

2. ความแตกต่างของข้อบังคับมรรยาททนายความของประเทศไทยกับประเทศเยอรมนี

2.1 ข้อจำกัดในการโฆษณา

ประเทศไทย: ข้อบังคับของสภาทนายความไทยห้ามทนายความโฆษณาชื่อตำแหน่ง คุณวุฒิ หรืออัตราค่าว่าความในลักษณะเชิงพาณิชย์อย่างชัดเจน เพื่อป้องกันการโฆษณาเกินจริงหรือการชักชวนลูกค้าในลักษณะที่ไม่เหมาะสม การประชาสัมพันธ์ทนายความจึงถูกจำกัด เพื่อรักษาความเป็นมืออาชีพและจรรยาบรรณในสายตาของประชาชน

ประเทศเยอรมนี: ในประเทศเยอรมนี ทนายความสามารถโฆษณาบริการได้ตามกฎหมาย แต่ต้องเป็นไปตามกฎที่ออกโดย Federal Lawyers' Act (BRAO) และ Rules of Professional Practice (BORA) ข้อบังคับเหล่านี้ อนุญาตให้ทนายสามารถโฆษณาผลงาน คุณวุฒิ และตำแหน่งได้ แต่การโฆษณาต้องเป็นความจริงและไม่ทำให้เข้าใจผิด ข้อมูลที่แสดงต้องสอดคล้องกับมาตรฐานความเป็นมืออาชีพ

2.2 การโฆษณาอัตราค่าว่าความ

ประเทศไทย: ทนายความในประเทศไทยถูกห้ามโฆษณาอัตราค่าว่าความ ซึ่งเป็นมาตรการที่ป้องกันการใช้ราคาเป็นเครื่องมือในการดึงดูดลูกค้าหรือสร้างการแข่งขันเชิงพาณิชย์ ในลักษณะที่อาจทำให้ทนายความละเมิดจริยธรรม

ประเทศเยอรมนี: ในเยอรมนี ทนายความสามารถแจ้งอัตราค่าบริการของตนได้ตามกฎหมาย ทั้งนี้ การกำหนดอัตราค่าว่าความ มักจะต้องปฏิบัติตามกฎ Law on the Remuneration of Lawyers (RVG) ที่ระบุเกี่ยวกับค่าธรรมเนียมขั้นต่ำ และสูงสุดสำหรับการว่าความในบางประเภทการเปิดเผยอัตราค่าบริการจึงไม่ถูกห้าม แต่ต้องทำอย่างโปร่งใสและไม่เกินจริง

สรุป ข้อบังคับของไทยและเยอรมนีมีความแตกต่างกัน ในระดับของการควบคุมการโฆษณาของทนายความ ในขณะที่ประเทศไทยมีข้อบังคับที่เข้มงวดในการห้ามทนายโฆษณาชื่อตำแหน่ง คุณวุฒิ และอัตราค่าว่าความ

3. ความแตกต่างของข้อบังคับมรรยาททนายความของประเทศไทยกับประเทศอังกฤษ

3.1 ข้อจำกัดในการโฆษณา

ประเทศไทย: ข้อบังคับของสภาทนายความไทยห้ามทนายความโฆษณาชื่อตำแหน่ง คุณวุฒิ และอัตราค่าว่าความอย่างเคร่งครัด ทนายความไม่สามารถใช้การโฆษณาเพื่อดึงดูดลูกค้าได้ เนื่องจากเป็นการปกป้องจรรยาบรรณและป้องกันการโฆษณาเกินจริงที่อาจก่อให้เกิดความเข้าใจผิด

ประเทศอังกฤษ: ทนายความในอังกฤษสามารถโฆษณาบริการได้ โดยต้องปฏิบัติตามข้อบังคับของ Solicitors Regulation Authority (SRA) สำหรับทนายความ (Solicitors) และ Bar Standards Board (BSB) สำหรับทนายว่าความในศาล (Barristers) การโฆษณาสามารถทำได้ในกรอบที่ไม่หลอกลวงหรือเกินจริง ทนายสามารถโปรโมตชื่อ คุณวุฒิ และตำแหน่งของตนได้ภายใต้ข้อบังคับที่กำหนด เพื่อให้ข้อมูลที่ถูกต้องแก่ประชาชน

3.2 การโฆษณาอัตราค่าว่าความ

ประเทศไทย: ทนายความในประเทศไทยห้ามโฆษณาอัตราค่าว่าความ หรือใช้วิธีการประชาสัมพันธ์ที่เน้นเรื่องราคา เพื่อป้องกันไม่ให้เกิดการแข่งขันเชิงพาณิชย์ที่อาจทำให้คุณภาพของงานทนายลดลง

ประเทศอังกฤษ: ทนายความในอังกฤษสามารถโฆษณาค่าบริการได้ โดยเฉพาะ Solicitors ที่สามารถเปิดเผยข้อมูลเกี่ยวกับค่าธรรมเนียมในการให้คำปรึกษาหรือว่าความผ่านเว็บไซต์หรือสื่ออื่น ๆ ได้ ทั้งนี้ ต้องทำให้ข้อมูลชัดเจนและไม่ทำให้เกิดความเข้าใจผิด ส่วน Barristers ที่มีค่าบริการอาจไม่ได้กำหนดอย่างชัดเจน เพราะขึ้นอยู่กับการทำงานในลักษณะจ้างชั่วคราวผ่าน Solicitors.

สรุป ประเทศไทยและอังกฤษมีความแตกต่างกันอย่างชัดเจน ในเรื่องการโฆษณาของทนายความ ประเทศไทยมีกฎระเบียบที่เข้มงวดและจำกัด เพื่อปกป้องจรรยาบรรณทางวิชาชีพ ขณะที่อังกฤษให้เสรีภาพมากขึ้น แต่ยังคงมีการควบคุมอย่างรัดกุมเพื่อรักษามาตรฐานและปกป้องผู้บริโภคจากการโฆษณาที่เกินจริง

ผลการวิจัยตามวัตถุประสงค์การวิจัย ข้อ 3) เพื่อศึกษาปัญหาและอุปสรรคในการบังคับใช้ข้อบังคับสภาทนายความว่าด้วยมรรยาททนายความ พ.ศ. 2529 ที่เกี่ยวกับการโฆษณาของวิชาชีพทนายความ

จากการวิจัยเอกสารและความเห็นของผู้ให้สัมภาษณ์เชิงลึก พบว่า สอดคล้องกัน โดยพบว่าปัญหาและอุปสรรคในการบังคับใช้ข้อบังคับสภาทนายความว่าด้วยมรรยาททนายความ พ.ศ. 2529 ที่เกี่ยวกับการโฆษณาของวิชาชีพทนายความข้อ 17 มีหลายประการดังนี้

1. ความไม่ชัดเจน ไม่ครอบคลุม และคลุมเครือของข้อบังคับ โดยข้อบังคับยังขาดความชัดเจน ไม่ครอบคลุม และยังไม่ทันต่อการเปลี่ยนแปลงของเทคโนโลยีและพฤติกรรมผู้บริโภค โดยเฉพาะอย่างยิ่งการโฆษณาผ่านสื่อสังคมออนไลน์ ทำให้เกิดรูปแบบการโฆษณาใหม่ ๆ ที่ซับซ้อน ซึ่งอาจเข้าข่ายเป็นการฝ่าฝืนข้อบังคับ แต่ยังไม่มีแนวทางการตีความและการบังคับใช้ที่ชัดเจน ทำให้ไม่สามารถตรวจสอบและควบคุมการโฆษณาในรูปแบบใหม่ ๆ ได้อย่างมีประสิทธิภาพ

2. การขาดแนวทางการตีความ และการบังคับใช้ที่ชัดเจนทำให้การบังคับใช้กฎหมายไม่มีประสิทธิภาพและไม่เป็นธรรม

3. การขาดความร่วมมือและการสนับสนุนจากหน่วยงานที่เกี่ยวข้อง ทำให้การบังคับใช้กฎหมายไม่มีประสิทธิภาพเท่าที่ควร

4. การขาดทรัพยากรและบุคลากร ทำให้การบังคับใช้กฎหมายไม่มีประสิทธิภาพเท่าที่ควร

5. การตีความข้อบังคับที่แตกต่างกันอาจทำให้เกิดความไม่สม่ำเสมอในการบังคับใช้ หากมีการตีความคำว่า “โอ้อวด” หรือ “เชิงชักชวน” ที่มีความแตกต่างกัน อาจนำไปสู่ปัญหาในการบังคับใช้ได้

6. ข้อบังคับอาจเข้มงวดเกินไป ทำให้ทนายความไม่สามารถให้ข้อมูลที่จำเป็นแก่ประชาชนได้อย่างเพียงพอ

7. การบังคับใช้ข้อบังคับยังไม่เข้มงวดและไม่เป็นธรรมเท่าที่ควร ทำให้ทนายความบางรายยังคงฝ่าฝืนข้อบังคับ

สรุปและอภิปรายผล

ผลการวิจัยนี้ได้สำรวจความคิดเห็นของทนายความ ลูกความ และผู้เชี่ยวชาญทางวิชาการเกี่ยวกับข้อบังคับสภาทนายความว่าด้วยมรรยาททนายความ พ.ศ. 2529 โดยเฉพาะในประเด็นที่เกี่ยวข้องกับการโฆษณาอัตราค่าจ้างว่าความ การไม่เรียกค่าจ้างและการเปิดเผยข้อมูลส่วนตัวของทนายความ

ผลการวิจัยพบว่า ข้อบังคับดังกล่าวมีทั้งข้อดีและข้อเสีย โดยข้อดี คือ ช่วยรักษามาตรฐานและความน่าเชื่อถือของวิชาชีพทนายความ ป้องกันการแข่งขันที่ไม่เป็นธรรม และส่งเสริมความเท่าเทียมกันในหมู่ทนายความ อย่างไรก็ตาม ข้อเสีย คือ อาจทำให้ลูกความเข้าถึงข้อมูลที่จำเป็นในการตัดสินใจเลือกทนายความได้ยากขึ้น และอาจจำกัดโอกาสในการเข้าถึงบริการทางกฎหมายของประชาชนบางกลุ่ม

เมื่อเปรียบเทียบกับประเทศอื่น ๆ เช่น สหรัฐอเมริกา อังกฤษ และเยอรมนี พบว่า ประเทศไทยมีข้อบังคับที่เข้มงวดกว่าโดยประเทศเหล่านี้ มีความยืดหยุ่นในการโฆษณามากกว่า แต่ก็มีข้อกำหนดและมาตรฐานที่ชัดเจน เพื่อป้องกันการโฆษณาที่เกินจริงและไม่เป็นธรรม

ข้อบังคับสภาทนายความว่าด้วยมรรยาททนายความ พ.ศ. 2529 ข้อ 17 ยังคงมีความสำคัญในการควบคุมการโฆษณาของทนายความ แต่จำเป็นต้องมีการปรับปรุงแก้ไขให้มีความชัดเจน ครอบคลุม และสอดคล้องกับสภาพการณ์ในปัจจุบัน โดยเฉพาะอย่างยิ่งในประเด็นที่เกี่ยวกับการโฆษณาผ่านสื่อสังคมออนไลน์ การเปลี่ยนแปลงของเทคโนโลยีและการบังคับใช้ข้อบังคับให้มีประสิทธิภาพยิ่งขึ้น

ปัญหาและอุปสรรคในการบังคับใช้ข้อบังคับส่วนใหญ่เกิดจากความไม่ชัดเจนของข้อบังคับ การขาดแนวทางการตีความและการบังคับใช้ที่ชัดเจน การเปลี่ยนแปลงของเทคโนโลยีและพฤติกรรมผู้บริโภค การขาดความร่วมมือและการสนับสนุนจากหน่วยงานที่เกี่ยวข้อง และการขาดทรัพยากรและบุคลากร

แนวทางในการปรับปรุงแก้ไขข้อบังคับหรือแนวทางการบังคับใช้ข้อบังคับให้มีประสิทธิภาพยิ่งขึ้น ควรเริ่มจากการปรับปรุงแก้ไขข้อบังคับให้มีความชัดเจน ทันสมัย และครอบคลุม กำหนดแนวทางการตีความและการบังคับใช้ที่ชัดเจน ส่งเสริมความร่วมมือและการสนับสนุนจากหน่วยงานที่เกี่ยวข้อง เพิ่มทรัพยากรและบุคลากร พัฒนาระบบการติดตามและตรวจสอบและส่งเสริมความรู้ความเข้าใจเกี่ยวกับข้อบังคับ

ข้อเสนอแนะ

1. ข้อเสนอแนะเชิงนโยบาย

ควรมีการทบทวนและปรับปรุงแก้ไข ข้อบังคับสภาทนายความว่าด้วยมรรยาททนายความ พ.ศ. 2529 ข้อ 17 ให้มีความชัดเจน ทันสมัย และสอดคล้องกับสภาพการณ์ในปัจจุบัน โดยเฉพาะอย่างยิ่งในประเด็นที่เกี่ยวกับการโฆษณาผ่านสื่อสังคมออนไลน์ และรูปแบบการโฆษณาที่ซับซ้อนมากขึ้น และอนุญาตให้ทนายความสามารถโฆษณาข้อมูลที่จำเป็นได้ แต่ต้องอยู่ภายใต้ข้อกำหนดและมาตรฐานที่ชัดเจน

เพื่อป้องกันการโฆษณาที่เกินจริงและไม่เป็นธรรม โดยข้อเสนอแนะการปรับแก้ข้อความในข้อบังคับข้อ 17 เป็นดังนี้

“ข้อ 17 ทนายความต้องปฏิบัติตามข้อบังคับนี้ ในการโฆษณาหรือประชาสัมพันธ์ตนเอง และต้องไม่กระทำการใด ๆ ที่เป็นการฝ่าฝืนข้อบังคับนี้ ไม่ว่าการกระทำนั้นจะกระทำด้วยตนเอง หรือยินยอมให้ผู้อื่นกระทำ

1. อัตราค่าจ้างว่าความ หรือแจ้งว่าไม่เรียกร้องค่าจ้างว่าความ เว้นแต่การประกาศหรือประชาสัมพันธ์เกี่ยวกับการช่วยเหลือประชาชนทางกฎหมาย ซึ่งดำเนินการโดยสภาทนายความเอง หรือโดยสถาบันสมาคม องค์การ หรือส่วนราชการใดที่เกี่ยวข้อง หรือการให้ข้อมูลเกี่ยวกับค่าบริการตามที่กฎหมายกำหนด

2. ข้อมูลส่วนตัว เช่น ชื่อ คุณวุฒิ ตำแหน่ง ถิ่นที่อยู่ หรือสำนักงาน ที่แสดงต่อสาธารณะต้องเป็นไปตามหลักเกณฑ์ที่สภาทนายความกำหนด โดยคำนึงถึงความสุภาพ เหมาะสม และไม่เป็นการโอ้อวด เป็นเชิงชักชวนให้ผู้มีอรรถคดีมาหาเพื่อเป็นทนายความว่าต่างหรือแก้ต่างให้ การโฆษณาหรือประชาสัมพันธ์ใด ๆ ที่เป็นการให้ข้อมูลเกินกว่าความเป็นจริง หรือก่อให้เกิดความเข้าใจผิดแก่ประชาชน ถือเป็นการฝ่าฝืนข้อบังคับนี้

การโฆษณาหรือประชาสัมพันธ์ผ่านสื่อสังคมออนไลน์ ต้องเป็นไปตามข้อบังคับนี้ และหลักเกณฑ์ที่สภาทนายความกำหนดเพิ่มเติม โดยคำนึงถึงลักษณะเฉพาะของสื่อสังคมออนไลน์แต่ละประเภท

การโฆษณาหรือประชาสัมพันธ์ในรูปแบบอื่น ๆ ที่มีความซับซ้อน ต้องเป็นไปตามข้อบังคับนี้ และหลักเกณฑ์ที่สภาทนายความกำหนดเพิ่มเติม โดยคำนึงถึงความเหมาะสม และไม่เป็นการฝ่าฝืนเจตนารมณ์ของข้อบังคับนี้

ทนายความที่ฝ่าฝืนข้อบังคับนี้ อาจถูกลงโทษตามที่สภาทนายความกำหนด”

จากข้อเสนอแนะให้ปรับปรุงแก้ไขข้อบังคับสภาทนายความว่าด้วยมรรยาททนายความ พ.ศ. 2529 ข้อ 17 ข้างต้น ในประเด็นการโฆษณาหรือประชาสัมพันธ์ผ่านสื่อสังคมออนไลน์นั้น ในทางปฏิบัติจะต้องเป็นไปตามข้อบังคับนี้ และหลักเกณฑ์ที่สภาทนายความกำหนดเพิ่มเติม โดยคำนึงถึงลักษณะเฉพาะของสื่อสังคมออนไลน์แต่ละประเภท ซึ่งหลักเกณฑ์ในทางปฏิบัติที่กำหนดสำหรับการโฆษณาประชาสัมพันธ์ผ่านสื่อสังคมออนไลน์อาจกำหนดไว้ดังนี้

(1) การสร้างบัญชีผู้ใช้งาน ทนายความสามารถสร้างบัญชีผู้ใช้งานในแพลตฟอร์มต่าง ๆ เช่น LinkedIn, Facebook Page, เว็บไซต์ส่วนตัว ได้ โดยต้องระบุชื่อ-นามสกุลจริง และหมายเลขทะเบียนทนายความให้ชัดเจนข้อมูลในบัญชีต้องเป็นความจริง ไม่โอ้อวด หรือก่อให้เกิดความเข้าใจผิดสามารถระบุประวัติการศึกษา ประสบการณ์ทำงาน (เช่น ประเภทคดีที่เคยทำ) และความเชี่ยวชาญเฉพาะทางได้ ตัวอย่างเช่น ทนาย ก. สร้างบัญชี LinkedIn โดยระบุชื่อ "ทนาย ก. (เลขที่ทะเบียนทนายความ)" พร้อมทั้งระบุประวัติการศึกษา นิติศาสตรบัณฑิตจากมหาวิทยาลัย... และประสบการณ์ทำงานด้านคดีแพ่งและพาณิชย์มา 10 ปี

(2) การนำเสนอเนื้อหา ทนายความสามารถเผยแพร่บทความให้ความรู้ทางกฎหมายในประเด็นที่ตนเองเชี่ยวชาญได้ โดยเนื้อหาต้องถูกต้องเป็นประโยชน์ และไม่ชี้นำให้เกิดการว่าจ้างโดยตรง สามารถแชร์ข่าวสารหรือความเห็นเกี่ยวกับประเด็นทางกฎหมายที่เป็นประโยชน์ต่อสาธารณะได้ ห้ามทำการโพสต์ข้อความในลักษณะ "ชนะคดี 100% ทุกคดี" หรือ "ปรึกษาฟรี! ว่าจ้างแล้วรวย" ตัวอย่างเช่น ทนาย ข. แชร์บทความบน Facebook Page ของตนเอง เรื่อง "สิทธิของผู้บริโภคเมื่อซื้อสินค้าออนไลน์" โดยให้ข้อมูลทางกฎหมายที่เป็นประโยชน์และอ้างอิงแหล่งที่มาที่น่าเชื่อถือ

(3) การปฏิสัมพันธ์กับผู้ใช้งาน ทนายความสามารถตอบคำถามทางกฎหมายเบื้องต้นได้ แต่ต้องระมัดระวังไม่ให้เป็นการให้คำปรึกษาทางคดี เฉพาะเจาะจงจนอาจนำไปสู่ความรับผิดชอบทางวิชาชีพ สามารถเข้าร่วมกลุ่มสนทนา หรือแสดงความคิดเห็นในประเด็นทางกฎหมายได้อย่างสุภาพและเหมาะสม ตัวอย่างเช่น ผู้ใช้งานสอบถามในคอมเมนต์ของทนาย ค. เกี่ยวกับขั้นตอนการฟ้องหย่าเบื้องต้น ทนาย ค. สามารถให้ข้อมูลเกี่ยวกับขั้นตอนทั่วไปได้ แต่ไม่สามารถให้คำแนะนำเฉพาะเจาะจงเกี่ยวกับข้อเท็จจริงในกรณีของผู้ถามได้

(4) สิ่งที่ต้องห้าม ห้ามกล่าวอ้างถึงผลสำเร็จของคดีในอดีต หรือใช้คำพูดที่อาจทำให้ผู้รับสารคาดหวังผลลัพธ์ในลักษณะเดียวกัน ห้ามให้คำมั่นสัญญา หรือรับประกันผลลัพธ์ของคดี ห้ามเปรียบเทียบตนเองกับทนายความอื่นในเชิงแข่งขัน หรือกล่าวหา โจมตีทนายความอื่น ห้ามเสนอค่าบริการในลักษณะของการลด แลก แจก แถม หรือเสนอราคาที่ต่ำกว่ามาตรฐานอย่างไม่มีเหตุผล ห้ามใช้ภาพ เสียง หรือสื่ออื่น ๆ ที่ไม่สุภาพ ไม่เหมาะสม หรืออาจก่อให้เกิดความเสื่อมเสียต่อวิชาชีพ

(5) การรับรองข้อมูล สภาทนายความอาจมีกลไกในการรับรองข้อมูลที่ทนายความนำเสนอในสื่อสังคมออนไลน์ เพื่อสร้างความน่าเชื่อถือและความมั่นใจแก่ประชาชน ตัวอย่าง สภาทนายความอาจมีเครื่องหมายรับรอง (Verified Badge) สำหรับบัญชีทนายความที่ผ่านการตรวจสอบข้อมูลแล้ว

2. ข้อเสนอแนะเชิงปฏิบัติ

1. กำหนดแนวทางการตีความและการบังคับใช้ข้อบังคับให้ชัดเจน เพื่อให้การตีความและการบังคับใช้เป็นไปในทิศทางเดียวกัน และมีความเป็นธรรมแก่ทุกฝ่าย

2. ส่งเสริมความร่วมมือและการสนับสนุนจากหน่วยงานที่เกี่ยวข้อง เช่น สื่อมวลชน ผู้ให้บริการสื่อสังคมออนไลน์ และหน่วยงานภาครัฐ ในการบังคับใช้ข้อบังคับ

3. เพิ่มทรัพยากรและบุคลากรให้เพียงพอต่อการตรวจสอบและติดตามการโฆษณาของทนายความ

4. พัฒนาระบบการติดตามและตรวจสอบการโฆษณาให้มีประสิทธิภาพ โดยจัดตั้งหน่วยงานหรือสร้างระบบกลไกในการกำกับดูแล ตรวจสอบและควบคุมการโฆษณาของทนายความ หรืออาจมีการนำเทคโนโลยีมาใช้ในการตรวจสอบและติดตาม เพื่อให้การโฆษณาเป็นไปตามข้อกำหนด มีความถูกต้องเป็นธรรม และไม่ละเมิดจริยธรรมทางวิชาชีพ

5. ส่งเสริมความรู้ความเข้าใจเกี่ยวกับข้อบังคับแก่ทนายความและประชาชน เพื่อให้ทุกคนมีความเข้าใจที่ถูกต้องและปฏิบัติตามข้อบังคับได้อย่างถูกต้อง

6. ควรมีการกำหนดแนวทางการโฆษณาที่ชัดเจน เพื่อให้ทนายความสามารถโฆษณาบริการของตนได้อย่างถูกต้องและเป็นธรรม โดยไม่ทำให้เกิดความเข้าใจผิดหรือหลอกลวงผู้บริโภค ตัวอย่างเช่น การออกคู่มือหรือแนวปฏิบัติที่ชัดเจนเกี่ยวกับการโฆษณา ทั้งทางไม่ออนไลน์และทางใช้สื่อสังคมออนไลน์ในการประชาสัมพันธ์ตนเองของทนายความ

7. สภาทนายความควรกำหนดอัตราค่าบริการที่ชัดเจนตามประเภทคดี เพื่อสร้างมาตรฐานและความโปร่งใส ตัวอย่างเช่น การกำหนดช่วงอัตราค่าบริการขั้นต่ำและสูงสุดสำหรับคดีแพ่ง คดีอาญา หรือคดีปกครองแต่ละประเภท

8. สภาทนายความควรส่งเสริมความโปร่งใสในวิชาชีพทนายความ โดยกำหนดให้มีการเปิดเผยข้อมูลที่จำเป็น เช่น ชื่อ คุณวุฒิ ประสบการณ์ เพื่อให้ประชาชนมีข้อมูลเพียงพอในการตัดสินใจเลือกทนายความ ตัวอย่างเช่น การจัดทำระบบฐานข้อมูลทนายความที่ประชาชนสามารถเข้าถึงได้ ซึ่งมีข้อมูล

เกี่ยวกับประวัติการศึกษา ประสบการณ์ทำงาน และความเชี่ยวชาญของทนายความแต่ละราย

บทคัดย่อ

วิจัยฉบับนี้มุ่งศึกษาถึงผลกระทบการจำกัดการใช้สิทธิออกเสียงเลือกตั้งของผู้เป็นภิกษุและสามเณรในประเทศไทย ที่ปรากฏในรัฐธรรมนูญแห่งราชอาณาจักรไทยและกฎหมายการเลือกตั้งมาตั้งแต่หลังการเปลี่ยนแปลงการปกครองเมื่อปี พ.ศ. 2475

จากการศึกษาค้นคว้าพบว่า การจำกัดสิทธิการเลือกตั้งของพระภิกษุ สามเณร มีผลกระทบดังนี้ การที่รัฐธรรมนูญแห่งราชอาณาจักรไทย พุทธศักราช 2560 มาตรา 96 (1) ได้บัญญัติห้ามมิให้ผู้เป็นภิกษุ สามเณร นักพรต หรือนักบวช ในวันเลือกตั้ง ใช้สิทธิออกเสียงเลือกตั้งอันเป็นสิทธิทางการเมืองขั้นพื้นฐานของพลเมืองในระบอบประชาธิปไตยนั้น เป็นสิ่งที่ขัดต่อหลักเกณฑ์ พื้นฐานของการเลือกตั้งในรัฐเสรีประชาธิปไตย ในเรื่องหลักการออกเสียงเลือกตั้งโดยทั่วถึง และขัดต่อหลักแห่งความเสมอภาค อีกทั้งไม่เป็นไปตามตามพันธกรณีตามกฎหมายมหาชนระหว่างประเทศที่ประเทศไทยได้ให้สัตยาบันไว้ จากการจำกัดสิทธิการเลือกตั้งดังกล่าวก่อให้เกิดผลกระทบในแง่ของการบังคับใช้กฎหมายดังกล่าว อันได้แก่ ปัญหาการเสียสิทธิทางการเมืองอื่น ๆ จากการเป็นผู้มีลักษณะต้องห้ามมิให้ใช้สิทธิเลือกตั้ง รวมทั้งปัญหาความไม่ชัดเจนของถ้อยคำ “ภิกษุ สามเณร นักพรต หรือนักบวช” และ “ในวันเลือกตั้ง” ว่าบทบัญญัติดังกล่าวใช้บังคับกับบุคคลใดบ้าง และมีผลใช้บังคับเมื่อใด

ดังนั้น จึงเห็นควรแก้ไขกฎหมายเพื่อให้การรับรองการใช้สิทธิออกเสียงเลือกตั้งให้แก่บุคคล ซึ่งมีสถานภาพดังกล่าว

คำสำคัญ: พระภิกษุ, สามเณร

Abstract

This study aims to study the impact of restricting the exercise of voting rights by Monke and Nouieco. It has appeared in the Constitution of the Kingdom of Thailand and the Election Law since the change of the Government in B.E.2475(1932)

The study found that the restriction on the voting rights of monks and novices has the following impacts: The fact that Section 96 (1) of the Constitution of the Kingdom of Thailand Buoldhiot Ena 2560 (2017) prohibits monks, novices, hermits, or clergy from exercising their voting rights, which is a basic political right of citizens in a democratic regime, on election day is contrary to the basic principles of elections in a democratic state regarding the principle of universal suffrage and the principle of equality. It also does

not comply with the international legal obligations that Thailand has ratified. Such restriction on the voting rights has an impact on the enforcement of the law, namely the problem of losing other political rights from being prohibited from exercising the right to vote, as well as the problem of the unclear wording of "monks, novices, hermits, or clergy" and "on election day", as to which persons these provisions apply to and when they come into effect.

Therefore, it is appropriate to amend the law to provide recognition of voting rights for persons with such status.

Keywords: Monks, Novices

บทนำ

ประเทศไทยเป็นรัฐเดี่ยว ซึ่งมีการปกครองในกรอบประชาธิปไตยระบบรัฐสภา ภายใต้รัฐธรรมนูญ โดยมีพระมหากษัตริย์ทรงเป็นประมุข หมายถึง การปกครองที่เป็นของประชาชน โดยประชาชน และเพื่อประชาชน ตลอดจนเป็นหลักในการดำเนินชีวิตของคนในการอยู่ร่วมกันโดยสันติ เท่าเทียมกัน คือ ได้รับการคุ้มครองจากรัฐตามกฎหมาย และโอกาสที่จะได้รับการบริการต่าง ๆ ในกฎหมายรัฐธรรมนูญไทยปัจจุบันเมื่อถึงวาระการเลือกตั้งพรรคการเมืองต่าง ๆ ประชาชนทั่วประเทศต่างก็จะได้ใช้สิทธิและหน้าที่ขั้นพื้นฐานในการเลือกตั้งตามกฎหมายรัฐธรรมนูญ แต่อีกมุมหนึ่งของสังคมไทย ประชาชนกลุ่มหนึ่งซึ่งมีจำนวนไม่น้อยถูกละเลยสิทธิขั้นพื้นฐานนี้ เพียงเพราะว่าบุคคลเหล่านั้น ถูกเรียกว่า “พระสงฆ์” เป็นนักบวชในพระพุทธศาสนา แต่พระสงฆ์ ก็คือประชาชนซึ่งมีสิทธิและหน้าที่ตามบทบัญญัติของรัฐธรรมนูญแห่งราชอาณาจักรไทย พุทธศักราช 2560 ตามมาตรา 5 ที่ว่า “ประชาชนชาวไทยไม่ว่าเหล่ากำเนิด เพศ หรือศาสนาใด ย่อมอยู่ในความคุ้มครองแห่งรัฐธรรมนูญนี้เสมอกัน” การนับถือศาสนาในประเทศไทยมีผู้ที่นับถือศาสนาพุทธ (ร้อยละ 92.5) รองลงมา นับถือศาสนาอิสลาม (ร้อยละ 5.4) และศาสนาคริสต์ (ร้อยละ 1.2) ที่เหลือเป็นผู้ที่นับถือศาสนาอื่น ๆ รวมทั้งผู้ที่ไม่มีศาสนา (ร้อยละ 3.8) นอกจากพระภิกษุสามเณรแล้ว ตามรัฐธรรมนูญแห่งประเทศไทย พุทธศักราช 2560 มาตรา 96 บุคคลดังต่อไปนี้ถือเป็นบุคคลต้องห้ามมิให้ใช้สิทธิเลือกตั้ง (1) เป็นภิกษุ สามเณร นักพรต หรือนักบวช การที่รัฐธรรมนูญไทยจำกัดสิทธิการเลือกตั้งของพระภิกษุ สามเณร มีผลกระทบในการสรรหานักการเมืองไทย เนื่องจากจำนวนพระภิกษุ สามเณรในประเทศไทย มีพระภิกษุ จำนวน 251,616 รูป และสามเณร จำนวน 36,952 รูป รวมเป็น 288,568 รูป จากจำนวนดังกล่าว การที่พระภิกษุและสามเณร ถูกจำกัดสิทธิ การถือเกณฑ์จำนวนราษฎรต่อสมาชิกสภาผู้แทนราษฎร (ส.ส) หนึ่งคนให้คำนวณโดยนำเอาจำนวนราษฎรทั้งประเทศตามทะเบียนราษฎรที่ประกาศในปีสุดท้ายก่อนมีการเลือกตั้ง เฉลี่ยด้วยจำนวนสมาชิกสภาผู้แทนราษฎร จำนวน 400 คน ซึ่งปัจจุบันประชากรหรือราษฎรทั้งประเทศประมาณ 63 ล้านคน เฉลี่ยจำนวนราษฎรต่อ ส.ส. หนึ่งคนจะได้ประมาณ 162,766 คน ถูกจำกัดสิทธินั้นทำให้เสียคะแนนไปบางส่วน แต่ในทางกลับกันในประเทศไทยมีผู้นำทางศาสนาในศาสนาอื่น เช่น อิหม่ามในศาสนาอิสลาม และบาทหลวงในศาสนาคริสต์ เป็นต้น ซึ่งไม่ได้ถูกจำกัดสิทธิการเลือกตั้งดั่งเช่นในศาสนาพุทธ รวมทั้งประเทศอื่น ๆ นอกเหนือจากประเทศไทย สาธารณรัฐแห่งสหภาพเมียนมาร์ ราชอาณาจักรภูฏาน ซึ่งเป็นประเทศที่นำถือศาสนาพุทธ และกระทรวงกลาโหมกำหนดให้พระสงฆ์ซึ่งเป็นนักบวชในพระพุทธศาสนา มีหน้าที่ต้องไปเกณฑ์ทหารในฐานะประชาชนไทยคนหนึ่ง แต่กระทรวงมหาดไทย กลับปฏิเสธสิทธิในการออกเสียงเลือกตั้งของพระสงฆ์อันเป็นสิทธิขั้นพื้นฐานของประชาชน การตีความสิทธิและหน้าที่ของพระสงฆ์ในฐานะประชาชนของ

กระทรวงกลาโหมและกระทรวงมหาดไทยจึงขัดแย้งกัน ทั้ง ๆ ที่ต่างก็เป็นหน่วยงานของรัฐทั้งคู่ตามรัฐธรรมนูญแห่งราชอาณาจักรไทย พุทธศักราช 2560 มาตรา 26 ระบุว่า “การใช้อำนาจโดยองค์กรของรัฐทุกองค์กร ต้องคำนึงถึงศักดิ์ศรีความเป็นมนุษย์ สิทธิและเสรีภาพตามบทบัญญัติแห่งรัฐธรรมนูญนี้” ในเมื่อพระสงฆ์และสามเณรต่างก็เป็นทั้งนักบวชในพระพุทธศาสนาและประชาชนในเวลาเดียวกัน การห้ามพระภิกษุ และสามเณรไม่ให้ไปใช้สิทธิ์ออกเสียงเลือกตั้ง จึงน่าจะขัดต่อรัฐธรรมนูญแห่งราชอาณาจักรไทย พุทธศักราช 2560 และมิชอบด้วยกฎหมาย ดังมาตรา 6 ที่ว่า “รัฐธรรมนูญเป็นกฎหมายสูงสุดของประเทศ บทบัญญัติใดของกฎหมาย กฎ หรือข้อบังคับ ขัดหรือแย้งต่อรัฐธรรมนูญนี้ บทบัญญัตินั้นเป็นอันใช้บังคับมิได้” เพราะการใช้สิทธิ์ออกเสียงเลือกตั้งเป็นคนละอย่างกับการเล่นการเมือง การที่พระสงฆ์มีสิทธิออกเสียงเลือกตั้ง (ดังเช่นในประเทศพม่า) มิได้หมายความว่าพระสงฆ์จะสมัครเป็นสมาชิกสภาผู้แทนราษฎร (แม้ว่าประเทศพระพุทธศาสนาอย่างศรีลังกา พระสงฆ์มีสิทธิทั้งลงคะแนนเลือกตั้งและสมัครผู้แทนราษฎร และเวลานี้ก็มีพระสงฆ์ศรีลังกานั่งอยู่ในสภาผู้แทนราษฎร ทำหน้าที่ฝ่ายนิติบัญญัติอยู่ด้วย

ผู้วิจัยจึงมีความประสงค์ศึกษาเกี่ยวกับผลกระทบการจำกัดสิทธิในการเลือกตั้งของพระภิกษุ และสามเณร ขัดต่อกฎหมายหรือเจตนารมณ์ของกฎหมายหรือไม่

วัตถุประสงค์ของการวิจัย

1. เพื่อศึกษาถึงบทบัญญัติของกฎหมายต่างประเทศที่เกี่ยวข้องมาเปรียบเทียบกับกฎหมายไทยเกี่ยวกับกับสิทธิออกเสียงเลือกตั้งของพระภิกษุและสามเณร
2. เพื่อศึกษาถึงหลักเกณฑ์ต่าง ๆ ซึ่งเป็นผลกระทบที่รัฐใช้ในการจำกัดสิทธิออกเสียงเลือกตั้งของพระภิกษุและสามเณร
3. เพื่อแสวงหาแนวทางแก้ไขปัญหาเกี่ยวกับความสมบูรณ์ของสิทธิออกเสียงเลือกตั้งของผู้เป็นภิกษุและสามเณร ที่เหมาะสมกับประเทศไทยและสอดคล้องกับศาสนาธรรมทุกศาสนาในประเทศไทย

แนวคิด ทฤษฎี และงานวิจัยที่เกี่ยวข้อง

เป็นการศึกษาถึงเจตนารมณ์ของกฎหมายที่มีการบังคับใช้กฎหมายอย่างถูกต้องตรงตามเจตนารมณ์ที่แท้จริงของกฎหมายหรือไม่ เพื่อให้เกิดสิทธิ์ต่อประชาชนผู้อยู่ภายใต้กฎหมายและย่อมต้องได้รับการคุ้มครอง ภายใต้หลักแห่งความเสมอภาค แนวคิด และทฤษฎีในทางกฎหมายว่าด้วยอำนาจอธิปไตย ทั้งนี้เพื่อให้ทราบแนวคิดและความสำคัญของการใช้สิทธิเลือกตั้งอันเป็นสิทธิขั้นพื้นฐานในระบอบประชาธิปไตย

หลักสิทธิมนุษยชนในระดับสากล

หลักสิทธิมนุษยชนเป็นสากล และไม่สามารถถ่ายโอนกันได้ (Universality & Inalienability) หมายความว่า สิทธิมนุษยชนนั้นเป็นของคนทุกคน ไม่มีพรมแดน คนทุกคนย่อมถือว่าเป็นคน ไม่ว่าอยู่ที่ไหนในโลก ไม่ว่าจะมีเชื้อชาติสัญชาติเหล่ากำเนิดใดก็ตาม ย่อมมีสิทธิ มนุษยชนประจำตัวทุกคนไป จึงเรียกได้ว่าสิทธิมนุษยชนเป็นของคนทุกคน ไม่ว่าคน ๆ นั้น จะยากจนหรือร่ำรวย เป็นคนพิการ เป็นเด็ก เป็นผู้หญิง

1. แนวคิดเกี่ยวกับศักดิศรีความเป็นมนุษย์ (Human Dignity) มนุษย์ทั้งหลายเกิดมาเท่าเทียมกัน มีสิทธิบางประการที่ติดตัวมาแต่กำเนิดจนกระทั้งถึงแก่ความตาย สิทธิดังกล่าวได้แก่สิทธิในชีวิต เสรีภาพในร่างกาย และความเสมอภาคซึ่งเป็นสิทธิที่ไม่อาจโอนให้แก่กันได้และใครจะล่วงละเมิดมิได้ หากมีการล่วงละเมิดก็อาจจะก่อให้เกิดอันตราย หรือกระทบกระเทือนเสื่อมเสีย

2. แนวความคิดเกี่ยวกับสิทธิมนุษยชน (Human Rights) การให้การยอมรับว่ามีสิทธิมนุษยชนที่แท้จริง และเป็นสากล โดยการให้การรับรองปฏิญญาสากลว่าด้วยสิทธิมนุษย์

หลักการพื้นฐานของหลักประชาธิปไตย

1. อำนาจอธิปไตยเป็นของปวงชน (Popular Sovereignty) คือ ปัจจัยที่เชื่อว่าสังคมก่อตั้งขึ้นโดยความยินยอมของประชาชน ในการที่จะให้อำนาจอธิปไตยของสังคมส่วนรวมเข้ามาแทนที่เสรีภาพธรรมชาติ โดยทุกคนจะมีส่วนในอธิปไตยนั้น ๆ เท่าเทียมกัน ตามหลักการนี้ การปกครองในระบอบประชาธิปไตยจึงเป็นการปกครองที่ประชาชนเป็นทั้งผู้ปกครอง

2. หลักเสรีภาพ (Liberty) คือ ความสามารถของบุคคลในการกระทำการใด ๆ ได้ตามความประสงค์ โดยปราศจากการแทรกแซงหรือข้อจำกัดจากผู้อื่นหรือรัฐ ตราบเท่าที่การใช้เสรีภาพนั้นนั้นไม่ละเมิดสิทธิของผู้อื่น หรือขัดต่อความสงบเรียบร้อยของสังคม ตัวอย่างเช่น เสรีภาพในการแสดงความคิดเห็น เสรีภาพในการนับถือศาสนา หรือเสรีภาพในการชุมนุมโดยสงบ

3. หลักความเสมอภาค (Equality) หลักความเสมอภาคจึงมิได้หมายถึงความเท่าเทียมกันในทุกกรณี แต่สาระสำคัญก็คือ เป็นหลักการที่เรียกร้องให้“ต้องปฏิบัติต่อบุคคลที่มีสาระสำคัญเหมือนกันอย่างเท่าเทียมกัน

4. หลักการปกครองโดยเสียงข้างมากที่เคารพเสียงข้างน้อย (The Majority Rule With Respect to Minority Rights)

5. หลักนิติธรรม (Rule of Law)

งานวิจัยที่เกี่ยวข้อง

วชิรา นาวาศรีพร (2560) ศึกษาถึงการจำกัดการใช้สิทธิออกเสียงเลือกตั้งของผู้เป็นภิกษุ สามเณร นักพรต และนักบวชในประเทศไทย ที่ปรากฏในรัฐธรรมนูญแห่งราชอาณาจักรไทยและกฎหมายการเลือกตั้งมาตั้งแต่หลังการเปลี่ยนแปลงการปกครองเมื่อปี พ.ศ. 2475 จากการศึกษาพบว่า การจำกัดการใช้สิทธิออกเสียงเลือกตั้งของผู้เป็นภิกษุ สามเณร นักพรต และนักบวชในประเทศไทย มีสาเหตุมาจากปัจจัยด้าน (1) ศาสนธรรมของพระพุทธศาสนาที่มุ่งเน้นลักษณะอันเป็นอุดมคติของนักบวช (2) จารีตประเพณีเกี่ยวกับความสัมพันธ์ระหว่างรัฐไทยกับพระพุทธศาสนาเถรวาท (Theravada Buddhism) และ (3) ความต่อเนื่องยาวนานของการจำกัดการใช้สิทธิดังกล่าว หาได้มีสาเหตุมาจากการที่รัฐหรือชนชั้นนำได้อาศัยการจำกัดการใช้สิทธิออกเสียงเลือกตั้งเป็นเครื่องมือในการกีดกันคนบางกลุ่มบางจำพวกมิให้มีส่วนร่วมทางการเมืองดังเช่นที่ปรากฏในประวัติพัฒนาการเกี่ยวกับสิทธิออกเสียงเลือกตั้งในหลาย ๆ ประเทศ ทั้งนี้ เมื่อพิจารณาในเชิงกฎหมายเปรียบเทียบพบว่า ปัจจุบันมีเพียงประเทศไทย เมียนมาร์ และภูฏาน เท่านั้น ที่ยังคงปรากฏบทบัญญัติในลักษณะดังกล่าว ซึ่งสวนทางกับพัฒนาการของสิทธิออกเสียงเลือกตั้งในทางสากลที่เป็นไปในเชิงขยายสิทธิ

วิธีดำเนินการวิจัย

ผู้วิจัยใช้กระบวนวิธีการวิจัยเชิงคุณภาพโดยได้กำหนดกลุ่มเป้าหมายไว้คือ ผู้ซึ่งได้รับผลกระทบจากการถูกจำกัดสิทธิในการเลือกตั้ง คือ พระภิกษุ จำนวน 50 รูป และสามเณร อายุ 18 ปี จำนวน 50 รูป ซึ่งใช้วิธีการเก็บรวบรวมข้อมูลโดยการสัมภาษณ์ เป็นการกำหนดตัวผู้ตอบเป็นการเฉพาะเจาะจง เพราะผู้ตอบเป็นกลุ่มเป้าหมายที่เหมาะสมกับความต้องการของผู้วิจัย ซึ่งบุคคลประเภทนี้เรียกว่า “ผู้ให้ข้อมูล

สำคัญ” ทั้งนี้ การเลือกตัวอย่างครั้งนี้ผู้วิจัยได้ดำเนินการพิจารณาเลือกตัวอย่างด้วยตนเอง เพื่อที่จะได้นำข้อมูลที่ได้รับจากกระบวนวิธีการวิจัยเชิงคุณภาพมาดำเนินการประมวลผลข้อมูลอันนำไปสู่การค้นพบต่อไป

ผลการวิจัย

จากการศึกษาวิจัยฉบับนี้ พบว่า การศึกษาสอดคล้องกับสมมุติฐานของการวิจัย คือ ตามรัฐธรรมนูญแห่งราชอาณาจักรไทย พุทธศักราช 2560 มาตรา 95 บุคคลซึ่งมีคุณสมบัติตามมาตรานี้เป็นผู้มีสิทธิเลือกตั้ง ซึ่งพระภิกษุ และสามเณร ก็เป็นบุคคลที่มีคุณสมบัติตามมาตรานี้ครบถ้วน แต่เนื่องจากตามรัฐธรรมนูญแห่งราชอาณาจักรไทย พุทธศักราช 2560 มาตรา 96 (1) ได้มีการจำกัดสิทธิการเลือกตั้งของพระภิกษุและสามเณร โดยระบุให้พระภิกษุ สามเณร เป็นบุคคลต้องห้ามมิให้ใช้สิทธิเลือกตั้ง แต่ตามตัวบทกฎหมายนี้ไม่ได้มีการจำกัดสิทธิการลือกตั้งของอิหม่าม บาทหลวง หรือผู้นำศาสนาอื่นภายในประเทศ ดังนั้น จึงทำให้เกิดความเลื่อมล้ำขึ้น การที่รัฐธรรมนูญไทย พุทธศักราช 2560 จำกัดสิทธิการเลือกตั้งของพระภิกษุและสามเณร มีผลกระทบในการสรรหานักการเมืองในไทย กล่าวคือ เนื่องจากจำนวนพระภิกษุในประเทศไทย จำนวน 251,616 รูป และสามเณรที่มีสิทธิเลือกตั้ง จำนวน 36,952 รูป รวมเป็น 288,568 รูป จากจำนวนดังกล่าว การที่พระภิกษุและสามเณร ถูกจำกัดสิทธินั้นทำให้เสียคะแนนในการสรรหานักการเมือง (สส.) เกือบ 2 ที่นั่ง เนื่องจากปัจจุบันประชากรหรือราษฎรทั้งประเทศประมาณ 63 ล้านคน เฉลี่ยจำนวนราษฎรต่อ ส.ส. หนึ่งคนจะได้ประมาณ 157,500 คน และการจำกัดสิทธิการเลือกตั้งของพระภิกษุและสามเณร ยังขัดต่อระบอบประชาธิปไตยซึ่งเป็นหลักปกครองของไทย เมื่อพระภิกษุและสามเณร ก็เป็นประชาชนและเป็นบุคคลที่มีคุณสมบัติครบถ้วนตามกฎหมายรัฐธรรมนูญแห่งราชอาณาจักร พุทธศักราช 2560 มาตรา 95 ดังนั้น พระภิกษุและสามเณรควรเป็นผู้มีสิทธิเลือกตั้ง ดังนั้นจึงควรต้องแก้ไขหรือยกเลิกบทบัญญัติจำกัดสิทธิการเลือกตั้งของพระภิกษุและสามเณร

สรุปและอภิปรายผล

จากการวิจัยข้อเสนอแนะให้ยกเลิกกฎหมายว่าด้วยการจำกัดสิทธิการเลือกตั้งของพระภิกษุและสามเณร กล่าวคือรัฐธรรมนูญแห่งราชอาณาจักรไทย พุทธศักราช 2560 มาตรา 96 บัญญัติให้บุคคลผู้มีลักษณะดังต่อไปนี้ในวันเลือกตั้ง เป็นบุคคลต้องห้ามมิให้ใช้สิทธิเลือกตั้ง (1) เป็นพระภิกษุ สามเณร นักพรต หรือนักบวช และพระราชบัญญัติประกอบรัฐธรรมนูญว่าด้วยการเลือกตั้งสมาชิกผู้แทนราษฎร มาตรา 32 บุคคลผู้มีลักษณะดังต่อไปนี้ในวันเลือกตั้ง เป็นบุคคลต้องห้ามมิให้ใช้สิทธิเลือกตั้ง (1) เป็นภิกษุ สามเณร นักพรต หรือนักบวชเพื่อให้พระภิกษุ และสามเณร เป็นผู้มีสิทธิเลือกตั้ง และเพื่อไม่ให้มีผลกระทบดังที่กล่าวมาในบทสรุป ดังนั้นควรต้องมีการยกเลิกบทบัญญัติดังกล่าวของรัฐธรรมนูญแห่งราชอาณาจักรไทย พุทธศักราช 2560 มาตรา 96 (1) เพื่อให้พระภิกษุและสามเณร มีสิทธิในการเลือกตั้งและพระราชบัญญัติประกอบรัฐธรรมนูญว่าด้วยการเลือกตั้งสมาชิกผู้แทนราษฎร พ.ศ 2561 มาตรา 32 บุคคลผู้มีลักษณะดังต่อไปนี้ในวันเลือกตั้ง เป็นบุคคลต้องห้ามมิให้ใช้สิทธิเลือกตั้ง (1) เป็นภิกษุสามเณร นักพรต หรือนักบวช และในการเลือกตั้งควรจัดแจงให้ชัดเจนในรายละเอียดการใช้สิทธิการเลือกตั้งของพระภิกษุ สามเณร ว่าควรใช้สถานที่ไหน เวลาไหน ฯลฯ เพื่ออำนวยความสะดวกแก่ภิกษุ และสามเณรในการเลือกตั้ง

Abstract

This article aims to study the current accommodation status in Phu Khao Thong Sub-district, Sukhirin District, Narathiwat Province and assess the potential of accommodation for Mutelu tourism in Phu Khao Thong Sub-district, Sukhirin District, Narathiwat Province. The research methodology used quantitative and qualitative methods. The quantitative method collected data from 400 questionnaires from the sample group. The data were analyzed to find the mean and standard deviation. The qualitative method collected data from observation and in-depth interviews with 17 informants, including resort and homestay owners, government agencies, the general public, general tourists, and Mutelu tourists. The content analysis was conducted by categorizing the data, interpreting the issues, making conclusions, and presenting descriptive data. The research results found that the current status of accommodation in Phu Khao Thong Sub-district is divided into 2 types: private accommodation in the form of resorts, with rooms made into houses that can accommodate 2 people and have balconies; air-conditioned rooms, which are comfortable but expensive, and decorated according to Feng Shui principles; and community accommodation in the form of homestays, which are inexpensive and can accommodate many people in 1 room. There are both fan rooms and air - conditioned rooms, and some are decorated according to spiritual beliefs. The assessment of the potential and readiness of accommodation management for spiritual tourism is overall at a high level ($\overline{X}$ = 3.68, S.D. = .73). The potential of accommodation under the principles of sustainable tourism development of spiritual tourism is overall at a high level ($\overline{X}$ = 3.63, S.D. = .96) The assessment of the potential of accommodation based on the beliefs of Mutelu tourism is overall at a high level. ($\overline{X}$ = 3.56, S.D. = .57)

Keywords: Tourist Accommodation, Mutelu Tourism, Accommodation Potential in Tourist Attractions

บทนำ

ปัจจุบันมนุษย์เกิดวิกฤติในด้านเศรษฐกิจสังคม จึงได้พยายามหาทางออกโดยการเดินทางท่องเที่ยวที่ก่อให้เกิดความอิ่มใจสุขใจ เบิกบาน ทั้งกาย และใจ เมื่ออยู่ในสถานที่นั้น ๆ ยิ่งไปกว่านั้นยังก่อให้เกิดปัญญาสั่งสมที่ปลดปล่อยตัวเองจากความทุกข์ได้ การได้เดินทางไปเยี่ยมชมสถาปัตยกรรมอันสวยงามของวัดวาอาราม สถูปเจดีย์ วิหารรูปเคารพของศาสนาต่าง ๆ ก่อให้เกิดความสงบใจ และรำลึกถึงบุญกุศลอันดีงาม การเที่ยวอย่างใฝ่รู้ อีกทั้งมีความเข้าใจในสถานที่ทางศาสนาและความเชื่อ (กรุงเทพธุรกิจ, 2566) ซึ่งการเดินทางประเภทนี้ยังก่อให้เกิดการพัฒนาคุณภาพชีวิตและจิตใจของ ผู้เดินทาง ซึ่งแสดงให้เห็นว่า กิจกรรมทางศาสนาเป็นแรงจูงใจหนึ่งที่ทำให้ผู้คนเดินทางไปยังสถานที่ต่าง ๆ (จีรนันต์ ไชยงามนอกซ์ ภัทรีพันธุ์ พันธุ และเลหล้า ตรีเอกานุกูล, 2559) ปรากฏการณ์การเดินทางไปยังสถานที่ศักดิ์สิทธิ์ เป็นการท่องเที่ยวสายมูเตลู ซึ่งได้เข้ามามีบทบาทเป็นอย่างมากในประเทศไทย ทั้งนี้การบูชาและความเชื่อในสิ่งศักดิ์สิทธิ์เกี่ยวกับเครื่องรางของขลังต่าง ๆ โดยให้ความหมายไปในเชิงบวก ตัวอย่างเช่น ทำให้ร่ำรวยขึ้น ทำให้มีเสน่ห์ดึงดูด เพศตรงข้าม ดึงดูดทรัพย์ โชคดี แคล้วคลาดปลอดภัย (อธิป จันทร์สุรีย์, 2564) ดังนั้นการกระทำของมนุษย์ส่วนใหญ่จึงออกมาในรูปแบบของการอ้อนวอน การร้องขอต่อสิ่งศักดิ์สิทธิ์ให้ช่วยปัดเป่าความชั่วร้ายหรือเลวร้ายออกจากตนเอง ดังนั้นจึงเป็นเรื่องปกติที่มนุษย์จะเสาะแสวงหาสถานที่ศักดิ์สิทธิ์ตามความเชื่อ เพื่อให้ได้สัมผัสกับพลังเหนือธรรมชาติ (ประเมศฐ์ พิชญ์พันธ์เดชา, 2561) ความเชื่อเกี่ยวกับศาสนาที่มีการชี้นำการกระทำตน อาทิ การดูหมอดู การทำนายจากใบเซียมซี หรือการบนบานศาลกล่าว ซึ่งแต่ละการกระทำล้วนตั้งอยู่บนพื้นฐานความเชื่อในการรักษาโรคภัยไข้เจ็บของคนในสังคมที่การแพทย์ปัจจุบันไม่สามารถรักษาให้หาย มนุษย์ก็จะอาศัยการรักษาจากอำนาจสิ่งศักดิ์สิทธิ์และคำขอพรต่าง ๆ โดยความเชื่อที่ว่าอำนาจสิ่งศักดิ์สิทธิ์ จะช่วยปัดเป่าสิ่งชั่วร้ายที่ทำให้เกิดโรคภัยไข้เจ็บได้ (ชนัญ วงษ์วิภาค, 2552)

กิจกรรมทางการท่องเที่ยวสายมู ส่งผลกระทบต่อการจัดกิจกรรมและโปรแกรมการท่องเที่ยว ชุมชนทำให้ชุมชนสร้างเรื่องเล่าให้สถานที่ต่าง ๆ เป็นพื้นที่ศักดิ์สิทธิ์หรือการจัดการท่องเที่ยวการขอพรจากพระ สิ่งศักดิ์สิทธิ์ในวัด หรือศาลเจ้า เกิดการจัดการท่องเที่ยวในแหล่งชุมชน และขยายกิจกรรมที่พักรูปแบบโฮมสเตย์ (Homestay) ให้มีความเป็นสายมูเพิ่มมากขึ้น (พัชราภรณ์ จันทรฆาฏ, 2563) ซึ่งประเทศไทยมีจุดเด่นในเรื่องของยุทธศาสตร์ทางการท่องเที่ยว และเป็นช่องทางหนึ่งเพื่อสร้างรายได้เสริมให้กับครอบครัว หรือสร้างมูลค่าเพิ่มทางเศรษฐกิจให้กับชุมชนนั้น ๆ ทั้งนี้ยังถือเป็นการช่วยเผยแพร่วัฒนธรรมท้องถิ่นในรูปแบบต่าง ๆ ออกสู่สายตาของนักท่องเที่ยวทั้งชาวไทยและชาวต่างประเทศ การจัดการท่องเที่ยวสายมูยังช่วยส่งเสริมการนำวัฒนธรรมท้องถิ่นมาทำให้เกิดความศักดิ์สิทธิ์ (สำนักงานพัฒนาการท่องเที่ยว กระทรวงการท่องเที่ยวและกีฬา, 2548)

ตำบลภูเขาทอง อำเภอสุคิริน จังหวัดนราธิวาส พื้นที่ส่วนใหญ่เป็นภูเขาสูงชันและป่ารกทึบ มีสภาพผืนป่าที่มีความอุดมสมบูรณ์ อากาศภายในอำเภอสุคิรินค่อนข้างเย็นสบายเกือบตลอดทั้งปี จนได้รับการเรียกขานว่าเป็น “สวิตเซอร์แลนด์เมืองไทย” (องค์การบริหารส่วนตำบลภูเขาทอง, 2567) ซึ่งชาวบ้านในชุมชนเป็นผู้นำเที่ยว มีกิจกรรมมากมาย ทั้งการท่องเที่ยวแบบมูเตลู นั่นคือ การท่องเที่ยวที่เชื่อมโยงกับความเชื่อความศรัทธาในสิ่งศักดิ์สิทธิ์ในอดีต นักท่องเที่ยวมีการรับรู้ชื่อเสียงของเหมืองแร่ทองคำโต๊ะโมะ และองค์เจ้าแม่โต๊ะโมะ ซึ่งมีประวัติศาสตร์ในเรื่องความศักดิ์สิทธิ์และเหตุการณ์สำคัญที่เกิดขึ้นมาอย่างยาวนาน (Kreiner & Wall, 2015) การที่นักท่องเที่ยวเข้ามาร่วมกิจกรรมการร่อนทองจากสายแร่ทองคำเหมืองแร่โต๊ะโมะ และการเข้าร่วมเคารพบูชาเจ้าแม่โต๊ะโมะจะมีความเชื่อในเรื่อง

โชคลาภ การคุ้มครองให้ปลอดภัย การขอพรให้ได้มีงานทำ การเข้าร่วมกิจกรรมการท่องเที่ยวเหล่านี้ สิ่งสำคัญที่จะขาดไม่ได้ คือ สิ่งอำนวยความสะดวกด้านที่พัก เป็นปัจจัยสำคัญที่จะสามารถดึงดูดนักท่องเที่ยวต่างถิ่นให้สามารถเข้ามาพักแรมในพื้นที่ตำบลภูเขาทอง ได้เป็นอย่างดีแต่อย่างไรก็ตามที่พักที่มีในพื้นที่ตำบลภูเขาทอง ยังมีน้อยและไม่เพียงพอต่อนักท่องเที่ยว ทั้งด้านความแตกต่างระหว่างที่พักสำหรับรองรับนักท่องเที่ยวทั่วไปที่มีเพียงสิ่งอำนวยความสะดวก แต่หากเป็นที่พักของนักท่องเที่ยวสายมูจะต้องมีลักษณะที่พิเศษที่รองรับความเป็นสายมูที่คนมาแสวงหาความเงียบสงบ ความสุขทางใจ มีความเป็นธรรมชาติ แต่อย่างไรก็ตามมีที่พักบางแห่งยังเป็นที่พักที่รองรับนักท่องเที่ยวทั่วไป แต่บางแห่งสามารถรองรับนักท่องเที่ยวสายมูได้นั่นคือ การสร้างที่พักตามหลักฮวงจุ้ย การใช้โทนสีสว่างจะช่วยกระตุ้นพลังงานและสร้างความอบอุ่น ยิ่งไปกว่านั้น การตกแต่งที่พักด้วยต้นไม้มงคล เช่น ต้นนางกวักที่ช่วยกวักเงินโชคลาภเข้าบ้าน ต้นเสน่ห์จันทร์แดง ช่วยเรื่องเมตตามหานิยม มีคนรักใคร่ การแขวนกระดิ่ง โมบายหน้าบ้านจะช่วยเพิ่มกระแสการไหลเวียนพลังงานบวก

จากปรากฏการณ์ข้างต้นผู้วิจัย จึงเกิดคำถามว่าที่พักในพื้นที่ตำบลภูเขาทอง มีสถานภาพอย่างไรในปัจจุบัน ซึ่งสถานภาพดังกล่าวเป็นการประเมินถึงความพร้อมที่มีอยู่ในปัจจุบันของที่พักทั้งที่เป็นรีสอร์ทของเอกชน และโฮมสเตย์ของชุมชนและของชาวบ้าน ว่าตอบโจทย์นักท่องเที่ยวสายมูหรือไม่อย่างไร และมีศักยภาพอย่างไร โดยการประเมิน 3 ส่วน คือ การประเมินศักยภาพด้านการบริหารจัดการที่พัก การประเมินศักยภาพภายใต้หลักการพัฒนาการท่องเที่ยวอย่างยั่งยืน และการประเมินศักยภาพตามหลักความเชื่อของการท่องเที่ยวสายมู เพื่อที่จะทำให้เกิดการหาแนวทางการเพิ่มศักยภาพการบริการด้านสถานที่พักให้มีประสิทธิภาพและให้เกิดความพึงพอใจต่อนักท่องเที่ยวสายมูเตลูมากยิ่งขึ้น

วัตถุประสงค์ของการวิจัย

1. เพื่อศึกษาสถานภาพที่พักโฮมสเตย์และรีสอร์ทในปัจจุบันของพื้นที่ตำบลภูเขาทอง อำเภอสุคิริน จังหวัดนราธิวาส
2. เพื่อประเมินศักยภาพด้านที่พักสำหรับการท่องเที่ยวสายมูในพื้นที่ตำบลภูเขาทอง อำเภอสุคิริน จังหวัดนราธิวาส

แนวคิด ทฤษฎี กรอบแนวคิด

การท่องเที่ยวสายมูเตลู

อาหมัดอัลซารีย์ มูเก็ม (2559) กล่าวว่า ความเชื่อ เป็นเรื่องราวของความศรัทธาที่คนในท้องถิ่นมีต่อสิ่งนั้น ๆ ซึ่งมักเป็นความเชื่อต่อสิ่งนอกเหนือธรรมชาติที่จะสามารถทำให้ตนมีความสุขหรือความทุกข์ในชีวิตได้ โดยเฉพาะเรื่องผี วิญญาณ ที่อยู่คู่กับพื้นที่มาอย่างยาวนานจนเป็นส่วนหนึ่งของชีวิตคนในท้องถิ่นสู่การกำหนดเป็นสิ่งสูงสุดที่ต้องเคารพนับถือและการมีความเชื่อดังกล่าว จึงนำมาสู่การปฏิบัติในรูปแบบของการประกอบพิธีกรรมหรือกราบไหว้ เพื่อการขอพร บนบาน หรือการขอความช่วยเหลือ สิ่งที่อยู่นอกเหนือจากธรรมชาติ

อธิป จันทร์สุริย์ (2565) อธิบายคำว่า “มูเตลู” ไว้ว่า เป็นการบูชาเครื่องรางของขลัง อย่าง ตะกรุด กำไลหินมงคลเสริมดวง โดยมีทั้งกลุ่มดารา บุคคล ที่มีชื่อเสียงให้ความสนใจ จึงทำให้เกิดคำว่า “สายมู” ที่ใช้เรียกแทนบุคคลที่บูชาสิ่งศักดิ์สิทธิ์และเครื่องรางของขลังต่าง ๆ โดยรวมความหลากหลายทางความเชื่อและศาสนาเป็นสิ่งที่ช่วยยึดเหนี่ยวจิตใจให้กับผู้ที่ศรัทธาในด้านบวก

สุรพร อ่อนพุทธา วิญญู ปรอยกระโทก วรางกูร อิศรางกูร ณ อยุธยา และสัจจากาจ จอมโนนเขวา (2566) ศึกษาคุณภาพการบริการที่ส่งผลต่อการรับรู้คุณค่าและการตัดสินใจท่องเที่ยวของนักท่องเที่ยวเจนซีสายมูเตลู ทำการเก็บข้อมูลจากคนเจนเนอเรชั่นซีที่มีความชอบในการเดินทางไปวัดสายมูเตลูในพื้นที่กรุงเทพมหานครและปริมณฑลพบว่า มิติคุณภาพการบริการของวัดสายมูเตลู ประกอบไปด้วย 6 มิติ ได้แก่ ความน่าเชื่อถือ การให้ความเชื่อมั่น สิ่งที่จับต้องได้ การเห็นอกเห็นใจ การตอบสนอง และความสามัคคีส่งผลทางตรงและทางอ้อมต่อการรับรู้คุณค่าและการตัดสินใจเดินทาง อย่างมีนัยสำคัญทางสถิติที่ระดับ 0.01

ธนาภรณ์ วงศ์ชู (2566) ศึกษาแนวทางการพัฒนาแหล่งท่องเที่ยวเชิงศรัทธา (สายมู) เพื่อส่งเสริมการท่องเที่ยวเมืองรอง พบว่า ลักษณะและองค์ประกอบทางกายภาพของแหล่งท่องเที่ยวเชิงศรัทธากรณีศึกษา ในบริบทเมืองรองประเทศไทยและต่างประเทศที่มีศักยภาพสูงที่สุด สามารถแบ่งผลออกเป็น 2 ส่วน 1) ลักษณะทางกายภาพของพื้นที่โดยรอบสถานที่เชิงศรัทธา ประกอบด้วย สิ่งดึงดูดใจในพื้นที่ศึกษา การเข้าถึงที่พัก สิ่งอำนวยความสะดวก และกิจกรรมอื่น ๆ ในพื้นที่ และ 2) ลักษณะทางกายภาพของสถานที่เชิงศรัทธา ประกอบด้วย รูปแบบสถานที่เชิงศรัทธา รูปแบบการใช้งานพื้นที่ (Programming) ลักษณะการจัดวางผัง และรูปแบบการสักการะ โดยในบริบทเมืองรองประเทศไทย จะมีจุดร่วมของลักษณะทางภาพของสถานที่เชิงศรัทธาไปในทิศทางเดียวกัน ส่วนบริบทต่างประเทศ จะมีลักษณะของจุดร่วมที่หลากหลาย ซึ่งมีข้อดีและข้อเสียที่แตกต่างกันไปในแต่ละรูปแบบ

ศิริวรรณ สิทธิกา (2566) อธิบายถึงจักรวาลสายมู การตลาดที่ขับเคลื่อนด้วยความเชื่อกับวัตถุที่ถูกทำให้ศักดิ์สิทธิ์ สะท้อนให้เห็นว่า ความเชื่อและบูชาสิ่งศักดิ์สิทธิ์และเครื่องรางของขลังของผู้คนในจักรวาล ‘มูเตลู’ นำมาสู่ธุรกิจสายมูที่สร้างเม็ดเงินมหาศาล ในโลกที่เราต้องยืนอยู่ท่ามกลางสภาวะไม่แน่นอนของเศรษฐกิจ สังคม การเมือง โรคอุบัติใหม่ ในขณะที่ยุคสมัยมีแต่ก้าวไปข้างหน้า ในทางกลับกัน ความเชื่อในสิ่งศักดิ์สิทธิ์ ไสยศาสตร์ ที่ดูเหมือนว่าจะเป็นตัวแทนของความล้าหลังกลับเติบโต เคียงคู่กันอย่างไม่เคยแยกจากการขอพรอธิษฐาน สวดอ้อนวอน การบนบานศาลกล่าว การคาดหวังความช่วยเหลือจากสิ่งที่วิทยาศาสตร์พิสูจน์ไม่ได้ กลายมาเป็นคำที่เราคุ้นหูอย่างคำว่า ‘มูเตลู’ หรือคำว่า ‘สายมู’ ที่นำมาใช้เรียกบุคคลทั่วไปที่มีความเชื่อและบูชาในสิ่งศักดิ์สิทธิ์และเครื่องรางของขลัง เพื่อประโยชน์กับตัว ไม่ว่าจะเป็นการเงิน การงาน ความรัก สุขภาพ ความปลอดภัย ที่ให้ผลเบื้องต้นแน่นอน ในฐานะที่พึ่งทางใจ

Dickman (1996) ได้อธิบายองค์ประกอบหลักของการท่องเที่ยว 5A ที่พัก (Accommodation) เป็นองค์ประกอบหนึ่งที่สำคัญที่ต้องมีพร้อม เพื่อให้นักท่องเที่ยวสามารถพักค้างคืนได้ อาจเรียกได้ว่า เป็นจุดหมายปลายทางที่แท้จริงของการท่องเที่ยว ซึ่งที่พักสามารถเป็นได้ทั้ง โรงแรม โมเต็ล เกสต์เฮาส์ รีสอร์ต โฮมสเตย์

สรุปการสร้างที่พักเหล่านี้ ส่วนใหญ่ผู้ประกอบการหรือชุมชนจะสร้างและตกแต่งตามหลักฮวงจุ้ยเพื่อความเป็นสิริมงคลในการประกอบการอยู่แล้ว ดังนั้นการประเมินศักยภาพตามความเชื่อของการท่องเที่ยวสายมูจะประเมินเป็น 2 ด้าน คือ 1) การสร้างที่พักตามความเชื่อของการท่องเที่ยวสายมู 2) การตกแต่งที่พักตามความเชื่อของการท่องเที่ยวสายมู

แนวคิดที่พักโฮมสเตย์

สริตา ศรีสุวรรณ และบงกช เดชมิตร (2562) ได้ศึกษาเรื่อง แนวทางการจัดการที่พักแบบโฮมสเตย์ให้คงเสน่ห์ และแตกต่างอย่างมีอัตลักษณ์เพื่อตอบโจทย์การท่องเที่ยวอย่างยั่งยืน ผลการวิจัยพบว่าแนวทางการจัดการที่พักแบบโฮมสเตย์ให้ตอบโจทย์การท่องเที่ยวอย่างยั่งยืนมีดังนี้ 1) สร้างอัตลักษณ์

เอกลักษณ์ คงเสน่ห์ตัวตนของชุมชนและโฮมสเตย์ที่โดดเด่นและเข้มแข็ง 2) สร้างความรู้สึกความเป็นเจ้าของให้กับคนในชุมชน 3) สร้างการเชื่อมโยงภาคีเครือข่ายของแหล่งท่องเที่ยวในท้องถิ่น 4) สร้างจิตสำนึกที่ดีให้แก่นักท่องเที่ยวที่เข้ามาพักโฮมสเตย์ และ 5) สร้างการเชื่อมโยงและบูรณาการโฮมสเตย์กับการท่องเที่ยวในรูปแบบต่าง ๆ นอกจากนั้น ยังมีงานศึกษาของกาญจนา สุคัณธสิริกุล (2558) ได้ศึกษาเรื่อง การพัฒนาศักยภาพการตลาดบริการของโฮมสเตย์ที่ได้รับรองมาตรฐาน ในจังหวัดนครราชสีมา ผลการวิจัยพบว่า 1) โฮมสเตย์ที่ได้รับการรับรองมาตรฐานมีศักยภาพการตลาดบริการครอบคลุมทั้ง 7 ด้าน ได้แก่ ด้านผลิตภัณฑ์และบริการ ด้านราคา ด้านช่องทางการจัดจำหน่ายและการกระจายสินค้า ด้านการส่งเสริมการตลาด ด้านบุคลากร ด้านกระบวนการ และด้านลักษณะทางกายภาพ ตามกรอบมาตรฐานโฮมสเตย์ไทย 2) ปัญหาและอุปสรรคด้านการตลาดบริการของโฮมสเตย์ ได้แก่ การปรับปรุงคุณภาพของที่พักและบริการยังสู้กับเอกชนไม่ได้ การปรับราคาไม่สามารถทำได้ง่ายนักเนื่องจากมีราคาใกล้เคียงกับคู่แข่งขัน สถานที่ตั้งของกลุ่มโฮมสเตย์ตั้งอยู่ในพื้นที่ชนบทการเดินทางไม่สะดวกในบางฤดูกาล ช่องทางที่ใช้ในการติดต่อส่วนใหญ่ผ่านทางโทรศัพท์บางครั้งไม่สามารถติดต่อได้ การส่งเสริมการตลาดยังคงอาศัยหน่วยงานจากภาครัฐช่วยเหลือในการจัดทำใบปลิวและฝากเว็บไซต์ไว้กับหน่วยงานต่าง ๆ บุคลากรบางส่วนยังขาดความรู้และมีจำนวนไม่เพียงพอในการบริการนักท่องเที่ยว ด้านกระบวนการชุมชนบางส่วนยังขาดความรู้ความเข้าใจในการบริหารจัดการ การดำเนินงาน หรือการสร้างรายได้จากบริการอื่น ๆ ด้านสิ่งแวดล้อมทางกายภาพเป็นพื้นที่ชนบทห่างไกลสิ่งอำนวยความสะดวก

การประเมินศักยภาพภายใต้หลักการพัฒนาการท่องเที่ยวอย่างยั่งยืน

มีการประเมินเป็นใน 3 ประเด็น คือ (สถาบันวิจัยสภาวะแวดล้อม จุฬาลงกรณ์มหาวิทยาลัย. 2550, น.3)

1. ความเป็นมิตรกับสิ่งแวดล้อม มีตัวบ่งชี้ 2 ข้อ ได้แก่ (1) การวางแผนเกี่ยวกับสิ่งแวดล้อมว่าด้วยนโยบายและการจัดการ และ (2) การอนุรักษ์สิ่งแวดล้อมและการศึกษาด้านสิ่งแวดล้อม

2. ความเป็นมิตรกับชุมชน มีตัวบ่งชี้ 2 ข้อ ได้แก่ (1) ความสัมพันธ์กับชุมชน และ (2) ส่งเสริมการมีส่วนร่วมและสนับสนุนโอกาสทางเศรษฐกิจในชุมชน

3 ความเป็นมิตรกับนักท่องเที่ยว มีตัวบ่งชี้ 3 ข้อ ได้แก่ (1) การรักษาสภาพเดิมและความงดงามของสถานที่ (2) ความปลอดภัย ความสะอาดและความสะดวกสบายในที่พักแรม และ (3) การเปิดโอกาสให้นักท่องเที่ยวได้เรียนรู้เกี่ยวกับธรรมชาติและวัฒนธรรมท้องถิ่น

การประเมินศักยภาพด้านการบริหารจัดการที่พัก

การประเมินองค์ประกอบตามมาตรฐานสิ่งอำนวยความสะดวกด้านที่พัก มีตัวชี้วัด 4 ด้าน คือ (พัชราภรณ์ จันทรฆาฏ, 2563)

1. ด้านความสะอาด มีตัวชี้วัด 4 ตัวคือ 1) มีห้องพักเป็นสัดส่วน 2) มีอุปกรณ์เครื่องนอนที่สะอาดเปลี่ยนทุกครั้งที่มีการเข้าพัก 3) ห้องน้ำสะอาดและมิดชิด มีอากาศถ่ายเทได้สะดวก 4) บริเวณห้องครัวมีความสะอาด 5) มีการจัดเก็บอุปกรณ์เป็นระเบียบมีภาชนะใส่อาหารที่สะอาด

2. ด้านความสะดวกสบาย ได้แก่ 1) ที่พักอยู่ใกล้แหล่งท่องเที่ยว 2) จำนวนที่พักเพียงพอต่อนักท่องเที่ยว 3) มีการให้การต้อนรับและแนะนำข้อมูลให้ผู้เข้าพัก 4) มีร้านสะดวกซื้อตั้งอยู่ในบริเวณใกล้เคียง

3. ด้านความปลอดภัย ภายในที่พักมีอุปกรณ์ปฐมพยาบาลเบื้องต้น มีระบบการส่งต่อผู้ประสบภัย/ผู้ป่วยไปยังหน่วยงานที่มีความเชี่ยวชาญหรือมืออาชีพในการแก้ไขปัญหาอันเกิดจากกรณีฉุกเฉิน เช่น

หน่วยกู้ภัย โรงพยาบาล คลินิก มีมาตรฐานความปลอดภัยด้านสุขอนามัย

4. ด้านการบริการ ได้แก่ 1) ราคามีความเหมาะสม 2) ผู้ให้บริการมีอัธยาศัยที่ดีต่อผู้เข้าพัก

วิธีดำเนินการวิจัย

ผู้วิจัยใช้วิธีวิจัยเก็บข้อมูลทั้งเชิงปริมาณและเชิงคุณภาพ

1. ประชากร และกลุ่มตัวอย่างที่ใช้ในการวิจัยเชิงปริมาณ

ประชากรที่ใช้ในการวิจัย ได้แก่ ประชาชน และนักท่องเที่ยวที่มาเที่ยวในงานประเพณีบุญบั้งไฟและฉลองสมโภชน์องค์เจ้าแม่โต๊ะโมะ ศาลเจ้าโต๊ะโมะ ในพื้นที่ตำบลภูเขาทอง อำเภอสุคิริน จังหวัดนราธิวาส

การกำหนดขนาดตัวอย่าง

ผู้วิจัยใช้สูตรของคอแครน (Cochran, 1977) ใช้ในกรณีที่ไม่ทราบขนาดของประชากรที่แน่นอน ที่ระดับความเชื่อมั่น 95% ได้จำนวนตัวอย่างอย่างน้อยเท่ากับ 385 ตัวอย่าง ทั้งนี้ผู้วิจัยได้เก็บข้อมูลจากกลุ่มตัวอย่าง 400 ตัวอย่าง เพื่อให้ข้อมูลที่ได้น่าเชื่อถือมากที่สุด

การสุ่มตัวอย่าง

ผู้วิจัยใช้วิธีการสุ่มตัวอย่างอย่างง่าย โดยการกำหนดสัดส่วนประชาชนในแต่ละหมู่บ้าน และนักท่องเที่ยวที่มาเที่ยวงานฉลองสมโภชน์ศาลเจ้าโต๊ะโมะ และงานประเพณีบุญบั้งไฟ

2. ผู้ให้ข้อมูลที่ใช้ในการวิจัยเชิงคุณภาพ

เจ้าของโฮมสเตย์ จำนวน 3 คน เจ้าของและผู้ดูแลรีสอร์ท 2 คน ประชาชนในพื้นที่ 2 คน นักท่องเที่ยวทั่วไป 2 คน นักท่องเที่ยวสายมู จำนวน 5 คน และหน่วยงานภาครัฐ จำนวน 3 คน การกำหนดขนาดตัวอย่างของผู้ให้ข้อมูลใช้วิธีการสัมภาษณ์จนกว่าข้อมูลจะอิ่มตัว (ประไพพิมพ์ สุธีวสินนนท์ และประสพชัย พสุนนท์, 2559)

3. เครื่องมือที่ใช้ในการวิจัยและการตรวจสอบคุณภาพเครื่องมือ

3.1 แบบสอบถามประเมินศักยภาพ มีทั้งหมด 3 ตอน คือ

ตอนที่ 1 ศักยภาพการบริหารจัดการที่พักของการท่องเที่ยวสายมู

ตอนที่ 2 ศักยภาพด้านที่พักภายใต้หลักการพัฒนาการท่องเที่ยวอย่างยั่งยืน

ตอนที่ 3 ศักยภาพด้านที่พักตามหลักความเชื่อของการท่องเที่ยวสายมู

เป็นแบบมาตราส่วนประมาณค่า 5 ระดับ (ชูศรี วงศ์รัตนะ, 2553 อ้างถึงใน เจตน์สฤษฎ์ สังขพันธ์, 2563) มีเกณฑ์ดังนี้

คะแนน 5 หมายถึง ความคิดเห็นความพร้อมอยู่ในระดับมากที่สุด

คะแนน 4 หมายถึง ความคิดเห็นความพร้อมอยู่ในระดับมาก

คะแนน 3 หมายถึง ความคิดเห็นความพร้อมอยู่ในระดับปานกลาง

คะแนน 2 หมายถึง ความคิดเห็นความพร้อมอยู่ในระดับน้อย

คะแนน 1 หมายถึง ความคิดเห็นความพร้อมอยู่ในระดับน้อยที่สุด

โดยมีเกณฑ์การแปลความหมาย (ชูศรี วงศ์รัตนะ, 2553 อ้างถึงใน เจตน์สฤษฎ์ สังขพันธ์, 2563) ดังนี้

ค่าเฉลี่ย 4.50 – 5.00 หมายความว่า มีศักยภาพความพร้อมอยู่ในระดับมากที่สุด
ค่าเฉลี่ย 3.50 – 4.49 หมายความว่า มีศักยภาพความพร้อมอยู่ในระดับมาก
ค่าเฉลี่ย 2.50 – 3.49 หมายความว่า มีศักยภาพความพร้อมอยู่ในระดับปานกลาง
ค่าเฉลี่ย 1.50 – 2.49 หมายความว่า มีศักยภาพความพร้อมอยู่ในระดับน้อย
ค่าเฉลี่ย 1.00 – 1.49 หมายความว่า มีศักยภาพความพร้อมอยู่ในระดับน้อยที่สุด

การตรวจสอบคุณภาพแบบสอบถามโดยการให้ผู้ทรงคุณวุฒิ 3 ท่าน ประเมินค่า IOC ได้เท่ากับ .67 ขึ้นไป ซึ่งถือว่าผ่านเกณฑ์ (บุญชม ศรีสะอาด, 2554) และนำไป Try Out กับประชาชน และนักท่องเที่ยวที่ไม่ใช่กลุ่มตัวอย่าง จำนวน 30 คน วิเคราะห์หาค่าความเชื่อมั่นจากสูตรสัมประสิทธิ์อัลฟาของครอนบัค (Cronbach's Alpha Coefficient) แบบวัดจะต้องมีค่าสัมประสิทธิ์อัลฟาไม่ต่ำกว่า .70 ซึ่งอยู่ในเกณฑ์ที่มีความเชื่อถือได้ (Cronbach, 1990) ปรากฏว่า แบบสอบถามตอนที่ 1 ภาพรวมมีค่าเท่ากับ .84 ด้านความสะอาด มีค่าเท่ากับ .83 ด้านความสะดวก มีค่าเท่ากับ .79 ด้านความปลอดภัย มีค่าเท่ากับ .81 ด้านการบริการ มีค่าเท่ากับ .85 ตอนที่ 2 ภาพรวม มีค่าเท่ากับ .87 ด้านความเป็นมิตรกับสิ่งแวดล้อม มีค่าเท่ากับ .85 ด้านเป็นมิตรกับชุมชน มีค่าเท่ากับ .86 ด้านเป็นมิตรกับนักท่องเที่ยว มีค่าเท่ากับ .88 ตอนที่ 3 ที่พักตามหลักความเชื่อของการท่องเที่ยวสายมู ภาพรวมมีค่าเท่ากับ .83 ด้านการสร้างที่พักตามความเชื่อของการท่องเที่ยวสายมู มีค่าเท่ากับ .82 และด้านการตกแต่งที่พักตามความเชื่อของการท่องเที่ยวสายมู มีค่าเท่ากับ .84 ซึ่งถือว่าผ่านเกณฑ์

3.2 แบบสัมภาษณ์แบบเจาะลึก เป็นแบบสัมภาษณ์ที่ถามความคิดเห็นเกี่ยวกับสถานภาพที่พักในปัจจุบันของพื้นที่ตำบลภูเขาทอง ความพร้อมในการรองรับการท่องเที่ยวด้านที่พักในแหล่งท่องเที่ยวในพื้นที่ตำบลภูเขาทอง และการสร้างที่พักตามความเชื่อของการท่องเที่ยวสายมู เพื่อให้ได้ข้อมูลที่สมบูรณ์ขึ้น

3.3 การสังเกตแบบมีส่วนร่วมโดยการเข้าพักในที่พักที่เป็นรีสอร์ท และโฮมสเตย์ที่มีการตกแต่งแบบสายมู และการสังเกตแบบไม่มีส่วนร่วม โดยการสังเกตสภาพภูมิทัศน์บริเวณรีสอร์ทและโฮมสเตย์ในพื้นที่ศึกษา

4. การเก็บรวบรวมข้อมูล

4.1 การเก็บรวบรวมข้อมูลเชิงปริมาณ ผู้วิจัยนำแบบสอบถามไปถามกลุ่มตัวอย่างที่เป็นประชาชน ทั้ง 8 หมู่บ้าน และนักท่องเที่ยวที่มาเที่ยวในงานฉลองสมโภชน์องค์เจ้าแม่โต๊ะโมะ และในงานประเพณีบุญบั้งไฟหนึ่งเดียวในภาคใต้ จำนวน 400 ชุด

4.2 การเก็บรวบรวมข้อมูลเชิงคุณภาพ ผู้วิจัยเก็บข้อมูลโดยการสัมภาษณ์แบบเจาะลึกจากผู้ให้ข้อมูลจนกว่าข้อมูลจะอิ่มตัวได้ผู้ให้ข้อมูล จำนวน 17 คน ได้แก่ เจ้าของโฮมสเตย์ จำนวน 3 คน เจ้าของและผู้ดูแลรีสอร์ท 2 คน ประชาชน 2 คน นักท่องเที่ยวสายมู 5 คน นักท่องเที่ยวทั่วไป 3 คน และหน่วยงานภาครัฐ จำนวน 2 คน นอกจากนั้นยังใช้วิธีการสังเกตแบบไม่มีส่วนร่วมโดยการสังเกตสภาพภูมิทัศน์ของที่พักสำหรับนักท่องเที่ยว และสังเกตแบบมีส่วนร่วมโดยการเข้าพักในที่พักดังกล่าวจากกลุ่มตัวอย่างแล้วนำมาวิเคราะห์ข้อมูล

5. การวิเคราะห์ข้อมูลและสถิติที่ใช้

ข้อมูลเชิงปริมาณ ผู้วิจัยนำแบบสอบถามทั้ง 3 ตอนมาตรวจสอบความสมบูรณ์ แล้วนำมาหาค่าเฉลี่ย ส่วนเบี่ยงเบนมาตรฐาน นำเสนอผลการวิจัยเป็นตารางและอธิบายใต้ตาราง

ข้อมูลเชิงคุณภาพ ผู้วิจัยใช้วิธีการจำแนกหมวดหมู่ตามประเด็น ตีความ สร้างข้อสรุป วิเคราะห์เชิงเนื้อหา นำเสนอข้อมูลเชิงพรรณนา

ผลการวิจัย

1. สถานภาพที่พักในปัจจุบันของพื้นที่ตำบลภูเขาทอง

ความพร้อมในการรองรับการท่องเที่ยวด้านที่พักในแหล่งท่องเที่ยวในพื้นที่ตำบลภูเขาทอง มีหลายระดับ ทั้งที่เป็นของเอกชนและชุมชน ได้แก่

1) ที่พักของเอกชน คือ ไร่ไอปาโจ ลักษณะเป็นรีสอร์ท ห้องพักทำเป็นหลังสามารถพักได้ 2 คน บางหลังสามารถพักได้ 3 คน มีระเบียง เป็นห้องปรับอากาศ สะดวกสบาย บรรยากาศสบายเหมือนเมืองในหมอก ราคาประมาณ 1,200 – 1,500 บาท ฟรีอาหารเช้า มีร้านอาหารและมีร้านบริการเครื่องดื่มเป็นของรีสอร์ท เปิดบริการเวลาประมาณ 7.00 - 19.00 น. (นฤพนธ์ โยงปราง, สัมภาษณ์วันที่ 6 มิถุนายน 2567 ; ฟาซียะห์ ลอกอ, สัมภาษณ์วันที่ 6 มิถุนายน 2567 ; อุสมัน, สัมภาษณ์วันที่ 6 มิถุนายน 2567) การสร้างรีสอร์ทจะหันหน้าห้องพักไปในทิศตามหลักฮวงจุ้ย ด้านหลังที่พักจะเป็นเนินสูง ด้านหน้าที่พักจะมีสระน้ำ และมีปลูกต้นไม้มงคลรอบ ๆ ที่พัก นอกจากนั้นยังมีการปลูกต้นทุเรียนกระจายรอบที่พัก มีการใช้สีโทนสว่างบางห้อง และบางห้องจะเป็นสีของเนื้อไม้เป็นแบบธรรมชาติ บางหลังจะแขวนโมบาย กระดิ่งให้มีเสียงดังเวลาลมพัดจะดังกรุ๋งกริ๋ง (การสังเกตสภาพภูมิทัศน์ด้านที่พักรีสอร์ทของผู้วิจัย, วันที่ 6 มิถุนายน 2567)

ภาพที่ 1 รีสอร์ท ไร่ไอร์ปาโจ หมู่ 1 ต.ภูเขาทอง อ.สุคิริน จ.นราธิวาส

2) ที่พักของชุมชนเป็นโฮมสเตย์ มีลักษณะบ้านเป็นหลังแบบครอบครัวสามารถอาศัยอยู่ได้หลายคน หรือเป็นเพื่อนที่มาเป็นกลุ่มใหญ่ ห้องนอนปรับอากาศนอนได้ประมาณ 10 คน เป็นที่นอนวางเรียงต่อกัน มีบริเวณห้องนั่งพักผ่อน 1 ห้องเป็นพัดลม และมีห้องครัวสำหรับประกอบอาหารหรือจัดเตรียมอาหารที่สะอาดถูกสุขลักษณะ มีมาตรฐานความปลอดภัยด้านสุขอนามัย มีห้องน้ำ 2 ห้องรองรับนักท่องเที่ยว

ภายในบ้าน ราคาประมาณ 200 บาท ต่อคน (เทียม ชัยโคตร, สัมภาษณ์วันที่ 20 พฤษภาคม 2567 ; อัมพร ฤทธิ์ชารี, สัมภาษณ์วันที่ 20 พฤษภาคม 2567 ; ปราณี ทวีรัตน์, สัมภาษณ์วันที่ 22 พฤษภาคม 2567) ส่วนโฮมสเตย์อีกแห่งหนึ่งจะจัดห้องเป็นส่วนหนึ่งอยู่ในบ้านของเจ้าของบ้านแบ่งเป็นห้องพัดลมนอนได้ประมาณ ห้องละ 6 คน ราคาประมาณห้องละ 800 บาท (ดำ พันธ์มณี, สัมภาษณ์วันที่ 6 มิถุนายน 2567) แต่อย่างไรก็ตามพบว่า ราคามีความเหมาะสม อยู่ในระดับปานกลาง ซึ่งจากการสัมภาษณ์เพิ่มเติมพบว่า ถ้าเป็นรีสอร์ทจะมีราคาสูงเกินไปเมื่อเปรียบเทียบกับคุณภาพ หากเป็นโฮมสเตย์จะมีราคาถูกกว่า ข้อเสีย คือ โฮมสเตย์ส่วนใหญ่จะมีพัดลม ไม่มีเครื่องปรับอากาศ ซึ่งจะมีผลกระทบต่อนักท่องเที่ยวในช่วงฤดูร้อน ที่อากาศร้อนอบอ้าว นักท่องเที่ยวบางกลุ่มจะชอบความสะดวกสบายมากกว่า (กฤษ เสนาพันธ์, สัมภาษณ์วันที่ 21 พฤษภาคม 2567; สุภาพ จามิกรณ์, สัมภาษณ์วันที่ 21 พฤษภาคม 2567; ปาน ทะขุ่ย, สัมภาษณ์วันที่ 22 พฤษภาคม 2567) นอกจากนั้นจากการสังเกตพบว่า จามิกรณ์โฮมสเตย์จะสร้างที่พักที่มีสีสันสดใส มีสระน้ำที่ใช้เลี้ยงปลาอยู่หน้าที่พักรอบ ๆ ที่พักจะมีการปลูกต้นไม้มงคล และมีกระดิ่งลมแขวนอยู่หน้าห้องพักเสียงดัง ส่วนโฮมสเตย์ประชารัฐของชุมชนจะปลูกเฉพาะต้นไม้มงคลข้างหน้าที่พัก โฮมสเตย์ของนายดำ พันธ์มณีเป็นที่พักแบบทั่วไป (สังเกตที่พักโฮมสเตย์ของผู้วิจัย, วันที่ 21 พฤษภาคม 2567)

ภาพที่ 4 โฮมสเตย์นางดำ พันธ์มณี หมู่ 3 บ้านโต๊ะโมะ ต.ภูเขาทอง อ.สุคิริน จ.นราธิวาส

2. ประเมินศักยภาพด้านที่พักสำหรับการท่องเที่ยวสายมู

ในพื้นที่ตำบลภูเขาทอง อำเภอสุคิริน จังหวัดนราธิวาส ผู้วิจัยมีการประเมิน 3 ด้าน คือ ด้านศักยภาพการบริหารจัดการที่พักของการท่องเที่ยวสายมู ด้านศักยภาพสถานที่พักแรมภายใต้หลักการพัฒนาการท่องเที่ยวอย่างยั่งยืน และด้านที่พักตามหลักความเชื่อของการท่องเที่ยวสายมู ดังตารางที่ 1 - 3 ดังนี้

2.1 ศักยภาพการบริหารจัดการที่พักของการท่องเที่ยวสายมู

ผู้วิจัยเก็บข้อมูลจากประชาชนและนักท่องเที่ยวที่มาเที่ยวงานประเพณีบุญบั้งไฟ และฉลองสมโภชน์องค์เจ้าแม่โต๊ะโมะ ใช้แบบสอบถาม จำนวน 400 ชุด โดยวิเคราะห์หาค่าเฉลี่ยและส่วนเบี่ยงเบนมาตรฐาน ดังตารางที่ 1

ตารางที่ 1 ศักยภาพด้านบริหารจัดการที่พักของการท่องเที่ยวสายมู

เกณฑ์การประเมินศักยภาพด้านการบริหารจัดการที่พัก	ค่าเฉลี่ย	S.D.	ระดับศักยภาพ
1. ด้านความสะอาด	**3.56**	**.97**	**มาก**
1.1 ห้องพักสะอาด อุปกรณ์ครบครันพร้อมบริการนักท่องเที่ยว	3.78	.84	มาก
1.2 มีอุปกรณ์เครื่องนอนที่สะอาดเปลี่ยนทุกครั้งที่มีการเข้าพัก	3.60	1.08	มาก
1.3 ห้องน้ำสะอาดและมิดชิด มีอากาศถ่ายเทได้สะดวก	3.25	1.01	ปานกลาง
1.4 บริเวณห้องครัวมีความสะอาด	3.40	1.00	ปานกลาง
1.5 มีการจัดเก็บอุปกรณ์เป็นระเบียบมีภาชนะใส่อาหารที่สะอาด	3.59	.88	มาก
2. ด้านความสะดวกสบาย	**3.60**	**.84**	**มาก**
2.1 ที่พักอยู่ใกล้แหล่งท่องเที่ยว	3.55	.84	มาก
2.2 จำนวนที่พักเพียงพอต่อนักท่องเที่ยว	3.63	.83	มาก
2.3 มีการให้การต้อนรับและแนะนำข้อมูลให้ผู้เข้าพัก	3.63	.96	มาก
2.4 มีร้านสะดวกซื้อตั้งอยู่ในบริเวณใกล้เคียง	3.32	1.06	ปานกลาง
3. ด้านความปลอดภัย	**3.61**	**.83**	**มาก**
3.1 ภายในที่พักมีอุปกรณ์ปฐมพยาบาลเบื้องต้น	3.56	.97	มาก
3.2 มีระบบการส่งต่อผู้ประสบภัย/ผู้ป่วยไปยังหน่วยงานที่มีความเชี่ยวชาญ หรือมืออาชีพในการแก้ไขปัญหาอันเกิดจากกรณีฉุกเฉิน เช่น หน่วยกู้ภัย โรงพยาบาล คลินิก	3.59	.96	มาก
3.3 มีมาตรฐานความปลอดภัยด้านสุขอนามัย	3.70	.82	มาก
4. ด้านการบริการ	**3.59**	**.96**	**มาก**
4.1 ราคามีความเหมาะสม	3.44	.92	ปานกลาง
4.2 ผู้ให้บริการมีอัธยาศัยที่ดีต่อผู้เข้าพัก	3.63	.96	มาก
รวม	**3.68**	**.73**	**มาก**

จากตารางที่ 1 พบว่า ศักยภาพการบริหารจัดการที่พักของการท่องเที่ยวสายมูเตลู โดยรวมอยู่ในระดับมาก ($\overline{X}$ = 3.68, S.D. = .73) เมื่อพิจารณารายด้าน พบว่า ด้านที่มีระดับศักยภาพค่าเฉลี่ยสูงสุด คือ ด้านความปลอดภัยอยู่ในระดับมาก ($\overline{X}$ = 3.61, S.D. = .83) รองลงมา ด้านความสะดวกสบาย อยู่ในระดับมาก ($\overline{X}$ = 3.60, S.D. = .84)

2.2 ศักยภาพด้านที่พักภายใต้หลักการพัฒนาการท่องเที่ยวอย่างยั่งยืน

มีองค์ประกอบในการประเมินศักยภาพดังนี้ 1) ความเป็นมิตรกับสิ่งแวดล้อม มีตัวบ่งชี้ 2 ข้อ ได้แก่ (1) การวางแผนเกี่ยวกับสิ่งแวดล้อมว่าด้วยนโยบายและการจัดการ และ (2) การอนุรักษ์สิ่งแวดล้อมและการศึกษาด้านสิ่งแวดล้อม 2) ความเป็นมิตรกับชุมชน มีตัวบ่งชี้ 2 ข้อ ได้แก่ (1) ความสัมพันธ์กับชุมชน และ (2) ส่งเสริมการมีส่วนร่วมและสนับสนุนโอกาสทางเศรษฐกิจในชุมชน 3) ความเป็นมิตรกับนักท่องเที่ยว มีตัวบ่งชี้ 3 ข้อ ได้แก่ (1) การรักษาสภาพเดิมและความงดงามของสถานที่ (2) ความปลอดภัย ความสะอาดและความสะดวกสบายในที่พักแรม และ (3) การเปิดโอกาสให้นักท่องเที่ยวได้เรียนรู้เกี่ยวกับธรรมชาติและวัฒนธรรมท้องถิ่น ดังตารางที่ 2

ตารางที่ 2 ศักยภาพด้านที่พักภายใต้หลักการพัฒนาการท่องเที่ยวอย่างยั่งยืน

เกณฑ์การประเมินศักยภาพด้านที่พักภายใต้หลักการพัฒนาการท่องเที่ยวอย่างยั่งยืน	ค่าเฉลี่ย	ส่วนเบี่ยงเบนมาตรฐาน	ระดับศักยภาพ
1. ความเป็นมิตรกับสิ่งแวดล้อม	**3.62**	**.74**	**มาก**
1.1 การวางแผนเกี่ยวกับสิ่งแวดล้อมว่าด้วยนโยบายและการจัดการ	3.67	.92	มาก
1.2 การอนุรักษ์สิ่งแวดล้อมและการศึกษาด้านสิ่งแวดล้อม	3.56	1.08	มาก
2. ความเป็นมิตรกับชุมชน	**3.68**	**.74**	**มาก**
2.1 ความสัมพันธ์กับชุมชน	3.63	.96	มาก
2.2 ส่งเสริมการมีส่วนร่วมและสนับสนุนโอกาสทางเศรษฐกิจในชุมชน	3.70	.91	มาก
3. ความเป็นมิตรกับนักท่องเที่ยว	**3.61**	**.83**	**มาก**
3.1 การรักษาสภาพเดิมและความงดงามของสถานที่	3.56	.93	มาก
3.2 ความปลอดภัย ความสะอาดและความสะดวกสบายในที่พักแรม	3.63	.96	มาก
3.3 การเปิดโอกาสให้นักท่องเที่ยวได้เรียนรู้เกี่ยวกับธรรมชาติและวัฒนธรรมท้องถิ่น	3.55	.97	มาก
รวม	**3.63**	**.96**	**มาก**

จากตารางที่ 2 พบว่า ศักยภาพด้านที่พักภายใต้หลักการพัฒนาการท่องเที่ยวอย่างยั่งยืนของการท่องเที่ยวสายมูเตลู โดยรวมอยู่ในระดับมาก ($\overline{X}$ = 3.63, S.D. = .96) เมื่อพิจารณาเป็นรายด้านพบว่าด้านที่มีระดับศักยภาพค่าเฉลี่ยสูงสุด คือความเป็นมิตรกับชุมชนอยู่ในระดับมาก ($\overline{X}$ = 3.68, S.D. = .74) รองลงมาได้แก่ ความเป็นมิตรกับสิ่งแวดล้อมอยู่ในระดับมาก ($\overline{X}$ = 3.61, S.D. = .83) และความเป็นมิตรกับนักท่องเที่ยวอยู่ในระดับมากเช่นกัน ($\overline{X}$ = 3.61, S.D. = .83)

เมื่อพิจารณาเป็นรายข้อพบว่า ข้อที่สูงที่สุด คือ ส่งเสริมการมีส่วนร่วมและสนับสนุนโอกาสทางเศรษฐกิจในชุมชนอยู่ในระดับมาก ($\overline{X}$ = 3.70, S.D. = .91) รองลงมา ได้แก่ การวางแผนเกี่ยวกับสิ่งแวดล้อมว่าด้วยนโยบายและการจัดการ อยู่ในระดับมาก ($\overline{X}$ = 3.67, S.D. = .92) และความปลอดภัย ความสะอาดและความสะดวกสบายในที่พักแรม และความสัมพันธ์กับชุมชนอยู่ในระดับมาก ($\overline{X}$ = 3.63, S.D. = .96)

2.3 ศักยภาพที่พักตามหลักความเชื่อของการท่องเที่ยวสายมู

มีองค์ประกอบในการประเมินศักยภาพดังนี้ 1) การสร้างที่พักตามความเชื่อของการท่องเที่ยวสายมู 2) การตกแต่งที่พักตามความเชื่อของการท่องเที่ยวสายมู นำเสนอตามตารางที่ 3

ตารางที่ 3 การประเมินศักยภาพที่พักตามหลักความเชื่อของการท่องเที่ยวสายมู

เกณฑ์การประเมินศักยภาพด้านที่พักตามหลักความเชื่อของการท่องเที่ยวสายมู	ค่าเฉลี่ย	ส่วนเบี่ยงเบนมาตรฐาน	ระดับศักยภาพ
1. การสร้างที่พักตามความเชื่อของการท่องเที่ยวสายมู	**3.52**	**.73**	**มาก**
1.1 ด้านหลังที่พักเป็นเนินสูงเปรียบเหมือนภูเขา	3.62	.79	มาก
1.2 ด้านหน้าที่พักมีแหล่งน้ำ	3.44	.79	ปานกลาง
1.3 สร้างที่พักหันไปทิศใต้เพื่อให้ลมพัดผ่านได้ตลอดทั้งปี	3.66	.87	มาก
1.4 สร้างที่พักให้มีแสงสว่างส่องถึง	3.55	.79	มาก
1.5 ที่พักอยู่ใกล้กับสถานที่ศักดิ์สิทธิ์	3.52	.80	มาก
2. การตกแต่งที่พักตามความเชื่อของการท่องเที่ยวสายมู	**3.60**	**.72**	**มาก**
2.1 การใช้สีโทนสว่างภายในและภายนอกที่พักเพื่อเพิ่มพลังบวกให้กับคนที่มาพัก	3.78	.75	มาก
2.2 การปลูกพืชบริเวณหน้าบ้านพักที่มีความหมายที่ดี เจริญรุ่งเรือง	3.52	.93	มาก
2.3 มีต้นไม้ใหญ่รอบที่พักเพื่อให้เกิดความร่มรื่น	3.40	.79	ปานกลาง
2.4 มีเครื่องรางของขลังประดับอยู่บริเวณที่พัก เช่น กระดิ่งลม แขวนหน้าบ้าน น้ำพุอยู่หน้าบ้านจะทำให้อยู่เย็นเป็นสุข และนำพาโชคลาภเข้ามาสู่คนที่มาพัก	3.48	.84	ปานกลาง
2.5 มีอากาศถ่ายเทสะดวกจะช่วยให้พลังงานไหลเวียนได้ดี	3.67	.78	มาก
2.6 ที่พักสะอาดเป็นระเบียบเพื่อเปิดรับพลังงานและโอกาสดี ๆ ใหม่ๆ เข้ามาให้กับนักท่องเที่ยวที่มาพัก	3.71	.72	มาก
รวม	**3.56**	**.57**	**มาก**

จากตารางที่ 3 พบว่า การประเมินศักยภาพความพร้อมด้านที่พักตามหลักความเชื่อของการท่องเที่ยวสายมู โดยภาพรวมอยู่ในระดับมาก ($\overline{X}$ = 3.56, S.D. = .57) เมื่อพิจารณาเป็นรายด้าน พบว่า ด้านที่มีระดับศักยภาพสูงที่สุด คือ การตกแต่งที่พักตามความเชื่อของการท่องเที่ยวสายมูอยู่ในระดับมาก ($\overline{X}$ = 3.60, S.D. = .72) รองลงมา ได้แก่ การสร้างที่พักตามความเชื่อของการท่องเที่ยวสายมู อยู่ในระดับมาก ($\overline{X}$ = 3.52, S.D. = .73) เมื่อพิจารณาเป็นรายข้อ พบว่า ข้อที่มีศักยภาพความพร้อมด้านที่พักตามหลักความเชื่อของการท่องเที่ยวสายมูมากที่สุด คือ การใช้สีโทนสว่างภายในและภายนอกที่พักเพื่อเพิ่มพลังบวกให้กับคนที่มาพักอยู่ในระดับมาก ($\overline{X}$ = 3.78, S.D. = .75) รองลงมา ได้แก่ ที่พักสะอาดเป็นระเบียบเพื่อเปิดรับพลังงานและโอกาสดี ๆ ใหม่ ๆ เข้ามาให้กับนักท่องเที่ยวที่มาพักอยู่ในระดับมาก ($\overline{X}$ = 3.70, S.D. = .72) และมีอากาศถ่ายเทสะดวกจะช่วยให้พลังงานไหลเวียนได้ดีอยู่ในระดับมาก ($\overline{X}$ = 3.67, S.D. = .78)

นอกจากนั้น ผู้ให้ข้อมูลยังให้สัมภาษณ์ถึงศักยภาพของที่พักตามหลักความเชื่อของการท่องเที่ยวสายมู ในพื้นที่ตำบลภูเขาทอง ตามรายละเอียดดังนี้

> “...การสร้างที่พักโฮมสเตย์ ครั้งแรกที่สร้างไม่คิดอะไรมากนักหรอก คิดแค่ว่าทำที่พักหันหน้าเข้าหาทิศใต้เป็นทิศทางที่ดีที่สุด เพราะเปิดรับแสงแดดและกระแสลมดี ๆ ที่พัดผ่านเข้ามาทางทิศนี้ตลอดทั้งปี ป้าก็คิดว่าเป็นการช่วยเพิ่มพลังงานชีวิต โชคลาภ สิริมงคล...” (จามิกรณ์, สัมภาษณ์วันที่ 20 มิถุนายน 2567)

“...เวลามาพักก็จะดูประตูบ้านต้องไม่ตรงกับประตูห้องน้ำ กลัวสิ่งที่มองไม่เห็น...ดูการหันหน้าที่พัก ว่าไปทิศใด ดูว่าสะอาดเป็นระเบียบไหม...” (ชัญญา, สัมภาษณ์วันที่ 9 มิถุนายน 2567)

“...เวลามาพักจะชอบสีของที่พักสีสว่างสดใสสีส้ม สีเขียวอ่อนอะไรประมาณนี้ ประตูก็ต้องเป็นประตูที่มีโทนสีสว่าง ประตูโฮมสเตย์และรีสอร์ทที่เคยมาพักก็จะเปิดเข้าข้างในถือว่าเป็นการรับพลังงานดี ๆ เข้าสู่ที่พัก แต่บางแห่งประตูเปิดออกไปนอกที่พักเพราะจะทำให้ได้พื้นที่ในห้องมากขึ้น เราก็ขอเปลี่ยนใหม่เขาก็ให้นะ...” (สุนิสา, สัมภาษณ์วันที่ 9 มิถุนายน 2567)

“...ห้องครัวเป็นห้องที่เกี่ยวเนื่องกับสุขภาพและธาตุไฟ ไม่สร้างห้องครัวไว้หน้าบ้านหรือประตูบ้าน ป้าสร้างห้องครัวไว้หลังบ้าน เวลาป้าจะสร้างที่พักโฮมสเตย์ก็ศึกษาหลาย ๆ อย่าง และมีความเชื่อเรื่องธาตุไฟและธาตุน้ำในครัวไม่ให้ตีกัน เวลาเราสั่งตู้เย็นมาก็ต้องหาที่วางแยกกับเตาและซิงค์ ห้องครัว ห้องนั่งเล่น และห้องกินข้าวอยู่ในห้องเดียวกัน...พื้นที่มีไม่มาก ส่วนใหญ่จะให้พื้นที่ห้องนอนมากกว่า...” (สุกัญญา, สัมภาษณ์วันที่ 10 มิถุนายน 2567)

“...เวลาลุงสร้างประตูห้องนอนก็จะไม่ให้ตรงกับบันไดเพราะเชื่อว่าเป็นทางผีผ่าน..” (วีระ, สัมภาษณ์วันที่ 10 มิถุนายน 2567)

“...เวลาเลือกที่พักจะเลือกที่อยู่ไกลจากเสียงดังห้องสงบเงียบ ปลอดภัย แต่บางทีมันมีเสียงบ้างเวลารถผ่าน และหันหน้าไปทางตะวันออกเฉียงใต้ก็ยังดีอยู่...” (แซนดี้, สัมภาษณ์วันที่ 20 มิถุนายน 2567)

“...ที่พักที่ภูเขาทองเป็นรีสอร์ทก็สร้างหลังเล็ก ๆ พักได้ 2 - 3 คน มีเฉพาะห้องนอนกับห้องน้ำ ส่วนห้องครัวก็แยกต่างหาก ไม่เหมือนโฮมสเตย์ที่เคยไปพักเขาจะสร้างหลังใหญ่ เพราะพักได้หลายคน สะอาด น่าเข้าพักถูกหลักฮวงจุ้ย ห้องน้ำก็สำคัญ ของเขาสะอาด มีความเชื่อว่าจะนำพลังดี ๆ เข้ามาในที่พัก คนมาพักก็รู้สึกสงบร่มเย็นเป็นสุข...” (สุรภีร์, สัมภาษณ์วันที่ 20 มิถุนายน 2567)

จากข้อความดังกล่าวข้างต้นสะท้อนให้เห็นว่า โฮมสเตย์ที่ชาวบ้านสร้างขึ้นจะสร้างหันหน้าไปทางทิศใต้ เนื่องจากลมสามารถพัดผ่านเข้ามาได้ตลอดทั้งปี และเปิดรับแสงแดดช่วยเพิ่มพลังงานชีวิต โชคลาภ สิริมงคล ทาสีที่พักสดใส เพื่อให้เด่น มีห้องครัว ห้องน้ำ 2 ห้อง เพียงพอต่อการพักหลายคนห้องนอนจะเป็นห้องนอนรวมสามารถนอนได้หลายคนเป็นห้องแอร์ มีห้องครัวให้ทำกับข้าวได้ มีตู้เย็นให้แช่อาหารได้อีกด้วย มีห้องนั่งเล่น สามารถนั่งทำงานได้ มีโทรทัศน์ พัดลม รีสอร์ทก็เช่นเดียวกันที่ใช้สีสันสดใส แต่รีสอร์ทจะมีเฉพาะห้องนอนกับห้องน้ำ ส่วนห้องนั่งเล่นจะเป็นระเบียงหน้าบ้านใช้รับลมได้ ประตูบ้านที่ดีต้องสะอาด แข็งแรง มีคุณภาพ และต้องไม่ตรงกับประตูบานอื่น ๆ โดยเฉพาะประตูห้องน้ำเพื่อป้องกันไม่ให้พลังงานดี ๆ ถูกพัดผ่านออกไป นอกจากนี้เนื่องจากตามหลักฮวงจุ้ยแล้วประตูเป็นด่านแรกในการต้อนรับพลังงานเข้าบ้าน ยิ่งประตูสะอาด แข็งแรง และมีคุณภาพดีมากเท่าไร ก็ยิ่งสื่อถึงพลังงานบวกที่จะเข้ามามากเท่านั้น ซึ่งโดยทั่วไปแล้วควรใช้ประตูที่มีโทนสีสว่าง นอกจากนี้ลักษณะประตูควรต้องเป็นประตูที่เปิดเข้ามาข้างในบ้าน เพราะประตูที่เปิดเข้ามาในที่พักจะเป็นการนำพาพลังงานดี ๆ เข้าสู่บ้าน จากปรากฏการณ์ดังกล่าวแสดงให้เห็นถึงศักยภาพความพร้อมในการรองรับนักท่องเที่ยวสายมูอยู่ในระดับดี สำหรับรีสอร์ทจะมีห้องอาหารแยกต่างหาก

สรุปและอภิปรายผล

1. สถานภาพที่พักในปัจจุบันของพื้นที่ตำบลภูเขาทอง มี 2 ลักษณะ คือ เป็นที่พักของเอกชน จะเป็นรีสอร์ทห้องปรับอากาศ ทำเป็นบ้านพักเป็นหลัง มีทั้งแบบครอบครัวและมากันเป็นคู่ สะดวกสบาย แต่ราคาแพงกว่าที่พักของชุมชนที่เป็นโฮมสเตย์ ราคาประหยัด แต่อาจต้องอยู่รวมกันหลายคน ที่เป็นเช่นนี้ เนื่องจากนักท่องเที่ยวมีหลายระดับ การสร้างความรู้สึกความเป็นเจ้าของให้กับคนในชุมชน แต่ก็มีส่วนที่ส่งผลกระทบอยู่บ้างเมื่อเทียบกับรีสอร์ทไร้ไอปาโจ นั่นคือ การปรับปรุงคุณภาพของที่พักและบริการของโฮมสเตย์ยังสู้กับเอกชนไม่ได้ การปรับราคาไม่สามารถทำได้ง่ายนัก เนื่องจากมีราคาใกล้เคียงกับคู่แข่ง สถานที่ตั้งของกลุ่มโฮมสเตย์ตั้งอยู่ในพื้นที่ชนบทการเดินทางไม่สะดวกในบางฤดูกาล ซึ่งสอดคล้องกับงานวิจัยของสริตา ศรีสุวรรณ และบงกช เดชมิตร (2562) ที่มีมุมมองในการจัดการที่พักแบบโฮมสเตย์ให้คงเสน่ห์และแตกต่างอย่างมีอัตลักษณ์เพื่อตอบโจทย์การท่องเที่ยวอย่างยั่งยืน โดยเฉพาะการสร้างภาคีเครือข่ายกับท้องถิ่นใกล้เคียง เช่นเดียวกับงานศึกษาของกาญจนา สุคัณธสิริกุล (2558) ที่สะท้อนให้เห็นถึงการบริหารจัดการโฮมสเตย์ที่ยังมีปัญหาอุปสรรคในเรื่องระยะทาง ของที่พักโฮมสเตย์ห่างไกลจากความเจริญ

2. ศักยภาพการบริหารจัดการที่พักของการท่องเที่ยวสายมูเตลู โดยรวมอยู่ในระดับมาก ส่วนศักยภาพด้านที่พักภายใต้หลักการพัฒนาการท่องเที่ยวอย่างยั่งยืนของการท่องเที่ยวสายมูเตลู โดยรวมอยู่ในระดับมากและทุกด้านอยู่ในระดับมาก เช่นเดียวกันที่เป็นเช่นนี้ เนื่องจากในการบริหารจัดการที่พักของเอกชนที่เป็นรีสอร์ท ได้ให้บริการสิ่งอำนวยความสะดวกด้านที่พักได้มาตรฐานของการบริหารจัดการโฮมสเตย์และการบริหารจัดการภายใต้หลักการพัฒนาการท่องเที่ยวอย่างยั่งยืน สอดคล้องกับสถาบันวิจัยสภาวะแวดล้อม จุฬาลงกรณ์มหาวิทยาลัย (2550) ที่ได้คำนึงถึงความเป็นมิตรกับชุมชนความเป็นมิตรต่อสิ่งแวดล้อม และความเป็นมิตรกับนักท่องเที่ยว จึงได้จัดบริการที่พักที่สร้างสรรค์บรรยากาศแบบสบาย ๆ และใช้วัสดุที่เป็นมิตรกับสิ่งแวดล้อม ตลอดจนการบริหารจัดการโดยชุมชนซึ่งสอดคล้องกับงานศึกษาของพัชราภรณ์ จันทรฆาฎ (2563)

นอกจากนั้นยังพบว่า ศักยภาพความพร้อมด้านที่พักตามหลักความเชื่อของการท่องเที่ยวสายมู โดยภาพรวมอยู่ในระดับมาก เมื่อพิจารณาเป็นรายด้าน พบว่า ด้านที่มีระดับศักยภาพสูงที่สุด คือ การตกแต่งที่พักตามความเชื่อของการท่องเที่ยวสายมูอยู่ในระดับมาก รองลงมาได้แก่ การสร้างที่พักตามความเชื่อของการท่องเที่ยวสายมูอยู่ในระดับมาก เมื่อพิจารณาเป็นรายข้อ พบว่า ข้อที่มีศักยภาพความพร้อมด้านที่พักตามหลักความเชื่อของการท่องเที่ยวสายมูมากที่สุด คือ การใช้สีโทนสว่างภายในและภายนอก ที่พักเพื่อเพิ่มพลังบวกให้กับคนที่มาพักอยู่ในระดับมาก รองลงมา ได้แก่ ที่พักสะอาดเป็นระเบียบเพื่อเปิดรับพลังงานและโอกาสดี ๆ ใหม่ ๆ เข้ามาให้กับนักท่องเที่ยวที่มาพักอยู่ในระดับมาก และมีอากาศถ่ายเทสะดวกจะช่วยให้พลังงานไหลเวียนได้ดี อยู่ในระดับมากเช่นกัน ที่เป็นเช่นนี้เนื่องจากการจัดสร้างที่พัก และการวางห้องพักต่าง ๆ มีการตกแต่งตามหลักฮวงจุ้ย เพื่อให้คนที่เข้าพักรู้สึกสะดวกสบายและอยากกลับมาพักซ้ำในการมาเยือนครั้งต่อไป นอกจากนั้นนักท่องเที่ยวที่มาพักส่วนใหญ่จะมาฉลองสมโภชน์องค์เจ้าแม่โต๊ะโมะ และมาเที่ยวประเพณีบุญบั้งไฟ ซึ่งมีความเชื่อเกี่ยวกับสิ่งศักดิ์สิทธิ์ ความเชื่อโชคลางอยู่แล้ว การเลือกที่พักจึงต้องการเพิ่มพลังงานบวก และให้มีการไหลเวียนของพลังงานชี่ ซึ่งเป็นสิ่งที่ดีในชีวิต ซึ่งสอดคล้องกับงานศึกษาของ อธิป จันทร์สุริย์ (2565) อธิบายคำว่า “มูเตลู” ไว้ว่า เป็นการบูชาเครื่องรางของขลังมงคลเสริมดวงจึงทำให้เกิดคำว่า “สายมู” ที่ใช้เรียกแทนบุคคลที่บูชาสิ่งศักดิ์สิทธิ์และเครื่องรางของขลังต่าง ๆ โดยรวมความหลากหลายทางความเชื่อและศาสนา เป็นสิ่งที่ช่วยยึดเหนี่ยวจิตใจให้กับผู้ที่ศรัทธาในด้านบวก เช่นเดียวกับหลักการจัดบ้านตามหลักฮวงจุ้ยในงานศึกษา

แนวทางในการปรับที่พักให้สอดคล้องกับนักท่องเที่ยวสายมู จะต้องคำนึงถึงหลักความเชื่อของสายมู คือ สงบ สะดวกสบาย มีการนำสิ่งที่ทำให้พลังงานไหลเวียนเข้าสู่ที่พักเพื่อเพิ่มพลังบวก ซึ่งในพื้นที่ตำบลภูเขาทอง สามารถตอบโจทย์นักท่องเที่ยวสายมูได้เป็นบางแห่ง แต่บางแห่งอาจต้องมีการเพิ่มการตกแต่งเพิ่มเติม โดยการให้ข้อเสนอแนะ

ข้อเสนอแนะ

ข้อเสนอแนะสำหรับการนำผลวิจัยไปใช้

1. ชุมชนที่ให้บริการที่พักโฮมสเตย์ ควรจัดให้มีห้องครัวที่สะอาดที่สามารถทำครัวได้ และควรจัดให้มีบริการห้องน้ำที่สะอาดและมิดชิด มีอากาศถ่ายเทได้สะดวก

2. ควรมีร้านสะดวกซื้อตั้งอยู่ในบริเวณใกล้เคียงที่พักโฮมสเตย์ของชุมชน เพื่อความสะดวกให้กับนักท่องเที่ยว ในขณะที่ชุมชนควรรักษาสภาพเดิม และความงดงามของสถานที่

3. ที่พักควรอยู่ใกล้แหล่งท่องเที่ยวเพื่อให้เกิดความสะดวกสบายแก่นักท่องเที่ยว

4. ควรเปิดโอกาสให้นักท่องเที่ยวได้เรียนรู้เกี่ยวกับธรรมชาติและวัฒนธรรมท้องถิ่น ซึ่งชุมชนสามารถจัดประสบการณ์การท่องเที่ยวด้านที่พักที่มีความเป็นมิตรกับนักท่องเที่ยวได้ โดยจัดที่พักโฮมสเตย์ให้เป็นไปตามธรรมชาติของชุมชน

5. ควรเพิ่มการตกแต่งที่พักตามความเชื่อของนักท่องเที่ยวสายมู

ข้อเสนอแนะสำหรับการวิจัยครั้งต่อไป

1. ควรศึกษาเกี่ยวกับแนวทางการเพิ่มศักยภาพของการบริหารจัดการที่พัก ตามหลักความเชื่อของการท่องเที่ยวสายมูในพื้นที่ตำบลภูเขาทอง อำเภอสุคิริน จังหวัดนราธิวาส

2. ควรศึกษาความคาดหวังและความพึงพอใจด้านที่พักของการท่องเที่ยวสายมูในพื้นที่ตำบลภูเขาทอง อำเภอสุคิริน จังหวัดนราธิวาส

บทคัดย่อ

บทความนี้มีวัตถุประสงค์เพื่อ 1) ศึกษาสภาพทั่วไปของผลิตภัณฑ์สายมูและการตลาดในปัจจุบันของพื้นที่ตำบลภูเขาทอง อำเภอสุคิริน จังหวัดนราธิวาส 2) ประเมินศักยภาพด้านผลิตภัณฑ์ชุมชนและการตลาดของผลิตภัณฑ์สายมู วิธีดำเนินการวิจัยใช้วิธีการเชิงปริมาณและเชิงคุณภาพ เชิงปริมาณเก็บข้อมูลจากแบบสอบถาม จำนวน 400 ชุด จากกลุ่มตัวอย่าง วิเคราะห์ข้อมูลหาค่าเฉลี่ยและส่วนเบี่ยงเบนมาตรฐาน ส่วนเชิงคุณภาพเก็บข้อมูลจากการสังเกต และสัมภาษณ์แบบเจาะลึกจากผู้ให้ข้อมูล ได้แก่ วิสาหกิจชุมชน กลุ่มที่ผลิตสินค้าที่ระลึก ประชาชน นักท่องเที่ยว และหน่วยงานภาครัฐ จำนวน 22 คน วิเคราะห์ข้อมูลโดยการนำข้อมูลมาจำแนกหมวดหมู่ตีความตามประเด็น สร้างข้อสรุป นำเสนอข้อมูลเชิงพรรณนาวิเคราะห์ ผลการวิจัยพบว่า 1) สภาพทั่วไปของผลิตภัณฑ์สายมูและการตลาดในปัจจุบัน

พบว่า ผลิตภัณฑ์สายมูมีความหลากหลายมีอัตลักษณ์แสดงถึงภูมิปัญญา วัฒนธรรม และความเชื่อของท้องถิ่น มีคุณภาพ ตอบโจทย์ความต้องการของนักท่องเที่ยว ส่วนช่องทางการตลาดหลักในปัจจุบัน คือ เพจ เฟสบุ๊ก กลุ่มไลน์ และการบอกต่อ ซึ่งยังมีประสิทธิภาพจำกัด จำเป็นต้องขยายช่องทางการตลาดไปยังช่องทางออนไลน์ เช่น เว็บไซต์ ร้านค้าออนไลน์ โซเชียลมีเดีย ควรให้มีการเปิดตลาดนัดชุมชนหรือร้านค้าชุมชน เพื่อให้นักท่องเที่ยวสามารถซื้อผลิตภัณฑ์ได้สะดวกและควรนำสินค้าออกไปจำหน่ายนอกพื้นที่ เช่น ตามสถานที่ท่องเที่ยว โรงแรม ซุปเปอร์มาเก็ต 2) ศักยภาพของผลิตภัณฑ์สายมู พบว่า ภาพรวมอยู่ในระดับปานกลาง ($\overline{X}$ = 3.43, SD = .74) เมื่อพิจารณาเป็นรายด้าน พบว่า ด้านที่มีศักยภาพสูงที่สุด คือ ด้านเรื่องราวหรือตำนานเกี่ยวกับสิ่งศักดิ์สิทธิ์ของผลิตภัณฑ์อยู่ในระดับปานกลาง ($\overline{X}$ = 3.42, S.D. = .69) รองลงมา ได้แก่ ด้านบรรจุภัณฑ์สายมู อยู่ในระดับปานกลาง ($\overline{X}$ = 3.34, S.D. =.76) และด้านรูปแบบ สีสัน ของผลิตภัณฑ์สายมู อยู่ในระดับปานกลาง ($\overline{X}$ = 3.27, S.D. = .62) สำหรับศักยภาพการตลาดของผลิตภัณฑ์สายมู โดยภาพรวมพบว่าอยู่ในระดับปานกลาง ($\overline{X}$ = 3.44, S.D. = .60) เมื่อพิจารณาเป็นรายด้าน พบว่า ด้านที่มีศักยภาพสูงที่สุด คือ ด้านการจัดกิจกรรมพิเศษและสร้างประสบการณ์ อยู่ในระดับปานกลาง ($\overline{X}$ = 3.51, S.D. = .81) รองลงมา ได้แก่ การตลาดออนไลน์และสื่อสังคมออนไลน์ อยู่ในระดับปานกลาง ($\overline{X}$ = 3.42, S.D. = .69) และด้านการโฆษณาอยู่ในระดับปานกลาง ($\overline{X}$ = 3.38, S.D. = .74)

คำสำคัญ: การท่องเที่ยวสายมูเตลู, ศักยภาพผลิตภัณฑ์ชุมชน, ช่องทางการตลาด

Abstract

This article aims to 1) study the general condition of Sai Mu products and the current marketing of Sai Mu products in Phu Khao Thong Subdistrict, Sukhirin District, Narathiwat Province, and 2) assess the potential of community products and the marketing of Sai Mu products. The research methodology used quantitative and qualitative methods. The quantitative method collected data from 400 questionnaires from the sample group. The data were analyzed to find the mean and standard deviation. The qualitative method collected data from observation and in-depth interviews with 17 informants, including community enterprises, souvenir product groups, the general public, tourists, and government agencies. The data were analyzed by categorizing the data, interpreting the issues, creating conclusions, and presenting descriptive data. The research results found that 1) the general condition of Sai Mu products and the current marketing found that Sai Mu products are diverse, have identities that reflect local wisdom, culture, and beliefs, are of high quality, and meet the needs of tourists. The main marketing channels at present are Facebook pages, Line groups, and word-of-mouth, which are still limited in efficiency. It is necessary to expand the marketing channels to online channels, such as websites, online stores, and social media. There should be community markets or community stores to facilitate tourists to buy products and should take the products to sell outside the area, such as at tourist attractions, hotels, supermarkets 2) The potential of spiritual products was found to be at a moderate level overall ($\overline{X}$ = 3.43, SD = .74). When considering each

aspect, the aspect with the highest potential was the story or legend about the sacred objects of the product, which was at a moderate level ($\overline{X}$ = 3.42, S.D. = .69), followed by spiritual packaging, which was at a moderate level ($\overline{X}$ = 3.34, S.D. = .76), and the design and colors of spiritual products, which were at a moderate level ($\overline{X}$ = 3.27, S.D. = .62). The overall marketing potential of spiritual products was found to be at a moderate level ($\overline{X}$ = 3.44, S.D. = .60). When considering each aspect, the aspect with the highest potential was the aspect of organizing special events and creating experiences, which was at a moderate level ($\overline{X}$ = 3.51, S.D. = .81), followed by online marketing and social media, which was at a moderate level ($\overline{X}$ = 3.42, S.D. = .69), and advertising, which was at a moderate level ($\overline{X}$ = 3.38, S.D. = .74).

Keywords: Mutelu tourism, community product potential, marketing channels

บทนำ

คำว่า ‘มูเตลู’ มีรากศัพท์มาจากชื่อภาพยนตร์สยองขวัญสัญชาติอินโดนีเซียเรื่อง ‘Mutelu: Occult War’ ซึ่งเคยเข้าฉายในประเทศไทยภายใต้ชื่อ ‘มูเตลู ศึกไสยศาสตร์’ ภาพยนตร์ดังกล่าวมีเนื้อหาเกี่ยวกับสตรีสองนางที่ใช้มนตร์คาถาเพื่อแย่งชิงชายคนรัก โดยมีบทสวดที่ขึ้นต้นด้วยวลี ‘มูเตลู...มูเตลู’ แม้ภาพยนตร์เรื่องนี้จะออกฉายตั้งแต่ปี ค.ศ. 1979 แต่คำว่า “มูเตลู” ได้รับการฟื้นฟูและกลายเป็นคำที่ใช้กันอย่างแพร่หลายในยุคปัจจุบัน เพื่ออธิบายถึงการประกอบพิธีกรรมบูชาและความเชื่อในสิ่งศักดิ์สิทธิ์ (อธิป จันทร์สุริย์, 2564) ปรากฏการณ์นี้สอดคล้องกับการเติบโตของการท่องเที่ยวเชิงศรัทธา ซึ่งสร้างมูลค่าทางเศรษฐกิจมหาศาลทั่วโลก โดยมีมูลค่าถึง 13.7 พันล้านเหรียญสหรัฐ ในปี 2565 และคาดว่าจะเพิ่มขึ้นเป็น 40.92 พันล้านเหรียญสหรัฐ ในปี 2576 หรือคิดเป็นการเติบโตเกือบสามเท่าภายในระยะเวลาหนึ่งทศวรรษ

ในประเทศไทย การท่องเที่ยวสายมูมีขนาดตลาดที่ใหญ่และสร้างรายได้หมุนเวียนในระบบเศรษฐกิจอย่างมีนัยสำคัญ การท่องเที่ยวแห่งประเทศไทย (ททท.) คาดการณ์ว่าในปี 2566 การท่องเที่ยวเชิงศรัทธาและความเชื่อ หรือ “สายมู” จะสามารถสร้างรายได้หมุนเวียนในประเทศไม่ต่ำกว่า 10,800 ล้านบาท ตัวเลขดังกล่าวสะท้อนให้เห็นถึงศักยภาพทางเศรษฐกิจอันมหาศาลของการท่องเที่ยวรูปแบบนี้ ซึ่งไม่ได้จำกัดอยู่เพียงค่าใช้จ่ายในการเดินทาง แต่ยังครอบคลุมถึงการใช้จ่ายในกิจกรรมที่เกี่ยวข้องกับความเชื่อโดยตรง เช่น การทำบุญ การบริจาค การเช่าบูชาวัตถุมงคล และการใช้บริการพยากรณ์ต่าง ๆ (กรุงเทพธุรกิจ, 2566; กรมประชาสัมพันธ์, 2566) การเติบโตนี้ยังสอดรับกับรายงานจากศูนย์วิจัยกสิกรไทยที่ประเมินว่าธุรกิจที่เกี่ยวข้องกับความเชื่อและโหราศาสตร์มีมูลค่าตลาดรวมกว่า 1 หมื่นล้านบาท แม้ว่าตัวเลขนี้จะครอบคลุมธุรกิจในวงกว้างกว่าการท่องเที่ยวโดยเฉพาะ แต่ก็ชี้ให้เห็นถึงเม็ดเงินจำนวนมากที่หมุนเวียนในระบบเศรษฐกิจ อันเนื่องมาจากอุปสงค์ของผู้บริโภคสายมู โดยนักท่องเที่ยวกลุ่มนี้มักมีค่าใช้จ่ายเฉลี่ยสูงกว่านักท่องเที่ยวทั่วไป คืออยู่ที่ประมาณ 6,000 บาทต่อคนต่อทริป ซึ่งส่วนใหญ่หมดไปกับการเดินทาง ที่พัก อาหาร และที่สำคัญคือการซื้อของที่ระลึกและวัตถุมงคล การขยายตัวทางเศรษฐกิจนี้ไม่เพียงกระจุกตัวในเมืองใหญ่ แต่ยังกระจายรายได้ไปสู่ชุมชนท้องถิ่นที่มีแหล่งท่องเที่ยวเชิงศรัทธาตั้งอยู่ (วิจัยกรุงศรี, 2567)

การท่องเที่ยวมูเตลูส่งผลต่อการพัฒนาผลิตภัณฑ์และการตลาดในหลายมิติ ประการแรก คือ การสร้างอุปสงค์โดยตรง ณ แหล่งท่องเที่ยว เมื่อนักท่องเที่ยวเดินทางไปยังศาสนสถานหรือสถานที่ศักดิ์สิทธิ์ พวกเขามักมีความต้องการซื้อวัตถุมงคล เครื่องราง ของที่ระลึก หรือของถวาย ซึ่งกระตุ้นให้เกิดการผลิตและจำหน่ายสินค้าที่เชื่อมโยงกับสถานที่หรือสิ่งศักดิ์สิทธิ์นั้น ๆ ประการที่สอง คือ การท่องเที่ยวมูเตลูกำหนดเทรนด์และความนิยมของผลิตภัณฑ์ โดยกระแสความนิยมในสถานที่หรือสิ่งศักดิ์สิทธิ์บางอย่าง เช่น ไอ้ไข่ วัดเจดีย์ หรือท้าวเวสสุวรรณ มักเกิดจากการเดินทางไปสักการะ การบอกต่อ และอิทธิพลของสื่อหรือบุคคลที่มีชื่อเสียง ส่งผลให้เกิดการพัฒนาผลิตภัณฑ์ที่เกี่ยวข้องอย่างรวดเร็ว ตั้งแต่วัตถุมงคลแบบดั้งเดิมไปจนถึงการนำภาพลักษณ์ไปใช้บนสินค้าไลฟ์สไตล์อื่น ๆ ประการที่สาม คือ การตอบสนองต่อแรงจูงใจของนักท่องเที่ยวสายมูที่มักขอพรในด้านต่าง ๆ เช่น โชคลาภ การงาน การเงิน ความรัก สุขภาพ หรือการแสวงหาที่พึ่งทางใจ ผู้พัฒนาผลิตภัณฑ์จึงสร้างสรรค์สินค้าที่ตอบโจทย์ความต้องการเหล่านี้โดยตรง และประการสุดท้าย คือการขับเคลื่อนนวัตกรรมไปสู่ “มูเดิร์น” (Mutelu + Modern) และดิจิทัล เพื่อตอบสนองความต้องการของนักท่องเที่ยวรุ่นใหม่ โดยเฉพาะกลุ่ม Gen Y และ Gen Z ที่ต้องการผสมผสานความเชื่อเข้ากับไลฟ์สไตล์สมัยใหม่ เกิดเป็นผลิตภัณฑ์ เช่น เครื่องประดับดีไซน์มินิมอล เสื้อผ้าสีมงคล หรือผลิตภัณฑ์ดิจิทัลอย่างวอลเปเปอร์มือถือเสริมดวง (บุญยิ่ง คงอาชาภัทร, 2564)

ในพื้นที่ตำบลภูเขาทอง อำเภอสุคิริน จังหวัดนราธิวาส มีศักยภาพสูงสำหรับการท่องเที่ยวสายมูเตลู เนื่องจากมีสถานที่ทางประวัติศาสตร์ ศาสนา และวัฒนธรรมที่หลากหลาย เช่น เหมืองแร่โต๊ะโมะ ซึ่งเป็นดินแดนกลางหุบเขาที่เติบโตด้วยทองคำ ศาลเจ้าโต๊ะโมะ และสถานที่ศักดิ์สิทธิ์อื่น ๆ นักท่องเที่ยวที่มาเยือนมักได้รับแรงบันดาลใจจากเหตุผลทางศาสนา โหราศาสตร์ ศาสตร์แห่งความโชคดี และการบูชาเครื่องรางของขลัง เพื่อเสริมความมั่นคงในชีวิตและสมหวัง นอกจากนี้ยังได้รับความรู้ด้านตำนานประวัติศาสตร์ ศิลปวัฒนธรรมท้องถิ่น และมรดกทางภูมิปัญญาของชุมชน (อธิป จันทร์สุริย์, 2564) ความเชื่อสายมูได้กลายเป็นกลไกทางการตลาดที่สร้างเม็ดเงิน โดยอาศัยพื้นฐานความเชื่อศรัทธาและความหวัง ท่ามกลางความไม่แน่นอนทางเศรษฐกิจและสังคม (ศิริวรรณ สิทธิกา, 2566) การท่องเที่ยวลักษณะนี้ส่งผลให้ชุมชนหันมาพัฒนาผลิตภัณฑ์และสินค้าที่ระลึกที่เชื่อมโยงกับความเชื่อ ก่อให้เกิดความร่วมมือทางเศรษฐกิจและสังคม และธุรกิจชุมชน การทำผลิตภัณฑ์จากความเชื่อถือเป็นการสร้างมูลค่าเพิ่มที่ส่งผลต่อการรับรู้ของผู้บริโภค นำไปสู่ความมั่นใจในการตัดสินใจซื้อผลิตภัณฑ์และบริการ (วิลัดดา เตชะเวช, 2547)

อย่างไรก็ตาม แม้ตำบลภูเขาทองจะมีเรื่องราวความเชื่อเกี่ยวกับพื้นที่ศักดิ์สิทธิ์มากมาย แต่ผลิตภัณฑ์ชุมชนและช่องทางการตลาดสำหรับการท่องเที่ยวสายมูเตลูในพื้นที่ยังคงมีข้อจำกัด ผลิตภัณฑ์ที่ตอบโจทย์นักท่องเที่ยวสายมูและช่องทางการตลาดยังมีน้อย ทำให้การดึงดูดนักท่องเที่ยวและการสร้างรายได้ของชุมชนจากการนำเรื่องเล่าทางประวัติศาสตร์ ตำนาน และความเชื่อมาพัฒนาผลิตภัณฑ์และบริการยังไม่ดีเท่าที่ควร (ศศิธร พึ่งพา, สัมภาษณ์วันที่ 7 มิถุนายน 2567; ยายร่วม บุญบำรุง, สัมภาษณ์วันที่ 7 มิถุนายน 2567; และเทียม ชัยโคตร, สัมภาษณ์วันที่ 7 มิถุนายน 2567) จากปรากฏการณ์ดังกล่าว ผู้วิจัยจึงสนใจที่จะศึกษาสภาพทั่วไปของผลิตภัณฑ์ชุมชนสายมูในพื้นที่ตำบลภูเขาทองในปัจจุบัน รวมถึงประเมินศักยภาพของผลิตภัณฑ์สินค้าที่ระลึกสายมู เพื่อแสวงหาแนวทางการเพิ่มศักยภาพด้านผลิตภัณฑ์ชุมชนและการตลาดให้มีประสิทธิภาพ สร้างความพึงพอใจแก่นักท่องเที่ยว และเปิดพื้นที่ทางเศรษฐกิจให้แก่ชุมชนในการจำหน่ายผลิตภัณฑ์ต่อไป

วัตถุประสงค์ของการวิจัย

1. เพื่อศึกษาสภาพทั่วไปของผลิตภัณฑ์สายมูและการตลาดในปัจจุบันของพื้นที่ตำบลภูเขาทอง อำเภอสุคิริน จังหวัดนราธิวาส

2. เพื่อประเมินศักยภาพด้านผลิตภัณฑ์สายมูและการตลาดของผลิตภัณฑ์สายมูในพื้นที่ตำบลภูเขาทอง อำเภอสุคิริน จังหวัดนราธิวาส

แนวคิด ทฤษฎี กรอบแนวคิด

การศึกษาศักยภาพด้านผลิตภัณฑ์และการตลาดในการจัดการท่องเที่ยวสายมูเตลู จำเป็นต้องอาศัยแนวคิดและทฤษฎีที่หลากหลาย เพื่อให้เข้าใจบริบทและสามารถวิเคราะห์ได้อย่างครอบคลุม โดยแนวคิดสำคัญ ประกอบด้วย ศักยภาพผลิตภัณฑ์ชุมชน การพัฒนาผลิตภัณฑ์ชุมชน วิวัฒนาการของผลิตภัณฑ์สายมูและการตลาดสายมู

แนวคิดเกี่ยวกับศักยภาพและการพัฒนาผลิตภัณฑ์ชุมชน

ศักยภาพของสินค้าชุมชนเป็นปัจจัยสำคัญในการขับเคลื่อนเศรษฐกิจฐานราก อัจจิมา ศุภจริยาวัตร และสิทธิ จิตติชานนท์ (2562) ได้อธิบายองค์ประกอบของศักยภาพสินค้าชุมชนว่าประกอบด้วย 4 ด้านหลัก ได้แก่ ด้านรูปแบบผลิตภัณฑ์ ด้านบรรจุภัณฑ์ ด้านคุณภาพผลิตภัณฑ์ และด้านอัตลักษณ์ภูมิปัญญาท้องถิ่น นอกจากนี้ ยังได้เสนอเกณฑ์การประเมินศักยภาพผลิตภัณฑ์ชุมชนและช่องทางการตลาด ซึ่งแบ่งออกเป็น 4 ด้าน ได้แก่ 1) ด้านคุณภาพและมาตรฐานผลิตภัณฑ์ ซึ่งพิจารณาถึงคุณภาพ ความปลอดภัย การรับรองมาตรฐาน เอกลักษณ์ และความเหมาะสมของบรรจุภัณฑ์และฉลาก 2) ด้านศักยภาพการผลิต ครอบคลุมความเพียงพอของวัตถุดิบ เทคโนโลยี กำลังการผลิต ระบบการจัดการ และต้นทุน 3) ด้านศักยภาพการตลาด พิจารณาตลาดรองรับ กลุ่มลูกค้าเป้าหมาย ความต้องการสินค้า ราคา ช่องทางการจำหน่าย และกลยุทธ์การตลาด และ 4) ด้านศักยภาพของกลุ่มผู้ผลิต ซึ่งรวมถึงความสามัคคี ทักษะความรู้ด้านการผลิตและการตลาด การจัดการ และการพัฒนาอย่างต่อเนื่อง ทั้งนี้อาจมีเกณฑ์เพิ่มเติมตามประเภทผลิตภัณฑ์ เช่น ผลิตภัณฑ์ OTOP อาจประเมินด้านการออกแบบและพัฒนาผลิตภัณฑ์ การสร้างแบรนด์ ส่วนผลิตภัณฑ์เกษตรเน้นความปลอดภัยของอาหาร และผลิตภัณฑ์หัตถกรรมเน้นความประณีตและภูมิปัญญาท้องถิ่น

ด้านการพัฒนาศักยภาพผลิตภัณฑ์ชุมชนนั้น พนิดา รัตนสุภา, อรอุมา สำลี, เสาวลักษณ์ บุญรอด และวัลลภา พัฒนา (2563) ได้ชี้ให้เห็นถึงองค์ประกอบสำคัญในการเชื่อมโยงกับการท่องเที่ยวชุมชนและการส่งออก ประกอบด้วย การพัฒนาผลิตภัณฑ์ชุมชนให้สอดรับกับนักท่องเที่ยวและการส่งออก การจัดการต้นทุนและการกำหนดราคา การออกแบบบรรจุภัณฑ์เพื่อสื่อสารการตลาด และการวิเคราะห์ศักยภาพผู้ประกอบการเพื่อรองรับการส่งออก

ผลิตภัณฑ์ชุมชนโดยนิยาม คือ ผลผลิตจากการประกอบกิจการของชุมชน ซึ่งไม่เพียงสร้างรายได้และเสริมสร้างความเข้มแข็งทางเศรษฐกิจของชุมชนและรัฐ แต่ยังต้องสามารถตอบสนองความต้องการของผู้บริโภค มีความคงทน และเป็นสินค้าที่จับต้องได้ (วรรณพรรธน์ ริมผดี, 2554) ที่สำคัญ ผลิตภัณฑ์เหล่านี้จะต้องสะท้อนถึงวัฒนธรรมและประเพณีของท้องถิ่นนั้น ๆ (พนิดา รัตนสุภา, อรอุมา สำลี, เสาวลักษณ์ บุญรอด, และวัลลภา พัฒนา, 2563) รากฐานของผลิตภัณฑ์ชุมชนมักเกิดจากการนำภูมิปัญญาท้องถิ่นและทักษะการพึ่งตนเองของคนในชุมชนมาประยุกต์ใช้ โดยการนำทรัพยากรในชุมชนมาใช้อย่างสมดุล ไม่ว่าจะเป็นการเกษตร ศิลปหัตถกรรมพื้นบ้าน อาหารแปรรูป หรือบริการอื่น ๆ

กระบวนการผลิตมักยืดหยุ่นและสอดคล้องกับวิถีชีวิต ทำให้เกิดการสืบทอดภูมิปัญญาเป็นทุนทางปัญญาของชุมชน จุดกำเนิดของการผลิตผลิตภัณฑ์ชุมชนจึงมาจากความผูกพันทางวิถีชีวิต ภูมิปัญญาท้องถิ่น ความต้องการตอบสนองตลาด การสร้างมูลค่าเพิ่มให้วัตถุดิบ กระบวนการเรียนรู้ของชุมชน และการสนับสนุนจากภายนอก โดยมีองค์ประกอบภายในชุมชนเป็นหลัก เช่น ภูมิปัญญาท้องถิ่น ศักยภาพท้องถิ่น วัตถุดิบ เทคโนโลยีชาวบ้าน และแรงงาน

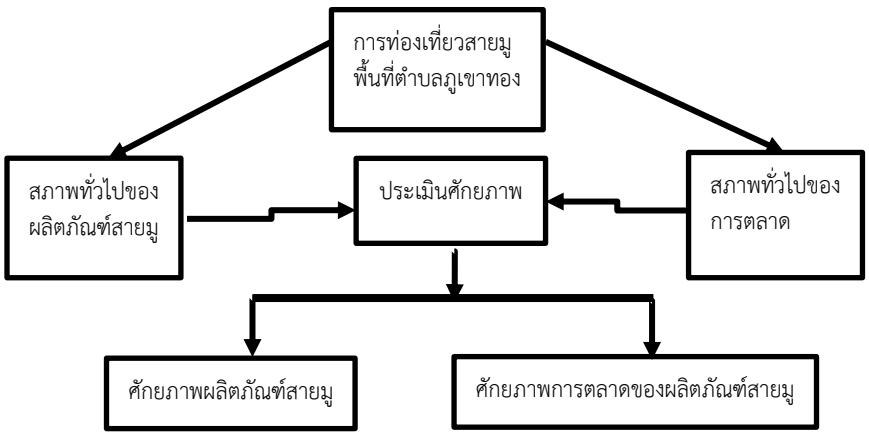
วิวัฒนาการผลิตภัณฑ์สายมู

ปรากฏการณ์ “สายมู” หรือการยึดเหนี่ยวความเชื่อในสิ่งศักดิ์สิทธิ์ มีความเชื่อมโยงกับสภาวะความไม่แน่นอนทางสังคมและเศรษฐกิจ งานวิจัย ‘Marketing in the Uncertain World การตลาดของคนอยู่เป็น’ โดยวิทยาลัยการจัดการ มหาวิทยาลัยมหิดล พบว่า ทุกเจเนอเรชันมีความกังวลร่วมกันในด้านโรคระบาดและสิ่งแวดล้อม ขณะที่ความกังวลอื่น ๆ แตกต่างกันไปตามช่วงวัย เช่น กลุ่ม Gen Z กังวลด้านสังคม Gen Y ด้านเศรษฐกิจ และ Gen X กับ Baby Boomer ด้านเทคโนโลยี ท่ามกลางความไม่แน่นอนเหล่านี้ ผู้คนหันมาพึ่งพิงความเชื่อเพื่อเป็นเครื่องยึดเหนี่ยวจิตใจ โดย 5 อันดับความเชื่อด้านโชคลางยอดนิยม ได้แก่ การพยากรณ์, พระเครื่องวัตถุมงคล, สีมงคล, ตัวเลขมงคล, และเรื่องเหนือธรรมชาติ สอดคล้องกับการสำรวจของบริษัท Lucky Heng Heng ที่พบว่าคนไทย 75% เชื่อเรื่องดูดวง โดยกลุ่ม Gen Y มีสัดส่วนความเชื่อสูงสุด (43.4%) สะท้อนถึงความไม่มั่นคงทางจิตใจจากสภาวะแวดล้อมเชิงลบ (ศิริวรรณ สิทธิกา, 2566)

ธุรกิจสายมูเริ่มเด่นชัดในช่วงทศวรรษ 2520 พร้อมกับการเติบโตของลัทธิบูชาความมั่งคั่ง วงการพระเครื่องเฟื่องฟู และศาสนากับการค้าเริ่มผนวกกัน เพื่อตอบสนองความต้องการที่พึ่งทางใจและความหวังในความมั่งคั่ง สื่อมวลชนมีบทบาทสำคัญในการขยายความศักดิ์สิทธิ์ของวัตถุมงคล เมื่อลัทธิความมั่งคั่งผสมผสานกับการตลาดสมัยใหม่ ศาสนาก็กลายเป็นสินค้าประเภทหนึ่ง โดยเฉพาะในช่วงเศรษฐกิจรุ่งเรือง ทศวรรษ 2520 - 2530 ที่มีการใช้จ่ายเงินและเวลาไปกับพิธีกรรมความเชื่อจำนวนมาก ธุรกิจสายมูแสดงให้เห็นถึงความยืดหยุ่น โดยไม่ซบเซาตามภาวะเศรษฐกิจ ข้อมูลจากกระทรวงพาณิชย์ชี้ว่าตั้งแต่ปี 2563 ถึง 2566 ความนิยมในการมูเตลูเพิ่มขึ้นอย่างก้าวกระโดด โดยรายได้รวมของธุรกิจสายมูปลายปี 2564 พุ่งขึ้นกว่า 113% ท่ามกลางความผันผวนทางเศรษฐกิจและปัจจัยที่คาดไม่ถึง เช่น โรคอุบัติใหม่ ปัญหาสิ่งแวดล้อม การเมือง และเทคโนโลยี ภาคธุรกิจจึงนำความเชื่อมาสร้างรายได้และผลกำไรผ่านการท่องเที่ยว สินค้า และบริการ โดยใช้ศาสตร์ความเชื่อในการวางกลยุทธ์ทางการตลาด ซึ่งนำไปสู่ “การทำให้วัตถุกลายเป็นสิ่งศักดิ์สิทธิ์” (ศิริวรรณ สิทธิกา, 2566)

การทำให้วัตถุมีความศักดิ์สิทธิ์ปรากฏในหลายรูปแบบในสังคมไทย เช่น วัตถุเสริมดวง สีเสื้อมงคล เครื่องรางนำโชค หมายเลขโทรศัพท์มงคล หรือฤกษ์ยามต่าง ๆ ความเชื่อเหล่านี้บางส่วนฝังรากลึกในวัฒนธรรม ขณะที่บางส่วนเกิดจากกระแสที่ถูกปลุกปั่นและจางหายไปตามกาลเวลา สังคมไทยมีความเชื่อที่หลากหลายและผสมผสาน ทั้งแบบดั้งเดิมและสร้างขึ้นใหม่ เพื่อตอบสนองธุรกิจความเชื่อที่เติบโตและสร้างรายได้มหาศาลในแต่ละปี ผู้บูชาคาดหวังคุณวิเศษจากวัตถุมงคลเหล่านั้น ซึ่งความศักดิ์สิทธิ์มักต้องอาศัยองค์ประกอบสำคัญ ได้แก่ เรื่องเล่าหรือตำนาน, พิธีกรรม, ปาฏิหาริย์หรือประสบการณ์ และรูปแบบที่เป็นเอกลักษณ์ ตัวอย่างเช่น ปรากฏการณ์จตุคามรามเทพในปี 2549 ที่ความต้องการสูงมากจากเรื่องเล่าหลากหลาย แต่ความนิยมก็ลดลงในเวลาไม่กี่ปี ชี้ให้เห็นว่าตลาดและกระแสมีอิทธิพลต่อความนิยมมากกว่าตัวผู้บูชาเอง วัตถุศักดิ์สิทธิ์อื่น ๆ เช่น แม่ยั่วเมือง หรือไอ้ไข่ ก็ล้วนมีวงจรความนิยมที่เกิดขึ้นและจางไป ก่อนจะมีวัตถุใหม่เข้ามาแทนที่ (ศิริวรรณ สิทธิกา, 2566; วิทยาลัยการจัดการ มหาวิทยาลัยมหิดล,

2564) ความเชื่อในสิ่งศักดิ์สิทธิ์และไสยศาสตร์นี้ แม้จะดูขัดแย้งกับความทันสมัย แต่ก็ยังคงเติบโตเคียงคู่กัน คำว่า “มูเตลู” หรือ “สายมู” จึงใช้เรียกบุคคลที่มีความเชื่อและบูชาสิ่งศักดิ์สิทธิ์เพื่อประโยชน์ส่วนตนในด้านต่าง ๆ



การตลาดสายมู (Muketing)

การตลาด (Marketing) คือ กระบวนการสร้าง ส่งเสริม และนำเสนอผลิตภัณฑ์หรือบริการสู่ผู้บริโภคเพื่อสร้างความต้องการและยอดขาย ซึ่งครอบคลุมการวิเคราะห์ตลาด การวางแผน พัฒนาโฆษณา และบริการลูกค้า “การตลาดสายมู” หรือ “Muketing” เป็นการนำความเชื่อ ความศรัทธาในดวงชะตาและสิ่งศักดิ์สิทธิ์มาใช้ในการทำตลาดสินค้าหรือบริการ เพื่อดึงดูดกลุ่มเป้าหมายสายมู สินค้าเหล่านี้มักผ่านพิธีปลุกเสก มีการใช้เลขมงคล สีมงคล หรือสัญลักษณ์ศักดิ์สิทธิ์ (Mandala Team, 2024)

แนวคิดการตลาดสมัยใหม่ยังรวมถึงการตลาดความสัมพันธ์ที่มุ่งเน้นลูกค้า การตลาดเชิงธุรกิจและการตลาดเชิงสังคม การตลาดผ่านอินเทอร์เน็ต (Internet Marketing) หรือชื่ออื่น ๆ เช่น e-marketing, online marketing, digital marketing ได้กลายเป็นเครื่องมือสำคัญ โดยอาศัยเว็บไซต์ค้นหาข้อมูล การโฆษณาบนหน้าจอคอมพิวเตอร์ และการแบ่งกลุ่มลูกค้าอย่างละเอียดเพื่อการตลาดที่แม่นยำขึ้น (personalized marketing หรือ one-to-one marketing) การตลาดผ่านอินเทอร์เน็ตยังครอบคลุมการตลาดผ่านอีเมล สื่อไร้สาย และการผลักดันผู้บริโภคจากสื่อดั้งเดิมไปสู่แพลตฟอร์มออนไลน์ (Adcock, 2001)

หนึ่งในโมเดลการตลาดที่สำคัญคือ STP Marketing ซึ่งย่อมาจาก Segmentation (การแบ่งส่วนตลาด) Targeting (การกำหนดเป้าหมาย) และ Positioning (การวางตำแหน่งผลิตภัณฑ์) โมเดลนี้ช่วยให้นักการตลาดสามารถปรับกลยุทธ์ให้เหมาะสมกับแต่ละส่วนของตลาด เพิ่มความแม่นยำและประสิทธิภาพ (Rocket, 2024) กลยุทธ์การตลาดดิจิทัลที่นิยมใช้ในปัจจุบัน ได้แก่ การตลาดผ่านผู้มีอิทธิพล (Influencer Marketing) การโฆษณาผ่าน Facebook (Facebook Ads) การตลาดผ่านโซเชียลมีเดีย (Social Media Marketing) การบริหารความสัมพันธ์ลูกค้า (CRM) การตลาดเนื้อหา (Content Marketing) การตลาดผ่านอีเมล (Email Marketing) การตลาดผ่านเครื่องมือค้นหา (SEO Marketing) และการโฆษณาแบบจ่ายต่อคลิก (PPC Advertising) (Rocket, 2024) การทำความเข้าใจแนวคิดและกลยุทธ์เหล่านี้มีความสำคัญอย่างยิ่งต่อการพัฒนาศักยภาพผลิตภัณฑ์และการตลาดของการท่องเที่ยวสายมูเตลูในพื้นที่เป้าหมาย

กรอบแนวคิดการวิจัย

ภาพที่ 1 กรอบแนวคิดการวิจัย

วิธีดำเนินการวิจัย

การวิจัยครั้งนี้เป็นการวิจัยแบบผสมผสาน (Mixed Methods Research) โดยใช้ทั้งวิธีการวิจัยเชิงปริมาณ (Quantitative Research) และการวิจัยเชิงคุณภาพ (Qualitative Research) เพื่อให้ได้ข้อมูลที่ครอบคลุมและรอบด้านในการศึกษาสภาพทั่วไปและประเมินศักยภาพด้านผลิตภัณฑ์และการตลาดในการจัดการท่องเที่ยวสายมูเตลูในพื้นที่ตำบลภูเขาทอง อำเภอสุคิริน จังหวัดนราธิวาส โดยมีรายละเอียดดังนี้

1. การวิจัยเชิงปริมาณ การดำเนินการวิจัยเชิงปริมาณ มีขั้นตอนดังนี้

ประชากรและกลุ่มตัวอย่าง ประชากรที่ใช้ในการวิจัย คือ ประชาชนและนักท่องเที่ยวที่เดินทางมาในงานประเพณีบุญบั้งไฟและงานฉลองสมโภชน์องค์เจ้าแม่โต๊ะโมะ ณ ศาลเจ้าโต๊ะโมะ ในพื้นที่ตำบลภูเขาทอง อำเภอสุคิริน จังหวัดนราธิวาส การกำหนดขนาดกลุ่มตัวอย่างใช้วิธีการคำนวณจากสูตรของคอแครน (Cochran, 1977) สำหรับกรณีที่ไม่ทราบจำนวนประชากรที่แน่นอน ที่ระดับความเชื่อมั่น 95% ได้ขนาดกลุ่มตัวอย่างอย่างน้อย 385 คน อย่างไรก็ตาม เพื่อให้ข้อมูลมีความน่าเชื่อถือมากยิ่งขึ้น ผู้วิจัยได้เก็บรวบรวมข้อมูลจากกลุ่มตัวอย่างทั้งสิ้น 400 คน สำหรับการสุ่มตัวอย่าง ผู้วิจัยใช้วิธีการสุ่มตัวอย่างอย่างง่าย (Simple Random Sampling) โดยกำหนดสัดส่วนของประชาชนในแต่ละหมู่บ้านและนักท่องเที่ยวที่เข้าร่วมงานดังกล่าว

เครื่องมือที่ใช้ในการวิจัย เครื่องมือที่ใช้คือแบบสอบถาม (Questionnaire) เกี่ยวกับการประเมินศักยภาพผลิตภัณฑ์สายมูในด้านเรื่องราวหรือตำนานเกี่ยวกับสิ่งศักดิ์สิทธิ์ และด้านการตลาดของผลิตภัณฑ์สายมู ลักษณะแบบสอบถามเป็นแบบมาตราส่วนประมาณค่า (Rating Scale) 5 ระดับ ตามแนวคิดของชูศรี วงศ์รัตนะ (2553 อ้างถึงใน เจตน์สฤษฎ์ สังขพันธ์, 2563) โดยแบ่งออกเป็น 2 ด้านหลัก ได้แก่ ด้านที่ 1 ศักยภาพด้านผลิตภัณฑ์ตามความเชื่อสายมู และด้านที่ 2 ศักยภาพด้านการตลาดของผลิตภัณฑ์สายมู เกณฑ์การให้คะแนนและความหมายมีดังนี้: 5 คะแนน (มากที่สุด) 4 คะแนน (มาก) 3 คะแนน (ปานกลาง) 2 คะแนน (น้อย) และ 1 คะแนน (น้อยที่สุด) ส่วนเกณฑ์การแปลความหมายค่าเฉลี่ยเป็นดังนี้: 4.50 - 5.00 หมายถึง มีศักยภาพความพร้อมระดับมากที่สุด, 3.50 - 4.49 หมายถึง มีศักยภาพความพร้อมระดับมาก, 2.50 - 3.49 หมายถึง มีศักยภาพความพร้อมระดับปานกลาง, 1.50 - 2.49 หมายถึง มีศักยภาพความพร้อมระดับน้อย และ 1.00 - 1.49 หมายถึง มีศักยภาพความพร้อมระดับน้อยที่สุด (ชูศรี วงศ์รัตนะ, 2553 อ้างถึงใน เจตน์สฤษฎ์ สังขพันธ์, 2563)

การตรวจสอบคุณภาพเครื่องมือ แบบสอบถามได้รับการตรวจสอบความตรงเชิงเนื้อหา (Content Validity) จากผู้ทรงคุณวุฒิ 3 ท่าน โดยมีค่าดัชนีความสอดคล้อง (IOC) ตั้งแต่ .67 ขึ้นไป ซึ่งถือว่าผ่านเกณฑ์ (บุญชม ศรีสะอาด, 2554) จากนั้นนำไปทดลองใช้ (Try-out) กับประชาชนและนักท่องเที่ยวที่ไม่ใช่กลุ่มตัวอย่าง จำนวน 30 คน เพื่อหาค่าความเชื่อมั่น (Reliability) ด้วยสูตรสัมประสิทธิ์อัลฟาของครอนบัค (Cronbach's Alpha Coefficient) ผลการตรวจสอบ พบว่า ค่าความเชื่อมั่นของแบบสอบถามทั้งฉบับเท่ากับ .86 โดยด้านที่ 1 ผลิตภัณฑ์ตามความเชื่อสายมู มีค่าความเชื่อมั่น .87 และด้านที่ 2 การตลาดของผลิตภัณฑ์สายมู มีค่าความเชื่อมั่น .85 ซึ่งทุกค่าสูงกว่าเกณฑ์ .70 (Cronbach, 1990) แสดงว่าแบบสอบถามมีความน่าเชื่อถือ

การเก็บรวบรวมข้อมูล ผู้วิจัยดำเนินการเก็บข้อมูลด้วยตนเองโดยใช้แบบสอบถามกับกลุ่มตัวอย่างที่เป็นประชาชนจากทั้ง 8 หมู่บ้าน และนักท่องเที่ยวที่มาในงานฉลองสมโภชน์องค์เจ้าแม่โต๊ะโมะและงานประเพณีบุญบั้งไฟ จำนวน 400 ชุด

การวิเคราะห์ข้อมูล ข้อมูลเชิงปริมาณที่ได้จากแบบสอบถามจะถูกตรวจสอบความสมบูรณ์ จากนั้นนำมาวิเคราะห์โดยใช้สถิติเชิงพรรณนา (Descriptive Statistics) ได้แก่ ค่าเฉลี่ย (Mean) และส่วนเบี่ยงเบนมาตรฐาน (Standard Deviation) ผลการวิเคราะห์จะนำเสนอในรูปแบบตารางประกอบคำอธิบาย

2. การวิจัยเชิงคุณภาพ การดำเนินการวิจัยเชิงคุณภาพมีขั้นตอนดังนี้

ผู้ให้ข้อมูลสำคัญ กลุ่มผู้ให้ข้อมูลสำคัญ ประกอบด้วย บุคคลที่เกี่ยวข้องกับผลิตภัณฑ์สินค้าที่ระลึกและการตลาด จำนวน 17 คน ได้แก่ กลุ่มออนซอนโต๊ะโมะ 3 คน ผู้ดูแลศาลเจ้าโต๊ะโมะ 2 คน กลุ่มผลิตภัณฑ์ชุมชนบ้านภูเขาทอง 3 คน ประชาชนในพื้นที่ 2 คน นักท่องเที่ยวทั่วไป 2 คน นักท่องเที่ยวสายมู 3 คน และหน่วยงานภาครัฐ 2 คน การเลือกผู้ให้ข้อมูลใช้วิธีการสัมภาษณ์จนกว่าข้อมูลจะอิ่มตัว (ประไพพิมพ์ สุธีวสินนนท์ และประสพชัย พสุนนท์, 2559)

เครื่องมือที่ใช้ในการวิจัย เครื่องมือหลักคือแบบสัมภาษณ์แบบเจาะลึก (In-depth Interview) ซึ่งมีโครงสร้างคำถามที่มุ่งเน้นความคิดเห็นเกี่ยวกับสภาพทั่วไปของผลิตภัณฑ์ในปัจจุบัน ความพร้อมในการผลิตสินค้า และการตลาดในแหล่งท่องเที่ยวของตำบลภูเขาทอง นอกจากนี้ยังใช้การสังเกตแบบไม่มีส่วนร่วม (Non-participant Observation) เพื่อสังเกตกิจกรรมการจัดทำผลิตภัณฑ์ สินค้าที่ระลึก และการตลาดในพื้นที่ศึกษา

การเก็บรวบรวมข้อมูล ผู้วิจัยเก็บรวบรวมข้อมูลโดยการสัมภาษณ์แบบเจาะลึกผู้ให้ข้อมูลสำคัญทั้ง 17 คนจนกระทั่งข้อมูลอิ่มตัว ควบคู่ไปกับการสังเกตการณ์กิจกรรมการทำผลิตภัณฑ์และการตลาดในพื้นที่ศึกษา

การวิเคราะห์ข้อมูล ข้อมูลเชิงคุณภาพที่ได้จะนำมาวิเคราะห์โดยการจำแนกหมวดหมู่ตามประเด็นที่ศึกษา ทำการตีความ สร้างข้อสรุป และวิเคราะห์เชิงเนื้อหา (Content Analysis) จากนั้นนำเสนอผลการวิเคราะห์ในรูปแบบพรรณนาวิเคราะห์

ผลการวิจัย

การวิจัยนี้ได้ค้นพบข้อมูลสำคัญเกี่ยวกับศักยภาพด้านผลิตภัณฑ์และการตลาดในการจัดการท่องเที่ยวสายมูเตลู ณ ตำบลภูเขาทอง อำเภอสุคิริน จังหวัดนราธิวาส โดยแบ่งผลการวิจัยออกเป็นสองส่วนหลักดังนี้

1. สภาพทั่วไปของผลิตภัณฑ์สายมูและการตลาดในปัจจุบันของพื้นที่ตำบลภูเขาทอง

จากการศึกษาพบว่า ผลิตภัณฑ์สินค้าที่ระลึกสายมูในพื้นที่ตำบลภูเขาทองมีความหลากหลายและมีเอกลักษณ์เฉพาะถิ่น ดังนี้

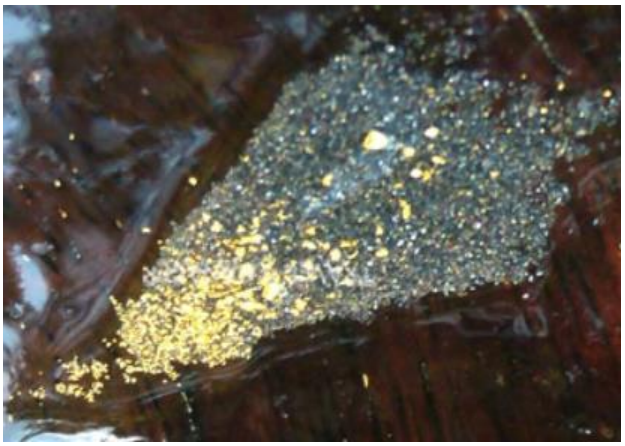
1.1 รูปหล่อองค์เจ้าแม่โต๊ะโมะ เจ้าแม่โต๊ะโมะมีตำนานความศักดิ์สิทธิ์ที่เล่าขานมายาวนาน ทำให้เป็นที่สนใจและศรัทธาของผู้คน วัตถุมงคลมีหลายรูปแบบ ตอบสนองความต้องการที่หลากหลายของผู้บูชา โดยผลิตภัณฑ์บางส่วนมีการใช้วัสดุและงานฝีมือท้องถิ่น สะท้อนเอกลักษณ์ชุมชน และแต่ละรุ่นมีจำนวนจำกัด อย่างไรก็ตาม การออกแบบบางชนิดยังดูเรียบง่ายและขาดความดึงดูดใจ จึงควรพัฒนาให้สวยงาม ทันสมัย และตรงใจนักท่องเที่ยวมากขึ้น รวมถึงการพัฒนาบรรจุภัณฑ์ การสร้างแบรนด์ และปรับปรุงระบบโลจิสติกส์ อุปสรรคสำคัญ คือ การแข่งขันจากวัตถุมงคลอื่น ๆ และการเข้าถึงกลุ่มผู้ที่ไม่ศรัทธาในไสยศาสตร์ ช่องทางการตลาดปัจจุบันจำกัดอยู่เพียงเพจเฟซบุ๊ก การจำหน่าย ณ ศาลเจ้า และการบอกต่อ ควรพัฒนาช่องทางออนไลน์ให้มีประสิทธิภาพยิ่งขึ้น ขยายไปยังแพลตฟอร์มอีคอมเมิร์ซ และเข้าร่วมงานแสดงสินค้าเพื่อขยายฐานลูกค้า (สังวาล ชัยโครต, สัมภาษณ์วันที่ 22 มิถุนายน 2567; ยองใย

ด่านวันดี, สัมภาษณ์วันที่ 30 มีนาคม 2567; และชินแสวิโรจน์ ปริธัญ (เก่ง), สัมภาษณ์วันที่ 23 กรกฎาคม 2567)

ภาพที่ 2 เจ้าแม่โต๊ะโมะ ต้นแบบองค์ 300 ปี รุ่นประวัติศาสตร์ เนื้อทองคำแท้
ที่มา: ศาลเจ้าแม่โต๊ะโมะ วันที่ 22 มิถุนายน 2567

1.2 พิณหัวนกเงือก เป็นผลิตภัณฑ์ที่มีเอกลักษณ์เฉพาะถิ่น โดยนกเงือกเป็นสัญลักษณ์ของความอุดมสมบูรณ์และความร่ำรวย ผลิตภัณฑ์นี้ผสมผสานงานฝีมือ ภูมิปัญญาท้องถิ่น และความเชื่อ สามารถใช้เป็นเครื่องดนตรี ของตกแต่งบ้าน หรือของสะสมได้ การผลิตต้องใช้ทักษะสูง วัตถุดิบบางชนิดหายาก ทำให้ราคาสูง และการตลาดยังไม่เป็นระบบ สินค้ายังไม่เป็นที่รู้จักในวงกว้าง แนวทางการพัฒนา คือ การสร้างความหลากหลายของรูปแบบผลิตภัณฑ์ เช่น ขนาดต่างๆ แบบตั้งโต๊ะ แบบแขวนผนัง ลวดลายที่แตกต่างกัน รวมถึงการพัฒนาบรรจุภัณฑ์และสร้างแบรนด์ (ฉันทิสุทธ์ แก้วคง, สัมภาษณ์วันที่ 12 สิงหาคม 2567; สัณฐิติสุข แก้วคง, สัมภาษณ์วันที่ 12 สิงหาคม 2567; นฤพนธ์ โยงปราง, สัมภาษณ์วันที่ 12 สิงหาคม 2567) ปัจจุบันการตลาดอาศัยการจำหน่ายที่บ้าน ฝากขายในงานแสดงสินค้า และการบอกต่อ ควรมีการโฆษณาผ่านสื่อต่าง ๆ และพัฒนาช่องทางขายออนไลน์ (ไพทูรย์ แสงงาม, สัมภาษณ์วันที่ 20 พฤษภาคม 2567 และอัมพร ฤทธิ์ชารี, สัมภาษณ์วันที่ 20 พฤษภาคม 2567)

ภาพที่ 3 พิณหัวนกเงือก



1.3 พวงกุญแจเลียงร่อนทอง ผลิตภัณฑ์สายมูนี้สื่อถึงการร่อนสิ่งดีๆ และโชคลาภมาให้ผู้ครอบครอง เป็นสินค้าที่สะท้อนภูมิปัญญา เอกลักษณ์ท้องถิ่น งานฝีมือ และวิถีการร่อนทองดั้งเดิมของชาวสุคิริน สามารถใช้เป็นของใช้ประจำวัน ของสะสม หรือของขวัญ โดยมีกลุ่มเป้าหมาย คือ สายมูเตลู ผู้ชื่นชอบงานฝีมือ และนักสะสม ทั้งยังช่วยสร้างรายได้เสริมให้ชาวบ้าน มีทั้งเลียงขนาดใหญ่สำหรับ

ร่อนทองจริง และขนาดเล็กสำหรับทำพวงกุญแจ ราคาประมาณ 50 - 200 บาท ขึ้นอยู่กับขนาด วัสดุ (เช่น ไม้พยอม ไม้ตะเคียนทอง หรือโลหะ) และลวดลาย การผลิตต้องใช้เวลาและทักษะ วัตถุดิบบางชนิดหายาก และการตลาดยังไม่เป็นระบบ ควรพัฒนาสินค้าให้หลากหลายรูปแบบยิ่งขึ้น (จุฑามาศ นิสัยค้า, สัมภาษณ์วันที่ 15 มิถุนายน 2567; อำนวย ทะขุ่ย, สัมภาษณ์วันที่ 15 มิถุนายน 2567; และปาน อังคณา สัมภาษณ์วันที่ 15 มิถุนายน 2567) ช่องทางการตลาดปัจจุบันจำกัดอยู่ที่การรับซื้อหน้าร้าน การบอกต่อ และจำหน่ายที่กลุ่มออนซอนโต๊ะโมะ รวมถึงงานแสดงสินค้า ควรพัฒนาช่องทางการจัดจำหน่ายและโฆษณาผ่านสื่อออนไลน์ (Facebook, Line) และขยายการขายไปยังร้านค้าต่าง ๆ (วารินทร์ ศรีสมบัติ, สัมภาษณ์วันที่ 16 มิถุนายน 2567; จิรศักดิ์ โมรานอก, สัมภาษณ์วันที่ 16 มิถุนายน 2567; และฐิตาภา สายยศ, สัมภาษณ์วันที่ 16 มิถุนายน 2567)

ภาพที่ 4 พวงกุญแจเลียงร่อนทอง

1.4 แร่ทองคำ นักท่องเที่ยวสามารถเข้าร่วมกิจกรรมร่อนทองในแม่น้ำลำคลองพื้นที่ตำบลภูเขาทอง ซึ่งมีต้นน้ำผ่านเหมืองแร่ทองคำ และนำทองที่ร่อนได้ไปจำหน่ายหรือแปรรูปเป็นเครื่องประดับ วัตถุมงคล หรือของตกแต่งบ้าน กลุ่มลูกค้าเป้าหมาย คือ นักท่องเที่ยวสายมู ผู้ชื่นชอบเครื่องประดับ และนักสะสม อย่างไรก็ตาม แหล่งทองคำมีจำกัด ขึ้นกับฤดูกาล กระบวนการร่อนใช้เวลานาน ต้องอาศัยทักษะ ราคาผันผวนตามกลไกตลาด และการตลาดยังไม่เป็นระบบ ควรมีการออกแบบกิจกรรมร่อนทองให้นักท่องเที่ยวได้มีประสบการณ์ตรง และพัฒนาผลิตภัณฑ์จากทองคำให้หลากหลาย เช่น เครื่องประดับ วัตถุมงคล ของตกแต่งบ้าน หรือส่วนผสมในเครื่องสำอาง ควบคู่กับการพัฒนาบรรจุภัณฑ์ รักษามาตรฐาน และคุณค่าทางวัฒนธรรม (โสภา โยงปราง, สัมภาษณ์วันที่ 28 มีนาคม 2567; พัฒนา จำปาเรียง, สัมภาษณ์วันที่ 28 มีนาคม 2567; และบัวตอง กองแก้ว, สัมภาษณ์วันที่ 28 มีนาคม 2567) การตลาดปัจจุบันยังจำกัด โดยเป็นการรับซื้อขายหน้าร้านและการบอกต่อ จึงควรพัฒนาช่องทางการสื่อสารและการจัดจำหน่ายผ่านสื่อออนไลน์และขยายไปยังร้านค้าต่าง ๆ (นิอามาน บินนิมุ, สัมภาษณ์วันที่ 30 มีนาคม 2567 และพัน ตั้งอยู่, สัมภาษณ์วันที่ 30 มีนาคม 2567)

ภาพที่ 5 ทองที่ร่อนได้จากแม่น้ำ

2. การประเมินศักยภาพผลิตภัณฑ์สายมูและการตลาด

จากการเก็บข้อมูลด้วยแบบสอบถาม จำนวน 400 ชุด เพื่อประเมินศักยภาพและความพร้อมของผลิตภัณฑ์สายมูและการตลาด พบผลดังแสดงตารางที่ 1 - 2 ดังนี้

ตารางที่ 1 ศักยภาพผลิตภัณฑ์สายมู

รายการประเมินศักยภาพผลิตภัณฑ์สายมู	$\overline{X}$	S.D.	ระดับศักยภาพ
1. รูปแบบ สีสันของผลิตภัณฑ์สายมู	3.27	.62	ปานกลาง
2. ด้านเรื่องเล่าหรือตำนานเกี่ยวกับสิ่งศักดิ์สิทธิ์ของผลิตภัณฑ์	3.42	.69	ปานกลาง
3. ด้านบรรจุภัณฑ์สายมู	3.34	.76	ปานกลาง
รวม	**3.43**	**.74**	**ปานกลาง**

จากตารางที่ 1 พบว่า ภาพรวมศักยภาพผลิตภัณฑ์สายมูอยู่ในระดับปานกลาง (ค่าเฉลี่ย $\overline{X}$ = 3.43, ส่วนเบี่ยงเบนมาตรฐาน S.D. = .74) เมื่อพิจารณารายด้าน พบว่า ด้านที่มีศักยภาพสูงที่สุด คือ ด้านเรื่องราวหรือตำนานเกี่ยวกับสิ่งศักดิ์สิทธิ์ของผลิตภัณฑ์ ซึ่งอยู่ในระดับปานกลาง ($\overline{X}$ = 3.42, S.D. = .69) รองลงมา คือ ด้านบรรจุภัณฑ์สายมู อยู่ในระดับปานกลาง ($\overline{X}$ = 3.34, S.D. = .76) และด้านรูปแบบสีสันของผลิตภัณฑ์สายมู อยู่ในระดับปานกลาง ($\overline{X}$ = 3.27, S.D. = .62) และเมื่อพิจารณารายข้อ พบว่า ข้อที่ผลิตภัณฑ์สายมูมีศักยภาพสูงที่สุด คือ มีเรื่องเล่าของผลิตภัณฑ์เป็นตำนานของท้องถิ่นและพัฒนาตามความเชื่อสายมูเพิ่มเติม อยู่ในระดับปานกลาง ($\overline{X}$ = 3.47, S.D. = .74) รองลงมา คือ บรรจุภัณฑ์แบบสมัยใหม่ดึงดูดใจ กระตุ้นยอดขายสินค้าที่ระลึกสายมู อยู่ในระดับปานกลาง ($\overline{X}$ = 3.44, S.D. = .74) ตามมาด้วยรูปแบบ สีสันของผลิตภัณฑ์มีความหมายที่ดีในด้านโชคลาภ เสริมพลังบวกเชื่อมโยงกับผลิตภัณฑ์ และผลิตภัณฑ์มีเรื่องเล่าพร้อมทั้งวิธีการนำเสนอ เช่น มีเอกสารหรือคำอธิบายประกอบเกี่ยวกับสิ่งศักดิ์สิทธิ์ของผลิตภัณฑ์ ซึ่งอยู่ในระดับปานกลางเช่นกัน (ทั้งสองข้อมีค่า $\overline{X}$ = 3.43, S.D. = .69)

ตารางที่ 2 ศักยภาพด้านการตลาดของผลิตภัณฑ์สายมู

รายการประเมินศักยภาพการตลาดของผลิตภัณฑ์สายมู	$\overline{X}$	S.D.	ระดับศักยภาพ
1. ด้านการโฆษณา	3.38	.74	ปานกลาง
2. ส่งเสริมการขาย	3.34	.56	ปานกลาง
3. การจัดกิจกรรมพิเศษและสร้างประสบการณ์	3.51	.81	มาก
4. การประชาสัมพันธ์และการเผยแพร่สู่สาธารณะ	3.33	.730	ปานกลาง
5. การตลาดออนไลน์และสื่อสังคมออนไลน์	3.42	.69	ปานกลาง
6. การตลาดทางตรงและฐานข้อมูล	3.21	.57	ปานกลาง
รวม	**3.44**	**.60**	**ปานกลาง**

จากตารางที่ 2 พบว่า ภาพรวมศักยภาพการตลาดของผลิตภัณฑ์สายมูอยู่ในระดับปานกลาง ($\overline{X}$ = 3.44, S.D. = .60) เมื่อพิจารณารายด้าน พบว่า ด้านที่มีศักยภาพสูงที่สุด คือ ด้านการจัดกิจกรรมพิเศษและสร้างประสบการณ์ อยู่ในระดับปานกลาง ($\overline{X}$ = 3.51, S.D. = .81) รองลงมา คือ การตลาดออนไลน์และสื่อสังคมออนไลน์ อยู่ในระดับปานกลาง ($\overline{X}$ = 3.42, S.D. = .69) และด้านการโฆษณาอยู่ในระดับปานกลาง ($\overline{X}$ = 3.38, S.D. = .74) และเมื่อพิจารณารายข้อ พบว่า ข้อที่การตลาดของผลิตภัณฑ์สายมูมีศักยภาพสูงที่สุด คือ การจัดกิจกรรมพิเศษ เช่น การแสดง กิจกรรมบันเทิง ทำให้เกิดความสนใจและตัดสินใจซื้อผลิตภัณฑ์ อยู่ในระดับปานกลาง ($\overline{X}$ = 3.55, S.D. = .79) รองลงมา คือ การจัดกิจกรรมพิเศษช่วยให้ลูกค้ามีส่วนร่วมในกิจกรรมและตัดสินใจซื้อผลิตภัณฑ์สายมู อยู่ในระดับปานกลาง ($\overline{X}$ = 3.51, S.D. = .86) ตามมาด้วยการจัดกิจกรรมพิเศษในเทศกาลประจำปีหรืองานประเพณีต่าง ๆ ช่วยในการตัดสินใจซื้อผลิตภัณฑ์สายมู อยู่ในระดับปานกลาง ($\overline{X}$ = 3.47, S.D. = .84) และการใช้วีดีโอออนไลน์กับข่าวสารหรือผลิตภัณฑ์สายมู เช่น YouTube ช่วยให้เข้าถึงลูกค้า อยู่ในระดับปานกลาง ($\overline{X}$ = 3.45, S.D. = .73)

สรุปและอภิปรายผล

จากการศึกษาสภาพทั่วไปและประเมินศักยภาพด้านผลิตภัณฑ์และการตลาดในการจัดการท่องเที่ยวสายมูเตลู ตำบลภูเขาทอง อำเภอสุคิริน จังหวัดนราธิวาส สามารถสรุปและอภิปรายผลการวิจัยได้ดังนี้

1. สภาพทั่วไปของผลิตภัณฑ์สายมูและการตลาดในปัจจุบันของพื้นที่ตำบลภูเขาทอง พบว่า ผลิตภัณฑ์สายมูของชุมชนมีความหลากหลาย มีเอกลักษณ์ที่โดดเด่น แสดงถึงภูมิปัญญา วัฒนธรรม และความเชื่อของท้องถิ่น ทั้งยังมีคุณภาพที่สามารถตอบโจทย์ความต้องการของนักท่องเที่ยวได้ ลักษณะเช่นนี้มีปัจจัยส่วนหนึ่งมาจากการที่ชาวบ้านในตำบลภูเขาทองจำนวนมากอพยพมาจากภาคอีสาน ทำให้มีอัตลักษณ์ ภูมิปัญญา และวัฒนธรรมในการสร้างสรรค์ผลิตภัณฑ์ที่เชื่อมโยงกับภูมิลำเนาเดิม เช่น การทำพิณหัวนกเงือก ซึ่งเป็นสัญลักษณ์ของความอุดมสมบูรณ์และความมั่งมีศรีสุข และการทำพวงกุญแจเลียงที่ใช้ร่อนทอง ซึ่งเป็นการผสมผสานวัฒนธรรมของชุมชนในพื้นที่ภาคใต้เข้ากับความเชื่อเรื่องโชคดีจากการได้ทองคำ ผลการค้นพบนี้สอดคล้องกับงานศึกษาของอัจจิมา ศุภจริยาวัตร (2565) และงานวิจัยของมาโนชย์ นวลสระ และคณะ (2564) ที่ได้เน้นย้ำถึงความสำคัญของการสร้างผู้ประกอบการให้มีความรู้ความเข้าใจในการพัฒนาผลิตภัณฑ์ให้ตรงตามความต้องการของลูกค้า ควบคู่ไปกับการรักษาอัตลักษณ์ของท้องถิ่นและการสร้างมาตรฐานให้แก่สินค้า โดยเฉพาะสินค้าชุมชน

ในด้านการตลาด พบว่า ช่องทางหลักที่ใช้ในปัจจุบันคือ เพจเฟซบุ๊ก (Facebook Page) กลุ่มไลน์ (Line group) และการบอกต่อปากต่อปาก ซึ่งยังมีประสิทธิภาพที่จำกัด จึงมีความจำเป็นอย่างยิ่งที่จะต้องขยายช่องทางการตลาดไปยังแพลตฟอร์มออนไลน์อื่น ๆ เช่น เว็บไซต์ ร้านค้าออนไลน์ และโซเชียลมีเดีย รวมถึงการเปิดตลาดนัดชุมชนหรือร้านค้าชุมชนเพื่ออำนวยความสะดวกให้นักท่องเที่ยวสามารถเข้าถึงและซื้อผลิตภัณฑ์ได้ง่ายขึ้น นอกจากนี้ ควรนำสินค้าไปจำหน่ายนอกพื้นที่ เช่น ตามสถานที่ท่องเที่ยว โรงแรม หรือซูเปอร์มาร์เก็ต เนื่องจากพื้นที่ตั้งของแหล่งท่องเที่ยวอาจอยู่ห่างไกลจากความเจริญและยังไม่เป็นที่รู้จักในวงกว้าง การขยายช่องทางการตลาดจะช่วยประชาสัมพันธ์ผลิตภัณฑ์และการท่องเที่ยวให้เป็นที่รู้จักมากขึ้น แนวทางดังกล่าวสอดคล้องกับงานศึกษาของจรัลศรี โนมี, วรีวรรณ เจริญรูป และจิตรานุช ชัยนันท์ (2562) ที่ชี้ให้เห็นว่าการพัฒนาผลิตภัณฑ์และช่องทางการตลาดควรดำเนินการตามแนวคิดส่วนประสมทางการตลาด และควรนำภูมิปัญญาท้องถิ่นรวมถึงเทคโนโลยีที่เหมาะสมมาประยุกต์ใช้เพื่อเพิ่มมูลค่าทางการตลาด

2. ศักยภาพของผลิตภัณฑ์สายมู โดยภาพรวมพบว่าอยู่ในระดับปานกลาง เมื่อพิจารณาในรายด้าน พบว่า ด้านที่มีศักยภาพสูงที่สุด คือ ด้านเรื่องราวหรือตำนานเกี่ยวกับสิ่งศักดิ์สิทธิ์ของผลิตภัณฑ์ รองลงมา คือ ด้านบรรจุภัณฑ์สายมู และด้านรูปแบบ สีสันของผลิตภัณฑ์สายมู ตามลำดับ ซึ่งทั้งหมดนี้อยู่ในระดับปานกลางเช่นกัน เมื่อวิเคราะห์เป็นรายข้อ พบว่า ข้อที่ผลิตภัณฑ์สายมูมีศักยภาพสูงที่สุด คือ การมีเรื่องเล่าของผลิตภัณฑ์ที่เป็นตำนานท้องถิ่นและมีการพัฒนาเพิ่มเติมตามความเชื่อสายมู รวมถึงบรรจุภัณฑ์ที่มีรูปแบบทันสมัย สามารถดึงดูดใจและกระตุ้นยอดขายสินค้าที่ระลึกสายมูได้ รองลงมา คือ รูปแบบและสีสันของผลิตภัณฑ์ที่มีความหมายที่ดีในด้านโชคลาภและการเสริมพลังบวกที่เชื่อมโยงกับผลิตภัณฑ์ และการมีเรื่องเล่าพร้อมวิธีการนำเสนอ เช่น เอกสารหรือคำอธิบายประกอบเกี่ยวกับความศักดิ์สิทธิ์ของผลิตภัณฑ์ ซึ่งทั้งหมดนี้ยังคงอยู่ในระดับปานกลาง การที่ศักยภาพของผลิตภัณฑ์โดยภาพรวมและในรายละเอียดยังอยู่ในระดับปานกลางนั้น อาจเนื่องมาจากแม้ว่าชุมชนในพื้นที่ตำบลภูเขาทองจะมีแหล่งท่องเที่ยวที่เชื่อมโยงกับสิ่งศักดิ์สิทธิ์และความเชื่อด้านโชคลาภและไสยศาสตร์ แต่การผลิตสินค้าที่ระลึกยังขาดความหลากหลายในรูปแบบและประโยชน์ใช้สอย แนวทางการเพิ่มศักยภาพจึงควรเน้นกระบวนการมีส่วนร่วมของชุมชนในการออกแบบผลิตภัณฑ์ให้ตรงตามความต้องการของนักท่องเที่ยวสายมู โดยให้ความสำคัญกับการสร้างเรื่องราว (Storytelling) และการทำให้วัตถุสิ่งของเกิดความศักดิ์สิทธิ์ ซึ่งสอดคล้องกับงานศึกษาของศิริวรรณ สิทธิกา (2566) ที่ชี้ให้เห็นถึงการนำความเชื่อในสิ่งศักดิ์สิทธิ์มาสร้างรายได้และผลกำไร ทั้งในภาคการท่องเที่ยว สินค้า และบริการ รวมถึงการนำศาสตร์แห่งความเชื่อมาวางแผนกลยุทธ์ทางการตลาดและการประชาสัมพันธ์ เพื่อทำให้วัตถุกลายเป็นสิ่งศักดิ์สิทธิ์ เช่น วัตถุเสริมดวง สีเสื้อมงคล หรือเครื่องรางนำโชค

ศักยภาพการตลาดของผลิตภัณฑ์สายมู โดยภาพรวม พบว่า อยู่ในระดับปานกลางเช่นกัน เมื่อพิจารณารายด้าน พบว่า ด้านที่มีศักยภาพสูงที่สุด คือ ด้านการจัดกิจกรรมพิเศษและการสร้างประสบการณ์ รองลงมา คือ ด้านการตลาดออนไลน์และสื่อสังคมออนไลน์ และด้านการโฆษณา ซึ่งทั้งหมดนี้ยังคงอยู่ในระดับปานกลาง เมื่อวิเคราะห์เป็นรายข้อ พบว่า ข้อที่การตลาดของผลิตภัณฑ์สายมูมีศักยภาพสูงที่สุด คือ การจัดกิจกรรมพิเศษ เช่น การแสดง หรือกิจกรรมบันเทิง ที่สามารถสร้างความสนใจและนำไปสู่การตัดสินใจซื้อผลิตภัณฑ์ รองลงมา คือ การจัดกิจกรรมที่เปิดโอกาสให้ลูกค้ามีส่วนร่วมและตัดสินใจซื้อผลิตภัณฑ์สายมู การจัดกิจกรรมพิเศษในเทศกาลประจำปีหรืองานประเพณีต่าง ๆ เพื่อกระตุ้นการตัดสินใจซื้อ และการใช้วิดีโอออนไลน์ผ่านแพลตฟอร์มอย่าง YouTube เพื่อนำเสนอข่าวสาร

หรือผลิตภัณฑ์สายมูให้เข้าถึงลูกค้าได้มากขึ้น ทั้งหมดนี้ก็ยังคงอยู่ในระดับปานกลาง สาเหตุที่ผลการวิจัยปรากฏเช่นนี้ อาจเนื่องมาจากข้อจำกัดทางกายภาพของพื้นที่ตำบลภูเขาทองที่ไม่ได้เป็นเส้นทางผ่านหลัก ทำให้การสร้างช่องทางการตลาดที่หลากหลายเป็นเรื่องท้าทาย ผลการศึกษานี้สอดคล้องกับข้อเสนอของอัจจิมา ศุภจริยาวัตร (2565) ที่เน้นการกระตุ้นกระบวนการมีส่วนร่วมของชุมชนผ่านการจัดกิจกรรมพิเศษในโอกาสเทศกาลและประเพณี เพื่อส่งเสริมและพัฒนาคุณภาพมาตรฐานผลิตภัณฑ์ชุมชนให้ตรงตามความต้องการของผู้บริโภคและสร้างความพึงพอใจในตัวผลิตภัณฑ์ นอกจากนี้ยังสอดคล้องกับมุมมองของ Hermawan (2021) ที่ว่าการประชาสัมพันธ์และการเพิ่มช่องทางการจัดจำหน่ายผ่านรูปแบบออนไลน์จะช่วยให้นักท่องเที่ยวเข้าถึงผลิตภัณฑ์ได้ง่ายขึ้น

ข้อเสนอแนะ

จากผลการวิจัยเรื่องศักยภาพด้านผลิตภัณฑ์และการตลาดในการจัดการท่องเที่ยวสายมูเตลูตำบลภูเขาทอง อำเภอสุคิริน จังหวัดนราธิวาส ผู้วิจัยมีข้อเสนอแนะเพื่อการพัฒนาและแนวทางการวิจัยในอนาคต ดังนี้

ข้อเสนอแนะจากการวิจัย

เพื่อให้การพัฒนาผลิตภัณฑ์สายมูและการตลาดในพื้นที่ตำบลภูเขาทองเป็นไปอย่างมีประสิทธิภาพและยั่งยืน ควรมีการดำเนินการในประเด็นต่อไปนี้

1. ด้านการผลิต ควรส่งเสริมให้สมาชิกในชุมชนมีการผลิตสินค้าที่ระลึกหรือผลิตภัณฑ์ชุมชนอย่างต่อเนื่อง และสนับสนุนการขยายกำลังการผลิตจากระดับครัวเรือนไปสู่การรวมกลุ่มในรูปแบบวิสาหกิจชุมชน เพื่อสร้างความเข้มแข็งในการผลิตและลดปัญหาการผลิตแบบต่างคนต่างทำ อันจะนำไปสู่การควบคุมคุณภาพและปริมาณการผลิตให้สอดคล้องกับความต้องการของตลาดได้ดียิ่งขึ้น

2. ด้านการพัฒนาผลิตภัณฑ์ การสร้างสรรค์เรื่องราว (Storytelling) ที่เชื่อมโยงกับความเชื่อหรือความศักดิ์สิทธิ์ของผลิตภัณฑ์สายมูเป็นสิ่งสำคัญอย่างยิ่ง เพื่อสร้างความน่าสนใจและดึงดูดนักท่องเที่ยวกลุ่มเป้าหมาย นอกจากนี้ บรรจุภัณฑ์ควรได้รับการพัฒนาอย่างสม่ำเสมอ ให้มีความแปลกใหม่ สวยงาม และสื่อถึงอัตลักษณ์ของผลิตภัณฑ์ เพื่อดึงดูดความสนใจของนักท่องเที่ยวสายมู รวมถึงการพัฒนารูปแบบและสีสันของผลิตภัณฑ์อย่างต่อเนื่องให้มีความหลากหลายและตอบโจทย์ความต้องการที่เปลี่ยนแปลงไป

3. ด้านการตลาด ควรมีการวางกลยุทธ์เพื่อขยายตลาดไปยังต่างประเทศ โดยเฉพาะประเทศมาเลเซียซึ่งมีพรมแดนติดต่อกับพื้นที่ตำบลภูเขาทอง นอกเหนือจากการจำหน่ายภายในจังหวัดและระหว่างจังหวัด การดำเนินการประชาสัมพันธ์เพื่อเจาะตลาดต่างประเทศควรครอบคลุมทั้งในมิติของการท่องเที่ยวและผลิตภัณฑ์สายมู เพื่อสร้างการรับรู้และดึงดูดนักท่องเที่ยวชาวต่างชาติ

ข้อเสนอแนะในการวิจัยครั้งต่อไป

เพื่อให้เกิดองค์ความรู้ที่สามารถนำไปต่อยอดการพัฒนาการท่องเที่ยวสายมูเตลูและผลิตภัณฑ์ชุมชนในพื้นที่ได้อย่างลึกซึ้งยิ่งขึ้น มีประเด็นที่ควรศึกษาเพิ่มเติมดังนี้

1. ควรมีการศึกษาวิจัยเกี่ยวกับแนวทางการเพิ่มศักยภาพในการพัฒนาผลิตภัณฑ์ชุมชน โดยเน้นการเชื่อมโยงกับความเชื่อและศรัทธาในสิ่งศักดิ์สิทธิ์ ผ่านการใช้ตำนานและเรื่องเล่า เพื่อสร้างมูลค่าเพิ่มและส่งเสริมยอดจำหน่ายให้มากขึ้น

2. ควรศึกษาปัจจัยเชิงลึกที่มีผลต่อความสำเร็จและความล้มเหลวของการตลาดผลิตภัณฑ์สายมูในพื้นที่ตำบลภูเขาทอง อำเภอสุคิริน จังหวัดนราธิวาส เพื่อให้เข้าใจถึงกลไกตลาดและสามารถกำหนดกลยุทธ์ทางการตลาดที่เหมาะสมและมีประสิทธิภาพยิ่งขึ้น

บทคัดย่อ

การศึกษาปัจจัยที่ส่งผลต่อการเปลี่ยนแปลงรูปแบบตึกแถว (เตี้ยมฉู่) กรณีศึกษา: เมืองเก่าสงขลาและเมืองเก่าภูเก็ต มีจุดมุ่งหมายเพื่อศึกษาปัจจัยที่ส่งผลต่อการเปลี่ยนแปลงรูปแบบตึกแถวเก่าที่มีคุณค่าทางประวัติศาสตร์บนฐานวัฒนธรรมแต่ละถิ่น การวิจัยนี้ได้ทำการวิเคราะห์ข้อมูล แผนงาน นโยบาย และโครงการจากหน่วยงานที่เกี่ยวข้อง การสำรวจ สัมภาษณ์ เพื่อประเมินความคิดเห็นของหน่วยงานภาครัฐฯ และชุมชนในการร่วมมือกันปฏิบัติงาน จากนั้นจึงทำการวิเคราะห์ปัญหาและปัจจัยในการเปลี่ยนแปลง พร้อมทั้งเสนอมาตรการและวิธีการปฏิบัติที่เหมาะสม ซึ่งสามารถนำไปประยุกต์ใช้กับพื้นที่อื่นได้

จากการวิจัยพบว่า ปัจจัยที่ส่งผลต่อการเปลี่ยนแปลงรูปแบบตึกแถวเตี้ยมฉู่ มีปัจจัยตามบริบทของพื้นที่ วิถีการดำรงชีวิต อายุของอาคาร ผู้คนที่อาศัยอยู่ภายในและภายนอกย่าน กล่าวคือ ในกรณีศึกษาเมืองเก่าสงขลา ลักษณะและสภาพของโครงสร้างมีความเก่าแก่มากกว่าทำให้เกิดการเปลี่ยนแปลงตึกแถวเก่า รวมถึงการเคลื่อนย้ายของผู้คนซึ่งเป็นเจ้าของอาคารไปอยู่ยังถิ่นอื่น การปล่อยทิ้งร้างอาคารโดยไม่มีผู้ดูแล การขาดการสนับสนุนซ่อมแซมอาคารจากหน่วยงานภาครัฐฯ ส่วนกรณีศึกษาเมืองเก่าภูเก็ต ซึ่งมีข้อได้เปรียบในส่วนของอายุอาคารที่น้อยกว่า โครงสร้างอาคารมีความแข็งแรง คงอยู่ไม่ให้ทรุดตัวหรือพังทลายลงไป นอกจากนี้การเป็นเมืองท่องเที่ยวได้รับการส่งเสริมให้เป็นแหล่งท่องเที่ยวทางวัฒนธรรมจะเป็นตัวกระตุ้นในการรักษาคุณค่าของตึกแถวเก่า ตลอดจนความเข้มแข็งของชุมชนซึ่งเป็นกำลังสำคัญที่จะรักษาตึกแถวเก่าได้อย่างยั่งยืน

คำสำคัญ: การเปลี่ยนแปลง, เตี้ยมฉู่ ,เมืองเก่าสงขลา , เมืองเก่าภูเก็ต

Abstract

This study explores the factors influencing the transformation of traditional Sino-Portuguese shophouses, locally known as *"Tiam Chu"*, through case studies in Songkhla Old Town and Phuket Old Town. These historic buildings embody the cultural heritage of each locality and are increasingly facing challenges due to urban and societal changes.

The research aims to identify context-specific factors that contribute to the transformation or deterioration of these architectural assets. Data was collected through policy analysis, review of development plans and projects from relevant agencies, as well as field surveys and interviews with local authorities and community members. The study assessed the levels of cooperation and involvement in heritage conservation, examined key issues affecting change, and proposed practical recommendations that can be adapted to similar heritage contexts.

The findings indicate that the disappearance and alteration of old shophouses in both cities are shaped by contextual factors, including lifestyle changes, building age, and the dynamics of local and surrounding populations. In Songkhla, the older and more fragile structures, combined with the migration of building owners, lack of building caretakers, and limited public sector support for restoration, have led to accelerated transformation. In contrast, Phuket's shophouses, which are structurally newer and more resilient, benefit from being located in a tourism-driven area with cultural conservation efforts actively promoted. The strong community involvement further enhances the sustainable preservation of these heritage buildings.

Keywords: Change, Tiam Chu, Songkhla Old Town, Phuket Old Town

บทนำ

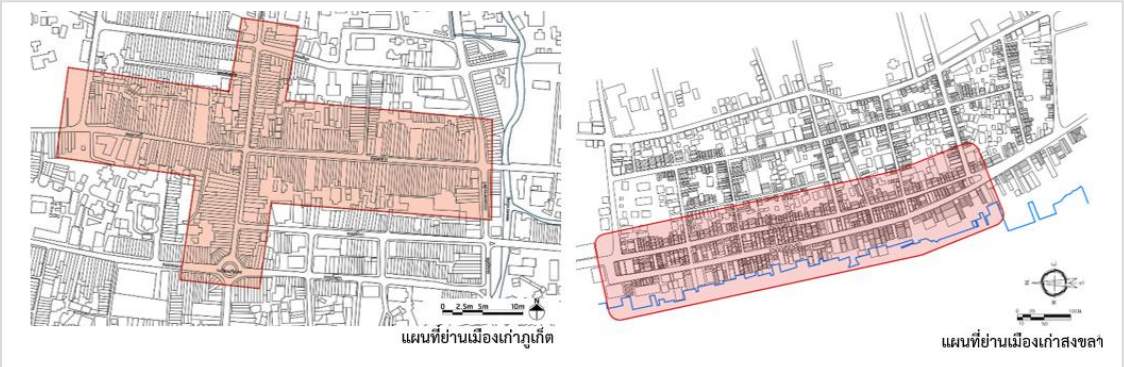
ชาวจีนฮกเกี้ยนที่เข้ามาตั้งรกรากอยู่ในสยามประเทศ ต่อมาได้สร้างบ้านเรือนขึ้นคือตึกแถว หรือเตี้ยมฉู่ ที่ผสมผสานเอาความเป็นศิลปะตะวันออกและตะวันตกเข้าไว้ด้วยกันอย่างกลมกลืน จนเป็นเอกลักษณ์ที่โดดเด่นของตึกแถว เรียกกันว่า ชิโน - โปรตุกีส (Sino - Portuguese) ซึ่งมีต้นแบบมาจากปีนัง สิงคโปร์ หรือบางครั้งก็มักจะเรียกว่ารูปแบบโคโรเนียล (Colonial Style) เป็นอาคารตึกแถวสองชั้นใช้พักอาศัยร่วมกันกับร้านค้าหรือที่เรียกว่าบ้าน - ร้านค้า (Shop - House) มีความลึกที่ใช้เป็นที่เก็บสินค้าและใช้สอยตรงกลางบ้านหรือใจบ้าน มีบ่อน้ำบาดาล หรือ ฉิ่มแจ้ ผนังก่อด้วยอิฐขนาดใหญ่ฉาบปูนหนาเพื่อเป็นฉนวนควบคุมความร้อนและความชื้น หลังคามุงกระเบื้องดินเผาแบบจีน (ณธทัย จันเสน, 2558)

จากการที่ตึกแถวเตี้ยมฉู่ ซึ่งเป็นรากทางประวัติศาสตร์ของกลุ่มชาติพันธุ์ชาวจีนฮกเกี้ยน แต่ตึกแถวเหล่านี้กำลังเปลี่ยนแปลง ถึงแม้ตึกแถวที่สร้างขึ้นจากช่างชาวจีนฮกเกี้ยน จะมีความคล้ายคลึงหรือเหมือนกันก็ตาม แต่การตั้งถิ่นฐานภายใต้บริบทแวดล้อมที่แตกต่างกันย่อมมีการผันแปรตามการเปลี่ยนแปลงในมิติต่าง ๆ กัน อาทิ เศรษฐกิจ วัฒนธรรมสังคม ความเชื่อ และค่านิยม นอกจากนี้เวลาเริ่มต้นของการตั้งถิ่นฐานที่มนุษย์ตั้งขึ้นมีพัฒนาการไม่เท่ากัน เมื่อมีการพัฒนาต่อไปนานเข้าจะเห็นถึงความแตกต่างของแต่ละถิ่นฐานมากขึ้น รวมทั้งขนาดบทบาทหน้าที่ของแต่ละถิ่นฐานที่ตั้งไม่เหมือนกันย่อมทำให้แนวทางการพัฒนาอันเป็นพลวัตต่อไปไม่เหมือนกัน หากแต่เป็นการปรับตัวให้เข้ากับกระแสการพัฒนาที่เกิดขึ้น (ประสงค์ เอี่ยมอนันต์, 2549) ด้วยเรื่องราวความแตกต่างของแต่ละถิ่นฐานและวิถีชีวิตเหล่านี้ จึงเกิดเป็นคำถามในการศึกษาครั้งนี้ว่า ถ้าสภาพการตั้งถิ่นฐานที่แตกต่างกันนั้นตึกแถวเตี้ยมฉู่เหล่านี้จะมีวิถีที่เป็นไป หรือมีการเปลี่ยนแปลงที่แตกต่างกันหรือไม่ มีปัจจัยใดที่ทำให้ตึกแถวเตี๊ยมฉู่เหล่านี้

ปรับตัวให้สอดคล้องกับสภาพแวดล้อม และบริบทวิถีชีวิตที่แตกต่างกันในแต่ละถิ่นได้เพื่อให้ตึกแถวที่มีคุณค่าทางประวัติศาสตร์และสถาปัตยกรรมคงอยู่ได้อย่างยั่งยืน

การศึกษาตึกแถวเตี้ยมฉู่ กรณีศึกษา: เมืองเก่าสงขลาและเมืองเก่าภูเก็ต ผลจากพบว่า มีปัจจัยอะไรบ้างที่ส่งผลต่อการเปลี่ยนแปลงที่มีความแตกต่างกันทางวิถีและสภาพแวดล้อม ตลอดจนข้อเด่นและข้อด้อยของแต่ละถิ่นฐานที่ตั้งอยู่ว่ามีส่วนต่อการเปลี่ยนแปลง โดยผลการศึกษานั้นสามารถนำไปประยุกต์ใช้เป็นแนวทางเพื่อวางแผนยุทธศาสตร์การป้องกันรักษา มรดกวัฒนธรรม สถาปัตยกรรม ให้เป็นอนุสรณ์หรือเครื่องช่วยความทรงจำทางประวัติศาสตร์ การตั้งถิ่นฐานของผู้คนชาวจีนโพ้นทะเลและการพัฒนาท้องถิ่น

วัตถุประสงค์ของการวิจัย



1. ศึกษาลักษณะกายภาพ รูปแบบ และลักษณะตึกแถวเตี้ยมฉู่ กรณีศึกษา เมืองเก่าสงขลา และเมืองเก่าภูเก็ต
2. วิเคราะห์ปัจจัยที่ส่งผลต่อการเปลี่ยนแปลงรูปแบบตึกแถวเตี้ยมฉู่ กรณีศึกษา เมืองเก่าสงขลาและเมืองเก่าภูเก็ต

ขอบเขตการศึกษา

พื้นที่เมืองเก่าสงขลา ประกอบด้วยถนน 3 สาย อันได้แก่ ถนนนครใน เป็นถนนสายการค้าแรกที่เก่าแก่ของย่านเมืองเก่าสงขลา และถนนนครนอก ที่มีพัฒนาการต่อเนื่องกับถนนสายการค้าในเวลาต่อมา และถนนนางงาม

พื้นที่เมืองเก่าภูเก็ต ประกอบด้วยถนน 3 สาย ได้แก่ ถนนถลาง ถนนสายการค้าเก่าแก่สายแรกของย่านเมืองเก่าภูเก็ต ถนนกระบี่และถนนเยาวราช ซึ่งเป็นถนนที่เชื่อมต่อและมีความสัมพันธ์ต่อเนื่อง

โดยพื้นที่ย่านเมืองเก่าทั้งสอง นับเป็นพื้นที่ที่ผู้คนชาวจีนโพ้นทะเล อพยพเดินทางเข้ามาตั้งรกรากฝังตัว และมีวิวัฒนาการปรับตัว การธำรงอยู่ ตามแบบอย่างวิถีชีวิต ประเพณี วัฒนธรรม และการอยู่อาศัย

ภาพที่ 1 แผนที่แสดงย่านเมืองเก่าภูเก็ตและย่านเมืองเก่าสงขลา

แนวคิด ทฤษฎี กรอบแนวคิด

ตึกแถวปรากฏการณ์สิ่งแวดล้อมสรรค์สร้างจากประดิษฐกรรมน้ำมือของมนุษย์บนแผ่นผืนที่ดิน ซึ่งถูกจัดสรรเป็นชิ้นส่วนเล็ก ๆ จัดเรียงติดต่อกันเป็นแถวตามแนวยาวไว้สำหรับเป็นที่พำนักพักพิงและแหล่งที่ทำมาหากิน ซึ่งได้รับความแพร่หลายในช่วงหลายศตวรรษที่ผ่านมา ดังตัวอย่างสถาปัตยกรรมตึกแถวที่ปรากฏพบเห็นในส่วนต่าง ๆ ของโลก ได้แก่ Atrium House ของโรมันโบราณ ซึ่งเป็นบ้านที่หันหน้าเปิดออกสู่ถนน สำหรับร้านค้าหรือ Work Shop ภายใน หรือแม้กระทั่ง Brownstone Rowhouse ในประเทศสหรัฐอเมริกาก่อนปี คศ. 1900 ก็ล้วนจัดเป็นอาคารสำหรับการค้าร่วมกับการพักอาศัยทั้งสิ้น (วีระ สัจกุล, 2526) ทั้งนี้ถึงแม้รูปแบบเปลือกนอกอาคารจะมีความคล้ายคลึง/เหมือนกันก็ตาม หากแต่แตกต่างกันตรงที่การจัดแบ่งพื้นที่และประโยชน์ใช้สอยภายใน ที่สามารถแบ่งออกได้เป็น 3 ลักษณะด้วยกัน ได้แก่ อาคารที่ใช้เป็นที่พักอาศัย อาคารที่ใช้เพื่อประกอบกิจกรรมทางการค้า อาคารที่ใช้เป็นที่พักอาศัยและประกอบกิจกรรมทางการค้าร่วมกัน

สำหรับอาคารในรูปแบบตึกแถวที่เกิดขึ้นในประเทศแถบซีกโลกตะวันออกเฉียงใต้ ตัวอย่างประเทศไทยนั้น เมื่อทบทวนถึงที่มาที่ไปตามเส้นทางการเดินทาง แม้ไม่ปรากฏแห่งหลักฐานที่ใช้อ้างอิงว่าเริ่มต้นกำเนิด ณ เมื่อใดแต่จากศิลาจารึกสมัยสุโขทัยได้มีข้อความบางส่วนกล่าวถึงเมืองสุโขทัยเอาไว้ว่าด้านทิศเหนือนั้นมีตลาดปสาน เข้าใจว่าคำนี้มาจากคำว่า บารร์ซ่า ของเปอร์เซีย คือ มีร้านค้าติดระเบียงทางเดินซึ่งเป็นศูนย์กลางค้าใหญ่ของสุโขทัยในสมัยนั้น (อนุวิทย์ เจริญศุภกุล, 2520) เมื่อนำมาเรียบเรียงร้านค้าที่ติดระเบียงทางเดินก็พอเข้าใจถึงวัฒนธรรมการตั้งถิ่นฐานตามแนวเส้นทางที่ได้อุบัติขึ้น ซึ่งช่างมีความละม้ายคล้ายคลึงกับห้องแถวร้านค้าเป็นอย่างยิ่ง

วิธีดำเนินการวิจัย

ตึกแถวเตี้ยมฉู่ เป็นส่วนหนึ่งของสิ่งแวดล้อมสรรค์สร้างที่เน้นบริบทแวดล้อมสถาปัตยกรรมและกลุ่มชาติพันธุ์ทางสังคม ดังนั้นงานวิจัยนี้จึงเป็นวิธีวิทยาใช้ระเบียบวิจัยเชิงคุณภาพ เริ่มต้นจากการสืบค้นหาความรู้ ผนวกกับทบทวนเอกสารการเชื่อมโยงในบริบทกายภาพและประวัติศาสตร์ของกลุ่มชาติพันธุ์ชาวจีนโพ้นทะเลที่เข้ามาตั้งถิ่นฐานบริเวณชายขอบทะเล 2 ด้านของภาคใต้ ร่วมกับการทำงานภาคสนามการสังเกตการณ์ สำรวจรูปลักษณ์ และปรากฏการณ์ผ่านสถาปัตยกรรมท้องถิ่นซึ่งเป็นชิ้นงานตึกแถวผนวกร่วมกันกับการสัมภาษณ์ ตามลำดับขั้นตอนดังนี้

ขั้นตอนแรกเป็นเนื้อหาทางวิชาการทางสถาปัตยกรรม/ประวัติศาสตร์ท้องถิ่น ขั้นตอนที่สองนำเสนอเป็นสาระทางความคิด โดยการหาความจริงที่ปรากฏผ่านหลักการวิชาและเนื้อหาอันบ่งบอกถึงการเปลี่ยนแปลง การคงอยู่และปัจจัยที่ส่งผลต่อการเปลี่ยนแปลงรูปแบบตึกแถวเตี้ยมฉู่ ขั้นตอนที่สามเป็นมุมมองชาวบ้านในฐานะผู้ดูแลผ่านการแสดงออกทางความคิด การเปิดมุมมองร่วมกันอย่างสร้างสรรค์แลกเปลี่ยนองค์ความรู้ทางวิชาการและประสบการณ์ จากกระบวนการเรียนรู้ร่วมกันในการสรรหา อธิบายภูมิปัญญาในการดำรงชีวิตและขั้นตอนสุดท้าย พิจารณาปัจจัยการเปลี่ยนแปลงรูปแบบเพื่อเสนอแนวทางปกป้องสถาปัตยกรรม ที่ว่าง และสถานที่ต่อไป (ชัยยศ อิษฏ์วรพันธุ์, 2543)

ผลการวิจัย

รูปแบบตึกแถวเตี้ยมฉู่ ปรากฏอยู่ในท้องถิ่นทางใต้ของประเทศ มีที่มาที่ไปคล้ายคลึงกัน จากปัจจัยเดียวกัน โดยเฉพาะแผนผังอาคารที่มีความลึกตั้งแต่ 30 เมตร ไปจนถึง 70 เมตร ถูกจัดแบ่งพื้นที่ใช้สอยออกเป็นส่วน ๆ ทั้งที่เป็นพื้นที่ส่วนตัว สำหรับพักอาศัยอยู่ภายในและพื้นที่ส่วนรวม การจัดพื้นที่ใช้สอยสำหรับการค้าขายซึ่งอยู่ด้านหน้า มีบ่อน้ำอยู่ในส่วนกลางไม่มีหลังคาคลุมมีบันไดขึ้นสู่ชั้นสอง ถัดเข้าไปเป็นส่วนรับประทานอาหารและเตาครัวหรือที่เรียกว่า โพ พื้นที่ใช้สอยชั้นบนเป็นพื้นที่พักผ่อน ทั้งนี้หากจะมีความแตกต่างกันบ้างเพียงเฉพาะรูปลักษณ์ที่บ่งบอกช่วงอายุเวลาและอิทธิพลที่บังคับหรือความพึงพอใจเจ้าของบ้าน แต่ในช่วงแรกที่มีการอพยพของกลุ่มผู้คนชาวจีนเข้ามาตั้งถิ่นฐานในประเทศไทย สมัยรัชกาลที่ 3 (ถนอม พูนวงศ์, 2545) รูปแบบของตึกแถวเตี้ยมฉู่ จึงมีรูปแบบตึกแถวแบบจีนดั้งเดิมตามวัฒนธรรมที่ได้รับมาจากบ้านเกิดเมืองนอน ที่มีลักษณะเป็นตึกแถวชั้นเดียวหรือสองชั้นแต่ก็ยังคงหลงเหลืออยู่น้อยมาก เนื่องจากผ่านเวลาเกือบ 200 ปี ไม่อาจทนต่อสภาวะดินฟ้าอากาศที่มีปริมาณฝนตกหนักชุกชุมถึงแปดเดือนในแต่ละปีได้ (กองโบราณคดี, 2530)

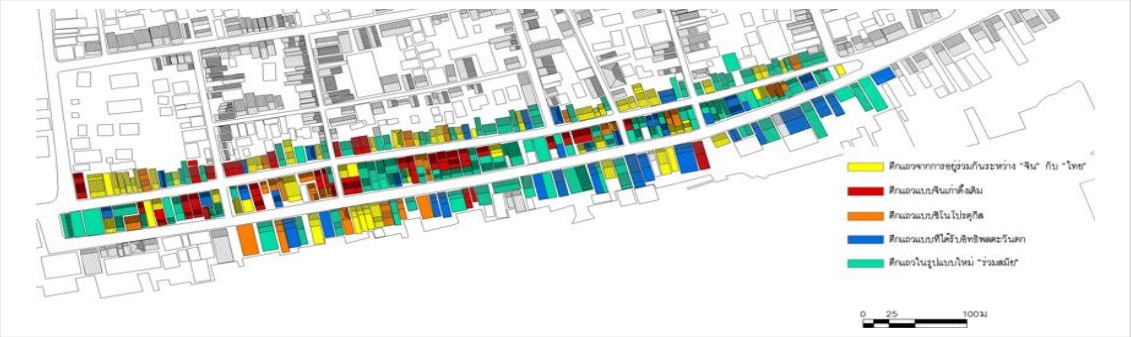
ช่วงอิทธิพลจากตะวันตกและแถบภูมิภาคเอเชียตะวันออกเฉียงใต้ที่มาจากการติดต่อทางการค้าส่งผลต่อรูปแบบอาคารตึกแถวในยุคต่อมา มีการปรับเปลี่ยนรูปแบบที่แผ่กระจายในลักษณะลูกผสมระหว่างจีนกับตะวันตกที่ได้รับความนิยมแพร่หลายเป็นอย่างสูงในเมืองปีนัง มาเลเซีย และในสิงคโปร์ อย่างไรก็ตามรูปลักษณ์จะเริ่มปรับเปลี่ยนไป แต่แผนผังอาคารยังคงยึดมั่นกับแบบแผนประเพณีจีนดั้งเดิมไม่เปลี่ยนแปลงไปมากนัก ซึ่งสิ่งที่ปรากฏให้เห็นได้อย่างชัดเจนนั้นก็คือ รูปด้านตึกแถว พื้นที่ทางเดินด้านหน้าทำเป็นช่องโค้ง (Arch) กั้นระหว่างอาคารแต่ละหลังเรียกกันว่าอาเขต หรือ หง่อคาขี่ ประตูด้านหน้าหากเป็นตึกแถวเพื่อร้านค้าจะเป็นบานเฟี้ยมไม้เปิดออกกว้าง ส่วนตึกแถวเพื่ออยู่อาศัยทำเป็นประตูบานเปิดคู่ไม้แผ่นใหญ่ไว้ตรงกลาง มีหน้าต่างบานเปิดคู่ไม้แผ่น และมีลูกกรงเหล็กแนวตั้งประกบอยู่สองข้าง ชั้นบนเป็นหน้าต่างบานเปิดคู่ยาวจรดพื้น เป็นได้ทั้งสามช่องหรือสี่ช่อง ตัวบานเป็นเกร็ดไม้ปรับได้/ไม่ได้ สำหรับหน้าต่างชนิดบานกระทุ้ง จะแบ่งเป็นสองส่วนโดยส่วนล่างจะติดตาย/เปิดออก และส่วนบนจึงเป็นบานกระทุ้ง เหนือหน้าต่างเป็นช่องแสงโค้งติดกระจกสีแบ่งเสี้ยว บางแห่งแกะสลักและฉลุไม้อย่างประณีตสวยงาม กรอบหน้าต่างเป็นลวดลายปูนปั้น เหนือช่องแสงเป็นปูนปั้นเช่นเดียวกัน มีทั้งเลียนแบบสถาปัตยกรรมตะวันตกตั้งแต่ยุคคลาสสิคเมื่อประมาณ 400 ปี ก่อนคริสตกาลมาจนถึงยุคอาร์ตเดโค (ค.ศ. 1920 - 1939) ส่วนหลังคาเป็นโครงไม้ซุง มุงกระเบื้องดินเผาแบบจีน หรือที่เรียกว่า กาบู

ตึกแถวเตี้ยมฉู่ที่ปรากฏมีรากเหง้าวัฒนธรรมจากชาวจีนจากต้นแบบเดียวกัน แต่เมื่อเข้ามาภายใต้สภาพแวดล้อมในบริบทการเกิดและอิทธิพลที่ได้รับแตกต่างกัน จะเป็นแรงขับเคลื่อนวิถีการดำเนินชีวิตที่ส่งผลกับกายภาพสถาปัตยกรรมของตึกแถวที่รองรับชีวิตและวิถีการดำเนินชีวิตนั้น นอกจากนี้เงื่อนไขแห่งช่วงเวลาที่ต่างกันจะเป็นส่วนหนึ่งในการแสดงออกของคุณภาพตึกแถว

ภาพที่ 2 แผนที่แสดงย่านเมืองเก่าภูเก็ต และเมืองเก่าสงขลา (หอจดหมายเหตุแห่งชาติ)

สถาปัตยกรรมเมืองเก่าภูเก็ตเริ่มต้นจากการค้าแร่ดีบุก และส่งออกไปจำหน่ายในแถบภูมิภาคเอเชียตะวันออกเฉียงใต้ ได้แก่ มาเลเซีย สิงคโปร์ และประเทศต่าง ๆ ทางตะวันตก ส่งผลให้รับอิทธิพลทางรูปแบบสถาปัตยกรรมตึกแถวร้านค้ามีส่วนผสมระหว่างตะวันออกตะวันตกตามแบบอย่างเมืองประเทศต่าง ๆ ที่ได้ติดต่อทำการค้าและรับวัฒนธรรมเข้ามาในพื้นที่ (ปรียชนัน สายสาคเรศ, 2547) ปรากฏรูปแบบเป็นลักษณะเฉพาะตัวตามแบบอย่างที่ได้รับ โดยรูปแบบและลักษณะกายภาพสถาปัตยกรรม มีความแตกต่างกันตามแต่วัฒนธรรมที่ได้รับในช่วงเวลาต่าง ๆ นับตั้งแต่ในช่วงต้นกรุงรัตนโกสินทร์ สมัยพระบาทสมเด็จพระจอมเกล้าเจ้าอยู่หัวรัชกาลที่ 4 เป็นต้นมา โดยสามารถจำแนกออกได้ดังนี้ (แผนกการวางแผนและพัฒนาชุมชนและท้องถิ่น สถาบันเทคโนโลยีแห่งเอเชีย, 2527)

ภาพที่ 3 แสดงชนิดของอาคารตึกแถว “เตี้ยมฉู่” ย่านเมืองเก่าภูเก็ต



ตึกแถวร้านค้าจากอิทธิพลสถาปัตยกรรมจีน (Chinese Influence) ได้รับอิทธิพลทางรูปแบบและฝีมือช่างก่อสร้างจากชาวจีนในเมืองปีนัง ประเทศมาเลเซีย เข้ามาก่อสร้างอาคารตึกแถวที่ประกอบด้วยส่วนประกอบกิจกรรมการค้าอยู่ด้านหน้า ส่วนอาศัยอยู่ภายใน มีการเว้นพื้นที่ว่างเป็นบ่อน้ำอยู่ตรงกลาง และเปิดช่องโล่งหลังคาสำหรับแสงสว่างและการระบายอากาศ ส่วนพักอาศัยอยู่ชั้นบน หลังคามุงด้วยกระเบื้องดินเผาแบบจีน พื้นปูด้วยกระเบื้อง มีการประดับตกแต่งหลังคา ประตู - หน้าต่างตามแบบอย่างสถาปัตยกรรมจีน

ตึกแถวร้านค้าจากอิทธิพลสถาปัตยกรรมแบบโคโลเนียล (Colonial Influence) ได้รับอิทธิพลทางรูปแบบอาคารจากช่างชาวอังกฤษที่เดินทางเข้ามาอาศัยอยู่ในประเทศสิงคโปร์ ตั้งแต่ยุคอาณานิคมนำเข้ามาแพร่หลายในเมืองปีนัง ดังนั้นสถาปัตยกรรมที่เป็นส่วนผสมกันระหว่างตะวันตกกับตะวันออก

เช่น การประดับตกแต่งลวดลายปูนปั้นอาคาร หน้าต่างโค้ง มีหัวเสาตามอย่างตะวันตกและส่งต่อมารูปแบบสถาปัตยกรรมมายังเมืองภูเก็ต จากการติดต่อทางการค้าระหว่างกัน

ตึกแถวร้านค้าจากอิทธิพลสถาปัตยกรรมยุโรป - อินเดีย (European – Indian Influence) ได้รับอิทธิพลมาจากช่างชาวอังกฤษในประเทศอินเดีย ที่มีการปรับใช้ให้เหมาะกับสภาพภูมิอากาศของประเทศอินเดีย ได้แก่ การใช้หน้าต่างบานเกล็ดไม้ปรับได้เพื่อการระบายอากาศซึ่งเป็นลักษณะอันเด่นชัด ต่อมาอาคารลักษณะนี้ถูกนำมาแพร่หลายเป็นอย่างมากในเมืองปีนัง ประเทศมาเลเซีย และเมืองภูเก็ต

สถาปัตยกรรมเมืองเก่าสงขลา การจัดวางผังเมืองตามแนวเส้นทางที่ขนานไปตามขอบทะเลสาบสงขลา และมีเส้นทางสายย่อยเชื่อมต่อกับเส้นทางสายหลักทั้งสองสาย ได้แก่ ถนนนครนอก ถนนนครในประกอบไปด้วยกลุ่มอาคารร้านค้าและโกดังเก็บสินค้าตั้งเรียงรายอยู่บนถนนสายการค้าหลัก และถนนนครนอก เชื่อมต่อกับชุมทางขนส่งทางน้ำสู่ออกภายนอก มีกลุ่มบ้านเป็นที่อยู่อาศัยแทรกตัวอยู่ตามถนนสายย่อยภายใน อันเป็นลักษณะเฉพาะของย่านที่มีศาลเจ้าตั้งกระจายอยู่โดยรอบ ทำหน้าที่เป็นศูนย์กลางจึงทำให้ย่านเป็นที่รู้จักและรับรู้ของคนทั่วไปถึงชื่อเสียงของการเป็นย่านการค้าและความเชื่อศรัทธาที่มีความสำคัญทางประวัติศาสตร์ (ตรึงใจ พึ่งรัศมี, 2539)

ภาพที่ 4 แสดงชนิดของอาคารตึกแถว “เตี้ยมฉู่” ย่านเมืองเก่าสงขลา

ตึกแถวร้านค้าเมืองเก่าสงขลา ประกอบด้วย ตึกแถวชั้นเดียวและสองชั้นที่มีการใช้ประโยชน์พื้นที่สำหรับอยู่อาศัยร่วมกันกับร้านค้า ที่เรียกกันว่าบ้านร้านค้า (Shop House) สามารถแบ่งออกได้ดังนี้

ตึกแถวร้านค้าแบบไทยกับจีน ผสมผสานรูปแบบไทย - จีน เป็นตึกแถวชั้นเดียวและสองชั้น แบ่งพื้นที่ใช้สอยเป็นส่วนหน้าบ้านซึ่งเป็นร้านค้า เมื่อเข้าสู่ภายในซึ่งเป็นในบ้านพบพื้นที่พักผ่อนภายในครอบครัวที่อยู่ส่วนถัดไป มีส่วนครัวอยู่ท้ายสุดหรือหลังบ้าน ชั้นบนเป็นพื้นที่สำหรับเก็บของใช้ภายในครอบครัว โดยมีบันไดทำหน้าที่เชื่อมต่อพื้นที่ชั้นล่างกับชั้นบน โครงสร้างเป็นผนังก่ออิฐแผ่นใหญ่รับน้ำหนัก พื้นชั้นล่างปูกระเบื้องดินเผาและพื้นชั้นบนเป็นโครงสร้างไม้ หลังคาทรงจั่วตามอย่างเรือนไทยพื้นถิ่นภาคใต้ วัสดุมุงด้วยกระเบื้องดินเผาปลายแหลมจากเกาะยอ

ตึกแถวร้านค้าแบบจีนดั้งเดิม เป็นตึกแถวแห่งแรกของย่านเมืองเก่าสงขลา มีรูปแบบวัฒนธรรมของชาวจีนเข้ามาตั้งถิ่นฐานและนำเอาวัฒนธรรมการอยู่อาศัยและร้านค้า มีรูปแบบด้านกว้างสองช่วงเสา โครงสร้างเป็นผนังรับน้ำหนักด้วยอิฐแผ่นใหญ่ก่อฉาบปูน โครงสร้างหลังคาเป็นไม้ มุงกระเบื้องดินเผากาบกล้วยคว่ำและหงายโค้งแบบจีน พื้นชั้นล่างเป็นแผ่นกระเบื้องดินเผาขนาดใหญ่ ส่วนชั้นบนในภาษาจีนแต้จิ๋ว เรียกว่า เหล่าเต็ง เป็นโครงสร้างไม้สำหรับอยู่อาศัยและเก็บสินค้า ระหว่างกลางของพื้นชั้นสองเจาะเป็นช่องกว้าง 80 x 80 ซม. สามารถเปิด - ปิดได้ เพื่อนำสินค้าจากชั้นล่างขึ้นมาวางเก็บไว้ชั้นบน ปัจจุบันตึกแถวร้านค้าแบบเก่าดั้งเดิมบางหลังชำรุดทรุดโทรมเนื่องจากขาดการเอาใจใส่ดูแลจากผู้เป็นเจ้าของ

บางหลังถูกปล่อยทิ้งร้างจนมีสภาพเสื่อมโทรมและพังทลายลงไป ก่อให้เกิดผลเสียต่อคุณค่าทั้งทางด้านประวัติศาสตร์ สถาปัตยกรรม ศิลปกรรม และผังเมือง ของย่านเก่าโดยรวม

ตึกแถวร้านค้าแบบผสมผสานกันระหว่างตะวันออกกับตะวันตก ได้รับวัฒนธรรมและอิทธิพลทางรูปแบบมาจากการติดต่อทางการค้ากับประเทศสิงคโปร์ ตัวอาคารประกอบด้วยลวดลายและส่วนโค้งครึ่งวงกลมแบบอาร์ต (Arch) บริเวณช่องหน้าต่าง ภายในแบ่งพื้นที่ออกเป็นสองส่วน ส่วนหน้าเป็นพื้นที่สำหรับการค้าขายและส่วนหลังเป็นพื้นที่ครัว โดยมีบ่อน้ำตั้งอยู่ตรงกลาง พื้นชั้นล่างปูด้วยแผ่นกระเบื้องดินเผา ส่วนพื้นชั้นบนเป็นไม้สำหรับอยู่อาศัย นอกจากนี้โครงสร้างอาคารเริ่มปรับเปลี่ยนมาเป็นคอนกรีตเสริมเหล็ก หลังคาทรงจั่วมุงด้วยกระเบื้องดินเผา

ตึกแถวร้านค้าที่ได้รับอิทธิพลสถาปัตยกรรมแบบตะวันตก ได้รับอิทธิพลสถาปัตยกรรมแบบอาร์ตเดโค (Art Deco) ตามอย่างตึกแถวในรัฐปีนัง มาเลเซีย ช่วงระหว่างปี พ.ศ. 2481 - 2492 เป็นอาคารคอนกรีตเสริมเหล็กที่มีความเรียบง่าย ใช้เส้นสายรูปแบบเรขาคณิตอย่างตรงไปตรงมา ตัวอาคารด้านหน้าเป็นลักษณะสมดุลแบบสมมาตร ลดทอนรูปร่างรูป พื้นชั้นล่างปูด้วยกระเบื้องใช้ประโยชน์พื้นที่เป็นร้านค้าและเปิดพื้นที่ว่างโล่งในช่วงกลางเพื่อการระบายอากาศ ในบริเวณนี้บางหลังมีบ่อน้ำไว้สำหรับอาบหรือชำระในชีวิตประจำวัน สำหรับชั้นสองเป็นพื้นไม้เป็นพื้นที่สำหรับอยู่อาศัย ส่วนตึกแถวที่เป็นสามชั้นใช้ชั้นสองเป็นพื้นที่เก็บสินค้าและพักอาศัยขึ้นไปอยู่ชั้นสามแทน หลังคานิยมทำเป็นดาดฟ้าพื้นคอนกรีตและหล่อแผงคอนกรีตปิดบังหลังคาเมื่อมองจากด้านหน้าเห็นเป็นลักษณะขึ้นบันได

สรุปและอภิปรายผล

ด้านกายภาพ จากกรณีศึกษาเมืองเก่าสงขลาและเมืองเก่าภูเก็ต พบว่า ตึกแถวทั้งสองมีลักษณะที่คล้ายคลึงกัน เป็นตึกแถวประวัติศาสตร์ที่ได้รับการสร้างมาจากช่างชาวจีน คือ มีการใช้วัสดุเทคนิควิธีการก่อสร้างและรูปแบบอาคารแบบเดียวกันที่ได้รับอิทธิพลมาจากตึกแถวในปีนัง มาเลเซียและสิงคโปร์ แต่ตึกแถวเก่าเมืองสงขลามีอายุของอาคารหรืออายุของการก่อสร้างที่มากกว่าตึกแถวเก่าเมืองภูเก็ต ความแข็งแรงของโครงสร้างและวัสดุที่ใช้ในการก่อสร้างอาคารจึงมีสภาวะความเสียหาย ชำรุดและเสื่อมโทรมมากกว่าเมืองเก่าภูเก็ต ที่ยังคงอยู่และได้รับการดูแลรักษาให้อยู่ในสภาพเดิม

ภาพรวมของตึกแถวเตี้ยมฉู่ในกรณีศึกษาพบว่า พฤติกรรมการปรับตัวของอาคาร มีการปรับพื้นที่เพื่อใช้สอยให้เป็นไปตามยุคสมัยและความแตกต่างของเวลา การตอบสนองกับวิถีการดำรงชีวิตประจำวันเป็นสาเหตุแห่งปัญหาที่ส่งผลต่อภาพรวมกายภาพสถาปัตยกรรมย่านเมืองเก่า ดังนี้

- ความกลมกลืนของรูปแบบและก้อนมวลอาคาร พบว่า อาคารเก่าที่เกิดจากพัฒนาการตามยุคสมัยที่ผ่านมาแล้ว ยังพบอาคารเก่าที่ได้รับการนำมาปรับปรุงตามแบบอย่างสมัยใหม่ ที่เรียกกันว่าร่วมสมัย อันเกิดจากการปรับประโยชน์พื้นที่ใช้สอยภายใน เพื่อให้ตอบสนองกับวิถีการดำรงชีวิตและรูปลักษณ์อาคารในรูปแบบใหม่ จนไม่ปรากฏร่องรอยของอาคารเก่าดั้งเดิม อันเป็นการทำลายความทรงจำตึกแถวเก่าในอดีตที่มีอยู่เดิมให้เลือนหายไป

- การสร้าง - เสริมส่วนประดับอาคารด้วยวัสดุสมัยใหม่ ปัจจุบันพัฒนาการวัสดุที่มีผลมาจากความก้าวหน้าทางเทคโนโลยีทำให้เกิดวัสดุสมัยใหม่ตามการพัฒนาที่หลากหลายซึ่งสามารถนำมาเลือกและใช้อย่างเหมาะสม หากไม่เช่นนั้นแล้ววัสดุสมัยใหม่เหล่านี้ก็จะเป็นสิ่งประดับประดาที่ขัดแย้งและบั่นทอนภาพลักษณ์อาคารเก่า ขาดความกลมกลืนสวยงามจนกลายเป็นทัศนอุจาดของอาคารเก่าไปในที่สุด เช่น กันสาดอลูมิเนียม ผ้าใบกันแดด และป้ายอันเป็นสัญลักษณ์ในการสื่อสารถึงผู้พบเห็นที่ไม่สอดคล้องกับอาคารเก่าอันเป็นสถาปัตยกรรมที่มีคุณค่าของย่านและของเมือง

เมืองเก่าเป็นชุมชนเก่าที่มีการอยู่อาศัยมาต่อเนื่องยาวนานจนเกิดการซ้อนทับของเรื่องราวแห่งวิถีชีวิตกันอย่างหนาแน่น ดังนั้นในการดำเนินการอนุรักษ์และพัฒนาย่านเมืองเก่า ให้เกิดผลสำเร็จตามความมุ่งหมายได้นั้น จำเป็นต้องได้รับการสนับสนุนและความร่วมมือจากกลุ่มผู้คนหลายฝ่ายทั้งจากกลุ่มผู้คนภายในชุมชน องค์กรเอกชน และหน่วยงานภาครัฐฯ ได้เข้ามาดำเนินการ เพื่อช่วยกันประคับประคองดูแล เริ่มต้นตั้งแต่ขั้นตอนระดับนโยบายจนถึงระดับปฏิบัติงานควบคู่กันไปอย่างต่อเนื่องจึงจะเกิดผลเป็นรูปธรรม ทั้งนี้ชุมชนซึ่งเปรียบเสมือนอวัยวะของร่างกายที่จะต้องได้รับอาหารเลี้ยงดูให้แข็งแรง ชุมชนจึงเป็นส่วนสำคัญส่วนหนึ่งที่รัฐฯจำเป็นต้องให้การดูแลรักษาโดยทั่วถึง รวมทั้งสนับสนุนการพัฒนาชุมชนทั้งงบประมาณและการจัดการชุมชน เพื่อความเป็นระเบียบเรียบร้อยความอยู่ดีกินดีและความอยู่เย็นเป็นสุขของคนในชุมชน (เลอสม สถาปิตานนท์, 2546)

จากการศึกษาผู้ใช้อาคารตึกแถวเตี้ยมฉู่เมืองเก่าสงขลา ด้านกายภาพของพื้นที่ศึกษาที่ได้รับ เพื่อใช้เป็นข้อมูลในการศึกษาวิจัยนี้มีจำนวนทั้งสิ้น 62 ราย จากอาคารตึกแถวเก่าในพื้นที่ศึกษาที่มีอยู่ทั้งหมดจำนวน 348 หลัง หรือคิดเป็นร้อยละ 17.82 ทั้งนี้จากการลงพื้นที่สำรวจภาคสนามพบถึงความแตกต่างของข้อมูลที่ได้รับในหลากหลายประเด็นด้วยกัน ทั้งจากการประกอบกิจกรรมในการดำรงชีวิตของผู้ที่อาศัยอยู่และไม่มีเวลาในการกรอกบันทึกข้อมูล การไม่มีผู้อยู่อาศัยในขณะออกสำรวจ ผู้อยู่อาศัยเป็นเพียงพนักงานไม่กล้าแสดงออกทางความคิดเห็น เจ้าของอาคารซึ่งเป็นเจ้าของอาคารร่วมหลายหลังแต่ได้รับข้อมูลจากเจ้าของเพียงคนเดียว อาคารบางหลังเป็นสำนักงาน ท่าเทียบเรือ ธนาคาร อาคารบางหลังมีแต่ผู้สูงวัย อาคารบางหลังถูกปล่อยทิ้งร้างปิดตายและอาคารบางหลังอยู่ในขณะปรับปรุงซ่อมแซมสำหรับแบบสอบถามซึ่งเป็นเครื่องมือที่ใช้ในการวิจัยได้แบ่งแยกออกในหลายประเด็น เพื่อให้ครอบคลุมเนื้อหาและรายละเอียดที่ต้องการ ได้แก่ ส่วนของข้อมูลผู้อาศัย/ผู้ใช้อาคาร ส่วนของข้อมูลเกี่ยวกับการดูแลรักษาอาคารและส่วนข้อคิดเห็นเพิ่มเติมหรือข้อคิดเห็นส่งท้ายในลักษณะคำถามปลายเปิดเพื่อเปิดโอกาสให้ผู้ตอบคำถามมีส่วนร่วมในการอธิบายแสดงออกถึงเรื่องราว การรับรู้ ความรู้สึก ความต้องการ และปัญหา

การศึกษาความคิดเห็นของผู้ใช้อาคารตึกแถวเตี้ยมฉู่ เมืองเก่าภูเก็ต ด้านกายภาพมีผู้ตอบรับแบบสอบถาม จำนวน 88 ราย หรือคิดเป็นร้อยละ 32.59 ของตึกแถวเก่าที่มีเจ้าของอยู่ภายในย่านทั้งสิ้น 270 ราย ซึ่งจากการลงสำรวจเพื่อสัมภาษณ์พบว่า ผู้คนที่อาศัยอยู่ในย่านมีเหตุผลและความจำเป็นที่ไม่สามารถตอบแบบสอบถามได้ทั้งหมดที่เป็นไปในลักษณะที่เหมือนหรือคล้ายคลึงกันกับบริเวณพื้นที่ย่านเมืองเก่าสงขลาทั้งหมด

ด้านเศรษฐกิจ เปรียบเทียบกัน คือ เมืองเก่าสงขลาได้ให้ความสำคัญอย่างมากกับการอนุรักษ์ตึกแถวเก่ามีความต้องการให้มีการซ่อมแซมตึกแถวเก่าให้กลับมาในรูปแบบดั้งเดิม ขึ้นอยู่กับการสนับสนุนด้านการเงินที่นำมาซ่อมแซมจากหน่วยงานภาครัฐฯ การย้ายของเจ้าของอาคารเพื่อออกไปประกอบกิจกรรมการดำรงชีวิตในพื้นที่ส่วนกลาง คือ กรุงเทพมหานครมีค่อนข้างสูง ผลมาจากการศึกษาเล่าเรียนของคนรุ่นต่อมาที่มีการศึกษาดีขึ้น เมืองเก่าภูเก็ตผู้คนยังคงมีความต้องการที่จะอนุรักษ์ตึกแถวเก่าเตี้ยมฉู่ให้ดำรงคงอยู่ต่อไป พร้อมขอรับความช่วยเหลือทางด้านการเงินจากหน่วยงานภาครัฐฯในการนำมาซ่อมแซม ผู้คนเมืองเก่าภูเก็ตเคลื่อนย้ายออกไปจากพื้นที่น้อยกว่าเมืองเก่าสงขลา หากแต่ส่วนที่เคลื่อนย้ายออกไปทำงานถิ่นอื่นแต่ยังอาศัยอยู่ในพื้นที่ภูเก็ตที่ไปมาหาสู่เยี่ยมบ้านเรือนเหล่าเครือญาติกันตามปกติ

รวม	**62**	**100.00**	**88**	**100.00**

การเปรียบเทียบการเปลี่ยนแปลงสภาพสังคมและเศรษฐกิจ พบว่า เมืองเก่าสงขลาภายหลังจากการลดบทบาทของย่านที่เกิดจากนโยบายพัฒนาเมือง ทำให้เกิดการเปลี่ยนแปลงทางสังคม มีผู้คนย้ายออกจากพื้นที่ศูนย์กลางเมืองเก่าเพื่อไปดำรงชีวิตในศูนย์กลางเมืองใหม่ และการแทนที่ด้วยการย้ายเข้ามาของคนนอกทำให้พื้นที่ขาดการดูแลจนกายภาพเสื่อมโทรมเป็นการจุดประกายความคิดอนุรักษ์ให้กับคนรุ่นต่อมาได้รวมพลังปลุกย่านเก่าให้มีชีวิตกลับคืนมา ประกอบกับนโยบายส่งเสริมพื้นที่ย่านเมืองเก่าเป็นแหล่งท่องเที่ยวทางวัฒนธรรม ในเชิงสังคมเมืองเก่าส่งผลให้เกิดขาดความรู้สึกร่วมเป็นเจ้าของความใส่ใจต่อการดูแลรักษาพื้นที่ลดลง ทำให้การเปลี่ยนแปลงที่เกิดขึ้นอาคารที่เปลี่ยนแปลงรูปแบบขาดการดูแลซ่อมบำรุงตามระยะเวลา โครงสร้างทรุดโทรม บางแห่งกลายเป็นพื้นที่รกร้าง การย้ายเข้ามาของคนนอก เช่น ผู้เช่า หรือแรงงานต่างถิ่น ทำให้เกิดช่องว่างทางสังคมระหว่างผู้ครอบครองพื้นที่เดิมกับผู้มาใหม่จึงทำ

ให้ผู้เช่าใหม่มักใช้พื้นที่เพียงเพื่อการค้าหรืออยู่อาศัยชั่วคราว ไม่เกิดการลงทุนในระยะยาว แม้ย่านเก่าฟื้นคืนกลับมาอีกครั้งหนึ่ง ถึงแม้จะไม่มีวันเหมือนอดีตที่เป็นมาก็ตาม แต่หากเมื่อเปรียบเทียบกับเมืองเก่าภูเก็ตแล้วจึงเป็นเรื่องยากลำบากมากกว่าพอสมควร เนื่องจากช่องว่างระหว่างรอยต่อของการซบเซากับความเจริญ มีช่วงระยะเวลาที่เนิ่นนานมากกว่า ส่งผลให้อาคารตึกแถวเก่าชำรุดทรุดโทรมมีจำนวนมาก กรณีเมืองเก่าภูเก็ตผลจากการยุติการทำเหมืองแร่ ส่งผลให้เศรษฐกิจภายในย่านเริ่มซบเซาและมีการปรับตัวจากการเปลี่ยนแปลงบทบาทใหม่ในการเป็นแหล่งท่องเที่ยวทางวัฒนธรรมขณะเดียวกันกิจกรรมการค้าขนาดใหญ่ก็ได้ขยายตัว และมีการเปลี่ยนแปลงรูปแบบจากพื้นที่อยู่อาศัยชุมชนดั้งเดิมไปสู่พื้นที่ท่องเที่ยวทำให้โครงสร้างสังคมเปลี่ยนแปลง การเติบโตของกิจกรรมการค้าขนาดใหญ่เข้ามายึดพื้นที่เชิงพาณิชย์ทำให้ร้านค้าขนาดเล็กต้องปิดตัวลงหรือปรับเปลี่ยนกิจการค้าในรูปแบบการท่องเที่ยวเข้ามาทดแทนเพื่อให้อยู่ได้ ส่งผลต่อสภาพการเปลี่ยนแปลงของอาคาร ที่เกิดขึ้นในช่วงเวลาต่าง ๆ โดยการเปลี่ยนแปลงนี้เกี่ยวข้องกับการใช้ประโยชน์จากอาคาร การบูรณะหรือการปรับเปลี่ยนฟังก์ชันของอาคาร ซึ่งมักเกิดขึ้นตามการพัฒนาและการเจริญเติบโตของเมือง (คณะสถาปัตยกรรมศาสตร์และการผังเมือง มหาวิทยาลัยธรรมศาสตร์, 2556) นอกจากนี้ความสัมพันธ์ระหว่างคนในชุมชนลดลง เนื่องจากผู้อยู่อาศัยเดิมย้ายออก และผู้ประกอบการใหม่เข้ามาแทนที่และชุมชนดั้งเดิมอาจรู้สึกแปลกแยก หรือขาดบทบาทในการกำหนดทิศทางของพื้นที่ตนเอง จึงจำเป็นต้องเกิดการรวมตัวของชุมชนผู้รักถิ่นฐานที่อาสาเข้ามาดูแลย่านจะเป็นส่วนหนึ่งที่จะช่วยประคับประคองให้ย่านเก่าเดินหน้าต่อไป หากแต่แนวทางการอนุรักษ์ย่านเมืองเก่าภูเก็ตที่ให้ความสำคัญกับอาคารในการเป็นส่วนหนึ่งของภาพลักษณ์ทางการค้าที่สำคัญในอดีต จะช่วยให้ตึกแถวเก่าเหล่านี้ได้รับเอาใจใส่จากเจ้าของอาคารอันเป็นการสร้างความภาคภูมิใจให้กับตัวเอง

ในกรณีศึกษาจะเห็นความคล้ายคลึงกัน คือ การเริ่มต้นจากบทบาททางด้านการค้าในยุคที่บ้านเมืองเจริญรุ่งเรืองสูงสุดและได้รับผลกระทบจากนโยบายของภาครัฐฯ ส่งผลให้เศรษฐกิจในย่านถูกลดบทบาทลง จากนั้นจึงเกิดการรวมตัวกันของผู้คนในชุมชนเพื่อช่วยกันแก้ไขปัญหาให้ย่านเก่าได้ฟื้นคืนกลับมา โดยเมืองเก่าสงขลามีแนวความคิดการฟื้นฟูย่านเมืองเก่า คือ การสร้างสรรค์กิจกรรมใหม่ขึ้นภายในพื้นที่เพื่อกระตุ้นย่านเก่าให้กลับมามีชีวิตชีวาอีกครั้ง จนเกิดเป็นกระแสการอนุรักษ์ตึกแถวเก่าขึ้นตามมา ส่วนในกรณีศึกษาเมืองเก่าภูเก็ต มีแนวความคิดในการอนุรักษ์อาคารเก่าและพื้นที่ให้เหมาะสมกับความต้องการในปัจจุบัน โดยใช้การท่องเที่ยวเป็นตัวชักนำเนื่องจากเมืองภูเก็ตมีแหล่งท่องเที่ยวที่สวยงามเป็นที่รู้จักของผู้คนทั้งชาวไทยและชาวต่างชาติ ทำให้มีผู้คนหลั่งไหลเข้ามาท่องเที่ยวเป็นจำนวนมาก แตกต่างจากเมืองเก่าสงขลาที่นักท่องเที่ยวเข้ามามีจำนวนความหลากหลายน้อยกว่าเมืองเก่าภูเก็ต มีนักท่องเที่ยวทั้งที่มาจากประเทศทางตะวันตกและตะวันออก รวมถึงนักท่องเที่ยวที่เป็นชาวไทย ส่วนเมืองเก่าสงขลามีเพียงนักท่องเที่ยวที่มาจากประเทศทางตะวันออกเฉียงใต้และนักท่องเที่ยวชาวไทยเท่านั้น ประกอบกับนโยบายส่งเสริมของรัฐฯ ที่ต้องการส่งเสริมเมืองภูเก็ต ให้เป็นเมืองแห่งการท่องเที่ยวจนได้รับการขนานนามว่า ไข่มุกเอเชีย อันเป็นเสน่ห์ดึงดูดใจผู้คนให้เข้ามาท่องเที่ยว ส่งผลให้เศรษฐกิจภายในย่านได้รับผลที่ดีตามไปด้วย รวมถึงเป็นการสร้างขวัญกำลังใจให้กับผู้คนได้มีกำลังที่จะดูแลรักษาบ้านตึกแถวเก่าของตนเอง เพื่อให้บ้านของเขา ย่านของเขาเป็นที่เชิดหน้าชูตาและส่งเสริมรายได้ให้กับตนเอง (ตารางที่ 2)

ด้านความหมายความเป็นชุมชนและมาตรการโดยกรณีศึกษาทั้งสองกรณีมีความคล้ายคลึงกัน คือ เมืองเก่าสงขลา มีแนวความคิดในการรักษาความหมายของย่านที่เกิดจากวิถีชีวิตชุมชนและลักษณะพื้นถิ่นของย่านที่ดำรงอยู่ผ่านช่วงเวลากาลต่าง ๆ มาได้ ถึงแม้ว่ากายภาพจะสูญเสียไป ส่วนในกรณีเมืองเก่าภูเก็ต

มีแนวความคิดในการรักษาความหมายของย่านเก่าด้วยการรักษาองค์ประกอบทางกายภาพภายในของพื้นที่ ได้แก่ กลุ่มก้อนอาคารเก่า และองค์ประกอบเมืองให้มีรูปแบบดั้งเดิม

จากกรณีทั้งสอง ได้มีการรวมกลุ่มกันของผู้คนในย่าน จัดตั้งองค์กรชุมชนเพื่อร่วมกันแก้ไขปัญหา ในกรณีเมืองเก่าสงขลาผู้คนมีความรักความผูกพันกันในพื้นที่น้อยกว่า สังเกตได้จากจำนวนการย้ายถิ่นของผู้คนที่ย้ายออกไปยังพื้นที่อื่นเพื่ออยู่อาศัยและทำมาหากิน นอกจากนี้การดำเนินงานขององค์กรชุมชนจะพึ่งพางบประมาณจากหน่วยงานภาครัฐฯ เป็นหลัก และมีองค์กรภาคเอกชนเข้ามาร่วมสนับสนุนทางด้านการเงิน ส่วนกรณีเมืองเก่าภูเก็ตชุมชน มีการจัดการหาเงินสนับสนุนด้วยตัวเองจากการดำเนินกิจกรรมแห่งชีวิต และงานเทศกาลต่าง ๆ เพื่อนำรายได้มาอนุรักษ์และพัฒนาย่านเก่าต่อไป

นอกจากนี้มาตรการในการดูแลตึกแถวและย่านกรณีเมืองเก่าภูเก็ต มีการมองถึงการรักษารูปลักษณ์อาคารที่เป็นรูปธรรมมากกว่า โดยการปรับปรุงซ่อมแซมอาคารนั้น จำเป็นต้องได้รับการดูแลจากองค์กรชุมชนเพื่อรักษาเอกลักษณ์และแนวความคิดย่านเก่าดังเดิม ถึงแม้ในด้านกฎหมายหรือมาตรการควบคุมอาคารจะยังอยู่ในขั้นตอนการพิจารณาของรัฐฯ ก็ตาม ส่วนในกรณีเมืองเก่าสงขลา จะควบคุมในภาพกว้างของอาคาร และมีกฎหมายอาคารในการจำกัดความสูง ระยะร่นตามกฎหมายควบคุมอาคารปัจจุบัน ซึ่งอาจขัดกับรูปลักษณ์สัดส่วนที่เกิดจากวิถีชีวิตเดิมของอาคารตึกแถวเก่า

สรุปและอภิปรายผล

ตึกแถวร้านค้าเมืองเก่าสงขลา ลักษณะและสภาพของโครงสร้างอาคารที่มีความเก่ามากกว่าเป็นปัจจัยในการเปลี่ยนแปลงรูปแบบตึกแถวเก่า รวมถึงการเคลื่อนย้ายของผู้คนซึ่งเป็นเจ้าของอาคารไปอยู่ยังถิ่นอื่น รวมถึงการปล่อยให้อาคารตึกแถวเก่าถูกปล่อยทิ้งร้างไม่มีผู้ดูแล การขาดการสนับสนุนซ่อมแซมอาคารจากหน่วยงานภาครัฐ

ตึกแถวร้านค้าเมืองเก่าภูเก็ต ซึ่งมีข้อได้เปรียบในส่วนของอายุอาคารอันมีผลกับโครงสร้างที่ยังมีความแข็งแรงจะเป็นตัวช่วยพยุงอาคารให้คงอยู่ไม่ให้ทรุดตัวหรือพังทลายลงไป นอกจากนั้นบทบาทการเป็นเมืองท่องเที่ยวการได้รับการส่งเสริมให้เป็นแหล่งท่องเที่ยวทางวัฒนธรรมจะเป็นตัวกระตุ้นในการรักษาคุณค่าของตึกแถวเก่าที่เป็นส่วนหนึ่งของโครงการ ตลอดจนความเข้มแข็งของชุมชนซึ่งเป็นกำลังสำคัญที่จะรักษาตึกแถวเก่าได้อย่างยั่งยืน

จากการศึกษาเรื่องราวของตึกแถวเก่าที่มีอยู่ภายในย่านทั้งสอง เพื่อให้เกิดความเข้าใจปรากฏการณ์ต่าง ๆ ที่เกิดขึ้นมาจนถึงขั้นตอนการหาปัจจัยการเปลี่ยนแปลงรูปแบบตึกแถวเตี้ยมฉู่ ผ่านกระบวนการวิเคราะห์เพื่อแสวงหาความแตกต่าง หลากหลาย และทิศทางร่วมกันมาตามลำดับ วิธีวิจัยในการศึกษาขั้นตอนลำดับต่อไป จึงเป็นการนำผลสรุปที่ได้จากการศึกษามาเป็นข้อเสนอสานต่อถึงความเป็นไปได้ของแนวทางในการปกปัก ป้องกัน รักษา และคุ้มครองตึกแถวเก่าที่มีคุณค่าทางประวัติศาสตร์เพื่อสานต่อแนวทางความเป็นไปได้ที่พื้นที่อื่นต่อไป

จากการศึกษานั้นพบว่า แนวทางป้องกันที่ทำให้เกิดเป็นผลสำเร็จรูปธรรมตอบสนองการคงอยู่ของตึกแถวเก่าต้องประกอบขึ้นของกลุ่มคนสามฝ่าย ได้แก่ หน่วยงานภาครัฐฯ ฝ่ายวิชาการ และชาวบ้าน ต้องช่วยกันสนับสนุนตั้งแต่เมื่อเริ่มต้นในการทำงาน จึงจะนำไปสู่การป้องกันไม่ให้ตึกแถวเก่าเลือนหายไปจากความทรงจำ แต่จะทำให้ยังคงอยู่ได้อย่างยั่งยืนต่อไป โดยมีขั้นตอนในการดำเนินงานดังนี้

เสริมสร้างรากฐาน ผ่านแนวคิดการครอบครองอาคาร จากการสำรวจและเปรียบเทียบพบว่าการได้รับมรดก การซื้อขายซื้อต่อจากเจ้าของเดิม และอาคารเป็นของส่วนกลางหรือครอบครัว (กงสี) เมืองเก่าภูเก็ตพบได้มากกว่า ส่งผลให้เจ้าของมีสิทธิ์เต็มที่ในการเปลี่ยนแปลงรูปแบบ และการใช้ประโยชน์อาคาร การเสริมโครงสร้างอาคารเดิมให้แข็งแรง ส่งผลให้อาคารได้รับการปรับปรุงใหญ่ แต่ยังคงเคารพสถาปัตยกรรมเดิม ผู้ครองครองอาคารเองมีสิทธิเต็มที่ในการเปลี่ยนแปลงอาคาร (เช่น ในภูเก็ต) ควรเชื่อมโยงกับความรับผิดชอบต่อประวัติศาสตร์และบริบทชุมชน การปรับเปลี่ยนแปลงรูปแบบอาคารเดิมควรมีแนวทางอนุรักษ์เชิงสร้างสรรค์ (Creative Conservation) ที่ให้ความเคารพต่ออดีตและเปิดพื้นที่ใหม่ในอนาคต สามารถใช้งานได้อย่างยั่งยืนในระยะยาว ส่วนการเช่าอาคารเพื่อนำมาดัดแปลงการใช้ประโยชน์พบได้มากในเมืองเก่าสงขลา ส่งผลให้ผู้เช่ามีข้อจำกัดในการเปลี่ยนแปลงโครงสร้างถาวร จึงมักเน้นการปรับเปลี่ยนแบบชั่วคราว หรือ ดัดแปลงผิวเผิน เช่น ติดตั้งฉากกั้น, ระบบไฟ, ตกแต่งภายในแบบไม่ซับซ้อน และตกแต่งเท่าที่จำเป็นในการใช้งานเพียงเพื่อให้สอดคล้องกับการใช้ประโยชน์ในพื้นที่ที่ต้องการ ส่งผลให้อาคารมีการรูปเปลี่ยนแปลงรูปแบบเพียงเล็กน้อย แต่ยังคงโครงสร้างดั้งเดิม ไม่สามารถพัฒนาแบบลึกหรือต่อเติมมากได้ ในเมืองเก่าสงขลา แม้ผู้เช่าจะไม่มีกรรมสิทธิ์ แต่ผู้ครอบครองอาคารที่เป็นเจ้าของเดิมควรสร้างจิตสำนึกทางวัฒนธรรมที่ลึกซึ้งเกิดการดูแลพื้นที่ร่วมกัน ซึ่งเป็นรูปแบบใหม่ของความเป็นเจ้าของร่วม (Collective Ownership in Practice) แม้การครอบครองแบบเช่ามีข้อจำกัด หากผู้เช่ามีบทบาททางวัฒนธรรมและเศรษฐกิจสำคัญต่อชุมชน ทำให้เกิดแรงกดดันให้เกิดรูปแบบการครอบครองใหม่ที่ยืดหยุ่น เช่น การเช่าระยะยาวแบบมีสิทธิพัฒนา (Heritage Lease)

รัฐบาลร่วมส่งเสริมสนับสนุน การสร้างความเข้าใจ และการสร้างจิตสำนึกในชุมชนจะทำให้เกิดความร่วมมือในการอนุรักษ์ตึกแถวเตี้ยมฉู่ โดยการมีส่วนร่วมของประชาชนในการตัดสินใจ และการดำเนินการช่วยเสริมสร้างความภาคภูมิใจในมรดกทางวัฒนธรรม และมุ่งเน้นให้ข้อมูลการดูแลและอนุรักษ์เพื่อสร้างความทรงคุณค่าการให้ความรู้เกี่ยวกับประวัติศาสตร์ และคุณค่าของตึกแถวเตี้ยมฉู่ช่วยให้ชุมชนเข้าใจถึงความสำคัญของตึกเหล่านี้ในฐานะที่เป็นมรดกทางวัฒนธรรม ตระหนักถึงคุณค่าทางประวัติศาสตร์และความเป็นมาของพื้นที่ รวมถึงการมอบข้อมูลและทรัพยากรต่าง ๆ เกี่ยวกับวิธีการดูแลรักษาตึกแถวเตี้ยมฉู่จะช่วยให้เจ้าของตึกและชุมชนเข้าใจถึงการดูแลที่เหมาะสม โดยเฉพาะในเรื่องของการบำรุงรักษาโครงสร้าง หรือการแนวทางการปรับเปลี่ยนรูปแบบให้สอดคล้องกับลักษณะดั้งเดิมของตึกแถว ที่คำนึงถึงการปรับเปลี่ยนรูปแบบหรือการบูรณะอาคารไม่ควรทำให้สูญเสียคุณลักษณะสำคัญที่ทำให้อาคารเหล่านี้มีความเป็นเอกลักษณ์ เช่น รูปแบบสถาปัตยกรรมที่สะท้อนถึงประวัติศาสตร์และวัฒนธรรมของท้องถิ่น การปรับเปลี่ยนอาจรวมถึงการเสริมโครงสร้างอาคารให้แข็งแรงขึ้น การตกแต่งหรือดัดแปลงบางส่วนเพื่อให้เหมาะสมกับการใช้งานในปัจจุบัน แต่จะต้องคำนึงถึงการรักษาลักษณะภายนอกและความสวยงามของอาคารตามแบบดั้งเดิม

เครื่องมือประสานองค์กรชุมชน ซึ่งเป็นเครื่องมือในการดำเนินงาน ทำหน้าที่ประสานงานหน่วยงานท้องถิ่นภาครัฐฯ เพื่อพิจารณาหาแนวทางวิธีการ มาตรการในการให้ความช่วยเหลือสนับสนุน และส่งเสริมทางด้านการเงินแก่เจ้าของบ้านที่ต้องการซ่อมแซม หรือปรับปรุงอาคารเพื่อการใช้งานภายใต้รูปแบบที่กำหนดในลักษณะของการให้เงินช่วยเหลือกู้ยืมหรือลดหย่อนภาษีให้กับเจ้าของอาคารที่เข้าร่วมโครงการอนุรักษ์ เพื่อช่วยลดภาระทางเศรษฐกิจและสร้างแรงจูงใจในการอนุรักษ์ ในกรณีที่ชาวบ้านเข้าร่วมโครงการซึ่งจะเป็นมาตรการหนึ่งที่ใช้ในการสร้างแรงจูงใจ ผ่านการส่งเสริมให้ประชาชนมีส่วนร่วมในการอนุรักษ์ผ่านการมีส่วนร่วมในการตัดสินใจและการดูแลอาคาร ช่วยสร้างจิตสำนึกความภาคภูมิใจในถิ่นฐาน

และอาคารมรดกของตน พร้อมทั้งป้องกันการเปลี่ยนแปลงรูปแบบอาคารและชุมชนให้กับบุคคลภายนอกที่เข้ามาแสวงหาผลประโยชน์ เพื่อช่วยกระตุ้นให้ผู้คนเห็นถึงความสำคัญมิใช่การปล่อยให้ชาวบ้านดูแลบ้านเก่าของเขาแต่เพียงลำพังโดยมีผู้อื่นเข้ามาหาผลประโยชน์จากการแวะชม ด้วยแนวทางนี้จะทำให้ชาวบ้านเกิดความรู้สึกภาคภูมิใจ ที่มีผู้คนจากภายนอกให้ความสำคัญในบ้านเก่าและย่านเก่าของเขา อันเป็นการสร้างจิตสำนึกความรักในถิ่นฐานให้ผู้เกิดขึ้นกับผู้คน รวมถึงการสนับสนุนความรู้และทรัพยากรที่มอบให้จากหน่วยงานรัฐ เช่น แนวทางการบูรณะให้คงสภาพดั้งเดิม การซ่อมแซมโครงสร้าง และการใช้วัสดุที่สอดคล้องกับบริบทดั้งเดิม ทำให้อาคารได้รับการดูแลอย่างเหมาะสม ลดการเสื่อมโทรมของภูมิทัศน์เมืองเก่า และสามารถใช้งานได้อย่างยั่งยืน โดยใช้แนวทางการฟื้นฟูแบบมีส่วนร่วม เพิ่มการมีส่วนร่วมของชุมชนในการออกแบบการปรับปรุง เช่น ประชาพิจารณ์ร่วมออกแบบสี วัสดุ หรือรูปแบบของตึกแถว เพื่อความรู้สึกร่วมเป็นเจ้าของการดำเนินงานผ่านเครื่องมือประสานองค์กรชุมชน ถือเป็นกลไกสำคัญที่ช่วยให้การอนุรักษ์ตึกแถวเตี้ยมฉู่ไม่ใช่ภาระของประชาชนเพียงลำพัง แต่เป็นความร่วมมือที่เกิดจากความเข้าใจสนับสนุน และการมีส่วนร่วมทุกภาคทั้งภาครัฐ และการรวมกลุ่มเจ้าของอาคาร ช่างฝีมือ ท้องถิ่น นักอนุรักษ์ และเยาวชน เพื่อถ่ายทอดความรู้ระหว่างรุ่น สร้างความสัมพันธ์และเสริมสร้างพลังเครือข่ายการดูแลอาคารร่วมกันส่วนอันจะนำไปสู่การอนุรักษ์ที่มีคุณค่าทั้งในเชิงวัฒนธรรม สังคม เศรษฐกิจอย่างยั่งยืน

บทคัดย่อ

การวิจัยครั้งนี้มีวัตถุประสงค์เพื่อเก็บข้อมูลลักษณะอาคารภายนอก อาคารริมถนนชลาทัศน์ภายในมหาวิทยาลัยเทคโนโลยีราชมงคลศรีวิชัย ให้เป็นข้อมูลพื้นฐานในการกำหนดแนวทางการเลือกใช้รูปแบบทางสถาปัตยกรรมภายนอกอาคาร โดยใช้วิธีการเก็บข้อมูลภาคสนาม ถ่ายภาพ เพื่อนำมาวิเคราะห์และสังเคราะห์สู่การรายงานผล ภายใต้แนวทางการการศึกษารูปแบบเพื่อกำหนดแนวทางในการเลือกใช้รูปแบบทางสถาปัตยกรรมเพื่อให้เกิดความเหมาะสม ประกอบกับหลักการและทฤษฎีในการออกแบบ โดยการศึกษาวิเคราะห์ด้านกายภาพของอาคาร คือ ผังพื้น รูปทรงอาคาร รูปด้าน และหลังคา แบบขยายประตู – หน้าต่าง ซึ่งมีผลต่อรูปด้านภายนอกอาคาร

การวิจัยพบว่า อาคารริมถนนชลาทัศน์ ภายในมหาวิทยาลัยเทคโนโลยีราชมงคลศรีวิชัย รูปแบบภายนอกเป็นไปตามทิศทางเดียวกัน คือ วัสดุหลักอาคารประเภทเดียวกัน รูปแบบหลังคา สี ชนิดเดียวกัน มีความใกล้เคียงกัน และใช้วัสดุประกอบอาคารที่มีปัจจัยเรื่อง ข้อกำหนดในการออกแบบ เรื่องอาคารสาธารณะเพื่อการศึกษาเหมือนกัน แสดงออกถึงความสัมพันธ์กัน แสดงออกมาในรูปแบบของหลังคา สี รูปทรงและความสูงของอาคาร ซึ่งจะเป็นพื้นฐานของรายละเอียดในการออกแบบอาคารริมถนนชลาทัศน์ภายในมหาวิทยาลัยเทคโนโลยีราชมงคลศรีวิชัยต่อไป

คำสำคัญ: ลักษณะอาคารภายนอก, รูปแบบทางสถาปัตยกรรม, อาคารริมถนนชลาทัศน์

Abstract

The objective of the research project is to gather data related to exterior attributes of Building by on Chalatat Road , Rajamangala University of Srivijaya. The collected data and information can be applied and employed as basic guideline in designing proper architectural pattern of the building.The researcher had utilized various field data collection approaches in gathering and collecting data , making notes, photographs. All of the data will be brought brought to the analysis and the synthesis. After all the procedure, the guideline will be leaded to the selection of suitable architectural pattern. Somehow, related principles and theories are also needed to be considered during designing process

as well. In other words, the study and analyze of physical attributes of a building is mainly related to floor plan, elevation and roof, door and window plan of a building.

The finding of this study has indicated that buildings by on Chalatat Road in Rajamangala University of Srivijaya shared similar exterior design characteristics with others in the same kind. Hence, these buildings have utilized the same building materials, roof pattern and building paint. Furthermore, the buildings also strictly followed the principle on designing public buildings in educational purpose. As a result, the relationship between buildings was reflected through roof pattern, paint, shape and floor height. It is expected that this information and finding will soon be reconsidered as basic approach guideline for designing building near Chalatat Beach in Rajamangala University of Srivijaya.

Keywords: exterior attributes of Building , Architectural style , Building by on Chalatat Road

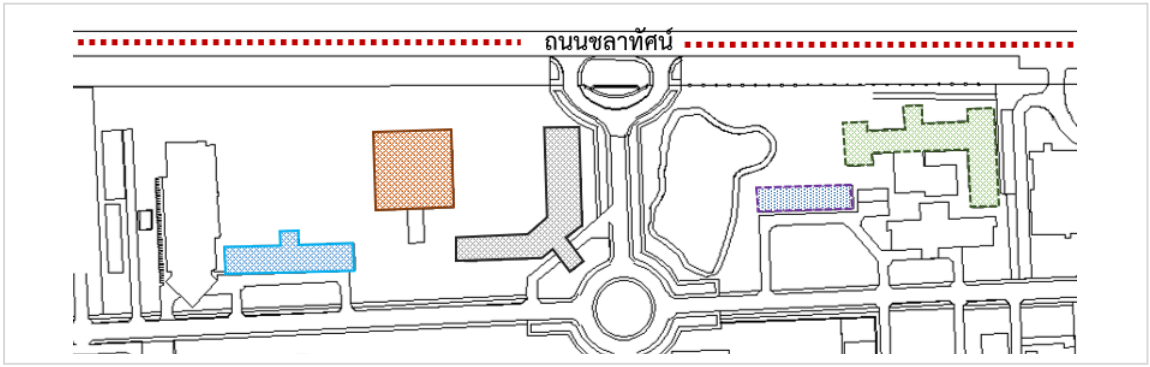
บทนำ

การศึกษารูปแบบสถาปัตยกรรม สะท้อนให้เห็นถึงสภาพความเป็นอยู่ของผู้คนและกิจกรรมการอยู่ร่วมกัน ภายใต้บริบทของสภาพแวดล้อมเฉพาะพื้นที่ ที่ส่งผลถึงรูปแบบทางสถาปัตยกรรม เป็นการแสดงออกความเป็นตัวตนในพื้นที่นั้น ๆ รวมถึงปัจจัยต่าง ๆ ที่ส่งผลให้เกิดรูปแบบทางสถาปัตยกรรมที่เหมาะสมกับสภาพแวดล้อมที่ที่มีฝนตกชุกเกือบทั้งปี รูปแบบที่เห็นได้ชัด เช่น ส่วนที่ใช้กันแดดกันฝน คือ หลังคา มักจะทำหลังคาทรงสูงมีความลาดชัน เพื่อให้น้ำฝนไหลผ่านสะดวก และมีการต่อชายคาคลุมบันได เนื่องจากภาคใต้มีฝนตกชุกมาก เสาเรือนไม่นิยมฝังลงไปในพื้นดิน แต่จะใช้ตอม่อหรือฐานเสาหรือเรียกว่า ตีนเสา ทำด้วยไม้เนื้อแข็ง ศิลาแลง หรือก่ออิฐฉาบปูนรองรับตัวเรือน ซึ่งจะนิยมสร้างให้สะดวกต่อการเคลื่อนย้าย (กรมส่งเสริมวัฒนธรรม. 2562)

การศึกษารูปแบบทางสถาปัตยกรรมในแต่ละพื้นที่ จะมีลักษณะของสถาปัตยกรรมที่เกิดขึ้นแตกต่างกันอย่างหลากหลายขึ้นอยู่กับแต่ละพื้นที่ เป็นสิ่งที่สะท้อนถึงสภาพของสังคม วัฒนธรรม การอยู่รวมกัน และการใช้งานภายในอาคารนั้น ๆ รูปแบบทางสถาปัตยกรรมในมหาวิทยาลัยเทคโนโลยีราชมงคลศรีวิชัย ก็เช่นกัน ที่มีเรื่องราวต่าง ๆ ของการจัดกิจกรรมในมหาวิทยาลัย บริบทรอบข้าง รวมถึงการขยายตัวของมหาวิทยาลัยเองได้แสดงออกมาในงานสถาปัตยกรรม โดยแฝงอยู่ในรูปทรงและแผนผังของอาคาร หลังจากการศึกษาแล้วได้ทราบถึงกิจกรรมต่าง ๆ ของผู้ใช้ภายในอาคาร ที่อาจจะส่งผลต่อรูปแบบทางสถาปัตยกรรม รวมถึง รูปร่าง ขนาด วัสดุ เฉพาะอาคารนั้น ๆ ด้วย

มหาวิทยาลัยเทคโนโลยีราชมงคลศรีวิชัยสงขลา เป็นสถาบันอุดมศึกษาด้านวิชาชีพและเทคโนโลยี จัดตั้งตามพระราชบัญญัติมหาวิทยาลัยเทคโนโลยีราชมงคล พ.ศ. 2548 มีวัตถุประสงค์ให้การศึกษา ส่งเสริมวิชาการและวิชาชีพชั้นสูงที่เน้นการปฏิบัติ ทำการสอน ทำการวิจัย ผลิตครูวิชาชีพ ให้บริการทางวิชาการในด้านวิทยาศาสตร์และเทคโนโลยี แก่สังคม ทำนุบำรุงศิลปและวัฒนธรรม และอนุรักษ์สิ่งแวดล้อม โดยให้ผู้สำเร็จอาชีวศึกษามีโอกาสในการศึกษาต่อด้านวิชาชีพเฉพาะทางระดับปริญญาเป็นหลัก ปัจจุบัน 2568 มีเป้าหมายเพื่อกำลังคนที่เป็นนักปฏิบัติมืออาชีพ ตอบโจทย์การพัฒนาแห่งอนาคต และเป็นเสาหลักของภูมิภาคเพื่อพัฒนาเศรษฐกิจฐานรากและมรดกทางวัฒนธรรมด้วยวิทยาศาสตร์เทคโนโลยีและนวัตกรรม ตั้งอยู่ที่ เลขที่ 1 ถนนราชดำเนินนอก ตำบลบ่อยาง อำเภอเมือง จังหวัดสงขลา เป็นมหาวิทยาลัย

ตั้งอยู่ติดกับทะเลอ่าวไทย มีสภาพอากาศแบบมรสุมและฝนตกชุกตลอดเกือบทั้งปี ด้วยปัจจัยดังกล่าวทำให้ต้องมีการศึกษารูปแบบและอัตลักษณ์เพื่อกำหนดแนวทางในการเลือกใช้รูปแบบทางสถาปัตยกรรมเพื่อให้เกิดความเหมาะสมและให้สอดคล้องกับวิสัยทัศน์เพื่อเป็นมหาวิทยาลัยมุ่งสร้างความเข้มแข็งและโดดเด่นตามอัตลักษณ์เชิงพื้นที่ โดยปัจจุบันมุ่งผลิตนักปฏิบัติ มืออาชีพที่สร้างสรรค์สังคม นอกเหนือจากผลิตครูวิชาชีพ ดังในอดีต



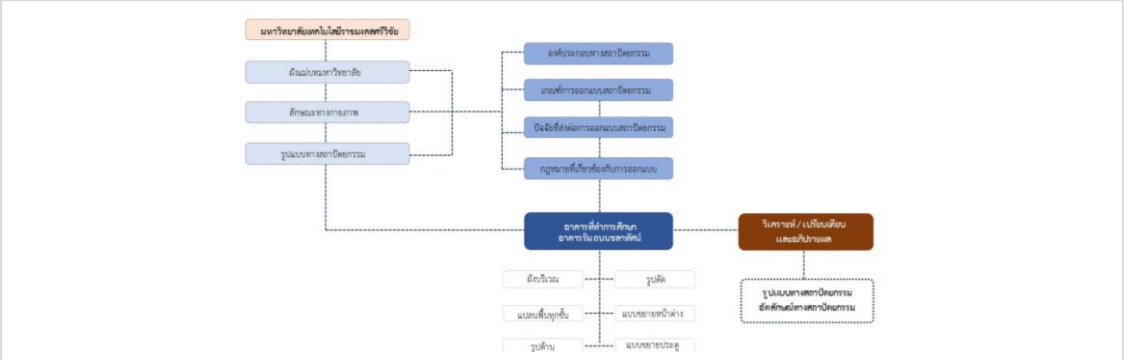
วัตถุประสงค์ของการวิจัย

1. เพื่อเก็บข้อมูลลักษณะรูปแบบภายนอกอาคาร
2. แนวทางการเลือกใช้รูปแบบภายนอกอาคาร และกรอบอาคาร

ขอบเขตการศึกษา

ขอบเขตด้านเนื้อหา : ศึกษารูปแบบภายนอกอาคาร ประกอบไปด้วย หลังคา ดาดฟ้า ผนังภายนอก ประตู หน้าต่าง และกรอบอาคาร องค์ประกอบสถาปัตยกรรมด้านขนาด สัดส่วน คือความสัมพันธ์กันระหว่างขนาด รูปร่าง รูปทรง เนื้อที่ (ฉัตร์ชัย อรรถปักษ์. 2550) ภายในมหาวิทยาลัยเทคโนโลยีราชมงคลศรีวิชัย กรณีศึกษา อาคารริมถนนชลาทัศน์ โดยใช้หลักการวิเคราะห์ และทฤษฎีการออกแบบทางสถาปัตยกรรม

ขอบเขตด้านพื้นที่ : ริมถนนชลาทัศน์ ภายในมหาวิทยาลัยเทคโนโลยีราชมงคลศรีวิชัย อาคาร 31 คณะสถาปัตยกรรมศาสตร์ อาคาร 55, 58, คณะศิลปศาสตร์

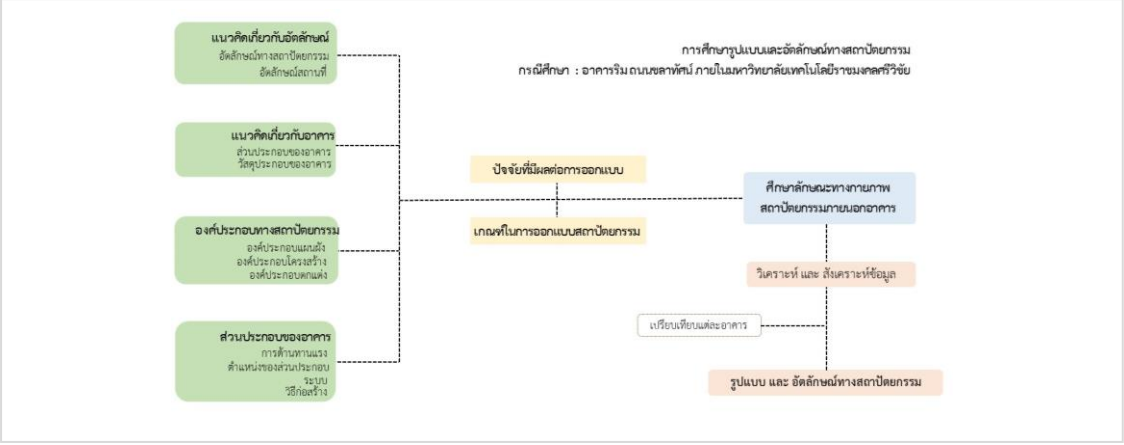


ภาพที่ 1 แผนที่แสดงอาคารริมถนนชลาทัศน์ ภายในมหาวิทยาลัยเทคโนโลยีราชมงคลศรีวิชัย

แนวคิด ทฤษฎี กรอบแนวคิด

ในการศึกษารูปแบบและอัตลักษณ์ทางสถาปัตยกรรมนั้น ต้องใช้แนวคิดและทฤษฎีในหลายองค์ประกอบด้วยกัน ไม่ว่าจะเป็น การศึกษาเรื่องแนวคิดเกี่ยวกับการออกแบบอาคาร การศึกษาลักษณะทางกายภาพอาคาร ทั้งรูปแบบภายนอกอาคาร ประกอบไปด้วย หลังคา ดาดฟ้า ผนังภายนอก ประตู หน้าต่าง กรอบอาคาร ที่ก่อรูปให้เกิดเป็นงานทางด้านสถาปัตยกรรม ซึ่งยังรวมไปถึงการใช้ประโยชน์ในอาคาร ซึ่งส่งผลไปถึงการออกแบบอาคารให้มีความเหมาะสมกับลักษณะเฉพาะของพื้นที่นั้นที่มีความเด่นชัดในเรื่องรูปร่าง รูปทรง วัสดุ และการนำมาใช้อย่างเหมาะสมกับสภาพแวดล้อม ในที่นี้จะหมายถึง กรณีศึกษาริมถนนชลาทัศน์ ภายในมหาวิทยาลัยเทคโนโลยีราชมงคลศรีวิชัยเท่านั้น

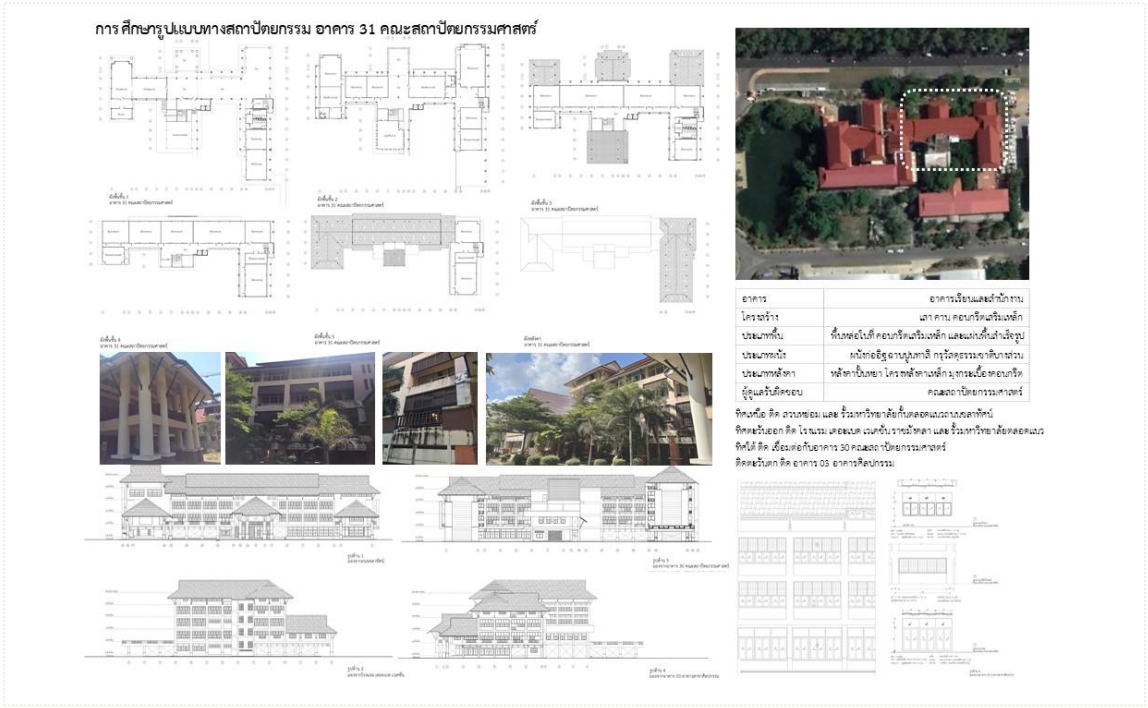
วิธีดำเนินการวิจัย



ภาพที่ 2 กรอบแนวคิดในการวิจัย

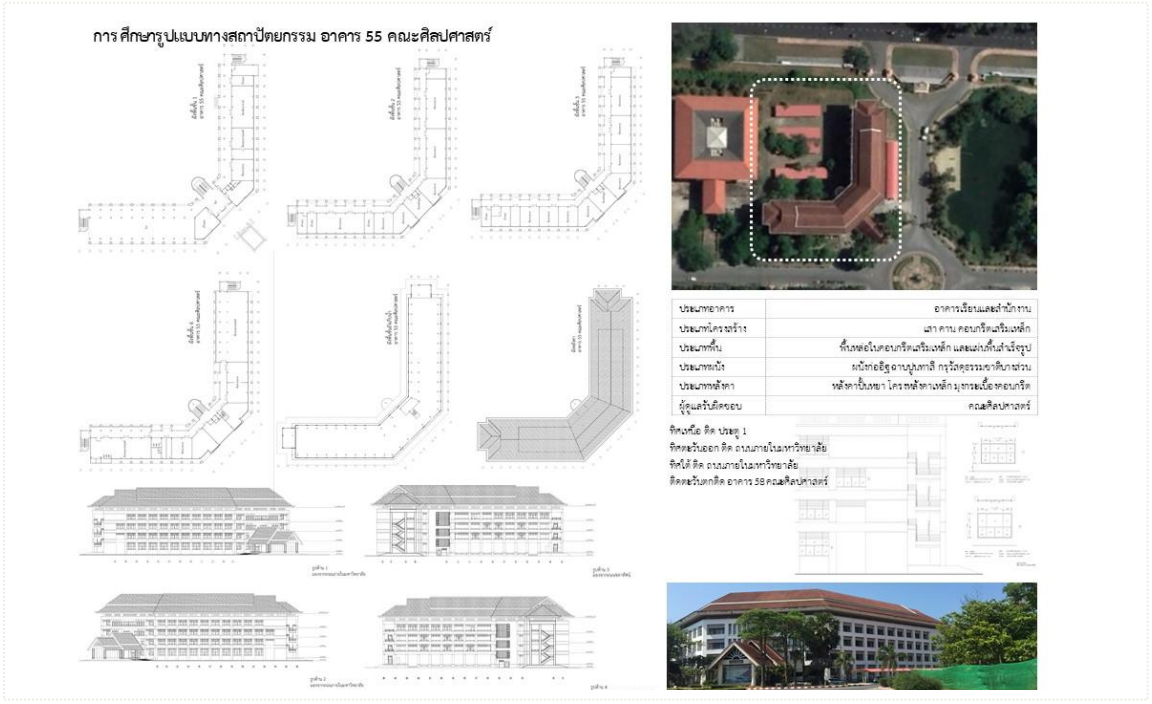
1. ขั้นสำรวจและศึกษาเอกสารที่เกี่ยวข้อง โดยการสำรวจรวบรวมจากแหล่งเอกสารต่าง ๆ เพื่อนำมาเป็นความรู้พื้นฐานและเป็นแนวทางในการศึกษาค้นคว้า

2. ขั้นเก็บรวบรวมข้อมูล ผู้วิจัยได้เก็บรวบรวมข้อมูลภาคสนามในพื้นที่ ในประเด็นการศึกษาตามขอบเขตด้านเนื้อหา ประกอบด้วยรูปแบบภายนอกอาคาร ประกอบไปด้วย หลังคา ดาดฟ้า ผนังภายนอก ประตู หน้าต่าง และกรอบอาคาร ด้วยวิธีการถ่ายภาพ ขั้นตอนการเขียนแบบอาคาร

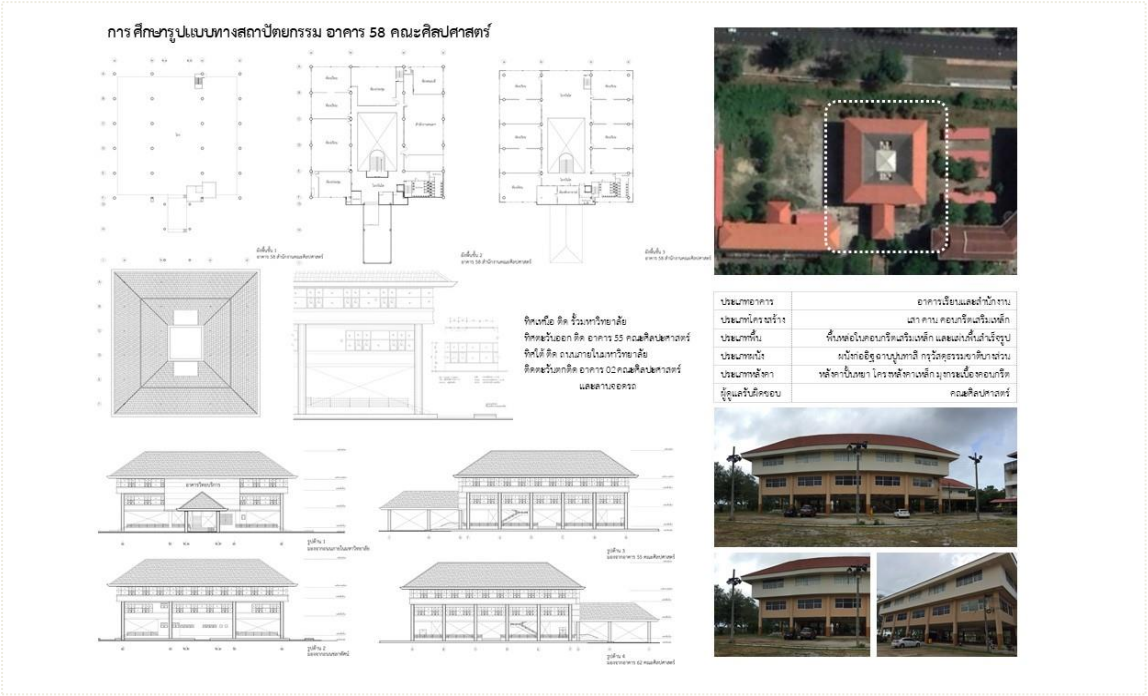


3. ขั้นจัดกระทำกับข้อมูล นำข้อมูลที่ได้จากการสำรวจมาสรุปสาระสำคัญตามในขอบเขตด้านเนื้อหา นำข้อมูลที่ได้จากการจดบันทึกไว้มาสรุปสาระสำคัญ ตามประเด็นที่กำหนดไว้ และนำภาพถ่ายและภาพเขียนลายเส้นมาตรวจสอบความสมบูรณ์และเลือกภาพประกอบให้สอดคล้องตามประเด็นที่กำหนดไว้ในขอบเขตด้านเนื้อหา

4. ขั้นเสนอผลการศึกษาค้นคว้า เสนอผลงานการศึกษาค้นคว้าโดยวิธีพรรณนาวิเคราะห์ มีภาพประกอบบางตอน แบบกรอบอาคาร และแนวคิดรูปแบบการพัฒนารูปแบบของอาคาร

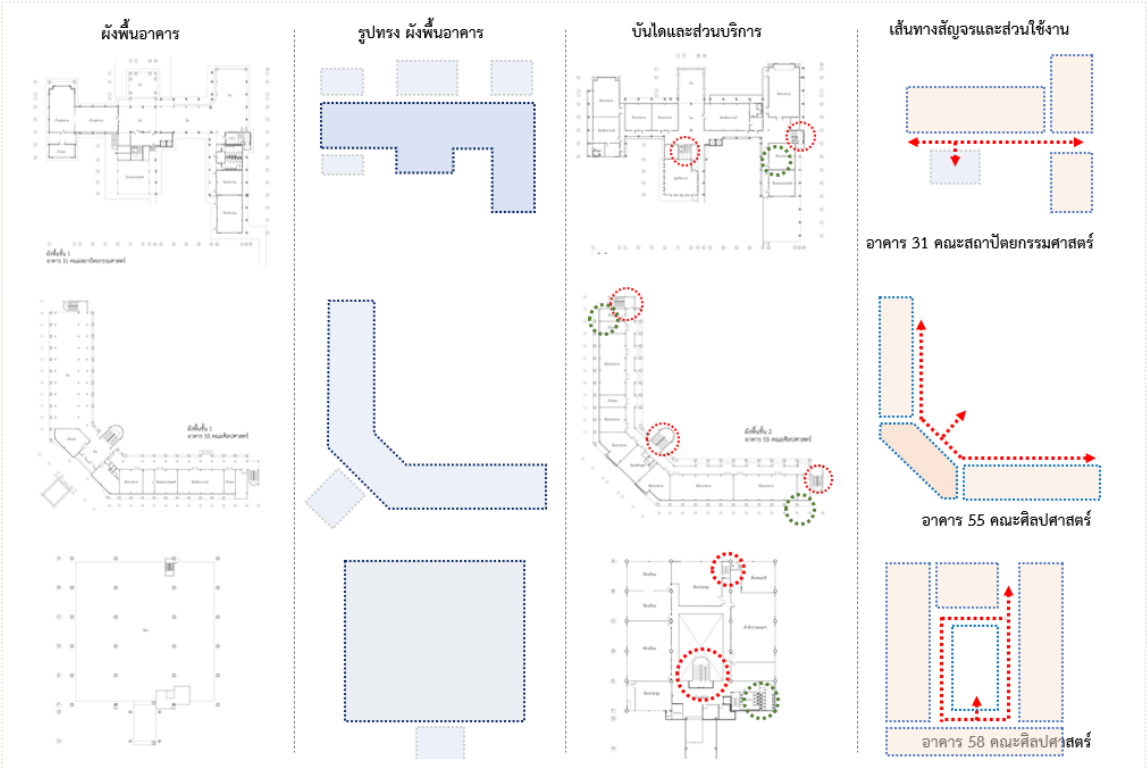


ภาพที่ 3 วิธีการศึกษา



ผลการวิจัย

ภาพที่ 4 ผลการสำรวจ อาคาร 31 คณะสถาปัตยกรรมศาสตร์



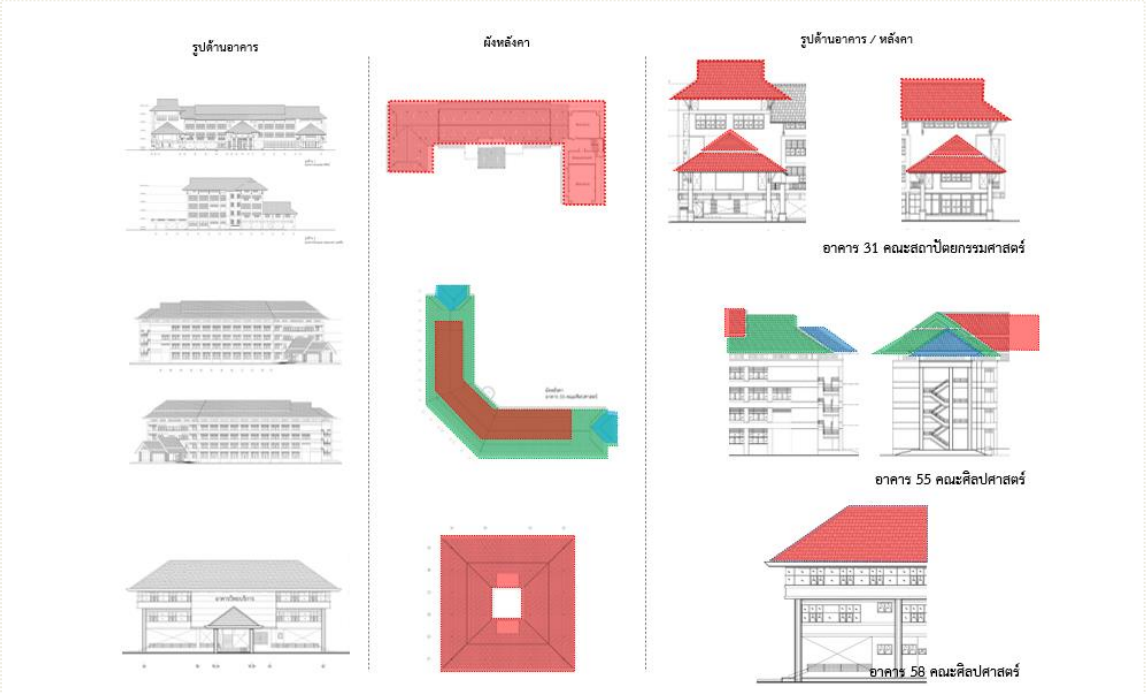
ภาพที่ 5 ผลการสำรวจ อาคาร 55 คณะศิลปศาสตร์

ภาพที่ 6 ผลการสำรวจ อาคาร 58 คณะศิลปศาสตร์

ผลการวิเคราะห์ด้านกายภาพ (ผังพื้นและรูปทรงอาคาร)

ภาพที่ 7 วิเคราะห์ผังพื้นและรูปทรงอาคาร อาคาร 31 , 55 , 58

อาคาร 31 คณะสถาปัตยกรรมศาสตร์ วางผังแบบใช้รูปทรงแนวนอน มากำหนดให้ขนานไปกับรั้วตามแนวแกนเหนือ ใต้ ทำให้เกิดรูปทรงสี่เหลี่ยมผืนผ้าแนวนอนเป็นแกนอาคาร และใช้รูปทรงสี่เหลี่ยมแนวตั้งต่อกันช่วงปลาย และมีปัจจัยในเรื่องการต่อเติมจากอาคารเดิม ต่อเติมส่วนปลายอาคารเดิมเป็นห้องเรียน ห้องปฏิบัติการ และรูปทรงช่วงกลางอาคารเป็นการต่อเติมเป็นระเบียงหน้าของอาคาร มีส่วนบริการอยู่ส่วนกลาง เป็นการจัดผังทางสัญจร เป็นระเบียงริมอาคารทิศใต้ พื้นที่ใช้สอยด้านเดียว ทิศเหนือและพื้นที่ใช้สอยปีกอาคารอยู่ทั้งทิศตะวันตกและตะวันออก ด้านยาวอยู่ทิศเหนือ และทิศใต้ ส่วนด้านสั้นอยู่แนวทิศตะวันตกและทิศตะวันออก



อาคาร 55 คณะศิลปศาสตร์ วางผังแบบใช้รูปทรงแนวตั้งและแนวนอน เป็นตัวกำหนดนำมาต่อกันแล้วใช้เส้นเอียง 45 องศามาเป็นตัวเชื่อมรูปทรง การกำหนดรูปทรงมีปัจจัยเรื่องถนน ตัวอาคารติดถนนหลัก 2 ด้าน และติดลานจอดรถ 2 ด้าน เกิดรูปทรงสี่เหลี่ยมผืนผ้าแนวตั้งและแนวนอนบรรจบกัน ทำมุม 45 องศา ทางสัญจรภายในอาคาร มีทั้งแนวตั้ง แนวนอนและแนวทแยง เพื่อเชื่อมพื้นที่ใช้สอยที่เป็นห้องเรียนส่วนบริการอยู่กลางอาคาร จัดทางสัญจรระเบียงริมอาคาร ทางสัญจรทางทิศตะวันตกเป็นเส้นแนวตั้งและทางสัญจรทางทิศใต้ เป็นเส้นแนวนอน พื้นที่ใช้สอยด้านยาวอยู่ทิศตะวันออก และทิศใต้ ส่วนด้านสั้นอยู่แนวทิศเหนือและทิศตะวันตก

อาคาร 58 คณะศิลปศาสตร์ วางผังแบบใช้รูปทรงสี่เหลี่ยมจัตุรัสมาเป็นตัวกำหนด เจาะช่องกลางอาคารเพื่อนำแสงธรรมชาติเข้ามาใช้ รูปทรงมีปัจจัยเรื่องพลังงานหมุนเวียนในอาคาร ตัวอาคารติดแนวรั้วภายนอก มีพื้นที่สวนหน้าอาคาร ทำให้มีระยะห่างระหว่างตัวอาคารและถนนหลักภายใน ทางสัญจรภายในอาคารสามารถเชื่อมกันเป็นรูปสี่เหลี่ยมตามรูปทรงอาคาร บันไดหลักกลางอาคารเชื่อมพื้นที่ใช้สอยที่เป็นห้องเรียน ห้องปฏิบัติการ ทางสัญจรเป็นแบบระเบียงภายในอาคารสามารถมองเห็นภายในอาคารได้ทุกชั้นจากโถงโล่งชั้น 1

จากการศึกษาเบื้องต้นลักษณะทางกายภาพ (ผังพื้นและรูปทรงอาคาร) พบว่า รูปทรงอาคารมีผลมาจากแกนถนนภายใน 1 อาคาร อาคาร 55 ผลมาจากการการต่อเติม 1 อาคาร อาคาร 31 มีผลมาจากการจัดการเรื่องสภาวะแวดล้อม 1 อาคาร อาคาร 58 โดยทั้งหมดใช้รูปทรงเรขาคณิต ทั้งสิ้น แบ่งเป็นรูปทรงสี่เหลี่ยมจัตุรัส 1 อาคาร อาคาร 58 รูปทรงสี่เหลี่ยมด้านไม่เท่า 2 อาคาร (อาคาร 31, 55) ทำให้การเลือกใช้รูปทรงอาคารมีปัจจัยที่แตกต่างกันออกไป ตามปัจจัยข้างต้นดังกล่าว

จากการสำรวจพบว่า อาคารริมถนนชลาทัศน์มีความหลากหลายทางรูปแบบสถาปัตยกรรมที่สะท้อนถึงการออกแบบเพื่อให้เหมาะสมกับการใช้งาน การจัดการพื้นที่ในอาคารหรือภายในอาคารต้องคำนึงถึงการใช้พื้นที่ให้เกิดประโยชน์สูงสุด เช่น พื้นที่ห้องเรียนในโรงเรียนต้องออกแบบให้สะดวกในการจัดการกับนักเรียนและอุปกรณ์การเรียนการสอน (เลอสม สถาปิตานนท์. 2553) ความต้องการเฉพาะของแต่ละคณะและบริบททางภูมิอากาศในพื้นที่ภาคใต้ของประเทศไทย โดยมีลักษณะเฉพาะ เช่น การเลือกใช้วัสดุสมัยใหม่ การออกแบบเพื่อรองรับการระบายอากาศธรรมชาติ และการใช้แนวคิดการออกแบบสถาปัตยกรรมสมัยใหม่ (MODERNISM) คือ ลักษณะของสถาปัตยกรรมแบบใหม่ที่เกิดขึ้นโดยสืบเนื่องจากหลายปัจจัยทั้งตัวสถาปนิกเอง และสภาพแวดล้อมต่าง ๆ ทั้งในและต่างประเทศ ผลการออกแบบของสถาปนิกไทยรุ่นบุกเบิกผสมผสานกับเอกลักษณ์ท้องถิ่น (ใจรัก จันทร์สิน. 2549)

วิเคราะห์ด้านกายภาพ (รูปด้าน และหลังคา)

ภาพที่ 8 วิเคราะห์รูปด้าน และหลังคา อาคาร 31 ,03 , 02

อาคาร 31 คณะสถาปัตยกรรมศาสตร์ รูปด้านภายนอกอาคารเป็นคอนกรีต เจาะช่องเปิดหน้าต่าง วัสดุอะลูมิเนียมสีเทา กระจกสีขาวใส ขนาดครึ่งความสูงของผนังและมีเกล็ดบังแดดแนวนอน ทำด้วยไม้เนื้อแข็งทาสีน้ำตาลเข้ม ตัวอาคารภายนอกทาสีไข่ไก่ และสีครีม หลังคาคลุมอาคารทรงมะนิลา มุงด้วยกระเบื้องคอนกรีตสีส้มแบบมัน ชายคายาวมีค้ำยันหลังคาทุกช่วงเสา รูปด้านอาคาร 1 มี 3 จั่ว หันด้านหน้าจั่วออกมาทางถนนชลาทัศน์ มีการนำเอกลักษณ์มาใช้ประกอบอาคาร ทั้งรูปทรงหลังคา วัสดุ และรายละเอียดของราวกันตก

อาคาร 55 คณะศิลปศาสตร์ รูปด้านภายนอกอาคารเป็นคอนกรีต เจาะช่องเปิดหน้าต่าง วัสดุอะลูมิเนียมสีเทา กระจกสีขาวใส ขนาดครึ่งความสูงของผนังและมีแผงบังแดดแนวนอนทำด้วยคอนกรีตทาสีขาว อาคารภายนอกสีขาว หลังคาคลุมอาคาร 3 ชั้น ทรงปั้นหยา และหลังคาทรงมะนิลา มุงด้วยกระเบื้องคอนกรีตสีอิฐ ชายคายาวมีช่องระบายอากาศระหว่างตัวอาคารกับหลังคา แผงกันแดดแนวนอนที่ช่องหน้าต่างโดยรอบอาคาร บันไดทางสัญจรปลายอาคารเปิดโล่งโชว์โครงสร้างทั้งสองฝั่ง ลักษณะเฉพาะของการนำมาใช้ประกอบอาคาร ทั้งรูปทรงหลังคา วัสดุ และรายละเอียดของราวกันตก

อาคาร 58 คณะศิลปศาสตร์ รูปด้านภายนอกอาคารเป็นคอนกรีต เจาะช่องเปิดหน้าต่าง วัสดุอะลูมิเนียมสีเทา กระจกสีเขียวใส ขนาดครึ่งความสูงของผนัง ชั้น 1 เป็นโถงโล่ง โชว์โครงสร้างเสากลมจนถึงชั้น 2 เสาชั้น 1 ทาสีน้ำตาลเข้มครึ่งล่าง ตัวอาคารภายนอกทาสีไข่ไก่ และสีเนื้อ รูปทรงขยายออกเป็นแบบพีระมิดหงาย หลังคาคลุมอาคารทรงปั้นหยา ตรงกลางเปิดช่องโล่ง หลังคามุงกระเบื้องคอนกรีตสีอิฐ รูปด้านอาคารเห็นได้จากถนนภายใน รูปด้านอาคาร 2 ไม่ปรากฏลักษณะเฉพาะการนำเอกลักษณ์มาใช้ประกอบอาคาร ทั้งรูปทรงหลังคา วัสดุตกแต่งประกอบอาคาร

จากการศึกษาเบื้องต้นเรื่องลักษณะทางกายภาพ (รูปด้าน และหลังคา) พบว่าใช้รูปทรงหลังคารูปแบบมะนิลา 3 อาคาร (อาคาร 31, อาคาร 03) ใช้รูปทรงหลังคารูปแบบปั้นหยา 2 อาคาร (อาคาร 58, 02) ใช้รูปทรงหลังคารูปแบบปั้นหยาผสมรูปแบบมะนิลา คือ อาคาร 55 โดยทั้งหมด 6 อาคารใช้รูปทรงเรขาคณิต มีความสูงของอาคาร ได้แก่ อาคารคอนกรีตเสริมเหล็กสูง 5 ชั้น 2 อาคาร (อาคาร 31) อาคารคอนกรีตเสริมเหล็กสูง 4 ชั้น 3 อาคาร (อาคาร 03, อาคาร 55, อาคาร 02) อาคารคอนกรีตเสริมเหล็กสูง 3 ชั้น 1 อาคาร (อาคาร 58)

ลักษณะทางกายภาพ (แบบขยายประตู – หน้าต่าง)

อาคาร 31 คณะสถาปัตยกรรมศาสตร์ หน้าต่างอะลูมิเนียม บานเลื่อนสลับ/ ช่องแสงบานติดตาย วงกบอะลูมิเนียม กรอบบานอลูมิเนียมสีขาว หนา 1.2 ม.ม. กระจกใสสีขาว หนา 4.5 ม.ม. ช่องแสงกรอบบานอลูมิเนียมสีขาว หนา 1.2 ม.ม. กระจกใสสีขาว หนา 4.5 ม.ม. แผงเกล็ดกันแดด วงกบกรอบไม้เนื้อแข็ง 2 x 4 นิ้ว ทาสีน้ำมัน แบ่ง 5 ช่อง ระยะช่องละไม่เกิน 0.70 เซนติเมตร เกล็ดกันแดด เป็นเกล็ดไม้สำเร็จรูป หนา ½ นิ้ว กว้าง 4 นิ้ว ทาสีน้ำมัน

อาคาร 55 คณะศิลปศาสตร์ หน้าต่างอะลูมิเนียมบานเลื่อนสลับ/ช่องแสงบานติดตาย วงกบ/กรอบบานอลูมิเนียมสีขาว หนา 1.2 ม.ม. กระจกใสสีขาว 4.5 ม.ม. กรอบบานอลูมิเนียมสีขาว 1.2 ม.ม. กระจกใสสีขาว 4.5 ม.ม. แผงกันแดด คอนกรีตสำเร็จรูป หนา 2 นิ้ว กว้าง 6 นิ้ว 3 ชิ้น ทาสีขาว

อาคาร 58 คณะศิลปศาสตร์ หน้าต่างอะลูมิเนียม บานเลื่อนสลับ/ช่องแสงบาน ติดตาย วงกบ/กรอบบานอลูมิเนียมสีชา 1.2 ม.ม. กระจกสีชา 4.5 ม.ม. ช่องแสงกรอบบานอลูมิเนียมสีชา 1.2 ม.ม. กระจกสีชา 4.5 ม.ม.

จากการศึกษาเบื้องต้นเรื่องลักษณะทางกายภาพ (แบบขยายประตู – หน้าต่าง) จากการศึกษาพบว่า อาคารริมถนนชลาทัศน์ ส่วนใหญ่ใช้หน้าต่างอะลูมิเนียมแบบบานเลื่อน และด้านบนเป็นกรอบหน้าต่างอะลูมิเนียมแบบติดตาย และใช้กระจกใส เพียงแต่มีความแตกต่างเรื่องสีซึ่งจะมีสีขาวใส สีขาวตัดแสง สีชา และ สีเขียว หนา 1.2 ม.ม แทบทั้งสิ้นแต่มี 2 อาคาร (อาคาร 30 , อาคาร 55) ที่มีแผงกันแดดอาคาร โดยอาคาร 30 ใช้วัสดุ วงกบไม้เนื้อแข็ง 2 x 4 นิ้ว ทาสีน้ำมันและเกล็ดกันแดด เป็นเกล็ดไม้สำเร็จรูป หนา ½ นิ้ว กว้าง 4 นิ้ว ทาสีน้ำมันส่วนอาคาร 55 แผงกันแดด วัสดุเป็นคอนกรีตสำเร็จรูป ทาสีขาว ไม่มีวงกบ ซึ่งติดตั้งเข้ากับตัวอาคารเลย

ตารางที่ 1 เปรียบเทียบแนวทางการเลือกใช้รูปแบบลักษณะทางกายภาพของอาคาร

องค์ประกอบ	**อาคาร 31 คณะสถาปัตยกรรมศาสตร์**	**อาคาร 55 คณะศิลปศาสตร์**	**อาคาร 58 คณะศิลปศาสตร์**
รูปทรงอาคาร	สี่เหลี่ยมผืนผ้าแนวนอน ต่อเติมกลาง/ปลายอาคาร	แนวตั้ง - แนวนอน เชื่อมอาคารด้วยมุม 45°	สี่เหลี่ยมจัตุรัส เจาะช่องกลางอาคาร
วัสดุภายนอก	ค.ส.ล. ทาสีไข่ไก่/ครีม	ค.ส.ล. สีขาว	ค.ส.ล. สีไข่ไก่/เนื้อ
ทางสัญจรภายใน	ระเบียงทิศใต้, พื้นที่ใช้สอยทิศเหนือ	แนวตั้ง แนวนอน ทแยง, บริการกลาง	โถงกลาง, ระเบียงภายใน
รูปด้านอาคาร	คอนกรีต, หน้าต่าง อลูมิเนียมกระจกใส เกล็ดไม้	คอนกรีต หน้าต่างอลูมิเนียม กระจกใส บังแดดคอนกรีต	คอนกรีต หน้าต่างอลูมิเนียม สีชา โถงเปิดโล่ง
วัสดุตกแต่งเสริม	เกล็ดไม้เนื้อแข็ง ทาสีน้ำตาลเข้ม	แผงกันแดดแนวตั้งคอนกรีต	ไม่มีเด่นชัด

ตารางที่ 1 (ต่อ)

องค์ประกอบ	อาคาร 31 คณะสถาปัตยกรรมศาสตร์	อาคาร 55 คณะศิลปศาสตร์	อาคาร 58 คณะศิลปศาสตร์
รูปแบบหลังคา	มะนิลา 3 จั่ว กระเบื้องสีส้ม	ปั้นหยาผสมมะนิลา กระเบื้องสีอิฐ	ปั้นหยา พีระมิดหงาย มีช่องเปิดกลางอาคาร
วัสดุประตู – หน้าต่าง	อะลูมิเนียมสีขาวกระจกใส เกล็ดไม้บังแดด	อะลูมิเนียมสีขาวกระจกใส แผงคอนกรีต	อะลูมิเนียมสีชากระจกสีชา
ขนาด/ความสูง	ค.ส.ล. 5 ชั้น	ค.ส.ล. 4 ชั้น	ค.ส.ล. 3 ชั้น
แนวคิดรูปแบบทางสถาปัตยกรรม	ใช้วัสดุธรรมชาติแนวคิด การออกแบบสมัยใหม่	คำนึงถึงบริบทถนน 2 ด้าน	เน้นพลังงานธรรมชาติ แสงและลม
แนวทางเลือกใช้กรอบอาคาร	วัสดุเน้นทนทาน ระบายอากาศดี	ผสมผสานวัสดุสำเร็จรูป	เรียบง่าย โปร่ง

สรุปและอภิปรายผล

ผลจากการวิจัย ผู้วิจัยได้สรุปการวิเคราะห์ด้านกายภาพของอาคาร เป็น 3 หัวข้อ คือ ผังพื้นและรูปทรงอาคาร, รูปด้าน และหลังคา, แบบขยายประตู – หน้าต่าง ซึ่งมีรายละเอียดย่อยในแต่ละหัวข้อ ซึ่งผู้วิจัยได้รายงานผลการเปรียบเทียบดังนี้

การวิเคราะห์ด้านกายภาพ (ผังพื้นและรูปทรงอาคาร) ปัจจัยเรื่องการกำหนดผังพื้นและรูปทรงอาคาร มีประเด็นที่พบจากการสำรวจ คือ ปัจจัยที่ส่งผลในการเลือกใช้รูปทรงอาคาร คือ แนวถนนภายในมหาวิทยาลัย ส่งผลให้แนวแกนหลักของทุกอาคารที่ทำการศึกษาขนานไปกับถนนด้านหน้าตำแหน่ง ส่วนบริการอาคารอยู่ตรงกลาง และ ปลายทั้งสอง ทำให้การเลือกใช้รูปทรงสี่เหลี่ยมผืนผ้ามีความเหมาะสมในการเลือกใช้ นอกจากนั้นยังสำรวจพบอาคารที่มีผลจากปัจจัยดังกล่าวแต่มีถนน 2 ด้าน ทำให้เกิดการเลือกใช้รูปทรงสี่เหลี่ยมผืนผ้ามาต่อกันจากทางตรงและทางนอนแล้วใช้มุม 45 องศา ในการเชื่อมรูปทรงและตำแหน่งส่วนบริการอาคารอยู่ตรงกลางและปลายทั้งสอง เหมือนเดิมและปัจจัยที่ส่งผลโดยตรงต่อการกำหนดขอบเขตอาคารจากการขยายตัวหรือความต้องการพื้นที่ใช้สอยอาคาร ทำให้เกิดรูปร่าง รูปทรงอาคารที่มีความแตกต่างกันออกไป แต่อยู่ภายใต้ปัจจัยเรื่องเกณฑ์การออกแบบอาคารเพื่อการศึกษาที่จะต้องมีรูปแบบพื้นที่ใช้สอยที่เอื้ออำนวยต่อการจัดการเรียนการสอน ทั้งในด้านความสว่าง การจัดวางผังครุภัณฑ์และการเข้าถึงพื้นที่ใช้สอย ปัจจัยเรื่องกฎหมายประกอบอาคาร แต่ยังใช้รูปทรงสี่เหลี่ยมมาเป็นตัวกำหนดรูปทรงอาคารเช่นเดียวกัน ซึ่งเป็นรูปร่างรูปแบบเดียวกันกับอาคารในตำแหน่งอื่น ๆ ภายในมหาวิทยาลัย

การศึกษาเชิงเปรียบเทียบด้านกายภาพ

อาคาร 31 มีรูปทรงแนวนอนแบบสี่เหลี่ยมผืนผ้า ต่อเติมช่วงปลายและกลางอาคาร ตามแนวถนน

อาคาร 55 มีการจัดวางผังผสมแนวตั้ง - แนวนอน เชื่อมด้วยมุม 45 องศา

อาคาร 58 มีลักษณะเป็นสี่เหลี่ยมจัตุรัส เจาะช่องกลางอาคารเพื่อรับแสงจากธรรมชาติ

ทั้งสามอาคารเน้นรูปทรงเรขาคณิตที่เหมาะสมกับการจัดพื้นที่ใช้สอย และการใช้งานภายใน เช่น ห้องเรียนและห้องปฏิบัติการ ส่วนสำนักงาน และแกนบริการอาคาร

การวิเคราะห์ด้านกายภาพ (รูปด้านและหลังคา) ปัจจัยเรื่องการกำหนดรูปทรง รูปด้าน อาคาร ที่พบจากการสำรวจ คือ ทุกอาคารมีรูปทรงรูปด้านเป็นแบบสี่เหลี่ยมผืนผ้าขนาดต่าง ๆ ขึ้นอยู่กับความสูง ของอาคารนั้น ๆ แต่พบอาคารที่รูปด้านมีรูปทรงเป็นแบบพีระมิดคว่ำ ช่องเปิดของอาคารเป็นแบบ สี่เหลี่ยมตามรูปทรงของเปลือกอาคาร ส่วนรูปแบบของหลังคาที่สำรวจพบว่า ทุกอาคารใช้รูปทรงแบบ มะนิลา ที่มีความเหมาะสมกับสภาพอากาศของพื้นที่ และใช้รูปทรงปั้นหยาที่มีความเหมาะสมเรื่องการ ดูแลรักษา และสำรวจพบอาคารใช้รูปแบบหลังคาผสมกัน หลังคาทรงสูงมีความลาดชัน เพื่อให้น้ำฝนไหล ผ่านสะดวก และมีการต่อชายคาคลุมบันไดเนื่องจากภาคใต้มีฝนตกชุกมาก

ลักษณะภายนอกของอาคารทั้งหมดที่สำรวจพบ สีที่ใช้เป็นสีโทนอ่อน ตั้งแต่สีขาว ครีม ไข่ไก่ ส้มอ่อน น้ำตาล เป็นต้น วัสดุหลักอาคารเป็นคอนกรีต ทั้งโครงสร้างและเปลือกอาคาร แต่มีวัสดุอื่น ๆ ที่ใช้ ประกอบอาคาร แต่เป็นวัสดุธรรมชาติ เช่น หินแกรนิต อิฐ ไม้เนื้อแข็ง วัสดุเลียนแบบธรรมชาติอื่น ๆ จะมี ความแตกต่างจากรูปแบบอาคารตำแหน่งอื่น ๆ ในมหาวิทยาลัย เนื่องจากยังไม่ได้รับการปรับปรุง

การศึกษาเชิงเปรียบเทียบรูปด้าน และหลังคา

อาคาร 31 หลังคาทรงมะนิลา 3 จั่ว มุงกระเบื้องสีส้ม พร้อมเกล็ดไม้บังแดด

อาคาร 55 หลังคาผสมมะนิลา-ปั้นหยา มุงกระเบื้องสีอิฐ มีแผงบังแดดคอนกรีต

อาคาร 58 ใช้หลังคาทรงปั้นหยาเปิดช่องกลาง ใต้ถุนชั้น 1 เปิดโล่ง เสาโครงสร้างเด่นชัด

ทุกอาคารมีรูปด้านที่สะท้อนการใช้วัสดุหลักประเภทเดียวกัน คือ คอนกรีต เสริมด้วยวัสดุธรรมชาติ เช่น ไม้และอิฐ เพื่อการตกแต่งอาคาร

การวิเคราะห์ด้านกายภาพ (แบบขยายประตู – หน้าต่าง) ปัจจัยเรื่องการเลือกใช้รูปแบบ และ วัสดุ ของประตู – หน้าต่าง ที่พบจากการสำรวจ คือ วัสดุหลักส่วนใหญ่ของทุกอาคารที่ทำการศึกษาพบว่า เป็นอะลูมิเนียม ใช้รูปแบบบานเลื่อน และบานติดตาย มีผลมากจากเรื่องการบำรุง ดูแลรักษา และความ เหมาะสมกับสภาพแวดล้อม สภาพอากาศ รวมถึงเรื่องอายุการใช้งาน เป็นสำคัญ และใช้วัสดุกระจกกับ บานหน้าต่างทั้งหมด จากการสำรวจไม่ปรากฏบานทึบเลยในทุกอาคาร โดยกระจกที่เลือกใช้มีสีขาวใส สีขาวตัดแสง สีชา สีเขียว ปัจจัยเลือกใช้ คือ เรื่องแสงสว่างภายในห้องเรียนต้องมีความสว่างเพียงพอ ที่เอื้ออำนวยต่อการเรียน จากการสำรวจยังพบการใช้ม่านบังแสงแนวตั้งแบบทึบภายในอาคารอีกด้วย

พบว่า รูปแบบภายนอกเป็นไปตามทิศทางเดียวกัน คือ ใช้วัสดุหลักอาคารประเภทเดียวกัน รูปแบบ หลังคา สี ใกล้เคียงกัน วัสดุประกอบอาคารที่มีปัจจัยเรื่องข้อกำหนดในการออกแบบเรื่องอาคารสาธารณะ เพื่อการศึกษา ซึ่งมีแสดงออกถึงวัสดุที่มีความสัมพันธ์ในมหาวิทยาลัย พบว่ามีความแตกต่างเรื่องวัสดุ สมัยใหม่ที่ส่งผลต่อรูปแบบในแง่ความรู้สึกได้ไม่เท่ากับวัสดุแบบเก่า อย่างไรก็ตาม การประยุกต์ใช้วัสดุ สมัยใหม่โดยเลียนแบบให้คล้ายของเดิม ให้มีประสิทธิภาพ ความคงทน เพื่ออายุของงานสถาปัตยกรรม ที่ยาวนาน จะมีความเหมาะสมเป็นอีกทางเลือกหนึ่ง (เชษฐา พลายชุม , 2562) ที่แสดงออกมาในรูปแบบ ของ รูปแบบหลังคา สี รูปทรง ความสูงของอาคาร ซึ่งจะเป็นพื้นฐานของรายละเอียดในการออกแบบ อาคาร ริมถนนชลาทัศน์ ต่อไป

การศึกษาเชิงเปรียบเทียบประตู–หน้าต่าง และกรอบอาคาร

อาคาร 31 สีขาวพร้อมเกล็ดไม้บังแดด

อาคาร 55 แผงกันแดดคอนกรีตสำเร็จรูป

อาคาร 58 กระจกสีชาและไม่มีแผงกันแดดชัดเจน

อาคารทั้งหมดใช้กรอบหน้าต่างอะลูมิเนียมบานเลื่อนและบานติดตาย ร่วมกับกระจกใส แนวทางเลือกใช้วัสดุมีปัจจัยหลัก คือ ความคงทนต่อสภาพอากาศ ความสะดวกในการบำรุงรักษาและความเหมาะสมด้านการใช้งานเชิงแสง

แม้รูปแบบทางสถาปัตยกรรมที่ปรากฏจะสามารถสะท้อนแนวคิดด้านการออกแบบที่สอดคล้องกับการใช้งานได้ในระดับหนึ่ง แต่อย่างไรก็ตาม ยังพบว่า มีปัจจัยแวดล้อมอื่น ๆ ที่ส่งผลกระทบต่อการกำหนดรูปแบบสถาปัตยกรรม ซึ่งควรได้รับการวิเคราะห์ในเชิงลึกมากขึ้น ได้แก่

- งบประมาณในการก่อสร้าง – งบประมาณที่จำกัดอาจจำกัดวัสดุและแนวทางการออกแบบ
- ราคาวัสดุก่อสร้างในแต่ละช่วงเวลา – มีผลโดยตรงต่อการเลือกใช้วัสดุและองค์ประกอบ
- ความต้องการใช้สอยเฉพาะของแต่ละคณะ – ส่งผลต่อการกำหนดพื้นที่ หน้าที่ใช้สอย ความเฉพาะของวิธีการสอนและรูปแบบที่แตกต่างกัน
- ความก้าวหน้าทางวิศวกรรม – เทคโนโลยีการก่อสร้าง วัสดุเปลี่ยนไป ส่งผลต่อรูปแบบอาคาร
- การออกแบบโดยบุคคลภายนอกมหาวิทยาลัย – สถาปนิกหรือผู้ออกแบบในส่วนที่เกี่ยวข้องไม่ได้อยู่ภายในองค์กร อาจมีแนวคิดที่ไม่สอดคล้องกับภาพรวมของมหาวิทยาลัย

ตารางที่ 2 แนวทางการเลือกใช้รูปแบบภายนอกอาคารและกรอบอาคาร

องค์ประกอบ	แนวทางการเลือกใช้ / แนวคิด
1. รูปแบบหลังคา	ทรงมะนิลา / ปั้นหยา / ผสม เพื่อระบายน้ำฝนได้ดี เหมาะสมกับสภาพอากาศภาคใต้ที่ฝนตกชุก
2. ผนังภายนอก / วัสดุหลัก	โครงสร้าง ค.ส.ล. ผิวภายนอกสีโทนอ่อน (ขาว, ครีม, ไข่ไก่) เพื่อความกลมกลืนกับบริบทธรรมชาติ
3. ช่องเปิด (ประตู-หน้าต่าง)	อะลูมิเนียมบานเลื่อน + ช่องแสงบานติดตาย, กระจกใส (ขาว/เขียว/ชา), ไม่มีบานทึบ เพื่อแสงธรรมชาติ
4. แผงกันแดด / เกล็ดบังแดด	ไม้เนื้อแข็ง หรือคอนกรีตสำเร็จรูป ช่วยลดแสงจ้าและความร้อน เหมาะกับภูมิอากาศเขตร้อน
5. การจัดวางผังอาคาร	รูปทรงเรขาคณิต ขนานแนวถนน, พิจารณาทิศทางลม-แดด, การใช้งานภายใน เช่น ห้องเรียน ห้องปฏิบัติการ
6. ความสูงและขนาดอาคาร	ค.ส.ล. 3–5 ชั้น รองรับจำนวนผู้ใช้และความเหมาะสมตาม หลักเกณฑ์อาคารสาธารณะเพื่อการศึกษา
7. สีและเอกลักษณ์	ใช้สีพื้นโทนอ่อน ผสมผสานวัสดุธรรมชาติ (ไม้ หิน อิฐ) และวัสดุทดแทน เพื่อคงความรู้สึกดั้งเดิม
8. แนวคิดร่วมในการออกแบบ	อิงแนวคิด MODERNISM ผสมเอกลักษณ์ท้องถิ่น คำนึงถึงสภาพภูมิอากาศ บริบท และความต้องการเฉพาะคณะนั้นๆ
9. ปัจจัยเสริมในการตัดสินใจ	งบประมาณก่อสร้าง, ราคาวัสดุ, ความต้องการใช้สอย, วิศวกรรมสมัยใหม่, ผู้ออกแบบภายนอกองค์กร

ข้อเสนอแนะ

- การศึกษาข้อมูลเชิงลึกเพิ่มเติมควรมีการศึกษาข้อมูลเชิงลึกเกี่ยวกับปัจจัยที่มีผลต่อรูปแบบทางสถาปัตยกรรม โดยเฉพาะข้อมูลด้านเศรษฐกิจ เช่น งบประมาณการก่อสร้าง ราคาวัสดุก่อสร้าง ในช่วงเวลานั้น ๆ
- การวิเคราะห์บริบทเฉพาะของผู้ใช้งานอาคาร ควรศึกษาบริบทการใช้งานของแต่ละอาคารอย่างละเอียด เช่น ความต้องการพื้นที่ใช้สอยของแต่ละคณะ เพื่อให้สามารถออกแบบได้ตรงตามความจำเป็นจริง
- การพิจารณาปัจจัยเพิ่มเติมในการออกแบบควรนำปัจจัยอื่นมาวิเคราะห์เปรียบเทียบเพิ่มเติม เช่น ความก้าวหน้าทางวิศวกรรม การออกแบบจากบุคคลภายนอกมหาวิทยาลัย เพื่อนำมาใช้เป็นข้อมูลประกอบการวิเคราะห์เพื่อความแม่นยำ การจัดทำผังการพัฒนาที่ดินภายในมหาวิทยาลัย จำเป็นต้องกำหนดผังการใช้ประโยชน์ที่ดินภายในมหาวิทยาลัย เพื่อให้เกิดประโยชน์สูงสุดและรองรับการพัฒนาในอนาคตอย่างเป็นระบบ

บทคัดย่อ

งานวิจัยฉบับนี้เป็นการศึกษาเพื่อทำความเข้าใจถึงความสัมพันธ์ต่อกันระหว่างลักษณะเฉพาะทางภูมิทัศน์ ซึ่งแสดงถึงอัตลักษณ์เชิงพื้นที่ ที่มีความสัมพันธ์กับแหล่งทรัพยากรทางวัฒนธรรมอาหารของท้องถิ่นตำบลท่าข้าม โดยการค้นหาอัตลักษณ์เฉพาะทางกายภาพ ลักษณะทางภูมิทัศน์ของพื้นที่ชุมชนท่าข้ามที่แสดงถึงลักษณะเฉพาะของพื้นที่ ประกอบกับการสำรวจรวบรวมข้อมูล ลักษณะเฉพาะของแหล่งวัตถุดิบทางอาหาร กลุ่มกิจกรรมด้านอาหาร และผู้ที่เกี่ยวข้อง

นำไปสู่การสังเคราะห์เพื่อกำหนดกลุ่มพื้นที่ ซึ่งมีอัตลักษณ์ร่วมในด้านภูมิทัศน์และวัฒนธรรมอาหารของชุมชนท่าข้าม ส่งผลให้สามารถกำหนดคุณค่าอันโดดเด่นของพื้นที่วิจัย โดยกระบวนการและลำดับขั้นตอนดังกล่าว เพื่อจัดทำข้อเสนอแนะในการพัฒนาชุมชนท่าข้ามไปสู่การท่องเที่ยวทางอาหาร โดยข้อเสนอแนะที่สอดคล้องกับความเป็นท้องถิ่นในด้าน (1) ปัจจัยด้านธรรมชาติและสิ่งแวดล้อม (2) ปัจจัยด้านกายภาพชุมชนและการพัฒนา (3) ปัจจัยด้านสังคมและวิถีชีวิต และ (4) ปัจจัยด้านเศรษฐกิจและการลงทุน เป็นบทสรุปในรูปแบบองค์ของอัตลักษณ์เฉพาะตำบลท่าข้าม ประกอบด้วยข้อเสนอแนะแนวทางในการอนุรักษ์คุณค่าโดยแนวทางในการพัฒนา 3 ระดับ คือ (1) ระดับภาพรวมของพื้นที่และการเข้าถึงแหล่ง (2) ระดับกลุ่มพื้นที่ที่มีอัตลักษณ์เดียวกัน และ (3) แนวคิดส่งเสริมกิจกรรมด้านการท่องเที่ยวเชิงอาหารเพื่อส่งเสริมให้เกิดการพัฒนาที่เคารพในฐานอัตลักษณ์และทรัพยากรสำคัญในท้องถิ่น

คำสำคัญ: อัตลักษณ์, วัฒนธรรมอาหาร, การท่องเที่ยวเชิงอาหาร, ภูมิทัศน์การท่องเที่ยวทางอาหาร

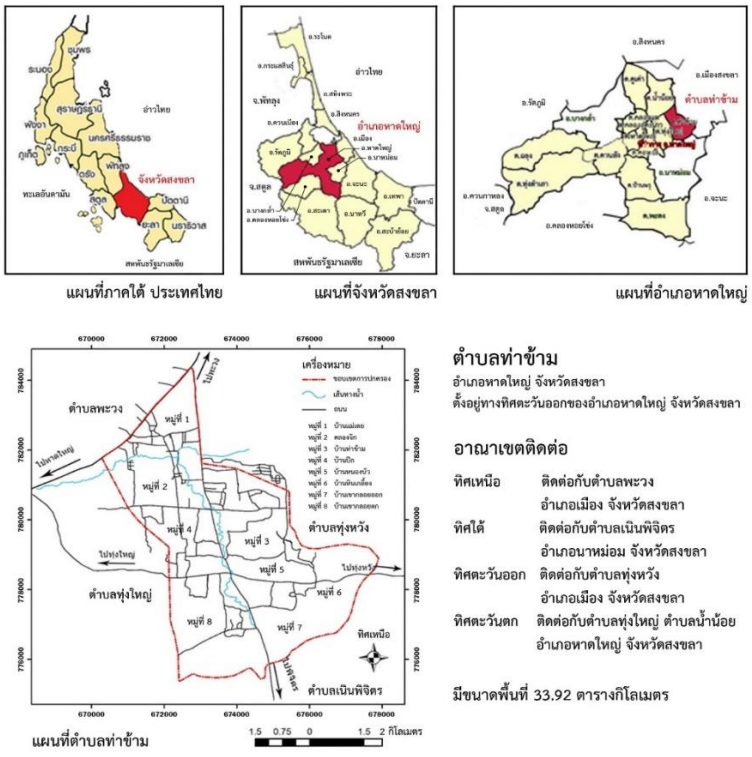
Abstract

This research aims to understand the relationship between landscape characteristics that reflect spatial identity. Related to the local food and cultural resources of ThaKham Subdistrict. By searching for the physical identity and landscape characteristics of the ThaKham community area that show the unique characteristics (Identity factors) of the area. Along with surveys, data collection, characteristics of food raw material sources, food activity groups and related persons.

Leading to the synthesis to define the group of areas that have a shared identity in terms of landscape and food culture of the ThaKham community. This results in being able to determine the outstanding value of the research area by using the process and steps mentioned above to make recommendations for developing the ThaKham community towards food tourism. Suggestions that are consistent with locality in terms of (1) natural and environmental factors; (2) physical community and development factors; (3) social and lifestyle factors; and (4) economic and investment factors. It is a holistic summary of the unique identity of ThaKham Subdistrict. It consists of suggestions for guidelines for conservation of values through development approaches at 3 levels: (1) the overall level of the area and access to the source, (2) the level of groups of areas with the same identity, and (3) the concept of promoting gastronomy tourism activities. To promote development that respects local identity and key local resources.

Keywords: Identity, Food Culture, Food Tourism, Gastronomy Tourism Landscape

บทนำ



ในปัจจุบันการท่องเที่ยวมีลักษณะรูปแบบต่าง ๆ ที่หลากหลายมีการผสมผสานประสบการณ์และกิจกรรมของท้องถิ่นเข้าด้วยกัน ทำให้นักท่องเที่ยวได้เรียนรู้สภาพแวดล้อมของแหล่งท่องเที่ยว เข้าใจวิถีชีวิตและวัฒนธรรมที่แตกต่าง หนึ่งในพฤติกรรมที่นักท่องเที่ยวส่วนใหญ่ให้ความความสำคัญ คือ วัฒนธรรมด้านอาหาร เนื่องจากเป็นองค์ประกอบร่วมที่สำคัญในกิจกรรมการท่องเที่ยว ซึ่งแสดงถึงลักษณะเฉพาะที่แตกต่างกันไปในแต่ละท้องถิ่น ปัจจัยที่มีอิทธิพลในการบริโภคอาหารของนักท่องเที่ยวที่ส่งผลให้การท่องเที่ยวเชิงอาหารได้รับความนิยมทั้งในปัจจุบันและมีแนวโน้มการขยายตัวในอนาคต

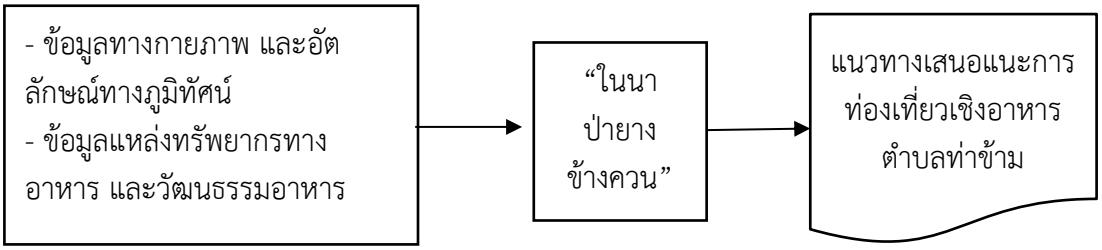
การท่องเที่ยวเชิงวัฒนธรรมอาหารเป็นรูปแบบการท่องเที่ยวที่ได้รับความนิยมเพิ่มมากขึ้นจากนักท่องเที่ยว เพราะสามารถตอบสนองต่อการพัฒนาการท่องเที่ยวในมิติสังคมและวัฒนธรรม อีกทั้งเป็นการท่องเที่ยวที่ใช้ทรัพยากรทางวัฒนธรรมของท้องถิ่นนั้น ๆ มานำเสนอให้กับนักท่องเที่ยว ดังนั้นการท่องเที่ยวเชิงอาหาร จึงเป็นสิ่งสำคัญในอุตสาหกรรมการท่องเที่ยวที่สามารถสร้างความจดจำและสร้างประสบการณ์ให้กับนักท่องเที่ยว (โตมร สุขปรีชา. 2560) ในขณะเดียวกันสามารถพัฒนาคุณภาพชีวิตของคนในท้องถิ่นอันจะนำมาสู่การพัฒนาของประเทศ โดยการเพิ่มมูลค่าของทรัพยากรอาหารที่มีอยู่ในท้องถิ่นสู่การยกระดับเป็นสินค้าและบริการการท่องเที่ยวผ่านรากฐานทางวัฒนธรรมและสังคม รวมทั้งเป็นการส่งเสริมอัตลักษณ์ของชุมชนผ่านวัฒนธรรมอาหารให้กับนักท่องเที่ยว

จากผลการประเมินภาพลักษณ์การท่องเที่ยวด้านอาหารประจำปี 2567 โดยบริษัท เคเนติกส์ คอนซัลติ้ง จำกัด พบว่า นักท่องเที่ยวต่างชาติมองประเทศไทยเป็นจุดหมายปลายทางที่มีภาพลักษณ์เป็น “แหล่งท่องเที่ยวเชิงอาหารที่โดดเด่น” ในระดับ 53% เพิ่มขึ้นจาก 44% ในปี 2566 ครองอันดับ 2 รองจากประเทศญี่ปุ่น (สำนักงานบริหารและพัฒนาองค์ความรู้ องค์การมหาชน, 2568) แสดงให้เห็นว่าการเดินทางของนักท่องเที่ยวสามารถสร้างรายได้เพิ่มให้แก่ชุมชนจากอาหาร เครื่องดื่มและการให้บริการซึ่งเกิดขึ้นในระหว่างการเดินทางท่องเที่ยวกับการรับประทานอาหารและเครื่องดื่ม โดยนักท่องเที่ยวให้ความสำคัญกับอาหารเป็นอันดับต้น ๆ นอกเหนือจากที่พัก การซื้อของที่ระลึก การทำกิจกรรมอื่น ๆ นักท่องเที่ยวนิยมใช้เวลาในการทำกิจกรรมทางด้านอาหารขณะเดินทางท่องเที่ยว สิ่งเหล่านี้เป็นโอกาสสำคัญในการสร้างมูลค่าทางเศรษฐกิจท้องถิ่นของวัฒนธรรมอาหารผ่านการท่องเที่ยว

ตำบลท่าข้าม อำเภอหาดใหญ่ จังหวัดสงขลา จากคำบอกเล่าของผู้เฒ่าผู้แก่ว่าในอดีตก่อนหน้านี้ใช้ชื่อเดิม คือ “ท่านางข้าม” ซึ่งมีเรื่องเล่าว่าเมื่อก่อนที่ภูเขาหลง (ปัจจุบันตั้งอยู่ทางทิศตะวันออกของหมู่ 5 บ้านหนองบัว ซึ่งเป็นเขตพื้นที่ของตำบลทุ่งหวัง อำเภอเมือง จังหวัดสงขลา) นั้นได้มีถ้ำอยู่แห่งหนึ่งในถ้ำแห่งนั้น ได้มีนางผู้ศักดิ์สิทธิ์อาศัยอยู่ภายในถ้ำมีข้าวของเครื่องใช้มากมาย เช่น ถ้วย ชาม และช้อน เป็นต้น ชาวบ้านที่อยู่ในบริเวณนั้น เมื่อมีการจัดเลี้ยงงานบุญขึ้นที่บ้านก็จะเดินทางไปยังปากถ้ำ โดยนำดอกไม้ ธูป เทียน มาบูชา เพื่ออธิษฐานขอยืมเครื่องใช้ต่าง ๆ จากนางผู้ศักดิ์สิทธิ์ เมื่อพูดจบข้าวของเครื่องใช้ต่าง ๆ ที่ต้องการจะปรากฏอยู่ตรงหน้าเมื่อมีการจัดงานเสร็จสิ้น ชาวบ้านก็จะนำเครื่องใช้เหล่านั้นไปคืนที่ปากถ้ำ ในเวลาต่อมาชาวบ้านที่ยืมของไปใช้แล้วไม่นำไปส่งคืนหลายครั้ง เข้านางนั้นเกิดความเสียใจโกรธเคืองเลยได้ปิดปากถ้ำและได้เหาะหนีไปอยู่ที่อื่น โดยได้เหาะผ่านไปทางท่าข้าม ชาวบ้านจึงเรียกว่า “ท่านางข้าม” ต่อมาได้ตัดคำว่านางออกไป เหลือแต่ “ท่าข้าม” ในอดีตตำบลท่าข้ามมีเพียง 5 หมู่บ้านเท่านั้น คือบ้าน แม่เตย บ้านท่าข้าม บ้านหินเกลี้ยง บ้านเขากลอย และบ้านหนองบัว ส่วนบ้านคลองจิก และบ้านปึก (เกาะปลัก) นั้น เพิ่งแยกและตั้งขึ้นใหม่ภายหลัง บ้านเขากลอยเพิ่งแยกออกเป็น 2 หมู่บ้าน คือ เขากลอยออกและเขากลอยตก (องค์การบริหารส่วนตำบลท่าข้าม, 2549)

ตำบลท่าข้าม อำเภอหาดใหญ่ จังหวัดสงขลา มีขนาดพื้นที่ 33.92 ตารางกิโลเมตร ตั้งอยู่ทางทิศตะวันออกของอำเภอหาดใหญ่ จังหวัดสงขลา ห่างจากอำเภอหาดใหญ่ประมาณ 12.6 กิโลเมตร ตามถนนทางหลวงหมายเลข 2085 (ถนนปุณณกัณฑ์) เชื่อมต่อกับถนนทางหลวงหมายเลข 3031 บริเวณวัดเขากลอย และห่างจากอำเภอเมืองสงขลาเป็นระยะทาง 19.6 กิโลเมตร ตามถนนกาญจนวานิช (หาดใหญ่ – สงขลา) เชื่อมต่อกับถนนทางหลวงหมายเลข 3031 บริเวณวัดเนินไศล (ควนหิน)

ภาพที่ 1 แสดงแผนที่ตั้งตำบลท่าข้าม อำเภอหาดใหญ่ จังหวัดสงขลา



วัตถุประสงค์ของการวิจัย

1. เพื่อศึกษาทำความเข้าใจ อัตลักษณ์ทางภูมิทัศน์ (Landscape Identity) ที่มีลักษณะเฉพาะทางกายภาพในบริเวณพื้นที่ชุมชนท่าข้าม
2. เพื่อศึกษาทำความเข้าใจแหล่งผลิตวัตถุดิบอาหาร อาหารท้องถิ่น และกลุ่มผู้มีส่วนเกี่ยวข้อง
3. เพื่อจัดประเภทกลุ่มบริเวณพื้นที่ ที่มีความสอดคล้องกันของอัตลักษณ์ทางภูมิทัศน์และกลุ่มวัฒนธรรมทางอาหาร
4. เพื่อจัดทำข้อเสนอแนะแนวทางการพัฒนาพื้นที่ชุมชนท่าข้ามสู่การท่องเที่ยวทางอาหารและแนวทางการพัฒนาแหล่งท่องเที่ยวทางอาหาร

แนวคิด ทฤษฎี กรอบแนวคิด

งานวิจัยเรื่องการท่องเที่ยวเชิงอาหารเป็นรูปแบบการท่องเที่ยวที่มีแรงจูงใจ และจุดมุ่งหมายในการลิ้มรสชาติทางด้านอาหารและเครื่องดื่ม ในขณะเดียวกันนักท่องเที่ยวก็สามารถเพลิดเพลินไปกับการท่องเที่ยวในพื้นที่ไปด้วยการท่องเที่ยวเชิงอาหาร จึงเป็นการผสมผสานของอาหารและเอกลักษณ์เฉพาะพื้นที่ (เบญจมาภรณ์ ชำนาญฉา, 2561) อัตลักษณ์ของพื้นที่และวัฒนธรรมอาหารในชุมชนท่าข้ามสู่เส้นทางท่องเที่ยว ตำบลท่าข้าม จังหวัดสงขลา เป็นการออกแบบเส้นทางการท่องเที่ยวเชิงอาหาร โดยศึกษาข้อมูลลักษณะทางกายภาพของตำบลท่าข้าม อำเภอหาดใหญ่ จังหวัดสงขลา ภายใต้แนวคิด “ในนาป่ายาง ข้างควน” (มงคล ชนินทรสงขลา, 2562)

รวมข้อมูลโดยการสัมภาษณ์เชิงลึก การสำรวจวัฒนธรรมอาหารที่สอดคล้องกับอัตลักษณ์ชุมชน อันจะนำไปสู่การจัดทำแหล่งท่องเที่ยวเชิงอาหาร

ภาพที่ 2 กรอบแนวคิดการวิจัย

แนวคิดการพัฒนาการท่องเที่ยวแบบยั่งยืน จะต้องคำนึงถึงองค์ประกอบในด้านต่าง ๆ อันประกอบด้วย ด้านทรัพยากรท่องเที่ยว ด้านการสิ่งแวดล้อมในแหล่งท่องเที่ยว ด้านการพัฒนาธุรกิจท่องเที่ยว ด้านการพัฒนาการตลาดท่องเที่ยว ด้านการพัฒนาการมีส่วนร่วมทางการท่องเที่ยวของชุมชนท้องถิ่น และด้านการพัฒนาจิตสำนึกทางการท่องเที่ยว ในการพัฒนาการท่องเที่ยวแบบยั่งยืนของประเทศไทย สามารถส่งเสริมให้เกิดการท่องเที่ยวที่หลากหลาย เช่น การท่องเที่ยวเชิงนิเวศ การท่องเที่ยวเชิงวัฒนธรรม การท่องเที่ยวเชิงเกษตร การท่องเที่ยวเชิงสุขภาพ (บุญเลิศ จิตตั้งวัฒนา, 2557) โดยใช้วัฒนธรรมทางอาหารท้องถิ่นและอัตลักษณ์ทางภูมิทัศน์ของพื้นที่เป็นปัจจัยจูงใจให้เกิดความน่าสนใจ

วิธีดำเนินการวิจัย

ประชากรและกลุ่มตัวอย่าง

ประชากร ประกอบด้วย ตัวแทนจากหน่วยงานภาครัฐและภาคเอกชน ตัวแทนองค์การบริหารส่วนตำบลท่าข้าม ผู้นำชุมชนและกรรมการหมู่บ้าน เจ้าอาวาส ตัวแทนสำนักสงฆ์ และปราชญ์ชาวบ้านวิสาหกิจชุมชน และผู้ประกอบการสถานบริการอาหาร

กลุ่มตัวอย่าง ประกอบด้วย ตัวแทนจากหน่วยงานภาครัฐและภาคเอกชน ตัวแทนองค์การบริหารส่วนตำบลท่าข้าม ผู้นำชุมชนและกรรมการหมู่บ้าน เจ้าอาวาส ตัวแทนสำนักสงฆ์ และปราชญ์ชาวบ้านวิสาหกิจชุมชน และผู้ประกอบการสถานบริการอาหาร ใช้การสุ่มแบบเจาะจง (Purposive Sampling) จำนวน 30 คน โดยจัดให้มีการประชุมเชิงปฏิบัติการ ประกอบด้วย หน่วยงานที่เกี่ยวข้องกับการท่องเที่ยวและกลุ่มตัวอย่างในชุมชน เพื่อระดมความคิดและร่วมค้นหาอัตลักษณ์ทางกายภาพของชุมชนตำบลท่าข้าม

เครื่องมือที่ใช้ในการวิจัย

1. แบบสำรวจ เป็นแบบสำรวจทางกายภาพของตำบลท่าข้ามในปัจจุบัน ประกอบด้วย
   (ก) การสำรวจและจัดทำแผนที่ตำบลท่าข้าม และบันทึกภาพลักษณะทางภูมิทัศน์
   (ข) จัดทำแผนที่และการเขียนภาพร่างแสดงขอบเขตทางภูมิศาสตร์ การตั้งถิ่นฐาน
   (ค) สำรวจและจัดทำแผนผังตำแหน่งชุมชน องค์ประกอบด้านผังชุมชน ประวัติชุมชน
   (ง) สำรวจและจัดทำแผนที่แสดงตำแหน่งกิจกรรมที่เกี่ยวข้องด้านทรัพยากรอาหาร
   (จ) สำรวจด้านการสื่อความหมาย ป้ายและสัญลักษณ์ อุปกรณ์อำนวยความสะดวก

2. แบบสัมภาษณ์เชิงลึก เป็นแบบสัมภาษณ์ที่เตรียมความพร้อมด้านแผนที่เพื่อใช้ระบุตำแหน่งที่ตั้ง และแนวคำถามหลักที่เกี่ยวข้องกับข้อมูลด้านชุมชน ลักษณะเฉพาะทางภูมิศาสตร์ และทรัพยากรทางอาหารไว้ล่วงหน้า โดยมีประเด็นเพื่อให้รู้ถึงอัตลักษณ์อันเป็นลักษณะเฉพาะของตำบลท่าข้าม

การเก็บรวบรวมข้อมูล

1. การสำรวจสภาพทางกายภาพของชุมชนและรายการอาหารพื้นบ้าน ประกอบกับการบันทึกภาพการเขียนภาพร่างตามกรอบการสำรวจเมือง

2. การสัมภาษณ์เชิงลึกผู้ที่เกี่ยวข้องกับพื้นที่ อัตลักษณ์ สภาพทางกายภาพ และอาหารพื้นบ้าน

3. การจัดประชุมเชิงปฏิบัติการ เพื่อระดมความคิดและจัดทำแผนที่เส้นทางท่องเที่ยวเชิงอาหารอันเป็นอัตลักษณ์ของชุมชนท่าข้าม

การวิเคราะห์และการสังเคราะห์ข้อมูล

1. การวิเคราะห์ข้อมูล เพื่อแยกแยะให้เห็นความสัมพันธ์ขององค์ประกอบต่าง ๆ ที่เป็นข้อมูลซึ่งแสดงถึงสภาพทางกายภาพที่มีอัตลักษณ์และแหล่งอาหารพื้นบ้าน โดยใช้ข้อมูลจากการสำรวจทัศนียภาพของพื้นที่ วิเคราะห์ทรัพยากรที่มีคุณค่าและเนื้อหาจากแบบสัมภาษณ์เชิงลึก การสนทนากลุ่มนำมาอธิบายโดยการเขียนเชิงพรรณนา

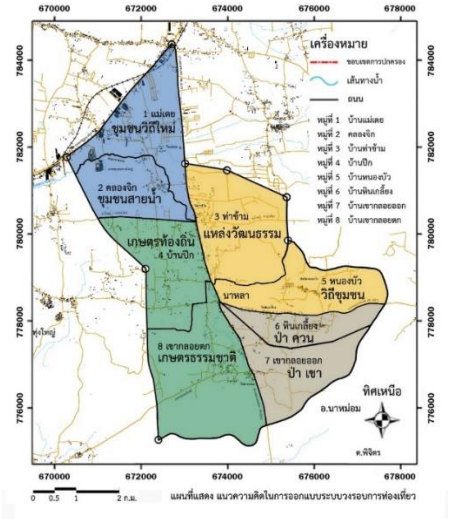
2. การสังเคราะห์ข้อมูล นำผลของการวิเคราะห์ปัจจัยต่างๆทั้งสองด้าน นำมาสังเคราะห์รวมกันเพื่อกำหนดเป็นกลุ่มพื้นที่ ก่อให้เกิดแนวความคิดภูมิทัศน์ทางการท่องเที่ยวทางอาหารและแนวทางในการปรับปรุงสภาพแวดล้อม

ผลการวิจัย

การศึกษาเพื่อทำความเข้าใจถึงความสัมพันธ์ต่อกันระหว่างลักษณะเฉพาะในเชิงอัตลักษณ์เชิงพื้นที่ ที่มีความสัมพันธ์กับแหล่งทรัพยากรทางวัฒนธรรมอาหารของท้องถิ่นตำบลท่าข้าม เพื่อการกำหนดปัจจัยที่ก่อให้เกิดลักษณะเฉพาะ (Identity Factors) ซึ่งสามารถแสดงคุณค่าอันโดดเด่นของพื้นที่วิจัย ประกอบด้วยกระบวนการและลำดับขั้นตอนในการทำความเข้าใจดังนี้

1. จำแนกประเภท (Typology Classifying) องค์ประกอบที่มีลักษณะเด่นเฉพาะ
2. จัดกลุ่ม (Cluster) จัดประเภทกลุ่มบริเวณที่มีลักษณะที่ชัดเจนเป็นย่านเดียวกัน
3. การเชื่อมโยงความสัมพันธ์ต่อกัน (Relation) ที่มีความเด่นชัดของโครงข่าย (Network)

โดยกระบวนการและลำดับขั้นตอนดังกล่าวจะนำมาซึ่งบทสรุปในรูปแบบองค์รวม (Holistic) ของอัตลักษณ์เฉพาะตำบลท่าข้ามนำไปสู่ข้อเสนอแนะแนวทางในการอนุรักษ์คุณค่า โดยการยกระดับมูลค่าและมาตรการส่งเสริมให้เกิดการพัฒนาที่เคารพในทรัพยากรของท้องถิ่น



จากผลการศึกษาข้อมูลการสำรวจพื้นที่ และการสัมภาษณ์ผู้มีส่วนเกี่ยวข้องทำให้สามารถจำแนกลักษณะเฉพาะที่แสดงออกถึงเอกลักษณ์ของพื้นที่ได้ 4 กลุ่มบริเวณ คือ

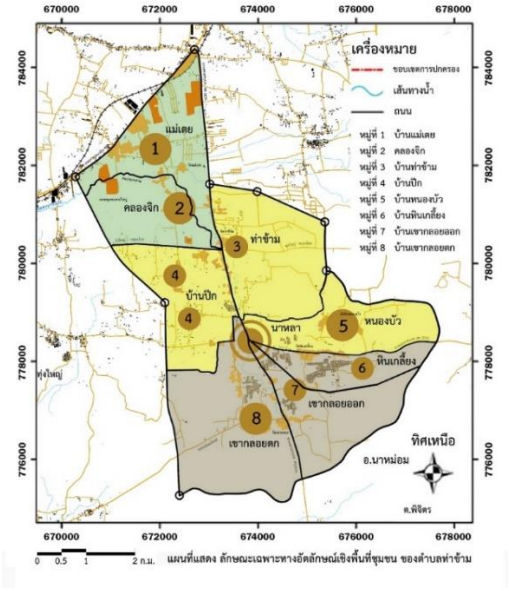
1. พื้นที่วิถีชีวิตใหม่ชุมชนสายน้ำทางตอนเหนือ บริเวณหมู่ที่ 1 บ้านแม่เตย และหมู่ที่ 2 บ้านคลองจิกเป็นพื้นที่รองรับการพัฒนาใหม่ ซึ่งเป็นผลมาจากการมีที่ตั้งอยู่ใกล้กับระบบคมนาคมขนส่งหลักของจังหวัดสงขลา (ทางหลวงแผ่นดินหมายเลข 407) ก่อให้เกิดการขยายตัวในรูปแบบการลงทุนขนาดใหญ่ เป็นพื้นที่ที่มีศักยภาพด้านทรัพยากรแหล่งน้ำ (คลองนายสาม คลองแม่เตย)

2. พื้นที่แหล่งวัฒนธรรมวิถีชุมชนตั้งอยู่ตอนกลาง บริเวณหมู่ที่ 3 บ้านท่าข้าม หมู่ที่ 5 บ้านหนองบัว เป็นที่ตั้งขององค์การบริหารส่วนตำบลท่าข้าม และวัดท่าข้ามสภาพปัจจุบันมีการพัฒนาที่ดินเพื่อการอยู่อาศัยและพาณิชยกรรม

3. พื้นที่แหล่งเกษตรธรรมชาติเกษตรท้องถิ่นทางตะวันตก ตั้งอยู่ในบริเวณ หมู่ที่ 3 บ้านท่าข้าม หมู่ที่ 5 บ้านหนองบัวเป็นชุมชนชนบท ประกอบอาชีพเกษตรกรรม โดยเฉพาะการทำนาข้าว

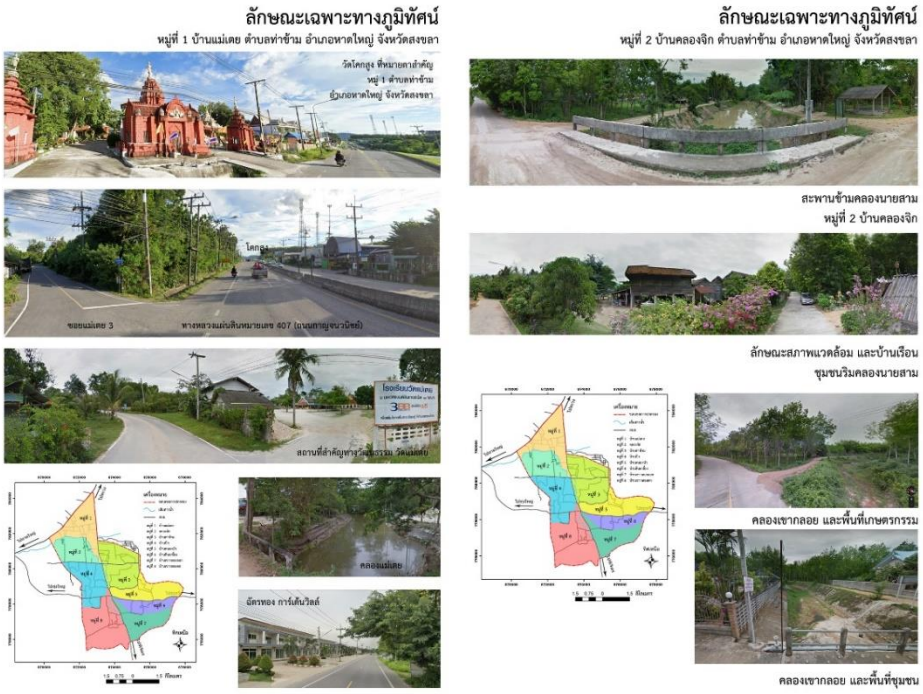
4. พื้นที่ ควน เขา ป่า บริเวณหมู่ที่ 6 บ้านหินเกลี้ยง และหมู่ที่ 7 บ้านเขากลอยออกเป็นที่ตั้งของวัดเขากลอย มีแหล่งท่องเที่ยวสำคัญ คือ จุดชมทิวทัศน์โพธิ์หินงาม

ภาพที่ 3 แสดงแผนที่ลักษณะเฉพาะที่แสดงออกถึงอัตลักษณ์ของพื้นที่ 4 กลุ่มบริเวณ



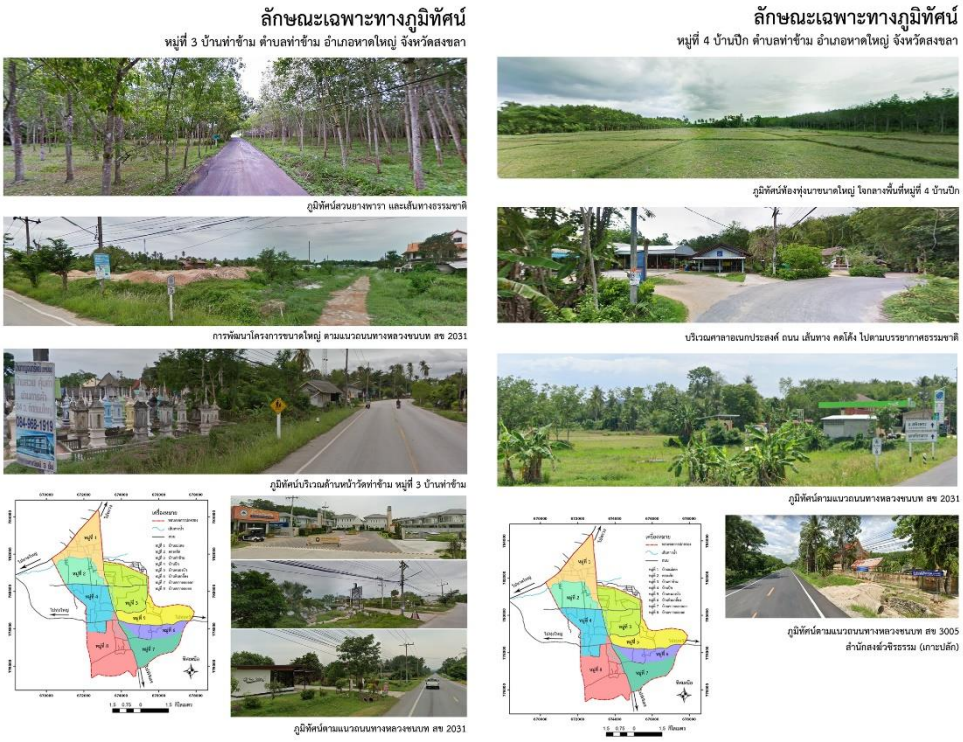
1. การสำรวจและรวบรวมข้อมูลเพื่อจัดทำแผนที่ทางกายภาพเชิงอัตลักษณ์ของพื้นที่

1.1 ลักษณะเฉพาะทางอัตลักษณ์เชิงพื้นที่ จากผลการศึกษาทำให้สามารถจำแนกปัจจัยที่เกี่ยวข้องอันประกอบด้วย

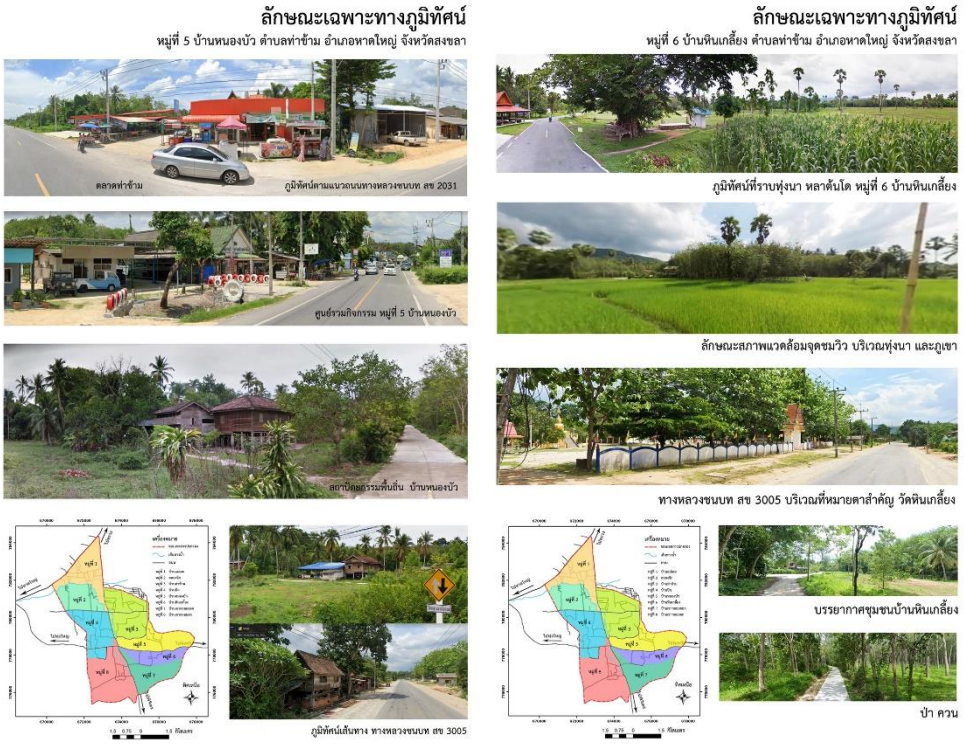


(1) องค์ประกอบเด่นเฉพาะ (Significant elements) องค์ประกอบที่มีศักยภาพในปัจจุบัน

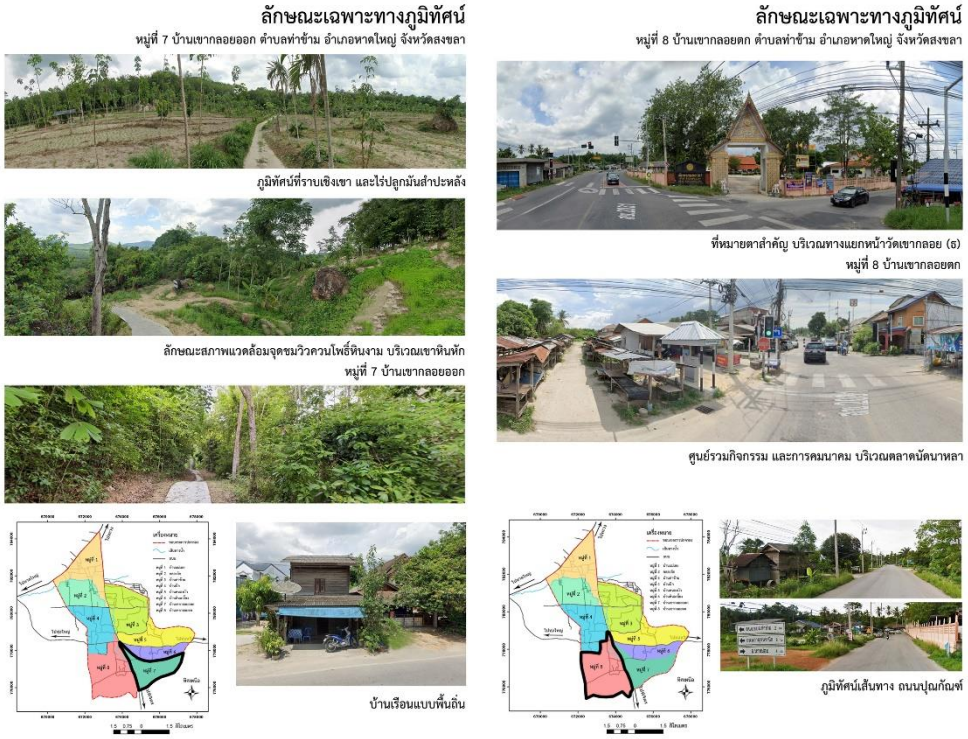
(2) ย่านลักษณะเฉพาะ (Significant cluster Areas) ที่มีความโดดเด่น



(3) โครงข่ายเฉพาะ (Significant networks) ที่สามารถเชื่อมโยงความสัมพันธ์ระหว่างกลุ่ม



ภาพที่ 4 แสดงแผนที่ลักษณะเฉพาะทางอัตลักษณ์เชิงพื้นที่ชุมชนของตำบลท่าข้าม



ภาพที่ 5 – 6 แสดงลักษณะทางภูมิทัศน์ชุมชนหมู่ที่ 1 – 8 ตำบลท่าข้าม

ภาพที่ 7 – 8 แสดงลักษณะทางภูมิทัศน์ชุมชนหมู่ที่ 1 – 8 ตำบลท่าข้าม

ภาพที่ 9 – 10 แสดงลักษณะทางภูมิทัศน์ชุมชนหมู่ที่ 1 – 8 ตำบลท่าข้าม

ภาพที่ 11 – 12 แสดงลักษณะทางภูมิทัศน์ชุมชนหมู่ที่ 1 – 8 ตำบลท่าข้าม

1.2 แนวความคิดในการอนุรักษ์และพัฒนาเชิงพื้นที่

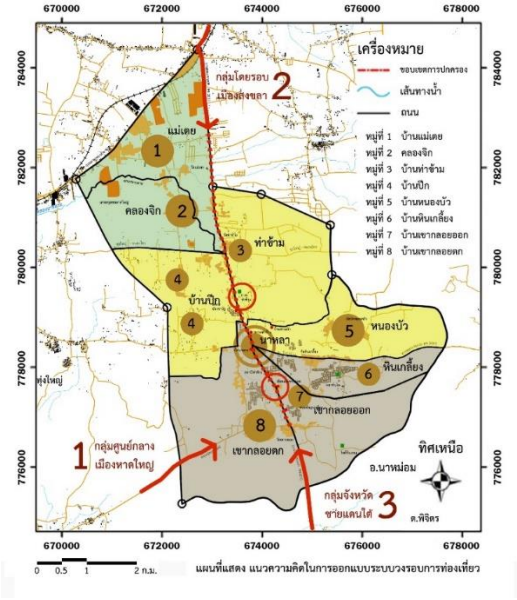
(1) แนวคิดการอนุรักษ์คุณค่าโดยการยกระดับมูลค่า

(2) แนวคิดการส่งเสริมการพัฒนาที่เคารพในทรัพยากร

2. การสำรวจและรวบรวมข้อมูลเพื่อจัดทำแผนที่ลักษณะเฉพาะของวัฒนธรรมอาหารพื้นถิ่น

2.1 ลักษณะเฉพาะทางอัตลักษณ์เชิงวัฒนธรรมอาหารพื้นถิ่น จากผลการสำรวจศึกษาข้อมูลและสัมภาษณ์ผู้มีส่วนเกี่ยวข้องทำให้สามารถจำแนกปัจจัยที่เกี่ยวข้อง อันประกอบด้วย

(1) องค์ประกอบเด่นเฉพาะ (Significant Elements) องค์ประกอบที่เด่นชัดสามารถรับรู้ได้อย่างชัดเจนก่อให้เกิดการจดจำ



(2) ย่านลักษณะเฉพาะ (Significant Cluster Areas) ที่มีสภาพแวดล้อมเฉพาะมีบรรยากาศที่มีความแตกต่างโดดเด่น

(3) โครงข่ายเฉพาะ (Significant Networks) ที่มีศักยภาพในการเชื่อมโยงความสัมพันธ์ระหว่างองค์ประกอบเฉพาะ และย่านลักษณะเฉพาะ

2.2 แนวความคิดในการอนุรักษ์และพัฒนาแหล่งวัฒนธรรมอาหารพื้นถิ่น

(1) แนวคิดการอนุรักษ์คุณค่าโดยการยกระดับมูลค่าโดยมุ่งเน้นที่คุณภาพปลอดสารพิษ

(2) แนวคิดการส่งเสริมการพัฒนาที่เคารพในวัตถุดิบท้องถิ่น

ภาพที่ 13 แสดงแผนที่แนวคิดในการออกแบบระบบการท่องเที่ยวทางอาหาร ชุมชนท่าข้าม

2.3 แนวคิดในการส่งเสริมแหล่งท่องเที่ยวทางอาหาร

(1) กำหนดพื้นที่สงวนรักษาคุณลักษณะทางด้านภูมิทัศน์ที่มีคุณค่า

(2) ผู้มีส่วนเกี่ยวข้องด้านอาหาร มุ่งเน้นการนำเสนอประสบการณ์เพื่อสร้างมูลค่าเพิ่ม เช่น การใช้วัตถุดิบท้องถิ่น กระบวนการผลิตและการดูแลวัตถุดิบ เพื่อให้นักท่องเที่ยวเข้าใจถึงความดั้งเดิมแท้จริง

(3) นักท่องเที่ยวเข้าถึงความรู้ความเข้าใจด้านอาหาร และมุ่งเน้นอาหารท้องถิ่น (Local-Based Food) เพื่อช่วยผลักดันอุตสาหกรรมท่องเที่ยวเชิงอาหารในท้องถิ่นให้พัฒนาอย่างยั่งยืน

2.4 แนวความคิดการพัฒนาพื้นที่ชุมชนท่าข้าม สู่การเป็นแหล่งท่องเที่ยวทางอาหาร ประกอบด้วย แนวทางในการพัฒนา 3 ระดับ คือ

(1) ระดับภาพรวมของพื้นที่และการเข้าถึงแหล่ง

ก. การเข้าถึงตามเส้นทางจากเมืองหาดใหญ่สู่ย่านอดีตท่าข้าม เสนอแนะให้มีการปรับปรุงสภาพแวดล้อมบริเวณสี่แยกนาหลา (จุดตัดระหว่างทางหลวงชนบท หมายเลข 3005 กับ 2031) โดยการปรับปรุงสภาพแวดล้อมอาคารเก่าและตลาดนัดนาหลา ให้มีบรรยากาศเป็นย่านศูนย์กลางที่มีลักษณะเป็นชุมชนย้อนอดีตของท่าข้าม

ข. การเข้าถึงพื้นที่จากกลุ่มเมืองสงขลา บริเวณสามแยกระหว่างถนนกาญจนวนิช ทางหลวงชนบท สข 2031 เสนอแนะให้มีการจัดทำป้ายบอกทางและสัญลักษณ์กระยางขาว เพื่อสื่อความหมายประตูสู่ท่าข้าม ทำหน้าที่เป็นจุดหมายตาเพื่อให้เกิดการรับรู้และจดจำ

ค. การเข้าถึงส่งเสริมให้เกิดการรับรู้เส้นทางเข้าถึงประตูสู่ท่าข้าม จากพื้นที่จังหวัดชายแดนใต้ โดยการสร้างการรับรู้ผ่านแนวถนนทางหลวงชนบท 2031 ให้มีลักษณะเป็นเส้นทางที่มีบรรยากาศธรรมชาติ มีความเป็นชนบทท้องทุ่งนามีการค้าขายผลิตภัณฑ์ท้องถิ่น อาหารท้องถิ่น โดยมุ่งเน้นการอนุรักษ์และนำเอาอาคารเก่าดั้งเดิมมาใช้งาน

(2) ระดับกลุ่มพื้นที่ที่มีอัตลักษณ์เดียวกัน

ก. พื้นที่ชุมชนวิถีใหม่และสายน้ำกลุ่มหมู่บ้านบริเวณตอนเหนือ (แม่เตย, คลองจิก) ส่งเสริมให้มีการพัฒนาเป็นย่านบริการสำหรับชุมชนที่เกิดขึ้นใหม่ เป็นศูนย์กลางทางการค้าวิถีใหม่ที่มุ่งเน้นด้านสุขภาพและคุณภาพชีวิตที่ดีมีการส่งเสริมพื้นที่ตามแนวคลอง เพื่อใช้ในการออกกำลังกายและการพักผ่อน

ข. พื้นที่วิถีท่าข้าม และวัฒนธรรมข้าว กลุ่มหมู่บ้านบริเวณตอนกลางของตำบลท่าข้าม (ท่าข้าม, บ้านปึก, นาหลา และหนองบัว) กำหนดให้มีศูนย์กลางหลักอยู่ที่กลุ่มอาคารสำนักงานองค์การบริหารส่วนตำบลท่าข้าม ทำหน้าที่เป็นศูนย์ข้อมูลชุมชนศูนย์บริการข้อมูลและคำแนะนำด้านการท่องเที่ยวในตำบลท่าข้ามแบบครบวงจร

ค. พื้นที่ควนเกษตรและป่าเขา ประกอบด้วย กลุ่มหมู่บ้านทางตอนใต้ของตำบลท่าข้าม (เขากลอย, หินเกลี้ยง) ปรับปรุงพื้นที่จำหน่ายสินค้าพื้นเมือง โดยเชื่อมต่อทางเดินเท้าเพื่อเชื่อมโยงกลุ่มร้านค้าให้มีลักษณะเป็นย่านเสริมสร้างด้วยการจัดภูมิทัศน์ ในบรรยากาศความเป็นชนบทมีการจัดระเบียบการจอดรถ

(3) แนวคิดส่งเสริมกิจกรรมด้านการท่องเที่ยวเชิงอาหาร (Gastronomy Tourism)

ก. เส้นทางอาหาร (Food Tours or Routes) รวมถึงเครื่องดื่มต่าง ๆ ทำให้นักท่องเที่ยวได้ประสบการณ์เกิดการแลกเปลี่ยนความคิด สัมผัสรสชาติอาหารจากวัตถุดิบในท้องถิ่น โดยชุมชนนำชมแหล่งอาหารตลาดนัดและกลุ่มผลิตอาหารท้องถิ่น

ข. ศูนย์เรียนรู้อาหาร (Food Learning Center) เล่าเรื่องทรัพยากรอาหารในท้องถิ่น กระบวนการผลิต ส่วนผสม เครื่องปรุง วิธีการทำอาหารประเภทต่าง ๆ ของท้องถิ่นและจัดกิจกรรมทำอาหารให้นักท่องเที่ยวได้ประสบการณ์จริง

ค. เทศกาลอาหาร (Food Festival or Event) จัดในช่วงเวลาสั้น ๆ แต่สร้างความประทับใจและดึงดูดนักท่องเที่ยวมีเทศกาลอาหารประจำฤดูกาล การฉลองซังข้าวมีการสาธิตเมนูหรอยท่าข้ามภายในงานตลอดจนจัดให้มีการแข่งขันด้านอาหาร

ง. ห้องเรียนอาหาร (Cooking Classes) สำหรับนักท่องเที่ยวที่สนใจและอยากมีความรู้เกี่ยวกับวัฒนธรรมอาหารท่าข้ามของแต่ละพื้นที่ จัดให้มีกิจกรรมลักษณะเป็นการฝึกปฏิบัติระยะสั้นโดยใช้พื้นที่ในบรรยากาศจริงของชุมชน

สรุปและอภิปรายผล

ข้อเสนอแนะในการพัฒนาท่าข้ามสู่เส้นทางเพื่อการท่องเที่ยวทางอาหาร ควรให้ความสำคัญกับระบบนิเวศองค์รวมเพื่อให้เกิดการพึ่งพาในระดับท้องถิ่น การพัฒนาที่จะเกิดขึ้นในอนาคตควรคำนึงถึงความยั่งยืน อันประกอบด้วยปัจจัยที่ต้องคำนึงถึง 4 ปัจจัย คือ

1. ปัจจัยด้านธรรมชาติและสิ่งแวดล้อม ควรรักษาอัตลักษณ์เฉพาะทางธรรมชาติของพื้นที่อันเป็นแหล่งทุนทรัพยากรทางอาหารของชุมชน

2. ปัจจัยด้านกายภาพชุมชนและการพัฒนา โครงการพัฒนาพื้นที่จะต้องควบคู่ไปกับการรักษาอัตลักษณ์การตั้งถิ่นฐานของชุมชน โดยการนำเอารูปแบบศิลปสถาปัตยกรรมมาใช้ร่วมในการพัฒนา

3. ปัจจัยด้านสังคมและวิถีชีวิตธำรงรักษาวิถีชีวิต วัฒนธรรมอาหารท้องถิ่นสร้างความสัมพันธ์ทางสังคม โดยการจัดกิจกรรมประเพณีเพื่อให้เกิดการสืบสานสืบทอดสู่คนรุ่นถัดไป

4. ปัจจัยด้านเศรษฐกิจและการลงทุนส่งเสริมให้เกิดการหมุนเวียนระบบเศรษฐกิจ โดยใช้ทรัพยากรอาหารในท้องถิ่นในอันเป็นฐานทุนที่มีอยู่ในพื้นที่

ในการพัฒนาควรบูรณาการองค์ความรู้ด้านการท่องเที่ยวเชิงอาหาร (Gastronomy Tourism) เพื่อเติมเต็มประสบการณ์ท่องเที่ยวทางอาหารที่สมบูรณ์ผ่านการสืบสาน เรื่องราวของอาหารในแต่ละท้องถิ่นโดยคำนึงถึง

(1) รากลึก วัตถุดิบ รูปแบบ วิธีการในแต่ละท้องถิ่น

(2) ตัวตน อาหารที่มีความแตกต่างและโดดเด่น

(3) ท้าทาย ทดลองประสบการณ์อาหารที่แตกต่าง

(4) ค้นพบ พักผ่อนไปกับอาหารไม่ได้กินเป็นประจำ

(5) ความสุข การเติมเต็ม รสชาติและรสสัมผัส

ก่อให้เกิดทิศทางในการพัฒนาที่มีลักษณะเป็นออกแบบภาพรวม (Holistic Design) ในรูปแบบภูมิทัศน์การท่องเที่ยวทางอาหาร (Gastronomy Tourism Landscape)

บทคัดย่อ

การวิจัยนี้มีวัตถุประสงค์ 1) เพื่อศึกษาความแตกต่างของปัจจัยส่วนบุคคลที่มีต่อระดับพฤติกรรมการชื่นชอบศิลปินเกาหลีของนักศึกษาปริญญาตรี มหาวิทยาลัยราชภัฏแห่งหนึ่ง 2) เพื่อศึกษาความสัมพันธ์ระหว่างเจตคติที่มีต่อศิลปินเกาหลีกับพฤติกรรมการชื่นชอบศิลปินเกาหลี ของนักศึกษาปริญญาตรี มหาวิทยาลัยราชภัฏแห่งหนึ่ง 3) เพื่อศึกษาความสัมพันธ์ระหว่างค่านิยมที่มีต่อศิลปินเกาหลีกับพฤติกรรมการชื่นชอบศิลปินเกาหลีของนักศึกษาปริญญาตรี มหาวิทยาลัยราชภัฏแห่งหนึ่ง ตัวอย่างที่ศึกษา ได้แก่ นักศึกษาปริญญาตรี มหาวิทยาลัยราชภัฏแห่งหนึ่งที่ได้จากการสุ่มตัวอย่างที่ศึกษา จำนวน 400 คน สถิติที่ใช้ในการวิเคราะห์ ได้แก่ ความถี่ ร้อยละ ส่วนเบี่ยงเบนมาตรฐาน t-test F-test และการวิเคราะห์สัมประสิทธิ์สหสัมพันธ์ของเพียร์สัน

ผลการวิจัยพบว่า 1) ระดับพฤติกรรมการชื่นชอบศิลปินเกาหลีอยู่ในระดับปานกลาง ($\bar{X}$ = 3.38) 2) เพศแตกต่างกันมีพฤติกรรมการชื่นชอบศิลปินเกาหลีไม่แตกต่างกัน (P-value = 0.576) และศึกษาต่างคณะกันมีพฤติกรรมการชื่นชอบศิลปินเกาหลีแตกต่างกัน (P-value = .000) 3) ค่านิยมที่มีต่อศิลปินเกาหลีมีความสัมพันธ์เชิงบวกพฤติกรรมการชื่นชอบศิลปินเกาหลี โดยมีค่าระดับความสัมพันธ์ในระดับปานกลาง กล่าวคือ นักศึกษาที่มีค่านิยมที่มีต่อศิลปินเกาหลีสูงจะมีพฤติกรรมการชื่นชอบศิลปินเกาหลีสูง (r = .770**, P-value < .01) และเจตคติที่มีต่อศิลปินเกาหลีมีความสัมพันธ์เชิงบวกกับพฤติกรรมการชื่นชอบศิลปินเกาหลี โดยมีค่าระดับความสัมพันธ์ในระดับสูง กล่าวคือ นักศึกษาที่มีเจตคติที่มีต่อศิลปินเกาหลีสูงจะมีพฤติกรรมการชื่นชอบศิลปินเกาหลีสูง (r = .835** ,P-value < .01) ดังนั้นการพัฒนาเจตคติ

และค่านิยมที่มีต่อศิลปินให้เหมาะสม มีส่วนช่วยให้เกิดการพัฒนาพฤติกรรมการชื่นชอบศิลปินเกาหลีที่ก่อให้เกิดความสุขและแรงบันดาลในการพัฒนาตนเองได้

คำสำคัญ: พฤติกรรมการชื่นชอบศิลปินเกาหลี, เจตคติที่มีต่อศิลปินเกาหลี, ค่านิยมที่มีต่อศิลปินเกาหลี

Abstract

This research aims to: 1) study the differences between the personal factors of students in a Rajabhat University and behavioral preferences on the korean artists of baccalaureate students baccalaureate students in a Rajabhat University and, 3) To study the relationship between the attitudes of fans towards Korean artists and behavioral preferences of students in a Rajabhat University. 3) To study the relationship between the values towards Korean artists and the behavioral preferences of students in a Rajabhat University. The sample group consisted of undergraduate students from a Rajabhat University. The researcher determined the sample size using the calculation formula of (Simple Random Sampling) for random sampling in the study. The number was divided by the faculty proportion of 1:19:4. The statistics used for analysis were frequency, percentage, standard deviation, T-test, F-test, and Pearson's correlation coefficient analysis.

The findings indicate that: 1) the sample group showed a level of behavioral preferences Korean artists ($\bar{X}$ = 3.38); 2) there was no difference in behavioral preferences Korean artists based on gender (p-value = .57), while students from different faculties exhibited varying levels of behavioral preferences Korean artists (p-value = .000); and 3) Values toward Korean artists have a positive relationship with Korean artist liking behavior with a moderate level of relationship value. That is, students who have high values toward Korean artists will have more Korean artist liking behavior (r = .770**, p-value < .01). And attitudes toward Korean artists have a positive relationship with Korean artist liking behavior with a high level of relationship value. That is, students who have high attitudes toward Korean artists will have more Korean artist liking behavior (r = .835**, p-value < .01). Therefore, developing appropriate attitudes and values toward artists helps develop Korean artist liking behavior that leads to happiness and inspiration for self-development. self-improvement.

Keywords: behavioral preferences on Korean artist, attitudes towards Korean artists, values towards Korean artists

บทนำ

ความชื่นชอบศิลปินเกาหลี เช่น ดารา นักร้อง หรือที่เรียกว่าแฟนคลับ โดยแฟนคลับในแต่ละกลุ่มจะมีความชื่นชอบต่างกันจึงมักมีลักษณะต่างกัน ทั้งในด้านของภาพลักษณ์และพฤติกรรมที่แสดงออกในการชื่นชอบต่างกัน ศิลปินเกาหลีถือว่าเป็นวัฒนธรรมส่งออกอย่างหนึ่งของประเทศเกาหลีใต้และเป็นที่แพร่หลายไปยังประเทศอื่น ๆ ทั่วโลก (Seo, 2012) รวมถึงประเทศไทยด้วย ทั้งในรูปแบบของนักแสดง นักดนตรี ศิลปิน ดารา ซึ่งด้วยรูปลักษณ์ ความสามารถ ผลงานต่าง ๆ เหล่านี้ เป็นสิ่งที่ทำให้ศิลปินเกาหลีมีผู้คนให้ความยอมรับ 4 เยาวชนนักศึกษาไทย จำนวนไม่น้อยมีรูปแบบการใช้ชีวิตที่ปฏิบัติตามวัฒนธรรมต่างประเทศหรือมีพฤติกรรมการเลียนแบบศิลปินเกาหลี ที่ตนเองชื่นชอบทั้งการแต่งกายเลียนแบบ การพูด การสะสมของที่ระลึก การไปชมคอนเสิร์ต การเต้นโคฟเวอร์ (Cover Dance) การเขียนนิยายที่เกี่ยวข้องกับศิลปินเกาหลี การฝึกเรียนภาษาเกาหลีตามศิลปิน การซื้อผลิตภัณฑ์ที่ศิลปินเกาหลีเป็นพรีเซ็นเตอร์ หรือกระทั่งการไปทำศัลยกรรมเพื่อให้หน้าตาคล้ายกับศิลปินเกาหลีที่ตนเองชื่นชอบ (วิศรุต สินพงศพร, 2563) การแสดงออกทางพฤติกรรมต่าง ๆ เหล่านี้ทำให้เห็นถึงพฤติกรรมชื่นชอบศิลปินเกาหลี ซึ่งเกิดจากพฤติกรรมบุคคลนั้น มีการปฏิสัมพันธ์ (Interaction) อย่างต่อเนื่องระหว่างบุคคลนั้น (Person) และสิ่งแวดล้อม (Environment) ทำให้บุคคลเกิดการเรียนรู้โดยการให้ตัวแบบ (Learning Through Modeling) โดยจะเลียนแบบจากตัวแบบ และการเลียนแบบนี้เป็นกระบวนการที่เกิดขึ้นอย่างต่อเนื่อง โดยอาศัยการสังเกตพฤติกรรมของตัวแบบ การสังเกตการณ์ตอบสนองและปฏิกิริยาต่าง ๆ ของตัวแบบ สภาพแวดล้อมของตัวแบบ ผลการกระทำ คำบอกเล่า และความน่าเชื่อถือของตัวแบบ ดังนั้นพฤติกรรมชื่นชอบศิลปินเกาหลีที่ได้รับความนิยมเป็นอย่างมากในกลุ่มเยาวชนนักศึกษา จึงเป็นส่วนช่วยให้เกิดการสนใจใคร่รู้เกี่ยวกับเรื่องราวของศิลปินเกาหลีหรือชื่นชอบศิลปินเกาหลีที่สามารถนำเป็นต้นแบบ ในการสร้างแรงบันดาลใจให้แก่เยาวชนนักศึกษาได้ รวมไปถึงการมีเจตคติที่ต่อศิลปินเกาหลีนั้น มีผลต่อการแสดงออกทางพฤติกรรมที่ดีตามไปด้วย เช่น ความรู้สึกประทับใจในตัวศิลปินทั้งอุปนิสัยส่วนตัวและภาพลักษณ์บนเวทีต่าง ๆ และเห็นว่าศิลปินเกาหลีนั้นสามารถเป็นแรงบันดาลใจและให้ข้อคิดในการใช้ชีวิตต่าง ๆ ให้แก่ตนเองได้

ปัจจุบัน วัฒนธรรมเกาหลี หรือ “ศิลปิน K-pop” ได้รับความนิยมเป็นจำนวนมากขึ้นโดยเฉพาะในหมู่วัยรุ่นเยาวชนไทยที่หลงใหลและติดตามศิลปินเกาหลีอย่างมาก การศึกษาพฤติกรรมการชื่นชอบเหล่านี้ สามารถอธิบายได้ผ่านทฤษฎีความดึงดูดใจระหว่างบุคคล (Interpersonal Attraction Theory) ซึ่งเน้นปัจจัย 5 ประการที่อธิบายว่าทำไมเยาวชนถึงรู้สึกดึงดูดใจต่อศิลปินเกาหลี ได้แก่ 1) ความใกล้ชิด ความใกล้ชิดที่เกิดจากการติดตามข่าวสารหรือการสื่อสารผ่านสื่อ 2) ความคล้ายคลึงกัน ลักษณะที่คล้ายคลึงกันในความชอบ ความสนใจ หรือค่านิยม 3) การตอบแทนกัน การรู้สึกได้ผลตอบแทนทางอารมณ์หรือความพึงพอใจ 4) ความดึงดูดทางกายภาพ ลักษณะภายนอกที่น่าสนใจของศิลปิน 5) การเติมเต็มซึ่งกันและกันศิลปินมักจะมีบทบาทในการเติมเต็มความต้องการทางอารมณ์แก่บุคคล (Bengsanguan, 2008)

การเป็นแฟนคลับหรือ “แฟนด้อม” การเป็นแฟนคลับสะท้อนให้เห็นถึงพฤติกรรมการตอบสนองต่อสื่อและวัฒนธรรมที่ศิลปินสร้างขึ้น โดยศิลปินไม่เพียงเป็นต้นแบบในการดำเนินชีวิตเท่านั้น แต่ยังมีบทบาทในการสร้างแรงบันดาลใจให้เกิดการเปลี่ยนแปลงในชีวิตของกลุ่มผู้ติดตาม และกลุ่มผู้ติดตามจะเกิดความภูมิใจและการนับถือตนเอง กลุ่มทำให้รับรู้ถึงอัตลักษณ์ทางโลกสังคมส่งผลให้เสริมสร้างภาพลักษณ์ของตนเองให้แข็งแกร่งมากขึ้น (Turner, Brown, & Tajfel, 1979) หากมีการเข้าใจพฤติกรรม

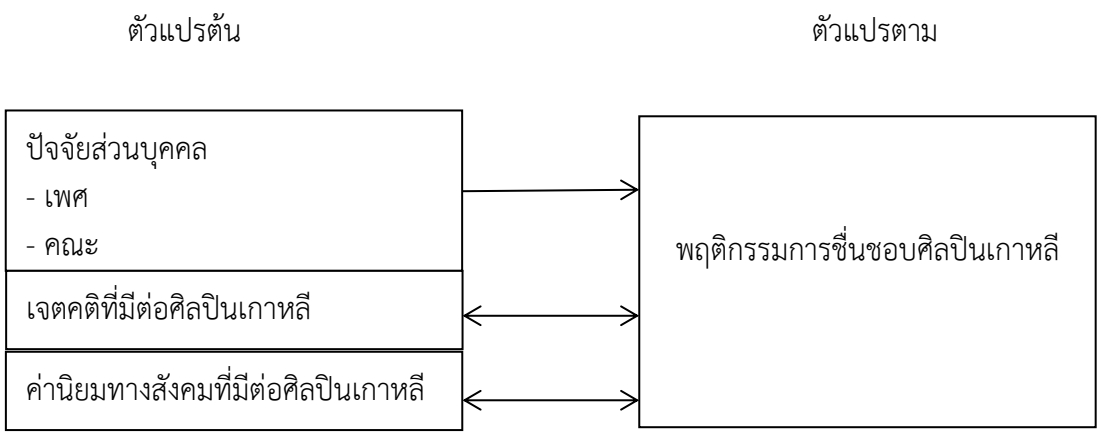
การเป็นแฟนคลับที่ชื่นชอบศิลปินเกาหลีอย่างถ่องแท้ จะทำให้เราทราบถึงว่าพฤติกรรมการชื่นชอบศิลปินเกาหลีของแฟนคลับแต่ละบุคคลนั้น มีปัจจัยมาจากการมีเจตคติที่ดีต่อศิลปินเกาหลีหรือการได้รับค่านิยมต่าง ๆ ที่มาจากศิลปินเกาหลีแตกต่างกันออกไปตามรูปแบบการรับรู้เรื่องราว และการเปิดรับข่าวสารของศิลปินเกาหลีของแฟนคลับแต่ละบุคคล เนื่องจากกับรับรู้เรื่องราวหรือการเปิดรับข่าวสารของศิลปินเกาหลีที่แตกต่างกันออกไปจะทำให้บุคคลมีพฤติกรรมการชื่นชอบที่ต่างกัน การเป็นแฟนคลับศิลปินเกาหลีสามารถส่งผลต่อสุขภาพจิตและแรงจูงใจของนักศึกษา สามารถเพิ่มความสุขและแรงจูงใจในการเรียนรู้ได้ (Choi, 2024) ดังนั้น การมีศิลปินเกาหลีเป็นต้นแบบและสร้างพลังบวกในชีวิต การได้พูดคุยหรือทำกิจกรรมต่าง ๆ ที่ศิลปินชอบจะรู้สึกดี หรือกระทั่งมีความรู้สึกดีตามไปด้วยเมื่อเห็นศิลปินเกาหลีที่ตนชื่นชอบประสบความสำเร็จ ทั้งนี้ หากไม่เข้าใจพฤติกรรมการชื่นชอบศิลปินเกาหลีอย่างถ่องแท้อาจทำให้ไม่เข้าใจถึงสาเหตุหรือปัจจัยต่าง ๆ ที่มีส่วนทำให้แฟนคลับแสดงพฤติกรรมการชื่นชอบนั้น ออกมาการเข้าใจพฤติกรรมการชื่นชอบศิลปินเกาหลี แนวทางการสร้างความสัมพันธ์ที่ดีในสังคมให้แก่บุคคลที่มีความแตกต่างหลากหลายเพิ่มขึ้น อีกทั้งยังเกิดการเรียนรู้การพัฒนาตนเองอย่างมีต้นแบบไปสู่เป้าหมายความสำเร็จของชีวิตอย่างมีความสุขเพิ่มขึ้นได้

งานวิจัยครั้งนี้จึงมุ่งเน้นศึกษาพฤติกรรมการชื่นชอบศิลปินเกาหลีของนักศึกษาปริญญาตรีของมหาวิทยาลัยราชภัฏแห่งหนึ่ง เนื่องจากกลุ่มนักศึกษาปริญญาตรีมีการรวมตัวเป็นกลุ่มแฟนคลับศิลปินเกาหลีในมหาวิทยาลัยจัดกิจกรรมสนับสนุนศิลปินเกาหลี ซึ่งสอดคล้องกับพัฒนาการในช่วงวัยรุ่นตอนปลายถึงวัยผู้ใหญ่ตอนต้น ซึ่งเป็นช่วงวัยที่มักมีความสนใจในวัฒนธรรมบันเทิงต่างประเทศ โดยเฉพาะศิลปินเกาหลี และอิทธิพลของการชื่นชอบศิลปินเกาหลีมีความสัมพันธ์กับพฤติกรรมและแรงจูงใจในการเรียนรู้ของนักศึกษา (Aidah, & Supartono, 2024) รวมทั้งในสังคมนักศึกษามหาวิทยาลัยยังเป็นแหล่งศูนย์รวมนักศึกษาหลากหลายจากหลายพื้นที่ ทำให้ข้อมูลที่ได้สะท้อนมุมมองและพฤติกรรมที่หลากหลายครอบคุมความแตกต่างภูมิลำเนา โดยศึกษาปัจจัยที่มีความสัมพันธ์ 3 ด้าน ได้แก่ เจตคติที่แฟนคลับมีต่อศิลปินเกาหลี ค่านิยมที่มีผลต่อการชื่นชอบศิลปินเกาหลี พฤติกรรมที่แสดงออกถึงการชื่นชอบศิลปินเกาหลี เพื่อประโยชน์ในการเข้าใจพฤติกรรมการชื่นชอบศิลปินเกาหลี ของนักศึกษาที่สามารถนำเป็นฐานในการพัฒนาการเรียนรู้และจิตใจ เป็นแนวทางในการสร้างแรงบันดาลใจในการพัฒนาตนเองในแง่พฤติกรรมความชื่นชอบศิลปินเกาหลีสู่เป้าหมายความสำเร็จตามต้นแบบที่เหมาะสม

วัตถุประสงค์ของการวิจัย

1. เพื่อศึกษาความแตกต่างของปัจจัยส่วนบุคคลที่มีต่อระดับพฤติกรรมการชื่นชอบศิลปินเกาหลีของนักศึกษาปริญญาตรี มหาวิทยาลัยราชภัฏแห่งหนึ่ง
2. เพื่อศึกษาความสัมพันธ์ระหว่างเจตคติที่มีต่อศิลปินเกาหลีกับพฤติกรรมการชื่นชอบศิลปินเกาหลีของนักศึกษาปริญญาตรี มหาวิทยาลัยราชภัฏแห่งหนึ่ง
3. เพื่อศึกษาความสัมพันธ์ระหว่างค่านิยมที่มีต่อศิลปินเกาหลีกับพฤติกรรมการชื่นชอบศิลปินเกาหลีของนักศึกษาปริญญาตรี มหาวิทยาลัยราชภัฏแห่งหนึ่ง

แนวคิด ทฤษฎี กรอบแนวคิด



การวิจัยพฤติกรรมการชื่นชอบศิลปินเกาหลีของนักศึกษาปริญญาตรี มหาวิทยาลัยราชภัฏแห่งหนึ่ง ผู้วิจัยได้ศึกษาเอกสารและผลงานวิจัย เพื่อเป็นกรอบแนวคิดในการวิจัยดังนี้

การเป็นแฟนคลับสามารถใช้ได้กับการชื่นชอบสื่อทุกรูปแบบทั้งรายการ หนังสือ ภาพยนตร์บุคคลหรือวัฒนธรรมที่มีชื่อเสียง (Jenkins, 1992) โดยมนุษย์มีการแสดงออกถึงความสนใจอย่างมีพลังและทิศทาง หากสนใจจะแสดงพลังบวก และหากไม่ได้สนใจจะแสดงพลังเป็นลบ ซึ่งจะเกิดการเรียนรู้และการให้ความสนใจ เฉพาะ สิ่งที่เป็นพลังบวกเท่านั้นตาม Field theory in social science (Lewin, 1951) ทำให้กลุ่มบุคคลที่มีพลังเป็นบวกในเรื่องเดียวกันสามารถรวมตัวกันได้โดย Heider (1958) ได้เสนอ Heider's Balance Theory ซึ่งกล่าวว่ามนุษย์ต้องการรักษาความสมดุลทางจิตใจ ทำให้สร้างความสมดุลระหว่างความชอบและความไม่ชอบในความสัมพันธ์ต่าง ๆ โดยหากตกอยู่ในความสัมพันธ์ที่ไม่สมดุลจะเกิดความรู้สึกไม่สบายใจและความขัดแย้งต่าง ๆ ตามกรอบความคิด The POX Triangle นอกจากนี้ กลุ่มแฟนคลับยังมีการกำหนดอัตลักษณ์เฉพาะเพื่อแบ่งแยกและระบุให้ทราบถึงตัวตนของกลุ่มด้วย อธิบายได้จาก Social Identity Theory (Tajfel & Turner, 1979) กล่าวว่ากลุ่มต่าง ๆ ของมนุษย์ล้วนเป็นเสมือนความภูมิใจและการนับถือตนเอง กลุ่มทำให้รับรู้ถึงอัตลักษณ์ทางโลกสังคมได้ ซึ่งมนุษย์จะแบ่งโลกออกเป็น 2 ส่วน คือ บุคคลที่ไม่ได้อยู่กลุ่มเดียวกับตนเองกับบุคคลที่อยู่กลุ่มเดียวกับตนเอง ผ่านการจัดกลุ่มโดยบุคคลมักจะจัดกลุ่มบุคคลอื่น ๆ ด้วยการดูภาพรวมหรือ stereotyping ซึ่งประกอบไปด้วย 2 ปัจจัย ได้แก่ ความแตกต่างระหว่างกลุ่มคนละกลุ่ม และความเหมือนกันระหว่างบุคคลในกลุ่ม ซึ่งสมมติฐานหลักของ Social Identity Theory กล่าวไว้ว่า สมาชิกในกลุ่มแต่ละกลุ่มจะพยายามมองหาข้อเสีย แง่ลบ หรือข้อบกพร่องของกลุ่มอื่น ซึ่งเรียกว่าการใช้มุมมองแบบอคติเพื่อเสริมสร้างภาพลักษณ์ของตนเองให้แข็งแกร่งมากขึ้น

อาจารีย์ ประจวบเหมาะ และคณะ (2565) งานวิจัยเรื่อง การศึกษาเจตคติและพฤติกรรมของกลุ่มแฟนคลับที่มีต่อกระแสความนิยมเพลงเกาหลี พบว่า ส่วนใหญ่เพศหญิง ที่มีรายได้ต่ำกว่า 5,000 บาท มีเจตคติต่อด้านภาพลักษณ์ของศิลปินอยู่ในระดับมาก และมีพฤติกรรมในการติดตามข่าวสารของศิลปินที่ชื่นชอบอย่างต่อเนื่องอยู่ในระดับมาก และเพศ อายุและรายได้ที่แตกต่างกันจะมีเจตคติต่อกระแสความนิยมเพลงเกาหลีต่างกัน

กุลริสา อากาศวิภาต (2564) งานวิจัยเรื่อง พฤติกรรมการเปิดรับสื่อที่มีผลต่อการชื่นชอบศิลปินเกาหลีของแฟนคลับชาวไทยในเขตกรุงเทพมหานคร พบว่า 1) พฤติกรรมการเปิดรับสื่อของแฟนคลับชาวไทยที่ชื่นชอบศิลปินเกาหลี ในเขตกรุงเทพมหานคร มีค่าเฉลี่ยอยู่ในระดับปานกลาง ประกอบไปด้วยด้านการแสวงหาข้อมูล การเปิดรับข้อมูลข่าวสาร และการเปิดรับประสบการณ์และมีพฤติกรรมการบริโภคสื่อเกี่ยวกับศิลปินที่ชื่นชอบทุกวัน 2) การชื่นชอบศิลปินเกาหลีของแฟนคลับชาวไทยในเขตกรุงเทพมหานคร มีค่าเฉลี่ยอยู่ในระดับมาก โดยกลุ่มตัวอย่างชื่นชอบศิลปินเพราะลักษณะนิสัย

จากข้อมูลดังกล่าวสรุปได้ว่า พฤติกรรมการชื่นชอบศิลปินเกาหลี หมายถึง การกระทำพฤติกรรมต่าง ๆ ที่แสดงออกถึงความรู้สึกที่มีต่อศิลปินเกาหลีด้วยการชื่นชอบ หลงใหล เทิดทูนศิลปินเกาหลี สนใจใคร่รู้เกี่ยวกับชีวิตของศิลปินเกาหลีมีเรื่องราวของศิลปินเกาหลีเป็นศูนย์กลางต้นแบบ รู้สึกผูกพันเหมือนเป็นคนใกล้ตัวและมีการเชื่อมโยงตนเองเข้ากับศิลปินเกาหลี ซึ่งมีความสอดคล้องกับเจคคติที่มีต่อศิลปินและค่านิยมที่มีต่อศิลปิน สามารถนำมาพัฒนากรอบแนวคิดในการวิจัยได้ดังนี้

ภาพที่ 1 กรอบแนวคิดการวิจัย

วิธีดำเนินการวิจัย

ประชากรที่ใช้ในการวิจัย คือ นักศึกษามหาวิทยาลัยราชภัฏแห่งหนึ่ง ในเขตพื้นที่กรุงเทพมหานครและปริมณฑล จำนวนทั้งสิ้น 6,031 คน (สำนักส่งเสริมวิชาการและงานทะเบียน, 2566) เนื่องจากประชากรมีขนาดใหญ่และทราบจำนวนประชากรที่แน่นอน ดังนั้นขนาดตัวอย่างสามารถคำนวณได้จากสูตรที่ทราบขนาดตัวอย่างของ Yamane (1973) โดยกำหนดระดับค่าความเชื่อมั่นร้อยละ 95 และระดับค่าความคลาดเคลื่อนร้อยละ 5 ได้ขนาดกลุ่มตัวอย่าง 377 คน โดยการสุ่มตัวอย่างเป็นการสุ่มกลุ่มตัวอย่างแบบชั้นภูมิ (Stratified Random Sampling) ขั้นตอนที่ 1 กำหนดขนาดของกลุ่มตัวอย่างตามคณะที่เรียน ซึ่งแบ่งออกเป็น 8 คณะ ขั้นตอนที่ 2 เลือกสุ่มกล่มตัวอย่างตามสัดส่วนที่เท่ากันของจำนวนของประชากรในแต่ละคณะ เพื่อให้ได้จำนวนกลุ่มตัวอย่างที่เป็นตัวแทนประชากรที่มีการกระจายกันอย่างเป็นสัดส่วนในทุกคณะของมหาวิทยาลัย ทั้งนี้ เพื่อเพิ่มความน่าเชื่อถือของผลการวิจัย ผู้วิจัยได้เพิ่มขนาดกลุ่มตัวอย่างจาก 377 คน เป็น 400 คน ซึ่งเท่ากับการเพิ่มขึ้นประมาณ ร้อยละ 6.10 จากจำนวนที่คำนวณได้ เพื่อให้ได้ข้อมูลที่มีความแม่นยำมากขึ้น ผู้วิจัยได้รวบรวมแบบสอบถามกลับมาตรวจสอบความสมบูรณ์ของแบบสอบถามได้จำนวน 400 ชุด คิดเป็นร้อยละ 100 ของแบบสอบถามทั้งหมด

เครื่องมือที่ใช้ในงานวิจัยครั้งนี้เป็นแบบสอบถามที่พัฒนานี้มาจากแนวคิด ทฤษฎีดึงดูดใจระหว่างบุคคล (Interpersonal Attraction Theory) ตลอดจนวรรณกรรม เอกสาร และผลงานวิจัยที่เกี่ยวกับพฤติกรรมการชื่นชอบศิลปินเกาหลี เจตคติที่มีต่อศิลปินเกาหลีและค่านิยมที่มีต่อศิลปินเกาหลี รวมถึงได้นำแนวคิดจากผลงานการวิจัยของ กมลมาศ ศรียาพรหม (2561) และแนวคิดผลงานการวิจัยของ สุธารดี ศรีสวัสดิ์ (2559) ซึ่งใช้มาตราส่วนประมาณค่า (Rating scale) โดยแบ่งเป็น 5 ระดับ คือ จริงที่สุด จริงมาก ไม่แน่ใจ ไม่จริง และไม่จริงที่สุด จากการทบทวนวรรณกรรมสามารถนำองค์ความรู้มาพัฒนาแบบสอบถามจำแนกเป็น 4 ส่วน ดังนี้

ส่วนที่ 1 แบบสอบถามเกี่ยวกับข้อมูลปัจจัยส่วนบุคคลของนักศึกษา ประกอบด้วย ข้อคำถามเกี่ยวกับเพศ และคณะที่ผู้ตอบแบบสอบถามกำลังศึกษาอยู่

ส่วนที่ 2 แบบสอบถามเกี่ยวกับเจตคติที่มีต่อศิลปินเกาหลี

ส่วนที่ 3 แบบสอบถามเกี่ยวกับค่านิยมที่มีต่อศิลปินเกาหลี

ส่วนที่ 4 แบบสอบถามเกี่ยวกับพฤติกรรมการชื่นชอบศิลปินเกาหลี

ผู้วิจัยได้การตรวจสอบคุณภาพเครื่องมือ โดยการตรวจสอบความตรงเชิงเนื้อหา (Content Validity) โดยผู้วิจัยได้พัฒนาข้อคำถาม จากแบบสอบถามที่พัฒนาขึ้นโดยแนวคิดทฤษฎีดึงดูดใจระหว่างบุคคล (Interpersonal Attraction Theory) นำไปสร้างนิยามศัพท์ปฏิบัติการและพัฒนาข้อคำถามเสนอต่ออาจารย์ที่ปรึกษาเพื่อตรวจสอบความถูกต้องพัฒนาปรับปรุงจนได้ข้อคำถามที่เหมาะสม จากนั้นจึงนำแบบสอบถามที่พัฒนาขึ้นเสนอต่อผู้เชี่ยวชาญ จำนวน 3 ท่าน เพื่อตรวจสอบความตรงเชิงเนื้อหา โดยพิจารณาจากความสอดคล้องระหว่างข้อคำถามกับเนื้อหาและจุดมุ่งหมายที่ต้องการวัด (Index of Consistency: IOC) ซึ่งแบบสอบถามทั้งหมดมีค่า IOC ตั้งแต่ 0.67 – 1.00 จากนั้นผู้วิจัยจึงได้นำข้อคำถามที่ผ่านการทดสอบความเที่ยงตรงเชิงเนื้อหา ไปทดลองใช้ (Try-Out) กับนักศึกษาระดับปริญญาตรีของมหาวิทยาลัยราชภัฏแห่งหนึ่ง ที่ไม่ใช่ตัวอย่างที่ศึกษา จำนวน 50 คน และนำมาวิเคราะห์ค่าความเชื่อมั่น โดยแบบสอบถามพฤติกรรมการชื่นชอบศิลปินเกาหลี มีค่าความเชื่อมั่นเท่ากับ .93 แบบสอบถามเจตคติที่ดีต่อศิลปินเกาหลี มีค่าความเชื่อมั่นเท่ากับ .96 และแบบสอบถามค่านิยมที่มีต่อศิลปินเกาหลี มีค่าความเชื่อมั่นเท่ากับ .89

การวิเคราะห์ข้อมูล ผู้วิจัยใช้โปรแกรมสำเร็จรูปทางสถิติโดยใช้สถิติเชิงพรรณนา (Descriptive Statistic) ประกอบด้วย ความถี่ (Frequency) ร้อยละ (Percentage) ค่าเฉลี่ย (Mean) ส่วนเบี่ยงเบนมาตรฐาน (Standard Deviation) และสถิติเชิงอนุมาน (Inferential Statistic) ประกอบด้วยการหาความแตกต่างของค่าเฉลี่ยระหว่างกลุ่ม (t-test) การทดสอบความแปรปรวนทางเดียว (One-way ANOVA) และการวิเคราะห์สัมประสิทธิ์สหสัมพันธ์ของเพียร์สัน (Pearson’s product moment correlation coefficient)

ผลการวิจัย

ผลการวิเคราะห์ข้อมูลปัจจัยส่วนบุคคลของตัวอย่างที่ศึกษา ได้แก่ เพศ คณะ พบว่าตัวอย่างที่ศึกษาส่วนใหญ่เป็นเพศหญิง จำนวน 253 คน (ร้อยละ 63.30) และตัวอย่างที่ศึกษาส่วนใหญ่เป็นคณะวิทยาการจัดการ จำนวน 100 คน คิดเป็นร้อยละ 25.00

ผลการวิเคราะห์ค่าเฉลี่ย (mean) และส่วนเบี่ยงเบนมาตฐาน (S.D.) ของตัวแปรที่ใช้ในการวิจัย ได้แก่ พฤติกรรมการชื่นชอบศิลปินเกาหลี เจตคติที่มีต่อศิลปินเกาหลี ค่านิยมที่มีต่อศิลปินเกาหลี พบว่านักศึกษาในมหาวิทยาลัยราชภัฏแห่งหนึ่ง มีพฤติกรรมการชื่นชอบศิลปินเกาหลีในระดับปานกลาง โดยมีค่าเฉลี่ย 3.38 มีเจตคติที่ดีต่อศิลปินเกาหลีในระดับปานกลาง ค่าเฉลี่ย 3.50 และมีค่านิยมที่มีต่อศิลปินเกาหลีในระดับปานกลาง ค่าเฉลี่ย 3.23

ผลการทดสอบสมมุติฐาน

สมมติฐานที่ 1 นักศึกษาที่มีเพศแตกต่างมีพฤติกรรมการชื่นชอบศิลปินเกาหลีแตกต่างกัน ผลการวิเคราะห์ค่าสถิติที่ใช้ในการเปรียบเทียบความแตกต่าง ปัจจัยส่วนบุคคลด้านเพศแตกต่างกันมีพฤติกรรมการชื่นชอบศิลปินเกาหลีแตกต่างกัน ปรากฏดังตารางที่ 1

ตารางที่ 1 แสดงผลการวิเคราะห์พฤติกรรมการชื่นชอบศิลปินเกาหลีในการเปรียบเทียบระหว่างเพศของผู้ตอบแบบสอบถาม (n = 400)

เพศ	n	$\bar{x}$	S.D.	t	P-value	แปลผล
ชาย	147	3.35	0.83	0.560	0.576	ไม่แตกต่าง
หญิง	253	3.40	0.87			

จากตารางที่ 1 นักศึกษาชายมีจำนวน 147 คน ค่าเฉลี่ย 3.35 ส่วนเบี่ยงเบนมาตรฐาน 0.83 และนักศึกษาหญิง จำนวน 253 คน ค่าเฉลี่ย 3.40 ส่วนเบี่ยงเบนมาตรฐาน 0.87 ซึ่งผลการทดสอบสมมติฐานพบว่า t = 0.560, p = .576 ซึ่งมีค่า P - value มากกว่าระดับนัยสำคัญทางสถิติที่กำหนดไว้ที่ .05 แสดงว่า นักศึกษาที่มีเพศแตกต่างกันไม่มีพฤติกรรมการชื่นชอบศิลปินเกาหลีแตกต่างกัน อย่างมีนัยสำคัญทางสถิติ ซึ่งไม่เป็นไปตามสมมติฐานที่ตั้งไว้

สมมติฐานที่ 2 นักศึกษาที่อยู่ต่างคณะกันมีพฤติกรรมการชื่นชอบศิลปินเกาหลีแตกต่างกัน ผลการวิเคราะห์ค่าสถิติที่ใช้ในการเปรียบเทียบความแตกต่าง ปัจจัยส่วนบุคคลด้านคณะแตกต่างกันมีพฤติกรรมการชื่นชอบศิลปินเกาหลีแตกต่างกัน ปรากฏดังตารางที่ 2

ตารางที่ 2 แสดงผลการวิเคราะห์พฤติกรรมการชื่นชอบศิลปินเกาหลีในการเปรียบเทียบระหว่างคณะของผู้ตอบแบบสอบถาม

คณะ	$\bar{x}$	S.D.	P-value	แปลผล
วิทยาการจัดการ	3.19	.68	.000	แตกต่าง
มนุษยศาสตร์และสังคมศาสตร์	3.42	1.14		
ครุศาสตร์	3.20	.84		
วิทยาศาสตร์และเทคโนโลยี	3.30	.58		
สาธารณสุขศาสตร์	3.79	.71		
เทคโนโลยีอุตสาหกรรม	3.89	.56		
เทคโนโลยีการเกษตร	3.29	.85		
นวัตกรรมการจัดการ	4.24	.66		

จากตารางที่ 2 พบว่า นักศึกษาที่มีคณะแตกต่างกันมีพฤติกรรมการชื่นชอบศิลปินเกาหลีแตกต่างกัน จึงทำการทดสอบเปรียบเทียบความแตกต่างรายคู่ LSD (Least Significant Difference) ดังปรากฏ ในตารางที่ 3

ตารางที่ 3 ผลการวิเคราะห์ข้อมูล เปรียบเทียบพฤติกรรมการชื่นชอบศิลปินเกาหลีจำแนกตามคณะ พบว่าคณะที่แตกต่างกันมีพฤติกรรมการชื่นชอบศิลปินเกาหลีแตกต่างกัน จึงได้ทดสอบความแตกต่างรายคู่ของค่าเฉลี่ยของกลุ่มตัวอย่าง ด้วยวิธี LSD

คณะ	Mean	ครุศาสตร์	เทคโนโลยีการเกษตร	เทคโนโลยีอุตสาหกรรม	นวัตกรรมการจัดการ	มนุษยศาสตร์และสังคมศาสตร์	วิทยาการจัดการ	วิทยาศาสตร์และเทคโนโลยี	สาธารณสุขศาสตร์
ครุศาสตร์	3.20	-	.740	.000	.000	.091	.898	.517	.000

วิทยาศาสตร์และเทคโนโลยี	3.30	-	-	-	-	-	-	-	.010
สาธารณสุขศาสตร์	3.79	-	-	-	-	-	-	-	-

* มีนัยสำคัญทางสถิติที่ระดับ .05

จากตารางที่ 3 ผลการวิเคราะห์ความแตกต่างพฤติกรรมการชื่นชอบศิลปินเกาหลีเปรียบเทียบรายคู่ จำแนกตามคณะของนักศึกษามหาวิทยาลัยราชภัฏแห่งหนึ่ง พบว่า นักศึกษาคณะครุศาสตร์มีพฤติกรรมการชื่นชอบศิลปินเกาหลีแตกต่างกับคณะเทคโนโลยีอุตสาหกรรม (Sig = .000) คณะครุศาสตร์กับคณะนวัตกรรมการจัดการ (Sig = .000) คณะครุศาสตร์กับคณะสาธารณสุขศาสตร์ (Sig = .000) คณะเทคโนโลยีการเกษตรกับคณะเทคโนโลยีอุตสาหกรรม (Sig = .042) คณะเทคโนโลยีการเกษตรกับคณะนวัตกรรมการจัดการ (Sig = .009) คณะเทคโนโลยีอุตสาหกรรมกับคณะมนุษยศาสตร์และสังคมศาสตร์ (Sig = .009) คณะเทคโนโลยีอุตสาหกรรมกับคณะวิทยาการจัดการ (Sig = .000) คณะเทคโนโลยีอุตสาหกรรมกับคณะวิทยาศาสตร์และเทคโนโลยี (Sig = .003) คณะนวัตกรรมการจัดการกับคณะมนุษยศาสตร์และสังคมศาสตร์ (Sig = .003) คณะนวัตกรรมการจัดการกับคณะวิทยาการจัดการ (Sig = .000) คณะนวัตกรรมการจัดการกับคณะวิทยาศาสตร์และเทคโนโลยี (Sig = .001) คณะมนุษยศาสตร์และสังคมศาสตร์กับคณะสาธารณสุขศาสตร์ (Sig = .026) คณะวิทยาการจัดการกับคณะสาธารณสุขศาสตร์ (Sig = .000) และคณะวิทยาศาสตร์และเทคโนโลยีกับคณะสาธารณสุขศาสตร์ (Sig = .010) อย่างมีนัยสำคัญทางสถิติที่ระดับ .05

สมมติฐานที่ 3 เจตคติที่มีต่อศิลปินเกาหลีมีความสัมพันธ์กับพฤติกรรมการชื่นชอบศิลปินเกาหลี ผลการวิเคราะห์ความสัมพันธ์ระหว่างเจตคติที่มีต่อศิลปินเกาหลีและพฤติกรรมการชื่นชอบศิลปินเกาหลี

ตารางที่ 4 แสดงผลการวิเคราะห์เจตคติที่มีต่อศิลปินเกาหลีมีความสัมพันธ์กับพฤติกรรมการชื่นชอบศิลปินเกาหลี จากการหาค่าสัมประสิทธิ์สหสัมพันธ์

พฤติกรรมการชื่นชอบศิลปินเกาหลี	ค่าสหสัมพันธ์	P	ระดับความสัมพันธ์
เจตคติที่ดีต่อศิลปินเกาหลี	.835**	.000	ระดับสูง

**มีนัยสำคัญทางสถิติที่ .01

จากตารางที่ 4 พบว่า เจตคติที่มีต่อศิลปินเกาหลีและพฤติกรรมการชื่นชอบศิลปินเกาหลี มีความสัมพันธ์กัน อย่างมีนัยสำคัญทางสถิติที่ระดับ .01 โดยมีค่าระดับความสัมพันธ์ในระดับสูง กล่าวคือ นักศึกษาที่มีเจตคติที่มีต่อศิลปินเกาหลีมากก็จะมีพฤติกรรมการชื่นชอบศิลปินเกาหลีมากขึ้น (r = .835**)

สมมติฐานที่ 4 ค่านิยมที่มีศิลปินเกาหลีมีความสัมพันธ์กับพฤติกรรมการชื่นชอบศิลปินเกาหลี ผลการวิเคราะห์ความสัมพันธ์ระหว่างค่านิยมที่มีต่อศิลปินเกาหลีและพฤติกรรมการชื่นชอบศิลปินเกาหลี

ตารางที่ 5 แสดงผลการวิเคราะห์ค่านิยมที่มีต่อศิลปินเกาหลีและพฤติกรรมการชื่นชอบศิลปินเกาหลีจากการหาค่าสัมประสิทธิ์สหสัมพันธ์

พฤติกรรมการชื่นชอบศิลปินเกาหลี	ค่าสหสัมพันธ์	P	ระดับความสัมพันธ์
ค่านิยมที่มีต่อศิลปินเกาหลี	.770**	.000	ระดับปานกลาง

**มีนัยสำคัญทางสถิติที่ระดับ .01

จากตารางที่ 5 พบว่า ค่านิยมที่มีต่อศิลปินเกาหลีและพฤติกรรมการชื่นชอบศิลปินเกาหลี มีความสัมพันธ์กัน อย่างมีนัยสำคัญทางสถิติที่ระดับ .01 โดยมีค่าระดับความสัมพันธ์ในระดับปานกลาง กล่าวคือ นักศึกษาที่มีค่านิยมต่อศิลปินเกาหลีมากก็จะมีพฤติกรรมการชื่นชอบศิลปินเกาหลีมากขึ้น (r = .770**)

สรุปและอภิปรายผล

การศึกษาเรื่อง ปัจจัยที่มีความสัมพันธ์กับพฤติกรรมการชื่นชอบศิลปินเกาหลีของนักศึกษาปริญญาตรี มหาวิทยาลัยราชภัฏแห่งหนึ่ง สามารถอภิปรายผลการวิจัยจำแนกตามวัตถุประสงค์การวิจัย ดังนี้

1. ศึกษาความแตกต่างของปัจจัยส่วนบุคคลที่มีต่อระดับพฤติกรรมการชื่นชอบศิลปินเกาหลีของนักศึกษาปริญญาตรี มหาวิทยาลัยราชภัฏแห่งหนึ่ง พบว่า

1.1 นักศึกษาที่มีเพศแตกต่างกันมีพฤติกรรมการชื่นชอบศิลปินเกาหลีไม่แตกต่างกัน ซึ่งไม่เป็นไปตามสมมติฐานที่ตั้งไว้ เนื่องจากผลการวิจัยพบว่าในภาพรวมเพศชายและเพศหญิงมีพฤติกรรมการ

ชื่นชอบศิลปินเกาหลีไม่แตกต่างกัน สอดคล้องกับการศึกษาของ (พันธุ์ธัช ศรีทิพันธุ์ และคณะ 2561) ที่ศึกษาเรื่อง อิทธิพลของความแตกต่างระหว่างเพศและบุคลิกภาพที่มีต่อเสียงดิจิตอลที่เร้าอารมณ์ พบว่า ความแตกต่างระหว่างเพศไม่มีอิทธิพลต่อการฟังเสียงดิจิตอลที่เร้าอารมณ์ ด้านการมีอิทธิพลในลักษณะกลัวและไม่กลัว ทั้งนี้ อาจเป็นเพราะเพศชายและเพศหญิง ตอบสนองต่อสิ่งเร้าเสียงในลักษณะกลัว และไม่กลัว คล้าย ๆ กัน จึงไม่มีความแตกต่างกันเนื่องจากกลุ่มตัวอย่างที่ศึกษามีช่วงอายุที่ไม่แตกต่างกันมาก มีอายุระหว่าง 20 - 25 ปี เป็นนักศึกษามีบริบทที่คล้ายคลึงกัน ได้รับอิทธิพลของขนบธรรมเนียม ประเพณี วัฒนธรรมเดียวกัน มีวิถีชีวิตประสบการณ์ การเลี้ยงดู และการอยู่ในสิ่งแวดล้อมแบบไทย ดังนั้นจึงเป็นสาเหตุหนึ่งที่อาจส่งผลให้ ความแตกต่างทางเพศไม่มีอิทธิพลการรับรู้ในอารมณ์ จะต้องอาศัยพื้นฐานประสบการณ์ในการรับรู้เหล่านั้นก่อน จึงจะสามารถแปลผลของรับรู้ออกมาเป็นอารมณ์ ดังนั้นเพศที่แตกต่างกันจึงไม่เป็นตัวแปรที่เกี่ยวข้องกับระดับพฤติกรรมการชื่นชอบของศิลปิน สอดคล้องกับการศึกษาของ (Lang, Bradley, and Cuthbert, 1997) พบว่า การจำแนกอารมณ์ความรู้สึกด้านการมีอิทธิพล (Dominance) เกิดจากอิทธิพลของสิ่งแวดล้อมที่มีต่ออารมณ์ความรู้สึกของแต่ละบุคคลส่งผลต่อความสามารถในการควบคุมอารมณ์ความรู้สึกต่อสิ่งแวดล้อมนั้น ๆ ดังนั้นเมื่อกระตุ้นสิ่งเร้าที่เป็นเสียงผ่านระบบรับสัมผัสทางการได้ยินจึงเกิดกระบวนการรับรู้ตีความตอบสนองออกมา ซึ่งสอดคล้องกับการศึกษาของ (Domes, et al. 2010) ศึกษาปฏิกิริยาการตอบสนองต่อรูปภาพอารมณ์ด้านลบด้วยภาพถ่ายสมองเปรียบเทียบระหว่างเพศชายและเพศหญิง พบว่า ไม่มีความแตกต่างระหว่างเพศต่อการรับรู้อารมณ์ทั้งด้านประทับใจหรือการตื่นตัว ด้วยเหตุนี้จึงทำให้นักศึกษาที่มีเพศแตกต่างกันมีพฤติกรรมการชื่นชอบศิลปินเกาหลีไม่แตกต่างกัน

1.2 นักศึกษาที่มีคณะแตกต่างกันมีพฤติกรรมการชื่นชอบศิลปินเกาหลีแตกต่างกัน ซึ่งเป็นไปตามสมมติฐานที่ตั้งไว้เนื่องจากผลการวิจัยพบว่า นักศึกษาที่อยู่ต่างคณะกันมีพฤติกรรมการชื่นชอบศิลปินเกาหลีที่แตกต่างกันตามทฤษฎีความแตกต่างระหว่างบุคคล (Individual Differences Theory) De Flure (1970) ได้เสนอหลักการไว้ว่า มนุษย์มีความแตกต่างกันอย่างมากในองค์ประกอบทางจิตวิทยาส่วนบุคคล ความแตกต่างบางส่วนมาจากลักษณะความแตกต่างทางชีวภาคหรือทางร่างกายของแต่ละบุคคลแต่ส่วนใหญ่มาจากการเรียนรู้และมนุษย์ที่ถูกชุบเลี้ยงภายใต้สถานการณ์ต่าง ๆ จะเปิดรับความคิดเห็นแตกต่างกันไปอย่างกว้างขวางจากการเรียนรู้สิ่งแวดล้อมทำให้เกิดทัศนคติ ค่านิยม และความเชื่อที่รวมเป็นลักษณะทางจิตวิทยาส่วนบุคคลที่แตกต่างกันไป แสดงให้เห็นถึงพฤติกรรมชื่นชอบและความสนใจของนักศึกษามีความหลากหลายและสัมพันธ์กับคณะที่เรียนซึ่งสอดคล้องกับการศึกษาของ (ธันยากร ช่วยทุกข์เพื่อน, 2558) พบว่า ปัจจัยที่มีอิทธิพลต่อการสนใจและชื่นชอบมีความแตกต่างกันเมื่อจำแนกตามคณะ ดังนั้นเมื่อพิจารณารูปแบบการเรียนรู้แต่ละคณะย่อมมีความเฉพาะเจาะจงในศาสตร์ของตนที่แตกต่างกันอย่างเอกลักษณ์ ด้วยเหตุนี้จึงทำให้นักศึกษาที่มีคณะแตกต่างกันมีพฤติกรรมการชื่นชอบศิลปินเกาหลีแตกต่างกัน

2. ศึกษาความสัมพันธ์ระหว่างเจตคติที่มีต่อศิลปินเกาหลีกับพฤติกรรมการชื่นชอบศิลปินเกาหลีของนักศึกษาปริญญาตรี มหาวิทยาลัยราชภัฏแห่งหนึ่ง พบว่า

2.1 เจตคติที่มีต่อศิลปินเกาหลีมีความสัมพันธ์กับพฤติกรรมการชื่นชอบศิลปินเกาหลี ซึ่งเป็นไปตามสมมติฐานที่ตั้งไว้ ผลการวิจัยพบว่านักศึกษาที่มีเจตคติที่มีต่อศิลปินเกาหลีมากก็จะมีพฤติกรรมการชื่นชอบศิลปินเกาหลีมากขึ้นไปด้วย ซึ่งสอดคล้องตามทฤษฎีแรงจูงใจ (Incentive Theory) ทฤษฎีนี้ให้แนวคิดเกี่ยวกับการเกิดเจตคติว่า เป็นกระบวนการให้น้ำหนักจากคุณและโทษของสิ่งนั้น แล้ว

พิจารณาตัดสินใจเลือกที่เหมาะสมที่สุด เชื่อว่าสิ่งที่เรารักหรือชอบสิ่งใดสิ่งหนึ่งนั้นอยู่ ๆ จะเกิดรักและชอบขึ้นมานั้นเป็นไปไม่ได้ สิ่งที่เรารักหรือชอบจะต้องมีคุณประโยชน์ต่อเราแน่นอนอาจจะมีสิ่งไม่ดีอยู่บ้างแต่เมื่อพิจารณาคุณและโทษแล้วเห็นว่าน้ำหนักคุณประโยชน์สูงกว่าเราก็จะชอบสิ่งนั้น ในทางตรงกันข้ามถ้าสิ่งนั้นมีโทษหรือไร้ประโยชน์มากกว่าก็จะไม่ชอบสิ่งนั้น จากการพิจารณาตัดสินใจโดยกระบวนการแบบนี้จึงทำให้เกิดเจตคติทางบวกหรือทางลบขึ้นได้ (Killeen, 1981) เช่น ถ้าใครคิดว่าการชื่นชอบศิลปินเกาหลีมีประโยชน์เพราะสามารถช่วยให้ผ่อนคลาย สร้างความบันเทิงและจรรโลงใจให้แก่คนที่ชอบผลงานของศิลปินเกาหลีได้ ใครที่คิดเช่นนี้ก็จะมีเจตคติต่อการชื่นชอบศิลปินเกาหลีมากขึ้น ในทางบวกแต่ถ้าใครที่พิจารณาว่าการชื่นชอบศิลปินเกาหลี ทำให้เสียสุขภาพเสียเวลาไร้สาระหรือมีความคิดที่นำไปสู่ผลเสียก็จะมีเจตคติต่อการชื่นชอบศิลปินเกาหลีในทางลบ ดังนั้นจึงขึ้นอยู่กับว่าใครจะพิจารณาเห็นคุณหรือโทษมากกว่ากัน แรงกระตุ้นทางไหนชนะก็เกิดเจตคติทางนั้น ด้วยเหตุนี้จึงทำให้เจตคติที่มีต่อศิลปินเกาหลีมีความสัมพันธ์กับพฤติกรรมการชื่นชอบศิลปินเกาหลี

3. ศึกษาความสัมพันธ์ระหว่างค่านิยมที่มีต่อศิลปินเกาหลีกับพฤติกรรมการชื่นชอบศิลปินเกาหลีของนักศึกษาปริญญาตรี มหาวิทยาลัยราชภัฏแห่งหนึ่ง พบว่า

3.1 ค่านิยมที่มีต่อศิลปินเกาหลีมีความสัมพันธ์กับพฤติกรรมการชื่นชอบศิลปินเกาหลี ซึ่งเป็นไปตามสมมติฐานที่ตั้งไว้ ผลการวิจัยพบว่านักศึกษาที่มีค่านิยมต่อศิลปินเกาหลีมากก็จะมีพฤติกรรมการชื่นชอบศิลปินเกาหลีมากซึ่งสอดคล้องตามทฤษฎีการกระทำทางสังคม (Reeder, 1971) ได้ศึกษาและรวบรวมทฤษฎีต่าง ๆ ทางสังคมเพื่อใช้อธิบายพฤติกรรมต่าง ๆ ของมนุษย์ โดยทั่วไปรูปแบบทางด้านจิตวิทยาสังคม (social psychology) ที่เกี่ยวกับการตัดสินใจแสดงพฤติกรรมของมนุษย์นั้น นักสังคมวิทยาส่วนใหญ่จะมองในด้านสถานภาพทางเศรษฐกิจและสังคม (social economics status) ซึ่งถือว่าเป็นปัจจัยภายนอกที่มีผลต่อการตัดสินใจ แต่รีดเดอร์เชื่อว่า การตัดสินใจเลือกแสดงพฤติกรรมของบุคคลจะประกอบด้วยความเชื่อและความไม่เชื่อหลาย ๆ อย่างรวมกัน คือ บุคคลอาจจะแสดงพฤติกรรมอย่างเดียวกันแต่เหตุผลที่ทำให้เกิดการตัดสินใจอาจแตกต่างกันทฤษฎีการกระทำทางสังคม (social action theory) ของ Reeder เป้าหมายหรือจุดประสงค์ (goals) คือ สิ่งที่ผู้กระทำต้องการให้เกิดขึ้นจากการกระทำโดยผู้กระทำจะมีการกำหนดเป้าหมายไว้ล่วงหน้าและจะพยายามที่จะกระทำทุกวิถีทาง เพื่อให้บรรลุเป้าหมายนั้นความเชื่อ (belief orientation) คือ ความคิด ความรู้ ความเข้าใจของแต่ละบุคคลต่อสิ่งที่เกิดขึ้นโดยความเชื่อจะมีผลต่อการตัดสินใจของบุคคลและพฤติกรรมทางสังคม บุคคลจะเลือกรูปแบบของพฤติกรรมบนความเชื่อที่ตนยึดมั่นอยู่ในการกระทำของสังคมใด ๆ ต้องอาศัยความเชื่ออยู่ด้วยเสมอ แต่อย่างไรก็ตามความเชื่อนี้จะส่งผลกระทบหรือไม่กระทำพฤติกรรมนั้น มาตรฐานค่านิยม (value standard) คือ สิ่งที่บุคคลยึดถือเป็นเครื่องช่วยตัดสินใจและกำหนดการกระทำของตน ค่านิยมของผู้กระทำทางสังคมจะแสดงออกทางเจตคติและพฤติกรรมของผู้กระทำทุกรูปแบบ ค่านิยมจึงมีอิทธิพลต่อการตัดสินใจ โดยบุคคลพยายามที่จะกระทำการใด ๆ ให้สอดคล้องกับค่านิยมที่ตนเองยึดถืออยู่นิสัยและขนบธรรมเนียม (habits and customs) คือ แบบอย่างพฤติกรรมที่สังคมกำหนดไว้แล้ว จะสืบต่อกันมาด้วยประเพณี ซึ่งถ้ามีการละเมิดก็จะถูกบังคับด้วยการที่สังคมไม่เห็นชอบ ด้วยเหตุนี้จึงทำให้ ค่านิยมที่มีต่อการชื่นชอบศิลปินเกาหลีมีความสัมพันธ์กับพฤติกรรมการชื่นชอบศิลปินเกาหลี

ข้อเสนอแนะ

ข้อเสนอแนะจากการวิจัย

1. จากการวิจัยจะเห็นได้ว่า เจตคติที่มีต่อศิลปินเกาหลีมีความสอดคล้องกับพฤติกรรมการชื่นชอบศิลปินเกาหลี ซึ่งมีผลต่อการปฏิบัติตนในชีวิตประจำวันรวมถึงการสร้างแรงบันดาลใจต่าง ๆ และสามารถให้ข้อคิดในการใช้ชีวิตต่าง ๆ แก่กลุ่มนักศึกษาปริญญาตรีได้ เมื่อพิจารณาจากผลการวิเคราะห์ข้อมูลด้านเจตคติที่มีผลต่อการชื่นชอบศิลปินเกาหลี พบว่า การได้ข้อคิดดี ๆ จากพฤติกรรมการชื่นชอบศิลปินเกาหลีสามารถให้เกิดกำลังใจในการใช้ชีวิตได้ ดังนั้นพฤติกรรมการชื่นชอบศิลปินเกาหลีอย่างเหมาะสมสามารถทำให้ค้นพบต้นแบบในการพัฒนาพฤติกรรมที่ดีในการใช้ชีวิตแก่กลุ่มนักศึกษาในการพัฒนาตนเองได้ ซึ่งมีประโยชน์ต่อผู้มีบทบาทในการพัฒนานักศึกษาสามารถนำความชื่นชอบในศิลปินเกาหลีเป็นแนวทางสร้างกิจกรรมพัฒนานักศึกษา เพื่อการแนะแนวด้านการวางแผนชีวิต การพัฒนาตนเอง และการตั้งเป้าหมายในอนาคต โดยใช้กรณีศึกษาเรื่องราวของศิลปินที่นักศึกษาชื่นชอบเป็นแรงผลักดันและแรงบันดาลใจสู่เป้าหมายความสำเร็จได้

2. ค่านิยมที่มีต่อศิลปินเกาหลีที่ได้รับการยอมรับและปฏิบัติตามส่งผลทำให้เกิดพฤติกรรมการชื่นชอบศิลปินเกาหลีต่าง ๆ ดังนั้นการเข้าใจถึงปัจจัยที่ทำให้เกิดพฤติกรรมการชื่นชอบศิลปินเกาหลีสามารถทำให้เข้าใจพฤติกรรม และความรู้สึกนักศึกษาที่แสดงออกต่อการชื่นชอบกลุ่มศิลปินได้เพิ่มมากขึ้น ดังนั้นฝ่ายแนะแนวและพัฒนานักศึกษาสามารถใช้ค่านิยมที่นักศึกษามีต่อศิลปินเกาหลีเป็นเครื่องมือในการวางแผนกิจกรรมแนะแนว เช่น การจัดกิจกรรมสะท้อนอัตลักษณ์ตนเอง หรือการใช้ความสนใจในศิลปินเป็นจุดเริ่มต้นในการสร้างแรงบันดาลใจในการเรียนรู้และพัฒนาตนเอง

3. การส่งเสริมกิจกรรมที่เกี่ยวข้องกับความชื่นชอบในศิลปินเกาหลี เพื่อเป็นเวทีให้นักศึกษาได้แสดงออกอย่างสร้างสรรค์ และเป็นการส่งเสริมความเข้าใจการชื่นชอบที่แตกต่างระหว่างนักศึกษาได้

ข้อเสนอแนะในการทำวิจัยครั้งต่อไป

1. เนื่องจากการศึกษาในครั้งนี้ เป็นการศึกษาวิจัยเชิงปริมาณโดยใช้แบบสอบถามเป็นเครื่องมือหลักในการเก็บรวบรวมข้อมูลการทำวิจัยครั้งต่อไป ควรมีการทำวิจัยเชิงคุณภาพควบคู่กันไปด้วย เพื่อให้ได้ข้อมูลในเชิงลึกมากยิ่งขึ้น ซึ่งอาจเพิ่มเติมในส่วนของการสัมภาษณ์เชิงลึก (In-Depth Interview) เพื่อจะได้ทราบถึงพฤติกรรมการชื่นชอบศิลปินเกาหลีเชิงลึกของกลุ่มเป้าหมายเพิ่มขึ้น

บทคัดย่อ

งานวิจัยเรื่องนี้มีวัตถุประสงค์เพื่อวิเคราะห์ผลกระทบทางเศรษฐกิจของนักท่องเที่ยวชาวจีนในประเทศไทยระหว่างปี พ.ศ. 2561 – 2566 ซึ่งมีตัวชี้วัด 3 ตัว ได้แก่ มูลค่าผลผลิต มูลค่าผลิตภัณฑ์มวลรวมภายในประเทศและจำนวนการจ้างงาน โดยผลกระทบทางเศรษฐกิจในงานวิจัยนี้จะแบ่งออกเป็น 3 ส่วน ได้แก่ ผลกระทบทางตรง ผลกระทบทางอ้อม และผลกระทบเชิงชักนำ จากการวิเคราะห์ค่าใช้จ่ายของนักท่องเที่ยวชาวจีนด้วยค่าสัมประสิทธิ์ในตารางปัจจัยการผลิตและผลผลิตด้านการท่องเที่ยวของประเทศไทย พบว่า ผลกระทบทางเศรษฐกิจของนักท่องเที่ยวชาวจีน มีมูลค่าสูงสุดในปี พ.ศ. 2562 ซึ่งเป็นปีที่มีนักท่องเที่ยวชาวจีนมากกว่า 11 ล้านคน โดยสามารถสร้างมูลค่าผลผลิตและผลิตภัณฑ์มวลรวมภายในประเทศโดยรวมได้มากถึง 841,475.62 และ 462,831.87 ล้านบาท ตามลำดับ และก่อให้เกิดการจ้างงานมากถึง 787,627 คน อย่างไรก็ตามสถานการณ์โควิด 19 ที่เกิดขึ้นในปี พ.ศ. 2563 ทำให้จำนวนนักท่องเที่ยวชาวจีนลดลงอย่างรุนแรง ทำให้เหลือมูลค่าผลผลิต มูลค่าผลิตภัณฑ์มวลรวมภายในประเทศและจำนวนการจ้างงานโดยรวมในปี พ.ศ. 2564 เพียง 15,291.05 ล้านบาท 7,437.76 ล้านบาท และ 12,222 คน ตามลำดับ ทั้งนี้สถานการณ์เริ่มดีขึ้นในปี พ.ศ. 2566 เมื่อมูลค่าผลผลิตและผลิตภัณฑ์มวลรวมภายในประเทศโดยรวมจากนักท่องเที่ยวชาวจีนเพิ่มเป็น 317,320.88 และ 163,031.51 ล้านบาท ตามลำดับ และจำนวนการจ้างงานเพิ่มเป็น 282,106 คน แต่ก็ถือว่ายังห่างไกลจากปี พ.ศ. 2562 เป็นอย่างมาก จึงจำเป็นต้องมีมาตรการกระตุ้นการท่องเที่ยวของนักท่องเที่ยวชาวจีนต่อไป

คำสำคัญ: ผลกระทบทางเศรษฐกิจ, นักท่องเที่ยวชาวจีน, ตารางปัจจัยการผลิตและผลผลิตด้านการท่องเที่ยว

Abstract

This study aims to examine the economic impact of Chinese tourists in Thailand during 2018-2023 which is measured by 3 indicators, including total output value, GDP value and total employment. The economic impact in this study is divided into 3 parts, including direct impact, indirect impact and induced impact. After analyzing expenditure of Chinese tourists by employing tourism input-output table of Thailand, the findings reveal that the economic impact of Chinese tourists peaked in 2019 when Thailand welcomed more than 11 million Chinese tourists, with the total output and GDP value reaching 841,475.62 and 462,831.87 million baht, respectively, leading to 787,627 jobs. Nevertheless, COVID-19, which began in 2020, caused the number of Chinese tourists to drop sharply, leading to a decline in total output and GDP value from the total impact to 15,291.05 and 7,437.76 million baht, respectively, and a reduction in employment to 12,222 jobs in 2021. Situation regarding tourism of Chinese tourists partially recovered in 2023, when total output and GDP value from the total impact increased to 317,320.88 and 163,031.51 million baht, respectively, while the employment rose to 282,106 jobs. However, these figures remain far lower than those of 2019, indicating that the measures to promote Chinese tourism are still highly necessary.

Keywords: Economic Impact, Chinese Tourists, Tourism Input-Output Table

บทนำ

นักท่องเที่ยวชาวจีนถือเป็นกลุ่มนักท่องเที่ยวที่สำคัญเป็นอย่างยิ่งสำหรับอุตสาหกรรมการท่องเที่ยวของประเทศไทย จากสถิติของกระทรวงการท่องเที่ยวและกีฬา (2567a) จำนวนนักท่องเที่ยวชาวจีนมีการเติบโตอย่างต่อเนื่องและมีสัดส่วนต่อนักท่องเที่ยวทั้งหมดสูงขึ้นอย่างต่อเนื่อง นั่นคือ นักท่องเที่ยวชาวจีนมีจำนวนเพิ่มขึ้นจาก 1.7 ล้านคน คิดเป็นร้อยละ 8.9 ของนักท่องเที่ยวต่างชาติทั้งหมดในปี พ.ศ. 2554 เป็น 11.1 ล้านคน คิดเป็นร้อยละ 27.9 ของนักท่องเที่ยวต่างชาติทั้งหมดในปี พ.ศ. 2562 ทำให้เกิดการใช้จ่ายในประเทศไทยมากกว่า 3 แสนล้านบาท อย่างไรก็ตามสถานการณ์โควิด 19 ทำให้จำนวนนักท่องเที่ยวชาวจีนลดลงอย่างรุนแรง และยังคงไม่ฟื้นตัวกลับมาเท่าเดิม แม้สถานการณ์จะกลับเข้าสู่ภาวะปกติ โดยจำนวนนักท่องเที่ยวชาวจีนในปี พ.ศ. 2566 มีเพียง 3.5 ล้านคน คิดเป็นร้อยละ 12.5 ของนักท่องเที่ยวต่างชาติทั้งหมด และเกิดเป็นค่าใช้จ่ายเพียง 193,996 ล้านบาท สะท้อนความจำเป็นที่ภาครัฐต้องมีมาตรการเพื่อกระตุ้นการท่องเที่ยวของนักท่องเที่ยวชาวจีนให้กลับมาเติบโตอีกครั้ง

อย่างไรก็ตามสถานการณ์โควิด 19 ได้ทำให้พฤติกรรมการท่องเที่ยวและการใช้จ่ายของนักท่องเที่ยวชาวจีนเปลี่ยนแปลงไปหลายประการ อันเป็นผลมาจากภาพลักษณ์ด้านความปลอดภัย ทางเลือกในการใช้จ่ายที่หลากหลายผ่านช่องทางออนไลน์ สงครามการค้าและความผันผวนของค่าเงินหยวน (ศูนย์วิจัยกสิกรไทย, 2568) ทำให้เกิดความท้าทายในการหามาตรการกระตุ้นการท่องเที่ยวและการใช้จ่ายของนักท่องเที่ยวชาวจีน ทั้งนี้ในการหามาตรการเพื่อดึงดูดนักท่องเที่ยวชาวจีนและกระตุ้นการใช้จ่ายของนักท่องเที่ยวชาวจีนจำเป็นต้องอาศัยข้อมูลการวิเคราะห์เชิงลึกเกี่ยวกับพฤติกรรมการท่องเที่ยวและการใช้จ่าย ตลอดจนผลกระทบทางเศรษฐกิจของนักท่องเที่ยวชาวจีน เพื่อประเมินความ

คุ้มค่าในการจัดสรรทรัพยากรของประเทศเพื่อดำเนินการดังกล่าว อย่างไรก็ตาม การมีข้อมูลเพียงการใช้จ่ายเบื้องต้นของนักท่องเที่ยวยังไม่เพียงพอที่จะสะท้อนผลกระทบทางเศรษฐกิจได้อย่างครอบคลุม เนื่องจากเป็นเพียงค่าใช้จ่ายที่เกิดขึ้นเฉพาะกับภาคธุรกิจที่เกี่ยวข้องกับภาคการท่องเที่ยวเท่านั้น แต่ได้ละเลยภาคธุรกิจที่เป็นห่วงโซ่อุปทานของการท่องเที่ยว ตลอดจนผลได้ทางเศรษฐกิจที่ได้อานิสงส์จากการที่ประชาชนมีงานทำและมีรายได้จากการท่องเที่ยวของนักท่องเที่ยวชาวจีน

ดังนั้นจึงเป็นที่มาของงานวิจัยเรื่องนี้ที่ต้องการวิเคราะห์ผลกระทบทางเศรษฐกิจของนักท่องเที่ยวชาวจีนเพื่อเติมเต็มช่องว่างดังกล่าว โดยอาศัยข้อมูลจากตารางปัจจัยการผลิตและผลผลิตด้านการท่องเที่ยวของประเทศไทยเพื่อคำนวณมูลค่าผลผลิต มูลค่าผลิตภัณฑ์มวลรวมภายในประเทศ (GDP) และจำนวนการจ้างงานที่ประเทศไทยได้รับจากการมีนักท่องเที่ยวชาวจีนเข้ามาท่องเที่ยวในประเทศ

วัตถุประสงค์ของการวิจัย

งานวิจัยเรื่องนี้มีวัตถุประสงค์เพื่อวิเคราะห์ผลกระทบทางเศรษฐกิจจากนักท่องเที่ยวชาวจีนในประเทศไทยระหว่างปี พ.ศ. 2561 – 2566 ซึ่งครอบคลุมช่วงเวลาก่อน ระหว่าง และหลังสถานการณ์โควิด 19 โดยพิจารณาจากตัวชี้วัด 3 ตัว ได้แก่ มูลค่าผลผลิต มูลค่าผลิตภัณฑ์มวลรวมภายในประเทศ และจำนวนการจ้างงาน โดยผลกระทบทางเศรษฐกิจแบ่งออกเป็น 3 ส่วน ได้แก่ ผลกระทบทางตรง ผลกระทบทางอ้อม และผลกระทบเชิงชักนำ

แนวคิด ทฤษฎี และกรอบแนวคิด

1. ผลกระทบทางเศรษฐกิจจากการท่องเที่ยว

ตามหลักการทางเศรษฐศาสตร์ กรอบแนวคิดในการวิเคราะห์ผลกระทบทางเศรษฐกิจจากการท่องเที่ยวแบ่งออกเป็น 3 ส่วน (World Travel and Tourism Council, 2023) ได้แก่

1. ผลกระทบทางตรง (Direct Impact) หมายถึง ผลได้ทางเศรษฐกิจอันเป็นผลมาจากกิจกรรมที่เกี่ยวข้องกับการท่องเที่ยวโดยตรง โดยผลได้ทางเศรษฐกิจในที่นี้สามารถวัดได้จากปัจจัยทางเศรษฐศาสตร์มหภาคต่างๆ เช่น มูลค่าผลผลิต มูลค่าผลิตภัณฑ์มวลรวมภายในประเทศ และจำนวนการจ้างงาน ฯลฯ

2. ผลกระทบทางอ้อม (Indirect Impact) หมายถึง ผลได้ทางเศรษฐกิจอันเป็นผลมาจากกิจกรรมที่เป็นห่วงโซ่อุปทาน (Supply Chain) ของกิจกรรมที่เกี่ยวข้องกับการท่องเที่ยว

3. ผลกระทบเชิงชักนำ (Induced Impact) หมายถึง ผลได้ทางเศรษฐกิจอันเป็นผลมาจากการที่ประชาชนมีรายได้ทั้งทางตรงและทางอ้อมจากการที่มีนักท่องเที่ยวต่างชาติและมีการใช้จ่ายรายได้นั้นๆ เพื่อการอุปโภคบริโภคในรูปแบบต่างๆ

ดังนั้นสรุปได้ว่า ผลกระทบทางเศรษฐกิจทั้งหมด = ผลกระทบทางตรง + ผลกระทบทางอ้อม + ผลกระทบเชิงชักนำ

จากการทบทวนวรรณกรรมพบว่า การศึกษาผลกระทบทางเศรษฐกิจจากการท่องเที่ยวในระดับมหภาคได้รับความสนใจศึกษาอย่างกว้างขวาง ตัวอย่างเช่น งานวิจัยของ Pratt (2015) ที่ได้ทำการวิเคราะห์ผลกระทบทางเศรษฐกิจของอุตสาหกรรมการท่องเที่ยวของประเทศหมู่เกาะ จำนวน 7 ประเทศ ได้แก่ ซามัว อารูบา ฟิจิ จาไมก้า มัลดีฟส์ มอริเชียส และเซเชลส์ ระหว่างปี ค.ศ. 1999 – 2007 งานวิจัยของ Lemma (2014) ซึ่งทำการสังเคราะห์และนำเสนอผลกระทบทางเศรษฐกิจทั้งผลกระทบทางตรงและ

ผลกระทบในภาพรวมของอุตสาหกรรมการท่องเที่ยวในระดับโลกในปี ค.ศ. 2013 งานวิจัยของ Biburiev, David, Abdreyeva, Zhakupova and Artemyev (2018) ที่ได้ทำการวิเคราะห์ผลกระทบทางเศรษฐกิจจากกิจกรรมการท่องเที่ยวที่มีต่อมูลค่าผลผลิต การจ้างงาน และรายรับภาษีของภาครัฐของประเทศคาซักสถานในปี ค.ศ. 2017 และงานวิจัยของ World Travel and Tourism Council (2023) ซึ่งได้ทำการวิเคราะห์ผลกระทบทางตรงและผลกระทบในภาพรวมของอุตสาหกรรมการท่องเที่ยวในปี ค.ศ. 2023 ทั้งในระดับโลก ระดับภูมิภาค และระดับประเทศ รวมทั้งประเทศไทย

นอกจากนี้ยังพบงานวิจัยจำนวนมากที่เน้นศึกษาผลกระทบทางเศรษฐกิจจากการท่องเที่ยวในระดับพื้นที่ ตัวอย่างเช่น งานวิจัยของ Mayer, Muller, Woltering, Arnegger and Job (2010) ที่ทำการวิเคราะห์ผลกระทบทางเศรษฐกิจที่เกิดขึ้นจากการท่องเที่ยวในอุทยานแห่งชาติในประเทศเยอรมนีในปี ค.ศ. 2007 และงานวิจัยของ Tohmo (2018) ที่ได้ทำการวิเคราะห์ผลกระทบของการท่องเที่ยวในพื้นที่ตอนกลางของประเทศฟินแลนด์ในปี ค.ศ. 2014

สำหรับประเทศไทย พบว่างานวิจัยส่วนใหญ่เน้นศึกษาผลกระทบทางเศรษฐกิจของการท่องเที่ยวในระดับพื้นที่ ตัวอย่างเช่น อำนาจ รักษาพล, เบญจมาศ ณ ทองแก้ว และอุทัยวรรณ ศรีวิชัย (2563) ศึกษาผลกระทบทางเศรษฐกิจจากการท่องเที่ยวในพื้นที่เกาะพิทักษ์ จังหวัดชุมพร เพ็ญศิริ สมารักษ์, นันทภัค บุรขจรกุล และเปรมปรีดา ทองลา (2565) ศึกษาผลกระทบทางเศรษฐกิจจากการท่องเที่ยวโดยชุมชน ตำบลบางสระเก้า อำเภอแหลมสิงห์ จังหวัดจันทบุรี และธีระ สินเดชารักษ์ และวิชาญ กิตติรัตนพันธ์ (2565) ศึกษาผลกระทบทางเศรษฐกิจจากการท่องเที่ยวในพื้นที่พิเศษเพื่อการท่องเที่ยวอย่างยั่งยืนขององค์การบริหารการพัฒนาพื้นที่พิเศษเพื่อการท่องเที่ยวอย่างยั่งยืน (อพท.) ในขณะที่พบงานวิจัยจำนวนน้อยที่เน้นศึกษาผลกระทบทางเศรษฐกิจของการท่องเที่ยวในระดับมหภาค โดยที่พบได้แก่ งานของ Kariyapol and Agarwal (2020) ซึ่งได้ทบทวนวรรณกรรมที่เกี่ยวข้องกับการท่องเที่ยวของประเทศไทยและนำเสนอสถิติรายได้ รายรับภาษี และการจ้างงานที่เกิดจากการท่องเที่ยว

2. บัญชีประชาชาติและตารางปัจจัยการผลิตและผลผลิตด้านการท่องเที่ยว

บัญชีประชาชาติด้านการท่องเที่ยว หรือ Tourism Satellite Account (TSA) คือ ระบบบัญชีที่ใช้ในการวัดผลกระทบทางเศรษฐกิจของอุตสาหกรรมท่องเที่ยว โดยเชื่อมโยงข้อมูลด้านการท่องเที่ยวเข้ากับระบบบัญชีประชาชาติ (National Accounts) ทำให้สามารถประเมินมูลค่าทางเศรษฐกิจของการท่องเที่ยวได้อย่างถูกต้องและเป็นมาตรฐานสากล ครอบคลุมทั้งจำนวนนักท่องเที่ยว มูลค่าการใช้จ่ายและมูลค่าทางเศรษฐกิจของอุตสาหกรรมการท่องเที่ยว ตลอดจนปัจจัยทางเศรษฐกิจอื่นๆ เช่น การจ้างงาน การลงทุน เป็นต้น (Eurostat, 2022) ดังนั้น จึงกล่าวได้ว่า บัญชีประชาชาติด้านการท่องเที่ยว คือเครื่องมือสำคัญในการวิเคราะห์ผลกระทบทางเศรษฐกิจของอุตสาหกรรมการท่องเที่ยว

ในกรณีของประเทศไทย กระทรวงการท่องเที่ยวและกีฬา ได้จัดทำบัญชีประชาชาติด้านการท่องเที่ยว (TSA) มาตั้งแต่ปี พ.ศ. 2560 มาจนถึงปัจจุบัน (กระทรวงการท่องเที่ยวและกีฬา, 2567b) ภายใต้โครงการดังกล่าว ทางกระทรวงฯ ได้สร้างตารางปัจจัยการผลิตและผลผลิต (ตาราง I-O) ด้านการท่องเที่ยวประจำปี พ.ศ. 2560 ซึ่งแสดงโครงสร้างอุตสาหกรรมการท่องเที่ยวของประเทศไทย และการหมุนเวียนของสินค้าและบริการระหว่างสาขาการผลิตในระบบเศรษฐกิจ ทั้งอุตสาหกรรมที่เกี่ยวข้องกับการท่องเที่ยวโดยตรงและอุตสาหกรรมที่เป็นห่วงโซ่อุปทานของอุตสาหกรรมการท่องเที่ยว และได้ทำการวิเคราะห์จำนวนและรายจ่ายของนักท่องเที่ยว รวมทั้งได้อาศัยโครงสร้างการใช้ปัจจัยการผลิตและการกระจายผลผลิตตามตาราง I-O ด้านการท่องเที่ยวปี พ.ศ. 2560 ดังกล่าว เพื่อคำนวณมูลค่าผลผลิต

ผลิตภัณฑ์มวลรวมภายในประเทศ การบริโภค การสะสมทุน และการจ้างงานที่เกิดจากการท่องเที่ยว โดยผลการวิเคราะห์ล่าสุดครอบคลุมช่วงเวลาปี พ.ศ. 2553 – 2565 ถือเป็นฐานข้อมูลผลกระทบทางเศรษฐกิจของอุตสาหกรรมการท่องเที่ยวที่สำคัญที่สุดของประเทศ

ทั้งนี้ อุตสาหกรรมในตาราง I-O ด้านการท่องเที่ยวของประเทศไทยแบ่งออกเป็น 89 สาขา โดยพบว่า มีอุตสาหกรรม จำนวน 33 สาขาที่เกี่ยวข้องกับการท่องเที่ยวโดยตรง และมีอุตสาหกรรมอีก 56 สาขาที่เกี่ยวข้องกับการท่องเที่ยวทางอ้อม ในฐานะที่เป็นห่วงโซ่อุปทานของอุตสาหกรรมการท่องเที่ยว รายละเอียดของอุตสาหกรรมที่เกี่ยวข้องกับการท่องเที่ยวโดยตรงทั้ง 33 อุตสาหกรรมแสดงดังตารางที่ 1 ทั้งนี้ กิจกรรมที่เกิดขึ้นในอุตสาหกรรมทั้ง 33 สาขาตามตารางที่ 1 ถือเป็นกิจกรรมที่ทำให้เกิดผลกระทบทางตรง ในขณะที่กิจกรรมที่เกิดขึ้นในอุตสาหกรรมอื่นๆ ที่เหลืออีก 56 สาขา (เช่น สาขาเกษตรกรรม การผลิตผลิตภัณฑ์อาหาร ผลิตภัณฑ์ปิโตรเคมี การก่อสร้าง อสังหาริมทรัพย์ การบริการธุรกิจ ฯลฯ) ถือเป็นกิจกรรมที่ทำให้เกิดผลกระทบทางอ้อม

ตารางที่ 1 อุตสาหกรรมที่เกี่ยวข้องกับการท่องเที่ยวโดยตรง จำนวน 33 สาขาในตาราง I-O ด้านการท่องเที่ยว

I-O	สาขา	I-O	สาขา	I-O	สาขา
49	การขายสินค้าเพื่อการท่องเที่ยว	60	การขนส่งผู้โดยสารด้วยรถโดยสารไม่ประจำทาง	77	สปาและการนวด
50	การค้าปลีกค้าส่งอื่นๆ	61	การขนส่งผู้โดยสารด้วยรถยนต์	78	สนามกอล์ฟ
51	โรงแรมรีสอร์ต	62	การขนส่งผู้โดยสารทางรถไฟ	79	กิจกรรมผจญภัย
52	เกสต์เฮาส์	63	การขนส่งผู้โดยสารทางน้ำและชายฝั่ง	80	สวนสนุก
53	ที่พักสัมผัสวัฒนธรรมชนบท	64	การขนส่งทางอากาศ	81	กิจกรรมนันทนาการอื่นๆ
54	ภัตตาคารและร้านอาหาร	65	การให้เช่ารถยนต์และจักรยานยนต์โดยไม่มีคนควบคุม	82	กิจกรรมด้านกีฬา
55	การบริการอาหารบนแผงลอยในตลาดและแบบเคลื่อนที่	66	ตัวแทนบริษัทนำเที่ยว	83	การจัดประชุมและแสดงสินค้า
56	การบริการเครื่องดื่มเป็นหลักในร้าน	73	กิจกรรมการแสดงการละเล่นพื้นบ้านและการแสดงศิลปวัฒนธรรม	84	การเช่าอุปกรณ์ด้านการท่องเที่ยวอื่นๆ
57	การบริการเครื่องดื่มในรูปแบบอื่นๆ	74	พิพิธภัณฑ์สถานและสถานที่ทางประวัติศาสตร์	85	การให้บริการด้านสุขภาพ
58	การขนส่งผู้โดยสารด้วยรถโดยสารประจำทางระหว่างจังหวัด	75	อุทยานแห่งชาติและสวนพฤกษศาสตร์	86	การให้บริการฝึกอบรมและเรียนรู้วัฒนธรรม
59	การขนส่งผู้โดยสารด้วยรถโดยสารประจำทางระหว่างในเขตเมืองและชนบท	76	กิจกรรมออกกาลังกายเพื่อการผ่อนคลายทั้งร่างกายและจิตใจ	87	การให้บริการส่วนบุคคลอื่นๆ ที่เกี่ยวกับการท่องเที่ยว

จากการทบทวนวรรณกรรมพบว่า งานวิจัยในอดีตเกี่ยวกับผลกระทบทางเศรษฐกิจของอุตสาหกรรมการท่องเที่ยวของประเทศไทยยังคงมีช่องว่างหลายประการ กล่าวคือ พบงานวิจัยที่ศึกษาผลกระทบทางเศรษฐกิจของการท่องเที่ยวในระดับพื้นที่และระดับประเทศ แต่ยังไม่พบงานวิจัยที่เจาะลึกผลกระทบทางเศรษฐกิจของกลุ่มนักท่องเที่ยวที่มีบทบาทสำคัญต่อการท่องเที่ยวของประเทศไทย โดยเฉพาะอย่างยิ่งนักท่องเที่ยวต่างชาติ ซึ่งแต่ละชาติล้วนมีคุณลักษณะ พฤติกรรม และค่านิยมที่แตกต่างกัน

จำเป็นต้องมีมาตรการส่งเสริมการท่องเที่ยวที่เหมาะสมสำหรับนักท่องเที่ยวแต่ละชาติ ทั้งนี้งานวิจัยนี้มีเป้าหมายในการเติมเต็มช่องว่างดังกล่าว

วิธีดำเนินการวิจัย

1. **ข้อมูลและแหล่งข้อมูล**

งานวิจัยเรื่องนี้อาศัยข้อมูลนักท่องเที่ยวชาวจีนและนักท่องเที่ยวต่างชาติทั้งหมดในประเทศไทยระหว่างปี พ.ศ. 2561 – 2566 จากฐานข้อมูล “สถิตินักท่องเที่ยว” ของกระทรวงการท่องเที่ยวและกีฬา โดยข้อมูลประกอบด้วยจำนวนนักท่องเที่ยว จำนวนวันที่พำนักในประเทศไทย และค่าใช้จ่ายเฉลี่ยต่อคนต่อวัน จำแนกตามหมวดค่าใช้จ่าย นอกจากนี้ยังอาศัยค่าสัมประสิทธิ์ของปัจจัยการผลิต (Input Coefficient) ในตารางปัจจัยการผลิตและผลผลิต (ตาราง I-O) ด้านการท่องเที่ยวประจำปี พ.ศ. 2560 ภายใต้โครงการบัญชีประชาชาติด้านการท่องเที่ยวของกระทรวงการท่องเที่ยวและกีฬา

2. **เครื่องมือในการวิเคราะห์**

ในการคำนวณผลกระทบทางเศรษฐกิจของนักท่องเที่ยวชาวจีน งานวิจัยเรื่องนี้อาศัยโครงสร้างการใช้ปัจจัยการผลิตและโครงสร้างของมูลค่าเพิ่ม ที่แสดงโดยค่าสัมประสิทธิ์ของปัจจัยการผลิตในตาราง I-O ด้านการท่องเที่ยวปี พ.ศ. 2560 เพื่อคำนวณผลกระทบทางเศรษฐกิจที่เกิดขึ้นในปี พ.ศ. 2561 – 2566 ทั้งนี้ ในตาราง I-O ด้านการท่องเที่ยว มูลค่าผลผลิต (Total Output) ของแต่ละสาขาการผลิต คือ ผลรวมของมูลค่าปัจจัยการผลิตขั้นกลาง (Intermediate Goods) จากอุตสาหกรรมทั้ง 89 สาขา และมูลค่าเพิ่ม (Added Value) ที่เกิดขึ้น โดยมูลค่าผลผลิตจะมีค่าสัมประสิทธิ์เท่ากับ 1.0000

ในการวิเคราะห์ มูลค่าการใช้จ่ายของนักท่องเที่ยวชาวจีนจะถูกกระจายไปตามอุตสาหกรรมทางตรงทั้ง 33 สาขา และกำหนดให้ค่าใช้จ่ายที่เกิดขึ้นมีค่าเทียบเท่ามูลค่าผลผลิตในสาขานั้น ๆ (ซึ่งมีค่าสัมประสิทธิ์เท่ากับ 1.0000) จากนั้นจึงนำเอามูลค่าผลผลิตไปคำนวณเป็นมูลค่าปัจจัยการผลิตขั้นกลางและมูลค่าเพิ่มโดยการเทียบสัดส่วนกับสัมประสิทธิ์ของปัจจัยการผลิตในตาราง ทั้งนี้ มูลค่าเพิ่มที่ได้คือมูลค่าผลิตภัณฑ์มวลรวมภายในประเทศ หรือ GDP นั่นเอง

3. **กระบวนการคำนวณมูลค่าผลผลิต**

ขั้นตอนที่ 1: กระจายมูลค่าการใช้จ่ายของนักท่องเที่ยวทั้ง 7 หมวดค่าใช้จ่าย ได้แก่ ค่าโรงแรมที่พัก ค่าอาหารและเครื่องดื่ม ค่ากิจกรรมท่องเที่ยว ค่ากิจกรรมบันเทิง ค่าซื้อของ ค่าเดินทาง และค่าใช้จ่ายอื่น ๆ ตามหมวดอุตสาหกรรมที่เกี่ยวข้องกับการท่องเที่ยวโดยตรงทั้ง 33 สาขา โดยอาศัยสัดส่วนของมูลค่าผลผลิตในสาขาการผลิตกลุ่มอุตสาหกรรมเดียวกันในตาราง I-O ด้านการท่องเที่ยว ตัวอย่างเช่น ค่าใช้จ่ายที่พักของนักท่องเที่ยวจะกระจายไปยัง 3 สาขาที่เกี่ยวข้อง ได้แก่ โรงแรมรีสอร์ต เกสต์เฮาส์ และที่พักสัมผัสวัฒนธรรมชนบท ในสัดส่วนร้อยละ 97.84 1.51 และ 0.65 ตามลำดับ มูลค่าการใช้จ่ายของนักท่องเที่ยวในอุตสาหกรรมทั้ง 33 สาขาถือเป็นมูลค่าผลผลิตจากผลกระทบทางตรงจากนักท่องเที่ยว

ขั้นตอนที่ 2: คำนวณมูลค่าผลผลิตที่เกิดขึ้นในอุตสาหกรรมที่เป็นห่วงโซ่อุปทานทั้ง 56 สาขา โดยการคำนวณผลรวมของมูลค่าปัจจัยการผลิตขั้นกลางที่ใช้ในแต่ละอุตสาหกรรมทางตรงทั้ง 33 สาขาตามขั้นตอนที่ 1 มูลค่าปัจจัยการผลิตขั้นกลางของอุตสาหกรรมที่เป็นห่วงโซ่อุปทานทั้ง 56 สาขาดังกล่าว คือ มูลค่าของผลผลิตอันเกิดจากผลกระทบทางอ้อม

ขั้นตอนที่ 3: คำนวณมูลค่าการบริโภคของประชาชนในประเทศอันเป็นผลมาจากการที่มีรายได้จากกิจกรรมทางตรงและทางอ้อมเนื่องจากการใช้จ่ายของนักท่องเที่ยวต่างชาติ (หรืออีกนัยหนึ่งคือรายได้ที่ประชาชนได้รับจากการที่นักท่องเที่ยวต่างชาติมีการใช้จ่ายในประเทศไทยทั้งทางตรงและทางอ้อม) มูลค่าการบริโภคที่ได้ คือ มูลค่าของผลผลิตอันเกิดจากผลกระทบเชิงชักนำ (กระบวนการคำนวณอธิบายดังขั้นตอนที่ 3 ของการคำนวณผลิตภัณฑ์มวลรวมภายในประเทศในหัวข้อต่อไป)

4. กระบวนการคำนวณมูลค่าผลิตภัณฑ์มวลรวมภายในประเทศ

ขั้นตอนที่ 1: คำนวณมูลค่าผลิตภัณฑ์มวลรวมภายในประเทศจากผลกระทบทางตรงและผลกระทบทางอ้อมซึ่งเกิดจากค่าใช้จ่ายของนักท่องเที่ยวต่างชาติที่เกิดขึ้นในอุตสาหกรรมที่เกี่ยวข้องกับการท่องเที่ยวโดยตรงทั้ง 33 สาขา โดยอาศัยค่าสัมประสิทธิ์ของปัจจัยการผลิตในตาราง I-O ด้านการท่องเที่ยว

ขั้นตอนที่ 2: สร้างสมการมูลค่าการบริโภคของภาคเอกชน นั่นคือ C = f(GDP) โดยอาศัยการวิเคราะห์การถดถอยเชิงพหุ กำหนดให้ C = รายจ่ายเพื่อการบริโภคภาคเอกชน และ GDP = มูลค่าผลิตภัณฑ์มวลรวมภายในประเทศ ทั้งนี้ จากการวิเคราะห์โดยอาศัยข้อมูลระหว่างปี พ.ศ. 2536 – 2566 พบว่า หากมูลค่าผลิตภัณฑ์มวลรวมภายในประเทศ (GDP) เพิ่มขึ้น 1 ล้านบาท จะทำให้รายจ่ายเพื่อการบริโภค (C) จะเพิ่มขึ้น 0.1892 ล้านบาท

ขั้นตอนที่ 3: คาดประมาณมูลค่าการบริโภคของภาคเอกชนที่เพิ่มขึ้นอันเกิดจากการเพิ่มขึ้นของ GDP จากผลกระทบทางตรงและทางอ้อมจากการคำนวณในขั้นตอนที่ 1 ค่าที่ได้ คือ มูลค่าของผลผลิตอันเกิดจากผลกระทบเชิงชักนำ

ขั้นตอนที่ 4: สร้างสมการมูลค่าผลิตภัณฑ์มวลรวมภายในประเทศ นั่นคือ GDP = f(C, I, G, X, M) กำหนดให้ GDP = มูลค่าผลิตภัณฑ์มวลรวมภายในประเทศ C = มูลค่าการบริโภคของภาคเอกชน I = มูลค่ารายจ่ายเพื่อการลงทุน G = มูลค่ารายจ่ายภาครัฐ X = มูลค่าการส่งออก และ M = มูลค่าการนำเข้า ทั้งนี้ จากการวิเคราะห์โดยอาศัยข้อมูลระหว่างปี พ.ศ.2536 – 2566 พบว่า หากมูลค่าการบริโภคภาคเอกชน (C) เพิ่มขึ้น 1 ล้านบาท จะทำให้มูลค่าผลิตภัณฑ์มวลรวมภายในประเทศ (GDP) เพิ่มขึ้น 1.2378 ล้านบาท

ขั้นตอนที่ 5: คาดประมาณมูลค่าผลิตภัณฑ์มวลรวมภายในประเทศที่เพิ่มขึ้นอันเกิดจากการเพิ่มขึ้นของมูลค่าการบริโภคของภาคเอกชนที่ได้จากขั้นตอนที่ 3 โดยค่าที่ได้ คือ มูลค่าผลิตภัณฑ์มวลรวมภายในประเทศจากผลกระทบเชิงชักนำ

5. กระบวนการคำนวณจำนวนการจ้างงาน

ขั้นตอนที่ 1: คำนวณผลรวมของเงินเดือน ค่าจ้าง และค่าตอบแทนของของแต่ละอุตสาหกรรมในตาราง I-O ด้านการท่องเที่ยว โดยอาศัยค่าสัมประสิทธิ์ของปัจจัยการผลิตในตาราง I-O ดังกล่าว

ขั้นตอนที่ 2: คำนวณจำนวนการจ้างงานในแต่ละอุตสาหกรรมโดยอ้างอิงจากค่าจ้างเฉลี่ยของแรงงานในสาขาที่ใกล้เคียงกันจากการสำรวจภาวะการทำงานของประชากร โดยสำนักงานสถิติแห่งชาติ กำหนดให้

จำนวนการจ้างงานในสาขา i = มูลค่าเงินเดือน ค่าจ้าง และค่าตอบแทนในสาขา i/ค่าจ้างแรงงานเฉลี่ยในสาขา i

ขั้นตอนที่ 3: คำนวณจำนวนการจ้างงานจากผลกระทบทางตรงและผลกระทบทางอ้อม โดยผลรวมของจำนวนการจ้างงานในอุตสาหกรรมที่เกี่ยวกับการท่องเที่ยวโดยตรง 33 สาขา คือ การจ้างงานจากผลกระทบทางตรงและผลรวมการจ้างงานในอุตสาหกรรมที่เป็นห่วงโซ่อุปทาน 56 สาขา คือ การจ้างงานจากผลกระทบทางอ้อม

ขั้นตอนที่ 4: คำนวณผลรวมของเงินเดือน ค่าจ้าง และค่าตอบแทนจากผลกระทบเชิงชักนำ โดยนำเอามูลค่าผลิตภัณฑ์มวลรวมภายในประเทศจากผลกระทบเชิงชักนำไปคูณกับสัดส่วนระหว่างค่าสัมประสิทธิ์ของเงินเดือน ค่าจ้าง และค่าตอบแทนและค่าสัมประสิทธิ์ของมูลค่าเพิ่มรวม (ซึ่งเป็นตัวชี้วัดผลิตภัณฑ์มวลรวมภายในประเทศ) ของภาพรวมในตาราง I-O ด้านการท่องเที่ยว จากนั้นคำนวณจำนวนการจ้างงานจากผลกระทบเชิงชักนำโดยอ้างอิงจากค่าจ้างเฉลี่ยของแรงงานในภาพรวมของประเทศไทยจากการสำรวจภาวะการทำงานของประชากรโดยใช้สูตรคำนวณเดียวกันกับขั้นตอนที่ 2

ผลการวิจัย

ตารางที่ 2 แสดงสถิตินักท่องเที่ยวชาวจีนในประเทศไทยระหว่างปี พ.ศ. 2561 – 2566 เปรียบเทียบกับนักท่องเที่ยวทั้งหมด โดยพบว่านักท่องเที่ยวชาวจีนในปี พ.ศ. 2562 มีจำนวนมากกว่า 11 ล้านคน ก่อให้เกิดค่าใช้จ่ายรวมมากถึง 531,576.84 ล้านบาท ก่อนที่สถานการณ์โควิด 19 จะทำให้จำนวนนักท่องเที่ยวชาวจีนเหลือเพียง 26,558 คนในปี พ.ศ. 2564 โดยในปี พ.ศ. 2566 พบว่าจำนวนนักท่องเที่ยวชาวจีนเพิ่มขึ้นเป็น 3.5 ล้านคน เกิดเป็นค่าใช้จ่ายรวมเท่ากับ 193,996.09 ล้านบาท แต่ก็ยังน้อยกว่าช่วงก่อนโควิด 19 เป็นอย่างมาก เมื่อพิจารณาจำนวนวันที่ท่องเที่ยวในประเทศไทยพบว่า ช่วงหลังสถานการณ์โควิด 19 นักท่องเที่ยวชาวจีนท่องเที่ยวในประเทศไทยยาวนานขึ้น เพิ่มขึ้นจาก 7.76 วันในปี พ.ศ. 2561 เป็น 10.60 วันในปี พ.ศ. 2566 นอกจากนี้ยังพบว่า นักท่องเที่ยวชาวจีนมีค่าใช้จ่ายต่อคนต่อวันโดยเฉลี่ยสูงกว่านักท่องเที่ยวในภาพรวมอย่างชัดเจนในทุกปีที่ทำการศึกษา

ตารางที่ 2 สถิตินักท่องเที่ยวชาวจีนและนักท่องเที่ยวต่างชาติทั้งหมดในประเทศไทย

ปี	นักท่องเที่ยวชาวจีน				นักท่องเที่ยวต่างชาติทั้งหมด			
	จำนวนคน	จำนวนวัน	ค่าใช้จ่ายเฉลี่ยต่อวัน	ค่าใช้จ่ายรวม (ล้านบาท)	จำนวนคน	จำนวนวัน	ค่าใช้จ่ายเฉลี่ยต่อวัน	ค่าใช้จ่ายรวม (ล้านบาท)

หมายเหตุ: ค่าใช้จ่ายเฉลี่ยมีหน่วยเป็น บาทต่อคนต่อวัน และค่าใช้จ่ายรวมมีหน่วยเป็น ล้านบาท
ที่มา: กระทรวงการท่องเที่ยวและกีฬา (2567a)

จากผลการวิเคราะห์มูลค่าผลผลิตดังตารางที่ 3 พบว่านักท่องเที่ยวจีนสามารถสร้างผลผลิตจากผลกระทบทางตรงได้เท่ากับ 531,576.84 ล้านบาทในปี พ.ศ. 2562 เกิดเป็นผลผลิตรวมเท่ากับ 841,475.62 ล้านบาท คิดเป็นสัดส่วนมากกว่า 1 ใน 4 ของผลผลิตรวมจากนักท่องเที่ยวต่างชาติทั้งหมด อย่างไรก็ตามสถานการณ์โควิด 19 ทำให้จำนวนนักท่องเที่ยวจีนลดลงเป็นอย่างมาก โดยทำให้ผลผลิตจากผลกระทบทางตรงและผลกระทบโดยรวมลดลงเหลือเพียง 9,162.82 และ 15,291.05 ล้านบาท

ตามลำดับ ก่อนที่สถานการณ์จะดีขึ้นในปี พ.ศ. 2566 ซึ่งมูลค่าผลผลิตทางตรงและผลผลิตรวมจากนักท่องเที่ยวชาวจีนเพิ่มเป็น 193,996.09 และ 317,320.88 ล้านบาท ตามลำดับ แต่ก็ถือว่ายังไม่สามารถกลับไปสู่ก่อนเกิดสถานการณ์โควิด 19 ได้

2566	161,542	61,683	58,881	282,106	995,039	399,369	375,895	1,770,304

เมื่อพิจารณาอัตราการเปลี่ยนแปลงของผลกระทบทางเศรษฐกิจระหว่างช่วงปี พ.ศ. 2561 – 2566 พบว่ามีความผันผวนอย่างรุนแรงอันเป็นผลมาจากสถานการณ์โควิด 19 โดยพบว่าทั้งมูลค่าผลผลิต มูลค่าผลิตภัณฑ์มวลรวมภายในประเทศ และจำนวนการจ้างงานลดลงในอัตรามากกว่าร้อยละ 87 ในปี พ.ศ. 2563 และลดลงต่อเนื่องในอัตรามากกว่าร้อยละ 85 ในปี พ.ศ. 2564 ก่อนที่จะกลับมาเติบโตในอัตรามากกว่าร้อยละ 200 ในปี พ.ศ. 2565 ซึ่งสถานการณ์โควิด 19 เริ่มคลี่คลายและมาตรการป้องกันต่างๆ ของภาครัฐถูกยกเลิกไป ทั้งนี้ ในปี พ.ศ. 2566 มูลค่าผลผลิต มูลค่าผลิตภัณฑ์มวลรวมภายในประเทศ และจำนวนการจ้างงานมีอัตราการเติบโตมากกว่าร้อยละ 500 เมื่อสถานการณ์การท่องเที่ยวกลับสู่ภาวะปกติ อย่างไรก็ตาม เมื่อพิจารณาสัดส่วนของมูลค่าผลกระทบทางเศรษฐกิจของนักท่องเที่ยวชาวจีนต่อผลกระทบจากนักท่องเที่ยวทั้งหมด จะเห็นว่าในช่วงก่อนเกิดสถานการณ์โควิด 19 สัดส่วนของมูลค่าผลกระทบทางเศรษฐกิจของนักท่องเที่ยวชาวจีนต่อผลกระทบจากนักท่องเที่ยวทั้งหมดมีค่าสูงกว่าร้อยละ 27 ก่อนจะลดลงต่อเนื่องเหลือประมาณร้อยละ 6 ในปี พ.ศ. 2565 อันเป็นผลมาจากนโยบาย Zero COVID-19 ของรัฐบาลจีนที่ทำให้นักท่องเที่ยวชาวจีนมีจำนวนน้อยลงอย่างมาก ก่อนที่สัดส่วนจะเพิ่มขึ้นเป็นประมาณร้อยละ 15 ในปี พ.ศ. 2566 แต่ก็ยังถือว่าต่ำกว่าช่วงก่อนเกิดสถานการณ์โควิด 19

ตารางที่ 6 ผลกระทบทางเศรษฐกิจของนักท่องเที่ยวชาวจีนในประเทศไทย

ปี	อัตราการเปลี่ยนแปลง (%)			สัดส่วนของผลกระทบจากนักท่องเที่ยวชาวจีนต่อนักท่องเที่ยวต่างชาติทั้งหมด			สัดส่วนต่อทุกภาคเศรษฐกิจของประเทศไทย	
	ผลผลิต	ผลิตภัณฑ์มวลรวมภายในประเทศ	การจ้างงาน	ผลผลิต	ผลิตภัณฑ์มวลรวมภายในประเทศ	การจ้างงาน	ผลิตภัณฑ์มวลรวมภายในประเทศ	การจ้างงาน
2561	-	-	-	27.40	28.43	28.59	2.77	2.04
2562	1.66	1.92	1.81	27.34	28.43	28.55	2.74	2.09
2563	-87.65	-87.86	-87.74	20.15	21.37	21.53	0.36	0.26
2564	-85.29	-86.76	-87.34	9.35	9.31	9.36	0.05	0.03
2565	213.66	252.19	255.96	6.05	6.54	6.47	0.15	0.11
2566	561.61	522.37	548.46	15.49	15.66	15.94	0.91	0.71

เมื่อเปรียบเทียบกับเศรษฐกิจในภาพรวม จะเห็นได้ว่าในปี พ.ศ. 2561 – 2562 นักท่องเที่ยวชาวจีนมีส่วนสำคัญเป็นอย่างมากในการสร้างผลิตภัณฑ์มวลรวมภายในประเทศและการจ้างงานให้แก่ประเทศไทย โดยในปี พ.ศ. 2562 มูลค่าผลิตภัณฑ์มวลรวมภายในประเทศและจำนวนการจ้างงานที่เกิดจากนักท่องเที่ยวชาวจีนมีสัดส่วนสูงถึงร้อยละ 2.74 และ 2.09 ของทั้งประเทศ ตามลำดับ อย่างไรก็ตาม สถานการณ์โควิด 19 ทำให้ประเทศไทยสูญเสียโอกาสทางเศรษฐกิจที่เคยได้รับจากนักเที่ยวชาวจีนไปมากกว่าร้อยละ 98 ในปี พ.ศ. 2564 และแม้สถานการณ์จะดีขึ้นหลังปี พ.ศ. 2565 แต่บทบาททางเศรษฐกิจของนักท่องเที่ยวจีนที่มีต่อเศรษฐกิจไทยก็ยังไม่ฟื้นตัว โดยในปี พ.ศ. 2566 มูลค่าผลิตภัณฑ์มวลรวมภายในประเทศและจำนวนการจ้างงานที่เกิดจากนักท่องเที่ยวจีน คิดเป็นเพียงร้อยละ 0.91 และ 0.71 ของภาพรวมทั้งประเทศเท่านั้น

สรุปและอภิปรายผล

งานวิจัยเรื่องนี้ได้ทำการวิเคราะห์ผลกระทบทางเศรษฐกิจของนักท่องเที่ยวชาวจีนในประเทศไทยระหว่างปี พ.ศ. 2561 – 2566 และพบว่าผลกระทบทางเศรษฐกิจของนักท่องเที่ยวชาวจีนมีมูลค่าสูงสุดในปี พ.ศ. 2562 โดยสามารถสร้างมูลค่าผลผลิตและผลิตภัณฑ์มวลรวมภายในประเทศจากผลกระทบทางตรงได้เท่ากับ 531,576.84 และ 277,359.08 ล้านบาท ตามลำดับ และทำให้เกิดการจ้างงาน จำนวน 473,208 คน และเมื่อคำนวณผลกระทบโดยรวมพบว่า นักท่องเที่ยวชาวจีนก่อให้เกิดมูลค่าผลผลิตและผลิตภัณฑ์มวลรวมภายในประเทศมากถึง 841,475.62 และ 462,831.87 ล้านบาท ตามลำดับ และก่อให้เกิดการจ้างงานมากถึง 787,627 คน อย่างไรก็ตาม สถานการณ์โควิด 19 ที่เกิดขึ้นในปี พ.ศ. 2563 ทำให้จำนวนนักท่องเที่ยวชาวจีนลดลงอย่างรุนแรง ทำให้เหลือมูลค่าผลผลิต มูลค่าผลิตภัณฑ์มวลรวมภายในประเทศและจำนวนการจ้างงานโดยรวมในปี พ.ศ. 2564 เพียง 15,291.05 ล้านบาท 7,437.76 ล้านบาท และ 12,222 คน ตามลำดับ ทั้งนี้สถานการณ์เริ่มดีขึ้นในปี พ.ศ. 2566 เมื่อมูลค่าผลผลิตและผลิตภัณฑ์มวลรวมภายในประเทศโดยรวมจากนักท่องเที่ยวชาวจีนเพิ่มเป็น 317,320.88 และ 163,031.51 ล้านบาท ตามลำดับ และจำนวนการจ้างงานเพิ่มเป็น 282,106 คน แต่ก็ถือว่ายังห่างไกลจากปี พ.ศ. 2562 เป็นอย่างมาก

จากการศึกษาจะเห็นได้ว่า นักท่องเที่ยวชาวจีนคือกลไกสำคัญที่ช่วยขับเคลื่อนการเติบโตทางเศรษฐกิจของประเทศไทย โดยเฉพาะอย่างยิ่งในปี พ.ศ. 2562 ซึ่งประเทศไทยประสบปัญหาการส่งออกชะลอตัว แต่มีการเติบโตของจำนวนนักท่องเที่ยวชาวจีนและผลิตภัณฑ์มวลรวมภายในประเทศจากนักท่องเที่ยวชาวจีนกว่า 460,000 ล้านบาท อันเป็นผลมาจากมาตรการยกเว้นค่าธรรมเนียม Visa on Arrival ช่วยให้ประเทศไทยยังคงมีอัตราการขยายตัวทางเศรษฐกิจได้ในอัตราร้อยละ 2.4 ตามรายงานของธนาคารแห่งประเทศไทย (ธนาคารแห่งประเทศไทย, 2563) อย่างไรก็ตาม หลังเกิดการแพร่ระบาดของโรคโควิด 19 ประเทศจีนบังคับใช้มาตรการล็อกดาวน์อย่างเข้มงวดตลอดปี พ.ศ. 2563 – 2564 (ธนาคารแห่งประเทศไทย, 2566) ทำให้จำนวนนักท่องเที่ยวชาวจีนและผลกระทบทางเศรษฐกิจจากนักท่องเที่ยวชาวจีนลดลงอย่างรุนแรง

นอกจากนี้การประกาศใช้นโยบาย Zero COVID-19 ในช่วงต้นปี พ.ศ. 2565 ทำให้เกิดข้อจำกัดในการเดินทางมาท่องเที่ยวประเทศไทยของนักท่องเที่ยวชาวจีน ทำให้การท่องเที่ยวของชาวจีนยังไม่ฟื้นตัวสวนทางกับนักท่องเที่ยวจากประเทศอื่น ๆ โดยเฉพาะนักท่องเที่ยวจากประเทศอาเซียน ส่งผลทำให้มีจำนวนนักท่องเที่ยวชาวจีนไม่ถึง 1 ล้านคน และหลุดจาก 10 อันดับแรกของประเทศที่มีนักท่องเที่ยวมากที่สุดในประเทศไทย (การท่องเที่ยวแห่งประเทศไทย, 2566) อย่างไรก็ตาม แม้ประเทศจีนจะยกเลิกมาตรการ Zero COVID ในช่วงต้นปี พ.ศ. 2566 แต่จำนวนนักท่องเที่ยวชาวจีนในประเทศกลับฟื้นได้ค่อนข้างช้า ทำให้มีนักท่องเที่ยวชาวจีนเดินทางมาท่องเที่ยวในประเทศไทยไม่ถึง 1 ใน 3 ของจำนวนก่อนเกิดสถานการณ์โควิด 19 (ศูนย์วิจัยเศรษฐกิจและธุรกิจ ธนาคารไทยพาณิชย์, 2567) โดยสาเหตุสำคัญมาจากความกังวลเรื่องความปลอดภัยและปัญหาทางการเมืองในประเทศไทย ส่งผลทำให้การท่องเที่ยวของชาวจีนในประเทศไทยฟื้นตัวช้ากว่าประเทศอื่น ๆ ทั้งนี้ คาดการณ์ว่าสถานการณ์จะดีขึ้นในปี พ.ศ. 2567 และ 2568 ตามลำดับ

ข้อเสนอแนะ

เพื่อกระตุ้นให้นักท่องเที่ยวจีนกลับมาท่องเที่ยวในประเทศไทยให้มากขึ้น การยกเว้นค่าธรรมเนียม Visa on Arrival ในระยะยาวหรือเป็นการถาวรถือเป็นมาตรการที่มีความจำเป็น เพื่อดึงดูดให้นักท่องเที่ยวชาวจีนเลือกที่จะมาเดินทางในประเทศไทยแทนที่จะไปประเทศอื่น ๆ นอกจากนี้ ยังต้องเพิ่มมาตรการสนับสนุนการท่องเที่ยวด้านอื่น ๆ ให้ครอบคลุมและมีประสิทธิภาพมากยิ่งขึ้น ไม่ว่าจะเป็นด้านความปลอดภัย เช่น การจัดให้มีสายด่วนนักท่องเที่ยวที่นักท่องเที่ยวชาวจีนสามารถเข้าถึงได้ การกำหนดมาตรการป้องกันอาชญากรรมในพื้นที่ท่องเที่ยว การมีระบบความปลอดภัยสำหรับผู้เดินทาง ฯลฯ ด้านบริการสุขภาพ เช่น การส่งเสริมความสะอาดในพื้นที่ท่องเที่ยวและโรงแรม การจัดให้มีศูนย์การแพทย์ฉุกเฉินเพื่อให้บริการชาวต่างชาติ ฯลฯ ด้านการเดินทาง เช่น การควบคุมความปลอดภัยของการขนส่งสาธารณะ การมีแอปพลิเคชันให้ข้อมูลขนส่งสาธารณะ ฯลฯ และด้านเทคโนโลยี เช่น การจัดให้มีบริการอินเทอร์เน็ตฟรีในพื้นที่ท่องเที่ยว การมีแอปพลิเคชันสนับสนุนการท่องเที่ยวแบบครบวงจร ฯลฯ

ทั้งนี้ ณ ปี พ.ศ.2568 ประเทศจีน คือ หนึ่งใน 93 ประเทศที่ได้รับสิทธิยกเว้นการตรวจลงตรา (วีซ่า) และสามารถพำนักในราชอาณาจักรไทยเป็นการชั่วคราวได้ไม่เกิน 60 วัน เพื่อการท่องเที่ยว การติดต่อธุรกิจ และการทำงานระยะสั้น โดยบังคับใช้มาตั้งแต่วันที่ 15 ก.ค. 2567 (การท่องเที่ยวแห่งประเทศไทย, 2567) ซึ่งได้ก่อให้เกิดปัญหาต่าง ๆ ตามมามากมาย ไม่ว่าจะเป็นการอยู่ในประเทศไทยเกินเวลาที่กำหนด การก่อความวุ่นวาย การไม่ปฏิบัติตามกฎหมายต่าง ๆ และการประกอบธุรกิจที่ผิดกฎหมาย ปัญหาดังกล่าวถือเป็นประเด็นเร่งด่วนที่หน่วยงานภาครัฐที่เกี่ยวข้อง ต้องหามาตรการคัดกรอง

นักท่องเที่ยวชาวจีนและควบคุมมิให้นักท่องเที่ยวชาวจีนสามารถอาศัยช่องว่างของกฎหมายในการก่อปัญหาให้แก่ประเทศไทยได้ และช่วยให้การเติบโตของจำนวนนักท่องเที่ยวชาวจีนส่งผลดีต่อเศรษฐกิจและสังคมไทยอย่างแท้จริง

บทคัดย่อ

บทความนี้มีวัตถุประสงค์เพื่อ 1) ศึกษาน้ำมันพืชที่ใช้ในการประกอบอาหาร แหล่งผลิตน้ำมันที่ใช้แล้ว 2) ศึกษาเส้นทางการเดินทางของน้ำมันที่ใช้แล้วนำไปสู่กระบวนการผลิตเป็นน้ำมันเชื้อเพลิงอากาศยานแบบยั่งยืน SAF 3) ศึกษาความเคลื่อนไหวการรณรงค์การใช้น้ำมัน SAF ในประเทศไทยและต่างประเทศ ผู้ให้ข้อมูลสำคัญที่ใช้ในการวิจัย คือ ผู้ขายอาหาร ผู้ที่รับซื้อน้ำมันใช้แล้ว ประชาชน หน่วยงานภาครัฐ จำนวน 17 คน ใช้วิธีการวิจัยเชิงคุณภาพ เครื่องมือเป็นแบบสัมภาษณ์แบบเจาะลึก การสังเกตแบบไม่มีส่วนร่วม วิเคราะห์ข้อมูลโดยการนำข้อมูลมาจำแนกหมวดหมู่ ตีความสร้างข้อสรุป และนำเสนอโดยวิธีพรรณนาเชิงวิเคราะห์ ผลการวิจัยพบว่า 1) น้ำมันพืชที่ใช้ในการประกอบอาหารเป็นน้ำมันพืชที่จำหน่ายตามท้องตลาด แหล่งผลิตน้ำมันที่ใช้แล้ว ส่วนใหญ่เป็นร้านอาหารที่ใช้น้ำมันพืชประกอบอาหาร ครัวเรือน และอุตสาหกรรม ผลกระทบก่อให้เกิดอันตรายต่อสุขภาพและระบบนิเวศ 2) เส้นทางการเดินทางของน้ำมันที่ใช้แล้วนำไปสู่กระบวนการผลิตเป็นน้ำมันเชื้อเพลิงอากาศยานแบบยั่งยืน SAF พบว่ามีขั้นตอนกระบวนการรวบรวม จัดเก็บขนส่ง การบำบัดและการประมวลผล รีไซเคิลในกระบวนการผลิต SAF และการกำจัด 3) ความเคลื่อนไหวการรณรงค์การใช้น้ำมัน SAF ในประเทศไทยและต่างประเทศ พบว่า ประเทศไทยภาคเอกชนมีความร่วมมือในโครงการทอดไม่ทิ้งและมีแนวโน้มผลิตน้ำมัน SAF จาก

น้ำมันใช้แล้วตอบโจทย์โมเดลเศรษฐกิจ BCG ประเทศจีนผลิตจากน้ำมันจากหม้อต้มหมาล่า สหภาพยุโรปสนใจและพัฒนา SAF มากขึ้น เพื่อลดการปล่อยก๊าซคาร์บอนไดออกไซด์สุทธิเป็นศูนย์ภายในปี 2050

คำสำคัญ: การรีไซเคิล, น้ำมันประกอบอาหาร, น้ำมันเชื้อเพลิงอากาศยานยั่งยืน, โมเดลเศรษฐกิจ BCG

Abstract

This article aims to 1) study the cooking oil, the sources of used oil, 2) study the route of used oil to the production process of sustainable aviation fuel (SAF)., and 3) study the movement of the SAF campaign in Thailand and abroad. The key informants used in the research were 17 food shops, used oil buyers, people, and government agencies. The research method was qualitative. The tools were in-depth interviews and non-participatory observation. The data were analyzed by categorizing the data, interpreting, conclusions, and presenting them using descriptive analysis. The research results found that 1) oil used for cooking is sold in the market. Most sources of used oil are restaurants that use oil for cooking, households, and industries. The impacts are hazardous to health and the ecosystem. 2) The route of used oil to be converted to aviation fuel found that there were steps in the process of collection, storage, transportation, treatment, and processing recycling in the SAF production process and disposal 3) The movement of the SAF oil campaign in Thailand and abroad found that the private sector in Thailand has cooperation in the "Don't Throw Away" project and tends to produce SAF oil from used oil to meet the BCG economic model. China produces from oil from Mala pots. The European Union is interested in and developing more SAF in order to reduce net carbon dioxide emissions to zero by 2050.

Keywords: Recycling, cooking oil, sustainable aviation fuel, BCG economic model

บทนำ

ในแวดวงศิลปะการทำอาหาร การถือกำเนิดของอุตสาหกรรมอาหารสมัยใหม่ได้ปฏิวัติประสบการณ์ในครัวและห้องอาหาร ตั้งแต่ความสะดวกสบายของอาหารสำเร็จรูปไปจนถึงความพร้อมของส่วนผสมที่หลากหลายจากทั่วโลก ขอบเขตการทำอาหารได้ขยายออกไปอย่างที่ไม่เคยปรากฏมาก่อน อย่างไรก็ตาม ความก้าวหน้านี้ไม่ได้ปราศจากความท้าทาย หนึ่งในปัญหาเร่งด่วนที่สุดที่ต้องเผชิญในปัจจุบัน คือ การกำจัดขยะอย่างถูกต้อง โดยเฉพาะน้ำมันปรุงอาหาร (Skip Shapiro Enterprises, 2568) น้ำมันพืชเป็นส่วนประกอบพื้นฐานในการปรุงอาหาร โดยเฉพาะเมนูผัดและทอด จึงอาจเรียกได้ว่าเป็นของคู่ครัวสำหรับทุกบ้าน แต่ยังมีการถกเถียงถึงประโยชน์และโทษของน้ำมันชนิดนี้อย่างต่อเนื่อง ซึ่งประโยชน์และโทษอาจขึ้นอยู่กับชนิดของน้ำมันและไขมันที่ร่างกายได้รับ ไขมันเป็นสารอาหารที่จำเป็นต่อร่างกาย เพราะเป็นแหล่งของพลังงานและช่วยในการดูดซึมวิตามินบางชนิด แต่หากได้รับมากเกินไปก็อาจเป็นสาเหตุที่ทำให้เกิดโรคเรื้อรังได้หลายชนิด (Pobpad, 2568) น้ำมันปรุงอาหารซึ่งเป็นส่วนประกอบสำคัญของอาหารหลายชนิดได้กลายมาเป็นส่วนหนึ่งของวัฒนธรรมการทำอาหาร ของเสียจากน้ำมันปรุงอาหารอาจมีได้หลายรูปแบบ เช่น น้ำมันไหม้ น้ำมันหมดอายุ น้ำมันปนเปื้อน และน้ำมันหืน แต่ละรูปแบบล้วนก่อให้เกิด

ความเสี่ยงที่แตกต่างกันต่อสุขภาพและสิ่งแวดล้อม การประกอบอาหารในครัวเรือน และการทำอาหารของผู้ประกอบการประเภทที่ต้องใช้น้ำมันทอด คงจะเคยประสบกับปัญหาการทิ้งน้ำมันใช้แล้วว่าควรทิ้งอย่างไรถึงจะถูกวิธี (ปิโยรส ทิพย์มงคล และ ณัฐพงศ์ ตันติวิวัฒนพันธ์, 2563)

การเทน้ำมันใช้แล้วลงท่อระบายน้ำ หรือไม่มีการติดตั้งบ่อดักไขมัน ท่อระบายน้ำส่วนใหญ่จะทำมาจากท่อพลาสติกพีวีซี (PVC Plastic) ซึ่งมีคุณสมบัติในการดูดซับน้ำมันใช้แล้วเป็นอย่างดี นอกจากจะทำให้ท่ออุดตันและเหม็นเน่าจากการหมักในสภาวะไร้อากาศภายในท่อน้ำแล้ว น้ำมันใช้แล้วยังส่งผลเสียต่อระบบการบำบัดน้ำเสีย โดยเฉพาะในระบบการบำบัดน้ำเสียด้วยระบบชีวภาพ (Biological Wastewater Treatment) ทำให้เกิดการลอยของตะกอน และจะไปเคลือบบนพื้นผิวของจุลินทรีย์ทำให้ไม่สามารถแลกเปลี่ยนสารอาหาร น้ำ และออกซิเจนได้ (กรมควบคุมมลพิษ, 2546) อาจส่งผลเสียต่อสิ่งแวดล้อมได้อย่างมาก (บางจากหลากมุมมอง, 2565ข) กระบวนการจัดการน้ำมันปรุงอาหารที่ใช้แล้วมีหลายขั้นตอน แต่ละขั้นตอนต้องได้รับการจัดการอย่างระมัดระวังและปฏิบัติตามกฎระเบียบเพื่อให้แน่ใจว่าปลอดภัยและปกป้องสิ่งแวดล้อม เพราะการเทน้ำมันใช้แล้วลงท่อน้ำระบายน้ำ นอกจากจะสร้างปัญหาไขมันอุดตันในท่อแล้ว อาจก่อให้เกิดน้ำท่วมเมื่อฝนตกหนักตามมา รวมถึงการส่งกลิ่นเหม็นของไขมันที่หมักหมมภายในท่อด้วย อีกทั้งการเทน้ำมันทิ้งลงท่อระบายน้ำ ยังผิด พ.ร.บ.รักษาความสะอาดและความเป็นระเบียบเรียบร้อยของบ้านเมือง พ.ศ. 2535 แก้ไขเพิ่มเติม (ฉบับที่ 2) พ.ศ.2560 มาตรา 33 ที่ห้ามมิให้ผู้ใดเทหรือทิ้งสิ่งปฏิกูล มูลฝอย น้ำโสโครกหรือสิ่งอื่นใดลงบนถนนหรือในทางน้ำ ประกอบกับมาตรา 57 บทกำหนดโทษ ผู้ใดฝ่าฝืนหรือไม่ปฏิบัติตามมาตรา 33 ต้องระวางโทษปรับไม่เกินหนึ่งหมื่นบาท (สำนักงานคณะกรรมการกฤษฎีกา, 2560 ; กรมควบคุมมลพิษ, 2546)

จากการศึกษาพบว่ามีหลายวิธีในการรีไซเคิลน้ำมันปรุงอาหารที่ใช้แล้ว เช่น การทำปุยหมัก ใช้เป็นปุ๋ยละลายช้า การทำสบู่ และนำมาผ่านกระบวนการผลิตเป็นน้ำมันเชื้อเพลิงอากาศยานแบบยั่งยืน (Sustainable Aviation Fuel: SAF) ซึ่งส่งผลดีทั้งในเชิงเศรษฐกิจ สังคม และสิ่งแวดล้อม สอดคล้องกับ BCG Economy Model อย่างครบวงจร ปรากฏการณ์ดังกล่าวกลุ่มบริษัทบางจาก ได้มีการก่อสร้างหน่วยผลิตน้ำมันอากาศยานยั่งยืน (SAF) โดยนำน้ำมันปรุงอาหารใช้แล้วจากครัวเรือนและภาคธุรกิจโครงการ “ทอดไม่ทิ้ง” มาผลิตเป็นน้ำมันเชื้อเพลิงอากาศยานยั่งยืน (กรุงเทพธุรกิจ, 2568) และมีการลงนามความร่วมมือแลกเปลี่ยนความรู้ความเชี่ยวชาญด้านความยั่งยืนและสิ่งแวดล้อมระหว่างกรมอนามัยและบริษัทบางจาก คอร์ปอเรชั่นจำกัด (มหาชน) ในการรณรงค์ไม่ใช้น้ำมันทอดซ้ำ และนำมาผลิตเป็นน้ำมันเชื้อเพลิงอากาศยานแบบยั่งยืน เพื่อเป็นการสร้างความเชื่อมั่นในเรื่องสุขภาพอนามัยให้กับผู้บริโภคและเป็นการรณรงค์การไม่ทิ้งน้ำมันปรุงอาหารใช้แล้วสู่สิ่งแวดล้อม (สปริงนิวส์, 2568)

จากปรากฏการณ์ดังกล่าวข้างต้นจึงทำให้ผู้วิจัยสนใจศึกษาถึงน้ำมันพืชที่ใช้ในการประกอบอาหาร แหล่งผลิตน้ำมันที่ใช้แล้ว ผลกระทบ เส้นทางการเดินทางของน้ำมันที่ใช้แล้ว การรีไซเคิลน้ำมันใช้แล้วเปลี่ยนเป็นเชื้อเพลิงอากาศยานแบบยั่งยืน ความเคลื่อนไหวการรณรงค์การใช้น้ำมัน SAF ในประเทศไทยและต่างประเทศ ทั้งนี้เพื่อให้ประชาชนหันมาสนใจตระหนักในความสำคัญและผลกระทบที่จะเกิดขึ้นจากการนำน้ำมันที่ใช้แล้วไปสู่กระบวนการผลิตและนำกลับมาใช้ใหม่ให้สอดคล้องกับโมเดลเศรษฐกิจ BCG

วัตถุประสงค์ของการวิจัย

1. เพื่อศึกษาน้ำมันพืชที่ใช้ในการประกอบอาหาร แหล่งผลิตน้ำมันที่ใช้แล้ว และผลกระทบ
2. เพื่อศึกษาเส้นทางการเดินทางของน้ำมันที่ใช้แล้วนำไปสู่กระบวนการผลิตเป็นน้ำมันเชื้อเพลิงอากาศยานแบบยั่งยืน SAF
3. เพื่อศึกษาความเคลื่อนไหวการรณรงค์การใช้น้ำมัน SAF ในประเทศไทยและต่างประเทศ

แนวคิด ทฤษฎี กรอบแนวคิด

รีไซเคิล (Recycle)

การรีไซเคิลเป็นการปฏิบัติเพื่อนำวัสดุที่ใช้แล้วเหล่านั้นกลับมาใช้ใหม่ เป็นการส่งคืนวัสดุกลับสู่กระบวนการผลิตผ่านวงจรของการมีส่วนร่วมในชีวิตประจำวันของสังคม แทนที่จะทิ้งวัสดุเหล่านั้นไปยังถังขยะ และมีจุดจบที่หลุมฝังกลบ การรีไซเคิลเป็นการกู้คืนผลิตภัณฑ์ที่ใช้แล้ว และนำไปผ่านกระบวนการเพื่อทำให้เป็นผลิตภัณฑ์รุ่นเดียวกัน ระบบเศรษฐกิจหมุนเวียน (Circular Economy) เป็นระบบเศรษฐกิจที่มุ่งลดของเสียและใช้ทรัพยากรที่มีอยู่ให้เกิดประโยชน์มากที่สุด โดยมีหัวใจสำคัญ คือ ความพยายามที่จะลดการใช้ทรัพยากรที่มีอยู่อย่างจำกัด ซึ่งเป็นการสนับสนุนการดำเนินงานลดการปล่อยก๊าซคาร์บอนไดออกไซด์และพัฒนาเทคโนโลยีพลังงานหมุนเวียน/พลังงานทดแทน (Renewable Energy Technologies) แนวคิดนี้ประกอบด้วยกระบวนการหลายอย่างรวมกันเป็นวงจร เรียกว่า “แบบจำลองแนวคิดระบบเศรษฐกิจหมุนเวียน” ได้แก่ การออกแบบที่ยั่งยืน จนสุดท้ายคือ การรีไซเคิล (Hagelüken, 2016 อ้างถึงใน ณัฐภัทร รัตนวิชัย, 2565) ซึ่งมีประโยชน์มากมายทั้งทางด้านสังคม ด้านเศรษฐกิจ และด้านสิ่งแวดล้อม (Green Network, 2019; ณัฐภัทร รัตนวิชัย, 2565)

แนวคิด SAF

Sustainable Aviation Fuel (SAF) หรือเชื้อเพลิงอากาศยานแบบยั่งยืน เป็นอีกหนึ่งทางเลือกเพื่อโลกยั่งยืนที่จะช่วยลดปริมาณการปล่อยก๊าซคาร์บอนไดออกไซด์ในอุตสาหกรรมการบินลงได้ โดยเฉพาะเมื่ออุตสาหกรรมการบินวางแผนจะก้าวเข้าสู่เป้าหมาย Net Zero ในปี ค.ศ. 2050 สำหรับอุตสาหกรรมการบินนั้น SAF น้ำมันใช้แล้วจากการทำอาหารช่วยลดการปล่อยคาร์บอนไดออกไซด์ลงได้กว่า 80% เทียบเท่าการบินด้วยเชื้อเพลิงการบินในปัจจุบัน โดยหน่วยผลิต SAF ที่ BSGF กำลังจะตั้งขึ้นคาดว่าจะพร้อมให้บริการอุตสาหกรรมการบินทั้งในและต่างประเทศในไตรมาส 4 ของปี ค.ศ. 2024 โดยเริ่มจากกำลังการผลิตเริ่มต้น 1 ล้านลิตรต่อวัน ช่วยลดการปล่อยก๊าซเรือนกระจกจากการเดินทางและขนส่งทางอากาศลงได้ราว 80,000 ตันคาร์บอนไดออกไซด์เทียบเท่าต่อปี สอดคล้องกับมาตรการขององค์การการบินพลเรือนระหว่างประเทศ (International Civil Aviation Organization: ICAO)

กฤตย์ สีตะธนี (2567) ได้ศึกษาถึง Sustainable Aviation Fuel (SAF) ช่องว่างระหว่างอุปสงค์และอุปทานระดับโลก และบทบาทของประเทศไทย พบว่า SAF เป็นเชื้อเพลิงหมุนเวียนที่สามารถใช้ขับเคลื่อนอากาศยานโดยมีการปล่อยก๊าซคาร์บอนน้อยกว่าเมื่อเทียบกับน้ำมันเชื้อเพลิงอากาศยานทั่วไปที่ผลิตจากฟอสซิล โดยคาดว่าจะลดการปล่อยมลพิษได้ถึง 80 % เมื่อเทียบกับน้ำมันเชื้อเพลิงอากาศยานแบบดั้งเดิม จุดสำคัญของ SAF คือ การเป็น Drop-in- Fuel หมายความว่า สามารถใช้กับเครื่องบินที่มีอยู่ได้โดยไม่ต้องดัดแปลงเครื่องยนต์ เพราะเหตุนี้ทำให้ SAF สามารถผสมกับน้ำมันเชื้อเพลิงอากาศยานทั่วไปได้ในอัตราสูงสุดที่ 50 % อุปทานในปัจจุบันไม่เพียงพอต่อความต้องการ โดยสหภาพยุโรปจำเป็นต้องเพิ่มกำลังการผลิตมากกว่า 40 เท่าเพื่อให้บรรลุเป้าหมาย SAF (การบินทั่วโลกปัจจุบันใช้เชื้อเพลิงอยู่ที่ 316 ล้านตัน) กำลังการผลิตปัจจุบันต่ำกว่าประมาณการความต้องการ SAF อยู่ 24 ล้านตันต่อปี ที่จำเป็นต่อการ

บรรลุข้อกำหนด แม้จะมีการประกาศโครงการใหม่จำนวนมากทุกปีก็ตาม แต่อุปทานมีลักษณะกระจุกตัว โดย 76.8% ของการผลิตทั้งหมดที่คาดการณ์ไว้มาจาก 10 บริษัท ในประเทศไทย มีผู้ประกอบการเพียงรายเดียวและเป็นแห่งแรกของประเทศไทย ที่มุ่งเน้นด้าน SAF คือ บริษัทบางจากกำลังก่อสร้างโรงงานที่พระโขนงโดยมีเป้าหมายผลิต SAF 2.3 ล้านบาร์เรลต่อปีภายในปี 2568

ภาควิชาวิศวกรรมเครื่องกล มหาวิทยาลัยเกษตรศาสตร์ (2563) ได้ศึกษาแนวทางการส่งเสริมเชื้อเพลิงชีวภาพอากาศยานอย่างยั่งยืน พบว่า น้ำมันเชื้อเพลิงชีวภาพเป็นน้ำมันที่ผลิตจากวัตถุดิบที่มาจากธรรมชาติเป็นพลังงานหมุนเวียนทางเลือกประเภทหนึ่งที่สามารถจัดหาได้ในประเทศไทย เนื่องจากประเทศไทยเป็นประเทศเกษตรกรรมและเป็นหนึ่งในฐานการผลิตอาหารของโลก จึงมีวัตถุดิบจากชีวมวลเป็นจำนวนมากซึ่งสามารถนำมาใช้เป็นแหล่งพลังงานทางเลือก ที่สำคัญน้ำมันเชื้อเพลิงชีวภาพอากาศยาน (Bio-Jet) คือ เชื้อเพลิงอากาศยานที่ไม่ได้ผลิตจากน้ำมันดิบหรืออนุพันธ์ของน้ำมันดิบ และต้องมีคุณสมบัติที่ใกล้เคียงและสามารถใช้ทดแทนกันได้ เทคโนโลยีการผลิตเชื้อเพลิงชีวภาพอากาศยาน เมื่อแบ่งตามสารตั้งต้นแล้ว จะแบ่งได้ออกเป็น 4 กลุ่มเทคโนโลยี คือ ก๊าซ (Gas to Jet, GTJ) แอลกอฮอล์ (Alcohol to Jet, ATJ) น้ำมัน (Oil to Jet, OTJ) และน้ำตาล (Sugar to Jet, STJ) จากการศึกษาดังกล่าวข้างต้น พบว่า Oil to Jet จะเป็นเทคโนโลยีที่มีคะแนนสูงสุด แนวโน้มการผลิตเชื้อเพลิงชีวภาพอากาศยานเชิงพาณิชย์ในต่างประเทศกว่าร้อยละ 90 เป็นการผลิตด้วยเทคโนโลยี Oil to Jet จากการวิจัยพบแนวโน้มการผลิตเชื้อเพลิงชีวภาพอากาศยานเชิงพาณิชย์ในต่างประเทศกว่าร้อยละ 90 เป็นการผลิตด้วยเทคโนโลยี Oil to Jet

นอกจากนั้นยังพบว่าบริษัท บางจาก คอร์ปอเรชั่น จำกัด (มหาชน), บริษัท บีบีจีไอ จำกัด (มหาชน), สำนักงานการวิจัยแห่งชาติ (วช.) และมหาวิทยาลัยเทคโนโลยีราชมงคลอีสาน (มทร.อีสาน) ได้มีการร่วมลงนามในบันทึกข้อตกลงความร่วมมือโครงการนวัตกรรมสีเขียวเพื่อทดลองผลิต Sustainable Aviation Fuel (SAF) หรือเชื้อเพลิงอากาศยานชีวภาพแบบยั่งยืนจากเอทานอลสู่การพัฒนาน้ำมันเครื่องบินคาร์บอนต่ำจากฐานงานวิจัย เพื่อนำองค์ความรู้ที่ได้จากโครงการวิจัย “การผลิตเชื้อเพลิงชีวภาพจากฟูเซลแอลกอฮอล์ที่ได้จากโรงงานเอทานอล” เมื่อปี พ.ศ. 2563 ช่วยส่งเสริมการพัฒนาเครือข่าย Supply Chain ของเชื้อเพลิงชีวภาพ ตอบรับความต้องการใช้งาน SAF (กระทรวงการอุดมศึกษา วิทยาศาสตร์ วิจัยและนวัตกรรม, 2565)

BCG โมเดล

BCG โมเดลหรือระบบเศรษฐกิจสีเขียว ประกอบด้วย 3 เศรษฐกิจหลัก คือ B: Bio Economy ระบบเศรษฐกิจชีวภาพ มุ่งเน้นการใช้ทรัพยากรชีวภาพอย่างคุ้มค่าเชื่อมโยงกับ C: Circular Economy ระบบเศรษฐกิจหมุนเวียน ที่คำนึงถึงการนำวัสดุต่าง ๆ กลับมาใช้ประโยชน์ให้มากที่สุด และทั้ง 2 เศรษฐกิจนี้ อยู่ภายใต้ G: Green Economy ระบบเศรษฐกิจสีเขียว ซึ่งมุ่งแก้ไขปัญหามลพิษ เพื่อลดผลกระทบต่อโลกอย่างยั่งยืน (สวทช., 2563) BCG Economy Model เป็นกลไกสำคัญในการขับเคลื่อนเศรษฐกิจไทยให้เติบโตแบบก้าวกระโดด กระจายโอกาส กระจายรายได้ และนำความมั่งคั่งไปสู่ชุมชนในท้องถิ่นอย่างทั่วถึง และมีการพัฒนาทางเศรษฐกิจและสังคมที่ยั่งยืน และ BCG โมเดล

วิธีดำเนินการวิจัย

ผู้วิจัยใช้วิธีวิจัยโดยการเก็บข้อมูลเชิงคุณภาพ

1. ผู้ให้ข้อมูล ได้แก่ ผู้ที่เป็นแม่ค้าพ่อค้าที่ขายอาหารประเภทใช้น้ำมันในการทอด เช่น ไก่ทอด หมูทอด ลูกชิ้นทอด กล้วยทอด มันทอด และปาท่องโก๋ รวม 7 คน ผู้ประกอบการที่รับซื้อน้ำมันหลังใช้ 4 คน หน่วยงานภาครัฐ 4 คน และประชาชนทั่วไป 2 คน รวมทั้งหมด จำนวน 17 คน

2. เครื่องมือที่ใช้ในการวิจัย ได้แก่ แบบสัมภาษณ์แบบเจาะลึก และการสังเกตแบบไม่มีส่วนร่วม

3. การเก็บรวบรวมข้อมูล ผู้วิจัยใช้วิธีการสัมภาษณ์แบบเจาะลึกจากผู้ให้ข้อมูลที่เป็นผู้ประกอบอาหาร ผู้รับซื้อน้ำมันรายใหญ่ในอำเภอและจังหวัด เพื่อส่งน้ำมันไปยังบริษัทแหล่งรีไซเคิลน้ำมันใช้แล้ว สังเกตการประกอบอาหารของพ่อค้าแม่ค้าที่ใช้น้ำมันทอดอาหารต่าง ๆ เพื่อจำหน่าย สังเกตการซื้อขายน้ำมันของพ่อค้าคนกลางในพื้นที่จังหวัดสตูลและสงขลา

4. การวิเคราะห์ข้อมูลเชิงคุณภาพ ใช้วิธีการจำแนกหมวดหมู่ตามประเด็น ตีความ สร้างข้อสรุป นำเสนอข้อมูลเชิงพรรณนาวิเคราะห์

ผลการวิจัย

1. น้ำมันพืชที่ใช้ในการประกอบอาหาร แหล่งผลิตน้ำมันที่ใช้แล้ว และผลกระทบ

ปัจจุบัน น้ำมันพืชมีอยู่มากมายหลากหลายประเภท ไม่ว่าจะเป็นน้ำมันปาล์ม น้ำมันถั่วเหลือง หรือน้ำมันพืชทางเลือกสำหรับคนรักสุขภาพ ซึ่งสามารถแบ่งแยกตามประเภทการใช้งานได้ทั้งหมด 9 ประเภท ได้แก่ น้ำมันปาล์ม น้ำมันถั่วเหลือง น้ำมันงา น้ำมันดอกทานตะวัน น้ำมันคาโนลา น้ำมันมะพร้าว น้ำมันอะโวคาโด น้ำมันรำข้าว และน้ำมันมะกอก ซึ่งน้ำมันแต่ละประเภทเหมาะกับการนำไปใช้กับเมนูอาหาร หรือเป็นส่วนผสมในสูตรอาหารแตกต่างกันไป เช่น น้ำมันปาล์มเหมาะกับการนำไปประกอบเมนูอาหารประเภททอด น้ำมันคาโนลาเหมาะกับการนำไปใช้ทำขนม และน้ำมันมะกอก เหมาะกับการนำไปใช้ในการหมักอาหาร หรือเหมาะกับการนำไปใช้ในการทำสลัดน้ำมันพืชที่จำหน่ายตามร้านค้า ร้านสะดวกซื้อ ซุปเปอร์มาเก็ต (บางจากหลากมุมมอง, 2565ข)

น้ำมันใช้แล้ว หรือ Waste Cooking Oil เป็นน้ำมันพืชดังกล่าวข้างต้นหรือไขมันสัตว์ที่ผ่านกระบวนการให้ความร้อนจากกระบวนการทำอาหาร โดยเฉพาะอย่างยิ่งอาหารจานทอดทั้งหลาย (Deep Fry) แหล่งที่มาของน้ำมันใช้แล้วนอกจากน้ำมันที่ใช้ทอดแล้ว ยังพบได้จากน้ำมันจากการล้างภาชนะ ซึ่งสามารถแยกออกจากน้ำได้โดยบ่อหรือถังดักไขมัน (ปิโยรส ทิพย์มงคล และณัฐพงศ์ ตันติวิวัฒนพันธ์, 2563) สำหรับประเทศไทยแล้วน้ำมันใช้แล้วส่วนใหญ่จะเป็นน้ำมันปาล์ม (90%) เนื่องจากคุณสมบัติที่เหมาะสมในการทอดอาหาร และราคาถูก โดยประเทศไทยมีผลผลิตน้ำมันเป็นอันดับ 3 ของโลก มีผลผลิตส่งออก 15.4 ล้านตันต่อปี โดยคิดเป็น 3.9 % ของผลผลิตน้ำมันทั่วโลก จากข้อมูลสถิติการบริโภคและใช้น้ำมันพืชของประเทศไทย พบว่า คนไทยบริโภคน้ำมันพืช 800,000 ตันต่อปี (สำนักข่าว สสส., 2551)

1.1 ร้านอาหาร หรือร้านค้าในตลาดแหล่งผลิตน้ำมันที่ใช้แล้ว

ร้านอาหารหรือร้านค้าในตลาดผลิตน้ำมันที่ใช้แล้วจำนวนมาก โดยส่วนใหญ่มาจากการทอด น้ำมันเหล่านี้จะกลายเป็นของเสียแบบใช้แล้วทิ้ง ดังคำให้สัมภาษณ์ของผู้ให้ข้อมูลดังนี้

> “...ขายปาท่องโก๋ต้องใช้น้ำมันเยอะจนเต็มกระทะ ไม่งั้นทอดแป้งปาท่องโก๋ไม่ฟู...ก็ยอมรับว่าใช้ซ้ำ ไม่งั้นขาดทุน.. เปลี่ยนน้ำมันใหม่เมื่อเราเก็บไว้แล้วมันเริ่มหนืด สีเข้มขึ้น...” (เจ๊คิ้ม, สัมภาษณ์วันที่ 10 มกราคม 2568)

> “...ขายกล้วยทอด มันทอด ต้องใช้น้ำมันเยอะจนเต็มกระทะ แต่ละอย่างใช้เวลาไม่เท่ากัน...น้ำมันทอดทีหนึ่งก็เริ่มเหลืองและดำ ใช้ซ้ำ 2-3 ครั้ง...บางทีเอาไม่ทันก็ 3 วันจึงจะเปลี่ยนทีหนึ่ง น้ำมันงวดลงก็ต้องเติมน้ำมันเพิ่ม...” (เฟิร์น, สัมภาษณ์วันที่ 11 มกราคม 2568)

> “...ขายไก่ทอดทุกวันกับข้าวเหนียว ส่วนไหนลูกค้ามาซื้อเยอะก็ทอดส่วนนั้นเยอะหน่อย ต้องใช้น้ำมันเยอะจนเต็มกระทะ น้ำมันก็ใช้ซ้ำ หลายครั้ง หลายวัน พอน้ำมันงวดลงก็เติม ไม่งั้นขาดทุน จะเปลี่ยนเมื่อสีน้ำมันเข้ม..” (ฟิรฮานา, สัมภาษณ์วันที่ 2 มกราคม 2568)

"...ขายลูกชิ้นทอด ลูกค้าสั่งเราจึงจะทอด เติมน้ำมันใหม่เพิ่ม แต่น้ำมันเราจะเหลือไม่เยอะ บางครั้งทำขายสัก 2-3 วันก็ทิ้ง...แต่ตอนนี้เก็บใส่ปี๊บไว้ไปขายให้พ่อค้าคนกลางที่เขารับซื้อน้ำมันอีกทีหนึ่ง" (สมใจ, สัมภาษณ์วันที่ 3 มกราคม 2568)

จากคำสัมภาษณ์ดังกล่าวข้างต้นสะท้อนให้เห็นว่าแม่ค้า พ่อค้าที่ขายอาหารประเภทที่ต้องใช้น้ำมันทอดส่วนใหญ่จะใช้ซ้ำประมาณ 2-3 วันสังเกตจากสีของน้ำมัน และปริมาณของน้ำมันลดลงจึงเติมน้ำมันใหม่ และจะเปลี่ยนน้ำมันใหม่เมื่อไม่สามารถใช้ได้แล้ว

ภาพที่ 1 ไก่ทอดที่ใช้น้ำมันพืชจำหน่ายในตลาด

ภาพที่ 2 น้ำมันใช้ทอดกล้วยแขก (ซ้าย) และทอดปาท่องโก๋ในตลาด (ขวา)

1.2 ครัวเรือนแหล่งผลิตน้ำมันที่ใช้แล้ว

ครัวเรือนจะมีน้ำมันหลังจากทอดแล้วไม่มาก กำจัดน้ำมันปรุงอาหารที่ใช้แล้วหรือหมดอายุอย่างถูกต้อง ดังคำให้สัมภาษณ์ของผู้ให้ข้อมูลดังนี้

"...ทำกับข้าวนะประเภทที่ต้องใช้น้ำมันพอสมควร ไข่เจียว ผัดผัก แต่ละครั้งใช้น้ำมันไม่เยอะ เวลาทิ้งน้ำมันก็ล้างไปพร้อมกับล้างกระทะลงท่อ บางครั้งจะราดไปที่ต้นหญ้าที่เป็นวัชพืชลงดิน..." (สรรพสิทธิ์, สัมภาษณ์วันที่ 31 ธันวาคม 2567)

"...ทำกับข้าวมีพวกแกงขี้เหล็ก แกงส้ม ผัดผัก ทอดปลา ทอดหมู ใช้น้ำมันไม่มาก เหลือก็เก็บใส่ถ้วยเอาฝาปิดไว้..." (ผุสดี, สัมภาษณ์วันที่ 30 ธันวาคม 2567)

"...ทำกินเองบ้าง ซื้อข้างนอกกินบ้าง เราก็ไม่รู้ว่าหลังร้านเป็นยังไง แต่ที่บ้านไม่ค่อยมีน้ำมันเหลือใช้.." (อรัญญา, สัมภาษณ์วันที่ 2 มกราคม 2568)

จากคำสัมภาษณ์ดังกล่าวข้างต้นสะท้อนให้เห็นว่า น้ำมันเหลือใช้ในครัวเรือนมีไม่มากนัก ส่วนใหญ่การใช้น้ำมันประกอบอาหารจะใช้พอดีกับการทำอาหาร นอกจากว่าหากมีการทอดที่ต้องใช้น้ำมันจำนวนมากก็จะเก็บไว้ใช้ครั้งต่อไปเพียงไม่กี่ครั้ง

1.3 อุตสาหกรรม

น้ำมันปรุงอาหารอาจกลายเป็นของเสียได้เนื่องจากปัจจัยต่าง ๆ เช่น การจัดเก็บที่ไม่เหมาะสม ความผิดพลาดในการขนส่ง ข้อผิดพลาดในการจัดจำหน่าย หรือปัญหาการควบคุมคุณภาพการผลิตของเสียเหล่านี้อาจมีจำนวนมากและก่อให้เกิดความเสี่ยงต่อสิ่งแวดล้อม และสุขภาพหากไม่ได้รับการจัดการอย่างถูกต้อง น้ำมันเสียจากอุตสาหกรรมอาจปนเปื้อนแหล่งน้ำและดิน และหากนำไปใช้ในการผลิตอาหารอาจทำให้ได้ผลิตภัณฑ์ที่ไม่ได้มาตรฐานซึ่งอาจเป็นอันตรายต่อผู้บริโภค

1.4 ผลกระทบต่อสุขภาพและระบบนิเวศของน้ำมันปรุงอาหารใช้แล้ว

น้ำมันทอดซ้ำทางกายภาพจะมีลักษณะเหนียวข้น สีดำ มีกลิ่นเหม็นหืน มีฟอง และเกิดควันมากขณะทอด เมื่อน้ำมันถูกทอดซ้ำที่ความร้อนสูงเป็นระยะเวลานาน ทางเคมีพบว่าการเสื่อมคุณภาพของน้ำมันทอดอาหารทำให้เกิดสารประกอบโพลาร์ (Polar Compounds) และสารประกอบโพลีไซคลิก อะโรมาติก ไฮโดรคาร์บอน (Polycyclic Aromatic Hydrocarbon; PAHs) (ปิโยรส ทิพย์มงคล และณัฐพงศ์ ตันติวิวัฒนพันธ์, 2563) ในการทอดอาหารซ้ำแต่ละครั้ง สารโพลาร์จะมีประมาณร้อยละ 25 ซึ่งกฎหมายได้กำหนดให้น้ำมันที่ใช้ทอดอาหารหรือประกอบอาหารเพื่อจำหน่ายมีปริมาณสารโพลาร์ได้ไม่เกินร้อยละ 25 ของน้ำหนัก ผลกระทบมีดังนี้ (บางจากหลากมุมมอง, 2565ข; Skip Shapiro Enterprises, 2568)

1) น้ำมันปรุงอาหารไหม้ เมื่อน้ำมันปรุงอาหารถูกความร้อนสูง น้ำมันอาจไหม้และก่อให้เกิดสารอันตราย เช่น อะโครลีน อาจทำให้ระบบทางเดินหายใจระคายเคืองและเกิดปัญหากับดวงตา สารโพลาร์ในน้ำมันทอดซ้ำเกิดอาการแพ้ได้ เช่น ผื่นคัน แน่นหน้าอก และหายใจลำบาก เสี่ยงต่อการเกิดโรคหัวใจและหลอดเลือด สารโพลาร์สามารถเพิ่มระดับคอเลสเตอรอลในเลือดและทำให้เกิดการอักเสบในหลอดเลือด และอาจก่อให้เกิดโรคมะเร็ง

2) น้ำมันปรุงอาหารเก่าหมดอายุหรือมีกลิ่นเหม็นหืน เนื่องจากปฏิกิริยาออกซิเดชัน กระบวนการนี้ทำให้โครงสร้างทางเคมีของน้ำมันเปลี่ยนแปลงไป และก่อให้เกิดแบคทีเรียที่เป็นอันตราย การบริโภคน้ำมันดังกล่าวอาจทำให้เกิดอาหารเป็นพิษและปัญหาสุขภาพเช่นเดียวกับน้ำมันปรุงอาหารเหลือใช้ประเภทอื่น ควรกำจัดอย่างถูกต้องเพื่อป้องกันความเสี่ยงต่อสุขภาพและอันตรายต่อสิ่งแวดล้อม

2. เส้นทางการเดินทางของน้ำมันที่ใช้แล้วนำไปสู่กระบวนการผลิตเป็นน้ำมันเชื้อเพลิงอากาศยานแบบยั่งยืน SAF

การเดินทางของน้ำมันที่ใช้แล้วจากพ่อค้าแม่ค้าที่เป็นผู้ประกอบการในตลาดนำน้ำมันใช้แล้วมาจำหน่ายให้กับร้านที่รับซื้อน้ำมัน เพื่อขนส่งต่อไปยังโรงงานแปรรูปให้เป็น Bio Jet ผลิตภัณฑ์สบู่ และผลิตภัณฑ์อื่น ๆ ต่อไป จะมีกลุ่มที่รับซื้อรายใหญ่ในแต่ละจังหวัดเพื่อส่งต่อไปยังโรงงานรีไซเคิลในกรุงเทพฯ โดยมีขั้นตอนดังนี้

2.1 เครือข่ายการรวบรวมน้ำมันใช้แล้ว

ขั้นตอนเริ่มต้นของการจัดการน้ำมันจากการปรุงอาหาร คือ กระบวนการรวบรวมน้ำมันปรุงอาหารเหลือใช้จากแหล่งต่าง ๆ เช่น ร้านอาหาร อุตสาหกรรมแปรรูปอาหาร และครัวเรือน การรวบรวมน้ำมันใช้แล้วอาศัยเครือข่ายชุมชน สังคมในแต่ละจังหวัด ซึ่งเป็นกลุ่มผู้ประกอบการดังคำสัมภาษณ์ดังนี้

> “....น้ำมันพืชใช้แล้วจากการทอดอาหารขาย เราเก็บสะสมไว้นำไปขายสร้างรายได้เพิ่มดีกว่าทิ้ง ตอนนี้เป็นทางเลือกที่น่าสนใจ ต้องกรองตะกอน และเศษอาหารที่มันปนอยู่ในน้ำมันออกให้หมดเสียก่อน...” (อลิษา, สัมภาษณ์วันที่ 24 กุมภาพันธ์ 2568)

> “...วิธีการเก็บน้ำมันใช้แล้วเราต้องระวังไม่ให้น้ำผสม เพราะน้ำมันพืชเก่าที่มีน้ำลงไปผสม เจ้าที่รับซื้อจะบอกเราไว้ ก็ได้หลายบาทนะเดือนหนึ่ง...” (แนน, สัมภาษณ์วันที่ 24 กุมภาพันธ์ 2568)

"...เราเป็นแหล่งรับซื้อน้ำมันพืชเก่าทุกชนิด คนมาขายน้ำมันสามารถเทน้ำมันลงในถังน้ำมันของเราได้เรื่อย ๆ น้ำหนักในการชั่งจะเคลียร์เป็น 0 ได้ และเมื่อเทน้ำมัน เลขจำนวนกิโลมันจะขึ้น กลุ่มพ่อค้าแม่ค้าบางทีรวบรวมน้ำมันไว้หลายวันก็มาขายที่ร้านเรา..." (บังยูเด็น, สัมภาษณ์วันที่ 24 กุมภาพันธ์ 2568)

"...เครือข่ายน้ำมัน ส่วนใหญ่คนที่คิดเหมือนเราต้องการลดภาวะโลกร้อน...เศรษฐกิจสีเขียวที่ยั่งยืน ที่ดีต่อสุขภาพ และสิ่งแวดล้อม.." (บอนด์, สัมภาษณ์วันที่ 10 ธันวาคม 2568)

"...การรวบรวมน้ำมันจะมีการประชาสัมพันธ์ หลังจากนั้นก็จะมีพ่อค้าแม่ค้าจะนำน้ำมันใส่ปี๊บไว้ แล้วนำไปขายให้ที่ร้านรับซื้อตัวแทนน้ำมันใช้แล้วในแต่ละจังหวัด ราคาการซื้อขายขึ้นอยู่กับกลไกของตลาดแต่ละวัน ลดโลกร้อน..." (เบียร์, สัมภาษณ์ วันที่ 25 กุมภาพันธ์ 2568)

"...ถ้ามีการรับซื้อน้ำมันใช้แล้วเพื่อไปผ่านกระบวนการรีไซเคิล ก็จะช่วยให้หน่วยงานภาครัฐไม่ต้องใช้งบประมาณในการจัดการกับปัญหาท่อตัน น้ำท่วมมากนัก..." (บังอาร์, สัมภาษณ์วันที่ 25 กุมภาพันธ์ 2568)

"...โครงการทอดไม่ทิ้งจะช่วยปลูกจิตสำนึกให้กับประชาชนเกิดความตระหนักต่อระบบนิเวศ ประชาชนมีรายได้เสริม..." (กุ้ง, สัมภาษณ์วันที่ 27 กุมภาพันธ์ 2568)

จากคำสัมภาษณ์ดังกล่าวข้างต้นสะท้อนให้เห็นว่า การรวบรวมน้ำมันใช้แล้วมีการประชาสัมพันธ์จะทำให้ได้เครือข่ายน้ำมัน ซึ่งถือว่าเป็นกิจกรรมลดภาวะโลกร้อน และกิจกรรมเพื่อสังคม ทำให้คนในชุมชนมีรายได้เพิ่มขึ้น ลดการทิ้งน้ำมันที่มีผลกระทบต่อระบบนิเวศ และสร้างความตระหนักให้เกิดแก่ประชาชนในการอนุรักษ์สิ่งแวดล้อม

2.2 การจัดเก็บ

น้ำมันจะถูกเก็บไว้ในภาชนะที่ได้รับการออกแบบมาโดยเฉพาะเพื่อป้องกันการรั่วไหลและการปนเปื้อน เพื่อให้แน่ใจว่าน้ำมันจะถูกเก็บไว้ในสภาพแวดล้อมที่ควบคุมได้ การรักษาความสมบูรณ์ของน้ำมันในขั้นตอนนี้ถือเป็นสิ่งสำคัญ เพราะจะส่งผลโดยตรงต่อกระบวนการต่าง ๆ ในขั้นตอนต่อไป

"....เรามีเครือข่าย และคิดว่าธุรกิจนี้น่าจะเติบโตได้ดี จึงได้ตั้งร้านรับซื้อน้ำมันใช้แล้ว แต่ต้องออกแบบถังให้แข็งแรงและปลอดภัยต่อการจัดเก็บน้ำมันจำนวนมาก เพื่อนำส่งให้กับบริษัทในกรุงเทพฯ.." (อาดัม, สัมภาษณ์วันที่ 22 กุมภาพันธ์ 2568)

"...มาช่วยพี่เขาทำงานก็คอยดูเวลามีแม่ค้ามาส่งน้ำมัน เราก็ดูน้ำหนัก ให้เขาเทลงในที่จัดเก็บซึ่งออกแบบมาอย่างดีของเถ้าแก่ วันหนึ่งก็มาขายกันหลายรายนะ..." (นูรนีนา, สัมภาษณ์วันที่ 22 กุมภาพันธ์ 2568)

"...ธุรกิจนี้คาดว่าจะส่งผลดี ก่อนนำมาขายได้สร้างข้อตกลงกับแม่ค้าไว้แล้วว่าต้องกรองให้เศษอาหารออกหมด ถังจัดเก็บน้ำมันสั่งทำพิเศษ หนาแข็งแรงทนทาน..." (ซิลมีย์, สัมภาษณ์วันที่ 22 กุมภาพันธ์ 2568)

ภาพที่ 3 ป้ายประกาศรับซื้อน้ำมันพืชใช้แล้วและร้านรับซื้อ

2.3 การขนส่ง

การขนส่งน้ำมันที่เก็บไว้ไปยังโรงงานแปรรูป โดยใช้ยานพาหนะพิเศษที่มีภาชนะบรรจุน้ำมันปรุงอาหารที่ออกแบบมาเพื่อรองรับน้ำหนักและความหนืดของน้ำมัน กระบวนการขนส่งต้องปฏิบัติตามกฎระเบียบที่เคร่งครัดเพื่อป้องกันการรั่วไหลและเพื่อความปลอดภัย

2.4 การบำบัดและการประมวลผล

เมื่อมาถึงโรงงานแปรรูปแล้ว น้ำมันจะผ่านกระบวนการบำบัดที่มีหลายขั้นตอน รวมถึงการกรองเพื่อกำจัดสิ่งเจือปน และการให้ความร้อนเพื่อกำจัดปริมาณน้ำ เป้าหมายคือ การเตรียมน้ำมันสำหรับใช้งานครั้งต่อไป เช่น Bio Jet อาหารสัตว์ หรือการใช้งานอื่น ๆ

2.5 การรีไซเคิล

ในกระบวนการรีไซเคิล “เชื้อเพลิงชีวภาพ” ได้มาจากมวลชีวภาพ (Biomass) และขยะชีวภาพ (Biowaste) ซึ่งหนึ่งในนั้น คือ “น้ำมันพืชที่ใช้แล้ว” โดยผู้ผลิตเชื้อเพลิงชีวภาพสามารถนำมวลชีวภาพเหล่านี้มาผ่านกรรมวิธีทางเคมีก่อนที่จะส่งน้ำมันดังกล่าวไปให้โรงกลั่นในต่างประเทศ ซึ่งเมื่อผ่านกระบวนการดังกล่าวแล้ว ผลิตภัณฑ์นั้นจึงจะเรียกว่า Mixed Industrial Oil หรือน้ำมันอุตสาหกรรมผสม ซึ่งจะถูกนำไปผลิตเป็นเชื้อเพลิงชีวภาพ จากนั้นวัตถุดิบเหล่านี้ จะถูกนำเข้ากระบวนการปรับให้มีคุณสมบัติทางเคมีคล้ายคลึงกับน้ำมันเครื่องบินทั่วไปที่ผลิตจากเชื้อเพลิงฟอสซิลโดยน้ำมัน SAF จะเป็นเชื้อเพลิงแบบ Drop-in fuel ซึ่งหมายความว่า น้ำมันชนิดนี้สามารถนำไปผสมใช้กับน้ำมันเครื่องบินแบบเดิมได้ทันทีในสัดส่วนที่ปลอดภัยต่อเครื่องยนต์ โดยไม่ต้องดัดแปลงหรือปรับปรุงเครื่องยนต์เพิ่มเติม (คณะกรรมการพลังงานหอการค้าไทย, 2568)

ภาพที่ 4 กระบวนการผลิตน้ำมันเชื้อเพลิงอากาศยานแบบยั่งยืน (SAF) (คณะกรรมการพลังงานหอการค้าไทย, 2568)

2.6 การกำจัด

ขั้นตอนสุดท้ายในกระบวนการ คือ การกำจัด แม้ว่าน้ำมันที่ผ่านการบำบัดส่วนใหญ่จะถูกนำไปรีไซเคิล แต่ก็อาจมีของเสียเหลือทิ้งที่ต้องกำจัด ของเสียเหล่านี้ซึ่งอาจรวมถึงเศษของแข็งหรือน้ำเสีย จะถูกกำจัดตามข้อบังคับด้านสิ่งแวดล้อมเพื่อลดอันตรายที่อาจเกิดขึ้นต่อสิ่งแวดล้อมให้น้อยที่สุด (คณะกรรมการพลังงานหอการค้าไทย, 2568)

3. ความเคลื่อนไหวการรณรงค์การใช้น้ำมัน SAF ในประเทศไทยและต่างประเทศ

น้ำมัน SAF (Sustainable Aviation Fuel) ได้รับความสนใจมากขึ้นในประเทศไทย เนื่องจากความต้องการลดการปล่อยก๊าซเรือนกระจกในอุตสาหกรรมการบิน และการตอบสนองต่อแนวโน้มของการบินที่ยั่งยืนในระดับโลก ความเคลื่อนไหวในประเทศไทยและต่างประเทศมีดังนี้ (บางจากหลากมุมมอง, 2565ก)

3.1 โครงการ “ทอดไม่ทิ้ง” และความเคลื่อนไหวของประเทศไทย

กลุ่มบริษัทบางจากได้มีการก่อสร้างหน่วยผลิตน้ำมันอากาศยานยั่งยืน (SAF) โดย BSGF นำน้ำมันปรุงอาหารใช้แล้วจากครัวเรือนและภาคธุรกิจ โครงการ “ทอดไม่ทิ้ง” มาผลิตเป็นน้ำมันเชื้อเพลิงอากาศยานยั่งยืน โดยการรณรงค์ให้ประชาชน “ไม่ทิ้ง” น้ำมันปรุงอาหารใช้แล้วสู่พื้นที่สาธารณะ ป้องกันปัญหาจากการทิ้งของเสียอย่างไม่ถูกวิธีที่จะก่อให้เกิดผลกระทบต่อสิ่งแวดล้อม และ “ไม่ทอดซ้ำ” ซึ่งส่งผลเสียต่อสุขภาพ (กรุงเทพธุรกิจ, 2568) การนำเอาน้ำมันปรุงอาหารใช้แล้วมาขายที่สถานีบริการบางจากหรือจุดรับซื้อที่บริษัทกำหนด เพื่อนำไปผลิตเป็นน้ำมันเครื่องบินหรือเชื้อเพลิงอากาศยานยั่งยืน ที่ตอบโจทย์โมเดลเศรษฐกิจ BCG ได้อย่างครบวงจร โดยนำร่องที่ปั๊มน้ำมันบางจาก 44 แห่ง (บางจากหลากมุมมอง, 2565) ภาคเอกชนของไทยเริ่มทยอยลงทุนตั้งโรงกลั่นผลิต SAF แล้ว ในปี 2026 กลุ่ม บมจ.ปตท. หรือ PTT จะเริ่มทำการผลิต SAF ได้ (วงศ์พาณิชย์มีนบุรี, 2566)

3.2 สหภาพยุโรป

ปัจจุบันหลายประเทศในสหภาพยุโรป ได้ให้ความสนใจและพัฒนา SAF กันมากขึ้น เพื่อลดการปล่อยก๊าซคาร์บอนไดออกไซด์สุทธิเป็นศูนย์ภายในปี 2050 และยังประเมินว่าการใช้ SAF จะช่วยลดคาร์บอน ได้ถึง 34% เมื่อนำมาร่วมใช้กับมาตรการอื่น เช่น การปรับปรุงเทคโนโลยีอากาศยานและเครื่องยนต์ (วงศ์พาณิชย์มีนบุรี, 2566)

ตัวอย่างประเทศที่เริ่มมีมาตรการบังคับใช้อย่างเข้มงวด เช่น ประเทศฝรั่งเศส บังคับให้ทุกเที่ยวบินที่ออกจากประเทศ ต้องใช้ SAF อย่างต่ำ 1% ของการใช้เชื้อเพลิงอากาศยาน ในปี 2022 และจะปรับเพิ่มขึ้น มากถึง 50% ภายในปี 2050 (สปริงนิวส์, 2568) สมาคมขนส่งทางอากาศระหว่างประเทศ หรือ IATA ก็ได้ประกาศเป้าหมายลดการปล่อยมลพิษ ภายในปี 2050 ซึ่งเป้าหมายหลักของสมาคมคือการนำ SAF มาใช้แล้ว ในปี 2021 มีการผลิต SAF ได้เพียง 100 ล้านลิตรต่อปี แต่ IATA ตั้งเป้าหมายการใช้ SAF ในปี 2025 ให้ได้ 8,000 ล้านลิตรต่อปี

3.3 จีน รีไซเคิล 'น้ำมันเหลือทิ้งหม้อไฟหมาล่า' เป็นเชื้อเพลิงเครื่องบิน

จากข้อมูล Bloomberg ระบุว่า ชาวจีนบริโภคน้ำมันมากกว่า 41 ล้านตันต่อปี แต่มีเพียง 3 ล้านตันเท่านั้นที่ถูกนำไปรีไซเคิลเป็นเชื้อเพลิงชีวภาพที่กำลังเป็นที่ต้องการ เมืองเฉิงตูเมืองเดียวน้ำซุปหมาล่าผลิตน้ำมันเหลือใช้จากน้ำซุปแล้วถึง 12,000 ตันต่อเดือน ซึ่งถ้ามีตัวเลขจากทั่วประเทศ จีนอาจมีน้ำมันเหลือใช้จากน้ำซุปหมาล่าที่คนบริโภคกันเป็นหลายแสนตันต่อเดือน บริษัทจีนแห่งหนึ่งจึงเกิดไอเดียนำน้ำมันเหลือใช้จำนวนมากมารีไซเคิล ทำให้ธุรกิจการส่งออกน้ำมันเหลือทิ้ง หรือธุรกิจโรงกลั่นรีไซเคิลน้ำมันและชีวมวลต่าง ๆ เพื่อเปลี่ยนเป็นเชื้อเพลิงชีวภาพยังมีเติบโตอีกมาก (ธนาคารกรุงเทพ, 2568)

สรุป

การผลิต SAF ผ่าน BSGF จะช่วยสร้างระบบนิเวศรองรับความต้องการของผู้โดยสารทางอากาศอย่างเป็นมิตรต่อสิ่งแวดล้อมด้วยผลิตภัณฑ์ที่ไม่เพียงแค่ลดการปล่อยก๊าซคาร์บอนไดออกไซด์สู่ชั้นบรรยากาศ แต่ยังช่วยลดการจัดการน้ำมันพืชใช้แล้วอย่างเป็นระบบ ดีต่อสุขภาพและสิ่งแวดล้อม น้ำมันใช้แล้วได้พยุงการเจริญเติบโตสร้างโอกาสให้ SME สร้างรายได้ ขณะเดียวกันก็ช่วยลดโลกร้อน หัวใจสำคัญคือ ความพยายาม ที่จะลดการใช้ทรัพยากรที่มีอยู่อย่างจำกัด ซึ่งเป็นการสนับสนุนการดำเนินงานลดการปล่อยก๊าซคาร์บอนไดออกไซด์และพัฒนาเทคโนโลยีพลังงานหมุนเวียน พลังงานทดแทน (Renewable Energy Technologies) ซึ่งส่งผลดีต่อสิ่งแวดล้อม ลดปัญหามลภาวะด้านสิ่งแวดล้อม

สอดคล้องกับ BCG Economy Model อย่างครบวงจร เพื่อมุ่งสู่เป้าหมาย Net Zero รูปแบบการพัฒนาเศรษฐกิจใหม่ที่เร่งให้เศรษฐกิจเติบโตแบบก้าวกระโดดอย่างทั่วถึงบนฐานการพัฒนาที่ยั่งยืน

ข้อเสนอแนะ

ข้อเสนอแนะจากการวิจัย

การรับซื้อขายน้ำมันระหว่างร้านรับซื้อกับพ่อค้าแม่ค้าทำให้เกิดเครือข่ายชุมชนและเป็นผลดีกับสังคมและสิ่งแวดล้อม ควรมีการประชาสัมพันธ์สร้างการรับรู้ในแต่ละพื้นที่ให้กว้างขวางและทั่วถึง เนื่องจากเป็นธุรกิจใหม่ยังมีหลายคนยังไม่รู้จัก

ข้อเสนอแนะเชิงนโยบาย

หน่วยงานภาครัฐควรมีการรณรงค์ให้ประชาชนทุกคนตระหนักถึงสุขภาพและระบบนิเวศโดยให้มีมาตรการรองรับการซื้อขายน้ำมันที่ใช้แล้ว เพื่อที่จะได้มีน้ำมันใช้แล้วเป็นวัตถุดิบในการผลิต SAF ได้อย่างเพียงพอ

ข้อเสนอแนะในการวิจัยครั้งต่อไป

1. ควรศึกษาปัจจัยที่มีอิทธิพลต่อการสนับสนุนองค์กรในเชิงธุรกิจนวัตกรรมสีเขียวของน้ำมันใช้แล้วให้เกิดความยั่งยืน

2. ควรศึกษาการส่งเสริมภาพลักษณ์องค์กรและส่งเสริมสังคมคาร์บอนต่ำในประเด็นน้ำมันใช้แล้วชุมชน

บทคัดย่อ

งานวิจัยฉบับนี้เป็นการออกแบบปรับปรุงภูมิทัศน์แหล่งเรียนรู้ แหล่งท่องเที่ยวทางธรรมชาติและวัฒนธรรม ชุมชนเกาะใหญ่ อำเภอกระแสสินธุ์ จังหวัดสงขลา เพื่อส่งเสริมการท่องเที่ยว โดยการเก็บข้อมูลภาคสนามด้านอัตลักษณ์และบริบทของของชุมชน รวมถึงบริบทของแหล่งท่องเที่ยว ด้วยการสังเกตถ่ายภาพและเขียนภาพประกอบ รังวัดพื้นที่ รวมถึงสัมภาษณ์ลักษณะการใช้งาน ตำแหน่งการจัดว่างพื้นที่ และความต้องการพื้นที่ใช้สอยทั้งภายในและภายนอกอาคารของแหล่งเรียนรู้ และแหล่งท่องเที่ยวจากเจ้าของพื้นที่ คนในชุมชนและผู้เกี่ยวข้อง รวมถึงแบบสอบถามความคิดเห็นนักท่องเที่ยวด้านความสะดวกในการใช้พื้นที่เดิม และความต้องการในการปรับปรุง เพื่อเป็นข้อมูลในการวิเคราะห์สำหรับการออกแบบปรับปรุงภูมิทัศน์แหล่งเรียนรู้ แหล่งท่องเที่ยว

จากการศึกษาพบว่า แหล่งเรียนรู้และแหล่งท่องเที่ยวของชุมชนเกาะใหญ่ ที่บริหารจัดการโดยภาครัฐและชุมชน มีจำนวนรวมทั้งสิ้น 7 แหล่ง แบ่งเป็นแหล่งเรียนรู้ทางธรรมชาติ จำนวน 1 แหล่ง ได้แก่ สถานีพัฒนาและส่งเสริมการอนุรักษ์สัตว์ป่าทะเลสาบ (รวมพื้นที่แหลมควายราบ) และแหล่งท่องเที่ยวทางวัฒนธรรม จำนวน 6 แห่ง ได้แก่ วัดสูงเกาะใหญ่ แหล่งเรียนรู้การแปรรูปผลิตภัณฑ์จากต้นสาคู บ่อน้ำศักดิ์สิทธิ์และวิถีประมงวัดแหลมบ่อท่อ แหล่งเรียนรู้บ้านตีมีด แหล่งเรียนรู้สวนเกษตรผสมผสาน บ้านแหลมยาง “โคก หนอง นา” วิถีประมง และจุดชมปลาโลมาบ้านแหลมหาด โดยมีแนวความคิดในการออกแบบปรับปรุงภูมิทัศน์ของแหล่งท่องเที่ยวชุมชน เช่น อาคาร จุดถ่ายรูป ซุ้มขายของ และป้ายต่าง ๆ ให้สอดคล้องกับองค์ประกอบหลัก 2 ด้าน คือ 1) ด้านอัตลักษณ์วัฒนธรรมของชุมชุน เช่น ใช้วิธีและรูปแบบการก่อสร้างจากภูมิปัญญาท้องถิ่นและใช้วัสดุที่มีภายในท้องถิ่น และ 2) ด้านบริบทของพื้นที่ของแหล่งท่องเที่ยวในแต่ละแหล่ง

คำสำคัญ: การท่องเที่ยวในแหล่งธรรมชาติ, การออกแบบภูมิทัศน์, เส้นทางท่องเที่ยว, การท่องเที่ยวในแหล่งวัฒนธรรม

Abstract

This research is the study of natural and cultural tourist attractions. To design tourist routes and landscape of tourist attractions of Koh Yai community Krasae-sin district, Songkhla province. In this study field survey, observation, deep interview, photographic and drawing were used as data collection. Furthermore, brainstorming and questionnaires were also used for promoting community participation.

The data collection results found that the local tourist attractions of Koh Yai community, which are responsible by the government, is the station of development and conservation of the lake wildlife. For cultural tourist attractions, there are consisting of Sung Koh Yai Temple, learning recourses for Metroxylon sagu palm processing, holy well and fishing methods of Wat Laem Bor Thor, learning recourses at Baan Tee Meed, learning recourses for mixed agricultural garden at Baan Laem Yang named “Khok Nong Na”, and fishing method and dolphin watching point at Baan Laem Haad. The concept of design for landscape decoration of community tourist attractions such as buildings, places for photography, places for souvenir, and various signs was based on two main aspects. There were 1) designing in accordance with the cultural identities of the community such as using methods and construction patterns from local wisdom, and using local materials, and 2) designing by the area context for each tourist attraction.

Keywords: Cultural tourist, Tourism, Landscape Design, Tourism Route

บทนำ

การยกระดับเศรษฐกิจด้วยการท่องเที่ยว เป็นแนวทางที่สำคัญแนวทางหนึ่งในการส่งเสริมและพัฒนาเศรษฐกิจของหลายประเทศ การท่องเที่ยวไม่เพียงแต่เป็นอุตสาหกรรมที่สร้างรายได้ให้กับประเทศเท่านั้น แต่ยังช่วยส่งเสริมการสร้างงาน, การพัฒนาโครงสร้างพื้นฐาน, การกระจายรายได้ไปยังชุมชนต่าง ๆ และการอนุรักษ์ทรัพยากรทางธรรมชาติและวัฒนธรรมอีกด้วย ซึ่งจากการศึกษาวิจัยหลายฉบับได้เน้นย้ำถึงบทบาทของการท่องเที่ยวในการส่งเสริมเศรษฐกิจ ทั้งในระดับท้องถิ่นและระดับประเทศ

การท่องเที่ยวเชิงมรดกวัฒนธรรมและการจัดการมรดกทางวัฒนธรรม เป็นสิ่งที่ต้องพิจารณาควบคู่กัน ซึ่งการรักษามรดกวัฒนธรรมเป็นประโยชน์ด้านองค์ความรู้และการให้คุณค่าแก่สังคม ในขณะที่การพัฒนาการท่องเที่ยวนำไปสู่การเติบโตทางเศรษฐกิจและรายได้ของชุมชน การจัดหาแนวทางการจัดการท่องเที่ยวเชิงมรดกวัฒนธรรมจึงเป็นเรื่องสำคัญ ทั้งนี้แนวคิดหลักเพื่อใช้ในการจัดการมรดกทางวัฒนธรรม ประกอบด้วย แนวคิดการพัฒนาการท่องเที่ยวอย่างยั่งยืนและแนวคิดเศรษฐกิจ และการท่องเที่ยวเชิงสร้างสรรค์ ซึ่งแต่ละแนวคิดจะประกอบด้วยกลยุทธ์และแนวทางสนับสนุนที่จะนำไปสู่การจัดการมรดกวัฒนธรรมและการท่องเที่ยวเชิงมรดกวัฒนธรรมเป็นไปอย่างเหมาะสม

ชุมชนเกาะใหญ่เป็นชุมชนหนึ่งในอำเภอกระแสสินธุ์ จังหวัดสงขลา ตั้งอยู่ระหว่างทะเลอ่าวไทยและทะเลสาบสงขลา มีลำคลองไหลผ่านระหว่างแผ่นดินใหญ่กับเกาะใหญ่ อันเป็นภูมิลักษณ์ที่มีความโดดเด่น ส่งผลให้ชุมชนนี้มีความอุดมสมบูรณ์ทางทรัพยากรธรรมชาติ มีทั้งป่า ภูเขา ทะเล นาข้าว ทุ่งตาลโตนด ผสมผสานกันจนกลายเป็นอัตลักษณ์เฉพาะถิ่นของชุมชนเกาะใหญ่ วิถีชีวิตของผู้คนในบริเวณนี้

จึงมีเสน่ห์ งดงาม เรียบง่ายแบบพื้นบ้าน เหมาะแก่การส่งเสริมและพัฒนาด้านการท่องเที่ยวในรูปแบบต่าง ๆ เช่น การท่องเที่ยวเชิงธรรมชาติ เนื่องจากเป็นพื้นที่มีธรรมชาติ สิ่งแวดล้อมที่งดงาม การท่องเที่ยวเชิงวัฒนธรรม เนื่องจากเป็นพื้นที่มีการดำรงวิถีพื้นบ้านที่โดดเด่นมีเอกลักษณ์ โดยเฉพาะวิถีชีวิตชุมชนแบบชายฝั่งทะเลสาบสงขลา อันเป็นผืนแผ่นดินอันน่ามหัศจรรย์

ปัจจุบันการวิจัยเกี่ยวกับการออกแบบภูมิทัศน์แหล่งท่องเที่ยว ในชุมชนไทยส่วนใหญ่ยังขาดการวิเคราะห์เชิงลึกเกี่ยวกับอัตลักษณ์ท้องถิ่นที่มีผลต่อการออกแบบและการพัฒนาแหล่งท่องเที่ยว เช่น การศึกษาของ พิมพกานต์ ปัจจันตวิวัฒน์ และ บุญอนันต์ นทกุล (2564) ที่เน้นการรับรู้ของมนุษย์ต่อสิ่งแวดล้อมทางวัฒนธรรมในชุมชนคลองแดน แต่ยังไม่ครอบคลุมถึงการนำข้อมูลเหล่านี้ มาประยุกต์ใช้ในการออกแบบภูมิทัศน์เพื่อส่งเสริมการท่องเที่ยวอย่างยั่งยืน ในพื้นที่เฉพาะรวมถึงการวิจัยเกี่ยวกับการพัฒนาภูมิทัศน์เพื่อการท่องเที่ยวในประเทศไทย ยังขาดการวิเคราะห์องค์ประกอบที่ส่งผลต่อความยั่งยืนของการท่องเที่ยวในชุมชน เช่น การศึกษาของอุษณีษ์ เสวกวัชรี และ รัญชน์ แจ่มจำรัส (2567) ที่เน้นการมีส่วนร่วมของชุมชนในการพัฒนาแหล่งท่องเที่ยวทางวัฒนธรรม แต่ยังไม่ครอบคลุมถึงการออกแบบภูมิทัศน์ที่สอดคล้องกับอัตลักษณ์ท้องถิ่นและความต้องการของชุมชนในพื้นที่เฉพาะ เช่น เกาะใหญ่

โครงการวิจัยการออกแบบปรับปรุงภูมิทัศน์แหล่งเรียนรู้ แหล่งท่องเที่ยว ทางธรรมชาติและวัฒนธรรม ชุมชนเกาะใหญ่ อำเภอกระแสสินธุ์ จังหวัดสงขลา เป็นการวิเคราะห์องค์ประกอบ และออกแบบภูมิทัศน์ของแหล่งท่องเที่ยว เพื่อส่งเสริมการท่องเที่ยว จึงเป็นส่วนหนึ่งในการพัฒนาชุมชนเกาะใหญ่ให้มีศักยภาพ ด้านการท่องเที่ยว อันสามารถส่งเสริมให้เศรษฐกิจของชุมชนดีขึ้นต่อไป

วัตถุประสงค์ของการวิจัย

1) ศึกษาอัตลักษณ์ของชุมชนเพื่อการออกแบบปรับปรุงภูมิทัศน์แหล่งท่องเที่ยวทางธรรมชาติและวัฒนธรรมของชุมชนเกาะใหญ่ อำเภอกระแสสินธุ์ จังหวัดสงขลา

2) ศึกษาการจัดภูมิทัศน์แหล่งท่องเที่ยวทางธรรมชาติและวัฒนธรรมของชุมชนเกาะใหญ่เดิม

3) ออกแบบปรับปรุงภูมิทัศน์แหล่งท่องเที่ยวทางธรรมชาติและวัฒนธรรมของชุมชนเกาะใหญ่ อำเภอกระแสสินธุ์ จังหวัดสงขลา

แนวคิด ทฤษฎี กรอบแนวคิด

1. เอกสารที่เกี่ยวข้องกับการออกแบบภูมิทัศน์

การวิเคราะห์เป็นสิ่งจำเป็นในกระบวนการคิด เพราะการวิเคราะห์ช่วยแยกแยะสิ่งที่สลับซับซ้อนให้เป็นสิ่งที่เราสามารถจัดการได้ช่วยให้เราเข้าใจปัญหาและหาทางแก้ไข ซึ่งปัญหาหลายอย่างต้องแก้ไขด้วยการออกแบบ เพราะการออกแบบช่วยสร้างสรรค์วิธีการแก้ปัญหาได้ การออกแบบเป็นกระบวนการคิดโดยการนำเอาปัจจัยหลายอย่าง มาทำให้เกิดผลตามที่เราต้องการ เป็นที่น่าเสียดายว่าการออกแบบ มักถูกมองว่าเป็นงานของสถาปนิก ภูมิสถาปนิก มัณฑนากร นักออกแบบแฟชั่น ฯลฯ เท่านั้น แท้ที่จริงแล้วการออกแบบเป็นพื้นฐานของการคิด (ชวาพร ศักดิ์ศรี, 2024).

1.1 หลักการออกแบบภูมิทัศน์ (Fundamental of Landscape Design) กิจกรรมและองค์ประกอบ การออกแบบภูมิทัศน์ นักออกแบบต้องพิจารณากำหนดตำแหน่งกิจกรรมการใช้พื้นที่ และรายละเอียดต่าง ๆ หรือองค์ประกอบที่ควรจัดให้มีขึ้นในพื้นที่นั้น ๆ สามารถสรุปได้ว่า การออกแบบภูมิทัศน์ประกอบด้วย 2 ส่วนใหญ่ ๆ คือ

1) กิจกรรม (Activity) หมายถึง กิจกรรมที่จะจัดให้มีขึ้นในพื้นที่ ซึ่งแบ่งกิจกรรมออกเป็น 2 แบบ คือ กิจกรรมที่ต้องออกแรงและเกิดเสียงดัง (Active Activity) เช่น กิจกรรมกีฬาต่าง ๆ สนามเด็กเล่น เวทีกลางแจ้ง เป็นต้น และกิจกรรมที่ไม่ต้องออกแรง ต้องการความสงบ (passive activity) เช่น เดินเล่น นั่งเล่น นอน อ่านหนังสือ เป็นต้น นักออกแบบจะเป็นผู้กำหนดตำแหน่งที่เหมาะสมในพื้นที่ออกแบบ โดยจัดกิจกรรมประเภทเดียวกันไว้ด้วยกันเพื่อไม่ให้เกิดการรบกวนกัน

2) องค์ประกอบ (Elements) หมายถึง สิ่งที่เหมาะสมจัดให้มีในกิจกรรมแต่ละประเภท ทั้งที่มีชีวิตหรือต้นไม้ (Softscape) และสิ่งไม่มีชีวิต (Hardscape) เช่น กิจกรรมนั่งเล่น ควรมีม้านั่ง ศาลา และสวน กิจกรรมว่ายน้ำควรมีสระว่ายน้ำ ฝักบัวชำระตัว ม้านั่งอาบแดด ร่ม กิจกรรมปิกนิก ควรมีโต๊ะและม้านั่งจัดวางบนพื้นแข็ง ถังขยะ เตาย่าง และร่มเงาจากต้นไม้ใหญ่ ส่วนกิจกรรมแคมป์ไฟ ควรมีลานพื้นแข็ง เตาปิ้งแบบล้อมวงได้ ม้านั่งอาจตั้งอยู่ที่โล่งแจ้งได้เลย เพราะทำกิจกรรมในตอนกลางคืน เป็นต้น ซึ่งนักออกแบบจะเป็นผู้กำหนดรูปแบบ ผิววัสดุ และตำแหน่งที่จะจัดวางองค์ประกอบเหล่านี้

1.2 หลักการออกแบบ ประกอบด้วย

1) แนวความคิด (Concept) พื้นที่แต่ละแห่งมีศักยภาพในการพัฒนาที่เหมาะสมในรูปแบบใดรูปแบบหนึ่ง ซึ่งนักออกแบบต้องกำหนดขึ้นเป็นแนวทางเริ่มแรกในการออกแบบ มักจะเป็นแนวความคิดแบบกว้าง ๆ ก่อน แล้วจึงพัฒนาแนวความคิดให้แคบและเจาะจงลงจนเกิดเป็นวัตถุประสงค์ในการออกแบบต่อไป

2) วัตถุประสงค์ (Goal, Objectives) วัตถุประสงค์เกิดจากแนวความคิดในการออกแบบ แต่มีความเจาะจงที่เด่นชัดเจนเป็นเป้าหมายในการออกแบบได้ รายการในการออกแบบ (criteria) คือ รายละเอียดต่าง ๆ ที่นักออกแบบต้องพิจารณาให้ครอบคลุมวัตถุประสงค์ที่กำหนดไว้ มักเกิดจากความต้องการของผู้ใช้สถานที่ และสภาพพื้นที่ที่จะออกแบบที่ต้องสัมพันธ์

1.3 ที่ว่างและต้นไม้ (Space and Plant Materials) (อรศิริ ปานินท์, 2538) อธิบายถึง ที่ว่างทางภูมิสถาปัตยกรรมไว้ว่า การออกแบบภูมิสถาปัตยกรรมเป็นการออกแบบที่ว่างภายนอกอาคาร เพื่อให้มนุษย์เข้าไปใช้งานได้สะดวกสบาย ปลอดภัย และมีความสวยงามควบคู่กันไป เนื่องจากงานด้านนี้มีมนุษย์และต้นไม้เข้ามาเกี่ยวข้องด้วย นักออกแบบจึงจำเป็นต้องคำนึงถึงสัดส่วนของมนุษย์ (human scale) กับขนาดที่ว่างที่มนุษย์เข้าไปใช้งาน และเข้าใจคุณสมบัติและการใช้งานของต้นไม้กับที่ว่างด้วย

1.4 ที่โล่ง (Open Space) คือ ที่ว่าง (Space) ผืนใหญ่ที่มีหน้าที่เฉพาะอย่าง มีลักษณะเป็น 3 มิติ ซึ่งสามารถแบ่งออกเป็นที่ว่าง ส่วนย่อย ๆ ที่มีหน้าที่เฉพาะต่าง ๆ กัน มีที่ว่างส่วนหนึ่งเป็นตัวสร้างการเชื่อมต่อกัน ทำให้มนุษย์สามารถเข้าไปในสถานที่นั้นได้ (Accessible) มีความเข้าใจในหน้าที่ของที่ว่างและสามารถใช้งานตามวัตถุประสงค์ของที่ว่างแต่ละอย่างได้ ตัวอย่างเช่น การเข้าไปในบริเวณหนึ่ง เดินผ่านแนวทางเดินแล้วแยกเข้าไปยังกิจกรรมต่าง ๆ อาจมีลานโล่งบริเวณ ทางเข้าซึ่งมีวัตถุประสงค์ให้เป็นส่วนเชื่อมต่อกับกิจกรรมย่อยต่าง ๆ ซึ่งพื้นที่ย่อยแต่ละส่วนจะแสดงคุณลักษณะของการใช้งานเฉพาะออกมาอย่างชัดเจน และคนทั่วไปสามารถเข้าใจวัตถุประสงค์ของการใช้งานได้เป็นอย่างดี เป็นต้น

1.5 การออกแบบจัดพรรณไม้ (Planting Design) คือ งานที่นักออกแบบต้องคิดวิเคราะห์ในขั้นตอนการออกแบบในส่วนที่เป็นพื้นผิวอ่อน (Softscape) ซึ่งต้องอาศัยกระบวนการคิดที่เป็นขั้นตอนเช่นกัน เพราะเป็นการคาดการณ์ล่วงหน้า จินตนาการภาพในอนาคต นักออกแบบจึงต้องมีความรู้และประสบการณ์ด้านพืชมากพอ จึงจะสามารถเลือกชนิดต้นไม้หรือปรับปรุงสภาพแวดล้อม เพื่อป้องกันและแก้ปัญหาที่จะเกิดในอนาคตได้ (Eckbo, 1964) การออกแบบจัดสวนเป็นการเลือกและจัดวางตำแหน่ง

พรรณไม้เพื่อปลูกตกแต่งบริเวณตามวัตถุประสงค์ที่กำหนด ขั้นแรก คือ การพิจารณาสภาพสถานที่ปลูกในท้องที่นั้น ทั้งลักษณะดิน การระบายน้ำ ทิศทางการโคจรของดวงอาทิตย์ ลม ปริมาณน้ำฝน อุณหภูมิ โรคแมลง ขั้นที่สอง พิจารณาการใช้งาน และภาพที่ต้องการ เช่น เพื่อให้ร่มเงา บดบัง แบ่งพื้นที่ว่าง สี ขนาด เป็นต้น ขั้นที่สาม พิจารณาคุณสมบัติของพืชที่ตอบสนองข้อจำกัดตามวัตถุประสงค์ เช่น ขนาด อัตราการเจริญเติบโต อายุการใช้งาน รูปทรง ผิวสัมผัส การจัดเรียง ตัวของใบ สีดอก ผล การเปลี่ยนสีของใบตามฤดูกาล ยอด ลำต้น กิ่งก้าน เปลือก กลิ่น เป็นต้น

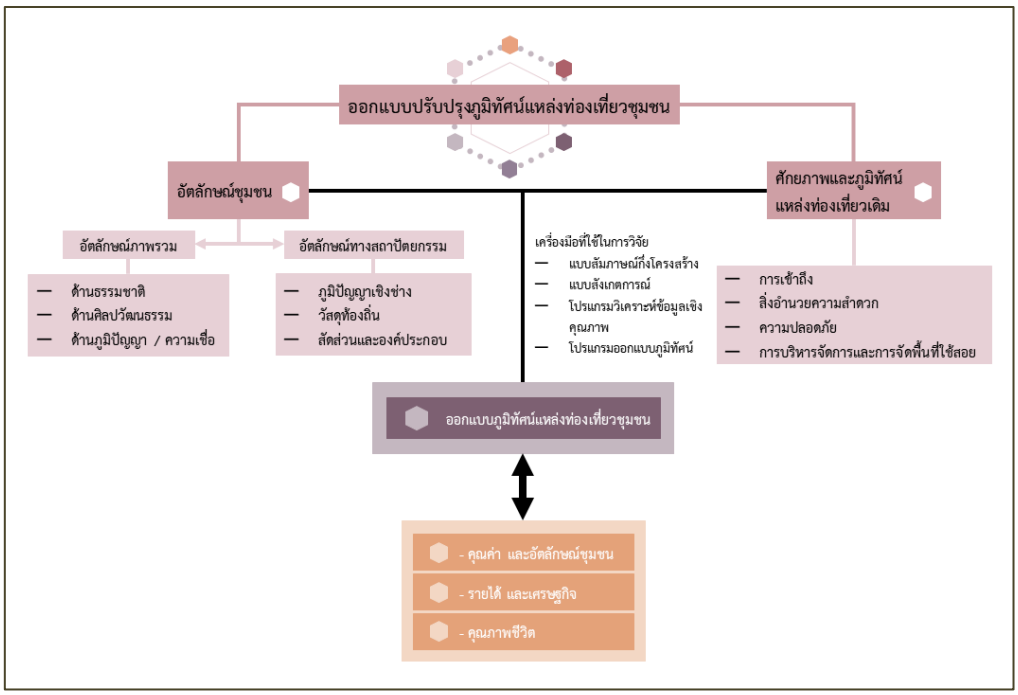
1.6 การสื่อความหมายในงานออกแบบภูมิทัศน์ (Landscape Design Interpretation) งานด้านการออกแบบเป็นงาน ซึ่งนักออกแบบสรรค์สร้างรูปร่างหรือรูปทรงต่าง ๆ ที่สวยงามและใช้งาน ได้ขึ้นจากจินตนาการ นักออกแบบจึงจำเป็นต้องหาวิธีการสื่อความหมายสิ่งที่เกิดจากความคิดของเขาออกมา เพื่อให้ตัวเขาเองได้ศึกษาพิจารณาความถูกต้อง หาข้อผิดพลาดต่าง ๆ ล่วงหน้าและทำการแก้ไขเพื่อจะได้มาซึ่งผลลัพธ์ที่ดีที่สุด ภายใต้ข้อจำกัดตรงนั้น แล้วสื่อออกมาให้บุคคลอื่นสามารถเข้าใจความคิดของเขา วิธีการสื่อความหมายที่เป็นที่นิยมเป็นสากลนี้อาศัยภาษาภาพ หรือ สัญลักษณ์ (Graphic Drawings) (ศศิยา ศิริพานิช, 2558)

2. เอกสารเกี่ยวกับหลักการออกแบบสถาปัตยกรรม และภูมิทัศน์ในแหล่งท่องเที่ยวทางธรรมชาติและวัฒนธรรม

หลักการออกแบบสถาปัตยกรรมภูมิทัศน์ในแหล่งท่องเที่ยวทางธรรมชาติและวัฒนธรรม ต้องเริ่มต้นจากการเข้าใจถึงบทบาทของการออกแบบที่มีต่อการพัฒนาแหล่งท่องเที่ยว ทั้งในด้านการอนุรักษ์ธรรมชาติและการสะท้อนวัฒนธรรมในพื้นที่นั้น ๆ โดยหลักการออกแบบจะต้องมีการพิจารณาหลายด้าน เช่น การใช้วัสดุที่เหมาะสม การเข้ากับภูมิประเทศ การรักษาสมดุลระหว่างการพัฒนาและการอนุรักษ์ และการสร้างประสบการณ์ที่เป็นเอกลักษณ์ให้กับนักท่องเที่ยว

2.1 การอนุรักษ์และความยั่งยืน การออกแบบสถาปัตยกรรมภูมิทัศน์ในแหล่งท่องเที่ยวต้องมีการอนุรักษ์ทรัพยากรธรรมชาติและไม่กระทบต่อระบบนิเวศของพื้นที่ เช่น การเลือกใช้วัสดุจากธรรมชาติที่สามารถย่อยสลายได้ การใช้พลังงานหมุนเวียน และการจัดการน้ำฝนเพื่อป้องกันการกัดเซาะของดิน นอกจากนี้ การออกแบบต้องคำนึงถึงการป้องกันผลกระทบต่อสิ่งแวดล้อมจากการท่องเที่ยวที่อาจจะมีผลทำให้เกิดการทำลายได้ เช่น การใช้การวางแผนเส้นทางเดินท่องเที่ยวที่ไม่กระทบกับระบบนิเวศ

2.2 การสะท้อนวัฒนธรรมท้องถิ่น หลักการออกแบบสถาปัตยกรรมภูมิทัศน์ในแหล่งท่องเที่ยวทางวัฒนธรรมควรสะท้อนเอกลักษณ์ของพื้นที่และวัฒนธรรมท้องถิ่น เช่น การใช้สัญลักษณ์หรือการตกแต่งที่มีความเกี่ยวข้องกับประเพณีหรือประวัติศาสตร์ของพื้นที่นั้น ๆ รวมถึงการออกแบบที่เปิดโอกาสให้ผู้เข้าชมได้เรียนรู้เกี่ยวกับวัฒนธรรมท้องถิ่นผ่านการจัดแสดงหรือกิจกรรมต่าง ๆ ซึ่งจะช่วยสร้างความเชื่อมโยงระหว่างธรรมชาติและวัฒนธรรม



2.3 การปรับตัวเข้ากับภูมิประเทศ การออกแบบต้องพิจารณาถึงภูมิประเทศและภูมิอากาศของพื้นที่ เช่น การใช้วัสดุที่เหมาะสมกับสภาพอากาศ การวางแผนการจัดการพื้นที่อย่างมีประสิทธิภาพ และการสร้างความรู้สึกเป็นส่วนหนึ่งของธรรมชาติ รวมถึงการเลือกวิธีการออกแบบที่ไม่ทำให้พื้นที่ดูเบียดเบียนหรือขัดแย้งกับสิ่งแวดล้อม

2.4 การส่งเสริมประสบการณ์ของนักท่องเที่ยว การออกแบบสถาปัตยกรรมภูมิทัศน์ในแหล่งท่องเที่ยวต้องคำนึงถึงประสบการณ์ของนักท่องเที่ยว เช่น การสร้างจุดชมวิวที่สวยงาม, การจัดเตรียมพื้นที่สำหรับการพักผ่อนหรือกิจกรรมต่าง ๆ เพื่อให้การท่องเที่ยวเป็นประสบการณ์ที่น่าจดจำ นอกจากนี้ยังต้อง

จัดให้มีสาธารณูปโภคที่เหมาะสม เช่น ทางเดิน ที่จอดรถ ห้องน้ำ และการสร้างความสะดวกสบายในการเดินทาง

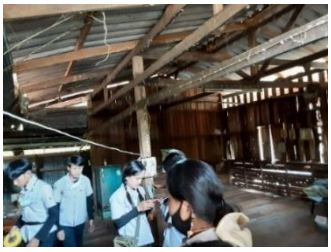
2.5 การมีส่วนร่วมของชุมชนท้องถิ่น การออกแบบสถาปัตยกรรมภูมิทัศน์ในแหล่งท่องเที่ยวควรมีการมีส่วนร่วมจากชุมชนท้องถิ่นในการออกแบบและการพัฒนา เช่น การใช้แรงงานท้องถิ่นในการสร้างและการฝึกอบรมทักษะที่จำเป็นสำหรับการบริการนักท่องเที่ยว ซึ่งจะช่วยเสริมสร้างเศรษฐกิจท้องถิ่นและทำให้การท่องเที่ยวมีความยั่งยืนมากยิ่งขึ้น

กรอบแนวคิด

ภาพที่ 1 กรอบแนวคิด

การวิจัยครั้งนี้เป็นการวิจัยเชิงคุณภาพ (Qualitative Research) และการวิจัยเชิงออกแบบ (Design-based Research) โดยมีวัตถุประสงค์เพื่อศึกษาอัตลักษณ์ของชุมชนและนำมาสู่การออกแบบและปรับปรุงภูมิทัศน์แหล่งท่องเที่ยวทางธรรมชาติและวัฒนธรรมของชุมชนเกาะใหญ่ อำเภอกระแสสินธุ์ จังหวัดสงขลา โดยแบ่งขั้นตอนการดำเนินงานออกเป็น 3 ขั้นตอน ดังนี้

1. ขั้นศึกษาและเก็บข้อมูล ได้แก่ การเก็บรวมรวมข้อมูลด้านเอกสาร และการเก็บข้อมูลภาคสนามเพื่อใช้ในการออกแบบ



1.1 การศึกษาข้อมูลด้านเอกสาร เป็นการรวบรวมเอกสารต่าง ๆ ที่เกี่ยวข้องกับการวิจัย ซึ่งเป็นข้อมูลทุติยภูมิ ได้แก่ เอกสารงานวิจัย บทความ หนังสือ แอพพลิเคชั่น (Application) เช่น google maps / google Earth เพื่อนำมาสรุปเป็นความรู้ที่เกี่ยวกับการออกแบบปรับภูมิทัศน์เส้นทางท่องเที่ยวเชิงธรรมชาติและวัฒนธรรมชุมชนเกาะใหญ่ อำเภอกระแสสินธุ์ จังหวัดสงขลา

1.2 การเก็บข้อมูลด้วยการตั้งกระทู้ แบบ Online ผู้วิจัยเก็บข้อมูลอัตลักษณ์ของชุมชนในภาพรวมในแอพพลิเคชั่น Facebook โดยตั้งกระทู้ใน Facebook ของผู้วิจัยว่า “ถ้าพูดถึงอัตลักษณ์ของชุมชนเกาะใหญ่ท่านจะนึกถึงสิ่งใดเป็นอันดับแรก” โดยมิได้กำหนดกลุ่มผู้ตอบกระทู้ รวมถึงการสัมภาษณ์

คนในชุมชนประกอบด้วย เช่น แม่ค้าในตลาด ผู้บริหารและเจ้าหน้าที่ในองค์การบริหารส่วนตำบล เจ้าของเรือนพื้นที่ กลุ่มแม่บ้าน เป็นต้น

1.3 การเก็บข้อมูลภาคสนาม ผู้วิจัยแบ่งข้อมูลดังนี้

1) ด้านอัตลักษณ์ทางสถาปัตยกรรม ผู้วิจัยศึกษา เก็บข้อมูลลักษณะของเรือนพื้นถิ่นที่มีอายุตั้งแต่ 60 ปีขึ้นไป ด้านองค์ประกอบ สัดส่วน วัสดุ กรรมวิธีในการก่อสร้าง รวมถึงรูปแบบและองค์ประกอบด้านพื้นที่ใช้สอย เพื่อถอดอัตลักษณ์ทางสถาปัตยกรรมชุมชน และนำมาใช้เป็นแนวทางการออกแบบปรับปรุงภูมิทัศน์แหล่งท่องเที่ยวชุมชนฯ ด้วยวิธีการสัมภาษณ์แบบสัมภาษณ์กึ่งโครงสร้าง (Semi-structured Interview) เจ้าของเรือน ปราชญ์ชุมชน และผู้นำชุมชน จดบันทึก บันทึกภาพ สเก็ตช์ภาพรวมถึงรังวัดขนาดเรือนพื้นถิ่น

ภาพที่ 2 แสดงการลงพื้นที่เก็บข้อมูลด้านอัตลักษณ์ชุมชน จากมรดกทางวัฒนธรรมเรือนพื้นถิ่น

2) ศึกษาศักยภาพและภูมิทัศน์แหล่งท่องเที่ยว ผู้วิจัยเก็บข้อมูลด้วยวิธีการสัมภาษณ์นักท่องเที่ยว ผู้ดูแล หรือเจ้าของแหล่งท่องเที่ยว รวมถึงผู้ที่มีส่วนเกี่ยวข้อง โดยสัมภาษณ์ในประเด็นเกี่ยวกับความต้องการด้านพื้นที่ใช้สอยและสิ่งอำนวยความสะดวก ร่วมถึงปัญหาด้านการใช้พื้นที่เพื่อเป็นข้อมูลสำหรับการออกแบบ อัตลักษณ์ที่ต้องการให้สื่อสารผ่านการออกแบบและเสนอแนะในส่วนต่าง ๆ ต่อไป บันทึกภาพ สเก็ตช์ภาพ รังวัดแหล่งท่องเที่ยว โดยมีประเด็นคำถามสำหรับผู้รับบริการดังนี้ 1. ด้านการเข้าถึงแหล่งท่องเที่ยว 2. ด้านสิ่งอำนวยความสะดวก และการจัดพื้นที่ (Zoning) 3. ด้านการบริหารจัดการแหล่งท่องเที่ยว 4. ด้านการประชาสัมพันธ์ในการเป็นแหล่งท่องเที่ยว 5. ด้านคุณค่าของการเป็นแหล่งท่องเที่ยว

2. ขั้นการวิเคราะห์ข้อมูลเชิงลึก และออกแบบปรับปรุงภูมิทัศน์แหล่งท่องเที่ยว

2.1 วิเคราะห์ข้อมูลศักยภาพและภูมิทัศน์แหล่งท่องเที่ยวตามทฤษฎีการออกแบบเพื่อเสนอแนวทางในการออกแบบ

2.2 ออกแบบและนำเสนอแนวคิดแบบร่างภูมิทัศน์แหล่งท่องเที่ยวต่อชุมชนและผู้เกี่ยวข้องด้วยแบบ 2 มิติ และ 3 มิติ รวมถึงหุ่นจำลอง

2.3 ปรับปรุงและพัฒนาแบบตามข้อเสนอแนะ

3. ขั้นการดำเนินการผลิตแบบ 2 มิติ และ 3 มิติ และจัดทำแผนที่เส้นทางท่องเที่ยวที่เหมาะสมสำหรับนักท่องเที่ยว เพื่อสะดวกในการเที่ยวชมเส้นทางท่องเที่ยวชุมชนเกาะใหญ่

ผลการวิจัย

จากการศึกษาพบว่า แหล่งท่องเที่ยวที่อยู่ภายใต้การดูแลของหน่วยงานของรัฐและชุมชน ได้แก่ สถานีพัฒนาและส่งเสริมการอนุรักษ์สัตว์ป่าทะเลสาบ และแหล่งท่องเที่ยวทางวัฒนธรรมของชุมชน ประกอบด้วย วัดสูงเกาะใหญ่ แหล่งเรียนรู้การแปรรูปผลิตภัณฑ์จากต้นสาคู บ่อน้ำศักดิ์สิทธิ์ และวิถีประมงวัดแหลมบ่อท่อ แหล่งเรียนรู้บ้านตีมีด แหล่งเรียนรู้สวนเกษตรผสมผสาน บ้านแหลมยาง “โคกหนอง นา” วิถีประมง และจุดชมปลาโลมา บ้านแหลมหาด จากการสำรวจศักยภาพแหล่งท่องเที่ยวของชุมชนข้างต้น พบว่า บางแหล่งท่องเที่ยวมีการปรับปรุงภูมิทัศน์โดยชุมชน หรือหน่วยงานที่เกี่ยวข้องไปบ้างแล้ว แต่ยังไม่ครอบคลุมสำหรับการให้บริการนักท่องเที่ยว เช่น บริเวณบ่อน้ำศักดิ์สิทธิ์วัดแหลมบ่อท่อ แหล่งโบราณสถานวัดสูงเกาะใหญ่ เป็นต้น ส่วนพื้นที่แหล่งท่องเที่ยวอื่น ๆ ของชุมชนยังขาดสิ่งอำนวยความสะดวกสำหรับรองรับนักท่องเที่ยว หรือคณะที่จะเข้ามาศึกษาเรียนรู้ในแหล่งนั้น ๆ อาทิเช่น พื้นที่เรียนรู้ ห้องน้ำ จุดถ่ายรูป ซุ้มขายของ ป้ายต่าง ๆ จุดพักผ่อน รวมถึงการตกแต่งภูมิทัศน์ให้เหมาะสมและมีความเฉพาะในแต่ละแหล่ง รายละเอียดดังนี้

1. อัตลักษณ์ของชุมชน

การศึกษาอัตลักษณ์ชุมชนเกาะใหญ่ ผู้วิจัยแบ่งการศึกษาเป็น 2 ด้าน ได้แก่ ด้านอัตลักษณ์ในภาพรวมของชุมชน และอัตลักษณ์ทางสถาปัตยกรรม

1.1 อัตลักษณ์ในภาพรวมของชุมชน

ผู้วิจัย พบว่า อัตลักษณ์ด้านการท่องเที่ยวของชุมชนเกาะใหญ่ มีดังนี้ อันดับที่ 1 แกรนแคนยอนเกาะใหญ่ อันดับที่ 2 กุ้งและอาหารทะเล อันดับที่ 3 บ่อน้ำศักดิ์สิทธ์วัดแหลมบ่อท่อ อันดับที่ 4 วัดสูงเกาะใหญ่ และอันดับที่ 5 แหลมควายราบ กล่าวโดยสรุป อัตลักษณ์ด้านการท่องเที่ยวในภาพรวมของชุมชน แบ่งเป็น 2 ด้าน ได้แก่

1) ด้านสภาพบริบททางธรรมชาติ ได้แก่

(1) แกรนแคนยอน ซึ่งเป็นแหล่งท่องเที่ยวที่มีลักษณะเป็นหน้าผาหินที่ทับซ้อนกัน มีแอ่งน้ำที่เกิดจากการขุดบ่อดินเก่า โดยพื้นที่ดังกล่าวเป็นแหล่งท่องเที่ยวสำคัญของพื้นที่เกาะใหญ่ ซึ่งดูแลโดยภาคเอกชน

(2) กุ้งและอาหารทะเล ชุมชนเกาะใหญ่เป็นพื้นที่ที่มีทะเลสาบล้อมรอบจึงเป็นพื้นที่ที่มีความอุดมสมบูรณ์ด้านอาหารทะเลโดยเฉพาะกุ้ง เนื่องจากพื้นที่นี้เป็นแหล่งเพาะพันธ์กุ้งแม่น้ำตามธรรมชาติที่ยังคงความอุดมสมบูรณ์แหล่งหนึ่งในพื้นที่ลุ่มน้ำทะเลสาบสงขลา ซึ่งกุ้งแม่น้ำของพื้นที่เกาะใหญ่ได้ชื่อว่ามีคุณภาพ สดจากธรรมชาติ ตัวใหญ่ เนื้อแน่น และอร่อย จนกลายเป็นอัตลักษณ์อย่างหนึ่งของชุมชนเกาะใหญ่

(3) แหลมควายราบเป็นแหล่งท่องเที่ยวทางธรรมชาติแห่งหนึ่ง ซึ่งอยู่ในเขตพื้นที่ของสถานีพัฒนาและส่งเสริมการอนุรักษ์สัตว์ป่าทะเลสาบ หน่วยพิทักษ์สัตว์ป่าแหลมควายราบ ตั้งอยู่ที่ริมทะเลสาบสงขลาบริเวณรอบ ๆ ที่ทำการมีนกน้ำอาศัยอยู่จำนวนมากสามารถมองเห็นได้ง่าย โดยไม่ต้องนั่งเรือออกไปชม ซึ่งในช่วงเช้าและช่วงเย็นของทุกวันจะมีนกออกหากินมากเป็นพิเศษ

2) ด้านพื้นที่แห่งความศรัทธาและความเชื่อ ได้แก่

(1) บ่อน้ำศักดิ์สิทธ์วัดแหลมบ่อท่อ เป็นบ่อน้ำผุดขึ้นเหนือพื้นดินตามธรรมชาติ มีน้ำใสและปริมาณน้ำในบ่อมาก ที่ตั้งอยู่ในหมู่บ้านอยู่ทางทิศเหนือของวัดแหลมบ่อท่อ ติดกับทะเลสาบสงขลา พื้นที่บริเวณนี้เป็นจุดหนึ่งที่มีนักท่องเที่ยวเดินทางมาเยี่ยมชมเป็นจำนวนมาก การเข้าถึงมาได้ทั้งทางบก

และทางน้ำ เนื่องจากเป็นพื้นที่แห่งความศรัทธาและมีธรรมชาติความสวยงาม

(2) วัดสูงเกาะใหญ่ เป็นสถานที่ที่สำคัญที่บ่งบอกถึงความเจริญรุ่งเรืองของพุทธศาสนาในอดีตกาลที่สร้างในสมัยอยุธยา มีโบราณสถานที่แสดงถึงความเจริญรุ่งเรืองของชุมชนชาวพุทธในแถบนี้ที่หลงเหลืออยู่ ซึ่งพบได้ยากมากแล้วใน 5 จังหวัดชายแดนภาคใต้ วัดสูงเกาะใหญ่เป็นสถานที่สำคัญทางประวัติศาสตร์และโบราณคดีอีกแห่งหนึ่ง บริเวณที่ตั้งอยู่บนเนินเขาสูงเคยเป็นปราสาทหิน และเป็นศิลปกรรมที่เชื่อว่าที่นี้เป็นเทวสถาน และต่อมาได้ถูกดัดแปลงให้เป็นในพระพุทธศาสนา

1.2 ด้านอัตลักษณ์ด้านสถาปัตยกรรม

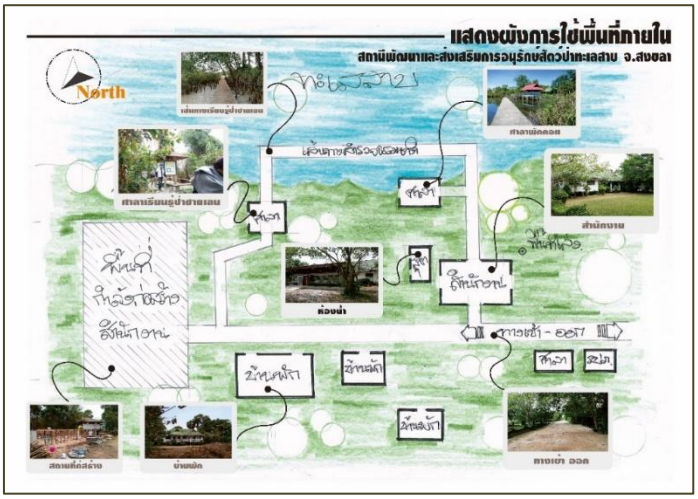
ด้านอัตลักษณ์ทางสถาปัตยกรรม ผู้วิจัยศึกษาเก็บข้อมูลจากลักษณะของเรือนพื้นถิ่นที่มีอายุตั้งแต่ 60 ปีขึ้นไป โดยเก็บแบ่งการเก็บข้อมูลดังนี้ ข้อมูลด้านวัสดุที่ใช้ในการก่อสร้างเรือน ข้อมูลด้านกรรมวิธีในการก่อสร้างเรือน ข้อมูลด้านสัดส่วนของเรือนและข้อมูลด้านองค์ประกอบของเรือน เพื่อนำมาถอดอัตลักษณ์ทางสถาปัตยกรรมพื้นถิ่นของชุมชน ผลการเก็บข้อมูลดังกล่าว สรุปได้ดังนี้

	
ด้านวัสดุที่ใช้ในการก่อสร้างเรือน วัสดุที่ใช้ในการก่อสร้างเรือนส่วนใหญ่เป็นไม้เนื้อแข็ง เช่น ไม้เคียม ไม้หลุมพอ ซึ่งหาได้ง่ายในพื้นที่ การจะมุงหลังคาจะมุงด้วยกระเบื้องดินเผาที่นำมาจากเกาะยอ หรือจากสาคูซึ่งมีอยู่มากมายในพื้นที่เกาะใหญ่	**ด้านกรรมวิธีในการก่อสร้างเรือน** ภูมิปัญญาเชิงช่างในการสร้างเรือนแบบสอดสลักเข้าเดือย และการยึดโยงโครงสร้างเรือนด้วยการผูกด้วยเชือกหรือเถาวัลย์
	
ด้านสัดส่วนของเรือน สัดส่วนและองค์ประกอบเรือนเป็นแบบยกพื้น ใต้ถุนสูง พื้นที่ส่วนใหญ่เป็นที่โล่ง	**ด้านองค์ประกอบของเรือน** เส้นสายของเรือนส่วนใหญ่เป็นแนวตั้ง ทำให้องค์ประกอบของอาคารดูโล่ง โปร่ง

ภาพที่ 3 แสดงอัตลักษณ์ชุมชน ด้านสถาปัตยกรรม

2. การศึกษาภูมิทัศน์แหล่งท่องเที่ยว

ผู้วิจัยลงพื้นที่สัมภาษณ์นักท่องเที่ยวและนักเรียนที่มาเรียนรู้ ณ แหล่งท่องเที่ยวและแหล่งเรียนรู้ในชุมชนเกาะใหญ่ ด้านความต้องการพื้นที่ใช้สอยและสิ่งอำนวยความสะดวกต่าง ๆ จำนวนไม่น้อยกว่า 15 คน สัมภาษณ์ผู้ดูแลเจ้าของสถานที่และผู้เกี่ยวข้องเกี่ยวกับความต้องการและปัญหาในการใช้พื้นที่ด้านต่าง ๆ ลงพื้นที่ รังวัด เก็บข้อมูล และวิเคราะห์การจัดพื้นที่ของแหล่งท่องเที่ยวและแหล่งเรียนรู้ตามทฤษฎีการออกแบบ โดยในบทความนี้จะนำเสนอผลการศึกษาเฉพาะแหล่งท่องเที่ยวธรรมชาติ กล่าวคือ สถานีพัฒนาและส่งเสริมการอนุรักษ์สัตว์ป่าทะเลสาบ เนื่องจากเป็นแหล่งท่องเที่ยวที่มีผู้เข้ามาท่องเที่ยวและเรียนรู้ด้านการอนุรักษ์สัตว์ป่าทะเลสาบและทรัพยากรธรรมชาติเป็นจำนวนมาก



2.1 สถานีพัฒนาและส่งเสริมการอนุรักษ์สัตว์ป่าทะเลสาบ

สถานีพัฒนาฯ ทะเลสาบ ก่อตั้งขึ้นเมื่อวันที่ 18 ธันวาคม 2541 เกิดขึ้นจากดำริขององคมนตรีและรัฐบุรุษพลเอกเปรม ติณสูลานนท์ ที่ต้องการให้มีหน่วยงานของกรมป่าไม้มาทำหน้าที่ เป็นหน่วยงานกลางในการประชาสัมพันธ์เผยแพร่ความรู้ ด้านการอนุรักษ์ทรัพยากรธรรมชาติ ป่าไม้ สัตว์ป่า และสิ่งแวดล้อม ให้กับกลุ่มเป้าหมายที่เกี่ยวข้องเพื่อให้กลุ่มเป้าหมายมีจิตสำนึกให้ความร่วมมือ ในการปกป้องทรัพยากรธรรมชาติ ป่าไม้ สัตว์ป่าและสิ่งแวดล้อมเพื่อให้เกิดประโยชน์ทางเศรษฐกิจและสิ่งแวดล้อมสูงสุด โดยสถานีพัฒนาฯ ทะเลสาบ ได้ขอใช้พื้นที่บางส่วนของเขตห้ามล่าสัตว์ป่าทะเลสาบสงขลาบริเวณอ่าวบัว อ่าวบ้านไร่ หมู่ที่ 3 ตำบลเกาะใหญ่ อำเภอกระแสสินธุ์ จังหวัดสงขลา

พื้นที่ทั้งหมดของสถานีพัฒนาฯ ทะเลสาบ รวม 10,000 ไร่ ที่ใช้ทำกิจกรรมต่าง ๆ ประมาณ 80 ไร่ ซึ่งบริเวณนี้จะน้ำท่วมเกือบทั้งปี หน้าร้อนก็จะแห้งแล้งมาก สามารถทำกิจกรรมได้ในช่วงเดือนพฤษภาคม - สิงหาคม เท่านั้น

ทรัพยากรป่าไม้ แบ่งออกเป็นชนิดป่าต่าง ๆ ดังนี้ 1) ป่าบกมักเป็นป่าดิบชื้น มีพันธุ์ไม้ที่พบ ได้แก่ ต้นยางนา ต้นยางแดง ต้นอินทนิลน้ำ ต้นยาง ต้นขี้เสียน ฯลฯ 2) ป่าชายหาด พันธุ์ไม้ที่พบ ได้แก่ ต้นตะแบก ต้นอินทนิลน้ำ ต้นเมา ต้นหว้า ต้นชรี ต้นหูกวาง ฯลฯ 3) ป่าชายเลนน้ำกร่อย พันธุ์ไม้ที่พบ ได้แก่ ต้นโกงกางใบเล็ก ต้นประสักแดง ต้นตาตุ่ม ต้นลำพู ต้นฝาดดอกขาว ต้นปรงทะเล ต้นจาก ฯลฯ 4) ป่าพรุน้ำจืด พันธุ์ไม้ที่พบ ได้แก่ ต้นเสม็ด ต้นหว้า ฯลฯ 5) ป่าเขาหินปูน พันธุ์ไม้ที่พบ ได้แก่ ต้นไทรชนิดต่าง ๆ ต้นโพธิ์ ต้นสลัดได ต้นจันแดง ฯลฯ 6) ทุ่งหญ้าริมน้ำ ประกอบไปด้วย จูดหนู หญ้าข้อ หญ้าชนิดต่าง ๆ และไม้พุ่มขนาดเล็ก ฯลฯ 7) พืชน้ำ พบเป็นกลุ่ม ๆ กระจายอยู่ทั่วไปในทะเลสาบสงขลา ได้แก่ ต้นกระจูด ต้นจาด ต้นกระจูดหนู ต้นกก ต้นลาโพ สาหร่ายชนิดต่าง ๆ บัวสายชนิดต่าง ๆ ฯลฯ

สัตว์พื้นถิ่น ทรัพยากรสัตว์ป่า แบ่งออกเป็นประเภทต่าง ๆ ดังนี้ 1) สัตว์เลี้ยงลูกด้วยนม ได้แก่ นาก ลิงแสม ปลาโลมาหัวบาตร หนูชนิดต่าง ๆ ฯลฯ 2) สัตว์เลื้อยคลาน ได้แก่ เหี้ย ตะกวด งูชนิดต่าง ๆ เต่า ฯลฯ 3) สัตว์ปีก ได้แก่ นกชนิดต่าง ๆ เช่น อีโก้ง อีล้ำ เป็ดแดง นกยาง เป็ดคับแค เป็นต้น 4) สัตว์ครึ่งบกครึ่งน้ำ ได้แก่ กบ เขียด คางคก ฯลฯ

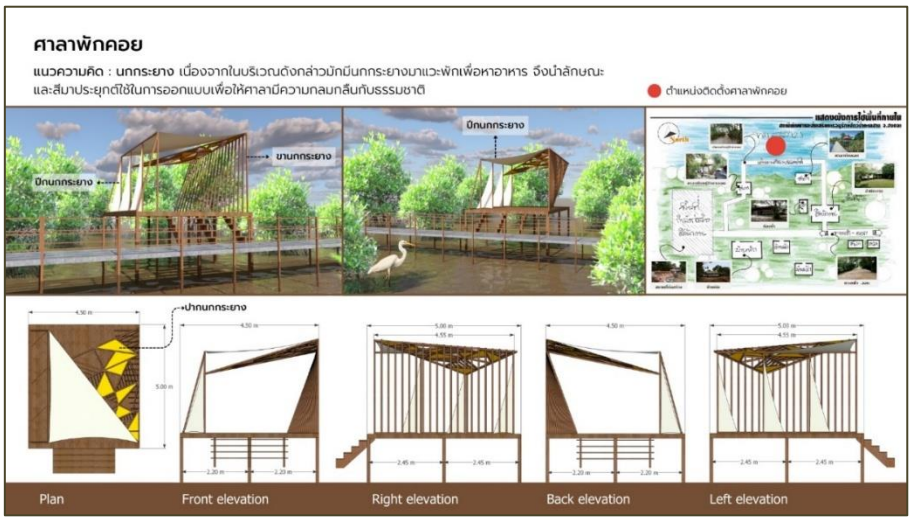
ตารางที่ 1 แสดงการวิเคราะห์ศักยภาพด้านการท่องเที่ยวสถานีพัฒนาและส่งเสริมการอนุรักษ์สัตว์ป่าทะเลสาบ

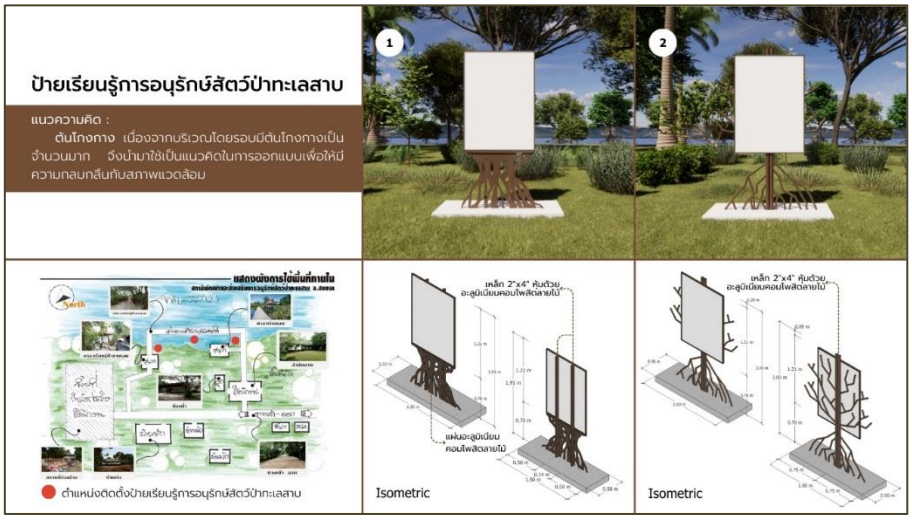
ประเด็นในการวิเคราะห์	**แหล่งเรียนรู้และท่องเที่ยวทางธรรมชาติ**
	สถานีพัฒนาและส่งเสริมการอนุรักษ์สัตว์ป่าทะเลสาบ
1. การเข้าถึงแหล่งท่องเที่ยว	
1.1 ความสะดวกในการเดินทาง เช่น มีรถประจำทาง	การเดินทางไปแหล่งท่องเที่ยว “สถานีพัฒนาและส่งเสริมการอนุรักษ์สัตว์ป่าทะเลสาบ” ไม่มีรถประจำทางให้บริการ สามารถเดินทางด้วยรถส่วนตัวเท่านั้น แหล่งท่องเที่ยวอยู่ติดถนนเส้นรอง สามารถเดินทางได้สะดวก
1.2 ป้ายบอกทางเข้าชุมชน	มีป้ายบอกทางจากถนนเส้นหลักไปยังเส้นรอง เป็นระยะ ๆ
1.3 สภาพเส้นทาง	ถนนเส้นหลัก และถนนเส้นรองมีความกว้าง 2 ช่องทาง พื้นผิวถนนสะดวกต่อการเดินทาง กว้างประมาณ 5 เมตร
2. ด้านสิ่งอำนวยความสะดวก และการจัดพื้นที่ (Zoning)	
2.1 สถานที่จอดรถ	ขนาดของพื้นที่ในการจอดรถไม่เพียงพอต่อความต้องการของนักท่องเที่ยวที่เดินทางมายังพื้นที่ในช่วงวันหยุดหรือช่วงเข้าค่าย การจอดรถในพื้นที่จะเยอะและติดขัด อาจจะส่งผลกระทบการทำกิจกรรมเข้าค่ายของนักเรียนได้
2.2 จุดบริการข้อมูล และประชาสัมพันธ์	มีจุดบริการนักท่องเที่ยวที่อยู่บริเวณสำนักงานหน้าโครงการ

ตารางที่ 1 (ต่อ)



ประเด็นในการวิเคราะห์	แหล่งเรียนรู้และท่องเที่ยวทางธรรมชาติ สถานีพัฒนาและส่งเสริมการอนุรักษ์สัตว์ป่าทะเลสาบ
2.3 จุดพักผ่อน	มีจุดพักผ่อนที่สามารถให้นักท่องเที่ยวถ่ายรูปเช็คอินหลายจุดด้วยกัน
2.4 พื้นที่กิจกรรม	มีการแบ่งพื้นที่ออกจากพื้นที่ของส่วนอาคารอื่นๆออกไปอย่างชัดเจน กิจกรรมในโครงการส่วนใหญ่เป็นกิจกรรมการเข้าค่ายอาสาปลูกป่า เรียนรู้พืชพันธุ์ สัตว์ป่าต่าง ๆ ตามจุดต่าง ๆ
2.5 ห้องพัก	พื้นที่ห้องพักจะอยู่โซนในสุด ปัจจุบันกำลังก่อสร้างใหม่ จะได้รับบรรยากาศทะเลสาบอย่างใกล้ชิด และธรรมชาติที่สวยงาม
2.6 ห้องสุขา	ห้องสุขามีในสำนักงานและบ้านพัก บริเวณรอบ ๆ จะไม่มี ทำให้สุขาไม่เพียงพอต่อนักท่องเที่ยว
3. การบริหารจัดการแหล่งท่องเที่ยว	
3.1 การกำหนดประเภทความรู้	ความรู้ส่วนใหญ่เป็นความรู้เกี่ยวกับพืชพันธุ์นานาชนิดและสัตว์ป่ามากมาย
3.2 การกำจัดขยะ และน้ำเสีย	ถังขยะมีเพียงจุดเดียว (ไม่เพียงพอเนื่องจากเป็นพื้นที่ของสถานีพัฒนาและส่งเสริมการอนุรักษ์สัตว์ป่าทะเลสาบมีขนาดใหญ่)
3.3 การกำหนดกิจกรรมที่สามารถดึงดูดนักท่องเที่ยว	กิจกรรมในโครงการส่วนใหญ่เป็นกิจกรรมเข้าค่าย อาสา ปลูกป่า นานาชนิด กิจกรรมที่โดดเด่น “กิจกรรมค่ายรักพงไพร” และเส้นทางศึกษาธรรมชาติ
3.4 ด้านความปลอดภัย	
- ความปลอดภัยในชีวิตและทรัพย์สินและการเยี่ยมชม	มีการกำหนดจุดเข้า-ออกของนักท่องเที่ยวเพียงจุดเดียว ซึ่งง่ายต่อความปลอดภัยของนักท่องเที่ยว
- ความปลอดภัยด้านสุขอนามัย	บรรยากาศ ณ แหล่งท่องเที่ยว สะอาด ไม่มีสิ่งสกปรกหรือขยะเกลื่อนกลาด และมีที่พักเป็นบ้านยกพื้นสูง ทำให้ปลอดภัยจากสัตว์มีพิษต่างๆ

3. การออกแบบปรับปรุงภูมิทัศน์ของแหล่งท่องเที่ยวชุมชน



จากการศึกษาศักยภาพและการจัดภูมิทัศน์ของสถานีพัฒนาและส่งเสริมการอนุรักษ์สัตว์ป่าทะเลสาบ พบว่า แหล่งท่องเที่ยวดังกล่าว เป็นพื้นที่สำหรับเรียนรู้เพื่อการอนุรักษ์ทรัพยากรธรรมชาติ ปรับปรุงภูมิทัศน์แนวความคิดในการออกแบบให้สอดคล้องกับอัตลักษณ์เชิงพื้นที่ กล่าวคือ การนำภูมิปัญญาเชิงช่างและวัสดุท้องถิ่นมาเป็นส่วนหนึ่งในการออกแบบ เพื่อให้เกิดความกลมกลืนกับบริบททางธรรมชาติในพื้นที่ของแหล่งท่องเที่ยว เช่น การใช้ไม้ไผ่เป็นส่วนประดับตกแต่งสถานที่ ซึ่งเป็นภูมิปัญญาเชิงช่างในท้องถิ่นอย่างหนึ่ง

ภาพที่ 6 แสดงผลการออกแบบป้ายโครงการ

ภาพที่ 7 แสดงผลการออกแบบจุดพักคอย

ภาพที่ 8 แสดงผลการออกแบบป้ายเรียนรู้

สรุปและอภิปรายผล

สรุปผล

ผลการวิจัยออกแบบปรับปรุงภูมิทัศน์แหล่งเรียนรู้ แหล่งท่องเที่ยว ทางธรรมชาติและวัฒนธรรมชุมชนเกาะใหญ่ อำเภอกระแสสินธุ์ จังหวัดสงขลา เพื่อส่งเสริมการท่องเที่ยว สรุปได้ดังนี้

1. อัตลักษณ์ชุมชนเกาะใหญ่ ผู้วิจัยแบ่งการศึกษาเป็น 2 ด้าน ได้แก่

1.1 ด้านอัตลักษณ์ในภาพรวมของชุมชน เป็นเรื่องของความอุดมสมบูรณ์ของทรัพยากรธรรมชาติ อาหารทะเล โบราณสถานศูนย์ร่วมของความเชื่อและความศรัทธา รวมถึงวิถีประมงพื้นบ้าน

1.2 ด้านอัตลักษณ์ทางสถาปัตยกรรม ผู้วิจัยศึกษา เก็บข้อมูลลักษณะของเรือนพื้นถิ่นที่มีอายุตั้งแต่ 60 ปีขึ้นไป พบอัตลักษณ์ทางสถาปัตยกรรมของชุมชน ดังนี้ ด้านการใช้วัสดุส่วนใหญ่เป็นไม้ที่หาได้ง่ายในพื้นที่ ด้านภูมิปัญญาเชิงช่างมีการสร้างเรือนด้วยวิธีการสอดสลักเข้าเดือย สัดส่วนและองค์ประกอบเรือนเป็นแบบยกพื้น ใต้ถุนสูง การใช้พื้นที่ส่วนใหญ่เป็นที่โล่งและแบ่งพื้นที่ใช้สอยด้วยการยกระดับ การกำหนดเส้นสายที่ใช้ในการออกแบบของเรือนส่วนใหญ่เป็นแนวตั้งสลับกับแนวนอนทำให้องค์ประกอบดูลงตัว โล่ง โปร่ง ซึ่งสะท้อนให้เห็นถึงวิถีชีวิตแบบบริบทโดยของคนในชุมชนเกาะใหญ่

2. ศักยภาพและภูมิทัศน์แหล่งท่องเที่ยว จากการศึกษา วิเคราะห์สถานีพัฒนาและส่งเสริมการอนุรักษ์สัตว์ป่าทะเลสาบ สรุปได้ดังนี้

2.1 ด้านการเข้าถึงแหล่ง การเข้าถึงยังไม่สะดวกเท่าที่ควรเนื่องจากไม่มีรถประจำทางให้บริการรับส่งถึงแหล่ง ต้องเดินทางด้วยรถส่วนตัวเท่านั้น ส่วนสภาพถนนหน้าโครงการมีความกว้าง 5.00 เมตร ผิวทางอยู่ในสภาพดีและมีป้ายบอกทางเพียง 1จุด จากทางเข้าหลักซึ่งไม่เพียงพอ

2.2 ด้านสิ่งอำนวยความสะดวกและการจัดกลุ่มพื้นที่ใช้สอย (Zoning) จำนวนห้องสุขาไม่เพียงพอและพื้นที่จอดรถไม่มีตำแหน่งที่ชัดเจนปัจจุบัน ผู้ที่มาติดต่อหรือเรียนรู้จอดรถบริเวณใต้ต้นไม้ภายในโครงการการจัดกลุ่มพื้นที่ใช้สอย (Zoning) ส่วนห้องพักกระจายอยู่ 2 พื้นที่ ซึ่งอยู่ในตำแหน่งที่ห่างกัน ส่วนพื้นที่ทำกิจกรรมตั้งอยู่ด้านในสุดของโครงการและแยกจากส่วนอื่น ๆ อย่างชัดเจน เพื่อมิให้ส่งเสียงรบกวนห้องพัก

2.3 การบริหารจัดการแหล่งท่องเที่ยว ด้านการจัดการความรู้เป็นการให้ความรู้เกี่ยวกับสัตว์ป่าและพันธุ์พืช แต่ป้ายสื่อการเรียนรู้มีน้อยและอยู่ในสภาพที่ผุพังรวมถึงป้ายโครงการ และศาลาพักระหว่างเส้นทางศึกษาธรรมชาติมีความทรุดโทรม

2.4 ด้านความปลอดภัย มีพนักงานรักษาความปลอกภัยดูแลบริเวณทางเข้า-ออก โดยรอบโครงการ

3 ออกแบบปรับปรุงภูมิทัศน์ของแหล่งท่องเที่ยวชุมชน ให้สอดคล้องกับอัตลักษณ์วัฒนธรรมของชุมชน โดยใช้ภูมิปัญญาเชิงช่างท้องถิ่นและใช้วัสดุที่มีภายในท้องถิ่น โดยเน้นให้กลมกลืนกับด้านบริบททางธรรมชาติของพื้นที่ของแหล่งท่องเที่ยวในแต่ละแหล่งตามหลักการออกแบบ โดยการออกแบบปรับปรุงภูมิทัศน์สถานีพัฒนาและส่งเสริมการอนุรักษ์สัตว์ป่าทะเลสาบ ผู้วิจัยเสนอผลการออกแบบ 3 ชิ้นงาน ได้แก่ ป้ายโครงการศาลาพักคอยและป้ายเรียนรู้ 2 รูปแบบ

อภิปรายผล

จากการเก็บข้อมูลภาคสนาม พบว่า ชุมชนเกาะใหญ่มีอัตลักษณ์ที่โดดเด่น ทั้งด้านวัฒนธรรม วิถีชีวิตชาวประมงพื้นบ้าน การประกอบพิธีกรรมทางศาสนา และองค์ประกอบทางภูมิทัศน์ธรรมชาติ เช่น ป่าชายเลนและแหล่งน้ำกร่อย ซึ่งอัตลักษณ์เหล่านี้สามารถนำมาเป็นแนวคิดหลักในการออกแบบภูมิทัศน์ เช่น การออกแบบทางเดินศึกษาเส้นทางธรรมชาติ การจัดวางจุดชมวิวริมทะเลหรือศาลาพักแบบพื้นถิ่น ผลการวิเคราะห์นี้ สอดคล้องกับงานวิจัยของ พิมพกานต์ ปัจจันตวิวัฒน์ และ บุญอนันต์ นทกุล (2564) ซึ่งชี้ให้เห็นว่าอัตลักษณ์ชุมชนสามารถกลายเป็นองค์ประกอบสำคัญในการพัฒนาภูมิทัศน์ทางวัฒนธรรมและสร้างคุณค่าทางจิตใจให้กับผู้ใช้พื้นที่ โดยเฉพาะนักท่องเที่ยวที่ต้องการประสบการณ์แบบดั้งเดิมและแตกต่างจากแหล่งท่องเที่ยวทั่วไป

ข้อเสนอแนะ

1. ควรมีการศึกษาถึงปัจจัยที่มีอิทธิพลต่อพฤติกรรมการท่องเที่ยวของนักท่องเที่ยว ให้ครอบคุลมมากขึ้น ซึ่งจะทำให้ได้ข้อมูลเกี่ยวกับการท่องเที่ยวของแต่ละบุคคลที่ชัดเจนกว่านี้ จะทำให้ทราบว่าปัจจัยใดที่จะทำให้นักท่องเที่ยวตัดสินใจเดินทางมาท่องเที่ยวภายในชุมชน เพื่อปรับปรุงและวางแผนให้สอดคล้องกับความต้องการของนักท่องเที่ยวให้มากขึ้น และขยายผลไปปรับใช้กับชุมชนอื่น ๆ ได้

2. ควรจะมีการศึกษาถึงแนวทางการมีส่วนร่วมของชุมชนต่อแหล่งท่องเที่ยวต่าง ๆ ภายในชุมชน

3. พฤติกรรมและความคิดเห็นสามารถเปลี่ยนแปลงได้ตลอดเวลา เนื่องจากสิ่งกระตุ้น สภาพแวดล้อม และปัจจัยต่าง ๆ ที่มีผลกระทบต่อลักษณะส่วนบุคคล ดังนั้นควรทำการศึกษาอย่างต่อเนื่อง เพื่อใช้เป็นข้อมูลสำหรับภาครัฐและภาคเอกชนในการปรับปรุงคุณภาพในด้านต่าง ๆ ให้ตรงกับความต้องการและสร้างความพึงพอใจให้กลุ่มเป้าหมาย

บทคัดย่อ

บทความวิชาการนี้นำเสนอกลยุทธ์ส่วนบุคคลและระดับองค์กรในการเพิ่มพูนพลังกายและพลังใจเพื่อป้องกันภาวะหมดไฟในการทำงาน (Burnout) ซึ่งเป็นภาวะของความเครียดสะสมที่ส่งผลต่อสุขภาพกายและใจ การเพิ่มพูนพลังกายและพลังใจแบ่งออกเป็น 2 ระดับ ได้แก่ กลยุทธ์ระดับบุคคลและกลยุทธ์ระดับองค์กร โดยกลยุทธ์ระดับบุคคล ได้แก่ การออกกำลังกาย การรับประทานอาหารที่มีประโยชน์ การพักผ่อนให้เพียงพอ และการตั้งเป้าหมายที่สามารถทำได้จริง เพื่อเสริมสร้างสุขภาพกายและใจให้แข็งแรง พร้อมรับมือกับความเครียดในการทำงาน ส่วนกลยุทธ์ระดับองค์กรควรส่งเสริมสภาพแวดล้อมที่สนับสนุนสุขภาพจิต เช่น การจัดกิจกรรมผ่อนคลาย การสนับสนุนวันหยุดพักผ่อน และการปรับชั่วโมงการทำงานให้ยืดหยุ่น เพื่อช่วยให้พนักงานสามารถรักษาสมดุลระหว่างการทำงานและการใช้ชีวิตส่วนตัวได้อย่างเหมาะสม การประเมินภาวะหมดไฟสามารถทำได้ด้วยตนเองผ่านแบบประเมิน MBI-GS (Maslach Burnout Inventory - General Survey) ซึ่งประกอบด้วย 3 ด้าน ได้แก่ ความอ่อนล้าทางอารมณ์ ความรู้สึกเมินเฉยต่องาน และการรับรู้ถึงความสามารถในการทำงานของตนเอง ผลการประเมินจะช่วยให้สามารถวิเคราะห์ระดับของภาวะหมดไฟและกำหนดแนวทางในการแก้ไขได้อย่างตรงจุด การผสมผสานกลยุทธ์ทั้งในระดับบุคคลและระดับองค์กรจะช่วยลดความเครียด เพิ่มแรงจูงใจ และส่งเสริมประสิทธิภาพในการทำงานในระยะยาว ซึ่งเป็นแนวทางสำคัญในการป้องกันภาวะหมดไฟได้อย่างยั่งยืน

คำสำคัญ: ภาวะหมดไฟในการทำงาน, พลังกายและพลังใจ, กลยุทธ์ระดับบุคคล, กลยุทธ์ระดับองค์กร, MBI-GS

Abstract

This academic article is a conceptual paper that presents strategies to prevent burnout caused by accumulated stress, focusing on enhancing physical and mental well-being. The strategies are divided into individual and organizational levels. Individual strategies include exercise, healthy eating, rest, and setting achievable goals to manage stress. Organizational strategies promote a supportive environment through relaxation activities, vacation time, and flexible work hours. Burnout can be assessed using the Maslach Burnout Inventory – General Survey (MBI-GS). Integrating both individual and organizational strategies helps reduce stress, increase motivation, and improve long-term work performance.

Keywords: Burnout, Physical and Mental Empowerment, Individual Strategies, Organizational Strategies, MBI-GS

บทนำ

ภาวะหมดไฟในการทำงาน (Burnout) เกิดจากความเครียดสะสม แรงกดดันจากงาน และบรรยากาศการทำงานที่ไม่เอื้อต่อสุขภาพจิต ส่งผลให้พนักงานเหนื่อยล้า ขาดแรงจูงใจ และมีทัศนคติเชิงลบต่อหน้าที่ ผลสำรวจจาก Future Forum พบว่า 42% ของพนักงานใน 6 ประเทศหลักมีภาวะหมดไฟ โดยผู้หญิงมีแนวโน้มมากกว่าผู้ชาย (46% เทียบกับ 37%) ขณะที่ในประเทศไทย ปาลีรัตน์ รังรักษ์รัตนากร, ชัชวาล เกียรติวุฒิ, และณัฐวดี พฤกษากร (2566) พบว่า 71.2% ของบุคลากรในห้องปฏิบัติการเทคนิคการแพทย์มีภาวะหมดไฟ ส่วน Gallup ปี 2024 ระบุว่า 41% ของพนักงานทั่วโลกรู้สึกเครียดและ 20% รู้สึกโดดเดี่ยว โดยเฉพาะในกลุ่มทำงานทางไกล การสำรวจของ McKinsey Health Institute พบว่า 57% ของพนักงานทั่วโลกมีสุขภาพองค์รวมที่ไม่ดี แนวโน้มนี้ชัดเจนขึ้นหลัง COVID-19 ซึ่งเพิ่มความโดดเดี่ยว ความไม่แน่นอน และลดการสนับสนุนทางสังคม ในประเทศไทย งานวิจัยโดย กาญจนา สุดธนกิจ (2566) พบว่า ครูในภาคใต้มีภาวะหมดไฟสูงถึง 68.2% ส่วน พิมพ์ชนก ศิริพรหม (2565) พบว่า พยาบาลในโรงพยาบาลเอกชนในกรุงเทพฯ มีภาวะหมดไฟจากการทำงานล่วงเวลาและขาดสมดุลชีวิต ขณะที่ ธนกฤต จันทร์สุวรรณ (2566) พบว่า 74% ของพนักงานในบริษัท Tech Startup ไทยมีความเครียดสะสมและ Burnout หลังโควิด-19 ข้อมูลเหล่านี้สะท้อนปัญหาที่ขยายตัว หากไม่จัดการอาจนำไปสู่ภาวะซึมเศร้าและปัญหาสุขภาพจิตเรื้อรังในระยะยาว

จากการทบทวนวรรณกรรมพบว่า ภาวะหมดไฟในการทำงานหลังการแพร่ระบาดของ COVID-19 มีแนวโน้มเปลี่ยนแปลง โดยไม่เพียงแค่ภาระงานที่มากเกินไป แต่ยังรวมถึงปัจจัยใหม่ ๆ เช่น ความไม่แน่นอนทางเศรษฐกิจ การขาดปฏิสัมพันธ์จากการทำงานทางไกล และการขาดการสนับสนุนทางอารมณ์ รายงานจาก American Psychological Association (2023) พบว่า 31% ของพนักงานรู้สึกเหนื่อยล้าทางอารมณ์ 26% ขาดแรงจูงใจ และ 23% ต้องการลาออก ซึ่งสะท้อนถึงผลกระทบของภาวะหมดไฟหลังการระบาดใหญ่ ภาวะหมดไฟเกิดจากความเครียดเรื้อรัง ส่งผลให้บุคคลรู้สึกเหนื่อยล้า หมดแรงจูงใจ และ

ประสิทธิภาพการทำงานลดลง โดยมีอาการหลักคือ 1) ความเหนื่อยล้าทางอารมณ์ 2) การลดความเป็นบุคคล และ 3) การลดความสำเร็จส่วนบุคคล งานวิจัยจาก McKinsey Health Institute (2022) พบว่า 25% ของพนักงานมีอาการหมดไฟ โดยผู้หญิงมีอัตราสูงกว่าผู้ชาย ข้อมูลจาก WHO ระบุว่า หากไม่ได้รับการดูแล ภาวะหมดไฟอาจนำไปสู่โรคทางร่างกายและจิตใจที่ร้ายแรง เช่น ซึมเศร้า โรคหัวใจ และเบาหวาน ดังนั้นผู้นำและผู้บริหารควรสังเกตพฤติกรรมและสภาพจิตใจของพนักงาน เพื่อให้ความช่วยเหลือได้ทันท่วงที และส่งเสริมสุขภาพที่ดีในการทำงาน ซึ่งหากมีกลยุทธ์ที่ดีในการเพิ่มพลังกายและพลังใจจะช่วยให้พนักงานและองค์กรเติบโตได้อย่างยั่งยืน

บทความนี้มีวัตถุประสงค์เพื่อเสนอกลยุทธ์ส่วนบุคคลและองค์กรในการเพิ่มพูนพลังกายและพลังใจเพื่อป้องกันภาวะหมดไฟในการทำงาน ซึ่งถือว่าเป็นแนวทางสำคัญในการป้องกันปัญหาดังกล่าวอย่างเป็นระบบ โดยกลยุทธ์เหล่านี้สามารถดำเนินการได้ทั้งในระดับบุคคล ผ่านการดูแลสุขภาพกายและใจของพนักงานเอง และในระดับองค์กร ผ่านการออกแบบสภาพแวดล้อมและนโยบายที่ส่งเสริมสุขภาวะจิตของบุคลากร กลยุทธ์ทั้งสองจึงเป็นเครื่องมือสำคัญในการสร้างความเข้มแข็งทางจิตใจและร่างกายให้กับพนักงาน เพื่อให้สามารถเผชิญกับการทำงานในยุคที่เต็มไปด้วยความไม่แน่นอน การเปลี่ยนแปลงอย่างรวดเร็ว และการแข่งขันที่ทวีความเข้มข้นได้อย่างมีประสิทธิภาพ

ความหมายภาวะหมดไฟในการทำงาน

ภาวะหมดไฟในการทำงาน (Burnout) เป็นภาวะที่บุคคลเกิดความอ่อนล้าทางอารมณ์ จิตใจ และร่างกายจากความเครียดสะสมในการทำงานเป็นเวลานาน มักเกิดขึ้นเมื่อบุคคลรู้สึกว่าตนเองไม่สามารถจัดการภาระงานได้ทั้งหมด ทำให้เกิดความเครียดเรื้อรัง ขาดแรงจูงใจ และลดความสนใจในหน้าที่ ส่งผลให้เกิดอาการท้อแท้ หมดกำลังใจ และพฤติกรรมเชิงลบ เช่น การเมินเฉย แยกตัว และหลีกเลี่ยงปฏิสัมพันธ์กับผู้อื่น นอกจากนี้ ผู้ที่เผชิญกับภาวะหมดไฟมักประเมินตนเองในแง่ลบ รู้สึกไร้ความสามารถ ขาดความสำเร็จ และมองสภาพแวดล้อมการทำงานเป็นอุปสรรคจนไม่สามารถปรับตัวได้อย่างเหมาะสม (วรัญญา วชิโรดม, 2562) และ Freudenberger (1980) ให้คำจำกัดความของภาวะหมดไฟว่าเป็นภาวะที่บุคคลใช้พลังงานทางร่างกายและจิตใจอย่างหนักเพื่อบรรลุเป้าหมาย แต่กลับไม่ประสบความสำเร็จ ส่งผลให้หมดกำลังใจ อ่อนล้า และท้อถอย ขณะที่ Potter (1997) กล่าวว่าภาวะหมดไฟเกิดจากแรงจูงใจลดลง บุคคลรู้สึกว่าสิ่งที่ทำซับซ้อนขึ้นเรื่อย ๆ โดยมีสัญญาณเตือน ได้แก่ ความคับข้องใจ อารมณ์แปรปรวน การถอนตัวจากสังคม ประสิทธิภาพลดลง และปัญหาสุขภาพจากความเครียดเรื้อรัง Royal Thai Air Force Medical Gazette (2020) ระบุว่าภาวะหมดไฟเกิดจากความเครียดสะสม ทำให้พนักงานเหนื่อยล้าทางอารมณ์ ขาดความกระตือรือร้น และมีพฤติกรรมเชิงลบ เช่น แยกตัวจากเพื่อนร่วมงาน ขาดความคิดสร้างสรรค์ และมองตนเองในแง่ลบ รวมถึงปัญหาสุขภาพ เช่น นอนไม่หลับ ความดันโลหิตสูง และปัญหาทางเดินอาหาร องค์การอนามัยโลก (WHO) จัดให้ภาวะหมดไฟเป็นหนึ่งในปัญหาสุขภาพจิตที่ต้องได้รับการดูแล โดยระบุว่าเป็น “กลุ่มอาการจากความเครียดเรื้อรังในที่ทำงาน” ซึ่งหากไม่ได้รับการแก้ไข อาจนำไปสู่ภาวะซึมเศร้า ความวิตกกังวล และปัญหาสุขภาพ เช่น ภูมิคุ้มกันลดลง โรคหัวใจ และปัญหาทางเดินอาหาร

สรุปภาวะหมดไฟ (Burnout) เป็นภาวะที่เกิดจากความเครียดสะสมจากภาระงานที่หนักและซับซ้อน ขาดการยอมรับ และขาดอำนาจในการตัดสินใจ ส่งผลให้บุคคลรู้สึกหดหู่และขาดความสุขในการทำงาน ปัจจัยเหล่านี้ทำให้พนักงานหมดกำลังใจและขาดแรงจูงใจในการทำงาน

สาเหตุของภาวะหมดไฟในการทำงาน

ภาวะหมดไฟในการทำงาน (Burnout) เป็นภาวะที่เกิดจากการเผชิญกับแรงกดดันในการทำงานสะสมต่อเนื่องเป็นระยะเวลานาน ทั้งจากลักษณะงานที่มีความรับผิดชอบสูง บรรยากาศการทำงานที่ตึงเครียด รวมถึงการมีปฏิสัมพันธ์กับบุคคลอื่นในลักษณะที่ไม่ส่งเสริมความมั่นคงทางจิตใจ โดยเฉพาะในช่วงหลังการแพร่ระบาดของโควิด-19 ที่การทำงานแบบ Hybrid และ Remote กลายเป็นรูปแบบใหม่ ซึ่งแม้จะเพิ่มความยืดหยุ่นแต่กลับส่งผลให้พนักงานรู้สึกโดดเดี่ยวและขาดการมีส่วนร่วม (McKinsey Health Institute, 2023; Harvard Business Review, 2023) จากรายงานของ Gallup (2023) พบว่า 76% ของพนักงานทั่วโลกเคยประสบกับภาวะหมดไฟ และกว่า 28% เผชิญกับภาวะนี้เป็นประจำจากการศึกษาของลัญฉน์ศักดิ์ อรรฆยากร. (2566ข) ระบุว่า สาเหตุของภาวะหมดไฟสามารถจำแนกออกเป็น 3 กลุ่มอาการหลัก ได้แก่ หนึ่ง ความเหนื่อยล้าทางอารมณ์ (Emotional Exhaustion) พนักงานรู้สึกสูญเสียพลังงาน เหนื่อยล้า และหมดแรงเนื่องจากไม่ได้รับเวลาหรือโอกาสในการฟื้นฟูร่างกายและจิตใจอย่างเพียงพอ สอง ความรู้สึกแปลกแยก (Depersonalization) เกิดความห่างเหิน เฉยชา และไม่ผูกพันกับเพื่อนร่วมงาน หัวหน้า หรือบุคคลอื่นในที่ทำงานขาดการสนับสนุนและ สาม ความนับถือตนเองต่ำ (Low Self-Esteem) พนักงานรู้สึกไร้ค่า ไม่มีความสามารถในการรับมือกับปัญหาการทำงาน รู้สึกล้มเหลวและขาดแรงจูงใจในการทำงาน

สรุปภาวะหมดไฟในการทำงานไม่ได้เกิดจากความเหนื่อยล้าทางร่างกายเพียงอย่างเดียว แต่เป็นผลจากแรงกดดันทางจิตใจในสภาพแวดล้อมที่ไม่เอื้อต่อการเติบโตและการยอมรับ อาการแบ่งได้เป็น 3 กลุ่มหลัก ได้แก่ ความเหนื่อยล้าทางอารมณ์ การรู้สึกแปลกแยก และความนับถือตนเองต่ำ ผู้เขียนมองว่า “งานหนัก” ไม่ใช่ต้นเหตุหลัก แต่เกิดจากความไม่สมดุลระหว่างการให้และการได้รับในที่ทำงาน โดยเฉพาะเมื่อขาดการยอมรับ ความปลอดภัยทางใจ และโอกาสพัฒนา ในยุคดิจิทัลแม้เพิ่มความยืดหยุ่นแต่ก็ลดการมีส่วนร่วมทางสังคมของมนุษย์ ทำให้พนักงานรู้สึกโดดเดี่ยว ผู้เขียนเสนอว่าองค์กรควรให้ความสำคัญกับสุขภาวะทางจิตใจเท่ากับประสิทธิภาพการทำงาน และสร้างวัฒนธรรมที่เห็นคุณค่าของคนเพื่อป้องกันปัญหานี้ในระยะยาว

การประเมินภาวะหมดไฟในการทำงานด้วยตนเอง

วิธีตรวจสอบตนเองเบื้องต้นสามารถทำได้โดยใช้แบบประเมิน Maslach Burnout Inventory-General Survey (MBI-GS) ซึ่งพัฒนาโดย Maslach et al. (1981) และปรับปรุงโดย วัลลภ วิชาญเจริญสุข และ สุนทร ศุภพงษ์ (ม.ป.ป.) เพื่อเพิ่มความแม่นยำในการประเมิน โดยแบบประเมินนี้แบ่งออกเป็น 3 ส่วน ได้แก่ ความอ่อนล้าทางอารมณ์ (Emotional Exhaustion) การเมินเฉยต่องาน (Cynicism) และความสามารถในการทำงาน (Professional Efficacy) การให้คะแนนใช้ Likert Scale ซึ่งมี 7 ระดับ ตั้งแต่ไม่เคยรู้สึกเช่นนั้นเลย (1 คะแนน) จนถึง รู้สึกเช่นนี้ทุกวัน (7 คะแนน) ข้อคำถามในแต่ละด้านแบ่งออกดังนี้ ความอ่อนล้าทางอารมณ์ ข้อ 1-6 การเมินเฉยต่องาน ข้อ 7-13 และความสามารถในการทำงาน ข้อ 14-22 สำหรับด้านความสามารถในการทำงาน (Professional Efficacy) การให้คะแนนจะกลับด้านกล่าวคือ ไม่เคยรู้สึกเช่นนั้นเลย (7 คะแนน) และรู้สึกเช่นนี้ทุกวัน (1 คะแนน)

ตารางที่ 1 แสดงแบบประเมินภาวะหมดไฟในการทำงาน

ข้อ	รายการคำถาม	ไม่เคยรู้สึกเช่นนั้นเลย	ปีละ 1 ครั้ง	เดือนละ 1 ครั้ง	เดือนละ 2-3 ครั้ง	สัปดาห์ละ 1 ครั้ง	สัปดาห์ละ 2-3 ครั้ง	ทุก ๆ วัน
1	ฉันรู้สึกห่อเหี่ยวจิตใจกับงานที่ทำอยู่							
2	ฉันรู้สึกหมดหวังเมื่อถึงเวลาเลิกงาน							
3	ฉันรู้สึกอ่อนเพลียตอนตื่นนอนและตอนเข้าทำงาน							
4	ฉันสามารถเข้าใจความรู้สึกนึกคิดของผู้อื่นได้โดยง่าย							
5	ฉันปฏิบัติต่อผู้ร่วมงาน/ผู้รับบริการราวกับเขาไม่มีชีวิต							
6	การทำงานบริการผู้อื่นทั้งวันทำให้รู้สึกเครียด							
7	ฉันรู้สึกว่าตนเองสามารถแก้ไขปัญหาต่าง ๆ ให้ผู้อื่นได้อย่างมีประสิทธิภาพ							
8	ฉันรู้สึกเหนื่อยหน่ายกับงานทีทำอยู่							
9	ฉันรู้สึกว่าได้ทำให้เกิดการเปลี่ยนแปลงที่ดีขึ้นในชีวิตของผู้ร่วมงาน/ผู้รับบริการจากการทำงานของฉัน							
10	ฉันกลายเป็นคนแข็งกระด้างตั้งแต่เริ่มทำงานนี้							
11	ฉันกังวลใจว่างานที่ทำอยู่ทำให้ฉันกลายเป็นคนเจ้าอารมณ์							
12	ฉันรู้สึกเต็มเปี่ยมไปด้วยพละกำลัง							
13	ฉันรู้สึกคับข้องใจเวลาทำงาน							
14	ฉันรู้สึกว่าทำงานในหน้าที่ที่หนักเกินไป							
15	ฉันรู้สึกไม่อยากใส่ใจต่อพฤติกรรมของผู้ร่วมงานบางคน							
16	การทำงานเกี่ยวข้องกับคนอื่นโดยตรงทำให้ฉันรู้สึกเครียดมากเกินไป							
17	ฉันสามารถสร้างบรรยากาศที่เป็นกันเองกับผู้ร่วมงาน/ผู้รับบริการได้ไม่ยาก							
18	ฉันรู้สึกเป็นสุขภายหลังจากให้บริการแก่ผู้ร่วมงาน/ผู้รับบริการอย่างใกล้ชิด							
19	ฉันรู้สึกว่าได้สร้างสิ่งที่มีคุณค่ามากให้กับงานที่ฉันทำอยู่							
20	ฉันรู้สึกหมดความอดทนกับงานที่ทำอยู่							
21	ในการทำงานฉันสามารถเผชิญปัญหาทางอารมณ์ได้อย่างสงบนิ่ง							
22	ฉันรู้สึกว่าที่ผู้ร่วมงาน/ผู้รับบริการตำหนิฉันนั้นเป็นปัญหาของเขา							

ตารางที่ 2 แสดงการแปลค่าคะแนนแบบประเมินภาวะหมดไฟในการทำงาน

องค์ประกอบ	ระดับภาวะหมดไฟ		
	ต่ำ	ปานกลาง	สูง
ด้านความอ่อนล้าทางอารมณ์ (emotional exhaustion)	≤ 10	10.01-15.99	≥ 16
ด้านการเมินเฉยต่องาน (cynicism)	≤ 5	5.01-10.99	≥ 11
ด้านความสามารถในการทำงาน (professional efficacy)	≥ 30	24.01-29	≤ 24

ที่มา : Maslach et al. (1981) และปรับปรุงโดย วัลลภ วิชาญเจริญสุข และ สุนทร ศุภพงษ์

จากระยะต่าง ๆ จะเห็นว่าภาวะหมดไฟเริ่มก่อตัวตั้งแต่ระยะรู้สึกตัว (The Awakening) และชัดเจนขึ้นในระยะไฟตก (Brownout) และระยะหมดไฟเต็มที่ (Full Scale of Burnout) หากปล่อยให้ดำเนินต่อเนื่อง อาจนำไปสู่ความเครียดรุนแรงและเพิ่มความเสี่ยงต่อโรคซึมเศร้า โดยข้อมูลจาก World Health Organization (WHO, 2022) ระบุว่าประมาณ 60% ของพนักงานทั่วโลกมีแนวโน้มประสบกับภาวะหมดไฟในช่วงใดช่วงหนึ่งของชีวิตการทำงาน และรายงานของ American Psychological Association (APA, 2021) พบว่าความเครียดจากการทำงานเป็นหนึ่งในปัจจัยเสี่ยงสำคัญที่นำไปสู่โรคซึมเศร้าและปัญหาสุขภาพจิตในระยะยาว หากผลการประเมิน พบว่า บุคคลมีความอ่อนล้าทางอารมณ์และการเมินเฉยต่องานในระดับสูง ขณะเดียวกันคะแนนความสามารถในการทำงานต่ำ แสดงว่ากำลังอยู่ในภาวะหมดไฟอย่างเต็มที่ ซึ่งอาการนี้ไม่ได้เกิดขึ้นเฉียบพลัน แต่ค่อย ๆ ก่อตัวขึ้นเป็นระยะโดย (Miller, Smith, & Rothstein, 1993) แบ่งออกเป็น 5 ระยะดังนี้

1. ระยะฮันนีมูน (The Honeymoon) ช่วงเริ่มงานที่บุคคลยังมีแรงจูงใจสูง รู้สึกตื่นเต้น กระตือรือร้น เสียสละเพื่อองค์กร และพยายามปรับตัวให้เข้ากับสภาพแวดล้อมการทำงาน

2. ระยะรู้สึกตัว (The Awakening) เริ่มตระหนักว่างานไม่เป็นไปตามที่คาดหวัง ทั้งด้านค่าตอบแทนและการยอมรับ เกิดความขัดแย้งภายใน นำไปสู่ความขับข้องใจและความเหนื่อยล้า

3. ระยะไฟตก (Brownout) อาการเหนื่อยล้าเรื้อรังเด่นชัดขึ้น หงุดหงิดง่าย พฤติกรรมเปลี่ยนไปเพื่อหลีกหนีความเครียด เช่น ใช้จ่ายฟุ่มเฟือย ดื่มสุรา หรือมีกิจกรรมอื่นเพื่อเบี่ยงเบนความรู้สึก ความสามารถในการทำงานลดลง แยกตัวจากเพื่อนร่วมงาน และวิพากษ์วิจารณ์องค์กรมากขึ้น

4. ระยะหมดไฟเต็มที่ (Full Scale of Burnout) หากไม่ได้รับการแก้ไข บุคคลจะรู้สึกสิ้นหวัง สูญเสียความมั่นใจ มีความคิดด้านลบเกี่ยวกับงานและชีวิตส่วนตัว ส่งผลต่อสุขภาพจิตอย่างรุนแรง

5. ระยะฟื้นตัว (The Phoenix Phenomenon) หากได้รับโอกาสพักผ่อนและปรับตัว จะสามารถปรับความคาดหวังให้สอดคล้องกับความเป็นจริง ฟื้นฟูแรงบันดาลใจ และกลับมามีเป้าหมายในการทำงานได้

สรุป การประเมินภาวะหมดไฟในการทำงานสามารถใช้แบบประเมิน Maslach Burnout Inventory–General Survey (MBI-GS) ซึ่งวัดระดับความอ่อนล้าทางอารมณ์ การเมินเฉยต่องาน และความสามารถในการทำงาน โดยหากผลการประเมินพบว่าระดับความอ่อนล้าและการเมินเฉยต่องานอยู่ในระดับสูง ขณะที่ความสามารถในการทำงานอยู่ในระดับต่ำ แสดงถึงภาวะหมดไฟเต็มที่ ที่ค่อย ๆ ก่อตัวขึ้นตามแนวคิดของ Miller & Smith (1993) ผู้เขียนเห็นว่าการเฝ้าระวังสัญญาณตั้งแต่ต้นมีความสำคัญ การเริ่มเข้าระยะรู้สึกตัวควรเสริมพลังกายใจ เช่น การพักผ่อน สร้างสมดุลชีวิต และได้รับการสนับสนุนจากผู้อื่น ซึ่งเป็นวิธีป้องกันภาวะหมดไฟในระยะยาวได้อย่างมีประสิทธิภาพ โดยสามารถเริ่มจากเรื่องง่าย ๆ ที่สามารถเพิ่มได้ด้วยตนเอง เช่น พักและทบทวนตัวเอง จัดลำดับความสำคัญใหม่ พักผ่อนให้เพียงพอ

เชื่อมโยงกับคนรอบข้าง ดูแลร่างกาย และทำกิจกรรมที่เติมพลังใจ เพื่อช่วยให้กลับมามีแรงและสมดุลในการทำงานอีกครั้ง

กลยุทธ์เพิ่มพูนพลังกายและพลังใจ

พลังกายและพลัง

ปัจจัยสำคัญที่ส่งผลต่อประสิทธิภาพและความสุขในการทำงาน ได้แก่ พลังกายและพลังใจ ซึ่งช่วยป้องกันภาวะหมดไฟและเพิ่มความสามารถในการปรับตัวต่อแรงกดดัน (ลัญฉน์ศักดิ์ อรรฆยากร, 2566ก; MedPark Hospital, 2023a) พลังกาย หมายถึง ความแข็งแรงและความพร้อมของร่างกายเสริมได้ด้วยการออกกำลังกาย การรับประทานอาหารที่มีประโยชน์ และการพักผ่อนอย่างเพียงพอ รวมถึงการจัดสรรเวลาทำงานและพักผ่อนอย่างสมดุล (The Standard, 2023) โดยพบว่า ผู้ที่ออกกำลังกายอย่างน้อย 3 ครั้งต่อสัปดาห์ มีอัตราความเครียดต่ำกว่าและตอบสนองต่อแรงกดดันได้ดีขึ้น (Psychology Today, 2020) การนอนหลับเพียงพอ 7-9 ชั่วโมงต่อคืน ยังช่วยเพิ่มประสิทธิภาพการตัดสินใจ ลดความเครียดและภาวะซึมเศร้า (National Sleep Foundation, 2023) ส่วนพลังใจ หมายถึง ความมั่นคงทางอารมณ์ แรงจูงใจ และทัศนคติเชิงบวก การมีทัศนคติเชิงบวกเพิ่มโอกาสประสบความสำเร็จในอาชีพมากขึ้นถึง 30% (Gallup, 2022) การตั้งเป้าหมายที่ชัดเจนและติดตามความคืบหน้าช่วยเพิ่มโอกาสสำเร็จได้ 42% (Harvard Business Review, 2021) นอกจากนี้ เทคนิคการจัดการอารมณ์ เช่น การทำสมาธิหรือการหายใจลึก ๆ ยังช่วยลดความวิตกกังวลและเพิ่มความสามารถในการรับมือกับความเครียดได้ (American Psychological Association, 2019)

เพิ่มพูนพลังกาย/พลังใจ

การเสริมสร้างพลังกาย/พลังใจเป็นสิ่งสำคัญในการป้องกันภาวะหมดไฟในการทำงาน พลังกาย หมายถึง ความแข็งแรงของร่างกาย ส่วนพลังใจ หมายถึง ความมั่นคงทางอารมณ์และแรงจูงใจ (วิชชากร ตรีสุคนธ์, 2021) การเริ่มวันใหม่ด้วยการออกกำลังกายเบา ๆ หรือทำสมาธิสั้น ๆ ช่วยลดความเครียดและเพิ่มสมาธิ (IMPGROUP.NET, 2023) การออกกำลังกายสัปดาห์ละ 3 ครั้ง ลดความเสี่ยงหมดไฟได้ถึง 40% (โรงพยาบาลมนารมย์, 2021) การตั้งเป้าหมายที่ชัดเจนทำให้โอกาสสำเร็จสูงขึ้นถึง 42% (Harvard Business Review, 2021) ความสัมพันธ์ที่ดีในที่ทำงานช่วยลดความเครียดและเพิ่มความสุข (MedPark Hospital, 2023b) นอกจากนี้ การฝึกสมาธิช่วยลดความวิตกกังวลได้ถึง 60% (American Journal of Psychiatry, 2020) การดูแลสุขภาพกายและใจอย่างสมดุลจึงช่วยเพิ่มประสิทธิภาพการทำงานและลดความเสี่ยงหมดไฟได้อย่างมีประสิทธิภาพในระยะยาว (วิชชากร ตรีสุคนธ์, 2021)

สรุป การเพิ่มพูนพลังกาย/พลังใจ เป็นปัจจัยสำคัญที่ส่งผลต่อประสิทธิภาพและความสุขในการทำงาน พลังกาย คือ ความพร้อมของร่างกายจากการพักผ่อน ออกกำลังกาย และการกินอาหารที่ดี ส่วนพลังใจ คือ แรงจูงใจและความมั่นคงทางอารมณ์ที่พัฒนาได้ผ่านทัศนคติเชิงบวก การตั้งเป้าหมาย และการจัดการอารมณ์ ผู้เขียนเปรียบพลังกายเป็นเครื่องยนต์และพลังใจเป็นเชื้อเพลิงที่ต้องดูแลควบคู่กัน เพราะเมื่อทั้งสองทำงานร่วมกันอย่างสมดุล จะช่วยให้รับมือกับความเครียดได้ดี ทำงานอย่างยั่งยืน และมีคุณภาพชีวิตที่ดีทั้งในระยะสั้นและระยะยาว

กลยุทธ์เพิ่มพูนพลังกาย/พลังใจเพื่อรับมือกับภาวะหมดไฟในการทำงาน

การสร้างพลังกาย/พลังใจเพื่อป้องกันภาวะหมดไฟในการทำงาน ประกอบด้วย 2 ส่วน ได้แก่ (1) กลยุทธ์ที่พนักงานสามารถสร้างได้ด้วยตนเองในระดับบุคคล และ (2) กลยุทธ์ที่องค์กรสามารถพัฒนา

สภาพแวดล้อมที่เอื้อต่อการเสริมสร้างพลังกาย/พลังใจของพนักงานได้ ทั้งนี้ การดูแลพนักงานให้ห่างไกลจากภาวะหมดไฟในการทำงานเป็นเรื่องสำคัญ บทความนี้จึงขออธิบายเนื้อหาโดยแบ่งเป็นหัวข้อดังต่อไปนี้

1. กลยุทธ์ส่วนบุคคลที่พนักงานสามารถสร้างได้เอง

กลยุทธ์เพิ่มพูนพลังกาย

การพัฒนาสุขภาพร่างกายและความแข็งแรง เป็นสิ่งสำคัญในการสร้างพลังกายและความสามารถของคนทำงาน กลยุทธ์การสร้างพลังกายที่สามารถนำมาใช้เพื่อสร้างพลังและความสามารถในการทำงานมีดังนี้:

การออกกำลังกาย หนึ่งในกลยุทธ์สำคัญที่พนักงานสามารถสร้างได้ด้วยตนเองเพื่อเสริมสร้างพลังกาย คือ การพัฒนาสุขภาพร่างกายให้แข็งแรง ซึ่งเป็นพื้นฐานสำคัญที่เอื้อต่อการมีพลังงาน ความกระตือรือร้น และความสามารถในการปฏิบัติงานอย่างมีประสิทธิภาพ ทั้งยังช่วยลดความเสี่ยงของภาวะหมดไฟในการทำงานได้อย่างเป็นรูปธรรม โดยเฉพาะอย่างยิ่ง “การออกกำลังกาย” ถือเป็นกิจกรรมที่สามารถทำได้จริงในชีวิตประจำวันและมีผลต่อสุขภาพโดยตรง อย่างไรก็ตาม หลายคนมักพบอุปสรรคในการเริ่มต้นหรือรักษากิจวัตรการออกกำลังกายอย่างต่อเนื่อง ด้วยเหตุนี้จึงมีการเสนอแนวคิดในการตั้งเป้าหมายที่ชัดเจนเพื่อเสริมแรงจูงใจ โดย ชวภณ กิจหิรัญกุล และ อรกมล อินกองงาม (2566) แพทย์ผู้เชี่ยวชาญจาก DOCTORVIP ได้แนะนำการตั้งเป้าหมายโดยใช้หลัก SMART Goal Setting ซึ่งเป็นแนวทางที่ได้รับการยอมรับอย่างกว้างขวางในการส่งเสริมพฤติกรรมสุขภาพ (ชวภณ กิจหิรัญกุล และ อรกมล อินกองงาม, 2566) โดย SMART ประกอบด้วย องค์ประกอบสำคัญ 5 ประการ ได้แก่

S = Specific: ระบุวิธีการออกกำลังกาย เช่น วิ่ง ว่ายน้ำ หรือเล่นโยคะ

M = Measurable: กำหนดระยะเวลา เช่น วิ่ง 30 นาทีต่อวัน

A = Attainable: ตั้งเป้าหมายที่ทำได้จริง เช่น เริ่มเดิน 10 นาที

R = Relevant: เลือกกิจกรรมที่สอดคล้องกับเป้าหมาย เช่น คาร์ดิโอสำหรับลดน้ำหนัก

T = Timely: กำหนดระยะเวลา เช่น เดิน 30 นาที ทุกวันจันทร์ พุธ เสาร์ 3 เดือน

แนวทาง SMART ไม่เพียงใช้กับการออกกำลังกาย แต่ยังประยุกต์กับการวางแผนอาหารหรือการควบคุมน้ำหนัก การตั้งเป้าหมายระยะสั้น ที่สามารถบรรลุได้ช่วยสร้างแรงจูงใจ ลดความท้อถอย และเพิ่มความมั่นใจในการบรรลุเป้าหมายระยะยาว ซึ่งเป็นหัวใจสำคัญในการสร้างพลังกายและพลังใจเพื่อการทำงานอย่างยั่งยืน

รับประทานอาหารที่เหมาะสม เป็นปัจจัยสำคัญในการสร้างสุขภาพที่ดี กระทรวงสาธารณสุข (2563) ได้เน้นย้ำถึงแนวทางการบริโภคอาหารเพื่อสุขภาพที่ครบถ้วน โดยการบริโภคอาหารที่มีสารอาหารหลากหลายประเภท สามารถช่วยส่งเสริมสุขภาพทางกายอย่างมีประสิทธิภาพ การรับประทานอาหารที่เหมาะสมและมีความหลากหลาย จึงเป็นวิธีหนึ่งในการเสริมสร้างความแข็งแรงและป้องกันโรคต่างๆ ที่อาจเกิดขึ้นจากการขาดสารอาหารหรือการรับประทานอาหารที่ไม่เหมาะสม อาหารมีบทบาทสำคัญในการเสริมสร้างความแข็งแรงของร่างกาย โดยสามารถช่วยให้ร่างกายเจริญเติบโต ซ่อมแซมส่วนที่สึกหรอ และส่งเสริมการทำงานของอวัยวะต่างๆ ได้อย่างมีประสิทธิภาพ สารอาหารที่ได้จากอาหาร ได้แก่ โปรตีน คาร์โบไฮเดรต ลิพิด เกลือแร่ วิตามิน และน้ำ ซึ่งแต่ละสารอาหารมีความสำคัญในการทำงานต่างๆ ของร่างกาย

การพักผ่อนและฟื้นตัว มีความสำคัญในการรักษาสุขภาพและการฟื้นฟูร่างกายหลังการทำกิจกรรมต่าง ๆ โดยเฉพาะการออกกำลังกายและการเล่นกีฬา หากร่างกายไม่ได้รับการพักผ่อนอย่างเพียงพอ กระบวนการฟื้นฟูจะไม่สมบูรณ์ ส่งผลให้เกิดความอ่อนล้าและเพิ่มความเสี่ยงต่อการบาดเจ็บ (Roche, 2019) การพักผ่อนที่เพียงพอไม่เพียงแต่ช่วยให้จิตใจสดชื่น แต่ยังส่งผลดีต่อความจำและการฟื้นตัวจากอาการบาดเจ็บ การนอนหลับที่มีคุณภาพจะช่วยเสริมการฟื้นฟูและซ่อมแซมร่างกาย หากการนอนพักผ่อนไม่เพียงพอหรือมีคุณภาพไม่ดี อาจส่งผลกระทบต่อระบบประสาท ภูมิคุ้มกัน และทำให้หัวใจต้องทำงานหนักขึ้น (พีร ธรรมพีร, 2567)

สรุป กลยุทธ์เพิ่มพูนพลังกายที่พนักงานสามารถทำได้เอง ได้แก่ การออกกำลังกาย การรับประทานอาหารที่เหมาะสมและการพักผ่อนอย่างเพียงพอ ซึ่งล้วนเป็นพื้นฐานของสุขภาพที่ดี ผู้เขียนเสนอว่า การตั้งเป้าหมายแบบ SMART ช่วยให้การออกกำลังกายทำได้จริงและต่อเนื่อง เพิ่มแรงจูงใจในการดูแลสุขภาพ อาหารที่มีคุณภาพช่วยเสริมพลังงานและซ่อมแซมร่างกาย ส่วนการนอนหลับที่เพียงพอช่วยให้ร่างกายฟื้นตัวเต็มที่ ลดความเสี่ยงต่อการบาดเจ็บและภาวะเหนื่อยล้า จากกรณีศึกษาโครงการ “15 Minute Challenge” ในต่างประเทศ พบว่าการตั้งเป้าหมายแบบ SMART ในการออกกำลังกายวันละ 15 นาที ช่วยให้พนักงานกว่า 95% มีพลังงานเพิ่มขึ้น นอนหลับดีขึ้น และลดความเสี่ยงโรคเรื้อรัง ส่วนบริษัท L.L. Bean (2020) ในสหรัฐฯ ที่จัดกิจกรรมสุขภาพในเวลางาน ก็ช่วยให้พนักงานมีสุขภาพดีและมีแรงจูงใจในการดูแลตัวเองต่อเนื่อง ในมุมมองของผู้เขียน การดูแลทั้งสามด้านนี้อย่างสมดุล เป็นรากฐานของพลังกายที่นำไปสู่ความยั่งยืนในการทำงานและคุณภาพชีวิตที่ดี เพราะสุขภาพดีไม่ใช่แค่เป้าหมายปลายทาง แต่คือ เส้นทางที่ทำให้ทุกเป้าหมายในชีวิตเป็นจริงได้

กลยุทธ์เพิ่มพูนพลังใจ

พลังใจที่ดีสามารถสร้างได้ด้วยตนเอง โดยผู้ที่มีพลังใจเข้มแข็งจะมีความอดทน ควบคุมอารมณ์ได้ดี มีเป้าหมายในชีวิต และไม่ยอมแพ้ต่ออุปสรรค การสร้างพลังใจทำได้หลายวิธี เช่น การตั้งเป้าหมายชัดเจน การจัดการความเครียด การมองโลกในแง่ดี และการดูแลตนเองทั้งทางกายและจิตใจ การสร้างพลังใจทำได้หลายวิธีดังนี้

ควบคุมอารมณ์ การควบคุมอารมณ์เป็นทักษะสำคัญในการทำงานและชีวิตประจำวัน ช่วยให้เราจัดการสถานการณ์ต่าง ๆ ได้อย่างเหมาะสม โดยไม่กระทบต่อผู้อื่นหรือทั้งตัวเราเอง (The Coach, 2023) การควบคุมอารมณ์ ประกอบด้วย 4 ประเด็นหลักที่ควรพัฒนา หนึ่ง การตระหนักรู้ในตัวเอง (Self-Awareness) คือ การรู้จักและเข้าใจอารมณ์ของตนเอง เช่น เมื่อรู้สึกเครียดจากงาน เราสามารถระบุสาเหตุและปรับพฤติกรรม เช่น การขอเวลาพักหรือจัดลำดับงานใหม่ สอง การควบคุมตนเอง (Self-Regulation) คือ การระงับอารมณ์และปรับพฤติกรรมให้เหมาะสม เช่น การหายใจลึก ๆ เมื่อรู้สึกโกรธเพื่อไม่ให้การตอบสนองเกินขอบเขต สาม การเห็นอกเห็นใจผู้อื่น (Empathy) คือ การเข้าใจอารมณ์ของผู้อื่น เช่น การแสดงความห่วงใยเมื่อเห็นเพื่อนร่วมงานเครียด และสี่ การอยู่ร่วมกับผู้อื่น (Social Skills) คือ การสื่อสารและทำงานร่วมกับผู้อื่นอย่างมีประสิทธิภาพ เช่น การฟังความคิดเห็นและร่วมมือในการแก้ปัญหา การพัฒนาทักษะทั้ง 4 ช่วยให้เราควบคุมอารมณ์ได้ดีและสร้างความสัมพันธ์ที่ดีในชีวิตและการทำงาน

ความอดทนและความมุ่งมั่น ช่วยเพิ่มประสิทธิภาพในการทำงานได้จริง ความอดทนช่วยลดความเครียด ส่วนความมุ่งมั่นช่วยให้สามารถวางแผนและจัดสรรเวลาได้อย่างเหมาะสม ซากุระ พุทธหล่อง (2566) เสนอวิธีเสริมสร้างความมุ่งมั่นไว้ 4 วิธี ได้แก่ 1) การสร้างสภาพแวดล้อมที่เหมาะสมกับตนเอง

เช่น หากทำงานในที่เสียงดัง อาจใส่หูฟังเปิดเพลงเบา ๆ เพื่อเพิ่มสมาธิ หรือฝึกให้ชินกับสภาพแวดล้อมนั้น 2) ใช้พลังของความตั้งใจ มุ่งมั่นกับสิ่งที่ทำ ไม่วอกแวก เช่น ตั้งเวลาปิดมือถือขณะทำงาน 3) มีความอดทนไม่ตัดสินใจด้วยอารมณ์ เช่น หากเจองานยากไม่ควรเลิกทำกลางคัน แต่ให้พักแล้วกลับมาทำต่อ และ 4) แบ่งเป้าหมายเป็นขั้น ๆ เช่น หากต้องทำโปรเจกต์ใหญ่ ควรแบ่งเป็นงานย่อย ๆ เพื่อให้เห็นความคืบหน้าและเกิดกำลังใจในการทำงาน

กล้าหาญทำสิ่งใหม่ พลังธรรมดาที่สามารถสร้างสิ่งยิ่งใหญ่ได้ เพราะทุกการเปลี่ยนแปลงในชีวิตล้วนเริ่มจาก “ความกล้า” ไม่ว่าจะกล้าเปลี่ยนงาน กล้าเรียนต่อ หรือกล้าลงทุน แต่หลายครั้งความกลัวกลับทำให้เราพลาดโอกาสดี ๆ ไป Jack Krier (2021) เสนอ 6 วิธีในการเสริมสร้างความกล้าหาญ ได้แก่ หนึ่ง เปลี่ยนมุมมองเวลาตัดสินใจ เช่น หากลังเลเรื่องย้ายงาน ลองคิดว่าหากเป็นเพื่อนเราจะให้คำแนะนำอย่างไร วิธีนี้ช่วยให้เห็นภาพกว้างขึ้นและกล้าตัดสินใจมากขึ้น สอง ค่อย ๆ ก้าวออกจากพื้นที่ปลอดภัย เช่น หากไม่กล้าพูดในที่ประชุม อาจเริ่มจากการพูดในกลุ่มเล็กก่อนเพื่อฝึกความมั่นใจ สาม เรียนรู้จัดการความเสี่ยง เช่น หากจะเริ่มทำธุรกิจใหม่ ก็ควรมีแผนสำรองหรือเงินสำรองไว้รับมือกับสถานการณ์ไม่คาดคิด สี่ รู้จักความกลัวของตนเอง เช่น หากกลัวพูดผิดเพราะไม่มั่นใจ อาจเตรียมเนื้อหาให้ดีหรือฝึกซ้อมล่วงหน้า ห้า ยอมรับในความไม่สมบูรณ์แบบ โดยเปลี่ยนจากการคาดหวังความสมบูรณ์แบบมาเป็นการโฟกัสที่ความก้าวหน้า เช่น วันนี้ทำได้ดีกว่าเมื่อวานก็ถือว่าเป็นความสำเร็จ และหก เรียนรู้จากความล้มเหลว โดยมองว่าความล้มเหลว คือ บทเรียนที่ทำให้เราเข้าใจตัวเองมากขึ้นและปรับปรุงในครั้งต่อไปได้ดียิ่งขึ้น

สรุป การเพิ่มพูนพลังใจทำได้โดยผ่านการควบคุมอารมณ์ ความอดทน ความมุ่งมั่น และความกล้าหาญในการทำสิ่งใหม่ ซึ่งช่วยให้จัดการชีวิตได้อย่างมีประสิทธิภาพ โดยมีพื้นฐานจากการตั้งเป้าหมาย การมองโลกในแง่ดี และการดูแลตนเองทั้งกายและใจ ผู้เขียนเห็นว่าพลังใจเริ่มจากการรู้จักตนเอง ควบคุมอารมณ์ และกล้าออกจากพื้นที่ปลอดภัย เช่น กรณีศึกษาของซากุระ พุทธหล่อง (2566) ที่เสนอการเสริมความมุ่งมั่นด้วยการสร้างสภาพแวดล้อมที่เหมาะสมและการแบ่งเป้าหมายเป็นขั้น ๆ เพื่อเพิ่มแรงใจ สะท้อนว่าพลังใจสามารถฝึกได้จริง ผ่านการคิด ฝึกฝน และปรับตัวอย่างต่อเนื่องตามบริบทของแต่ละคน กล่าวโดยสรุป พลังใจไม่ใช่สิ่งที่ติดตัวมาตั้งแต่กำเนิดหรือถ่ายทอดทางพันธุกรรม หากแต่เป็นพลังที่มนุษย์สามารถบ่มเพาะได้ผ่านกระบวนการคิดอย่างมีสติ การฝึกฝนอย่างสม่ำเสมอ และการปรับตัวให้เหมาะสมกับสถานการณ์ของตนเองในแต่ละช่วงชีวิต

2. กลยุทธ์องค์กรป้องกันภาวะหมดไฟในการทำงาน

แนวทางที่ช่วยสร้างสภาพแวดล้อมที่สนับสนุนสุขภาพจิตของพนักงานและลดความเสี่ยงในการเกิดภาวะหมดไฟ องค์กรสามารถดำเนินการได้โดยการส่งเสริมวัฒนธรรมที่เป็นมิตรต่อสุขภาพจิต สนับสนุนให้พนักงานใช้วันหยุดพักร้อน จัดกิจกรรมเพื่อสุขภาพจิต เช่น การทำสมาธิหรือโยคะ รวมถึงปรับนโยบายการทำงานให้ยืดหยุ่นขึ้น กำหนดชั่วโมงการทำงานที่เหมาะสม ลดภาระงานที่มากเกินไป และฝึกอบรมผู้บริหารให้สามารถสังเกตอาการของพนักงานที่อาจต้องการความช่วยเหลือ (Maslach & Leiter, 2022) นอกจากนี้ การสร้างพื้นที่ปลอดภัยสำหรับพนักงานในการแสดงความรู้สึกเป็นสิ่งสำคัญ องค์กรควรเปิดโอกาสให้พนักงานแสดงความคิดเห็นและแสดงอารมณ์ได้อย่างเหมาะสม ซึ่งจะช่วยเพิ่มความคิดสร้างสรรค์และประสิทธิภาพการทำงาน รวมถึงส่งเสริมวัฒนธรรมที่ให้ความเข้าใจซึ่งกันและกัน (Gallup, 2021) อีกประเด็นที่องค์กรควรให้ความสำคัญ คือ การดูแลพนักงานอย่างครอบคลุม แม้ว่าสาเหตุหลักของภาวะหมดไฟมักเกิดจากงาน แต่ปัจจัยภายนอก เช่น ปัญหาทางการเงิน ความสัมพันธ์ หรือสุขภาพ ก็มี

ผลกระทบต่อสภาพจิตใจของพนักงาน องค์กรควรจัดหาทรัพยากรสนับสนุน เช่น บริการให้คำปรึกษาด้านสุขภาพจิต หรือสวัสดิการที่ช่วยลดภาระปัญหาส่วนตัวของพนักงาน (Harvard Business Review, 2023) นอกจากนี้ การดำเนินการตามความคิดเห็นของพนักงานเป็นปัจจัยสำคัญที่ช่วยเสริมสร้างความรู้สึกเป็นส่วนหนึ่งขององค์กร เช่น การให้พนักงานมีส่วนร่วมในการออกแบบสภาพแวดล้อมการทำงาน หรือเปิดโอกาสให้พนักงานเลือกวันทำงานที่ยืดหยุ่นมากขึ้น การมีส่วนร่วมของพนักงานจะช่วยเสริมสร้างความไว้วางใจระหว่างพนักงานและผู้บริหาร รวมถึงเพิ่มแรงจูงใจในการทำงาน (McKinsey & Company, 2024) การดำเนินกลยุทธ์เหล่านี้อย่างต่อเนื่องจะช่วยสร้างสภาพแวดล้อมที่ดี ส่งเสริมสุขภาพจิตของพนักงาน และลดโอกาสการเกิดภาวะหมดไฟในการทำงาน

สรุป การเครียดในการทำงานอาจหลีกเลี่ยงไม่ได้ แต่หากผู้นำในองค์กรมีความสามารถในการสร้างสภาพแวดล้อมที่สนับสนุนสุขภาพจิตของพนักงานและส่งเสริมให้พนักงานรู้สึกมีคุณค่าและมีส่วนร่วมในการทำงาน จะช่วยลดความเสี่ยงจากภาวะหมดไฟได้อย่างมีประสิทธิภาพ ตามความเห็นของผู้เขียน การสร้างสภาพแวดล้อมที่สนับสนุนสุขภาพจิต เช่น การให้พนักงานมีส่วนร่วมในการออกแบบโปรเจกต์ใหม่ ๆ หรือการจัดกิจกรรมที่กระตุ้นความคิดสร้างสรรค์ เช่น การแข่งขันออกแบบนวัตกรรมใหม่หรือการเดินทางและทำงานร่วมกันเป็นทีม ช่วยให้พนักงานรู้สึกมีคุณค่าและลดความเครียดได้อย่างมาก ผู้เขียนเสนอว่า องค์กรควรจัดกิจกรรมที่ท้าทายความคิดสร้างสรรค์ เช่น การจัดเวิร์กช็อปหรือกิจกรรมที่กระตุ้นความสามารถของพนักงาน พร้อมทั้งให้พวกเขามีสิทธิ์เลือกงานหรือโครงการที่สนใจ เพื่อเพิ่มความรู้สึกมีส่วนร่วมและแรงจูงใจในการทำงาน กรณีศึกษาของร้านอาหาร Kin ในเมือง Boise, รัฐ Idaho เป็นตัวอย่างที่ชัดเจนในการดูแลสุขภาพจิตของพนักงาน โดยการให้สวัสดิการที่ครบถ้วน ส่งเสริมการมีส่วนร่วมในการทำงาน และสร้างสภาพแวดล้อมที่ร่วมมือกัน ซึ่งช่วยลดความเสี่ยงจากภาวะหมดไฟและได้รับรางวัล James Beard Award (Komori, 2025)

สรุป

ภาวะหมดไฟในการทำงาน (Burnout) ส่งผลกระทบต่อสุขภาพกาย สุขภาพใจ การเข้าสังคม ความสัมพันธ์กับคนรอบข้าง ตลอดจนลดประสิทธิภาพในการทำงานอย่างเห็นได้ชัด การสร้างพลังกาย เช่น การออกกำลังกาย การพักผ่อนให้เพียงพอ และการรับประทานอาหารที่เหมาะสม เป็นปัจจัยสำคัญที่ช่วยเสริมสร้างความแข็งแรงให้กับร่างกาย ขณะเดียวกัน การเสริมสร้างพลังใจ อาทิ การตั้งเป้าหมาย การควบคุมอารมณ์ และการมองโลกในแง่ดี จะช่วยเพิ่มแรงจูงใจและเสริมสร้างความมั่นคงทางอารมณ์ให้กับบุคลากร องค์กรเองก็มีบทบาทสำคัญในการสนับสนุนสุขภาพจิตของพนักงาน โดยสามารถดำเนินการผ่านการจัดสรรเวลาการทำงานที่ยืดหยุ่น และการเปิดพื้นที่ปลอดภัยทางใจ เพื่อให้เกิดสมดุลระหว่างการทำงานและการใช้ชีวิตส่วนตัว เมื่อกลยุทธ์ในระดับบุคคลและระดับองค์กรสามารถดำเนินไปอย่างสอดประสานและสมดุล จะส่งผลให้พนักงานมีความพร้อมในการทำงานอย่างเต็มที่ มีความสามารถในการแก้ปัญหา และสามารถสร้างสรรค์สิ่งใหม่ ๆ ให้กับองค์กรได้อย่างมีประสิทธิภาพ ซึ่งนำไปสู่ผลผลิตที่สอดคล้องกับเป้าประสงค์ที่องค์กรคาดหวัง จากการวิเคราะห์ข้อมูลเชิงวิชาการ สามารถสรุปได้ว่าการผสานกลยุทธ์ทั้งในระดับบุคคลและองค์กรสามารถลดความเสี่ยงของภาวะหมดไฟได้อย่างมีประสิทธิภาพ ทั้งนี้ยังสอดคล้องกับแนวคิดของการพัฒนาทรัพยากรมนุษย์และการจัดการสุขภาวะของพนักงาน โดยการดูแลทั้งสุขภาพกายและจิตใจถือเป็นการลงทุนที่มีคุณค่าสำหรับการพัฒนาองค์กรให้เติบโตอย่างยั่งยืนและสามารถแข่งขันได้ในบริบทของโลกการทำงานที่เปลี่ยนแปลงอย่างรวดเร็ว ดังนั้น การป้องกันภาวะหมดไฟ

จึงไม่ใช่เพียงหน้าที่ขององค์กรเท่านั้น แต่ยังเป็นกลยุทธ์สำคัญในการส่งเสริมความสุข ความผูกพัน และความพึงพอใจในที่ทำงานอย่างยั่งยืนสำหรับทุกฝ่าย ตัวอย่างแนวทางที่สามารถนำไปประยุกต์ใช้ ได้แก่ การพัฒนาความรู้และทักษะผ่านการฝึกอบรมและส่งเสริมการจัดการความเครียดอย่างต่อเนื่อง การสร้างสภาพแวดล้อมการทำงานที่ยืดหยุ่น เปิดโอกาสให้พนักงานทำงานจากที่บ้านหรือปรับเวลาได้ตามความเหมาะสม การส่งเสริมความสัมพันธ์ในที่ทำงานผ่านกิจกรรมและการประชุมเพื่อสร้างความร่วมมือ รวมถึงการเปิดรับความคิดเห็นของพนักงานเพื่อนำไปสู่การปรับปรุงสภาพแวดล้อมการทำงาน นอกจากนี้ การประยุกต์ใช้เทคโนโลยี เช่น แอปพลิเคชันติดตามสุขภาพกายและจิตใจ ยังเป็นเครื่องมือที่มีประสิทธิภาพในการส่งเสริมสุขภาวะของพนักงานในยุคดิจิทัล ซึ่งแนวทางทั้งหมดนี้สะท้อนให้เห็นถึงคุณค่าทางวิชาการของการนำแนวคิดด้านจิตวิทยา องค์การ และการพัฒนาทรัพยากรมนุษย์มาใช้ในการจัดการปัญหาอย่างเป็นระบบและยั่งยืน

บทคัดย่อ

บทความนี้เป็นบทความวิชาการมีวัตถุประสงค์เพื่อศึกษาบทบาทของนวัตกรรมการสื่อสารในการขับเคลื่อนการพัฒนาชุมชนและสร้างความยั่งยืนทางสังคมในยุคดิจิทัล โดยมีระเบียบวิธีการวิจัยเป็นแบบการวิจัยทบทวนวรรณกรรม (Literature Review) ศึกษาจากเอกสาร หนังสือ ตำรา และงานวิจัยต่าง ๆ ที่เกี่ยวข้อง โดยวิเคราะห์แนวคิดเกี่ยวกับนวัตกรรม การสื่อสาร และชุมชน ตลอดจนการประยุกต์ใช้เทคโนโลยีการสื่อสารสมัยใหม่เพื่อพัฒนาชุมชนในมิติต่าง ๆ นวัตกรรมการสื่อสารช่วยเพิ่มประสิทธิภาพในการเชื่อมโยงผู้คน ข้อมูล และบริการต่าง ๆ เข้าด้วยกันอย่างเป็นระบบและทั่วถึงช่วยลดความเหลื่อมล้ำทางสังคม สร้างเครือข่ายความร่วมมือระหว่างภาครัฐ เอกชน และประชาชน และส่งเสริมเศรษฐกิจชุมชนผ่านแพลตฟอร์มดิจิทัล ตัวอย่างเช่น การใช้แอปพลิเคชันเตือนภัยแผ่นดินไหว การเรียนรู้ออนไลน์ และการเข้าถึงบริการสุขภาพทางไกล บทความนี้เสนอว่าการบูรณาการนวัตกรรมการสื่อสารเข้ากับการพัฒนาชุมชนสามารถสร้างความยั่งยืนและความเข้มแข็งให้กับชุมชนในทุกมิติ

คำสำคัญ : นวัตกรรมการสื่อสาร, การสื่อสาร, ชุมชน, การพัฒนาชุมชน

Abstract

This academic article aims to study the role of communication innovation in driving community development and fostering social sustainability in the digital era. The research methodology employed is a literature review, involving the study of documents, books, textbooks, and related research papers. The study analyzes concepts of innovation,

communication, and community, as well as the application of modern communication technologies to enhance various aspects of community development. Communication innovation improves the efficiency of connecting people, information, and services systematically and comprehensively, reduces social inequality, builds networks of collaboration among the public, private, and civil sectors, and promotes local economies through digital platforms. Examples include the use of earthquake warning applications, online learning, and telehealth services. This article proposes that integrating communication innovation into community development can foster sustainability and strengthen communities across multiple dimensions.

Keywords : Communication Innovation, Communication, Community, Community Development

บทนำ

ในยุคดิจิทัลที่เทคโนโลยีมีการพัฒนาอย่างรวดเร็ว การสื่อสารไม่ได้เป็นเพียงเครื่องมือในการถ่ายทอดข้อมูล แต่ยังเป็นกลไกสำคัญที่ช่วยสร้างความเข้าใจและความร่วมมือในสังคม นวัตกรรมการสื่อสารจึงมีบทบาทสำคัญในการขับเคลื่อนการพัฒนาชุมชนและเสริมสร้างความยั่งยืน ด้วยการนำเทคโนโลยีและแนวคิดใหม่ ๆ มาใช้เพื่อเชื่อมโยงข้อมูล ผู้คน และบริการต่าง ๆ อย่างมีประสิทธิภาพ

ปัจจุบัน การสื่อสารเป็นมากกว่าการแลกเปลี่ยนข้อมูลระหว่างบุคคลหรือองค์กร แต่เป็นเครื่องมือสำคัญในการแก้ปัญหาสังคมและสร้างโอกาสใหม่ ๆ ให้กับชุมชน โดยเฉพาะเมื่อมีการนำเทคโนโลยีดิจิทัลควบคู่กับการสื่อสาร เช่น ระบบการสื่อสารผ่านแพลตฟอร์มออนไลน์ แอปพลิเคชันที่ช่วยส่งเสริมเศรษฐกิจชุมชน และเทคโนโลยีที่ช่วยลดความเหลื่อมล้ำทางการศึกษาและสาธารณสุข ทั้งหมดนี้ช่วยให้ชุมชนสามารถพึ่งพาตนเองได้มากขึ้น และลดข้อจำกัดทางภูมิศาสตร์ที่เคยเป็นอุปสรรคต่อการพัฒนา ดังนั้นนวัตกรรมการสื่อสารเป็นปัจจัยสำคัญที่ช่วยผลักดันให้ชุมชนก้าวไปสู่ความยั่งยืนในทุกมิติ ไม่ว่าจะเป็นด้านสังคม เศรษฐกิจ หรือวัฒนธรรม ด้วยการพัฒนาเครื่องมือสื่อสารที่เข้าถึงง่าย มีประสิทธิภาพ และสามารถตอบโจทย์ความต้องการของชุมชนได้ การผสานเทคโนโลยีและแนวคิดนวัตกรรมเข้ากับกระบวนการสื่อสาร จะช่วยให้เกิดการพัฒนาอย่างต่อเนื่อง ลดความเหลื่อมล้ำ และสร้างโอกาสที่เท่าเทียมให้กับทุกคนในสังคม บทความนี้จะศึกษาความสำคัญของนวัตกรรมการสื่อสาร และบทบาทของการสื่อสารในการพัฒนาชุมชนให้แข็งแกร่งและยั่งยืน

1. แนวคิดเกี่ยวกับนวัตกรรม

1.1 ความหมายของนวัตกรรม

นวัตกรรม (Innovation) หมายถึง กระบวนการสร้างสิ่งใหม่หรือปรับปรุงสิ่งที่มีอยู่เดิมเพื่อพัฒนาคุณภาพชีวิตของมนุษย์ให้ดีขึ้น นวัตกรรมไม่เพียงแต่เกี่ยวข้องกับเทคโนโลยีหรือสิ่งประดิษฐ์ใหม่ ๆ เท่านั้น แต่ยังครอบคลุมถึงการปรับปรุงวิธีการทำงาน การบริการ และการแก้ไขปัญหาต่าง ๆ ในสังคม (วิศิษฏ์ เกตรัตนกุล, ณัฐฐ์วัฒน์ สุทธิโยธิน และกานต์ บุญศิริ, 2563) เกิดจากการนำความคิดริเริ่มหรือสิ่งประดิษฐ์มาประยุกต์ใช้ในชีวิตประจำวันหรือวิธีการทำงาน ซึ่งอาจเกิดจากการปรับปรุง แก้ไข หรือพัฒนาขึ้นมาใหม่เพื่อตอบสนองต่อความต้องการและสภาพแวดล้อมที่เปลี่ยนแปลงไป และมีขอบเขตที่กว้างขวางและครอบคลุมหลายด้าน ทั้งด้านเทคโนโลยี วิทยาศาสตร์ การศึกษา สังคม วัฒนธรรม และสิ่งแวดล้อม โดยไม่จำเป็นต้องสร้างจากศูนย์ทั้งหมด แต่เป็นการพัฒนาให้มีคุณค่าและตอบสนองความต้องการได้อย่างมี

ประสิทธิภาพ (ศิวะนันท์ ศิวพิทักษ์, 2566) กล่าวว่า นวัตกรรมไม่เพียงแต่ส่งผลดีต่อหน่วยงานหรือองค์กรเท่านั้น แต่ยังส่งผลต่อสังคมและประเทศชาติโดยรวม มีเป้าหมายเพื่อเพิ่มประสิทธิภาพในการทำงานหรือบริการและสร้างความยั่งยืนทางเศรษฐกิจในระยะยาว

สิ่งสำคัญที่ต้องเข้าใจคือความแตกต่างระหว่างการประดิษฐ์คิดค้น ความคิดริเริ่ม และนวัตกรรม ณัฐวุฒิ เอี่ยมเนตร, สุวลังก์ วงศ์สุรวัฒน์, พระครูปลัดประวิทย์ ทรัพย์อุไรรัตน์, นภัทร์ แก้วนาค และจิดาภา เร่งมีศรีสุข. (2566) อธิบายไว้ว่า การประดิษฐ์คิดค้น คือ กระบวนการที่สร้างสิ่งใหม่จากสิ่งที่มีอยู่หรือจากแหล่งภายนอก ขณะที่ความคิดริเริ่มเป็นการคิดค้นแนวคิดใหม่ที่ไม่เคยมีมาก่อน และนวัตกรรมเกิดขึ้นเมื่อนำความคิดริเริ่มหรือสิ่งประดิษฐ์มาประยุกต์ใช้ในชีวิตประจำวันหรือวิธีการทำงาน ซึ่งกระบวนการนี้มักต้องอาศัยการบูรณาการองค์ความรู้จากหลากหลายศาสตร์เข้าด้วยกัน โดยในสังคมปัจจุบันที่มีการเปลี่ยนแปลงอย่างรวดเร็ว นวัตกรรมได้แสดงบทบาทสำคัญในการขับเคลื่อนการพัฒนาในทุกภาคส่วน สุมาลี วิจิตรศิลป์ (2562) เน้นย้ำว่านวัตกรรมสามารถเกิดขึ้นได้ในทุกมิติของสังคม รวมถึงนวัตกรรมทางสังคมที่มุ่งแก้ไขปัญหาสังคมและยกระดับคุณภาพชีวิตของคนในชุมชน นวัตกรรมด้านการศึกษาที่ปรับปรุงวิธีการเรียนการสอน และนวัตกรรมด้านสิ่งแวดล้อมที่ช่วยลดผลกระทบต่อสิ่งแวดล้อม ซึ่งล้วนมีส่วนสำคัญในการสร้างความเปลี่ยนแปลงเชิงบวกให้กับสังคม

กระบวนการสร้างนวัตกรรมมักเริ่มต้นจากการระบุปัญหาหรือความต้องการ ตามด้วยการสร้างสรรค์ความคิดและพัฒนาต้นแบบ การทดสอบและปรับปรุง จนถึงการนำไปใช้จริงและขยายผล (วิศิษฎ์ เกตรัตนกุล, ณัฐฐ์วัฒน์ สุทธิโยธิน และกานต์ บุญศิริ, 2563) ซึ่งในแต่ละขั้นตอนจำเป็นต้องอาศัยการคิดเชิงวิพากษ์ ความคิดสร้างสรรค์ และความกล้าที่จะล้มเหลวและเรียนรู้จากความผิดพลาด การสร้างวัฒนธรรมที่เปิดกว้างต่อการทดลองและการเรียนรู้ จึงเป็นปัจจัยสำคัญที่จะช่วยส่งเสริมให้เกิดนวัตกรรมอย่างต่อเนื่อง

โดยสรุป นวัตกรรมไม่ใช่เพียงผลลัพธ์ที่เป็นรูปธรรม แต่เป็นกระบวนการและแนวคิดที่ขับเคลื่อนการพัฒนาอย่างไม่หยุดนิ่ง มุ่งสู่การสร้างความเปลี่ยนแปลงเชิงบวกและการยกระดับคุณภาพชีวิตของมนุษย์ในทุกมิติ ซึ่งจะนำไปสู่การพัฒนาที่ยั่งยืนและสมดุลในระยะยาว

1.2 ความแตกต่างระหว่างการประดิษฐ์คิดค้น ความคิดริเริ่ม และนวัตกรรม

การประดิษฐ์คิดค้น (Invention) ความคิดริเริ่ม (Creativity) และนวัตกรรม (Innovation) เป็นแนวคิดที่เกี่ยวข้องกัน แต่มีความแตกต่างกันในด้านกระบวนการและผลลัพธ์ การเข้าใจความแตกต่างระหว่างแนวคิดเหล่านี้ มีความสำคัญในการนำไปประยุกต์ใช้เพื่อสร้างการเปลี่ยนแปลงและพัฒนาสังคมอย่างมีประสิทธิภาพ (ณัฐวุฒิ เอี่ยมเนตร, สุวลังก์ วงศ์สุรวัฒน์, พระครูปลัดประวิทย์ ทรัพย์อุไรรัตน์, นภัทร์ แก้วนาค และจิดาภา เร่งมีศรีสุข. 2566) นวัตกรรมจึงไม่ใช่เพียงผลลัพธ์ที่เป็นรูปธรรม แต่เป็นกระบวนการที่ต้องอาศัยการบูรณาการองค์ความรู้จากหลากหลายศาสตร์

การประดิษฐ์คิดค้น หมายถึง กระบวนการสร้างสิ่งใหม่จากสิ่งที่มีอยู่หรือจากแหล่งภายนอก โดยอาจเป็นการคิดค้นเครื่องมือ เทคโนโลยี หรือวิธีการใหม่ ๆ ที่ไม่เคยมีมาก่อน การประดิษฐ์คิดค้นมักเกิดขึ้นจากการวิจัยและพัฒนาที่มุ่งเน้นการสร้างสิ่งใหม่จากพื้นฐานทางวิทยาศาสตร์หรือเทคโนโลยี ตัวอย่างเช่น การประดิษฐ์หลอดไฟโดยโทมัส เอดิสัน หรือการคิดค้นเครื่องบินโดยพี่น้องตระกูลไรต์ การประดิษฐ์คิดค้นมักเป็นจุดเริ่มต้นของกระบวนการสร้างนวัตกรรม แต่การประดิษฐ์คิดค้นเพียงอย่างเดียวอาจไม่นำไปสู่การใช้งานจริงในชีวิตประจำวันหากไม่มีการประยุกต์ใช้อย่างเหมาะสม

ความคิดริเริ่ม หมายถึง การคิดค้นแนวคิดใหม่ที่ไม่เคยมีมาก่อน หรือการมองปัญหาจากมุมมองที่แตกต่างและสร้างสรรค์ ความคิดริเริ่มเป็นกระบวนการทางความคิดที่เน้นการสร้างสรรค์สิ่งใหม่หรือวิธีการใหม่ในการแก้ปัญหา โดยอาจไม่จำเป็นต้องนำไปสู่การสร้างสิ่งประดิษฐ์หรือนวัตกรรมเสมอไป ตัวอย่างเช่น การคิดค้นวิธีการสอนใหม่ที่ช่วยให้นักเรียนเข้าใจบทเรียนได้ดีขึ้น หรือการออกแบบแคมเปญโฆษณาที่สร้างสรรค์เพื่อดึงดูดความสนใจของลูกค้า ความคิดริเริ่มเป็นพื้นฐานสำคัญของการประดิษฐ์คิดค้นและนวัตกรรม เนื่องจากเป็นจุดเริ่มต้นของกระบวนการสร้างสิ่งใหม่

โดยสรุป การประดิษฐ์คิดค้น คือ การสร้างสิ่งใหม่จากสิ่งที่มีอยู่หรือจากแหล่งภายนอก ความคิดริเริ่ม คือ การคิดค้นแนวคิดใหม่ที่ไม่เคยมีมาก่อน และนวัตกรรม คือ การนำความคิดริเริ่มหรือสิ่งประดิษฐ์มาประยุกต์ใช้ในชีวิตประจำวันหรือวิธีการทำงาน เพื่อสร้างคุณค่าและตอบสนองความต้องการของสังคม การเข้าใจความแตกต่างระหว่างแนวคิดเหล่านี้ ช่วยให้สามารถนำไปประยุกต์ใช้ได้อย่างมีประสิทธิภาพในการสร้างการเปลี่ยนแปลงและพัฒนาสังคมในทุกมิติ

1.3 บทบาทของนวัตกรรมในการพัฒนาสังคม

นวัตกรรมมีบทบาทสำคัญในการขับเคลื่อนการพัฒนาในทุกภาคส่วนของสังคม โดยเฉพาะในยุคที่เทคโนโลยีมีการเปลี่ยนแปลงอย่างรวดเร็ว นวัตกรรมช่วยแก้ไขปัญหาสังคม ยกระดับคุณภาพชีวิตของคนในชุมชน และสร้างความเปลี่ยนแปลงเชิงบวกในด้านต่าง ๆ เช่น การศึกษา สุขภาพ และสิ่งแวดล้อม (สุมาลี วิจิตรศิลป์, 2562) นอกจากนี้เป็นเครื่องมือสำคัญที่ช่วยแก้ไขปัญหาต่าง ๆ และยกระดับคุณภาพชีวิตของคนในสังคม และเป็นหนึ่งในบทบาทหลักของนวัตกรรม คือ การแก้ไขปัญหาสังคม นวัตกรรมทางสังคม (Social Innovation) เป็นกระบวนการที่มุ่งแก้ไขปัญหาสังคมและยกระดับคุณภาพชีวิตของคนในชุมชน ตัวอย่างเช่น การพัฒนาระบบการจัดการขยะที่ช่วยลดมลพิษและส่งเสริมการรีไซเคิล หรือการสร้างแพลตฟอร์มดิจิทัลที่ช่วยให้ประชาชนในพื้นที่ห่างไกล สามารถเข้าถึงบริการสุขภาพและการศึกษาได้ง่ายขึ้น นวัตกรรมเหล่านี้ไม่เพียงแต่ช่วยแก้ไขปัญหาที่มีอยู่ แต่ยังสร้างความเปลี่ยนแปลงเชิงบวกให้กับสังคมในระยะยาว (สุมาลี วิจิตรศิลป์, 2562) ประกอบกับมีบทบาทสำคัญในการพัฒนาด้านการศึกษา นวัตกรรมด้านการศึกษา (Educational Innovation) ช่วยปรับปรุงวิธีการเรียนการสอนให้มีประสิทธิภาพมากขึ้น ตัวอย่างเช่น การใช้เทคโนโลยีดิจิทัลในการสร้างแพลตฟอร์มการเรียนรู้ออนไลน์ที่ช่วยให้ผู้เรียนสามารถเข้าถึงความรู้ได้ทุกที่ทุกเวลา หรือการพัฒนาหลักสูตรการสอนที่สอดคล้องกับความต้องการของตลาดแรงงานในยุคดิจิทัล นวัตกรรมเหล่านี้ช่วยลดช่องว่างทางการศึกษาและส่งเสริมการเรียนรู้ตลอดชีวิต (Lifelong Learning) ซึ่งเป็นปัจจัยสำคัญในการพัฒนาทรัพยากรมนุษย์และสร้างสังคมแห่งความรู้

ด้านสุขภาพ นวัตกรรมทางการแพทย์และสุขภาพ (Health Innovation) ช่วยยกระดับคุณภาพชีวิตของประชาชน ตัวอย่างเช่น การพัฒนาเทคโนโลยีการตรวจวินิจฉัยโรคที่แม่นยำและรวดเร็วขึ้น การใช้แอปพลิเคชันเพื่อติดตามสุขภาพและให้คำแนะนำทางการแพทย์แบบเรียลไทม์ หรือการวิจัยและพัฒนายาใหม่ ๆ ที่ช่วยรักษาโรคที่เคยรักษาได้ยาก นวัตกรรมเหล่านี้ไม่เพียงแต่ช่วยลดความเจ็บป่วยแต่ยังช่วยลดภาระค่าใช้จ่ายด้านสุขภาพของรัฐบาลและประชาชน มีบทบาทสำคัญในการพัฒนาด้านสิ่งแวดล้อม นวัตกรรมด้านสิ่งแวดล้อม (Environmental Innovation) ช่วยลดผลกระทบต่อสิ่งแวดล้อมและส่งเสริมการพัฒนาที่ยั่งยืน ตัวอย่างเช่น การพัฒนาเทคโนโลยีพลังงานสะอาดที่ช่วยลดการปล่อยก๊าซเรือนกระจก การสร้างระบบการจัดการน้ำที่ช่วยลดการสูญเสียน้ำและเพิ่มประสิทธิภาพในการใช้น้ำ หรือการพัฒนาวัสดุที่ย่อยสลายได้ทางชีวภาพเพื่อลดขยะพลาสติก นวัตกรรมเหล่านี้ช่วยสร้างสมดุลระหว่างการพัฒนาทางเศรษฐกิจและการรักษาสิ่งแวดล้อม ซึ่งเป็นปัจจัยสำคัญในการสร้างสังคมที่ยั่งยืน

นอกจากนี้ นวัตกรรมยังมีบทบาทในการส่งเสริมเศรษฐกิจและสร้างงานใหม่ ๆ การพัฒนานวัตกรรมในภาคธุรกิจและอุตสาหกรรมช่วยเพิ่มประสิทธิภาพในการผลิตและบริการ สร้างผลิตภัณฑ์และบริการใหม่ที่ตอบสนองความต้องการของผู้บริโภค และเปิดโอกาสให้เกิดธุรกิจสตาร์ทอัพและวิสาหกิจขนาดเล็กที่สามารถแข่งขันในตลาดโลกได้ ตัวอย่างเช่น การพัฒนาแพลตฟอร์มอีคอมเมิร์ซที่ช่วยให้ผู้ประกอบการรายย่อยสามารถเข้าถึงตลาดที่กว้างขึ้น หรือการสร้างระบบการเงินดิจิทัลที่ช่วยให้ประชาชนสามารถเข้าถึงบริการทางการเงินได้ง่ายขึ้น ซึ่งเห็นได้ว่านวัตกรรมมีบทบาทสำคัญในการพัฒนาสังคมในทุกมิติ โดยช่วยแก้ไขปัญหาสังคม ยกระดับคุณภาพชีวิต ส่งเสริมการเรียนรู้และสุขภาพลดผลกระทบต่อสิ่งแวดล้อม และสร้างเศรษฐกิจที่เข้มแข็ง การส่งเสริมและสนับสนุนการสร้างนวัตกรรม จึงเป็นปัจจัยสำคัญในการขับเคลื่อนการพัฒนาสังคมให้ก้าวหน้าอย่างยั่งยืนและสมดุล

โดยสรุป นวัตกรรมไม่เพียงแต่เป็นเครื่องมือในการสร้างสิ่งใหม่ แต่ยังเป็นกระบวนการที่ช่วยขับเคลื่อนการพัฒนาสังคมและเศรษฐกิจในระยะยาว การเข้าใจความหมายและบทบาทของนวัตกรรมจึงมีความสำคัญอย่างยิ่งในการนำไปประยุกต์ใช้เพื่อสร้างการเปลี่ยนแปลงเชิงบวกและยกระดับคุณภาพชีวิตของมนุษย์ในทุกมิติ

2. แนวคิดเกี่ยวกับการสื่อสาร

2.1 ความหมายและกระบวนการสื่อสาร

การสื่อสาร (Communication) หมายถึง กระบวนการถ่ายทอดข่าวสาร ความรู้ ความรู้สึก ความคิดเห็น และประสบการณ์จากผู้ส่งสารไปยังผู้รับสารผ่านสื่อต่าง ๆ โดยมีวัตถุประสงค์เพื่อให้เกิดการรับรู้ร่วมกันและมีการแสดงปฏิกิริยาตอบกลับ (วาสิกา อังกูร, 2560) เป็นกระบวนการที่ไม่มีจุดเริ่มต้นและจุดสิ้นสุดที่ชัดเจน แต่เป็นกระบวนการที่ต่อเนื่องและมีลักษณะเป็นวงกลม โดยผู้สื่อสารทำหน้าที่ทั้งเป็นผู้ส่งสารและผู้รับสารในเวลาเดียวกัน

กระบวนการสื่อสารประกอบด้วยองค์ประกอบหลัก ได้แก่ ผู้ส่งสาร (Sender) ผู้รับสาร (Receiver) ข้อมูลข่าวสาร (Message) ช่องทางการสื่อสาร (Channel) และการตอบกลับ (Feedback) ผู้ส่งสารเป็นผู้เริ่มต้นกระบวนการสื่อสารโดยการเข้ารหัส (Encode) ข้อมูลข่าวสารให้อยู่ในรูปแบบที่ผู้รับสารสามารถเข้าใจได้ จากนั้นข้อมูลข่าวสารจะถูกส่งผ่านช่องทางการสื่อสาร เช่น คำพูด ข้อความ หรือสื่อดิจิทัล ไปยังผู้รับสาร ผู้รับสารจะทำการถอดรหัส (Decode) ข้อมูลข่าวสารและแสดงปฏิกิริยาตอบกลับ ซึ่งอาจเป็นการตอบสนองทางวาจา การแสดงท่าทาง หรือการกระทำต่าง ๆ โดยกระบวนการสื่อสารที่มีประสิทธิภาพต้องอาศัยความเข้าใจและความสอดคล้องระหว่างผู้ส่งสารและผู้รับสาร รวมถึงการเลือกช่องทางการสื่อสารที่เหมาะสมกับบริบทและวัตถุประสงค์ของการสื่อสาร การสื่อสารที่ประสบความสำเร็จจะช่วยสร้างความเข้าใจและความร่วมมือระหว่างบุคคลและกลุ่มคนในสังคม

2.2 บทบาทของการสื่อสารในสังคม

การสื่อสารมีบทบาทสำคัญในสังคมในหลายด้าน ตั้งแต่การสร้างความสัมพันธ์ระหว่างบุคคลไปจนถึงการขับเคลื่อนการพัฒนาสังคมและเศรษฐกิจ **ประการแรก** เป็นเครื่องมือสำคัญที่ช่วยสร้างความสัมพันธ์ระหว่างบุคคลและส่งเสริมความเข้าใจในสังคม ผ่านการแลกเปลี่ยนข้อมูล ความคิดเห็น และประสบการณ์ การสื่อสารช่วยให้ผู้คนสามารถติดต่อและทำความเข้าใจกันได้ ซึ่งเป็นพื้นฐานสำคัญของการอยู่ร่วมกันในสังคม **ประการที่สอง** มีบทบาทในการสืบทอดวัฒนธรรม ประเพณี และภูมิปัญญาท้องถิ่น ผ่านการถ่ายทอดความรู้และประสบการณ์จากรุ่นหนึ่งไปยังอีกรุ่นหนึ่ง การสื่อสารช่วยรักษาและส่งเสริมวัฒนธรรมท้องถิ่นให้คงอยู่และพัฒนาต่อไป ซึ่งสะท้อนถึงความเจริญรุ่งเรืองและวิถีชีวิตของผู้คนในอดีตและปัจจุบัน (วาสิกา

อังกูร, 2560) และ**ประการที่สาม** มีบทบาทสำคัญในการขับเคลื่อนการพัฒนาและแก้ไขปัญหาต่าง ๆ ในสังคม ผ่านการแลกเปลี่ยนข้อมูลและสร้างความร่วมมือระหว่างบุคคล หน่วยงาน และองค์กรต่าง ๆ การสื่อสารช่วยให้การดำเนินกิจกรรมต่าง ๆ เป็นไปตามข้อตกลงที่ตั้งไว้ เพื่อบรรลุเป้าหมายที่มีผลประโยชน์ร่วมกัน ซึ่งส่งผลต่อความสำเร็จและการพัฒนาในทุกมิติ ทั้งทางเศรษฐกิจและสังคม (กิจอุดม เสือเจริญ, กานต์บุญศิริ และวิทยาธร ท่อแก้ว, 2566)

2.3 ทฤษฎีการสื่อสาร SMCR

ทฤษฎีการสื่อสาร SMCR ของ David K. Berlo (1960 อ้างถึงใน จรรยาลักษณ์ สิริกุล นฤมิตร และ ภิรดา เมธารมณ์, 2561) เป็นทฤษฎีที่อธิบายกระบวนการสื่อสารอย่างเป็นระบบ โดยเน้นที่องค์ประกอบหลัก 4 ประการ ได้แก่ ผู้ส่งสาร (Source) ข้อมูลข่าวสาร (Message) ช่องทางการส่งสาร (Channel) และผู้รับสาร (Receiver) โดยการสื่อสารที่มีประสิทธิภาพต้องอาศัยความเข้าใจและความสอดคล้องระหว่างองค์ประกอบเหล่านี้ (จรรยาลักษณ์ สิริกุลนฤมิตร และ ภิญรดา เมธารมณ์, 2561)

1) ผู้ส่งสาร (Source): ผู้ส่งสารต้องมีทักษะและความชำนาญในการสื่อสาร รวมถึงความสามารถในการเข้ารหัสข้อมูลข่าวสารให้เหมาะสมกับผู้รับสาร ผู้ส่งสารต้องมีความรู้ที่ดีเกี่ยวกับข้อมูลข่าวสารที่จะส่ง และสามารถปรับระดับของข้อมูลให้เหมาะสมและเข้าใจง่ายตามระดับความรู้ของผู้รับสาร รวมทั้งคำนึงถึงพื้นฐานทางสังคมและวัฒนธรรมที่สอดคล้องกับผู้รับสาร (สุนทรียา กุลภิรมย์, 2561)

2) ข้อมูลข่าวสาร (Message): ข้อมูลข่าวสารประกอบด้วยเนื้อหา สัญลักษณ์ และวิธีการส่งข่าวสารไปยังผู้รับสาร ข้อมูลข่าวสารที่มีประสิทธิภาพควรมีความชัดเจน ถูกต้อง และเข้าใจง่าย เหมาะสมกับผู้รับสารและบริบทของการสื่อสาร

3) ช่องทางการส่งสาร (Channel): ช่องทางการส่งข่าวสาร หมายถึง วิธีการที่ใช้ในการส่งสาร โดยผู้รับจะได้รับข่าวสารผ่านประสาทสัมผัสทั้ง 5 หรือเพียงบางส่วน เช่น การได้ยิน การเห็น การสัมผัส การลิ้มรส หรือการได้กลิ่น การเลือกช่องทางที่เหมาะสมมีความสำคัญอย่างยิ่งต่อประสิทธิภาพของการสื่อสาร

4) ผู้รับสาร (Receiver): ผู้รับสารต้องมีทักษะในการสื่อสารและสามารถถอดรหัสสาร (Decode) ได้อย่างมีประสิทธิภาพ โดยผู้รับต้องมีเจตคติ ระดับความรู้ และพื้นฐานทางสังคมและวัฒนธรรมที่ใกล้เคียงกับผู้ส่งสาร เพื่อให้การสื่อความหมายและการสื่อสารนั้นได้ผลสำเร็จ ความสามารถในการรับและ แปลความหมายของสารจะส่งผลโดยตรงต่อประสิทธิภาพของการสื่อสาร (วรรณา ศรีแก้ว, 2565)

ทฤษฎี SMCR ช่วยให้เข้าใจกระบวนการสื่อสารอย่างลึกซึ้งและเป็นระบบ โดยเน้นที่ความสำคัญขององค์ประกอบต่าง ๆ ที่เกี่ยวข้องกับการสื่อสาร การเข้าใจทฤษฎีนี้ช่วยให้สามารถออกแบบกระบวนการสื่อสารได้อย่างมีประสิทธิภาพ เพื่อสร้างความเข้าใจและความร่วมมือระหว่างบุคคลและกลุ่มคนในสังคม

โดยสรุป การสื่อสารเป็นกระบวนการที่สำคัญในการสร้างความสัมพันธ์และความเข้าใจระหว่างบุคคลและสังคม ทฤษฎี SMCR ช่วยให้เข้าใจกระบวนการสื่อสารอย่างลึกซึ้งและเป็นระบบ โดยเน้นที่ความสำคัญขององค์ประกอบต่าง ๆ ที่เกี่ยวข้องกับการสื่อสาร การเข้าใจกระบวนการสื่อสารและบทบาทของมันในสังคม จึงเป็นพื้นฐานสำคัญในการพัฒนาความสัมพันธ์และสร้างความร่วมมือในทุกมิติของชีวิต

3. แนวคิดเกี่ยวกับชุมชน

3.1 ความหมายและประเภทของชุมชน

ชุมชน (Community) หมายถึง กลุ่มคนที่อาศัยอยู่ในพื้นที่เดียวกันและมีความผูกพันกันทั้งในด้านกิจกรรมและการพึ่งพาอาศัย ชุมชนเป็นโครงสร้างพื้นฐานทางสังคมที่สำคัญ ซึ่งสามารถแบ่งออกเป็นสองประเภทหลัก ได้แก่ ชุมชนเมือง และ ชุมชนชนบท

1) ชุมชนเมือง มักมีลักษณะเด่น คือ การมีประชากรจำนวนมากและมีความหนาแน่นสูง ประชากรส่วนใหญ่ประกอบอาชีพที่เกี่ยวข้องกับอุตสาหกรรม บริการ และเทคโนโลยี มีการเจริญเติบโตในลักษณะของการกระจุกตัว มีศูนย์กลางทางธุรกิจและการค้าขายที่ชัดเจน มีโครงสร้างพื้นฐานและสาธารณูปโภคที่ครบครัน และมีความหลากหลายทางวัฒนธรรมและชาติพันธุ์ ความสัมพันธ์ของผู้คนในชุมชนเมืองมักมีลักษณะที่เป็นทางการมีความเป็นปัจเจกสูง และมีปฏิสัมพันธ์ที่มุ่งเน้นผลประโยชน์มากกว่าความผูกพันส่วนตัว (จำนง อดิวัฒนสิทธิ์, 2543)

2) ชุมชนชนบท มีลักษณะที่แตกต่างจากชุมชนเมือง โดยมีประชากรที่น้อยกว่าและมีความหนาแน่นต่ำ ประชากรส่วนใหญ่ประกอบอาชีพเกษตรกรรมและมีความสัมพันธ์ใกล้ชิดกับธรรมชาติ ระบบเศรษฐกิจพึ่งพาการเกษตรและทรัพยากรธรรมชาติเป็นหลัก มีการตั้งถิ่นฐานเป็นหมู่บ้านที่กระจายตัวและมักตั้งอยู่ใกล้แหล่งน้ำหรือพื้นที่ที่เหมาะสมต่อการเพาะปลูก ความสัมพันธ์ของผู้คนในชุมชนชนบทมีลักษณะแน่นแฟ้นแบบเครือญาติมีการช่วยเหลือเกื้อกูลกันมีความเป็นอันหนึ่งอันเดียวกันสูง และยึดมั่นในการปฏิบัติตามประเพณีท้องถิ่นและความเชื่อร่วมกัน (จำนง อดิวัฒนสิทธิ์, 2543)

นอกจากนี้ ยังมีชุมชนออนไลน์หรือชุมชนเสมือน (Virtual Communities) ที่เกิดจากการรวมตัวกันของผู้คนที่มีความสนใจร่วมกันผ่านเครือข่ายอินเทอร์เน็ต ชุมชนประเภทนี้ไม่จำเป็นต้องอาศัยอยู่ในพื้นที่เดียวกัน แต่สามารถติดต่อสื่อสารและแลกเปลี่ยนข้อมูลผ่านแพลตฟอร์มออนไลน์ต่าง ๆ ซึ่งช่วยลดข้อจำกัดด้านระยะทางและเวลา

3.2 องค์ประกอบของชุมชน

ชุมชนประกอบด้วยองค์ประกอบหลัก 4 ประการ ได้แก่ มนุษย์ (Human Component) ความสนใจร่วมกัน (Interest) การปฏิสัมพันธ์ (Interaction) และพื้นที่ (Area) องค์ประกอบเหล่านี้มีความสัมพันธ์และส่งผลต่อกันอย่างซับซ้อน ซึ่งนำไปสู่ลักษณะเฉพาะและพลวัตของแต่ละชุมชน (ไพรินทร์ เดชะรินทร์, 2524 อ้างถึงใน อัจฉรา ชลายนนาวิน, 2562)

1) มนุษย์ (Human Component) เป็นองค์ประกอบที่มีบทบาทสำคัญที่สุดในชุมชน เนื่องจากเป็นผู้สร้างและขับเคลื่อนชุมชนผ่านการมีปฏิสัมพันธ์ การสื่อสาร และการทำกิจกรรมร่วมกัน โครงสร้างทางสังคม ระบบความสัมพันธ์ และบทบาทของสมาชิกในชุมชนมีผลต่อพลวัตและการเปลี่ยนแปลงของชุมชนในด้านต่าง ๆ นอกจากนี้ คุณลักษณะของประชากรในชุมชน เช่น อายุ เพศ การศึกษา อาชีพ รายได้ และความเชื่อ ก็มีผลต่อรูปแบบความสัมพันธ์และการพัฒนาของชุมชนเช่นกัน

2) ความสนใจร่วมกัน (Interest) เป็นตัวขับเคลื่อนสำคัญที่ทำให้ชุมชนดำรงอยู่และพัฒนาไปข้างหน้า ความสนใจนี้อาจเกิดจากความต้องการพื้นฐานในการดำรงชีวิต การแก้ไขปัญหาที่เผชิญร่วมกัน หรือการมุ่งสู่เป้าหมายและอุดมการณ์ที่ตรงกัน ซึ่งทำให้สมาชิกในชุมชนเกิดแรงจูงใจและพลังในการร่วมมือกันทำกิจกรรมต่าง ๆ หากสมาชิกในชุมชนขาดความสนใจร่วมกัน ชุมชนอาจประสบปัญหาในการรวมพลังและขับเคลื่อนกิจกรรมต่าง ๆ ให้บรรลุผลสำเร็จ

3) การปฏิสัมพันธ์ (Interaction) เป็นการสร้างเหตุการณ์หรือความเคลื่อนไหวต่าง ๆ ในชุมชน อันเป็นผลมาจากการติดต่อปะทะสังสรรค์กันระหว่างคนในชุมชน การปฏิสัมพันธ์นี้เกิดขึ้นในหลายรูปแบบ ทั้งการปฏิสัมพันธ์ระหว่างบุคคล ระหว่างกลุ่ม และระหว่างชุมชนกับสิ่งแวดล้อมหรือองค์กรภายนอก การปฏิสัมพันธ์ที่เกิดขึ้นอย่างสม่ำเสมอและมีคุณภาพจะช่วยสร้างความไว้วางใจ ความเข้าใจ และความร่วมมือระหว่างสมาชิกในชุมชน ซึ่งเป็นพื้นฐานสำคัญของความเข้มแข็งและการพัฒนาอย่างยั่งยืนของชุมชน

4) พื้นที่ (Area): พื้นที่เป็นองค์ประกอบสำคัญที่ชุมชนจะเกิดขึ้นไม่ได้หากปราศจากพื้นที่ในการปะทะสังสรรค์ พื้นที่นี้อาจเป็นได้ทั้งพื้นที่ทางกายภาพ (Physical Space) ที่สมาชิกของชุมชนใช้ในการดำเนินชีวิตและทำกิจกรรมร่วมกัน และพื้นที่ทางสังคม (Social Space) ที่เป็นบริบทและสภาพแวดล้อมสำหรับการมีปฏิสัมพันธ์และสร้างความสัมพันธ์ระหว่างสมาชิก ในยุคดิจิทัล พื้นที่ยังรวมถึงพื้นที่เสมือน (Virtual Space) ที่สมาชิกใช้ในการติดต่อสื่อสารและทำกิจกรรมร่วมกันผ่านเครือข่ายอินเทอร์เน็ต

3.3 บทบาทของชุมชนในสังคม

ชุมชนมีบทบาทสำคัญในการสร้างความสัมพันธ์ และเครือข่ายทางสังคมที่ช่วยส่งเสริมการช่วยเหลือเกื้อกูลกัน การแลกเปลี่ยนทรัพยากรและข้อมูลรวมถึงการสร้างความร่วมมือ เพื่อแก้ไขปัญหาร่วมกัน นอกจากนี้ ชุมชนยังมีบทบาทในการถ่ายทอดบรรทัดฐานทางสังคมและสนับสนุนเศรษฐกิจฐานราก (กิจอุดม เสือเจริญ, กานต์บุญศิริ และวิทยาธร ท่อแก้ว, 2566) **ประการแรก** เป็นแหล่งสร้างความสัมพันธ์และเครือข่ายทางสังคมที่ช่วยส่งเสริมการช่วยเหลือเกื้อกูลกัน การแลกเปลี่ยนทรัพยากรและข้อมูล รวมถึงการสร้างความร่วมมือเพื่อแก้ไขปัญหาร่วมกัน ชุมชนช่วยให้สมาชิกสามารถพึ่งพาอาศัยกันและกันในยามจำเป็น ซึ่งเป็นพื้นฐานสำคัญของการอยู่ร่วมกันในสังคม **ประการที่สอง** มีบทบาทในการถ่ายทอดบรรทัดฐานทางสังคม เช่น มารยาทและจริยธรรม ซึ่งเป็นรากฐานของความมั่นคงของสังคม ผ่านการสื่อสารและการปฏิสัมพันธ์ระหว่างสมาชิก ชุมชนช่วยรักษาและส่งเสริมวัฒนธรรมท้องถิ่นให้คงอยู่และพัฒนาต่อไป และ**ประการที่สาม** มีบทบาทสำคัญในการสนับสนุนเศรษฐกิจฐานราก โดยเป็นพื้นที่หมุนเวียนทรัพยากรและเงินทุน สร้างงานและรายได้ ตลอดจนพัฒนาทักษะและความสามารถของสมาชิก ชุมชนช่วยสนับสนุนธุรกิจขนาดเล็กและเศรษฐกิจท้องถิ่น ซึ่งเป็นปัจจัยสำคัญในการสร้างความมั่นคงทางเศรษฐกิจของสังคม

โดยสรุป ชุมชนเป็นโครงสร้างทางสังคมที่สำคัญซึ่งมีบทบาทในการสร้างความสัมพันธ์ ความร่วมมือและการพัฒนาทั้งทางสังคมและเศรษฐกิจ การเข้าใจองค์ประกอบและบทบาทของชุมชนจึงมีความสำคัญอย่างยิ่ง ในการวางแผนและพัฒนาชุมชนให้สอดคล้องกับบริบทและความต้องการที่แท้จริงของสมาชิก ซึ่งจะนำไปสู่การพัฒนาที่มีประสิทธิภาพและยั่งยืน

4. นวัตกรรมการสื่อสารเพื่อการพัฒนาชุมชน

4.1 ความหมายและบทบาทของนวัตกรรมการสื่อสาร

นวัตกรรมการสื่อสาร (Communication Innovation) หมายถึง การพัฒนาและปรับปรุงวิธีการสื่อสารที่มีอยู่เดิมให้ทันสมัยและมีประสิทธิภาพยิ่งขึ้น โดยอาจประกอบด้วยความคิดใหม่ การใช้เทคโนโลยีใหม่ ๆ หรือการประยุกต์ใช้เครื่องมือสื่อสารที่ทันสมัย เพื่อให้สามารถตอบสนองต่อความต้องการในยุคที่มีการเปลี่ยนแปลงทางสังคมและเทคโนโลยีอย่างรวดเร็ว (วรวุฒิ ภักดีบุรุษ, 2560) และไม่เพียงแต่เกี่ยวข้องกับการใช้เทคโนโลยีสารสนเทศและการสื่อสาร (ICT) แต่ยังรวมถึงการพัฒนาวิธีการสื่อสารรูปแบบใหม่ที่ช่วยให้การถ่ายทอดข้อมูลข่าวสารมีประสิทธิภาพและประสิทธิผลในการดำเนินงานขององค์กรและชุมชนมากยิ่งขึ้น

บทบาทของนวัตกรรมการสื่อสารมีความสำคัญอย่างยิ่งในยุคดิจิทัล เนื่องจากช่วยเพิ่มประสิทธิภาพในการเชื่อมโยงผู้คน ข้อมูล และบริการต่าง ๆ เข้าด้วยกันอย่างเป็นระบบและทั่วถึง นวัตกรรมการสื่อสารมีบทบาทหลักในการสร้างความสามารถในการแข่งขันและเพิ่มประสิทธิผลในการดำเนินงานขององค์กรและชุมชน นอกจากนี้ยังช่วยให้การสื่อสารเป็นไปอย่างรวดเร็ว มีประสิทธิภาพ และสามารถตอบสนองต่อความต้องการที่เปลี่ยนแปลงไปในสภาพแวดล้อม ที่มีการแข่งขันสูงและความต้องการของผู้บริโภคที่มีความหลากหลาย (พิมพ์ปวีณ์ นิธิจิรชาติ, พระมหาอุตร อุดตโร และปฏิธรรม สำเนียง, 2566)

4.2 ประโยชน์ของนวัตกรรมการสื่อสารต่อชุมชน

นวัตกรรมการสื่อสารช่วยเพิ่มประสิทธิภาพในการเชื่อมโยงผู้คน ข้อมูล และบริการต่าง ๆ เข้าด้วยกันอย่างเป็นระบบและทั่วถึง ตัวอย่างเช่น แอปพลิเคชันเตือนภัยแผ่นดินไหวในจังหวัดเชียงรายที่ให้ข้อมูลแบบเรียลไทม์ ช่วยให้ประชาชนสามารถเตรียมพร้อมรับมือกับสถานการณ์ฉุกเฉินได้อย่างทันท่วงที (กฤษณะ แสงจันทร์ และสหัทยา สิทธิวิเศษ, 2565) นอกจากนี้ นวัตกรรมการสื่อสารยังช่วยลดความเหลื่อมล้ำทางสังคมด้วยการทำให้ประชาชนในพื้นที่ห่างไกลสามารถเข้าถึงข้อมูลบริการทางการแพทย์และโอกาสทางการศึกษาที่จำเป็นได้ง่ายขึ้นผ่านแพลตฟอร์มดิจิทัล (อาภัสสร อันวิเศษ และอุษา บุญกุญชร , 2564) โดย **ประการแรก** ช่วยเพิ่มประสิทธิภาพในการเชื่อมโยงผู้คน ข้อมูลและบริการต่าง ๆ เข้าด้วยกันอย่างเป็นระบบและทั่วถึง ตัวอย่างเช่น แอปพลิเคชันเตือนภัยแผ่นดินไหวในจังหวัดเชียงรายที่ให้ข้อมูลแบบเรียลไทม์ ช่วยให้ประชาชนสามารถเตรียมพร้อมรับมือกับสถานการณ์ฉุกเฉินได้อย่างทันท่วงที และลดความเสียหายที่อาจเกิดขึ้นทั้งต่อชีวิตและทรัพย์สิน (กฤษณะ แสงจันทร์ และสหัทยา สิทธิวิเศษ, 2565) **ประการที่สอง** ช่วยลดความเหลื่อมล้ำทางสังคมด้วยการทำให้ประชาชนในพื้นที่ห่างไกลสามารถเข้าถึงข้อมูลบริการทางการแพทย์และโอกาสทางการศึกษาที่จำเป็นได้ง่ายขึ้นผ่านแพลตฟอร์มดิจิทัล ตัวอย่างเช่น การใช้เทคโนโลยีออนไลน์เพื่อส่งเสริมการดูแลสุขภาพจิตและป้องกันโรคซึมเศร้าโดยไม่จำเป็นต้องเดินทางมายังสถานพยาบาล (อาภัสสร อันวิเศษ และอุษา บุญกุญชร, 2564) หรือการพัฒนาโปรแกรมการเรียนรู้ออนไลน์ที่ช่วยให้ผู้สูงอายุสามารถเพิ่มพูนความรู้และพัฒนาทักษะใหม่ ๆ ได้จากที่บ้าน ซึ่งช่วยส่งเสริมการเรียนรู้ตลอดชีวิตและพัฒนาคุณภาพชีวิตของคนในชุมชนได้อย่างยั่งยืน (วารุณี แก้วกิ่งจันทร์, 2563) และ**ประการที่สาม** มีบทบาทสำคัญในการสร้างเครือข่ายความร่วมมือระหว่างภาครัฐ ภาคเอกชน และประชาชนผ่านช่องทางออนไลน์ ทำให้สามารถแลกเปลี่ยนข้อมูลและประสานงานกันได้อย่างมีประสิทธิภาพ นำไปสู่การเสริมสร้างความเข้มแข็งของชุมชน และทำให้ประชาชนสามารถพึ่งพาตนเองได้มากขึ้น

4.3 การประยุกต์ใช้นวัตกรรมการสื่อสารในชุมชน

นวัตกรรมการสื่อสารสามารถนำมาใช้ในการพัฒนาชุมชนในหลายด้าน เช่น การสร้างเครือข่ายความร่วมมือระหว่างภาครัฐ เอกชน และประชาชนผ่านช่องทางออนไลน์ การส่งเสริมเศรษฐกิจชุมชนโดยเปิดโอกาสให้ผู้ประกอบการรายย่อยสามารถเข้าถึงตลาดที่กว้างขึ้นผ่านช่องทางออนไลน์ และการพัฒนาทักษะและคุณภาพชีวิตของคนในชุมชนผ่านโปรแกรมการเรียนรู้ออนไลน์ (วารุณี แก้วกิ่งจันทร์, 2563) ดังนี้

1) ช่วยสร้างเครือข่ายความร่วมมือระหว่างภาครัฐ ภาคเอกชน และประชาชนผ่านช่องทางออนไลน์ ทำให้สามารถแลกเปลี่ยนข้อมูลและประสานงานกันได้อย่างมีประสิทธิภาพ ตัวอย่างเช่น การใช้แพลตฟอร์มออนไลน์ เพื่อเชื่อมโยงระหว่างหน่วยงานภาครัฐและประชาชนในการแก้ไขปัญหาชุมชน หรือการสร้างเครือข่ายความร่วมมือระหว่างชุมชนต่าง ๆ เพื่อแลกเปลี่ยนความรู้และทรัพยากร

2) ช่วยส่งเสริมเศรษฐกิจชุมชน โดยเปิดโอกาสให้ผู้ประกอบการรายย่อยสามารถเข้าถึงตลาดที่กว้างขึ้นผ่านช่องทางออนไลน์ ตัวอย่างเช่น การพัฒนาแพลตฟอร์มอีคอมเมิร์ซที่ช่วยให้ผู้ผลิตในท้องถิ่นสามารถขายสินค้าได้โดยตรงถึงผู้บริโภค ซึ่งช่วยลดการพึ่งพาตลาดภายนอกและสร้างการหมุนเวียนทางเศรษฐกิจภายในชุมชน

3) ช่วยพัฒนาทักษะและคุณภาพชีวิตของคนในชุมชนผ่านโปรแกรมการเรียนรู้ออนไลน์ และการฝึกอบรมทางไกล ตัวอย่างเช่น การพัฒนาแพลตฟอร์มการเรียนรู้ที่ช่วยให้ผู้สูงอายุสามารถเพิ่มพูนความรู้

และพัฒนาทักษะใหม่ ๆ ได้จากที่บ้าน หรือการใช้เทคโนโลยีออนไลน์เพื่อส่งเสริมการดูแลสุขภาพและป้องกันโรค

4) มีบทบาทสำคัญในการจัดการภัยพิบัติและสถานการณ์ฉุกเฉิน ตัวอย่างเช่น การพัฒนาแอปพลิเคชันเตือนภัยแผ่นดินไหวที่ให้ข้อมูลแบบเรียลไทม์ ช่วยให้ประชาชนสามารถเตรียมพร้อมรับมือกับสถานการณ์ฉุกเฉินได้อย่างทันท่วงที และลดความเสียหายที่อาจเกิดขึ้นทั้งต่อชีวิตและทรัพย์สิน (กฤษณะ แสงจันทร์ และสหัทยา สิทธิวิเศษ, 2565)

โดยสรุป นวัตกรรมการสื่อสารมีบทบาทสำคัญในการพัฒนาชุมชน โดยช่วยเชื่อมโยงข้อมูลและบริการต่าง ๆ อย่างมีประสิทธิภาพ ทำให้ประชาชนเข้าถึงข่าวสารสำคัญได้รวดเร็วและแม่นยำ ช่วยลดความเหลื่อมล้ำทางสังคม สร้างเครือข่ายความร่วมมือระหว่างภาครัฐ เอกชน และประชาชน และส่งเสริมเศรษฐกิจชุมชนผ่านแพลตฟอร์มดิจิทัล การประยุกต์ใช้นวัตกรรมการสื่อสารในชุมชนจึงเป็นเครื่องมือสำคัญในการสร้างความยั่งยืนและความเข้มแข็งให้กับชุมชนในทุกมิติ

5. บทสรุปและข้อเสนอแนะ

นวัตกรรมการสื่อสารมีบทบาทสำคัญในการพัฒนาชุมชนในยุคดิจิทัล โดยช่วยเชื่อมโยงข้อมูลและบริการต่าง ๆ อย่างมีประสิทธิภาพ ทำให้ประชาชนเข้าถึงข่าวสารสำคัญได้รวดเร็วและแม่นยำ นอกจากนี้ นวัตกรรมการสื่อสารยังช่วยลดความเหลื่อมล้ำทางสังคม สร้างเครือข่ายความร่วมมือระหว่างภาครัฐ เอกชน และประชาชน และส่งเสริมเศรษฐกิจชุมชนผ่านแพลตฟอร์มดิจิทัล โดยผู้เขียนมีข้อเสนอแนะสำหรับการพัฒนาชุมชนในอนาคต คือ การส่งเสริมการใช้นวัตกรรมการสื่อสารในทุกมิติของชุมชน โดยเฉพาะในพื้นที่ห่างไกลและด้อยโอกาส เพื่อสร้างความเท่าเทียมและยกระดับคุณภาพชีวิตของคนในชุมชน นอกจากนี้ ควรมีการส่งเสริมการวิจัยและพัฒนานวัตกรรมการสื่อสารใหม่ ๆ ที่สอดคล้องกับความต้องการของชุมชนและบริบททางสังคมที่เปลี่ยนแปลงไป

Abstract

This research aimed to: 1) study the personal background, social and economic conditions, and agricultural extension support of lead farmers; 2) assess the agricultural knowledge level of lead farmers; and 3) identify factors affecting the agricultural knowledge of lead farmers at the Agricultural Productivity Enhancement Learning Center in Songkhla Province. The study population comprised 262 chairpersons of the network centers who participated in the 2023 Agricultural Productivity Enhancement Learning Center Project organized by the Department of Agricultural Extension. Purposive sampling was used to select 160 chairpersons who had completed all five training courses: agricultural water systems, new theory agriculture, sufficiency economy, household accounting, and integrated agriculture. Data were collected using a structured questionnaire and analyzed with descriptive statistics and stepwise multiple regression.

The results showed that: 1) Most farmers were male (81.25%), with an average age of 57.43 years. The largest group held a bachelor's degree (31.88%). All farmers received support from government agencies under the Ministry of Agriculture and Cooperatives in the form of training, knowledge, guidance for solving agricultural problems, and study visits, with 21.88% receiving budgetary support for agricultural development. The majority (91.25%) received agricultural information from Department of Agricultural Extension officers. 2) The agricultural knowledge level of lead farmers was high, with an average score of 14.43 out of 20. 3) The only independent variable significantly affecting the agricultural knowledge of lead farmers was budgetary support, with a significance level of 0.01 and an adjusted R-squared of 0.444, indicating that budgetary support could predict 44.40% of the variance in agricultural knowledge. (R^2 Adjusted =0.444).

Keywords: Leaders Farmer, Farmer’s knowledge, Agricultural Learning Center

บทนำ

ประเทศไทยมีความมุ่งมั่นในการพัฒนาเกษตรกรและชุมชนอย่างต่อเนื่อง โดยแผนยุทธศาสตร์การพัฒนาประเทศ และนโยบายคณะรักษาความสงบแห่งชาติ (คสช.) ที่ได้กำหนดให้มีการจัดตั้งศูนย์เรียนรู้การเพิ่มประสิทธิภาพการผลิตสินค้าเกษตร (ศพก.) ขึ้น เพื่อให้เป็นจุดถ่ายทอดความรู้ด้านการเกษตรของชุมชนและเป็นที่ให้บริการข้อมูลข่าวสารและบริการด้านการเกษตร โดยเน้นการเรียนรู้จากเกษตรกรต้นแบบที่ประสบความสำเร็จ เพื่อให้เกษตรกรมีการแลกเปลี่ยนเรียนรู้กับเกษตรกรด้วยกันเอง (กรมส่งเสริมการเกษตร, 2566ก) กระทรวงเกษตรและสหกรณ์จึงได้นำนโยบายการจัดตั้ง ศพก.

มาดำเนินการภายใต้การดูแลของกรมส่งเสริมการเกษตรและได้จัดตั้งศูนย์เรียนรู้ด้านการเกษตรประจำอำเภอ จำนวน 882 ศูนย์ ตั้งแต่ปี พ.ศ. 2558 ซึ่งเรียกกันว่า ศพก. หลัก โดยจัดประเภทตามพืชเศรษฐกิจหลักของพื้นที่ เช่น คาบสมุทรสทิงพระ ศพก. หลัก เป็นศูนย์ข้าว เพื่อเป็นแหล่งเรียนรู้ทางการเกษตรที่สำคัญของชุมชนและถือเป็นกลไกหลักในการถ่ายทอดความรู้จากเกษตรกรต้นแบบ หลังจากนั้น ปี พ.ศ. 2560 ได้มีการรับขึ้นทะเบียนศูนย์เครือข่าย ศพก. เพื่อเป็นศูนย์เรียนรู้ด้านการเกษตรเฉพาะด้าน แบ่งเป็น 23 ประเภท คือ ศูนย์จัดการศัตรูพืชชุมชน (ศจช.) ศูนย์จัดการดินปุ๋ยชุมชน (ศดปช.) ศูนย์เรียนรู้ด้านการจัดการดิน ศูนย์เรียนรู้ด้านประมง ศูนย์เรียนรู้ด้านปศุสัตว์ ศูนย์เรียนรู้ด้านข้าว/ศูนย์ข้าวชุมชน ศูนย์เรียนรู้ด้านพืชไร่ ศูนย์เรียนรู้ด้านไม้ผล ศูนย์เรียนรู้ด้านแมลงเศรษฐกิจ ศูนย์ปราชญ์ชาวบ้าน ศูนย์เรียนรู้เศรษฐกิจพอเพียง/เกษตรทฤษฎีใหม่/เกษตรผสมผสาน ศูนย์เรียนรู้ด้านมาตรฐานการผลิตทางการเกษตร ศูนย์เรียนรู้ด้านเศรษฐกิจเกษตร ศูนย์เรียนรู้ด้านสหกรณ์ ศูนย์เรียนรู้ด้านบัญชี ศูนย์เรียนรู้ด้านชลประทาน/การใช้น้ำอย่างรู้คุณค่า ศูนย์ท่องเที่ยวเชิงเกษตร ศูนย์เรียนรู้พืชผักศูนย์เรียนรู้ด้านหม่อนไหม ศูนย์เรียนรู้ด้านการแปรรูปผลิตผลด้านการเกษตร ศูนย์เรียนรู้ด้านไม้ดอก ไม้ประดับ และศูนย์เรียนรู้อื่น ๆ โดยศูนย์เครือข่ายของ ศพก. มีทั้งหมด 10,533 ศูนย์ ทั่วประเทศ (กรมส่งเสริมการเกษตร, 2566ข) ประกอบกับปัจจุบันเกษตรกรต้องเผชิญต่อสภาพอากาศมีความแปรปรวนจากภาวะโลกร้อนส่งผลกระทบต่อผลผลิตทางการเกษตร พื้นที่ทำการเกษตรเสียหาย การปลูกพืชเชิงเดี่ยวจึงไม่สามารถทำให้เกษตรกรลดความเสี่ยงจากความไม่แน่นอนของรายได้ได้ เกษตรกรจึงหันมาทำเกษตรตามหลักเกษตรทฤษฎีใหม่และเกษตรผสมผสาน รวมถึงการนำหลักปรัชญาเศรษฐกิจพอเพียงมาใช้ดำเนินชีวิต เพื่อให้สามารถพึ่งพาตนเองได้อย่างยั่งยืนในอนาคต (กระทรวงเกษตรและสหกรณ์, 2566) จะเห็นได้ว่าจังหวัดสงขลามีการขึ้นทะเบียนศูนย์เครือข่ายของ ศพก. ประเภทศูนย์เศรษฐกิจพอเพียง/เกษตรผสมผสาน/เกษตรทฤษฎีใหม่มากที่สุดในประเทศเมื่อ ปี พ.ศ. 2560 จำนวน 83 ศูนย์ และยังคงเป็นจังหวัดที่มีการขึ้นทะเบียนประเภทนี้สูงที่สุดในภาคใต้ จำนวน 124 ศูนย์ ในปี พ.ศ. 2566 (กรมส่งเสริมการเกษตร, 2566ค)

ศูนย์เครือข่ายของ ศพก. ประเภทเศรษฐกิจพอเพียง/เกษตรผสมผสาน/เกษตรทฤษฎีใหม่เป็นศูนย์เรียนรู้ด้านการเกษตรที่ทำหน้าที่ถ่ายทอดความรู้เฉพาะทาง โดยมีเกษตรกรผู้นำในพื้นที่เป็นผู้มีบทบาทในการถ่ายทอดความรู้ไปสู่เกษตรกรรายอื่น ซึ่งเกษตรกรผู้นำหรือประธานศูนย์เครือข่ายเป็นแบบอย่างของเกษตรกรในพื้นที่ที่มีความเชี่ยวชาญในความรู้ทางการเกษตร และต้องมีการปฏิบัติตามบทบาทหน้าที่ของเกษตรกรผู้นำฯ ในการวางแผนโครงการ การปฏิบัติงานตามแผน การประเมินผลและรักษาโครงการและกิจกรรมต่าง ๆ ที่ได้รับการส่งเสริมให้คงไว้ตลอดไป นอกจากนี้ เกษตรกรผู้นำยังทำหน้าที่ช่วยเหลือเจ้าหน้าที่ส่งเสริมการเกษตรในการแพร่กระจายความรู้และเทคโนโลยีไปยังเกษตรกรที่อยู่ห่างไกลได้ด้วย เกษตรกรผู้นำจึงเป็นศูนย์กลางของการถ่ายทอดความรู้และเทคโนโลยีไปสู่เกษตรกรรายอื่นได้อย่างมีประสิทธิภาพ (คณะเกษตรศาสตร์ มหาวิทยาลัยเชียงใหม่, ม.ป.ป.) จากที่มาและความสำคัญของปัญหาทำให้ผู้วิจัยสนใจศึกษาปัจจัยที่ส่งผลต่อความรู้ทางการเกษตรของเกษตรกรผู้นำศูนย์เรียนรู้การเพิ่มประสิทธิภาพการผลิตสินค้าเกษตรในจังหวัดสงขลา เพื่อนำข้อมูลที่ได้ไปพัฒนาความรู้ของเกษตรกรผู้นำให้สามารถถ่ายทอดองค์ความรู้ที่มีสู่เกษตรกรรายอื่นและช่วยแก้ปัญหาให้แก่เกษตรกรได้อย่างมีประสิทธิภาพมากยิ่งขึ้น

วัตถุประสงค์ของการวิจัย

1. เพื่อศึกษาข้อมูลพื้นฐานส่วนบุคคล สภาพทางสังคม เศรษฐกิจ และการส่งเสริมการเกษตรของเกษตรกรผู้นำศูนย์เรียนรู้การเพิ่มประสิทธิภาพการผลิตสินค้าเกษตรในจังหวัดสงขลา

2. เพื่อศึกษาระดับความรู้ทางการเกษตรของเกษตรกรผู้นำศูนย์เรียนรู้การเพิ่มประสิทธิภาพการผลิตสินค้าเกษตรในจังหวัดสงขลา

3. เพื่อวิเคราะห์ปัจจัยที่ส่งผลต่อความรู้ทางการเกษตรของเกษตรกรผู้นำศูนย์เรียนรู้การเพิ่มประสิทธิภาพการผลิตสินค้าเกษตรในจังหวัดสงขลา

แนวคิด ทฤษฎี กรอบแนวคิด

ณัฏฐชนก ธนัตพร (2555) กล่าวว่า ผู้นำ คือ ผู้ที่มีความสามารถในการปฏิสัมพันธ์กับผู้ร่วมงานเพื่อโน้มน้าวจิตใจให้ปฏิบัติงานร่วมกัน ด้วยความพึงพอใจ เต็มใจให้การดำเนินงานไปสู่เป้าหมายที่ได้วางร่วมกันอย่างมีระเบียบแบบแผน โดยเป็นผู้รับผิดชอบ เป็นผู้มีอิทธิพลและอำนาจเหนือผู้ร่วมงานในหน่วยงาน ผู้นำไม่จำเป็นว่าจะต้องเป็นผู้ร่วมงานหรือผู้บริหาร แต่หัวหน้างานหรือผู้บริหารต้องมีลักษณะการเป็นผู้นำ กล่าวคือ ต้องรู้จักประสานงาน ควบคุม กำกับ นิเทศ ประเมินผลและตัดสินใจต้องเป็นผู้ที่กลุ่มให้ความเชื่อถือ ศรัทธา ไว้วางใจ เป็นศูนย์รวมของพฤติกรรมของสมาชิกในกลุ่ม

ความสำคัญในงานส่งเสริมและพัฒนาการเกษตรของผู้นำ

พรชุลีย์ นิลวิเศษ (2545) กล่าวว่า ผู้นำ มีความสำคัญในงานส่งเสริมการเกษตร ดังนี้

1. ผู้นำเป็นศูนย์กลางในการรับความรู้และเทคโนโลยีที่เหมาะสมทางการเกษตรและที่เกี่ยวข้องจากเจ้าหน้าที่สู่เกษตรกรและชุมชนที่สนใจ

2. ผู้นำเป็นที่ปรึกษาและแนะนำให้ความช่วยเหลือในการประกอบการเกษตร แก่เกษตรกรและชุมชนเมื่อประสบปัญหา

3. เป็นวิทยากรในการถ่ายทอดความรู้และเทคโนโลยีที่เหมาะสมทางการเกษตรและที่เกี่ยวข้องให้แก่เกษตรกรทั่วไปในชุมชน

4. ผู้นำเป็นผู้ช่วยดำเนินกิจกรรมต่าง ๆ ในชุมชนของเจ้าหน้าที่ เช่น การนัดหมายเกษตรกร การร่วมจัดทำแผนชุมชน และการร่วมจัดทำแปลงสาธิต เป็นต้น

5. ผู้นำเป็นตัวแทนของเกษตรกรในท้องถิ่นและการสะท้อนปัญหาและความต้องการของชุมชนท้องถิ่นให้แก่เจ้าหน้าที่

6. ผู้นำเป็นผู้ช่วยกระตุ้นให้เกษตรกรทั่วไปเกิดความกระตือรือร้นและมีความคิดริเริ่ม

7. ผู้นำเป็นผู้รับผิดชอบสิ่งต่าง ๆ ที่หน่วยงานและเจ้าหน้าที่จะเข้ามาส่งเสริมและบริการแก่เกษตรกรและชุมชน

8. ผู้นำเป็นแบบอย่างหรือแม่แบบในการนำวิธีการใหม่และเทคโนโลยีทางการเกษตรมาให้เกษตรกรใช้ในท้องถิ่น ชุมชน

สรุป ผู้นำ หมายถึง ผู้ที่มีความสามารถในการประสานงาน ควบคุม กำกับ นิเทศ ประเมินผลและตัดสินใจ เป็นผู้ที่กลุ่มให้ความเชื่อถือ ศรัทธา ไว้วางใจ เป็นศูนย์รวมของพฤติกรรมของสมาชิกในกลุ่มทำให้การทำงานประสบความสำเร็จตามเป้าหมายที่กำหนดไว้

ความรู้ สำนักงานคณะกรรมการพัฒนาระบบราชการ (2560) ระบุว่าความรู้ (Knowledge) คือสิ่งที่ได้จากกระบวนการที่มนุษย์รับข้อมูลผ่านกระบวนการคิด เปรียบเทียบ เชื่อมโยง จนเกิดเป็นความเข้าใจและนำไปใช้ ส่วนความรู้ขั้นสูงสุด คือ ปัญญา (Wisdom) เป็นความรู้ที่สะสมหรือฝังอยู่ในตัวบุคคล

ระดับของความรู้ สำนักงานวิจัยและส่งเสริมวิชาการเกษตร (2562) ได้แบ่งระดับความรู้แบ่งออกได้เป็น 4 ระดับ คือ

1. ความรู้เชิงทฤษฎี (Know-What) เป็นความรู้เชิงข้อเท็จจริง รู้อะไรเป็นอะไร จะพบในผู้ที่สำเร็จการศึกษามาใหม่ ๆ ที่มีความรู้โดยเฉพาะความรู้ที่จำมา ได้จากความรู้ชัดแจ้งซึ่งได้จากการได้เรียนมากแต่เวลาทำงานก็จะไม่มั่นใจ มักจะปรึกษารุ่นพี่ก่อน

2. ความรู้เชิงทฤษฎีและเชิงบริบท (Know-How) เป็นความรู้เชื่อมโยงกับโลกของความเป็นจริง ภายใต้สภาพความเป็นจริงที่ซับซ้อนสามารถนำเอาความรู้ชัดแจ้งที่ได้มาประยุกต์ใช้ตามบริบทของตนเองได้ มักพบในคนที่ทำงานไปหลาย ๆ ปี จนเกิดความรู้ฝังลึกที่เป็นทักษะหรือประสบการณ์มากขึ้น

3. ความรู้ในระดับที่อธิบายเหตุผล (Know-Why) เป็นความรู้เชิงเหตุผลระหว่าง เรื่องราวหรือเหตุการณ์ต่าง ๆ ผลของประสบการณ์แก้ปัญหาที่ซับซ้อน และนำประสบการณ์มาแลกเปลี่ยนเรียนรู้กับผู้อื่น เป็นผู้ทำงานมาระยะหนึ่งแล้วเกิดความรู้ฝังลึก สามารถถอดความรู้ฝังลึกของตนเองมาแลกเปลี่ยนกับผู้อื่นหรือถ่ายทอดให้ผู้อื่นได้พร้อมทั้งรับเอาความรู้จากผู้อื่นไปปรับใช้ในบริบทของตนเองได้

4. ความรู้ในระดับคุณค่า ความเชื่อ (Care-Why) เป็นความรู้ในลักษณะของความคิดริเริ่มสร้างสรรค์ที่มาจากภายในตนเองจะเป็นผู้ที่สามารถสกัด ประมวล วิเคราะห์ความรู้ที่ตนเองมีอยู่กับความรู้ที่ตนเองได้รับมาสร้างเป็นองค์ความรู้ใหม่ขึ้นมาได้ เช่น สร้างตัวแบบหรือทฤษฎีใหม่หรือนวัตกรรมขึ้นมาใช้ในการทำงานได้

สำหรับการวิจัยครั้งนี้จะเน้นความรู้ระดับที่อธิบายเหตุผล (Know-Why) เป็นความรู้ที่เกิดจากการศึกษาเรียนรู้และประกอบกับประสบการณ์ของเกษตรกร ทำให้แก้ปัญหาที่พบได้ในระดับหนึ่ง สามารถถ่ายทอดความรู้ให้กับเกษตรกรรายอื่นได้ รวมถึงการนำความรู้ที่ได้จากเกษตรกรรายอื่นมาปรับใช้กับการทำการเกษตรของตนเองได้

ศูนย์เรียนรู้การเพิ่มประสิทธิภาพการผลิตสินค้าเกษตร (ศพก.) คณะรักษาความสงบแห่งชาติ (คสช.) ได้ให้ความสำคัญในเรื่องการเพิ่มประสิทธิภาพการผลิตสินค้าเกษตรของประเทศ จึงมีนโยบายจัดตั้งศูนย์เรียนรู้การเพิ่มประสิทธิภาพการผลิตสินค้าเกษตร (ศพก.) โดยเน้นให้มีศูนย์เรียนรู้เพื่อให้เป็นสถานที่ถ่ายทอดความรู้ ด้านการเกษตรแก่ชุมชนและให้บริการด้านข้อมูลข่าวสาร และบริการด้านการเกษตร โดยเน้นการเรียนรู้จากเกษตรกรต้นแบบที่ประสบผลสำเร็จในการเพิ่มประสิทธิภาพการผลิตสินค้าเกษตร การเพิ่มผลผลิต การลดต้นทุนการผลิต การพัฒนาคุณภาพ ตลอดจนยึดหลักปรัชญาของเศรษฐกิจพอเพียง โดยใช้กระบวนการเรียนรู้ แบบมีส่วนร่วมอย่างต่อเนื่องตลอดฤดูกาลผลิต เกษตรกรมีการแลกเปลี่ยนเรียนรู้กับเกษตรกรต้นแบบในลักษณะเกษตรกรสอนเกษตรกร มีหลักสูตรและแผนการเรียนรู้ที่ชัดเจน มีการบริหารจัดการ ศพก. ในรูปแบบคณะกรรมการภาคเกษตรกร โดยรัฐบาลสนับสนุนวิชาการ ปัจจัยการผลิตด้านการเกษตร เพื่อการสาธิตและถ่ายทอดเทคโนโลยี (กรมส่งเสริมการเกษตร, 2565ก)

วัตถุประสงค์ในการจัดตั้งศูนย์เรียนรู้การเพิ่มประสิทธิภาพการผลิตสินค้าเกษตร (ศพก.)

1. เป็นศูนย์กลางในการถ่ายทอดเทคโนโลยีการผลิต การบริหารจัดการและการตลาดแก่เกษตรกร รวมทั้งการให้บริการทางการเกษตร และเผยแพร่ข้อมูลข่าวสารในพื้นที่

2. เพื่อเป็นกลไกในการบูรณาการการทำงานของหน่วยงานต่าง ๆ ในการแก้ไขปัญหาและพัฒนาการเกษตรในพื้นที่

บทบาทหน้าที่ของศูนย์เรียนรู้การเพิ่มประสิทธิภาพการผลิตสินค้าเกษตร (ศพก.)

1. ถ่ายทอดความรู้เทคโนโลยีการเกษตรที่เหมาะสมกับชุมชน
2. ให้บริการข้อมูลข่าวสารแก่เกษตรกรในชุมชน
3. ให้บริการด้านการเกษตรอื่นๆ
4. ให้บริการแก้ปัญหาและรับเรื่องร้องเรียนของเกษตรกร
5. เป็นจุดศูนย์กลางในการพบปะของอาสาสมัครเกษตรกับเจ้าหน้าที่ส่งเสริมการเกษตร และเจ้าหน้าที่หน่วยงานต่างๆ ที่เกี่ยวข้อง เพื่อตอบสนองความต้องการของชุมชนและเกษตรกรในพื้นที่ โดยได้รับความยินยอมจากเกษตรกรต้นแบบที่เป็นเจ้าของ ศพก. นั้นๆ
6. ดำเนินการร่วมกับศูนย์บริการและถ่ายทอดเทคโนโลยีการเกษตรประจำตำบล ภาคเอกชน ส่วนราชการ และองค์กรปกครองส่วนท้องถิ่นในพื้นที่

งานวิจัยปัจจัยที่ส่งผลต่อความรู้ทางการเกษตรของเกษตรกรผู้นำ ศูนย์เรียนรู้การเพิ่มประสิทธิภาพการผลิตสินค้าเกษตรในจังหวัดสงขลา มีกรอบแนวคิด ดังภาพที่ 1

ตัวแปรอิสระ (Dependent Variables)

สภาพพื้นฐานส่วนบุคคล สังคม และเศรษฐกิจของเกษตรกรผู้นำ

1. ข้อมูลพื้นฐานส่วนบุคคล
- เพศ
- อายุ
- สถานภาพสมรส
- จำนวนปีที่ศึกษา
- จำนวนสมาชิกในครัวเรือน
- จำนวนแรงงานภาคการเกษตรในครัวเรือน
- ประสบการณ์ในการทำการเกษตร
- จำนวนชนิดพืชที่ปลูก

2. สภาพทางสังคม
- จำนวนการเป็นสมาชิกกลุ่ม/องค์กร
- จำนวนการเป็นผู้นำชุมชน
- จำนวนการเป็นอาสาสมัครเกษตร
- จำนวนการเป็นอาสาสมัครอื่น ๆ
- ประสบการณ์การเป็นเกษตรกรผู้นำ
- จำนวนครั้งในการเป็นวิทยากร
- จำนวนครั้งการพบปะกับเกษตรกรผู้นำรายอื่น

3. สภาพทางเศรษฐกิจ
- รายได้จากการเกษตรต่อปี
- รายจ่ายทางการเกษตรต่อปี
- หนี้สินทางการเกษตร
- พื้นที่ถือครองที่ดินเพื่อการเกษตร
- จำนวนแหล่งเงินทุนในการทำการเกษตร

4. การส่งเสริมการเกษตร
- จำนวนครั้งการเข้ารับการฝึกอบรม

ตัวแปรตาม
(Independent Variables)

ความรู้ทางการเกษตรของเกษตรกรผู้นำ
1. เศรษฐกิจพอเพียง
2. เกษตรทฤษฎีใหม่
3. เกษตรผสมผสาน
4. การจัดทำบัญชีครัวเรือน
5. ระบบน้ำสำหรับการเกษตร

ภาพที่ 1 กรอบแนวคิดการวิจัย

วิธีดำเนินการวิจัย

1. ประชากรและกลุ่มตัวอย่างในการวิจัย

ประชากรในการศึกษาครั้งนี้ คือ ประธานศูนย์เครือข่ายศูนย์เรียนรู้การเพิ่มประสิทธิภาพการผลิตสินค้าเกษตรในจังหวัดสงขลา ที่เข้าร่วมกิจกรรมการจัดกระบวนการเรียนรู้ให้กับเกษตรกรผู้นำ โครงการศูนย์เรียนรู้การเพิ่มประสิทธิภาพการผลิตสินค้าเกษตร ปี 2566 ของกรมส่งเสริมการเกษตร จำนวนทั้งสิ้น 262 ราย (กรมส่งเสริมการเกษตร, 2566ง) และใช้วิธีการสุ่มตัวอย่างด้วยวิธีเฉพาะเจาะจง ได้กลุ่มตัวอย่างในการศึกษาเป็นประธานศูนย์เครือข่ายศูนย์เรียนรู้การเพิ่มประสิทธิภาพการผลิตสินค้าเกษตรในจังหวัดสงขลา ที่ผ่านการอบรมหลักสูตร ทั้งหมด 5 หลักสูตร คือ หลักสูตรระบบน้ำสำหรับการเกษตร เกษตรทฤษฎีใหม่ เศรษฐกิจพอเพียง การจัดทำบัญชีครัวเรือน และเกษตรผสมผสาน โครงการศูนย์เรียนรู้การเพิ่มประสิทธิภาพการผลิตสินค้าเกษตร ปี 2566 ของกรมส่งเสริมการเกษตร จำนวน 160 ราย

2. เครื่องมือในการวิจัย

การศึกษาครั้งนี้ใช้แบบสัมภาษณ์เชิงโครงสร้างเป็นเครื่องมือในการเก็บรวบรวมข้อมูล โดยประยุกต์ข้อมูลทุติยภูมิเกี่ยวกับแนวคิด ทฤษฎี และงานวิจัยที่เกี่ยวข้องกับผู้นำ ความรู้ และข้อมูลปฐมภูมิที่ได้จากการเก็บรวบรวมข้อมูลภาคสนามจากเกษตรกร

3. การตรวจสอบคุณภาพเครื่องมือ

การทดสอบความเที่ยงตรงของเครื่องมือ (Validity Test) โดยให้ผู้เชี่ยวชาญ จำนวน 3 ท่าน ตรวจสอบความตรงตามวัตถุประสงค์และเนื้อหา (IOC) กำหนดเกณฑ์การผ่านเท่ากับ 0.67 โดยข้อคำถามทุกข้อมีค่าระหว่าง 0.67 - 1.00 ซึ่งสามารถนำไปใช้ได้ ดำเนินการปรับปรุงแบบสอบถามตามข้อเสนอแนะของผู้เชี่ยวชาญ แล้วทดสอบความเชื่อมั่นของเครื่องมือ (Reliability Test) กับประชากรที่ไม่ใช่กลุ่มตัวอย่าง จำนวน 30 คน ในพื้นที่อำเภอทุ่งใหญ่ ปากพนัง และชะอวดของจังหวัดนครศรีธรรมราช ซึ่งกำหนดเกณฑ์ค่าสัมประสิทธิ์แอลฟ่าของครอนบัค (สุวิมล ติรกานันท์, 2551) เท่ากับ 0.70 ขึ้นไปถือว่ามีความเชื่อมั่นในระดับที่ยอมรับได้สำหรับข้อคำถามมาตราส่วนประมาณค่า โดยแบบสอบถามครั้งนี้ได้ค่าสัมประสิทธิ์แอลฟ่าของครอนบัคทั้งฉบับ เท่ากับ 0.813 ซึ่งได้ข้อคำถามที่เป็นความรู้ทางการเกษตร จำนวน 20 ข้อ

4. การวิเคราะห์ข้อมูล

การวิจัยครั้งนี้เป็นการวิจัยเชิงปริมาณ ประกอบด้วยสถิติ 2 ส่วน คือ

1) สถิติเชิงพรรณนา (Descriptive Statistics) ใช้สำหรับวิเคราะห์ข้อมูลพื้นฐานส่วนบุคคล สภาพทางสังคม เศรษฐกิจ และการส่งเสริมการเกษตร ได้แก่ ค่าความถี่ (Frequency) ค่าร้อยละ (Percentage) ค่าสูงสุด (Maximum) ค่าต่ำสุด (Minimum) ค่าเฉลี่ย (Arithmetic Mean) และค่าส่วนเบี่ยงเบนมาตรฐาน (Standard Deviation)

2) สถิติเชิงอ้างอิง (Inferential Statistics) ใช้วิธีการวิเคราะห์ถดถอยพหุแบบขั้นตอน (Stepwise Multiple Regression Analysis) เพื่อหาความสัมพันธ์ระหว่างตัวแปรอิสระและตัวแปรตาม สำหรับทดสอบสมมติฐานการวิจัย ดังสมการ

$$Y_1 = a + b_1x_1 + b_2x_2 + ... + b_{28}x_{28}$$

เมื่อ Y คือ ความรู้ทางการเกษตรของเกษตรกรผู้นำ (คะแนน 0 – 20)

a คือ ค่าคงที่

$b_1, b_2,..., b_{28}$ คือ ค่าสัมประสิทธิ์ความสัมพันธ์ระหว่างตัวแปรอิสระกับตัวแปรตามเมื่อควบคุมค่าของตัวแปรอิสระอื่นที่มีอยู่ในสมการได้คงที่แล้ว

$x_1,x_2,...,x_{28}$ คือ คือ ปัจจัยส่วนบุคคล ปัจจัยทางสังคม ปัจจัยทางเศรษฐกิจ และการส่งเสริมการเกษตรของเกษตรกรผู้นำ ซึ่งมีรายละเอียด ดังนี้

X_1 คือ เพศของเกษตรกร (1=ชาย, 2=หญิง, 3=เพศทางเลือก)

X_2 คือ อายุของเกษตรกร (ปี)

X_3 คือ สถานภาพการสมรส (1=โสด, (2=สมรส, 3=หย่า, 4=อื่นๆ)

X_4 คือ จำนวนปีที่ศึกษา (ปี)

X_5 คือ จำนวนสมาชิกในครัวเรือน (คน)

X_6 คือ จำนวนแรงงานภาคการเกษตรในครัวเรือน (คน)

X_7 คือ ประสบการณ์ในการทำการเกษตร (ปี)

X_8 คือ จำนวนชนิดพืชหลักที่ปลูก (ชนิด)

X_9 คือ จำนวนการเป็นสมาชิกของกลุ่ม/องค์การการเกษตร (กลุ่ม)

X_{10} คือ จำนวนการเป็นผู้นำชุมชน (ตำแหน่ง)

X_{11} คือ จำนวนการเป็นอาสาสมัครเกษตร (ตำแหน่ง)

X_{12} คือ จำนวนการเป็นอาสาสมัครประเภทอื่น(ตำแหน่ง)

X_{13} คือ ประสบการณ์ในการเป็นเกษตรกรผู้นำ (ปี)

X_{14} คือ จำนวนครั้งการพบปะกับเกษตรกรผู้นำรายอื่น (ครั้ง/เดือน)

X_{15} คือ จำนวนครั้งในการเป็นวิทยากร (ครั้ง/ปี)

X_{16} คือ รายได้จากการเกษตร (บาท/ปี)

X_{17} คือ รายจ่ายทางการเกษตร (บาท/ปี)

X_{18} คือ หนี้สินทางการเกษตร (บาท)

X_{19} คือ จำนวนแหล่งเงินทุนในการทำการเกษตร (แหล่ง)

X_{20} คือ พื้นที่ถือครองที่ดินเพื่อการเกษตร (ไร่)

X_{21} คือ จำนวนการได้รับการฝึกอบรมคำแนะนำ(ครั้ง/ปี)

X_{22} คือ จำนวนการได้รับความรู้และ (ครั้ง/ปี)

X_{23} คือ จำนวนการได้รับสนับสนุนปัจจัยการผลิตเจ้าหน้าที่(ครั้ง/ปี)

X_{24} คือ จำนวนการเยี่ยมเยือนจากส่งเสริมการเกษตร (ครั้ง/เดือน)

X_{25} คือ จำนวนการไปทัศนศึกษาดูงาน (ครั้ง/ปี)

X_{26} คือ การได้รับการสนับสนุนงบประมาณ (บาท)

X_{27} คือ จำนวนครั้งในการติดต่อขอคำแนะนำจากข่าวสารเจ้าหน้าที่ (ครั้ง/เดือน)

X_{28} คือ จำนวนแหล่งที่มาในการรับรู้ (แหล่ง)

เงื่อนไขเบื้องต้นในการวิเคราะห์ถดถอยพหุแบบขั้นตอน (Stepwise Multiple Regression Analysis) ระบุว่าระหว่างตัวแปรอิสระจะต้องมีความสัมพันธ์กันน้อย ด้วยเงื่อนไขดังกล่าวผู้วิจัยได้ทำการวิเคราะห์ความสัมพันธ์ระหว่างตัวแปรอิสระแต่ละตัวโดยตัดตัวแปรที่มีค่าความสัมพันธ์สูง พบว่ามีเพียง 8 ตัวแปรอิสระที่มีค่าความสัมพันธ์ระหว่างตัวแปรน้อย คือ ตัวแปรอิสระ X_9 X_{12} X_{15} X_{17} X_{18} X_{20} X_{23} และ X_{26} จึงได้นำตัวแปรอิสระทั้ง 8 ตัวนี้เข้าไปสู่การวิเคราะห์ถดถอยพหุแบบขั้นตอน (Stepwise Multiple Regression Analysis)

ผลการวิจัย

1. สภาพพื้นฐานส่วนบุคคล สังคม เศรษฐกิจ และการส่งเสริมการเกษตรของเกษตรกรผู้นำศูนย์เรียนรู้การเพิ่มประสิทธิภาพการผลิตสินค้าเกษตรในจังหวัดสงขลา พบว่าเกษตรกรส่วนใหญ่เป็นเพศชาย (ร้อยละ 81.25) อายุเกษตรกรเฉลี่ย 57.43 ปี มีสถานภาพการสมรส (ร้อยละ 90.00) จบการศึกษาระดับปริญญาตรีมากที่สุด (ร้อยละ 31.88) สมาชิกในครัวเรือนเฉลี่ยประมาณ 4 คน แรงงานภาคการเกษตรในครัวเรือนเฉลี่ยประมาณ 3 คน ประสบการณ์ในการทำการเกษตรเฉลี่ย 21.57 ปี ทำการเกษตรโดยการปลูกพืชหลักเฉลี่ยประมาณ 3 ชนิด เช่น ข้าว ยางพารา ปาล์มน้ำมัน ไม้ผล เป็นต้น เกษตรกรส่วนใหญ่เป็นสมาชิกของกลุ่ม/องค์กรการเกษตร (ร้อยละ 85.63) และไม่เป็นผู้นำชุมชน ร้อยละ 55.63 เกษตรกรเป็นอาสาสมัครเกษตร ร้อยละ 50.00 แต่ส่วนใหญ่ไม่ได้เป็นอาสาสมัครประเภทอื่น (ร้อยละ 73.75) มีประสบการณ์ในการเป็นเกษตรกรผู้นำเฉลี่ย 8.00 ปี มีการแลกเปลี่ยนข้อมูลกับเกษตรกรผู้นำรายอื่นเฉลี่ย 2.59 ครั้งต่อเดือน ทำหน้าที่เป็นวิทยากรถ่ายทอดความรู้ทางการเกษตรเฉลี่ย 3.21 ครั้งต่อปี มีรายได้จากการเกษตรเฉลี่ย 166,028.75 บาทต่อปี รายจ่ายทางการเกษตรเฉลี่ย 66,526.25 บาทต่อปี เกษตรกรไม่มีหนี้สินทางการเกษตร ร้อยละ 68.13 แหล่งเงินทุนในการทำการเกษตรเฉลี่ยประมาณ 2 แหล่ง แหล่งเงินทุนครอบครัวมากที่สุด ร้อยละ 66.25 มีจำนวนที่ดินเพื่อทำการเกษตรเฉลี่ย 19.94 ไร่ โดยส่วนใหญ่เป็นที่ดินของตนเอง เกษตรกรทั้งหมดได้รับการสนับสนุนจากหน่วยงานภาครัฐ ภายใต้กระทรวงเกษตรกรและสหกรณ์ในเรื่องการฝึกอบรม การได้รับความรู้และคำแนะนำในการแก้ปัญหาด้านการเกษตร และการไปทัศนศึกษาดูงาน รวมทั้งได้รับการสนับสนุนงบประมาณเพื่อพัฒนางานด้านการเกษตร เกษตรกรไปหาเจ้าหน้าที่เพื่อรับคำแนะนำเฉลี่ย 1.78 ครั้งต่อเดือน (ร้อยละ 80.00) ได้รับข่าวสารความรู้ด้านการเกษตรจากเจ้าหน้าที่กรมส่งเสริมการเกษตรมากที่สุด ร้อยละ 91.25 รองลงมา คือ สื่อสังคมออนไลน์ โดยเกษตรกรได้รับความรู้จาก Facebook มากที่สุด

2. ระดับความรู้ทางการเกษตร เป็นข้อทดสอบจำนวน 20 ข้อ คะแนนเต็ม 20 คะแนน ผลการทดสอบความรู้ พบว่า ภาพรวมของเกษตรกรผู้นำศูนย์เรียนรู้การเพิ่มประสิทธิภาพการผลิตสินค้าเกษตรในจังหวัดสงขลา มีระดับความรู้ทางการเกษตร อยู่ในระดับสูง โดยมีช่วงคะแนน 14.01 - 20.00 คะแนน (ร้อยละ 68.75) คะแนนเฉลี่ยที่เกษตรกรผู้นำตอบถูกเท่ากับ 14.43 คะแนน (ดังตารางที่ 1) ซึ่งพบว่าเกษตรกรมีความรู้ในด้านเศรษฐกิจพอเพียงมากที่สุดเฉลี่ย 0.94 และมีความรู้ด้านระบบน้ำสำหรับการเกษตรน้อยที่สุดเฉลี่ย 0.55 (ดังตารางที่ 2)

ตารางที่ 1 ระดับความรู้ทางการเกษตรของเกษตรกรผู้นำ

ระดับความรู้ทางการเกษตร	จำนวน (คน)	ร้อยละ
0.00 – 6.00 (ความรู้ระดับต่ำ)	0	0.00
7.00 – 13.00 (ความรู้ระดับปานกลาง)	50	31.25
14.00 – 20.00 (ความรู้ระดับสูง)	110	68.75
$\overline{X}$ = 14.43, S.D. = 1.75, Minimum = 11, Maximum = 19		

ตารางที่ 2 ความรู้ทางการเกษตรของเกษตรกรผู้นำ

ข้อ	ความรู้ทางการเกษตรของเกษตรกรผู้นำ	ตอบถูกต้อง (ร้อยละ)	ตอบไม่ถูกต้อง (ร้อยละ)
ความรู้ด้านเศรษฐกิจพอเพียง			
1.	การวางแผนบริหารจัดการประเทศ เป็นการปฏิบัติตนตามหลักปรัชญาเศรษฐกิจพอเพียง	153 (95.62)	7 (4.38)
2.	การผลิตเพื่อการค้า เป็นการดำเนินการตามหลักแนวคิดเศรษฐกิจพอเพียง	147 (91.88)	13 (8.12)
ความรู้ด้านเกษตรทฤษฎีใหม่			
3.	ทฤษฎีใหม่เป็นหลักการที่เป็นแนวทางปฏิบัติสำหรับเกษตรกรที่มีพื้นที่ทำกินขนาดเล็กที่ดินประมาณ 3 ไร่	128 (80.00)	32 (20.00)
4.	ขั้นตอนของทฤษฎีใหม่ มี 3 ขั้น คือ ขั้นต้น การแบ่งพื้นที่ ขั้นที่สอง การรวมกลุ่มกันของเกษตรกร ขั้นที่สาม การติดต่อประสานงานเพื่อจัดหาทุนหรือแหล่งเงิน	144 (90.00)	16 (10.00)
5.	แนวคิดทฤษฎีใหม่ ลดความเสี่ยงจากราคาผลผลิตตกต่ำ	138 (86.25)	22 (13.75)
ความรู้ด้านเกษตรผสมผสาน			
6.	การกำจัดวัชพืชโดยทางชีวภาพ คือ การใช้วิธีการธรรมชาติโดยใช้สิ่งมีชีวิตด้วยกันเป็นตัวกำจัด	145 (90.63)	15 (9.37)
7.	การทำเกษตรผสมผสานมีประโยชน์ในด้านการลดต้นทุนการผลิตมากที่สุด	116 (72.50)	44 (27.50)
ความรู้ด้านการจัดทำบัญชีครัวเรือน			
8.	การทำบัญชีรายรับ - รายจ่าย อย่างง่าย เรียกว่า บัญชีชาวบ้าน	141 (88.13)	19 (11.87)
9.	การทำบัญชีรายรับ - รายจ่าย เพื่อให้ทราบถึงวิธีการใช้จ่ายเงินในแต่ละเดือน	142 (88.75)	18 (11.25)
10.	ถ้าเขียนตัวเลขบัญชีผิดควรขีดฆ่าทั้งจำนวนแล้วเซ็นชื่อกำกับและเขียนใหม่ให้ถูกต้อง	149 (93.13)	11 (6.87)
11.	การเขียนสมการบัญชีครัวเรือน คือ สินทรัพย์ = หนี้สิน + ทุน	114 (71.25)	46 (28.75)
ความรู้ด้านระบบน้ำสำหรับการเกษตร			
12.	การส่งน้ำบนพื้นที่เนินสูงควรเดินท่อเมนไปยังจุดที่ต้องการและวางท่อเมนย่อยและท่อย่อยตามแนวปลูกพืช	65 (40.63)	95 (59.38)
13.	การเลือกขนาดท่อน้ำ เป็นสิ่งที่ต้องทำอันดับแรก ในการออกแบบระบบการให้น้ำพืช	104 (65.00)	56 (35.00)
14.	ความต้องการน้ำของพืช คือ ปริมาณน้ำที่พืชต้องการใช้ในการคายน้ำ	78 (48.75)	82 (51.25)
15.	วิธีการคำนวณออกแบบระบบน้ำเริ่มคำนวณจากปั๊มไปยังหัวจ่ายน้ำ	66 (41.25)	94 (58.75)
16.	ระบบการให้น้ำพืชแบบน้ำหยด ต้องใช้แรงดันต่ำ	136 (85.00)	24 (15.00)
17.	ระบบการให้น้ำพืชแบบสปริงเกอร์ มีอัตราการไหลของน้ำน้อย	97 (60.63)	63 (39.37)
18.	แปลงปลูกพืชไร่ พืชผัก พื้นที่ขนาดใหญ่ ควรเลือกใช้ระบบน้ำแบบมินิสปริงเกอร์	85 (53.13)	75 (46.87)
19.	ระบบการให้น้ำพืชแบบน้ำหยด ใช้ระยะเวลาการให้น้ำน้อย	96 (60.00)	64 (40.00)

ตารางที่ 2 (ต่อ)

ข้อ	ความรู้ทางการเกษตรของเกษตรกรผู้นำ	ตอบถูกต้อง (ร้อยละ)	ตอบไม่ถูกต้อง (ร้อยละ)
ความรู้ด้านระบบน้ำสำหรับการเกษตร (ต่อ)			
20.	ขนาดท่อ PVC ที่มากขึ้น อัตราการไหลของน้ำจะน้อยลง	64 (40.00)	96 (60.00)

3. ผลการวิเคราะห์ สามารถนำมาเขียนสมการถดถอย ได้ดังนี้

$Y_1 = 13.925 + 0.00001742x_{26}$

สมการถดถอยมีค่าประมาณการค่าคงที่ เท่ากับ 13.925 หมายความว่า กลุ่มตัวอย่างที่ทำการศึกษามีคะแนนความรู้ทางการเกษตรจำนวน 13.925 คะแนน ซึ่งเป็นคะแนนที่เป็นอิสระจากตัวแปรอิสระอื่น ๆ โดยค่าสัมประสิทธิ์ความถดถอยของการได้รับการสนับสนุนงบประมาณเพื่อการพัฒนางานด้านการเกษตร (X_{26}) มีความสัมพันธ์ในเชิงบวกกับตัวแปรตาม ที่ระดับนัยสำคัญ 0.01 มีค่าเท่ากับ 0.00001742 สามารถอธิบายได้ว่า หากเกษตรกรผู้นำได้รับการสนับสนุนงบประมาณเพื่อการพัฒนางานด้านการเกษตรเพิ่มขึ้น 1 บาท เกษตรกรจะมีความรู้ทางการเกษตรเพิ่มขึ้น 0.00001742 คะแนน ค่าสัมประสิทธิ์การทำนายเชิงพหุ (Multiple Coefficient of Determination, R^2) ปรากฏว่า R^2 Adjusted มีค่าเท่ากับ 0.444 มีผลต่อตัวแปรตามมีนัยสำคัญทางสถิติ 0.01 หมายความว่า การได้รับการสนับสนุนงบประมาณ สามารถอธิบายการเปลี่ยนแปลง ความรู้ทางการเกษตรของเกษตรกรผู้นำ ได้ร้อยละ 44.40 โดยส่วนที่เหลืออีก ร้อยละ 55.60 เป็นผลมาจากการเปลี่ยนแปลงของปัจจัยอื่นที่ไม่ได้นำเข้ามาในสมการ ดังตารางที่ 3

ตารางที่ 3 การวิเคราะห์ถดถอยพหุ ข้อมูลพื้นฐานส่วนบุคคล สภาพทางสังคม สภาพทางเศรษฐกิจ การส่งเสริมการเกษตร กับความรู้ทางการเกษตรของเกษตรกรผู้นำ

ตัวแปร	ค่าสัมประสิทธิ์ถดถอย (b)	β	t	Sig.	Collinearity Statistics	
					Tolerance	VIF
(Constant)	13.925		23.792	0.000		
การได้รับการสนับสนุนงบประมาณ (x_{26})	0.00001742	0.711	2.859	0.021	1.000	1.000
F = 8.176***, P-Value.=0.000, SE_{est}=1.693, Durbin-Watson = 2.034						
R^2= 0.505, R^2Adjusted = 0.444						

สรุปและอภิปรายผล

การศึกษาสภาพพื้นฐานส่วนบุคคล สังคม เศรษฐกิจ การส่งเสริมการเกษตร และระดับความรู้ทางการเกษตรของเกษตรกรผู้นำ ศูนย์เรียนรู้การเพิ่มประสิทธิภาพการผลิตสินค้าเกษตรในจังหวัดสงขลา พบว่า เกษตรกรมีความรู้ทางการเกษตรในระดับสูง เนื่องจากเกษตรกรผู้นำต้องเข้าอบรมในหลักสูตรบังคับและหลักสูตรหลักของโครงการโดยเกษตรกรที่มีระดับการศึกษาสูงจะมีความเข้าใจในเนื้อหาหลักสูตรที่ทำการอบรมและสามารถนำไปประยุกต์ใช้กับตนเองรวมถึงถ่ายทอดองค์ความรู้ให้กับเกษตรกร

รายอื่นได้ สอดคล้องกับ ณัฏฐพณิชา สุภานันท์ (2560) ที่ศึกษาความรู้และการปฏิบัติของเกษตรกรในการควบคุมศัตรูพืชโดยใช้สารชีวภัณฑ์ในพื้นที่อำเภอแม่ลาน้อย จังหวัดแม่ฮ่องสอน พบว่า การศึกษามีความสัมพันธ์เชิงบวกกับความรู้เกี่ยวกับการใช้สารชีวภัณฑ์ในการควบคุมศัตรูพืชของเกษตรกร เนื่องจากระดับการศึกษาส่งผลต่อความสามารถในการอ่าน และเข้าใจเนื้อความต่าง ๆ ซึ่งมีผลต่อความรู้ของเกษตรกร นอกจากนี้เกษตรกรผู้นำสามารถนำความรู้ที่มีไปแก้ปัญหาทางการเกษตรที่เกิดขึ้นได้ในระดับหนึ่ง มีการนำผลของการแก้ปัญหาที่ประสบความสำเร็จมาแลกเปลี่ยน เรียนรู้ กับเกษตรกรรายอื่นและรายงานในที่ประชุมคณะกรรมการเครือข่ายศูนย์เรียนรู้การเพิ่มประสิทธิภาพการผลิตสินค้าเกษตรในระดับอำเภอและจังหวัด ซึ่งสอดคล้องกับ สำนักงานคณะกรรมการพัฒนาระบบราชการ (2560) ที่ได้แบ่งระดับความรู้เป็น 4 ระดับ ความรู้เชิงทฤษฎี ความรู้เชิงทฤษฎีและเชิงบริบท ความรู้ในระดับที่อธิบายเหตุผลและความรู้ในระดับคุณค่า ความเชื่อ โดยเกษตรกรผู้นำที่ได้จากงานวิจัยมีความรู้ในระดับที่อธิบายเหตุผล (Know-Why) เป็นความรู้เชิงเหตุผลระหว่างเรื่องราวหรือเหตุการณ์ต่าง ๆ ผลของประสบการณ์แก้ปัญหาที่ซับซ้อน และนำประสบการณ์มาแลกเปลี่ยนเรียนรู้กับผู้อื่น เป็นผู้ทำงานมาระยะหนึ่งแล้วเกิดความรู้ฝังลึกสามารถถอดความรู้ฝังลึกของตนเองมาแลกเปลี่ยนกับผู้อื่นหรือถ่ายทอดให้ผู้อื่นได้พร้อมทั้งรับเอาความรู้จากผู้อื่นไปปรับใช้ในบริบทของตนเองได้ และส่วนใหญ่จบการศึกษาในระดับปริญญาตรี

การศึกษาปัจจัยที่ส่งผลต่อความรู้ทางการเกษตรของเกษตรกรผู้นำ ศูนย์เรียนรู้การเพิ่มประสิทธิภาพการผลิตสินค้าเกษตรในจังหวัดสงขลา ผลการศึกษา พบว่า การได้รับการสนับสนุนงบประมาณ เพื่อพัฒนางานด้านการเกษตรมีผลทางบวกต่อความรู้ทางการเกษตรของเกษตรกรผู้นำ ศูนย์เรียนรู้การเพิ่มประสิทธิภาพการผลิตสินค้าเกษตรในจังหวัดสงขลา สะท้อนให้เห็นว่า หากเกษตรกรได้รับการสนับสนุนงบประมาณ เพื่อพัฒนางานด้านการเกษตรมากขึ้น จะทำให้เกษตรกรมีความรู้ทางการเกษตรเพิ่มขึ้นด้วย เนื่องจากหากเกษตรกรได้รับการสนับสนุนงบประมาณเพื่อพัฒนางานด้านการเกษตรจะทำให้เกษตรกรมีโอกาสในการเรียนรู้ พัฒนาทักษะ และปรับตัวให้เข้ากับการเปลี่ยนแปลงของการทำเกษตรแบบสมัยใหม่อย่างมีประสิทธิภาพและสามารถยกระดับความรู้ทางการเกษตรได้อย่างยั่งยืน ซึ่งไม่สอดคล้องกับ อรพิณ พะเก่พอ (2566) ที่ได้ศึกษาปัจจัยที่มีผลต่อความรู้และทักษะการใช้เทคโนโลยีสารสนเทศของนักวิชาการส่งเสริมการเกษตรในจังหวัดแม่ฮ่องสอน พบว่า เพศ มีความสัมพันธ์ทางสถิติกับความรู้ การใช้เทคโนโลยีสารสนเทศของนักวิชาการส่งเสริมการเกษตรในจังหวัดแม่ฮ่องสอน ที่ระดับนัยสำคัญ 0.05 และพบว่าการสนับสนุนจากผู้บริหารไม่มีความสัมพันธ์ทางสถิติกับความรู้การใช้เทคโนโลยีสารสนเทศของนักวิชาการส่งเสริมการเกษตรในจังหวัดแม่ฮ่องสอน ที่ระดับนัยสำคัญ 0.05 จากผลการศึกษาที่มีความไม่สอดคล้องกันเนื่องจากจังหวัดสงขลาเป็นจังหวัดที่มีประชากรและพื้นที่ขนาดใหญ่ เป็นศูนย์กลางทางเศรษฐกิจของภาคใต้ เป็นพื้นที่ที่มีลักษณะพิเศษด้านเศรษฐกิจสังคมและวัฒนธรรม มีความเชื่อมโยงสัมพันธ์กับต่างประเทศ พื้นที่บางส่วนประสบปัญหาด้านความมั่นคง โดยรัฐบาลได้กำหนดนโยบายความมั่นคงแห่งชาติสำหรับพื้นที่ดังกล่าวไว้เป็นการเฉพาะ มีการสนับสนุนงบประมาณในการพัฒนาและแก้ปัญหาในพื้นที่อย่างต่อเนื่องทำให้จังหวัดสงขลาได้รับการจัดสรรงบประมาณมากกว่าจังหวัดแม่ฮ่องสอน ซึ่งสอดคล้องกับการจัดสรรงบประมาณรายจ่ายประจำปีงบประมาณ พ.ศ. 2566 (โครงการตามตัวชี้วัด) ครั้งที่ 1 ของกรมส่งเสริมการเกษตร ที่จัดสรรงบประมาณให้จังหวัดสงขลามากกว่าจังหวัดแม่ฮ่องสอน (กรมส่งเสริมการเกษตร, 2565ข) ซึ่งการที่เกษตรกรได้รับการสนับสนุนงบประมาณที่มากขึ้นทำให้เกษตรกรมีโอกาสเรียนรู้และเข้าถึงเทคโนโลยีใหม่ ๆ ได้มากขึ้น เช่น การอบรมและติดตั้งระบบน้ำ

สำหรับการเกษตร ซึ่งเป็นเทคโนโลยีสมัยใหม่ที่ใช้งบประมาณค่อนข้างสูงในการติดตั้ง ทำให้เกษตรกรสามารถพัฒนาความรู้และทักษะในการทำเกษตรได้อย่างมีประสิทธิภาพมากขึ้น

ข้อเสนอแนะ

การศึกษาปัจจัยที่ส่งผลต่อความรู้ทางการเกษตรของเกษตรกรผู้นำ ศูนย์เรียนรู้การเพิ่มประสิทธิภาพการผลิตสินค้าเกษตรในจังหวัดสงขลา สามารถนำไปใช้เป็นแนวทางในการพัฒนาความรู้ทางการเกษตรให้กับเกษตรกรผู้นำ ได้ดังนี้

1. เกษตรกร เกษตรกรผู้นำควรเข้ารับการอบรมและพัฒนาความรู้ เรื่อง ระบบน้ำสำหรับการเกษตร ด้านการเลือกท่อและอุปกรณ์ให้เหมาะสม การคำนวนและการออกแบบระบบน้ำในพื้นที่ที่มีความแตกต่างกัน เนื่องจากเป็นประเด็นที่เกษตรกรตอบผิดมากที่สุดและมีความสำคัญในการเพิ่มประสิทธิภาพการผลิต เพิ่มผลผลิตทางการเกษตร รวมถึงลดต้นทุนในการผลิตได้ ที่ส่งผลให้เกษตรกรมีรายได้มากขึ้น

2. หน่วยงานราชการ

1) ด้านความรู้ หน่วยงานราชการภายใต้สังกัดกระทรวงเกษตรและสหกรณ์ เช่น กรมส่งเสริมการเกษตร กรมชลประทาน และกรมวิชาการเกษตร เป็นต้น ควรเพิ่มหลักสูตรการเรียนรู้ เรื่อง ระบบน้ำสำหรับการเกษตร การคำนวณและการออกแบบระบบน้ำในพื้นที่ที่มีความแตกต่างกัน ให้เป็นหลักสูตรภาคบังคับที่จะต้องให้มีการจัดอบรมความรู้ให้กับเกษตรกรในทุกปี เพื่อเพิ่มประสิทธิภาพในการผลิตสินค้าเกษตรและการใช้น้ำอย่างมีคุณค่า

2) ด้านงบประมาณ ควรมีการจัดสรรงบประมาณเพื่อสนับสนุนให้กับเกษตรกรได้เกิดการเรียนรู้จากตัวอย่างจริงเพิ่มเติมจากการอบรมแบบออนไลน์ เพื่อให้เกษตรกรได้ทดลองปฏิบัติ ควบคู่กับการศึกษาดูงาน ย่อมทำให้ให้เกษตรกรเกิดความรู้ ความเข้าใจและสามารถนำไปปฏิบัติได้มากที่สุด

3) การจัดทำสื่อการเรียนรู้และการประชาสัมพันธ์ให้กับเกษตรกร เนื่องจากเกษตรกรได้รับความรู้จากเจ้าหน้าที่ส่งเสริมการเกษตรมากที่สุด รองลงมา คือ ได้รับความรู้จากสื่อสังคมออนไลน์ ดังนั้นเจ้าหน้าที่ส่งเสริมการเกษตรควรจัดทำสื่อการเรียนรู้และเผยแพร่ประชาสัมพันธ์ผ่านสื่อสังคมออนไลน์ทุกช่องทาง เพื่อสร้างการรับรู้ให้กับเกษตรกรมากยิ่งขึ้น

บทคัดย่อ

งานวิจัยฉบับนี้เป็นการลงพื้นที่สำรวจและเก็บบันทึกตำแหน่งและข้อมูลของกลุ่มอาชีพ ผลิตภัณฑ์ด้านอาหาร รวมถึงลักษณะการตั้งถิ่นฐานของชุมชน อาคารบ้านเรือน อาหารการกิน ซึ่งเป็นอัตลักษณ์และรูปแบบวัฒนธรรมที่มีอิทธิพลต่อวิถีชีวิต และศักยภาพของพื้นที่ชุมชนตำบลท่าข้าม อำเภอหาดใหญ่ จังหวัดสงขลา โดยมีวัตถุประสงค์ คือ การนำข้อมูลที่ได้เข้าสู่ระบบสารสนเทศทางภูมิศาสตร์ (Geographic Information System: GIS) เพื่อใช้เป็นฐานข้อมูลแหล่งท่องเที่ยวชุมชนด้านอาหารในรูปแบบดิจิทัลออนไลน์ สามารถนำไปต่อยอดการใช้งานเพื่อการพัฒนาชุมชนในอนาคต

ผลการวิจัยพบว่า ตำบลท่าข้าม มีความอุดมสมบูรณ์ทั้งทางด้านทรัพยากรธรรมชาติและต้นทุนทางวัฒนธรรมที่เป็นเอกลักษณ์ มีแหล่งเรียนรู้ด้านวัฒนธรรมและภูมิปัญญาที่หลากหลายที่ควรอนุรักษ์และสืบสานอย่างต่อเนื่อง รวมถึงด้านเศรษฐกิจในพื้นที่ มีการตั้งกลุ่มผลิตภัณฑ์สินค้า OTOP จำนวน 5 กลุ่ม ได้แก่ กลุ่มผลิตมันทอดบ้านเขากลอย กลุ่มบ้านทำขนมปั้นสิบ กลุ่มขนมถั่วทอดกลุ่มเครื่องแกงสมุนไพร กลุ่มเพาะปลูกเห็ดแครง และกลุ่มเลี้ยงผึ้งญวน (ผึ้งโพรงไทย) สามารถสร้างรายได้ให้กับชาวบ้านในชุมชนได้อย่างต่อเนื่อง รวมทั้งการที่ตำแหน่งที่ตั้งของตำบลท่าข้ามอยู่ไม่ไกลจากตัวเมืองหาดใหญ่ และมีการคมนาคมเข้าถึงที่สะดวก ทำให้มีการพัฒนาแหล่งสถานที่ท่องเที่ยวเพื่อดึงดูดนักท่องเที่ยวให้เข้ามายังภายในชุมชน เช่น ร้านสถานีท่าข้าม ทำให้ได้ฐานข้อมูลแผนที่เส้นทางการท่องเที่ยวชุมชนเชิงอาหารอย่างยั่งยืนชุมชนท่าข้าม สำหรับ 1 วัน ในรูปแบบดิจิทัลออนไลน์ GOOGLE My Maps โดยมีการกำหนดจุดแวะท่องเที่ยว 12 สถานที่ มีระยะทางเดินทางไปยังจุดต่าง ๆ ประมาณ 17 กิโลเมตร ทำให้นักท่องเที่ยวสามารถชิมอาหาร ชมวิวทิวทัศน์ภูมิประเทศได้อย่างครบครัน โดยเส้นทางจะผ่านตัวชุมชน ทุ่งนา สวนยาง และขึ้นเขาลานโพธิ์หินงาม จึงเป็นแนวทางที่ควรส่งเสริมให้หน่วยงานปกครองส่วนท้องถิ่นและหน่วยงานต่าง ๆ ที่เกี่ยวข้องภายในพื้นที่ร่วมมือกันจัดทำข้อมูลเพิ่มเติม ให้สามารถเข้าถึงได้ง่าย มีความสะดวกในการใช้งานและไม่ซับซ้อนจนเกินไป ซึ่งเหมาะสมกับสถานการณ์การระบาดของเชื้อไวรัส Covid-19 และแนวทางการท่องเที่ยวรูปแบบใหม่ที่จะเกิดขึ้นในอนาคตต่อไป

คำสำคัญ : แหล่งอาหาร, ระบบสารสนเทศทางภูมิศาสตร์, เส้นทางการท่องเที่ยวชุมชนเชิงอาหาร

Abstract

This research undertakes a field-based survey to map and record the spatial and contextual data of local occupations, food-related products, settlement patterns, vernacular architecture, and culinary practices that reflect the cultural identity and way of life of communities in Tha Kham Subdistrict, Hat Yai District, Songkhla Province. The primary objective is to integrate these data into a Geographic Information System (GIS) to develop an online digital database that serves as a foundation for community-based food tourism. This digital platform can be further utilized to support sustainable community development initiatives.

The research findings indicate that Tha Kham Subdistrict is rich in both natural resources and unique cultural capital. It possesses diverse forms of local knowledge and cultural learning resources that warrant preservation and ongoing transmission. Economically, the community has established five key local product groups under the One Tambon One Product (OTOP) scheme: (1) the Khao Kloi fried taro group, (2) the Ban Khanom Pan Sib snack group, (3) the fried peanut snack group, (4) the herbal curry paste group, (5) the kraeng mushroom cultivation group, and (6) the Vietnamese honeybee (Thai stingless bee) farming group. These groups generate consistent income for local residents. Furthermore, Tha Kham's close proximity to downtown Hat Yai and its convenient transportation network have facilitated the development of tourism infrastructure, including attractions such as the Tha Kham Station Café. As a result, a one-day community-based food tourism route has been developed using Google My Maps, identifying 12 key stopover points along a route spanning approximately 17 kilometers. The route offers tourists the opportunity to enjoy local cuisine while experiencing diverse landscapes that include village centers, rice fields, rubber plantations, and the scenic Lan Pho Hin Ngam Hill. This initiative demonstrates a practical model for the creation of a digital, GIS-based tourism map that supports sustainable food tourism in rural communities. It highlights the importance of collaborative efforts among local administrative organizations and relevant stakeholders to enhance and expand the dataset. Emphasis should be placed on the use of accessible, user-friendly, and low-complexity digital tools, particularly in the context of the COVID-1 9 pandemic and the evolving paradigm of post-pandemic tourism. This approach not only promotes cultural preservation and economic resilience but also provides a replicable framework for similar community-based development projects elsewhere.

Keywords : food sources, geographic information system, food community tourism route

บทนำ

ชุมชนท่าข้าม ตำบลท่าข้าม อำเภอหาดใหญ่ จังหวัดสงขลา เป็นพื้นที่ชุมชนซึ่งมีกลุ่มอาชีพที่หลากหลาย เช่น กลุ่มผลิตมันทอด บ้านเขากลอย กลุ่มเครื่องแกงสมุนไพร กลุ่มขนมถั่วทอด กลุ่มขนมเปี๊ยะ กลุ่มน้ำสมุนไพร กลุ่มเพาะปลูกเห็ดแครง และกลุ่มน้ำผึ้งชันโรง ซึ่งในแต่ละกลุ่มอาชีพมีความต้องการในการพัฒนาวิถีอาชีพของกลุ่มตนเองให้มีความเข้มแข็ง เพื่อให้สามารถต่อยอดและถ่ายทอดเทคโนโลยีแก่ชาวบ้านในชุมชน โดยหวังให้เกิดผลกระทบที่จะเกิดขึ้นได้ในระยะเวลาอันใกล้นี้ โดยการพัฒนาความเข้มแข็งจะเน้นไปในด้านการสร้างเมืองนวัตกรรมด้านอาหาร (Food Innopolis) ในอนาคต จากความสำคัญดังกล่าว ผู้วิจัยจึงเล็งว่า ในปัจจุบันนักท่องเที่ยวเริ่มหันมาให้ความสนใจแหล่งท่องเที่ยวทางเลือกมากขึ้น อย่างเช่น การท่องเที่ยวเมืองรอง หรือการท่องเที่ยวโดยชุมชน (Community Based Tourism: CBT) มีความต้องการที่จะเข้าเยี่ยมชม เรียนรู้ และสัมผัสความเป็นเอกลักษณ์และโดดเด่น และความน่าสนใจของเมืองนั้น ๆ ซึ่งในแนวทางการพัฒนาเมือง การใช้งานระบบสารสนเทศทางภูมิศาสตร์ (Geographic Information System: GIS) ความสามารถในการบูรณาการข้อมูลหลายมิติ เช่น ตำแหน่งทางภูมิศาสตร์ ข้อมูลด้านสิ่งแวดล้อม วัฒนธรรม เศรษฐกิจ และการคมนาคม เพื่อให้สามารถวิเคราะห์ศักยภาพของพื้นที่ท่องเที่ยวได้อย่างเป็นระบบ และนำไปสู่การจัดสรรทรัพยากรเพื่อการพัฒนาที่เหมาะสมและยั่งยืน (Baud-Bovy & Lawson, 2002) ผู้วิจัยเห็นว่าการสำรวจและจัดทำฐานข้อมูลแหล่งท่องเที่ยวชุมชนด้านอาหาร ด้วยใช้วิธีการการบันทึกข้อมูลการศึกษา ลงพื้นที่สำรวจด้วยการทำแผนที่มรดกทางอาหาร (Cultural Mapping) รวมถึงการสื่อความหมายในเรื่องต่าง ๆ ล้วนแต่เป็นอัตลักษณ์ของชุมชนท่าข้าม เพื่อให้รู้คุณค่าของมรดกทางวัฒนธรรมทั้งวัฒนธรรมจับต้องได้และวัฒนธรรมที่จับต้องไม่ได้ นั้นเป็นสิ่งจำเป็น โดยเก็บบันทึกตำแหน่งและข้อมูลของกลุ่มอาชีพ ผลิตภัณฑ์ด้านอาหารด้วยระบบสารสนเทศทางภูมิศาสตร์ (Geographic Information System: GIS) และระบบดิจิทัลออนไลน์ ใน GOOGLE My Maps เพื่อนำมาใช้เป็นฐานข้อมูลในการพัฒนาเส้นทางการท่องเที่ยวชุมชนเชิงอาหารอย่างยั่งยืนต่อไป

วัตถุประสงค์ของการวิจัย

1. สำรวจและเก็บข้อมูลเชิงพื้นที่กลุ่มอาชีพ ผลิตภัณฑ์ด้านอาหารในชุมชนตำบลท่าข้าม อำเภอหาดใหญ่ จังหวัดสงขลา
2. จัดทำฐานข้อมูลที่ได้จากการเก็บข้อมูลภาคสนามในรูปแบบฐานข้อมูลเชิงพื้นที่ (Spatial Database) และจัดทำฐานข้อมูลเชิงคุณลักษณะ (Attribute Database)
3. พัฒนาเส้นทางท่องเที่ยวเชิงอาหารอย่างยั่งยืนชุมชนท่าข้ามใน GOOGLE My Maps

แนวคิด ทฤษฎี กรอบแนวคิด

กำธร กุลชล (2545) ได้ให้ความหมายว่า การออกแบบชุมชนเมือง คือ การสร้างสรรค์สภาพแวดล้อมทางกายภาพของการตั้งถิ่นฐานของมนุษย์ ซึ่งเน้นคุณภาพ 3 ประการ ได้แก่ คุณภาพทางด้านสุนทรียภาพ คุณภาพชีวิตของสังคมเมือง คุณภาพของสิ่งแวดล้อม โดยคุณภาพทางสุนทรียภาพ หมายถึง การมีรูปทรงที่มีความเป็นระเบียบ สวยงาม และจดจำได้ง่าย มีความกลมกลืนกับสถานที่ตั้งและสภาพแวดล้อม และรู้สึกได้ถึงความเป็นองค์รวม ส่วนคุณภาพชีวิตของสังคมเมือง หมายถึง การสร้างชุมชนเมืองและพื้นที่ที่เหมาะสมกับการใช้งานของมนุษย์ เข้าถึงสะดวก มีความหลายหลายในการตอบสนองคนที่แตกต่างกันและมีความปลอดภัย ส่วนคุณภาพของสิ่งแวดล้อม หมายถึง การให้ความสำคัญ

กับภาวะความสบายของสรีระและสุขอนามัยของชุมชน รวมทั้งมีการใช้ทรัพยากรอย่างชาญฉลาด คุ้มค่าและไม่สิ้นเปลือง

สำนักงานพัฒนาเทคโนโลยีอวกาศและภูมิสารสนเทศ (2552) ได้ให้ความหมายของระบบสารสนเทศภูมิศาสตร์ หรือ Geographic Information System : GIS ว่า คือกระบวนการทำงานเกี่ยวกับข้อมูลในเชิงพื้นที่ด้วยระบบคอมพิวเตอร์ ที่ใช้กำหนดข้อมูลและสารสนเทศที่มีความสัมพันธ์กับตำแหน่งในเชิงพื้นที่ เช่น ที่อยู่ บ้านเลขที่ สัมพันธ์กับตำแหน่งในแผนที่ ตำแหน่ง เส้นรุ้ง เส้นแวง ข้อมูลและแผนที่ใน GIS เป็นระบบข้อมูลสารสนเทศที่อยู่ในรูปของตารางข้อมูล และฐานข้อมูลที่มีส่วนสัมพันธ์กับข้อมูลเชิงพื้นที่ (Spatial Data) ซึ่งรูปแบบและความสัมพันธ์ของข้อมูลเชิงพื้นที่ทั้งหลาย จะสามารถนำมาวิเคราะห์ด้วย GIS และทำให้สื่อความหมายในเรื่องการเปลี่ยนแปลงที่สัมพันธ์กับเวลาได้ เช่น การแพร่ขยายของโรคระบาด การเคลื่อนย้ายถิ่นฐาน การบุกรุกทำลาย การเปลี่ยนแปลงของการใช้พื้นที่ ฯลฯ ข้อมูลเหล่านี้ เมื่อปรากฏบนแผนที่ทำให้สามารถแปลและสื่อความหมายใช้งานได้ง่าย

การวิจัยนี้มีการศึกษาทฤษฎี แนวความคิด เพื่อให้นิยามความหมายของ “การท่องเที่ยวชุมชนเชิงอาหารอย่างยั่งยืน” โดยเป็นการวิจัยประยุกต์ เพื่อนำเสนอฐานข้อมูลในการพัฒนาเส้นทางการท่องเที่ยวชุมชนเชิงอาหารอย่างยั่งยืนต่อไปในอนาคต โดยอาศัยการสำรวจเก็บข้อมูลเชิงปริมาณและคุณภาพ เพื่อให้สอดคล้องกับวัตถุประสงค์ของการวิจัยและเป็นลำดับขั้นตอน

นุจรินทร์ ปทุมพงษ์ และ โชคชัย ถมทอง (2561) ได้วิจัยเรื่อง การพัฒนาระบบสารสนเทศภูมิศาสตร์เพื่อจัดการสถานที่ท่องเที่ยวทางประวัติศาสตร์ จังหวัดกำแพงเพชร ระบบที่พัฒนาสามารถจัดการข้อมูลสถานที่ท่องเที่ยวทางประวัติศาสตร์ สามารถสืบค้นข้อมูลและเส้นทางของสถานที่ท่องเที่ยว โดยใช้เทคโนโลยีของ Google Maps API และ Leaflet นำแผนที่เข้ามาแสดงผลบนเว็บเพจ โดยทำงานร่วมกับระบบฐานข้อมูลเว็บไซต์

วิธีดำเนินการวิจัย

1. ศึกษาทฤษฎีและแนวความคิดที่เกี่ยวข้อง และแหล่งข้อมูลในท้องถิ่น ประเภทของข้อมูลและแหล่งข้อมูลที่รวบรวมเพื่อการศึกษาครั้งนี้ แบ่งออกเป็น 2 ประเภท คือ 1) แหล่งข้อมูลปฐมภูมิ (Primary Data) ได้แก่ ข้อมูลที่ได้จากการรวบรวม โดยใช้การลงพื้นที่สำรวจ เก็บข้อมูลในด้านต่าง ๆ เช่น อาคารบ้านเรือน อาหารการกิน ย่านต่าง ๆ 2) แหล่งข้อมูลข้อมูลทุติยภูมิ (Secondary Data) ข้อมูลแนวคิดและทฤษฎีที่เกี่ยวข้อง โดยการรวบรวมจากหนังสือ เอกสารงานวิจัย งานค้นคว้าอิสระ เอกสารเผยแพร่ของหน่วยงาน ตำราทางวิชาการ และในระบบฐานข้อมูลออนไลน์ เพื่อนำมาใช้เพื่อวิเคราะห์หาศักยภาพของพื้นที่ศึกษา

2. ประชากร โดยเก็บข้อมูลจากบุคลากรทางภาครัฐ ภาคเอกชน ผู้นำชุมชน ชาวบ้านชุมชนท่าข้าม และนักท่องเที่ยว เพื่อใช้เป็นกรณีศึกษา กลุ่มตัวอย่าง เนื่องจากผู้วิจัยทำงานอยู่ในพื้นที่ตำบลท่าข้าม อำเภอหาดใหญ่ จังหวัดสงขลา จึงได้กำหนดกลุ่มตัวอย่างดังนี้ 1) ภาครัฐ และภาคเอกชน โดยใช้การสุ่มตัวอย่างแบบเจาะจง 2) ผู้นำชุมชน กลุ่มผลิตภัณฑ์ชุมชน โดยใช้การสุ่มตัวอย่างแบบเจาะจง 3) นักท่องเที่ยว โดยใช้การสุ่มตัวอย่างแบบตามสะดวก

3. เครื่องมือที่ใช้ในการวิจัย คือ แบบสำรวจ เก็บข้อมูลพื้นฐานด้านกายภาพ เศรษฐกิจ และการท่องเที่ยวของตำบลท่าข้าม รวมทั้งกล้องถ่ายรูปที่สามารถเก็บพิกัดตำแหน่งได้ เพื่อใช้บันทึกภาพและตำแหน่งสถานที่ต่าง ๆ

4. นำข้อมูลจากการสำรวจพื้นที่ เช่น อาคาร บ้านเรือน อาหารการกิน ย่านต่าง ๆ ซึ่งเป็นอัตลักษณ์และรูปแบบวัฒนธรรมที่มีอิทธิพลต่อวิถีชีวิตมีทั้งวัฒนธรรมจับต้องได้ และวัฒนธรรมที่จับต้องไม่ได้ ในรูปแบบการเก็บบันทึกตำแหน่งและข้อมูลโดยใช้โปรแกรมระบบสารสนเทศทางภูมิศาสตร์ (Geographic Information System: GIS) ในรูปแบบการเก็บบันทึกตำแหน่ง และข้อมูลของกลุ่มอาชีพผลิตภัณฑ์ด้านอาหาร

5. จัดทำแผนที่และเส้นทางการท่องเที่ยวชุมชนเชิงอาหารอย่างยั่งยืนชุมชนท่าข้าม โดยใช้โปรแกรม GOOGLE My Maps

ภาพที่ 1 ขั้นตอนการดำเนินงานวิจัย

ผลการวิจัย

ผลงานวิจัยฉบับนี้เป็นการรวบรวมข้อมูลเชิงปริมาณและคุณภาพ สำรวจเก็บข้อมูลด้วยระบบสารสนเทศทางภูมิศาสตร์ (Geographic Information System: GIS) และระบบดิจิทัลออนไลน์ในโปรแกรม GOOGLE My Maps รวมถึงการจัดทำแผนที่และเอกสารข้อมูลเส้นทางการท่องเที่ยวชุมชนเชิงอาหารอย่างยั่งยืนชุมชนท่าข้าม มีรายละเอียดดังนี้

1. ผลการวิเคราะห์ศักยภาพของพื้นที่ศึกษา

1.1 ด้านกายภาพชุมชนเมือง

สภาพโดยทั่วไปของพื้นที่ ด้านทิศตะวันออก ทิศใต้ ได้แก่ พื้นที่หมู่ที่ 5 หมู่ที่ 6 หมู่ที่ 7 และหมู่ที่ 8 เป็นที่ลาดเชิงเขา และลาดเอียงไปที่ราบบริเวณหมู่ที่ 1 หมู่ที่ 2 หมู่ที่ 3 เหมาะแก่การตั้งถิ่นฐานและทำการเพาะปลูกสวนยางพารา มีคลองไหลผ่านทั้ง 3 สายภายในตำบลทำให้ดินมีความอุดมสมบูรณ์พื้นที่จึงเหมาะแก่การทำการเกษตร มีความอุดมสมบูรณ์ทางทรัพยากรธรรมชาติสูง มีพื้นที่สีเขียวค่อนข้างมาก มีถนนสายประธานตัดผ่าน คือ ถนนทางหลวงกาญจนวนิช หมายเลข 407 และถนนสายหลักที่เชื่อมต่อกับสายประธาน คือ ถนนทางหลวงชนบท สข 3005 ที่ประกอบธุรกิจเชิงพาณิชยกรรม

สำหรับการขยายตัวของชุมชนเมืองตำบลท่าข้าม ค่อย ๆ กระจายตัวในบริเวณรอบ ๆ บริเวณริมถนนสายประธานและสายหลัก ซึ่งเป็นทางสัญจรไปยังตำบลข้างเคียงในบริเวณหมู่ที่ 1 หมู่ที่ 2 และหมู่ที่ 3 ทำให้การขยายตัวอย่างรวดเร็วของชุมชน เนื่องด้วยมีการประกอบอาชีพเชิงพาณิชยกรรม การใช้ประโยชน์อาคารและการใช้ประโยชน์ที่ดินต่าง ๆ ทำให้มีผู้คนจากต่างพื้นที่และพื้นที่ใกล้เคียงเข้ามาสร้างบ้านเรือนเขามาทำงานและเขามาใช้ประโยชน์ในพื้นที่มากยิ่งขึ้น

1.2 ด้านเศรษฐกิจ

พื้นที่ตำบลท่าข้าม มีฐานเศรษฐกิจหลัก คือ ชุมชนบริการทางการเกษตร เป็นรายได้หลักและเศรษฐกิจฐานของพื้นที่ที่มีศักยภาพในการให้บริการรวบรวมสินค้าเกษตรขั้นต้น เพื่อนำเข้าสู่ตลาดกลางการเกษตรขนาดใหญ่ และมีพาณิชยกรรมและการบริการตั้งแต่ขนาดเล็กจนไปถึงขนาดใหญ่ให้บริการในพื้นที่ตำบลท่าข้าม ซึ่งสภาพโดยทั่วไปการตั้งถิ่นฐานแต่เดิมตำบลท่าข้าม มีการตั้งถิ่นฐานอยู่น้อยสร้างบ้านเรือนกันเป็นกลุ่ม แต่ภายหลังได้มีการจับจองที่ดินทำมาหากินก็เลยมีการแยกออกมาสร้างบ้านเรือน กระจายออกมาโดยเฉพาะบริเวณริมถนนสายต่าง ๆ เป็นบ้านเรือนที่พึ่งสร้าง คือ สร้างเมื่อมีถนนตัดผ่านแล้ว โดยเฉพาะหมู่ที่ 6 บ้านหินเกลี้ยง เมื่อก่อนชาวหินเกลี้ยงอยู่กันอย่างหนาแน่นมากในบริเวณเดียวกันทั้งหมด ลักษณะอาชีพ รายได้ต่อครัวเรือน ฯลฯ การจ้างงานการประกอบอาชีพของประชาชน ในพื้นที่ตำบลท่าข้าม

1.3 ด้านทรัพยากรและสิ่งแวดล้อม

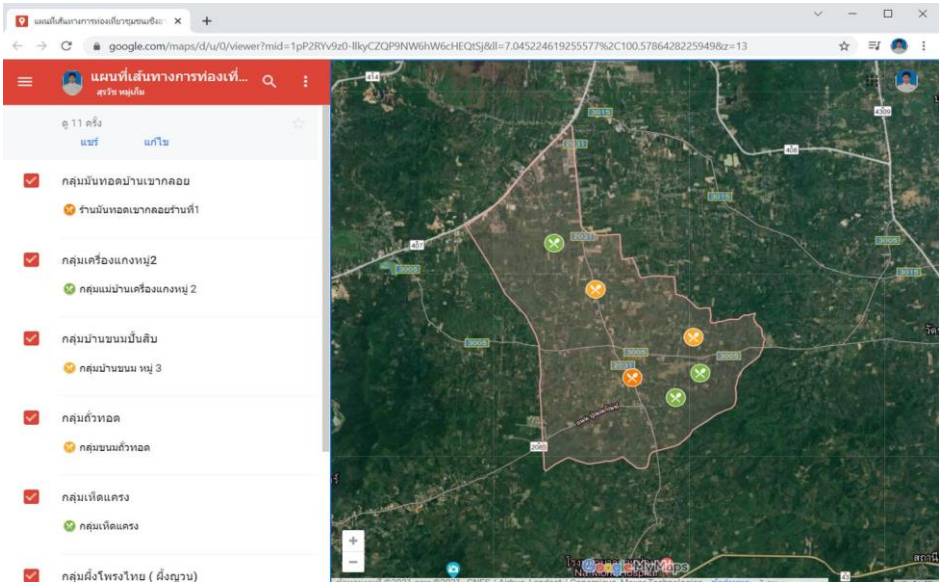
พื้นที่ตำบลท่าข้ามมีทรัพยากรธรรมชาติและสิ่งแวดล้อมของตำบลท่าข้าม มีลักษณะดินที่อุดมสมบูรณ์เหมาะแก่การเพาะปลูกทั้งยางพารา นาข้าว ปาล์มน้ำมันพืช พืชพรรณต่าง ๆ และยังมีแหล่งน้ำมีความอุดมสมบูรณ์ คือ คลองวังนายสาม คลองแม่เตย และคลองเขากลอย ที่ใช้ในการทำเกษตรได้อีก ด้วยทรัพยากรธรรมชาติถูกทำลาย และแทนที่ด้วยที่พักอาศัยและการถมที่ทำให้เส้นทางการไหลของน้ำเปลี่ยนทิศทาง และถูกปิดจากการถมดินทำให้สายน้ำบางสายขาดช่วง

ภาพที่ 2 บรรยากาศแหล่งท่องเที่ยวในตำบลท่าข้าม

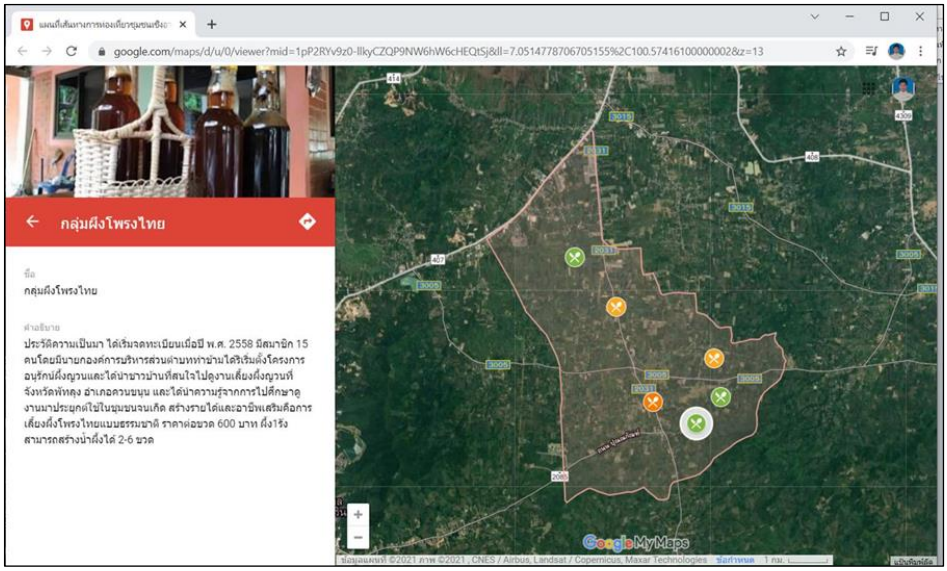
2. ผลการรวบรวมข้อมูลเชิงพื้นที่ กลุ่มอาชีพผลิตภัณฑ์ด้านอาหาร

การลงพื้นที่เก็บข้อมูลโดยการสัมภาษณ์สมาชิกกลุ่มอาชีพต่าง ๆ ในสถานที่จริง เพื่อให้เห็นกรรมวิธี กระบวนการทำงานเป็นทีมภายในกลุ่ม รูปแบบผลิตภัณฑ์ และลองชิมรสชาติด้วยตนเองของผู้วิจัยและทีมงาน โดยได้เข้าไปเก็บข้อมูลในกลุ่มอาชีพต่าง ๆ จำนวน 5 กลุ่ม ได้แก่ กลุ่มผลิตมันทอดบ้านเขากลอย กลุ่มเครื่องแกงสมุนไพร กลุ่มขนมถั่วทอด กลุ่มเพาะปลูกเห็ดแครง และกลุ่มน้ำผึ้งชันโรง โดยแต่ละกลุ่มอาชีพก็มีความต้องการในการพัฒนาวิถีอาชีพของกลุ่มตนเองให้มีความเข้มแข็ง เพื่อให้สามารถต่อยอดและถ่ายทอดเทคโนโลยีแก่ชาวบ้านในชุมชนต่อไป โดยมีตัวอย่างเนื้อหาข้อมูล ได้แก่

- กลุ่มเลี้ยงผึ้งญวน (ผึ้งโพรงไทย) หมู่ที่ 6



ประวัติความเป็นมาของกลุ่มเลี้ยงผึ้งญวน (ผึ้งโพรงไทย) เริ่มเกิดแนวคิดการเลี้ยงผึ้งญวน เมื่อปี พ.ศ. 2557 จึงได้ทดลองเลี้ยงและทดลองสร้างผลิตภัณฑ์ขึ้นมาเห็นผลประสบความสำเร็จในปี 2558 และกลุ่มเลี้ยงผึ้งญวน (ผึ้งโพรงไทย) ได้จดทะเบียนอย่างเป็นทางการในปี 2559 มีสมาชิกทั้งหมด 10 ครัวเรือน สามารถทำกำไรได้ ปีละ1 ครั้ง น้ำผึ้งจะออกดีที่สุด เดือน 5 ผลิตภัณฑ์จะได้แก่ น้ำผึ้งเดือน 5 และแซนวิชเห็ดแครง น้ำผึ้งรวง รายได้โดยประมาณ 15,000 บาท ต่อครัวเรือน กลุ่มลูกค้า 80 เปอร์เซ็นต์ จะเป็นกลุ่มลูกค้านอกพื้นที่ อีก 20 เปอร์เซ็นต์ จะเป็นกลุ่มลูกค้าภายในพื้นที่ การสั่งซื้อจะต้องสั่งจองล่วงหน้า เนื่องจากจำนวนสินค้ามีจำกัด ผลิตภัณฑ์น้ำผึ้งเดือน 5 ไม่มีวันหมดอายุ แต่แนะนำให้ทานให้หมด ภายใน 1 ปี เพื่อรสชาติที่ดี

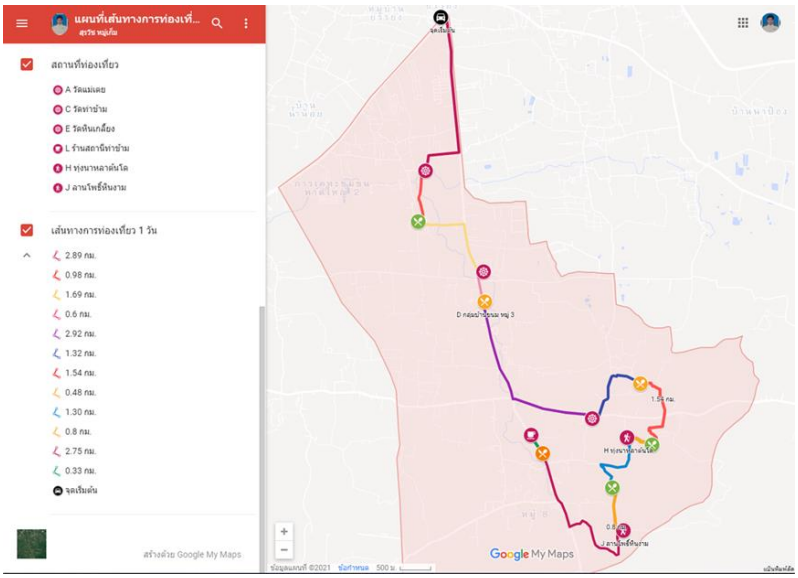


ภาพที่ 3 สมาชิกกลุ่มเลี้ยงผึ้งญวน (ผึ้งโพรงไทย) หมู่ที่ 6

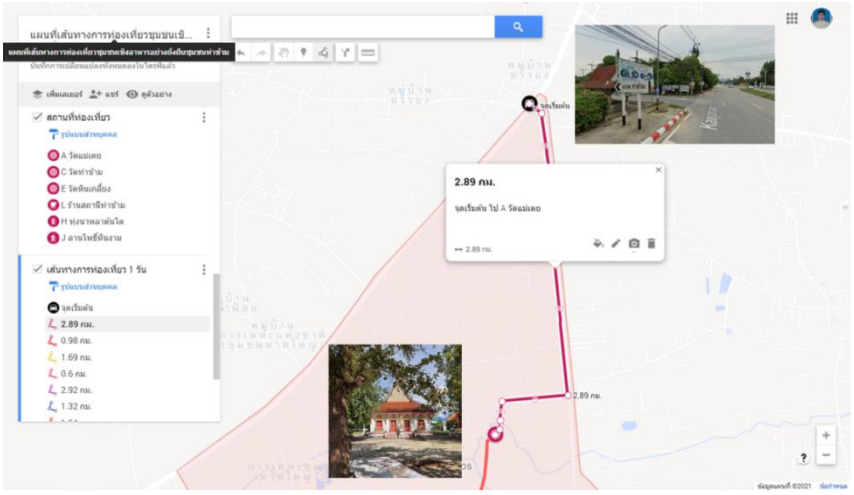
3. ผลการจัดทำฐานข้อมูล (GIS) ของแหล่งท่องเที่ยวชุมชนด้านอาหารตำบลท่าข้าม

จากการรวบรวมข้อมูลโดยการลงพื้นที่เก็บข้อมูลภาคสนามในตำบลท่าข้าม เพื่อใช้สำหรับจัดทำฐานข้อมูลในรูปแบบฐานข้อมูลเชิงพื้นที่ (Spatial Database) และจัดทำฐานข้อมูลเชิงคุณลักษณะ (Attribute Database) ได้แก่ ประเภท ชื่อ ข้อมูลทั่วไป และรูปภาพของกลุ่มอาชีพ ผลิตภัณฑ์ด้านอาหาร ด้วยระบบสารสนเทศทางภูมิศาสตร์ (Geographic Information System: GIS) ด้วยโปรแกรม GOOGLE My Maps และนำมาใช้ในการจัดทำแผนที่ฐานข้อมูลในระบบออนไลน์

ภาพที่ 4 หน้าจอแผนที่ข้อมูลของกลุ่มอาชีพ ผลิตภัณฑ์ ด้านอาหารของตำบลท่าข้าม



ภาพที่ 5 หน้าจอข้อมูลและตำแหน่งที่ตั้งของกลุ่มเลี้ยงผึ้งญวน (ผึ้งโพรงไทย) หมู่ที่ 6



4. ผลการจัดทำแผนที่เส้นทางการท่องเที่ยวชุมชนเชิงอาหารอย่างยั่งยืนชุมชนท่าข้าม

การนำนวัตกรรมในด้านเทคโนโลยีทางผังเมือง มาพัฒนาช่องทางการเข้าถึงข้อมูลได้ง่ายขึ้น และได้จากทั่วทุกมุมโลก ทำให้เกิดการส่งเสริมการท่องเที่ยว และการซื้อขายผลิตภัณฑ์ต่าง ๆ ของพื้นที่ได้มากยิ่งขึ้น สามารถคุณภาพชีวิตที่ดีแก่ชาวบ้านชุมชนท่าข้าม และหน่วยงานต่าง ๆ ในพื้นที่ และสามารถเป็นแนวทางในการวางแผนการเดินทางเข้ามาท่องเที่ยวภายในพื้นที่ตำบล โดยใช้ระยะเวลา 1 วัน ก็สามารถเดินทางไปยังแหล่งความรู้ สถานที่ท่องเที่ยวที่น่าสนใจ และพักผ่อนชิมอาหาร ทานของว่าง ชิมของดีของตำบลท่าข้ามได้อย่างครบถ้วน โดยพิจารณาแหล่งท่องเที่ยวในแต่ละเส้นทางท่องเที่ยว ได้แก่ ความน่าสนใจ สิ่งอำนวยความสะดวก ความง่ายในการเข้าถึง และระยะเดินทางระหว่างสถานที่

โดยรูปแบบแผนที่เส้นทางการท่องเที่ยวชุมชนเชิงอาหารอย่างยั่งยืนชุมชนท่าข้าม สำหรับ 1 วัน โดยมีการกำหนดจุดแวะท่องเที่ยว 12 สถานที่ ซึ่งใช้ระยะทางเดินทางไปยังจุดต่าง ๆ โดยรวมประมาณ 17 กิโลเมตร ทำให้สามารถมีเวลาเดินชม และเรียนรู้ข้อมูลเรื่องราวความรู้ต่าง ๆ ได้พอสมควร โดยตัวอย่างการกำหนดเส้นทาง ที่ทำให้นักท่องเที่ยวสามารถชิมวิว ทิวทัศน์ ภูมิประเทศของพื้นที่ได้อย่างครบครัน ทั้งเส้นทางผ่านตัวชุมชน ทุ่งนา สวนยาง และขึ้นเขาลานโพธิ์หินงามที่มองเห็นทัศนียภาพที่ไกลสุดลูกหูลูกตาของตำบลท่าข้าม

ภาพที่ 6 หน้าจอแผนที่เส้นทางการท่องเที่ยวชุมชนเชิงอาหารอย่างยั่งยืนชุมชนท่าข้าม สำหรับ 1 วัน

สรุปและอภิปรายผล

สรุปผลการวิจัยจากเป้าหมายหลักของการวิจัย ผู้วิจัยได้ตระหนักถึงแนวโน้มที่เปลี่ยนแปลงไปของพฤติกรรมนักท่องเที่ยวในปัจจุบัน โดยเฉพาะอย่างยิ่งความสนใจที่เพิ่มขึ้นต่อแหล่งท่องเที่ยวทางเลือก เช่น เมืองรองและการท่องเที่ยวโดยชุมชนเป็นฐาน (Community-Based Tourism: CBT) ซึ่งเป็นรูปแบบการท่องเที่ยวที่เปิดโอกาสให้นักท่องเที่ยวทั้งชาวไทยและชาวต่างชาติได้เข้าเยี่ยมชม เรียนรู้ และสัมผัสกับอัตลักษณ์ วัฒนธรรม และวิถีชีวิตที่มีความโดดเด่นเฉพาะตัวของแต่ละท้องถิ่นอย่างลึกซึ้ง

อย่างไรก็ตาม สถานการณ์การแพร่ระบาดของเชื้อไวรัสโคโรนา 2019 (COVID-19) ซึ่งเริ่มต้นในประเทศไทยเมื่อเดือนมกราคม พ.ศ. 2563 ได้ส่งผลกระทบอย่างรุนแรงต่อสังคมและอุตสาหกรรมการท่องเที่ยว โดยเฉพาะมาตรการควบคุมการเดินทาง ทั้งในระดับประเทศและระหว่างประเทศ การล็อกดาวน์เมือง และข้อจำกัดด้านการเดินทาง ส่งผลให้กิจกรรมการท่องเที่ยวในทุกระดับต้องหยุดชะงัก รวมถึงพื้นที่ตำบลท่าข้าม อำเภอหาดใหญ่ จังหวัดสงขลา

ด้วยเหตุนี้ ผู้วิจัยจึงเล็งเห็นถึงความสำคัญของการจัดทำฐานข้อมูลแหล่งท่องเที่ยวชุมชน ด้านอาหารของตำบลท่าข้ามในรูปแบบดิจิทัลออนไลน์ GOOGLE My Maps เพื่อให้สามารถตอบสนองต่อวิถีชีวิตรูปแบบใหม่ (New Normal) ที่เน้นการเข้าถึงข้อมูลผ่านเทคโนโลยีและการวางแผนการเดินทางด้วยตนเอง ทั้งยังเป็นการเตรียมความพร้อมสำหรับการฟื้นฟูและพัฒนาเศรษฐกิจฐานรากของชุมชนหลังวิกฤตการณ์ โดยฐานข้อมูลดังกล่าวสามารถนำไปต่อยอดเพื่อการวางแผน การบริหารจัดการ และการส่งเสริมการท่องเที่ยวอย่างยั่งยืนในระดับตำบลได้อย่างมีประสิทธิภาพในอนาคต

ภาพที่ 8 บรรยากาศช่วงโควิดเมืองหาดใหญ่

สิ่งที่ได้จากการวิจัยในครั้งนี้ นั้นคือ ทำให้ทราบถึงประโยชน์จัดทำฐานข้อมูลที่สามารถนำไปใช้ต่อยอดในการวางแผนพัฒนาชุมชน เสริมสร้างความเข้มแข็งทางเศรษฐกิจด้วยการเชื่อมโยงข้อมูลกับระบบการค้าออนไลน์ ซึ่งเอื้อต่อการจัดจำหน่ายสินค้า OTOP และผลิตภัณฑ์ท้องถิ่นในวงกว้างทำให้เกิดประโยชน์อย่างเป็นรูปธรรม ทั้งต่อประชาชนในพื้นที่และหน่วยงานที่เกี่ยวข้อง อันเป็นแนวทางที่สอดคล้องกับนโยบายการพัฒนาที่ยั่งยืนในระดับพื้นที่ และเป็นต้นแบบในการประยุกต์ใช้ GIS เพื่อส่งเสริมการท่องเที่ยวเชิงพื้นที่ในบริบทอื่นต่อไปในอนาคต

ข้อเสนอแนะ

จากการศึกษาวิจัยในครั้งนี้ ผู้วิจัยได้เล็งเห็นถึงประโยชน์ และความประสงค์ในการส่งเสริมให้หน่วยงานปกครองส่วนท้องถิ่นและหน่วยงานต่าง ๆ ที่เกี่ยวข้องภายในพื้นที่ตนเอง ร่วมมือกันสร้างฐานข้อมูลแหล่งท่องเที่ยวชุมชนในรูปแบบดิจิทัล ที่สามารถใช้งานได้ในรูปแบบ Online ซึ่งเหมาะสมกับสถานการณ์การระบาดของเชื้อไวรัส Covid-19 และแนวทางการท่องเที่ยวรูปแบบใหม่ที่จะเกิดขึ้นในอนาคต เมื่อเมืองต่าง ๆ สามารถเปิดให้เดินทางเชื่อมต่อกันได้ แต่ยังคงมีมาตรการในการป้องกันตนเอง รวมทั้งการนำใช้โปรแกรม หรือแพล็ตฟอร์มที่สามารถเข้าถึงได้ง่าย ผู้คนส่วนใหญ่รู้จักคุ้นชิน มีความสะดวกในการใช้งาน และไม่ซับซ้อนจนเกินไปจนทำไม่ถูก เช่น GOOGLE My Maps เป็นต้น เพื่อให้เกิดเป็นฐานข้อมูลและแผนที่เส้นทางการท่องเที่ยวชุมชนเชิงอาหารอย่างยั่งยืนที่ยั่งยืนอย่างแท้จริงสืบต่อไป

บทคัดย่อ

การวิจัยมีวัตถุประสงค์เพื่อศึกษา 1) ปัจจัยพื้นฐานส่วนบุคคล เศรษฐกิจสังคม และข้อมูลทั่วไปของวิสาหกิจชุมชน 2) ความคิดเห็นของสมาชิกในการบริหารจัดการวิสาหกิจชุมชน 3) วิเคราะห์ปัจจัยที่มีผลต่อความคิดเห็นของสมาชิกในการบริหารจัดการวิสาหกิจชุมชนแปรรูปเครื่องแกงจังหวัดสงขลา ประชากร คือ สมาชิกวิสาหกิจชุมชนแปรรูปเครื่องแกง 1,228 คน กำหนดขนาดตัวอย่าง โดยใช้สูตรยามาเน่ ได้กลุ่มตัวอย่าง 302 คน เครื่องมือใช้แบบสัมภาษณ์ วิเคราะห์ข้อมูลด้วยค่าความถี่ ร้อยละ ค่าสูงสุด ค่าต่ำสุด ค่าเฉลี่ย ค่าส่วนเบี่ยงเบนมาตรฐาน t-test และการวิเคราะห์ความแปรปรวนทางเดียว

ผลการศึกษาพบว่า 1) ปัจจัยพื้นฐานส่วนบุคคล เศรษฐกิจสังคม และข้อมูลทั่วไปของวิสาหกิจชุมชน พบว่า สมาชิกเป็นเพศหญิง ร้อยละ 96.00 ทำเครื่องแกงเป็นอาชีพเสริม เข้าร่วมเป็นสมาชิกเพราะต้องการรายได้เสริม ได้รับข้อมูลจากประธาน ร้อยละ 64.24 ประเภทวิสาหกิจชุมชนพื้นฐาน ร้อยละ 73.18 ระดับการประกอบการอยู่ในระดับชุมชน ร้อยละ 82.78 เงินทุนเฉลี่ย 94,652.29 บาท หนี้สินเฉลี่ย 298,026.32 บาท 2) ความคิดเห็นของสมาชิกในการบริหารจัดการวิสาหกิจชุมชนแปรรูปเครื่องแกง พบว่า ภาพรวมความคิดเห็นของสมาชิกอยู่ในระดับมาก 3) ปัจจัยที่มีผลต่อความคิดเห็นของสมาชิกในการบริหารจัดการวิสาหกิจชุมชนแปรรูปเครื่องแกง พบว่า เหตุผลเข้าร่วมเป็นสมาชิก คือ พอใจในกิจกรรมกลุ่ม ต้องการความรู้ และเหตุผลอื่นๆ มีผลต่อความคิดเห็นแตกต่างกัน อย่างมีนัยสำคัญทางสถิติที่ระดับ 0.001 0.01 และ 0.01 ตามลำดับ ได้รับข้อมูลจากประธาน คณะกรรมการ สมาชิก หน่วยงานภาครัฐอื่น ๆ หน่วยงานเอกชน และผู้นำชุมชน มีผลต่อความคิดเห็นแตกต่างกัน อย่างมีนัยสำคัญทางสถิติที่ระดับ 0.001 0.001 0.001 0.01 0.05 และ 0.05 ตามลำดับ ระดับการประกอบการ การจดทะเบียนภาษีมูลค่าเพิ่ม เงินทุน และหนี้สิน มีผลต่อความคิดเห็นแตกต่างกัน อย่างมีนัยสำคัญทางสถิติที่ระดับ 0.001 0.05 0.01 และ 0.05 ตามลำดับ

คำสำคัญ: ความคิดเห็น, การบริหารจัดการวิสาหกิจชุมชน, แปรรูปเครื่องแกง

Abstract

This study aimed to investigate: (1) the personal, socio-economic, and general background factors of community enterprises; (2) members' opinions on the management of community enterprises; and (3) the factors influencing members' opinions on the management of chili paste community enterprises in Songkhla Province. The population comprised 1,228 members of the chili paste processing community enterprises. A sample of 302 members was determined using Yamane's formula. Data were collected using structured interviews and analyzed using frequency, percentage, maximum, minimum, mean, standard deviation, t-test, and one-way ANOVA.

The findings revealed that: (1) most members were female (96.00%) and participated in chili paste production as a supplementary occupation. They joined the enterprise to earn additional income and mainly received information from the enterprise chairperson (64.24%). Of the enterprises, 73.18% were classified as basic community enterprises, and 82.78% operated at the community level. The average capital was 94,652.29 baht, while the average debt was 298,026.32 baht. (2) The overall opinions of members on enterprise management were at a high level. (3) Factors significantly influencing members' opinions on enterprise management included the reasons for joining—such as satisfaction with group activities, desire for knowledge, and other reasons—which differed significantly at the 0.001, 0.01, and 0.01 levels, respectively. Sources of information—namely the chairperson, committee members, other members, government agencies, private sector entities, and community leaders—also showed significant differences in opinions at the 0.001, 0.001, 0.001, 0.01, 0.05, and 0.05 levels, respectively. Additionally, level of operation, VAT registration status, capital, and debt significantly affected opinions at the 0.001, 0.05, 0.01, and 0.05 levels, respectively.

Keywords: Opinions, Community Enterprise Management, Curry Paste Processing

บทนำ

เครื่องแกงเป็นวัตถุดิบที่สำคัญในการปรุงอาหารไทยหลายชนิด และเป็นหนึ่งในอุตสาหกรรมหลักที่สร้างรายได้ให้แก่ประเทศ ในปี 2566 ประเทศไทยส่งออกเครื่องแกงสำเร็จรูป 15,977 ตัน มูลค่า 2,131.6 ล้านบาท โดยมีตลาดสำคัญ ได้แก่ สหรัฐอเมริกา สหราชอาณาจักร และออสเตรเลีย (กระทรวงพาณิชย์, 2566) ความนิยมในอาหารไทยยังสะท้อนผ่านการจัดอันดับระดับโลก เช่น รายงานจาก TasteAtlas ในปี 2566 จัดอันดับพริกแกงไทยให้เป็นซอสยอดนิยมอันดับ 2 ของโลก นอกจากนี้ CNN Travel ยังยกย่องให้แกงมัสมั่นเป็นอาหารที่อร่อยที่สุดในโลกในปี 2564 (เนชั่นทีวี, 2566) ซึ่งสะท้อนให้เห็นว่าเครื่องแกงเป็นเอกลักษณ์ของอาหารไทยที่สามารถสื่อสารวัฒนธรรมและสร้างมูลค่าเพิ่มทางเศรษฐกิจได้ รัฐบาลไทยจึงได้กำหนดนโยบายและยุทธศาสตร์ในการส่งเสริมการพัฒนาเศรษฐกิจชุมชนโดยใช้วิสาหกิจชุมชน ได้รับการสนับสนุนจากภาครัฐ เป็นกลไกสำคัญในการขับเคลื่อนเศรษฐกิจฐานรากกระจายรายได้ สร้างงาน และเพิ่มโอกาสทางเศรษฐกิจในระดับพื้นที่ ตามยุทธศาสตร์ชาติระยะ 20 ปี

(พ.ศ. 2561–2580) ที่มุ่งเน้นการสร้างโอกาสและความเสมอภาคทางสังคม (สำนักนายกรัฐมนตรี, 2561) และแผนพัฒนาเศรษฐกิจและสังคมแห่งชาติ ฉบับที่ 13 ซึ่งเน้นการพัฒนาเศรษฐกิจฐานรากให้เข้มแข็งและเติบโตอย่างครอบคลุม โดยการพัฒนาองค์ความรู้ ทักษะการบริหารจัดการและความสามารถในการแข่งขันในระดับท้องถิ่น (สำนักงานคณะกรรมการพัฒนาการเศรษฐกิจและสังคมแห่งชาติ, 2565) ในปัจจุบันการบริหารจัดการกลุ่มวิสาหกิจชุมชนจึงไม่เพียงแต่มุ่งเน้นผลผลิตทางเศรษฐกิจเท่านั้น แต่ต้องดำเนินการอย่างเป็นระบบ โปร่งใส มีการมีส่วนร่วม และสามารถพัฒนาไปสู่ความยั่งยืนในระยะยาวได้ ตามเป้าหมายหลักเพื่อให้ประเทศไทย “มั่นคง มั่งคั่ง และยั่งยืน” สำนักงานเลขานุการคณะกรรมการส่งเสริมวิสาหกิจชุมชน กรมส่งเสริมการเกษตร (2549) จึงได้นำการบริหารจัดการภาครัฐ (PMQA) มาประยุกต์ใช้ในวิสาหกิจชุมชน

จังหวัดสงขลา มีวิสาหกิจชุมชนแปรรูปเครื่องแกง จำนวน 82 แห่ง เป็นอันดับสองรองจากจังหวัดนครศรีธรรมราช ซึ่งในปี 2564-2566 จังหวัดสงขลามีการจดทะเบียนวิสาหกิจชุมชนเพิ่มขึ้นสูงที่สุดในประเทศ ร้อยละ 28.13 และมีสมาชิกจำนวน 1,228 คน แต่ในปี 2566 มีวิสาหกิจชุมชนแปรรูปเครื่องแกงที่ได้รับการประเมินศักยภาพและต่อทะเบียนเพียงจำนวน 70 แห่ง พบว่า อยู่ในระดับปานกลางและปรับปรุง ร้อยละ 47.18 และ 7.21 ตามลำดับ (กรมส่งเสริมการเกษตร, 2566) และจากการศึกษาของกมลชนก ญานุชิตร (2565) เกี่ยวกับการจัดการการตลาดผลิตภัณฑ์เครื่องแกงของวิสาหกิจชุมชนและกลุ่มแม่บ้านเกษตรกรในอำเภอเทพา จังหวัดสงขลา พบว่า การดำเนินงานของวิสาหกิจชุมชนยังประสบปัญหา 1) ด้านผลิตภัณฑ์ยังไม่ได้รับเครื่องหมายรับรองมาตรฐานของการดำเนินงาน ซึ่งอาจส่งผลต่อยอดจำหน่ายและการตัดสินใจเลือกซื้อของผู้บริโภค 2) ด้านราคาจำหน่ายต่ำเกินไปไม่คุ้มทุน วัตถุดิบมีราคาสูง ซึ่งส่งผลให้กำไรจากรายได้ลดน้อยลง 3) ด้านการตลาด สมาชิกวิสาหกิจชุมชนมีทักษะและความรู้ด้านการส่งเสริมการขายด้านออนไลน์น้อย จึงเป็นอุปสรรคในการขยายช่องทางการตลาด จากปัญหาดังกล่าว สะท้อนได้ว่า การบริหารจัดการกลุ่มวิสาหกิจชุมชนแปรรูปเครื่องแกงยังมีจุดที่ต้องปรับปรุง เพราะการขับเคลื่อนกลุ่มวิสาหกิจชุมชนให้ประสบความสำเร็จต้องอาศัยความร่วมมือจากสมาชิก หากสมาชิกมีความคิดเห็นสอดคล้องไปในทิศทางเดียวกัน ย่อมทำให้สามารถกำหนดทิศทางการบริหารจัดการกลุ่มให้เกิดประสิทธิภาพ จึงเกิดความสนใจในการศึกษาวิจัยเรื่องปัจจัยที่มีผลต่อความคิดเห็นของสมาชิกในการบริหารจัดการวิสาหกิจชุมชนแปรรูปเครื่องแกงจังหวัดสงขลา เพื่อเข้าใจมุมมองของสมาชิกในการบริหารจัดการกลุ่ม และเกิดองค์ความรู้ใหม่ในด้านปัจจัยที่ส่งผลต่อความคิดเห็นของสมาชิก อันจะนำไปสู่การพัฒนาองค์ความรู้ของสมาชิกเพื่อพัฒนากลุ่มวิสาหกิจชุมชนแปรรูปเครื่องแกงต่อไป

วัตถุประสงค์ของการวิจัย

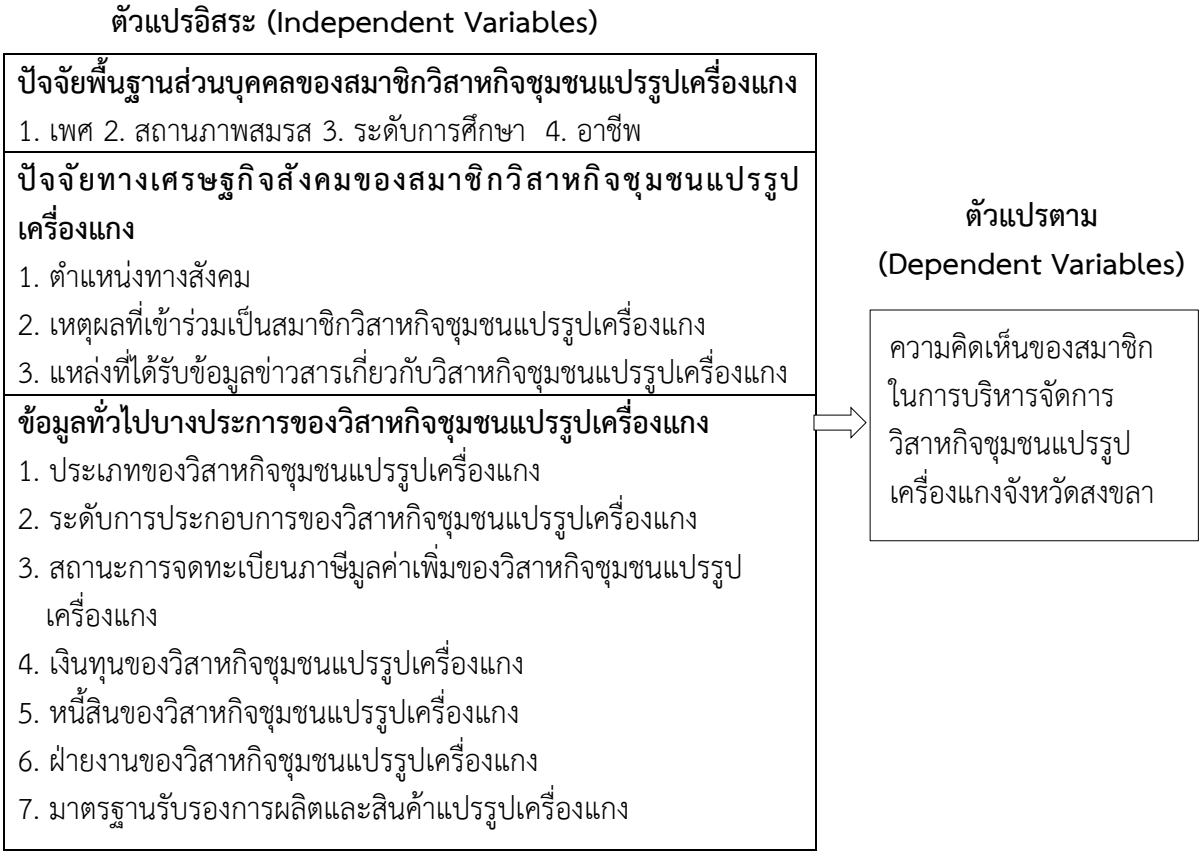
1 เพื่อศึกษาปัจจัยพื้นฐานส่วนบุคคล เศรษฐกิจสังคมของสมาชิก และข้อมูลทั่วไปบางประการของวิสาหกิจชุมชนแปรรูปเครื่องแกง

2 เพื่อศึกษาความคิดเห็นของสมาชิกในการบริหารจัดการวิสาหกิจชุมชนแปรรูปเครื่องแกง

3 เพื่อวิเคราะห์ปัจจัยที่มีผลต่อความคิดเห็นของสมาชิกในการบริหารจัดการวิสาหกิจชุมชนแปรรูปเครื่องแกง

แนวคิด ทฤษฎี กรอบแนวคิด

วิสาหกิจชุมชน หมายถึง การประกอบการของคนในชุมชน มีกระบวนการคิด การจัดการผลผลิตและทรัพยากรทุกขั้นตอนในรูปแบบของการแปรรูปของผลผลิต สร้างผลิตภัณฑ์ โดยครอบครัว องค์กร หรือเครือข่ายชุมชน เพื่อการบริโภคและสร้างรายได้ให้กับชุมชน โดยใช้กระบวนการที่ยุติธรรมระหว่างผู้ผลิตและผู้บริโภค การดำเนินการอาศัยความรู้หรือภูมิปัญญาในท้องถิ่นเพื่อพัฒนาเศรษฐกิจฐานรากและสร้างกระบวนการเรียนรู้ของชุมชน ซึ่งมีนัยของการสร้างความเข้มแข็งและความร่มเย็นเป็นสุขของชุมชน (สมเกียรติ สุทธินรากร, 2560)



ประเภทของวิสาหกิจชุมชน แบ่งเป็น 2 ประเภทใหญ่ ๆ คือ 1) วิสาหกิจชุมชนพื้นฐาน คือ มุ่งผลิตสินค้าเพื่อบริโภคในชุมชนหรือขายในตลาดท้องถิ่น ใช้วิธีการผลิตที่ไม่ซับซ้อน แต่ต้องมีมาตรฐานด้านสุขอนามัย เป้าหมายหลัก คือ การลดรายจ่ายและเพิ่มรายได้ให้ชุมชน และ 2) วิสาหกิจชุมชนก้าวหน้า คือ พัฒนาต่อจากวิสาหกิจพื้นฐาน ใช้เทคโนโลยีและระบบที่ทันสมัย มีมาตรฐานคุณภาพระดับสากล และสามารถแข่งขันในตลาดใหญ่ รวมถึงตลาดส่งออก (กองส่งเสริมวิสาหกิจชุมชน, 2562)

ระดับการประกอบการของวิสาหกิจชุมชน แบ่งออกเป็น 5 ประเภท คือ 1) ระดับครอบครัว คือ วิสาหกิจชุมชนที่เน้นการพึ่งพาตนเอง ผลิตเพื่อใช้ในครัวเรือน ลดค่าใช้จ่าย และป้องกันเงินไหลออกจากชุมชน 2) ระดับชุมชน คือ มีการพึ่งพาอาศัยกันระหว่างครอบครัวในชุมชนเดียวกัน เช่น การซื้อขายสินค้าภายในชุมชนเพื่อลดรายจ่ายร่วมกัน 3) ระดับเครือข่าย คือ เป็นความร่วมมือระหว่างหลายชุมชน เพื่อแลกเปลี่ยนทรัพยากรและผลผลิตที่แต่ละชุมชน มีเพื่อให้สามารถพึ่งพากันได้อย่างยั่งยืน 4) ระดับการจัดการผลผลิตส่วนเกิน คือ มีการแปรรูปสินค้าเพื่อเพิ่มมูลค่าและนำสินค้าที่เหลือจากการใช้ในชุมชนออกสู่ตลาดภายนอก และ 5) ระดับธุรกิจ คือ วิสาหกิจชุมชนที่พัฒนาเป็นธุรกิจเต็มรูปแบบ มีมาตรฐานแข่งขันในตลาดขนาดใหญ่ได้ (วิชิต นันทสุวรรณ, 2544; จินตนา กาญจนวิสุทธิ์, 2558)

สำนักงานเลขานุการคณะกรรมการส่งเสริมวิสาหกิจชุมชน กรมส่งเสริมการเกษตร (2549) ได้นำทฤษฎีการบริหารจัดการภาครัฐ (PMQA) มาประยุกต์ใช้ในการบริหารจัดการวิสาหกิจชุมชน อย่างเป็นระบบและมุ่งเน้นความยั่งยืนผ่าน 7 ด้านหลัก ดังนี้ 1) การนำและการบริหาร คือ ผู้นำและสมาชิกต้องมีบทบาทร่วมกันในการกำหนดทิศทาง มีโครงสร้างบริหารที่เหมาะสมและกฎระเบียบที่ยอมรับได้ จัดสรรผลประโยชน์ โปร่งใสด้านการเงิน และมีการทบทวนผลการดำเนินงานเป็นระยะ คำนึงถึงความรับผิดชอบต่อสังคม จริยธรรม และการสนับสนุนชุมชน 2) การวางแผนการดำเนินงาน คือ จัดทำแผนโดยใช้ข้อมูลภายใน-ภายนอกชุมชน มีการกำหนดเป้าหมายเชิงปริมาณและคุณภาพ วางแผนการปฏิบัติงานชัดเจน ถ่ายทอดให้สมาชิกเข้าใจ มีการติดตามและปรับแผนตามสถานการณ์ 3) การบริหารตลาด คือ วิเคราะห์ความต้องการของลูกค้า ทรัพยากร และแนวโน้มตลาด ปรับปรุงแผนการตลาดอย่างต่อเนื่องเพื่อความยั่งยืน 4) การจัดการความรู้และข้อมูล คือ ข่าวสาร รวบรวม แลกเปลี่ยน ถ่ายทอดความรู้และภูมิปัญญาท้องถิ่น ใช้เทคโนโลยีและข้อมูลที่ทันสมัยเพื่อการพัฒนากิจการ 5) การบริหารสมาชิก คือ กำหนดเงื่อนไขการรับสมาชิกอย่างเป็นระบบ มีแผนพัฒนาสมาชิก การสร้างขวัญกำลังใจ และสวัสดิการที่เป็นธรรม มีระบบประเมินผลการทำงานของสมาชิก 6) การจัดการสินค้าและบริการ คือ บริหารกิจกรรมให้เชื่อมโยงและส่งเสริมกัน ควบคุมคุณภาพของสินค้าและบริการให้มีมาตรฐาน และ 7) ผลลัพธ์การดำเนินงาน คือ ประเมินผลเพื่อลดต้นทุน เพิ่มรายได้ และพัฒนาคุณภาพชีวิตของสมาชิก เสริมสร้างผลประโยชน์ต่อชุมชนและสร้างความพึงพอใจให้กับสมาชิก

ความคิดเห็น หมายถึง การแสดงออกทางด้านความรู้สึกของบุคคลที่มีต่อสิ่งหนึ่งสิ่งใด ซึ่งอาจถูกต้องหรือไม่ถูกต้องก็ได้ การแสดงความคิดเห็นอาจแสดงโดยการพูดหรือการเขียน เพื่อให้ผู้อื่นสามารถรับรู้ความคิดเห็นนี้ เป็นผลมาจากความเชื่อ ทัศนคติ ความคิด ซึ่งมีพื้นความรู้หรือประสบการณ์เป็นส่วนช่วยในการแสดงความคิดเห็น (สุวรรณรัตน์ จ้อยมี, 2555) โดยสงวน สุทธิเลิศอรุณ (2549) ได้กล่าวเกี่ยวกับประเภทความคิดเห็นว่า มิติด้านทิศทาง ได้แก่ 1) มิติด้านทิศทาง ได้แก่ ทางบวก คือ แสดงความรู้สึกเชิงบวก เช่น ความชอบหรือความพึงพอใจ และ ทางลบ คือ แสดงความรู้สึกเชิงลบ เช่น ไม่ชอบหรือไม่พึงพอใจ 2) มิติด้านความเข้มข้น ได้แก่ ความเข้มข้นมาก คือ มีความรู้สึกที่หนักแน่น ยากต่อการเปลี่ยนแปลงความคิดเห็น และความเข้มข้นน้อย คือ มีความรู้สึกที่ไม่แน่นแฟ้น สามารถเปลี่ยนแปลงความคิดเห็นได้ง่าย นอกจากนี้ Remmers (1996) ยังแบ่งความคิดเห็นออกเป็น 2 ประเภท ได้แก่ ความคิดเห็นเชิงบวกสุด-เชิงลบสุด (Extreme Opinion) คือ เกิดจากประสบการณ์และการเรียนรู้ทำให้สามารถกำหนดทิศทางความคิดเห็นได้ชัดเจน และความคิดเห็นที่เกิดจากความรู้ความเข้าใจ (Cognitive Contents) คือ หากมีความเข้าใจและยอมรับก็จะเห็นด้วย แต่หากไม่ยอมรับก็จะไม่เห็นด้วย

ปัจจัยที่มีอิทธิพลต่อความคิดเห็น เป็นกระบวนการเกิดความรู้ความเข้าใจมีความสัมพันธ์กับความรู้สึกนึกคิดหรือความคิดเห็นของแต่ละบุคคล แต่ผลของความคิดเห็นจะเหมือนหรือแตกต่างกันขึ้นอยู่กับปัจจัยพื้นฐานที่มีอิทธิพลต่อความคิดเห็นของบุคคล มาจาก 5 ปัจจัย ได้แก่ 1) พันธุกรรม หรือ สรีระ เช่น อายุ เพศ 2) ประสบการณ์โดยตรงของบุคคล เช่น การศึกษา ทักษะ 3) อิทธิพลจากครอบครัวหรือผู้ปกครอง 4) ความคิดเห็นของกลุ่ม และ 5) สื่อมวลชน เช่น โทรทัศน์ หนังสือพิมพ์ (นงณพร ทับทิมทวีโชค, 2556)

ที่มา: กรมส่งเสริมการเกษตร (2566)

ขนาดที่กลุ่มตัวอย่างใช้สูตรของยามาเน่ ที่ระดับความเชื่อมั่น 0.05 (เจตนัยธ์ เพชรศรี, 2552) ได้จำนวนตัวอย่าง 302 ราย กระจายจำนวนตัวอย่างตามสัดส่วนของจำนวนสมาชิกแต่ละอำเภอ แต่ละแห่ง ให้ครบตามจำนวนที่กำหนดไว้ข้างต้น โดยตัวอย่างที่ได้แต่ละราย ผู้วิจัยใช้เทคนิคการสุ่มตัวอย่างแบบง่าย (Simple Random Sampling) โดยวิธีการสุ่มตัวอย่างแบบไม่ใส่คืน

2. เครื่องมือในการวิจัย ใช้แบบสอบถามเชิงโครงสร้างเป็นเครื่องมือในการเก็บรวบรวมข้อมูล โดยประยุกต์ข้อมูลทุติยภูมิเกี่ยวกับแนวคิด ทฤษฎี และงานวิจัยที่เกี่ยวข้องกับ วิสาหกิจชุมชน การบริหารจัดการ ความคิดเห็น มาสร้างเป็นข้อคำถาม

3. การตรวจสอบคุณภาพเครื่องมือ ทดสอบความเที่ยงตรง (Validity Test) (พิชิต ฤทธิ์จรูญ, 2556) โดยให้ผู้เชี่ยวชาญ จำนวน 3 ท่าน ตรวจสอบความตรงตามวัตถุประสงค์และเนื้อหา (IOC) กำหนดเกณฑ์การผ่านเท่ากับ 0.67 โดยข้อคำถามมีค่าระหว่าง 0.67 - 1.00 สามารถนำไปใช้ได้ดำเนินการปรับปรุงแบบสอบถามตามข้อเสนอแนะของผู้เชี่ยวชาญ แล้วทดสอบความเชื่อมั่น (Reliability Test) กับ

สมาชิกวิสาหกิจชุมชนแปรรูปเครื่องแกงในพื้นที่อำเภอควนขนุน เขาชัยสน และป่าบอน จังหวัดพัทลุง จำนวน 30 คน ซึ่งกำหนดเกณฑ์ค่าสัมประสิทธิ์แอลฟ่าของครอนบาค (สุวิมล ติรกานันท์, 2551) เท่ากับ 0.70 ขึ้นไป ถือว่ามีความเชื่อมั่นในระดับที่ยอมรับได้ซึ่งแบบสอบถามครั้งนี้ มีค่าความเชื่อมั่นทั้งฉบับเท่ากับ 0.964

4. การวิเคราะห์ข้อมูล การวิจัยครั้งนี้เป็นการวิจัยเชิงปริมาณ ประกอบด้วยสถิติ 2 ส่วน คือ

1) สถิติเชิงพรรณนา (Descriptive Statistics) ใช้สำหรับวิเคราะห์ปัจจัยพื้นฐานส่วนบุคคล เศรษฐกิจสังคมของสมาชิก ข้อมูลทั่วไปบางประการของวิสาหกิจชุมชน และระดับความคิดเห็นของสมาชิกในการบริหารจัดการวิสาหกิจชุมชนแปรรูปเครื่องแกง ใช้การวิเคราะห์ด้วยสถิติ ค่าความถี่ (Frequency) ค่าร้อยละ (Percentage) ค่าสูงสุด (Maximum Value) ค่าต่ำสุด (Minimum Value) ค่าเฉลี่ย (Arithmetic Mean) และค่าส่วนเบี่ยงเบนมาตรฐาน (Standard Deviation) โดยระดับความคิดเห็นของสมาชิกในการบริหารจัดการวิสาหกิจชุมชนแปรรูปเครื่องแกง เป็นมาตรวัดอันตรภาค (Interval Scale) ใช้สูตรอันตรภาคชั้น เพื่อกำหนดเกณฑ์การแปลความหมายดังนี้ สูตรอันตรภาคชั้น = (ค่าสูงสุด-ค่าต่ำสุด)÷จำนวนชั้น = (5-1)÷5 = 0.80

ความกว้างของแต่ละชั้นเท่ากับ 0.80 และกำหนดเกณฑ์การแปลความหมายเป็น 5 ระดับ ได้ดังต่อไปนี้

ค่าเฉลี่ย 4.21 - 5.00 หมายถึง เห็นด้วยต่อประเด็นการบริหารจัดการวิสาหกิจชุมชนในระดับมากที่สุด
ค่าเฉลี่ย 3.41 - 4.20 หมายถึง เห็นด้วยต่อประเด็นการบริหารจัดการวิสาหกิจชุมชนในระดับมาก
ค่าเฉลี่ย 2.61 - 3.40 หมายถึง เห็นด้วยต่อประเด็นการบริหารจัดการวิสาหกิจชุมชนในระดับปานกลาง
ค่าเฉลี่ย 1.81 - 2.60 หมายถึง เห็นด้วยต่อประเด็นการบริหารจัดการวิสาหกิจชุมชนในระดับน้อย
ค่าเฉลี่ย 1.00 - 1.80 หมายถึง เห็นด้วยต่อประเด็นการบริหารจัดการวิสาหกิจชุมชนในระดับน้อยที่สุด

2) สถิติเชิงอ้างอิง (Inferential Statistics) ใช้อธิบายความสัมพันธ์ระหว่างตัวแปรอิสระและตัวแปรตาม คือ ความคิดเห็นของสมาชิกในการบริหารจัดการวิสาหกิจชุมชนแปรรูปเครื่องแกงจังหวัดสงขลา โดยสถิติที่ใช้ในการวิเคราะห์มีดังนี้

2.1 สถิติค่า t-test เพื่อทดสอบความแตกต่างของค่าเฉลี่ยของกลุ่มตัวอย่าง 2 กลุ่ม ได้แก่ เพศ,อาชีพเสริม, ตำแหน่งทางสังคม, เหตุผลที่เข้าร่วม, แหล่งข้อมูลข่าวสาร ประเภทของวิสาหกิจชุมชน สถานะการจดทะเบียนภาษีมูลค่าเพิ่ม เงินทุน หนี้สิน ฝ่ายงาน และมาตรฐานรับรองการผลิตและสินค้า

2.2 การวิเคราะห์ความแปรปรวนทางเดียว (One-Way ANOVA) เพื่อทดสอบความแตกต่างของค่าเฉลี่ยของกลุ่มตัวอย่าง 3 กลุ่มขึ้นไป ได้แก่ สถานภาพสมรส ระดับการศึกษา อาชีพหลัก และระดับการประกอบการของวิสาหกิจชุมชน และเมื่อพบความแตกต่างจะใช้วิธีการทดสอบความแตกต่างเป็นรายคู่โดยวิธี LSD (Fisher’s Least – Significant Different) โดยกำหนดเกณฑ์การวิเคราะห์ความมีนัยสำคัญทางสถิติที่ระดับ 0.05

ผลการวิจัย

1. ปัจจัยพื้นฐานส่วนบุคคล เศรษฐกิจสังคมของสมาชิก และข้อมูลทั่วไปบางประการของวิสาหกิจชุมชนแปรรูปเครื่องแกงจังหวัดสงขลา พบว่า สมาชิกเป็นเพศหญิง จำนวน 290 คน (ร้อยละ 96.00) สถานภาพสมรส ร้อยละ 78.50 จบประถมศึกษา ร้อยละ 54.30 อาชีพหลัก คือ เกษตรกรรม ร้อยละ 77.15 อาชีพเสริม ร้อยละ 64.24 คือ ทำเครื่องแกง ร้อยละ 59.60 มีการดำรงตำแหน่งทางสังคม ร้อยละ 32.45 เหตุผลที่เข้าร่วมเป็นสมาชิก คือ ต้องการมีรายได้เพิ่ม/รายได้เสริม ร้อยละ 82.78 การรับรู้ข้อมูลข่าวสารได้จากประธานกลุ่ม ร้อยละ 64.24 เป็นประเภทวิสาหกิจชุมชนพื้นฐาน ร้อยละ 73.18 การ

ประกอบการอยู่ในระดับชุมชน ร้อยละ 82.78 มีการจดทะเบียนภาษีมูลค่าเพิ่ม ร้อยละ 31.79 มีเงินทุนเฉลี่ย 94,652.29 บาท มีหนี้สินเฉลี่ย 298,026.32 บาท วิสาหกิจชุมชนมีการแบ่งฝ่ายงาน ร้อยละ 73.18 มีมาตรฐานรับรองการผลิตและสินค้า ร้อยละ 33.11 คือ OTOP ที่ได้รับจากสำนักงานพัฒนาชุมชนอำเภอ และ อย. ที่ได้รับรองจากสำนักงานสาธารณสุขจังหวัด ร้อยละ 27.48 และ 12.58 ตามลำดับ

2. ระดับความคิดเห็นของสมาชิกในการบริหารจัดการวิสาหกิจชุมชนแปรรูปเครื่องแกงจังหวัดสงขลา พบว่า โดยรวมอยู่ในระดับมาก มีค่าเฉลี่ยโดยรวม 4.05 โดยด้านผู้นำและการบริหารวิสาหกิจชุมชน มีค่าเฉลี่ยสูงสุด 4.16 ส่วนด้านการจัดการความรู้และข้อมูล มีค่าเฉลี่ยต่ำสุด 3.99 (ตารางที่ 2)

ตารางที่ 2 ค่าเฉลี่ย ($\bar{X}$) และค่าเบี่ยงเบนมาตรฐาน (S.D.) ความคิดเห็นของสมาชิกในการบริหารจัดการวิสาหกิจชุมชนแปรรูปเครื่องแกงจังหวัดสงขลา

ด้านที่	ความคิดเห็นของสมาชิกในการบริหารจัดการวิสาหกิจชุมชนแปรรูปเครื่องแกง	ระดับความคิดเห็น		
		$\bar{X}$	S.D.	แปลผล
1.	ด้านผู้นำและการบริหารวิสาหกิจชุมชน	4.16	0.55	มาก
2.	ด้านการวางแผนการดำเนินงาน	4.04	0.62	มาก
3.	ด้านการบริหารตลาด	4.06	0.65	มาก
4.	ด้านการจัดการความรู้และข้อมูล	3.99	0.62	มาก
5.	ด้านการบริหารสมาชิกวิสาหกิจชุมชน	4.02	0.66	มาก
6.	ด้านการจัดการสินค้าหรือบริการ	4.05	0.66	มาก
7.	ด้านผลลัพธ์การดำเนินงานวิสาหกิจชุมชน	4.03	0.59	มาก
	รวม	**4.05**	**0.55**	**มาก**

3. ผลการวิเคราะห์ปัจจัยที่มีผลต่อความคิดเห็นของสมาชิกในการบริหารจัดการวิสาหกิจชุมชนแปรรูปเครื่องแกงจังหวัดสงขลา ได้แก่

1) ปัจจัยพื้นฐานส่วนบุคคล พบว่า เพศ สถานภาพสมรส ระดับการศึกษา อาชีพหลัก อาชีพเสริม ไม่มีผลต่อความคิดเห็นของสมาชิกในการบริหารจัดการวิสาหกิจชุมชนแปรรูปเครื่องแกง (ตารางที่ 3-4)

ตารางที่ 3 การเปรียบเทียบความคิดเห็นของสมาชิกในการบริหารจัดการวิสาหกิจชุมชนแปรรูปเครื่องแกง จำแนกตามปัจจัยพื้นฐานส่วนบุคคล (เพศ และอาชีพเสริม)

ปัจจัยพื้นฐานส่วนบุคคล		Mean	S.D.	t-test	P-value
1. เพศ	ชาย	3.95	0.30	-1.186^{ns}	0.255
	หญิง	4.05	0.56		
2. อาชีพเสริม	มี	4.08	0.53	1.383^{ns}	0.168
	ไม่มี	3.99	0.58		

ตารางที่ 4 การเปรียบเทียบความคิดเห็นของสมาชิกในการบริหารจัดการวิสาหกิจชุมชนแปรรูปเครื่องแกง จำแนกตามปัจจัยพื้นฐานส่วนบุคคล (สถานภาพสมรส ระดับการศึกษา และอาชีพหลัก)

ปัจจัยพื้นฐานส่วนบุคคล	ความแปรปรวน	Sum of Squares	df	Mean Square	F	P-value
1. สถานภาพสมรส	ระหว่างกลุ่ม	0.88	2	0.44	1.446^{ns}	0.237
	ภายในกลุ่ม	90.56	299	0.30		
	รวม	91.44	301			
2. ระดับการศึกษา	ระหว่างกลุ่ม	1.66	6	0.28	0.908^{ns}	0.490
	ภายในกลุ่ม	89.78	295	0.30		
	รวม	91.44	301			
3. อาชีพหลัก	ระหว่างกลุ่ม	1.62	5	0.32	1.070^{ns}	0.377
	ภายในกลุ่ม	89.82	296	0.30		
	รวม	91.44	301			

2) ปัจจัยทางเศรษฐกิจสังคมของสมาชิกวิสาหกิจชุมชนแปรรูปเครื่องแกง พบว่า ตำแหน่งทางสังคม ไม่มีผลต่อความคิดเห็นของสมาชิกในการบริหารจัดการวิสาหกิจชุมชนแปรรูปเครื่องแกง ส่วนเหตุผลที่เข้าร่วมเป็นสมาชิกวิสาหกิจชุมชนแปรรูปเครื่องแกง ได้แก่ พอใจในกิจกรรมกลุ่ม ต้องการความรู้ และเหตุผลอื่น ๆ ในการเข้าร่วมเป็นสมาชิก เช่น เพื่อพัฒนาชุมชน สร้างอาชีพ นำวัตถุดิบในชุมชนมาแปรรูปสร้างมูลค่าเพิ่ม เพื่อสร้างกลุ่มให้แข็งแรง และต้องการสร้างให้เป็นแหล่งเรียนรู้ชุมชน มีผลต่อความคิดเห็นของสมาชิกในการบริหารจัดการวิสาหกิจชุมชนแปรรูปเครื่องแกงแตกต่างกัน อย่างมีนัยสำคัญทางสถิติที่ระดับ 0.001 0.01 และ 0.01 ตามลำดับ โดยสมาชิกที่เลือกพอใจในกิจกรรมกลุ่ม (ค่าเฉลี่ย 4.20) ต้องการความรู้ (ค่าเฉลี่ย 4.16) และเหตุผลอื่นๆ (ค่าเฉลี่ย 4.69) มีความคิดเห็นในการบริหารจัดการวิสาหกิจชุมชนแปรรูปเครื่องแกงสูงกว่าที่ไม่ได้เลือก (ค่าเฉลี่ย 3.89 3.98 และ 4.04 ตามลำดับ) ส่วนแหล่งที่ได้รับข้อมูลข่าวสารเกี่ยวกับวิสาหกิจชุมชนแปรรูปเครื่องแกง ได้แก่ ประธานกลุ่ม คณะกรรมการกลุ่ม สมาชิกกลุ่ม หน่วยงานภาครัฐอื่น ๆ หน่วยงานเอกชน และผู้นำ มีผลต่อความคิดเห็นของสมาชิกในการบริหารจัดการวิสาหกิจชุมชนแปรรูปเครื่องแกงแตกต่างกัน อย่างมีนัยสำคัญทางสถิติที่ระดับ 0.001 0.001 0.001 0.01 0.05 และ 0.05 ตามลำดับ โดยสมาชิกที่เลือกประธานกลุ่ม (ค่าเฉลี่ย 4.17) คณะกรรมการกลุ่ม (ค่าเฉลี่ย 4.29) สมาชิกกลุ่ม (ค่าเฉลี่ย 4.16) หน่วยงานภาครัฐอื่น ๆ (ค่าเฉลี่ย 4.18) หน่วยงานเอกชน (ค่าเฉลี่ย 4.36) มีความคิดเห็นในการบริหารจัดการวิสาหกิจชุมชนแปรรูปเครื่องแกงสูงกว่าที่ไม่ได้เลือก (ค่าเฉลี่ย 3.83 3.95 3.92 3.97 และ 4.03 ตามลำดับ) แต่สมาชิกที่เลือกผู้นำชุมชน (ค่าเฉลี่ย 3.96) มีความคิดเห็นในการบริหารจัดการวิสาหกิจชุมชนแปรรูปเครื่องแกงต่ำกว่าไม่ได้เลือก (ค่าเฉลี่ย 4.10) (ตารางที่ 5)

ตารางที่ 5 การเปรียบเทียบความคิดเห็นของสมาชิกในการบริหารจัดการวิสาหกิจชุมชนแปรรูปเครื่องแกง จำแนกตามปัจจัยทางเศรษฐกิจสังคมของสมาชิก (ตำแหน่งทางสังคม เหตุผลที่เข้าร่วมเป็นสมาชิก และแหล่งที่ได้รับข้อมูลข่าวสาร)

ปัจจัยทางเศรษฐกิจสังคม		Mean	S.D.	t-test	P-value

สรุปและอภิปรายผล

การศึกษาปัจจัยที่มีผลต่อความคิดเห็นของสมาชิกในการบริหารจัดการวิสาหกิจชุมชนแปรรูปเครื่องแกงจังหวัดสงขลา สามารถสรุปและอภิปรายผลได้ดังนี้

1) ปัจจัยทางเศรษฐกิจสังคมของสมาชิกวิสาหกิจชุมชนแปรรูปเครื่องแกง พบว่า สมาชิกที่มีเหตุผลในการเข้าร่วมวิสาหกิจชุมชน เพราะพอใจในกิจกรรมกลุ่ม ต้องการความรู้ และเหตุผลอื่นๆ มีผลต่อความคิดเห็นของสมาชิกในการบริหารจัดการวิสาหกิจชุมชนแปรรูปเครื่องแกงแตกต่างกัน ทั้งนี้เนื่องจากสมาชิกที่พอใจในกิจกรรมกลุ่ม มีส่วนร่วมช่วยกันแปรรูปเครื่องแกงตลอดกระบวนการผลิต อีกทั้งมีความถนัดในการทำอาหาร จึงสามารถใช้ความถนัดนี้ สร้างรายได้ให้กับครอบครัวเพิ่มขึ้น จากการจำหน่ายสินค้าเครื่องแกง ส่งผลให้เกิดความพอใจในกิจกรรมกลุ่มได้ สำหรับสมาชิกที่ต้องการความรู้และมีเหตุผลอื่นๆ มีความคิดเห็นสูงกว่าสมาชิกที่ไม่เลือก ทั้งนี้อาจเป็นเพราะการรวมกลุ่ม ส่วนใหญ่สมาชิกได้รับความรู้จากการสนับสนุนของหน่วยงานภาครัฐหรือเอกชน ทำให้สมาชิกกลุ่มสามารถเติบโตไปพร้อม ๆ กับกลุ่ม นอกจากนี้การใช้วัตถุดิบส่วนหนึ่งจากแปลงเกษตรของสมาชิก เช่น พริก ตะไคร้ ขมิ้น เป็นการเพิ่มมูลค่าของสินค้าเกษตรในชุมชน ตลอดจนกระบวนการผลิตอยู่ในรูปแบบใช้แรงงานสมาชิกในการล้าง คัดแยก ปอก ตำให้เกิดความสามัคคีภายในกลุ่ม และส่งผลให้การดำเนินงานของกลุ่มประสบความสำเร็จ ซึ่งสอดคล้องกับงานวิจัยของธนัญญาณ์ โสภณพุทธพร, นารีรัตน์ สีระสาร และ เบญจมาศ อยู่ประเสริฐ (2566) ที่ศึกษาปัจจัยที่มีผลต่อการดำเนินงานของวิสาหกิจชุมชนในอำเภอบ้านค่าย จังหวัดระยอง พบว่า ปัจจัยด้านการมีส่วนร่วมความรู้และทัศนคติของสมาชิก เป็นปัจจัยหลักที่ส่งผลต่อการดำเนินงานของวิสาหกิจชุมชนในจังหวัดระยอง ซึ่งสะท้อนว่า หากสมาชิกมีความรู้หรือความพึงพอใจต่อกิจกรรมที่ทำก็จะส่งผลให้เกิดความสามัคคีและมีทัศนคติเชิงบวกต่อการบริหารกลุ่มเช่นเดียวกัน ซึ่งสอดคล้องกับงานวิจัยของธนัท ตาปัญญา (2566) ที่ศึกษาแนวทางการส่งเสริมการมีส่วนร่วมในการดำเนินงานของสมาชิกวิสาหกิจชุมชนในอำเภอท่าสองยาง จังหวัดตาก พบว่า การมีส่วนร่วมในการดำเนินงานของสมาชิกมีความสำคัญต่อความสำเร็จของวิสาหกิจชุมชน โดยเฉพาะอย่างยิ่งเมื่อสมาชิกได้รับความรู้และการสนับสนุนจากหน่วยงานภาครัฐหรือเอกชน และสอดคล้องกับงานวิจัยของอาทิตย์ อินทรภักดี และประสิทธิ์ รักนุ้ย (2565) ที่ศึกษาการบูรณาการความร่วมมือของท้องถิ่นและวิสาหกิจชุมชนเพื่อพัฒนาการส่งออก กรณีศึกษาวิสาหกิจชุมชนกลุ่มเครื่องแกงบ้านคลองจิก จังหวัดสงขลา พบว่า การบูรณาการความร่วมมือระหว่างท้องถิ่นและวิสาหกิจชุมชน รวมถึงการมีส่วนร่วมของสมาชิกในกระบวนการผลิต ส่งผลให้เกิดความสามัคคีภายในกลุ่มและส่งผลให้การดำเนินงานของกลุ่มประสบความสำเร็จ

สมาชิกที่ได้รับข้อมูลข่าวสารเกี่ยวกับวิสาหกิจชุมชนจากประธานวิสาหกิจชุมชน คณะกรรมการวิสาหกิจชุมชน สมาชิกวิสาหกิจชุมชน หน่วยงานภาครัฐอื่น ๆ หน่วยงานเอกชน และผู้นำชุมชน มีผลต่อความคิดเห็นของสมาชิกในการบริหารจัดการวิสาหกิจชุมชนแปรรูปเครื่องแกงแตกต่างกัน ทั้งนี้เนื่องจากวิสาหกิจชุมชนมีลักษณะเป็นกลุ่ม การประสานงานหรือแจ้งข้อมูลข่าวสาร การรับรู้ข้อมูลข่าวสารจากภายนอก ตลอดจนการเข้าร่วมอบรม ดำเนินจัดกิจกรรมในโครงการต่าง ๆ ส่วนใหญ่มีการประสานงานผ่านผู้นำ คือ ประธานวิสาหกิจชุมชน หากประธานไม่สะดวกหรือไม่ว่าง จะมอบหมายให้คณะกรรมการหรือตัวแทนสมาชิกดำเนินการแทน เพื่อแจ้งข้อมูลข่าวสารกับสมาชิกรับทราบต่อไป หรือรับทราบโดยตรงจากหน่วยงานภาครัฐ หน่วยงานเอกชน หรือผู้นำชุมชน ในการจัดกิจกรรมโครงการต่าง ๆ ซึ่งมีความใกล้เคียงกับงานวิจัยของจรีภรณ์ มีศรี (2563) ที่ศึกษาปัจจัยที่ส่งผลต่อความสำเร็จของวิสาหกิจชุมชนชาลี-วรรณ ชุมชนพัฒนา ตำบลบางปลา อำเภอบางพลี จังหวัดสมุทรปราการ พบว่า สมาชิกมีความเห็นว่า

การที่สมาชิกรับทราบข้อมูลการดำเนินงานของกลุ่มอย่างต่อเนื่องและเป็นปัจจุบัน มีความสำคัญมากเป็นอันดับแรก และการมีผู้นำกลุ่มที่เข้มแข็ง ทุกคนมีความรู้ความเข้าใจในหลักการดำเนินงานของกลุ่ม มีการบริหารจัดการกลุ่มที่ดี สมาชิกทุกคนได้มีส่วนร่วมในการดำเนินงานกิจกรรมต่าง ๆ ของกลุ่ม เป็นปัจจัยหลักในการพัฒนาและขับเคลื่อนกลุ่มสู่ความสำเร็จ

2) ข้อมูลทั่วไปบางประการของสมาชิกวิสาหกิจชุมชนแปรรูปเครื่องแกง พบว่า ระดับการประกอบการของวิสาหกิจชุมชน มีผลต่อความคิดเห็นของสมาชิกในการบริหารจัดการวิสาหกิจชุมชนแปรรูปเครื่องแกงแตกต่างกัน ซึ่งมีระดับการประกอบการของวิสาหกิจชุมชน อยู่ในระดับชุมชน ทั้งนี้เนื่องจากการจดทะเบียนสมาชิกวิสาหกิจชุมชน เป็นการรวมตัวกันของสมาชิกตั้งแต่ 7 คนขึ้นไปที่อยู่ในชุมชนหรือหมู่บ้านเดียวกัน หรือต่างหมู่บ้านที่ใกล้กัน เพื่อให้สะดวกในการจัดการด้านการบริหารกลุ่มและการนำวัตถุดิบในท้องถิ่นมาแปรรูป ตลอดจนการรวมตัวกันทำกิจกรรมแปรรูปเครื่องแกงร่วมกันของสมาชิก ซึ่งสอดคล้องกับงานวิจัยของสุกัญญา เอกนิล (2547) ที่ศึกษาเรื่องวิสาหกิจชุมชนกับการส่งเสริมเศรษฐกิจชุมชนพึ่งตนเอง ศึกษากรณีกลุ่มเกษตรกรทำสวน ตำบลแพรกศรีราชา อำเภอสรรคบุรี จังหวัดชัยนาท พบว่า การรวมกลุ่มของกลุ่มเกษตรกรทำสวนเป็นการรวมกลุ่มของสมาชิกที่อาศัยอยู่ในหมู่บ้านเดียวกัน

การจดทะเบียนภาษีมูลค่าเพิ่ม การมีเงินทุน และการมีหนี้สินของวิสาหกิจชุมชน มีผลต่อความคิดเห็นของสมาชิกในการบริหารจัดการวิสาหกิจชุมชนแปรรูปเครื่องแกงสูงกว่าสถานะที่ไม่จดทะเบียนภาษีมูลค่าเพิ่ม ไม่มีเงินทุน และไม่มีหนี้สิน ทั้งนี้เนื่องจากกลุ่มวิสาหกิจชุมชนแปรรูปเครื่องแกงที่มีการจดทะเบียนภาษีมูลค่าเพิ่มต้องมีรายได้ 1,800,000 บาทต่อปี การบริหารรวมถึงการดำเนินงานจึงมีความเข้มแข็งกว่ากลุ่มที่ไม่จดทะเบียนภาษีมูลค่าเพิ่ม เพราะต้องจัดทำบัญชีสำหรับยื่นภาษีมูลค่าเพิ่ม แต่ในขณะเดียวกันย่อมสามารถเข้าถึงแหล่งเงินกู้จากสถาบันทางการเงินได้ง่าย ซึ่งอาจทำให้มีหนี้สินที่ต้องชำระสูงกว่าวิสาหกิจชุมชนที่ไม่จดทะเบียนภาษีมูลค่าเพิ่ม และเน้นการระดมเงินทุนจากสมาชิกเป็นหลักจึงไม่มีหนี้สิน สอดคล้องกับงานวิจัยของนุชสรา คำมัน (2559) ที่ศึกษาเรื่องปัจจัยที่ส่งผลต่อความสำเร็จของวิสาหกิจชุมชนในอำเภอลานสัก จังหวัดอุทัยธานี พบว่า ปัจจัยด้านการเงินมีความสัมพันธ์กับความสำเร็จของวิสาหกิจชุมชนโดยรวม อย่างมีนัยสำคัญทางสถิติที่ระดับ 0.001 ซึ่งสอดคล้องกับงานวิจัยของวราภรณ์ สุวรรณพงษ์ (2562) ที่ศึกษาเรื่องการระดมทุนและแหล่งเงินทุนภายนอกในการพัฒนาวิสาหกิจชุมชน พบว่า การระดมทุนจากสมาชิกมีบทบาทสำคัญในการเสริมสร้างเสถียรภาพทางการเงินในระยะสั้น แต่การมีแหล่งเงินทุนจากสถาบันการเงินและการจดทะเบียนภาษีมูลค่าเพิ่มจะทำให้วิสาหกิจชุมชนสามารถขยายกิจการและเพิ่มประสิทธิภาพในการดำเนินงานได้ดีกว่า และสอดคล้องกับงานวิจัยของศุภวรรณ พรหมประสิทธิ์ (2560) ที่ศึกษาเรื่องปัจจัยที่ส่งผลต่อการจัดการทางการเงินในวิสาหกิจชุมชน การศึกษาวิสาหกิจชุมชนที่จดทะเบียนภาษีมูลค่าเพิ่ม พบว่า วิสาหกิจชุมชนที่จดทะเบียนภาษีมูลค่าเพิ่มมีความสามารถในการจัดการทางการเงินที่ดีกว่า เนื่องจากการมีระบบการบัญชีที่โปร่งใสและสามารถจัดการหนี้สินได้ดีกว่า

ข้อเสนอแนะ

1. ปัจจัยด้านเหตุผลการเข้าร่วมเป็นสมาชิกวิสาหกิจชุมชนแปรรูปเครื่องแกง เพราะพอใจในกิจกรรมกลุ่ม ต้องการความรู้ และเหตุผลอื่นๆ เช่น เพื่อพัฒนาชุมชน ประธานวิสาหกิจชุมชนมีการแบ่งฝ่ายงานและกระจายงานให้ทั่วถึง เพื่อให้สมาชิกทุกคนมีส่วนร่วมและเห็นว่าตัวเองมีความสำคัญกับกลุ่ม อีกทั้งกรมส่งเสริมการเกษตร ควรให้ความรู้แก่สมาชิกที่ปลูกพืชวัตถุดิบ เช่น พริก ตะไคร้ ขมิ้น ให้ขอ

รับรองมาตรฐาน GAP จากกรมวิชาการเกษตร ทำให้สมาชิกสามารถเติบโตไปพร้อม ๆ กับกิจการของกลุ่มและกรมการพัฒนาชุมชน ควรให้ความรู้เรื่องการสร้างมูลค่าเพิ่มจากพืชวัตถุดิบ แปรรูปเพิ่มความหลากหลายของสินค้านอกจากการทำเครื่องแกง

2. ปัจจัยด้านแหล่งข้อมูลข่าวสารที่ได้รับเกี่ยวกับวิสาหกิจชุมชนแปรรูปเครื่องแกง โดยประธานวิสาหกิจชุมชนควรใช้ช่องทางที่หลากหลาย นอกจากการรับรู้ข้อมูลข่าวสารจากประธานในการประชุมกลุ่ม ที่ในบางครั้งสมาชิกไม่สามารถเข้าร่วมได้ครบทุกคน ทำให้กระจายข้อมูลไม่ทั่วถึงแก่สมาชิก จึงควรใช้สื่อสิ่งพิมพ์ เช่น ในการประชุมทุกครั้ง มีผลการประชุม ข้อมูลข่าวสารต่าง ๆ ที่จะแจ้ง ติดไว้ที่ทำการกลุ่มเพื่อให้สมาชิกทุกคนสามารถเข้ามาดูย้อนหลังได้

3. ปัจจัยด้านระดับการประกอบการของวิสาหกิจชุมชน จากระดับพื้นฐาน ให้เป็นระดับเครือข่าย โดยกรมส่งเสริมการเกษตร ควรส่งเสริมให้เกษตรกรในพื้นที่และพื้นที่ใกล้เคียงรวมกลุ่มปลูกพืชวัตถุดิบ เช่น พริก ตะไคร้ ขมิ้น และแนะนำการจดทะเบียนวิสาหกิจชุมชนเพื่อเป็นเครือข่ายให้แก่วิสาหกิจชุมชนแปรรูปเครื่องแกง ทำให้วิสาหกิจชุมชนเครือข่ายมีรายได้ วิสาหกิจชุมชนแปรรูปเครื่องแกงก็มีวัตถุดิบในชุมชน สามารถลดต้นทุนวัตถุดิบ รายได้เพิ่มขึ้น เกิดเป็นกลุ่มย่อยที่ดำเนินกิจการโดยพึ่งพาอาศัยกัน ทำให้กลุ่มมีความแข็งแกร่งที่จะพัฒนาระดับการประกอบการไปสู่ระดับที่สูงขึ้น ในระดับธุรกิจต่อไป

4. ปัจจัยด้านเงินทุนและหนี้สิน เนื่องจากกลุ่มมีการระดมหุ้นจากสมาชิกเพื่อเป็นทุนในการดำเนินกิจการวิสาหกิจชุมชนแปรรูปเครื่องแกง ซึ่งส่วนใหญ่กลุ่มมีรายได้น้อย ส่งผลให้ความสามารถในการชำระหนี้น้อย จึงเข้าถึงแหล่งเงินทุนได้ยาก โดยกรมส่งเสริมการเกษตรร่วมกับธนาคารเพื่อการเกษตร (ธ.ก.ส.) ควรจัดให้มีโครงการสนับสนุนเงินทุนดอกเบี้ยต่ำหรือกองทุนหมุนเวียนสำหรับสมาชิกวิสาหกิจชุมชน เพื่อลดภาระหนี้สิน ทำให้กลุ่มได้มีเงินทุนหมุนเวียนเพิ่มขึ้น

บทคัดย่อ

การวิจัยครั้งนี้มีวัตถุประสงค์เพื่อศึกษาคุณลักษณะของงานวิจัยที่ได้จากการสังเคราะห์งานวิจัยเกี่ยวกับการปรับพฤติกรรมของเด็กที่มีภาวะออทิซึมสเปคตรัม และเพื่อให้ได้องค์ความรู้เกี่ยวกับการปรับพฤติกรรม ศึกษาจากฐานข้อมูล TDC (Thai Digital Collection) ย้อนหลัง ตั้งแต่ปี 2557–2567 โดยใช้วิธีการสังเคราะห์เชิงคุณภาพ พบว่า มีงานวิจัยที่ผ่านเกณฑ์ทั้งหมด 12 ชิ้น จาก 7 มหาวิทยาลัยทั่วประเทศ โดยใช้แบบบันทึกข้อมูล และวิเคราะห์ข้อมูลด้วย ค่าเฉลี่ย ร้อยละ ความถี่ และข้อมูลเชิงคุณภาพ ผลการศึกษาพบว่า คุณลักษณะของงานวิจัยประกอบด้วย กลุ่มตัวอย่างส่วนใหญ่ร้อยละ 91.67 เป็นการวินิจฉัยโดยแพทย์ ผ่านการเลือกแบบเจาะจง ตัวแปรต้นที่พบมากที่สุด ร้อยละ 16.67 คือ การใช้อาชาบำบัด และตัวแปรตามที่พบมากที่สุด ร้อยละ 11.76 คือ ทักษะการสื่อสาร ทักษะทางสังคม เวลาปฏิกริยาตอบสนองมือ ตา และการทรงตัว การออกแบบงานวิจัยที่พบมากที่สุด ร้อยละ 83.33 คือ One Group Pretest – Posttest Design ร้อยละ 41.67 ใช้ขนาดกลุ่มตัวอย่างตั้งแต่ 6–10 คน รองลงมา ร้อยละ 25.00 เป็นงานศึกษารายกรณี มีระยะเวลาที่ใช้ในการเก็บข้อมูลมากที่สุด ร้อยละ 33.33 น้อยกว่า 10 ชั่วโมง ในส่วนขององค์ความรู้ที่ได้เกี่ยวกับการปรับพฤติกรรมเด็กที่มีภาวะออทิซึมเปคตรัม พบว่า มากที่สุดมีปัญหาด้านการสื่อสารและสังคมมากที่สุด ซึ่งวิธีการปรับที่นิยมใช้ คือ การใช้อาชาบำบัด รูปแบบสื่อการสอนทักษะการสื่อสาร และสื่อประสมเพื่อฝึกการพูด อย่างไรก็ตามควรใช้แนวทางการฝึกที่หลากหลายเพื่อส่งเสริมทักษะต่าง ๆ ที่สำคัญในชีวิตประจำวัน โดยเฉพาะทักษะการสื่อสาร การเข้าสังคม การปรับตัว การพัฒนาทางร่างกายและประสาทสัมผัส

คำสำคัญ: การสังเคราะห์งานวิจัย, การปรับพฤติกรรม, ออทิซึมสเปคตรัม

Abstract

This research aimed to examine the characteristics of studies synthesized from research on behavior modification for children with Autism Spectrum Disorder (ASD) and to acquire knowledge on behavior modification. The study analyzed data from the Thai Digital Collection (TDC) from 2014 to 2024, using a qualitative synthesis approach. A total of 12 qualifying studies from seven universities across the country were identified. Data collection involved using record forms, and data analysis was conducted using averages, percentages, frequencies, and qualitative data. The findings revealed that the characteristics of the research included: nearly 91.67% of the sample had been medically diagnosed with ASD through purposive sampling. The most common independent variable, representing 16.67%, was equine therapy, while the most frequent dependent variable, at 11.76%, was related to communication skills, social skills, hand-eye reaction time, and balance. The most common research design, accounting for 83.33%, was the One Group Pretest-Posttest Design, with 41.67% of studies utilizing sample sizes between 6–10 participants. In addition, 25% of the studies were case studies, and the most frequent data collection duration, representing 33.33%, was less than 10 hours. In terms of acquired knowledge on behavior modification for children with ASD, the study found that the most common issues were in communication and social skills. Equine therapy, communication skill teaching materials, and multimedia tools for speech training were frequently used methods for behavior modification. However, it is recommended to use a variety of training approaches to support essential daily life skills, especially communication skills, social adaptation, physical development, and sensory-motor skills.

Keywords: Research synthesis, behavioral modification, Autism Spectrum Disorder

บทนำ

โรงเรียนเป็นส่วนสำคัญในการช่วยเหลือพัฒนาเด็กให้มีคุณภาพที่ดีเพื่อเป็นรากฐานอันสำคัญ โดยเฉพาะการให้การศึกษาที่ดีและเหมาะสมกับความแตกต่างระหว่างบุคคล เพื่อเตรียมเด็กให้เติบโตเป็นผู้ใหญ่ที่มีคุณภาพสามารถพึ่งพาตนเองได้ ปรับตัวได้อย่างเหมาะสมกับการเปลี่ยนแปลง เพื่อการอยู่ร่วมกันในสังคมไทยบนพื้นฐานสิทธิขั้นพื้นฐานของความเป็นไทย สอดคล้องกับรัฐธรรมนูญฉบับปี 60 ที่ได้ระบุด้านการศึกษาได้กำหนดให้รัฐต้องดำเนินการให้เด็กทุกคนได้รับการศึกษาอย่างทั่วถึง และจะต้องจัดให้กับผู้มีความต้องการพิเศษด้วยรูปแบบอันเหมาะสมกับความสามารถของบุคคล (สำนักงานเลขาธิการวุฒิสภา, 2560) เด็กที่มีภาวะออทิซึมสเปคตรัมเป็น 1 ใน 9 ของเด็กที่มีความต้องการจำเป็นพิเศษ ปัจจุบันในด้านการศึกษาได้จำแนกเด็กพิเศษออกเป็น 9 ประเภท (สถาบันราชานุกูล กรมสุขภาพจิต, 2567) ซึ่งเด็กเหล่านี้มีสิทธิ์ที่จะได้รับการศึกษาอย่างเท่าเทียม และเพื่อให้ครูเกิดความตระหนัก ในการจัดการศึกษาแก่เด็กพิเศษ อีกทั้งยังเพื่อให้พวกเขาสามารถพึ่งพาตนเองได้ มีคุณภาพชีวิตที่ดี และสามารถดำรงชีวิตในสังคมได้อย่างมีความสุขและมีศักดิ์ศรีเช่นเดียวกับเด็กปกติทั่วไป โดยเฉพาะนักเรียนที่มีภาวะออทิซึมสเปคตรัมมีความผิดปกติทางพัฒนาการ โดยสมองทำงานผิดปกติจะแสดงออกมา 2 ด้านใหญ่ (American

Psychiatric Association, 2013) ดังนี้ 1) ความบกพร่องด้านการสื่อสารและการปฏิสัมพันธ์ทางสังคม และ 2) พฤติกรรมและความสนใจที่จำกัดและซ้ำซ้อน

โรงเรียนจึงเป็นส่วนสำคัญในการพัฒนาศักยภาพเด็กออทิซึมสเปคตรัม เช่นเดียวกับนักเรียนทั่วไป ให้มีคุณภาพที่ดีเป็นรากฐานอันสำคัญที่จะทำให้การพัฒนาประเทศมีความก้าวหน้ายิ่งขึ้น ในปัจจุบันได้มีการพูดถึงการศึกษาเพื่อทุกคน (Education For All: EFA) เพราะเป็นเครื่องมือสำคัญในการบรรลุเป้าหมายสังคมสำหรับทุกคนและสังคมอย่างเสมอภาค โดยจำเป็นจะต้องนำความหลากหลายของผู้เรียนมาพิจารณาเหนือจากความพิการ (ดารณี อุทัยรัตนกิจ, 2562) เด็กที่มีภาวะออทิซึมสเปคตรัม ต้องเผชิญกับปัญหาในระบบการศึกษาขั้นพื้นฐานที่เรียนร่วมกับเด็กทั่วไป พวกเขามีความยากในการเข้าใจความคิด ความรู้สึก อารมณ์ของผู้อื่น ยากที่จะเข้าใจการกระทำของตนเองว่ามีผลกระทบกับบุคคลอื่นอย่างไร ยากที่จะเข้าใจกฎเกณฑ์ทางสังคม และยากที่จะสามารถควบคุมตนเองได้ พฤติกรรมเหล่านี้จึงส่งผลให้นักเรียนที่มีภาวะออทิซึมสเปคตรัมมีปัญหาในการสร้างปฏิสัมพันธ์กับบุคคลอื่น และไม่รู้แบบแผนของการมีปฏิสัมพันธ์กับผู้อื่น และไม่สามารถแสดงอารมณ์และความรู้สึกที่เหมาะสมต่อสถานการณ์ได้ (กุลยา ก่อสุวรรณ และ ยุวดี วิริยางกูร, 2562)

เด็กที่มีภาวะออทิซึมสเปกตรัมมีแนวโน้มที่จะแสดงพฤติกรรมที่เป็นปัญหาบ่อยครั้งและอย่างต่อเนื่อง เช่น วิตกกังวล ซึมเศร้า การเข้าสังคม พฤติกรรมไม่ปฏิบัติตามกฎ ก้าวร้าว ทำร้ายตนเอง หรือทำลายข้าวของ (Lindor & et al., 2019) ส่วนซึ่งปัจจัยหนึ่งอาจเนื่องมาจากข้อจำกัดทางการสื่อสารของนักเรียนที่มีภาวะออทิซึมสเปกตรัมที่ทำให้มีแนวโน้มแสดงพฤติกรรมที่เป็นปัญหาค่อนข้างสูง (Muharib, Correa, Wood and Haughney, 2019) ด้วยปัญหาทั้งการสื่อสาร อารมณ์ และสังคมที่กล่าวมาแสดงให้เห็นถึงความจำเป็นในการให้ความช่วยเหลือเด็กที่มีภาวะออทิซึมสเปคตรัม ซึ่งมีงานวิจัยหลายชิ้นที่นำเสนอรูปแบบการปรับพฤติกรรมที่ไม่พึงประสงค์ต่าง ๆ ดังที่กล่าวมา ยกตัวอย่างเช่น งานวิจัยของสินีนาฏ บุญมี. (2558) ที่มุ่งพัฒนาโปรแกรมการใช้ม้าช่วยบำบัดสำหรับเยาวชนที่มีภาวะออทิสติกสเปคตรัม โดยการบำบัดนี้มุ่งเน้นที่การเสริมสร้างพฤติกรรมทางสังคมและลดพฤติกรรมที่ไม่พึงประสงค์ของเยาวชนกลุ่มนี้ โปรแกรมการบำบัดรวม 4 กิจกรรมหลัก ได้แก่ การแนะนำม้า การเตรียมอาหารและให้อาหารม้า การทำความสะอาดม้า และการจูงม้าเยี่ยมชม การวัดผลทั้งก่อนและหลังการบำบัดใช้แบบประเมินพฤติกรรมทางสังคมและพฤติกรรมไม่พึงประสงค์ พบว่า สามารถช่วยส่งเสริมพฤติกรรมทางสังคมบางประการและลดความรุนแรงของพฤติกรรมที่ไม่พึงประสงค์ในเยาวชนกลุ่มออทิสติกได้อย่างมีประสิทธิภาพ หรือ งานวิจัยของ วิยะดา คำลาพิศ (2557) ที่มีวัตถุประสงค์เพื่อศึกษาผลของกิจกรรมศิลปะสร้างสรรค์ที่มีผลต่อการพัฒนาทักษะทางสังคมของเด็กออทิสติก โดยมีกลุ่มตัวอย่างเป็นนักเรียนชั้นประถมศึกษาปีที่ 6 จำนวน 6 คน ผลการศึกษา พบว่า เด็กออทิสติกที่เข้าร่วมกิจกรรมศิลปะสร้างสรรค์มีการพัฒนาทักษะทางสังคมใน 3 ด้าน ได้แก่ การควบคุมตนเอง การสื่อสารความหมายกับผู้อื่น และการทำงานร่วมกับผู้อื่น โดยผลการวิจัยแสดงให้เห็นว่าเด็กออทิสติกมีทักษะทางสังคมที่ดีขึ้น อย่างมีนัยสำคัญทางสถิติที่ระดับ 0.05 นอกจากนั้นยังมีงานอื่น ๆ อีกมากมาย

อย่างไรก็ตามมีงานวิจัยที่มุ่งเน้นการสังเคราะห์เพื่อหาแนวทางในการพัฒนาหรือปรับพฤติกรรมน้อย ผู้วิจัยจึงคิดว่าหากมีการสังเคราะห์งานวิจัยเกี่ยวกับการปรับพฤติกรรมของเด็กที่มีภาวะออทิซึมสเปคตรัมจะเกิดประโยชน์ต่อผู้เกี่ยวข้องอย่างมาก ผู้วิจัยเลือกใช้วิธีการสังเคราะห์งานวิจัย ซึ่งเป็นการรวบรวมผลงานวิจัยตั้งแต่สองชิ้นขึ้นไปเพื่อแสวงหาคำตอบสำหรับคำถามวิจัยผ่านระเบียบวิธีทางวิทยาศาสตร์และพัฒนาต่อยอดจากผลงานวิจัยเดิม เพื่อนำมาบูรณาการและหาข้อสรุปร่วมกันในประเด็น

ที่ศึกษา ทั้งนี้กระบวนการดังกล่าวมีเป้าหมายในการสรุปรวมสาระอย่างเป็นระบบ เพื่อนำเสนอคำตอบที่ชัดเจนและเป็นประโยชน์ตามปัญหาวิจัยที่กำหนดไว้

วัตถุประสงค์

1. เพื่อศึกษาคุณลักษณะของงานวิจัยที่ได้จากการสังเคราะห์งานวิจัยเกี่ยวกับการปรับพฤติกรรมของเด็กที่มีภาวะออทิซึมสเปคตรัม ระหว่างปี พ.ศ. 2557-2567
2. เพื่อให้ได้องค์ความรู้ เกี่ยวกับการปรับพฤติกรรมเด็กที่มีภาวะออทิซึมเปคตรัม

วิธีการดำเนินวิจัย

ในงานวิจัยนี้มีตัวแปรที่ศึกษาประกอบด้วย ตัวแปรต้น คือ ตัวแปรที่กำกับคุณลักษณะงานวิจัย ประกอบด้วย 1) ตัวแปรด้านเนื้อหาสาระของงานวิจัย และ 2) ตัวแปรด้านวิธีการวิจัย และตัวแปรตาม คือ องค์ความรู้เกี่ยวกับเทคนิคปรับพฤติกรรมสำหรับเด็กออทิซึมสเปคตรัม ใช้วิธีการสังเคราะห์เชิงคุณภาพ (Qualitative Synthesis) โดยดำเนินวิจัยดังนี้ต่อไปนี้

ประชากรและกลุ่มตัวอย่าง

1. งานวิจัยครั้งนี้ศึกษาเกี่ยวกับการปรับพฤติกรรมของเด็กที่มีภาวะออทิซึมสเปคตรัม ในประเทศ ตั้งแต่ปี พ.ศ. 2557-2567 จากฐานข้อมูลอิเล็กทรอนิกส์ ได้แก่ ฐานข้อมูล TDC (Thai Digital Collection) จากประชากรทั้งหมด 30 เรื่อง
2. นำมาเข้าเกณฑ์ในการคัดเลือกงานวิจัยจนได้งานวิจัยเกี่ยวกับการปรับพฤติกรรมของเด็กที่มีภาวะออทิซึมสเปคตรัม จำนวนทั้งหมด 12 เรื่อง ซึ่งงานวิจัยที่ผ่านเกณฑ์นั้นจะต้อง 1) เป็นงานวิจัยที่มีกลุ่มประชากรเป็นเป็นเด็กที่มีออทิซึมสเปคตรัมในรูปแบบ Full-text 2) เป็นงานวิจัยที่มีองค์ประกอบต่าง ๆ ตามระเบียบวิธีวิจัยที่เหมาะสมและสามารถนำไปใช้สังเคราะห์งานวิจัยได้ และ 3) จะต้องเป็นงานวิจัยกึ่งทดลองที่มีวัตถุประสงค์เพื่อการปรับหรือพัฒนาพฤติกรรมของเด็กที่มีภาวะออทิซึมสเปคตรัม

เครื่องมือที่ใช้ในงานวิจัย

1. ผู้วิจัยศึกษาเกี่ยวกับการปรับพฤติกรรมของเด็กที่มีภาวะออทิซึมสเปคตรัม และวิธีการสังเคราะห์งานวิจัย จากหนังสือ บทความ และเอกสารงานวิจัยต่าง ๆ เพื่อเป็นแนวทางในการกำหนดรูปแบบของการบันทึกและตัวแปรคุณลักษณะงานวิจัยเกี่ยวกับการปรับพฤติกรรมของเด็กที่มีภาวะออทิซึมสเปคตรัม ประกอบด้วย 1) ตัวแปรด้านเนื้อหาสาระของงานวิจัย และ 2) ตัวแปรด้านวิธีการวิจัย
2. ผู้วิจัยทำได้ตรวจสอบคุณภาพงานวิจัย โดยตรวจสอบความครบถ้วนของ บทคัดย่อ ชื่อเรื่อง บทนำ เอกสารและงานวิจัยที่เกี่ยวข้อง วิธีการดำเนินวิจัย การวิเคราะห์ข้อมูลและการแปลผลและสรุปผลการวิจัย อภิปรายผล และข้อเสนอแนะ

วิธีการเก็บรวบรวมข้อมูล

เมื่อได้พัฒนาเครื่องมือที่เหมาะสมสำหรับการสังเคราะห์งานวิจัยแล้ว ผู้วิจัยได้นำแบบบันทึกข้อมูลไปทดลองใช้กับงานวิจัย จำนวน 3 เรื่องที่เกี่ยวกับกับการปรับหรือพัฒนาพฤติกรรมของเด็กที่มีภาวะออทิซึมสเปคตรัม เพื่อประเมินความชัดเจนของภาษาและความครอบคลุมของการเก็บข้อมูล จากนั้นทำการปรับปรุงแบบบันทึกเพื่อให้มีความชัดเจนและครอบคลุมประเด็นที่ต้องการศึกษาได้อย่างเหมาะสมและสมบูรณ์ยิ่งขึ้น

การวิเคราะห์ข้อมูล

ข้อมูลที่รวบรวมได้จะถูกนำมาวิเคราะห์โดยใช้สถิติเพื่อวิเคราะห์ข้อมูลพื้นฐาน ได้แก่ ค่าเฉลี่ย (Mean) ร้อยละ (Percentage) และการแจกแจงความถี่ (Frequency Distribution) รวมถึงการวิเคราะห์เชิงคุณภาพโดยใช้การวิเคราะห์เชิงเนื้อหา (Content Analysis)

ผลการวิจัย

จากผลการศึกษาสังเคราะห์งานวิจัย ที่ศึกษาเกี่ยวกับการปรับพฤติกรรมของเด็กที่มีภาวะออทิซึมสเปคตรัม โดยมีขอบเขตการวิจัยครอบคลุมการวิจัยที่ทำเสร็จเรียบร้อยในปี พ.ศ. 2557-2567 ที่ผ่านเกณฑ์คุณภาพงานวิจัยอยู่ทั้งหมด 12 ชิ้น จากมหาวิทยาลัยต่าง ๆ ทั่วประเทศไทย โดยสถาบันที่ผลิตงานวิจัยที่นำมาใช้ในการสังเคราะห์ มีจำนวนมากที่สุด ร้อยละ 25.10 คือ มหาวิทยาลัยเชียงใหม่ รองลงมา ร้อยละ 16.67 คือ มหาวิทยาลัยเกษตรศาสตร์ มหาวิทยาลัยรามคำแหง และมหาวิทยาลัยศิลปากร และร้อยละ 8.33 คือ จุฬาลงกรณ์มหาวิทยาลัย มหาวิทยาลัยเทคโนโลยีพระจอมเกล้าพระนครเหนือ และมหาวิทยาลัยราชภัฏนครราชสีมา

ส่วนที่ 1 ตัวแปรคุณลักษณะด้านเนื้อหาของงานวิจัย

ในการสังเคราะห์งานวิจัยครั้งนี้ผู้วิจัยได้นำอายุของกลุ่มตัวอย่างมาจัดกลุ่มแบ่งออกเป็น กลุ่มเด็กเล็ก (อายุ 2-8 ปี) กลุ่มเด็กโต (อายุ 9-12 ปี) กลุ่มวัยรุ่น (อายุ 13-18 ปี) และกลุ่มวัยหนุ่มสาว (อายุ 19-25 ปี) โดยมีจำนวนความถี่และร้อยละดังนี้

1) ช่วงอายุของกลุ่มตัวอย่าง พบว่า มากที่สุดร้อยละ 58.33 คือเด็กที่มีภาวะออทิซึมสเปคตรัมในกลุ่มเด็กเล็ก (อายุ 2-8 ปี) รองลงมา ร้อยละ 33.33 คือ กลุ่มวัยรุ่น (อายุ 13-18 ปี) ร้อยละ 25.00 คือ กลุ่มวัยหนุ่มสาว (อายุ 19-25 ปี) และร้อยละ 16.67 คือ กลุ่มเด็กโต (อายุ 9-12 ปี)

2) วิธีการคัดกรองภาวะออทิซึมสเปคตรัมของกลุ่มตัวอย่างที่ใช้ในการวิจัยทั้งหมด พบว่ามากที่สุดร้อยละ 91.67 เป็นการวินิจฉัยโดยแพทย์ และร้อยละ 8.33 ไม่ระบุวิธีวินิจฉัย

ตารางที่ 1 ความถี่ และร้อยละของตัวแปรต้น

	ตัวแปรต้น	ความถี่	ร้อยละ
1	การใช้อาชาบำบัด	2	16.70
2	รูปแบบสื่อการสอนทักษะการสื่อสาร	1	8.33
3	สื่อประสมเพื่อฝึกการพูด	1	8.33
4	กิจกรรมศิลปะสร้างสรรค์	1	8.33
5	แผนการเปลี่ยนผ่านเฉพาะบุคคล	1	8.33
6	การสอนตรงร่วมกับสื่อวีดิทัศน์	1	8.33
7	แอปพลิเคชันเกม	1	8.33
8	บทเรียนการ์ตูนเอนิเมชัน	1	8.33
9	ชุดภาพร่วมกับบทบาทสมมุติ	1	8.33
10	การออกกำลังกายด้วยโปรแกรมการฝึกมินิเทนนิส	1	8.33
11	การออกกำลังกายโดยใช้โบซูบอล	1	8.33
	รวม	**12**	**100.00**

3) ตัวแปรต้นจากงานวิจัยทั้งหมดส่วนใหญ่มีความหลากหลายแตกต่างกัน พบว่า มากที่สุดร้อยละ 16.70 คือการใช้ม้าช่วยบำบัด และที่เหลือร้อยละ 8.33 รูปแบบสื่อการสอนทักษะการสื่อสาร สื่อประสมเพื่อฝึกการพูด กิจกรรมศิลปะสร้างสรรค์ แผนการเปลี่ยนผ่านเฉพาะบุคคล การสอนตรงร่วมกับสื่อวีดิทัศน์ แอปพลิเคชันเกม บทเรียนการ์ตูนเอนิเมชัน ชุดภาพร่วมกับบทบาทสมมุติ การออกกำลังกายด้วยโปรแกรมการฝึกมินิเทนนิส และการออกกำลังกายโดยใช้โบซูบอล

ตารางที่ 2 ความถี่ และร้อยละของตัวแปรตาม

	ตัวแปรตาม	ความถี่	ร้อยละ
1	ทักษะการสื่อสาร	2	11.77
2	ทักษะทางสังคม	2	11.77
3	เวลาปฏิกริยาตอบสนองมือ ตา	2	11.77
4	การทรงตัว	2	11.77
5	ความสามารถในการปรับตัวสู่สภาพแวดล้อมใหม่	1	5.88
6	ความสามารถในการรับรู้อารมณ์ของผู้อื่น	1	5.88
7	ประสาทสัมผัส	1	5.88
8	ความสามารถในการประกอบอาหาร	1	5.88
9	พฤติกรรมทางสังคม	1	5.88
10	พฤติกรรมไม่พึงประสงค์	1	5.88
11	ช่วงความสนใจ	1	5.88
12	ความแข็งแรงของกล้ามเนื้อ	1	5.88
13	ระบบไหลเวียนโลหิต	1	5.88
	รวม	**17**	**100.00**

4) ตัวแปรตามจากงานวิจัยทั้งหมด พบว่า มากที่สุดร้อยละ 11.77 คือ ทักษะการสื่อสาร ทักษะทางสังคม เวลาปฏิกริยาตอบสนองมือ ตา และการทรงตัว และร้อยละ 5.88 คือความสามารถในการปรับตัวสู่สภาพแวดล้อมใหม่ ความสามารถในการรับรู้อารมณ์ของผู้อื่น ประสาทสัมผัส ความสามารถในการประกอบอาหาร พฤติกรรมทางสังคม พฤติกรรมไม่พึงประสงค์ ช่วงความสนใจ ความแข็งแรงของกล้ามเนื้อ และระบบไหลเวียนโลหิต

ส่วนที่ 2 ตัวแปรคุณลักษณะงานวิจัยด้านวิธีการวิจัย

1) วัตถุประสงค์ของงานวิจัยทั้งหมด พบว่ามากที่สุดร้อยละ 44.44 เป็นวัตถุประสงค์เพื่อศึกษา เช่น กิจกรรมศิลปะสร้างสรรค์ที่มีผลต่อการพัฒนาทักษะทางสังคม ความสามารถในการปรับตัวสู่สภาพแวดล้อมใหม่ หรือผลของการออกกำลังกายด้วยโปรแกรมการฝึกมินิเทนนิส รองลงมา ร้อยละ 33.33 เพื่อพัฒนา/สร้าง เช่น สื่อการสอน สื่อประสมเพื่อพัฒนาทักษะสื่อสาร แอปพลิเคชั่นเพื่อพัฒนาประสาทสัมผัส หรือบทเรียนการ์ตูนเอนิเมชันเพื่อฝึกความสามารถการประกอบอาหาร และร้อยละ 22.22 เพื่อเปรียบเทียบกับกระบวนการปกติ กับกระบวนการต่าง ๆ เช่น บทเรียนการ์ตูนเอนิเมชัน สื่อวีดีทัศน์เพื่อเพิ่มความสามารถรับรู้อารมณ์ผู้อื่น หรือผลการใช้อาชาบำบัดเพื่อปรับพฤติกรรมทางสังคมและพฤติกรรมไม่พึงประสงค์

2) การออกแบบการวิจัย พบว่า มากที่สุดร้อยละ 83.33 เป็นการออกแบบการวิจัยแบบ One Group Pretest – Posttest Design และร้อยละ 16.67 เป็น One-Shot Case Study Design โดยงานวิจัยทั้งหมดเป็นการทดลองที่มีกลุ่มตัวอย่างกลุ่มเดียว ใช้วิธีเลือกแบบเจาะจง

3) ขนาดของกลุ่มตัวอย่าง พบว่า มากที่สุดร้อยละ 41.67 ใช้กลุ่มตัวอย่างตั้งแต่ 6–10 คน รองลงมา ร้อยละ 25.00 เป็นงานศึกษารายกรณีและใช้กลุ่มตัวอย่างตั้งแต่ 2–5 คน และร้อยละ 8.33 เป็นใช้กลุ่มตัวอย่างระหว่าง 11–15 คน

4) ระยะเวลาในการเก็บข้อมูลของกลุ่มตัวอย่าง พบว่า มากที่สุดร้อยละ 33.33 ใช้เวลาในการทดลองน้อยกว่า 10 ชั่วโมง รองลงมา ร้อยละ 25.00 ตั้งแต่ 11–15 ชั่วโมง และไม่ระบุ และร้อยละ 8.33 ใช้เวลาตั้งแต่ 16–20 ชั่วโมง และ 20 ชั่วโมงขึ้นไป

5) ประเภทของเครื่องมือที่ใช้ในการวิจัย พบว่า มากที่สุดร้อยละ 31.58 ใช้แบบประเมิน เช่น การพูด หรือแบบประเมินสื่อประสมเพื่อฝึกการพูด รองลงมาร้อยละ 21.05 ใช้แบบบันทึก เช่น พฤติกรรมการออกกำลังกาย หรือสมรรถภาพทางกาย ร้อยละ 15.79 ใช้แบบสังเกตพฤติกรรม และแบบทดสอบหรือแบบวัด เช่น ทักษะทางสังคม สมรรถภาพทางกาย ระบบไหลเวียนโลหิต หรือการทรงตัว ร้อยละ 10.53 ใช้แบบสัมภาษณ์ เช่น ผู้เชี่ยวชาญ หรือผู้มีส่วนได้เสีย และร้อยละ 5.26 ใช้แบบสอบถามสื่อประสมเพื่อฝึกการพูดสำหรับเด็กออทิสติก โดยมีค่าความเที่ยงของเครื่องมือที่ใช้ในงานวิจัย พบว่า มากที่สุด ร้อยละ 83.33 ไม่ระบุค่าความเที่ยง และร้อยละ 8.33 มีค่าความเที่ยงระหว่าง 0.85–1.00 และ ระหว่าง 0.50–0.74

6) สถิติที่ใช้ในงานวิจัย พบว่า งานวิจัยที่นำมาสังเคราะห์โดยมากที่สุดร้อยละ 83.33 ใช้สถิติค่าเฉลี่ย รองลงมาร้อยละ 66.67 ใช้สถิติร้อยละ และร้อยละ 50.0 ใช้ส่วนเบี่ยงเบนมาตรฐาน ถัดมาเป็นส่วนของสถิติอนุมาน พบว่า งานวิจัยต่าง ๆ ใช้สถิติเชิงอนุมานที่มากที่สุด ร้อยละ 66.67 ไม่ใช้สถิติเชิงอนุมาน รองลงมา ร้อยละ 25.00 ใช้สถิติ Wilcoxon signed rank test และร้อยละ 8.33 ใช้สถิติ F-Test นอกจากนั้นยังมีค่านัยสำคัญทางสถิติ ซึ่งพบว่างานวิจัยที่ใช้สถิติเชิงอนุมานทั้งหมดมี 4 ชิ้น โดยมีระดับนัยสำคัญทางสถิติที่ระดับ 0.05 ทั้งหมด

ส่วนที่ 3 องค์ความรู้เกี่ยวกับเทคนิคปรับพฤติกรรมสำหรับเด็กออทิซึมสเปคตรัม

จากการสังเคราะห์งานงานวิจัยทั้ง 12 ชิ้น จาก 7 สถาบันมีการใช้วิธีวิจัยที่ถูกต้อง และเหมาะสมที่จะองค์ความรู้เกี่ยวกับเทคนิคปรับพฤติกรรมสำหรับเด็กออทิซึมสเปคตรัม ซึ่งเป็นข้อมูลที่มีความสำคัญอย่างยิ่งในระบบการศึกษาและการพัฒนาเด็ก เนื่องจากเด็กกลุ่มนี้มักประสบปัญหาทางด้านการสื่อสาร การมีปฏิสัมพันธ์ทางสังคม และการปรับตัวต่อสิ่งแวดล้อมใหม่ ๆ ส่งผลกระทบต่อการเรียนรู้และคุณภาพชีวิต การเข้าใจถึงลักษณะเฉพาะของภาวะออทิซึมฯ รวมถึงการเสริมสร้างทักษะที่จำเป็นเพื่อให้เด็กสามารถปรับตัวและพัฒนาตนเองได้อย่างเหมาะสม

จากการสังเคราะห์งานวิจัยในส่วนของตัวแปรตามพบว่า ปัญหาที่พบมากที่สุดคือทักษะการสื่อสาร (ร้อยละ 11.76) และทักษะทางสังคม (ร้อยละ 11.76) และร้อยละ 5.88 มีพฤติกรรมทางสังคมที่มีปัญหา เด็กที่มีภาวะออทิซึมสเปคตรัมมักประสบปัญหาในการสื่อสารและการมีปฏิสัมพันธ์กับผู้อื่น ซึ่งส่งผลต่อการแสดงออกทางภาษาและการเข้าใจการสื่อสารทั้งทางวาจาและอวัจนภาษา ทำให้ยากต่อการสนทนาหรือใช้ภาษาในบริบททางสังคม นอกจากนี้ พวกเขายังมีปัญหาในการสร้างและรักษาความสัมพันธ์ทางสังคม ส่งผลให้เข้าร่วมกิจกรรมหรือการเข้ากลุ่มได้ยาก การพัฒนาทักษะการสื่อสารและทักษะทาง

สังคมจึงเป็นสิ่งจำเป็นเพื่อช่วยให้เด็กกลุ่มนี้สามารถปรับตัวและใช้ชีวิตในสังคมได้ดียิ่งขึ้น ซึ่งองค์ความรู้เกี่ยวกับเทคนิคปรับพฤติกรรมสำหรับเด็กออทิซึมเปคตรัม พบว่า มีหลากหลายวิธีการเหล่านี้ช่วยเสริมสร้างทักษะที่จำเป็นให้กับเด็กที่มีภาวะออทิซึมสเปคตรัมได้เป็นอย่างดี การใช้อาชาบำบัด (ร้อยละ 16.67) เป็นวิธีที่ได้รับความนิยมในการช่วยพัฒนาเด็กให้สามารถพัฒนาทักษะการสื่อสารและการเข้าสังคมได้ โดยการมีปฏิสัมพันธ์กับม้าช่วยให้เด็กมีการตอบสนองทางอารมณ์และสังคมที่ดีขึ้น สำหรับรูปแบบสื่อการสอนทักษะการสื่อสาร (ร้อยละ 8.33) และสื่อประสมเพื่อฝึกการพูด (ร้อยละ 8.33) ทั้งสองวิธีนี้ช่วยให้เด็กมีการเรียนรู้การสื่อสารอย่างมีประสิทธิภาพมากขึ้น โดยเฉพาะในแง่ของการเรียนรู้ผ่านการเห็นและการฟัง ซึ่งเป็นประโยชน์ในการพัฒนาความสามารถในการพูดและการเข้าใจภาษาของเด็ก นอกจากนั้นวิธีการพัฒนาทักษะปรับพฤติกรรมที่ไม่พึงประสงค์ทางสังคมที่สำคัญ ได้แก่ การใช้กิจกรรมที่เน้นการมีปฏิสัมพันธ์กับผู้อื่น เช่น กิจกรรมศิลปะสร้างสรรค์ ชุดภาพบทบาทสมมุติ กิจกรรมการเล่นในกลุ่ม หรือการใช้เทคนิคบทบาทสมมุติ ซึ่งจะช่วยให้เด็กมีโอกาสฝึกฝนทักษะทางสังคมในสภาพแวดล้อมที่สนับสนุนและปลอดภัย กิจกรรมเหล่านี้ยังช่วยให้เด็กเข้าใจถึงความสำคัญของการร่วมมือ การแบ่งปัน และการควบคุมอารมณ์ในสถานการณ์ต่าง ๆ ได้อีกด้วย

นอกเหนือจากทักษะการสื่อสารและทักษะทางสังคมจะเป็นปัญหาหลักแล้ว ผลการศึกษายังพบว่ามีปัญหาที่เกี่ยวข้องกับร่างกายและประสาทสัมผัสด้วย การปรับพฤติกรรมในด้านนี้สามารถทำได้โดยการฝึกทักษะการเคลื่อนไหวและการออกกำลังกาย ซึ่งช่วยพัฒนาทักษะทางร่างกายของเด็กและเสริมสร้างการตอบสนองของมือ-ตาและการทรงตัว การออกกำลังกายที่เหมาะสม เช่น การฝึกมินิเทนนิสหรือการใช้โบซูบอล สามารถช่วยส่งเสริมพัฒนาการทางร่างกายและปรับสมดุลของร่างกายได้ การฝึกเช่นนี้ไม่เพียงแต่ช่วยในด้านการพัฒนากล้ามเนื้อและความยืดหยุ่น แต่ยังสนับสนุนการพัฒนาความมั่นใจและการมีปฏิสัมพันธ์ที่ดีขึ้นในสังคม

อภิปรายผล

ผู้วิจัยได้แบ่งประเด็นการอภิปรายผลจากวัตถุประสงค์ออกเป็น 2 ตอนตามกรอบการวิจัยประกอบไปด้วย 1) ประเด็นการวิจัย และ 2) องค์ความรู้เกี่ยวกับเทคนิคปรับพฤติกรรมสำหรับเด็กออทิซึมสเปคตรัม

1. ผลการวิจัยในด้านเนื้อหาของงานวิจัย และตัวแปรคุณลักษณะด้านวิธีการวิจัย จากงานวิจัยทั้งหมด 12 ชิ้นที่มีคุณภาพเหมาะสมแก่การสังเคราะห์ จากมหาวิทยาลัยทั้งหมด 7 แห่ง โดยผู้วิจัยได้แบ่งช่วงอายุออกเป็น กลุ่มเด็กเล็ก (อายุ 2-8 ปี) กลุ่มเด็กโต (อายุ 9-12 ปี) กลุ่มวัยรุ่น (อายุ 13-18 ปี) และกลุ่มวัยหนุ่มสาว (อายุ 19-25 ปี) พบว่า มากที่สุดคือเด็กที่มีภาวะออทิซึมสเปคตรัมในกลุ่มเด็กเล็ก รองลงมาคือกลุ่มวัยรุ่นถัดมาคือกลุ่มวัยหนุ่มสาว และกลุ่มเด็กโต กลุ่มตัวอย่างส่วนใหญ่เป็นการวินิจฉัยโดยแพทย์ที่น่าพิจารณาก็คือของเครื่องมือที่ใช้ในการวิจัย พบว่า มีการใช้เครื่องมือที่หลากหลายทั้งแบบประเมินแบบบันทึก แบบสังเกต แบบทดสอบหรือแบบวัด แบบสัมภาษณ์ และแบบสอบถาม แสดงให้เห็นว่างานแต่ละชิ้นใช้เครื่องมือที่หลากหลายในการวัดผลทดสอบ โดยใช้ทั้งเครื่องมือเชิงคุณภาพและเครื่องมือเชิงปริมาณ ในส่วนของตัวแปรต้น พบว่า มีการใช้ที่หลากหลาย มากที่สุดคือ การใช้ม้าช่วยบำบัด และตัวแปรตามมากที่สุด คือ ทักษะการสื่อสาร ทักษะทางสังคม เวลาปฏิกริยาตอบสนองมือ ตา และการทรงตัว

จะเห็นว่าตัวแปรต้นและตัวแปรตามที่หลากหลายในงานวิจัยที่เกี่ยวข้องกับเด็กที่มีภาวะ ออทิซึมสเปคตรัม เกิดจากลักษณะเฉพาะบุคคลและบริบทที่แตกต่างกันของเด็กแต่ละคน ซึ่งเป็นเหตุผลสำคัญที่ต้องใช้เครื่องมือในการวัดผลที่หลากหลาย เช่น แบบประเมิน แบบสังเกต แบบบันทึก และแบบทดสอบ

ทั้งในเชิงคุณภาพและเชิงปริมาณ การใช้เครื่องมือเหล่านี้ช่วยให้การวิจัยได้ข้อมูลเชิงลึกที่ครบถ้วนและมีความแม่นยำในการวัดพฤติกรรมที่เฉพาะเจาะจง เช่น การเข้าสังคมและการปรับตัวในสภาพแวดล้อมใหม่ ซึ่งเป็นสิ่งที่เหมาะสมกับความต้องการเฉพาะของเด็กในแต่ละกรณี นอกจากนี้ การใช้เครื่องมือหลากหลายยังสอดคล้องกับหลักการที่นำไปสู่การพัฒนามาตรฐานในการประเมินพฤติกรรม ซึ่งเป็นพื้นฐานสำคัญในการออกแบบการรักษาและการบำบัดที่เหมาะสมสำหรับเด็กที่มีภาวะออทิซึมสเปคตรัมของแต่ละคน โดยเฉพาะอย่างยิ่งการประเมินที่แม่นยำนี้ช่วยปรับแผนการเรียนรู้และการรักษาให้เหมาะสมกับความต้องการเฉพาะตัวของเด็กได้ดียิ่งขึ้น (Edelson, 2021; Abdulrazak and Hussaini, 2021)

2. องค์ความรู้เกี่ยวกับเทคนิคปรับพฤติกรรมสำหรับเด็กออทิซึมสเปคตรัม จากการวิเคราะห์ผลการวิจัย พบว่าปัญหาสำคัญที่เด็กที่มีภาวะออทิซึมสเปคตรัมเผชิญ คือ ข้อจำกัดด้านการสื่อสารและทักษะทางสังคม ซึ่งส่งผลกระทบต่อการใช้ชีวิตประจำวันและการเรียนรู้ วิธีการที่พบว่ามีประสิทธิภาพในการแก้ไขปัญหาดังกล่าว ได้แก่ การใช้อาชาบำบัด การพัฒนาสื่อการสอนทักษะการสื่อสาร และกิจกรรมศิลปะสร้างสรรค์ โดยวิธีการเหล่านี้ช่วยพัฒนาทักษะการสื่อสารและการเข้าสังคมผ่านกระบวนการเรียนรู้ที่มีส่วนร่วม เช่น การโต้ตอบกับสัตว์ การใช้เทคโนโลยีสร้างเสียงพูด และการสร้างสถานการณ์สมมุติในกลุ่มเพื่อน โดยผู้วิจัยขอนำเสนอการอภิปรายเพิ่มเติมเป็นรายประเด็นดังนี้

1) การพัฒนาทักษะการสื่อสาร จากผลการวิจัยพบว่า การใช้สื่อการสอนทักษะการสื่อสาร เช่น สื่อประสมและแอปพลิเคชันเฉพาะด้าน ช่วยให้เด็กที่มีภาวะออทิซึมสเปคตรัมสามารถพัฒนาทักษะการสื่อสารได้มากขึ้น การนำเทคโนโลยีมาใช้ในกระบวนการฝึกสอนทำให้เด็กสามารถเรียนรู้ได้ในรูปแบบที่เหมาะสมกับความสามารถเฉพาะตัว และช่วยให้พวกเขาสามารถสื่อสารกับผู้อื่นได้ดีขึ้น การใช้สื่อประสมที่มีเนื้อหาตรงตามความต้องการของเด็กยังช่วยสร้างความสนใจและกระตุ้นให้เด็กฝึกฝนอย่างต่อเนื่อง ซึ่งส่งผลให้การพัฒนาทักษะการสื่อสารเป็นไปอย่างมีประสิทธิภาพ สอดคล้องกับงานวิจัยของ Lorah, Parnell, Whitby and Hantula (2015) ที่ศึกษาเกี่ยวกับการใช้แท็บเล็ตและเครื่องเล่นสื่อพกพาเป็นอุปกรณ์สร้างเสียงพูด (Speech Generating Devices: SGDs) สำหรับเด็กที่มีภาวะออทิซึมสเปคตรัม งานวิจัยนี้ได้รวบรวมและวิเคราะห์ข้อมูลจากงานวิจัยที่เกี่ยวข้อง เพื่อประเมินประสิทธิภาพของเทคโนโลยีดังกล่าว ในการพัฒนาทักษะการสื่อสารของเด็กมีภาวะออทิซึมสเปคตรัม ผลการศึกษาแสดงให้เห็นว่าอุปกรณ์สร้างเสียงพูดจากแท็บเล็ตและเครื่องเล่นสื่อพกพามีประสิทธิภาพในการช่วยให้เด็กที่มีภาวะออทิซึมสเปคตรัมสามารถพัฒนาการสื่อสารได้ดีขึ้น นอกจากนี้ ยังช่วยเสริมความเข้าใจและการใช้ภาษาในชีวิตประจำวันได้อย่างดี

2) การพัฒนาทักษะทางสังคม การพัฒนาทักษะทางสังคมเป็นสิ่งที่จำเป็นสำหรับเด็กที่มีภาวะออทิซึมสเปคตรัม เนื่องจากพวกเขามีปัญหาในการเข้าใจกฎเกณฑ์ทางสังคมและการสร้างความสัมพันธ์กับผู้อื่น งานวิจัยนี้แสดงให้เห็นว่ากิจกรรมที่เน้นการมีปฏิสัมพันธ์ เช่น กิจกรรมศิลปะสร้างสรรค์และการใช้ชุดภาพและบทบาทสมมุติ ช่วยส่งเสริมให้เด็กสามารถฝึกฝนทักษะทางสังคมได้อย่างดี ผลการวิจัยของวิยะดา คำลาพิศ (2557) ก็สอดคล้องกับผลการวิจัยนี้ โดยพบว่าเด็กที่เข้าร่วมกิจกรรมศิลปะสร้างสรรค์สามารถพัฒนาทักษะทางสังคมได้ดีขึ้นในด้านการควบคุมตนเอง การสื่อสารกับผู้อื่น และการทำงานร่วมกับผู้อื่นอย่างมีประสิทธิภาพ การที่เด็กได้ฝึกปฏิบัติกิจกรรมในลักษณะที่สนับสนุนให้เกิดการสื่อสารและการโต้ตอบ ช่วยให้พวกเขาสามารถปรับตัวและสร้างปฏิสัมพันธ์ที่ดีขึ้นในสังคมได้ นอกจากนั้นงานวิจัยของ สินีนาฏ บุญมี (2558) ที่ใช้โปรแกรมการบำบัดผ่านการใช้ม้า พบว่ากิจกรรมบำบัดสามารถช่วยพัฒนาทักษะการสื่อสารและการโต้ตอบได้อย่างมีประสิทธิภาพมากขึ้นอีกด้วย อีกทั้งยังสอดคล้องกับงานวิจัย

"The Importance of Social Skills for Autism" โดย Lutfi (2017) ที่พบว่าเด็กที่มีภาวะออทิซึมสเปคตรัมมีความยากลำบากในการพัฒนาทักษะทางสังคม แต่การใช้กลยุทธ์เช่น การเรียนรู้ร่วมกับเพื่อนและการเล่าเรื่องสังคม (Social Stories) ช่วยเสริมสร้างทักษะการสื่อสารและการโต้ตอบในสังคมได้อย่างมีประสิทธิภาพ ผลงานนี้เน้นความสำคัญของการใช้วิธีการฝึกที่เหมาะสมเพื่อให้เด็กออทิซึมสเปคตรัมสามารถปรับตัวเข้าสู่สังคมและพัฒนาความสัมพันธ์ที่ดีขึ้น

ทักษะทางสังคมยังสอดคล้องกับการสื่อสารเพราะการสื่อสารเป็นองค์ประกอบสำคัญในการสร้างและรักษาความสัมพันธ์กับผู้อื่น ทักษะทางสังคมไม่เพียงแต่เกี่ยวข้องกับการเข้าใจกฎเกณฑ์ทางสังคมและการมีปฏิสัมพันธ์ในสถานการณ์ต่าง ๆ แต่ยังครอบคลุมถึงความสามารถในการแสดงออกทางคำพูดและภาษากายอย่างเหมาะสม การสื่อสารที่มีประสิทธิภาพช่วยให้เด็กที่มีภาวะออทิซึมสเปคตรัมสามารถสร้างความสัมพันธ์และโต้ตอบกับผู้อื่นได้ดีขึ้น การสอนทักษะทางสังคมจึงมักรวมการฝึกทักษะการสื่อสาร เช่น การใช้คำพูดในการแสดงความคิด การถาม-ตอบ และการทำความเข้าใจภาษากายหรือสัญญาณทางสังคม ซึ่งทั้งหมดนี้มีความสัมพันธ์ใกล้ชิดกับทักษะทางสังคม สอดคล้องกับการศึกษาของ Soares และคณะ (2021) ที่ได้วิเคราะห์เชิงสถิติเกี่ยวกับการฝึกทักษะทางสังคมสำหรับเด็กที่มีภาวะออทิซึมสเปคตรัม พบว่าทั้งการฝึกแบบตัวต่อตัวและการใช้เทคโนโลยีช่วยพัฒนาทักษะทางสังคมในเด็กที่มีภาวะออทิซึมได้ดี อย่างไรก็ตาม เทคโนโลยีมีข้อได้เปรียบในด้านความสามารถในการเข้าถึงและความยืดหยุ่น เนื่องจากสามารถปรับใช้ได้ในหลายบริบทและสภาพแวดล้อม นอกจากนี้ยังช่วยให้ผู้ปกครองหรือผู้ดูแลสามารถมีส่วนร่วมในการฝึกได้มากขึ้น ผลลัพธ์แสดงให้เห็นว่าเทคโนโลยีสามารถเป็นเครื่องมือสำคัญในการพัฒนาทักษะทางสังคม

3) การพัฒนาร่างกายและประสาทสัมผัส การฝึกทักษะการเคลื่อนไหวและการออกกำลังกาย ช่วยพัฒนาทักษะทางร่างกายของเด็ก รวมถึงการตอบสนองของมือ-ตาและการทรงตัว เช่น การฝึกมินิเทนนิส หรือการออกกำลังกายด้วยอุปกรณ์ที่เหมาะสม (เช่น โบซูบอล) ช่วยส่งเสริมพัฒนาการทางร่างกาย และช่วยในการปรับสมดุลของร่างกาย ซึ่งมีผลต่อการพัฒนาทักษะทางสังคมและการจัดการพฤติกรรม สอดคล้องกับงานวิจัยโดย Fu, Wang, Geng, Lv, Shen และ Bu (2022) ที่ศึกษาประสิทธิภาพของการฝึกที่เน้นพัฒนาการเคลื่อนไหวในเด็กสุขภาพดีอายุ 5-6 ปีในประเทศจีน ผลการศึกษาพบว่าโปรแกรมฝึกการเคลื่อนไหวที่เน้นพัฒนาทางด้านกล้ามเนื้อ (Gross Motor) สมรรถภาพทางกาย และการบูรณาการทางประสาทสัมผัส มีผลดีอย่างมากในการพัฒนาทักษะทางกายภาพในเด็ก นอกจากนี้ ยังส่งผลให้เด็กมีสมรรถภาพทางการเรียนรู้ที่ดีขึ้น โดยโปรแกรมฝึกดังกล่าวช่วยพัฒนาความสามารถในการทรงตัว การรับรู้ตำแหน่งของร่างกาย และการทำงานร่วมกันของระบบประสาทและกล้ามเนื้อ

นอกจากนั้นยังพบว่าเด็กที่มีภาวะออทิซึมสเปคตรัมมีปัญหาในด้านการปรับตัว พวกเขามักประสบปัญหาในการปรับตัวเมื่อมีการเปลี่ยนแปลงในสิ่งแวดล้อมและมักแสดงพฤติกรรมที่ไม่เหมาะสม การพัฒนาโปรแกรมที่มุ่งเน้นการฝึกทักษะการปรับตัว เช่น การฝึกผ่านกิจกรรมทางสังคม การใช้เกมหรือบทเรียนอนิเมชัน เพื่อให้เข้าใจและสามารถปรับตัวในสถานการณ์ต่าง ๆ ได้ดีขึ้น สอดคล้องกับการศึกษาของ สาวิตรี วงศ์กิตติรุ่งเรือง และทวี เชื้อสุวรรณทวี (2565) ที่มีความเห็นว่าเด็กออทิสติกมักมีปัญหาในการปรับตัวเมื่อเผชิญกับสภาพแวดล้อมใหม่ การเปลี่ยนผ่านที่ดีและการเตรียมความพร้อมตั้งแต่เนิ่น ๆ จึงเป็นสิ่งสำคัญ ไม่ว่าจะเป็นจากระดับอนุบาลไปยังประถมศึกษา หรือจากประถมศึกษาสู่มัธยมศึกษา อีกทั้งยังสอดคล้องกับการศึกษาของ สุนิสา ปันตรวงศ์ และดารณี อุทัยรัตนกิจ (2562) ที่พบว่าการช่วยเหลือเด็กที่มีภาวะออทิซึมสเปคตรัม ชั้นประถมศึกษาปีที่ 2 ในการเปลี่ยนผ่านไปสู่โรงเรียนใหม่ ผลการศึกษาพบว่า

การให้ความช่วยเหลือผ่านการจัดทำแผนเปลี่ยนผ่านและการใช้เทคนิคเรื่องราวทางสังคม (Social Stories) ช่วยให้นักเรียนสามารถพัฒนาทักษะการเล่นกับเพื่อน มีความสัมพันธ์ที่ดีกับครูและเพื่อนใหม่ และสามารถปรับตัวเข้าสู่สภาพแวดล้อมใหม่ได้อย่างราบรื่น ดังนั้นความสามารถในการปรับตัวจึงสอดคล้องกับการพัฒนาทักษะทางสังคม

แนวทางการปรับพฤติกรรมสำหรับเด็กที่มีภาวะออทิซึมสเปคตรัม เน้นการเสริมสร้างทักษะที่สำคัญในด้านต่าง ๆ ได้แก่ ทักษะการสื่อสาร การเข้าสังคม การปรับตัว และการพัฒนาทางร่างกายและระบบประสาทสัมผัส ซึ่งล้วนมีความเชื่อมโยงและสนับสนุนกันอย่างสำคัญ ทักษะการสื่อสารที่พัฒนาขึ้นช่วยให้เด็กสามารถถ่ายทอดความต้องการ ความรู้สึก และความคิดของตนเองได้อย่างมีประสิทธิภาพ ซึ่งเป็นรากฐานสำคัญในการสร้างความสัมพันธ์ทางสังคมอย่างยั่งยืน ในขณะเดียวกัน การพัฒนาทักษะการเข้าสังคมช่วยให้เด็กสามารถโต้ตอบกับผู้อื่นและทำงานร่วมกับกลุ่มได้ดีขึ้น การปรับตัวในสถานการณ์ใหม่ ๆ สนับสนุนการฝึกฝนการควบคุมตนเอง การจัดการพฤติกรรม และการตอบสนองต่อสิ่งแวดล้อมอย่างเหมาะสม

นอกจากนี้ การพัฒนาระบบประสาทสัมผัสและการเคลื่อนไหว เช่น การฝึกการทรงตัว การออกกำลังกายเฉพาะทาง หรือกิจกรรมที่ต้องใช้การประสานงานระหว่างร่างกายและประสาทสัมผัส ยังช่วยส่งเสริมความสามารถในการควบคุมอารมณ์และพฤติกรรม พร้อมกับสนับสนุนการทำงานร่วมกับผู้อื่น การบูรณาการทักษะเหล่านี้ อย่างต่อเนื่องช่วยให้เด็กมีความพร้อมทั้งด้านร่างกาย จิตใจ และสังคม ทำให้สามารถปรับตัวและเติบโตได้อย่างสมดุล พร้อมทั้งลดพฤติกรรมที่ไม่พึงประสงค์และเพิ่มพฤติกรรมเชิงบวกในชีวิตประจำวัน ซึ่งเป็นปัจจัยสำคัญในการเรียนรู้และการดำรงชีวิตในอนาคตอย่างยั่งยืน

ข้อเสนอแนะ

ข้อเสนอแนะในการนำผลวิจัยไปใช้

1. การบูรณาการทักษะการสื่อสารและทักษะทางสังคม โดยใช้สื่อการสอนและเทคโนโลยีที่เหมาะสม เช่น แอปพลิเคชันหรืออุปกรณ์ที่ช่วยพัฒนาทักษะการสื่อสารของเด็ก โดยควรออกแบบเนื้อหาให้ตรงกับความสามารถเฉพาะตัว เพื่อส่งเสริมให้เด็กฝึกฝนการสื่อสารและพัฒนาทักษะทางสังคมไปพร้อมกันในสภาพแวดล้อมที่เหมาะสม

2. การพัฒนาทักษะการปรับตัว โดยการเตรียมความพร้อมให้กับเด็กออทิซึมในการเผชิญกับการเปลี่ยนแปลงในสภาพแวดล้อมหรือสถานการณ์ใหม่ ควรใช้การเล่าเรื่องสังคมและการสนับสนุนทางสังคมอื่น ๆ เพื่อให้เด็กสามารถปรับตัวได้ดีขึ้นและลดความกังวลเมื่อต้องเผชิญกับสถานการณ์ใหม่

3. การส่งเสริมการพัฒนาทางกายภาพและประสาทสัมผัส โดยการออกกำลังกายหรือกิจกรรมที่เน้นการพัฒนาการทำงานของกล้ามเนื้อและประสาทสัมผัส เช่น การฝึกการทรงตัวและการเคลื่อนไหว จะช่วยพัฒนาทักษะทางกายภาพ การเรียนรู้ และการโต้ตอบกับผู้อื่นได้ดียิ่งขึ้น จึงควรใช้โปรแกรมฝึกที่เน้นการพัฒนาการเคลื่อนไหวในกิจวัตรประจำวันของเด็ก

ข้อเสนอแนะการทำวิจัยครั้งต่อไป

1. จากผลการวิจัยพบว่าเด็กที่มีภาวะออทิซึมสเปคตรัมมีปัญหาทางด้านการสื่อสารและสังคมมากที่สุด หากมีการศึกษาที่มุ่งเน้นตัวแปรนี้จะเป็นประโยชน์อย่างมากในการปรับพฤติกรรม หรือพัฒนาทักษะให้เด็กที่มีภาวะออทิซึมปรับตัวในชีวิตประจำวันได้ดียิ่งขึ้น

2. งานวิจัยทั้งหมดที่ผ่านเกณฑ์เป็นงานวิจัยกึ่งทดลอง หากมีการสังเคราะห์งานวิจัยเชิงปริมาณเพิ่มเติม จะทำให้ได้องค์ความรู้เกี่ยวกับการปรับพฤติกรรมเด็กที่มีภาวะออทิซึมสเปคตรัมมากยิ่งขึ้น

บทคัดย่อ

งานวิจัยนี้มีวัตถุประสงค์เพื่อศึกษาผลของ โปรแกรมการเสริมสร้างสติ (Mindfulness-Based Interventions) ต่อ ความสามารถทางปัญญาในการจัดการพฤติกรรม (Executive Function: EF) และความสามารถในการใส่ใจแบบยืดหยุ่น (Attention Flexibility) ในเด็กวัยอนุบาล ผู้เข้าร่วมวิจัยเป็นนักเรียนชั้นอนุบาลปีที่ 2 (อายุ 4 - 5 ปี) จำนวน 48 คน จากโรงเรียนอนุบาลแห่งหนึ่งในประเทศไทย เด็กกลุ่มตัวอย่างได้เข้าร่วมกิจกรรมโปรแกรมการเสริมสร้างสติทั้งหมด 12 ครั้ง สัปดาห์ละ 2 ครั้งต่อเนื่องเป็นเวลา 6 สัปดาห์ ผู้วิจัยประเมินความสามารถทางปัญญาในการจัดการพฤติกรรมโดยใช้แบบประเมิน หัว-เท้า-เข่า-ไหล่ (Head-Toes-Knees-Shoulders: HTKS) และเน้นไปที่ความสามารถในการใส่ใจแบบยืดหยุ่น ซึ่งเป็นหนึ่งในองค์ประกอบสำคัญของความสามารถทางปัญญาในการจัดการพฤติกรรม

ผลการศึกษาพบว่า กลุ่มทดลองมีพัฒนาการด้านความสามารถทางปัญญาในการจัดการพฤติกรรมและความสามารถในการใส่ใจแบบยืดหยุ่นเพิ่มขึ้นอย่างมีนัยสำคัญ เมื่อเทียบกับกลุ่มควบคุมในระยะก่อน-หลังการทดลอง แสดงให้เห็นว่า แนวทางนี้ช่วยพัฒนาความสามารถทางปัญญาในการจัดการพฤติกรรมและความสามารถในการใส่ใจแบบยืดหยุ่นอย่างมีนัยสำคัญ

คำสำคัญ: โปรแกรมการเสริมสร้างสติ, ความสามารถทางปัญญาในการจัดการพฤติกรรม, ความสามารถในการใส่ใจแบบยืดหยุ่น,เด็กวัยอนุบาล

Abstract

This study aimed to evaluate the effect of a mindfulness-based intervention (MBI) on executive function (EF) and attention flexibility in preschool children. Forty-eight Kindergarten Year 2 children (aged 4–5) from a Thai kindergarten participated in a 12-session mindfulness intervention conducted twice a week over six weeks. The

experimental group engaged in mindfulness activities, while the control group participated in regular classroom activities. Executive function was assessed using the Head-Toes-Knees-Shoulders (HTKS) task, with attention flexibility also assessed as a key component of EF.

Results revealed significant improvements in executive function and attention flexibility in the experimental group compared to the control group when comparing pre-test and post-test scores. These findings suggest that this intervention effectively enhances executive function and attention flexibility in preschool children.

Keywords: Mindfulness-Based Interventions (MBIs), Executive Function, Attention Flexibility, Preschool Children

บทนำ

ศตวรรษที่ 21 มาพร้อมกับความท้าทายที่ไม่เหมือนเดิมสำหรับเด็กเล็ก โดยเฉพาะอย่างยิ่งในสภาพแวดล้อมที่เด็กต้องเผชิญกับการกระตุ้นจากสิ่งต่าง ๆ และสิ่งรบกวนทางดิจิทัลอย่างต่อเนื่อง สภาวะเหล่านี้มักเป็นอุปสรรคต่อความสามารถของเด็กในการจดจ่อและควบคุมพฤติกรรม ซึ่งถือเป็นทักษะสำคัญสำหรับการเรียนรู้และการพัฒนา นอกจากนี้แนวโน้มการพัฒนาการที่ล่าช้าหรือไม่สมวัยในเด็กวัยอนุบาลในประเทศไทย โดยเฉพาะด้านสติปัญญาและการกำกับพฤติกรรม เป็นประเด็นที่ต้องให้ความสำคัญ เนื่องจากพบว่าเด็กจำนวนมากประสบปัญหาด้านพัฒนาการทางภาษา การคำนวณ และความสามารถทางปัญญาในการจัดการพฤติกรรม (Executive Function) ซึ่งเป็นทักษะที่สำคัญต่อการเรียนรู้และการพัฒนาในระยะยาว (กองทุนเพื่อความเสมอภาคทางการศึกษา, 2565) หนึ่งในปัจจัยสำคัญที่ส่งผลต่อพัฒนาการด้านสติปัญญาและพฤติกรรมของเด็กวัยอนุบาล คือความสามารถทางปัญญาในการจัดการพฤติกรรม (Executive Function)

ความสามารถทางปัญญาในการจัดการพฤติกรรม (Executive Function) เป็นกระบวนการทางปัญญาที่รวมถึงทักษะต่าง ๆ เช่น การจดจ่อ การวางแผน การยับยั้งสิ่งรบกวน มีบทบาทสำคัญในการช่วยให้เด็กจัดการกับความท้าทายเหล่านี้ได้ ความสามารถทางปัญญาในการจัดการพฤติกรรมมักถูกเปรียบเทียบกับ "ระบบควบคุมการจราจรทางอากาศ" ของสมอง เนื่องจากช่วยให้เด็กสามารถจดจ่อ วางแผน และควบคุมการกระทำได้อย่างมีประสิทธิภาพ (Center on the Developing Child at Harvard University, 2011)

ช่วงปฐมวัย (อายุ 3 - 6 ปี) เป็นช่วงที่สำคัญต่อการพัฒนาความสามารถทางปัญญาในการจัดการพฤติกรรม ซึ่งเป็นกระบวนการทางปัญญาที่มีความสำคัญต่อการกำกับตนเอง ในช่วงนี้เด็กจะพัฒนาทักษะต่าง ๆ เช่น ความจำใช้งาน (Working Memory) การยับยั้งพฤติกรรม (Inhibitory Control) และความยืดหยุ่นทางความคิด (Cognitive Flexibility) ซึ่งมีความสำคัญต่อความสำเร็จทางการศึกษา ความสามารถทางสังคม และสุขภาพจิตที่ดี (Diamond, 2013; Zelazo & Lyons, 2012) แม้ว่าความสามารถทางปัญญาในการจัดการพฤติกรรม (Executive Function) จะสามารถแบ่งออกเป็นองค์ประกอบย่อย เช่น ความจำใช้งาน การยับยั้งพฤติกรรม และความยืดหยุ่นทางความคิด แต่กระบวนการเหล่านี้ไม่ได้ทำงานแยกจากกันโดยสิ้นเชิง หากแต่มีความเชื่อมโยงผ่านกระบวนการพื้นฐานอย่างความสามารถในการใส่ใจแบบยืดหยุ่น (Attention Flexibility) ซึ่งมีบทบาทสำคัญในการพัฒนาและทำงานของความสามารถทางปัญญาในการจัดการพฤติกรรมโดยทำหน้าที่เป็นกลไกกำกับการทำงานขององค์ประกอบต่าง ๆ (Garon et

al., 2008) และมีบทบาทสำคัญในการปรับตัวต่อความต้องการที่เปลี่ยนแปลงและการจัดการพฤติกรรมได้อย่างมีประสิทธิภาพ (McClelland, John Geldhof, Cameron, & Wanless, 2015) อย่างไรก็ตาม ประมาณ 35% ของเด็กประสบปัญหาในการพัฒนาทักษะการกำกับตนเอง ซึ่งอาจนำไปสู่ความท้าทายที่ต่อเนื่องเกินกว่าช่วงปฐมวัย (Montroy, Bowles, Skibbe, McClelland, & Morrison, 2016) การตระหนักถึงบทบาทสำคัญของความสามารถทางปัญญาในการจัดการพฤติกรรม (Executive Function) และความสามารถในการใส่ใจแบบยืดหยุ่น (Attention Flexibility) ในช่วงวัยเด็กตอนต้นจึงเป็นความสำคัญของการพัฒนาโปรแกรมที่มุ่งเน้นไปยังการสนับสนุนพัฒนาการที่สำคัญเหล่านี้ ทั้งนี้ งานวิจัยในไทยเกี่ยวกับการพัฒนาความสามารถทางปัญญาในการจัดการพฤติกรรมของเด็กอนุบาลเริ่มปรากฏบ้างแล้ว เช่นโปรแกรมการเต้น ซี แอนด์ ซี (อริสรา แก้วม่วง, พรรณระพี สุทธิวรรณ, และสมโภชน์ เอี่ยมสุภาษิต, 2566) และ โปรแกรมการเล่นประกอบดนตรี (ณภัสสร อมรวงศ์วณิช, 2566) ซึ่งต่างก็พบว่าเด็กที่เข้าร่วมมีคะแนน ความสามารถทางปัญญาในการจัดการพฤติกรรมสูงขึ้นอย่างมีนัยสำคัญ สะท้อนว่า

การจัดกิจกรรมที่มีเป้าหมายชัดเจนสามารถเสริมสร้าง ความสามารถทางปัญญาในการจัดการพฤติกรรมในเด็กอนุบาลได้

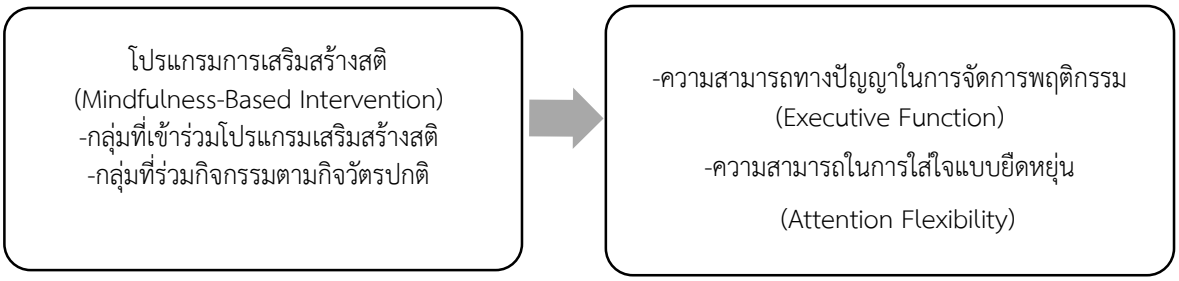
หนึ่งในแนวทางที่สามารถช่วยพัฒนาความสามารถทางปัญญาในการจัดการพฤติกรรมในเด็กเล็กคือโปรแกรมการเสริมสร้างสติ (Mindfulness-Based Interventions: MBIs) ที่มีรากฐานจากคำสอนในพระพุทธศาสนาและปรับให้เข้ากับบริบทการศึกษาในยุคปัจจุบัน โปรแกรมการเสริมสร้างสติมุ่งเน้นการฝึกจิตให้อยู่กับปัจจุบันและการพัฒนาความสามารถในการควบคุมความสนใจ โปรแกรมการเสริมสร้างสติต่าง ๆ เช่น โปรแกรมลดความเครียดด้วยสติ (Mindfulness-Based Stress Reduction: MBSR) และโปรแกรมการบำบัดทางปัญญาด้วยสติ (Mindfulness-Based Cognitive Therapy: MBCT) ได้รับการพิสูจน์ว่าให้ผลลัพธ์ที่ดีในการพัฒนาการกำกับตนเองและการควบคุมอารมณ์ในทุกช่วงวัย รวมถึงเด็กอายุ 9 - 12 ปี (Roeser, Skinner, Beers, & Jennings, 2012; Segal, Williams, & Teasdale, 2013; Semple, Lee, Rosa, & Miller, 2010; Meiklejohn et al., 2012) ในช่วงไม่กี่ปีที่ผ่านมาโปรแกรมการเสริมสร้างสติได้ขยายไปสู่เด็กวัยอนุบาล และแสดงให้เห็นถึงศักยภาพในการส่งเสริมการพัฒนาความสามารถทางปัญญาในการจัดการพฤติกรรม เช่น การศึกษาของ Poehlmann-Tynan et al. (2016) และ Razza et al. (2020) ที่รายงานว่าการฝึกสติสามารถพัฒนา ความสามารถทางปัญญาในการจัดการพฤติกรรม (Executive Function) และ ความสามารถในการใส่ใจแบบยืดหยุ่น (Attention Flexibility) ได้อย่างมีนัยสำคัญ นอกจากนี้ Flook et al. (2015) และ Viglas and Perlman (2018) ยังชี้ให้เห็นว่าโปรแกรมการเสริมสร้างสติส่งผลเชิงบวกต่อการพัฒนาการกำกับตนเองและความสามารถทางปัญญาในการจัดการพฤติกรรม ในเด็กวัยอนุบาล

อย่างไรก็ตาม การศึกษาการนำโปรแกรมการเสริมสร้างสติไปใช้ในบริบทของประเทศไทยยังคงมีอยู่อย่างจำกัด การศึกษานี้มุ่งที่จะตอบโจทย์นี้โดยการพัฒนาโปรแกรมการเสริมสร้างสติที่ปรับให้เหมาะสมกับพัฒนาการของเด็กวัยอนุบาลในประเทศไทย โดยเน้นที่การพัฒนาความสามารถทางปัญญาในการจัดการพฤติกรรมและความสามารถในการใส่ใจแบบยืดหยุ่น เพื่อสนับสนุนความเข้าใจในบทบาทของโปรแกรมการเสริมสร้างสติและการสนับสนุนพัฒนาการในวัยเด็กตอนต้น ซึ่งจะช่วยให้เด็กสามารถ จดจ่อกับสิ่งที่กำลังทำตรงหน้า ลดการถูกรบกวนจากสิ่งเร้า และควบคุมพฤติกรรมของตนเองได้ดีขึ้น สิ่งเหล่านี้เป็นปัจจัยที่ช่วยให้เด็กมี พฤติกรรมที่เหมาะสมในชั้นเรียน ปรับตัวต่อสถานการณ์ที่เปลี่ยนแปลง และพัฒนาทักษะทางสังคมและการเรียนรู้

วัตถุประสงค์ของการวิจัย

เพื่อศึกษาผลของโปรแกรมการเสริมสร้างสติ (Mindfulness-Based Intervention) ในการพัฒนาความสามารถทางปัญญาในการจัดการพฤติกรรม (Executive Function) และความสามารถในการใส่ใจแบบยืดหยุ่น (Attention Flexibility) ในเด็กวัยอนุบาล (ชั้นอนุบาลปีที่ 2)

แนวคิด ทฤษฎี กรอบแนวคิด



ความสามารถทางปัญญาในการจัดการพฤติกรรม (Executive Function) เป็นชุดกระบวนการทางปัญญาที่สำคัญต่อพฤติกรรมที่มุ่งไปที่เป้าหมาย รวมถึงความจำใช้งาน (Working Memory) การยับยั้งพฤติกรรม (Inhibitory Control) และความยืดหยุ่นทางความคิด (Cognitive Flexibility) ซึ่งทั้งหมดนี้ถูกควบคุมโดยสมองส่วนหน้าสุด (Prefrontal Cortex) (Best & Miller, 2010) ความสามารถทางปัญญาในการจัดการพฤติกรรมมักถูกเปรียบเทียบกับ “ระบบควบคุมการจราจรทางอากาศ” ของสมอง เพราะช่วยในการควบคุมความสนใจ การวางแผน และการตัดสินใจ ทำให้บุคคลสามารถจัดการงานที่ซับซ้อนได้อย่างมีประสิทธิภาพ (Center on the Developing Child at Harvard University, 2011) ทักษะเหล่านี้พัฒนาอย่างเด่นชัดที่สุดในช่วงปฐมวัย (อายุ 3 - 6 ปี) และเป็นรากฐานสำคัญสำหรับความสำเร็จทางการศึกษา ความสามารถทางสังคม และการควบคุมอารมณ์ในระยะยาว (Garon, Bryson, & Smith, 2008; Diamond, 2013) ในบรรดาองค์ประกอบของความสามารถทางปัญญาในการจัดการพฤติกรรม ความสามารถในการใส่ใจแบบยืดหยุ่น (Attention Flexibility) มีบทบาทสำคัญในการช่วยให้เด็กสามารถจดจ่อ เปลี่ยนจุดสนใจ และปรับตัวต่อความต้องการที่เปลี่ยนแปลงได้อย่างมีประสิทธิภาพ (Rueda, Posner, & Rothbart, 2005; Garon et al., 2008)

สติ (Mindfulness) ซึ่งมีรากฐานมาจากคำสอนของพระพุทธเจ้าเมื่อกว่า 2,500 ปีที่แล้ว มีต้นกำเนิดจากคำว่า “สติ” ในภาษาบาลี ซึ่งหมายถึงการระลึกและตระหนักรู้ในปัจจุบันขณะ (Bodhi, 2011) ในบริบทของพระพุทธศาสนา สติครอบคลุมฐานทั้งสี่ คือ กาย เวทนา จิต และธรรม (Huxter, 2015) โดยได้แรงบันดาลใจในนำการมีสติอยู่กับร่างกายมาเป็นแก่นหลักในการดำเนินการศึกษา ซึ่งมีองค์ประกอบย่อยของการมีสติที่เน้นกาย เช่น การหายใจ การรับรู้การเคลื่อนไหวของร่างกาย (Huxter, 2015) ซึ่งเหมาะสมกับเด็กวัยอนุบาล

โปรแกรมการเสริมสร้างสติ (Mindfulness-Based Interventions) เป็นแนวทางในการเสริมสร้างพัฒนาการของความสามารถทางปัญญาในการจัดการพฤติกรรมในเด็กวัยอนุบาล ที่เน้นพัฒนาความสามารถในการใส่ใจแบบยืดหยุ่น ซึ่งเป็นองค์ประกอบสำคัญของความสามารถทางปัญญาในการจัดการพฤติกรรม ที่ช่วยให้เด็กสามารถจดจ่อกับสิ่งที่ทำตรงหน้า รักษาความสนใจ และปรับจุดสนใจเมื่อจำเป็น สนับสนุนความสามารถในการปรับตัวและการกำกับตนเอง (Rueda, Posner, & Rothbart, 2005) โปรแกรมการเสริมสร้างสติมีการฝึกที่ส่งเสริมทักษะเหล่านี้ผ่านการระลึกรู้ในปัจจุบันขณะและการควบคุมความสนใจ (Kabat-Zinn, 2003) กิจกรรมเช่น การมีสติรู้ลมหายใจและรู้ร่างกาย ช่วยให้เด็กสามารถสังเกตเมื่อความสนใจหลุดออกไปและนำความสนใจกลับมา (Flook, Goldberg, Pinger, & Davidson, 2015) โปรแกรมการเสริมสร้างสติที่ปรับให้เหมาะสมกับเด็กวัยอนุบาลประกอบด้วยกิจกรรมที่เหมาะสมตามวัยที่สอดคล้องกับพัฒนาการของเด็กเล็ก (Bockmann & Yu, 2023)

โปรแกรมการเสริมสร้างสติได้แสดงผลลัพธ์ที่ดีในการส่งเสริมความสามารถทางปัญญาในการจัดการพฤติกรรมในเด็กวัยอนุบาล โดยเฉพาะในด้านการควบคุมความสนใจ ความยืดหยุ่นทางความคิดและการยับยั้งพฤติกรรม Bockmann และ Yu (2023) พบว่าความสามารถทางปัญญาในการจัดการพฤติกรรมมีผู้ศึกษา 17 จาก 18 การศึกษา โดย 15 การศึกษาพบผลลัพธ์ในเชิงบวก โปรแกรมการเสริมสร้างสติที่ส่งเสริมความสามารถทางปัญญาในการจัดการพฤติกรรม เช่น การพัฒนาความสามารถในการควบคุมตนเอง ความสนใจ และผลสัมฤทธิ์ทางการศึกษา การศึกษาของ Flook et al. (2015) แสดงให้เห็นถึงการพัฒนาความยืดหยุ่นทางความคิดและพฤติกรรมทางสังคมที่ดีขึ้นจากการเข้าร่วมหลักสูตร Kindness Curriculum เป็นเวลา 12 สัปดาห์ ในขณะที่ Poehlmann-Tynan et al. (2016) รายงานว่ามีการพัฒนาความสามารถในการควบคุมความสนใจและการกำกับตนเองในเด็กวัยอนุบาลที่เข้าร่วมโปรแกรมการเสริมสร้างสติเป็นเวลา 12 สัปดาห์ ในทำนองเดียวกัน Razza, Uveges Linsner, Bergen-Cico, Carlson, and (2020) พบว่าการฝึกโยคะด้วยสติช่วยให้เกิดการพัฒนาความสามารถในการควบคุมความสนใจและความสามารถทางปัญญาในการจัดการพฤติกรรมโปรแกรมเหล่านี้มักเน้นการมีสติอยู่กับร่างกาย โดยใช้กิจกรรมที่เหมาะสมตามวัยเพื่อพัฒนาความสามารถในการใส่ใจแบบยืดหยุ่นและความสามารถทางปัญญาในการจัดการพฤติกรรมในเด็กเล็ก

กรอบแนวคิด

วิธีดำเนินการวิจัย

การวิจัยในครั้งนี้เป็นการวิจัยกึ่งทดลองแบบ Quasi-experimental pretest-posttest control group design เพื่อศึกษาผลของโปรแกรมการเสริมสร้างสติ (Mindfulness-Based Intervention) ต่อความสามารถทางปัญญาในการจัดการพฤติกรรมและความสามารถในการใส่ใจแบบยืดหยุ่นในเด็กวัยอนุบาล โดยศึกษาเปรียบเทียบคะแนนความสามารถทางปัญญาในการจัดการพฤติกรรมและคะแนนความสามารถในการใส่ใจแบบยืดหยุ่น ระหว่างกลุ่มทดลองกับกลุ่มควบคุม ในช่วงก่อนการทดลอง และหลังการทดลอง

ผู้เข้าร่วมการวิจัย

การคำนวณขนาดกลุ่มตัวอย่าง จากการคำนวณงานวิจัยนี้มีผู้เข้าร่วมจำนวน 50 คน ซึ่งเป็นเด็กนักเรียนชั้นอนุบาลปีที่ 2 (อายุ 4 - 5 ปี) ขนาดกลุ่มตัวอย่างคำนวณโดยใช้โปรแกรม G*Power 3.1 โดยตั้งค่าระดับนัยสำคัญทางสถิติที่ 0.05 และขนาดอิทธิพล (Effect Size) เท่ากับ 0.26 เพื่อให้ได้ค่าพลังทางสถิติ (Statistical Power) ที่ 0.9 โดยมีเกณฑ์การคัดเลือก ได้แก่ การเข้าร่วมกิจกรรมตลอดระยะเวลาการวิจัย การได้รับความยินยอมจากผู้ปกครอง และมีคะแนนการประเมินล่วงหน้า (Pretest) จากแบบประเมิน หัว-เท้า-เข่า-ไหล่ (HTKS) อยู่ในช่วง 0 - 25 คะแนน

ประชากรและการคัดเลือกกลุ่มตัวอย่าง ประชากรในการศึกษานี้คือ นักเรียนอนุบาลปีที่ 2 ทั้งหมดจากโรงเรียนแห่งหนึ่ง จำนวน 92 คน ก่อนเริ่มการทดลอง นักเรียนทั้งหมดได้รับการประเมินความสามารถทางปัญญาในการจัดการพฤติกรรม ด้วยแบบวัด Head-Toes-Knees-Shoulders (HTKS) กลุ่มตัวอย่าง 50 คนถูกสุ่มเลือกโดยโปรแกรมคอมพิวเตอร์จากนักเรียน 92 คนที่ผ่านเกณฑ์ จากนั้นทำการจับคู่เด็กที่มีคะแนน HTKS ใกล้เคียงกัน แล้วจับฉลากแยกเด็กหนึ่งคนเข้ากลุ่มทดลอง และอีกหนึ่งคนเข้ากลุ่มควบคุม ทำแบบนี้ทีละคู่ จนครบกลุ่มทดลอง 25 คน และกลุ่มควบคุม 25 คน โดยกลุ่มทดลองเข้าร่วมโปรแกรมการเสริมสร้างสติ ขณะที่กลุ่มควบคุมทำกิจกรรมปกติในชั้นเรียน โดยภายหลังมีผู้เข้าร่วมสองคนที่ถูกคัดออกจากการวิจัยเนื่องจากการขาดกิจกรรมมากกว่า 2 ครั้ง ส่งผลให้มีผู้เข้าร่วมทั้งหมด 48 คน

เครื่องมือที่ใช้ในการวิจัย

1. โปรแกรมการเสริมสร้างสติ (Mindfulness-Based Intervention) ที่ใช้ในการศึกษาครั้งนี้ได้รับการออกแบบมาโดยเฉพาะเพื่อพัฒนาความสามารถทางปัญญาในการจัดการพฤติกรรม (Executive Function) และความสามารถในการใส่ใจแบบยืดหยุ่น (Attention Flexibility) ในเด็กวัยอนุบาล โปรแกรมประกอบด้วยกิจกรรม 8 ครั้งที่ปรับมาจากหลักสูตร Kindness Curriculum (Flook et al., 2015) และกิจกรรมเพิ่มเติมอีก 4 ครั้ง ซึ่งได้รับแรงบันดาลใจจากการฝึกสติตามแนวศาสนาพุทธ กิจกรรมเหล่านี้มุ่งเน้นการฝึกสติผ่านการส่งเสริมความตระหนักรู้ในร่างกาย เช่นลมหายใจ การรู้สึกถึงอริยาบถใหญ่ของร่างกาย และการเคลื่อนไหวเล็ก ๆ ซึ่งสอดคล้องกับพัฒนาการของเด็กวัยอนุบาล โปรแกรมนี้จัดขึ้นในระยะเวลา 6 สัปดาห์ จำนวน 12 ครั้ง โดยดำเนินการสัปดาห์ละ 2 ครั้ง ครั้งละ 20 - 30 นาที กิจกรรมจัดขึ้นกลุ่มละ 5 คน เพื่อการมีประสิทธิภาพ ในแต่ละกิจกรรมเด็กได้รับการแนะนำให้กลับมารู้สึกกับจุดโฟกัสที่กำหนดไว้ เช่น การนำความสนใจกลับมาที่ลมหายใจหรือการเคลื่อนไหวของร่างกาย เพื่อพัฒนาความสามารถในการใส่ใจแบบยืดหยุ่น

เพื่อให้มั่นใจว่าเนื้อหาและกิจกรรมของโปรแกรมมีความเหมาะสมกับพัฒนาการของเด็ก โปรแกรมนี้ได้ผ่านการตรวจสอบโดยผู้เชี่ยวชาญ 4 ท่าน ได้แก่ นักจิตวิทยาเด็ก ผู้อำนวยการโรงเรียน ครูอนุบาล และอาสาสมัครที่มีประสบการณ์ในการส่งเสริมพัฒนาคุณธรรมในเด็กตามแนวทางพุทธศาสนา การประเมินค่าดัชนีความตรงเชิงเนื้อหา (Index of Item Objective Congruence: IOC) ที่ 1.00 ซึ่งแสดงถึงความเห็นพ้องต้องกันอย่างสมบูรณ์ของผู้เชี่ยวชาญ ก่อนการนำไปใช้จริง โปรแกรมนี้ได้ถูกทดลองกับกลุ่มเด็กที่มีลักษณะใกล้เคียงกับกลุ่มตัวอย่างของการศึกษา และผลจากการทดลองได้ถูกนำไปปรับปรุงกิจกรรมเพื่อให้มีความน่าสนใจ และเหมาะสมกับเด็กวัยอนุบาลมากขึ้น

2. การประเมิน หัว-เท้า-เข่า-ไหล่ (HTKS) (Ponitz et al., 2008) เพื่อประเมินความสามารถทางปัญญาในการจัดการพฤติกรรม (Executive Function) ในเด็กวัยอนุบาล HTKS เป็นเครื่องมือที่ได้รับการยอมรับอย่างกว้างขวางสำหรับเด็กอายุ 3 - 7 ปี โดยประเมินความสามารถทางปัญญาในการจัดการพฤติกรรมผ่านกิจกรรมที่ใช้เกม ซึ่งให้เด็กตอบสนองในทางตรงกันข้ามกับคำสั่ง เช่น เมื่อได้รับคำสั่งให้ “แตะศีรษะ” เด็กต้องแตะที่เท้า แบบประเมิน HTKS มี 20 ข้อ คะแนนรวมสูงสุด 40 คะแนน โดยให้ 2 คะแนนสำหรับคำตอบที่ถูกต้อง 1 คะแนนสำหรับคำตอบที่แก้ไขได้ และ 0 คะแนนสำหรับคำตอบที่ผิด การประเมินแต่ละครั้งใช้เวลา 5 - 7 นาที โดยประเมินแบบตัวต่อตัว

HTKS มีความน่าเชื่อถือ ซึ่งแบบประเมิน HTKS มีค่าความเที่ยงจากการทดสอบซ้ำสูง ($r = .74$, $p < .001$) เมื่อประเมินในเด็กวัยอนุบาลในช่วงเวลาเฉลี่ย 5.84 เดือน (McClelland et al., 2014) และฉบับ

ภาษาไทย (พิมพ์จุฑา นิมมาภิรัตน์ และ พรรณระพี สุทธิวรรณ, 2560) แสดงค่าความตรงเชิงความสอดคล้องสูง โดยการวิเคราะห์สหสัมพันธ์จากครูและนักจิตวิทยา การประเมินมีความสัมพันธ์ในระดับสูง ($r = .94$-$.96$, $p < .05$) ในการศึกษานี้ นักวิจัยและผู้ช่วยผ่านการอบรมออนไลน์และได้รับการรับรองจาก Oregon State University เพื่อให้การใช้งาน HTKS มีความถูกต้องและสม่ำเสมอ และได้รับอนุญาตให้ใช้แบบ ประเมิน หัว-เท้า-เข่า-ไหล่ ฉบับภาษาไทย (พิมพ์จุฑา นิมมาภิรัตน์ และพรรณระพี สุทธิวรรณ, 2560) ในงานวิจัยครั้งนี้

3. การประเมิน "Go/No-Go" Task จากชุดเครื่องมือ Early Years Toolbox (EYT) เพื่อวัดความสามารถในการใส่ใจแบบยืดหยุ่น (Attention Flexibility) การประเมินนี้ถูกพัฒนามาจาก Fish-Shark Go/No-Go Task ของ Wiebe, Sheffield, and Espy (2012) โดยมีต้นกำเนิดจากมาตร Go/No-Go Task ของ Donders ซึ่งได้รับการตีพิมพ์ในปี ค.ศ. 1868 (Brown & Perreault, 2017)

การประเมิน "Go/No-Go" Task จากชุดเครื่องมือ Early Years Toolbox (EYT) วัดทักษะความสนใจผ่านการตอบสนองต่อสถานการณ์ "Go" (เช่น การจับปลา) และการระงับการตอบสนองในสถานการณ์ "No-Go" (เช่น การหลีกเลี่ยงฉลาม) คะแนนอยู่ในช่วง 0 ถึง 1.00 โดยคำนวณจากความแม่นยำใน 75 การทดลองแบบสุ่ม ใช้เวลา 5 - 6 นาที การประเมินนี้มีความน่าเชื่อถือสูง (Cronbach's α = 0.95 สำหรับสถานการณ์ "Go"; α = 0.84 สำหรับสถานการณ์ "No-Go") และมีความตรงเชิงโครงสร้าง ($r = 0.40$, $p < .001$) (Howard & Melhuish, 2017) ฉบับภาษาไทยที่ได้รับการตรวจสอบโดย อริสรา แก้วม่วง, พรรณระพี สุทธิวรรณ, และสมโภชน์ เอี่ยมสุภาษิต (2566) มีค่าความน่าเชื่อถือในการทดสอบซ้ำสูง ($r = .83$, $p < .001$) เครื่องมือนี้ดำเนินการผ่าน iPad และมีเหมาะสมสำหรับการประเมินความสามารถในการใส่ใจแบบยืดหยุ่นตามวัตถุประสงค์ของการศึกษา

การรวบรวมข้อมูล

งานวิจัยนี้ได้ผ่านการพิจารณาจากคณะกรรมการพิจารณาจริยธรรมการวิจัยในคนของ จุฬาลงกรณ์มหาวิทยาลัย เลขที่เอกสารรับรอง (COA NO. 121/67) และดำเนินการตามขั้นตอนที่มีโครงสร้างชัดเจน 4 ขั้นตอน ดังนี้

1. การประสานงานกับโรงเรียน

ได้รับอนุญาตจากโรงเรียนในการดำเนินการวิจัย พร้อมจัดประชุมเพื่อวางแผนการดำเนินการวิจัยร่วมกันและให้แน่ใจว่ากิจกรรมวิจัยจะไม่รบกวนกิจวัตรประจำวันของนักเรียน

2. การประเมินก่อนการทดลอง (Pre-Test)

ประเมินความสามารถทางปัญญาในการจัดการพฤติกรรมโดยทำแบบประเมิน HTKS กับเด็กชั้นอนุบาล 2 และคัดเด็กเข้าร่วมงานวิจัยตามเกณฑ์คัดเข้า พร้อมทั้งแบ่งกลุ่มทดลองและกลุ่มควบคุม

3. การจัดกิจกรรม (Intervention Implementation)

- กลุ่มทดลองเข้าร่วมโปรแกรมการเสริมสร้างสติ เป็นเวลา 6 สัปดาห์
- กลุ่มควบคุมดำเนินกิจกรรมในชั้นเรียนตามปกติ เป็นเวลา 6 สัปดาห์

4. การประเมินหลังการทดลอง (Post-Test)

ทั้งสองกลุ่มได้รับการประเมินซ้ำ (Post-test) โดยใช้แบบประเมิน HTKS และ "Go/No-Go" Task

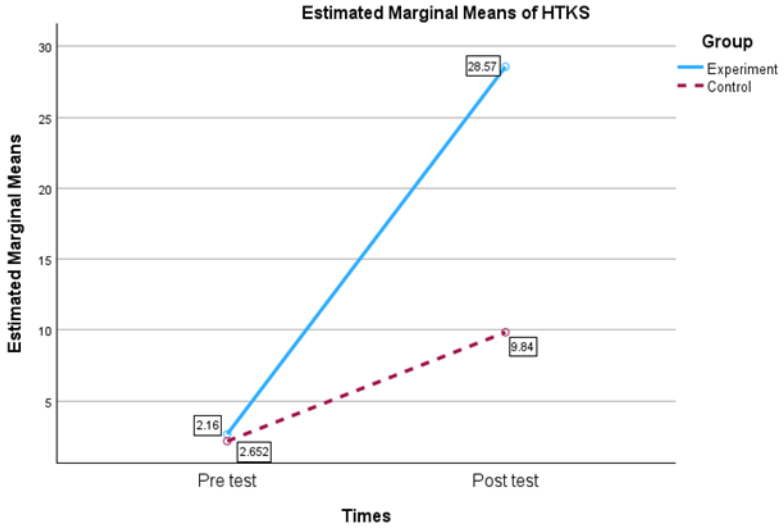
การวิเคราะห์ข้อมูลทางสถิติ

ข้อมูลถูกวิเคราะห์โดยใช้โปรแกรม SPSS สถิติเชิงพรรณนา (ค่าเฉลี่ยและส่วนเบี่ยงเบนมาตรฐาน) และการวิเคราะห์ความแปรปรวนแบบสองทางผสม (Two-Way Mixed ANOVA) ถูกนำมาใช้เพื่อเปรียบเทียบค่าเฉลี่ยความสามารถทางปัญญาในการจัดการพฤติกรรม (Executive Function) และความสามารถในการใส่ใจแบบยืดหยุ่น (Attention Flexibility) ของกลุ่มทดลองและกลุ่มควบคุม ทั้งก่อนและหลังการเข้าร่วมโปรแกรมกิจกรรม

ผลการวิจัย

กลุ่มตัวอย่างในการวิจัยครั้งนี้ประกอบด้วยเด็กอนุบาลจำนวน 48 คน โดยแบ่งเป็นกลุ่มทดลอง 23 คน และกลุ่มควบคุม 25 คน อายุระหว่าง 56 - 76 เดือน (M = 56.79, SD = 2.95) โดยมีสัดส่วนเพศหญิง 56.25% และเพศชาย 43.75% ทั้งสองกลุ่มมีการกระจายอายุที่ใกล้เคียงกัน (กลุ่มทดลอง M = 56.83, SD = 3.14; กลุ่มควบคุม M = 56.76, SD = 2.83)

การวิเคราะห์ความแปรปรวนสองทางแบบผสม (Two-Way Mixed ANOVA) พบว่ามีผลปฏิสัมพันธ์ที่มีนัยสำคัญระหว่างกลุ่ม (กลุ่มทดลองและกลุ่มควบคุม) และช่วงเวลา (ก่อนและหลังการทดลอง) ในความสามารถทางปัญญาในการจัดการพฤติกรรม และความสามารถในการใส่ใจแบบยืดหยุ่น



1. ความสามารถทางปัญญาในการจัดการพฤติกรรม (Executive Function)

ตารางที่ 1 ผลการวิเคราะห์ความแปรปรวนสองทางแบบผสมของค่าเฉลี่ยคะแนนความสามารถทางปัญญาในการจัดการพฤติกรรม (Executive Function) ของกลุ่มทดลองและกลุ่มควบคุม กับระยะก่อน-หลังการทดลอง

Source of Variance		*SS*	*df*	*MS*	*F*	*p*	ηp^2
Between groups	Group	2212.00	1	2212.00	17.87	<0.001***	0.28
	Error	5693.96	46	123.78			
Within Groups	Time	6759.20	1	6759.20	112.59	<0.001***	0.71

	Error	3164.88	46	68.80			

**p < .01

จากตารางที่ 3 พบว่าคะแนนความสามารถในการใส่ใจแบบยืดหยุ่น ที่ประเมินโดยแบบประเมิน EYT "Go/No-Go" Task มีผลปฏิสัมพันธ์ (interaction effect) ระหว่างกลุ่ม และระยะก่อน–หลังการทดลอง อย่างมีนัยสำคัญทางสถิติ ($F(1,46) = 8.47$, $p = 0.006$, $\eta p^2 = 0.16$) ซึ่งแสดงผลปฏิสัมพันธ์ดังภาพที่ 2

ภาพที่ 2 กราฟแสดงผลปฏิสัมพันธ์ค่าเฉลี่ยของคะแนนความสามารถในการใส่ใจแบบยืดหยุ่น (Attention Flexibility) ระหว่างกลุ่มทดลองและกลุ่มควบคุม กับระยะก่อน-หลังการทดลอง

ตารางที่ 4 การเปรียบเทียบความแตกต่างรายคู่ของความสามารถในการใส่ใจแบบยืดหยุ่น (Attention flexibility) โดยรวม ระหว่างกลุ่มและระยะก่อน-หลังการทดลอง ด้วยวิธี Bonferroni

Comparison	*Mean Differences*	*SE*	*df*	*t*	*p*
Pre-test—Experimental vs. Pre-Test—Control	1.73	4.48	(1,46)	0.39	0.702
Post-test—Experimental vs. Post-Test—Control	11.59	3.74	(1,46)	3.10	0.003**
Pre-test—Experimental vs. Post-Test—Experimental	-9.783	2.45	(1,46)	-3.25	<0.001***
Pre-test—Control vs. Post-Test—Control	0.08	2.35	(1,46)	0.05	0.973

**p < .01, ***p < .001

จากตารางที่ 4 หลังจากสิ้นสุดการเข้าร่วมโปรแกรมกลุ่มทดลองมีความสามารถในการใส่ใจแบบยืดหยุ่น โดยรวมเพิ่มขึ้นสูงกว่าก่อนทำกิจกรรม และมากกว่ากลุ่มควบคุม ในขณะที่คะแนนของกลุ่มควบคุมไม่แตกต่างกัน

สรุปและอภิปรายผล

งานวิจัยนี้มุ่งเน้นการศึกษาผลของโปรแกรมการเสริมสร้างสติ (Mindfulness-Based Intervention) ในการพัฒนาความสามารถทางปัญญาในการจัดการพฤติกรรม (Executive Function) และความสามารถในการใส่ใจแบบยืดหยุ่น (Attention Flexibility) ในเด็กวัยอนุบาล ผลการศึกษาแสดงให้เห็นว่ากลุ่มทดลองมีการพัฒนาทั้งความสามารถทางปัญญาในการจัดการพฤติกรรมและความสามารถในการใส่ใจแบบยืดหยุ่นที่ดีกว่ากลุ่มควบคุมอย่างมีนัยสำคัญ

หนึ่งในความสำเร็จของโปรแกรมนี้เกิดจากการมุ่งเน้นการสร้างรากฐานของการพัฒนาความสามารถในการใส่ใจแบบยืดหยุ่น ซึ่งเป็นองค์ประกอบสำคัญของความสามารถทางปัญญาในการจัดการพฤติกรรม ตลอดการทำกิจกรรมผู้วิจัยจะคอยเตือนเด็ก ๆ ให้กลับมาใส่ใจกลับสิ่งตรงหน้าเมื่อเผลอไปหรือให้กลับมารู้สึกกับร่างกาย ซึ่งช่วยฝึกฝนความสามารถในการใส่ใจแบบยืดหยุ่นอย่างต่อเนื่อง การฝึกทักษะนี้ซ้ำ ๆ และต่อเนื่องตลอดการทำกิจกรรมสอดคล้องกับมุมมองในพระพุทธศาสนาที่การพัฒนาสติเกิดขึ้นได้จากการฝึกฝนอย่างต่อเนื่อง (Koffman, 2012) อีกหนึ่งปัจจัยคือการเน้นการมีสติอยู่กับร่างกาย ซึ่งเป็นหนึ่งในรากฐานของการฝึกสติแบบดั้งเดิม (Huxter, 2015) การมุ่งเน้นกิจกรรมที่เกี่ยวกับการหายใจและการเคลื่อนไหว ทำให้โปรแกรมนี้สามารถดึงองค์ประกอบจากคำสอนในพระพุทธศาสนาและแนวทางการเสริมสร้างสติสมัยใหม่มาประยุกต์ใช้ได้อย่างลงตัว และเหมาะกับพัฒนาของเด็กวัยนี้ การฝึกที่เน้นการใช้ร่างกายช่วยส่งเสริมการพัฒนาความสามารถในการใส่ใจแบบยืดหยุ่น ซึ่งเป็นสิ่งสำคัญในช่วงวัยเด็กตอนต้น (Garon et al., 2008; Rueda, Posner, & Rothbart, 2005)

สุดท้ายนี้ อีกหนึ่งปัจจัยความสำเร็จของโปรแกรมมาจากบทบาทของผู้สอนและการทำกิจกรรมกลุ่มเล็ก ผู้สอนสามารถให้คำแนะนำเฉพาะบุคคลในแต่ละขณะที่เด็ก ๆ เผลอไปจากสิ่งที่ต้องใส่ใจ เช่น ร่างกายหรือกิจกรรมตรงหน้า ช่วยให้เด็กพัฒนาความสามารถในการใส่ใจแบบยืดหยุ่นผ่านการเตือนอย่างนุ่มนวลให้นำความสนใจกลับมาที่จุดโฟกัส นอกจากนี้ รูปแบบกลุ่มเล็กยังช่วยเสริมสร้างปฏิสัมพันธ์และความเอาใจใส่เฉพาะบุคคล ทำให้โปรแกรมนี้มีประสิทธิภาพสูงสุด

ผลการศึกษานี้สอดคล้องกับงานวิจัยก่อนหน้านี้ เช่น Poehlmann-Tynan et al. (2016) และ Razza et al. (2020) ที่รายงานถึงการพัฒนาความสามารถทางปัญญาในการจัดการพฤติกรรมและความสามารถในการใส่ใจแบบยืดหยุ่นที่มีนัยสำคัญผ่านโปรแกรมการเสริมสร้างสติ นอกจากนี้ Flook et al. (2015) และ Viglas and Perlman (2018) ยังชี้ให้เห็นถึงผลลัพธ์เชิงบวกของโปรแกรมการเสริมสร้างสติในการพัฒนาการกำกับตนเองและความสามารถทางปัญญาในการจัดการพฤติกรรมในเด็กวัยอนุบาล การศึกษาครั้งนี้สร้างขึ้นบนฐานของหลักฐานดังกล่าว โดยแสดงให้เห็นถึงศักยภาพของโปรแกรมการเสริมสร้างสติที่ปรับให้เหมาะสมกับบริบทของเด็กไทย เช่นการใช้สื่อที่เหมาะสม (นิทานและเพลง)

สรุปได้ว่า การมุ่งเน้นความสามารถในการใส่ใจแบบยืดหยุ่น การมีสติอยู่กับร่างกาย และการฝึกฝนเฉพาะบุคคลแบบใกล้ชิด เป็นสามปัจจัยสำคัญที่ทำให้โปรแกรมนี้ประสบความสำเร็จในการพัฒนาความสามารถทางปัญญาในการจัดการพฤติกรรมและความสามารถในการใส่ใจแบบยืดหยุ่น การนำเสนอแนวทางที่มีโครงสร้างและเหมาะสมกับบริบทของเด็กไทยช่วยให้โปรแกรมนี้เป็นเครื่องมือที่มีคุณประโยชน์ต่อการศึกษาที่ช่วยให้เด็กได้เรียนรู้ทักษะสำคัญนี้

ข้อเสนอแนะ

1. ผลการศึกษานี้แสดงให้เห็นว่า โปรแกรมการเสริมสร้างสติช่วยพัฒนาความสามารถทางปัญญาในการจัดการพฤติกรรมและความสามารถในการใส่ใจแบบยืดหยุ่นอย่างมีนัยสำคัญ อย่างไรก็ตาม การศึกษานี้ดำเนินการกับกลุ่มตัวอย่างจากโรงเรียนเดียว จึงควรมีการศึกษาต่อในกลุ่มประชากรที่หลากหลายมากขึ้น เช่น เด็กจากบริบททางวัฒนธรรมและเศรษฐกิจที่แตกต่างกัน เพื่อให้เข้าใจผลของโปรแกรมในกลุ่มที่มีปัจจัยแวดล้อมแตกต่างกัน

2. งานวิจัยนี้เป็นการศึกษาในระยะสั้น (6 สัปดาห์) และพบว่าโปรแกรมเสริมสร้างสติช่วยพัฒนาความสามารถทางปัญญาในการจัดการพฤติกรรม และความสามารถในการใส่ใจแบบยืดหยุ่น ได้ในช่วงเวลาดังกล่าว อย่างไรก็ตาม เนื่องจากทักษะเหล่านี้ต้องการการพัฒนาอย่างต่อเนื่อง การวิจัยในอนาคตควรดำเนินการศึกษาระยะยาว (Longitudinal Study) เพื่อให้เห็นการเปลี่ยนแปลงอย่างต่อเนื่องและชัดเจน

3. การอบรมคุณครูเพื่อนำโปรแกรมไปใช้ในห้องเรียนเป็นแนวทางที่ควรพัฒนาในอนาคต เนื่องจาก ผลการศึกษาพบว่าการฝึกสติช่วยพัฒนา ความสามารถทางปัญญาในการจัดการพฤติกรรม (Executive Function) และความสามารถในการใส่ใจแบบยืดหยุ่น (Attention Flexibility) ได้ การฝึกอบรมคุณครูให้สามารถนำกิจกรรม โปรแกรมการเสริมสร้างสติ ไปใช้ในชั้นเรียนด้วยตนเอง อาจช่วยให้เด็กได้รับการฝึกฝนอย่างต่อเนื่องและเพิ่มความยั่งยืนของโปรแกรม ลดความจำเป็นในการใช้บุคลากรภายนอก

การศึกษานี้เน้นถึงความสำคัญของการพัฒนาทักษะนี้ในช่วงวัยเด็กตอนต้น ทั้งนักการศึกษาและผู้ปกครองสามารถใช้ข้อมูลนี้เพื่อพัฒนากลยุทธ์ในการเตรียมเด็กให้พร้อมสำหรับศตวรรษที่ 21 นอกจากนี้ สำหรับผู้กำหนดนโยบาย ผลการวิจัยนี้สามารถเป็นหลักฐานสำคัญที่สนับสนุนการนำโปรแกรมการเสริมสร้างสติไปใช้ในนโยบายการศึกษา ซึ่งช่วยส่งเสริมแนวทางการพัฒนาเด็กแบบองค์รวม เมื่อเวลาผ่านไป สิ่งนี้อาจนำไปสู่การเปลี่ยนแปลง ทำให้การฝึกสติเป็นส่วนหนึ่งของการศึกษา
